## Rep. Stokes Warns Of Hard Times Ahead

Herald Staff Writer The days of "handouts and largesse" by the federal government are a thing of the past. The middle class no longer wants to carry the poor on its back. The nation's new mood is ugly and mean. U.S. Rep. Louis Stokes, D-Ohio, after making these statements Friday night, called on the nation's black community to seek political and economic power. "If you have either one, they (the whites) will respect you. If you have both, they

will fear you," Stokes said. Speaking to a Sanford Civic Center audience of the "Friends of the Seminole Education Economic Development Corp. D-Ohio talks with his old friend, (SEEDCO)," the county's major minority economic development agency, Stokes said there is a new mood in

progress in the movement for equality, but by white standards that progress has been minimal. He said the only way to continue progress is through economic and political means.

"IF YOU'RE UNDER 25; If you own a van or a pick-up, or if you just need immediate Auto-Insurance coverage — you need to call me. Yes, according to Ralph Kazarlan, "You may be paying too much for your Auto In-

Mr. Kazarian is fully aware that we, as drivers, are tired of reading deceptive ads about how we can beat the high cost of our auto insurance, but there is something definite that sets him apart — specialization. He's an unusual man in his line of business, for he is willing to give hard-luck YOUNG DRIVERS a more-than-fair deal on

their auto insurance. "I feel that young people, in many cases, are unjustifiably charged high rates, and I know that many may be short on cash. That's why monthly payments are our specially. Furthermore, there are a large number of

their age; others are penalized because of their personal tastes in automobiles. Finally, customers who need minimum insurance coverage are turned away repeatedly. To overcome these situations is my whole reason for being in business."

Yes, this all sounds quite promising, but just how can Ralph Kazarian afford to offer a truly better price to you and me? "I've shopped for years to find companies who offer the best possible rates for my

particular customers. As a result, I broker business with 25 to 30 Auto, Truck, Motorcycle, Motor Club, Mobile Home and Motor Home companies that target their effort to my particular customers. This allows me to give my customers the insurance they need at the price they want to pay."

And Mr. Kazarian has proved himself to be quite successful in his approach. After 15 years in the business, he's established himself as an institution within the auto insurance industry in Florida. To prove his ambition and determination, he's opened nine offices in the last two years in the Central Florida area and has just recently remodeled his new Sanford office, which is located between Burger King and Flagship Bank on Orlando Avenue (323-2454).

So...If you're really interested in finding out how to get the insurance you need...at the RALPH KAZARIAN drivers under 25 that are paying high rates due simply to price you want to pay — stop by one of Ralph Kazarian's auto insurance agencies.—ADV.

## Community Reunites Family Of Leukemia Victim

Herald Staff Writer

By JANE CASSELBERRY

This is the story of Bridget, a courageous 14-year-old Leukemia patient; a loving family willing to sacrifice anything it takes that she might have the gift of life; and a widening circle of supportive friends, who have given them a very special Christmas present.

Bridget, an eighth grader at St. Mary Magdalen School in Altamonte Springs, is celebrating her 14th birthday today in Seattle, Wash., where she is undergoing treatment for Acute Lymphocytic Leukemia (ALL) at the Freddie Hutchinson Memorial Clinic.

The daughter of Mr. and Mrs. John F. Kiernon Jr. of Maitland, Bridget has been at the clinic since October, and if all goes well, she will be returning home in mid-February. She was accompanied to Seattle by her parents and her 12year-old brother, Patrick Michael, who has proven a good "match" and agreed to donate bone marrow to help his sister. The bone marrow transplant took place on Oct. 29, and it is necessary for her to remain at or near the clinic for 100 days after that.

case more marrow is needed. John and Patricia Kiernon were not there just to supply moral support and comfort for their youngsters, but also to supply white cells and blood platelets when needed. Meanwhile, the other two Kiernon children, Emily, 6, and Timothy, 9, stayed at home to attend their classes at Dom-

"It's all in the Christmas spirit," said Buddy Anderson of the Catholic Men's Club, which headed up the drive to help the Kiernon family. "They are a fantastic family and he is a super father. At 6:30 a.m., on Saturdays he was always out there lining the soccer field. Whenever you need him he's always

"The one bright spot in all of this is finding out what nice people there are in this world. They have been so helpful and supportive to Bridget and the family," Kiernon said. "Our whole family is extremely grateful to the people at my office,

Bill Slevin, manager of the Days Lodge on Douglas Road, sent a memo to employees suggesting that instead of the usual employee gift exchance, they put the amount they would normally spend in an envelope and mark it for Bridget for a good as for younger children." "more merry and blessed Christmas." The 25 employees at Days Lodge agreed.

"Many of us were here in September during the drive for the Leukemia Society," Slevin reminded them, "when Bridget swam 100 laps in the Super Swim Classic in our pool. Her father wanted her to stop after 75 laps, but no way. No quitting for Bridget. When she completed her laps, she was visibly spent, but her face was aglow with inner happiness." Asked how Bridget in her condition was able to swim that

was out of remission and I didn't want her to do more than 30 or 40 laps, but she was determined to reach the goal she had set for herself." Bridget raised more than \$400 through her sponsors that day

for the Leukemia Society of America Central Florida Chapter almost as much as the \$600 a year she is entitled to receive from the society as patient aid.

Bridget was recognized for her efforts Thursday night at the second Annual Leukemia Super Swim Classic Awards Night in Orlando and Slevin read the memo he had written.

"She was a pretty good swimmer before becoming ill but she didn't practice for the Super Swim Classic," said her father. It's the best place in the world. Bridget was an active 12-year-old back in April of 1979 when she first started to display symptoms that something was wrong. When they took Bridget to the family doctor, blood tests revealed leukemia and she was referred to Dr. Kjell Koch, a pediatrician who specializes in this type of case. "He's just been wonderful," said Kiernon. "The success rate in chemotherapy treatment for children Bridget's age is not as

Kiernon said that Bridget was in remission for a month or two after her initial treatment, but last spring suffered a relapse. After more treatment, she was back in remission in May and that lasted a month or so.

The nurses at the pediatrics ward at Orlando Regional Medical Center, where she spent quite a bit of time, became very attached to Bridget and she to them, her father said. When she was home they would call up or come by and take her out," he said. The nurses still call her in Seattle to see how many laps, her father described it in one word - "guts." "She she is doing and they are very supportive."

"When Bridget first learned she had a disease which could be terminal, " Kiernon said, "she was scared, but we've always taken a positive attitude. We really feel she is going to get over it. She is resigned to the fact that it may be terminal and all she asks is that we tell her the truth about what is happening. She doesn't dwell on it. She deals with it, accepts it. but has hope.

"We had tried to get her in to the Boston cancer center for bone marrow treatment, but couldn't," said Kiernon. "Then she was accepted at the Fred Hutchinson Clinic, and that's where the bone marrow transplant treatment was developed. "They have only been doing it actually for the past 10

## Newell Named Chancellor Of State's Universities

TAMPA, Fla. (UPI) — Gov. Bob Graham says the appointment of Barbara Newell as chancellor of the state's universities "will give impetus to the state's efforts to provide an educational system that is comparable to the best in the country."

Dr. Newell was selected unanimously by the Board of Regents Friday after a six-month effort to find a successor to former Chancellor E.T. York, who

Ms. Newell, 51, is the current U.S. ambassador to the United Nations Eduation, Science and Cultural Organization. She said she was "delighted" to join the state university system and "gratified by the confidence shown in me by the board's unanimous vote."

"I hope this is the beginning of a healthy period of the university system in Florida, which has tremendous

"I hope this is the beginning of a healthy period of the university system in Florida, which has tremendous potential," she said. "I'm delighted to join the board and the university presidents and if we as a team can pull together, with the support of the governor, we can make it one of the truly fine systems of higher education in the United States."

#### Flu Strikes In 10 States ATLANTA (UPI) — Federal health experts are

keeping an eye on early outbreaks of infleunza in 10 states but said there are no reports of widespread epidemics.

Dr. Tim Nolan of the Atlanta-based national Centers for Disease Control said there have been no reports of epidemics in the general population.

He said most of the cases have occurred in nursing home patients, college students and hospital staff, and

home patients, college students and hospital staff, and hospitalized preschool children, primary school children and adults.

But Nolan cautioned that influenza epidemics

sometimes start in small population groups before spreading to larger communities.

Influenza activity was recorded in 10 states — Arizona, California, Colorado, Connecticut, Massachusetts, Nevada, New Jersey, New Mexico, New York and Pennsylvania. Earlier, a flu outbreak

occurred in October in a San Francisco nursing home

the CDC said.

Mrs. Reagan Denies Remark

WASHINGTON (UPI) — Ronald Reagan today
wrapped up his second post-election visit to
Washington with another look at his future home, the

subject matter of a controversial remark attributed to his wife Nancy.

Sources told United Press International Mrs. Reagan had told aides she "can't understand" why President and Mrs. Carter do not move out of the White House into Blair House, the president's guest house across the

street from the Executive Mansion.

