

Pontiff Lauds 'Friendship Train' And U. S. Generosity To Needy

VATICAN CITY, Jan. 23 (AP)—Pope Pius XII said today he hopes the American "Friendship Train" is a herald of a new birth of generosity everywhere.

The Pontiff received 30 members of the "Friendship Train" organization for Italy in an audience and told them: "In the midst of daily accounts of international distrust and suspicion reported by the press in the aftermath of the war, there are also incidents of a more encouraging nature. Such a cheering contrast in the news of recent days has been the conception of the idea of the 'Friendship Train' and its immediate and generous reception over the entire area of the United States, resulting in the donation of an impressively large quantity of foodstuffs destined and dispatched without delay for the relief of the hungry."

"You who have been associated with the collection and distribution of this spontaneous and valued gift of the American people to their brothers in need across the seas have witnessed the inspiration that has been evoked among the recipients by this display of Christian charity and human solidarity."

"It is our hope that this praiseworthy gesture may be the promise of a new birth of generosity of heart everywhere in the world to lead men into the ways of fraternal love under God and thus to lasting peace."

Film Actress Pauline Goddard was a member of the "Friendship Train" delegation at the audience, Vatican sources said.

Legion Medals

(Continued from Page One) next of kin of ex-Army personnel who have died since their discharge from the service may make application for these by mail to the Commanding Officer, Florida Military District, Bulek Building, P. O. Box 1170, Jacksonville. Letters of application must be accompanied by a photostatic or notarized copy of either the discharge certificate, Certificate in lieu of lost or destroyed discharge certificate, certificate of service, or other adequate War Department authenticated statement of service.

Applications by next of kin of those who died while in service on active duty in the army and who, consequently do not possess the necessary documents to make application elsewhere, may apply to Chief Demobilized Personnel Records Branch Building 106 Records Administration Center, A. G. O. Bldg. 23, Mo. for such document. The full name, last grade, and serial number of the deceased person should be provided.

It is hoped that those Army veterans desiring these medals will take advantage of this opportunity.

This is the only opportunity veterans of the Sanford District will have to secure these medals. This duty will be handled entirely by a volunteer organization of Auxiliary and Legion members.

It is necessary that original papers, as outlined above, be on hand when application is made and applications must be made in person by each individual.

LaFollette Helps

(Continued from Page One) too narrow a limit on the Administration's freedom of action. The National Association of Manufacturers also said it is "all for the Marshall Plan, provided proper safeguards are included."

Herbert H. Schell, member of the NAM International Relations Committee, said American industry sees "no alternative" to the European Recovery Program.

In a statement of NAM views before the House Foreign Affairs Committee, however, Schell said Congress should:

1. Withhold U. S. aid from nations which plan to place more industries under government control.
2. Deny assistance to countries which show no intention or hope of balancing their budgets.
3. Set up a non-political board to manage the Marshall Plan independent of the State Department.

Schell said more production at home and abroad is the key to recovery, and "the NAM is convinced that Europe should produce more and experiment less."

The NAM, Schell testified, "recognizes in the European situation today the existence of a very real threat to America's welfare and security."

The committee is studying the Administration's proposal for a four-year program starting with a \$2,000,000,000 appropriation for the first 15 months.

The Senate Foreign Relations Committee meanwhile called for testimony by former Senator Robert M. LaFollette, Jr., of Wisconsin. He has been mentioned as a possible director of spending under the Marshall Plan.

Dean Acheson said "The European Recovery Program is the front line of American security."

The former Undersecretary of State declared that the Soviet Union "accepts with complete realism a strong and stable situation and adjusts its policy accordingly."

With equal realism, he said Russia grasps "the opportunities offered by weak and unstable situations whether they result from defeat and occupation or from the exhaustion of an ally."

Acheson, chairman of the committee, said the non-partisan committee for the Marshall Plan said Russia is "doing its utmost to prevent recovery in Europe."

He predicted improvement in relations between the Soviet Union and the United States once Western Europe again has become self-supporting.

"I am readily convinced," he added, "that with the crumbling of the economy of Western Europe will come increasing impairment of American security and quite possibly the development of situations which will hamper the maintenance of international peace."

"If the amount of foreign assistance is reduced, the amount of European production is reduced, the amount of foreign exports is reduced, and again we descend to a vicious circle."

Florida State News In Brief

JUSTICES QUALIFY

TALLAHASSEE, Jan. 23 (AP)—Florida Supreme Court Justices Alvin Adams, Glenn Terrell and H. L. Sebring qualified today as candidates for re-election to their positions.

None has an announced opposition. H. A. Lee of Gainesville qualified as a candidate for state comptroller. Comptroller C. M. Gay, who holds the position under appointment of governor Caldwell, and Edwin G. Fraser, MacClenny Nourishman, and state senators qualified as candidates for the position.

CLEARWATER POLICE

CLEARWATER, Jan. 23 (AP)—The City's Civil Service Board began today its hearing of Police Chief J. J. Elliott on charges brought by a former member of the police force.

Eddie Rogers, dismissed recently on charges preferred by Elliott and City Manager Boyd Bennett, charges his former chief with accepting a bribe, misuse of city property and sending a detective to Gainesville to work on a case while still being paid by the City of Clearwater.

CITY TAX

KEY WEST, Jan. 23 (AP)—The city commission last night adopted an ordinance levying a three-cent package tax on cigars and a comparable tax on other tobacco products sold here, effective March 1.

REPUBLICAN CANDIDATE

TALLAHASSEE, Jan. 23 (AP)—Camille M. Geseau of Jacksonville, who ran unsuccessfully for Congress two years ago as a Democrat, qualified today as a candidate for the Republican nomination in the second district. The position now is held by Rep. Emory H. Price, Democrat.

National Debt

(Continued from Page One) cutting measure to the White House it will be vetoed "and we will have no tax reduction at all."

He urged that the size of the cut be trimmed down.

Meanwhile Senator Tobey (R-NH) said he proposes to find out "who the forces were who went to the President and got him to remove" Marriner Eccles as Federal Reserve Board Chairman. Tobey said he deprecates the demotion of Eccles to vice-chairman of the board. He expressed his views on the demotion of Eccles while the committee was

STUDENT KILLED BLEEDING

KNOXVILLE, Tenn., Jan. 23 (AP)—Helen P. Tarr, 18-year-old University of Tennessee co-ed of Knoxville, died in the University Hospital early today of injuries suffered last night in a sledding accident. Miss Tarr, a native of Harrison, Tenn., suffered a fractured skull when a sled on which she was coasting crashed into a tree. She was graduated from Citrus High School, Inverness, Fla., and was a freshman at the university.

ROSE WONT RUN

ORLANDO, Jan. 23 (AP)—Danger of "economic chaos" from a proposed Florida sales tax was cited here yesterday by Sen. Walter W. Rose as he announced that he will refrain from seeking nomination as Governor.

Also opposing any legalization of slot machines, he said, "I believe that I can discuss such issues impartially and more effectively as a private citizen than I could if I had the personal interest in the office."

Rose, who has been a State Senator for 16 years and was president of the Senate in 1945, did not indicate what he will do with regard to this year's campaign for Orange County's Senate seat. He said that he will discuss issues related to the race for the governorship "without indulging in personalities."

JACKSONVILLE BANDIT

(Continued from Page One) store as the bandit fled after taking \$87 from the cash register. The bandit took a shotgun away from a special guard in the store.

Previously, Acree said, Newton had held up another liquor store and escaped with about \$350. Then, the detective revealed, Newton stopped a negro motorist and forced the motorist to drive him across town. He took the negro's car and promised to call him.

Later Dr. J. V. Pierotti was held up when he stopped at a traffic light. Dr. Pierotti lost \$229, his watch and car. He also received a promise of a telephone call when the bandit had finished with the car. The doctor's car was found near the store where Newton was shot.

Acree said no charges had been booked against Newton pending further questioning.

holding hearings on anti-inflation legislation. Seymour E. Harris, professor of economics at Harvard University, was endorsing certain of Eccles' monetary policies when Tobey asked whether Harris knew what happened to Eccles.

Then Tobey launched a rapid-fire criticism of the President's action.

"I think the President put himself in a very weak position by what he has done," Tobey said. "I deplore it."

"I want to know who the forces were who went to the President and objected to Eccles and got him to remove him. I think the committee deserves to know. I propose to find out."

Of the eight committee members who said they had no objections to McCabe, Eccles' successor, four said they have decided to vote for him; four said they see no reason now for refusing.

Safety Flying

(Continued from Page One) month for needy families, both colored and white. This constituted 10 and one half quarts of fresh milk and a case of canned milk.

A letter of appreciation from Leola Morgan, colored mother of eight children of Oviedo, was read to the group. She thanked

the club for milk which was furnished her during a time of great need through the Milk Bank. Seven families are at present being supplied with canned or fresh milk, Mrs. Hollyhead stated.

Byrd Hudson, captain of the Salvation Army, thanked the club for its assistance on the Dime Boards in December. Mrs. Al F. Hunt was appointed local convention chairman for the interna-

tional convention which will be held in Daytona Beach June 17-18-19. There were 25 members present.

The ruffed grouse often is called "partridge."

When the pilgrims landed in New England, they did not know how to build log cabins. Instead they built bark huts.

AS ADVERTISED IN LIFE

A smash hit in SUEDEKNIT*

You'll score in tennis—and with the girlfriend—in this Hanes Suedeknit Sport Shirt. Soft, suede, cotton fabric in "well-dressed" solid tones of sage green, sky blue, palomino tan, canary, pearl gray and white. All fast. Raglan shoulders for freedom of action in tennis, golf and other outdoor activities. Small, medium, large and extra large. Stand-out buys at \$1.85 to \$2.25.

Children's sizes dance when they see the bright stripes in these Hanes Raglan Shirts. Fast to sew or tub. Fine knitting and careful sewing promise long wear. "Buy one" values at only \$1 for ages 2 to 6, \$1.25 for ages 8 to 14.

Be happy in

Sayre, Pennsylvania

Sanford Herald: Gentlemen)

I just received various pamphlets containing information of interest of your city. Inasmuch as we are considering Sanford as a probable future home, I would like additional information and believe a subscription to your paper would be helpful. We are primarily interested in the "ais" covering rentals, food markets, etc.

I am enclosing my check for \$2.00 for which please credit me for as many issues of the Herald to which that sum entitles me.

