## Troop Movements Presage Trouble In Russo - Jap Affairs

### Soviet Report States Japanese Army Has Approved Plan To Take Over Railroad

TIENSIN, Apr. 27.—(A.P.)—The sudden withdrawal of Japanese troops from the coastal area of North China was attributed by Chinese leaders today to trouble brewing between Russia and Japan in Manchuria.

An Associated Press dispatch from Moscow told of a Soviet report that the Japanese army in Manchuria approved a plan to seize the Chinese Eastern Railway from Soviet hands.

The Chinese assert the firm stand taken by Russia in protecting the railway and the seizure of troops by Manchurian guards forced Japan to send its army north.

The railroad was built by Russia and jointly operated by Russia and Manchuria.

PEIPING, Apr. 27.—(A.P.)—The Chinese and Japanese armies fought a bloody battle today near Nanhsiowan, a Great Wall pass north of here. Japanese artillery and air bombers pounded the Chinese positions with slight effect and the Chinese succeeded in halting the Japanese advance. It appeared that the Chinese are putting up the stiffest resistance the Japanese have encountered south of the Great Wall.

## Federal Order For Return Of Gold Is Posted In Sanford

Posted in a conspicuous place in the Sanford postoffice and the Sanford-Atlantic National Bank today is a large placard declaring that "Under executive order of the United States, dated Apr. 25, 1933, all persons are required to deliver on or before May 1, 1933, all gold coins, gold bullion, and gold certificates now owned by them to a Federal Reserve Bank, branch or agency, or to any member bank of the Federal Reserve System."

The executive order forbidding the hoarding of gold coins, gold bullion, and gold certificates, states that all persons must deliver gold to a bank before May 1, except in the following cases:

(a) Such amount of gold as may be required for legitimate and necessary use in industry, production or art within a reasonable time.

(b) Gold coins and gold certificates in an amount not exceeding in the aggregate \$100,000, or to any person and gold coins having a recognized special value to collectors of rare and unusual coins.

Whoever willfully violates any provision of the order may be fined not more than \$10,000, or, if a natural person, may be imprisoned for not more than 10 years, or both.

SENATE OKAYS LOCAL BILL  
The Senate of Florida today passed House Bill No. 400 introduced by Representative K. J. Holly, and conferring the acquisition of certain property for an aviation field. The Senate also passed House Bill No. 399, also offered by Mr. Holly, providing for the conveying of title to certain tax collecting lands in Sanford.

OUT OF DANGER  
HOME—Mr. and Mrs. Barley Warrington, Jr., of New York, arrived in Sanford yesterday afternoon in an ambulance. April 19, was reported out of danger after a private clinic, where they are recuperating.

TWO SHOWN  
FERNANDINA—W. C. Dixon and Leslie Martin, both of Jacksonville, were shown yesterday when the small boat in which they were fishing overturned at the beach.

## BONUS ISSUE PUSHED INTO RELIEF BILL

### Advocates Strive To Force Members Of House To Declare For Or Against It

WASHINGTON, Apr. 27.—(A.P.)—The drive of House advocates for cash payment of the bonus issue suddenly halted today pending action by the Senate on the cash bonus amendment by Senator Robinson, Republican of Indiana, to the farm relief bill. The cabinet group named by the President to work out his public works program was called together to begin drafting a measure which will probably be the last of his major domestic rehabilitation proposals.

WASHINGTON, Apr. 27.—(A.P.)—The bonus question pushed into the congressional inflation situation yesterday with advocates of cash payment, obtaining Democratic support to force House members of the party to bind themselves either for or against payment.

That advance, however, is not to be used until after a conference today with Speaker Rainey and Representative Byrnes, the Democratic leader, and maybe not then. In the Senate Robinson, Republican of Indiana, yesterday introduced a proposal that new money issued under the pending inflation legislation be used to pay the bonus.

What he called an effort to "get the sentiment of the Democratic leaders and House majority," Representative Patman, Democrat of Texas, and 10 other House members circulated 11 petitions to force a party caucus Monday night to consider the bonus.

"We have more than the 25 names required by rules of the Democratic caucus," Patman said. "My information is that we already have from 100 to 150."

The petitions will be presented to party leaders today in a discussion on whether enactment of a bill to pay the \$2,000,000,000 bonus in raw currency would upset the administration's program.

After that meeting, the bonus advocates will decide whether to present the petitions to Chairman Lea, Democrat of California, of the caucus, who said if the petitions were presented he "could do nothing but call a meeting Monday."

"We feel," Patman said, "that in these days of talk about currency expansion we should consider the best way of distributing the money. It is our contention that it can best be distributed through the veterans."

