

Sanford's Sagging Cards Play DeLand Here Tonight

Ingram Seeks 4th Win Of Season; Redbirds Drop Last Three Games

By KENT CHITLAIN
 Tonight Manager J. C. Dunn will throw in his "stopper," smooth working Clarence Ingram, in an effort to put the cards on the Redbirds' two-game losing skid. After dropping nine of 10 games, the Redbirds bounced back last week to crush Orlando, 2-1, and went on to win three consecutive.

Then Friday night Paul Smith and Orlando Ortega looked in a pitcher's duel, which Ortega and Leeburg won narrowly, 2-1. Leeburg then took his home games from Sanford 9-0, Saturday, stopping Harry Mella, David Leonard and Ernie Palmieri. Mella, working the first two frames, was tagged with the loss.

Last night the Cardinals opened their two-game home-and-home series in DeLand by folding up before the Red Hatters and lowering Stan Miller, 5-1, Murray Byrd was turned back in his bid for his fourth win and now the slumping right-hander is a 3-0 loser.

Tonight, the Red Hatters invade the Memorial Stadium to wind up the series with Sanford. Manager Ray Dunne has not yet announced his hurling choice, but it will be

Cardinals Cut 4 Players And Add Catcher, Pitcher

With the 16-player limit only one night away, the Sanford Cardinals commenced a large scale housecleaning, disposing of four players while adding two more, it was announced today by Stan Fields. Only last week the Red-

birds released second baseman Tommy Nix and hurler Paul McMurray. However, they signed transfer infielders, Lou Gary and Mike Hazone.

Left-handed pitcher Paul Corbett was optioned out by Sanford to Mount Vernon in the Class D Mississippi Ohio Valley league as will be Paul Smith, fire-eating right-handed limited service pitcher.

Outfielder Bob Folkert, 19-year-old rookie who was named in Leeburg's seventh game and who has only been hitting .159 for Sanford, was sold outright to Ardmore of the Class D Southern State League.

Center fielder Frank Hartmann was sold to the Class C St. Joseph team in the Western Association.

Manager Dunn in a desperate effort to find a winning combination has switched Bill Batty to third, experimenting with Gary and Hazone at short. Westbrook has jumped right in the Sanford scheme fielding admirably at the gateway and blasting long extra base hits.

Westbrook was hitting .323 before last night's game and his triple placed him in a two-way tie with Bob Skelton for the team leadership in that department.

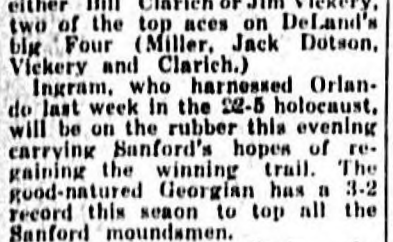

Tom Leonard, once the batting terror of the league, has plummeted from .451 to .255 in games through Saturday night. Manager Bill Silverthorne is cooling off after reaching the 388 mark. The easy-going converted outfielder was batting .355 before last night's contest.

Bill Batty, who was hitting in the .320's until recently, has fallen off to the .273 mark, while second baseman Mike Wagner dipped below the 300 mark to .200.

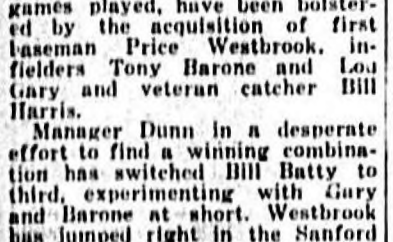

Byrd went the route last night fanning two and passing three. Miller threw a five hitter at the Cards, Westbrook singling and tripling home the lone run in the fifth for two of the Sanford hits.

Seabreeze Knocks Feds Out Of E-F-C Tourney, 4 To 2

Cool working Billy Stoothoff fanned sluggers Cecil Dandridge, Billy Robinson and Miles Hudson to snuff out a seventh inning rally and give the pennant-winning Cubs an 11-6 win over the All-Star Stars in the annual Lions Club All-Star classic at the Lakefront Diamond last Friday night.

Following the big All-Star tilt, the Lions Club of Sanford took 50 boys on a picnic outing to Rock Springs Saturday. Four Lions and Principal B. C. Steele supervised the outing. The four Lions were Dr. J. C. Boyce, Harry Falls, Jack K. Morrison and Hamilton Blakes.

Sanford's "Gas House" Cardinals Pace F-S-L With 42 Stolen Bases

Sanford's darlings — those hustling Cardinal rookies — are taking the Celery City by storm and being compared to the 1940 Celery City who in 1940 second and out the playoffs.

While rooting in second place the Redbirds have indicated their potential for a first division finish in the individual averages race yesterday by Peter Schaal at Florida State Headquarters.

The running Cardinals lead the loop in stolen bases with 42 and their fighting spirit has earned them the top line — as those (and) — after the parent St. Louis Cardinals of the golden thirties.

Tommy Leonard (Ithaca College graduate), ranks in a two-way tie for third high batting honors with Jax Beach's Clyde Briggs who unwound tonight 24 consecutive game hitting skin for the first time last Friday night against DeLand going zero for three.

Leonard was hitting .418 thru last Thursday night. Bill Silverthorne, hard hitting Virginian who was procured for Johnny Inglis in a straight player swap with Rock Hill, N. C. of the Class B Tri-State League during the winter, cracked into the Top Ten this week on the strength of a .300 average. With Silverthorne ranking No. 10 and Leonard tied for third, Sanford has two players in the Top Ten.

Clyde Briggs of Jax Beach ended his consecutive game hitting streak at 24, Jax Beach's Foster is pacing the State League with only one more RBI, 29. Cardinal manager J. C. Dunn stands fourth in batting among the veterans of the league with a .333 average.

Two other Sanford hitters over the 300 mark are Bob Wagner with a .305 average and Bob Skelton, .300.

Expanding with some fearsome power hitting that produced five wins seven starts, Ed Levy's Daytona Beach Islanders began moving into the Class D Florida State League spotlight to draw some attention away from the stiff three-way battle for first place now under way between Cocoa, Jax Beach, and DeLand, the defending champions.

Official averages released by Peter Schaal at league headquarters here today for the season thru midnight last Thursday reveal that the Islanders slugged their way during the week from a second place .285 mark to a top leadership figure of .312. At the same time, last week's leaders, the Sea Birds under Red Treadway, dropped to second place with a .280 mark, 11 points below their previous best figure.

Haan Rowell's Cocoa Indians, splitting even in six starts, found their league leadership dropped to third spot one half game behind the loop leading Birds and the defending Hatters. The Indians began to run into some mid-season pitching, and every regular saw first-sacker Ed Yadinsky saw his average drop during the week.

Clyde Briggs of Jax Beach ended his consecutive game hitting streak at 24, only 12 shy of the all-time league record set by Joe Altobelli of Daytona in 1951. However apparently worrying about the string, Briggs was bounced from first to third place among the top ten hitters, with Treadway zooming into leadership with a fine .440 — 26 points better than his mark of last week.

Dick Haller of Daytona had scored the most runs — 28 in 21 games — followed by Treadway, and Prescott of DeLand with 27 each. Briggs and Treadway were tied in hits with 45 each, with Hartow Iry of Daytona but on their trail with 41.

Eight players were tied in homers with three each, second to Iry who Thursday night got two the second time this year he got two in one night, for a season's total of four. Probably the most surprising homer was the un-popped out of the park at Sanford Wednesday night by rookie catcher Robert of Palatka. Three men were on the paths at the time. It was his first homer.

Dick Zucato of Daytona was far out in front with 13 doubles, while Gale Benz of DeLand was leading with five triples. Haller was hitting in stolen bases with 15, to 12 for Rowell who last Sunday effected a large Leeburg crowd as he stole some in the ninth to score the game-winning run. Foster of Jax Beach was leading in runs batted in with 20, but Tom Leonard of Sanford and Buck Pardue of Daytona were giving him no peace, for each had 25.

Club-wins were split by Daytona each with five of seven during the week ending midnight Thursday; DeLand won four of six; Sanford four of three, Cocoa split six, Palatka won three of eight, Leeburg two of two, and Orlando two of eight. The week ahead sees one double-header scheduled, Cocoa to appear at Jax Beach Thursday night.

Cubs Rap Lion All-Stars, 11-6; Hurler Billy Stoothoff Stars

Cool working Billy Stoothoff fanned sluggers Cecil Dandridge, Billy Robinson and Miles Hudson to snuff out a seventh inning rally and give the pennant-winning Cubs an 11-6 win over the All-Star Stars in the annual Lions Club All-Star classic at the Lakefront Diamond last Friday night.

