Harris—Eddie Collins, famous Major League ball player, who will appear in Sanford next Monday as a member of the Philadelphia Athletics who play the Indians in an exhibition game. Collins will be seen here in company with Ty Cobb and Zack Wheat, two other baseball stars of the past decade or more.

### BUSINESS HOUSES TO CLOSE DOORS FOR BALL GAME

Crowd Of 1,500 Is Expected To Witness Game Between Mackmen And Indians; Cobb, Collins, Wheat To Be Present

All stores and business houses of the city are expected to close Monday afternoon at 3 o'clock to allow business men and their employees to see the baseball game between Indianapolis and Philadelphia at Municipal Field. The game is to start at 3:30 o'clock and is expected to be witnessed by at least 1,500 persons.

Members of the Campbell-Los Angeles post of the American Legion, under whose auspices the game is to be staged, called at the offices and stores yesterday with a petition asking the 3 o'clock closing. In nearly every instance their request was complied with.

The game is to be the featured one of the exhibition series of the spring training season in Sanford-Philadelphia, carrying a roster of some of baseball's most famous players, will arrive here Monday morning. The Indians, who have been in West-Palm Beach for a series with Cincinnati, are to return Saturday morning.

Eddie Collins, former manager of the Chicago White Sox, is to be a second base for the Athletics. Ty Cobb, former manager of the Detroit Tigers, is to play center field. Zack Wheat, major league star for almost as many years as Collins and Cobb, will also be in the outfield.

Connie Mack, manager of the Athletics, guaranteed Legion officials that all his first string men would be used. Collins was at one time a member of the Athletics back in the world championship days.

The game has been advertised all over central Florida and on the east coast and Monday morning is expected to bring hundreds of fans from other cities. The Municipal Band is expected to furnish music for the occasion.

At noon today Hogan was still in jail, although determined efforts were being made to secure bond for his release, it was said. He is said to claim that he was "framed" and that the charges are false.

Policies In Enforcement Of Dry Act Uncertain As Haynes Takes Office

WASHINGTON, March 25.—The campaign for an attendance of 1,000 at Sunday School on Easter Sunday is making much progress, according to officials of the Baptist Sunday School. Each Sunday is showing larger attendance than the preceding Sunday, and this Sunday's offering is expected to break all records.

F. E. Gatchel, chairman of the publicity and steering committee, is displaying Sunday morning for the first time the banner which will be given to the class making the greatest gain in attendance. At present the T. E. L. class leads with the T. E. L. class having held the lead since the contest started.

A feature of the plan for drawing 1,000 to Sunday School on Easter morning will be announced at evening service on Sunday, according to Dr. F. D. King, pastor of the church. At that time the several classes comprising the Peoples' Adult Department will be present for the service, which will be known as "Sunday School Night."

It was announced that R. A. Weston, prominent local Sunday school worker, will give a short talk at the Sunday Night meeting.

DAYTONA BEACH, Fla., Mar. 25.—(INS)—A still northwest wind with heavy surf today aided plans of Major H. O. D. Steele for his mystery car test not far from "Tuesday." Mechanics working on the car and it probably will be in perfect shape for the test.

Anal-Saloon League could overrule both Mellon and Andrews and bring about Haynes' appointment, his policies may likewise be established in the treasury. The League never has been friendly to Mellon or Andrews, favoring a more spectacular enforcement program.

Nobody would venture a guess whether Haynes will hold the job permanently. Neither Secretary Mellon nor Andrews cleared up this point despite repeated questions.

High officials were doubtful as to the continuation of the policies of enforcement established by Andrews, in concentrating the government's attack on the big sources of supply and leaving the "little fellows" to state and local enforcement officers.

## Ruthven McDonald and His Highlanders Popular Chautauqua Attraction

An outstanding feature of the coming Repath Chautauqua will be Ruthven McDonald and His Highlanders, one of the foremost single organizations of the day.

