Vietnam Costs Termed Heavy

By THE ASSOCIATED PRESS

For everyone involved, the cost of the Vietnam war has been staggering, both in terms of lives and dollars. Here is a quick look at some of those

CASUALTIES: The Pentagon says 45,928 Americans were killed in action, and more than 300,000 were wounded between 1961 and the end of 1972. The South Vietnamese command says 180,676 of its troops and an estimated 921,350 North Vietnamese and Viet Cong were killed in the same period.

The U.S. Senate Subcommittee on Refugees estimates civilian casualties in South Vietnam at 415,000 killed and 935,000 wounded from 1965

TAXES: The war has cost American taxpayers nearly \$137 billion.

U.S. SERVICEMEN: About 2.6 million

Americans have served in the armed forces in Vietnam and another 700,000 elsewhere in Southeast Asia or on ships off the Vietnamese

REFUGEES: The war has created, at least temporarily, more than 6 million refugees in South Vietnam, according to Sen. Edward Kennedy, DMass., a chairman of the Senate United States, North Vietnam Subcommittee on Refugees. Millions of others and the other warring parties have been driven from their homes in Laos. are obligated to exchange com-

Cambodia and North Vietnam. AIRCRAFT LOSSES: The United States has lost 4,900 helicopters and 3,700 fixed-wing planes, about 1,100 of them over North Vietnam.

BOMBING: U.S. warplanes dropped about 7.1 million tons of bombs and rockets on the four countries of Indochina. That is about three times the tonnage dropped by U.S. planes in World War II and 10 times the amount in the Korean War.

End Of Vietnam War Draws Near

The order by President Nixon which halted the bombing of North Vietnam and the flurry of diplomatic activity in the United States of America, France and Vietnam leave little doubt that our role in the Indochina war is nearing an

In all probability only the diplomatic niceties remain. Gen. Alexander Haig will brief South Vietnamese President Thieu on the final details of the agreement reached in Paris. Dr. Henry Kissinger will then return to Paris at the instruction of President Nixon to initial the final accords before joint announcements are made.

If all goes according to this script, Americans will feel an immense sense of relief. Conclusion of our part in the conflict has been so near so many times that most of us will not believe that the moment has come until it ac-

Perhaps the greatest sigh of relief will be by the President himself who has been under such severe pressure for so long. An initialed agreement would be a testimonal to his perseverance as well as an accolade to his knowledge of how Communists behave. The President's judgment that the Soviet Union would not make a larger commitment to war if Haiphong harbor were mined was doubtless the turning point. His conviction that Moscow would do nothing in Hanoi were bombed last month was the capstone.

Indeed, the Soviet Union has, on the whole, been realistic about the niche of Vietnam in its world design. That, in part, was why Soviet leader Leonid Brezhnev could say last week that "the affair of the war little by little goes to its end." He again was telling the North Vietnamese that they are getting as much help as they are going to get from Moscow; that they are on their own after that. Without additional Soviet commitment the North Vietnamese could not withstand the tremendous punishment that American bombing was inflicting. So they changed their tune in Paris.

In the eyes of the Communists, negotiations are another form of warfare, and North Vietnam undoubtedly sees whatever agreement has been reached in this light.

After all it seems likely now that North Vietnamese troops will remain in the South, peace supervisory forces historically have been ineffectual and by the admission of Dr. Kissinger himself, some parts of the dialogue weeks ago were intended to be fuzzy. The loopholes and areas subject to interpretations by the Communists will be many.

One area in which there simply must be no latitude relates to the safety of the 24,000

Americans remaining on the ground in South Vietnam, the prompt return of American prisoners of war and for a thorough accounting of those missing in action. These provisions, we hope, are spelled out in terms which make plain that we cannot drop the war or extend actual reparations to North Vietnam until all of this has been accomplished

A complicating factor will be that the war will almost certainly go on without the presence of the United States. North Vietnam has not lost

Phase III

Will Food Prices Destroy It?