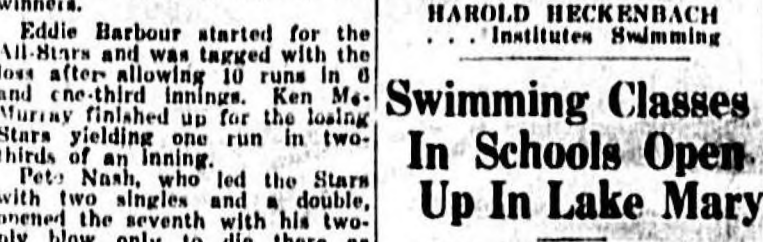

Following the big All-Star tilt, the Lions Club of Sanford took 50 boys on a picnic outing to Rock Springs Saturday. Four Lions and Principal B. C. Steele supervised the outing. The four Lions were Dr. J. C. Boyce, Harry Falls, Jack K. Morrison and Hamilton Blakes.

Stoothoff was the individual star in the last game of the Lions' 27th annual Junior Boys' baseball tourney. The baffling right-hander pounded out a pair of doubles to aid his own cause and Bill Brooks smashed out four hits in as many tries while Bill Johnson made three blows in three trips for the winners.

Eddie Harbour started for the All-Stars and was tagged with the loss after allowing 10 runs in 6 and one-third innings. Ken McMurray finished up for the losing Stars yielding one run in two-thirds of an inning.

Pete Nash, who led the Stars with two singles and a double, opened the seventh with his two-blow blow only to die there as Stoothoff bore down and whiffed Dandridge, Robinson and Hudson in succession. Roy Green piloted the Cubs while Morrison managed the All-Stars.

Harbour was the losing pitcher in the last game of the Lions' 27th annual Junior Boys' baseball tourney. The baffling right-hander pounded out a pair of doubles to aid his own cause and Bill Brooks smashed out four hits in as many tries while Bill Johnson made three blows in three trips for the winners.

Swimming Classes In Schools Open Up In Lake Mary

The Lake Mary Junior High School has added swimming to their curriculum, it was announced today by Principal Harold Heckenbach. The move came after meeting with the parents and the school administrators after which it was decided that swimming was to be a part of the school day.

The plan is now in effect and on Tuesdays, Thursdays and Saturdays, 8:30 a.m. to 10:00 a.m. The school has a swimming pool and a lifeguard on duty. The school has a swimming pool and a lifeguard on duty. The school has a swimming pool and a lifeguard on duty.

Crabs Blast 9 Hits Off Mel Fleischer

Seminole High School's pennant aspirations in the East Florida Conference were dealt a death blow last Friday afternoon as the Seabreeze Sand Crabs trampled Melvin Fleischer and the Feds, 4-2, in Daytona Beach.

The Crabs went on to whip Bill Carr and New Smyrna Beach for the southern half championship of the EFC. Seabreeze will play the northern EFC winner for the title. Sanford's game with Seabreeze had twice been postponed on successive days last week by rain and the Friday encounter entitled the winner to play the Buccaneers for the championship of the southern EFC that same afternoon.

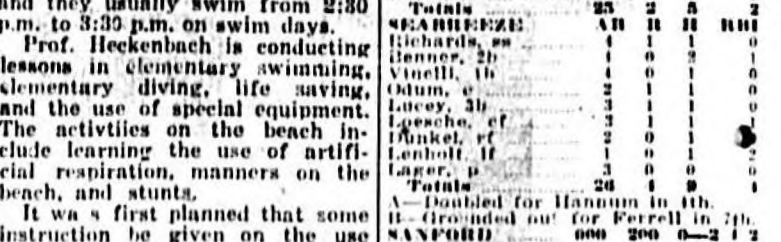

Fleischer, who was decidedly off his usually effective form, was blasted for all four runs and all nine hits off the bats of Crabs in the first three frames. Diller Sheffield, a dependable shortstop, made his mound debut in the fourth and finished up with a sterling no-hit performance.

Seabreeze broke the ice in the game when Odum Lucey and Loechee dunked out consecutive runs. Drunk sacrificed and Leebolt knocked in two more runs before the inning was over on a bunt.

Sanford broke into the scoring column in the top half of the first. Lucey, who was batting .300, was the first to get on base. He was followed by Lucey, who was batting .300, who was the first to get on base. He was followed by Lucey, who was batting .300, who was the first to get on base.

Jack Krieger

Diller Sheffield

A big rhabarb resulted and the game was held up for 15 minutes while both teams argued their cases with the umpires. Daytona scored its last run when Art Richards tripped and came home on a single by Bill Hemmer.

Sanford now has a 6-6 record going into the state sub group tournament at New Smyrna Beach next Thursday afternoon.

Sanford broke into the scoring column in the top half of the first. Lucey, who was batting .300, was the first to get on base. He was followed by Lucey, who was batting .300, who was the first to get on base.

EXTRA VALUE

proved all 3 ways

You have to see and drive the new International pickup to appreciate its extra value.

See the improved Silver Diamond engine, packed with thrifty power. Notice the husky all-steel body. See the Ad-A-Rak attachments for extra carrying capacity. Then drive one. Feel its power. Notice how smoothly it rides.

You get more pickup for your dollar. New Internationals are proved all 3 ways, before they're built, after they're built, and in service. Let us tell you the whole story.

City Buys 7 New Pumps For Water Works

Sever Project Draft Expected This Week

The purchase of seven new pumps for use by the water works of the City was authorized at last night's meeting of the City Commission, but all bids for the drilling of four test wells were rejected for the present.

Upon recommendation of Engineer Robert M. Angus, the City purchased five three-horsepower and two 10-horsepower pumps from the Farm and Home Machinery Co. of Orlando at a total cost of \$5,883.

Five 140 gallon per minute pumps and two 430 gallon per minute pumps will cost \$6,557 with an allowance made for the drilling of four test wells on the old pumps. Under terms of the agreement, the City will buy back from the Orlando firm one of the large pumps and engines for \$200. The City will be reimbursed for drilling of test wells, but upon the motion of Commissioner John Ivey, seconded by Commissioner J. Denver Campbell, the Commission at least temporarily, rejected all bids.

Mr. Angus said he had discussed with Dr. Abel Wolman, consulting engineer from John Hopkins in Baltimore where he is a professor of sanitary engineering, the progress of a sewer survey which is nearly completed.

Dr. Wolman said he expects to have a preliminary draft ready in a few days. He and Mr. Angus will present to City officials prior to the next regular Commission meeting on May 25.

Mr. Angus said he is putting the final touches on a topographic map of Sanford which showed among other things that the high point in City is at the corner of Sanford Avenue and Twenty-seventh Street which is 57 feet above sea level.

Since no local resident was present to speak either for or against the proposal, the Commission voted to rezone in R-1A (Single Family) District the property in Dreamwood Subdivision now zoned as R-1-AA (Single Family) District. Attorney Ed Bisholzer pointed out the only difference between the two categories was in the area required for the first floor area of homes.

Attorney Kevie Housholder, representing the Sanford Cab Co., made two requests, one of which was granted and the other tabled for a later date.

The request of the cab company to move its stand from in back of the Florida State Bank to temporary quarters on Commercial Street was approved. The request for a metered site for which the company would pay \$50 a year rental was temporarily shelved until the request was submitted in a separate application.

Brealey Odham insisted that annexation of property east of the City is bigger than the annexation in that area where he owns a large block of undeveloped land.

Although not present last night, William A. Laffler, Jr., president of the Citizens Association, expressed his objection to any single property owner.

He went on record as declaring the City is bigger than the annexation in that area where he owns a large block of undeveloped land.

Upon motion of Commissioner (Continued On Page Four)

Mrs. Linde Tells Lions Club About Purposes Of USO

Mrs. Selwyn Linde, regional director of the East Florida United Service Organization, briefly explained the interworking, functions, and purpose of the USO before the Lions Club at the Yacht Club today.

She began by citing Sanford as being an "unselfish town" and praised the contribution of this City in providing money and facilities for naval personnel stationed at the Sanford Naval Auxiliary Air Station.

"USO is not a government agency," she declared, "its sole purpose is to provide relief, entertainment, but from individual community fund drives, public donations and other charity organizations."

The great bulk of the operating capital is raised in large cities such as New York, Chicago and from generous contributions from large corporations. This money is placed in large banks and from there are a large number of military bases such as here in Florida.

The USO operated during World War II as a emergency measure with a working budget of \$83,000,000 in 1943 alone. Today, it has a budget of \$10,000,000 and since the Korean conflict has been placed on a permanent basis, directly responsible to the President of the United States, Mrs. Linde added.

"The USO is directed by 26 officers from among the nation's 1,000 community chests. The USO consists of seven agencies: YMCA, YWCA, YWCA, United Jewish Welfare, National Catholic Community Services, Salvation Army and USO camp shows. The latter is composed of many troops of Broadway and Hollywood actors who perform for servicemen throughout the world on special occasions such as Christmas.

"There were over 300 USO's scattered all over the world last year to serve our boys in uniform, she stated.

"Our young men and women have inherited a duty and moral responsibility to serve our country, to help them as much as possible. That is the purpose of the USO. The USO and its seven agencies are now sponsoring a 'United Defense Fund' drive to raise money with which to operate USO centers, like your own, all over the nation and in the far flung regions throughout the world," she said.

