

Seminole To Play St. Augustine At Municipal Ball Park Tonight

Game With Gainesville G-Men Last Night Postponed Because Of Usual Rain; Hudson Is Scheduled To Pitch

It is difficult to think of a way to tell an old story, but the damp and cold facts of the matter are that Old Jose Fluvius missed postponement of another ball game. It failed to rain in the evening but it poured down in the afternoon, and that was enough to turn the infield into a mud flat.

Weather permitting, St. Augustine will be the opposition tonight at the Municipal Ball Park, and, under permitting, lefty Frank Hudson will toe the mound for Manager Whitley Campbell's Seminole Seminoles.

Every one around the league is in the mood to see the game in which last place Gainesville has played Sanford in three successive engagements. It is the first time this season that a row has been taken there in a row from the Florida State League.

With two games rained out against Daytona Beach and DeLand on the road, and seven games washed out on the home playing grounds, the boys have had little to do except watch the drops fall down from the sky and contemplate their betting slips.

Neither of these alternatives has been very pleasant, especially the latter which may be caused by the rain. The players have to get their eye accustomed to curve balls all over again. Ralph Hyder, with .402 as of Saturday's averages and Red Marion and Willie Shoen with .356 comprise the 300 hitters in the Sanford lineup. This is a drop from what it was earlier in the year. At one time Sanford had six men in the select 300 group.

However, several Seminoles are just outside the charmed circle. Red Roberts is hitting .304, Al Kimbrel, .293, Joe Justice, .290, and Whitley Campbell, who recently bunched himself.

Sanford is still leading the league in the important run-driven department. Willie has accounted for 42 markers, Andy Johnson for 41, Campbell for 38 and "Red" Hyder, despite his lead-off position, for 23.

The St. Augustine team that plays here tonight, weather permitting, boasts the top hitter in the State league, Buddy Lake, who is pounding the apple at a .418 pace. Lake and Hyder are the only hitters in the league topping the .400 mark. Other strong batters are Bauer with .311 and Miller with .303.

FROM THE PRESS BOX

by BILL BINGHAM

Before another day slides into history, let us hasten to add our congratulations and praise to the splendid way in which the Baseball Boosters' Association rose to a critical occasion and raised \$500 almost overnight to match a similar sum contributed by the City and thus save Sanford baseball for the year. It is a fine demonstration of co-operative enterprise in a crisis and the ready spirit in which the money was given is certainly highly commendable.

Sanford has reason to be proud of her baseball team, which is one of the finest in its class in the country. Besides entertaining countless fans, baseball here has proved to be a publicity getter, the value of which cannot be over estimated. If we can get away from the performance of "The Rain Game", last year's regular fans will begin turning out with increasing frequency.

Another indication of faithful support by fans and civic leaders is the combination regatta-ball game-with-Leesburg affair that will be held here Thursday afternoon. Thursday being a half-holiday for many people, it is hoped that they will all take advantage of the opportunity to watch some first class outdoor racing on the blue waters of Lake Monroe in the afternoon and then complete a perfect day by taking in a first class ball game in the evening. Sanford and Leesburg are perennial rivals and the ball playing is usually of a high order, when these teams get together. Sponsored as it is by the Professional Men's Association and the Sanford Outboard Association, fans are bound to have an enjoyable afternoon and evening.

Ann-Gansel, coach of the seventh place Orlando Nationals, says "I'm going to be in the first division in no time. The first league is bound to catch up to us and have been all season. They hold their best pitchers for the last part of the year. I'm telling you, we scare the hell out of 'em, and that goes for Sanford, too." It looks like the shipping block for another week.

Interest In Stocks Sink To Low Level

NEW YORK, July 9.—(AP)—Interest in the stock market last week sank to its lowest level in 22 years. Only 1,285,110 shares were traded during the short week—the smallest total since April 6, 1913—compared with 3,587,010 shares in the preceding week.

Three uncertainties were factored into the market's pessimism:

1. Doubt as to Britain's ability to withstand the threatened blitzkrieg, and, therefore, uncertainty as to how long the war may continue.
2. Who will be the Democratic choice for the presidency?
3. What form will the excess profits levy, now being studied by Congress, take?

Britain's seizure and damaging of a large part of the French fleet caused a sudden end of the day's trading.

Traders were uneasy over the forthcoming Democratic convention because of the possibility President Roosevelt might be drafted for a third term. Roosevelt, many traders believed, would give Republican Candidate Willis G. Bunker Ross a hard battle.