Sources said Mrs. Reagan has expressed frustration that she cannot speed refurbishing of the White House living area.

Reacting to the report, Mrs. Reagan's press

Reacting to the report, Mrs. Reagan's press secretary, Robin Orr, said Friday: "Mrs. Reagan has never suggested that President and Mrs. Carter should vacate the White House before Jan. 20. What she has remarked is that she might want to break that tradition for the next first family by moving to Blair House a few weeks before the Reagan presidency ends."

#### Congressmen Raise Pay

WASHINGTON (UPI) — House-Senate negotiators have completed a "Christmas tree" appropriations bill — the last item on the agenda of the 96th Congress — by adding an ornament for themselves: A huge pay raise. The joint conference committee finished the omnibus funding bill late Friday, and both houses scheduled rare sessions today in hopes of giving the bill final approval and wrapping up the lame duck session. The only issue left unresolved, and standing in the way of adjournment, involved restrictions on Medicaid funding of abortions.

The panel agreed to lift a pay cap and allow annual salaries for members of Congress to rise \$10,400 above their present \$60,500. Sen. Jim Sasser, D-Tenn., said the salaries of some federal officials, which also have been frozen, could rise 16.5 percent.

#### Chrysler Has New Plan DETROIT (UPI) — Chrysler Corp. will take a

revised financing plan to Washington next week seeking an additional dole of federally guaranteed funds and showing drastic new cost-cutting efforts.

Under the refinancing plan, workers, suppliers and bankers again will be asked for financial sacrifices totaling \$1.5 billion and Chrysler will seek \$400 million in loan guarantees, the Detroit Free Press reported in today's editions.

the marrow from the donor and regenerating the old bone
marrow. They found Bridget was in relapse again when she
arrived at the clinic. She was subjected to potent
chemotherapy and 10 days of full radiation and another drug
injected into her spine before the transplant."

On the last day of the radiation, Michael was taken to another hospital and his bone marrow aspirated through 200 long needles into his pelvic area. The marrow was put into a plastic bag and taken to Hutchinson for Bridget's transplant. It usually takes three weeks for a graft to take place, but with Bridget it took longer.

As a result of the radiation, Bridget developed spots on her lung and pneumonia. "There is always a danger of viral pneumonia and there's no way to treat it," said Kiernon, "but fortunately she didn't have that type."

She still has a fungal infection, and at this point isn't eating. The heavy doses of radiation caused her hair to fall out and destroyed the mucous membranes causing severe pain and discomfort requiring heavy doses of pain medication, Kiernon

Because she has no immunity, Bridget is kept in a LAF (Laminar Air Flow) room, where the air is filtered and kept circulating. She is allowed to talk on the telephone and gets to go once a day to the bathroom for a bath wearing a sterile gown and mask. The family rents an apartment at the clinic, which will provide a somewhat sterile environment for when she gets to be an out-patient. Even when she comes home, she won't be allowed to go back to school for a year for her own protection.

"When we found Michael was the best match, we explained

it to him and asked if he would be willing," said Kiernen. "He didn't hesitate a bit. He's extremely proud of what he's done. It is very painful and he was under anesthesia. It leaves the donor extremely sore and stiff. You can always spot the donors. They develop what they call the 'Hutch shuffle' the next-day.

"Michael was determined this wouldn't happen to him, and when he got home to the apartment, he walked around for hours so he wouldn't be stiff the next day. Another reason they

latelets."

Michael has a tutor to help him keep up with his school assignments.

"We get a lot of strength from the Lord and our friends," Kiernon said. "We have gotten a lot of spiritual support from

## NO WONDER PEOPLE ARE PAYING SPECIAL INTEREST TO "INTEREST/CHECKING" FROM FLAGSHIP

At a time when many financial institutions are introducing checking accounts that pay interest, people seem to be paying special interest to "Interest/Checking" from Flagship. Here are some of the reasons why:

- With Flagship "Interest/Checking," your account balance earns 5-1/4% interest per year, compounded daily. Nobody pays more.
- You have 24-Hour access to your account for deposit or withdrawals at convenient Flagship 24-Hour Jack locations.
- 3. You enjoy increased cash withdrawal up to \$200 a day at Flagship 24-Hour Jack locations.
- You can cash personal checks on your account at over 85 offices throughout Florida at any of our Flagship locations.
- 5. You receive quicker treatment on Visa applications.
- 6. You have a choice of maintaining either a monthly \$1,000 minimum balance or \$2,000 average balance to avoid any service charge. A \$5 monthly fee will be charged for these accounts falling below the stated minimum and average balance.
- You have the assurance that Flagship, unlike many financial institutions offering this service, has over 50 years experience handling checking accounts.

ALL THE BANK YOU'LL EVER NEEDSM Member FDIC

Under Federal law, complete services on interest earning checking accounts are not available until January 1, 1981, and only individuals, sole proprietorships, and non-profit organizations qualify. The service charge noted above applies only to individuals.

#### **Bani-Sadr Accuses Carter** Of Hostage-Solution Delay

By United Press International
With the American hostages nearing their second
Christmas in captivity, Iran's President Abolhassan Bani-Sadr accused President Carter of delaying a solution to the hotage crisis and possibly wanting to leave the problem to the incoming Reagan ad-

A White House spokesman termed "ludicrous" a statement by Bani-Sadr, broadcast on the CBS "60 Minutes" program Sunday night. "We won't dignify it with a comment," the spokesman said,

In an interview conducted by Mike Wallace Dec. 4. Bani-Sadr said in a cryptic statement he did not know where the Americans, now in their 408th day of captivity, were being held. "When I say I don't know, it doesn't mean that I'm completely ignorant of the situation." Bani-Sadr said.

Some 1,200 farmers met Sunday after mass to hear complaints from representatives all over Poland and to issue a 23-point list of demands.

Their chief complaint is against a court ruling last September that union regulations do not apply to selfemployed workers. Most of the farmers own their own land, although villagers and agricultural workers also

The court will hear an appeal of the ruling Dec. 30.

#### **OPEC Meeting Stormy**

BALI, Indonesia (UPI) - Indonesia President Subarto, leader of the world's largest Moslem nation, opened the OPEC summit meeting today with a plea to Iran and Iraq to end the first war ever between members of the powerful oil group in the interests of But delegates from the two Middle East oil-

producing nations nearly came to blows shortly before start of the oil ministers' meeting — the first high-level OPEC gathering since the Iran-Iraq war began nearly three months ago on Sept. 22. In a glaring reminder of the war, Iran left an empty chair at its table, graced by a large picture of its oil minister, Mohammed Tandgoyan, who is being held by

Iraq as a prisoner of war. To ease the prospect of verbal conflict, conference organizers changed the alphabetical order of seating, inserting Indonesian delegates between those from

Thieves burglarized the cars of four county firefighters and two county fire trucks Saturday, deputies say. The thieves took more than \$2,000 in tools, equipment and personal belongings from the vehicles, parked at the county's station at Five Points, off U.S. Highway 17-92, they say. The thieves took a wide variety of items from the cars ranging from radios to a football, deputies report. Several items including a 50-foot section of hose, were taken from the fire trucks, they say.

The hose was later found lying along Bedford Road just

## Longwood To Debate City Code Board

By JANE CASSELBERRY

Herald Staff Writer A public hearing and final approval of the controversial Code Enforcement Board are scheduled for the Longwood City Commission meeting at 7:30 p.m. today at the city hall. The ordinance establishing a board of citizens to hear cases involving violations of city codes was passed on first reading on Nov. 17 by a 3-2 vote. Commissioners J.R. Grant and Bill

Mitchell opposed the ordinance. Under a new Florida law, cities are permitted to establish code enforcement boards to handle city code violations and fill the gap left by the dissolution of municipal courts. City officials have complained that the state attorney is not prosecuting violators of city codes.

There will also be a public hearing on an amendment to the Longwood Historical District ordinance increasing the number of members allowed on the Longwood Historical Commission. Bob Keesee of the Department of Community Affairs, Tallahassee, will be commission on an affirmative action plan

The commission will consider resolutions appointing an advisory committee to assist the commissioners in reviewing died early Sunday at her the proposed city zoning ordinance; and approving Reiter residence. Born in Park as the name for a new fire station-city park in honor of

A petition for rezoning will be considered from Edourdo Arango, trustee, for changing 16.014 acres located on Range Line Road behind the 434 Plaza from business and professional to multi-family residential. The property is owned by the First National Bank of Louisville.

Also up for rezoning will be Florida Residential Communities property north of Longwood Hills Road and on both sides of Lake Emma Road from R-1 Residential and B-1 Business and Professional to R-2 Residential. If approved these rezoning requests will be voted on first

## **County To Hold Hearing**

On Land Use, Zoning By DIANE PETRYK

Herald Staff Writer The Seminole County Commission has authorized its planning department to conduct a public hearing to

prepare amendment proposals to the county's Short Range Development Plan. The amendments are intended to better define the relationship between land use categories and zoning.

