The disasters included nineteen ternadoes and cyclones, two hurricanes, two cloudbursts, one hail storm, one landslide, two earthquakes, 15 fires, one explosion, nine floods, ten shipwrecks, one train wreck, four riots, one motor accident and two droughts. The toll of these disasters were 850 people killed, 1,500 injured,

This paper does not wish to offend any one in this political campaign. Every man has a right to his own upinion and this paper will express its own opinion without hurting any one's feelings which is our policy in this and all other campaigns. But the Herald will set forth the doctrines of Democracy, at all times and if the truth hurts anyone so be it.

THE GREAT ISSUE.

It is the greatest Presidential campaign within the memory of man, the issues are incomparably great. The future of the world, the well?being of all mankind, the deliverance of peoples and of nations from the dangers that visibly beset them—these are the issues of this contest. The callous recklessness with which the Republicans are carrying on the campaign is amazing, it is appalling In the blindness of their partisanship they appear to give no thought to the consequences of policies which they every day proclaim as the purpose of their party. Europe sees and understands what it all means. The Republicans would keep us out of the League of Nations; all that their representative men and their candidate propose as a substitute is some kind of an "association" as yet not formulated in words and utterly incapable of realization. They would exclude us from the benefits of the Peace Treaty and their capdidate puts forward in its place a mere resolution declaring war is at an end, a method of restoring peace which minds better informed than his would instantly reject as preposterous. They even talk of tariff duties to "exclude the flood of foreign goods," which is equivalent to depriving our debtors of the only means of paying their obligations. Dr. Vissering of the Netherlands Bank pointed out at the finanelal-conference in Brissels the conmequences of the policies of isolation and selfishness which the Republicans are preaching. Those consequences would fall heavily upon us. In their denunciation of the administration, of the Peace Treaty, of the League Covenant, of all the great works in which Mr. Wilson has been ungaged, the Republicans have let-themselves he betrayed into declara-tions of policy which would bring potitical, social and financial ruin to other nations for which we profess

friendship. We cannot believe that they understand what they are doing, for it is certain that the normal, human mind could not deliberately intend such consequences.

The campaign draws to its close. The Republicans are jubilantly confident, the Democrata are justly appre-hensive. Yet the whole course and outlook of the campaign could changed, would be changed, if Democrats could get the truth into the public mind, could make the people understand the immeasurable importance of the issues involved. Four years ago in September, Mr. Wilson was an aurely beaten as the Republicans now believe Mr. Cox to be beat-Victory came to him through later changes in the political situation. Such changes may yet be wrought in this campaigh. The Deniocrats should have in the field a dozen speakers one of their speakers should be equipped for the task and capable of the tank of telling the plain truth about the League of Nations. Democrats of means who are interested in the success of the campaign should see to it that the committee-has funds to clear the public mind of the delusmisrepresentations and falsehoods, systematically spread abroad by the campaigners in behalf of Mr. Harding,-New York Times.

A, GOOD "FLIVVER" STORY

One of the best "flivver" stories we have heard is one that has come out of Virginia. A motorist was going up the Shenandonh Pike with his fine Cadillac car at thirty miles an hour when he heard the honk of a Ford demanding the road. Not wishing to be passed by a road louse, he ran his machine up to thirty-five miles. The Ford came up alongside and still insisted upon the road. Then the Cadillac owner pushed his car to "Count that day lost, whose forty but the Ford was still with him. "Yes; I guess you have," replied the young man with a smile.

"Weren't you the driver of that Ford that passed my Cadillac on the Shenandoah Pike the other day?"

"Well, what I want to know ie, how did you do it?" "Well, sir," replied the Ford driv-er, "I have had more fun out of that car than anything I ever owned. I took the engine out of that Ford and put a Liberty motor in it. Then I weighted the car down with iron wherever I could to hold it on the road.