This popular company was organized in the Dominion of Canada and within a few years have magnificently organized it, presenting a remarkable organ-like tonal quality of their ensemble work and excellent individual artists.

Splendid as the company is in the condition of numbers of general musical worth, ranging from grand operatic selections to old Scotch ballads, it also excels in the presentation of scores of a humorous character. In a matter of fact, the program is calculated to bring many an unexpected laugh.

Ruthven McDonald, who heads the company, is a noted harpist, cantante, and one of the most resourceful musicians before it.

This is a distinctive company whose appearance here will be one of the most enjoyable features of the entire Chautauqua.

## Yale Seniors Not Strong On Sport, Dislike Dry Act And Partial To Mussolini

NEW HAVEN, Conn., Mar. 25—(INS)—A Yale senior class has recently appeared that prefers dallying to sports, a Phi Beta kappa key to the Varsity "Y" carded in athletic. Such was the case of the senior class that will graduate next June, though the Sheffield class that passes out of Yale on the same day prefers the "Y" to a Sigma Xi charm.

Yale college seniors voted Smith-Vassar as their favorite woman's college, Harvard as next to it, and Mussolini as their ideal. The world's greatest character, they voted Thomas A. Edison, and William Howard Taft as the living men they most admire. Yale college seniors do not believe in prohibition. They believe English. The most valuable study of psychology, the least valuable they are certain the Freshmen in college is the worst to come.

Sheffield Scientific school seniors agree with the College crowd to Mussolini, but they think Princeton ranks next to Yale and prefer Smith to all other women's colleges. Their toughest war was the sophomore and their easiest the senior.

Episcopalians lead all others numbers at Yale, which presumably was why an Episcopal tryman has been called as pastor of the University church. The senior classes that graduate

next June have a total of 111 Episcopalians as against 45 Presbyterians, 48 Congregationalists, 30 Roman Catholics and 22 of Jewish faith. The classes have 17 agnostics, and 22 who profess no religion.

Russell L. Post of Hartford Conn., was voted as having done most for Yale, as being the most likely to succeed, and the hardest worker. Philip W. Bunnell, of Scranton, Pa., is the most popular, the most admired and the most modest. Guy Richards, of Windmere, L. I., is the most versatile, most original, wittiest and most entertaining. John H. G. Pierson, of New York, is most scholarly and most brilliant, while the best all-around athlete and the best looking student is Lawrence M. Noble of Syracuse Washington, is most gentlemanly.

James O. Flower, of Pittsburgh, has done the most for Yale, is the most admired and the best dressed of all Sheffield seniors. The most brilliant and the most likely to succeed is Fisher M. Starr, also of Pittsburgh, while another from the same city, James V. Scarfe, Jr., is the most thorough gentleman and the greatest social light. Herbert C. Sturzahn, of Hartford, Conn., is the most popular Sheffield senior and Rupert R. McGinley, of Winton, Mass., is most original, wittiest and most versatile.

J. S. KNOCKS OUT COURT FEES OF JUDGES OF OHIO LIQUOR SHORES

Supreme Court Puts End To Practice Of Squire Tribunal In Buckeye State

Irish Government Offering Bill To Limit Licensed Places To Sell Whiskey

COLUMBUS, O., Mar. 25—(INS)—The lucrative trade of being a squire of the peace, the mayor of a village and presiding over the municipal or "mayor's court" in Ohio has come to an abrupt end, as a result of a recent decision by the United States Supreme Court.

And throughout Ohio, in the villages and rural precincts, the "quires" and mayors are weeping real tears of regret for their 10,000 a year incomes gone glimmering.

The Supreme Court held that the Ohio law under which these petty courts were created was unconstitutional, because the "judge" received a split of the fees and fines collected from defendants, and were therefore not receiving the constitutional guaranteed trial by an unbiased tribunal.

Practically, here is how the thing has worked out for years in Ohio.

