

# Lawmakers Favorable To Airport Authority

Preliminary indications that the Orange-Seminole legislative delegation will approve the proposed bill to create a Sanford Airport Authority appeared favorable this morning at the conclusion of a breakfast meeting between the Sanford City Commission and seven of the

10 legislative members. On hand for the 90-minute session held at Holiday Isle were Reps. Harvey Mathews Walter Sims, William Gorman, Robert Milburn, William Fulford and Sen. Kenneth

Sen. William Gunter was represented by his aide, Jack McDavitt. Not present at the meeting were Reps. William Gibson and Eugene Moioney and sen, John Ducker, Mayor Lee P. Moore and Sanford's other four commissioners were present to hear City Attorney W. C. Hutchison state the airport bil would remove politics from the city's airportindustrial operation, now being operated by

The proposed legislation gives power of

the Sanford Industrial Commission.

Commission, which has held title to the property since the former Navy base was released the General Services Administration (GSA) to operate a civilian airport and industrial park with all proceeds to be put back into airport capital improvements.

The airport district is not confined strictly to the airport but also includes property within the boundaries of Sanford. Hutchison stated the authority would have no taxing powers but (Continued on Page 1B, Col. 1)

Fullerton as defendants She alleges the three officials ave caused or will cause Florida Power and Light to lose \$300 million through "mismanagement." Mrs. Avery says the ofahead with a construction on a cooling canal and nuclear generators at the Turkey Point power plant without obtaining state and federal clearances.

SANFORD ELECTRIC Co.

2522 PARK DRIVE

NOTICE TO TELEPHONE CUSTOMERS

# For the first time since 1953 we are planning increases in the rates for many out-of-state calls.

AT&T has filed a new schedule of rates with the Federal Communications Commission which increases charges for customer-dialed interstate calls during weekday business hours and for all operator-assisted interstate calls. All rates for calls you dial yourself without operator assistance in the evenings, at night, on weekends or on holldays will remain un-

changed or be reduced. The new rates are filed to become effective on January 19, 1971.

Here are the specific provisions of the new rates for out-of-state calls:

1. Rates for station-to-station calls you dial yourself without operator assistance from 8 a.m. to 5 p.m., Monday through Friday. will be increased - up to 10 cents for the

first three minutes. 2. Rates for all operator-assisted calls (including person-to-person, credit-card. collect, and coin telephone calls) will be increased in amounts ranging from 5 cents to 30 cents for the first three minutes.

3. Where rates for the first three minutes of a cali are increased, the rates for each additional minute will be increased in a range of one cent to five cents.

4. Rates for station-to-station calls you dia

yourself without operator assistance during evenings, nights, or weekends will remain the same - or, in a few cases, actually be reduced. For example, the rate for calls dialed coast-to-coast from 8 a.m. to 11 p.m. Saturday, or 8 a.m. to 5 p.m. Sunday, will still be 70 cents for the first three minutes.

This will be the first general increase in interstate Long Distance rates in 17 years. During that period, in spite of continuing inflation. interstate Long Distance rates have been reduced repeatedly. Even with the increase, the level of these rates will still be about 14 percent below the 1953 level. Yet in those 17 intervening years, the cost of living has gone up 47 percent. The new rates recognize the higher labor

and equipment costs associated with operatorassisted calls, and are designed to increase total revenues from interstate service by about

We have filed for the increase so that we can assure adequate earnings to attract investors in a money market which, like everything else, has felt the impact of inflation. This ability to attract new capital is essential if we are to continue to provide high-quality telecommunications service and meet the growing demands for communications services in this

This was an ob-Thus we are convinced that it is time that all some sore spot and one which should been see who are responsible for the automatic traitic allowed to exist so long. ing the short shift which the need for proper roads had in the past. What is needed are firm steps now We are somewhat timid in commenting on the Lake Mary Avenue, Onora Road traffic situation. But this is, indeed, a traffic flow situation which is complicated by a new road, an old and unlighted rail-

Combined they create an accident-inviting complex. What is most frustrating is that this railroad crossing as with several others, all the legal barriers have been removed, for such installation of warning lights by the railroad. But still they are not install-

Common sense alone should dictate that every and every agency involved in traffic control

Holiday traffic and tourist traffic is on the upswing. Our state troopers and city police have more than their hands full to do their professional best to keep accidents down to make "Arrive Alive" a realiz-There is no use shaking our heads and bemoan-

towards the safest use of the highways we all must In this it is true, of course, that the driver must recognize his responsibility to watch for the traffic lights and traffic signs and obey them. But both

must be easily read and easy to obey. We know that this is a subject which always is provocative of readers' comment. It is one, however, where many practical suggestions have arisen from aroused, frightened or indignant drivers who have their own solutions for traffic snarls. Will you let us

### Long Hangover

Marijuana smokers defend their habit as a harmless method of relaxation, carrying no more risk than a beer or whisky 'high."

