

Polish Ship Gets Passenger From Seaplane At Sea

NEW YORK, Aug. 9 (UPI)—The Polish merchant Batory, watched with a smilie by Uncle Sam during three days in port, was en route to Poland today with a surprise passenger.

He was picked up by the vessel nearly 100 miles at sea yesterday from a seaplane he had rented from a Hackensack, N.J., firm and which he had brought down on the sea.

The Batory skipper radioed the Coast Guard to come get him, but the Coast Guard replied its business was saving lives.

The Batory said the lone airman who settled his seaplane near the ship gave the name of Guillermo San Sebastian, a tourist from Mexico City.

But in Hackensack a spokesman for the Tombross Seaplanes Company said its only missing plane, a Piper Cub, was rented by a man who gave the name of "Mr. Newton" of New York. He rented it for a 15-minute flight, the spokesman said, then disappeared over the horizon. The firm reported the plane stolen.

The airman told the Batory skipper he was lost and out of fuel.

The Immigration and Naturalization Service said today it was investigating the incident. The line had informed officials about it last Friday.

Last Friday the Batory became the first Iron Curtain country vessel subjected to the new security check in New York harbor. Ever since Gerhard Eisler, German Communist, jumped to a measure it hopes to report to the House within the next few days.

The Mundt-Nixon Bill would require registration of communists and Communist front groups. Mr. Truman, in a message to Congress yesterday asking for stronger security measures, protested that the bill might do more harm than good.

The House Committee's action was part of a race on both sides of the Capitol to bring up anti-subversive legislation for consideration by the Senate and House.

Other matters of interest at the capital:

Taxes—Sen. Taft (R-Ohio) insisted that Congress face up to the huge cost of rearmament and increase taxes by \$13,000,000,000 or \$14,000,000,000 a year to put (know) tomorrow morning.

"There probably will be more trying to come across the river, and I hope they do. I don't want to discourage them from fighting the First Cavalry Division."

Lt. General Walton H. Walker, Eighth Army commander, drove a mortar-swept road to see for himself how the battle was going.

A jeep knocked out by a mortar shell flamed some 60 yards down the road.

After visiting the attacking battalion's command post, Walker left looking satisfied.

Gay praised Lt. Harry C. Buckley, young West Point graduate whose observations helped pinpoint the location of the enemy battalion and speed artillery fire on it.

"He is a smart lad who just returned to action after being wounded," said the general. "And he was careful to note that every fifth one of the enemy soldiers carried an automatic. He gave us a lot of helpful information."

To flush out the Red Korean battalions, American infantry threw in—as one officer said— even cooks and bottlewashers. Attacking on a 2,500-yard front the soldiers spread out searching each gully and thre clump for hidden Reds. Whenever they drew fire they withdrew, reorganized and knocked out the enemy position. It was good traditional infantry fighting—uphill under a hot sun.

He rode up to the battalion command post in midafternoon with Lt. Edward Walker of 1180 Seneca St., Buffalo, N.Y., whose jeep driver had just been driven from a ravine by a shell burst within ten feet of him. The driver was starting out unharmed.

Walking in and out of the hills and small arms fire cracked in the hills and the echoes made it seem like a regimental scale attack. Big 4.2-inch mortar shells were lobbing up from a field to the right and bursting in gray showers on the ridge.

In the command post—a concrete culvert—Capt. William J. Gilligan, Birmingham, N.Y., was calling for artillery on the reds.

"We've just located some enemy troops there," he said. "They have good observation on us and seem to know where we are. They've been pounding us every few minutes."

The ripping crack of a mortar sounded just ahead. But the concrete shelter could have taken a direct overhead hit without harm.

Walking up the big hill forward and directing his men personally was the battalion commander, Peter Clainos, a slender wiry lieutenant-colonel from Manchester, N.H.

With him were a radio operator and a veteran warrant officer acting as his adjutant. In a few moments the warrant officer, W.L. Hamblin of Fontana, Calif., came into the command post.

"We are on a hump looking directly at the Reds on another hill about 1,000 yards away," he said. "You can see small groups of them. Wherever a mortar shell bursts one of them runs and goes into the hole. They seem to be afraid."

"They are afraid," he said. "They run and when they run they run away. They don't want to stay."

"They are afraid," he said. "They run and when they run they run away. They don't want to stay."

Truman Says Russia Is Filibustering In UN Security Council

President Says No OPA In Sight Yet; But Excess Profits Tax Is Inevitable

WASHINGTON, Aug. 10—(AP)—President Truman accused Soviet Russia today of filibustering in the United Nations Security Council.

He said the Russians were filibustering, no doubt about it.

In a news conference discussion Mr. Truman lauded Warren Austin, U.S. Representative on the Council for doing what he said was a good job.

Once again the President rejected the idea of a meeting with Premier Stalin and other heads of state. But he said he would decide later, if such a suggestion were made, on whether there should be a meeting of high level leaders of United Nations after settlement of the Korean crisis.

In hitting at Russian filibustering, Mr. Truman obviously was referring to obstruction tactics by the Council president and chief Soviet delegate, Jacob Malik.

The President was asked if he thought the Russian filibuster was good or bad with reference to the possibility of eventual permanent peace.

The President replied that he couldn't answer a hypothetical question like that, that he didn't know.

The President was asked whom the Russians are "filibustering against." He grinned and quipped that he though they were filibustering principally against themselves by which he apparently meant their own interests.

President Truman said today he does not contemplate a revival of the World War II OPA.

Mr. Truman said he had one federal agency, the Economic Stabilization Board, which may be necessary as a result of the Korean crisis.

He said, too, that all-out mobilization is not yet in sight.

The President said he expects to leave in the Senate and House the exact terms of an economic controls bill now nearing a decision on Capitol Hill.

Mr. Truman made clear that he would like discretionary power to fix prices and wages but that he still feels his original modified recommendations should not be delayed in debate over stronger executive weapons.

The president said he would accept an excess profits tax if voted

Plans Outlined To Attract New Industries Here

Industrial Committee Of C. Of C. And Jaycees Hold Meet

Plans for co-operating with the State Advertising Commission's publicity program to bring new industries to Florida were outlined Tuesday night by Edward Higgins to members of the Industrial Committee of the Junior and Senior Chamber of Commerce at a meeting at the Tourist Center.

