# Sweetest Girl In Memphis Awaiting Her Death Calmly

## Bedridden Beauty Has Suffered Severely Of Bone Infection

MEMPHIS, Tenn., Jan. 2. — (AP) — The "sweetest girl" of her neighborhood awaits calmly, courageously for the death she believes is hovering over the red brick cottage where she makes her home.

Bedridden for many months, Marie Kerr, 19, sent word to her friends yesterday, "I think I'm finishing up my life."

"I have the very best nursing," she told them. "And I'm facing death. It will be a relief from my suffering. My last message to parents to doctors, neighbors and friends."

Neighbors like to tell the story of Marie Kerr and her courage. Always popular because of her willingness to help others in the neighborhood, it was a day of sorrow on Greenwood street when Marie was taken to a hospital several months ago with a bone infection, which had spread, slowly, to her left leg and was amputated.

Neighbors, in sorrow work at the hospital. She came out of the operating room — smiling! At home, she straightened up her own room in advance of the visitors she started a stenographic course with a view of seeking employment to make her own way.

The infection continued to spread but she continued ever cheerful and her home was in practicing place of the neighborhood. A slight injury sent her back to the hospital. The doctors think their heads.

It is only a matter of time now, they say, and Marie realizes it. She is waiting for the death which she believes is hovering over her. A slight injury sent her back to the hospital. The doctors think their heads.

Did you ever notice... in a roomful of people... the difference between one cigarette and another... and wonder why Chesterfields have such a pleasing aroma

Many things have to do with the aroma of a cigarette... the kind of tobacco they are made of... the way the tobaccos are blended... the quality of the cigarette paper.

It takes good things to make good things. Someone said that to get the right aroma in a cigarette, you must have the right quantity of Turkish tobacco—and that's right.

But it is also true that you get a pleasing aroma from the home-grown tobaccos... tobaccos filled with Southern Sunshine, sweet and ripe.

When these tobaccos are all blended and cross-blended the Chesterfield way, balanced one against the other, you get a flavor and fragrance that's different from other cigarettes.

WASHINGTON, Jan. 3.—(A.P.)—Confronted by an array of grave national problems, the strongest Democratic Congress in history convened quietly today, still in dark as to what proposals in the New Deal.

The ascent of Representative Joseph W. Byrns of Tennessee to the Speakership in the House dominated the organization of both branches open for business since the gavel fell at noon. A fellow southerner, Garret of Texas, presided stolidly in the Senate.

Already it is clear that the issues of the 1934 Presidential campaign soon would be in the making.

On behalf of Republican minorities, the House leader of that party, Russell, enunciated 32 principles destined to spur controversy over one and another of the Roosevelt recommendations in store.

He pledged, however, that the Republicans would "meet every challenge on the floor."
