Door busters draw holiday shoppers; Retailers optimistic

By RUGG WHITE Herald Staff Writer

SANFORD - The slogan of the day is "Door Busters." It's the Friday after Thanksgiving Day and thousands of Central Floridians were up early to grab the door- busting bar-gains at area retail stores.

Parisian at Seminole Town Center opened its doors at 6 a.m., the earliest opening in the store's history. Toys "R" Us also opened at 6. JC Penney welcomed its first shoppers at 7

Ana Lopez and her daughters, Sophia (13) and Katrina (12) came to Seminole Towne Center early. "It was up to Sophia," Lopez said. "If Sophia was up, she would wake Katrina. We're :

here. And we all have something. The best deals are from 6 a.m. to noon," said

Cell phones donated to make schools safet

By MARIA OREM Herald Staff Writer

SANFORD - in an effort to make schools safer, a national telephone company recently donated cellular phones to 27 Seminole County middle and high schools.

As part of its Safe Schools program, AT&T Wireless Serv-ices and Ericsson Mobile Phones, presented security di-rector Wolfgang Halbig with 50 phones.

Halbig said the wireless phones can provide the quick. vital communication necessary at schools in safety situations. He said the partnership in-creases the salety of students in the classroom, on the playground and potentially in other school settings.

'lt's a very good gesture," said Barbara Kuhn, chairman of the school board. "It's good that businesses are working more and more with the schools, which benefits the en-

tire community." Kuhn said the phones were could definitely use especially. in the high schools where

crowding is a concern. "It's good to be able to get hold of someone quickly if necessary," Kuhn said, adding that school staffers already have walkie-talkies. This will enhance communication."

Kuhn said overall she was satisfied with security in Seminole schools and she did not think there were serious safety problems in the county. However, she said, when it comes to violence in the schools even one case is too many.

According to recently re-leased statistics a Harris poll showed that 46 percent of the nation's students have made at least one change in daily roupersonal safety and crime in their communities. The poll also showed that two in five parents of high school students were worried about their

child's safety when in school. A National School Board Association survey reported that 82 percent of the 720 school

Celebrating heritage by helping others

By MARIA OREM Herald Staff Writer

SANFORD - In celebration of Native American Heritage month and to bring attention to the plight of the Lakota Stoux Tribe, a local organiza-

tion will hold a fund-raising event Nov. 30 near the old Movieland Drive-In on U.S. Highway 17-92.

Members of the intertribal Order of Mother Earth, an offshoot of the Order of the Feather, will sell Native American crafts out of a teepee starting at about 11 a.m. Proceeds will benefit the Lakota people in South Dakota, said Kathey Abbey, a member of the local order.

The lands were flooded this spring and many people lost their homes and belongings." Abbey said. They are very needy for the winter."

Following the floods, the re-gion was declared and national disaster area, however, according to Abbey, the Native Americans living on the 4,000acre reservation did not receive

Kathey Abbey displays some of the hand-crafted art that will be available Sunday during a fund-raising

event. The Mandela painted design on leather is believed to keep away evil spirits.

Abbey said when her eightmember group learned of the need they decided to help with crafts since "we didn't have much money."

'It touched us when we heard about it and we wanted to do something," she said.

The group, which meets once a week to discuss Native American culture and design

crafts, is trying to learn everything they can.

Whatever there is out there I guess we're trying to find it," she said.

According to Abbey several tribes across the country have pooled their resources to offer help to the Lakota tribe, which is part of the Wounded Knee District.

Abbey said in addition to the

many Native arts and crafts. her organization will distribute literature on the Lakota tribe including letters from people affected by the floods.

There will be hand-crafted beaded necklaces, earrings, and dream catchers on sale with prices starting at \$2. About 75 percent of the proceeds will go directly to South Dakota, Abbey said.

At the Kiwanis officers installation banquet at Heathrow Country Club last week, it was announced by former Lt. Covernor Bill Fraasa that Clyde Long had been chosen by Sanford Kiwanis Club as their Kiwanian of the Year for 1996-1997. Each year one club member is selected for his or her outstanding efforts on behalf of Kiwanis and the local community.

