Condominium Project Approved By Sanford

By BOB LLOYD
Herald Staff Writer

Sanford city commissioners Monday voted 20-2 to approve a 100-unit condominium project on 40 acres of citrus grove straddling County Club Road south of Mayfair Golf and Country Club for condominiums with a density of eight units per acre.

"Now it's up to the drawing boards to see if a 100-unit project is economically feasible," said Gary Martin of GMC Builders and Developers Inc., Orlando, buyer of the tract from Harry Toole Jr. and Mack N. Cleveland Jr.

Martin had asked for 10 units and acre and earlier said the proposed development would cost \$6 million.

GMC has another \$6 million condominium project on 40 acres on Howell Branch Road in south Seminole. Martin said the county has limited its density to six units an acre.

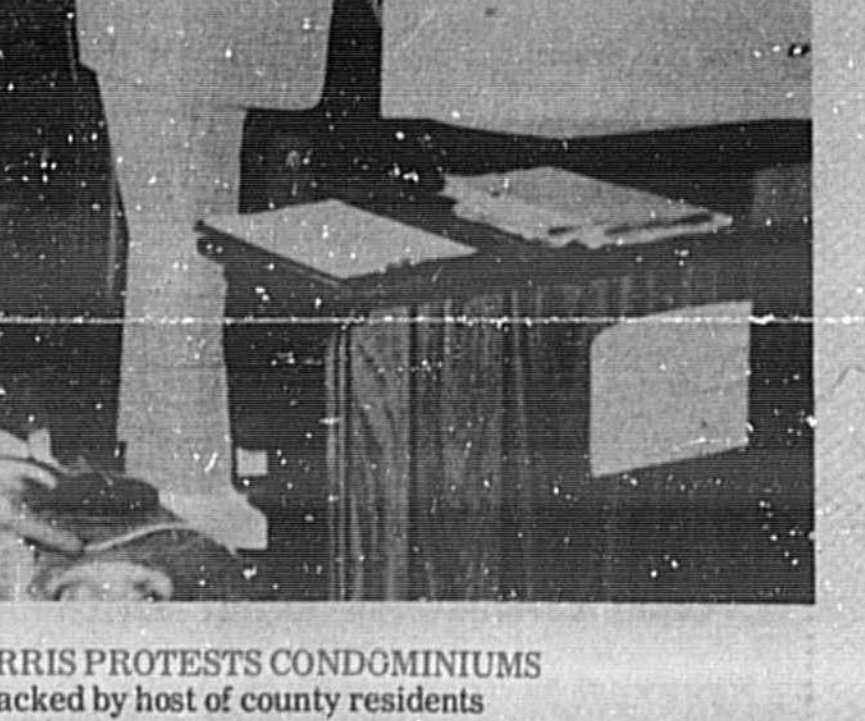

Martin identified himself, R. S. Bergin Sr., R. A. Carragan

and Alfred Giuliani, all of Orlando, as principals in the development corporation which also has a 27-unit, \$1 million condominium project under construction at Cocoa Beach.

Sanford attorney Bob Morris, representing a number of county homeowners whose properties abut the 20-acre tract recently annexed by the city, described Loch Arbor, Little Venice and Greenbriar residents as "violently opposed" to the condominium zoning and questioned what impact the project will have on roads and schools.

Possibility of a lawsuit on the city commission's decision was advanced by Jack Purse, 111 Highland Ct., Greenbriar. "It appears we're coming to a test case on this rezoning," he said.

City Commissioners John Morris, A. A. McClanahan and Gordon Meyer voted for the condominium zoning. Mayor Lee Moore was out of town and Commissioner Julian Stenstrom abstained from voting because Toole is Stenstrom's brother's father-in-law.

Forest City Voting On Incorporation
By DONNA ESTES
Herald Staff Writer

FOREST CITY—Prospectors looked dim this morning for the incorporation of this old Seminole County community as voters trickled to the Lake Brantley High School polling place.

Sharon Stahl, a poll-worker, admitted numbers turning out to vote were nowhere near the 628 votes of approval needed to form the county's eighth municipality.

Even though a car pool and telephone campaign were being conducted today only 137 absentee ballots had turned out by 10:30 this morning. And only 27 absentee ballots had been delivered to the elections supervisor's office.

"There is no waiting line," Mrs. Stahl said, "and two voting machines are on hand."

Lake Mary, which incorporated a few weeks ago, had 70 absentee ballots on election day and needed only 369 votes to pass.

"I feel it is going to be close," Marion Paden, who is to become mayor if the incorporation is successful, said The Herald Monday. "There is some opposition in pockets."

The charter, passed by the legislature in its recent session, requires that half the 1,255 voters approve the incorporation.

"It is a real order to get the voters to vote in any election," Paden said, pointing out that getting more than half the voters to the polls to approve the matter is a near impossibility.

Mrs. Stahl was hopeful the number of voters will pick up pace in the late afternoon as working people return to their homes. The polls are to close at 1 p.m.

The election is scheduled for canvassing at Supervisor of Elections Camilla Bruce's court house office Wednesday morning, Paden said.

Lake Mary
Residents of this newly-incorporated municipality will hear about the bill for becoming a city Sept. 14 in a public hearing on the first city budget, set at \$147,292.

After a city council work session Monday night acting Mayor Donald Jackson said the figure will allow the city to operate its first year without going into debt by exceeding a three-month tax year expected to generate \$49,945.

Aside from the ad valorem tax revenues, council listed \$28,688 in utility tax revenues, as well as \$36,859 in state and federal revenue sharing income, but added that the anticipated sharing funds may be too high. The balance will come from various sources, said Jackson.

"We're guessing anyway, and they won't send us to jail if we guess wrong," City Clerk Tom Freeman told the council, adding that if the revenue figure falls too short the city will curtail some of its services.

"We're going to fight over to Troy Ray (county tax collector) as soon as we get it past the public hearing," Jackson said.

Originally, the city didn't expect to be able to collect ad valorem taxes until November

Lake Mary Council Approves Interim Zoning Ordinance

1974, but council decided to skirt its charter's time limitation of July 1 on submitting a budget.

"We thought we had a special situation," Jackson said, "and our research revealed that special exceptions have been made in Florida before. We're doing this in good faith and for the public welfare. We told the voters this would be necessary."

Council expects to receive its first tax revenues in December. In the interim it hopes to borrow operating funds from local banks.

Biggest items on the proposed budget were police, fire and road department requests, and all underwritten "surgery" to arrive at the final sum.

The fire department will get its first paid chief, who also will earn a \$9,200 salary. Two paid operators who will answer both salaries for a chief and two patrolmen set at \$9,360 and \$6,000, respectively. One vehicle at \$4,000 is anticipated for the fire department agency which will not be able to provide round-the-clock service at that figure, council decided.

The police department will get its first paid chief, who also will earn a \$9,200 salary. Swofford And Drummond Battle Fire District Hearing Ordered
By CHRIS NELSON
Herald Staff Writer

The problems of the Suburban Fire Control District surrounding Altamonte Springs exploded in Seminole County commission chambers today as the board ordered the district to hold a public hearing on Tuesday.

