### China Objects To Foreign Assistance

NANKING, July 29, (P)—Representatives of the Democratic League told Lieut, General Albert C. Wedemeyer today that the Chinese people are bitterly opposed to have foreign assistance. posed to any foreign assistance which would likely prolong the civil war "whether it comes from the United States or the Soviets."
Lo Lung Chi, league spokesman, told newsmen after a conference with Wedemeyer's American fact-finding mission that he was con-vinced the investigation was impartial "but we are more interested in what happens after they

return to Washington." . In Shanghai, the Daily Chen Yien Pao editorially accused the United States, through the med-ium of the Wedemeyer fact-find ing mission, of "interference in China's domestic politics."

### Kaiser's Claim

(Continued from Page One) hell have you been doing?" Kaiser continued.

Kaiser said the letter to Pres ident Roosevelt caused top Navy officials to "reverse" themselves. "I got an order for 100 air carriers," he said. "All hell broke build destroyers. Finally they cancelled orders for 50."

The baby aircraft carriers have been credited by the Navy with playing a major part in the winning the war. Karser swung into the story of them as Ferguson pressed a line of questions aimed at uncovering whether Mr. Roosevelt had a hand in award of the plane contracts to Kaiser and Hughes.

. Under this question, Kaiser said "it would appear" that the President "left a note" (presumably to Navy officials) about the car-But he said he knew of no such

the flying boat proposal.
Chad F. Calhoun, a Kaiser aide,
sat beside the industrialist while he testified, occasionally supplying an answer to Kaiser. Fergu-son finally had Calhoun sworn as a witness and then asked him whether he knew of anybody in Washington who was "giving Mr. Kaiser the brush-off."

"I most certainly do," Calhoun replied. "Mr. William Batt and Mr. Merrill Meiga."

Batt is a former WPB vice chairman. Meigs was one time chief of WPB's aircraft division.

Martin, whose engineers designed the 140-ton Mars flying boat, said that five yearwago yesterday Kaiser came to his Baltimore plant and said he was interested in forming a company to build 500 of these craft.

Kaiser, a ship builder, with no previous experience in the aircraft field, suggested that five of the largest companies, including Martin's, combine to furnish engineers and capital for a venture he would direct, the witness said.

"He said there would be a good profit, in it," Martin commented, adding that his company at that time was interested primarily in fulfulling contracts for the army and navy for other type ships and sought only a "reasonable profit."

Senator O'Conor (D-Md) asked what Kaiser proposed to contribute.

Martin said that if five companies agreed to share in the venture, Kaiser said he would furnish one-sixth of the capital.

"He said he could get the order for the ships and I probably could not get the order," Martin continued. "He said he could get the order wasn't within my reach or that of the other airplane manufacturers, but he could get the order."

# Against 900 Railroads

WASHINGTON, July 31. UP)-Attorney General Clark in a new complaint today accused more than 900 railroads of collecting "unjust and unreasonable" rates on wartime shipments of steel airplane landing mata.

The action was filed with the Interstate Commerce Commission. The government is asking reparation for alleged overcharges on the landing mats moved from Eastern shipping points to Pacific Count ports between Jan. 1, 1942 and June 30, 1946.

The Justice Department an-nouncement said "thousands of carloads" of landing mats were involved. The petition to ICC states the exact amount of money sought to be recovered is "not present ascertainable."

The complaint is another in a series which Clark has made befreight charges.