Long. a retired banker, has resided in Sanford for the past forty years during which he has been active on many civic boards. Currently he is Secretary for the Seminole County Salvation Army advisory board and has been a 25-year board member. He has been active as a Deacon and Elder in the Presbyterian Church in Sanford and helps with financial matters and member care at the Markham Woods Presbyterian Church.

Long has been a strong supporter of the Seminole County Blood Bank as a volunteer and donor for 35 years and soon will have personally given a cumulative total of 20 gallons to the blood bank. He has a likable personality, dry wit and quiet demeanor which hides his conscientious, civic-

New conservation program proposed for 2000

pocial to the Herald

WINTER PARK - "Forever Florida" would be the name of a new land conservation program to succeed Preservation 2000, under a series of proposals to the Florida Constitution Revision Commission (CRC). Florida Audubon Society President Clay Henderson, who serves on the CRC, announced the proposals in a series of speeches this week in Longboat Key, Brooksville, and Daytona Beach.

"Preservation 2000, the most successful program in the history of Florida, will expire in two years," Henderson says. "We need a program to continue to preserve the best remaining examples of native

Forever Florida is a platform containing four separate proposals to amend the constitution which promote land and water conservation. The first proposal would remove the limitation on bonds for conservation lands acquisition. A footnote in the fine print at the end of the constitution limits the bond authority for the Land

Acquisition Trust Fund to the year 2013. "Unless we remove the bond limitation, we will no longer be able to borrow money to purchase conservation lands. Bonding is important to buy land at today's prices and allow future residents to help pay the price of acquisition," Henderson notes.

The second proposal would authorize the legislature to create a tax exemption for privately held conservation lands. Currently, the constitution allows for an adjustment for agricultural lands, but not lands held in a natural state. "We need to change our current tax structure from one which encourages conversion of natural lands into development," Henderson says.

The third proposal would create a Land and Water Conservation Fund to be used for acquisition, management and restoration of environmental lands. "The heart of Forever Florida will lie in its ability to provide the means to save the best and restore the worst, as we continue to grow," Henderson notes.

The fourth proposal would preserve conservation lands into perpetuity. "In the last ten years, we have protected nearly one million acres for conservation. Unless we find a way to permanently protect these lands, they will be sites for new roads, prisons, and development," warns Henderson. "As our state continues to grow, we need to secure the means to save the best examples of what remains of natural Florida for now and for future generations. The wonder of the Florida Keys, the mysteries of the Everglades, the treasures of our crystal clear springs, and the habitat for plants and animal which occur no other place in the world, need to be protected for all time," says Hender-

The Constitution Revision Commission meets every 20 years to propose changes in the fundamental law of the state. The commission will meet until April and make recommendations to be decided by the voters in November 1998.

The parents are Ted's mom and Dan's mom. We hope to see lots of animals in the wild. We will also learn how to canoe. We will spend approximately 2 Thours-on are rively with one break between each hour. There will be one parent in each canoe and two students. Oh yea! The van arrangements are Jeff and Linda in the front. Dan and Robert next to them. Tina and Megan in the back. Parents may sit where ever they like." DING DING the bell rang. "Schools out." someone over the intercom said

The next morning the kids whole hour to get there. All the kids could do was talk quietly or read. They were bored until they got there. When they got there, the guide was waiting by the bank with the canoes. First, he showed us how to hold the paddle. He said. You must hold the paddle like this." Then he showed us how to get in the canoes

without tipping over. Before we got into the canoes he made us put on life jackets. Finally, we got into the canoes. It took about 10 minutes for everyone to get settled.

We started down the river. At first we didn't see anything at all. After a while, we started to see lots of animals. The first animal we saw was a blue heron. It had a huge beak and long legs. After that we siw a gator. It was a least 10 feet long. He was on the bank next to some old logs. I asked my teacher if we could piente there. She asked me, you crazy?!" Ha. Ha. After that we sat down on the other side of the river for our picnic. We watched the alligator while we ate. As we watched, it slithered into the water. My teacher said, "We better go."