Commissioner Chairman Sid Vihlen, praising the "true public service" performed by Attorney Tom Wack of the Rolling Hills Civic Association, charged the district with the battle between Commissioner Greg Drummond and Altamonte Springs Mayor Lawrence Swofford, who ended up by challenging each other to the detector tests, was the apparent failure of Fire District Chairman, Tom Pratt to hold public meetings in his bid to gain approval for the district.

Wack said there is no public record of any meeting ever held by the fire control district commission, and charged violation of the sunshine law in an Aug. 10 letter from Pratt alleging a fire district commission decision awarding protection to Fern Park Fire District.

"This is an insult to us," Wack said, noting that Fern Park has almost no equipment and is, in fact, negotiating with Florida Regional Planning Council.

Conklin said by working with the planning council they may come to the conclusion by Oct. 15 that Casselberry should be designated for a sub-regional plant. The sub-region, the engineer said, would include all of Casselberry, Windsor and territory east of U.S. 17-92 and south including Maitland.

"It would be a mistake to final plans for expansion to 4 million gallons and be directly opposed to the water quality management study done by the planning council and its engineers, VTN," Conklin said.

He said the sub-regional plant would serve all the areas presently within the Indian Hills Utility territory, and much of Greenbriar, Windsor and the City of Maitland.

When It Soots, It Pours
WINDSOR, Oct. (AP) — The lady of the house came to the door with black grime all over her knees, feet and hands.

"Would I talk about the fallout? Just look at me," she said.

Mrs. Gordon Claus was one of many victims of a mysterious fallout of soot that blanketed part of Windsor, Oct., and several suburbs of neighboring Detroit Sunday night and returned again Monday evening.

She and thousands of others will have to repeat Monday's housecleaning process today.

Windsor police said the soot's return was "wonderful—just awful" and spread over the city's west side, closest to Detroit.

Police said the fallout was not as heavy as Sunday's and seemed worse because of temperature and high humidity. A police spokesman said the fallout was gritty and many persons found it difficult to breathe.

Two Windsor constables complained of nausea and breathing problems and were treated and released from a hospital. Residents with respiratory diseases were urged to stay indoors as much as possible.

Environmental officials have not yet pinpointed the source of the oily grime. But Edmund Morarty, enforcement supervisor for the Wayne County Department of Health's air pollution control division, said the soot was from oil-fired equipment. Two power plants in the area use oil-fired equipment.

"The situation is pathetic in some of these homes," said David Edwards, engineer for the air management branch of Windsor's Department of the Environment. "They wake up and their skin was black, their clothes were black, their drapes, their furniture."

Escape Trial Set For Sept. 24

By BOB LLOYD
Herald Staff Writer

A Casselberry man charged in an Aug. 13 county jail break attempt has been scheduled for trial the week of Sept. 24 in circuit court at Sanford.

Arraignment of a second suspect was continued Monday until Sept. 4 so a newly-appointed attorney can take his case.

Eddie Raymond Lasso, 18, of 13 Winding Ridge Road, Casselberry, pleaded innocent to attempted escape and aggravated assault before Circuit Judge A. J. Roseberry.

David Miles Tucker, 20, Browns Mills, N.J., faces the same charges in an incident in which jailer James Hollandsworth was assaulted with a homemade blackjacked flashlight.

SEMINOLE COUNTY BOARD OF COUNTY COMMISSIONERS
Notice of Public Hearing
Notice is hereby given that the Board of Commissioners of Seminole County, Florida, will meet on Monday, August 27, 1973, at 10:00 a.m. in the Auditorium of Lyman High School, Longwood, Florida, to consider a proposed amendment of the existing zoning code of Seminole County, Florida, said amendment applies to all subdivisions, subdivisions, and subdivisions, and the classification being sought, provides for limitation upon the filing of new petitions after the denial of a petition for zoning change, provides for limitation upon the filing of new petitions after the withdrawal of a petition for zoning change, requires that all proposed zoning changes shall be considered with reasonable consideration for the existing use and character of the property, the suitability of the property for various uses, the growth or change, the current and future requirements of the County as to land for various purposes as determined by population and economic studies and other studies, the transportation requirements of the community and the County, and the requirements for schools, parks, playgrounds, recreational areas, and other public services, for the conservation of natural resources, and the preservation of the scenic beauty and the conservation of property, provides that concentrations at the time of rezoning shall include zoning of development, relation of public facilities and public utilities, and the public cost of development, provides that neither the Planning and Zoning for the Board of County Commissioners shall act upon a petition to change zoning boundaries, where such change would result in a "net public cost" or require "net public cost," and "net public cost" means the difference between the cost of rezoning and the cost of the rezoning, where by rezoning the rezoning may result in a net public cost. Through the use of financial contribution, provides for the use of land and expenditures thereof by the Board of County Commissioners and other public bodies. Copies of this proposed amendment are available in the Zoning Office, Room 112, Court House, Sanford, Florida, Monday through Friday, 9:30 a.m. through 5:00 p.m., and at the County Commissioners' Office, Room 112, Court House, Sanford, Florida, Monday through Friday, 9:30 a.m. through 5:00 p.m. No bid shall be withdrawn for a period of 10 days subsequent to the opening of bids without the consent of the Board of County Commissioners. Public Hearing, Aug. 14, 21, 28, Sept. 4, 1973. DED-46

Counselors To Help Youngsters

By JANE CASSELBERRY
County Editor

Ms. Marilyn Gordon of Casselberry has been named volunteer coordinator for Youth Programs, Inc. in Seminole County, recruiting and training volunteer probation counselors to work with youngsters in trouble on a one-to-one basis.

Her office is in the Division of Youth Services suite on the second floor of the Roumillat building, First Street and Park Avenue, Sanford. She is available for speaking on the new program and showing a film to clubs, churches, and other groups.

Youngsters 13-18 usually first offenders, but often sometimes those from a troubled home background are referred by the Division of Youth Services, Seminole Mental Health Association, churches and schools. There is a waiting list of boys and girls needing volunteers to work with them.

Volunteers receive two 3-hour training sessions before being matched with a child in their neighborhood area. Referral Air Force Col. Eugene Minter, executive director for a four-county area, conducts the training program each month at Sanford Chamber of Commerce building.

YP sponsored camps are held for 10 weeks in the summer at McCoy Air Force Base and Orlando Naval Training Center. Ms. Gordon is involved in counseling young people and hopes to initiate group therapy and an enrichment program.

Florida News Briefs

Poaching Fine Hits 3

FREEMONT, Bahamas (AP) — Three Miami fishermen have been convicted of poaching in Bahamian territorial waters and ordered to pay \$2,000 in fines or serve six-month prison terms.

Bahamian police seized the fishing vessel Winco August 19 off Walker Key and arrested the boat's captain Jose P. Alpa and crewmen Ibrahim Martinez and Danilo Rojas. A magistrate in Freeport convicted the three Friday. Alpa was fined \$5,000 and the crewman \$1,500 each.

Murder Trial Ordered

STUART, Fla. (AP) — A circuit court judge has ordered Gerard Schaefer Jr. to stand trial on murder charges before being sent to a state mental hospital for treatment.