Thanking you, I remain

Yours truly,
Charles Trost Jr.
Box 292
Oviedo, New York

These are typical of letters we receive almost daily. They show people in the North are interested in Sanford and want our daily paper for information about our rapidly growing City.

House Bars Changes In GOP Tax Bill

Democrats Split Wide Open Over Truman Proposal For \$40 A Person Tax Cut

WASHINGTON, Jan. 29 (AP)—The House voted today to consider the \$6,500,000,000 tax slashing bill under procedure barring any changes. Democrats cried "gag." The vote was a voice one.

The opening of debate quickly developed a wide break in Democratic ranks on President Truman's tax proposal. Rep. Knutson (R-Minn.), author of the GOP bill, invited Democrats to desert the President and help override his expected tax bill veto.

Rep. Cox (D-Cal.) told the House that for Democrats to offer the President's \$40 per person tax reducing plan with a corporation excess profits tax to make up the revenue loss "would be not much more than a piece of foolishness."

While the procedure voted by the House allows no amendments, Democrats will get one chance to offer a complete substitute for Knutson's bill.

Cox told his party members the President's proposal is a "gag." He said the Democrats really behind a proposal by Rep. Doughton (D-N.C.) to trim the Republican bill from \$6,500,000,000 to around \$4,000,000,000.

Knutson stated the full \$6,500,000,000 is needed to help taxpayers meet the high cost of (Continued on Page Five)

Midwest Relieved, But New Cold Air Moves Into East

CHICAGO, Jan. 29 (AP)—The Midwest felt some relief today from January's marauding cold spell, but a new mass of frigid air moved toward New England and the North Atlantic States from Canada.

The mixed weather outlook held promise of only partial relief for critical fuel supplies in many industrial areas of the nation. More than 250,000 workers have been made idle by orders curtailing or halting the industrial use of gas.

The long-range threat of possible floods in the East added gloom to the outlook. A U. S. weather observer at Freehold, N. J., said the average snowfalls in northern Pennsylvania and central New York were building up a replica of 1936 conditions. In that year, floods caused millions of dollars damage on the Susquehanna, Delaware, Lehigh and Schuylkill rivers.

However, U. S. forecasters at Chicago said no flood-threatening conditions existed in the Midwest. Even a deep snow cover will not result in flood conditions, they said, unless the snow is melted fast by a warm rain.

The new cold air, from the Hudson Bay region, was expected as far south as western New York and northern Pennsylvania.

The north central region was experiencing a gradual warmup today. Temperatures, however, were not expected to go above normal. The moderation moved slowly east and south. But cold weather was forecast for the Midwest area by week end.

Seventy-eight thousand North Side residents here were without water for three hours when ice jams coated the intake pipe at the Wilson Avenue crib.

The entire area from Fullerton Avenue north to the city limits was affected by disintegrated pressure in water mains.

Board Proposes Rail Wage Hike

WASHINGTON, Jan. 29 (AP)—A Presidential Emergency Board recommended today the short line railroads grant a 15 1/2 cent an hour wage increase to non-operating employees. The White House made public the recommendation, which is similar to a recent arbitration award for non-operating employees of trunk line railroads. The board's report, filed with the President by Chairman Grady Lewis, proposed making the increase retroactive to Sept. 1, 1947. The case involved a dispute between 18 short line roads and 17 unions of non-operating employees such as telegraphers and maintenance workers.

Citrus Embargo Is Slated To Be Lifted Tonight

No great push of oranges and grapefruit by local packers is expected to take place, and sales will be orderly even though the six-day embargo of the Florida Citrus Commission will lift at midnight tonight. Growers and shippers in the Sanford area, however, predict a better demand and market, as the embargo has cleared up fruit on the rails.

The reason for no big outburst of citrus shipping is the fact that shipping facilities in the north have been hindered by heavy snows and cold weather during the past two weeks, according to Bob Reely, citrus sales manager of Chase & Co.

No FOB on fruit to be shipped has yet been established as no (Continued on Page Six)

\$1,500,000 Deed For Fish Estate Filed In Volusia

DELAND, Jan. 29.—Transfer of real and personal properties valued at more than \$1,500,000 was entered in the Volusia county records here yesterday when executors Ernest M. Galloway and James E. Pollard of the Bert Fish estate filed a deed of conveyance to a testamentary trust headed by Francis P. Whitehair.

The testamentary trust has been organized to carry out terms of the will of the late lawyer and diplomat, following death of his brother Ben Fish, who also had been executor and who had been holder of a life benefit from the whole estate.

Whitehair is president of the Trust. James E. Pollard, also of Deland, has been made general manager, and Fred R. Wilson of Sanford is attorney. Other members are John E. O'Neill, Ernest M. Galloway, Counts Johnson, C. Van W. A. Laffer and Frank W. Norris.

Reality of the estate is located in Volusia, Seminole, St. Johns and Flagler counties and much of it is in highly developed citrus groves. Much of the personal assets is in mortgages on properties over as wide an area.

Purpose for which the testamentary trust has been established is to provide hospital facilities in Deland, New Smyrna (Continued on Page Four)

School Training In Sky Sports Urged For Jet, Rocket Planes

By FRANK CARRY
WASHINGTON, Jan. 29 (AP)—High school and college sky sports, to help train youths for jet-propelled and rocket plane flight, are suggested by a Mayo Clinic psychiatrist.

"It would seem evident that the time has arrived when competitions in gliding, soaring and light plane flying between high schools and colleges should take their places as sponsored activities beside football, basketball and similar endeavors," says Dr. Maurice N. Walsh in an article in "The Military Surgeon."

"Selection and training of the men to fly these new (jet and rocket) planes, which make such massive demands on their human pilots, should be carried out on a long-term basis," he said, "and should begin in the high school and continue through the university years."

He said the building of gliders and sailplanes should be a part of the curriculum of high schools, and physically qualified students should be taught to fly as part of the sports program.

"Probably relatively few in such class," he said, "would progress to the flying of high-per-

THE WEATHER

LAKELAND, Jan. 29, (AP)—The Federal Bureau of Weather Service forecast for tonight and tomorrow for peninsular Florida was partly cloudy and mild in south and central districts; cloudy with occasional light rain and continued cool in extreme northern districts.

Lowest temperatures Friday morning were forecast as about 36 degrees near the Georgia line. No frost was seen through Sunday.

Temperature	Low	High
Atlanta	30	33
Boston	19	22
Cincinnati	7	21
Denver	17	21

A-Bomb Ban Is Advocated By Gromyko

Russian Says Atomic Weapons Must Be Prohibited Before World Convention

LAKE SUCCESS, Jan. 29 (AP)—Andrei A. Gromyko declared today atomic weapons must be prohibited before any world control system is established. The Soviet deputy foreign minister thus gave the working committee of the United Nations Atomic Energy Commission his most direct answer to date on this point.

Gromyko said he did not share pessimism expressed on this score by Richard Miles, of Britain, and Francois de Rose, of France. Miles and De Rose told the committee that pacts prohibiting poison gases had failed to stop the manufacture and use of such gas. They did not believe a simple pact prohibiting atomic weapons would be useful without a system preventing the manufacture of atomic arms.

Dr. John Babbitt, of Canada, then asked Gromyko for a year or so answer—whether Russia wanted atomic weapons banned before a control system is set up. Gromyko replied:

"We consider that the convention on prohibition must be not only signed but in force before (Continued on Page Eight)

Donald Tresidder, Stanford President, Dies In New York

NEW YORK, Jan. 29 (AP)—Dr. Donald B. Tresidder, 53, president of Stanford University at Palo Alto, Calif., died last night in his suite at a mid-Manhattan hotel.

Police attributed the educator's death to natural causes. The body was removed to the Bellevue Hospital morgue and a medical examiner said it would be determined today whether an autopsy would be performed.

Dr. Tresidder arrived in New York last Friday to attend a meeting of the Association of American Universities' Policy Committee, of which he is chairman. He had planned to go from here to Washington and return to California on Feb. 9.

A native of Tipton, 1877, Dr. Tresidder was named president of Stanford in September, 1943, succeeding Dr. Ray Lyman Wilbur. Before that he had been a member of the institution's board of trustees.

As president, Dr. Tresidder abolished Greek letter societies at Stanford, making it the first major western university to drop such social organizations.

Since 1925, the educator had been president of the Yosemite Park and Curry Company, a commercial organization operating hotels and other vacationing facilities in Yosemite National Park.

Dr. Tresidder became a Stanford trustee in 1932 and was named president of the board in 1942.

Following the committee meeting here last Saturday, he spent the weekend with Dr. James B. Conant, president of Harvard, at Conant's home in Boston.

Dr. Tresidder is survived by his widow, whom he met in his days as a student at Stanford; a sister, Mrs. L. M. Mintzer of Palo Alto, and his mother.

100 Plants Said Needed To Adopt \$9,000,000,000 Synthetic Oil Plan

By VERN HAUGLAND
WASHINGTON, Jan. 29 (AP)—The proposed \$9,000,000,000 synthetic oil and gasoline industry would involve constructing 75 or 100 plants throughout the United States, James Boyd, director of the Bureau of Mines, said today.

The plants to produce liquid fuels from coal might be established in any of 20 coal producing states, Boyd added. He said these most likely to get them are Pennsylvania, West Virginia, Ohio, Kentucky, Alabama, Illinois, Colorado, Wyoming, Montana, North Dakota and Utah—necessarily in that order.

Production of oil from shale, however, is likely to be limited to the West, Boyd said, and probably to four states—Colorado, Utah, Wyoming and Nevada.

He added that shales of Indiana, Kentucky and Ohio have only about one third the oil content of the western shales.

Secretary of the Interior Krug recommended to Congress today a \$9,000,000,000 outlay over the next five or 10 years for the establishment of a synthetic fuel industry.

Boyd said the proposed synthetic program would tremendously increase domestic mining of coal and shale.

He told a reporter the Bureau (Continued on Page Eight)

Pepper Asks Extension Of Rent Control

Rent And Housing To Be Big Issues Of Campaign, He Says, If Action Not Taken

WASHINGTON, Jan. 29 (AP)—Two consumers' groups today asked that the government fix prices right away and ration scarce foods and things everybody has to have. Bartley W. Cross for the Consumers Union said the government should order food prices cut 15 to 20 percent. He wants the government to pay food men money to make up part of the cut.