#### **Longevity Wages Increase**

At the request of the Personnel Department and following the unanimous recommendation of the Personnel Board, the county commission has approved a longevity wage increase of 5 percent for 16 county employees who have completed six years of continuous county service who are at the maximum salary in their

The commission approved the increase unanimously. For effected employees it will be accompanied by a 5 percent cost-of-living increase for all county em-

ployees approved 4 to 1. Commissionr Barbara Christensen voted against the across-the-board increase. She said such an increase should carry a \$1,000 maximum per employee.

#### Insurance Package Passes

The county commission has approved renewing its Self Insurance Package involved a Lloyd's premium of \$99,646 and a Gallagher Bassett Service Fee of \$42,000 with a surcharge not to exceed \$1,500.

#### Missouri Avenue Work Set

The Seminole County Commission authorized the county Public Works Department to proceed with work to realign Missouri Avenue.

#### Sound-System Change Near?

Commissioner Kirchhoff requested the county adninistrator to check to see if the public address system in the courthouse can be repaired. At the request of Commissioner Sandra Glenn, the board directed the county administrator to check into the possibility of arranging a system where the persons addressing the board will not have their back completely toward the

#### Seminole Guide Revised

Representatives from the Seminole County League of Women Voters presented the commission with their newly revised booklet the "Seminole County Guide." The commission helped to pay for revising and printing of the new booklet, which will be distributed at official locations across the county.

#### Zoning Amendment Approved

During the county commission's public hearings this past week, the board: - approved unanimously a request to amend the Wekiva Hunt Club planned unit development commitment agreement to allow commercial access onto Wekiva Springs Road. Developers are planning a shopping center for the corner of Wekiva Springs Road

and Hunt Club Boulevard. approved unanimously a request for an amendment to the county's land-use plan from low-density residential to medium density residential and a rezoning from single family dwelling district to residential professional, property described as being on the south side of Powell Street, south of State Road 434 and east of Pressview Avenue. The request was made by Luckenbach Realty and the property will be used as a real estate office.

- denied 4 to 1 a specific amendment to the county's land use plan, from low-density residential to mediumdensity residential, property on the corner of Lake Rena Drive and State Road 434. TEC Realty Inc., had planned to use the property for the site of a real estate office. The problem, according to Land Development Administrator Herb Harden, was "piecemeal zoning." The property is one parcel among about seven together that should be zoned together so access can be controlled, he said. Re-zoning of the property from single family dwelling district to residential professional was denied unanimously.

## **FLORIDA IN BRIEF**

#### Scallop Blight Could Lead To Sharp Price Increases

CAPE CANAVERAL, Fla. (UPI) - A major processor foresees sharp increases in the retail price of scallops as a result of the mysterious blight that has afflicted a rich mollusk bed along Florida's east coast. The blight has caused dislocation in the scallop industry as well as concern among those living along the mid-Florida coast. Scientists are still seeking to learn the cause. That has brought rumor and speculation, ranging from a natural die off to toxic chemicals. heavy metals and even gases buried 280 miles out at sea by the military.

But while scientists grapple with the problem, shortages of scallops are developing. Del Rose, manager of Southern Seafood Inc., one of the nation's largest scallop processors, says shoppers in the northeast may see price hikes of 25 percent in the

## WORLD IN BRIEF

#### Saudi Arabia Price Hike

#### **Means More Expensive Gas**

BALI, Indonesia (UPI) - Saudi Arabia increased its oil price \$2 a barrel at the OPEC summit and announced a "broad agreement" by other members on increases that could send oil up by \$3 to \$40 a barrel. The hikes mean at least 2 cents more a gallon for gasoline and heating fuel for U.S. consumers.

"We have increased our price," Saudi Shelk Ahmet Zaki Yamani said Monday. Later, he told reporters that the 13 member nations of the Organization of Petroleum Exporting Countries also had reached "a broad agreement" to hikd prices.

Yamani didn't give a figure for the Saudi increase, but Venezuelan Oil Minister Humber to Calderon Berti and Iraqi delegates said the Saudis agreed to hike the price of their benchmark oil from \$30 to \$32 per barrel.

#### Poles Uniting At Rally

GSANSK, Poland (UPI) - Thousands of people carrying wreaths arrived in Gdansk today in a national show of unity with government, church and union leaders for the unveiling of a monument in memory of the bloody 1970 food riots.

Lech Walesa, leader of the independent labor coalition Solidarity, caused a sensation among the throng when he unexpectedly appeared at the monument to check the preparations, then strolled, smiling, to a nearby hotel.

More than 200,000 people were expected to attend the late afternoon ceremonies at the base of the monument, site of the killing of three shipyard workers during the uprising a decads ago.

Two wooden platforms were built for the ceremonies, which were expected to be carried live on Gdansk television. A small altar, with a cross inside, was set up only a few steps away for mass after the, official observances.

The official nature of the ceremonies was a radical departure from the past, when the date passed officially unobserved. It reflects the deep changes that have affected Polish society since this summer's nationwide strikes.

#### Jet Hijackers Hold 110

PANAMA CITY, Panama (UPI) - Leftist guerrillas hijacked a Colombian jetliner to Panama City with an estimated 110 people still aboard in the third stop of what was called a spectacular attempt to disrupt a Latin American summit honoring the George Washington of South America, Simon Bolivar.

It was not immediately known how many hijackers there were or if they made demands for the release of another country from Panama.

#### ABC Lounges Plan Charity Hour

All ABC cocktail lounges in Florida will have the annual ABC Christmas Seal Cocktail Hour from 6 - 7 p.m. Wed-

During the hour all ABC Lounge cash registers will be locked and all lounge sales will be donated to Christmas Seals, according to an ABC spokesman.

#### WEATHER

NATIONAL REPORT: A snowstorm gathered force on the Middle Atlantic Coast early today, strewing snow and icy sleet from Maryland to New England and causing headaches and accidents for motorists. Storm watches and travelers advisories were posted from the Virginias to Maine, with forecasters predicting up to 6 inches of snow in Maryland, New Jersey and New York. Snowfall along the East Coast was light Monday - about an inch - but below-freezing temperatures covered roads with dangerous layers of ice and sleet. Maryland police reported at least 10 accidents on the Baltimore Beltway, although none caused serious injuries. ## Casselberry OKs **Bar Resolution**

The Casselberry City Council passed a resolution Monday banning any more topless entertainment in the city. Club Juana Cocktail Lounge, Highway 17-92, is currently the only topless lounge in the city.

The same resolution passed at the meeting Tuesday was passed in July to "hold us over until an ordinance could be prepared," Mayor Owen Sheppard said. An ordinance banning more topless bars is being prepared

y City Attorney Kenneth McIntosh. He said it would be at least 60 to 90 days before he would have the ordinance written. Sheppard said to avoid loopholes in the ordinance, it is taking longer to write the ordinance. The council wants the ordinance because it fears topless

Florida Land Corp., owner of a 300-acre parcel of land now zoned for a theoretical maximum of 900 homes, said it will not drop its suit against five members of the Citizens Rights Committee, an ad hoc group which solicited signatures demanding the rezoning be overturned, unless the five sign a letter of apology to be sent to city voters.

Members of the committee demand Florida Land reduce the number of homes on the parcel, claiming its engineers and planners are incorrect in saying it can support from 600 to 800 omes when totally developed. They also refuse to sign the letter, claiming the company has

The committee members accused in the suit brought by Florida Land of lying to citizens of Winter Springs when they gathered petition signatures, demanded the company drop its lawsuit, adding they would not sign the letter of apology. After a short debate, the council voted to spend between \$4,000 to \$7,000 during the coming year to appeal Leffler's ruling to the state's Fifth District Court of Appeals. Zoning is considered legally an administrative matter rather than a legislative matter.

Additionally, Leffler has ruled the city charter provisions in Winter Springs and other cities allowing a council rezoning decision to be appealed to the voters violates landowners rights to due process. The appeal was scheduled to be filed by Stalnacker today.

TALLAHASSEE, Fla. (UPI) - A recent surge in state revenues probably has eliminated the need for new taxes except for the gasoline tax increase that Govv Bob Graham has been seeking for the last year. Economists from the Graham administration and Legislature meet Wednesday in a formal revenue estimating conference. Tony Huggins, Graham's chief economist, said Monday he intends to propose estimates likely ruling out any major tax increase next session other than on gasoline.

"Sales tax collections went crazy in November." Huggins said. "This is a very positive sign, a very hopeful sign for the state's economic future, at least as it is measured by tax revenues."