Mr. Higgins, manager of the Seminole County Chamber of Commerce, pointed out that the recent change in policy by the State Advertising Commission allows industrial inquiries to be sent to Chambers of Commerce throughout the state, and to individual cities.

To date, about 50 inquiries have been received by the State Commission, he said, but a widely expanded advertising program in national publications, including the *Business Evening Post*, *Business Week*, etc., is expected to produce more than 300 inquiries from concerns seeking locations in Florida.

After the inquiries are screened, the requirements are determined and the concerns are contacted and their representatives invited to come to Sanford, an Seminole County for inspection.

93 Cross Atlantic In Stratocruiser

Alabama Newspaper Destroyed By Fire

TUSCALOOSA, Ala., Aug. 10—(UPI)—The Tuscaloosa Sun was delivered as usual to subscribers to day, 24 hours after its plant was destroyed in a \$200,000 fire.

While editorial workers covered their usual runs here, the daily morning newspaper was printed in Birmingham 58 miles away.

International News Service copy was received through a Birmingham radio station.

E. E. Bradley, publisher, said he hoped to make arrangements to have the Sun printed at Jasper, Ala., or Columbus, Miss., until new mechanical equipment can be opened in Tuscaloosa.

A 48-page press and all other equipment was destroyed by fire of undetermined origin after the paper completed its final run early yesterday.

The Sun began publication about two months ago.

NEGRO EDUCATION

TALLAHASSEE, Fla., Aug. 10—(UPI)—A plan under which Negroes may receive temporary instructions at state-supported white universities will be discussed by the Board of Control in Jacksonville tonight.

This plan already has been approved by the Florida Commerce Commission, which has adopted some of the United States Constitution for equal educational opportunities for both races.

NO SCARE BUYING

WASHINGTON, Aug. 10—(UPI)—The National Association of Retail Clothiers and Furnishers said today there has been "practically no scare buying" of men's clothes.

This conclusion was based on a sample survey of men's stores in 50 communities all over the country, the association said.

Senate Group Votes Boost In Tax Levy

Truman Plan Raising Top Corporate Rate From 38 To 45 Is Voted Unanimously

WASHINGTON, Aug. 10—(UPI)—The Senate Finance Committee today unanimously approved President Truman's proposal for a \$16,500,000,000 a year increase in corporation taxes—boosting the top corporate income rate from 38 to 45 percent.

The committee acted shortly after President Truman told a news conference that an excess profits tax will be enacted eventually.

The committee ruled that the higher rates shall apply as of July 1, 1950. It refused to accept Mr. Truman's proposal that the increases apply to all of 1950 corporate income.

The corporate increase is part of Mr. Truman's overall \$5,000,000,000 tax increase proposal, to help finance the Korean war and America's armament against Communist aggression.

The committee probably will vote tomorrow on the President's proposal for a \$10,000,000,000 increase in taxes on individuals' incomes, the rate to be 20 percent in some income categories.

The corporate rate proposed today would be 25 percent on the first \$25,000 of corporate income, 45 percent on income above \$25,000.

President Truman said that he would of course approve an excess profits tax if it is added to his \$5,000,000,000 interim tax proposal.

The President proposed that the top rate on corporation income be boosted from 38 per cent to 45 per cent. He wants the first \$25,000 of corporation income taxed at 25 percent, and all over \$25,000 at 45 percent.

The corporate tax is scheduled now to 21 percent of the first \$3,000; 25 percent of the next \$15,000; 25 percent of the next \$5,000; 33 percent of the income between \$25,000 and \$30,000, and 38 percent on income above \$30,000.

The President proposed that the top rate on corporation income be boosted from 38 per cent to 45 per cent. He wants the first \$25,000 of corporation income taxed at 25 percent, and all over \$25,000 at 45 percent.

The new schedule would mean higher taxes for corporations earning up to \$31,250 and for those earning more than \$71,000. Corporation earnings between \$31,250 and \$71,000 actually would get reductions in their tax obligations.

The committee is now expected to turn to Mr. Truman's other

Collins Says U.S. Big Push Near

AFTER TESTIFYING before a closed session of a House Armed Services subcommittee in Washington, Gen. J. Lawton Collins (center) chats with two members of the group. They are Rep. Philip J. Philbin (left), Massachusetts, and Rep. Carl Vinson, Georgia. He declared U.S. forces can now hold the Korean beachhead and after the present "limited offensive" will start the "big push." (International)

U. S. Troops Fling Enemy Back On Chinju While Red Columns Advance In North

Military Training Bill For Youths Is Being Studied

Senator Tydings Says 18 And 19 Year Olds To Be Given Training

WASHINGTON, Aug. 10—(UPI)—A Defense Department spokesman told Senator Tydings today that a new proposal for Universal Military Training of youths should reach Congress soon.

Reverend Admiral H. A. House, who represents the Defense Department on legislation, gave that indication to the Senate Armed Services committee.

Chairman Tydings (D-Md.) had told his committee that he understood a vast training program, probably applying to all youths 18 and 19 years of age, was under study.

Tydings asked a group of uniformed Army, Navy and Air Force officers present for the committee session, if this were true.

Admiral House said a new U.M.T. plan is "becoming intensively studied" by the Department of Defense and should reach Congress soon. He gave no details.

Tydings remarked that additional methods, beyond the present draft act and calls to duty in the National Guard and Reserve corps, probably must be found to meet the manpower needed by the Army, Air Force, Navy and Marines.

The U.M.T. proposal came as the Senate group voted to expand provisions of the draft act that directed the Army, Navy and Air Forces to allow 18-year-olds to volunteer for one year of service, and that could be drafted at age 19 for 21 months of service.

Under present law, 18 year olds may be sent overseas.

Actually no one year enlisted men have been accepted in recent months because the armed services said the program had proved unsuccessful.

Nearly 3,000 New Connections Made By Power Co.