"That's because Rock Springs happens to be a locality where enough coal and water for a commercial plant could be developed. It does not necessarily mean that (Continued on Page Eight)

Pepper Asks Extension Of Rent Control

Pepper and Mayor William O'Dwyer (D) of New York City appealed to a Senate Banking Subcommittee to extend rent control to the middle of 1950. The committee is studying control now due to expire Feb. 29.

Pepper said the Democratic majority in Congress will fight this year for a "defiant rent control law" and a national housing program.

"If we lose," Pepper said, "we are going to carry" the fight to the people in the 1948 campaign.

A statement by O'Dwyer was read before the committee by Maurice Finkelshteyn, member of the New York City rent commission.

The mayor said that "at the rate at which new housing is now being provided, it is clear that the emergency will continue for at least another two years."

He said a general across-the-board rental increase "would cause more hardship than it would relief. The result in many (Continued on Page Five)

French Propose To Withdraw All 5,000-Franc Notes

PARIS, Jan. 29 (AP)—The government proposed today to withdraw all its 5,000-franc notes from circulation as a blow at both inflation and the black market.

Authorized sources said this would grab about \$500,000,000 worth of francs away from black marketers. There are 66,000,000 notes of the denomination in circulation, worth about \$1,000,000,000 at the free exchange rate.

The informants indicated those who could not explain their possession of the notes would have them taken away.

The government closed all banks to forestall speculation during debate on the measure. Premier Robert Schuman urged the National Assembly to act quickly so that banks, the stock market and other financial agencies might open by Saturday.

Passage of this measure and the government's free gold trade bill seemed assured by a Socialist decision to support them in the Assembly. Schuman had staked his Cabinet's life on his monetary program. The Cabinet last Sunday decreed devaluation of the franc and the establishment (Continued on Page Five)

Black Marketeers Are Expected To Lose Half Billion Worth

Authorized sources said this would grab about \$500,000,000 worth of francs away from black marketers. There are 66,000,000 notes of the denomination in circulation, worth about \$1,000,000,000 at the free exchange rate.

100 Plants Said Needed To Adopt \$9,000,000,000 Synthetic Oil Plan

By VERN HAUGLAND
WASHINGTON, Jan. 29 (AP)—The proposed \$9,000,000,000 synthetic oil and gasoline industry would involve constructing 75 or 100 plants throughout the United States, James Boyd, director of the Bureau of Mines, said today.

The plants to produce liquid fuels from coal might be established in any of 20 coal producing states, Boyd added. He said these most likely to get them are Pennsylvania, West Virginia, Ohio, Kentucky, Alabama, Illinois, Colorado, Wyoming, Montana, North Dakota and Utah—necessarily in that order.

AFL Says Labor Peace Is Lull Before Storm

MIAMI, Jan. 29 (AP)—Leadership of the AFL today described the current labor peace as a "lull before the storm" which would break when wage negotiations begin next spring and summer.

The comparative quiet was caused by signing of new contracts last August before the Taft-Hartley Act became fully operative, the AFL executive council said. Those contracts "in many industries postponed the evil effects of the Taft-Hartley Act for a year or more."

"When present collective bargaining contracts expire the most difficult period in the history of labor relations in this country threatens to ensue," the 18-man council warned.

President William Green said he feared the difficulties being encountered in the printing industry—where the International Typographical Union is fighting to continue its closed shop—would be extended to many other industries.

Many reported the Federation's (Continued on Page Five)

Florida Airways Bans Flights As Safety Measure

John L. Rhodes Tells Kiwanis 10 Cities Served By Lines

An example of caution on the part of Florida Airways in protecting its passengers was pointed out yesterday by John L. Rhodes, public relations officer, who in a talk to Kiwanians at the Tourist Center revealed that all flights had been cancelled Wednesday due to weather conditions.

Postmaster Joel Field, who introduced Mr. Rhodes, said the cancellation had caused him to postpone the Sanford-Las Angeles air mail time test, but commended the Airways for taking no chances and observing safety precautions. He also traced the growth of the Sanford Airport from an area of frog ponds to its present fine condition, and warned that Deland is putting up a fight (Continued on Page Eight)

City Leases Building To New Business

The City Commission, at an adjourned session yesterday afternoon, approved the lease of the Parachute Loft building at the Municipal Airport to R. H. Thompson, Jr. for the establishment of a lithograph business, it was announced today by H. S. Sawyer, city manager.

Mr. Thompson is the son of R. H. Thompson, manager of the former Navy parachute loft building located near the Florida Fashions Building.

The appraisal firm of Cole and Clay of Dayton, Ohio, was directed by the commissioners to make a tentative proposal for revaluation of real property in Sanford.

Sanford Furniture Building Remodeled

The Sanford Furniture Company, operated by Ned and Wilbur Smith at 1800 East First Street, is being remodeled, repainted and re-decorated inside and this work is now nearly completed.

The outside of the portion of the building owned by the furniture company is being re-constructed, and will be painted white, said Ned Smith today.

Elbow windows are being rebuilt. The upper floor, formerly used for storage purposes is being set up as a display room, and will display linoleum and hard surfaced floor coverings, kitchen cabinets and equipment, cedar chests and all manner of odd bedroom pieces, Mr. Smith announced.

Legion Commander To Dedicate Home

James F. O'Neill, national commander of the American Legion, intends to visit Florida on March 18 when he will dedicate the new home of Daytona Beach Post 60, which is located above the new bus station on Volusia Avenue. It was announced today by Department Adjutant A. Reid Mann.

Together with Department Commander Frank Caton, Adjutant Mann attended the recent meeting of Legion department heads and round table discussion at Memphis, Tenn. at which time Comdr. O'Neill announced his intention of visiting Florida. After the Daytona meeting he will go to Miami to attend a national convention committee meeting on March 14 and 15.

Shooting Exhibition

Herb Parsons, reputed to be America's fastest gun handler, and who fires 12 guns 700 times, 25 ways in 37 minutes, and who opens a Florida series of exhibitions at Ft. Pierce on Feb. 2, is scheduled to give a shooting exhibition on the Sanford lake front, Feb. 25, under the sponsorship of the Seminole County Sportsmen's Association.

Authorized sources said this would grab about \$500,000,000 worth of francs away from black marketers. There are 66,000,000 notes of the denomination in circulation, worth about \$1,000,000,000 at the free exchange rate.

President Seeks Power Extension To Control Grain

WASHINGTON, Jan. 29 (AP)—President Truman asked Congress today to extend until Oct. 31 his power to control use of grain, saying the present shortage "jeopardizes the national security."

In a special message to Congress, Mr. Truman recommended that his authority over grain be extended under the Second War Powers Act "with respect to allocation and inventory control of grain for the production of ethyl alcohol regardless of the use to which the product is to be put."

The message was read to the House. The Senate was not in session.

Mr. Truman acted after a House committee shovied aside his request for legislation providing a temporary extension of controls which would affect the amount of grain allocated to distillers for use in whiskey-making. The power to control distillers' use of grain will end Saturday.

Mr. Truman called attention of Congress to the gravity of "a critical shortage of grain which (Continued on Page Eight)

Hal Gruber Named To Manage Local Baseball Team

By ARTHUR BECKWITH, JR.
Herald Sports Editor

Hal Gruber was named manager of the Sanford Celery Ped entry in the Florida State League for 1948 today by Carl Hubbard, director of the New York Giant farm system. Hubbard arrived in Sanford from New York City this afternoon.

The newly appointed Sanford skipper was born in Brooklyn, N. Y. and graduated from Ohio University at Athens, Ohio. He started his baseball career while in college, and after graduation became a member of the Giant farm system. He played his first professional baseball at Blytheville, Ark.

Gruber moved to Milford, Del., an entry in the Eastern Shore League and played for them for two years.

In 1941 he began his managerial experience. He managed Milford and was sent to (Continued on Page Five)

Army Funeral Ship, Joseph Connolly, Is Reported Sunk

BOSTON, Jan. 29 (AP)—The Army Funeral Ship Joseph V. Connolly went adrift from a low line today off Cape Race, Nfld., and was reported sunk today.

The ship, previously salvaged by fire, was under tow for New York.

The Coast Guard said the towing hawser slipped off a towing drum on the commercial tug curb. Almost immediately, the Coast Guard said, the Connolly disappeared from the Cutler Avastnet's radar scope. The Avastnet was accompanying the curb.

Earlier, the Avastnet said, it was noted heavy seas were flooding the Connolly's after hatches. A whole gale blowing and heavy snow squalls were prevailing when the Connolly disappeared, the Coast Guard said.

It was not known if anyone was aboard the Connolly, but the Coast Guard presumed no one was left on the ship because of her perilous condition. The Avastnet passed through an oil slick shortly after contact with the Connolly was lost.

Value Of Airline To Sanford Told At Jaycee Meet

Charles F. Bacheider, speaking in the interest of Sanford Airline Week, stressed the importance to the people of Seminole County of using the facilities afforded by the Florida Airways at the Municipal Airport, at the noon luncheon of the Seminole County Jaycees at the Mayfair Inn today.

"The Florida Airways gives Sanford and Seminole County a clean, safe and modern means of communication. Sanford is on the airline map of the world, showing the city as being served with adequate air facilities," he asserted.

Bacheider declared that Sanford is on the threshold of one of the most progressive spurts of any Florida city. "Sanford is going to develop beyond what the people think," he said.

President Brailley Odham made an appeal for the people of the city to register rooms or apartments for tourists at the Jaycee Tourist Information booth. "Tourists go to the booth daily and ask for a listing of places to rent. We need 300 rooms or apartments badly," he declared.

Odham requested that people who have extra cot hangers to call the Tourist Booth, or the (Continued on Page Five)

Englishman Who Claims Cancer Cure Offered \$64,000 For Clinic

By GORDON A. TAIT
SYDNEY, Jan. 29 (AP)—John Braund, 78, an Englishman who claims to have a cure for cancer, was offered \$64,000 today to establish a cancer clinic in Sydney.

Premier James McGirr of New South Wales, the Australian state in which Sydney lies, announced that his government will set up a committee to investigate Braund's claims.

Braund is attempting to win official recognition of his methods of treatment. Several Sydney people aware he has saved them after doctors had pronounced them incurable. He has attracted the attention of the medical profession—and at least one favorable comment from that direction.