**Balliffs As Balliffs**

A major or justice of the peace in a village on the outskirts of the larger cities of the state would retain a dozen or more husky "raiders" as balliffs or constables.

Unrestricted as to jurisdiction, hundreds of raids upon the private "rum joints" as they were popularly known would conduct scores of citizens, under authority of search warrants issued at their request by the magistrate to whom they worked.

Finding the slightest evidence of possession of liquor, or any suspicion, these constables would nail the possessor into the village court, where the justice or mayor could usually assess a fine ranging from \$200 to \$1,000. The "judge" and the raiders would divide the fat fees resulting from these cases with the county or village.

A similar method of operation is used in the connection with the rents of motorists. If the do-

**Government May Fall**

With the fate of the Bill in hand up the immediate fate of the Government. And its fate will depend upon whether the electorate regard it as a fair and equitable means of reducing the superabundant "hotels" in Ireland or whether it is looked upon as sheer confiscation.

In its main provision the Bill divides the Free State in 310 areas, for licensing purposes. Twice a year the police will apply to a Court in the area for the extinction of saloon licenses in excess.

In each area a fund will be started to which each licensee holder will contribute, which compensation will be paid to a saloon keeper deprived of his living. The scheme will be that for every \$100 awarded a saloon keeper deprived of his license, the remaining license holders of the district become liable for \$17 for the next twenty years.

**AUBURNDALE**—N. W. Hart to establish furniture factory in this city.

Defendants could not or would not pay the fines, they were "permitted" to work them out at the rate of \$1.50 a day.

IT IS recorded of this well-known British author that he once remonstrated with a friend for having sent him a publication from which the advertising pages had been cut. "Why, you have thrown away the most interesting section!" Mr. Kipling said.

ADVERTISEMENTS are more interesting today than at any time since the invention of movable type. Merchants and manufacturers realize that their announcements must compete for interest with the work of the high-priced authors and illustrators.

If you are not a regular reader of the advertisements in this paper, this is a good time to cultivate their acquaintance. You will find them interesting. You will find them friendly. They show you where to stop and take considerable strain off both shoe-leather and pocketbooks.

READ the advertisements because they are interesting. Believe them because they are true. Act upon their suggestions because it will pay you in many ways. Before you pick up the telephone, you usually consult the phone-book. Before you start out to shop, consult the advertising columns of this paper. They will give you a direct connection with the merchandise you want.

Don't stop with reading the news and editorials. The advertising columns are equally important.

### Two Boats Standing By Crippled Steamer

KEY WEST, Fla., Mar. 25—(INS)—The navy tug Brigade and coast guard patrol boat 224 which sailed from the port last night were reported today standing by the freighter Colorado, U. S. shipwrecked vessel enroute to Europe from Galveston, which has been aground eight miles off Sombrero lighthouse since late Tuesday.

Efforts of the grounded freighter to float herself with the high tide last night were fruitless.

The wrecking tug Willett has sailed from Kingport to go to the assistance of the Colorado.

## Some Beautiful Homes

Are planned for Highland Park and will be under way as soon as the local money situation has loosened up and builders are able to finance them.

### EVERYBODY SAYS

That no building sites in Sanford can be compared to those in Highland Park, and what everybody says must be so.

### WHERE CAN YOU FIND

Any other location with so many attractive features and so free from every objection?

### THE NEXT BIG LAND BOOM

Is scheduled for Southern Texas and is said to be now under way.

### FROM FAR AWAY CORPUS CHRISTI

Comes a request for blue prints of the Highland Park Main Entrance, by a developer there who says he drove all over Florida a few months ago, that he found no other main entrance so beautiful and he wants permission to duplicate it there. Imagine how beautiful it will be when the many ornamental shrubs and vines that have been planted all around it have had time to grow!