## Winfield Likes Yankee Mystique

it's still right up there with such joys as sex and home cooking in the battle for first place, Dave Winfield happily settled for less because of three reasons that aren't so hard to understand His first one has to do with what his new boss, George Steinbrenner, calls "the Yankee mystique." The very though of putting on those blue-on-white Yankee pin-stripes is sufficient to make some kids fairly tingle and the low-key, softspoken 29-year-old Winfield still has enough kid in him to share

The second reason he chose to sign with the Yankees Monday instead of the Mets. Indians or Braves, who hung right in there until the very end, has to do with George Steinbrenner himself. When the Yankee owner sours on anyone, he's harder and colder than an ice cube. But when he likes someone, and makes up his mind to bring him over to his side, he can give Dale Carnegie lessons on how to win friends and influence people. The last reason of all concerns what we were talking about a little higher up - money. When you reach \$13 million, who

bother's counting anymore? That's what Dave Winfield will get for having agreed to play with the Yankees. The money will be paid over a period of 10 years and that includes one million up front, which Winfield will get immediately for signing, and part of it will go into the foundation for underprivileged children that bears the · slugging outfielder's name.

"The Yankee offer definitely was not the highest offer," said Winfield, who now ranks as the highest paid baseball player ever. "I chose the Yankees' offer because I felt I just would enjoy contributing to a winning tradition."

The contract Winfield got from the Yankees breaks down to \$1.3 million a year. The Mets and Indians were prepared to go as high as \$1.5 million a year, and Ted Turner of the Braves, who looked as if he was ready to bow out of the bidding at one point, told Winfield and his agent, Al Frohman, he would equal

"I'm pretty sure the Mets and Indians made the highest offers, higher than we did," Steinbrenner revealed. "And Turner said he would match anyone. We were not the highest Steinbrenner put in a lot of time and effort getting Winfield,

## WORLD IN BRIEF

#### **Poland Union Head Walesa** Seeks U.S. Visit By July

GDANSK, Poland (UPI) — Buoyed by a national show of unity in memory of the bloody 1970 food riots, independent trade union leader Lech Walesa said today he hopes to visit the United States by July.
Walesa, the 38-year-old leader of the Solidarity labor coalition, also said he will visit the Vatican Jan. 14 for

an audience with Pope John Paul II. Walesa announced his plans after the second day of Baltic coast memorial services that brought together hundreds of thousands of Poles and national leaders in a call for unity and renewal.

#### Violence Erupts In Iran

By United Press International Violent demonstrations have broken out in Iranian cities with protestors tearing up pictures of Ayatollah Ruhollah Khomeini and the religious leader said to be his successor, reports reaching London said today. Khomeini, in a statement issued from his office and read on Tehran Radio, urged the people of Iran to cancel a nationwide protest "in view of the present sensitive situation."

Tehran radio, monitored in London, also broadcast a statement by the Revolutionary Guard against bitterly attacking the country's "leftists, liberal nationalists and people intoxicated by the West."

Control should be a wat chword for pregnant women. Weight control ... gaining neither too much nor too little. Findings from an extensive health study (U.S Public Health Service) prompted the report that weight control during pregnancy can result in fewer fetal losses at birth or soon after delivery. Dr. R. L. Naeye, M.S. Hershey Medical Center offers the following weight gain guide for expectant mothers Women who are overweight at the onset of pregnancy pounds (around 16 lbs.) during the nine months Women with a normal weight should strive for a weight gain of between 20 to 26 pounds. Underweight women, depending on the degree, may need to gain at least 30 pounds. Consult with your personal doctor for a definitive guide

Actually it was a Lake Howell pass that Cusack stole and converted into a layup that sealed the final score at 77-74 in DeLand's favor.

The Bulldogs had moved to a slow-paced 33-25 halftime advantage before Lake Howell threatened throughout the second half.

Cusack finished with 11 points while Darryl DeShazier tied Silver Hawk Bruce Brightman for game scoring honors with 21 points each.

Mark Layton was close behind for the Hawks with a 20-point effort while Chuck Scott notched an even 10 points.

## The Definition Of 'Double Jeopardy'

It is particularly disturbing when the con-stitutional protections of the ordinary citizen are compromised by the U.S. Supreme Court, whose ultimate mission is to safeguard such rights.

We fear this is precisely what happened in an important decision handed down recently (U.S. vs. DiFrancesco) which held the constitutional protection against double jeopardy does not bar prosecutors from appealing a sentence they regard as being too lenient. In other words, if a defendant is found guilty and sentenced to 10 years of a possible 25-year maximum sentence for a certain crime and the prosecutor of the case thinks he should be sentenced to 25 years of imprisonment, the Supreme Court now says he can go for this by merely appealing the penalty to a higher court.

The decision, by the narrowest 5-4 margin, goes against a ruling by a federal appeals court in New York and, even more significantly, it goes against the Supreme Court's own precedent decisions during most of the nation's history. The court's earlier decisions simply upheld the Fifth Amendment's literal meaning that no person shall be subject for the same offense to be twice put in jeopardy of life or limb." Thus, our apprehensions about this are supported by history as well as high contemporary legal findings.

Specifically at issue was a provision of the Crime Control Act of 1970 that allows the government to appeal the length of sentence in narrowly defined circumstances. Writing for the majority, Associate Justice Harry A. Blackmun reasoned a prosecution appeal of a sentence is not a second trial and that an expanded sentence from a successful appeal is not a second punishment. He argued the double jeopardy provision was meant to bar the state's repeated attempts to convict after initial failure to do so.

But Associate Justice William J. Brennan Jr. in the minority's powerful dissent said, "the double jeopardy clause should preclude government appeals from sentencing decisions very much as it prevents appeal from judgments of acquittal." And he pointed out that, because convicted its often worry more about the length of their sentence than the fact of conviction, the majority was wrong to find the sentencing to be belief that they didn't need to form coalitons incidental and less important than conviction.

At a time when government authority is expanding over every facet of our lives, it is more resources. necessary than ever to guard against sudden encroachment over heretofore sacrosanct constitutional rights.

This is particularly true in judicial proceedings that have withstood every challenge during the economy have produced a profund shift away life of this country until now. In this case, the from blue-collar jobs in heavy industrry and Supreme Court's majority has indulged in sophistry when it assumed the cards are not stacked against a convicted defendant every time a prosecutor decides to go for a higher sentence within the judicial fraternity.

If doubling a sentence for the same conviction is not overturning the constitutional provision that no person shall be subject for the same offense to be twice put in jeopardy of life or limb," then we don't know what the definition of double jeopardy

## Labor Beyond Contracts

WASHINGTON (NEA) - After decades of generally avoiding involvement in issues that didn't directly relate to union business leaders of organized labor now are becoming activist promoters of numerous political

and social causes. That metamorphosis is largely a product of the changing of the guard within organized labor as a new generation of union leaders in their 40s and 50s replaces a hierarchy dominated by men in their 60s, 70s and older. Knowledgeable observers believe this change may be an important factor in labor's newfound activism because of the older officials' traumatic experiences stretching from the Red Scares of the 1920s through the McCarthysism of the 1950s.

"Time after time, they signed up as leaders of organizations promoting social justice, improved living conditions for workers and other causes - only to belatedly discover they'd been 'duped' because the groups were controlled or manipulated by the communists," notes one student of labor.

"They were badly burned and, in many cases, the scars never fully healed," he adds. "For decades afterward, they shied away from similar involvement — even though the threat of domestic communism had long since been dissipated."

Other observers of the labor movement cite additional causes for the recent shift in couraged an arrogant attitude typified by the

## SALT: Carter Misled Public?

WASHINGTON — New evidence has come to light suggesting that Jimmy Carter and Defense Secretary Harold Brown deliberately misled the American public on the SALT II

The SALT II agreement, now effectively dead, was on the verge of extinction even But Carter, trying to depict Ronald Reagan as a warmonger, kept bringing up SALT II as if it were the last, best hope of avoiding a nuclear holocaust. Brown supported the president with reassuring statements on the treaty's effectiveness.

At the same time, however, the defense secretary wrote a "top-secret, sensitive" memo to Carter that tells an entirely different story. My associate Dale Van Atta has seen a copy of Brown's memorandum, which shows Carter's campaign rhetoric on disarmament was pure hogwash. The president was told that SALT II, much less the fast-dwindling prospect of SALT III, would in no way lead to

The point to remember is that Carter was touting SALT II as a way of reducing nuclear weapons. Brown's top-secret memorandum pointed out that neither SALT II nor the hoped-for SALT III agreement would actually

reduce either nation's nuclear stockpile. "Reductions are important as symbols of progress toward 'real' disarmament," Brown told the president, "but they have serious drawbacks as a means of accomplishing strategic and SALT objectives, and are therefore inadequate as the primary obSALT II as a disarmament hope for mankind, his chief military adviser was warning that it might restrict the number of missile launchers, but not of missiles that could be

The best Carter could reasonably hope for, by Brown's estimate, was to put the brakes on before the presidential campaign really got a U.S.-Soviet nuclear arms race. Yet the SALT III would lead to a reduction in both nations' nuclear stockpiles. A serious deficiency in the SALT

agreements - whether II or III - is that they control only the number of missile launchers each nation possesses. These are the missile silos, submarine tubes and bombers that can send nuclear devices hurtling toward targets in the United States and the Soviet Union. But there has been no coverage of the number of missiles that can be stockpiled to feed the By speeding up their reloading capability,

the Russians can effectively double their nuclear missile capacity. "Measures a reduction in the nuclear arsenals of the two designed to control the number of missiles (not just their launchers) are needed ... to limit reload capabilities," Brown's memo Getting down to cases, the defense chief

warned that even if the Soviet Union agreed to limit its launchers to, say, 1,000, the lack of restraint on the actual missiles would still allow them to have as many as 11,000 nuclear warheads ready to go - roughly twice the number they have at this point. And that's just SALT II. As Brown's memo noted, even the proposed SALT III agreement

The Longwood City Commission gave final approval earlier this week in a 4-1 vote to establish a Code Enforcement Board for the city on a six-month trial basis.

