Catholic Nation Goes Back To Church After 4 Days Of Rioting Against Clergy

TALLAHASSEE, May 14.—Several quasi-important State measures passed the House today. Among them, the Barber Bill. It did not have a close shave as some thought. The vote of 66 for it and 51 against surprised me, as well as others. With the Governor's approval, it will be a law.

The bi-annual Everglades act passed today also, after first passing the Senate. The House adopted several minor amendments that will have to be concurred in by the Senate. An important amendment that was adopted, limited the expense of the Everglades Commissioners for their attorneys fees to \$5,000. The present cost is about \$12,000, considering the Flood Control Board also.

A so-called Blue-Sky law passed the House this afternoon. It provides that stock selling brokers must register with the State officials. It was amended, however, to exempt those who work for a corporation and sell stock on its own behalf in accordance with such requests from men over the State, some of whom were from Seminole County.

The newspaper delegation in the House drew a resolution and it was introduced by Representative Alvaro from Monroe County. Required all Legislators to attend the Crittenden Budget. Friend of the budget, he said, "I am not a member of the budget, but it is my duty to support it." He added, "we have the approval of the Governor, as it was already compulsory that each member attend. It created quite a little mirth and gave some diversion for a few minutes from the more serious business at hand."

All Legislators are on their way to the Girls College, P. S. C. W. tonight for the dinner tendered to the House and Senate members and the Governor's Cabinet by the College.

The Everglades Act that was passed today, required more than an hour and a half to be read, as you can see that a good deal of the time of the House today was taken up reading this bill.

Hundreds Of Army Planes Bivouaced For Air Maneuvers

DAYTON, Ohio, May 14.—(AP)—Bivouaced at scattered airfields over the country today, were some 600 planes of the Army Air Corps, ready for the final hops which will bring them here for the annual Army air maneuvers.

Poor flying weather delayed some of the flights eastward yesterday. All of the planes, however, are expected to reach their destinations not later than Friday, when organization of the various units will be formalized for the defense of Chicago and Detroit early next week.

National guard planes—90 in all—coming from 18 states, were delayed by bad weather which hampered flying from Illinois to the east coast. It is the first time since the World War that national guard fliers have been called on to fly beside pilots of the "regulars."

More than 100 ships left San Antonio yesterday for Dayton. En route they split into two groups. Transport and observation planes set out for Fort Smith, Okla., while a group of bombers were on their way to Shreveport, La., where they headed north.

Forty-eight attack planes got away from Goliad yesterday morning; two were shot down. A bomber left Dallas, Tex., from Omaha, Neb., and pursued planes heading east over 100 and 100 observation planes left Kansas City.

Arguments to the jury will begin today.

Wallace R. Davis, president, and C. N. Brown and Dr. J. A. Blocker, directors, are charged with making a false report of the condition of the Central Bank & Trust company, before its failure last November, was completed yesterday by Pasco county superior court.

The leaders to date: Homers, Klein, Phillips, Hornsby, Cain, 5 each; triples, Drabek, Cardinals, Phillips, H. Rice, Morris; most doubles, Alexander, 17; runs, 15; stolen bases, Johnson, 14; runs batted in, Green, Beantors, 20; most strike outs, one game, Johnson, Yanks, 13; most bases on balls, one game, Morris, Red Sox, Frazier, White Sox, 10 each; most shutout wins, Holloman, Braves, 17; most runs, Glavin, 16 each; most runs, L. Wagner, Pirates, 22; most hits, Alexander, Tigers, Peacock, Indians, 22 each.

All Simmons, Babe Ruth, and Dale Alexander still dominate the list of 400 regular sluggers in big league play, although all dropped two points. Dale 14 points, and the Babe remained where he was. Not a National League player is in the select group, probably because of the great number of low hit games which have been played during the past ten days. The three leaders:

Hofmac Battery Firm Sponsoring Campaign

Feeling that there are many farmer families and newcomers to Sanford that are not personally acquainted with the service and quality of the products sold by their firm, the Hof-Mac Battery Co., through its manager, W. D. Hoffmann, this morning announced that it would start a unique "Get Acquainted" campaign which would be greatly beneficial to the residents of the county.

Mr. Hoffmann requests that one adult member of each family in this section visit his store any time within the next two weeks, register in the "Get Acquainted" book, receive a convenient booklet, and learn the details of the campaign.

During his more than 10 years of business experience in Sanford, Mr. Hoffmann has stressed service and quality above all other features of his business. At the present time the firm handles Atwater-Kent, Majestic, Musette and Westinghouse radios, and Exide batteries.

Mr. Hoffmann is particularly anxious to meet every newcomer

RAIN POURS TOPRACTICE BALL PARK LOT

Deetech's Team Nearly Ready For Invasion Of Deland Thursday.

By PETER SCHAUER

A deluge of rain stopped all practice by Manager George Deetech's Colby Fed athletes scheduled for Municipal Park yesterday afternoon, but it failed to dampen the enthusiasm of the 16 players, now with the club who expect to visit Deland tomorrow and avenge their early season defeat.