### HUNDREDS OF TOURISTS

have kodaked this Main Entrance and Rainbow Pool and Garden, and hardly a day goes by that out of town or local people do not use these as settings for group pictures of the occupants of the cars that come to Highland Park for that purpose.

### WHEN YOU ARE READY TO BUILD

A home conforming to the high ideals along which Highland Park is being developed, you can buy one of these beautiful building sites at such a reduction in price as will go a long way toward paying for the house. Or you can arrange for terms that will greatly help you to finance it. But these concessions are for a short time only, are intended to stimulate immediate building of the right kind, and will be withdrawn as soon as building is well under way. I have hundreds of building plans, with costs figured, and these are at your disposal.

### YOUR HOME IS BUILT FOR YOUR LIFE TIME

And perhaps for that of your children and your children's children. Build it after your own plans. Cut out the builder's profit, even though he build at the present low prices, and do not forget that a house built, even a few months ago must be sold at a tremendous reduction on its actual cost and without any builder's profit at all to bring its cost to you down to what you can yourself build for today.

## An Important Office

The time is rapidly approaching when the directors of the Chamber of Commerce must select a new president for the ensuing year. This choice must of necessity be a careful one. 1927 is proving itself to be a crucial year in the history of Sanford and a man should be at the helm of this important civic body who can guarantee an active but sane administration for the coming twelve months.

The new president should be a man of keen business acumen as he will find it a difficult financial matter to inaugurate and complete any sort of a program on available funds. In order to be assured of this quality it might be best to select someone who has made a success of his own business and whose reputation for integrity and honest methods remains unquestioned.

The new president should be a man of character and bearing, capable of smoothing out little rough spots which may have developed between possible factions in the commerce body. He should possess a certain good fellowship which might aid him in governing an organization apt to be distraught with petty personal prejudices.

The new president should be a man of character and personality who can command the respect of all with whom he comes in contact. Presiding over a chamber of commerce is no small task and should be entrusted only to a man capable of reflecting credit, by his manner of conduct and address, upon his organization and his community.

There are in Sanford a number of men who most admirably fill these qualifications. There is no dearth of leadership material in this city. We could name offhand at least fifty men who would make excellent presidents for the Chamber of Commerce. Unfortunately, however, many of them are eliminated by important personal business matters which afford them insufficient time for other activities.

Others have the time, and should, for the sake of their city, spare it to the most important civic body. There is no abler man for executive positions in the city than J. G. Ball, who made an enviable record as the first president of the Chamber of Commerce. The always popular Bob Holly is another who has both the time and the ability to give to this office. Ed Higgins is a shrewd business man who qualifies in every way for the presidency. H. R. Stevens would be an excellent choice. S. O. Chase is another business man who could strengthen the commerce body by giving to it some of the wisdom and insight which have made him so successful.

There are others too with no less ability, but there are some the election of whom would be the grossest kind of folly. Much of Sanford's welfare in 1927 depends upon the man selected for this important office. Be sure the choice is a good one.

## Canine Distress

Time was when "leading a dog's life" meant something. It meant being kicked about from one place to another, subsisting on refuse from garbage cans and dirty water from mud puddles. It meant seeking sheltered sidewalk corners on cold nights and stealing into shady rose gardens when a sweltering sun caused wearisome panting. It meant misery and loneliness.

But conditions for the dog have changed. He has been elevated to a prominent position in the community ranking far above chickens, cows, hogs, mules and cats. The work of the humane societies and information regarding dogs disseminated by "Dumb Animals," and "Spur," have aided greatly in keeping him from being under-fed and from the continual nuisance of scratching fleas. Indeed "leading a dog's life" has come to be something to make one envious.

For that reason story in the New York World is all the more remarkable. It says that Jack Gilbert, a black and white Scotch terrier, with an apartment at the fashionable Britton Hall, Broadway, climbed to the roof of his hotel and with a last disparaging wag of his tail, committed suicide by jumping to the sidewalk many stories below.

