

Sanford Annexing 'Futility Exercise'

By BOB LLOYD
Sanford City Commissioners decided the effort to get legislation allowing annexation of "pockets" surrounded by the city was an "exercise in futility" after the measure was turned down by the Seminole Legislative Delegation.

After the stormy delegation hearing, held in tight control by gavel-wielding delegation chairman Rep. Eugene Mooney of Casselberry, the city commissioners resumed their regular meeting at city hall and voted 3-1 to drop the effort.

After lengthy testimony from citizens opposing the Sanford bill, the delegation turned down the "pockets" bill.

Sen. Wilson termed the proposed bill "carte blanche" and open-ended and declared it didn't give legal descriptions of the 12 "pockets" in the city, some of which the city commission wanted to selectively annex. She said any future "pockets" the city creates would be affected if the bill was passed.

Sen. Wilson said she wasn't pointing the city as "bad guys" but said she found the present form of the bill "not acceptable."

The delegation asked if the city was prepared to go into detail on how any of the "pockets" affect the health, safety and welfare of residents, both inside and outside the city, but found City Commissioner Gordon Meyer was the only Sanford official who hadn't retreated from the clamoring hearing room.

Meyer said he would convey the delegation's indication it would consider a bill with detailed specifics at a Feb. 22 public hearing in south Seminole to the city commission.

Later in regular session the city commission declined to pursue the "pockets" annexation issue.

Sen. Wilson told the crowded public hearing she is already "on record" requiring justification of annexation without referendum.

City Commissioner A. A. McClanahan and Mayor Lee Moore termed the annexation effort "an exercise in futility."

McClanahan claimed, "of necessity the majority of the people in the pockets will come into the city without fanfare in future years."

Commissioner John Morris said, "Let it go and hope there are no fires." He said he's not opposed to "going after specific areas" by re-submitting a bill to the delegation.

"We tried and that's it," said Meyer.

Only Commissioner Julian Stenstrom voted against dropping the "pockets" annexation issue.

Stenstrom said he's concerned with protecting city residents from the "pockets" and indicated he favors "putting the heat on county health authorities" about conditions in the pockets.

J.M. FIELDS DISCOUNT DEPARTMENT STORES

BELOW ORIGINAL WHOLE SALE

Art Class
The Sanford Recreation Department will sponsor art lessons for boys and girls ages 8 through 16. Classes will begin Feb. 13, in the Youth Wing of the Civic Center. Students age 8 through 11 will meet Tuesday 4-5:15 p.m. Students age 12 through 16 will meet Thursday 3:30-4:45 p.m.

All students will supply own materials and these may be purchased at the first session of each class.

Mrs. Margaret Carter will be the instructor. For further information call the Recreation Department 322-3161 ext. 68.

Referendum Is Suggested On Two Hospital Districts

By BILL SCOTT
Seminole County Commissioner Dick Williams Monday joined the Seminole Memorial Hospital trustees as a liaison between the two county hospital districts and was questioned concerning the report that the commission would not press for passage of a legislative act creating two county hospital districts.

Williams said he felt the county commission would not recommend that two hospital districts be created, but would recommend a referendum on the issue, since it was a controversial subject.

Presumably that vote would come through a referendum of county voters to be set at a time in the future.

Williams reported no decisions had been reached on placing the matter on the agenda for consideration by the legislative delegation at tonight's Sanford session. "If the two district question is on the agenda, it will be on the Feb. 24 session," Williams added. That meeting will be held at Casselberry.

John Evans of Oviedo, a foe of county hospital districts, told Williams there was no legitimate reason for two hospital districts, unless another hospital was going to be constructed. As a South Seminole property owner, Evans explained the taxes would be too much to undertake.

Evans also explained the hospital's computer and would operate it as a "model" for other hospitals to examine. On a motion by Caraway, the trustees approved the five-year non-cancelable contract.

Where we were level with others, there was no action taken," Caraway added.

In another action the trustees approved letting a contract for a five-year period with Florida Software, Data Processing firm, based on \$1.65 per patient day.

Robert Morris, former hospital administrator, announced that on March 8, 9 a joint accreditation inspection of the hospital will take place.

In another action the trustees approved withdrawal of \$100,000 from the hospital account at an Oviedo bank for deposit in any Seminole County bank certificates of deposit so the hospital can draw a higher interest rate.

Hospital Workers Get Pay Increase

By BILL SCOTT
Andrew Caraway, trustee, also explained the hikes were not across the board increases, but in part was based on salaries other hospitals in this area are paying employees for the same jobs.

Where we were level with others, there was no action taken," Caraway added.

In another action the trustees approved letting a contract for a five-year period with Florida Software, Data Processing firm, based on \$1.65 per patient day.

Robert Morris, former hospital administrator, announced that on March 8, 9 a joint accreditation inspection of the hospital will take place.

In another action the trustees approved withdrawal of \$100,000 from the hospital account at an Oviedo bank for deposit in any Seminole County bank certificates of deposit so the hospital can draw a higher interest rate.

Emergency Hospital Staff Full

By BILL SCOTT
Complete round-the-clock coverage of the Seminole Memorial Hospital emergency room is expected within a few days, according to information disclosed by Robert Besserer, hospital administrator, during Monday's trustee meeting.

Besserer said he had arranged already for 7 a.m. until noon coverage Monday through Friday in the emergency room and he advised there were four additional Navy doctors coming in for the 1 p.m. until 7 p.m. Monday through Friday shift, thus completing the coverage. Navy doctors are handling the 7 p.m. until 7 a.m. shifts as well as weekends.

Dr. Brooke Smith, hospital medical staff chief, reported there were five more doctors moving into the area and these had been accepted by the medical staff for practice at the hospital as staff members with all privileges.

New doctors were listed as Dr. William E. Pate; Dr. Santiago Valle, Dr. William Metzger, Dr. Robert S. Ellis and Dr. Fredrick. In discussing the new staff members, Dr. Smith related this number would increase to 34 the number of physicians now on the hospital medical staff.

Curtis Holland, trustee, advised the group he wished to go on record as being opposed to the action taken by trustees during the January meeting, which removed the Bell Telephone Company as the lessor of telephone switching equipment in favor of doing business with an independent concern at a less cost.

Holland said he was ill and unable to attend the January meeting in which the trustees voted to replace Bell, but wanted to have his vote recorded for the record.

On another matter, Robert Besserer, administrator, advised he was consulting three firms relative to the hospital installing its own laundry system. He said he hoped to have something to offer at the next trustee meeting in March.

ANNE STARNES, Vihlen Road resident (standing) told Seminole Legislative Delegation "nobody's pushing me around" as she actively opposed city of Sanford "pocket" annexation bill. The delegation refused to introduce the bill in its present form and Sanford City Commissioners declined to revise the measure, effectively killing their effort for this year. Leading the fight against the "pockets" bill was Mrs. Edna Norman, seated at left, who has opposed such city proposals for 15 years. Seated at right is architect Hal Harris. (Bob Lloyd Photo)

At Lake Mary Incorporation Okay

(Continued From Page 1)
department, \$10,000; police \$33,300 and other expenses \$53,300, of which \$14,600 is earmarked for contingencies.

Sen. Wilson took exception to a \$1,000 clerk's salary, contending one could not be hired for such a minimal amount, but Freeman mentioned the clerk at Winter Springs receives less.

Also queried was an office for the city hall, and Freeman said the Chamber of Commerce building could be utilized pro tempore, and again cited Winter Springs rents a city hall from a water utility company.

Engineer B. C. (Cal) Conklin gave a feasibility study relating utility services would not be feasible in sparsely settled areas of the community.

Chamber of Commerce President Donald Jackson, told the delegation the motivation in incorporation was based upon serving people do not currently have. The water system, he outlined, is inadequate and receives constant complaints.

Ken Dyer, district manager, Florida Power Corporation, related a street lighting plan has been drafted and, if the community is incorporated, "we are prepared to light up Lake Mary."

"No opposition was voiced to the incorporation," Dyer said.

Telephone Wiretaps Probed

MIAMI (AP) — Dade County Chief Circuit Judge Thomas E. Lee says he will appear before the county grand jury today to discuss the panel's role in a controversial court corruption probe.

Lee's session with the jury comes in the wake of a growing furor over whether Volusia County State Atty. Stephen Boyles, who has been appointed special prosecutor in the investigation, will seek to transfer the case to another county grand jury.

The investigation centers on telephone wiretaps of conversations between Miami political figure Frank Martin and more than 100 persons, including judges, elected and appointed officials.

Lee declined to discuss what he would tell the grand jury but said he would meet with the panel after discussing the case with Boyles.

Appeal Made For Families In Tornado

ORLANDO, Fla. (AP) — U.S. Rep. Bill Gunter says he'll make a last-ditch appeal to President Nixon for federal aid to families who lost their homes when a tornado swept through Orlando last month.

Gunter, freshman Democrat from Orlando, said Monday he appealed to three federal agencies for help after touring damaged areas of the city.

"Thus far they have refused to break through their rigid guidelines," Gunter said of the Federal Housing Administration, the Department of Housing and Urban Development and the Office of Economic Opportunity.

"I shall ask the President to help find an agency that can pry loose something to help," he said.

Second row, from left, are: Martin Neiswander, David Berrien, Rose Southward and Jim Hunt. Back row, from left, Jacob Best, John Polk, Jake Adams and Braxton Perkins. Winners will receive a steak cook-out at a later date. (Mike McDonel Photo)

Kissinger Resting After Hanoi Visit

By DAVID J. PAINE Associated Press Writer HONG KONG (AP) — Henry A. Kissinger arrived here this afternoon for a two-day rest en route to Peking after three days of talks in Hanoi. The presidential envoy's plane landed at 2:40 p.m., three hours later than expected. A U.S. official reported that Kissinger was delayed by a breakfast meeting with Le Duc Tho, the North Vietnamese Politburo member with whom he negotiated the Vietnam cease-fire agreement. The official said Kissinger and Tho had "a couple hours of talk." He added that he didn't know "whether this was a discussion of substance or merely a social occasion."