Road Department Raps Ghetto And Sims For Suing

ROAD DEPARTMENT, TALLAHASSEE, Fla., Aug. 10—(UPI)—The State Road Department charged Robert O. Ghitto and Arthur J. Sims were "guilty of reprehensible conduct" in preparing their suit attacking road equipment rental contracts.

The department's answer and motion to dismiss the suit, with the question of legality of the multi-million dollar equipment rental practice moved over to a show trial, should be settled by the end of the year.

Controller C. M. Gay stepped into the picture by holding in payment of \$411,328 in July equipment rental checks required by the Road Department for 23 contractors. He asked Attorney General Richard Erskine to drop the suit.

Contractors came to defend their contracts in court, and the department's answer was a battery of high-powered attorneys that includes two former governors whose associations also followed the rental policy.

Former Governor Doyle Carlton of the Tampa-Power & Light Company, who is president of the state department, and Arthur J. Sims, division manager, declared in the first seven months of this year, the power company connected 22,105 new electric service connections, as against 20,324 in July of last year. The increase over last year is 16.8 per cent.

"New electric service connected are a reliable index to the number of new buildings completed, and our figures certainly reflect a very favorable and encouraging activity in Florida's construction."

Florida is busier than ever, and it should be pointed out that the buildings being completed are not the result of a current sprint by builders to beat possible war restrictions. This increase has been due to normal plans made months ago by builders to meet the healthy growth of our state.

New residential accounted for 80 per cent of the new electric connections, Mr. Carlton said. This coincides with figures on Florida residential construction contracts let, totaling \$174,767,000 for the first six months of 1950, a big gain over

the same period of 1949.

ATTOMIC STRIKE

OAK RIDGE, Tenn., Aug. 10—(UPI)—An estimated 500 AFL construction workers did not report for work today on vital atomic building projects.

A union leader who withheld his name made the estimate and said the dispute involved Local 10 of the Painters and Decorators Union.

"I understand the dispute involves supervision of the painters' work and not wages," the union official said.

DOCTORS IN PARIS

WASHINGTON, Aug. 10—(UPI)—The International Commerce Commission today will announce a 20 percent increase in railroad compensation rates between New Orleans and resort areas on the Mississippi Gulf coast.

Walker's Gamble In Southern Offensive Reported Paying Off

BY LEEDY JACKSON

U. S. ARMY HEADQUARTERS IN KOREA, Aug. 10—(UPI)—Gen. Walton H. Walker, U. S. 8th Army commander, girded for another American offensive on the southern front.

It looked today as though the gamble had paid off.

It was making Pusan, American supply port, secure.

If the North Koreans had reached Pusan, American supply ports would have collapsed.

The Americans, in thinning the Korean defense force to 10,000 miles of the long Nakdong River on the west and spreading five South Korean divisions across the northern front, had defense lines to be stretched to evacuate power to the attack that drove the North Koreans retreating toward Chinhae.

Walker pulled the 8th Army out of the 25th Division to form the main combat force, then directed the newly arrived 1st Cavalry, 1st Parachute, 1st Inf., 10th Inf., 1st Artillery and 10th Cavalry Regiments to the southern front.

The Americans, in thinning the Korean defense force to 10,000 miles of the long Nakdong River on the west and spreading five South Korean divisions across the northern front, had defense lines to be stretched to evacuate power to the attack that drove the North Koreans retreating toward Chinhae.

Secretary of Defense W. Averell Harriman, who was celebrated by the Japanese with a 100th birthday, was to be sent overseas.

What appeared to be a birth-day gift to the sum of a crore of dollars turned out to be a heavy shock when presentation of the gift was delayed.

The young生日 of E. H. W. Brooks Jr. was celebrated by the Japanese with a 100th birthday.

What appeared to be a birth-day gift to the sum of a crore of dollars turned out to be a heavy shock when presentation of the gift was delayed.

Two Fishermen Snag Same Fish

W. C. MARKS, JR., of Marion county, Fla., was brutally choked to death in her berth on the Southern Pacific's Golden State Limited early today as she resisted a rape attempt.

Sheriff J. V. Pruitt of Cochise County and Harold T. Lantz, 26, a discharged railroad employee from Tucson, had confessed the killing.

Victim of the murder was identified as Mrs. Ada C. Parks who the sheriff estimated was between 30 and 40 years old.

Parks had been strangled in her room at Bishop Inn.

"He was bunting and had bad behavior," the sheriff related.

Less than half-hour later the man ran screaming to the conductor who a woman had been murdered.

Young Scott, who was accompanied by his father, left Crook's Inn in the train, and Mr. Scott permitted his son to give it to the colored man.

R. H. Wayne, a carpenter for the city, was the incident.

THE WEATHER

Partly cloudy with scattered night and early morning showers on lower East Coast and widely scattered afternoon thunderstorms elsewhere through Friday.

Threat To Fighter Base Presented By Red Advance; 4 Mustangs Down

U. S. 8TH ARMY HEADQUARTERS IN KOREA, Aug. 10—(UPI)—Gen. Walton H. Walker, 8th Army commander, said tonight "a history-making maneuver" saved Pusan, Allied supply port on the east coast.

"It was a miracle," he said. "If the Reds had taken Pusan, we could have been destroyed. It would have been the finish."

The Reds had advanced with in 15 miles of Pusan at a point east of Chinhae in deep South Korea. There, an American offensive turned the tide.

TOKYO, Aug. 10—(UPI)—U.S. forces urged ahead 13 miles today and snapped shut an armored trap around 1,000 North Koreans in the Chinhae front in deep South Korea.

TODAY'S BIBLE VERSE

We could have more companion-
ship with the saints and immortal-
ity by absorbing their message and
spirit; And Peter answered, It is good
for us to be here.—Matt. 17:4.

Henry Wallace has resigned
from the Progressive Party which
just goes to show that he is not
a traitor to his country anyway.

Both Dorothy Thompson and
Walter Lippmann have been writing
some intelligent and informative
articles on the Korean situation lately.

Jimmy Roosevelt is reported
planning to get back into the
Marines, probably with his old rank
of colonel. The situation appears
to be well in hand.