Just what could have been the incentive for the dog's unfortunate act, is uncertain. He was not known to have been the victim of an unhappy love affair. He was not unduly worried over financial matters as his estate was said to be in excellent condition. Nor was he of a morbid disposition or inclined to be neurasthenic. His health had been excellent.

Mr. Somerville, who shared the apartment with him, indicated that the influence of student suicides might have been the cause. Mr. Somerville said that he had been accustomed to read the newspapers aloud and that the dog had shown a more than ordinary interest in the accounts of student deaths. The dog was, furthermore, something of a student himself having gone through Columbia University at one time.

Whatever the motive of the dog's unfortunate act, it just goes to show that everyone has his troubles and that it's better to scratch than to try to starve them to death by committing suicide.

UP NORTH, WE think pretty well of a state that can keep out of debt, have fifteen or twenty million dollars in its treasury, collect ten million in gasoline taxes, and spend fourteen million dollars of the state's money on highways, and I hear it will be more in 1927. You haven't begun to develop the lands you possess. Florida can be a garden for the whole world and in every acre, and can grow fruits, vegetables and flowers.—C. W. Barron, of the Wall Street Journal.

THE TABLOIDS AND DIVORCE  
REVIEW OF REVIEWS

Will the extremes to which some papers are going in the publication of lurid details of divorce proceedings force the United States to follow the lead of Great Britain and France in forbidding by law the publication of all divorce news?

Judson C. Weliver, in the March Review of Reviews, tells us that the new British law forbids publication in reports of judicial proceedings, of any indecent matter or medical, surgical or physiologically detailed calculated to injure the public morals or otherwise "to be the public mischief." The French have for a long time recognized this need. In 1886 they passed a law providing: The reproduction through the press of what takes place at the trial in action for divorce is forbidden. Commenting on this situation is abroad, Mr. Weliver observes that the new English law against publicity reflects a popular sentiment that is apparent in the United States. "A good many people with normally stout stomachs have been disgusted at the enormous publicity given to cases like that of the Rhinelander, the Peachtree-Hannan-Brownings, the Charley Chaplin, and sundry others. They have insisted to doubt whether other cases like the stark and sole, was

ENGLAND IS BUILDING two gigantic dirigibles capable of going anywhere in the world. They will cross the Atlantic ocean easily. And Britain is "waiting for an invitation" to send one of these big airships to the United States.

SO FAR SO GOOD; all very friendly.

But a day may come when some country will have airplanes, dirigibles and submarines that carry airplanes below the water all capable of crossing the ocean, and send them to the United States without any invitation.

It would be as well to be ready for that possibility.

THREE OF THE BIG POWERS

France, Britain and Germany have "calmed" the Balkans, you are told. Their massive influence has prevented the situation in Albania from becoming dangerous. This is well, they say, in the power of the League of Nations.

It works nicely, in the case of little Albania, and the Balkans. But suppose trouble comes among the big powers, France, Britain and Germany, who would "calm" them? That's a question that makes Uncle Sam glad to be out of the League.

GENERAL PAI-TSUNG-HSI, commander of the victorious Cantonese troops, issues a proclamation calling on China to start and carry on a world revolution.

General Pai perhaps does not realize the size of his plan. There are many countries that had all the revolution they wanted between 1914 and 1918, and are willing to repeat for awhile now.

But there is no doubt that China with the help of Russia is going to give bad headaches to many international business men.

The British especially, with their real business spread all over the world, will dislike the "world revolution" idea.

MR. VINCENT ASTOR, intelligent young citizen of New York, whose family has long been in the real estate business, returns from Paris with news that Paris is still "Anti-Yankee." Also prices are high. A cocktail costs eight francs which means 22 cents in real money. A year ago the franc was 14 cents.