In Florida Police Crowd School Campuses

Some Florida schools took to the appearance of police academies today as officers flooded campuses to prevent possible violence resulting from racial disputes. Contingents of police were on hand at schools in the Panhandle, the lower East Coast, the Gulf Coast and in Central Florida as officials tried to keep open schools that had been closed by fighting between black and white students. Meanwhile, black students in Washington County were being advised by a spokesman for the National Association for the Advancement of Colored People to stay home because "the schools are not safe for black children." East's High School in Lake County, closed Monday after racial fighting, and schools in Hillsborough County that were scenes of fighting last week but were closed Monday for a local holiday, were to open today with officers on the alert for possibly more trouble. More than 60 officers were expected again at Boca Raton High in Palm Beach County where enrollment dropped to nearly half Monday after the school was closed several times last week. Police were also watching over nearby Atlantic High in Delray Beach, Escambia High at Pensacola in the Panhandle, and five schools in Pinellas County on the Gulf Coast. In Washington County, Rev. H. K. Matthews said black students would stay away from Chipley High and other county school officials to hire more black teachers and administrative workers. He said the association had also asked for the removal of C. C. Coleman as Chipley principal. Kelly Brock, Washington County School Superintendent, said Coleman has been reassigned as community school director. But Brock said the action had been planned for some time and was not a result of the NAACP request.

Cross To Oppose Paroles

TALLAHASSEE, Fla. (AP)—Parole Commission Chairman Armond Cross says despite serious overcrowding he'll oppose any attempt to reduce Florida's prison population through the indiscriminate granting of paroles. "The purpose of parole is not to reduce prison population," said Cross Monday. "At best it is a pleasant byproduct." Corrections Director Louie Wainwright last Thursday closed the state's prison system to new inmates because he said more than 10,000 inmates were jammed into facilities designed to accommodate 8,500. Corrections officials have blamed part of the overcrowding in Florida's nine prisons on the state parole system, which they claim is too slow and inefficient. But Cross said virtually all the inmates considered a good parole risk have already been let out, "and now we're down to the hard-core element." Wainwright said he hopes to find room for 200 more inmates through using emergency facilities. An old Air Force radar base at Cross City is expected to hold 220, and a renovated migrant labor camp in Clermont 300, but these facilities won't be available for several months, said Wainwright. More than 200 felons are being kept in county jails awaiting transfer to the state prisons. State corrections officials complained that the parole and probation commission had originally promised to parole 400 inmates a month. However, that commitment was recently chopped to 250 a month and in January only 145 were released.

Airlines Squabble In Miami

MIAMI BEACH (AP)—Tourism officials have asked the federal government to turn down American Airlines' request for a Miami-to-Los Angeles route because of the company's advertising campaign on a theme of "reasons not to go to Miami." American doesn't serve Miami now but has an application pending. In the meantime it's trying to persuade northerners to take its planes to other vacation spots. "I write Aeronaotics Board recommending that American be denied an application to serve Miami from the West Coast," Gov. Govert said Monday. Govert is executive director of the Miami Beach Tourist Development Authority. Govert also said he is asking others in the Florida tourism business to put pressure on American to get it to change the ad campaign. "Sometimes airlines get carried away in their advertising," said Lew Price, director of the Miami Metro Department of Publicity and Tourism.

Editorial Comment

U.S. Must Face Up To Trade Problems

While economists in the United States of America are viewing with furrowed brows the gloomy trade figures which show that we bought \$6.4 billion more from foreign countries last year than we sold to them, citizens in general do not appear to share that concern.

Trade and balance of payments problems for the most part are esoteric matters to be handled by governments. So far as the average American is concerned times are good—so good that we are buying more imported goods than ever before even if they cost much more.

Not the least of the problems before the economists as they ponder the complexities of the trade deficit incurred by the United States is how to close the gap of concern between the average citizen, who is faring well, and the government which is not.

From all appearances the time for experts to solve the problem is growing short. We have had 15 continuing months of the economic hemorrhage and the situation is getting worse instead of better.

Quite apart from the harmful economic consequences of trade deficits, but just as ominous is the domestic psychological change that they bring. We are seeing some of the fallout in Congress now where arguments for legislation to erect barriers against foreign goods are getting louder.

The task before the government economists is to convince the American people that free trade, while the problem is growing short, we have had 15 continuing months of the economic hemorrhage and the situation is getting worse instead of better.

New Politics

Sen. Vance Hartke, the Indiana Democrat, talked security guards for two airlines into letting him board their planes without going through the anti-hijack screening demanded of all other passengers. After all, he is a United States senator.

So what? A third airline balked at his attempt to pull rank at the boarding ramp, and properly so. A screen with holes in it is no screen at all.

This bit of petulance by Senator Hartke is baffling. Politicians tend to bend over backwards to prove they are just common folks like the rest of us. Maybe the senator is trying a new approach to politics—if you're going to be a big shot, why not act like one?

Advertisement for The Sanford Herald, including subscription rates and contact information for various departments like circulation and advertising.

Overseas investments and world leadership has served the United States well. Our greatest trade growth has occurred in the years since the restrictive Smoot-Hawley Tariff Act of 1930 was repealed. For example the trade between 1938 and today has increased more than tenfold.

By the same token, the economic contributions of the multinational corporations to the prosperity of the United States in the decade or so since they have been a significant factor have been great. U.S. Chamber of Commerce figures show that they have increased their employment in the United States by 31.1 per cent in the last decade, for example.

From all appearances the time for experts to solve the problem is growing short. We have had 15 continuing months of the economic hemorrhage and the situation is getting worse instead of better.

Quite apart from the harmful economic consequences of trade deficits, but just as ominous is the domestic psychological change that they bring. We are seeing some of the fallout in Congress now where arguments for legislation to erect barriers against foreign goods are getting louder.

Cost Rise for Aged A Congress No-No

WASHINGTON (NEA) — The administration's fiscal budget analysis for 1973 is less likely prospects is enactment of President Nixon's budget proposal to saddle Medicare beneficiaries with a larger share of medical costs. The added burden might come to a billion dollars a year.

Social Security-Medicare is one realm where Congress has a successful record of bucking the White House. It has rammed big benefit increases down the President's throat, and has previously rejected cost-sharing proposals like the one now at issue.

In the administration's special budget analysis on Medicare, it asserts confidently that "cost-sharing programs are being reformulated to reduce financial burdens of lengthy hospitalization while providing stronger incentives against inappropriate or uneconomic use of services."

Translated, that means the White House thinks too many elderly folk eligible for Medicare's hospital insurance seek hospital care, either on their own initiative or upon encouragement by doctors.

If the beneficiaries have to pay more in the early stages, it is argued, they'll be "more aware" of the financial load and more likely to seek other means of treatment.

But key men on Capitol Hill believe assistance under Medicare already has severe limits. They view any move to stiffen them further as possibly destructive of the law's purpose.

Under present law, anyone 65 or over and otherwise eligible for Social Security benefits automatically is enrolled in Medicare's hospital insurance. Those eligible have to pay the first \$72 of charges, but then Medicare picks up the tab for most services through the first 90 days of their hospital stay.

But the law also gives beneficiaries a "lifetime reserve" of 60 extra hospital days to draw upon. If an eligible person stays on beyond the 90-day period, he must pay \$36 a day for each day used. And, once the lifetime reserve is "spent," the beneficiary city never call upon it again. In other words, if he returns to the hospital in a later spell of illness, Medicare benefits will end after 90 days.

Under Mr. Nixon's proposal, the beneficiary would begin by paying not a flat \$72 but whatever a given quality hospital charge is for the first day's room and board. It might be less, in the case of some municipal hospitals, but it is more likely to be more. The present \$72 is Medicare's determination of "national average cost."

Further, the President would have the beneficiary thereafter pay 10 per cent of all hospital charges, including room and board, for the first 60 days. As indicated, Medicare's insurance today covers most of those charges.

Some specialists in this field believe that this provision would encourage hospitals to load short-stay beneficiaries with nursing and medical services, and that it would encourage them to charge more for those services. Mr. Nixon would also hit the beneficiary hard on Medicare's "medical insurance," covering doctor bills and other charges. It would boost the net deductible (cost borne by the beneficiary) from \$60 to \$85, and require him to pay 25 per cent of subsequent charges in excess of the present 20 per cent.

Sanford Council Actions

TV Football Blackouts?

Sanford City Commissioners declined to accept a Lakeland Development Ltd. offer of \$36,675 for a city-owned lakeland lot fronting on Seminole Boulevard west of the Standard Oil Property.

At the request of the Orange City Town Council, Volusia House Society members Roger G. Hinkle and Earl Webb, with the assistance of Jim Olson will conduct a rose pruning demonstration, beginning at 10 a.m. Thursday, Feb. 15 in the Orange City Park Rose Garden.

Commissioners voted 4-1 to grant a request by Phil Zeuli for a city permit to fill in a portion of Lake Jennie, west of U.S. 17-92 and south of Florida Avenue. The permission is subject to a bulkhead and drainage being constructed to city-approved plans and approval by appropriate state agencies of the lake fill.

Commissioner A. A. McClanahan voted against the measure from the "ecological standpoint" saying he's afraid it will set a precedent for filling of landlocked lakes in the city.

Zeuli said he intends to build 48 apartment units on 3.6 acres by filling 2.8 acres of the lake with 30,000 cubic yards of fill. He proposed a corrugated metal bulkhead topped with concrete coping be installed after the fill is deposited in the lake.

City Manager Warren Knowles said this operation would "cloud" the lake waters for at least six months and "kill fish like for 200 feet into the lake" by suffocation by suspended dirt.

Zeuli said the fill would range from 60 to 110 feet out from the present Lake Jennie shoreline. He claimed to build the bulkhead first and then fill would be too costly.

Attorney S. Joe Davis pointed out that the Trustees of the state's Internal Revenue Fund will, if they take jurisdiction of the Lake Jennie fill project, investigate the proposal and could require the bulkhead construction before filling.

Davis said his client had no intent to kill the lake's fish life. If the state doesn't take jurisdiction of the project and make ecological studies Davis said his client will submit plans "to the city commissioner's satisfaction" on the project.