Commissioner J.R. Grant cast the only opposing vote, saying code violators should be tried by judge and jury rather than by other citizens. It was pointed out by Commissioner John Hepp that offenders would be tried by their peers on a jury as well and their

only eligibility being they are registered to vote. "Just because they are in a court of law doesn't mean they know any more, "added Hepp." They still have the right to contest the board's The commissioners are scheduled to recommend members of the Code Enforcement Board at the next meeting of the city

commission to be held Jan. 12. The ordinance recommends, but does not require the board to be made up of an architect, a business man, an engineer, a general contractor and a Realtor. They must be registered voters and live in the city. The city attorney will advise the board and the cases will be presented by the city administrator. The board will only have authority to act on certain specified code violations such as the signs, building, mechanical, energy, fire prevention, flood prevention, swimming pools, noise, housing, plumbing, weed and refuse removal, trailers, and abandon wrecks ordinances.

Commissioner Bill Mitchell, who previously voted against the Code Enforcement Board, said he would "go along with it if it would get the city cleaned up for people who want to live in respectable neighborhoods.' "Those people (Code Enforcement Board members) are not going to go out and arrest people," said Commissioner June Lormann. Someone has to make a complaint and then the

violator will have a chance to correct the situation before they come before the board." Under a new law, Florida cities are permitted to establish code enforcement boards to handle city code violations and fill the gap left by the dissolution of municipal courts. accepted two petitions for rezoning and approved them on first reading at the same meeting. Ordinarily rezoning petitions are voted on and the attorney authorized to draw up an ordinance for reading at the next meeting, but this time City Attorney Marvin Rooks had been instructed in advance to have the ordinances ready just in 240 condos.

City Administrator David Chacey said the streamlining was necessary in deference to the fact because of the holiday, the next meeting would not be until Jan. 12 and with the high interest rates the delay would cause a hardship to developers. Rezoning was approved on first reading from B-1 (light commercial-professional) to RM (multi-family residential) for 16.014 acres owned by the First National Bank of Louisville and located on Rangeline Road directly behind 434 Plaza. Chacey pointed out the change would be better for the city as under the present zoning 525,000-square-foot could be in buildings in the project but under RM there would be a maximum of-square-feet allowed. Attorney Carmine Bravo, representing the developer, said they would like to build 210 to

A petition by Florida Residential Communities to rezone property north of Longwood Hills Road and both sides of Lake Emma Road from R-1 Residential and B-1 Light Commercial and Professional to R-2 Residential was also approved.

## **EDUCATION WORLD** The "Battered-Child-Athlete" Syndrome

By PATRICIA McCORMACK UPI Education Editor

The newest entry to the battering syndrome: the "battered child athlete." Dr. Richard M. Ball, on the faculty at Rutgers University College of Medicine and Dentistry in New Jersey, said the abused may include pee-wee swimmers on community and school teams, high school and Pop

Warner football players, and Little League baseball players— for starters. The battering - pushing too hard during training, for one - has led Ball, medical director of "Medical World News," to recommend that the nation's school boards and recreation departments consider asking parents of young athletes to sign "informed consent" forms.

He said the form should spell out the fact that the youngster may become a victim of the "battered child athlete" syndrome. "A fierce competitive spirit among grade school and high school athletes may be getting out of hand," he said.

Ball, also an orthopedist at Muhlenberg Hospital in Plainfield, N.J., focused on elements of the "battered child athlete" syndrome" in grueling training regimens for adolescent team swimmers. "Apparently many teen-agers are

## Rep. Kelly Giving His Side Of Story

WASHINGTON (UPI) - Rep. Richard Kelly, R-Fla., gets a chance today to present to the jury at his Abscam trial his defense that he was conducting an investigation and had no intention of doing anything wrong.

Kelly's lawyer, Anthony Battaglia, was scheduled to begin calling witnesses in an effort to refute bribery and conspiracy charges against the Florida Republican. Kelly, Eugene Ciuzio, of Longwood, Fla., and Stanley Weisz, of Smithtown, N.Y., are on trial for allegedly conspiring to take \$250,000 in exchange for Kelly's promise to introduce

pected to be named Seminole High School principal during a special school board meeting this afternoon.

After the board voted 4 to 1 to reject a temporary position that would have made Layer an adviser to Superintendent-Elect Bob Hughes, Layer said he would seek the Seminole High School principalship.

Layer said earlier that even though the opening will be advertised, the principal selection committee will nominate him and he will recommend himself for the position. Layer said the board can't really reject the recommendation

because he is on continuing contract. Ann Neiswender, assistant director of personnel, said today the board must put Layer in a principal position or pay him a principal's salary because he has tenure as a principal.

Layer has announced his intention to retire July 31, 1981.

If he is appointed principal, it will be for only seven months.

Advertising for the position will end at 4:30 p.m. today. The selection committee will meet late today to choose its nominee for the position, Neiswender said.

Besides Layer, the following people have applied for the position: A. Wayne Epps, Seminole High School assistant principal; Don Johnston, Crooms High School assistant principal; Frank Duncan, Lake Howell High School assistant principal; Raymond Gaines, Lake Howell High School assistant principal and William Borkowski, assistant principal

of New Milford, Conn., High School. The salary range for the position is \$29,629 to \$32,299, plus a supplement of \$500 for supervising the athletic program at Crooms High School. Layer's salary is currently \$38,350.

IN BRIEF

TALLAHASSEE, Fla. (UPI) - The Legislature will have \$1.6 billion to play with when putting together the next state budget and it's hard to think about tax increases with that much money. State economists predicted Thursday a \$1 billion growth in revenues from current taxes over the next two years, on top of a nearly \$600 million surplus that will accumulate by the end of the fiscal year June 30.

#### Potential Nominee Out

WASHINGTON (UPI) - Ronald Reagan's transition headquarters says there will be no more Cabinet announcements until next week, but one potential nominee has dropped out and sources confirm the president-elect has yet another controversial choice under consideration. With completion of the Reagan Cabinet lagging, Phillip Sanchez, former Nixon administration anti-poverty director who was widely reported to have a lock on the Housing and Urban Development post, told United Press International Thursday he asked to be withdrawn from consideration. At the same time, sources were reporting that a controversial Chicago educator was being considered for the Education Department.

Teamster To Avoid Conflict WASHINGTON (UPI) - President-elect Ronald Reagan's transition team wants to build a "hundredfoot wall" to separate Teamsters union Vice President Jackie Presser from any conflict of interest with the Labor Department. That assertion came Thursday in response to reports of alleged ties between Presser and

Fire Kills 12 Vietnamese SALT LAKE CITY (UPI) - The owners of an apartment building where 12 members of a Vietnamese refugee family - including nine children died in a roaring blaze were warned just two weeks ago that the building failed to meet a new city fire code, the fire chief says. Several of the victims had arrived in Utah from a refugee camp in Thailand less than 24 hours before the flames engulfed the three-story Avalon Apartments Thursday, Firemen found the dead piled on top of each other in a kitchen of the third-floor apartment. They were badly burned and the roof had collapsed on their bodies, said Fire Marshal Eldon Marshall. An exit was available in the kitchen, but they chose not to use it. "It looks like they just got scared

Chrysler Makes 'Progress' WASHINGTON (UPI) - The only reassuring word Treasury Secretary G. William Miller has so far for the Chrysler Corp. is that it is making "progress." The nature of that progress, Miller told reporters Thursday, is that the ailing No. 3 auto firm is still talking to the parties essential to working out a final plan to keep

#### it afloat - its workers, its banks and its suppliers. Mayors Seek Tax Boost

JACKSONVILLE, Fla. (UPI) - Mayors, city managers or their representatives from 11 Florida cities unanimously approved a resolution Thursday calling on the state Legislature to increase the state sales tax by one penny. According to the resolution, the additional revenue would be distributed among the cities to help relieve the property tax burden on them or to cover their general operating expenses.

#### State To Hike Gas Tax?

TALLAHASSEE, Fla. (UPI) - House Speaker Ralph Haben says the Legislature must boost the gasoline tax next month because it can't allow further deterioration of Florida's roads and mass transit systems. Haben asked Senate President W.D. Childers Thursday to join him in calling a special session in January when legislators will be in Tallahassee anyway for interim committee meetings. CAPE CANAVERAL, Fla. (UPI) - Astronauts John Young and Robert Crippen took the space shuttle Columbia through a make-believe re-entry today, working computer-simulated controls that took the stubby-winged spaceship out of mock orbit and to a landing on Earth, "It was a good run," said Young after the last of a series of four crucial tests that will determine whether America's first reusable rocketship can be rolled to its launch pad no earlier than Dec.