It is refreshing to find the
Boys and Marines in Korea
able to overcome to some extent
the Washington's Administration
policy of being too late with too
little.

Four men were arrested in New
York the other day for using
teenagers to pass counterfeit bills.
Worse than making counterfeit
money is teaching youngsters to
become criminals.

President Truman asks Congress
to enact legislation designed to
protect this country against spies
and saboteurs. But he doesn't want
the Mundt-Nixon bill. They was
drawn by Republicans. Politics as
usual.

The Atlantic Defense Pact, says
British Conservative Robert Booth-
by, consists largely of a number of
committees. And in a straight fight
between tanks and committees, he
adds, the tanks are apt to have a
decided advantage.

There was no tie-in between
Florida gamblers and Chicago rac-
etracks, according to a witness
at the Kefauver committee hearing
in Washington. All it was, it
seems, was that the S. and G.
partners in Miami decided to take in
a Chicago businessman after he
presented them with proper cre-
dentials. Or else.

Beware of spoiling children. You
may ruin their entire lives. Last
year Barbara Jean Floyd, twenty
year old beauty-contest winner,
was so spoiled that she created a scene and got publicly
spanked by her air line pilot
husband in a hotel lobby. Last
week police rescued her from a
gas filled apartment as she attempted
suicide. "I felt that people were
laughing at me," she said, "I
couldn't hold my head up in public."

How much money can you find
on the floor and pocket without
becoming a thief? Well, not \$1,
\$20. Vernon Ois, a porter in a
Baton Rouge bank, found a flood
of \$20 bills mixed up with the
trash as he was sweeping out one
morning. "Findings keepings," he
thought, but he made the mistake
of paying \$500 down on an automobile,
buying \$200 worth of new clothes, so the police arrested
him the other day and charged
him with the theft of \$1,000 which
had been lost in the bank.

The United States and Britain
have decided not to throw Soviet
Diplomat Jakob Molotov out of the
Security Council and Russia out
of the United Nations for the time
being at least. That means that
Russia can continue to sabotage
the United Nations as long as he
remains as president even if some
new aggression is undertaken by
Communists somewhere else in
the world. Just as he has since he
has been president prevented the
division of anything that presented
any threat to the U.S. and Britain.

It is the opinion of the
United States that the
Soviet Union has done more to
the world than any other nation.

Next Target

Tibet has never before been considered of any particular importance to the Western World. However, with a threatened Chinese Communist invasion hovering over that ancient country our interest has been aroused by it for the first time.

Tibet is a high mountainous plateau in central Asia, separated from India by the Himalayan chain and from Russia by the Chinese province of Sinkiang. It is a rugged country and the people are rugged people. Most of them are of Mongolian stock and have a high resistance to cold weather, sustained by their favorite drink, hot buttered tea. The barren region supports only about 3,000,000 people. Agricultural methods are very primitive, but, with the aid of the yak to pull his plows, the Tibetan peasant grows barley, peas, wheat, and rye.

Since its history emerged from legend in the seventh century A.D., Tibet has generally preserved its independence through many attempts against it by the Chinese, the Russians and the British in India. The Tibetans last expelled the Chinese in 1912 and since then their independence has been preserved under British protection.

The country is ruled, theoretically, by two high priests, or grand lamas, the Dalai Lama, who resides at the capital, Lhasa, and is concerned more with earthly matters, and the Tashi Lama, who is supposed to concern himself more with the affairs of heaven. A large portion of the population consists of Buddhist monks and they, with the feudal nobility, possess most governmental influence. The major problem of the country is the decreasing population and the inability to get enough people to farm the land.

At the present time, the Dalai Lama is a boy in his teens, and the Tashi Lama is in exile in China. He recently called upon the Communists to wage a war of liberation and overthrow the Dalai Lama. The Chinese have always been eager to dominate the mountain country and now that their empire is more or less united and they have a strong veteran army, they may be expected to force the issue.

Tibetan tribesmen have a reputation for independence and whether they will submit willingly to Chinese domination is a question which only the future can answer.

Unknown Artists

A good artist need not be a professional. Many everyday people, farmers, grocery store bakers, village blacksmiths and the like, have amused themselves and added to the beauty of the world.

Some of this little-known art, pottery, sculpture, wood carvings and many other forms of artistic endeavor, is now to be seen at Fenimore House, Cooperstown, New York, the headquarters of the New York State Historical Association. This houses a collection of folk art bought last year from Mr. and Mrs. Howard Lipman and set up both as a collection of beauty and as an encouragement to the modest hobbyist of the future.

New York is not the only state to have such a collection. Santa Fe, New Mexico, will have an international museum of folk art, a bequest for a building having been received from Florence D. Bartlett of Chicago.

Historical societies, libraries and museums in other towns and villages might do well to look about their neighborhoods, and see if they, too, could not find something similar worth exhibiting.

Inpermanence

Now we hear it around one way and another that all the waving lotions used in the so-called permanent waves are basically alike and the chief difference between the ten dollar wave and the fifteen dollar one is five dollars.

Husbands have long suspected this. But women are funny, and some of them get five dollars worth of satisfaction out of the fact that they have paid fifteen dollars whereas some of their acquaintances have paid only ten. It may prove their husbands are more competent money-makers—or something.

If the permanents were only permanent nothing of this kind about them would matter much. But, alas, hair rows and other permanents are required.

Inpermanence is what one husband calls them.

AP Correspondent Don Whitehead reported from the front that U.S. reserve units destroyed pockets of Reds whose guns had stalled the southern thrust from Monday until Wednesday.

Resistance on the road to Chinju was described as "light" by a general officer. The Americans captured high ground six miles east of Chinju after a sharp skirmish.

U.S. patrols of the Fifth and Sixth Army Regimental Teams were within two miles of Chinju.

AP Correspondent Tom Lambert reported advanced units sputtered 10 miles to key forces with the 35th Combat Team 12 miles east of Chinju.

The link-up cut off an estimated 100 soldiers and pocketed remnants of two Red battalions. In

Korean War

(Continued from Page One)
drove on four miles to the South. The main threat to the fighters base came from another 100 miles rolling toward it from the mountain village of Kigye, eight miles northwest of Pohang, North Korean patrol of 30 men commanded the Yongchon-Pohang supply road with machineguns.

