\$10 Million Christian Community To Be Built

By HILL SCOTT
A \$10 million church-sponsored Christian community will be established on 65 acres of land just off Onra Road Station and adjacent to Lakeway Junior High near Lake Ada.

A SLIGHTLY INTERESTED SIDELINE OBSERVER
AN OVERFLOW CROWD was on hand for last night's "Battle of the Giants" when Seminole Junior College defeated Lake City 80-79. Head basketball Coach Joe Sterling tried to mesmerize the ball in the air, while sitting next to him is Assistant Coach Jay Bergman, "getting ready to take another bite out of the pencil." (Complete coverage Pages 6-A-7A)

Altamonte Aide Need Stressed Swofford Asks For Backup Pay

By MARION BETHA
Altamonte Mayor W. Lawrence Swofford, recently elected to another term of office, projected his political future at a meeting of city council last night.

License Error, Not City's Fault

Altamonte city council learned last night that granting an occupational license to an individual does not necessarily grant them the authorization to operate a business in violation of zoning ordinances.

Drummond Listens To A Different Drummer

By MARION BETHA
Commissioner Greg Drummond apparently hears a "different drummer," since he was the only county commissioner in disagreement with the decision of the Board of Adjustment to grant a special exception for a recreational area and trailer site on property south of Lake Mary, east of 14, and west of Lake Emma.

Nigeria Says 'No' To Aid One Million Biafrans Starving

By MORT ROSENBLUM
Associated Press Writer

LAGOS (AP) — The Nigerian government has said no to aid from four white governments and all private agencies that would help Biafra. But it said it is consulting "a number of friendly governments for immediate requests for relief."

The ban affects the governments of France, Portugal, Rhodesia, and South Africa as well as such groups as Caritas, the Roman Catholic relief agency, Joint Church Aid, grouping of agencies, Canadian Relief of Canada and the French aid Nordic Red Cross.

"The government said nothing about the four black African governments that recognized Biafra as an independent state: Zambia, Tanzania, Gabon and the Ivory Coast."