"Since Sanford has no community chest, it must conduct separate drive like so many other communities that do not have a community chest." (Continued on Page Four)

Attlee Charges Some In U.S. Are Against Accord

LONDON (AP)—Clement Attlee, opposition leader in the House of Commons, charged today "there are elements in the United States that do not want a settlement" in Korea.

These elements, Attlee said, want an all out war with Communist China and against communism in general. He also observed:

"One often wonders who is the more powerful, President Eisenhower or Senator McCarthy."

The former prime minister, leader in the Labor party, spoke in a Commons debate devoted to the Prime Minister Churchill's appeal yesterday for a conference of world leaders aimed at peace. The appeal was supported by 170 Members of Parliament, but called for frank discussions among world leaders as "the first and indispensable condition of peace."

Attlee called for the seating of Communist China in the United Nations Security Council—an action the United States has firmly refused. Attlee replied: "No, soon after the armistice."

Churchill's call yesterday for high level talks presumably encompassed himself, Eisenhower and Premier Malenkov.

Steady Prices On Citrus Promised By USDA Survey

LAKELAND (AP)—Continuing steady prices are assured Florida citrus growers by a survey of the USDA reported Florida's crop of Valencia (late season) oranges at 32,500,000 boxes.

The estimate surprised many citrus men, but the USDA said the crop is a million to a million and a half boxes lower. That was because many groves have not been held as much fruit as in the season they would earlier in the season. Such a sizeable reduction in the government's crop estimate would have increased competition for the remaining fruit and would have boosted prices.

Even though the estimate stayed the same, Mutual told growers they should not worry about prices.

"We see no reason for growers to be at all apprehensive about profitably disposing of their remaining fruit," Robert W. Smith, general manager of Mutual, said.

The USDA estimate of other Florida citrus lowered early and mid-season oranges remained at 42,800,000 boxes. Raised seedless grapefruit one million boxes to 17 million; and left seeded grapefruit unchanged at 18 1/2 million boxes. Total citrus varieties have been almost completely cleaned up for this season.

About 13,730,000 million boxes of Valencia oranges remained as of May 5, the growers administrative committee reported.

Building Planned For New Industry

Plans for new construction to house an industry on the site of the old City dump on West First Street were divulged by Ralph Cowan, president of the National Catholic Community Services, Salvation Army and USO camp shows. The latter is composed of many troops of Broadway and Hollywood actors who perform for servicemen throughout the world on special occasions such as Christmas.

"There were over 300 USO's scattered all over the world last year to serve our boys in uniform, she stated.

"Our young men and women have inherited a duty and moral responsibility to serve our country, to help them as much as possible. That is the purpose of the USO. The USO and its seven agencies are now sponsoring a 'United Defense Fund' drive to raise money with which to operate USO centers, like your own, all over the nation and in the far flung regions throughout the world," she said.

"Since Sanford has no community chest, it must conduct separate drive like so many other communities that do not have a community chest." (Continued on Page Four)

Recreation Plans For Local Guards Unit Announced

A full program of recreational activities for Guardsmen, their friends, and their families, is being planned by the local National Guard unit, Co. I, 124th Inf., Capt. David Gatchel announced last night. These will include athletic contests, parties, and dances.

A softball team has been formed and will represent the company in the local men's softball league. Lloyd Swain, manager of the team, had announced the following roster: Floyd Spangman, Gene Estridge, Ray Davis, Glenn Jingle, Richard Frank, John Kelling, Horley Lanning, Rogge Crocker, Frank Stonstrom, Roy Green, Elbert Byrd, and Bill Fleming.

A committee is being formed to plan dances and parties for the unit within the local area.

With the enlistment of Wallace D. McCally, the total number of men enlisted in the current recruiting drive has reached nineteen. "Many choice positions are still open in the unit but are expected to be filled soon," Capt. Gatchel, unit commander, said. He urged young men between the ages of 17 and 18 1/2 to investigate the many opportunities now being offered by the National Guard.

"Just ask your friends who are new members, about our unit," he said, "or come down to the local armory any week day, or on Monday night to the weekly drill, and any questions you may have will be gladly answered."

In observance of "Armed Forces Day," Co. I will place a display of military weapons on Saturday morning. A float is also being planned by the local unit for the parade.

Cliff Ables Is Named To Head USO United Defense Fund Drive

Cliff M. Ables, campaign director for the United Defense Fund which will conduct its brief drive for support of the USO in Sanford beginning May 16 has issued an appeal for volunteer workers to help raise Sanford's quota of \$1,150.

Funds from the national headquarters of the USO have been pledged to the work of the organization in Sanford for more than a year, under the direction of the local USO committee, of which Mrs. Lowell Ozer is chairman, aided by a large group of civic-minded citizens whose friendly hospitality to the Navy personnel has been offered at the USO club.

The United Service Organization, Inc., better known to most people as "The USO" has come to mean the symbol by which the people of America may participate in serving members of our armed forces wherever they may be deployed, either within the continental limits of the United States or abroad. One of the basic objectives of the USO is to provide (Continued on Page Four)

Martial Law Is Declared In Waco, Texas

More Storms Feared As Toll Reaches 64

WACO, Tex. (AP)—Martial law was declared here today as the death toll from the Texas tornadoes reached 64. The U. S. Weather Bureau warned more tornadoes may occur in a wide Texas area today or tonight.

Rescue crews digging with bare hands and bulldozers into wreckage of downtown Waco buildings reduced to rubble by a tornado yesterday had found 53 bodies. Late morning efforts were directed at San Angelo and three were reported killed between Red Lake and Fairfield in East Texas.

The death toll could climb to 100 in Waco. Fifty persons were reported missing, including an estimated 20 still believed trapped in a pool hall from whose debris the bodies of several young men already had been extricated. A broken water line had flooded the basement of the U. T. Dennis building here, one of the principal structures leveled, and rescue workers at 11 a. m. still had not reached the basement where some people were believed trapped.

Guards with carbines and pistols patrolled the downtown business section where two fantastic mounds of rubble until yesterday part of the business section were piled of debris. The city's chief of police, Keith W. James, and his wife were among the identified dead. Their bodies were found this morning in the wreckage of their car, destroyed by rain falling steadily at Waco and cannon-like thunder from the debris building. Bodies of three unidentified girls of high school age were found in a parked car where they had been sitting.

Cold hand rain fell steadily at Waco and cannon-like thunder from the debris building. Bodies of three unidentified girls of high school age were found in a parked car where they had been sitting.

Radford at present is commander-in-chief in the Pacific.

A few years ago he became a controversial figure in the bitter battle between the Air Force and the Navy over the relative merits of the B-36 heavy bomber and the Navy carrier force.

Radford has been described in recent months as having moderated his previous emphatically expressed views about the B-36. Nevertheless, the announcement of his appointment to the JCS chairmanship today produced an immediate state of apprehension among officials of the Air Force.

Radford, 57, has five years of Navy duty left before the compulsory retirement age of 62 will take him out of service.

Martial Law Is Declared In Waco, Texas

More Storms Feared As Toll Reaches 64

WACO, Tex. (AP)—Martial law was declared here today as the death toll from the Texas tornadoes reached 64. The U. S. Weather Bureau warned more tornadoes may occur in a wide Texas area today or tonight.

Rescue crews digging with bare hands and bulldozers into wreckage of downtown Waco buildings reduced to rubble by a tornado yesterday had found 53 bodies. Late morning efforts were directed at San Angelo and three were reported killed between Red Lake and Fairfield in East Texas.

The death toll could climb to 100 in Waco. Fifty persons were reported missing, including an estimated 20 still believed trapped in a pool hall from whose debris the bodies of several young men already had been extricated. A broken water line had flooded the basement of the U. T. Dennis building here, one of the principal structures leveled, and rescue workers at 11 a. m. still had not reached the basement where some people were believed trapped.

Guards with carbines and pistols patrolled the downtown business section where two fantastic mounds of rubble until yesterday part of the business section were piled of debris. The city's chief of police, Keith W. James, and his wife were among the identified dead. Their bodies were found this morning in the wreckage of their car, destroyed by rain falling steadily at Waco and cannon-like thunder from the debris building. Bodies of three unidentified girls of high school age were found in a parked car where they had been sitting.

Clark Arrives In Korea With New Truce Proposal

PANAJANG, P. O. (AP)—General Clark arrived in Korea today with a new truce counterproposal which a South Korean official said would "modify or reject" the Communist commission's proposal to bring its forces to the 38th parallel.

The World War II Cup is held here today. It would be the 10th anniversary of the end of the war.

The truce proposal is a modification of the Communist proposal to bring its forces to the 38th parallel. It would be the 10th anniversary of the end of the war.

Dead Aquatot's Father Seeks Solace Among Florida Keys

MIAMI, Fla. (AP)—Russell Tongay, father of five-year-old Florida Keys today while a probation officer held an order that would take away their only surviving child, 7-year-old Hubba.

Tongay, 36-year-old former Coast Guardman, is free in \$5,000 bond and faces a hearing June 15 on second degree murder charge in the fatal beating of his 5-year-old character daughter Kathy.

The commitment order was signed Monday by juvenile Court Judge Walter H. Heckham, who turned it over to his probation officer, Ira Haskett.