Circuit Judge C. Pfeiffer Trowbridge set a Sept. 17 trial date Monday for the former sheriff's deputy charged in the slayings of Broward County teenagers Susan Place and Georgia Jessup. The girls' bodies were found last April on Hutchinson Island in south St. Lucie County. Schaefer's attorney, public defender Elton Schwartz, has tried repeatedly to have his client transferred from jail to a state mental hospital.

Latin Drivers 'Pass Test'

MIAMI (AP) — Latin drivers are as safe as non-Latins, according to a \$25,000 study conducted in Dade County.

"Historically, I was surprised at the findings of the study," said Priscilla Peters, who directed the federally-financed study for the University of Miami.

"In any man-on-the-street poll, I suppose nine out of 10 people would have given an opinion that reflected the stereotype of the Cuban driver as a disregarder of traffic laws and a cause of accidents," she said. "Perhaps a study like this will extinguish the stereotype."

The study, based on 5,000 traffic violations requiring court appearances, is reported that the Cuban tends to be more courteous in traffic court and pleads guilty more often.

Navy Crash Kills 1

ALBANY, Ga. (AP) — One man died and six others parachuted to safety Monday as a Navy airplane en route to Key West, Fla., crashed in a wooded area 12 miles southwest of Albany, Ga., Navy authorities said.

A spokesman at the Navy Naval Air Station said Lt. Cmdr. Jerome C. Ragen, 37, Carlisle, Ill., apparently bailed out at too low an altitude for his parachute to function properly.

Ragen's body was found in a pecan grove just outside of Albany.

State Blamed In Flood Of Hospital Indignants

ORLANDO, Fla. (AP) — A state commission report has named Florida for forcing indigent patients into public hospitals, and turning the facilities into "welfare" institutions.

A report by the State Commission on Local Government estimated that nearly two-thirds of the 37,000 Medicaid patients hospitalized in Florida last year were in public facilities.

At Miami's 1,200 bed Jackson Memorial Hospital, more than \$16 million in uncollected indigent bills were reported last year.

The report also charged that physicians who work at public hospitals contributed to the problem.

"Many public hospitals carry a heavy indigent case load and a demand for services and staff physicians to care for these patients is the result. There is always the threat that these physicians will build or encourage the building of profit making institutions," the commission said.

The report chided the state for failing to "take affirmative action in financing the medical services" public hospitals now deliver.

It criticized Florida voters for defeating proposals that would update public hospitals.

The commission asked the report at a public hearing in Orlando. Other public hearings are scheduled throughout the state on local government problems.

Coeds Win 'Pill' Fight In Miami

MIAMI (AP) — Birth control pills will be available to 18-year-old coeds without their parents' consent, officials at the University of Miami student health center say.

"Coeds have been pressing for this service for a number of years," Dr. M. E. Flipse, director of the center, said Monday. He said the new policy will be the result of Florida's new adult rights bill granting adult status to persons between 18 and 21. Before, officials said they refused to dispense contraceptives to girls under 21 without parental consent.

"With the new law these girls have all the right and responsibilities of other adults," Flipse said. "They can now agree to what medical services they want and don't want."

Flipse said the center will open a new gynecology department in addition to dispensing contraceptives.

Vets Ready To Present Defenses

Trailer Meetings In 3 Cities

TALLAHASSEE, Fla. (AP) — The newly-appointed governor's task force on mobile homes will hold public hearings in three Florida cities this fall, chairman James Smith says.

"The first public hearing will be in the Tampa-St. Petersburg area on Sept. 6," Smith said Monday after the group's organizational meeting. "We expect to have another in the Miami-Ft. Lauderdale area and one in Jacksonville this fall."

Asked concerning establishment of the 12-member panel Monday and instructed members to scrutinize the manufacturing, sales, regulation and financing of mobile homes in the state.

"There are government estimates that as many as one of every four Floridians live in a mobile home," Askwed said.

"The statistics are not surprising. People are moving to our state in record numbers, and many are finding conventional housing prices sensitive in this period of inflation," he said.

Asked said mobile home owners "are finding a lot to complain about."

Meanwhile, State Insurance Commissioner Tom O'Malley has issued a 16-page brochure of tips on saving money when buying insurance for mobile homes.

Poaching Fine Hits 3

FREEMONT, Bahamas (AP) — Three Miami fishermen have been convicted of poaching in Bahamian territorial waters and ordered to pay \$2,000 in fines or serve six-month prison terms.

Murder Trial Ordered

STUART, Fla. (AP) — A circuit court judge has ordered Gerard Schaefer Jr. to stand trial on murder charges before being sent to a state mental hospital for treatment.

Latin Drivers 'Pass Test'

MIAMI (AP) — Latin drivers are as safe as non-Latins, according to a \$25,000 study conducted in Dade County.

"Historically, I was surprised at the findings of the study," said Priscilla Peters, who directed the federally-financed study for the University of Miami.

"In any man-on-the-street poll, I suppose nine out of 10 people would have given an opinion that reflected the stereotype of the Cuban driver as a disregarder of traffic laws and a cause of accidents," she said. "Perhaps a study like this will extinguish the stereotype."

The study, based on 5,000 traffic violations requiring court appearances, is reported that the Cuban tends to be more courteous in traffic court and pleads guilty more often.

Seminole Phi Los Chapter

Entertains At Nursing Home

Residents of Sanford Nursing Home were entertained recently by members of the Seminole Chapter of Phi Los with an evening of games. A parade in a cage and other gifts were presented. Chairman of the project was Dee Parsons of Maitland. The social and philanthropic organization has 30 members. Officers include Brenda Lewis of Casselberry, president; Diane Seligson, Altamonte Springs, vice president; Diana Farmer, Winter Springs; secretary-treasurer; Bonnie Leonard, Orlando, sunshine girl; Marie Fox, Altamonte Springs, scrapbook; Bonnie Riha, Longwood, publicity; and Judy Bailey, Longwood, social director. Members meet in each others homes on the first Monday of each month. They are involved in projects to help the handicapped and recently purchased machines to be used by cystic fibrosis patients.

Pilot Club To Sponsor Home, Hobby Show

The Florida State Bank Lounge was the setting for the regular business meeting of the Sanford Pilot Club with president Shirley Mills carrying on her duties in her usual orderly and business-like manner. Routine reports were given by the various committees. Members discussed and voted to help support Bill Gunter Intern Program 5th Congressional District but was tabled at this time since no action was required immediately.

Mrs. Lida Stine, former pilot, and her husband, George, have cordially invited all pilots and co-pilots to attend coffee at her home immediately following church service on Oct. 21. It has always been customary for them to attend the church service of the Pilot president on Founders day.

Mrs. Mills did better than explain her interesting trip to Boston. She shared her wonderful experience with all by giving each member a printed resume of what she called her "Pilot Week In Boston."

It seemed her week there was a very active one. After meeting roommate, Thelma Fields, who was from Griffin, Ga., getting acquainted and finding her way around came very easily.

She reported that four countries were represented—these flags displayed and each of their national anthems were played on opening meeting night.

It was decided to brighten the gap during the long and lonely summer months at the Sanford Nursing Center with a Sunshine Party.

Members will meet Mrs. Catherine Wheeler at the center and she will play the piano and lead the entertainment with some good "old-fashioned religion sing fest." Light refreshments of ice cream and cup cakes will be served later.