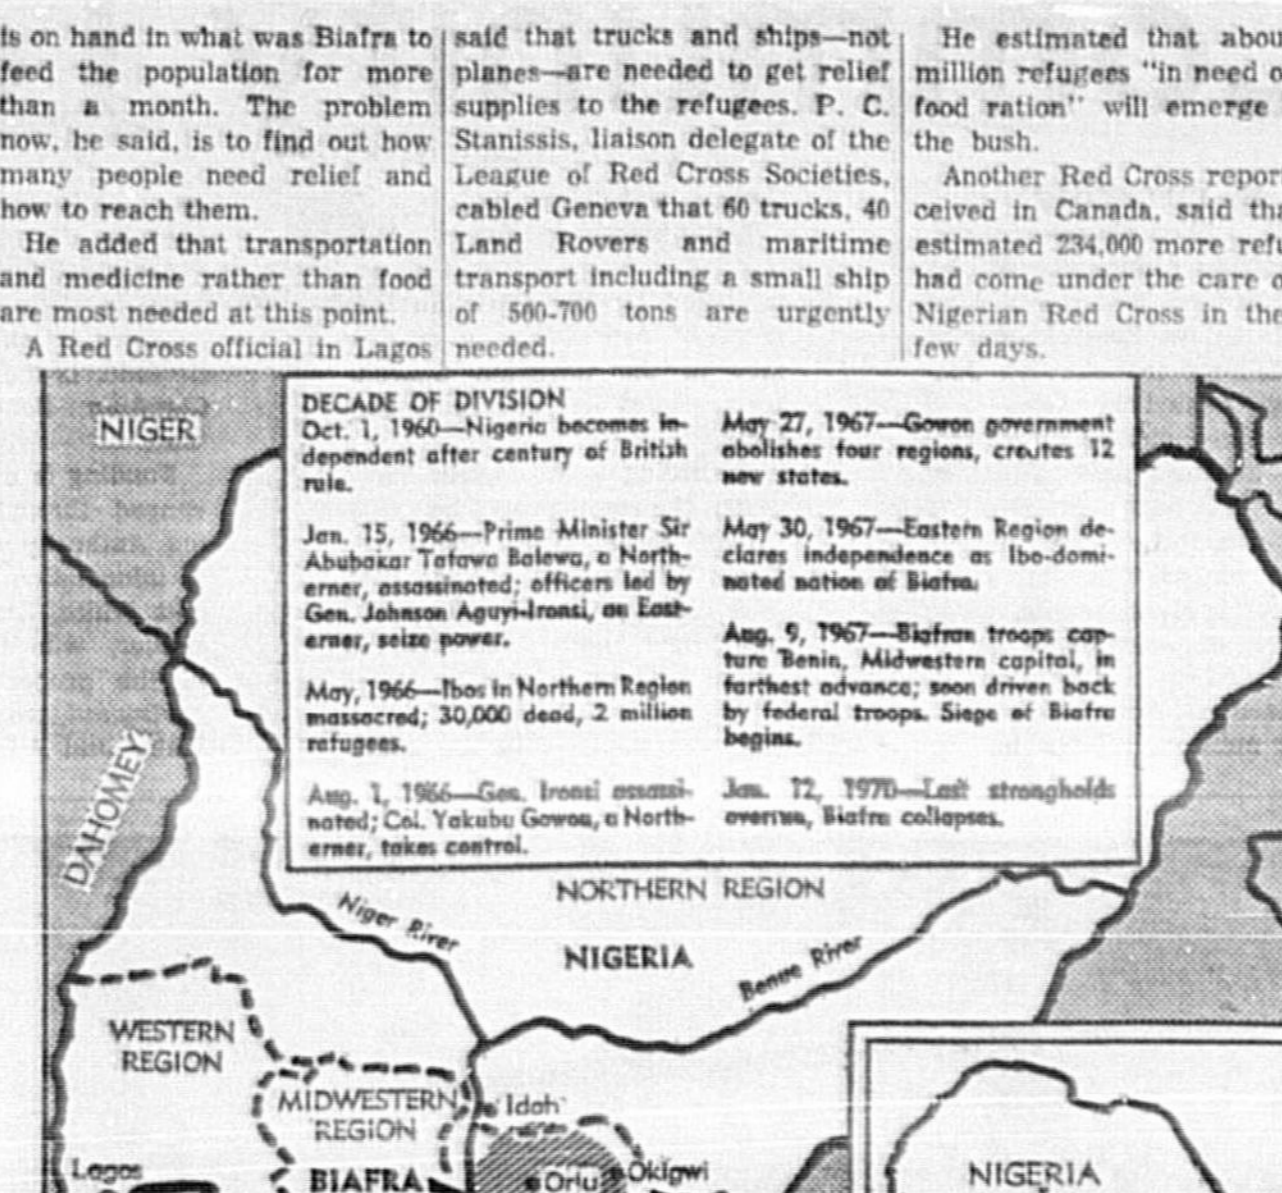

"The government also put the personal pen grant tag on 'all foreign relief workers who engaged illegally in the secessionist enclave' and said they would not be permitted in Nigeria. Presumably this means an extension for those still in what was Biafra.

Lord Hunt who headed the British team that conquered Biafra, arrived in Lagos today with a committee to work out plans for British relief. His government has allocated \$12 million for aid and 10 tons of relief supplies are waiting in London for shipment to Nigeria. The Nigerians first refused to allow them to be brought in on military planes, then submitted a request for extra medical supplies to be included in a civilian airlift.

"The U.S. State Department announced that Maj. Gen. Yekuwa Gowon, the Nigerian chief of state, told a U.S. envoy that the Nigerian government will not hesitate to call on the United States for assistance. The department said the Nigerian leader expressed warm appreciation to the U.S. diplomat. Assistant Secretary of State David Newsom, for the aid offered by the United States.

"There is no problem of delay or refusal to accept relief," said one official in Washington. "It is just a question of working out practical details."

The official said enough food

OUTNUMBERED AND OUTGUNNED, Biafran forces, nevertheless, managed to hold out since July 6, 1967. At left, three tribesmen train with makeshift weapons. At right, outnumbers of an elite group used to guard Biafran leader Ojukwu in the early stages of the rebellion.

Draft Inequities Being Studied

By FRED S. HOFFMAN
AP Military Writer

WASHINGTON (AP) — Only medical students will be eligible for college deferments under the Nixon administration proposals to eliminate draft inequities.

After a specified date, no other student entering college can claim a draft deferment on the basis of education.

However, a sophomore, junior, or senior with an existing draft deferment when the new rules go into effect will be permitted to complete his undergraduate schooling.

This is the thinking of Pentagon officials who have been shaping the Administration's proposals to do away with draft deferments in the student, occupational, and parental categories.

Secretary of Defense Melvin R. Laird said last weekend that, as in the case of student deferments, no new ones will be granted.

Unlike the student deferment, which officials say will permit exceptions for pre-medical students, there appears to be no prospect of any further deferments for job or family reasons except where hardship might be involved.

Job deferments have been heavy in the field of teaching, police, and fire department work.

Officials expect community needs can be filled adequately by former servicemen and no special deferments will be required in these areas.

The same reasoning applies to hard skill jobs in the mechanical and technical fields. It was said.

As the United States scales down its commitment in Vietnam and simultaneously reduces the overall size of the armed forces, fewer and fewer young men will be required for the draft. The Pentagon expects the draft will take about 25,000 young men this year, a drop of 65,000 from 1969. The level should go down even further in 1971.