Dismissal Granted  
Bill For Enjoining  
Curator Of Estate

Following an all-day hearing at his offices in the Court House on Tuesday, Circuit Judge J. M. Smith granted an order discharging a bill, brought against him by attorneys for Leona Anderson, for an injunction to enjoin G. W. Spencer from acting as curator of the estate of Sam Jones, local fish and poultry dealer who died infestate some days ago.

## HOUSE WONT AGREE ON FLAT 5 AND 10 TAGS

### Also Refuses To Pass Bill Eliminating Poll Tax Payments In Primary Polls

TALLAHASSEE, Apr. 27.—(A.P.)—The Senate today twice refused to pass the five, 10, and 15 dollar automobile license tag bill with one calling for tags at flat rates of five and 10 dollars while the House debated proposed elimination of poll tax payments.

Proceeding with special consideration of the five and 10 measure which had been submitted for the administration bill calling for tags priced at five and 10 dollars, the Senate first defeated the amendment by Senators Gelsen and Sikes who sought to have tags cost five and 10 cents.

Afterward the Senate again defeated a move of five and 10 dollars when it voted down another amendment by Sikes. The House finally refused to pass the committee bill to eliminate poll tax payments as a requirement for voting in primary elections and sent the matter back to committee.

Proposal for a 10 percent tax on admissions in all places of amusement was made in a bill introduced in the Senate yesterday by Andrews of Greenville and Parker of Mayo. The revenue would be turned into the general treasury.

Among other bills offered in the Senate was one by the appropriations committee to appropriate \$25,000 annually from the state treasury for purchase and distribution of hog chera serum. Senate and House committees on citrus fruits yesterday announced a public hearing for Monday at 9 P. M. to consider proposed legislation affecting the citrus industry. Three bills will be considered—a new green fruit bill; one providing for use of arsenic on citrus trees, and a bill to repeal the present arsenic law.

Hearing To Be Held  
On Montezuma Hotel

Tomorrow afternoon at 2:00 P. M. Circuit Judge Millard B. Smith, sitting in his office at the County Court House, is scheduled to consider an application made to him by M. A. Smith as liquidator for the Bank of Oviedo for permission to lease or sell the Montezuma Hotel, property now listed as an asset of the bank.

It is understood that a group of Lake County persons are considering the purchase of the property, a combination hotel and sanitarium. Mrs. Pearl Hensell has operated the hotel for the past several months. She stated some days ago that she expected to petition against the sale of the property.

Two Killed, 9 Hurt In  
Blast Wrecking Home

RAVENNA, Ohio, Apr. 27.—(A.P.)—A terrific explosion wrecked the home of Edward Rock, barber, late last night, killed Mrs. Rock and Silas Eldridge, 70-year-old watchman for the state highway department. Nine others were injured and windows were shattered over a wide area. Rock was not at home at the time of the explosion but returned shortly afterward.

Securities Bill Is  
Reported Favorably

WASHINGTON, Apr. 27.—(A.P.)—The administration bill to regulate the sale of securities finally emerged from the Senate banking committee today with a favorable report after weeks of study and revision. The House began consideration of the administration's \$2,000,000,000 home mortgage bill under the rules that permit an amendment but limit general debate to an hour and a half.

SWISS TO KEEP GOOD  
BERNE—The Swiss cabinet, after long discussion of the gold situation, announced yesterday that Switzerland would maintain the gold standard and that the United States situation would not cause any change in Swiss monetary policy.

## Roosevelt Willing To Talk Debt Revision After World Economic Parley In London

### WARNING ISSUED ON USE OF LEAD, ARSENIC SPRAYS

### U. S. Agriculture Department Publishes Bulletin On Topic

J. C. Hutchison, sales manager for the Sanford Oviedo Truck Growers, Inc., today calls attention of local growers and shippers to an important bulletin issued by the United States Department of Agriculture in relation to the use of lead or arsenic for spraying of crops.

"Some of our farmer friends will probably be surprised that there is a danger in using lead as well as arsenic," Mr. Hutchison comments. "They are probably well educated, however, regarding the use of arsenic and since I do not think they use lead except in lead arsenate, it is doubtful if any lead is being used. The contents of the article should be of interest to every grower."

The article he refers to is as follows:

"Notice to growers and shippers of fruits: The world tolerance of 3.01 grains arsenic trioxide per pound of food will continue in effect during the seasons of 1933. Experience has shown that with careful adherence to recommended spray programs and the application of appropriate spray residues removal methods this tolerance can be readily met."

Lead is more poisonous than arsenic. Its use under conditions which will leave any residue at time of marketing should be abandoned at the earliest possible moment. The Department and cooperating State agencies are earnestly studying the possibilities of developing safe lead-free spraying materials. Pending the development of such substitutes, protection of the public health demands that lead residues be held to the lowest possible point. Beginning with the 1933 shipping season, fruits shipped within the jurisdiction of the federal food and drug act containing lead in excess of 0.014 grain lead (7/16) per pound, will be subject to seizure and the shippers to prosecution.