We got into the canoes and started out again. We saw at least 5 snakes on the second half of the trip. My favorite thing was the eel. It was very long. I only saw it for a second but I could tell it was swimming away from us. We also saw lots of turtles. Some of them were eating fish. The cagle swooped right down into the water and came up with a very large fish. Dan quickly took some snapshots of the eagle. I told him that I wanted a CODY

we canoed on, our teacher said, "Everyone pull over to the side. This will be our second brake. Linda said, 'Oh man! Only 30 more min-"Yes" ,the teacher said. But let's spend ten minutes looking for whatever interesting things you can find." "Let's gof", said the class. When ten minutes were up, all the kids came back with things. Megan found leaves that were just changing colors. Robert found a frog. The teacher said, Yuck, Robert a frog?!" Jeff brought back a stick that had a caterpillar on it. The teacher thought it was interesting.

After everyone was done showing what they found, we got back on the river. This time we did not see much except for a big base that our teacher wished she could catch.

Then the van came through the woods to pick us up. We wrote a story about what happened.

Our Cance Trip

On Friday, Mrs. Thrift took the class on a canoe trip. We went to the St. John's River. We took a bus to get there. It took an hour. When we got there the bus got stuck in the mud while trying to unload the canoes.

The bus driver called a tow truck. The tow truck got to the bus and pulled the bus out of the mud. When we got the canoes unloaded, we ate lunch. After lunch we got in the canoes and set off to the wild waters.

First, we stopped for an hour to fish. A few of the kids

cust their lines. Suddenly an alligator grabbed the batt off the lines and flipped the boat.

We all fell in the water. The alligator swam off. We got back in the canoes and started back towards the dock.

Once we were back at the dock, we sat down and talked about the canoe trip. Sud-denly, we noticed that Mrs. Thrift was missing. Then we began to worry that Mrs. Thrift had been eaten by the alligator.

Just then, we heard a motorboat coming up the river-Then we saw Mrs. Thrift in the motorboat. Mrs. Thrift said. Now this is the way to canoe." Everyone laughed.

Field Trip

One day our teacher said, Class, tomorrow I will take you canoeing up the St. John's River." Ralph said, "I'm not going." My best friend Andy said, Sure, why not?" said. 'I'm definitely not going!' Then the teacher said, "It is

mandatory." The very next day the teacher packed our gear onto the rented bus. She handed the liter king the bus drifter to play. The whole class mouned. On the road trip I told my best friend. Andy a story. Of course we ignored

the Lion King. It was a long time before we got to the canoe shop. I went through at least five stories. At the canoe shop, Danny said he saw a alligator in the water while we were driving. Nobody believed him. The teacher rented four canoes. was one teacher per ca noe and five kids in each.

Each canoe shoved off. Soon we came to a fork in the river. We lost sight of the other canoes. A gust of wind picked up. Soon the boat flipped over and we were all in the water. We swam dragging the canoe and our gear to shore.

The teacher decided to go through the woods for help. She said. * Andy and Michael. come with me." As we walked through the forest we came across a large mound of dirt and leaves. Almost Immediately, we heard a loud hiss. This huge mother alligator grabbed the teacher and headed off for the river.

I grabbed a large pointed stick and poked the alligator's eyes out. But alas, the teacher was already dead.

We went and dug up the alligators eggs and had scrambled eggs for dinner.

One classmate spotted the road beyond the trees where our bus was driving by. We waved them down. They stopped and picked us up. We told the rest of the class about our adventure.

The Exciting Field Trip

Mrs. Thrift took her class on a canoe trip. On Monday, Mrs. Thrift, Bobby, Danny. Joe, Kyle, Tim and I went to the St. John's River. It was going to be a sunny day. We went in a van. Mrs. Thrift rented two ca-

noes. When we tried to get in the canoes they tipped over and we fell in the water. It was a good thing we had our bathing suits on. We got out of the water and tried again and guess what happened? We fell in again. Finally we made it into the canoes.

We canoed into the late aftermoon. Suddenly, both canoes crashed into a huge rock. Everyone fell out. Mrs. Thrift hit her head on the rock. Someone grabbed Mrs. Thrift before she went under water. I saw my bag floating and I

I got the fishing poles out of my bag. We went to the edge of the river and looked for batt. Bobby was the first to cust. Right then, there was a huge fish that bit Bobby's line. He fell in. It took all of us to pull him out including the fish. We cooked the fish while Bobby dried off near the fire. Then we atc.

In the morning I got the nails out while the others got more wood. We built new canoes. When finished, we set off for the river dock.

After making it back, we got in the van and everybody settled down to take a nap.