Chief, Washington Bureau Copley News Service

is admittedly the Achilles' "Phase III" wage-price policy, between April, 1943 and June, working at year's end the long-suffering American 1946, when controls ended," The cost of living increase Congress had voted him the housewife-not the giants of says Congressional Quarterly, slowed to 4 per cent for 1951 and authority labor and industry-may the authoritative Capitol Hill only one per cent in 1952, but When he came to office in emerge as the final arbiter. record-keeper. "Prices then business activity also began to 1969, President Nixon junked History and supermarket shot up until, in December, stagnate. President Dwight D. the guidepost policy as untrends suggest the President 1948, the consumer price index Eisenhower pledged an end to workable and expressed confaces a tough jury.

intervened in the normal freethe controls were removed, the as speculators anticipated the Vietnam war, President real economic growth, nation experienced a furious round of pent-up wage and price

President Nixon appears convinced that still-fresh memories of inflation in the late 1960, the expanding domestic economy, standby control powers and the "jawboning" might of the White House can withstand market pressures. America's first experience with controls came during

In August of 1917, four months after the United States entered the war against the central powers, President Woodrow Wilson ordered price controls on wheat and coal. These were gradually extended to cover other commodities. They were lifted abruptly after the armistice in 1918 and prices

The World War I control program was selective, only marginally effective, highly controversial and roundly criticized in later years when it was learned that war profits created 22,000 new American millionaires. Attempts by Franklin D.

Roosevelt to establish voluntary wage-price guidelines and preach restraint to big business and big labor during the country's pre-world War II buildup failed because increased industrial activity also fed buying appetites that had been suppressed during the depression-ridden 1930s. In 1941 the consumer price index jumped 10 points and on

Political Notebook **Earthquakes Point** To New Mysteries By BRUCE BIOSSAT

WASHINGTON (NEA) In the lonely cold of Pittsburgh's stadium, the electric scoreboard lit up with a sad epitaph: "Roberto Clemente -1934-1972." There were no spectators, but cameras flashed to the nation this evidence that a great athlete's death touched the daily lives of many people. In the literal sense, he died in a plane crash off the coast of his native Puerto Rico. In a larger way, he was the victim of an event which reflects a partially unraveled

mystery about the earth's crust. He would never have been on that faltering aircraft had he not undertaken personal overseeing of a mercy mission to Managua, Nicaragua, where two days before Christmas a violent earthquake killed several thousand. injured many thousands more, and leveled all but a fourth of the capital's buildings. Earthquakes of course are a familiar story. In the past

20 years, there have been thousands of strongly measur-

able shocks. Heavy loss of life has resulted 26 times

They were certainly not new to Managua. Quakes in leaders in Nicaragua in 1931 known and acted upon what scientists know today, there might have been no massive disaster this time, no mercy mission, and no early death for the great, generous-hearted Roberto Clemente. Even in 1931, admittedly, a good deal was known about making buildings earthquake-proof. Managua itself has two such 18-story buildings still standing despite the

But there is much more than this. The fact is that knowledge about the earth's crust has virtually exploded since World War II. Indeed, the science of the crust and its movement has been radically transformed in just 10 years. Who knows or cares? We all should.

A great new theory about that crust has won accept ance. It is more than an interesting "mystery unveiled." f accurate, it touches the daily concerns, the very lives. of millions living on the earth's widely plotted "faul lines." where crustal action tears and blasts the surface. Along the Pacific rim from South America's tip to the islands above Australia, that movement has been steadily

No serious scientist today doubts that this plate movement causes "continental drift." It is accepted not only that South America and Africa were once joined (their sub-surface coastal rock strata match perfectly), but that all continents once were huddled in a single mass. As humans gauge time, the drift is slow. The Atlantic widens an inch or two a year. But evidence shows that part of the Pacific floor, especially off the Latin American coast (including Managua's area) is moving four

To know this is, in effect, to be able to predict more and more earthquakes and eruptions from Mexico to Chile's coldest tip. Will Nicaraguans take note when they rebuild Managua but a few miles from the destroyed site but still within the danger belt?

What moves the earth's crustal "plates" remains a mystery. But would anyone like seriously to argue that the new discoveries, if properly known, would still excite and concern only our adventuring geologists?