Those who contemplate using lead arsenate on fruit in 1933 should choose cleaning methods which are efficacious in the removal of lead as well as arsenic. The lead problem should be avoided entirely wherever possible by the choice of spray materials which do not contain lead.

In turning to other insecticides the question of their possible effect on health should not be overlooked. The substitution of fluoquin compounds for arsenicals has been urged as a solution of the spray residue problem. There is adequate evidence to establish the deleterious character of certain fluorine compounds and reason to look with suspicion upon all such compounds. The presence of fluorine spray residues on fruits shipped within the jurisdiction of the federal food and drug act will be regarded as a basis for action under that law.

Stillman Called By  
Federal Grand Jury

NEW YORK, Apr. 27.—(A.P.)—James Stillman, former president of the National City Bank, was subpoenaed to appear this afternoon before the federal grand jury which indicted Charles Mitchell, former chairman of the bank, for alleged evasion of the income tax. It was indicated that Stillman is to be questioned about important data bearing on his income derived from the National City Bank and the National City Company.

QUAKE TOLL MOUNTS  
ROME—Newest casualty lists from the earthquake torn Sardinia islands off the coast of Asia Minor, placed the toll at 74 killed and more than 400 injured today. The greatest damage was on the island of Kos.

### France Sees Stable Currency Big Need

PARIS, Apr. 27.—(A.P.)—Foreign Minister Briand today said that no effort must be spared in aiding the stabilization of other countries' currencies as financial experts saw France heading toward a three-power pact with the United States and Great Britain for that purpose. Mean, Premier Daladier is said by friends to be accepting to pay the defaulted debt installments due the United States.

### Kiwanis Aims Are Stressed In Talk By Harvey Freeman

The six objectives of Kiwanis International were stressed before members of the local club meeting in the Montezuma Hotel yesterday by District Lieutenant Governor Harvey Freeman, of Orlando, in a talk which was the highlight of the program.

Kiwanian Freeman had met earlier in the morning with the officers and directors to discuss increasing the membership and plans of a similar nature. His talk before the luncheon group was full of references to the need for personal interest in the objectives of the organization.

An attractive feature of the meeting, Miss Clifford Shindler, member of the Seminole High School faculty, introduced a quartet of young boys who entertained the Kiwanians with songs. The quartet was composed of John Lightfoot, John Cozman, Joe Cowart, and Robert Anderson.

### Plays To Be Given Tonight By Little Theater Members

Little Theater players from several Florida cities were gathering here this afternoon to make ready for their part in the third annual state Little Theater one-act play tournament which opens at the Sanford Woman's Club building at 8:00 o'clock tonight.

Four plays are scheduled to be presented tonight, while four more will be staged tomorrow night. Following the last presentation Friday night, judges of the tournament will announce the name of the winning play, and the outstanding player, and the trophies that are being competed for, will be presented shortly after.

The first play acted is that of the Sanford Little Theater group. The play's title is "Skillful" and Mr. H. M. Papworth is the author. The cast includes Mrs. R. L. Glenn, Mr. and Mrs. Arthur C. Gentry, W. H. Hoffman, Miss Mary Highton, Maxine Stewart, Robert Hightman, and Alex Sharon. F. C. MacMahon is the director of the play, and Mr. Hightman is in charge of the setting.

### TEACHERS AGREE TO ACCEPT DELAY IN THEIR WAGES

### Will Continue Teaching Despite Chance Of No Pay Till Fall

Advised that their salaries for the eighth and ninth months of the school term may be delayed because "Expected revenues for the operation of schools have been delayed," every white and colored teacher in the schools of this county has, since Monday morning, agreed to render his or her services "With full confidence that the authorities will pay us at the earliest possible moment."

Under instructions from the Board of Public Instruction, T. W. Lawton, secretary of the Board, wrote to every principal in the county and asked that teachers be called together and notified of the possible delay.

Mr. Lawton's letter to the principals explains the "Expected revenues for the operation of schools have been delayed and will be further delayed by the legislature's action in extending to June 1 the period in which taxes may be paid without becoming delinquent, an action which automatically postpones until August the tax sales. The percentage of taxes collected to date has not given us sufficient funds and at the same time appropriations from the state are considerably short. This means that it is probable there will not be sufficient money with which to pay salaries of teachers at the close of the eighth month which begins on Apr. 28."

"The Board of Public Instruction is unwilling to permit the teachers to enter upon their duties for the eighth month without their knowing in advance that the time of payment for this month is problematical, and may be deferred for two or more months. Any teacher, or teachers, not personally willing to serve for the eighth month knowing that payment may be postponed for some time should not be encouraged to sign the enclosed agreement. It is difficult to know whether it is better to shorten the term or to ask the teachers to wait for the majority of the teachers prefer not to sign this agreement by the term of such school will end at the close of the seventh month.