Highlight of the evening was an open discussion of tentative plans for the club's first annual "Home and Hobby Show," to be open to the public, amateurs and professionals, on Oct. 13 at the Civic Center. For further information contact members of the club but more information will be published at a later date.

Club treasurer, Mrs. Marjorie Jernigan, was washed a bouquet as she left Wednesday for a three weeks vacation in various parts of Germany. The door prize for the evening was won by none other than the voyager herself, Marjorie.

The next meeting will be another one of those wonderful picnics and this time it will be at Mrs. Rosamond Chapman's 101 Crystal View East (Loch Arbor.) She is looking forward to a large attendance.

Highlights TV Time Preview

8:30-9:30 CBS MAUDE (RERUN) Maude's husband Walter is coming up to milestone, his 50th birthday, and he isn't too happy about it. Maude on the other hand, has a big surprise party planned. As the day approaches, Walter's depression increases and not even Maude's birthday gift can snap him out of it.

8:30-9:30 CBS HAWAII FIVE-O (RERUN) An infant's abduction from a baby carriage fails to produce the usual ransom demand that accompanies kidnappings. McGarrett notes a similarity between this kidnapping and others of recent years, and his investigation points to a gang that steals babies for adoption. The chief suspect is an attorney with a good reputation.

8:10 NBC WORLD PREMIERE: "The Stranger" (RERUN) A losing pilot film about an astronaut (Glenn Corbett) who crashes on another planet and his fight for survival includes hiding out from a new society there, headed by Cameron Mitchell. It's sort of a "Fugitive" with a science-fiction twist. Sharon Acker, Lew Ayres and Dean Jagger are featured.

8:30-10 ABC TUESDAY MOVIE OF THE WEEK "Class of '82" (RERUN) James Brodin, Jon Hackett and Cliff Gorman star in a good suspense drama. Gorman plays a jealous husband who thinks his wife Eddie Albert plays a widower with a good reputation.

9:30-11 CBS THE NEW CBS TUESDAY NIGHT MOVIES (RERUN) Instead of the usual movies, viewers get a triple dose of losing pilots. Jackie Cooper stars in "Keep an Eye on Denise," about a Korean War vet who becomes guardian of a pretty English teen-ager. Rosemary Clooney plays a retired grid star, plays a retired football hero who becomes a gourmet chef with his own TV show in "Big Daddy," and Eddie Albert plays a widower with a teenage daughter in "Daddy's Girl."

10-11 NBC "NBC REPORTS: HOSPITALS, DOCTORS AND PATIENTS" NBC offers a study of the skyrocketing costs of hospitalization and the fact that many doctors practice defensive medicine. Defensive medicine, which includes excessive tests, more consultations with specialists, more office visits and longer hospital stays, is brought about by the threat of malpractice suits, and the M.D.s want to be protected. Chances are one in six that a patient will be his doctor if unsatisfied.

10-11 ABC MARCUS WELBY, M.D. (RERUN) "Heartbreak for Yesterday's" Chief Dan George and William Shatner guest in this one, and you know it will be about Indiana, with George in it. Doctor Welby joins a flying physician in an attempt to save the life of a young Hopi Indian. All this is done against the wishes of the boy's grandfather, played by Chief George.

WORRY CLINIC
By George W. Crane, Ph.D., M.D.

Thelma remained an honor student in college by following the basic study rules outlined below. It isn't the size of your high school but your own study habits, coupled with an alert mind, that produce "A" grades in college. So "jump the gun."

CASE Y-502: Thelma D., aged 18, is soon to enter college. "Dr. Crane," she began, "I was on the honor roll in high school. But there were only 89 in my graduating class, so I may feel lost when I enter our state university with its 20,000 students. How can I be sure to make high grades when I get there? For I understand that many fairly good students in high school, are soon on probation at college!"

HOW MAKE "A"
Diligent students even in small high schools can still make "A" grades at the big university.
But in very small high schools, if some pupils have a very high I.Q., they can often coast along with poor study methods and still surpass many of their less alert classmates.
On the college campus, however, the duller students have already been weeded out. All the usual university students have a high I.Q., so the race for top grades is much keener than in high school.
Those who coasted through high school on their superior intelligence, even though lacking in good study habits, then fall far behind in the very first weeks at college.
Since they are such fast company, mentally, they can rarely catch up, which is why many alert high schoolers get on probation in their freshman college year!
Go to your local or college library and read Chapter 2 in my college textbook, "Psychology Applied." This chapter is entitled "The Psychology of Learning and Memory." It will show you how in rate top marks in college as by:
(1) Jumping the gun!
In sports, you are not allowed to "jump the gun" but in scholastic competition, that's an ideal plan of action.
It involves buying your textbook BEFORE the first

Sports Spotlight

By J Richards

WEDNESDAY, SEPT. 5

Wednesday, Sept. 5 is a day for the pre-season high school polo watchers to gather round the Tangerine Bowl when two highly rated area grid powers collide in the Metro Jamboree 1973.

EDGEWATER SECOND

Edgewater, which earned a pre-season number two Four-A rating behind Jacksonville Reach Fletcher with identical 8-2 season report cards from last year, will meet Bishop Moore in the third quarter of the nine-chapter pre-season grid-fest.

GAINESVILLE NINTH

Gainesville, which overpowered the Big Eight loop was seen strong enough to rate a Four-A ninth pick by the pre-season prognosticators.

Winter Park and Lyman, both of the Metro Conference also seem strong enough, especially considering the late-season Greyhound rally to be mentioned in the big school balloting, as were several other area loop schools.

AA VOYE GETTERS

In the Triple-A classification New Smyrna Beach picked up a fifth ranking, while the Orlando Hornets are pegged for a sixth slot at the season's outset. Both Ocala Forest and Ocala Vanguard got enough votes to be mentioned, while Gainesville Buchholz garnered appreciative nods.

TRINITY RIVALS STRONG

Former Trinity rivals in the Single-A standings, Sarasota Cardinal Mooney, which upset the Saints for a post-season play-off berth last year, and Ft. Pierce John Carroll, surprised by the Prepsters, ranked in last season's opener, both appear on the Metro Jamboree 1973 grid-fest again for their opener this year. That should be interesting.

COACH DAVID MILLER, Oviedo defensive backfield mentor, explains pass coverage responsibilities to Oviedo defensive back during light scrimmage sessions at the Triple-A school during pre-season drills.

Pro 'Cuts' Get Saints' Coach

NEW ORLEANS (AP) — It was a cloudy day in pro football, and the biggest out of all came late Monday night when John McCombs Jr., owner of the New Orleans Saints, announced the release of head coach J.D. Roberts.

More Beef On Line At Local Turf Club

CASSLERBERRY, Fla.—With only this week and next Monday night left in the harness racing season at the Seminole Turf Club, big things are in store for Central Florida fans.

The public response to the Turf Club's efforts to help best the best-horseracing last Thursday night was the awarding of a 600-pound beef steer on the hoof, was so great that the management of the horse track decided to give away five more steers. One will be awarded tonight and a third on Thursday night.

Grid 'Blight' Has Coaches Wondering

Winter Park, I heard, has 140 boys out for the team this year," a dejected Lake Brantley High School Football Coach, Bill Dady said, looking at his varsity candidates going through practice at Sanford Naval Academy. "It appears to have hit many county high schools."