Blacks Get Equal Sports Break? No

Since the late Jackie Robinson became the first black

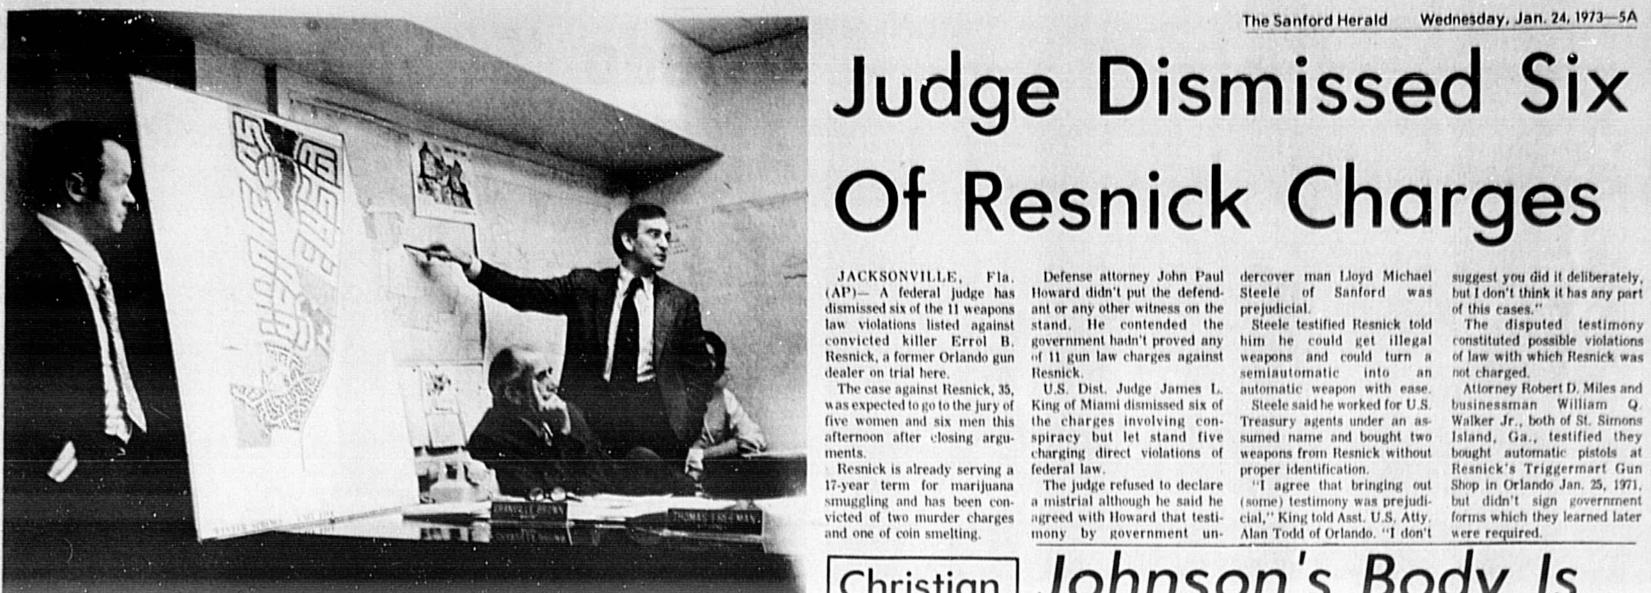

Not necessarily, object two sociologists, Norman Yet-For the superstars, the Hank Aarons and Wilt Chamberlains and others, the doors are wide open. But for the journeyman black athlete, the one who needs two bounds

The sociologists studied college and professional basketball and baseball teams to reach their conclusions, While on the surface the figures show a sharp rise in black participation, a closer examination reveals a curious fact: Most of the black players in both collegiate and professional basketball are starters; few are secondstringers. They should be randomly distributed through-

In baseball, the situation is even more striking. The

mean batting average for blacks has remained 20 points greater than the average for whites for nearly two decades, backing up an earlier claim that not only do blacks have to outperform whites to get into baseball but they must consistently outperform them to stay in. While it is clear that the superior black athlete will win a starting role, say Yetman and Eitzen, the undistinguished one is still likely to lose out to his white counterpart for a spot on the bench.