The offer of funds to start a clinic was made by E. J. Hallstrom, a Sydney philanthropist.

"Thousands of cancer sufferers cannot afford to wait many months before Braund's treatment is recognized officially," Hallstrom said in an interview.

Earlier, Braund, who has been living in Sydney many years, offered his system of treatment and his "secret formula" to the government for nothing, if his (Continued on Page Eight)

Sanitary Building Under Construction

New buildings and improvements are appearing along the Orlando highway immediately south of Sanford, the latest of which is a sanitary building with toilets and laundry facilities now being erected of concrete block and located south of the Smith Garage building. Grady Duncan, city building inspector, announced today.

C. C. Dobson, who came to Sanford recently from Miami in connection with the Tec-Bilt home project at the Municipal Airport, has purchased an area of about 30,000 square feet facing the highway for the improvement, and in addition to establishing a "high class" trailer camp, plans also to build a cabin court, said Mr. Duncan.

Perkins' Brother Dies

Friends of B. I. Perkins will regret to learn of the death of his brother, C. J. Perkins, who suffered a heart attack yesterday. The deceased was a visitor in Sanford last winter and together with his brother made a trip to Cuba.

Persecution Of Chinese Christians Held Worst Since Boxer Rebellion

PEIPING (Jan. 29 (AP)—Priests of the Belgian Catholic Scheut Mission here charged today that persecution of Christians by Chinese Communists is the most violent China has ever known, surpassing even the anti-religious excesses of the Boxer rebellion at the turn of the century.

Through spokesmen, the priests charged that Christianity had been outlawed in Red-controlled areas; Chinese Christians, particularly priests, who refuse to renounce their faith had been imprisoned or killed, and Europeans had been subjected to such gross ill treatment, they were "slowly martyred, with the Reds then attributing their deaths to disease."

No distinction, the priests said, has been made between Protestants and Catholics, all being lumped together as representatives of "American religion" by the Communists, who recognize two principal enemies, religion and America.

In Jehol Province of North China the persecution has "traged violently" for more than a year, the spokesman said. They quoted mission records to show that 19 Belgian and Dutch missionaries, two Chinese priests, a Father and two Dutch sisters, and an unknown number of Chinese nuns had been imprisoned there.

Two of the imprisoned Belgian missionaries died, one after being held almost naked in an unheated shack in freezing weather, the reports said. The fate of others imprisoned was listed as "unknown."

The Belgians who had been listed as the Rev. Fr. Constant Dom, 60, from Hsuehchu near Antwerp, and the Rev. Fr. Oscar Conrad, 77, a native of Marchiennes, Hainaut.

The spokesman continued: Thirty of the 40 missions in

Jehol have been overrun by the Reds. The wave of persecution began in Ninghsia Province, in north central China along the inner Mongolian border, in 1953, when a band of Communists unsuccessfully attacked the strong Catholic mission at Shaochiaopan and looted 21 smaller undefended missions where the altars were burned and religious images were profaned.

8,000 Timber Workers End 25-Day Stoppage

UNIONTOWN, Pa. Jan. 29 (AP)—Eight thousand timber workers in northern West Virginia, Western Pennsylvania and two counties in Maryland were scheduled to return to work today ending a 25-day strike.

Wilbur Coffino, international representative of the United Construction Workers, a United Mine Workers affiliate, said last night that the 8,000 are workers who cut timber for coal companies and other users who have agreed to a 20 percent increase in the cost of their product. The union leader said 3,000 others will stay out until the remaining companies agree to the raise.

Wasps make paper by chewing wood and spreading the pulp out thin to dry.

AT THE CONCLUSION of a record, lengthy talk to the U.N. Security Council, M. C. Setalvad (left) of India chats with Chairman Van Langenhove at Lake Success, N. Y. In a speech that lasted four hours and 15 minutes, Setalvad entered a heated denial to Pakistan's charges that India was guilty of planning the extermination of millions of Moslems. He accused Pakistan of presenting a "perverse" picture. (International)

New Car Chance Better This Year Than Last With Advanced Prices

By DAVID J. WILKIE
DETROIT, Jan. 29 (AP)—Most of the new model automobiles recently announced have come out with no change in retail prices, but industry sources quote generally regard further advances as a virtual certainty.

Yet the price increases are not likely to have any appreciable effect upon overall demand for new vehicles. It has been said that every price advance crowds some would-be buyers out of the market.

But a new car still is at the top of the wants of several million persons, and newcomers rapidly are taking the places of any who may be "priced out of the market."

Many new car dealers still have on their books orders that were entered as long ago as 1946; in most of these instances the would-be buyers have given up hope of getting delivery and have placed orders with other dealers for similar or other makes of cars.

It is no secret, of course, that all dealers have not delivered new cars in exactly the order in which purchase down-payments were made. A would-be new car buyer with a fairly well-conditioned vehicle to trade in has had a distinct advantage over his less fortunate brother, and there is nothing irregular or illegal in the transaction; the dealer may offer as much or as little as he chooses for the used car and the car owner may take it or leave it.

In most cases he takes it, for there still is little prospect of quick deliveries of most makes of cars without a trade-in that carries some advantage to the car dealer.

The production of more than 3,500,000 automobiles last year made little impression on the accumulation of unfilled orders. This year's indicated output of possibly 5,000,000 cars will not have much effect on the backlog, growing each day, unless there is some curtailment of buying power not currently in sight. Whatever else may be said about the new car market early delivery still is the main objective of most would-be purchasers with price considerations of secondary importance.

This attitude toward prices is pretty well illustrated in the fact that demand for optional equipment like radios and heaters still is at top levels. Pontiac, which has just announced its 1948 models, reports a heavy demand for hydraulic transmission, offered this year for the first time as optional equipment at extra cost.

Similarly the demand for white wall tires, bumper guards, fog lamps, spotlights and other optional equipment reportedly continues at high levels, although with heaters, radios and other special equipment \$300 to \$400 easily can be added to the delivered cost of even the lower-priced vehicles.

For the individual who long has had an order on file for a

"The Sweetest Sugar Ever Sold"

From where I sit... by Joe Marsh

Are You "Hobby Happy?"

Funny thing about hobbies... When Ed Carey started making a model of the "Flying Cloud," it was only to rest his eyes from reading. But now he spends every spare moment ship modelling!

Some wives might have resented a husband suddenly shutting himself in the attic every night. But not Ed's Prudence. When she found him working late, she brought him up some beer and crackers... showed a real interest in his hobby... until finally Ed had her helping with the rigging.

Wasn't long before they were working side by side on Ed's bench, sharing a common interest. Instead of keeping them apart, Ed's hobby brought them more together.

From where I sit, a husband's hobby can often be a wife's as well. In fact, I've got the misus interested in tying trout flies—and, along with that mellow glass of beer, it makes the evenings go by mighty pleasantly.

Olympic Group Is Faced With Hockey Dispute

By BILL MACKLIN
ST. MORITZ, Switzerland, Jan. 29 (AP)—One of the knottiest problems since Pierre De Coubertin founded the modern Olympic Games in 1896 faced the International Olympic Committee today after the Swiss organizing committee for the winter games had tossed the American hockey dispute from the frying pan into the fire.

The call for an emergency session of the committee was issued last night less than an hour after the I.O.C. executive committee had given the go-ahead to the rival U.S. hockey teams—the Amateur Hockey Association and the official U. S. Olympic outfit.

Without discussion and without dissenting vote the Swiss yodded back that the A.H.A. remains qualified to participate in the ice hockey championship within the fifth Olympic winter games.

The A.H.A. team, blackballed by the U.S. Olympic committee, had been accepted by the Swiss as the American entry long ago. The Swiss rejected the U.S. Olympic team, which was chosen by the amateur athletic union.

That placed the I.O.C. in an unprecedented pickle. What the 27 members of the I.O.C. would do to parry the snub to its executive committee was the topic of hotel lobby conversation throughout this winter Olympic capital.

One possible face-saver was that the hockey tournament might be allowed to continue, but the winner would be denied the accolade of "Olympic Champion."

Pawns of the fuss—American skiers, bobsliders and skaters—are fired of wondering if they are in or out. The U.S.O.C. has threatened it will scratch the whole bunch if the A.H.A. is allowed to play.

"After all, one American bobslider declared, "We haven't given our incomes, trained for months and come this far just to buy a watch."

In drawing for positions in the two-man bobsled races Friday afternoon, the American No. 1 team drew the ninth spot for the first heat. Its driver is Tuffy Latour, and brakeman, Leo Martin, of Saranac Lake, N. Y.

The second U.S. team, Fred Fortunes of Lake Placid, N. Y., and Schuyler Carron of Ausable Forks, N. Y., was assigned the third position.

'Perils Of Pauline' Have Nothing On Problems Of U. S. Postmasters

WASHINGTON, Jan. 29 (AP)—Congress bumped into a problem yesterday that's no further away than your nearest mailbox. It's worried about the perils of postmastering.

Senator Langer (R-ND) started it all. As chairman of the Senate Civil Service Committee, Langer sent out a questionnaire to ask postmasters:

What equipment do you need to modernize your office?

Well, he couldn't have had more spectacular results if he had been an arsonist at a fireworks works.

He has three large packing boxes full of postmaster's problems, the mail keeps pouring in, and he already has enough reading matter to keep him busy until he's 106.

Let's look at some sample problems.

"Takey safe. They're needed to hide the stamps in."

Says Postmaster Curtis E. Veach of Valler, Ill.:

"Our safe is a relic from Noah's Ark."

And scabos. They're needed to weigh the letters and parcel post.

Reports Lora L. Johns of Tracy, Iowa:

"The letter scale is hard to read, and the parcel post scale is inaccurate."

How about post office lights?

The Donphan, Neb., postmaster didn't sign his name, but the idea is plain enough.

"I furnished 16 bulbs myself the past year," he wrote Langer. "There is a short somewhere and I can't find it."

The mails must go through, but—

H. F. Doerge, Chester, Ill.: "Our carriers' satchels are so patched up they're a disgrace to be seen."

Harry Swanson, Geneva, Ill.: "We have a truck that should be in the Smithsonian Institution." (That's a museum in Washington.)