LOOSE BALL, LOOSE BALL' OVIEDO GRIDDERS go after a loose ball with a warming yell during pre-season morning scrimmage sessions. The ball will soon go into its one-day sessions after school starts, with the first game slated for Sept. 14 with Seminole High.

Baltimore Streak Continues As AL East Race Failing

By HAL BOCK Associated Press Sports Writer

Here is a bulletin for Managers Eddie Kasko, Billy Martin and Ralph Houk, whose teams have slowly been settling into the sunset of what was once the leading American League East title race.

There's nothing to worry about, boys. There's plenty of time to overtake Baltimore's streaking Orioles, who've won 14 consecutive games. This comes from no less an authority than Earl Weaver, manager of the Birds.

There's a lot more pressure when you win than when you lose," said Weaver, staggering under the pressure of another victory after the Orioles had defeated Texas 6-1 Monday night.

It required a great deal of courage for a man to understand and continue with the very difficult assignment in the face of most constant outside criticism.

Tennis Pros Facing Ban By USLTA

NEW YORK (AP) — Professional tennis was plunged into its second major controversy in less than two months Monday when as many as 20 top pros—including Wimbledon champ Billie Jean King and Australian star John Newcombe—were faced with being barred from the U.S. Open.

Riggs Starts Building His Psyche Game

NEW YORK (AP) — "I'm 10-0-0 in the bedroom and the kitchen...in that order."

Pro Charts

NFC East: St. Louis Cardinals

By Murray Olderman

PROSPECTUS — Complete transformation all around. Single ownership of Billy Bidwell. Defensive philosophy of departed Bob Holtzow has given way to offensive concentration of new coach Don Coryell. College influence also finds Payliffsey (ex-California) handling defense. They'll do well to climb above last year's 4-9-1 debacle.

COACH DAVID MILLER, Oviedo defensive backfield mentor, explains pass coverage responsibilities to Oviedo defensive back during light scrimmage sessions at the Triple-A school during pre-season drills.

Expansion 'Phase 3' Starts NHL Keeps Going In Hockey War

NEW YORK (AP) — The National Hockey League stands just one step behind the federal government after an announcement Monday of its own version of Phase Three, another quarterback to the rival World Hockey Association.

Defense Is Key To Giants' Hopes For Playoff Shot

NEW YORK (AP) — The New York Giants, who ranked 18th defensively in the 26-team National Football League last season, should improve in 1973—and therein hinges their chances for a shot at the National Conference's Eastern Division title.

Mary Fitts

Welcomes Lakeview Guests

There's nothing like a familiar face to give you a lift when you're feeling lousy, and guests entering Lakeview Nursing Center are always happy to see Mrs. Mary Fitts smiling a welcome from behind the reception desk.

Mrs. Fitts was born and raised in Sanford and is therefore a familiar face to most of the patients and their visiting families and friends. If patients don't know Mrs. Fitts when they arrive, it doesn't take long for them to get to know her and value her friendship.

She has been at Lakeview 17 months now, and in addition to her duties as admissions clerk and switchboard operator, she does a great job of cheering up the patients. "When I applied for the job I was told an important aspect is to keep the patients happy. I've always remembered that," she said.

Mrs. Fitts finds it easy to be cheerful at Lakeview. "It's such a congenial place and getting along with everyone is so easy," she said. "Happiness in a job depends on the people you come in contact with, and at Lakeview I'm certainly happy."

The same can be said of the patients, who are cheered every morning by Mrs. Fitts' bright smile, and gain solace during the day when they stop by the front desk to chat with her for a while. Lakeview becomes a home away from home when there's a good friend like Mrs. Fitts at the center of things.

Keeping a smile on everyone's faces is traditional at Lakeview, and so is the best in nursing and convalescent care. Lakeview's capable administrator Mrs. Virginia

Michalowski is a registered nurse. In addition to her administrative duties she is most concerned each patient receives the best treatment available.

Helping Mrs. Michalowski in a most capable and efficient manner is assistant administrator, Miss Susan Castriani. She helps coordinate the many facets of running Lakeview smoothly.

If you, or someone you love, needs the specialized care offered at Lakeview Nursing Center call the friendly folk there. Phone: 322-6707.

For Auto Insurance

Blair Helps Young Drivers

Has your automobile insurance ever been cancelled or rejected? Do you have a poor driving record? If so, you will spend quite some time and effort trying to locate a company that will insure you.

The Blair Insurance Agency specializes in helping young drivers under 25 with good or poor driving records, and also those motorists who have been involved in accidents and are required to file an SR-22 to keep their driver's licenses.

Many drivers are not aware that, if they hold a valid driver's license but do not own an automobile, they are still required to have liability insurance if they drive. The Blair Agency writes a nonowner's liability policy for these people at a reduced rate.

Many drivers today are breaking the law by driving without the required no fault liability insurance simply because they cannot bear the entire cost of their insurance premium in one lump sum. At Blair Agency, after a reasonable downpayment, low monthly payments are provided for these people who cannot pay the entire amount at once.

PAYING TOO MUCH INSURANCE? Call Gene Blair and compare. Blair Agency is located at the corner of South Park and Third Street in Sanford. Phone: 322-3366.

For Florida Heat Pump

Call Dykes Heating And Air

Dykes Heating and Air of Sanford installs any central air conditioning system, but specializes in the Florida Heat Pump model, which is pollution-free and utilizes energy from underground water sources to more economically satisfy your heating and cooling requirements.

Living in Florida at an altitude proximity to sea level allows property owners an abundant source of free energy. This energy is in the form of 75 to 79 degree fahrenheit water

that flows at a depth of ten to forty feet below the typical Florida landscape. The conventional "air cooled" air conditioner and heat pump is attempting to satisfy your heating requirements by absorbing heat from the near freezing outdoor air, when 75 to 79 degree water is readily available, and during the summer operation the unit is transferring indoor heat to the outdoors by means of cooling the refrigerant with 90 to 95 degree outdoor air when 75 to

degree water is readily available. Evaluating the published data as available by the industry's recognized authority, The Air Conditioning and Refrigeration Institute, operational savings of a Florida Heat Pump unit versus a conventional air cooled package unit as commonly installed in the homes of Florida amount to a minimum of two cents per hour.

While the air cooled system has been generally accepted, most home owners endure the unit's shortcomings and eventually recognize the limiting factors of the outdoor air temperature.

A Florida Heat Pump unit does not require an outdoor condensing unit or package. It is replaced with a simple water pump of less horsepower than the average air cooled condenser blower motor. When there exists a need for cooling or heating, the water pump circulates a flow of 75 to 79 degree well water through the "Water Marine Type" condenser to provide sufficient heat transfer to meet your comfort requirements.

A Florida Heat Pump unit is a compact, self-contained package and its "whisper quiet" operation allows installation in a closet, utility area or attic.

As important as the cost of operation, is the cost of overall maintenance and life expectancy of the unit. All air conditioners or heat pumps maintain heat transfer through

the expansion, under pressure, and condensing to a liquid the refrigerant within the unit. When operating in outdoor air temperature extremes of 90 to 95 degrees in the summer and near-freezing in the winter, you are placing extreme loads on the air conditioning unit. A Florida Heat Pump unit eliminates these extremes and utilizes the constant of 75 to 79 degree water which grants longer unit life and also contributes to the quietness of the unit.