If the test results prove successful, a spokesman said, preparations will begin to roll the Columbia, now attached to its towering fuel tanks and booster rockets, out of the huge Vehicle Assembly Building to the oceansid: launch pad from which it is tentatively to make its first real trip to outer space March 14.

MIAMI (UPI) - A federal judge intent on making the government take custody of hundreds of Cuban refugees packed into the Dade County jail ordered two prisoners released for each one admitted as of Dec. 31. U.S. District Judge Alcee Hastings said Thursday he hoped the ruling would shift responsibility for the estimated 350 to 400 refugee prisoners, who have swollen the jail population from its maximum capacity of 846 to 1,104, to the federal govern-

In addition, Hastings said he would study a jail status report on New Year's Eve to decide whether to lift the order or "do something much more stringent." The judge also said he

would grant a motion by Dade County to bring in the federal government as a party in a long-standing lawsuit by jail inmates against the county to improve the jail and relieve overcrowding. "Dec. 31 will be a day of reckoning," said Hastings. "While I don't think that people who are miscreants have the right to live in the

Surprisingly, the base rate FPL charges for electricity has not increased since July, 1977, nearly three and a half years ago. Your electric bill may have gone up, but if so it may be because you're using more electricity, or because of the fuel adjustment, or both.

While FPL's base rate has remained unchanged, the fuel adjustment charge separately itemized on your bill has gone up. That's because the cost of oil, used to generate half your electricity, has gone through the roof and is reflected in the fuel adjustment. And FPL doesn't keep one penny of those fuel charges.

With no increase in base rate for three and a half years, we've had to cope with a spiralling increase in the cost of living of 46%\* We've managed so far by working successfully to increase efficiency and cut back every way we know.

VARA-TV, Holland's Socialist television station. decided to show viewers just how lucky they are. The station recently aired a "typical day" of American TV programming, designed to demonstrate the "Horrors" perpetrated by Freddy Silverman and company. The Amsterdam-based broadcaster exposed audiences to "Tic Tac Dough," "Gilligan's Island," "ABC's Wide World of Sports," "Love Boat" and similar Yankee abominations. One flae in the whole scheme though: The Dutch loved it. According to Variety, VARA's ratings doubled, wiped out

#### Threat Cancels Appearance

The popular musical-group, ABBA, was recently forced to cancel a German television appearance due to kidnapping threats. ABBA was originally scheduled to fly to Germany to tape the TV program, "Show Express," on Nov. 27. When German police received an anonymous tip revealing plans to kidnap the group and-or individual group members, Swedish and German authorities decided ABBA should not leave their native Sweden until the matter had been thoroughly investigated. Wanting to fulfill the terms of their agreement to appear on the TV show, the Swedish quartet arranged to perform via live

#### Johnny Carson Introduced McLean To Future Wife

United Press International CARSON PLAYS CUPID: Central Casting would never pick Johnny Carson to play Cupid, but that's what happened. Three years ago McLean Stevenson -Henry Blake on "M-A-S-H" reruns and more recently the star of "Hello Larry" — appeared on Carson's NBC
"Tonight" show. Stevenson complained about having
trouble getting dates. Carson introduced him, on
camera, to Ginny Fosdick, one of the show's talent coordinators. No one even-knew they were dating, but on Dec. 8 of this year they were married in Captive Island, Fla. Stevenson announced the wedding this week on the Carson show, Carson guipped, "Well, at

Maure explained her public relations responsibilities promoting the magazine. But when it came time for questions, students didn't stick to the subject. "Are you married?" a student asked. A groan went up when she said yes. Did she have any sisters? "I have one sister, but she's married and has a bunch of kids." Mrs. Maure said she did not feel posing nude made her sexually exploited. "I am now a businesswoman and I feel that I am more liberated than the average women's libber," she said.

## Two Winter Springs Men Held In Longwood Robbery

Two Winter Springs men were being held without bond Saturday in conjunction with the Oct. 30 armed robbery of Security First Federal Savings and Loan in Longwood. Timothy Paul Privett, 20, and Bruce Sidney Thorndike, 37, both of 211 S. Cortez Ave., were arrested Friday after two ndependent witnesses identified them, police said.

The witnesses said Privett robbed the bank and Thorndike drove the get-away car, police reports show. Clothing found after a search warrant served on the suspects' home Friday matched what witnesses say was worn by Privett during the robbery, police said.

Privett was also identified as the person responsible for bank robbery in Winter Park on Dec. 9. The getaway vehicle was also recovered at the residence. had been stolen from Lee County (Florida), police said. Thorndike was also charged with the theft of a 1980 Buick

Former Seminole County Commission office manager Dot Wade, who died earlier this year, was honored Tuesday in a special ceremony before the

A resolution presented by Commissioner Bill Kirchhoff praised Mrs. Wade as an employee "who often went beyond the call of duty and contributed significantly to the county" in her seven years of

Members of Mrs. Wade's family were on hand for the ceremony, including her husband Jimmy Wade. Wade said he wied to think of something to say but couldn't think of anything "...except what Dot would say. Thank you. Thanks to Betty Simcoe who gave her a chance. Thanks to Dick Williams for all of his help and to Roger (Neiswender) for just being there. "Dot once said she never met a commissioner she didn't like...just a few she didn't understand."

#### More Patients Allowed

Despite protests from area residents, the Seminole County Commission Tuesday voted unanimously to allow a convalescent center to increase its patient population from 14 to 17. The approval came with the stipulation the center, located on the south side of Cub Drive, one-third of a mile East of Bear Lake Road, remove a large, bright sign. The center owners, Mr. and Mrs. Lloyd Morris, also may not physically expanded the premises, the commission ruled. The approval overturns an earlier decision by the county's Board of Adjustment.

#### Commission Approves Bids

The Seminole County Commission Tuesday accepted

the following bids: - From Safety Lites, Orlando, for semi-annual requirements for traffic barricades and flashers for the Road Division. The firm was the only bidder to submit a bid in accordance with bid specifications. - From Brad Ragan, renewal of a bid to fulfill annual requirements for spring parts for vehicle maintenance for the Department of Public Works. - From Don Wood, Inc., for \$72,624 to furnish and install a central fuel facility and automatic fuel

dispensing system for the Department of Public - From Culvert Co., for semi-annual requirements for aluminum pipe. - From Weeks Equipment Co., for one engine analyzer for vehicle maintenance for \$7,290.

- From Nidy Construction Co., for construction of two tennis courts at Sanlando Park and repair and resurfacing of four existing courts at Red Bug Park for

#### Sewer Facilities Accepted

By appropriate resolutions, the Seminole County Commission Tuesday: - Accepted two sewer facilities into the county system. The systems serve Cedar Ridge Section II and Hunt Club Corners in Foxwood.

Released a building permit on property designated "marginal land" described as lots 8 and 9, Block 'E', Sanlando Springs subdivision. - Authorized advertising and letting of bids for fire station furniture as identified by Public Safety Director Gary Kaiser, Commissioner Bill Kirchhoff

#### Road Grading Authorized

voted against the measure.

By motion, the Seminole County Commission - Authorized emergency road grading in the city of Lake Mary for up to 10 days.

- Authorized emergency support services for the city of Oviedo to pick up debris ordered removed by the state Department of Environmental Regulation. Oviedo did not have the equipment to do the job and will pay the county for man hours and equipment use. - Authorized a refund of \$100 to Rep. Bobby Brantley, R-Longwood, for his political sign deposit.

- Reappointed Dr. Ned Johnson to the Orange-

Seminole-Osceola Transportation Authority.

- Authorized granting of Certificates of Convenience and Necessity to area garbage haulers. Such certificates are required before a garbage collector may operate within the county. The following firms were approved for certificates: Central Service Corp.; C & H Garbage Service; Davis Garbage Service; Industrial Waste Management, Inc.; Tri-County Corrugated, Inc.; Dan John Services, Inc.; Jim's Garbage Service; and Moore's Sanitation. At the request of Public Works Director Jack Schuder, the commission withheld action with regard to Dump All, Inc., pending further review.

#### 'Drowned' Boy Came **Back To Life Year Ago**

CHIPPEWA FALLS, Wis. (UPI) — Just one year ago, 12-year-old Darven Miller — pronounced clinically dead — came

He shuns talking about his miraculous recovery after being trapped under water for 50 minutes. He even punched a school friend who called him a star. "He doesn't want to be no one special," his mother said.