Langer has promised to do

A GLOOMY figure is Leonard Finner, Manchester, N. H., newspaper publisher, after he received a letter from Gen. Dwight Eisenhower announcing that under no circumstance could he accept nomination to high political office. The statement eliminated Eisenhower as a candidate. (International)

Louis To Appear In Boxing Tiff On Chicago Card

CHICAGO, Jan. 29 (AP)—Joe Louis, world's heavyweight boxing champion, who will appear in a four-round exhibition match in the Cellium tonight opposing young Bob Fozworth says "I'm gonna be trying to hit somebody like I didn't hit Walcott."

It will be the Champion's first appearance in a ring since he was awarded the disputed 15-round decision over Jersey Joe Walcott in New York last Dec. 5 and Louis says it will also be his last appearance in a Chicago ring. He plans to retire this year.

The Illinois State Athletic Commission has sanctioned tonight's bout as an exhibition and there will be no official decision. Louis' title will not be at stake the commission ruled, even though Fozworth should score a knockout. The Commission added, however, no one can prevent Fozworth from claiming the title—if he knocks out the Champion.

Jack Hearns, veteran boxing manager and promoter who piloted Jack Dempsey to the heavyweight championship, said yesterday that the 24-year old Fozworth "will give him plenty of trouble," and added that he "doubted that Louis will be much better than he was in the Walcott fight."

It's NOT HOW MUCH YOU SAVE ON ONE SPECIAL BUT... HOW LITTLE YOU PAY FOR EVERY ITEM YOU BUY!

Sure, you save on week-end specials but our aim is to help you SAVE A LITTLE EVERY DAY ON EVERYTHING YOU BUY, and with our everyday low prices, we do just that.

HUCS SIGN FITZGERALD

PITTSBURGH, Jan. 29 (AP)—The Pittsburgh Pirates today announced receipt of Eddie Fitzgerald's signed contract. The west coast last year posted a sparkling .363 batting average for Sacramento.

Colored Veterans To Be Given Instruction

Night school instruction for colored veterans will begin at 7:00 o'clock Monday evening at Crooms Academy. Classes will continue evenings, Monday through Friday at from 7:00 to 9:00 P. M. It was announced today by Sgt. T. W. Lawton.

Walter Holly, commander of the colored American Legion post, has played a large part in making this schooling possible under the Serviceman's Readjustment program.

All colored veterans who have not brought in their certificates of eligibility to Mr. N. R. Wood representative of the Veterans Administration at the Court House, are advised to do this on Feb. 10 but meanwhile may attend the night school.

BIBLE VERSE FOR TODAY

EVEN THE UPHOLDER OF THE UNIVERSE LIKES A LITTLE APPRECIATION.—Ps. 68: 19. Blessed be the Lord, who daily loadeth us with benefits.
 Some 700 more government employees have been implicated in grain speculation. We drove the money changers out of the temple all right, but stems as if they've moved right into the capital.
 President Truman says "Juvenile delinquency is a reflection of the failure of our society to afford young people full opportunities for protection, health, happiness and citizenship." Yeah, and the failure of their parents to read them the Bible.
 The Marshall Plan has gotta be good. When the CIO and National Association of Manufacturers, Norman Thomas and Philip Reed, chairman of the board of General Electric, come out for the same thing, it must be all right, regardless of what the rest of us think about it.
 Secretary Anderson of the Agriculture Department suggests \$10,000 a year salaries is not enough for top level government employees to live on. We suppose higher salaries might lure better men into government jobs, but most of our present government officials seem to be getting about as much as they are worth, not including their profits on the grain markets.
 Well, there is one man in Florida who won't be a candidate for governor this year anyway. He is Senator Walter Rose of Orlando. He prefers to remain a private citizen (though he is a senator) so that he can speak freely on such issues as the sales tax and slot machines, both of which he sees as liable to be legalized. Whether inside as a candidate, or outside looking on, Senator Rose may give an important factor in the campaign.
 Dr. Selling, State Board of Health psychiatrist, is against spanking children, at least in the public schools, or even children of school age. Sometimes it is necessary, he admits, to administer bodily punishment to very young children as the best means of showing them they are doing something wrong, but on the whole other methods of correction should be devised. The old system of training horses and dogs based on "check and reward" is probably the best with children, too. When they do something wrong, check them, take away some of their privileges, don't let them go to the picture show. When they do something good, reward them, give them an extra lump of sugar, or let them have a party.
 There was an attempt to kick Morrison Eskes up stairs when President Truman decided to get rid of him. The President might have made the Federal Reserve head a minister plenipotentiary or an ambassador to England; instead he made him vice chairman of the very organization he had previously served as chairman. Eskes is a Utah banker who became head of the Federal Reserve Board in the sixty days of the New Deal when "pump priming" was said to be the cure for all evils. However, Eskes also held to the belief that while government spending could ease the depression, there would be no 40 billion dollar budgets at the peak of a boom. May be President Truman is tired of hearing him talk about the need for a reduction in government spending.

How To Stay Civilized

The Colorado Association of School Boards recently conducted a survey of educational opportunities for the children of that state, and its findings might well be applied to many other states.
 Even though Florida has become alert to the lag in educational opportunities for rural children, and have taken effective measures to improve the situation, many others have been slow to realize the state of affairs, and many more have lacked necessary funds to make improvements.
 The Colorado Association states that active help must be given by the rural districts themselves, in default of state funds for such use. Consolidation of districts is recommended, as well as revised curricula and an equitable distribution of state funds. High standards for teachers must be maintained, and state-wide salary schedules set up. Other bait for teachers should take the form of good housing and tenure and retirement provision. Finally the association recommends federal aid to schools without federal control.
 In the hands of a gifted teacher, the one-room rural school can give its students excellent instruction. The flexibility of program possible in a small group of pupils of all ages gives each child a chance to progress at his own rate of speed, and a close personal relationship often exists between a rural teacher and her charges. But these well qualified teachers should be as well housed and well paid as their colleagues in larger communities, and their equipment should be as good. The recommendations of the Colorado investigators might be studied with profit by many rural communities.

Rural Education

"All true civilization is ninety per cent heirlooms and memories — an accumulation of small but precious deposits left by the countless generations that have gone before us. Only very proud or very ignorant people imagine that our middle-headed present can begin everything all over again every day — and invent a new alphabet, a new multiplication table, a new code of laws and a new religion."
 — Reverend Robert I. Gannon, S. J., President, Fordham University
 Father Gannon's words have a meaning for all of us who want to help make the world a better place. They remind us that in every field — art, science, industry or religion — we have a legacy reaching back thousands of centuries — to the man who first drew a picture on a cave wall; made the first wheel; fashioned the first instrument of metal; or raised his eyes in worship to the stars.
 The progress of civilization has been uneven, but every generation can add something, be it little or much, to this heritage of the past.
 And today we face the greatest challenge history has ever known. Each one of us is a trustee of the past; we have the important task of living up to our heritage — and adding something to it. — by Roy Chapman Andrews.

Tips For Travelers

Now that foreign travel has been resumed, the following story may be of some service to those who experience difficulty paying off small obligations with unfamiliar currency and coin.
 A wise and greatly experienced traveler was asked how he managed to pay the proper amount to taxi-drivers when he was abroad.
 "Oh," replied he, "I take a handful of small coins and begin counting them into the driver's hand, keeping my eyes constantly on his face during the transaction. As soon as I detect a smile on his face, I stop doling out the money."
 "I suppose," ventured the other, "that determines what you will pay him?"
 "Not exactly," rejoined the experienced traveler. "I take back one coin and return it to my pocket, for when he smiles I know I have paid him too much."
 — Andrew Meredith in Your Life

Jet Planes

 doses, as it were, thus preparing them emotionally to meet major anxiety situations in their latter military or commercial flying careers.
 He said "the pressurized cockpit of the supersonic plane, together with the weird sensations produced by its great speed and the difficulty of escape in case of accident in flight, may give rise to anxiety reactions in persons predisposed to such reactions."
 "It is of great importance that such individuals be eliminated early. Hence, in the selection of candidates for future military flying, it is essential that modern psychiatric techniques be employed."

Cancer Clinic

THE INTERNATIONAL BIGAMIST

Gambling Is Being Banned In Miami Even During Lush Winter Season

By LAWRENCE R. THOMPSON
 MIAMI, Fla., Jan. 29.—This city, where civic consciousness often seems lacking, has just given a vivid demonstration of what can be accomplished by an aroused public.
 As a result of the public's demonstration, Miami will remain a closed town this winter, and Richard C. Danner, the former Federal Bureau of Investigation agent who has old-fashioned ideas about enforcing laws, even those applying to gambling and other resort city attractions, apparently will remain in office as city manager for his second season.
 Just ten days ago City Manager Danner signed a marked man. The end of his administration—and with it the ban on gambling during the lush tourist season—was considered certain. A majority of the city commission had announced its intention to fire him at the next meeting.
 Then, within a few days before the commission meeting, things began to happen in a manner that is unique for this gold coast capital and unusual in any city.
 A survey recently showed that more Miamians attend church Sundays than ever crowd into all the night clubs and race or dog tracks on any single day, but the fact is indisputable that Miami, as a city, is traditionally complacent about city affairs.
 In years past little has been said about the wide-open gambling which many business men and office holders think is an important part of the city's winter economy. Church leaders have protested occasionally, but their protests were filed and forgotten. Some suits have been filed for injunctions to padlock casinos, usually as the season was ending and seldom of serious consequence.
 That is why Mr. Danner's decision to enforce gambling laws made him an unusual official. The truth is, few took his original announcement very seriously, for it is customary for such announcements to be made.
 Last winter Miami was a closed city, at least to the extent of organized or big-time gambling. Outside the city limits the story was different.
 Three new city commissioners were elected this winter, taking office Jan. 1. Soon after the new commission was organized it became obvious that City Manager Danner faced a hostile majority.
 The breach became wide when Mr. Danner rejected suggestions for a safety director to be in charge of the police department. (He now holds that title himself.) The breach became wider when the majority voted down a resolution putting the commission on record against gambling and making full terms mandatory for second offenders. Police Report Brags Showdown
 The showdown came when Mr. Danner presented a report, the result of a \$10,000 investigation of the police department made last summer and fall. The report called the Miami police force one of the most expensive and most inefficient in the nation, and Mr. Danner announced plans for a sweeping reorganization.
 The three majority members, R. C. Gardner, H. Leslie Quigg and William Charles, then told reporters they would vote to fire Mr. Danner at the next meeting scheduled Jan. 14. Mr. Gardner offered to bet \$1,000 that Mr. Danner would be removed.
 That set the stage for Miami's demonstration of what a vocal public opinion can accomplish.
 As soon as news stories about Mr. Danner's imminent removal were published the reaction set in.