Christian Johnson's Body Is Moved To Capitol

By KEN GEPFERT

Associated Press Writer TALLAHASSEE, Fla. (AP)-Florida should not host any more presidential primaries because its citizenry is still suffering from the divisive rhetoric of last spring's votehungry candidates, Education Commissioner Floyd Christian

Primaries

"I did not see sufficient benefits to the State of Florida to overcome the divisiveness of so many candidates dwelling on emotional issues which exploited many people's fears and apprehensions," Christian said in a letter to Secretary of State Richard Stone.

Christian said he would support legislation repealing the law which created Florida's first presidential preference primary last March 14. Stone last week recommended that a national or series of regional primaries replace the present system of elections in individual states. "What we have now is a hell

of a mess," Christian said Tuesday in an interview. Christian, the state's chief school officer, identified school busing for racial purposes as the issue which left the most scars in the wake of last

\$28.40 1 Year Copley News Service By Mail In Florida Same As Home Delivery All Other Mail \$2.70 Month 6 Months \$16.20 12 mos \$32.40 Where in the world are some 15,000 to 20,000 nonresident Alaskan natives, or their children, who may be eligible to share in a near-billion-dollar windfall called the Alaskan Native Land Claims settlement? The answer so far is: in every one of the 49 "lower" states and at least 17 foreign countries. The Alaska Native Land Claims Act, signed into law by "Some of the 40 million acres to be parceled out to President Nixon Dec. 18, 1971, granted Alaskan natives 40 million acres of land and \$962,500,000. A Native Enrollment Coordinating Agency in Anchorage, Alaska, was handed the task of signing up the estimated 60,000 Alaskan residents

Published daily and Sundays, except Saturday eligible for benefits and the nearly 20,000 nonresidents believed eligible. They must be U. S. citizens with at least one-fourth Alaskan Indian, Aleut or Eskimo blood. A massive, worldwide search has been launched to contact eligible recipients before the March 30, 1973, deadline Herald Area Correspondents

prescribed in the law George A. Walters, assistant enrollment coordinator for the big search, estimates those who can prove their Alaskan bloodline may receive as much as \$12,000 each and a share of land in and around one of the countless villages and fishing camps which dot the vast reaches of Alaska.

Walters says the Alaskan claims settlement parallels in some respects the government's granting of lands to the Oklahoma Indians back in the 1920s. The Oklahoma land grants made millionaires of some Indians fortunate enough to be given land with rich oil

'IS THAT A DOVE?

"The same thing can happen in Alaska," Walters points out. "Oil companies already have paid nearly a billion dollars just for the right to explore potential Alaskan oil lands, after the North Slope discoveries.

Alaskans is likely to be valuable, while other lands will be Through the news media, word-of-mouth, and a corps of field workers, Walters says, the coordinating agency believes it will have contacted most of the eligible natives in and out of Alaska by the March 30 deadline. Children of native Alaskans, like those of the Aleutians moved from their island homes during World War II to the U. S. West Coast.

are eligible to participate in the money and land grants, he From thousands of out-of-state applications already received, more than 5,000 came from 500 communities in California, Oregon and Washington. The others represent every state in the Union and 17 foreign nations.

On Academy Mats

Greyhounds Meet Florida Air

Grapplers to the East Coast Air. today one will have to excuse Shane Miller at 147 pounds usually the 187 pounder After their loss to Satellite Leesburg, 58-2. the Lyman coach. The last time his team was over that way they were beaten, the only dual meet loss inflicted upon Lyman in the last two years.

Scott's Greyhounds have won their last five in a row since that loss and today must tangle with Florida Air Academy on the Airboys home mats.

The Air Academy has won

only once in four matches but still has quite a formidable team. Their last outing saw them challenge St. Andrews but fell in the end, losing a 36-26 Top grappler for the Air

Academy is Tom Stewart the 128 pounder who has not lost in three matches. He'll put his perfect record on the line against Lyman's Jim Brinker who has a 2-2 record this season but a wealth of experience going for him.