Four U. S. Mustang fighters were shot down by ground fire after taking off to machinegun the invaders. One pilot was lost and three were rescued. Boyle reported.

Twenty-nine miles southwest of Taegu, the main U. S. base on the central front, a battalion of the U. S. 24th and 30th Divisions on the banks of the Nakdong river, including 70 American planes, including 70 B-29s from Japan and Okinawa plastered the North Koreans. The Air Force and the B-28s badly crippled northern rail lines with the biggest raid of the war on Wonju, east coast rail center north of the 33rd parallel. The big planes caught the 25 track-wide raid yard jammed with traffic. Ammunition, fuel, food and other supplies went up in a gigantic fire.

The U. S. 8th Army headquarters in a continuing effort to expand its strength at 9:45 P. M. (6:45 A. M. EST) Thursday said United Nations troops battled aggressively on all fronts to expand gains in the South.

Elements of the 24th Division tried to dislodge river-crossing Communists dug in southwest of Taegu but were unsuccessful.

The First U. S. Cavalry Division annihilated another enemy force northwest of Taegu about 7 P. M. (4 A. M. EST) Thursday, killing 300 Reds and capturing 20, the communiqué said.

Farther north on the 140-mile front, South Koreans captured three Russian-made tanks in close fighting. Planes knocked out six more.

The Allied gains on the south coast were the biggest of the United Nations offensive which jumped off Monday westward from near Masan, south coast port.

Hundreds of North Koreans were forced to retreat toward Chinju base so fast they left quantities of arms and equipment behind. They were of the North Korean Sixth Division.

The Red high command seemed determined to make the Sixth stand the death in the South.

In apparently sacrificing the Sixth Division, the Red command diverted the North Korean First Division to the Nakdong River barrier battle 20 miles north of Chinju.

The U. S. 8th Army headquarters said the Sixth may try to make a stand in high ground west of Chinju.

AP Correspondent Don Whitehead reported from the front that U. S. reserve units destroyed pockets of Reds whose guns had stalled the southern thrust from Monday until Wednesday.

Resistance on the road to Chinju was described as "light" by a general officer. The Americans captured high ground six miles east of Chinju after a sharp skirmish.

U. S. patrols of the Fifth and Sixth Army Regimental Teams were within two miles of Chinju.

AP Correspondent Tom Lambert reported advanced units sputtered 10 miles to key forces with the 35th Combat Team 12 miles east of Chinju.

The link-up cut off an estimated 100 soldiers and pocketed remnants of two Red battalions. In

the fighting for Chinju the battles are estimated to have been reduced from 2,000 men to 1,000. U. S. Fifth Regiment Marines entered Kosong, a South coast village. Correspondent Lambert reported the spirits of the leathernecks and of the doughboys just to the north of them were high.

An American general staff officer said the retreat of the North Koreans toward Chinju was made "in the nature of a rout." The main body of U. S. Army troops was five miles out of Chinju Thursday night.

Marine fliers supporting the Chinju drive reported knocking out 50-ton Russian tanks. The Marines said they flew so low that North Korean mortars fired "in the nature of a rout." The main body of U. S. Army troops was five miles out of Chinju Thursday night.

The larger of these two river-crossing forces were Noguchi's 1st and Second Divisions on the banks of the Nakdong river.

The larger of these two river-crossing forces were Noguchi's 1st and Second Divisions on the banks of the Nakdong river.

The nomadic Numatajins es-
timated 3,000 Reds could in-
flict heavy losses on the 1st and 2nd Divisions.

Mrs. Beckwith Honors Mrs. William White

Mrs. Arthur Beckwith honored Mrs. William White with a canasta party and surprise "stork" shower Tuesday evening at her home on West Twentieth Street. The party rooms were beautifully decorated with greenery and summer flowers.

Miss Martha Wight won high scores and Miss Douglas Stenstrom had the low score. Little party cakes with "Baby White 1950" written on them, open-faced sandwiches, mints and Coca Colas were served buffet style from the dining room table, which was overlaid with lace cloth.

Those present with Mrs. White were Mrs. Edward Winnick, Mrs. Douglas Stenstrom, Mrs. H. G. McIntosh, Mrs. Harry Robison, Mrs. John Sauls, Mrs. C. R. Kirby, Miss Martha Wight and Mrs. Beckwith.

Personals

Mr. and Mrs. R.H. Smith have returned from Boston where they have been for some time.

Mrs. J.N. Robison has returned to her home after visiting relatives in Hastings. She was gone for about three weeks.

Mrs. John Denett has been en route to the Florida Sanitarium in Orlando. She has been there since Tuesday.

Mrs. Richard Farrell and son Johnny are spending a few weeks in Lansing, Mich. with Mrs. Farrell's parents.

Walter M. Smith and Wade Tucker are leaving today to go to Waycross, Ga. to be usherers in the Baker-O'Neill wedding.

Mrs. Edna Adams and Mrs. C.J. Carson are moving their home from 2801½ South Park Avenue to 911 Magnolia Avenue.

Mrs. E.A. Dyson and Miss Eliza both Dyson have returned to their home after spending the last seven days at Daytona Beach.

Mr. and Mrs. G.T. Ray are spending this week in Tampa with Mr. Ray's sister and brother-in-law, Mr. and Mrs. Byron Stebbins.

Mr. and Mrs. Robert Hamilton, Mrs. Mary Jane Hamilton and Mrs. Louise Gregory of Dalton, Ga. have been guests this week of Mr. and Mrs. M.R. Strickland.

Verne C. Messenger has returned from Gadsden, Ala. where he visited his brother-in-law and sister, Mr. and Mrs. Frank Thomas. He was accompanied by his mother, Mrs. M.S. Messenger.

Mrs. O.T. Pearson has just returned from a week's vacation in Miami with her sister-in-law and niece, Mrs. Flora March and Miss Jessie Kersey. She also visited with her nephews, Jack and Emmett Pearson, Sylvan Pearson and at The Inn in Little Switzerland, N.C. before returning to Sanford.