Top Fee Increase Killed

Commission failed to approve adoption of an ordinance that would have raised development (utility tap) fees for apartments, patio homes and condominiums to a flat \$500 per unit. The controversial ordinance was the first unit proposed in a building, \$25 for the second unit and \$137.50 for remaining units.

Fire Insurance Rate Hike

Knowles reported the state Fire Rating Service has notified the city new fire insurance rates in the city will jump from the present class five to class 10.

THE 60 mph motel

While the average motel is all very nice in its place, it has a monotonous habit of staying in its place. You don't have to put up with that.

With a VW Camptour, you can always leave the place you're without ever leaving the lodgings you're in. The lodgings go where you go.

Up to the loftiest mountain tops. Into the deepest forests. Out to the most remote beaches. Although the lodgings aren't exactly plush, they're very cozy.

There's even a kitchenette. Complete with a cupboard, a dining table, an icebox and a sink.

Cheap for a car that'll take you down life's highways.

Ridiculous for a motel that'll take you down life's highways.

Emotion Evident During Hearing

By MARION BETHA

Vitriolic and acrid comments, vituperation of public officials, emotionalism, all were in evidence at last night's meeting of the Seminole-Brevard legislative delegation who met to consider three proposed local bills.

The controversy erupted over the proposal by the City of Sanford to annex without referendum certain "pockets" which are completely surrounded by incorporated areas. Amid the discussions, one fact was saliently evident, the county residents want no part of Sanford.

Mrs. Edna Norman, who has for many years waged a successful campaign to prevent annexation of these pocket areas, presented a petition to

the delegation comprising approximately 990 signatures. The County Commission meeting room was jammed with residents protesting the proposed legislation, with citizens lining all the walls in double file.

Preceding the remarks, Commission Chairman Sidney Vihlen Jr. apologized to the audience for the inoperable "mikes" noting "This is what happens when a bunch of county folks try to operate \$5 million worth of equipment." He continued "No one expected such a large turnout as this."

FIRST PERSON

The first person voicing protest was Dr. James Foley, Orlando Drive, who contended the builders and developers are

attempting to make the county a "concrete jungle" and that the taxpayers will be forced to leave and find a less congested area. The benefits derived from the annexation, Dr. Foley said, knowles be "strictly for the politicians and developers."

The principal target for the caustic remarks was Sanford City Manager Warren Knowles who was vilified by many residents both in formal presentation comments and in muted asides. Delegation Chairman Eugene Mooney once had to rap for order when Mrs. Anita Williamson queried as to the cost of sewer hook-ups and digressed to the drainage problem allegedly created by the city near her residence at Briarcliffe Avenue. Mooney told her she would have to quiz Knowles as to the drainage problem, and a member of the audience injected, "I don't think we want to hear from the city manager."

Another area resident, Mrs. Ann Starline, told the delegation "no body's pushing me around. I can't keep them off but I can make them mighty sorry they went in there." She contended there was little use of the conflict in Vietnam when "we have communists here trying to take away our rights." (There was much contention over the provision in the bill for annexation without referendum.) She continued, "What has Knowles got to do with my property?"

SANFORD MAYOR Lee P. Moore (right) explained Sanford request for "pockets" annexation bill to Seminole Legislative Delegation public hearing at Sanford courthouse but the proposal met heated opposition from both "pocket" dwellers and even citizens from south Seminole fearing they could later be affected by like legislation for other cities.

Mooney's Annex Bill Is Criticized

By DONNA ESTES

CASSELLBERRY — The proposed "Mooney" bill sponsored by State Rep. Gene Mooney to curb the power of municipalities to annex unincorporated areas was branded an "unwise" piece of legislation by Casselberry City Councilman Edith Duerr at last night's regular meeting of the City Council.

Dr. Duerr reminded that three years ago County Commission Greg Drummond made an effort to get a similar bill passed by the Legislature, but failed when the six cities of Seminole in a combined effort opposed the legislation.

She said the proposed law require 90 per cent of land annexed be developed before annexation would prevent sound planning by the cities. Dr. Duerr pointed to the construction of the Regency, Granada and Lake Howell town apartments, all in excess of what the city would permit, "as examples of the type development the city will allow."

Mrs. Norman also cited un-American ramifications in reading the bill as presented with the notation of annexation by city ordinance "with or without consent" of property owners. "We might as well live in Russia," she stressed amid a burst of applause from the audience.

Mrs. Norman also mentioned this is the 18th year in which the battle has been waged between the city seeking annexation and the taxpayers rejecting it. She also cited the fact that when Gordon Frederick was a member of the state legislature he opposed the bill "fair way to annex is through referendum petition." She contended "it's not right to reach out and grab. Each year the city thinks up something slicker and each year the legislature has turned them down."

Sanford Pockets Unpicked

(Continued From Page 1)

Robert McDonough of Dreamworld, which is one of the pocket areas involved, asked, "When we are taken in, when do we get streets, sewer water, lights—how soon, when the fact is that there are areas within the city now without these services?"

Mayor Moore said that all areas can be served within a reasonable time — "It is simply a matter of hooking up." City of Sanford Manager, Pete Knowles said that a reasonable time could be defined as 30 days. Moore contended that drainage, which is a current problem in Dreamworld, is indeed a monumental problem. The streets can be built with revenue sharing funds within five years.

He considered noting that I was signing that paper at City Hall under duress—such tactics should raise appropriately a swastika on top of the court house." At this point, when Imig digressed onto other tactics related to this thought, Representative Mooney, banged the gavel and asked if he wanted to be removed. "Keep on the subject air, if you wish to discuss this other matter at another time, we will hear you."

Matt McCleave of 1040 W. Tulane in Weathersfield, said that he represented 400 homes under the same circumstances which might come under the same pocket category. "We are afraid of the precedent here, we will be forced to pay taxes without representation."

need from the Sheriff's department. "City of Sanford can't offer me nothing cause they got nothing to offer me," he concluded.

And so it went, on and on—a lady spoke up and said that she was a pioneer in this area. She said "the only thing Sanford ever gave us was that zoo and it was in better shape years ago than it is now. We can't use that grand civic building and we can't read any books cause we don't live in the city. You folks better look to God—for he'll never let you touch my property." Russ Williams told the delegation that he had been in Sanford for seven years and still is on a septic tank.

Finance ministers of the nine Common Market nations scheduled a meeting in Brussels this afternoon to discuss the international monetary situation. One of the nine ministers, Valery Giscard d'Estaing, of France, expressed approval of the devaluation, but the Paris financial and business community was fearful.

Burglaries, Thefts Are Investigated

By GARY TAYLOR

Sanford Police are investigating a break-in at the Army-Navy Strip, 401 Sanford Avenue, after Patrolman D. H. Whitmer discovered the break-in at 1:30 a.m. this morning.

Taken was an unknown quantity of wrist watches, men's turtlenecks, boots and men's hats. Investigation was turned over to Det. L. William Lovens.

Sgt. Roy Hughey of the Seminole County Sheriff's Department reported the theft of a 1966 Ford pickup truck, belonging to Joan Smith, 616 Webster Avenue, Altamonte Springs. The truck was valued at \$1,000, but contained a two-way radio worth \$800, an electric welder worth \$1,000 and hydraulic jacks and other tools valued at \$1,500.

Deputy Dave Zorian reported a break-in at the residence of Mary Greene, 185 East Lake Mary Avenue, Lake Mary. Taken was an unknown amount of money, along with household goods.

A 16-year-old Altamonte Springs boy was turned over to juvenile authorities after Deputy Fred Johnson arrested him for possession of marijuana. The boy, a 11th grader at Lyman High School, was turned in by his father.

Warm Trend Should Help S. Carolina

By THE ASSOCIATED PRESS

Rising temperatures were expected to aid completion of snowclearing operations on South Carolina highways today and free the last of more than 16,000 stranded motorists.

Gov. John West asked President Nixon to declare a disaster area of 31 of the state's 46 counties because a storm dumped up to 23 inches of snow on the state.

"The heavy snow fall and drifts of Friday night and Saturday paralyzed transportation generally from the midlands to the seacoast," West wired Nixon.

West said all major roads are expected to be open by noon today.

At least 12 deaths in South Carolina were attributed to the weekend storm, and three persons died in Georgia.

Most of the snow that fell in record amounts in Alabama and Georgia melted Monday as a large high pressure system warmed temperatures throughout the South. During the weekend, Alabama received 13 inches of snow, and parts of central Georgia reported 15 inches. North Carolina got seven inches.

Meanwhile, another major storm struck California today, spreading heavy rains over southern areas, creating mud slides and posing threats from flooding and rock falls.

At least 10 persons died in weather-related accidents during the past three days of stormy weather. Seven were killed in traffic accidents in the Los Angeles area. The search for a San Diego man was called off on the snowbound slopes of Mt. San Jacinto in Riverside County.

Foreign Goods To Cost More

By G. GREGORY NIXES

WASHINGTON (AP) — The immediate impact of the 10-per cent devaluation of the U.S. dollar will be to increase the cost of foreign goods sold in the United States.

Cost of traveling and living abroad will increase for Americans; they will have to pay more U.S. dollars to buy foreign currencies.

The devaluation means that the value of the dollar has been reduced in comparison with currencies of other countries.

It does not in itself mean that American workers will earn less, nor that American consumers will pay more for domestic products.

However, unless foreign products absorb some of the cost of the devaluation, which follows an 8.57-per cent devaluation in December 1971, foreign goods will cost more to the U.S. consumer.

For example, if a German Volkswagen formerly sold in the United States for \$2,000, a 10-per cent decrease in the value of the U.S. dollar in comparison with the German mark should increase the price to \$2,200.

The Germans, however, could decide to absorb part of the devaluation by reducing their profits. They might do this for fear of drastically reduced sales if they increased the price to cover all of the devaluation.

Dollar Cut As Nixon Returns

By FRANCIS LEWINE

WASHINGTON (AP) — President Nixon cut short a California trip and returned to Washington Monday night as his chief economic spokesman was announcing devaluation of the U.S. dollar.

Aides refused to acknowledge any link between the money crisis and Nixon's hasty departure from the Western White House earlier that day.