Some Pentagon experts believe the virtual elimination of student deferments may indirectly help the flagging ROTC program with some students possibly enrolling as a hedge against the draft interrupting their schooling.

School Mix Termed One Large 'Mixup'

By THE ASSOCIATED PRESS

School officials have reacted with dismay to a U. S. Supreme Court ruling which ordered the desegregation of public schools in 14 districts of five Southern states by Feb. 1.

"Physically speaking, I think it is an almost impossible task," said Supt. M. Ney Williams of East Feliciana Parish, La., one of the districts involved.

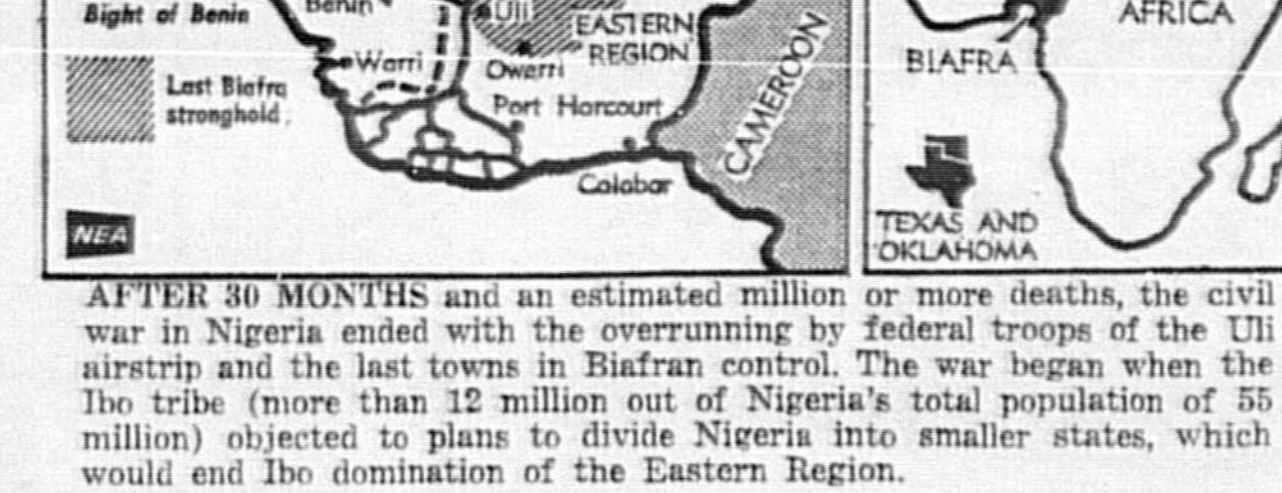

The decision, handed down by the court Wednesday on a 6-2 vote, reversed a ruling last Dec. 1 by the 5th U. S. Circuit Court of Appeals in New Orleans, which gave the districts until Sept. 1 to desegregate.

"I don't know how we are going to do it in less than three weeks," Williams said.

Resident County School Supt. William F. Clark said he had "no earthly idea how the school system can completely mix by Feb. 1."

In Marshall County, Miss. Supt. Stanley Mathews Jr. said his district could make the changes in time, "but it's going to tear up almost all phases of our school program." He said he thought the public school system "will be all black, except in one area of the county."

A crowd estimated by police at more than 1,000 marched on the home of U. S. Dist. Judge W. A. Hooper in Macon, Ga., Wednesday night, carrying a petition asking for the preservation of neighborhood schools and freedom of choice integration plans.

ICC Says 'No Favorites'

By WILLIAM BARTON
Associated Press Writer

WASHINGTON (AP) — The acting chairman of the Federal Trade Commission and the Federal Communications Commission said at a news conference that the ICC is "not close to the people we regulate."

The appointment could come soon, since the term of Maryland Republican Paul J. Tierney expires Dec. 31. But Stafford said Tierney is still on the job, and the commission has received no word on whether he will be replaced or re-nominated.

Nixon presently has a 6-1 GOP edge on the commission.

While indicating he would like to be Nixon's choice for permanent chairman, Stafford said in an interview that, "I'm not acting as head of the ICC, oldest of the federal regulatory agencies."

He had served as vice chairman last year under Virginia Max Brown, whose one-year term ended Dec. 31 under the old rotating chairman schedule. She remains a commission member.

But now Nixon has been empowered by Congress to designate the ICC chairman—a power he already held regarding other federal agencies.

In picking Stafford to "act as chairman," Nixon indicated he

will go outside the ICC for the agency's permanent chairman. He followed the same procedure in picking heads of the Federal Trade Commission and the Federal Communications Commission.

Federal Attorneys Hit By National Factions

By CARL C. CRAFT
Associated Press Writer

WASHINGTON (AP) — Some federal judges and lawyers say their increasing courtroom success on behalf of the poor has brought on attacks from even community business and political leaders.