The Good Canoe Trip

Our leacher's name is Miss Brown. Yesterday she said she was going to take the class on a canoe trip. She said, * are going to learn about Flor-ida wildlife." She is nice. She always takes the class on trips. This class is an S.L.D. class. The students' names are Tim, Danny, Becky and Sara.

We went to school today. Miss Brown and all of us were happy. The bus was walling for us. We got on the bus. Danny and I sat together on the bus. Becky and Sara sat together. Miss Brown sat at the front of the bus. Then we left for the river. We were going to the St. John's River. On the way I saw a bird. trees and a yellow snake. The snake was big.

When we got there, a man was waiting for us. He took out two canoes. We got in the canoes. The teacher came from the bus. She got in the first canoe. We pushed off the shore into the river. It was hard to paddle. The weeds were thick. When we started moving, we were talking about what we were going to do back at school.

We were almost in the middle of the river when a big fished jumped into my canoe. It scared me so much that I fell off my seat. Danny threw: it back in the river. Then we i heard a bird screeching. Soon i we saw the bird. It was a baid, eagle. It was on a tree that was learning over the river it.

was waiting to catch a fish Then we kept on going try-1 ing to find some more wild animals. Next, we saw a baby a bear playing next to the water ; It was a baby bear that had, been left alone by its mother It tried to get across the river on some rocks but it slipped, and fell in the water. It went underwater and came up by our canoe. Danny and 1, picked it up and put it in our p boat.

Then we paddled some more, looking for wild animals in the woods. We were looking for the mother bear in the woods. We saw this black thing moving. We pulled the canoe on land to see what it was. It was a big bear. It jumped at us. We jumped back in the canoe. We were

We left the baby bear on the land. We paddled away fast. We looked back and the big bear was licking and cleaning the baby bear. That's what made us think it was the mother bear. We were happy the baby bear had it's mother back. That made me think that wildlife is cool. It's like we're the baby bear and our mom is the mother bear.

Miss Brown said, "We are done for today." We turned our canoes around and paddled back to the bus. It took an hour to get back. We saw cows on the way back. The mother bear and baby bear were not there this time. They had run off.

We got out of the canoes back at the bus. The man put the canoes up. Then we thanked him for letting us use his canoes. He thanked us for following directions and being safe. Then we said, "Byef" and got on the bus. We went back to school. We sang and then we talked about the field trip-

It was a fun day. We saw a lot of wildlife on the canoe trip. The teacher taught us about all the animals from the canoe trip while we were on the bus. We got back to school. My parents were walting for me. I thanked Miss. Brown for taking us on the ca, noe trip. I said, "liye, see you."

According to Thomas, Pastor Paul Wright will be the main speaker. Others including numerous pastors have been invited to stand and speak. "We want anyone whose life has been touched by Pastor Griffin to tell about it. We want everyone to have the opportunity to share a few words and let everyone know how this man has impacted their life for good. There are many that he won to the Lord and because of his stand we now know Christ. We are well aware that this can not repay what he has shared with us, but we can let him know that we do appreciate him."

Gifts, flowers, and donations will also be presented to the pastor. For more information or to give, call Minister Frank A. Thomas or Minister Trudy Thomas

Ministering to many at Wekiva Assembly

by Susan Wenner

Herald Staff Writer

LONGWOOD _ Senior Pastor Greg Freeman spoke proudly of Wekiva Assembly, a church he has now ministered to for over 10 years. He assisted spiritually in helping the church grow from 600 to its present 1000 members. He added that although within a year after coming to the church its numbers dwindled to 400, with prayer, work and God's guidance souls were rededicated and more were led to the Lord...

He shared that the vision for the church is simple. We want to make it easy for people to get involved in personal relationships. We feel that is the heart of the church. A relationship with God and others is the key. We want people to know that no one is unredeemable. We're very family oriented here and there is mutual encouragement. We are to strengthen one another. The Bible says from sharpens from and one man sharpens another. We help each other grow by relationships and another's weaknese can be helped by our strengths."