Nixon earlier had said he planned to stay at San Clemente until midweek or perhaps until Feb. 19 when Henry Kissinger is due to return from visits to Hanoi and Peking.

But Monday morning, Press Secretary Ronald L. Ziegler announced Nixon's return plans and said only "there is no specific reason I can point to."

Ziegler said Nixon had been conferring by telephone from California with Treasury Secretary George P. Shultz and other economic advisers and had made the decision on the devaluation Monday morning.

On his way home aboard the presidential jet, Nixon talked via phone with Shultz just before the announcement of the monetary changes. And he also discussed economics with Teamsters union President Frank Fitzsimmons, who had been at the Western White House Monday morning and was given a ride back to Washington on the presidential jet.

Much of Nixon's time on his final day in California was taken up with following the return of the first Americans released from prisoner-of-war camps in Vietnam.

He got a telephone call from one of the soldier officers in the group, Air Force Col. Robinson Hiner, a POW more than seven years. He told Nixon the POWs appreciate the President's personal efforts "to get us out of North Vietnam," and said he wanted to let Nixon know "how much support you have among the prisoners."

U.S. Dollar Devalued In Quick Nixon Move

By BILL NEIKIRK

WASHINGTON (AP) — President Nixon has devalued the dollar by 10 per cent in a dramatic move to calm troubled world money markets and restore confidence in the battered U.S. currency.

Nixon's decision, announced at a late Monday night news conference by Treasury Secretary George P. Shultz, marked the second dollar devaluation in 14 months. It swept aside a world currency agreement reached in December 1971.

Although the devaluation was widely expected as a result of tumultuous monetary disruptions on money-exchange markets in the past few weeks, few thought it would be so large.

Shultz told newsmen that the move, combined with two other key trade and monetary actions,

would benefit the U.S. consumer, workman and businessman.

The immediate impact of a devaluation is to raise the price of imports from foreign countries. But, because the dollar is now cheaper in relation to other currencies, prices of U.S. exports will be less.

The devaluation will be achieved formally by raising the official price of gold. Although this will take an act of Congress, the dollar depreciation will take place immediately in foreign money markets.

Shultz also announced that Japan's currency, the yen, will float, meaning that it will find its own value in the marketplace. He said the expectation is that the yen will rise in value even more than 10 per cent.

In Tokyo, the Japanese government announced its currency market will be reopened Wednesday. The Finance Ministry said the Bank of Japan might intervene if the yen floats to an overvalued level.

Although West Germany was the focal point of the dollar crisis that forced closing of foreign exchanges in several countries, there was no immediate change in the value of the mark, and probably won't be. The French franc also is expected to keep its present par value.

Overseas \$ Markets Are Closed

LONDON (AP) — Most foreign exchange markets remained closed today as governments around the world assessed the likely impact of the devaluation of the U.S. dollar.

The West German government warmly welcomed Washington's action but said it would not revalue the mark upward.

The other currency now attracting holders of dollars, the Japanese yen, was freed to find its value according to the demands of the market. Finance Minister Kiichi Aichi indicated at a news conference that the float would last for some months.

The London foreign exchange market reopened today, but all other major currency markets were closed for the second day. Reopening of the Tokyo, Paris and Frankfurt exchanges was announced for Wednesday.

The British pound opened in London at \$2.48, a jump of 10 cents—or just over 4 per cent from the previous day's closing. But, within an hour, it dropped back to \$2.45.

Finance ministers of the nine Common Market nations scheduled a meeting in Brussels this afternoon to discuss the international monetary situation.

One of the nine ministers, Valery Giscard d'Estaing, of France, expressed approval of the devaluation, but the Paris financial and business community was fearful.

The devaluation wasn't taken as a sign of U.S. weakness, said one French banker, adding that he expected the United States to be "very tough from now onwards."

Generally, however, officials of foreign governments with held comments while they studied the situation.

In Ottawa, Finance Minister John Turner said the Canadian dollar would continue to float, as it has for nearly three years. Trade Minister Alastair Gillespie predicted that, in effect, it would drop with the dollar, maintaining their rough parity.

Israel also announced that its currency would drop with the dollar.

A change in the value of the American money had been widely expected, but the devaluation, which follows an 8.57-per cent devaluation in December 1971, foreign goods will cost more to the U.S. consumer.

For example, if a German Volkswagen formerly sold in the United States for \$2,000, a 10-per cent decrease in the value of the U.S. dollar in comparison with the German mark should increase the price to \$2,200.

The Germans, however, could decide to absorb part of the devaluation by reducing their profits. They might do this for fear of drastically reduced sales if they increased the price to cover all of the devaluation.

Sanford Seeks Suit Settlement

By BOB LLOYD

SANFORD CITY Commissioners, in a 3-2 vote, approved special City Attorney William Hutchison seeking settlement of a federal court suit against the city out of court.

The suit, filed in August 1970 by a group of Georgetown residents, was to enjoin the city from carrying out a special assessment paving project but has evolved into a full-blown attack on discrimination.

Hutchison said a "suggested settlement" worked out by attorneys for the plaintiffs last week says the city will modify and adopt a paving program for 28 miles of dirt streets in the city using Federal revenue sharing funds, except \$10,000 already committed for recent repaving of Airport Boulevard and approximately \$230,000 needed to "solve the fire station problem."

The paving program will utilize "economy" plan paving without curbs and gutters. The revenue sharing funds received over the next five years would be used and remaining money for the paving would be raised by assessing abutting property owners for 100 per cent of the cost not covered with the revenue sharing funds.

Hutchison said the attorneys agreed streets where engineers determine drainage problems make paving not feasible will be excepted from the program.

Property owners will have the option, where engineering feasibility is demonstrated, to finance additional construction of curbs and gutters by the same assessment method, but only if 100 per cent of the affected property owners agree to pay. The city's paving program will take two years for planning and engineering and construction would be within five years. Under the proposed settlement the Georgetown area will be given first priority for construction.

Hutchison said the settlement will mean there will be no revenue sharing funds for the city's drainage problems except where it is directly related to paving.

This means other projects such as beautification will not be funded by revenue sharing monies.

For Car Tampering Ford Fined \$7 Million

By TOM SEPPY

WASHINGTON (AP) — The Ford Motor Co. was fined \$7 million today on charges that its employees illegally tampered with 1973 Ford cars undergoing antipollution tests, the Justice Department said.

Ford filed a contest plea to a 350-count criminal information, filed in the U.S. District Court in Detroit by the Justice Department, and signed a consent decree concluding a civil suit.

The court proposed the maximum fine of \$3.5 million in the criminal case. It also approved a \$3.5 million penalty agreed to by Ford and the government in the civil case.

In addition, Ford was enjoined from committing similar violations in the future. The matter goes back to last April and May when Ford submitted its antipollution test data required for federal certification of its 1973 cars.

On May 16, the firm withdrew its applications and told the Environmental Protection Agency they had been based on tests which included unreported maintenance.

Ford resubmitted its applications and repeated the testing. The EPA turned over to the Justice Department its evidence knowingly to submit false information on testing and reporting of maintenance on prototype engines.

The criminal information charged Ford with making false reports to EPA in its applications for certification of four sizes of engines.

The applications failed to contain all pertinent maintenance performed on the engine during the tests, the action said.

Sunning Seals

are posed for a picture on a rock off Southern California's Stinson Beach. It's not really wildlife, however, but a still life. The glistering lifelike figures are the hand-carved work of Peter Ahts, below. From choice bits of driftwood, beams from crumbling buildings and anything else remotely carvable, he lovingly sculpts models of whales, sharks, seals and dolphins. Tools are sand-pans, chisels and sandpaper — and most importantly talented hands.

School Denies Charges

ORANGE CITY, Fla. (AP) — Equipment which police raiders found at a school for troubled children was not used to punish any pupils, says local police.

State Atty. Stephen Boyles said the charge was based on an affidavit by the mother of Peter Zakresski of South Daytona, Fla., claiming the boy was handcuffed to a metal porch railing on Oct. 21, 1972.

Noon Stock Report

NEW YORK (AP) — The Dow Jones Industrial Average closed at 1,100.14, up 1.14 points from 1,099.00. The S&P 500 index closed at 100.14, up 0.14 points from 99.00.

Seek Second Loop Win Tribe Visits Daytona Seabreeze

By GARY TAYLOR
Herald Sports Writer

The hot Big Eight conference battle for first place continues, with Gainesville and Winter Haven deadlocked with 11-1 records and only two games remaining to be played.

Meanwhile, the Sanford Seminoles are looking for their second conference win and trying to get something going before the district tournament opens February 22 at Mainland High School in Daytona Beach.

In tonight's action, the Seminoles travel to Daytona Beach to meet Seabreeze, while elsewhere in the conference, Winter Haven, 11-1, trots to Lakeland, 8-3; Lakeland, Kathleen, 4-9, visits Gainesville, 11-1; and DeLand, 6-7, is at Daytona Beach Mainland, 5-7. All games start at 7:45 p.m., with junior varsity play at 6:15 p.m.

Seminole carries a 1-11 conference mark into tonight's game, while Seabreeze is 5-8. In Friday night conference action, Sanford fell to Mainland 72-62, while Seabreeze was blasted 85-68 by the Winter Haven Blue Devils. Gainesville easily handled Lakeland, 78-66, but Lakeland, Kathleen upset DeLand, 78-76.

The Seminoles have suffered their worst season in several years, and it is the first losing season for a Seminole High team since coach Joe Mills took over the team.

But the regular season means nothing when tournament action rolls around. Every team gets a chance in the tournament, and Mills is hopeful that the team can get rolling in these last few outings and carry momentum into the tournament.

One thing that the Seminoles need is rebounding. They lack height, and they need some rebounding out of center Jim Clements and forwards Clifford Manley and John Zueli.

Pat Crummins has come back into the lineup at one of the guard positions, and Tommy Wheaton and Ricky Russi also see a lot of action at that position.

Clark on Saturday. "But when Mike (Clark) got hurt it sort of changed things around." I had to rest him and when I did that's when they FTT made their comeback," Clark continued.