"It is possible that sufficient funds will accrue before June 30 to take care of all salaries, but the board prefers not to make a definite promise in the matter except to state that the salaries will be paid just as soon as possible."

Here is a copy of the agreement which each principal and teacher was asked to sign:

"We, the undersigned principals and teachers of the \_\_\_\_\_ school, recognizing the fact that failure of anticipated school revenues has resulted in inadequate funds with which to operate a school, and realizing the loss that would be suffered by the pupils if our school term is shortened, hereby willingly agree to teach the full 'eight month' term with the understanding that our salaries may not be paid promptly for the eighth month and may not be paid until the next school year. With the understanding that these salaries will be paid just as soon as funds are available, we agree that we will not worry or distress the board or superintendent about the deferred payments but will patiently await payments with full confidence that the authorities will pay at the earliest possible moment."

### R.H. Gore Expected To Get Puerto Rico Post

WASHINGTON, Apr. 27.—(A.P.)—President Roosevelt intends to name Robert H. Gore, of Chicago and Florida, as governor of Puerto Rico. Gore is the publisher of newspapers at Daytona Beach, Deland, and Fort Lauderdale and was closely identified with the Democratic national campaign. His early nomination is in prospect.

### World Truce On Tariffs May Be Expected Pending Convening Of Conference

WASHINGTON, Apr. 27.—(A.P.)—President Roosevelt is willing to consider war debt revision after the world economic conference but it was emphasized authoritatively today at the White House that he has not entered into any agreement for the postponement of the June 15 payment nor laid down any plan of debt settlement.

Simultaneously at the State Department, Secretary Hull indicated to reporters that a world truce on tariffs pending the convening of the London conference in June, is under consideration and that the United States is favorably inclined toward it.

As for future war debt revision, Hull was dropped at the White House that this subject might be gone into considerably at the conclusion of the world economic parley which convenes June 12. Meanwhile it was said that the President still expects the June 15 payments to be made.

United action by the United States, France and Great Britain toward reaching an agreement on the long troublesome problem of disarmament was indicated in Washington last night as an outgrowth of the White House conversations between world leaders.

At Geneva, Norman H. Davis, American ambassador-at-large, told the disarmament conference that the United States is ready to do big things to maintain peace whenever Europe indicates decisively she is ready to reduce arms.

After nearly five days of conferences with President Roosevelt over the world economic situation, Prime Minister MacDonald, of Great Britain, left Washington for New York on his return trip to London. Both stressed the need for new international agreements, including tariff reductions and higher silver prices.

Immediately thereafter, President Roosevelt and Edmund Herriot, former premier of France, began a series of talks looking toward an accord on disarmament which may include American agreement to consult with other nations in the event war is threatened.

A vote on the administration's inflation legislation was postponed until today by the Senate after Senator Robinson, Republican of Indiana, proposed that the soldiers' bonus be paid with new currency which may be issued under the fiscal program.

Senator Glass, Democrat of Virginia, a former secretary of the treasury, broke with the administration on the legislation. He said he would vote against the inflation amendment and the farm bill itself, to which inflation proposals are attached as a rider.

At New York the stock market worked irregularly higher but trading was quieter. It closed firm with transfers for the day aggregating \$900,000 shares.

While Roosevelt and Herriot talked over a luncheon, Prime Minister Bennett of Canada and his associates conferred with a group of American officials headed by Secretary Hull on the economic problems common to the United States and Canada.

IMPORTANT MEETING HELD  
Members of the Agriculture Committee of the Seminole County Chamber of Commerce today were notified that there will be a special meeting of the committee in the trade body office on Monday night at 8:00 o'clock. P. Dornier, chairman of the committee asks each member to "make a special effort to be present, for matters of utmost importance to the farmers of Seminole County will be taken up."

BROWN GAIN  
ROANOKE, Va.—The Norfolk and Western Railway today showed a gain of \$283,008.91 in net income for the first quarter of 1933 as compared with the same period last year.

### Leesburg And New Smyrna Join Central Florida Loop To Make It 6-Club Affair

Final arrangements whereby the Central Florida Baseball League was transformed from a four-club league into a six-club league were completed at Leesburg yesterday afternoon when a representative group of business men, after a whirlwind campaign during which they raised almost \$200 in public subscription, posted their \$1000 deposit with Peter Schmid, league secretary-treasurer, and announced that they will be ready to play baseball tomorrow afternoon.

Postmaster S. L. Hayes, who is the New Smyrna manager and league director, had already made arrangements to enter a team from that city, and today he was playing a final workout of the New Smyrna Crackers who will open the season in that city tomorrow afternoon with the Cocoa Red Sox.