"He's a kid. He's happy. He remembers what happened, but he never talks about it." Darven fell into a creek near his home while sliding on the ice last Dec. 13. Rescuers tried in vain to reach the boy but soft ice prevented it. After dragging the creek with grappling

hooks, they finally snagged a piece of the boys clothing. Darven's pupils were dilated, his body temperature had dropped and he had no pulse. He was clinically dead, but drowning experts said a phenomenon called "mammalian diving reflex" saved Darven's life. They said his body cut off circulation to the arms and legs, and kept the blood flowing to his brain, where it was most needed to prevent damage. Doctors gave the boy injections of adrenaline and an alkaline solution, wrapped his body in a heating pad and jolted his heart with electrical current. Seventy minutes later, a blip showed

up on the electrocardiogram.

## Burt Reynolds Still Rules Box Office

macho male with a glint in his eye and a good-old-boy screen image, is king of movie box offices for the third straight year. Bachelor Burt has succeeded Robert Redford, who was No. 1

from 1974-76, as the country's favorite leading man. Bing Crosby, however, is the only actor to have racked up the honor more than three successive years. Der Bingle turned

the trick five times - from 1944-48. The annual poll of box-office champions is conducted among independent theater owners and theater chain operators by New York's Quigley Publishing Co. The exhibitors are asked to list the 10 stars who attract the

greatest number of customers to the turnstiles during the year. In this, the 49th poll, Reynolds led the pack as he did last year and the year before, due in no small part to the popularity of "Smokey and The Bandit II." Informed by UPI of his third selection, Burt Reynolds said, "Around this time of year there's a lot of talk about awards. To

my mind I've just been given the best award of all - the vote of "At a time like this when people are so concerned where they spend their money and who they spend it on, it leaves me more than staggered that when they go to movies I'm No. 1. It's

something I never, ever will take for granted." Redford was runner-up this year. His big pictures were "Brubaker" and "Electric Horseman," a 1979 release which remained a strong draw during 1980.

Clint Eastwood, a perennial in the top 10, placed third this year, although his only film was "Bronco Billy." Eastwood has made the charmed circle for the past 13 years, gaining on John Wayne, the all-time champ with 22 appearances in the top 10. Jane Fonda was fourth this year, dropping down from third place last year. In fifth place was Dustin Hoffman, still gathering crowds for "Kramer vs. Kramer."

Rounding out the top 10 were John Travolta (Urban Cowboy), Sally Field (an Oscar for "Norma Rae"), Sissy Spacek (Coal Miner's Daughter), Barbara Streisand and, BURTREYNOLDS Wins poll for third straight year.

Newcomers to the poll this year were Field, Spacek and Martin. Hoffman returned to the fist after having fallen out of the top 10 three years ago. Redford, who had no pictures in release in 1978 and 1979. popped up again after a two-year absence.

Fickleness of movie fans was reflected in the disappearance from last year's top 10 of Woody Allen who was No. 4 in 1979. He dropped all the way down to No. 23 when people stayed away from his "Stardust Memories" in 1980. Jill Clayburgh, who was No. 8 in 1979, toppled down to No. 14

Sylvester Stallone, No. 6 last year, didn't make it to the top 25 in 1980, nor did Mel Brooks (10 last year), nor Roger Moore (9

One hit picture can make all the difference for a performer. Stallone, for example, was No. 1 in 1977 because of "Rocky."

This year he disappeared. In 1977, also, "Star Wars" was the greatest box-office attraction in motion picture history. But it failed to land its stars - Mark Hamil, Harrison Ford and Carrie Fisher - in the poll. It was a fluke film in which the real stars were a pair of robots,

## NO WONDER PEOPLE ARE PAYING SPECIAL INTEREST TO "INTEREST/CHECKING" FROM FLAGSHIP

At a time when many financial institutions are introducing checking accounts that pay interest, people seem to be paying special interest to "Interest/Checking" sm from Flagship. Here are some of the reasons why:

1. With Flagship "Interest/Checking," your account balance earns 5-1/4% interest per year, compounded daily. Nobody

2. You have 24-Hour access to your account for deposit or withdrawals at convenient Flagship 24-Hour Jack locations.

3. You enjoy increased cash withdrawal up to \$200 a day at Flagship 24-Hour Jack locations.

4. You can cash personal checks on your account at over 85 offices throughout Florida at any of our Flagship locations.

5. You receive quicker treatment on Visa applications.

6. You have a choice of maintaining either a monthly \$1,000 minimum balance or \$2,000 average balance to avoid any service charge. A \$5 monthly fee will be charged for these accounts falling below the stated minimum and average balance.

7. You have the assurance that Flagship, unlike many financial institutions offering this service, has over 50 years experience handling checking accounts.

So why not consolidate your checking and savings into a Flagship "Interest/Checking" account. All the more reason to 

Under Federal law, complete services on interest earning checking accounts are not available until January 1, 1981, and only individuals, sole proprietorships, and non-profit organizations qualify. The service charge noted above applies only to individuals.

#### **Grapefruit Market May Gain** Florida's grapefruit market at fresh and processed should be materially stronger because of the 1.5 million

one-and-three-fifths-bushel-box supply slash in the USDA's Dec. 10 seedless crop estimate, United Growers said. The estimate lopped one million boxes off Marsh

white seedless supply and a half million boxes off the smaller, very popular pink seedless production. The small Duncan seedy crop increased 500,000 boxes.

"The cut must strengthen a current very firm seedless grapefruit fresh price for Indian River and Interior area growers. It should also improve the processed grapefruit juice outlook by reducing supply there because fresh grapefruit sales at export and domestically are ahead of last season," said Executive Vice President Wilson McGee of the Orlando grower organization.

The United spokesman said the "key" to the strong grapefruit price was in early increased fresh fruit shipments to Japan and Europe.

#### Extra Orange Squeeze Near?

An increase of two points to 88 percent in the squeeze factor for extracting juice from oranges to be processed at the beginning of a new season has been Meeting in Lakeland for the first time in the 1980-81

season, members of the council pointed to the fact that the ratio of natural sugar solids to acid would increase with the maturing of midseason oranges, thereby justifying a move upward from the factor of 86 percent in effect since end of the past season. The Florida Department of Agriculture and Con-

sumer Services Fruit and Vegetable Inspection Division was expected to follow the recommendation and put the new factor into effect.

#### California Shipments To End?

Florida Commissioner of Agriculture Doyle Conner has begun the process leading to a total quarantine on shipments of California fruit into Florida. The quarantine is a measure to protect Florida's fruit and vegetable industry from the Mediterranean fruit fly. which infests non-commercial trees in the Santa Clara-San Jose area.

Conner instructed Hal Jones, director of the Division of Plant Industry, Florida Department of Agriculture and Consumer Services, to draft a quarantine rule for a public hearing next month that would bar shipments of California truit by mid-February unless the fruit fly infestation is cleared up by then.

Jones reported that the California infestation "is out of hand" at present, and a suspect fly has been discovered in the San Diego area, about 400 miles from the core infestation. The San Diego fly suspect, a female, could represent a new infestation.

#### Banking Institute Week Set

Florida Governor Bob Graham has proclaimed Jan. 25-31, as American Institute of Banking Week in Florida. The week will conclude with the annual Florida AIB Chapter Leadership Conference conducted by the Florida Bankers Association's Institute Committee on Jan. 30 and 31 at Longboat Key,

Sarasota. The institute is the educational arm of the American Bankers Association and provides continuing education to bankers in Florida. Its purpose, to inform, educate, and train the men and women who work in banks, is achieved mainly through a network of autonomous local chapters, varied in size, structure, and emphasis, but all dedicated to the personal development of Florida bankers.

#### Unemployment Lines Grow

WASHINGTON (UPI) - Almost 4.1 million persons received unemployment benefits during the week ending Nov. 29, an increase of 615,800 from the previous

week, the Labor Department says. The increase came on the heels of the announcement last week that the number of people receiving unemployment checks during the week ended Nov. 22 had dipped to 3.5 million, the lowest point in 11 months. In all, there were 4,092,000 recipients of unemployment benefits in the latest report, 1,294,200 higher than a year ago.

## Blue Cross Slates New Health Policy

Special To The Herald
Blue Cross and Blue Shield of Florida, Inc., has announced that it will introduce a new Medicare Supplement health care policy that will meet or exceed all of the provisions of a law passed by the Florida Legislature last spring requiring certain standards of coverage for medicare supplement policies. This policy, officially to be called Complementary Coverage II, will cover the increased deductible and co-insurance for in-hospital care under Medicare to be effective January 1.

The Florida Plan has filed the new medicare supplement policy with the Florida Insurance Department. The new Blue Cross and Blue Shield Plan's complementary

coverage II policy will be offered to all the plan's 290,000 complementary coverage subscribers in Florida, as well as those Floridians reaching age 65, after January 1, at a cost of \$18.48 monthly. The rate is 13.9 percent higher than the present rate for current high-option complementary coverage subscribers. The percentage increase closely corresponds to the percentage increase in patient out-of-pocket responsibility under the new Medicare hospital deductible and co-insurance. The out-of-pocket costs will be covered by the new complementary coverage II program in 1981.