"But you have to give our guys a great deal of credit," Clark went on. "After FTT took the lead our guys came right back to regain the lead and keep it."

The Knights may be in some sort of trouble if Mike Clark is not at peak efficiency and it's doubtful if he can be. The 6-0 senior contributed 19 points to the FTT winning effort over St. Leo in the first meeting.

Also playing well against the Monarchs were Arnett Hall with 18 and John Smith who pumped in 15 points and hauled down an equal number of rebounds.

FTU only had a two point lead, 30-28 at the end of the first half in the first confrontation with the Monarchs. They broke it open in the second half on the sharpshooting of Hall and Clark. Hall did his damage on long bombs while Clark was driving the Monarchs crazy with his unorthodox layup shots.

Hall continues to lead the Knights in scoring with a 19 point plus average. Clark has a 15 point plus average for the season while Smith has a 13 point average. Smith leads the team in collecting missed shots with an average of more than 10 rebounds per game.

Willy Belotte, a 6-6 freshman from Wisconsin, has been doing a great job of rebounding and scoring for the Knights when called upon to fill a spot in the lineup by Coach Clark. Belotte had 16 points while playing less than half the game against FTT on Saturday night.

In his last three games Belotte has really come on strong. In addition to the 16 points, Belotte had 14 points against Georgia College the night before and pumped in 17 against Rollins last Monday night.

In the Knights the starting lineup should consist of Clark, Hall, Smith, Zettie McCrimmon and Pete Haas. Haas had a good game against FTT also, scoring 17 points in the game's high point honors with Hall.

Bench was in California Monday night, and planned to fly to New Orleans today.

His father, Ted, who operates a motel here, confirmed the signing. "You can say it was in six figures," he said.

The muscular Bench, one of baseball's glamour players, was expected to drive a hard bargain in contract talks.

He slugged 40 home runs and had 125 runs batted in while batting .276 last season and earning the MVP crown for the second time in three seasons.

Manley is currently ranked among the top 10 scorers in the Big Eight conference. Much of his scoring has come from the charity stripe where he has shown marked improvement and qualifying in the conference schedule Friday night when he best Lakeland at the Seminole High gym.

FIVE ON ONE situation doesn't seem to bother Seminole Junior College ace Bennie Shaw (35) as he charges toward hoop despite the odds in the Raiders game with Lake City. Marv Lloyd (42) contests the shot by Shaw as his four teammates prepare to help. Raiders, who lost

tempt, outscoring the Buccaneers by 10 points in the final frame. But the Mainland lead was just too great to overcome.

Manley is currently ranked among the top 10 scorers in the Big Eight conference. Much of his scoring has come from the charity stripe where he has shown marked improvement and qualifying in the conference schedule Friday night when he best Lakeland at the Seminole High gym.

HANDILY taking down rebound is SJC Raider star Bennie Shaw during the Raiders' loss to Lake City last Saturday night. While the loss damaged the Raider hopes they still have a very slim chance of making the playoffs.

Knights, Monarchs To Meet At Oviedo

By HERKY CUSH
Herald Sports Edition

Florida Tech's cage Knights are making their third appearance at the Oviedo High School gym this evening when they seek their 17th victory of the season against the Monarchs of St. Leo College.

The Knights already won a 66-55 victory over the Monarchs but after their play of Saturday night when they narrowly escaped defeat against Florida Institute of Technology.

"I felt we had the game won with that 22 point lead," said FTU coach Gene "Torchy" Clark on Saturday. "But when Mike (Clark) got hurt it sort of changed things around." I had to rest him and when I did that's when they FTT made their comeback," Clark continued.

FTU rolled handsily over FTT 81-63 in a game played on the losers floor and then had a 22 point lead Saturday night only to blow it and have to rally in the final minutes to bring home the victory.

That victory over St. Leo occurred in the fifth game of the season, nearly on the 12th of December, nearly two months to the day. Since that time the Knights have improved considerably but still have shown the tendency to let up on an opponent once they seemingly have the game won away.

FTU only had a two point lead, 30-28 at the end of the first half in the first confrontation with the Monarchs. They broke it open in the second half on the sharpshooting of Hall and Clark. Hall did his damage on long bombs while Clark was driving the Monarchs crazy with his unorthodox layup shots.

Hall continues to lead the Knights in scoring with a 19 point plus average. Clark has a 15 point plus average for the season while Smith has a 13 point average. Smith leads the team in collecting missed shots with an average of more than 10 rebounds per game.

Willy Belotte, a 6-6 freshman from Wisconsin, has been doing a great job of rebounding and scoring for the Knights when called upon to fill a spot in the lineup by Coach Clark. Belotte had 16 points while playing less than half the game against FTT on Saturday night.

The muscular Bench, one of baseball's glamour players, was expected to drive a hard bargain in contract talks.

He slugged 40 home runs and had 125 runs batted in while batting .276 last season and earning the MVP crown for the second time in three seasons.

Clark on Saturday. "But when Mike (Clark) got hurt it sort of changed things around." I had to rest him and when I did that's when they FTT made their comeback," Clark continued.

"But you have to give our guys a great deal of credit," Clark went on. "After FTT took the lead our guys came right back to regain the lead and keep it."

The Knights may be in some sort of trouble if Mike Clark is not at peak efficiency and it's doubtful if he can be. The 6-0 senior contributed 19 points to the FTT winning effort over St. Leo in the first meeting.

Also playing well against the Monarchs were Arnett Hall with 18 and John Smith who pumped in 15 points and hauled down an equal number of rebounds.

FTU only had a two point lead, 30-28 at the end of the first half in the first confrontation with the Monarchs. They broke it open in the second half on the sharpshooting of Hall and Clark. Hall did his damage on long bombs while Clark was driving the Monarchs crazy with his unorthodox layup shots.

Hall continues to lead the Knights in scoring with a 19 point plus average. Clark has a 15 point plus average for the season while Smith has a 13 point average. Smith leads the team in collecting missed shots with an average of more than 10 rebounds per game.

Willy Belotte, a 6-6 freshman from Wisconsin, has been doing a great job of rebounding and scoring for the Knights when called upon to fill a spot in the lineup by Coach Clark. Belotte had 16 points while playing less than half the game against FTT on Saturday night.

In his last three games Belotte has really come on strong. In addition to the 16 points, Belotte had 14 points against Georgia College the night before and pumped in 17 against Rollins last Monday night.

In the Knights the starting lineup should consist of Clark, Hall, Smith, Zettie McCrimmon and Pete Haas. Haas had a good game against FTT also, scoring 17 points in the game's high point honors with Hall.

Bench was in California Monday night, and planned to fly to New Orleans today.

His father, Ted, who operates a motel here, confirmed the signing. "You can say it was in six figures," he said.

Will His Fans Stay?

By GARY TAYLOR
Herald Sports Writer

DAYTONA — Will Richard Petty have as many fans when he climbs behind the wheel of his familiar blue and STP red number 143 car for the Daytona 500 this year? The car looks the same as last year, but there are some differences.

For instance, the car Petty will be driving around the Daytona trioval this year is a Dodge, rather than the Plymouth that kind of goes with the name. Petty.

He made the switch in a few races last year, and this season he'll drive the Dodge on all the super speedways. Of course, people still haven't forgotten Petty for changing the color of his car.

Petty blue was a familiar sight in victory lane until last season when Petty joined Andy Granatelli's STP racing team. And of course the color of STP team cars was STP red. So when Petty made his first appearance in 1972, it was called back home on the news car painted a combination of the two bright colors.

And there are some changes in the appearance of the Handelman, North Carolina driver who is seeking an unprecedented fourth win in the Daytona 500. He's wearing his hair a little longer, and don't let those television commercials fool you. You look for that guy and you'll never recognize Petty if he's standing right beside you, unless he has a suit on with his name on the back.

You see, that additional hair on the top of his head isn't all he's added. He now sports a Fu Man Chu mustache.

Petty was walking around the garage area Monday, chewing on a cigar longer than his impressive list of super speedway wins. He stopped to chat with co-drivers on several occasions, and wore a grin on his face as he watched the various pit crews with the hoods up having their problems.

front row by Pete Hamilton in a 1972 Plymouth. Baker, incidentally, drove Dodge last year, but was a teammate of Petty's on the STP team.

Petty was third in his 1973 Dodge, and a 1972 Dodge driven by Jim Vandiver, finished fourth.

Of course, Chevrolet fans are enthusiastic about 1973, especially after the success of Roger Penske's 1972 Chevy. Allison was "Driver of the Year" in the 1972 Coca-Cola Chevrolet, but he was fifth and sixth with Cale Yarborough and Coo Coo Marlin.

Foyt is also in a Chevrolet this year, so Chevy fans should have something to cheer about Sunday.

3 New Quintets In Top 10

By THE ASSOCIATED PRESS

College basketball purists would love an eventful showdown between UCLA and North Carolina State, both unbeaten and ranked 1-2 in the Associated Press weekly poll. But it won't happen.

UCLA, with 63 straight victories dating back to 1971, is headed for the National College Athletic Association tournament to defend its national championship. N.C. State won't compete there since the NCAA suspended the school because of alleged recruiting violations.

UCLA, 18-0 this season, retained its No. 1 ranking in the AP poll with 34 of the 35 ballots cast. The holdout, voting for N.C. State's Wolfpack, 19-0 for the season.

Third place belongs to Long Beach State, sporting a 20-1 record in the AP poll, 19-2, moved up to No. 4.

Marquette, 18-2, picked up a couple of places, moving into the No. 5 slot and North Carolina, 18-1, remained No. 6 despite dropping a three-point decision to N.C. State.

Three new clubs cracked the Top Ten, with Houston and Providence each jumping four spots to No. 7 and No. 8, respectively, and St. John's of New York picking up five notches from No. 14 to No. 10.

Marshall slipped one notch from ninth to No. 10.

Two losses last week tumbled Indiana from fourth to No. 11. Missouri slipped from eighth to No. 12. Jacksonville, Southwestern Louisiana, Kansas State, Memphis State, Alabama, New Mexico, Virginia Tech and Brigham Young complete the Top Twenty.