Regarding an excess profits tax, most traders hope it would not be any more drastic than that imposed during the World War when many of the biggest units of American industry were able to retain sizeable balances despite the tax.

The independence day holiday shortened business statistics, but there were no signs of a lag in any major field. All lines were expected to resume their upturn in the coming week.

Ty Cobb Predicts Spread Of Night Games To Majors

SALT LAKE CITY, Utah, July 9.—(AP)—Ty Cobb, who made baseball history on the summit diamonds of the major leagues for more than 20 years, believes he could have done just as well at night.

The optime Georgia Peach, in Salt Lake City to visit friends predicted night baseball would eventually be accepted throughout the major leagues.

Not only did Cobb predict the expansion of the night game—he said he considered it a good thing. "Baseball owes its existence solely to the support that countless fans have given it," Cobb said. "Fans want night baseball. They have proved it by their swarming into minor league parks in every section of the country."

"Major league owners, a conservative lot, I believe, have been the handbrake on the wheel. I think night baseball will be played more and more in every major league city."

Cobb said he saw no reason why the quality of baseball should suffer if games were played at night. He scoffed at the contention that pitchers are effective only when their throwing arms have been baked by the summer sun.

The big dog, which belongs to Manager Phil Miller of the French Lick gun club, liked poster so well that he was in the habit of standing on his hind legs to sniff the corners of women guests, and whenever they do. So Miller built a dog house for a hen near the club with a dog in it.

Leesburg Rallies To Win, 5 To 2 Over Daytona Islanders

Rushing their nine hits in three innings, the Leesburg Anglers defeated the Daytona Beach Islanders here tonight in a Florida State league game.

The Islanders started out as if they were going to make a run-away of the game by scoring two runs in the first inning, but Kaleski, visiting hurler, settled down and held them in check the remainder of the game. He allowed six hits. Score by innings:

Leesburg... 000 022 100—5 R 3 D
Daytona... 000 000 000—2 R 0 D
Kaleski and Pierre; Walls, Hildebrand and Sweeney.

Scoring all of their runs in the sixth and seventh innings, the Orlando Senators walloped the St. Augustine Saints by a 7 to 4 score.

The Senators outdid the hosts 11 to 7. Six local errors added in scoring. Score by innings:

Orlando... 000 004 000—11 R 6 D
St. Aug... 000 000 001—7 R 5 D
Sweeney, Beck and Oatis; Lake and Goff.

Entire Student Body Rides Motorcycle

FAIRBURN, S. D., July 9.—(AP)—The Cottonwood school for this year was a motorcycle which carried the entire student body on one trip. William March, a ninth grader, drove. From home he brought brother Garland, a sixth grader, and his sisters, Emma Jean, a fifth grader and Rose, a first grader. Except they picked up Lester, a seventh grader, who hiked a half mile from his ranch to meet them.

Know Your Bones To Avoid Boners

NEW YORK, July 9.—(AP)—man's own bones are the most interesting scientific topic that he can think about for a radio quiz, according to Bob Hawk, who conducts a radio quiz period.

The most frequent question bones is: Name the three smallest in the human body. These are the hammer, anvil and stirrup in the ear.

There are numerous questions like this: Name three parts of the body which are a map. Answer: (1) the alimentary canal; (2) the placenta; (3) the brain; (4) the thousand islands in the pancreas.

Roosevelt Asks More Funds for Armaments

Nearly Five Billions In Cash, Contract Authorizations Requested in Message

Bill For Defense Nears 10 Billion

President Says Arms Not To Be Used In War Of Aggression

WASHINGTON, July 10.—(AP)—President Roosevelt asked Congress today to authorize an additional \$4,848,171,867 for defense in a special message asserting that "we will not use our arms in a war of aggression; we will not send our men to take part in European wars."

Roosevelt's request brought to approximately \$10,000,000,000 the total cash and contract authorizations asked this session for land, sea and air armaments. Previously the President had asked and Congress had voted about \$5,000,000,000 in two categories.

Roosevelt requested \$2,161,441,867 in cash appropriation and \$2,686,720,000 of contract authorizations. The latter would permit Congress to appropriate for a like amount.

A predominantly Democratic Senate yesterday confirmed Republican Henry L. Stimson as secretary of war after a blistering charge by isolationists who charged the President was forming a war cabinet.

The vote was 55 to 23.