League directors approved a new schedule which had been drawn up by Mr. Schmid and voted to discuss the 1933 season officially with teams played last Sunday. Games played on Sunday, Apr. 16 and Thursday, Apr. 20, are considered as practice games, and as a result of victories last Sunday, Daytona Beach and Cocoa tied for the league lead with one victory and no defeats, while Leesburg and Orlando are in the cellar with no wins and a defeat each.

The second half will open July 2 and close on Thursday Sept. 7 with the post-season series scheduled to start on Sunday, Sept. 10. Here is Sanford's schedule for the remainder of the first half:

Apr. 27 visit Daytona  
Apr. 30 home Orlando  
May 1 visit Leesburg  
May 4 visit New Smyrna  
May 7 home New Smyrna  
May 11 visit Daytona  
May 14 home Daytona  
May 17 visit Orlando  
May 20 visit New Smyrna  
May 23 home Daytona  
May 26 visit Leesburg  
May 29 home Daytona  
May 31 visit Cocoa  
June 3 visit New Smyrna  
June 6 visit Leesburg  
June 9 visit Daytona  
June 12 home Orlando  
June 15 visit Daytona  
June 18 visit Cocoa  
June 21 visit Daytona

Officials of the league are particularly gratified over the entry of the two new cities for they believe that baseball fans in this section will be treated to a league season that will compare favorably with that played in organized professional baseball.

Leesburg, one of the most enthusiastic baseball towns in Florida, is planning one of the strongest teams in the league. The list of players eligible for Thursday's game includes practically every bit of available talent in Lake County, while in announcing the signing of Emil Yde, former Pittsburgh hurler who has

### EXHIBITION GAME LOST BY LOCALS TO DELAND TEAM

#### Slugging Of Visitors Overcomes Sanford Outfit 7 To 3

After pitching effective baseball for six innings against a team of reputed sluggers, Cal Dennis, veteran local right-hander, let down long enough at Municipal Park yesterday afternoon to be nicked for enough hits to lose a 7 to 3 decision to the DeLand Reds in an exhibition game played before a small crowd.

Dennis was on even terms with Lefty Gene Fisher, former University of Florida hurler, during the early part of the game, but then among the leading pitchers in the Pacific Coast League for the past three years, Leesburg officials present league fans with probably the most outstanding player ever to appear in the league.

Yde has lived at Leesburg near his old friend and team-mate, Lee Meadows, for the past several months. He considers himself as a hold-over from organized baseball, and declared yesterday that he will not report to Hollywood until a salary difference has been adjusted. Last year he won 17 and lost nine games in the Pacific Coast loop, and batted .385 to be among the leaders.

He also stated that he will take his regular turn on the mound, "to keep in shape," and that he expects to have Lee Meadows rounded into shape for an occasional game some time after July 1.

### Sound Currency Is Called Great Need By James Farrell

PITTSBURGH, Apr. 25.—James Farrell, former president of the United States Steel Corporation, told the national foreign grade council today "we are in a transition stage that promises substantial progress toward an international understanding and settlement of major questions bearing on the world economic situation."

"Our manufacturers have not lost their skill or capacity to produce on a competitive cost basis," Farrell said. "With the revival of finished manufacturers again will be in demand and will constitute a chief item of our export trade. The most pressing need at present is the establishment of sound currencies in all countries."

Yde's record in 1926 brought him 14th in the standings of the hurlers, with eight wins and seven defeats. In 1927, Yde appeared in but nine games for the Pirates, winning one and losing three. He made a final appearance as a World Series player late that fall when he ran for Catcher Smith in the fourth and final game of the series in which the Yankees swept four straight games from the Pirates.

Yde yesterday announced that the "class" players on his club this year will include W. V. Buckles, old Sally and Florida State League star; Bill Brasler, one-time Florida State League manager and a leading batter and outfielder, and Tom Knowles, hurler who had a good year in the Three-Eye League last year.

The remainder of the Leesburg line-up is as follows: Ralph Pennington, Fernie Pennington, Archer Porter, T. O. Perry, E. Vance Jones, N. C. Chamberlain, C. L. Speck, Raymond Mears, A. J. Johnson, Sid Herlong, Jr., Nash LeGatta, Jr., A. O. Brown, Abney Medlin, Wm. Fisher, Joe Ludwig, and J. D. Cox.

Yde's record in 1926 brought him 14th in the standings of the hurlers, with eight wins and seven defeats. In 1927, Yde appeared in but nine games for the Pirates, winning one and losing three.