The order was issued on an affidavit by Homicide Detective Charles H. Rapp, who investigated Kathy's death Wednesday and said he feared for Hubba's safety.

Hubba and Kathy formed an internationally known swimming team called the "Aquatots."

An autopsy showed Kathy died of a blow to the stomach and Rapp charged Tongay gave the child a fatal beating. Tongay insisted she was injured in a dive from a 23-foot tower.

The Tongays attended private funeral services for Kathy Saturday in the home of Mrs. Tongay's mother, Mrs. R. S. Meyer, near Tarpon Springs. The child was 23 months old. (Continued On Page Four)

Building Planned For New Industry

Plans for new construction to house an industry on the site of the old City dump on West First Street were divulged by Ralph Cowan, president of the National Catholic Community Services, Salvation Army and USO camp shows. The latter is composed of many troops of Broadway and Hollywood actors who perform for servicemen throughout the world on special occasions such as Christmas.

"There were over 300 USO's scattered all over the world last year to serve our boys in uniform, she stated.

"Our young men and women have inherited a duty and moral responsibility to serve our country, to help them as much as possible. That is the purpose of the USO. The USO and its seven agencies are now sponsoring a 'United Defense Fund' drive to raise money with which to operate USO centers, like your own, all over the nation and in the far flung regions throughout the world," she said.

"Since Sanford has no community chest, it must conduct separate drive like so many other communities that do not have a community chest." (Continued on Page Four)

Steady Prices On Citrus Promised By USDA Survey

LAKELAND (AP)—Continuing steady prices are assured Florida citrus growers by a survey of the USDA reported Florida's crop of Valencia (late season) oranges at 32,500,000 boxes.

The estimate surprised many citrus men, but the USDA said the crop is a million to a million and a half boxes lower. That was because many groves have not been held as much fruit as in the season they would earlier in the season. Such a sizeable reduction in the government's crop estimate would have increased competition for the remaining fruit and would have boosted prices.

Even though the estimate stayed the same, Mutual told growers they should not worry about prices.

"We see no reason for growers to be at all apprehensive about profitably disposing of their remaining fruit," Robert W. Smith, general manager of Mutual, said.

The USDA estimate of other Florida citrus lowered early and mid-season oranges remained at 42,800,000 boxes. Raised seedless grapefruit one million boxes to 17 million; and left seeded grapefruit unchanged at 18 1/2 million boxes. Total citrus varieties have been almost completely cleaned up for this season.

About 13,730,000 million boxes of Valencia oranges remained as of May 5, the growers administrative committee reported.

Senate Defeats Bill Raising Salaries Of Governor And Cabinet

Measure Would Raise Stipend To \$20,000

TALLAHASSEE (AP)—A bill making prosecution of welfare frauds mandatory today was passed by the Senate, 30-0. It now goes to the House.

The sponsor, Sen. Gautier, New Smyrna Beach, said present law permits state attorneys to prosecute fraudulent claims but does not insure that checkers will be brought to court.

TALLAHASSEE (AP)—Dan McArthur today reversed his veto power for the first time, rejecting a bill by Rep. Papy, Monroe County, which would have in effect made the Florida Keys Aqueduct Commission a self-perpetuating board.

TALLAHASSEE (AP)—Senate Bill No. 693 was introduced by Senator Boyle of Sanford yesterday authorizing commissioners of Seminole County to pay rewards for information leading to the arrest of persons violating certain state laws, relating to the dumping of garbage. It was passed.

TALLAHASSEE (AP)—House Bill No. 112 was introduced by Rep. Mack Cleveland of Seminole County yesterday relating to salt water fishing, declaring snook to be game fish, prohibiting certain commercial dealing in snook, setting a size limit, setting a possession limit, prohibiting commercial transportation of more than the possession limit, permitting the taking for scientific purposes under certain conditions, providing a penalty. It was referred to the Salt Water Fisheries Committee.

TALLAHASSEE (AP)—The Senate today defeated a bill which would have raised the salaries of the governor to \$20,000 a year and given cabinet officers and Supreme Court justices \$15,000. The governor is paid \$12,000 a year and cabinet officers \$10,000 and Supreme Court justices \$12,500.

The Senate rejected the bill after adopting a series of amendments which fore the heart out of the Appropriations Committee recommendations and rejected parts of virtually every administrative officer of the state.

Actually defeated means very little at this time. The House included a salary recommendation in its general appropriations bill which is in the hands of a joint conference committee charged with reconciling differences in the House. (Continued on Page Four)

Senior Fliers Still Doing Good Job Despite Their Age Of Sixty

By BESSIE TAYLOR, AP Science Reporter

LOS ANGELES (AP)—Old airplane pilots don't even look any younger than the young ones, but their test scores are as high as those of the young ones. And these pilots are becoming something of a problem to aviation.

There are more than 100,000 pilots in this country, and the average age of 60. Dr. Ross A. McFarland of Harvard University, School of Public Health, says that the world's oldest pilot is 80 years old. He said that older pilots are less likely to be high altitude than younger pilots. At 60,000 feet, the older pilots find more difficulty than their younger counterparts in breathing oxygen. "We'd rather listen to the man who talks in his sleep than to the one who speaks in his tale," says the Dunkirk (N. Y.) Observer. As we get it, in both of them talk too much.

Measures To Promote Beauty
With eyes fixed firmly on a goal of enhancing natural charms of Florida, the Duval County Highway Beautification Association under the presidency of Mrs. W. S. Jennings is endorsing several measures being brought before the State Legislature.

These merit the support of individuals and agencies desirous of making Florida a lovelier place to live and visit. One bill would establish fines for dumping trash along public roads or on any property without the owner's permission. This will meet with the approval of everyone who objects to the unsightly spectacle of rusty cans, broken bottles and rain-soaked debris so evident in many places.

Endorsement is also given the bill to name the Sabel Palm as Florida's State Tree. This is logical, as the palm has become identified with Florida, and the Sabel variety is native and grows everywhere in the state. Other varieties cannot claim this distinction.

In the press of more highly publicized and controversial matters being brought before the State Legislature, the public could easily overlook measures designed solely to increase the beauty of Florida. The Duval County group is fulfilling its purpose by calling these measures to the attention of all citizens and seeking their co-operation and support.—Times-Union.

Combating Mosquitoes

In this day and time people are fortunate that there are such things as DDT and spray guns for their use which help to wipe out mosquitoes and other insect pests. The City helps a great deal by spraying alleysways, garages and other breeding places, while a little judicious spraying by the housekeeper serves pretty well to keep them out of the house.

However, an even better way of reducing the mosquito menace is the old-fashioned method of simply cleaning up around the place. Destroy the breeding places of mosquitoes and you destroy the mosquitoes. Furthermore, since mosquitoes seldom fly very far from their birthplace, you can almost protect yourself simply by keeping your own backyard in order.

Watch out for old water buckets, empty tin cans, worn out automobile tires, discarded kitchenware and any other containers which can hold water. Filled up with rain water, allowed to stand a few days, and presto! you have a yard full of mosquitoes.

Such things should be carefully turned over to the garbage collector, or buried on your own premises. If you cannot bury them, at least cover them with a few spade fulls of dirt. Or if it is something like a rain barrel which you must keep full of water, see to it that it is kept covered. Water gathered in ditches which cannot be eliminated should be covered with oil.

If you will carry out these simple precautions, you will be helping a great deal to combat the mosquito menace and make life here this summer much more enjoyable.

THE WORLD TODAY
by JAMES MARLOW

WASHINGTON—The dilemma which the Eisenhower administration faced from the moment it took office was how to make good on its campaign promises. It is a promise which will probably be broken, but it is a promise which will probably be broken, but it is a promise which will probably be broken.

From the beginning, the obvious targets for economy were in military spending and money for foreign aid. Since between them they accounted for more than two-thirds of the money needed to run the government in all its branches.

By the beginning of the fiscal year 1954, the Eisenhower administration had cut military spending by \$1,000,000,000 and foreign aid by \$1,000,000,000. This was a very small amount, especially in view of the fact that the largest appropriation in the budget is for the military.

Measures To Promote Beauty

With eyes fixed firmly on a goal of enhancing natural charms of Florida, the Duval County Highway Beautification Association under the presidency of Mrs. W. S. Jennings is endorsing several measures being brought before the State Legislature.

These merit the support of individuals and agencies desirous of making Florida a lovelier place to live and visit. One bill would establish fines for dumping trash along public roads or on any property without the owner's permission.

Endorsement is also given the bill to name the Sabel Palm as Florida's State Tree. This is logical, as the palm has become identified with Florida, and the Sabel variety is native and grows everywhere in the state.

In the press of more highly publicized and controversial matters being brought before the State Legislature, the public could easily overlook measures designed solely to increase the beauty of Florida.

HAVE YOU ENJOYED THE WORLD'S FIRST 4-WAY POWER SEAT?