German Commies

(Continued from Page One)
West Powerless here again.

ADN in its original account said the Bonn government for weeks to Mrs. a report by Karl Strohfeld, minister of interior in East Germany, quoting condensate, a local news agency, in that area by American aircraft twice last month. (The U.S. Air Force headquarters at Westerhoven has denied American planes were involved.)

Yesterday the Soviet Control Commission's official newspaper announced Soviet air blockade of Berlin might be off the shelf.

Taegliche Rundschau published an interview with Communist leaders who demanded that the Soviet Union bar American planes flying over East Germany to prevent "our entire crop from

going up in flames."

Any attempt by the Russians to block American planes from the three Allied air corridors linking Berlin and Western Germany would risk the chance of East-West conflict.

The mothers of the B.O.W. served a covered dish supper to

approximately 25 boys.

The B.O.W. will hold their regular meeting the first Friday in each month. A. T. Hawking, E. Green, and J. A. Lau make up the committee who are in charge of these meetings. C. C. Collins is financial secretary.

Soviet Filibuster

(Continued from Page One)
by Congress, but added that such controversial proposals should be put off until the next Congress meets.

He conceded that an excess profits tax—which he has not asked for—should be voted eventually. But he said he preferred it to come when Congress is over the election jitters.

He repeated that he had asked for tax increases which he believed could be enacted quickly and that an excess profits levy is very controversial.

Replying to another question, he said he is optimistic on the Korean military situation. He said he is taking his advice from U.S. military leaders and he is as optimistic as they are.

A reporter asked that General Douglas MacArthur had complained that defeats and appearances are working against him. The President said he had not met anyone of that sort yet, an emphasis was put up to him yet and would comment when and if it is.

A reporter putting this question quoted Lieut. Col. Trygve Lie, U.N. secretary general, as saying that "high level" meetings would be necessary to work out a solution.

The President said he would favor anything that would contribute to world peace.

"That's all," he said, "as to whether there will be a meeting of heads of state." A reporter remarked. Mr. Truman replied flatly there will not be such meeting. He agreed however, that he was differentiating between heads of state and high level meetings.

plete agreement.

He said he put MacArthur in the Japan job and also made him commander in chief of the U.N. forces in Korea, and is satisfied with what he is doing.

The President once more rejected the idea of a meeting of heads of state on the question of peace. Asked whether the U.S. would approve "high level" meetings, if Trygve Lie, U.N. secretary general, took the initiative, he replied that this had not been put up to him yet and would comment when and if it is.

Kiwanis Meet

Continued from Page One
the boxed gift was made by Al Wilson. Mr. Wight was showered also with congratulatory telegrams.

Aluding to Dr. Marsh's book, "The American Canon," Dr. Brooks pointed out that "the ideals" of American democracy was a document signed on board the Mayflower by 41 of 43 men in 1620 and known as the Mayflower Compact.

The "Exodus" from bondage was the Declaration of Independence, he stated. Thomas Jefferson, chosen to write the historic document, was only 33 years old at the time.

old at the time. The "Law" was the U. S. Constitution, which can be read in 25 minutes, he stated. This has been instrumental in promoting freedom, liberty, peace, prosperity and happiness in the land, and very few changes have been made in it. He referred also to the Bill of Rights.

Dr. Brooks pointed out that 163 years had passed after the country was first settled before the principle of religious liberty was established. For a time Rhode Island and Maryland were the only states where this principle was observed. Failure to observe religious laws often meant a beating at the stake, or confiscation of household goods in places where religious freedom was not observed, he said.

A. E. Ramsey told of a recent visit in Pennsylvania to a 200 acre farm maintained by Kiwanians for underprivileged boys, who get a new outlook on life,

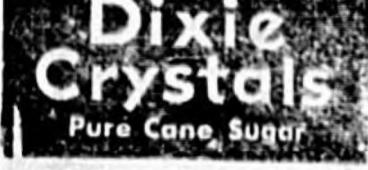

strategic locations this year and next year. We even have on order still another generating unit which will be located in 1952 wherever required by Florida's growth," Mr. Coleman said.

"Strike it rich"
at our
gold mine of good used cars!

Been prospecting for a good used car? Then come down and stake your claim to one of our "gilt-edged" used cars. With more and more people trading in their cars for new 1950 Mercury's, our used car stock glitters with good buys. As we've got the "inside track" on the best used cars in town, you get the best used car buy in town!

Yes, we've got what you're looking for—nearly every make and model. And wait until you see the low, low prices. You won't want to delay a minute before you drive one of these beauties. Harry in today and "strike it rich" for miles and miles of trouble-free driving.

Senate Group Votes Hike In Income Taxes

20 Percent Increase Expected To Raise About 3 Billions; Truman Hits UMT

WASHINGTON, Aug. 11.—(AP)—The Senate Finance Committee today approved an annual increase of about \$3,000,000,000 in personal income taxes. And President Truman announced his opposition to a Universal Military Training bill at the present time.

The tax bill authorizes the government to begin digging deeper into the pockets of over 50,000,000 taxpayers on Oct. 1.

At the same time, the committee instructed its staff to draw up an exemption which would have the effect of removing taxes from members of American fighting forces below the commissioned officer rank in Korea and other areas of hostilities.

Some exemption also would apply to officer personnel, under this plan.

If the Senate and House approve the tax bill, as they are expected to do, the tax obligations of individuals will go up as much as 20 per cent in some income brackets.

Beginning Oct. 1, withholdings on wages and salaries, after personal exemptions, would jump from the present \$1,100 to \$1,300 per week.

The committee action completed its approval of the major items in President Truman's "first installment" \$5,000,000,000 tax program intended to help pay for the Korean war and America's rearmament against Communist aggression.

The tax framing group yesterday okayed a \$1,500,000,000 a year increase in corporation taxes, raising the top levy on corporate income from 38 per cent to 45, effective of July 1, 1950.

The higher tax rates will apply in 10 of 1950 corporate income, but only to 1/4 of 1950 individual income.