### ALLEY OOP—Our Prehistoric Ancestor

Sanford Herald

Published every afternoon except Sunday at Sanford, Florida. 111 Magnolia Avenue. Second class postage paid at Sanford, Florida, under act of Congress of March 3, 1907. ROSELAND L. DEAN, Editor and Manager. HENRY H. BELL, Managing Editor. SUBSCRIPTION RATES: Yearly, \$7.00; Six Months, \$4.00; Three Months, \$2.50; Single Copies, 10c.

On The Other Foot

Senator Long of Louisiana, who has gained as much notoriety by his unsavory political activities in his own state and in the national capital as by his outspoken and vitriolic denunciation of any and all who get in his way, has recently shown that he doesn't like his own medicine. To use a well-known expression, "he can dish it out, but he can't take it." Some time ago in the halls of Congress the self-styled "Kingfish" denounced as a crook and other mean things General Ansell who had just completed an investigation of Long's election to the Senate. Very magnanimously Long stated he would waive all immunity granted a senator for what he might say. But when the General instituted a suit for slander, the Louisiana invoked his immunity privilege with all the alacrity of a small boy "running for cover."

More recently a group of people from Long's home state petitioned the Senate to investigate charges, in no unmeaning terms, reflecting on the moral character and political activities of their senator. The charges were read in the Senate and published in the newspapers, whereupon Mr. Long contended that the communication was privileged, meaning that it could not be published by newspapers with impunity. What the "Kingfish" has forgotten is that he is no longer merely the czar of a ruthless state political machine which can muzzle all opposition, but is a national figure in which position he cannot lambast everyone without drawing a little fire himself. In fact, Senator Long is just beginning to feel the significance of the adage: "People who live in glass houses shouldn't throw stones."

We have a sneaking suspicion that from here on, the volubility of the Senator will decrease in direct proportion to his mounting realization that he may be made to swallow some of his own words. When the Senate committees and the Treasury Department get through with investigating his political activities and charges of income tax evasion, he will probably wish that he had had sense enough "to let well enough alone," before it was too late.

The German Censorship

The Hitler regime has placed a new conception on the functions of the press. According to Paul Joseph Goebbels, minister of propaganda and elucidation, it "should be an organ upon which the government could play." This interpretation is diametrically opposed to the conduct in the past of the German press which has been conspicuously endowed with the right to criticize and always represented every divergence of political, social, and economic thought. This condition no longer prevails. The press is paid, muzzled, suppressed, and controlled so that it applauds every action of the new dictator and his followers. Only one newspaper in Germany has had the temerity to speak out against boycotting Jews, and everyone is wondering what will happen to it. The whole process of news dissemination is in the hands of the government. The news agencies are controlled, the cables of foreign correspondents are censored, even the moving pictures are propaganda agencies, so that the people have no means of finding out anything Hitler does not wish them to learn. One cannot help but sympathize with the efforts of a people to lift itself out of the morass of political uncertainty and turn to one figure to lead them, but it would be much more assuring for ultimate success of the German "revolution" if a free and unrestricted publication of news were permitted. There is always something sinister about censorship. It leaves one with the feeling that "there is something rotten in Denmark", or else there would be no objection to the facts being known. Until the bars are let down against the freedom of the press, which really means freedom of speech, we cannot expect much good to come out of Germany's present experiment.

SANFORD, TWENTY YEARS AGO

The May festival of the Primary School will be held on the Sanford House lawn Thursday afternoon at 4:30 o'clock. The May Queen, Margaret Zachary, and her attendants, will review the pretty pageant from the throne amidst the green bower. Among those who will take part are: Emma Spencer, Mildred Holly, Irma Smith, Katherine Turner, Mary Elizabeth Puleston, Olive Newman, Catherine Sykes, Margaret Stockton, Clifford Louis, Shinholser, Ethel Goodwin Perkins, Morgan McClelland, Roy Howard, Robert Jenkins, Edward Brady, Dick Terhune, Waverly Abernathy, John Bramley, Jimmie Cowan, Clarence Winn, Clyde Hodges, Leon Holmes, Albert Collins, Joe Albisson, and Ralph Carpenter. The Sanford delegation has returned from Tallahassee and announced that the bill creating Seminole County passed the Senate last Thursday without a dissenting vote. Senator Donagan, having the rules and his fellow senators granting him the usual courtesy on local bills. Almost before the Sanford delegation was aware of the fact the Senate had accomplished the next step in division and thus came the enrolling and engrossing and all the other matters so essential at the Capitol in making bills into laws. Through the good work of Forest Lake, Speaker Ferris and President Drane signed the bill and it was then given to the Governor who also signed. Upon their return the following Sanford men who made up the delegation were entertained with a turkey dinner at the Sanford Hotel: Hon. Forrest Lake, V. P. Forester, D. L. Thurston, Charles Hall, A. T. Rossett, O. E. Walker, S. C. Dickson, W. E. Hester, E. J. Woodruff, W. F. Hill, H. J. Hill, W. W. McInnes, R. E. Hill, J. A. Miller, J. P. Williams, J. Williams, J. Williams, J. Williams.