Victory Predicted For Dimes March In Seminole Drive

Dramatic strides toward the conquest of infantile paralysis promise new hope for the health of America's children. It was revealed here today by the Rev. Mark Carpenter, County Chairman of the 1948 March of Dimes, annual fund-raising drive which marks the tenth anniversary this year of the National Foundation for Infantile Paralysis.
 Tearing the past decade "the most critical in the history of the disease in America," the Rev. Mark Carpenter said that 112,000 cases were recorded in that period.
 "Despite this tremendous case load, and despite the severe restriction of operations during the war years, the National Foundation and its chapters assumed the burden of providing for care and treatment for an estimated 88,000 polio victims, and at the same time expanded facilities and developed new methods that guaranteed immediate help when polio strikes."
 The National Foundation for Infantile Paralysis was founded by the late Franklin D. Roosevelt on January 3, 1938, to "lead, direct and unify the fight against infantile paralysis." It is supported entirely by voluntary contributions to the annual March of Dimes.
 Rev. Carpenter pointed out that much of the crippling generally associated with polio is being eliminated by new methods of treatment brought to light in the past ten years by scientific studies conducted under National Foundation grant.
 "Since 1938, funds raised through the March of Dimes have through research and education projects at 83 institutions covering 29 states," he stated, "our aim is to find a preventive cure for polio, eliminating it entirely as a threat to our children. To that purpose more than \$13,000,000 has been allocated for research and education in the ten-year history of the Foundation."
 When an epidemic occurs, the entire resource of the National Foundation are placed at the disposal of the stricken area. Doctors, nurses, physical therapists, and specially trained epidemic teams are rushed to the beleaguered community. Three equipment pools, located strategically at Des Moines, Boston, and Columbus, Ohio, stand ready to rush respirators, hot pack machines and other vital equipment wherever they are needed. We are now so situated that we can handle any emergency that may arise, provided the American people continue to replenish the resources for carrying out this vital work."
 Rev. Carpenter disclosed that the shortages of trained personnel in all fields relating to polio was a severe handicap for many years, but National Foundation grants in the form of scholarships and fellowships to qualified individuals are adding new hands to the entire field of medicine.
 "Education is a most important part of the battle," he said, "if we are to realize every possible advantage from our work we must train specialists in every one of our fields."
 Rising costs have created a tremendous problem in the fight against disease, as in all other phases of living. "The drive grows smaller in purchasing power every day," Rev. Carpenter asserted, "if we are to meet the ascending scale of our obligations we must all give more than ever before to the March of Dimes."
 Letterbox meals may be prepared and added to spaghetti sauce or combined with omelette or rice for a suggestive dish.

THE WORLD TODAY

By DEWITT MACKENZIE
 AP Foreign Affairs Analyst

The U. S. State Department's disclosure of details of the pre-war Russo-German negotiations, resulting in the non-aggression pact that precipitated the world conflict, has brought this column an inquiry as to what the Anglo-French Allies were doing while Hitler was achieving this coup and had Moscow offering to join him against the Western Allies—for a price so high that he wouldn't pay it.
 Well, the short but exact answer is that Britain and France missed the boat. Actually they had a mission in Moscow trying to make a treaty when Stalin signed with the Fuehrer.
 The tragic Munich Agreement of September, 1938, under which the Western Allies sold Czechoslovakia down the river to Hitler, was the beginning of the end of appeasement by London and Paris. Then in the following March when the Nazi Dictator marched troops into Czecholovakia, England was shocked into a reevaluation of the dangerous face of Europe. As a result Britain and France decided to meet force with force if necessary, and by April of '39 we find Britain negotiating with Russia for a mutual assistance pact, France already having one with Moscow. From then on, negotiations dragged until brought to a sensational end by the Hitler-Stalin non-aggression pact.
 The British (and French) have justified their failure to conclude a pact with Russia on several grounds. "The Encyclopaedia Britannica" year book for 1939. It has been said that Poland refused to accept Russian military aid, that the Russian military aid would in fact prove to be a liability, that the Allies could not join Russia in domination of the Baltic states, and finally that Russia had no desire to help the Allies.
 It remains true that Russia is a totalitarian state, familiar with the ruler of power politics, and concerned primarily with the welfare of the Soviet Union. England and France had equal concern for their individual welfare, but were pursuing the policy of defending the rights of small nations against the technique of "white war."
 Again, Russia had been excluded in the negotiations at Munich and the Soviet statesman suspected the sincerity of British and French proposals for either diplomatic or military agreements.
 And what would have happened if Russia and the eastern Allies had come to terms? You tell me that, and I'll tell you what would have happened if Eve hadn't eaten the apple in the Garden of Eden.
 Moreover, Hitler was bent on ground for speculation. First off, it is a safe bet that no agreement of any description would have altered Mochow's policy of waging world revolution for the establishment of Communism. That's an immutable policy, and we should have had to come up against it in due course.
 Moreover, Hitler was bent on conquest and would have struck sooner or later, no matter what sort of Russo-British-French pact threatened him. Still, an agreement between Moscow and Western Allies might well have delayed the global war, thereby giving them a chance to arm for the

Big Brothers to "Young America"
 Thrill teamwork, group loyalty and leadership are traits of character learned by scores of thousands of youths, aged from 8 to 18 years, through the fraternal, social and recreational activities of their Boys of Woodcraft camps.
 Adult Woodmen, enlisting in the Society's new "Big Brother" project, will help more youths to receive these benefits, and also to build their financial security with Woodmen's juvenile life insurance protection, open to boys from birth to age 16.
 Ask the local Woodmen representatives to explain how your son can enjoy these character-building benefits of Boys of Woodcraft as he builds a nest egg to finance his college or vocational training.

THURSDAY
Seminola Rebekah Lodge No. 43 will have their regular meeting and installation of officers at 8:00 P. M. in the L. O. O. P. hall.

THURSDAY
A turkey supper will be held at the First Methodist Church from 5:30 P. M. to 8:00 P. M.

MONDAY
The W. S. C. S. of the First Methodist Church will meet at the following places: Circle No. 1, Mrs. W. P. Field, 200 West Seventeenth Street, 3:00 P. M.

MONDAY
The W. S. C. S. of the First Methodist Church will meet at the following places: Circle No. 1, Mrs. W. P. Field, 200 West Seventeenth Street, 3:00 P. M.

TUESDAY
The Friendship League of the Congregational Church will meet at the home of Mrs. Harry Kent on Park Avenue at 8:00 P. M.

Hollywood
By BOB THOMAS
HOLLYWOOD Jan. 29 (AP)—Columbia Studios has discovered that it doesn't have exclusive rights to one of its hottest stars, Glenn Ford.

Jimmy Durante looked tanned and heavily as he greeted pals in the Brown Derby. After his air show, he headed back to Palm Springs where he'll continue recuperating from his operation.

Jackie Cooper is hitting the road in his first stage appearance. After "Kilroy on the Deck" at Monogram, he'll tour the West Coast in "Sleep It Off" with Ann Corio.

The Jackie Coogans are expecting their third child in a few weeks. The former kid star is dicker for parts in two films. He prefers picture making to the night club circuit, but may return to the Bistros if his Hollywood plans don't pan out.

Burt Lancaster has been told by his boss, Hal Wallis, to lay off the horizontal bars until "Sorry, Wrong Number" is finished. The acrobatic star says he is planning a manual for would-be tumblers.

William Powell received his award from the New York film critics for last year's best performances. In fact, I helped him open it on the "Penbody" set. Bill is doubtful about his Academy possibilities. "The Academy doesn't have much respect for comedy performances," he pointed out. "Not that Clark Gable was the only actor to get an award for a light role—in 'It Happened One Night'."

Dotty Lamon was gifted with a television set as a part-token of thanks from Bing and Bob for her appearance in the last "Road" film. Crosby and Hope each have a third of the profits and are sleeping up. Don Ameche swings East after "Let's Fall in Love" to continue the search for an L.A. coach. Don says the pro football team is almost out of the red and he hopes a sharp coach will be able to provide a profit by next season.

Victor Jory is going to New York after "Carmen" to arrange some musical cartoons he is making for J. Arthur Rank. Wonder why Hollywood lets the English have a monopoly on such helpful films.

Mrs. Spencer Honors Miss Martha Adams

Mrs. C. E. Spencer entertained yesterday afternoon at 4:30 o'clock honoring Miss Martha Adams of Orlando, formerly of Sanford, whose marriage will be an event of Feb. 6 in St. Luke's Cathedral in Orlando. The party was in the form of a linen shower held at Mrs. Spencer's home on Melville Avenue.

Lovely arrangements of Picardy gladioluses were used in decorating the living room and were placed with asparagus fern on a reflector in the center of the dining table. Appointments of crystal and silver were used on the refreshment table.

Bible Conference At Fellowship Front

A "Railroad Evangelistic Bible Conference" will be held, Feb. 1-8 at the Fellowship Front at the Municipal Airport and the public is invited to attend. It was announced today by Luther S. Harkey, editor of the Railroad Evangelist, which is published here.

The initial service will be held Sunday afternoon at 2:00 o'clock in the Ships Store auditorium. Evening services will be held at 7:30 o'clock. Among the prominent speakers will be the Rev. Bert Critch of Bloomington, Ill., chairman of the advisory board of the Railroad Evangelistic Association.

Cub Scout Den 5 Has Weekly Meeting

Den 5 of the Cub Scouts enjoyed an old-fashioned "tuffy-pull" last evening following their weekly meeting held at the home of the den mother, Mrs. Herman Morris. The meeting was held in the "Bunk House" of the Morris home with the Den 5 Boy Scout Scoutmaster, Robert Morris, leader presiding at the meeting.

HAPPY BIRTHDAY Tommy Cobb, Jr.

Casselberry News

Mr. and Mrs. Hibbard Casselberry, Jr. entertained Mr. and Mrs. Andrew Brooks of Casselberry at bridge the other evening.