Those voting for confirmation included Senators Andrews and Pepper of Florida.

Unwounded victims of Roosevelt's 1934 political purge of 1934 jobs, including a bitter, but futile, fight to block confirmation of the President's cabinet, the Senate voted to confirm the President's cabinet.

Those voting for confirmation were 45 Democrats, 10 Republicans and one Independent, Senator Norris of Nebraska. Again confirmation was by a vote of 75 to 23.

Loss of the Stimson appointment also directed a cross-line of criticism against the Knox nomination, charging it was a step toward war.

President Roosevelt announced the nominations June 20, asserting he was forming a cabinet of military cabinet solely in the interests of national unity. Opponents termed it a political game plan since the appointments were made on the eve of the Republican national convention.

Majority Leader Barkley said today that the Knox appointment would be taken tomorrow.

Lettuce Control Bill Does Not Include Florida

Possibility Of Amendment Being Added In House Is Cited

Florida would not be included in the present form of a bill pending before Congress which would extend the marketing quota provisions of the AAA to the lettuce and melon industries, according to a copy of H. R. 9799 received by County Agent C. R. Dawson.

Paragraph 10 of Section 4 of the bill as passed by the Senate without amendments, provides that "lettuce" means head lettuce, of any regional or market classification, type or grade thereof, produced in the states of California and Arizona" while the next paragraph of the same section extending the marketing quota provisions to all classifications of melons in California, Arizona and Idaho.

The proposed bill was first brought to the attention of those interested in lettuce production in this county by an article in a produce journal which briefly described the bill and inferred that all sections producing this crop would come under the AAA regulations should the bill be passed.

The inclusion of Florida in the provisions of this act is opposed by many of those interested in the industry all over Florida, and brought a request from Market Managers, H. J. Lehmann and D. J. Wilson that growers in this state vigorously oppose a measure which would include this state since acreage allotments would be based on the last three seasons, it was pointed out that this would be an obstacle to an apparently growing industry in Florida since it was only last year that lettuce of any volume was produced in this state.

An amendment to the present bill providing for the inclusion of Florida could easily be added when the bill goes before the House of Representatives for approval. It was said, and farmers who are opposed to such federal restrictions on this crop should communicate their desires to the Florida delegation in Washington in order that they might guard against such an amendment.

The fact that Florida is not included in the present bill was submitted by a statement to a Manatee county grower yesterday by Rep. J. Hardin Peterson who said that the congressional act applying AAA control to lettuce would not apply to this state.

At a meeting of the Board of Directors of the Seminole County Chamber of Commerce last night, Mr. Lawson appeared before the directors and asked that group to adopt a resolution opposing the measure. Action on the resolution, however, was deferred, pending the response from Seminole County farmers who were asked to make their attitude known by contacting Secretary Edward Higgins in the near future.

It was stated that he is opposed to the inclusion of Florida in such a measure. George B. Wilson, chairman of the Seminole County Local Planning Committee, stated that he is in favor of the present form of the bill in its present form.

The bill in its present form, it was stated, would restrict Florida growers in any way but does secure the benefits of the AAA to the lettuce growers of California and Arizona.

It was stated that the bill would provide a market for his crop, Mr. Wilson said.

Central Florida Fans Prepare For Day At Races, Ball Game

Entry of Ralph Hagood, Florida Class B champion, and those of five other Orlando drivers have been received for the second annual backyard regatta to be held here Thursday afternoon beginning at 2:30 P. M. over the Lake Monroe course. It was announced today by Dwight Smith, president of the Sanford Outboard Association.

Ticket sales for the regatta and the baseball game with Leesburg in the evening are progressing rapidly, according to an announcement by Edward Higgins, secretary of the Seminole County Chamber of Commerce, who is handling the regatta. Mr. Higgins called upon merchants and citizens to cooperate in putting this event over the top.

The Sanford-Leesburg baseball game is an ancient rival and with Leesburg striving to gain the first division over the Florida State league leaders, a good and spirited contest is anticipated.

The entry of Hagood to the regatta, which is being sponsored by the Sanford Business and Professional Men's Association in co-operation with the Baseball Boosters' Club and the Sanford Outboard Association, was greeted with joy by the race committee.