Flick a button—adjust back and forth. Flick another—adjust up and down. Never have you felt so much like driving. And why not take a demonstration run in a new Lincoln Cosmopolitan? Thrill to performance that swept the first four places in the stock car class of the Mexican Pan-American Race, known as the world's toughest automotive test. Performance made possible by the astonishing 205-horsepower V-8 engine. By power steering combined with exclusive ball-joint front wheel suspension. By power brakes. And by a new modern living concept of design. A wonderful experience is yours for the making.

Legislation

(Continued from Page One)
and Senate spending bills.
Sen. Dayton, appropriations chairman, told the Senate the House conferees insisted that salaries be included in the appropriations bill.
The Senate committee, Dayton said, brought out a separate salary bill to get the thinking of senators on salaries to serve as a guide to its conferees committee.
While the Senate discussed paying the House bill, 74-17, a bill to increase membership of the State Road Dept. from five to nine. The Duval County delegation split over the measure, with Rep. Morgan declaring it would provide better representation for the people on the road board and Rep. Mahon—who was applauded as he rose to speak—insisting it would mean bigger administrative expenses.

The Senate, which had approved boosting Little Cabinet members to \$10,000 a year, adopted amendments to give the state forester \$6,500, the superintendent of the state mental hospital \$12,000, the state geologist \$2,500, and the highway patrol director \$10,000.
The senators refused to raise the state welfare director from \$7,500 to \$9,000, and the plant commissioner from \$6,000 to \$9,000. They also voted to allow the state attorneys for Duval and Dale Counties to receive \$10,000 a year in state funds and all other state attorneys \$7,500.

The House has approved in its appropriations bill a \$15,000 annual salary for the governor, \$12,500 for cabinet officers and \$10,000 for Little Cabinet officials.
Also in the House, an effort was underway to get 10 more votes for a constitutional amendment proposal which would provide for a state revenue collector of cabinet rank.
The Senate defeated 28-7, a bill which would have permitted state attorneys to appoint their own assistants.
The measure had been adopted by the House, but with amendments that removed a number of judicial districts from its provisions.

TALLAHASSEE (AP)—The Senate today passed, 32-2, and sent to the House a bill designed to conserve Florida's artesian water supply.
The measure gives the state authority to inspect, with consent of the property owners, free-flowing wells to determine what water is not being wasted and to take corrective action where necessary.
Sponsor of the bill, Sen. Rogelio Palmito, said it would enable the state to cap artesian wells where water is not being used and insure that "one of our artesian wells is not polluted."
Sen. Pearce, Palmito, who first objected to the bill because it gave the inspectors the right to "knock" around private property without warrant or permission, withdrew his objection after it was amended to require the property owner's consent.

TALLAHASSEE (AP)—The House today defeated, 73-17, a bill to expand the State Road Board from five to nine members, who would serve staggered terms.
Most of the opposition came from small county members, but some from larger counties joined with them.
Rep. Morgan, Duval County, spoke for the bill, but his Duval colleague, Rep. Mahon, opposed it. Defeat of the bill eliminated a two-day floor fight over its provisions. Rep. Patton, Franklin County, told the House the proposal would decrease proportionate representation of Northwest Florida on the board and would harm its efforts to get roads leading to its tourists attractions.
The measure would have authorized road board members from each of Florida's eight congressional districts plus another member from the state at large. It would have left unchanged the present five road districts each with a district headquarters.

Rep. Hallinger, Leon County, said this would lead to friction on the board because five members would have district headquarters to supervise and the four new members would not.
Rep. Cross, Alachua County, told the House that Road Board Chairman Richard Simpson does not favor the bill. He declared it time after time that "real representation and more money to spend and would choke the little counties to death."
Rep. Murray, Polk County, denied Cross' claim, saying the measure would increase representation for the areas which have grown in population and that these areas include small counties as well as larger ones.

TALLAHASSEE (AP)—A bill to create a 35-member commission which would make recommendations for a complete revision of the state constitution to the 1956 Legislature was passed by the House 63 to 25 today and sent to the Senate.
Rep. Murray of Polk County, a leader in the campaign for rewriting Florida's 68-year-old constitution, told the House the State's basic charter has been amended time after time and "real revision is needed. This is the same, sensible way to do it."
He agreed a "tremendous effort" would be needed to avoid confusion among voters if an entire constitution is submitted for their approval. Opponents said mere constitutional amendments proposals are sufficient to confuse voters now.
Rep. Stokes of Bay County told the House he didn't think "we need this kind of set-up. I haven't heard much complain about our constitution. I don't know that it needs a doctor."
The commission would be made up of state officials, laymen and lawyers.
Rep. Murray estimated the state could save five or 10 million dollars a year under a new constitution.

Senior Filers
(Continued from Page One)
added, is more of a hazard in automobile driving than in piloting planes.
The most obvious difference in the age group, Dr. McFarland said, is that the older men cannot remember recent events as well as the young ones.
Of them more than 1,000 men over 60 flying civilian planes, Dr. McFarland reported, 12 are air line pilots, 16 are commercial fliers, and the other operate privately owned planes.
Because of the anomalies in the age picture, Dr. John D. Morley, the psychiatrist, proposed that four different things be taken into consideration in determining

Truce Proposal
(Continued from Page One)
"explanations" of the reluctant Chinese and North Korean prisoners to 60 days. The Communist plan calls for four months. There was no official confirmation of the report.

Lions Club
(Continued from Page One)
community chest. The USO fund drive will begin Saturday in Sanford.
The National USO will not only match all money raised in Sanford, but has appropriated to Sanford more than twice as much as the budget calls for, she concluded.
Mrs. Linds was introduced by Wallace Phillips, program chairman. Vice President Jack K. Morrison, who presided in the absence of King Lion Ed McCall, gave a brief report on the wind-up of the club's 27th annual boys' baseball league and All-Star game. Over 30 boys consumed 16 pounds of hot dogs in the game, and 100 players at Rock Springs last Saturday.

District Governor Henry White Jr. reported that Hernandez would become the largest charter member in the Lions Club next week when 100 members will be initiated. "It is the second club to join in our district this year," Mr. White commented. "I hope we can have a representative group from Sanford for the installation."

USO
(Continued from Page One)
lives of the USO is to correlate national resources with local needs. In this way, the small town overwhelmed by the impact of a large military installation nearby, is enabled to meet the responsibility for providing essential services to our armed forces.
The USO is NOT a government organization, but is responsible to the President of the United States and the Secretary of Defense, and provides its services in any given area at the request of the armed forces and of the local communities affected. It came into existence during the early days of World War II with the expressed intention of doing an emergency job in a national emergency and it deactivated at the cessation of hostilities. Its past record of endeavor in meeting the religious, spiritual, social, welfare and educational needs of servicemen and women resulted in its recall to duty during the Korean War, and volunteers all over the country, now numbering over 200,000, celebrated the second anniversary of its reactivation on Feb. 1.

By the end of 1952, there were 204 USO designate centers over the world, 19 of which were overseas. The member agencies of the USO are seven in number: The Young Men's Christian Association, the Young Women's Christian Association, the National Catholic Community Services, the National Student Reliance Board, The Travelers Aid, the Salvation Army, and the USO Camp Shows.
This last unit is perhaps the most glamorous, and the one least seen by local citizens, since its operations are strictly confined to overseas bases and battle stations, hospitals, and isolated spots like radar stations on coastal islands, where the men have little contact with normal life. During 1952, some 115 Camp Shows troupes presented approximately 2500 performances to a service personnel audience numbering over 34 million, under every conceivable condition of weather and other difficulties.

the effective age of individuals. First would be the person's age in years. Second, the condition of his arteries, heart, kidneys, liver and other vital organs would be rated. Then his mental level would be thrown in, and finally his emotional age. The average of these, Dr. Morley said, might be taken as a pretty good indication of the realistic age of the individual.

Blues In The News
By BOB ANTHONY

A group of fifth grade students from Lyman School received a real thrill yesterday as they were taken on a guided tour of the Station Chapel, Library, and Parachute Loft. They also had a chance to see the NAAS fire trucks and some of the airplanes. Their last stop was the Station Galley where they saw how food is prepared in the Navy after which they were all served lemonade and cookies. Although they seemed to enjoy the entire tour, they were especially interested in the Parachute Loft where they were shown various types of Navy life rafts and the methods of packing and drying parachutes.

Seven newcomers checked aboard the station Department, six of them from the Recruit Training Center in Parrisburg, Md. The six new recruits who reported here were James A. Williams, Jr., Austin of Springfield, Mass.; James F. Thomas, Waynesburg, Penna.; Vaughn A. Lloyd, Louisville, Ky.; Jack A. Williams, San Jose, Calif.; Frank Franzosa, Jr., Arlington, Mass.; and Jerry D. Bell, Livermore, Ky. The other new recruit was Bobby J. Long, aviation mechanic's mate, who reported here from the Class "A" Aviation Machinist's Mate School in Memphis, Tenn. He had been assigned to the NAAS Operations Department.

Austin and Thomas have both been assigned to the Chaplain's Office while Lloyd and Bell will become members of the Administration Department. Williams will perform duties with the Special Services Division and Franzosa will work in the Communications Office. Welcome aboard men!