Friends of Major and Mrs. Barney Clary will be sorry to learn that he is leaving Casselberry for a while. Major Clary has received orders to transfer to Omaha, Neb. They expect to make their permanent home in Casselberry upon his discharge from the service.

Mr. and Mrs. A. Govoni of College Park were recent guests of Mr. and Mrs. Hibbard Casselberry, Jr.

Mrs. Louise Munn, owner of Water Cress Stables of Connecticut is staying at the Majahadi Cottage on Lake Katherine. She brought horses to the Azalea Driving Park.

Personals

Mr. and Mrs. Price Heard have as their guest their daughter, Mrs. L. J. Joseph, of New Orleans, La.

Friends of Mrs. E. B. Clements will be sorry to learn that she is confined to her home because of illness.

Friends will be glad to learn that Mrs. H. Wayne Rucker is able to be out after having been confined to her home because of illness.

Mrs. W. C. Hansen of Rockland, Mass. is the guest of Mrs. L. P. Hagan and her daughter, Miss Lenabelle Hagan, at their home on Park Avenue.

Friends of Mrs. George R. McCall will regret to learn that she is confined to her home because of a back injury suffered in an accident.

Mr. and Mrs. L. K. Mann left this morning for Montgomery, Ala. where they will attend the funeral of Mrs. Mann's uncle, J. C. Kraker.

Mrs. Clyde Green, Jr. and young daughter left yesterday for Daytona Beach to visit her daughter, Miss Jeanette Potter. She will return in Sanford in a short while before returning to Michigan.

Mrs. Price Heard Wins Golf Contest

Mrs. Price Heard was the winner of the nine hole putting contest with 15 putts on the practice green at the regular playing meeting of the Sanford Women's Golf Association held yesterday at 1:00 o'clock at the Seminole Country Club.

In the tournament, winners were declared for the lowest number of putts for the nine holes on the playing greens. Clyde Terwilliger, Jr., club pro, stated this morning that a great improvement is shown as a result of the putting contests being held each week. The winner in Class A was Miss Dorothy Powell with 14 putts. Class B, Mrs. Earl Higgenbotham with 15 putts and Class C, Mrs. Harold Knutson with 13 putts. Another playing meeting will be held on Wednesday of next week at the same time.

M. L. Raborn's Give Steak Fry At Ranch

Mr. and Mrs. M. L. Raborn were hosts last night at an outdoor party and steak fry at their ranch near Longwood. Steaks were cooked over the coals and served with salad, pickles, rolls, coffee and relishes.

Throughout the evening the group enjoyed singing and exchanging stories. Those enjoying the party were: Mr. and Mrs. Joel S. Field, Mr. and Mrs. Al Hunt, Mr. and Mrs. E. H. Randall, Mr. and Mrs. V. Bittling, Mr. and Mrs. B. E. Chapman, Mr. and Mrs. Earl Broome, Mrs. W. E. Hollyhead, Mrs. Felice West, Mrs. Lourine Deal, Mrs. Frances Granger, Mrs. Mary Hawkins, George Barr of the Har Umpire School, and Mr. and Mrs. Raborn.

Appetizers to serve with tomato juice as a first course may be concocted from deviled ham spread on crackers and sprinkled with sliced hard-cooked egg; garnish with a slice of pimiento, stuffed olive, a tiny pickled onion or a slice of sharkin.

IN A COURTHOUSE at West Palm Beach, Florida, John Alden Talbot faces his wife, Nancy, who is suing him for separation and temporary alimony. Mrs. Talbot charges that her husband failed to support her after he met Laina Turner, movie star. But in spite of Laina, Mrs. Talbot remarked: "Trouble is, I still love Johnny." (International)

Randolph Scott doesn't mind three being a crowd in this scene from "Gunfighters," starring Barbara Britton with Bruce Cabot showing at the Litz Theater tonight and tomorrow.

ARRIVING from London aboard the S.S. Queen Elizabeth, film star David Niven and his bride, the former Mrs. Hjordis Tersmeden of Sweden, appear to be concentrating on the ice foes in New York harbor that delayed the docking of their vessel. The couple is en route to Hollywood. (International)

MENU

By CECILY BROWNSTONE Associated Press Food Editor

Some of the good ways to make a little meat go a long way are turnovers or rolls made from biscuit or pastry dough. They may be filled with ground cooked meat or poultry or raw chopped meat and served plain or with a mushroom or tomato sauce. Or they can be topped with a well-flavored cream sauce mixed with peas or snapbeans or a combination of diced celery and carrots. Then with a salad and dessert to accompany them they make an excellent lunch or supper.

All sorts of salads taste good with these turnovers and rolls. When it comes to dessert, however, I find a light fluffy one fills the bill—a fruit whip, for instance, or some of the molded cornstarch or gelatin desserts. These desserts may be made from leftovers, too—a combination of puréed or cut-up fruits is good in most of them.

The other day, to go with one of these menus, I made a Grape-juice Sponge. Some of the tastier, like the purplish color, the very smooth texture and the concentrated grape flavor and some of them didn't—and both sides were when I used some home-made wild grape juice sent to me by a friend. The recipe originally was concocted for commercially prepared grapejuice which, of course, can be obtained everywhere.

When I made the Grape-juice Sponge I tried whipping the hot thickened juice into half the stiffly beaten whites and folding the other half of the juice into the rest of the whites. There seemed to be little difference in the result, however, so you can take your choice of the method.

Meat and Mushroom Turnovers 1/2 pound ground beef 2 tablespoons finely grated onion 1 tablespoon finely chopped green pepper 1/2 teaspoon salt 1/4 teaspoon pepper 1 4-ounce can sliced mushrooms and liquid 1 package pie-crust mix Blend together meat, onion, green pepper, salt and pepper and mushrooms with their liquid. Mix pie-crust according to directions on package; roll out and cut into 4-inch squares. Place a small portion of the meat mixture on half of each square of pastry. Fold other half over meat and press pastry together with fork. Prick top to allow steam to escape. Bake in hot (425F.) oven about 20 minutes.

Grapejuice Sponge 4 tablespoons cornstarch 4 tablespoons sugar 1/4 teaspoon salt 1/2 teaspoon lemon juice 2 cups grapejuice 2 egg whites Mix cornstarch, sugar and salt together well in saucepan. Add lemon juice and grapejuice and blend until smooth. Heat to boiling and boil 1 minute, stirring constantly. Remove from heat. Beat egg whites with a rotary beater until stiff enough to hold a peak. Pour the hot grapejuice slowly over the beaten egg whites, beating or folding it in. Fill sherbet glasses or dessert dishes with the mixture and chill well. 6 servings. Note: The sponge may be turned into custard cups, unmolded and served with a soft custard sauce made from the 2 leftover egg yolks.

GOP Tax Bill

(Continued from Page One) living. "Do not be misled again," Knutson told the Democrats in a prepared speech leading off debate on the measure.

"If there ever was a need to encourage production to combat inflation, it is today.

"If there ever was a need to provide relief to the individual income taxpayers from the oppressive war income taxes which are stifling initiative and preventing business expansion, it is today.

Last year President Truman twice vetoed bills by Knutson, who is chairman of the Ways and Means Committee, to trim taxes \$4,000,000,000 a year. Enough Democrats held the party line in Congress to uphold the President.

Knutson argued that the President himself has been "amazingly inconsistent" on the tax issue. Mr. Truman has given every sign that he will veto any measure along the lines of Knutson's. Instead, he has suggested a 3 1/2-percent "cost of living" tax cut. To balance this, he asked \$3,200,000,000 of new taxes on corporations.

Before the debate began, Speaker Martin (R-Mass.) said an income tax cut this year is in the line.

The Statue of Liberty in New York Harbor is made of copper.

A low white pot of ivy on an attractive plate makes a charming table centerpiece and looks just when fresh flowers aren't available.

Franc Withdrawal

(Continued from Page One) ment of a free money market. The \$200-franc note is worth about \$15 on the free market. Its withdrawal is something like the withdrawal of all \$20 bills would be in the United States.

Assembly sources said Finance Minister Rene Mayer told them small holders of the bills would be reimbursed Feb. 2 and larger holders by a Feb. 5 decree. He said the bill was aimed directly at smothering ill-gotten wealth of money changers, restaurateurs and black marketers.

Assembly sources said the Premier and the Finance Minister told the Finance Commission taking away such money would strike a blow at inflation, too, by reducing the amount of money in circulation. The reduction, Assembly sources estimate, would be about 18 percent.

France has 502,000,000 francs in circulation, nearly double the circulation in 1944 after liberation.

The stock exchange (bourse) was closed by police on orders from the Government. The other financial agencies closed down in compliance with the Finance Ministry's communique, which directed them to close during debate on the bill.

The Communists were defeated in the Finance Commission when they failed to get a majority on a proposal to force the Government to explain the conditions under which 5,000-franc notes will be exchanged. The vote was 20 to 20.

Rent Control

(Continued from Page One) instances would be a bonanza for those operators who are now making a fat return. A flat increase would apply indiscriminately whether or not the owner needs relief.

O'Dwyer said New York City has adopted some control measures of its own but "the federal government should assume responsibility (for such a program) in its entirety."

Both he and Pepper recommended that Congress temper controls over residential hotels; houses covered by so-called voluntary leases and other units freed from controls in the law which became effective last July 1.

Pepper said rents make up from 25 to 25 percent of the business of the budgets of families with moderate incomes and that a family cannot cut down on rent as on food, clothing and medical care.

Sea-Sickness Is Over For Fishing Inventor

MIAMI, Jan. 29 (AP)—Inventor William H. Evans believes he has cured his fishing sea-sickness once and for all.

Four years ago, he said, he went fishing and the constant pitching and rolling of the boat made him so seasick he "swore right then and there that I'd invent a boat people could go fishing in without getting sick."

His strange "seasick-proof" craft is equipped with a KYMA which keeps a "hull within a hull" on a level plane regardless of how much the boat tips and rolls.

Evans, who says he invented the hydromatic shift used in an automobile and 29 other machine tools, said he doesn't plan to manufacture the craft himself.

AFL Warning

(Continued from Page One) membership had increased 18,000 in the past four months, to a grand total of more than 7,800,000. However, John L. Lewis and his 600,000 United Mine Workers "disaffiliated" in December, knocking down the total membership of the AFL to 7,200,000, Green said.