Hagood will bring to Sanford what is probably the fastest outboard ever to run on Lake Monroe. He has just returned from the July 4 races at Shefield, Ala., where he captured the Class A championship of the state. Hagood will drive a Class B outboard in the first-of-its-kind race, and if reports are true, this one exhibition of high speed driving will be the feature of the regatta. Mr. Hagood's outfit will be on exhibition at the corner of Park and First Streets. James Hagood, Ralph's younger brother and no novice in the racing game himself, will also be in the races driving a Class A service runabout.

Other entries from Orlando include Clarence Johnson, Carl Rodenbaugh, known as "the flat-foot," Ed Zorian, who once was fished out of the lake early one Sunday morning by members of the Sanford Outboard Association, and Bob Eberhart with his Class C runabout. It is reported that several more entries will be received from Orlando and Winter Park.

Ted Windhorst, who has entered a service runabout with an Elco quad of 40 horsepower, has filed his entry from DeLand.

The total number of entries for the regatta has now been topped to 26, which will bring together the largest number of outboards ever assembled on Lake Monroe.

There will be races in Class A, Class B, Class C, and unlimited divisions. Class A is limited to motors not exceeding 12 horsepower or 20 inches displacement. Class B is limited to 12 horsepower or 22 inches displacement, while Class C is limited to 22 horsepower or 40 inches displacement.

Prizes of \$10, \$5, \$3, \$2 will be awarded in the first three races according to the order of finish, while in the unlimited race, a \$15 first prize will be all that is awarded.

Eight Sanford men have entered the race: Harold McAlexander, Dwight Freeman, Bill Johns, C. A. Williams, Dwight Smith, Clayton Smith, Harry Smith, and James Cowan.

Leslie J. "Red" Dyer, his son, Leslie, Jr., Cecil Jacobs, Gerald Frierson, and J. McGill of DeLand will be on hand for the regatta.

Wheeler Will Not Fight 3rd Term Draft

Declares He Will Not Be Party To "Stop Roosevelt" Movement At Convention

WASHINGTON, July 10.—(AP)—Senator Wheeler, Montana, Democrat, today declared himself a virtual opponent of the "stop Roosevelt" movement, which expects their names to go before the Democratic National Convention regardless of President Roosevelt's plans.

Asserting he would not be a party to the "stop Roosevelt" movement, Wheeler told reporters that continued silence by the President would have the effect of quashing all other candidates. Virtually every time will accept the "draft" nomination but Roosevelt himself remains silent.

Farm Crops In South Damaged By Heavy Rains

Farmers in the deep south, their fields drenched by more than a week of heavy rains, showed crop losses at several million dollars today, while weathermen forecast additional precipitation for some sections.

Unless the sun breaks through the thick cloud blanket that has enveloped the deep south, staggering losses might result, agriculturists asserted.

Unseasonably cool temperatures, unfavorable to normal growth of some vegetation were expected to continue until dispersal of the thick clouds.

Arkansas farm agencies, while declining to estimate in dollars the harm caused crops by excessive rains and floods in several sections of the state, agreed the damage would be heavy.

The state's famous Home was a complete loss, shipment of potatoes has been stopped, and lowland cotton and corn fields were threatened with destruction.

In Louisiana, Extension Director Bateman reported 15,000 acres of crops—mostly planted in cotton, corn and rice—were lost by inundation. He said the recent torrential rains had injured all crops except sugar cane and pastures.

Crops were under water in flooded fields also in parts of Mississippi, Alabama and Georgia.

Excessive moisture has harmed cotton stands and increased boll rot in Alabama, and in the south, while reports from the heart of Georgia's peach belt told of orchards too wet for harvesters to get into them. Harvesters also were unable to reach the Georgia cantaloupe crop because of rain-soaked fields.

Mississippi reported bottomlands in the upper reaches of the state were in a worse condition than at a corresponding time in 1933, when the crop failure was almost complete.

Crop damage by heavy rains also was noted in Alabama, and excessive rainfall hindered hay and wheat harvests in Virginia, where the corn crop suffered from lack of cultivation in wet fields.

President Nordgren Urges Support Of Red Cross Drive

During the programs of the club for the first half of the year, Mr. Long declared that they had been in progress and were in progress toward giving one's best. Urging renewed support of the club during the remainder of the year, Mr. Long told the members that they should not expect to get something from the club without putting some individual effort into it.

Declaring that civilians are hardest hit in time of war, President Karl Nordgren who presided at the meeting, called upon the members to support the local chapter of the American Red Cross in its final effort to raise the entire quota of \$2,000 for relief in Europe.