Our Florida sunshine, salt air and frequent showers are corrosive factors to the typical outdoor condensing unit. A Florida Heat Pump unit is self-contained and usually installed indoors with operating conditions at a constant minimum.

If you are interested in this effective and economical Florida Heat Pump, call Dykes Heating and Air, 322-8877, for information and installation.

FAMILIAR FACE AT LAKEVIEW... Receptionist Mrs. Mary Fitts

Banks Fight Foreign Rates

SACRAMENTO, Calif. (AP) — A new car buyer in California often can get a lower interest rate at a bank with headquarters in Tokyo, Hong Kong or Montreal than at one based in San Francisco or Los Angeles.

California's small and medium-sized banks are feeling the pinch of such foreign competition and are beginning to fight back. And that fight has plunged the California legislature into the world of international finance.

Thirteen foreign-based banks have California subsidiaries. They compete vigorously for customers by offering a full range of retail banking services, including low-interest loans.

Deposits in their California vaults have grown from \$514 million six years ago to \$1.6 billion this year. Telephone book listings include the Bank of Tokyo, Sumitomo Bank of California, Hong Kong Bank of California, Bank of Montreal and California Canadian Bank.

The legislative battle has pitted the state's big banks, including the giant Bank of America, against the smaller independent banks.

The battle revolves around two bills designed to stem the growth of foreign banking in the state.

One measure would prohibit any new foreign banks from entering the California market unless their home countries gave California banks the same privileges. It is awaiting a first hearing in the Senate Insurance and Financial Institutions Committee.

But Michael Rafton, president and chairman of the Central Bank headquartered in Oakland, said foreign banks have an unfair advantage because they have a longer freedom to operate than do their domestic competitors. They are not covered, for instance, by a federal law that prohibits U.S. banks from engaging in non-banking activities such as industrial production.

The larger banks also fear that countries in which they operate, especially Japan, will retaliate with similar restrictions.

A similar bill that has passed the Assembly and is before the Senate committee would prohibit the establishment in California of any more foreign banks that are affiliated with any commercial or industrial business.

The foreign banks have hired some high-priced law firms to fight the legislation.

The larger California banks with extensive foreign interests — primarily Bank of America and Wells Fargo Bank — also are fighting the bills. They argue that foreign firms are more likely to buy California products if they have home-country bank outlets here.

Sen. Bill W. (D-San Diego) said the bill would be a "whisper quiet" operation allows installation in a closet, utility area or attic.

As important as the cost of operation, is the cost of overall maintenance and life expectancy of the unit. All air conditioners or heat pumps maintain heat transfer through

If you are buying a piece of goods in Hong Kong, Morocco, or Mexico, chances are you can save yourself money if you know how to bargain. The best piece of advice you can remember during these times is never to pay the asking price of an article be it a rug, platter, carving piece, leather goods, or whatever without at least experimenting with suggesting a lower price. Some seasonal travelers suggest that half the asking price is usually a fair offer especially in out-of-the-way places.

HYPNOSIS — FACT OR FICTION?
WHEN YOU ARE HYPNOTIZED, YOU ARE COMPLETELY DOMINATED AND CONTROLLED BY THE HYPNOTIST.
FICTION
There is no surrender of your mind or your will to the hypnotist. Quite the contrary, hypnosis is a dual effort of cooperation between you and the hypnotist. It is not something that is done to you or for you. It is something that you are taught. The hypnotist simply uses his knowledge and his skill to guide you in the necessary procedures which will enable you to focus your entire attention on a single thought or idea, to the exclusion of all else. This enables you to enter the state of hypnosis whenever you are willing to do so.

Armored Column Reopens Highway 4

PHNOM PENH, Cambodia (AP)—A government armored column smashed through Khmer Rouge positions on Highway 4 today, reopening Phnom Penh's highway to the sea, said the Cambodian general in command.

The Cambodian capital's other major supply road, Highway 5 to the rice belt in the north-west, still was blocked by the insurgents. But a tug pulled 750 tons of ammunition up the Mekong River from South Vietnam without being attacked. It was the second convoy to sail up the river in four days.

Associated Press photographer Horst Faas reported from Highway 4 that a dozen armored personnel carriers and some 300 infantrymen pushed through a road crossing at Thnal Toleing, 18 miles east of Phnom Penh, and began patrolling both sides of the highway.

The general commanding the Cambodian force told Faas that the Khmer Rouge insurgents had withdrawn a mile off the road after being pounded with artillery and heavy mortars.

The general said traffic had resumed on the highway and some of the first vehicles moving toward Phnom Penh were ambulances loaded with government soldiers wounded farther down the highway.

Military sources also reported progress on Highway 5. They said a government force had cleared all but two miles of a nine-mile stretch by dusk Monday and were continuing operations to reopen the road.

U.S. sources said that, although Highway 4 to the coast

and Highway 5 to the rice belt in northwest Cambodia have been cut since last weekend, they drew off no food emergency in the city swollen by refugees to a population of 1.5 million.

The Americans refused to say whether the U.S. government would fly in food should the situation worsen.

Although the rice supply appeared plentiful for the moment, food prices were increasing. Pork, for example, rose from \$1.00 a pound to \$1.75, and a 200-pound bag of rice increased \$4.

Military sources said government troops had cleared all but about two miles of a nine-mile stretch of Highway 5 by dusk Monday and were continuing operations to reopen the road.

The Cambodian military command reported the village of Kompong Luong, 19 miles northwest of Phnom Penh on Highway 5, was shelled Monday night and 20 persons were wounded.

Cambodia's deposed chief of state, Prince Norodom Sihanouk, claimed in Peking that the insurgents now control more than 90 per cent of the country.

Peace Violations Scored

WASHINGTON (AP)—The North Vietnamese have violated peace accords by transiting the onetime U.S. base at Khe Sanh in South Vietnam into a major military complex, say Pentagon officials.

Defense Department analysts say the Communists have built new roads leading south and west, big storage and repair facilities and restored and enlarged the old air field.

Khe Sanh, they said, is now protected with an air defense shield similar to that surrounding Hanoi.

A new road network along the western side of South Vietnam as well as the revitalization of the Khe Sanh previously have been reported but not in such detail.

two other women also had been sexually assaulted.

Police Commissioner Kurt Lindroth described Olsson and Olofsson as "human beasts." One police official said what was happening in the vault was "the worst we have experienced ever."

The police bugged the 19-by-40-foot vault and were listening in.

The authorities said they had no contact Monday with the hostages. But Police Supt. Aake Ankersson said that, "as far as we can judge, they seem to be in a relatively fair condition under the circumstances."

Olsson, a safecracker who escaped from prison earlier this month, seized the four hostages and holed up with them in the Kreditbanken last Thursday after the police interrupted his attempt to hold up the bank. He demanded \$500,000 in ransom and safe conduct out of the country for himself and Olofsson, a friend from prison days.

The government brought Olofsson to the bank and paid Olsson the money but refused to let them get away unless they released the hostages. Olsson, however, insisted on taking two of them with him to insure their escape.