COMMENTS from the SIDELINES

Giants' Home

The Junior Officers' Quarters at the former Naval Air Station is now the home of the New York Giants farm system, and it is really a home away from home for the boys who are quartered there.

The kitchen is in the same building and was used as the kitchen for the officers, but it has been equipped with two new stoves, five ovens, three steam tables, two walk-in type refrigerators, one storage refrigerator, dish washing machine, pressure cookers and a 14 compartment ice cream freezer capable of keeping 200 quarts of ice cream. Charles Marlon is in complete charge of the rooms, kitchen and the mess hall.

There are 101 rooms to be occupied by the players, and they will be grouped in the building according to their respective teams. Marlon stated that each team's manager will have a room with his players.

The rooms are equipped with four to six beds which are double-decked to conserve space. The rooms also have two large closets also hot and cold running water. Each floor has a shower room which is complete.

During the try-out school there will be approximately 150 men attending, but when the teams arrive there will be over 450 men here, Marlon asserted. It is expected that 1,000 sheets, 500 pillow cases and 10,500 towels will be needed each week for the men.

The mess hall is similar to those in the Army or Navy and is set up in cafeteria style. The room will seat approximately 450 men. An additional dining room has been arranged for the scouts, managers and trainers. This room is on the north side of the building, or behind the main dining room. This dining room can seat nearly 100 men, but is prepared to accommodate 50 at the present time.

The lobby has several desks complete with paper, pens and ink. There are soft drink machines, chairs and tables for the men's conveniences. The room that was the bar has been redecorated and contains the equivalent of a canteen with cigarettes, candy and miscellaneous items, which will be sold to the men at cost prices.

At present there are 25 men enrolled at the school and others will be coming in from day to day. The students present are running through some preliminary workouts with John Lobert and Hal Gruber directing their activities.

At Umpire School

Milton Eiler has played semi-pro baseball for seven years around his home in Merced, Cal. He is a salesman and served in the Army.

Warwick Evans, 35, is a machinist and makes his home in Canton, Ohio. He has worked as a 112 league umpire and served in the Army.

Dou Fisher hails from West Unity, Ohio. He is an athletic instructor and has played three years in professional baseball. He is 30 years old and served in the Army.

William Frank, 27, is a merchant from Potomac, Md. He has played semi-pro and Army baseball. Bill Freeman is 21 and makes his home in Hulbert, Okla. He has played sand lot baseball.

Milton Goldstein is a retired Army man. He is 43 years old and has worked one season in the Wisconsin State League, a "D" circuit. His home is Milwaukee, Wis.

James Green, 25, has played baseball in the Florida State League, Alabama State League and the Evangeline League. He is a millworker from Midland, Pa.

Sprinters To Get Call At Local Track Tonight

Sprinters get the call at the Sanford-Orlando Kennel Club tonight when six of the ten events will be run from the futurity box. In the headline ninth event, Buddy Roll, winner of his last two starts, gets his first opportunity of the season to compete for the top purse.

In his last out, Buddy Roll equalled the best time for the futurity this season when he was timed in 22 and one-fifth seconds. He should go to post a well-played entry but Grand Bud drew his favorite No. 1 box and should prove a dangerous contender.

A quartet of outstanding puppies will clash in the closing contest from the five-sixteenth of a mile box. The group of juvenile speedsters includes Palace Lady, Tom's Commander, Florence, and Twin Hills. Post time for the first event will be 8 P. M.

First Race-Futurity
Jack Sherwood, Swamp Root, Roll Alone, Deluxe Laddie, My Jug Head, Cimarron Head, Laura's Daughter, Thinking Fellow, Stray Navy, B.D., Flight C, Sassy Dog, He Loy Lee, Lee's Matron, Dark Thoughts, Vitalaire.

Second Race-Futurity
Amber Hawk, Coming and Going, Classy Lass, King Guide, Hap, Comrade, Dorthia H. Dean's Girl, Barrel Roll, Black Stray.

Fourth Race-5/16 Mile
Darling Penny, Brave Life, Candy Lane, Chum's Dark Lady, All Stars, Lacey Max, Mac's Red Night, Peggy Ripple.

Fifth Race-Futurity
Squeaky Mac, Captain Hagen, Sassy Stray, Ohio, Just Guide, Fool Proof, Betty Shy, Gobby Lad.

Sixth Race-Futurity
Susan Stavers, Minnie's Love, Jasper's Penny, Star Man, Innocent Lassie, Fox, Keeper, Going Home, Close Squeak.

Seventh Race-Futurity
Bet's Boon, Country Town, Lucky Ida, Babe, Judgement, Pearl Stray, Broad Girl, Art Thou, Little Roll.

Eighth Race-5/16 Mile
Mada Hall, Lady X, Squeaky Lad, Tower Ace, Twister, Rube Harbor, Tippy Guide, Betty Creek.

Ninth Race-Futurity
Nimble Boy, Dooty Squeak, Paka Luck, Buzzy Roll, Black Stray, Heavy Heels, Grand Bud, Moka-na.

Tenth Race-5/16 Mile
Picnic, Tote Hills, Palace Lady, Tom's Commander, Lotta Beaker, Romeo Rex, Buzzy's Master, Honey Matron.

Sanford Baseball Bus Gets New Coat Of Paint

The Sanford Celery Fed baseball bus has been taken to Jacksonville to get a new coat of paint. It was disclosed yesterday by Charles Marlon, New York Giant executive.

The bus will receive a two-tone combination of orange and black, the Giant colors. The vehicle was sent to Jacksonville by Strickland-Morrison, Inc., the Sanford Ford dealer, Marlon stated.

It is estimated that more than 50 per cent of the freight tonnage originating in Maine is made up of forest products.

Harold Grolle is a machine operator and makes his home in Toledo. He has worked three years with the Toledo Umpires Association.

John Gwinn, 32 is one of the Army men attending the school. He graduated from West Va. Wesleyan College and has played football and basketball. He is a football and basketball official. At present he is stationed at Ft. Bragg, N. C.

Frank Hagias hails from Amsterdam, N. Y. where he has been a tap waver. He is 29 years old and served in the Army.

Youth Movement Is On In Ball Leagues

By JOE REICHLER
NEW YORK, Jan. 29 (AP)—The youth movement definitely is on the march in the major baseball leagues.

In sharp contrast to the war years when grizzled and fading veterans were the prime requisites in order to keep baseball alive, big league club owners are launching a drive for young blood which promises to produce the biggest turnover in history.

Already it has resulted in men in the majors to the lowest during the number of 10-year total in years. The 16 big league spring training camps will present more freshmen than ever before.

Of the approximately 640 players on major league rosters for the coming season, 62 are rookies. A majority of these have never appeared at a big league training camp before. Others have had brief trails but were sent to minor league farms for further development.

Eager to make room for these newcomers, the owners have handed pink slips to 30 men who have graded big league rosters for 10 or more years. This wholesale pruning leaves only 40 members of the select 10-year group, 21 in the American League and only 19 in the National.

The National, which in past years often was accused by American League partisans as being "an old man's institution," has been much more radical in its trend toward the younger set than its rival circuit.

Sports Roundup

By HUGH FULLERTON, Jr.

NEW YORK, Jan. 29 (AP)—Latest pot-shots during the open season on basketball rules.

"We need nationwide standardization of equipment and officiating. You don't find different types of goalposts in football when you leave your own section of the country," John Lawther, Penn. State's "Make courts larger to cut down on fouls. Ten men must now maneuver in a half court, 50 by 45 feet." . . . With all the annual furor about basketball rules, Ken Pryor, Oklahoma U. guard, has managed to play through the last two games without making a personal foul (or anyway, getting caught) and has been charged with only 20 in eleven games. . . . Could be the rules are okay if the coaches and players would live up to them.

Marty Gets Around
Marty Peters, coach at St. Benedict's (Kans.) has a different solution to a lot of basketball coaching woes—He just keeps a ball under his feet as he sits on the bench during games. . . . "I know," kept my feet on a basketball and start to stand up, I will fall on my face," Marty explains, "so I just remain calmly seated."

Shorts Had Shells
Young Charles Comiskey, who some day will be president of the White Sox, has withdrawn from St. Thomas College in Minnesota to devote all his time to baseball. . . . Prize quote from the New York State Athletic Commission's annual report: "The Commission feels that it is a very salutary thing for boxing that championship contests take place in many different parts of the world." . . . Latest hot tip from the Football Coaches Employment Bureau is scholarly dud de groot to West Virginia U., and a darn good choice, too. . . . Chedy Thompson's Colorado College hockey team didn't suffer when goalie Roy Ikola left to join the "official" Olympic team because Clark Wilder proved an able replacement. . . . But Chedy, who turned down the job of "official" coach, probably wishes he had Roy back, since he can't play anyway. . . .

A Shot In Time
During the recent Hardin-Southwestern basketball game in Texas, Cecil (Sassy) Crenshaw of Hardin didn't take a shot in the full 40 minutes but he still won the game. . . . The regulation periods ended in a tie and the teams still were tied, and Sassy hadn't tried a shot with 55 seconds to go in the overtime period. . . . Finally Crenshaw grabbed the ball, dribbled in and flipped a whirling shot that was good to give Hardin a 51-49 decision.

Cleaning the Cuff
Gene Ronsani, the Chicago Bears quarterback coach, claims that the Midway Monsters always play 10 men against eleven because the guy under center merely grabs the ball and runs the wrong direction without ever being called on to block. . . . Just before Jim Yeager resigned as Colorado U. football coach, his team presented him a fine calf-skin blizzard. . . . The college authorities then applied the leather a different way.

About two million people live in the Sahara Desert.

Sanford FURNITURE Company's **GREAT FEBRUARY FURNITURE SALE**
The Finest Values For Homes In More Than 7 Years

We're Remodeling!

Standing on the corner by the post office the other day we were doing a little bragging to a friend about having been more than a quarter of a century in our present location. Our friend looked across at our old building and solemnly nodded his head and said, "Yes, I can readily believe it." WOW! Just like that! So, Brother, we're having our face lifted right now.

OUR SHAME IS YOUR GAIN

Help us make First Street look better and save plenty at the same time. We need money to do this job and we need room. Brand new merchandise bought at the market recently is already piling up on us, so it's our move. Hence, this GRAND-DADDY OF ALL REMODELING SALES. Everything is reduced. Many items are way below cost. We mean business, so come in and make us prove it.