He urged each member of the club to buy at least one ticket for the Red Cross benefit dance to be held in the Mayfair Hotel next Wednesday night, through which the chapter hopes to raise the \$250 it is still short of its goal.

Commenting on conditions in Europe, Mr. Nordgren, a native of Sweden, stated that none of those countries are self-sustaining, and pointed out that in Denmark and other of the Scandinavian countries even the large dairy industries are dependent upon imports of feed in sacks from the new world, imports which have been cut off by the blockade.

"Kiwanians should do every thing possible to alleviate the suffering among the victims of war," he said.

In concluding his remarks, Mr. Long told a story of a "coon dog" which had treed a "coon" on a Georgia hillside. Soon, he said, the dogs at nearby farms heard the incessant barking and took up the cry: the dogs in the city heard the dogs on the farm and they also began to bark. Soon all of the dogs in the entire country were barking while there was only one faithful old dog who had a "coon" tree.

He called upon each member of the club to tree a "coon" for Kiwanis.

Tampa's MacDill Air Base To Be Enlarged

WASHINGTON, July 10.—(AP)—The WPA approved last night a \$2,000,000 project for the enlargement of the army's southern air base at MacDill field, Tampa, and sent it to the White House for President Roosevelt's approval, Senator Andrews announced.

It is the third big project for the field and brings the total WPA allocations for the base to \$2,400,000. In addition to more than \$2,500,000 of direct congressional appropriation for MacDill field.

The project submitted yesterday calls for a WPA contribution of \$1,150,000, to be drawn from regulation relief funds. The war department will contribute \$200,000 from its share of WPA funds set aside for national defense projects.

Altogether, the new appropriation will furnish work for 1720 men for 10 months.

The project's work sheet specifies:

"Constructive buildings, railroad gas tracks, runways, roads, sewage, aprons, toilet tanks, and other improvements, including water supply, electric and telephone facilities; providing drainage facilities; cleaning, grubbing, and leveling aprons, paving and leveling runways, taxiways and taxiways out to sea."

155 Loans Totalling More Than 113 Millions Are Made In Florida

Twenty-seven per cent of Florida's commercial banks made more than 155,000 loans totaling over \$113,000,000 to business firms and individuals throughout the state during the year 1934, according to the second semi-annual survey of bank lending activity of the American Bankers Association made public today.

The survey was participated in by 46 banks or 27 per cent of the 165 commercial banks of the state. The 46 banks reported that during 1934 they made:

94,665 new loans	\$66,355,321
58,809 renewals of	
loans totaling	\$9,411,477
2,287 mortgage loans	7,944,589
totaling	\$113,711,387

The survey reveals that business firms in the state are using less than half of the "open lines of credit" maintained for their use on the books of the banks. Fifteen banks in the largest centers of the state reported that they carried on their books during the second half of the year \$4,067,160 in "open lines of credit" consisting of specific amounts of credit offered to and kept available for established borrowers for use as needed by them. Of this amount \$2,147,868 or 46 per cent was actually used.

The average number of new loans was \$701.

The average number of renewals per bank was 1,273 and the average renewal was for \$670.

The average number of mortgage loans per bank was 43 and the average mortgage was for \$3,504.

The Florida survey was part of a national bank lending activity survey made by the American Bankers Association.

For the country as a whole 6,343 or 44 per cent of the commercial banks reported that they made 24,998,000 credit extensions totaling \$39,810,810,000 during the year. These consist of the following:

12,680,000 new loans	totaling \$23,120,000,000
12,033,000 renewals of	loans totaling 15,791,000
288,000 new-mortgage loans	totaling 899,810,000

The number of loans increased 10 per cent and the dollar volume increased 20 per cent.

Swim Enrollment Increased By 17 At Weekly Class

An enrollment increase of 17 at the Monday swimming class at Sandhills Springs was reported by Miss Eleanor Morrison, who is personally conducting the course.

Because the class has reached a membership of 20, it has been decided to split the group into beginners, intermediate swimmers and swimmers. These classifications are not necessarily made on a swimmer's ability. Standard tests must be passed to advance from one group to another.

The beginners class will meet from 2:00 to 3:00 o'clock and the intermediate class from 3:00 to 4:00 o'clock.

Women are urged to continue to register for the married women's swimming class. It is hoped to have an enrollment of 25 in this group.

LOCAL WEATHER

Partly cloudy tonight and Thursday, scattered showers over extreme north and northeast coast Thursday.