The Top Twenty, with first-place votes in parentheses, season records and total points. Points tabulated on basis of 20-18-14-12-10-9-8-7-6-5-4-3-2-1.

THE FINEST IN deluxe car care is offered by Ben Loudermilk, manager, and Ben F. Williams, owner of Williams Amoco Service Station at the intersection of 17-92 and Lake Mary Road. As another feature service, Williams has only recently installed a modern car wash and a 'fill-up' entitles his customers to a wash on the house.

At Williams Amoco Satisfaction Guaranteed

By ANN SIECZKOWSKI
If your car is your pride and joy and you want to treat it in a very special way, then take it down to Williams Amoco Service Station at the intersection of 17-92 and Lake Mary Rd.
The owner this deluxe car care center is a most genial gentleman named Ben F. Williams. His son-in-law, Ben Loudermilk is the manager of the business and Paul Jones is associated with them in the care of your car. Course the lovely Daisy Williams, Ben's wife is around a lot too. Altogether there are more than 50 years of experience in the auto business combined in the years of the men who service cars at Williams Amoco. They have a complete repair service that is what you need. But if all you need is some gas for your autobody, then be assured that you will receive fast efficient and courteous service when you pull up to the Amoco tanks at that station.
If you fill up your car with gas, then take advantage of a brand new service at Williams Amoco — a free car wash. Williams has only recently invested a great deal of money to provide the very best car-wash facilities in this area, so why not drive your car in and fill it up and then clean it up. That's looking sharp and being sharp, wouldn't you say?
Also available at Williams Amoco is a U-Haul rental service, trucks or trailers. Williams has a franchise on Atlas auto supplies too and of course you know that these are top quality parts and supplies. He said that if you bring your car in for repairs, his mechanics will be able to do the work and they have a full stock of auto parts. If per chance they happen to be out of some part, it can be available within ten minutes or so, because Williams knows just how to get parts in a hurry.
The station is open seven days a week and a mechanic is on duty, road service is available from 7 a.m. to 9 p.m. six days a week. On Sundays, the station is open from 12 noon to 9 p.m.
For the very best in car care, or routine gas and oil service, drive in to Williams Amoco at the intersection of 17-92 and Lake Mary Road. Williams and his crew are "not in the people business." They treat their customers like they would want to be treated so you know they will be a most welcome visitor to Williams Amoco Drive in today. For road service or information, call 322-8823.

Income Tax Problems Discussed

By JOHN T. WATTS
Copley News Service
Dear John: Your article (enclosed) today was very disappointing from the standpoint of the average senior citizen. Could you possibly get down on our level of understanding (or get help).
I am a USC graduate and so
Dear M. Demisson: The figures in the clipping you enclosed were from an actual transaction presented by a reader.
You say you are selling income property. I don't know of any way you can get a tax forgiveness, senior citizen style, on income property. If you made your home on the property for at least five years, you might have an argument, but I would advise that you take it up with the Internal Revenue. There is just might be a partial forgiveness.
Dear Sleepy-Time: It is certainly true that sleep can become a habit. You sleep more and more, and you want to sleep more and more.
For my own part I have discovered that if I go to bed too early I wake up too early. But I don't think you can make a general rule for everybody. If this seems to be a real problem for you, better consult your family doctor. Maybe something else is wrong besides just getting too much rest.
One way to cut down on sleep is to go to bed later, but get up at the same hour.
Dear John: Please send me a copy of booklet, "How to Prepare for a Life of Leisure." — C.H. Rutledge
Dear Mr. Rutledge: You must have missed recent column which explained that this booklet is not currently available here.
However, a new booklet which is similar, "Health Guide to Independent Living," has been made available by AIM, which is a division of the American Association of Retired Persons.
All you have to do is write to Health Guide, A.M., 1225 Connecticut Ave., N.W., Washington, D.C. 20005.
The booklet will be sent to you free.
For you folks who know what is really good, Dominik carries five flour, spanish cheese, and lebanon bolognas. You will find specialties from Germany, goodies in the cheese chest, such as German cervelat and limburger, head cheese.
CREATIVE TALENT plus knowhow result in a collection of lovely pieces of artwork in Nancy's Creations, an unusual shop located in downtown Sanford on West First Street, Nancy and Bruce Tucker issue an invitation to young people to visit them and learn of the many hobbies in which they may obtain instruction.

ITALIAN LASAGNA to take out and homemade spaghetti sauce are only a few of the treats in store when you shop at Dominik's Sausage Shop and Delicatessen at 230 North U.S. 17-92 in Casselberry. Even the aroma of the food is worth the trip to this delightful shop.

To Tempt Everyone Delicatessen Has Treats

By ANN SIECZKOWSKI
Did you bring a truck big enough to take it all home? I bet you wish you had — Dominik's food is very hard to resist and it is a lead pipe cinch that you will go back for seconds. You try Dominik's and we just know you will enjoy every bite.
From 9 a.m. to 6 p.m., six days a week, Dominik's is open to serve you. Dominik's is located at 230 North U.S. 17-92 in Casselberry, one mile north of SR 436. The positively delightful place is owned by new folks from up Pennsylvania way — Carmen Dipolito and Frank Gruppe.
They came to Central Florida because they just got tired of that cold weather up there and they had heard about our wonderful way of life here. They were looking for a business like Dominik's and almost by accident they found it — just driving around the greater Orlando area one day and they spotted the sign and stopped by and later bought the business.
And Oh! the food and the aromas emanating from that place will absolutely make a glutton of you. They make their own sausage right on the premises in their sausage factory, and they even make some of their own lunch meats, meat loaf, liverwurst, salads and sauerkraut.
They also have genuine Italian Lasagna to take out and spaghetti sauce, home made, stuffed peppers and hot sandwiches. They use no synthetics and no chemicals — you will find that their meat is all natural meat products. They even carry some kosher foods, domestic cheeses, and cold cuts in such a variety you would not believe.
All you have to do is write to Health Guide, A.M., 1225 Connecticut Ave., N.W., Washington, D.C. 20005.
The booklet will be sent to you free.

Don't Put Off 'Til Tomorrow What You Can Do Today

A Valentine's gift and a twisted arm

By Abigail Van Buren

DEAR ABBY: My husband and I have been having the same disagreement for the last six years, and I hope you can settle it.

My husband believes that he should give me a gift on three occasions: my birthday, Christmas, and Mother's Day.

I think he should add one more, St. Valentine's Day, since that is the day above all others when an expression of love is expected.

My husband feels that a few unexpected gifts brought home during the year mean more than those he is expected to give just because of the date on the calendar.

Shouldn't he give me a gift on St. Valentine's Day just because he knows it would make me happy, and I am hurt when he doesn't?

DEAR MRS. A.: He should, but if he doesn't, you should accept his decision with grace and maturity.

It is a hiring someone to take care of the children and do your work for you, and I will also have a live-in mistress, so you don't have to worry about my tormenting another!

After a very ugly scene, he let this young woman go, but now I discovered that he has rented an apartment for her near here and he sees her anyway.

DEAR BETWIXT: Better to be a divorcee [who said you had to be lonesome] than to consent to the arrangement your husband has offered you.

CONFIDENTIAL TO "JUST AVERAGE IN WASHINGTON, D. C." So what? Remember, you're just as close to the top as you are to the bottom.

FORECAST FOR WEDNESDAY, FEBRUARY 14, 1973

GENERAL TENDENCIES: A very confusing influence prevails today and tonight and each of us doubtless thinks that by making some changes we will be able to get out of this morass of illiveness.

ARIES (Mar. 21 to Apr. 19) Open your eyes to whatever is going on at home instead of thinking all is okay.

TAURUS (Apr. 20 to May 20) Keep an eye on your purse or wallet and do not take chances with other things as well today and tonight.

GEMINI (May 21 to June 21) Why not be content to handle your finances if you are not quite sure of what you are doing?

SCORPIO (Oct. 23 to Nov. 21) Secure that data you need so you can get into the higher aspects of your present activities.

SAGITTARIUS (Nov. 22 to Dec. 21) Your intuitive faculties are not working up to par today or in p.m.

AQUARIUS (Jan. 21 to Feb. 19) Give a deaf ear to complaints of others and get busy handling all those important duties ahead of you, as you had planned.

PISCES (Feb. 20 to May 20) Your mate may not be feeling well and could be acting strangely.

IF YOUR CHILD IS BORN TODAY he or she will be one of those delightful and sympathetic young people who will have to be taught to be more objective.

"OWWWW!" is the reaction as London Constables Woodhead (left) and Goodall get the better of "thugs" during training. "We do not usually throw people about unless the situation is pretty dire," says Inspector Sheila Ward.

To Political Issues Money Crisis Tied

By Arthur L. Gavshan
Associated Press Writer
LONDON (AP) — More and safer jobs, social progress, value for money, security from the bomb to the tomb?

Or another 1929 Great Depression, with mass unemployment, hunger marches and general unrest?

These are the political issues at the heart of the current international financial crisis, the seventh since Britain devalued the pound in 1967.

In the years since, governments sometimes have treated money troubles as if they were the cause, not the symptom, of the world's economic imbalance.

Other times they have dilled and dallied for fear of taking drastic remedies that would hurt their political prospects.

But whether it's been America's Lyndon Johnson, May-Edmund Nixon, France's Charles de Gaulle or Georges Pompidou, Britain's Harold Wilson or Edward Heath, or Japan's Eisaku

Sato or Kakuei Tanaka, just about every national leader of modern times has tended to put the interests of his nation above those of his overseas partners.

The familiar clash of national interests is clearly detectable in the current money crisis.

America's leaders, their European allies and the Japanese share the same broad political aims and ideals. All are dedicated to democracy as a form of government. All are determined to resist the spread of communism. But none seems to be sure how, united, they can reconcile these political objectives with fair trading practices and a fair sharing of the peace burden.

The Nixon administration, for example, has been telling Japan it must liberalize its import policy further. To do so would help bridge the huge gap in Japanese-American trade.