He continued by saying," We

sum up things by four words Reach, Teach, Equip and Send. We want to reach others with the gospel. We want to teach God's word and equip others by discipleship and finally to send them out within the church or outside the church in mission fields. Every believer should be a fruit-bearer. Jesus has strong words to those who will not bear fruit. Jesus wants us to grow and change and become better people. We see a mighty revival in the land that will proceed the Second Coming of Christ. We have no time to waste. We must reach others now. Every one has a talent for the Lord that can be used for his kingdom.

The congregation has numerous goals for the future. According to Pastor Freeman by the beginning of the year plans are to expand Dixon Road to meet Markham Woods Road for easier access to the church. Within the next few years the members have sanctuary so the present one rnay be used as a gymnasium."

Pastor Freeman cited that he feels "the key to ministering to people is to minister to their needs." The strong children's program does this with activities such as a Tuesday evening

By JEFF BERLINICKE Herald Staff Writer

LAKE CITY _ This is a game very few football fans in the entire state or even Seminole County ever thought would be played.

There were about 50+ people that actually thought the Oviedo Lions would be suiting up tonight for the second round of the FHSAA (Florida High School Activities Association) state Class 6A football playoffs, and they are the gang on the Oviedo sidelines.

To consider how the Lions have made it to this point in the season, you have to look back at the past few months.

First, the program had to deal with a major change in direction when longtime coach Jack Blanton retired last spring and the job was filled by Greg Register, Blanton's opposite in almost cover was calm and laid. every way. Where Blanton was calm and laid back, Register was an in-your-face type who pushed his players.

Next, the Lions had to deal with the loss of its quarterback and several other starters key to last year's near-miss at a playoff berth. In fact, it was that near miss - a loss to Lake Howell in the season's final game, then being the odd man out in a three-team playoff after the end of the regular season - that may have motivated the Lions to this next step.

Oviedo didn't even set off to a strend steet are

Oviedo didn't even get off to a strong start under its new coach and new quarterback Josh Cullen. The Lions struggled early, then the team rose up and got on a hot streak, beating Lake Howell in overtime, then winning some key conference games.

Only a wake up call loss to Seminole stained Oviedo's late season run and last week, everything paid off. The Lions went into highly-ranked Dr. Phillips as a huge underdog and fell behind quickly.

Cullen said the Lions like coming from behind so he got his wish. That's what happened as Oviedo hung in and eventually sent the game into overtime when Cullen found one of his favorite receivers, Greg Register, for a game-winning touchdown and Oviedo was improbably on its

way upstate.

To give the Lions even more incentive is the chance for a home game in the event of a win over Lake City.

Defensive standout Leroy Jackson said the Lions didn't know much about Lake City except that they rely heavily on the running game which the Lions have been able to stop all season.

On offense, Register will again rely on the running of Jaime Scott, Seminole County's leading rusher, and the conservative passing offense of Cullen's.

Last week, Oviedo didn't seem to have a chance. The overtime win shows what happens when Oviedo docan't have a chance.

in a few weeks, the Lions went from a team routed by Seminole to a team that handled one of the best team's in the state and racked up points on maybe the best defense of all. Don't count Oviedo out.

Then again, the Lions seem to play better when they are counted out.

Expect to see this sight a lot tonight...as Jaime Scott is expected to get the ball handed to him by quarterback Josh Cullen frequently when Ovisdo takes on Columbia.

Providing the offense for the Sandord Rotary Breakfast Club were Brittany Postell (one home run, one single, two runs scored, one RBI), Kaley Beine (one single, one run scored) and Crystal Ware and Keishawn Knight (one single each).

Oviedo High School girls' varsity volleyball coach Anita Carlson (center) retired this past Tuesday after being the only coach in the 25 years history of the

Lions program. She is surrounded by 1987 team captains (from left to right): Angle Parsons, Elizabeth Harger and Carolee Liljenquist.

Flames finish with flourish

Church-Flames completed a tremendous late season surge as it swept a doubleheader to claim the postseason tournament title in the Sanford Recreation Department Church Fall Slowpitch Softball League at Chase Park this past Saturday morning.

The Flames, who opened the season 0-3 but rallied to finish 5-4 and in second place, took a while to get going in the first game, finally breaking a scoreless deadlock by scoring two runs in the top of the third inning before going on to a 17-1 thumping of Sanford Buen Samaritano Church.

The Flames kept the momentum going in the championship game, taking a 14-1 lead in the top of the third inning and holding on for a 16-12 victory

over regular-season champion Majesty from Trinity Assembly of God Church in Deltona.

