If You Think So Then . . .

PREACHERS — Should preach only one sermon or so a year. We are all against sin anyway, so why harp on it.

TRAFFIC LIGHTS - Should be turned off at dangerous intersections to save electricity. Everybody knows its a dangerous spot and that is sufficient.

TEACHERS - No need to review lessons. Tell the children just once and they'll never forget.

HIGHWAY POLICE - stop driving up and down the highways. No need to caution drivers by patrolling highways. Drivers know the law and will obey.

MAIL ORDER FIRMS — that send catalogues are wasting their money. Everyone knows what is sold at stores in town and of course they'll shop at home.

IF YOU ARE ONE of the foolish kind like the Notre Dame Cathedral that has stood for six hundred years but still rings the bell every day to let people know it is there, and if you believe in consistent, profitable advertising, then you will . . .