Ed Bedenbaugh, yeoman second class, came to Sanford over the weekend for a visit. Ed, who is attached to NAAS, is now attending the Class "A" Yeoman School in Norfolk, Va. He said he has to do quite a bit of studying at the school but he is coming along fine and will be returning to Sanford for duty in the near future. Ed's wife, Alva, is employed at NAAS as a telephone operator.

A special naval personnel dance will be held aboard the station tomorrow night with Tex Benke and his orchestra as the featured attraction. There have been several conflicting reports concerning admission to this dance. According to Chief Machinist A. B. Murray, Special Services Officer, this dance is for naval personnel attached to NAAS, including members of all fleet units.
Due to the limited space in the Chief Petty Officer's Club, where the dance will be held, only one lady guest will be permitted to accompany each Navy man. Your Identification Card will serve as a ticket for you and one guest only. That's tomorrow night at 8 p.m. in the CPO Club. Bring your wife or your best girl and see the mood with the music of Tex Benke and his orchestra. See you there!

Father Seeks
(Continued from Page One)
buried secretly yesterday, but the Tonogays had already returned to the Florida east coast in their trailer.

City Commission
(Continued from Page One)

John Kader, a program will be sent to Senator Boyle urging passage of annexation bills as recommended by the Commission.
Herv Ozier of the firm of Ozier-weller Hames Inc. presented three problems at last night's meeting. He said he would lay sewer lines along Azalea Avenue through a new development and asked to be reimbursed by the City at a later date. Mr. Angus stated such an agreement was feasible, and the Commission voted approval.

Mr. Ozier also requested street lights in the Azalea Drive section between Sanford and Locust Avenues. Mayor Chase directed Chief Williams to look into the feasibility of street lights in the area.
The police chief was also directed to take action on Mr. Ozier's request for removal of "no parking" signs at the end of First Street and Melville Avenue.
Representatives of the Business, Professional, and Civic Clubs appeared to request use of the Municipal Stadium for a game next Sunday afternoon. However, the Commissioners felt insufficient notice had been given and advised delegates of the colored group to contact the Baseball Association and City Manager Tom Lemon to decide upon a date.

Commissioners decided to wait until the return of City Manager Lemon before taking final action on the purchase of a Drott Bullion Show to be used in connection with a sanitary landfill program.
Commissioners declared they were impressed by the machine which would cost the City \$14,000 and which has been in operation here for three days as part of a demonstration arranged by Morris McClelland, a representative of the Florida-Georgia Tractor Co. Warren Knowles, the City's new civilian engineer, pointed out the advantages of the sanitary fill method and told how Sanford would benefit by its use. As one of several ways through which money could be saved, Mr. Knowles stated that it would cost \$50 a week for an operator of the machine and \$143.26 weekly for four employees.

A request by the Thrift Oil Company for a loading zone in front of their warehouse was turned down and Chief Williams was instructed to post no parking signs along Railroad Avenue on which the oil company is located.
Mr. Williams stated there was space behind the warehouse which could be used by the company as a loading area.
A request by C. H. Robertson, owner of property in San Lanta, that the City lay a water sewer pipe would bypass his property was granted if it fits into the overall sewer program being developed by Dr. Wolman.

A lease to run until July 12, 1954 was drawn up by Attorney Shinholer for J. M. Blythe, whose business occupies a portion of City property at the water works. Either party can cancel on six months notice according to the agreement.
Commissioners also approved the installation of a 20-year roof on the fire station at a cost of \$554.15. At an earlier meeting the Commission had approved a low bid by F. M. English for a 10-year roof, but Commissioner Kader pointed out the advantages of addition of gravel.
Ordinance No. 521, which is an

amendment to the Existing Ordinances creating the C.T. (Commercial Transit) zone, was held up temporarily pending further study.
Formal action will be taken at the next meeting on the application of Walter Harmon for transfer to him of the necessary licenses for the operation of the Smoke House at 108 West First Street.
Commissioners approved the requests of residents on Rosalia Drive and Yale Avenue for installation of street lights in those areas.
The City attorney was instructed to draw up an ordinance which will result in the closing of an alley on East Second Street between Cypress and Pine Avenues.

Citrus Bill
(Continued from Page One)
during the 5-1 product at the same time.
John Fox, president of Minute Malt, said his company has gambled \$100,000 a year for three years on research, now has the product to the pilot plant stage and would like permission to try it out on consumers. A representative of Birdseye Corp. also endorsed the bill. Most of the opponents were small concentrators or growers.
The committee also deferred action on another industry dispute which was aired at length.

That's what your neighbors will say when they see your new Barrett Asphalt Shingle Roof. And there'll be more such compliments, too. For the Barrett Asphalt Shingle, with its rich harmonizing colors and neat geometrical pattern, is an eye-stopper anywhere. That's the way the women see it, at least. Of course, from the man's viewpoint, the real beauty of the Barrett Asphalt Shingle is its durability. It's a tough shingle—made of high grade content felt, saturated with specially refined asphalt and surfaced with fire-proof mineral granules. Anyway you look at it—She's a real beauty.

finished 1ST in actual miles per gallon
among all competing 8-cylinder cars
Makes sensational 24,508 actual miles per gallon
STUDEBAKER ALSO WINS AUTOMATIC DRIVE CHAMPIONSHIP
Land Cruiser V-8 winner in Class B with 49,3476 ten miles per gallon.
Top of other entries equipped with automatic transmission, the lowest fuel economy in the class. The Studebaker averaged 22.58 miles per gallon.

PRICE! PERFORMANCE! BEAUTY! LONG LIFE!

4-Way Proof that Dollar for Dollar you can't beat a Pontiac
Here's how to prove Pontiac value:
First, get behind the wheel and drive it—no two Pontiacs put you out in front in traffic, when you along the open road with surprising economy; now its big, hunky high-compression engine provides power to spare.
Next, take a good long look at its distinctive styling and its luxurious color-matched interior.
Consider, also, Pontiac's reputation for dependability, long-range economy, and low maintenance.
Finally, compare its low price—on a Pontiac, that if you can afford any new car you can afford a Pontiac. Why not come in and see for yourself?

Texas Toll Is 97 As Weather Gives Respite

Rains, Winds Abate In Storm-Weary State

WACO, Tex. (AP)—Rains and wind slackened off over weather-weary Texas today. The death count from two giant tornados Monday climbed to 97 but possibility of more twisters had "expired." Rain-swollen streams threatened some flooding.

Search parties working through the night by flashlight extricated ten more bodies from rubble heaped in downtown Waco. This brought the toll here to 88. Nine were killed by the Monday tornado at San Angelo 200 miles to the west.

The swollen Brazos River did not reach a predicted record flood stage Wednesday morning. Down the water - runoff of rain deluges of up to seven inches in two days was rapidly subsiding.

W. O. Herbert D. Vogel, southwest district Army engineer, said at Dallas "unless there are additional rains, major floods in Texas do not appear likely at this moment."

He said the toughest situation was on the Lampasas River. Several farm roads were closed in that area.

Snow flurries at Amarillo and Dumas in the Panhandle early today marked a cold front which chilled most of the state. The temperature dropped to 35 at Amarillo and 33 at Dumas.

The Weather Bureau said its severe weather warning Tuesday - which said tornados were possible over wide areas of Texas Tuesday night - had "expired."

The tornadoes were estimated at San Angelo was more than three million dollars. More than 200 were injured at Waco, close to 100 at San Angelo.

Army workers - some at (Continued on Page Four)

Complete Plans Are Announced For Armed Forces Day Parade

ORLANDO POW HONORED

A war prisoner of the North Koreans, who returned to his home in Orlando last weekend, will be guest of honor during Sanford's Armed Forces Day ceremonies on Saturday.

Cpl. John King, still undergoing treatment at the Orlando Air Force Base hospital, will attend this city's celebration, according to John Pierson, chairman of the committee, which met yesterday afternoon at City Hall to make final plans for the day.

Chairman Pierson today asked all citizens of Seminole County to aid in keeping the downtown streets clear of cars Saturday morning.

Chief of Police Roy Williams will start placing the necessary barricades at 7:30 a.m.

Mr. Pierson requested First Street from Sanford Avenue to Oak Avenue, and Magnolia Avenue from First to Second Street be a closed area for motor vehicles.

During the Christmas parade, Mr. Pierson pointed out, several passenger cars were hauled away by police and in order to avoid a repetition of that trouble, urged cooperation by all motorists.

The servicemen will be accompanied to the reviewing stand by two other Orlando men. Guest speaker of the day is Lt. Gen. J. F. Moriarty, retired Marine Corps officer, while Martin Anderson, publisher of the Orlando Sentinel-Star, will also be present. General Moriarty is director of Central Florida Civil Defense.

Other distinguished guests will be Capt. J. I. Chittenden, skipper of the Sanford Naval Auxiliary Air Station and co-chairman of the committee; Lt. Col. Forrest Breckenridge, CAP, co-chairman; Lt. Gen. J. C. Hutchinson, retired Army officer; Comdr. G. R. Pearson, Air Station; Col. J. F. Moody, CAP, of Orlando; Comdr. J. R. Parish, Coast Guard; Senator Lloyd F. Boyle; A. B. Peterson, Central Florida Civil Defense officer; and Major Frank T. Conkili, U. S. Army.