The Americans, perhaps less vehemently, also are insisting that the nine members of the European Common Market should

Saigon, Viet Cong Release Prisoners

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — The Saigon government and the Viet Cong exchanged hundreds more prisoners today at Loc Ninh, where 27 American captives were freed Monday. They also traded new charges of cease-fire violations.

U.S. C-130 transports from Thailand ferried the prisoners between Bien Hoa, 15 miles northeast of Saigon, and Loc Ninh, 60 miles farther north.

By mid-afternoon, the Saigon command said it had received more than 600 government prisoners from the Viet Cong at Loc Ninh since Monday and released 506 Communist soldiers in return. It said the exchange was continuing.

Other releases, in Pleiku Province in the central highlands and Quang Tri Province just below the demilitarized zone, have been delayed.

Health said in Washington recently that U.S. troops are in Europe as much for America's defense as for Europe's. He added the reminder that, for every American soldier in Europe, there are 10 European soldiers.

Hartke, a Democrat, said he further expects the Nixon Administration to ask for an initially high tariff that could then be reduced by a certain amount each year.

BOCA RATON, Fla. (AP) — Indiana Sen. Vance Hartke says he expects the White House to ask Congress for a high tariff bill to protect United States industry from foreign competition.

Hartke, a Democrat, said he further expects the Nixon Administration to ask for an initially high tariff that could then be reduced by a certain amount each year.

Congress May Hike Tariffs

BOCA RATON, Fla. (AP) — Indiana Sen. Vance Hartke says he expects the White House to ask Congress for a high tariff bill to protect United States industry from foreign competition.

Hartke, a Democrat, said he further expects the Nixon Administration to ask for an initially high tariff that could then be reduced by a certain amount each year.

Young 'Experts' Offer Views On War's End

BY ANN RILEY
Associated Press Writer
The Vietnam War was going on long before they were born and it has been brought into their living rooms via television almost everyday of their lives. To find out their reactions to peace in Vietnam The Herald went to Longwood Elementary School to interview some of the five-year-olds in the afternoon kindergarten class.

The teacher was hesitant as she felt they were young to comprehend, but she was surprised at the depth of their understanding.

Tiffany Harris said, "The people have

European Market Is Steady; But Selling Hits Japanese

By LOUIS NEVIN
Associated Press Writer
LONDON (AP) — The dollar traded well above its new par value today in major European currency markets, but the rate was driven up to 270.80 yen by the end of trading, representing a 13.7 percent increase in the value of the Japanese currency.

Dealers said the dollars had accumulated during the three days the Tokyo exchange was closed.

Trading on the European markets was cautious, with Madrid and Oslo remained closed for the third day.

But, in Frankfurt, the dollar opened at 265.50, nearly well above the new base rate of 250.00 set by Chancellor Willy Brandt's cabinet Tuesday. The rate was \$2.450 to the pound in London, down from \$2.4675 at the start of trading; 3,450 Swiss francs to the dollar in Zurich, where a new parity rate was to be announced later in the day; 41.25 Belgian francs in the Brussels free market, where the official rate was 40.33, and 4,682.54875 French francs in bank-to-bank dealings in Paris, a devaluation of 8.41 percent.

The monetary uncertainty spilled over into the London bullion market, traditional haven for speculative speculators, to send the price soaring \$1.10 an ounce to a new record high of \$70.10.

The devaluation also hit the diamond market, marking the cost of raw stones up 11 percent.

The U.S. decision Monday night to devalue for the second time in 18 months, and by an unexpectedly large 10 percent.

Five financially important countries now are allowing their currencies to float outside fixed exchange rates, adding to the confusion. They are Britain, Canada, Italy, Japan and Switzerland.

A number of governments were expected to adjust their currencies in the next few days. Israel, Indonesia, South Africa and South Korea decided Tuesday to follow the dollar down and devalue by 10 percent. Most developing countries were expected to follow suit and retain the dollar as the major standard for international currency dealings, but at reduced rates.

Only countries with relatively strong currencies — France, the Netherlands and West Germany.

Perkins, Wife Unite At Alabama Field

By REX THOMAS
Associated Press Writer
MONTGOMERY, Ala. (AP) — An Air Force major wearing a borrowed raincoat with a colonel's insignia on the shoulders stepped off a medical evacuation jet early today for a joyful reunion with his wife after more than six years in a North Vietnamese prison camp.

The returned prisoner of war, Glendon W. Perkins, 38, of Orlando, Fla., told newsmen it was "the most wonderful experience of my life" to return home to his family and "the greatest country in the world."

Perkins, one of the first two newly released POWs sent back to the States, landed at Maxwell Air Force Base at 3:20 a.m. (CST) in a cold rain. He came home early because his mother is critically ill.

His wife, Kay, waited in a car nearby with another Air Force major, Wallace Franklin, and Franklin's wife. Perkins and his wife embraced when he got into the car.

Franklin, who is stationed at Maxwell and who was assigned as the returned POW's official escort, said the private reunion with his wife was arranged at Perkins' request. Franklin said the returning Air Force navigator asked for his wife to stay in the car rather than to greet him publicly when he stepped off the plane.

After he gets some rest, doctors check him over and the weather clears, Perkins, accompanied by his wife, will be flown to visit the major's despondent ill mother at Cross Lake, Minn.

Perkins, who was shot down in 1966, walked straight from the C-9 air evacuation jet at Maxwell to newsmen. Speaking quietly and rapidly, he said he had been waiting years "for this moment."

He thanked the American people "for their prayer and faith and determination that made this homecoming possible."

Yesterday, this country announced the dollar devaluation.

Today, Hanoi and Washington announce that they plan a joint economic commission to develop economic ties between North Vietnam and the United States and to consider postwar reconstruction of the bomb-battered North.

On one hand we're going broke, and in the next instance we're going to rebuild a complete country! — Remember we did the damage. — and forget the fact that these are the same people who for nine long years (we were told) that they were our enemies... hell bent on conquering the Indo-China area.)

What did the little kid say... up there at the top of the page... "Nobody won it."

Excuse us for asking... but... what's this we hear about the rental being raised by 15 or 20 per cent at the Iram Towers in Sanford?

We tried to get amplification on this statement but were told "don't believe the board is willing to discuss it at the moment."

Better be soon... cause we're being flooded with questions from the tenants.

By the end of this week, one of this area's biggest industries will be sold to a private investor. Understand that the 250 employees will not be affected by the transaction.

U.S., North Vietnam Plan Joint Economic Operation

By FRANK CORMIER
Associated Press Writer
WASHINGTON (AP) — Hanoi and Washington announced today they plan a joint economic commission to develop economic ties between North Vietnam and the United States and to consider postwar reconstruction of the bomb-battered North.

This was the only concrete new element in a joint communique issued following the departure from Hanoi Tuesday of Henry A. Kissinger, national security adviser to President Nixon, who spent almost four days in the North Vietnamese capital.

The communique said the two sides exchanged views during the Kissinger visit, "on the manner in which the United States will contribute to healing the wounds of war and to post-war economic reconstruction in North Vietnam."

The document then said there was agreement to set up a joint economic commission, adding: "This commission, which will be composed of an equal number of representatives from each side, will be charged with the task of developing the economic relations between the Democratic Republic of Vietnam and the United States."

Kissinger, now bound for mainland China for talks with Premier Chou En-lai, met in Hanoi with Premier Pham Van Dong, special adviser Le Duc Tho who was Kissinger's counterpart in arranging the Vietnam peace agreement, and Vice Premier Nguyen Duy Trinh.

At the White House, Press

secretary Ronald L. Ziegler said the joint economic commission probably would be established in about a month.

Asked how much money the United States might be prepared to contribute toward North Vietnamese reconstruction, Ziegler said such matters would be taken up by the commission and would be subject to consultation with Congress.

Various members of Congress have already come forward with objections to U.S. spending on North Vietnam reconstruction.

Ziegler promised that Kissinger would hold a formal news conference here to discuss the subject further soon after he returns from Peking next week.

Three general principles for governing relations between Washington and Hanoi were set forth in the joint statement:

— "All provisions of the Paris agreement on Vietnam and its protocols should be fully and scrupulously implemented.

— "The Democratic Republic of Vietnam and the United States should strive for a new relationship based on respect for each other's independence and sovereignty, noninterference in each other's internal affairs, equality and mutual benefit.

— "The normalization of relations between the Democratic Republic of Vietnam and the United States will help to insure stable peace in Vietnam and contribute to the cause of peace in Indochina and Southeast Asia."

More Free School Lunches Available

By DON KENDALL
AP Farm Writer
WASHINGTON (AP) — Free school lunches, already accounting for one out of three served each day, will be made available to more needy children regardless of family income under a new Agriculture Department proposal.

The rule change, ordered by Congress in liberalized child-feeding legislation last summer, will give discretionary authority to local school administrators for determining individual hardship cases among pupils.

A child from a family of four currently must be served free or reduced-price lunches if the family's income does not exceed \$4,110 a year. States may set income eligibility as much as 25 per cent higher for free meals and up to 50 per cent

more for reduced-price servings.

Under the proposed regulation, a child could be eligible for free meals when income is more than the guidelines if there is undue financial burden on the family.

The department said the proposed regulations will be open for public comment until March 16, and set July 1 as the deadline for putting them into effect.

That means the new authority for giving special attention to hardship cases would not be in effect generally until school begins next fall.

The Nixon budget for the fiscal year beginning July 1 calls for free-lunch spending of \$663 million, an increase of \$45 million from the current year.

The department's Food and Nutrition Service said it has no estimate on how many additional children might be brought into the free-lunch program because of the rule change. About 8.8 million now receive free or cut-price meals out of a total of 25.2 million children eating school lunches.

"When schools determine whether children are eligible for free or reduced-price meals, they would not count that portion of family income spent for unusually high medical expenses, shelter costs in excess of 30 per cent of income, special education expense due to the mental or physical condition of a child or disaster and casualty losses," the department said in explaining the proposed rule.

More than three-fourths of the lunches served needy children are free. The reduced-price lunches cannot cost a child more than 20 cents per serving according to federal rules.

NEWS DIGEST

REOPENING of the major foreign exchange markets today is awaited to see if the dollar devaluation cools the latest monetary crisis.