OF ITALY Mr. Astor brings optimistic news. Trains are on time everywhere. It was not always so before Mussolini's time. Mussolini produced progress in every direction. The Italian freight carrying system is three times as efficient as it was formerly. In fact, Italy is the rising star in Europe. If Mr. Astor could have brought about five million good Italian workers back with him they would have been welcome.

THE FRENCH ACADEMY of Sciences, a most serious body, says that Margoulis, French Engineer, has perfected the Helicopter Flying Machine. Such a machine enabling you to fly and rise directly from the ground, would give the inventor wealth unlimited and would be the best invention since the start of the Wright brothers. With a helicopter in good order you could start from the roof of your apartment house or office building, go where you like, and land on any other roof or office building.

RUSSIAN ENTHUSIASTS trying to spread equality of the sexes in the East find that you cannot change the Asiatic mind overnight. On "woman's day" the Asiatic women, obeying Bolshevik orders, appeared without veils on their faces and nets on their hair. Three women that appeared thus near Tashkent were killed by Mohammedan zealots.

The 15 year-old daughter of a Bolshevik official, Vania Khan, was tied to a stake on the banks of a river, and stoned to death by the orders of the Ishaq, a Mohammedan priest, who blessed the crowd as it threw stones and broken pieces of brick at the helpless girl.

No interference is as dangerous as interference with religious ideas.

AT MARKAND, Russian Police found that the wife of a rich native had been chained to a stake for five years, because she had gone to the bazaar with her face uncovered.

MEXICANS MAKE fantastic charges concerning Catholics opposed to the religious laws. They are accused of seizing Mexican soldiers, beating the soles of their feet, compelling them to walk over hot stones, then throwing them alive. The Catholics make charges equally grave against the government authorities.

Passengers on a Laredo train held up, looted and burned last Saturday, declare the train wreckers constantly shouted the religious battle cry, "Long Live Christ, the King," as they attacked the train.

GENERAL MAH, formerly in the government of Canton, tells reporters that "China will have a true democracy," not a soviet government.

Everybody hopes that China exploited, despised and bullied by European nations, will succeed in self-government as a gigantic nation, not break into small pieces fighting each other.

Mr. Weliver guesses that when that paragon of all proprieties, the New York Times, printed substantial verbatim reports of the Hall-Mills testimony, it made competition as brisk as to justify a cry for quarter. It's a grand thing to be so good that one may dare to be very bad without giving offense. Maybe, if the legislature don't pass any laws on the subject, this sort of competition will

decide all the papers to be good.

It seems worth trying out.

## A Chaser

## DOWN WITH PARIS FASHIONS

THE FORUM

"Away with Paris fashions," she warns Paris. When women will rebel against fashion dictates. In the Forum's January number Paul Poiret, the great French designer of clothes, prophesied what women will wear thirty years hence, and trousers were the garment he predicted.

There is no objection to that, writes Mrs. Catt, for after all trousers originally belonged to the ladies and were styled by the men without even so much as an apology. In fact, she points out, that as recently as 1924 there were more women in the world who wore trousers than skirts and more men who wore skirts than trousers! But we women object to having the law laid down to us particularly when the rules are so sensible.

"Women are just awakening to the manliness of the styles you provide," Mr. Poiret, and if we will listen you will hear far from rumble of coming rebellion. Where it will break, or when, or who will lead it, none knows. It is bound to be supported by the masses of women who think. The world has other uses for these

Rehearsals Show Excellent Talent For The Production, "Cupid Up To Date"; More Than 75 Will Take Part

The advance sale of tickets for the Eastern Star production "Cupid Up To Date" which is to be shown at the Senior High School next Monday night, is reported to be very good and the prospects of a capacity audience for the show that will present many local persons are said to be excellent.

The production is being directed by Miss Val Turner, of the Wayne P. Sewell Company, and the progress made during rehearsals is said to have proven satisfactory to the management and to the players.