George H. Fernald, A. E. Fatio, B. G. Smith, E. A. Douglas, H. C. DuBose, A. P. Connelly, H. McLaughlin, G. F. Smith, N. H. Garner, W. F. Shelley, M. F. Robinson, L. R. Phillips, and Thomas K. Bates. Boteler Will Handle Standard-Bear Brand Howard Boteler, head of the Boteler-Jackson Co., of Sanford, returned from Baltimore, Saturday with the announcement that he has been named as the Central Florida distributor for "Arrow" beer, one of the standard brands of pre-prohibition days. He will be distributor of the product for Seminole, Volusia, Brevard, Orange, Lake and a part of Ocala counties. Mr. Boteler formerly handled "Arrow Special" near-beer, here for the past nine years. He stated that "if and when we are permitted to sell beer in Florida, I expect to have at least one car-load in Sanford within 10 days." Discussing conditions in and around Baltimore, where he spent a week, Mr. Boteler said that except for the increased activity with the business since beer was brought back to Maryland on Apr. 6, "conditions are deplorable. We people down here don't know how lucky we are, and we can be thankful that we went through all of our troubles and bank failures long ago."

MOONEY'S TRIAL IS POSTPONED AS CROWDS SHOUT

Judge Rules Continuance Until Public Feeling Dies Down SAN FRANCISCO, Apr. 27.—(AP)—The about of a crowd—"We want Mooney!"—into the very of Superior Judge Louis H. Ward as he approached the Hall of Justice moved the jurist yesterday to continue the newly-granted murder trial of Thomas J. Mooney, convicted Preparedness Day parade bomber, "until this feeling dies down."

While proclaiming his willingness to give Mooney "a trial upon the facts and merits of the case," Judge Ward warned the defense he would not be a party to the "retiring or constitutional grounds upon which it might seek to free the noted prisoner from his confinement of 16 years ago. He decreed that the cheers and howls of the crowd, penetrating even into the courtroom as he spoke, would be prejudicial to fairness.

Frank P. Walsh, veteran defense attorney, assured Judge Ward he would not use the case as an entering wedge upon which to base a new fight to free Mooney, but said if in the course of the trial anything new and substantial to his case should develop he would expect to reserve his rights. Walsh decried the demonstrations but asserted he was unable to stop them. He suggested police action. Prior to that prosecution, represented by Assistant District Attorney William Murphy, informed the court it would present no evidence, not even testimony to establish the death of Arthur Nelson, bomb victim named in the indictment. District Attorney Matthew A. Brady, who long has favored a pardon for Mooney, opposed the idea of a new trial but Judge Ward, in granting it recently, overruled the prosecutor. Facilities for a full trial, long sought by the defense on the theory that a possible acquittal now would morally strengthen Mooney's fight for freedom, had been arranged. Walsh had come from New York and John F. Pinerty, a new addition to the defense legal battery, from Washington.

Hours before the opening of court a crowd began to assemble in Portsmouth Square, a public park across the street from the Hall of Justice. Mounted police encircled the building. Mooney banners began to appear. Police mounted, hurried the low concrete wall of the park and were guided to and fro in the crowd to separate it. A Mooney sympathizer began to speak. Officers restrained him and he finally went with them by search of Chief of Police William J. Quinn, hoping for permission to address the crowd, which numbered about 300. Quinn was out of reach and the man returned and began speaking. Police tore down the banners and scattered the crowd. No arrest was made, although one man was held later on a disturbance charge.

The crowd retreated to the side of the square a block from the Hall of Justice, with Mooney's sympathizers congregating in saloons as close as possible to the hall. A shout and a cheer from them greeted Mrs. Mary Mooney, mother of the prisoner; Mrs. Rosa Mooney, his wife; and Miss Alma Mooney, his sister. Judge Ward said that if it were necessary to give Mooney an immediate trial, "this court could call upon the whole police force, swear in deputies and even call upon the National Guard."

Local Chess Club Papworth Gives His Ideas About Refunding Bill

Organization of a Sanford Chess Club with a charter membership of 22 lovers of the game was effected in the office of DeCottez and Spencer on Tuesday night. Slips also were taken to enlist all these players in this vicinity as members of the club, including all who wish to earn the game. George A. DeCottez was elected as president of the club, and H. W. Houk was named secretary-treasurer. It was decided that memberships will be free of cost, the only charge to be made being a 25 cent monthly payment which will cover incidental expense of arranging tournaments and matches with out-of-town teams. Under present plans, meetings will be held every Tuesday night in the library of the DeCottez and Spencer offices in the old Seminole County Bank building at First Street and Magnolia Avenue. Tentative arrangements have been made for the staging of a tournament with Orlando, Jacksonville, and Tampa chess teams. The public is invited to seek membership in the new club. There will be three classes of players—those who are more or less expert, those who will make a return to the game after a long absence, and those who wish to learn the game. A teacher will be recruited from the membership.