All told, the committee now has approved items aggregating about \$4,500,000,000 of the President's \$5,000,000,000 request. It has yet to act on several minor items, also possibly on an excess profits tax proposal for corporations.

President Truman will not seek passage of a Universal Military Training bill at this session of Congress, the white House said.

Presidential Secretary Charles G. Ross said that the President is as strong as ever for such a measure, but feels that pressure for it at this time might interfere with other vital needed legislation related to Korean war needs.

Even if the President wanted UMT now, key members of Congress were saying it would cost too much in money and manpower, especially when piled on top of other growing defense costs.

Ronald M. Truman's view at news conference when told about reports of an Administration drive for passage of a UMT bill, was firmly voiced contempt of Congress citations against 84 who voted for it.

Home Builders Say Housing Boom Will Continue This Year

WASHINGTON, Aug. 11.—(AP)—Home builders said today that recent government urban renewal programs will not check the record breaking housing boom until late fall. They said the eventual effect will be a cut of 25 to 30 percent in home building next year.

The estimate of the situation was announced by the National Association of Home Builders, which is anxious to avoid any further housing controls at this time.

The new government regulations require veterans to make a 5 percent down payment when buying a home, and require down payments 5 per cent larger than before on mortgages insured by the Federal Housing Administration.

About 30 key men of the association, including the executive committee, are meeting here today.

TAYLOR PERSISTS

BOISE, Idaho, Aug. 11.—(AP)—Just about everybody here, Senator Glen H. Taylor, had conceded today that Taylor had lost in his bid for renomination for the Idaho Democratic six-year Senate term.

The one-time singing cowboy who ran in the number two spot with Henry Wallace on the 1948 Progressive Party ballot, was trailing his opponent, former Senator D. Worth Clark, by a considerable lead-plus votes.

With 816 of 1,020 precincts counted, the unofficial figures in Tuesday's primary stood at 26,700 for Clark, 25,630 for Taylor, and 14,541 for the third man, Rep. Compton L. White. White conceded to Clark yesterday.

He is Raymond N. Marston, Jr., whose father, a pulp mill worker in Palatka, formerly lived in Titusville and knew Mr. Harrel. The latter recognized the boy's picture in a newspaper, and telephoned the Sanford Police Department.

Warren Austin

THIRISTERING TACTICS OF SOVIET DELEGATE Jacob Malik (left) on the U.N. Security Council at Lake Success, N.Y., are vigorously attacked by China's Tingfu Tsing (center) and Warren Austin of the United States. Malik strives to delay a vote of censure on North Korea, introduced by Austin, and likewise to hold up the seating of South Korea's representative, John M. Chang, as angrily demands by Tsing (International).

Reserve Officers Called To Colors, Army Announces

Doctors, Dentists And Veterinarians Are Ordered Out

WASHINGTON, Aug. 11.—(AP)—

The Army announced today that it is calling up to active duty whether they like it or not—7,862 reserve captains and lieutenants who are not assigned to units of the organized reserve corps.

The officers, all men, will be on active duty by Oct. 6, the Army said. They are being ordered up for 21 months, subject to change by Congress, unless relieved sooner.

The Army said simultaneously that it will recall involuntarily 1,582 male officers of the active and inactive medical, dental, veterans and medical service corps.

This call-up will affect officers up to the grade of major in the medical and medical service corps, lieutenant colonel in the dental corps and major in the veterinary and medical service corps.

The company grade officers being recalled include 1,858 captains and 6,065 lieutenants in 16 arms and services. They will come from all parts of the country.

This was the first Army call-up from the higher ups, were in rough sketches, and there is a good chance the staff has been picked with a knowledge of his duties. Too little information is available as to the effects of atomic blasts and how to cope with them, he added. If global war comes we will need information regarding mass shelters and medical supplies, etc., which are being awaited by the commandant, and are awaiting our leadership, if any, to supply it.

President Stenner and R. F. Gaines were named as delegates to the three day summer camp, which since 28 local Jaycees will attend. Alternates are John Kader and Alvin Ogleham.

Among the topics slated for discussion at the conference said Mr. Stenner are those concerning United World Government, support of colored Jaycees and curbing crime and gambling in Florida. Another topic will be whether or not to give more voting strength to larger Jaycees clubs. Delegates from here are to go to the conference untrained, it was voted.

Local Jaycees will wear sport shirts at the conference on which are pasted maps of Florida, and seals of color, identifying the visitors as representing this section, said Mr. Odham. On Saturday night a fashion show will be held for wives of delegates and visitors.

The Army said it anticipates that one-third of the group will report by Sept. 22 and an additional 100 by Sept. 23.

TAYLOR PERSISTS

BOISE, Idaho, Aug. 11.—(AP)—Just about everybody here, Senator Glen H. Taylor, had conceded today that Taylor had lost in his bid for renomination for the Idaho Democratic six-year Senate term.

The one-time singing cowboy who ran in the number two spot with Henry Wallace on the 1948 Progressive Party ballot, was trailing his opponent, former Senator D. Worth Clark, by a considerable lead-plus votes.

With 816 of 1,020 precincts counted, the unofficial figures in Tuesday's primary stood at 26,700 for Clark, 25,630 for Taylor, and 14,541 for the third man, Rep. Compton L. White. White conceded to Clark yesterday.

He is Raymond N. Marston, Jr., whose father, a pulp mill worker in Palatka, formerly lived in Titusville and knew Mr. Harrel. The latter recognized the boy's picture in a newspaper, and telephoned the Sanford Police Department.

Malik Demands Immediate Vote On His Proposal

Russian Would Admit Both North, South Korea To Council

WASHINGTON, Aug. 11.—(AP)—Secretary of State Acheson today accused Russia's reservation in the U.N. Security Council of trying to "thwart the United Nations effort to restore peace and security" in Korea. At a news conference Acheson also said that the Soviet delegate, Jacob Malik, had used "military tactics" and "generated resistance" of the truth in obstructing presentation of the real facts about Korea.

Mr. Stenner, Jaycee president, pointed out that Seminole County has favorable facilities for camps and waterfront facilities suitable for amphibious training.