Science has been slow to pin down the properties of this drug. But research has been stepped up - and early results suggest that potheads live in a dream world in more ways than

A researcher at St. Johns University reported that after pregnant rats had been subjected to marijuana smoke for 10 days they produced offspring with serious genetic defects. Twenty per cent of the newborn rats were affected.

Rats are not humans but Dr. Vincent Lynch said the tests convince him that marijuana use could have "very serious consequences" for human reproduction.

With alcohol, the hangover comes the next morning. With marijuana, apparently, it comes later — and may last a lifetime.—Tampa (Fla.)

### Shrinking Press

In 1929, notes the Powers' Export Bulletin, there were 15 newspapers in New York City. The bulletin — published by Joshua B. Powers Ltd. of London and New York, international publishers' respresentatives - finds it "remarkable" that today there are only three: The Times, The Daily News and The Post. The Wall Street Journal no longer operates a printing plant in Manhattan. If the labor unions whose strike has force The Post to suspend publication aren't careful, New York could find itself Dick West Says: with only two newspapers. In a city of some seven million persons, that seems incredible .-Charleston (S.C.) News and Courier

THE SANFORD HERALD

TALLAHASSEE - Thanksgiving is a special time for most people, but the last Thursday in November holds extra special meaning for a multitude of Florida sportsmen. To the outdoorsman. Thanksgiving means hunting season and the chance to harvest the cross of warmer that has been cultivated during the summer.

Thanksgiving is a time for sportsmen to give thanks for the privilege of living in a nation where sportsmen might own and share a wildlife and sporting heritage. It is a time when hunting, and say thanks to the landowner for making the trip afield possible.

This day is a special time for all people to say thanks to generations of sportsmen who guarded and conserved the wildlife and wilderness heritage that will be enjoyed by hunters on this and future Thanksgivings. The enjoyment of wildlife and wilderness is not limited to

Thanksgiving Day, nor is it a privilege reserved solely for sportsmen. The conservation programs that have been fostered and financed by sportsmen can be enjoyed every day, and by all people. The fact is that sportsmen have had more influence on the

conservation of wildlife, water and outdoor landscope, than any other segment of our society. Hunters and fishermen have been making contributions of time, vocal support, hard work and an ever-increasing flow of dollars for conservation that in a large part, has made the Thanksgiving hunting trip of 1970 a possibility. Sportsmen, both as individuals and in organized clubs op-

erating on local, statewide, and national levels, have fought the good fight for decades to preserve not merely game, but all forms of creature life and their habitats. The benefits of conservation battles waged by sportsmen and financed by sportsmen dollars can be shared by all people. While hunters might fight to save a duck hunting marsh, it is impossible to separate a good duck marsh from a marsh for

wading and shore birds, or from nursery ground for game

Sportsmen as well as conservation agencies have consistently worked with owners of private land, to open more acreage for a wide range of outdoor recreational uses. These efforts and successes do not benefit the sportsman alone. Each is a contribution to the total outdoor scene which benefits every

This Thanksgiving take time to go afield and enjoy Florida outdoors. Keep alert and look for wildlife. Observe the movements of game or song birds, or study the antics of coots and ducks in a nearby pond or lake. It is not necessary to be a for he has contributed the most to making your trip, your observation, and your study of wildlife possible.

Take time this Thanksgiving to give thanks to the sportsman for his concern and his contributions that help perpetuate Florida's wildlife and wilderness heritage.