Florida Air also has a fine 169 pounder in Jim Massiman and he'll be the one who will try to do something no other wrestler has been able to do in dual meet competition. And that is hand Lyman's Glenn Hill a setback Hill has a string of 19 straight wins dating back to last year when he finished with a perfect 13-0 dual meet record.

Hill is one of four Lyman wrestlers who have unbeaten marks thus far. Doug Peters at 100 pounds is 6-0 and Ray Leoce

By DONNA ESTES

A series of motions were adopted unanimously by the City Council Monday night to permit the realignment and paving of Lake Kathryn Circle estimated to cost some \$65,216.35 with assessments to abutting property owners at \$10.65 per lineal foot.

The new road is to have 28 feet of asphaltic concrete with curbs and gutters except for a 100 foot strip at the northernmost end which will have no curbs. Elimination of the curbs from the short strip is because

of need for a drainage easement to Lake Kathryn. Complaint of two property owners that re-location of the road will deny them access to their homes brought action from the board to instruct the city inspector to view the spot to determine costs of demucking and refilling an area to

allow driveways to be placed to old driveways. City Manager Ron Bergman said impetus for the paving is the sizeable contribution toward the project which has been offered by a land developer.

The board approved delayed payment plans for the assessments over a three year or 10 year period with charge of eight per cent interest for the installment payments. The city staff was authorized to go forward with assessment. Public hearing was continued to 7 p. m., next

Hospitalization Bids

Bids on hospitalization insurance for city employes and on two vehicles for various department's were opened by the

Eight bids opened and announced on hospitalization plans were referred to the Council's insurance committee for study and recommendation at next week's meeting. In addition, the low bid of 23.2 cents per square yard from the J and B Company for slurry-sealing city streets was accepted. Councilman Richard Wirz urged that city crews do hole patching in the roads in preparation for the slurry-sealing process as quickly as possible so that unnecessary delays will

not be seen once the resurfacing work gets underway. Low bid from John Lamb Chevrolet in the amount of \$3,026 for a flat bed truck was accepted as was the low bid for a courier vehicle from Johnny Bolton Ford in the amount of

Councilman Wirz suggested the city go to a standarized dark blue will be the standard color.

Construction of the new water tank was authorized let for bid and it was announced that bids on the new snorkel fire truck, estimated to cost between \$70,000 and \$80,000, are to be

Design Standards Recommended

Design standards for the improvements on Lake Ellen Drive and Plumosis recommended by City Engineer B. C. (Cal) Conklin were accepted by the Casselberry City Council. But no action will be taken on improving Lake Ellen Drive, in particular, Councilman Edith Duerr said, until a required

Conklin said, under the plan, the curb will be omitted in favor of swale type drainage for the road except for the commercial section at U. S. 17-92. Conklin said the swails will allow natural percolation of the water. Also to be provided is a special bottomless drain where excess water will be deposited. The drain will be the type that will overflow when full and the waters then will run over a grassy terrain

Plumosis will have both curbs and gutters, with drainage waters going under U. S. 17-92, Conklin said.

Drainage Recommendations

City Engineer B. C. Conklin, City Manager Ron Bergman and the city's planning board are to study and recommend to the Council the best method of handling drainage waters within Casselberry.

This was the decision of the City Council following a report from Conklin. The engineer said the quality of drainage waters in Florida is not a well-known fact, that the amount of pollution in storm water is, however, of considerable strength and a considerable problem. He continued that various treatments of storm drainage

are experimental and construction, operation and maintenance of treatment facilities for this specific purpose can be costly. Conklin continued that various methods of minimizing

runoff by increasing green areas are being tried, that chlorination is sometimes done as well as a myriad of other methods. He continued that there is little doubt the city should consider some changes in its subdivision regulations and site review ordinance, but the exact changes should be made only after careful study to determine they are feasible. The engineer continued it is little more than "lip service"

to create regulations impossible to follow, but that Casselberry has had some success in providing proper drainage only because it asked and the developers have been willing to cooperate and thus some progress has been made.