Italians Admit Loss Of One Destroyer And Submarine In Clash With British

Italy sharply disputed Britain's rule over seas today as both sides claimed victory in a violent, zig-zag naval battle in the Ionian Sea—just below the in-step of the Italian "boot."

While the British version said the Italian warships had "almost immediately" sunk a smokescreen, after an Italian battleship had suffered a long-range shot, the Italian command reported the British fleet was driven off.

The British admiralty, taking note of "mendacious reports often circulated by the enemy," quickly reported the clash had "developed into a chase of the Italian ships" and that there were no British casualties.

The Italian communiqué, which admitted casualties of 29 killed and 49 wounded, insisted the naval forces sought out the British men of war "to head off" an apparent British plan to attack coastal positions and succeeded in contacting the enemy.

The Italians said one British warship—"probably a battleship"—was sunk while "only one" of our warships was hit. They admitted, however, the sinking of the Italian destroyer "Etilio" and the loss of one submarine.

France's new totalitarian regime sought a "scenarios" today for the French defeat, with the Senate's national defense and foreign affairs committee voting unanimously to investigate the responsibilities for the origin and conduct of the war.

French senators and deputies met in a joint secret session to affirm a bill empowering a sweeping revision of the French government into a virtual dictatorship under 41-year-old Premier Marshal Henri Philippe Pétain.

THE DECISIVE DAY

(From St. Lawrence Plaindealer)
For all we do and are,
For all we say we love,
Strike, gather from afar,
No longer spe the dove.
No longer talk of peace—
There is no peace on earth—
Strike all your powers release:
Strike now, for home and birth.

Trust not the narrowing seas
That bring the foe more near,
Nor think to take your ease
With all the World in fear.

Days all, as did our sires;
The new 100 time for play,
Against the smouldering fires;
On the decisive day.

German newspapers think pretty well of Ben Frazier. Upon his recent return to Berlin, they referred to him as "The Lord of Battle," triumphant victor of the greatest campaign in world history... Victor of 1918 and victor over 1914.

The Shanghai Incident

Japanese Army officials are threatening to disarm American Marines stationed in Shanghai if they do not apologize for their legal arrest of some 20 Japanese plainclothesmen who illegally entered their defense sector recently. The Japs may find that disarming American Marines is as dangerous as attempting to trim the claws of a Florida bobcat.

If the United States government would leave this matter in the capable hands of Col. Dewitt Peck, the Marine commander, we have a hunch he would know what to do. He would probably have the United States fleet sink every Japanese warship in the Pacific, much as the British very quickly took care of the French navy, and then depart for the Atlantic where it could anticipate further German moves.

This Shanghai incident is just another piece of Japanese strategy, a trial balloon, to test American courage. The Japs sent the plainclothesmen into the American defense sector just to see if the Marines would do anything about it. They did. Now the Japs are trying to test American public opinion to see if we will apologize for what the Marines had every right under international law to do.

If the Marines had failed in their duty, the Japs would have felt at liberty to commit further aggressions. Now if the American people fail to uphold their rights in this minor incident, the Japs will know they can commit new offenses without fear of reprisals. If on the other hand the Americans bare their teeth, the Japs will have to wait until the Axis powers have greater freedom of action in the Atlantic.

It is too bad that the United States, preferring defensive warfare, must leave the initiative to its enemies. Awaiting their most favorable moment they will attack when the chances for their success are most favorable. While the American navy could easily destroy the Japanese navy now, thus eliminating them as a factor in the coming struggle, we must wait until we have to fight all the navies of the world put together.

Jacksonville Bear Hunt

Central Florida is rapidly acquiring a reputation as a bear hunters' paradise. Last Sunday a 300-pound bear was shot and killed near Blackwater Swamp about 15 miles west of Sanford by a 15-year old Umatilla boy. This was the fifth bear to be killed or captured in this vicinity during the past three weeks.

The prize bear story of the year, however, comes from Jacksonville where members of the police department, unlimbering their heavy artillery stopped a 600-pound bear with 11 shots just as he was about to conclude a successful blitzkrieg through the wilds of the Oriental Gardens, and after he had become infuriated by a wholesale peppering with a .22 rifle and BB guns.

Although the size of the bear suggests that he may have been a tame bear that had escaped from some neighboring zoo, veteran bear hunters around Jacksonville insist that he was probably a stray animal from outlying swamps that had wandered a little too far from his accustomed stamping grounds. He is said to have measured eight feet from the tip of his hind paw to the end of his nose.