Among those attending the meeting were: Mrs. Bertha Tackach, Mr. and Mrs. B. C. Moore, R. M. Burns, W. H. Schmidt, H. W. Houk, A. B. Levey, Dr. C. J. Marshall, Dr. G. S. Selman, Felix Frank, A. J. Lossing, and George A. DeCottez. Several applications for admittance to the Grove were accepted, after which the following officers were elected: Past Guardian, Mrs. Paula Ehrlich; guardian, Mrs. J. J. Cates; adviser, Mrs. Alice Carraway; auditor, C. B. Radd, chairman, Mrs. H. H. Slaughter, Mrs. Mattie Knight; assistant auditor, Mrs. Eunice Ray; chaplain, Mrs. S. Edie Collins; inner sentinel, Mrs. E. S. Knight; outer sentinel, Miss Vera Phillips; reporter, Miss Mildred Knight. Before adjournment it was decided to hold meetings twice each month, on the second and fourth Friday nights.

Officers Elected At Woodmen Meet Wednesday Night Election of officers and the conferring of a degree upon several local women comprised the business brought before members of Woodmen Circle Grove No. 287 who met at the Woodmen Hall last night to entertain Miss Myrtle Olla Crump, of Tampa, state manager of the organization. Miss Crump presided over the meeting and conferred the ritualistic degree upon the following candidates: Mrs. Alice Carraway, Mrs. Paula Ehrlich, Mrs. J. J. Cates and Miss Carol Vining.

Coast Line Ad Gets Citation For Merit

JACKSONVILLE, Apr. 27.—An advertisement for Florida and the Atlantic Coast Line railroad, prepared by the passenger advertising department of the rail line, has been chosen by Millie Record, national advertising magazine, as one of the 50 best published last year. The ad, which appeared in the American Golfer and Golf Illustrated, widely distributed magazine, exploits Florida, depicts a golfer, and lists the Atlantic Coast Line's service to the state. The Millie Record's analysis stated in part as follows: "This delightful message is a rare example of perfect emphasis. The eye rests at once upon Florida, Atlantic Coast Line and the virile figure of a golfer. "These three points are so admirably fixed that all three attract the attention at practically the same instant. The text sets forth clearly the details of the service and without elaboration presents a strong invitation."

It is a notable fact that our City Commissioners are opposing Governor Shalt's House Bill No. 150, for what reason? They apparently are opposed to rendering any assistance to our citizens, which would enable them to pay the back taxes on a basis of 50 per cent cash and 50 per cent in municipal bonds. At this point let me ask if anybody can state in what other way will our municipal bonded indebtedness be reduced? "A few years back, I was opposed to the action contemplated by Mr. Frank Miller and Mr. Bob Newman, when they were on the board of City Commissioners, simply because I disliked the talent of the word "repealers" and based on promises that were made to me personally in New York and Jacksonville as to what the bondholders committee intended to do for the good of Sanford. I am sorry now that I opposed the intentions and wishes of those City Commissioners. I realize we can expect little, if anything, from the bondholders committee that would be beneficial to Sanford. "Complying with your invitation that tax payers file correspondence in your 'forum' column, I am submitting this communication for your consideration; and, if worthy of publication, I would suggest to our citizens the advisability of signing a petition requesting our representatives at Tallahassee to support House Bill No. 150, in the event nothing more beneficial to the citizens of Sanford be submitted."

THOUGHTS and THINGS

THE business of living, when boiled down and all the froth skimmed off, is just a matter of thinking.

Each of us is continually thinking ideas of our own and swapping them for the ideas of others. If there is a famine of outside ideas we shrivel up ourselves. Children with "nobody to play with" are unhappy and unmanageable.

From thinking with our heads to doing with our hands is but a little step and then our thoughts become things.

It is because men of America are so unfettered in their thinking and doing that this country is such a fine place to live in. It is also because these thoughts are freely radiated and spread broadcast in the distribution of manufactured things and in the distribution of the facts about them (advertising), that this country is such a fine place to live in.

The originator of an idea is not much better off than before he originated it till he gets some one else to absorb it and enjoy it and benefit by it.

The man or woman surrounded by better thoughts and things but who pays not the slightest attention to them is not much better off than the one with "nobody to play with."

The advertisements in the papers are thoughts—telling you about things that other men and women have created for your happiness. Read the ads. They are the voices from hundreds of thousands of looms, shops, foundries, studios, laboratories, where millions of minds are turning pleasant thoughts into worth-while things for your comfort.