Majesty had wrapped up the regular season title on November 15th by sweeping a doubleheader from Buen Samaritano, which could have stolen the crown from Majesty if it had won the doubleheader.

The final standings in the league were: Majesty (8-2). Plames (7-4). Buen Samaritano (4-6) and Sanford Christian Church (0-9). See Church, Page 2B

People

It's time to select a Christmas tree

real trees are used for Christmas annually. They are grown on farms and plantations in Florida and in almost every other state and Canada.

Christmas tree harvesting does not upset the ecology. More than 85 million trees were planted this spring by Christman tree growers to replace the SO million trees that will be harvested this year. The rule of thumb is to ant two to three trees for every tree cut.

Purchasing a homegrown Florida true is good for the environment because less fuel in used in transportation. This also supports the farmers of the state and boosts Florida's

A tree that is most when brought into the home and in hept moist by adding water through the base of the trunk will not be a fire hazard.

People still love the tradition of real, natural trees in their so for the holidays. This tradition dates back to 1500 A.D. The first Christmas trees were decorated with roses cut from paper, apples, waters, sugar candies and candies. Later, cookies in the shapes of ete, hearts, and animale aced the wafers. Today's replaced the vary individual tastes. They include special ornaments, garlanda

ips on Selecting a Tree Determine where in your home you will display your tree. With this in mind, you will he able to tell what height tree you will need and whether all four sides of the tree must be suitable for display. Freshness is an important

hey when selecting your tree. The needles should be resilient. Take hold of a branch about ats inches from the tip, between your thumb and forefinger, then pull your hand toward you allowing the branch to ally through your fingers. The needles should adhere to the branch and not fall off in your hand. The needles should be flexible, not brittle.

The tree should have a good fragrance and good green color. A fresh tree will retain to moisture content and there by heep its fragrance and needles, if hept in a stand that has a good water helding capacity.

The whole family can have great fam in the process of choosing a tree. The preferred species of trees in often handed down from generation to generation. In Florida, Red Cedar, Virginia Pine, Sand Pine, Spruce Pine and Leyland Cypress are grown specifically for use as Christmas trees.

When you decide to purchase a freshly cut Florida-grown tree, make sure that the stand you use will allow for watering

the tree.
Tree Farming in Florida
Originally, the family

must be shaped or pruned to encourage the tree to branch more quickly, and gradually achieve the full appearance people prefer in their Christmas trees.

During the three to six years it takes to grow into a wellshaped six to eight foot tree, the Christmas tree faces many hazards. Trees can suffer from too little sun, too much or too little rain, destruction by rodents, insects, disease, half, are, or by being overgrown by brush, vines or weeds.

Many tree farmers allow customers to choose and cut their own Christmas Irees. This has helped renew the tradition of the entire family selecting and cutting the Christman tree.

Today's Christmas tree producer works hard to provide quality trees to market in the freshest condition possible. Many growers say that the hard work is all worthwhile when they see a happy family and the excitement of children an they help select the family's Christman Irce. Caring for a Florida Tree

Now that you have selected your special tree, care for it as you would a fresh bouquet of flowers. As soon as you get it home, make a fresh straight cut across the base of the trunk to remove at least one tuch of the trunk, immediately

holding stand, or if you are not ready to decorate it, place it in a bucket of water. Don't ever let the base of the tree dry out as a seal will form and a new cut will be necessary so that the tree can take up moisture.

- A Christmas tree, like a bouquet of flowers, likes it cool and safe, so don't put your tree near your fireplace, heat nource, or television set.

Let the tree remain outdoors or on a cool porch or patio until you are ready to decorate it.

- A fresh cut tree is a safe tree and is no more flammable than a wet leaf. Keep plenty of water in the tray, using a sturdy stand that to large enough for the tree. Check the water several times each day.

- Be sure that the light cords and connections you use on your tree are in good working order to insure a safe Christmas for your family.

- Remember to unplug the tree lights when you go to bed or when you leave home. You should use only cool burning lights.

In Seminole County your family can cut a tree from Big Oaks Ranch in Chuluota. They have a gift/craft shop, hay rides, and a petting farm/200. For more information you can contact Quentin or Perry