Lefty McLanahan, the former State leaguer, although he is suffering from three boils, two on that left side, will be on the mound against the University City boys tomorrow. He claims that he can take their measure with ease, and he expects to be the first Sanford hurler to land in the winning game column this season. Lefty's experience should

enable him to be able to go through to an easy victory, and there is every reason to believe that his mates will do their best to help him to knock Parks or Douglass all over the lot.

Manager Deetech is still casting about for a catcher with experience enough to handle Dennis and McLanahan regularly. He has temporarily signed young Kinlaw, former high school youth who has been playing baseball for a semi-pro team in the Atlantic Division United States Navy League. Kinlaw was at practice Monday afternoon, and threw balls all over the lot with a snap that indicates that he is going to be a valuable addition to the club. He is said to be a hitter of no mean ability.

Tomorrow's lineup will be modeled along this order, it is believed. Kinlaw will probably catch; Biggs, play first; Wright, second; Hixson, short, and Harrison, third. In the outfield, Dennis, Lake, Deetech, Britt, and Ammon will take turns unless the first set gets like a house afire.

That infield line-up is the strongest that can be arranged out of the material at hand. When it comes to fielding, we

has had experience at first base, knows how to handle his foot, and is able to get them from any angle. Wright is fast settling in to an infilder of reliability and a runner, after several days of play as an outfielder.

The former star pitcher, Sam's High school team looks like a permanent fixture at short, while he has always placed, while Harrison, the former high school star, is at last at third, where he has given good accounts of himself in the past.

Dennis, Ammon, and Deetech in the outfield represents fielding and batting ability worth looking over carefully before making any hasty decisions. Lake and Britt as relief outfielders are capable players who are young and hustling, boys who are anxious to play ball for the sake of the game.

The game will be played on the Station University diamond. It starts at 8:30 o'clock, and the admission price is the same in Deland as it is elsewhere in the circuit. The players would appreciate a following of the faithful few.

Today is Farmers' Day. Long

A depression is an economic

son to approach prosperity when
it arrives.

Some think the Democ-

ness depression the chief issue
in the 1932 campaign. Whether
Democrat party does or not,
people will.

Local residents who are alarmed
at the prospects of legalizing

member that they will have an
opportunity of deciding at a gen-
eral election whether they want
it in the county or not. That

success in this coming period, a new type of selling is required.
Selling in the future will have to be from the
standpoint of the customer's best interests rather than
from the standpoint of the salesman's best interests. The
salesman must study the customer's real needs, not merely
try to sell him a bill of goods. The good salesman will be

a man not only of initiative but of imagination which en-

sables him to put himself in the customer's position and to

point out ways and means of increasing the customer's success.

In other words, the salesman of the future should

be a business expert, not only in his own line, but in many lines.

The old type of glad-hand salesman with many

friends and little information is fading out of the picture.

He is being supplanted by a scientifically trained, sincere,

of business research will permeate future advertising.

More hollowness, which already has become ineffective, will

gradually be discontinued. Since the right kind of advertising

is the best and most direct way of increasing public

goodwill, it should be increased rather than decreased under present conditions. Advertising also will visualize the

customer's needs, and develop new uses for old products as

well as promoting new products."

Ruining Business

The members of our legislature should take a lesson

from the Twentieth Amendment and recommend that all too
often when anything becomes prohibitive, a great bootlegging industry springs up. There are now proposed an
eight cent tax on gasoline, and a six cent tax on cigarettes,
either of which would make either of these commodities
practically prohibitive to the average person. It would be

the easiest thing in the world to bootleg cigarettes into

this state and wreck an otherwise profitable and legitimate

business. Our legislators should think seriously of this.

"If the Florida Legislature insists upon徵收 any

further taxes upon gasoline in this state," says the Mi-

ami Herald, "the cause of bootlegged gasoline may be taken

up with profit. It may be recalled that the United States

was largely founded by a revolt over a tax on tea, and

that tax was slight compared to the load placed upon the

motor fuel in Florida.

"Americans will submit just so long to legislative and
governmental interference and then they will rise as their
hind feet and yes. The automobile tax has reached that

point now. Impossible as it may seem, the Senate Finance

and Taxation Committee has reported out a bill by Senator

S. J. Hillman, Palatka, laying a two-cent per gallon

tax on gasoline in addition to the present six cents. This

money would be returned to the counties for road pur-

poses, whether needed or not. Some legislators seem to

be proceeding on the theory that money must be raised re-

gardless of requirements and results.

"Well, this probably would be the result, because

motorists would actually get a smaller revenue from a higher tax as

motorists would necessarily curtail their purchases, and the

whole economy in the use of gasoline.

"Further, with the amount of fat making it difficult

while drivers would be compelled to make a longer

payment by bringing in more gasoline.

Violation of the law would be a certainty.

With the present