Even Gus Schmah admits that is some bear, but things like that don't happen every day in Jacksonville.

The Duke's New Job

The appointment of the Duke of Windsor to the comparatively inconspicuous post of Governor General of Bahama Islands where he will rule over the destinies of a mere handful of 68,000 citizens, most of whom are negroes, appears to be a new low ebb in the fortunes of a man who only a few short years ago reigned over the 400,000,000 subjects of the British Empire.

Or it may be that this appointment indicates the new importance which British possessions off the American coast are assuming in the light of rapidly changing European events. Nassau is only a 15-minute airplane ride from Miami. Bimini is only 60 miles from Palm Beach. It may be the British wanted someone there of world-wide reputation and influence upon whom they could depend in some unforeseeable emergency.

ON HIS DEATHBED, Governor Hogg of Texas requested that no monument of stone or marble be placed at his grave; that instead there be planted "at my head a pecan tree and at my feet an old-fashioned walnut. And when these trees shall bear, let the pecans and walnuts be given out among the Plains people of Texas so that they may plant them and make Texas a land of trees."

His wishes have been carried out. The first nuts were saved in 1926 and planted in nursery rows, and the same thing has been done each year since. As soon as the saplings are large enough to transplant they are distributed to schools and county boards.—Famous Trees (U. S. Dept. of Agriculture)

"TOO LATE TO CLASSIFY"

Getting away from war and politics for the moment, let's look at the brighter prospect that Florida faces at the moment. Allowing ourselves to become absorbed in the gruesome accounts of world conflict, we have been inclined to lose sight of all else.

"Business as usual" is the order of the day even in those war-torn countries that know not what the morrow will bring. Civilians continue to "carry on" as it is the most effective way in which they can survive.

Here in Florida, it is likewise our duty to "carry on" for if as citizens we are to support the national defense program we must continue at our usual task.

But we started to talk about the future outlook for Florida and it is indeed promising. General business has shown a steady improvement, building is increasing in many localities while summer tourist business is good and gives promise of continuing.

The railroad and bus fares with streamlined trains and deluxe buses, offering finer accommodations than ever before, together with liberal advertising and publicity through the Florida Exhibit, the newspapers, magazines and travel bureaus, have all served to attract summer vacationists.

I was surprised, returning from the North recently, to find that it is difficult to secure reservations on south bound trains, unless they are made well in advance. And the bulk of this travel is headed for Florida, made up largely of folks who have never visited the state before.

Transportation companies, alert for new business are offering every inducement, and point out the advantages of Florida as a summer resort. People of limited means, small merchants, clerks and stenographers are finding that they can enjoy a trip to Florida a very low cost and they are taking advantage of it.

Prospects are bright for an exceptionally good winter season, already travel bureaus, hotels and transportation companies are receiving inquiries and reservations for next Fall and winter. Thousands of well-to-do folk, cut off from Europe are turning to Florida.

Remember, National Defense is not a matter of armament alone. The average citizen and business man are soldiers on the home front, for success of the whole program depends that they stay on the job and keep the home fires burning. So let's look to our business as usual, and strive for more and better business, for in the end of the day, it is BUSINESS that must pay the bill.

MOVIE MUSINGS

CHARLIE MORRISON
A new kind of feature picture will have its premiere in Washington on Friday, when the first full length production to be made by the staff of The March of Time, 'The Ramparts We Watch' will be screened for a select audience.
In production for 18 months, 'The Ramparts We Watch' differs greatly from Hollywood films in many important respects. Its story, which deals with the lives and behavior of the people of a democracy in time of crisis, recreates as authentically as possible the events of the war years of 1914-18 in an American community representative of any city or town anywhere in the nation.
In its cast of 1400 persons, the film has 73 important speaking parts. The entire cast is composed of non-professional people who were selected to fulfill roles that paralleled closely their own lives and suggestions. Interwoven through the sequences of the story are actual historic scenes of World War events and personalities obtained from the valuable motion picture collections of the U. S. Army Signal Corps, the National Archives in Washington and the Imperial War Museum of London. The picture will be released through RKO Radio Pictures Corporation after its Washington premiere.
This month's about minded content was won by the doughtiest who was asked if he had a wife and replied, 'No, but I had some things just as good.'
'Don't. Is this the first pain in the neck you have had?'
'Eat it. No, sir, I favored the first one.'
A woman with five children got on the first car. She bustled about creating them. A gentle woman and gave her his seat. At the hour of the club, she said, 'You, madam, or is it a penic?'
'Indeed, rather snappily. They are all mine and it's no business.'
Baptist Circle One Holds Business Meet
Mrs. Lillian Vickery was hostess Monday afternoon at the meeting of Circle One of the First Baptist Women's Missionary Society for the monthly business and social meeting.
Mrs. F. E. Bolt, circle chairman presided over the meeting and called for reports from the circle's officers. The mission study was given by Mrs. B. F. McWhorter and the Bible study was given by Mrs. F. E. Gatchel. An article on 'Prayer' was discussed by Mrs. Eloy Delgado.
The hostess served refreshments to the following: Mrs. H. W. Shannon, Mrs. W. L. Stoudenmire, Mrs. F. E. Holt, Mrs. Eloy Delgado, Mrs. F. E. Gatchel, Mrs. Mable Estridge, Mrs. B. F. McWhorter, Mrs. Chapman and Mrs. J. A. Strang.
NOTICE