Bobby Shoots First Nine In Two Under Par For A 33; Farrell's Total Is 107

EAST LAKE COUNTRY CLUB, ATLANTA, Mar. 25.—(INS) Bobby Jones grew hot along with the weather today and flashed a brilliant 66 to dazzle the gallery of 2,000 and settle the leadership of the first 36 holes of play.

Bobby tacked the 66 to his 72 of Thursday, which gave him a score of 138 for the two qualifying rounds. Several others were out who might catch him, but to all intents and purposes Bobby has the lead sewed up for the day.

EAST LAKE COUNTRY CLUB, Atlanta, Ga., Mar. 25.—(INS) Bobby Jones turned in 33, two under par, Bobby Jones jumped the field in the southern open golf championship today and at 27 holes was two strokes out in front of Johnny Farrell, their totals reading 105 against 107. Bobby played seven of the nine holes in par or anther the sixth and ninth in holes.

Jones, in brief, was just beginning to play golf that earned him the American and British open golf championships last summer and the honor of being hailed, even by his opponents, as the greatest medal player of the day, age, generation and all time.

More Destroyers On Way MANILLA, P. I. March 25.—(INS)—Intensifying the American naval concentration in China, four more destroyers sailed from here today. Three destroyers, the Peary, Ford, and Pillsbury are already enroute to Shanghai.

The destroyers were ordered to pick up American refugees if conditions in China become too hazardous.

Breaks Off Relations LONDON, Mar. 25.—(INS)—The British government has decided to break off relations with the Cantonese as the result of the Nanking outrages it was reported here today.

Nationalists today by Consul John K. Davis, in an official report received here at noon, Davis himself was reportedly wounded. His report, the first direct word from him since yesterday's terrorist raid in Nanking, gave a meager but graphic description of his escape from the city.

EAST LAKE COUNTRY CLUB, ATLANTA, Mar. 25.—(INS) Bobby Jones grew hot along with the weather today and flashed a brilliant 66 to dazzle the gallery of 2,000 and settle the leadership of the first 36 holes of play.

Bobby tacked the 66 to his 72 of Thursday, which gave him a score of 138 for the two qualifying rounds. Several others were out who might catch him, but to all intents and purposes Bobby has the lead sewed up for the day.

EAST LAKE COUNTRY CLUB, Atlanta, Ga., Mar. 25.—(INS) Bobby Jones turned in 33, two under par, Bobby Jones jumped the field in the southern open golf championship today and at 27 holes was two strokes out in front of Johnny Farrell, their totals reading 105 against 107. Bobby played seven of the nine holes in par or anther the sixth and ninth in holes.

Jones, in brief, was just beginning to play golf that earned him the American and British open golf championships last summer and the honor of being hailed, even by his opponents, as the greatest medal player of the day, age, generation and all time.

## ENGLISH CONSUL PROTESTS DEATH OF MIAMI NEGRO

Official Sends Note To Governor Alleging That Haskin Nemo Was Killed Without Cause By Miami Police

TALLAHASSEE, Fla., Mar. 25—(INS)—Another country has complained of the attitude of city policemen of Florida as to their alleged "rough treatment" of foreign subjects and asked that Governor John W. Martin conduct an investigation into Florida police methods.

The British counsel, in an official British government letter in the hands of the governor today, asks Florida's chief executive to investigate the death of Haskin Nemo, negro, allegedly at the hands of several Miami policemen on March 11. Nemo was a British subject.

The letter from Maurice Prowse acting British consul concerning the Miami affair, is as follows:

"I have the honor to bring to the attention of your excellency the case of one Haskin Nemo, negro, a native of the Bahamas,

who was shot to death by policemen in Miami on the 14th instant."

"It appears that this man had a slight collision with a white man, with his car. The white man reported the matter to the police who sent two policemen to the negro's store to arrest him. Haskin requested that he be allowed to take his companions as witnesses with him but this was refused and he was subjected to very rough treatment and abuse language and forced into the car.