The two convicts and the hostages have been confined inside the bank's vault since Saturday, when police slammed the door while all six were inside.

Operation Swiss Cheese Started

STOCKHOLM (AP)—Stockholm police today drilled more holes in the ceiling of the downtown bank vault in which two convicts were holding three women and a man hostage for the sixth day.

Describing their latest strategy as "Operation Swiss Cheese," the police said they would limit the freedom of movement of gunman Jan-Erik Olsson, a 32-year-old bank robber, and Christer Olofsson, a lifelifter for murder, by exposing them to police sharpshooters. They hoped this pressure eventually would force the men to surrender.

The strategy was not an immediate success. Instead a shot was fired from the vault through one of the new holes, and the bullet went through a policeman's hand and injured his jaw. But his condition was not serious.

He was the second casualty of the siege. Olsson last Thursday wounded another policeman in the hand.

Police spokesmen refused to confirm or deny a report that at least one of the women in the vault had been raped, and one spokesman suggested that Olsson might have given out such a report "to put the police under extra pressure."

Police sources said the eldest of the three women, 31-year-old Birgitta Lundblad, the mother of two small children, had been raped repeatedly. The sources would not say whether the

ARCHITECTURE in Sian, China, early Communist bastion, has a keyhole-like look.

STOCKHOLM (AP)—Stockholm police today drilled more holes in the ceiling of the downtown bank vault in which two convicts were holding three women and a man hostage for the sixth day.

Describing their latest strategy as "Operation Swiss Cheese," the police said they would limit the freedom of movement of gunman Jan-Erik Olsson, a 32-year-old bank robber, and Christer Olofsson, a lifelifter for murder, by exposing them to police sharpshooters. They hoped this pressure eventually would force the men to surrender.

The strategy was not an immediate success. Instead a shot was fired from the vault through one of the new holes, and the bullet went through a policeman's hand and injured his jaw. But his condition was not serious.

Mexican Earthquake Death Toll Is At 600

MEXICO CITY (AP)—Torrential rains drenched rescue workers in some parts of southeast Mexico today as they searched for bodies or trapped survivors from the worst earthquake in modern Mexican history.

(Related story Page 7A)

The rains added to an already serious flood problem and drove more people from their homes.

Late figures from the quake area 129 to 220 miles south and east of Mexico City indicated more than 600 persons perished in the devastating

earth shock at 3:51 a.m. Tuesday. It was the highest death toll of an earthquake in Mexico since the keeping of such records started in the early 1900s.

President Luis Echeverria scheduled a bus tour of the devastated area today.

The quake, coming during the worst rainy season in 30 years, extended a disaster area that already covered much of central Mexico. Seventy-six persons have died in floods in the past month, the homes of more than 400,000 have been damaged and millions of

dollars worth of crops have been ruined.

The earthquake, which registered 6.5 on the Richter scale, struck at least 24 cities, towns and villages along the Sierra Madre range in the states of Puebla and Veracruz.

In Richter measurements, an earthquake of 7.0 is 10 times more severe than one of 6.0, which is 10 times greater than one of 5.0. That is because the Richter scale measures wave magnitudes and not something like an increase in automobile speed from 60 to 70 miles per hour.

Forest City Nixes Incorporation Bid

FOREST CITY—This community failed to become Seminole County's eighth city Tuesday when the bid to incorporate failed, and its disgruntled acting mayor threatened to hold into court the state law requiring 50 per cent plus one of the registered voters to approve referendums.

"We (members of the professional city government) will be calling a town meeting to consider court action challenging the requirement that 50 per cent of the voters had to approve the incorporation," Marion Paden said.

"The election means that the 50 per cent of the voters who stayed at home actually voted 'no' by not coming to the polls," Paden said, "and that is not fair to the one-man, one-vote concept. It is a fine government when you can stay home and vote."

Paden said possibly more could have been done to get out the vote, but all the usual procedures were followed—telephone calls, car pools and the mailing of printed literature to all the registered voters.

He said word came toward the end of election day that a whispering campaign was underway by people telling others they were not within the area planned for incorporation and thus should not waste time going to the polls. "Bare-faced lies were told," Paden said, "and names were given, and names were given."

The Forest City charter adopted by the legislature has a provision that of the 1,855 registered voters, 50 per cent plus one, 629, had to approve the incorporation.

A total of 629—including absentee voters—cast ballots but 100 of those voted 'no,' thus defeating the incorporation.

Judge Sirica Will Rule On Recordings

WASHINGTON (AP)—A ruling on whether President Nixon must turn over tape recordings demanded by Watergate prosecutors was expected today from a federal judge.

U.S. District Judge John J. Sirica's decision would wrap up the first round of a historic debate headed for the Supreme Court.

Nixon's lawyer, Charles Alan Wright, and his courtroom adversary, special Watergate prosecutor Archibald Cox, agree that the final decision will influence government and the presidency for years to come.

Cox set the stage for the confrontation when he subpoenaed nine tapes of conversations between the President and a number of White House aides implicated in the Watergate scandal.

The Senate Watergate Committee, whose hearings produced the disclosure that Oval Office conversations had been taped routinely, also has gone to court to seek access to the tapes.

Committee members feel the tapes would shed light on various contradictions in the testimony of key presidential aides who appeared before the panel.

"It's a real mess," said the tapes would be ambiguous.

He has based his refusal to disclose them on the claim of executive privilege—the theory that the President grants a president the right to withhold information if he judges it to be in the national interest.

News Digest

Part 2 of yesterday's "stuck-elevator" episode... the maintenance supervisor called and said that the emergency key was NOT his pocket. To be big, says he.

For the record and for the benefit of county courthouse employees... since this has happened at least three times in the past, and there's a better-than-not chance it'll occur again, that key is in his desk... in his office.

(Now all we have to do is make certain that the door isn't locked to that office, right?)

FLASH...with all of the voluntary offers of taking a lie detector test emanating from yesterday's county commission meeting between Commissioner Greg Drummend and Altamonte Springs Mayor Lawrence Swafford, I've got news for you.

I have made arrangements for a qualified polygraph operator to take the statements of these two men.

And to make it impartial, I'll be happy to serve as an observer.

Any takers?

Surprise, surprise, surprise...according to the AP the supply of gasoline is improved and threats of service station shutdowns over the Labor Day weekend have evaporated. The American Automobile Association reported.

Does this sound familiar? Wonder what response they would have received by interviewing those independent dealers who were forced to go out of business during this "shortage"?

HOUSE SPEAKER Terrell Sessums says he is not eager for a special legislative session to revise Florida's oil spill law. (Page 6A)

MORE THAN 500 PERSONS are feared dead and more than 1,000 are reported injured in the earthquake in southern Mexico. (age 7A)

THE USE OF LARGE AMOUNTS OF CASH for political contributions or to pay campaign expenses should be prohibited, says the head of the government's new federal elections office. (Page 2A)

SYRIAN SECRET POLICE have executed 42 army officers following an attempt to assassinate President Hafez Assad, diplomats in Damascus report. (Page 7A)

Death Sentence Ordained For Mayor, A Man's Pet

By CHRIS NELSON Herald Staff Writer

Mayor is dead. Only he doesn't know it yet.