Power Granted By French Cabinets

Switzerland, July 14.—France's democratic cabinet yesterday voted in favor of a purge involving criminal charges against former Premier Raymond and Gen. Gouraud, former chief of the army, and other members of the parliament. The vote was 396 to 372, with 10 abstentions. The government is now in a minority in the assembly.

The cabinet also voted to grant powers to the French cabinets to deal with the situation in the Ruhr. The vote was 396 to 372, with 10 abstentions. The government is now in a minority in the assembly.

Sanford and St. Augustine Play 3 Innings Before Game Is Called

Seminole Assume 1-0 Lead As Teams Battle In Steady Shower Of Rain; Play At Leesburg Tonight

Sanford and St. Augustine first. It was a tough battle for those players that got hits that the game was called, but for the Florida State league's leading hitters it was just as well. Ralph Snyder and Buddy Lake would pitch in their appearances at the plate. An award for the game was cancelled because four and one-half innings of play had not been completed.

Tonight the Seminole will go to Leesburg and see how the weather is there. It may be that Manager White Campbell will send Corley back into action. He only pitched against 11 batters and was in no trouble. Wet ball and all. Corley struck out three men, one in each inning.

The long awaited outboard repair and Leesburg fall game will be held here Thursday afternoon and evening, and a large crowd is expected to be on hand to witness this unusual feature.

FROM THE PRESS BOX

BY BILL BINGHAM

One who has read all the about Sanford's wonder team... beginning to wonder what has happened to the Seminole camp during the past six weeks ago, the Sanford team has done little more than to hold its own since jumping to the first month. The Seminoles have not been playing the kind of ball they were used to in the season, but the fact of the matter is that the Seminoles have lost their edge under five and can now cope with the best of them.

THE STANDINGS

Florida State League Standings: Sanford 42 25 13, St. Augustine 42 25 13, Deland 42 25 13, Leesburg 42 25 13, Ocala 42 25 13, Orlando 42 25 13, Gainesville 42 25 13.

Gainesville Loses To Daytona Beach Islanders, 5 To 4

The Daytona Beach Islanders tossed out the Gainesville Islanders, 5-4, here last night in a Florida State league game which was halted at the end of the seventh inning due to rain.

Score by innings: R H E. Daytona Beach 201 010 0-4 5 3. Gainesville 102 100 1-5 9 2.

Orlando's Senators blanked the Ocala Yankees by a 3-0 score. Kennedy, hurling for the local club, held the Yankees to six hits and four runs. His teammate, launched enough of their hits in two innings for the victory.

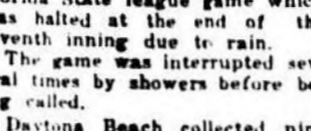

Sanlando Picnic Trip Planned For Friday

An all day picnic trip to Sanlando Springs will be held for playground children Friday. Miss Eleanor Morrison, city recreation director, announced. A truck will leave the playground at 10:00 o'clock, and return around 5:00. Parents are invited. Children are asked to register at the playground Wednesday or Thursday and should bring their lunch for the picnic.

ONE WAY OF TELLING BOYONNE, N. J., July 10.—It took an 800-word telephone message to tell Frasier back to his home in Jersey City, six miles away. The 90-year-old man was unable to tell Bayonne police who he was but they found in his pocket the name of a friend in Lansing, Mich. A call to Lansing produced Frasier's Jersey City address.