PRESIDENT NIXON appears likely to get quick approval by the Democratic-controlled Congress for legislation to back up the dollar devaluation.

TWENTY MORE AMERICAN POWs fly to the United States today, and most of the others released Monday should be back by the weekend.

THE FIRST TWO Vietnam prisoners of war to return to American soil since the cease-fire land after a heart-thumping last-minute delay due to mechanical trouble.

FLORIDA'S WETLANDS are in danger of being "left dangling like an orphan child" by the land use committee responsible for drafting guidelines to protect the environment from unchecked development, says a conservationist committee member.

Council Vindicated Of Sunshine Usurp

By MARION BETHA
Winter Springs Mayor Granville Brown and City Council have been vindicated of charges brought by former Police Chief Walter Bachelor of violation of the state sunshine law. Bachelor had alleged that the mayor and council, in appointing Police Chief Donald Dobson, had discussed the matter previously and that the issue was "cut and dried" before the meeting in which Bachelor was appointed.

The issue stirred a considerable amount of controversy among the citizens in the municipality and culminated with the presentation by Mrs. Ethel Hurt to mayor and council of a rope with the addage "If one is given enough rope they will eventually hang themselves."

According to the office of State Attorney Abbott Herring, a thorough investigation was conducted into the allegations regarding the alleged violations of the Sunshine Law in Winter Springs. The office, according to Herring, took sworn testimony from 12 witnesses regarding the alleged violations and found no substance to the allegations.

City Attorney Thomas Freeman had contended this fact when the issue arose; that being chief executive gave one the prerogative to appoint whomever he chose.

Mayor Brown gave no reason for declining the reappointment of Bachelor other than it was within his prerogative.

Costly Valentine

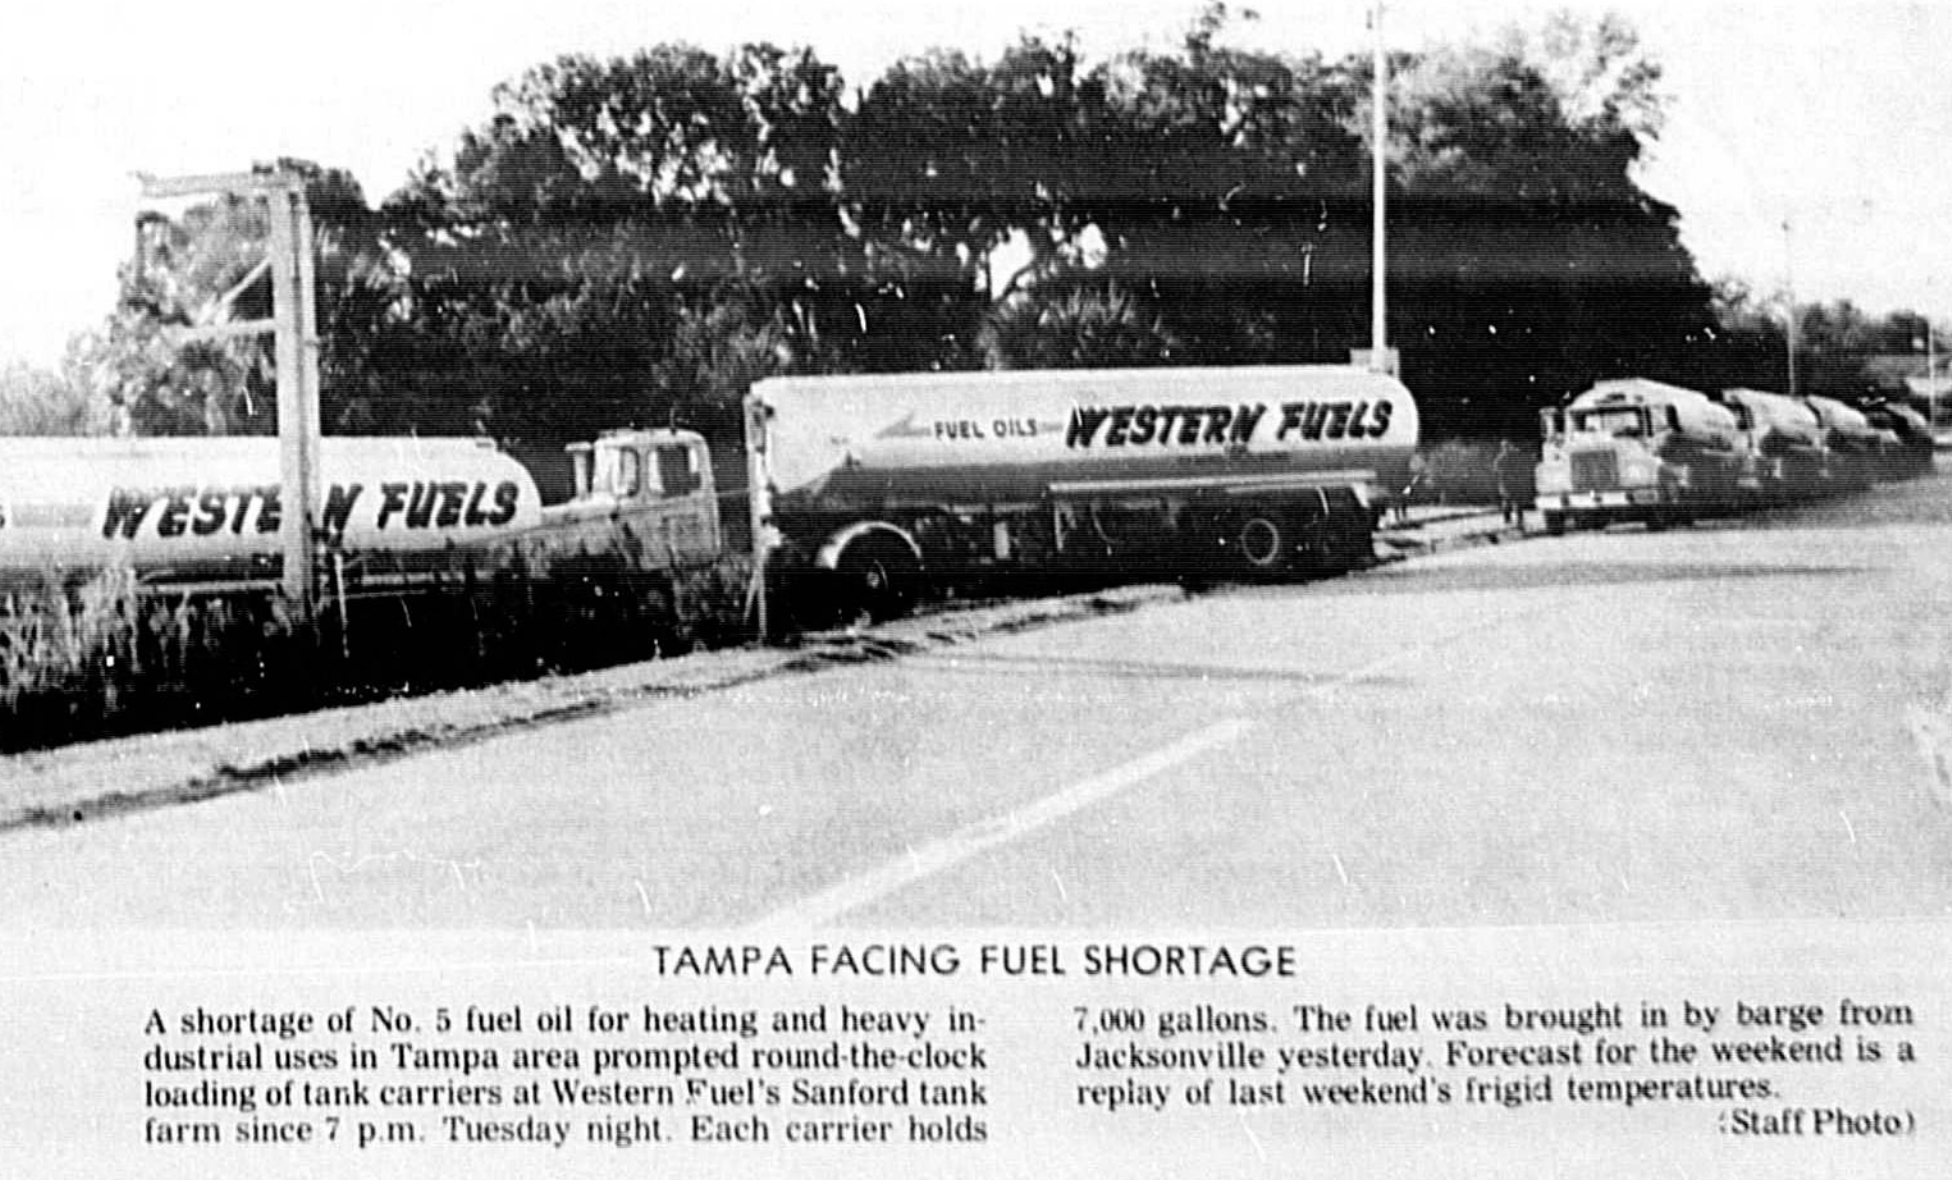

MIAMI (AP) — Love can be a costly business even on Valentine's Day.

One Miami man, who refused to have his name published, paid \$2,591 to edit a full page advertisement in today's edition of the Miami Herald telling his sweetheart: "My love — I love you."

The unpaired greeting complete with a fancy beribboned border carries the pet name "Adami" 48 times around its edges.

In one corner the message in Spanish says: "I wanted to tell you many times how much I love you. Today my love is written on 333,000 pages."

As to the specific allegations regarding Winter Springs, Herring stated it has been determined Mayor Brown had the authority by virtue of the city charter in his decision not to re-appoint Bachelor.

A shortage of No. 5 fuel oil for heating and heavy industrial uses in Tampa area prompted round-the-clock loading of tank carriers at Western Fuels' Sanford tank farm since 7 p.m. Tuesday night. Each carrier holds 7,000 gallons. The fuel was brought in by barge from Jacksonville yesterday. Forecast for the weekend is a replay of last weekend's frigid temperatures. (Staff Photo)