General Moriarty's speech entitled "On Power for Peace" will be the theme of the day. The parade, which is to move at 10:00 a.m. in its course through the business district of the city, will be followed by a band serenade at Magnolia Avenue and First Street after the speaking program.

Mr. Pierson urged all participants to be present at their assigned positions at 9:30 a.m. and ready to start moving promptly half an hour later.

The first section of the parade will form on East First Street at the Seminole County Motors between Pine and Chapman Streets. George Maybury is chairman of the parade committee and also assistant parade marshal while (Continued on Page Four)

Britain Chided By Senator On Korean Stand

Knowland Hints U. S. Should Go It Alone

WASHINGTON (AP)—Sen. Knowland (R-Calif.) declared bitterly today that if Great Britain insists on an appeasement settlement with the Communists, the United States must be "prepared to go it alone" in Korea.

Knowland, chairman of the Senate Republican Policy Committee, said in a prepared speech that it would be a tragic mistake for the United Nations to accept Red proposals to turn over to five "neutral" nations those prisoners of war who don't want to go home.

A Californian attacked the positions taken in the House of Commons by Winston Churchill and Clement Attlee during debate there on Korea. Attlee called yesterday for a United Nations Security Council seat for Red China. "Not while the actual fighting is going on," broke in Churchill, and Attlee agreed. "No, soon after the armistice."

"What in effect Mr. Churchill and Mr. Attlee were saying to us by their speeches in Parliament," Knowland said, "was that we should accept the Communist eight-point proposal and should stop trying to clarify or modify the proposal to maintain the principles for which we have suffered 125,000 casualties in the past two and one-half years."

"In effect, what they have told us is that if we do not accept their advice and the Chinese Communists persist in the war we must be prepared to 'go it alone.' So be it."

Before Knowland could get the floor to make his speech, Sen. Douglas (D-Ill.) voiced an appeal in the Senate to the British government to quit muzzling its country to "seek security at the expense of liberty" on the Korean prisoner-of-war issue.

Douglas also alluded to his remarks at Churchill and Attlee.

Sen. Morse (Ind.-Rep.) retorted that "we had better all down and work out some understanding with the allies rather than criticize them on the floor of the U. S. Senate."

Attlee's speech in Commons also questioned America's general approach to foreign policy. The former prime minister said "sometimes one wonders who was more powerful, the President or Sen. McCarthy."

McCarthy today accused Attlee of marking "a foul, distasteful lack on our president."

Governor Agrees To Accept Salary Increase Of \$3,000; Will Give Raise To Charity

A mural of Christ stands out in the wreckage of the Sacred Heart Catholic Church at Hebron, N.C., after a tornado. The church, a three-story building, was destroyed; the altar and mural untouched. Stones were injured and damage was estimated at \$1,500,000. (AP Wirephoto)

McCarthy Says He Will Veto Bigger Stipend

TALLAHASSEE (AP)—The Senate passed SB731 by Senator Boyle in regard to the pay of supervisor of registration.

TALLAHASSEE (AP)—Rep. Williams and Cleveland of Sanford today introduced HB 1187 extending the corporate limits of the City of Sanford, HB 1188 increasing Sanford city commissioners' salaries to \$30 a month and the mayor's salary to \$25. Rep. Williams also introduced HB 1112 extending Sanford board and providing a referendum.

TALLAHASSEE (AP)—Gov. Dan McCarty "reluctantly" has agreed to accept a \$3,000 salary increase to \$15,000 a year but will turn the raise over to charity.

The governor previously said he would not accept more money for himself.

House and Senate conferees on the general appropriations act voted tentatively today to write the \$15,000 figure for the governor's salary into the committee bill after Budget Director Harry Smith informed them McCarty would not veto a \$3,000 raise.

He did not want to accept anything over \$12,000. He opposed a \$25,000 figure suggested by the House Appropriations Committee, and it took four or five days to get him to agree to \$15,000. Smith said.

"He is more than willing to accept the \$15,000 figure, but will keep only \$12,000. He will donate the other \$3,000 to some charity, perhaps a scholarship. He will veto anything over \$15,000," the budget director added.

The Senate would go along with \$20,000 for the governor, Sen. Dayton, chairman of the Senate Appropriations Committee, said.

Since the House wants to give cabinet officers a raise from \$10,000 to \$12,500, it is necessary to give the governor a salary boost and "if he will take \$15,000, as I understand he will, we'll better put it down," Chairman Moody of the House Committee said.

"We haven't decided on the cab (Continued on Page Four)

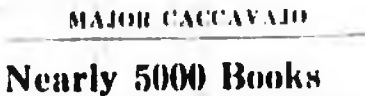

COLLECTS INDUSTRIAL DATA

Major Caccavajo Is Retained By Industrial Board For Survey

The executive committee of the Sanford Industrial Board has retained the services of Major Joseph Caccavajo, former consulting engineer for New York City now residing near Deland, for the purpose of studying the industrial possibilities of the Sanford area and preparing a survey to be used in the drive to attract new industries to this city, Bralley Odham, chairman of the board, announced today.

"Major Caccavajo is well qualified to gather together the facts and figures needed to fully understand and appreciate what Sanford has to offer, and what needs to be done directly and indirectly to promote the best interests of Sanford and Seminole County," Mr. Odham said.

When interviewed today regarding his plans for the study of conditions in and about Sanford, Mr. (Continued on Page Four)

MAJOR CACCAVAJO

Nearly 5000 Books Issued By Library

A total of 4,325 books were issued from the Sanford Public Library during the month of April according to Mrs. E. J. Moughton, Sr., librarian.

The average daily circulation amounted to 171 books, while the high day during the month saw 280 charged out. Adults using the reading room during April numbered 257 and children, 237, for a total of 494.

Mrs. Moughton said that fines totalled \$52.51 while non-resident members paid \$11.

A total of 48 adult and 15 juvenile books were purchased during the 30-day period. There were 57 new readers registered, and 70 books were repaired at the library.

Mrs. Marentette To Be Buried Tomorrow

Funeral mass will be held at All Souls Catholic Church tomorrow at 9:30 a.m. for Mrs. Joseph Marentette who died at the home of her son-in-law and daughter, Mr. and Mrs. Andrew Carraway at 2:30 p.m. yesterday.

The widow of the late Mr. Marentette former manager of the Ritz Theater, Mrs. Marentette had made her home here with her daughter since 1944. She moved here from Palatka where she and Mr. Marentette had lived until his death.

The Rosary will be recited at Brison Funeral Home at 8:00 p.m. tonight and Father Richard Lyons will conduct services tomorrow morning. Interment will be in the Catholic Cemetery.

Cowan To Address JCs Upon Progress Of Industry Group

Ralph Cowan, president of the Sanford Industries, Inc., will outline the progress made to date by his group toward securing new industries for Sanford in an address before the Junior Chamber of Commerce tomorrow at the Yacht Club. It was announced today by President Douglas Stenstrom.

Meanwhile, the Junior Chamber's board of directors have designated Saturday night, May 23, for the installation of the new officers at a special ceremony to be held at Sanlando Springs. Bralley Odham, past Sanford president, will install the officers.

The installation will have a festive air about it. Wives of the members will be invited and a dance will follow the installation on the outdoor patio. Miss Sanford - Frances "Boots" Moore will be presented to the Jaycees and will represent in the pool at the springs. Jaycee members from nearby clubs have also been invited.

The Junior Chamber has entered Miss Moore in Saturday's newspaper contest at Leesburg. Her picture has appeared in papers as far away as Oklawaha, according to Judge Stenstrom. Lt. Shirley Smith of Sanford clipped the picture there and sent it to her father.

LI. Chuck Atkinson, who is chairman of the Junior Chamber's new committee, reports that work is progressing on the Jaycee float slated to be entered in the Armed Forces Day parade next Saturday. Bill Herschel, Kelly Smith and Craig are also assisting LI. Atkinson.

According to Mr. Harold Ring, Jaycee executive secretary, the Seminole County Jaycees have received nationwide publicity from the Fishing Medal and Fishing Map. Articles concerning the medals and maps have appeared in newspapers in the following places: New York, N. Y.; Boston, Mass.; Albany, Ga.; Asheville, N. C.; Moline, Ill.; Champaign, Ill.; Savannah, Ga.; Wichita, Kans.; and Palm City, Calif.

"Undoubtedly it has been published in many other places which we have no record," Mrs. Ring added.

Damage Suit Filed Over Trailer Park

Paul I. Taylor, operator of the trailer park at Sanford, yesterday brought suit in Seminole Circuit Court against the City of Sanford, seeking damages of \$5,000.