I have just returned from a weeks duty at the Farmton area with the Game and Fish Commission personnel stationed there. There is one thing that we in Central Florida and esthere. There is one thing that we in Central Florida and especially Seminole County can be proud of and that is we have the friendliest and the most courtious bunch of hunters in the on duty day and night just in the Farmton area. The average day started at 6 a.m. and as a rule did not end until 2 or 3 a.m. the next day. Then it was back to work at first light of day. The illegal deer kill was light this year, as of this date I have heard of only eight illegal kills and only five of these

could be confirmed by actually seeing the deer. At the time I left the woods late Saturday afternoon there by Waiik, whose performance only 35 yards on 16 carries. the New York 1, and scored on Attorney for the Plaintiff had been 44 legal bucks checked through the hunt headquart- was singled out by both coaches ers. The largest deer checked was an eight pointer that looked to me to weigh about 140 pounds dressed. There will be a picture of that deer and its proud owner in sometime this week. | delphia Eagles 23-20 National The hog kill is very light with only four hogs having been Football League upset over the checked as of Nov. 21. The turkey kill is also very light at New York Giants, compared his 15 but it's not because of a lack of birds, there just are not too job with that of a sprinter in

In the whole week I met a lot of real nice people but as Walik a 180-pound rookie, redisregard for the rights of others. I'm speaking of those very turns kicks for the Eagles. He usual there are a few who stand out because of their complete few who knowingly shot and killed or wounded the does and carries four for 146 yards on fawn deer we found. One doe we found was killed last Sunday Monday night's NFL weekly and the hind quarters cut off, the rest of the deer was food television presentation. He for the buzzards. Another doe was found wounded very badly raced 57 yards with a second peand had to be put out of her misery by a Wildlife Officer. This riod New York kickoff to set up deer and all illegal meat will be turned over to an orphonage a subsequent field goal, and 45 Associated Press Sports Writer a 16 13 advantage, only to have or juvenile home. As I said before there were not many illegal one-yard keeper, regaining the Name in which assessed P & G IN THE CIRCUIT COURT OF CIRCUIT IN AND FOR SEMIkills and the Game Wardens in Farmton credit this to the fine turn that started the Eagles tocooperation from the hunters who seem to police their own ward their winning fourth periranks. To this I say, I can't think of a better, more workable od touchdown.

devoted to teaching the writing of this form of fantasy, says George Dickson, president o the Science Fiction Writers of George Zebrowski, an instruction of science fiction at Harpur College, Binghamton, N.Y., thinks academic acceptance "is

going to snowball." "The tendency has been to look at science fiction as something separate from other forms of literature, but now this is changing." Dickson said at a recent association conference here. "We are writing for bright people and the best writers always have. The work is aimed not necessarily at the scientifically sophisticated but at the in-

telligent everywhere." Dickson, who has published more than 30 science fiction novels and more than 200 short stories, thinks science fiction's blend of scientific knowledge and fantasy is what makes it in teresting to 20th century earth

Dickson traces the origins of science fiction to such early American writers as Herman Melville and Edgar Allen Poe. and British novelist Charles

Little League Is \$43,000 In Red

GUESS WHAT'S ON THEIR MINDS?

THEIR NUMBER IS UP!

Somehow, during the past

urer (both have resigned). The

palance of the board members

were under the impression that

there were records being kept

but apparently there were none.

From what the temporary

board (the old board has been

dissolved) could piece together

from last year's checks and de-

posit slips, last year's debts

were approximately \$1,000 more

than assets. They also concluded

that the League was about \$10,-

000 in debt when it moved to

its new field two years ago

This means that in the year

of 1968 their debts were \$10,000

more than the money they took

in (about \$9,000 more than in

any other year). One of the old

board members, Michael Reid,

when asked why the debts were

so much higher that year, said,

Even last year's deposits seem

to be different from the money

that was taken in during the

fund raising drives. One ex-

ample was the Little League

Queen contest. According to the

Women's Auxiliary, \$3,326 (un-

confirmed) was raised during

this drive. There was only \$35

deposited from this drive. When

asked by one of the members

"We don't have any idea."

YOU'D BETTER BELIEVE IT'S COLD . . .

ICED ORANGES? In Florida? Here's the pictorial proof. Taken this morning in 28-degree weather by Herald staffer Bill Vincent Jr. at the home of R. C. Whitmire at 219 West 18th Street, Whitmire opened his sprinklers to protect his trees, shrubs and flowers. Those are real icicles hanging from this citrus tree.

Meaningful Thanksgiving