"The policemen claim that he attempted to run away but other witnesses swear that while the policemen were beating him the door flew open and he fell out of the car. The policemen then grabbed him and without further argument shot him at very close quarters, resulting in his death at the hospital a few hours later.

"From evidence given at the inquest, it was shown that the deceased did not offer any resistance and that he was brutally treated and shot without reason, but the jury brought in a verdict of 'death caused by police officers in the discharge of their duty.'

"From the evidence before me, I am of the opinion that this man was killed without cause and that the verdict of the jury was incorrect, and I therefore have the honor to request that your excellency may cause an enquiry to be made with a view of ascertaining the true facts of the case."

## F.E.C. IS ORDERED TO CUT RATES ON BUNNELL BRANCH

Action Of Railroad Board Is Taken Upon Motion Of Mrs. Robert L. Eaton Who Takes Office On Thursday

TALLAHASSEE, Fla., Mar. 25—(INS)—The Florida State Railroad Commission has ordered the Florida East Coast Railway to reduce its rates on intra-state traffic between St. Augustine and Bunnell in accordance with a 12.4 miles short cut over the so-called "Mountain cut-off," effective May 1, according to a ruling in the mail today to the officials of that railroad.

The motion that the order be entered in the books of the Florida state Railroad Commission, it is understood, was the first official act of Mrs. Robert L. Eaton, first woman executive officer of the state, who yesterday qualified and took her oath of office as railroad commissioner, succeeding her late husband.

The evidence and entire procedure was reviewed for the benefit of the new railroad commissioner and it is understood that upon hearing all the evidence, she moved that the order of reduction in rates be made and it was unanimously passed by the other two members of the commission, A. C. Weeks, the chairman, and Eugene S. Mathews.

The commission's order marks the close of 15 months of effort on the part of the East Coast Railroad to be permitted to continue charging their old passenger fare between Jacksonville and Miami in the face of a shortening of the distance between those cities of almost twenty miles by the construction of the double track known as the "Mountain cut-off" between St. Augustine and Bunnell. The railroad contend that it would lose annually \$25,000,000 through the 70-cent reduction in fares as a result of such an order as passed yesterday.

Through plies of the railroad's officials, a large number of prominent citizens and civic clubs of the East Coast appealed to the railroad commission to permit the F. E. C. Railroad to continue with their old rates and disregard the short cut, but the commission declared that this would be in violation of state statutes and could not be permitted.

The old route of the railroad was through East Palatka, a single track railroad line which is 19.4 miles longer than that through St. Augustine and Bunnell. The railroad contended that the old line was still a part of the new, making a triple track and that they should not be required to reduce their rates because of the new double track. They endeavored to show that a reduction would hinder their service between Jacksonville and Miami and sought the aid of civic clubs on that ground.

## Florida Is Flooded With Sunshine During Past Week U.S. Weather Report Shows

JACKSONVILLE, Fla., Mar. 25—(INS)—Florida was literally flooded with sunshine during the week ending yesterday, according to the weekly weather and crop bulletin today of the government weather bureau here. The complete bulletin follows:

The weather during the week was mostly dry, sunny, and mild, the percentage of sunshine, as shown by the table, was high. The rainfall was light; in fact, no rain occurred over most of the section until the last day, when showers were rather widespread—heavy over portion of the western division, Pensacola reporting 1.70 inches. Uplands over much of the section however, had more rain, especially east of the Apalachee River. Mild temperatures ruled, as indicated by the daily excesses of from 4 to 10.

The mild temperature, aided by scattered showers, stimulated the germination of seed and hastened the growth of plant life generally. Early planted cotton and cotton improved, and the setting of tobacco continued in some districts. Satsuma groves made favorable progress.

**Southern Division**

Rain is needed for fruits and some truck on uplands! But absence of rain from the Okeechobee district was more favorable than otherwise. Truck growers have had almost ideal weather, much to their profit.