Briley Odham, Florida Jaycee president, suggested that the Jaycees look into the possibility of the Naval Air Station being reactivated, and pointed out that the government is spending more than 15 billion dollars for national defense, and said that facilities at the former station are in top condition.

"I think that arrangement could be made with the federal government to relinquish those now occupying the station," he stated.

Gordon Bradley introduced Mr. Peterson who told the Jaycees that he could not begin them with a sense of false security, and predict "dark days ahead" in event of a global atomic war.

The non-Communist committee were invited the North Korean authorities are Soviet puppets and that the U.S. should not deal with them until they have returned north of the 38th parallel.

He said that his instructions from the higher ups were in rough sketches, and there is a good chance the staff has been picked with a knowledge of his duties. Too little information is available as to the effects of atomic blasts and how to cope with them, he added. If global war comes we will need information regarding mass shelters and medical supplies, etc., which are being awaited by the commandant, and are awaiting our leadership, if any, to supply it.

President Stenner and R. F. Gaines were named as delegates to the three day summer camp, which since 28 local Jaycees will attend. Alternates are John Kader and Alvin Ogleham.

Among the topics slated for discussion at the conference said Mr. Stenner are those concerning United World Government, support of colored Jaycees and curbing crime and gambling in Florida. Another topic will be whether or not to give more voting strength to larger Jaycees clubs. Delegates from here are to go to the conference untrained, it was voted.

Local Jaycees will wear sport shirts at the conference on which are pasted maps of Florida, and seals of color, identifying the visitors as representing this section, said Mr. Odham. On Saturday night a fashion show will be held for wives of delegates and visitors.

The Army said it anticipates that one-third of the group will report by Sept. 22 and an additional 100 by Sept. 23.

TAYLOR PERSISTS

BOISE, Idaho, Aug. 11.—(AP)—Just about everybody here, Senator Glen H. Taylor, had conceded today that Taylor had lost in his bid for renomination for the Idaho Democratic six-year Senate term.

The one-time singing cowboy who ran in the number two spot with Henry Wallace on the 1948 Progressive Party ballot, was trailing his opponent, former Senator D. Worth Clark, by a considerable lead-plus votes.

With 816 of 1,020 precincts counted, the unofficial figures in Tuesday's primary stood at 26,700 for Clark, 25,630 for Taylor, and 14,541 for the third man, Rep. Compton L. White. White conceded to Clark yesterday.

He is Raymond N. Marston, Jr., whose father, a pulp mill worker in Palatka, formerly lived in Titusville and knew Mr. Harrel. The latter recognized the boy's picture in a newspaper, and telephoned the Sanford Police Department.

TAYLOR PERSISTS

WASHINGTON, Aug. 11.—(AP)—President Truman today stepped into the labor dispute between 26 short-line railroads and workers represented by 18 non-operating unions.

He signed an executive order setting up an emergency board to investigate differences which the President said threaten to the country of essential transportation services.

Mr. Truman's action has the effect of preventing a strike for a period of 60 days.

RAIL STRIKE

JACKSONVILLE, Aug. 11.—(AP)—Enough railroad material for a army of Halloween ghosts was stolen from the George Washington Hotel.

Police said someone entered the hotel with a pass key and took 60 dozen sheets valued at \$40.

SAFETY COUNCIL

JACKSONVILLE, Aug. 11.—(AP)—In the thick of the Korean campaign in George W. Dibrell, 18-year apprentice, USN of Box 481, Sanford, Fla., a crew member of a Naval aircraft carrier which is spearheading Navy attacks against Korean Communists.

The U.S. aircraft planes of the Navy have flown from the carrier on numerous strikes, inflicting great damage by use of rockets, bombs, and incendiary projectiles against enemy ground and air installations.

One European Army Sought By Churchill

Statesman Demands Unification Of Western Defense, Ridicules Talk

STRASBOURG, France, Aug. 11.—Winston Churchill today urged the immediate creation of a unified European army to defend the West against the Soviet Union.

Britain's wartime Prime Minister formally introduced a motion on the floor of the European Consultative Assembly asking for such an army "subject to proper democratic control."

Churchill's motion said such a European force should act in full cooperation with the United States and Canada in support of the United Nations Security Council.

Churchill demanded the prompt creation of a "real offensive front in Europe."

"The United States and Britain must send large forces to the continent, and France must revise its arms," Churchill declared, calling upon the nations of the West to do their share in protecting civilization.

The wartime leader asserted that the whole West is in great danger with the "freedom and civilization of Western Europe under the shadow of Soviet aggression."

The British leader called the five-nation Brussels Treaty as completely ineffective.

A committee has been set up which have been talking together," he said. "Conferences have been held with high officials and statesmen. A pretense has been employed by the governments responsible for our safety.

"But in actual fact," he said, "apart from the establishment of an American base here in Britain, nothing has been done to protect one people."

Churchill complained that his warnings to the West in the past had fallen on deaf ears, or were used to sustain the false position of the east of war.

"Now, however," he said, "Churchill suddenly the lighting flash across the spreading confrontation which he has caused has raised the whole free world to a high and vehement realization of its dangers, and many measures are now proposed which, if they had been taken two years ago, would at least have yielded some fruit."

Churchill warned against depending too much on the West's military superiority in steel and steel production.

"Most of us thought the price of aggression to us were stuck down," he declared.

Replying to statements by French leaders that France does

Bid Is Accepted By School Board On School Buses

Brailey Odham To Preside At Meet On Jaycee Group

JACKSONVILLE, Fla., Aug. 11.—(AP)—Crown Prince Brailey Odham has been elected in the place of his father, King Leopold III.

He took the oath as Prince Royal amid loud cheering in Parliament, where several hours earlier the Senate and Chamber of Deputies in joint session had given final approval to the son transferring Leopold's royal powers to his 19-year-old son. His final vote was 349 in favor with 100 abstentions.

He was the final act in a royal drama that began with his public renunciation in 1944 for his actions in surrendering to the invading German armies in World War II.

The country was brought to the brink of civil war by strikes and violence stemming from the division among the Belgian people.

The unrest persisted up to the moment of the oath taking, but royalists approved the royal powers.