Several simple measures can be accomplished, he said. such as allowing and in some cases requiring developments with large lots, one-half to one acres in size, to provide swail drainage. The city should also prohibit the filling in of swamp areas which are natural water holding places.

All Rings Fully Guaranteed for Life

Stubborn mule wants four carats

By Abigail Van Buren E. 1973 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: I am 77 years old and Max is 80. We've been married for 60 years and have no complaints. Max has always been a flashy dresser. He wears a nice-sized diamond ring and a diamond stickpin. I have a four-carat diamond ring which I don't wear any more because I am afraid of being robbed or killed. Max said as long as I'm not wearing my diamond, he would like to make it into a ring for himself. Abby, it's not that I don't want him to have the dia-

mond, it's just that I am afraid of what might happen to Since I have refused Max the ring, he is barely speak-

ing to me. He also quit making love to me every Sunday

afternoon which he has done for 60 years. I suppose I could live without it, but I got so accustomed to it, I feel Should I give him the ring so he will be his old sweet and loving self again? NEW YORK POST READER

DEAR READER: If he doesn't realize that you don't want him to have the ring because you are concerned about his welfare, shame on him. IP. S. Someone should tell him if he doesn't use it, he'll lose it, and I don't mean the ring.

DEAR ABBY: I am a 19-year-old male and in college. I have yet to discover the formula for finding a girl friend. I ask girls out to sports events, movies, walks, or anything, and have a refusal rate of about 99.7. The other 0.3 per cent agree so they won't hurt my feelings. I know I am not very good-looking, and I have little

money, but I see other guys who aren't good-looking with little money and they have girl friends, so it must be me. My family life hasn't been too happy. My parents are divorced and there were five children and I lacked affection, which I am sure has something to do with my eagerness to make up for it now. I find extraordinary pleasure at any chance physical contact with another person, which is rare and only by accident.

Maybe it has something to do with my body chemistry, something in line with my inability to catch a fish. I've heard that a fish will not touch bait which has been prepared by a person with a certain characteristic body chem-

erman, so forget the body chemistry theory. Quit thinking about what you lack and start making small talk with any girl you dig who's handy. If she doesn't dig you, maybe she can dig up a friend who does. You sound like a bright young man. Now get going.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY: Box No. 69700, L. A., Calif. 90069. Enclose stamped, self-addressed envelope.

GENERAL TENDENCIES: A day to take time out to get the answers for which you have been searching by investigating all phases of whatever activities that are vital to your progress. Show devotion to those close to you. Avoid being too preoccupied with your own affairs ARIES (Mar. 21 to Apr. 19) Use tact in making collections and then pay your bills that are pressing. Don't judge your mate harshly, but give credit where credit is due. Avoid one who doesn't appeciate you as you deserve.

being so self-opinionated One who opposes you should be GEMINI (May to June 21) Start working on those tasks

MOON CHILDREN (June 22 to July 21) Although fun is on your mind, be sure to handle obligations that are LEO (July 22 to Aug. 21) You have to be kind and gentle at home or much trouble could ensue there before the day is

VIRGO (Aug 22 to Sept 22) Much care in motion must be exercised now or you could get into a great deal of trouble. A kind word will turn away wrath. Don't jeopardize the friendship of persons who mean much to you.

financial expert can give you advice on handling a problem. SCORPIO (Oct. 23 to Nov. 21) You have good ideas but others are not in the mood to listen to them now, so wait for a better time to express yourself. Take time to make yourself look more attractive. More study is wise. SAGITTARIUS (Nov. 22 to Dec. 21) You may think you

that you have willpower. If you cannot be cheerful, sidestep a social invitation, otherwise go and have fun.

rounds of hearts. If the IF YOUR CHILD IS BORN TODAY ... he or she will be who will be a real inspiration to others in the community.

hearts break 3-2 he loses nothing by this: if they break 4-1 and the second heart is ruffed he is down the same trick as the beginner; if they break 4-1 but the man with the four hearts held three trumps the second heart isn't ruffed; declarer cashes the third heart; ruffs the fourth one and makes his This play also fails but the

expert has a better line that

Vietnamese Student Is **Upset Over Foreigners**

ORLANDO, Fla. (AP) - Doc Nguyen-Khoa, a south Vietnamese exchange student, said Tuesday night he deplores "foreign powers" that have been in his native country for so long and hopes his people have a voice in the peace agreement announced by President Nixon.