Current complementary coverage contract holders ages 65

In a massive consumer effort, Blue Cross and Blue Shield of Florida has established special toll-free information lines during the month of December for its 290,000 complementary coverage subscribers. The tollfree lines are to help explain the new Medicare supplement policy, complementary coverage II, the Florida Plan is offering effective January 1, 1981.

for hospital stays beyond 60 days under Medicare A will be fully covered. The new complementary coverage II policy will also provide the following additional benefits over and above the existing high-option complementary coverage policy:

1. When in-patient hospital coverage under Medicare Part A runs out, an additional 365 days of coverage at 100 percent will be provided by the Blue Cross and Blue Shield complementary coverage II policy. 2. There is no lifetime maximum dollar limit to hospital-

medical expenses under complementary coverage II. For medical expenses supplementing the Medicare part B program, the new Medicare supplement policy of the Florida plan will pay 20 percent of the Medicare B allowance for covered services after the annual \$60 deductible is met (Medicare B pays 80 percent of this allowance). The Florida plan's medicare supplement policy will not pay the \$60 annual Part B deductible.

Blue Cross and Blue Shield of Florida is the state's largest health insurer with an enrollment of 1.6 million subscribers. In addition, it serves another 1.5 million persons in the administration of the Medicare program for most areas of

There's an old cliche among veteran coaches, especially those that have just lost a game, that statistics are for losers. Granted, many a brew has been hoisted and volumes of vocabulary expended on the topic of how those numbers and percentages relate to winning and losing records. Statistics usually are for losers, but taking a gander at the first-half season stats from Seminole Community College's sterling's troops are currently sitting on a 12-1 record; including a present number one ranking among Florida's junior college basketball teams.

scoring average of 92.7 point per outing. In contrast the opposition is averaging 80.5 points per game. Where's the defense you say? How can a team be 12-1 by giving up 80 points a game? That's where a case of the stats is deceiving. SCC runs

The Raider run and gun style of play is evident in SCC's

from start to finish. SCC has the speed and depth to run from start to finish. And as the case has been in almost all of the Raider games this season, SCC spurts in three or four streaks throughout the game. Usually the spurts have come in the opening minutes, the start of the second half and the final five minutes of the ball game. That was certainly the case earlier this week when the Raiders found themselves trailing indian River by six points with seven minutes to play. The Raiders spurted the final five minutes to run away 97-79.

When you run and gun, you give up something on defense. But who can argue with a 12-1 record? Thus far in the season SCC has forced the tempo against the opposition, making opponents get caught up in the run and gun style of play. SCC's style has resulted in a .533 percentage from the floor. Forced to run, the opposition is shooting just .464 from the field. If the Raiders have a glaring weakness it has to be

ference is in the assist column. Sterling's squad has rolled up an amazing margin, out-assisting the opposition by a 301-183 mark. That's where that get-it-and-go style of play is paying off. The Raider talent is spread around, from the number one man down through the last guy on the roster. That spread is reflected in the csoring averages. Seminole High product Bruce McCray remains the team

the offensive boards, but only by a slim margin.

the last six games, SCC's rebounding problem will soon be solved also. Sterling also has eight other players that constantly chip in with five and six points each. And Sterling isn't afraid to go to the bench. On a few occassions it's been comical to sit at the press table and watch the startled look on the opposing coach's face when Sterling sends in five fresh players after the first five have run the opposition ragged

for seven or eight minutes. In practice scrimmages, either the first or second squad wins on a revolving basis. With all of that going for them, the Raiders have just one

It has to be frustrating for the players to walk in the gym and see a spaghetti-thin crowd on hand for home games. If SCC goes on to win the state junior college championship and makes a trip to the national JUCO tournament, it appears only a few will be aware of the accomplishment.

The Headmaster of Trinity Preparatory School, The Rev. Canon A. Rees Hay, has announced that the Board of Trustees had authorized him to direct a multi-million dollar Development Program for the school. Canon Hay, who in 1968 conceived and founded Trinity Preparatory School, will give full-time to the Development Program and business affairs of the school. To enable Canon Hay to do this, the Trustees appointed The Rev. H. Benton Ellis as Headmaster and Canon Hay as Headmaster Emeritus. The Development Program, as outlined to the Board of Trustees by Canon Hay, consists of the building of a gymnasium, a student center, administration offices, a chapel, facilities for expanding the school, as well as the establishment of an elementary school.

Secretary Climbs Up

Rags 10 Riches

J Herald Staff Writer This is just your typical rags-to-riches story. Her boss admits it but she is almost too modest to discuss it at all. It just goes to show what a lot of hard work can do when you make up your mind to stick with

As a U.S. Navy "brat" Sandra Herald had lived in many parts of the world and had even worked as a secretary in Japan during the time her father was stationed there. Returning to the states she had married, had two children and was working in the Bureau of Naval Personnel in Washington

The marriage was not working and when her parents was 17 years ago. She was divorced, had two children to support, and was unemployed.

Through the State Employment Office she was referred to a company in Winter Park that needed a secretary. Sol Schick had recently opened his financial planning firm and was struggling to make a go of it. He hired Mrs. Herald and started her at \$250 a month, much lower than what she was earning in Washington.

Mrs. Herald took the job but she was not impressed, not knowing a thing about the field of financial planning and management. "I was young, afraid and everything else." she did not like the boss. She did not expect to stay with the company for long.

Schick told her to hang in and things would get better. "If I do well," he said, "you'll do well." She

stuck with him and did her best to learn the business. That was 17 years ago. Schick and the business did well, and he kept his promise. Mrs. Herald was recently named vice president of S.F. Schick and Associates Inc. and will assume

responsibility for 30 percent of the firm's approximate \$6 million annual volume. The firm provides financial planning and investment services, primarily to physicians in the Central Florida area. They currently represent approximately 300

Withoutany college training, Mrs. Herald studied medical practicement management manuals, took insurance courses and put in many hours at home studying and learning the business. When dealing with her clients Mrs. Herald will

collect their financial data, set up their office management procedures, designs insurance and pension programs, and will act as liaison between builders, contractors and the physicians whenever a new office or building is designed and built. She will work with architects in designing and developing office sites, and handle many of the business matters that normally take up much of a

physician's time. Handling their professional and private financial investments is another part of the firm's service. Real estate planning is their primary endeavor, and Mrs. Herald has become familiar with handling investments in land, groves, buildings and apartments.

From \$250 a month she has done well, as her boss promised. Mrs. Herald and her two children live in Tuscawilla in the Country Club Villas. She drives a new Mercedes and, according to Schick, has a paycheck to

Each morning Mrs. Herald jogs three to four miles, depending on the weather, then gets ready for work. Her daughter, Kimberly, 15, attends Lake Highland Academy and does volunteer work as a candy striper at Winter Park Memorial Hospital. Wayne is 17 and attends Oviedo High where he is active in sports. He also enjoys working on automobiles. After seeing the children make it to school and

helping with a car pool, Mrs. Herald goes to work where she "slaves all day." The hours can be long since, in addition to working with the firm's clients, she manages her own office, handles the accounting and administrative chores between clients and the firm. She tries to free Schick's

time for sales work and for generating new business. Three times a week she works out at a Nautilus center and tries to play a little tennis. Crewel work and stitchery are other interests, but usually after work Mrs. Herald says she just "goes nome and dies." While it was not a career she deliberately chose for

herself, Mrs. Herald has worked hard at it and has

become a success. It has become a profession that she

"eats, drinks and breathes." The monetary rewards have been good but her primary satisfaction comes from clients who call and ask for her personally, knowing she can help them

solve their problems through her own efforts. It has been hard work; it has meant many long hours learning the job, making contacts in various fields and doing it on her own. But now she can handle her part of

the business and does it well.

She knows it, her boss knows it, and the clients know it. She likes the fact that "people know you're not a dummy."

## Pair Wed 74 Years Advise: Learn To Give And Take

By CHARITY CICARDO Herald Staff Writer

People today practice being married, being divorced, living together and even swapping their mate for someone else's. People aren't getting married with a love that'll last a lifetime - only if the money lasts that long, too.

Defying all odds, a couple who have lived in Sanford only two months, celebrated their 74th wedding anniversary Tuesday. "Most people wish they could live to be that age, let alone be married that long," said Jackie Quick with a smile. Jackie along with husband Roger operate the Bowl America on Airport Boulevard. What does a bowling alley have to do with someone's an-

The Masons came to Florida last year to participate in the Golden Age Games. They liked it so well in Sanford and felt the people were so nice, they decided to move to Florida. In October, the Masons moved to Sanford and again Jim

participated in the Golden Age Games. In fact, he was the

oldest participant in the games. And of course, one of the events he entered was bowling. "He really enjoys games," said Alta Mason, a very petite lady who still loves being a hostess." I don't fike games too well, although I do play cards sometimes," she said.

The couple lives at Brams Tower. In just two months they have found many friends. Among those are 56 members of the Hurrican League, a senior citizens league formed during Hurrican David in summer 1979. The Masons belong to the