Mayor, an elderly Cocker Spaniel mutt, perhaps 9 or 10, or 11—his owner, Malcolm Altman, 1911 Gregory Drive in Seminole County, near Maitland, isn't really sure—will get the word sometime next week.

Then, three Seminole County Commissioners will pronounce sentence on him, and Animal Control Officer Val Hobbas, or perhaps pound officer Sam

Martin, will take Mayor that last mile.

There won't be any Hombray Bogart to whisper through the bars, "stay tough, kid." There won't be any stories in the papers, or even a funeral notice. He was just a dog, after all.

And in all fairness, you can't be too hard on the commissioners, who spent more than two hours Tuesday afternoon on the "case," swearing in witnesses, introducing evidence (photos of a victim, a bloody shirt, pet shorts) and visibly squirming for fear it would seem too much like a kangaroo court.

At the end of the trial, it all seemed pretty clear cut: Mayor, by all accounts, has bitten everyone in the Druid Hills neighborhood.

In fact, he's bitten one child twice, at the second time badly enough to send the youngster to the hospital for nearly 12 stitches.

The outraged parents led the fight for Mayor's execution, garnering affidavits and testimony from Mayor's many victims.

So the evidence seems conclusive. Mayor bites. Everyone he's bitten could be said to have provoked him, so with the law the way it is—well, the commission doesn't have much choice.

Altman says he'll appeal the death sentence, when it comes, to the 18th Judicial Circuit Court.

Of course, Altman also told neighbors he'd keep Mayor inside, and told the commission he'd keep Mayor locked behind a chain-link fence he's going to build.

But it's really too late for all that.

The people have been bitten, and the wheels of justice must turn.

In the old days, he could have been "banished" to the country—or he wasn't already there. But not these days.

So, barring an 11th hour telegram from Mayor, who, by most accounts, is a pretty good dog.

His real master, Mrs. Altman, died in 1971. Mayor guarded her with the fierce protectiveness of a loyal dog on his sovereign territory.

And he now guards Mr. Altman's blind, 89-year-old father. Or he used to. It really isn't his fault. Blame it on Altman. Blame it on his neighbors. Blame it on the commission. Blame it on the 20th Century—it really doesn't matter.

Because no one will be able to explain it to Mayor.

MARTIN WITH 'MAYOR'... Pet doesn't know (Herald Photo by Bob Lloyd)

Quake Rocks Mexico City

MEXICO CITY (AP)—A violent earthquake rocked Mexico City shortly before dawn today, knocking out electricity in parts of the capital. Some fires broke out, but there was no immediate report of casualties.

The earthquake hit at 4 a.m. local time, 8 a.m. EDT, and downtown skyscrapers swayed for more than a minute.

The fire department said the collapse of a building was reported in the southern section of the city and several trucks were sent to the scene.

Shortage Of Beef Is Fading But High Prices May Linger

The scarcity of beef in the supermarkets may be nearing an end, according to an Agriculture Department spokesman. However, meat department managers in most Sanford supermarkets deny these reports but give us no guidelines how we should operate under the controls."

"We've never had much of a problem anyway," said a spokesman for Fairway Meats, while the meat manager at Public Market said, "We've had no shortage, so I can't say the situation is improving. It was never bad."

The meat markets not connected with large supermarket chains tell a different story. They have been short of beef for some weeks now, and are still short. "There are two problems," said a spokesman for Hopkins Meat Packing. "Supplies are short, and when beef is available, prices are too high."

Iowa Meats in Sanford and HI-Flavor Meats Inc. in Oviedo disagreed. Beef is in short supply, but said prices for the bulk product are prohibitive. "The supply is improving all the time," said Iowa Meats representative. "But prices are too high. Farmers are holding their beef on their meat and will flood the market when the ceiling on beef is removed Sept. 12."

He added after a couple of weeks of high prices he expected the price of beef to drop.

Hi-Flavor Meats owner, Edward Ondick said he cannot afford to buy all the beef he needs, and has curtailed his orders as much as 40 per cent.

"I'm just sitting here waiting for Sept. 12," he said. "This is the most chaos there's been in the meat business for 30 years. I'm disgusted. It's beyond all reason for Nixon to impose these controls but give us no guidelines how we should operate under the controls."

The Agriculture Department verified earlier this month that 70 packing houses were closed. Earlier this week they estimated that fewer than 50 were still closed.

Price controls for all foods except beef were removed July 12. The lid on beef is scheduled to be removed Sept. 12.

In a department report issued Tuesday officials said production of all red meat in July was 2,651 billion pounds, down 5 per cent from June, but about the same as last July.

Other details of the report included:

- Beef output in July was down 3 per cent from June, but about equal to that month a year ago. The January-July output was 4 per cent less than 1971.
- Veal production in July was down 4 per cent from June, and was 27 per cent less than last July. Production in January-July was 27 per cent less than a year ago.
- Pork production declined 11 per cent from June to July, and was down 1 per cent compared with last July. January-July output was down 6 per cent.
- Lamb and mutton production increased 10 per cent from June to July and was down 1 per cent compared with last July. January-July production was 16 per cent above last July. However, January-July production was 1 per cent below last year.

To End Zone Dispute Swofford Asks Election

ALTAMONTE SPRINGS—Mayor Lawrence Swofford Tuesday night suggested a special election to solve one of several disputes between the city and the county government, but action on his proposal has delayed until next week by the city council.

He urged that the city call a special election within the city and the annexed areas challenged by the county to determine formally whether residents in the contested territory wish to remain Altamonte citizens.

Swofford said he has personally visited homes in San Sebastian and Springs Oaks, two of the areas challenged in his suit, and found "99 per cent of the people want to remain in the city."

The county commission weeks ago filed a law suit challenging city annexations for the past three years. Affected are multi-million dollar developments including the Altamonte Mall, numerous housing projects and commercial enterprises.

The county contends the annexation of SR 436 was done in 1970 by Altamonte Springs under a state law declared unconstitutional by the Supreme Court 10 years ago. Thus, the county says, if SR 436 was annexed illegally, all annexations based on SR 436 for contiguous areas are illegal and will fall in domino fashion.

Swofford recommended a referendum be held in both the city and the annexed areas with a stipulation from the county if the city wins the election, the county will disavow the suit.

In like fashion, Swofford said, if the city loses the referendum it would not fight the court action.

And if the city must go to court in the matter, the referendum will be a point in the city's favor, Swofford said.

Power Plant Is Blamed On 'Great Soot Fallout'

DETROIT (AP)—Detroit Edison Co. employees say one of the utility's power plants was responsible for the city soot that fell on both sides of the Detroit River for two nights.

One Edison worker, who asked not to be identified, said on Tuesday that black smoke "so thick you could walk across it" began spewing from a smokestack at Edison's River Rouge plant Sun. day night.

A worker on the Sunday midnight shift said Edison smokestacks were "blowing out smoke all night" and the situation was not corrected until an inspector closed a faulty damper at 8 a.m. Monday.

Falling soot blanketed a 10-mile band cutting across Detroit, several suburbs and Windsor, Ont., across the Detroit River.

Authorities were inundated with complaints about blackened cars, boats, homes and clothes.