Nguyen-Khoa said he remembered the 1954 Geneva Accords which ended the hostilities between the French and the Vietminh which he said placed South Vietnam in jeopardy The agreement provided, among other things, for a ceasefire along the 17th parallel which the Valencia Community Junior College student said effectively divided Vietnam into

Nguyen-Khoa said "evidently the Communists did not pay any attention to the provisions which specifically stated no troops from either side would cross the 17th parallel."

Now, he said, he doesn't know what to expect from the new agreements. "There might be chaos," he said. He said he was afraid the new pact "might be the same," adding he thought Nixon had honestly sought lasting peace

Eight Point Guide Is An Aid To Your Diet

Serve meals which will protect your family's hearts. Following a low-cholesterol, lowsaturated-fat meal plan will be greatly simplified if you 1. Use fewer egg yolks (lim it to three a week) and other

fat before cooking. 5. Use fish, poultry and veal more often than beef and other meats.

4. Do not use whole milk, cheese, other than 2 per cent fat cheese and cottage powdered creamers, nondairy imitation whipped creams of sour cream. Use only imita source of the vegetable oil. 5. Read labels to know which commercial products

contain saturated fat which may be listed as vegetable shortening, hydrogenated vegetable oil, or even as vegetable oil which may be coco-

rated margarine in which the first ingredient is listed as 7. Use more polyunsatu-

rated vegetable oils in salads and cooking. 8. Reduce calories to lose weight if necessary, but do not gain weight. With the price of meat so

high, chicken and turkey will help your pocket book as well as your heart. Try these two delicious and different ways to prepare poultry.

ALMOND "CRUST"

212 cups chicker broth, fat-free 12 cup dry white wine

1 can (8 ounces) slice mushrooms, drained 12 cup each chopped onion and celery 12 cup polyunsaturated soft tub margarine

1 teaspoon grated

lemon rind Salt and pepper to taste 4 cups diced cooked chicken 6 slices bread 12 cup slivered

Sprinkle flour on soup i covered jar, shake. Add oi and cook, stirring, until thickened; add mushrooms. Saute onion and celery lightly in two tablespoons oil. Add to first mixture with lemon rind, salt and pepper. Add chicken and put in two-quart casserole. Bake in moderate oven (350 degrees) 20 minutes, or until hot and bubbly. Cut crusts from bread, then cut slices in half diagonally. Mel! 4 cup margarine and brush on bread and arrange in casserole. Add almonds. Bake 1 minutes longer, or unti browned. Serves six.

In 1973, go on the hamburger, according to a a fresh vegetable cooking recent survey by Institutions/ spree to enjoy the natural Volume Feeding Management magazine. Scoring an 87 percent popularity rating, the burger was reported top seller by food service operators.

Spect to enjoy the natural flavor and get every nutrient that Mother Nature so meticulously put in her vegetables. These recipes offer starting points to good eating in 1973.

Makes 6 generous servings.

away from the industrial pollution by finding new ways to manufacture to same products. Join the ecology movement in your kitchen. Try fixing the fresh vegetables that could swing the pendulum back to the need for fewer cans, fewer paper bags and eliminate the worry for recycling food containers.

But when it comes to worrying about recycling leftovers, what better way is not to face this problem by simply cooking scrumptious meals that tease the appetite of the family to eat everything on the table.

For those who are hung up on the idea that they just couldn't make fresh things taste right, have no fear, because there are just a few basic ways to cook vege-

Most fresh vegetables are boiled, sauteed, simmered in ggplant Casserole a sauce or baked in an oven, casserole style.