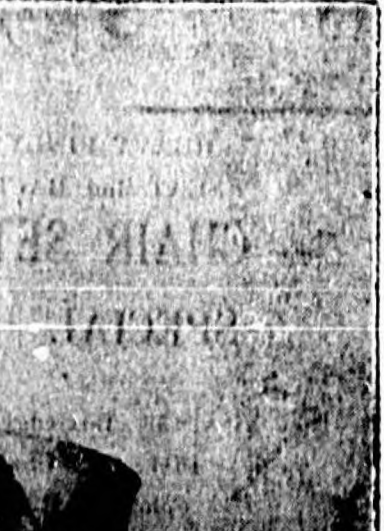

Taylor alleges that the city, through its agents, ordered him to expand his trailer park inside the city limits from the border-line location in the highly residential section of Dreamwood subdivision.

He said that a variance was promised him and on the strength of the city's interest in \$1,500 he had expanded his trailer park. Subsequently the zoning board withdrew the temporary variance and the City Council refused to grant a permanent variance. He said he had been denied the right to expand his trailer park.

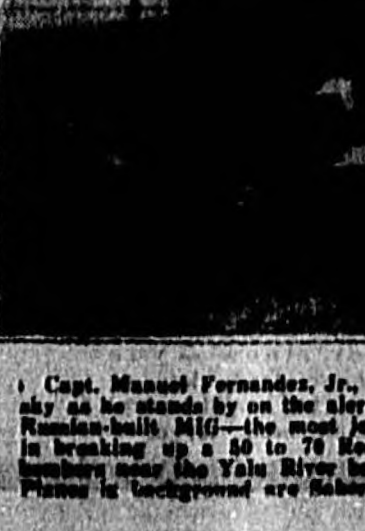

The suit of complaint was filed in the circuit court at Sanford. Attorney Paul I. Taylor is the plaintiff. He is represented by Attorney J. H. Smith.

Capt. Manuel Fernandez, Jr., of Miami, Fla., scans the Korean sky as he stands by the alert line. Fernandez bugged his 13th Russian-bull MIG—the most jet shot down by a single pilot—in breaking up a 50 to 70 jet plane attack on U. N. fighter planes in the area of Folsom, Calif. Fernandez is backgrounded are Sabonja. (AP Wirephoto)

In the Armed Forces Day Parade to be held Saturday, May 16, Mrs. Ruth Scott urged the members to take advantage of the TB Mobile X-Ray which is set up in Mather Furniture Store.

Mrs. G. A. Stone, Milk Bank chairman, reported that a total of 128 quarts of fresh milk had been given to needy families during April in addition to a case of powdered milk.

The group voted to give \$1 toward the Ruby Newhall Scholarship Fund in order to provide funds for a foreign student to attend school next year in the United States. Miss Anna Marie Eastman of Holland has been the recipient of the fund during the past year. She is taking post graduate work in Home Economics at the Florida State University and will return to her native Holland this summer.

Ozier Presents Housing Program To CofC Leaders

Merz Ozier reported on progress of a plan to bring some 2,000 needy industrial workers from the Detroit area to Seminole County at a meeting of the board of directors of the Chamber of Commerce last night.

Ozier said that the plan was to bring in a group of about 2,000 workers from the Detroit area to Seminole County at a meeting of the board of directors of the Chamber of Commerce last night.

Telephone Office Will Be Moved To Site On Palmetto

The Southern Bell Telephone company will move its Sanford business office to a first floor location at 118 S. Palmetto Avenue, and will be open for business there the morning of June 1.

This was announced today by John P. Evans, district manager from Orlando, who said the move is being made to provide better service, more convenience, and better accommodations for customers. The present business office is a second floor location on East First Street.

The new office will include six public telephone booths inside and one outside for 24-hour service, and a night deposit where customers can safely deposit pay phones before and after the regular office hours, which are 8:30 a.m. to 5:00 p.m. Monday through Friday.

Mr. Evans said the move of the office would be made on May 20 and that the office would be open for business on June 1. The office space was leased from Dr. O. W. Brooks and Fred H. Williams, and has an approximate floor space of 1,000 square feet. The building is very modern, having been built about a year ago.

The new office is conveniently located and is situated more conveniently for automobile parking. Mr. Evans added that the establishment of this separate business office will give a considerably better service to customers in handling their transactions with the company.

Until June 1, all transactions with the Telephone company will be handled at its present location.

Brooks Tells Of Human Values In Talk To Kiwanis

Even in a rapidly changing world, several basic human values remain constant, declared Dr. W. F. Brooks Jr., pastor of the First Baptist Church, in an address given before the Kiwanis Club today.

"When one compares this country today with 20 years ago, a great difference is noticeable in dollars and cents values, but such values as freedom, character, and kindness continue down through the years without change," the speaker asserted.

What good is it to be surrounded by all types of conveniences if we are unmerciful inside? Dr. Brooks pointed out. "Too many persons today have much to live with, but unfortunately, nothing to live for."

Visitors introduced by Ed Lane included A. B. Cornell of Brunswick, Ga.; Webster Phillips of Orlando; and Mrs. Selwyn Lindere, board director of the East Florida United Service Organization.

Mrs. Lindere stated the USO drive here starts Saturday and in pointing out that the service organization was not government sponsored, urged contributions by many rather than large gifts by a few to reach the \$100 goal.

The Rev. Frank Storgan, pastor of the Oxford Baptist Church, reported on the inter-club meeting in Orlando last week attended by seven Sanford members.

Ray Moore urged all members to take advantage of the free X-rays which are being sponsored by the Seminole County Tuberculosis Association.

Plans for the Armed Forces Day celebration on Saturday were outlined by John Pierson. He said open house would be held at the Sanford Naval Auxiliary Air Station from 1:00 to 4:00 p.m. and reminded members of the Sanford Orlando benefit game for the Boy Scouts that night.

The program was under the direction of Tom Stringer. (Continued on Page Four)

Evacuation Of British Within Two Or 3 Months Described Imperative

CAIRO, Egypt (AP)—Lt. Col. Gamel Abdel Nasser, chief of staff to Premier Nasser, said today that unless British evacuate the Suez Canal zone, Egypt would have to evacuate the British within two or three months.

This is the first time Egypt has given any hint of a deadline for evacuation.

Abdel Nasser, who at 35 years of age is a leading figure in Nasser's government, said neither statements by Prime Minister Churchill or the visit here of Secretary of State Dulles would have any effect on the increasingly critical Suez situation so long as British troops remain there.

From London word came today that three landing craft loaded with British Royal Marine commandos sailed under secret orders from the Mediterranean fortress island of Malta last night as the tense British-Egyptian dispute over the vital Suez Canal zone worsened.

There was no official announcement of the tough fighters' destination but speculation immediately arose that they would reinforce Britain's Suez garrison against Premier Nasser's threat to evacuate the British within two or three months.

Unofficial reports from Malta said three Royal Navy destroyers also had been diverted to the canal zone Naval headquarters on the island declined comment on the reports. The three warships—the Chequers, Chequer and Chewl—had sailed from Malta Tuesday for a visit to Yugoslav ports.

An Army spokesman, announcing the shift of the commandos, said "certain movements of the Royal Marine commandos have been approved as a precautionary measure."

His announcement came shortly after Minister of State Selwyn Lloyd told the House of Commons that British soldiers in Egypt have been "ambushed, shot and assaulted" (Continued on Page Four)

Zoning Variance Is Asked For Motel Proposed On Park

Construction of a 20-unit motel on the Dreamwood Section on the Orlando Highway last night requested a zoning variance at the Zoning Board of Appeals meeting in City Hall.

Properly purchased by Mr. Barnes located just south of the Pig N' Whistle lies both in C-1 and R-1 districts. He requested that the entire area be classified as commercial in order to extend the motor court across four lots.

Mr. Barnes will be advised by the Board to advertise for a public hearing to be held at a later regular meeting of the group.

In other business last night, a hotel officer was granted a variance in order to add a present building located at the northwest corner of Ninth Street and Sanford Avenue.

The Board of Appeals advised J. P. Hultclaw to advertise for a public hearing in connection with his request as a representative of the Coca-Cola Bottling Company for a variance in order to build a structure to house trucks on the First Street Extension.

In order to accommodate Mr. Hultclaw, the Board shifted its regular meeting night from May 22 to May 29. A 15-day publication notice is necessary before a public hearing can be held.

Retired Teacher Is Involved In Wreck

A 62-year-old retired woman teacher from DeBary was charged with careless and negligent driving when her car collided with an automobile driven by a Sanford student in the intersection of 14th Street and Park Avenue this morning, it was reported today by Police Chief Roy G. Williams.

Mrs. Lois Ruth Campbell, going east on Thirteenth Street, turned south on Park Avenue, colliding with the car driven by Mrs. Donald Harper, 2101 Sanford Avenue, who was going south on Park.

No one was injured, but Mrs. Harper's car received \$105 damage from the collision and \$20 damage was inflicted on Mrs. Campbell's vehicle. Patrolman Arnold Williams investigated the charges at 9:00 o'clock this morning.

Pool To Be Open

Starting today, the Municipal Swimming Pool will be open Wednesday afternoons, Edward H. Johnson, City sanitary officer, announced today.