The attorneys, members of the national advisory committee for the legal services program of the Office of Economic Opportunity, made the charges during a Wednesday meeting.

Besides the criticism from other lawyers and the commercial-political interests, they said they have lost the support of many United Charities groups.

The committee challenges government agencies, laws, business and charities alleged by discriminating against the poor who otherwise could not afford an attorney.

In spite of the ousting of poverty rights lawyers are pressing on, they say, because it is vital to afford their clients an opportunity to resolve grievances in a courtroom or before a state legislature—and not in the streets.

David Dugan, a poverty lawyer from New Jersey told of a county bar association's decision to disassociate itself from sponsorship because of a dispute over a pair of legal issues. The association complained to the Office of Economic Opportunity and gained an 80-year-old completed investigation.

Green Crockett found her legal services organization accused by other lawyers of solicitation, polarizing the community, violating standards of ethics, improper acts because of issues stemming from a police brutality complaint.

Pat Buie Expresses High Hopes

By BILL SCOTT

Seminole School Board member Pat Buie today responded to a letter from Seminole League of Women Voters and published last week in connection with a reply made by School Board Chairman John Evans.

Buie said "It will come as a surprise to most that I believe this District School Board can do the best job of carrying out the spirit and letter of the federal law in making a unified school system."

"I have from the beginning, said that we have been most fortunate to have control of these changes in our own hands and that we, better than anyone else, know the feeling of the people of Seminole County."

The temperature of clean snow melting in the sun is always 8 degrees Centigrade or 22 degrees Fahrenheit.

City Not In Wrong Over License Dispute

James M. Miller, owner of the firm, stated that he was renting a building in the Seminole Industrial Park which did not have sufficient water pressure to run a sprinkler system. Miller said that he would install the sprinkler system at his own expense. Councilmen Donald Martin and Alex Sabbarose voted against the request on the basis of the amount in the office was already crowded.

In other business a set-back variance and conditional use variance was granted to Hallmark Medical Center for a nursing home which will begin construction within the week at Matfield Ave. The facility will encompass 120 beds with a staff of 65, including a house physician.

Mayor W. Lawrence Swafford requested a monthly three-column statement from city clerk, Rufe Wagner, listing the departmental budgeted amounts, expenditures, and balance. Swafford remarked that he wanted the municipality to

Manson Appears At Tate Murder Trial

By BOB KERR
Associated Press Writer

LOS ANGELES (AP) — Cult leader Charles M. Manson, accused in the Sharon Tate multiple killings, came to court for the first time as his own attorney wearing a red veteran shirt and an embroidered vest.

He carried a handful of notions, including one asking that he be permitted to form a "family" of co-counsel consisting of fellow inmates at the county jail.

He won a few and lost a few in his Wednesday appearance.

Manson, 26, and four other persons who police say were members of his nomadic hippie-type "family," are charged in the deaths of actress Sharon Tate and four others at her Beverly Hills home last August.

Hurrah For The First Step-Now For The Stride!

One step along the rocky road towards the goal of creating a solid, unified business climate for the drive for an economic climate healthy for all concerned has been taken in Sanford.

Having said this it is only accurate to point out that it was only a "first" step and one which leads to more unless followed up by specific action.

We refer to the most welcome and quite wide-ranging nearly two hour meeting with representatives of the Sanford City Commission, the Sanford Industrial Commission and the Greater Sanford Chamber of Commerce set down to break bread and to air differences in the Chamber's building on First Street Tuesday.

The inability of the two groups, charged by the very nature of their responsibilities with bringing industry into the Sanford area, to work harmoniously together has hampered past efforts.

Of course these are the Greater Sanford Chamber of Commerce, which has been active in this endeavor for many years and the newer Sanford Industrial Commission, whose prime interest has been the conversion of the former Naval Air Base into a self-supporting entity.

The informal discussion did show that the need was for a unified effort and that each group is aware of the other's endeavors. Complicating the entire problem is the necessity of establishing the proper management for the airport.

It is in the purview of the function which attracts industry and secures industry. As such it might well be consigned to the technicians to handle. Yet the establishment of an Airport Authority is also only common sense to expect that the

campaign for new industry would not be limited in area to the 1,600 acres in the airport but would embrace all of Greater Sanford.

As the talk progressed there were several aspects of the problem which attracted specific suggestions. Spokesmen for the Chamber offered its cooperation. Spokesmen for SIC outlined its urgent needs.

Yet there was an underlying feeling that in both instances there were reservations in terms of personalities which were the real stumbling block.

It seems to us that an immediate second step is not only in order but essential if those involved are truly committed to reaching the goal already outlined.

We would suggest that the City Commission appoint three members from the commission, three

members from the Sanford Industrial Commission and three members from the Greater Sanford Chamber of Commerce to an advisory committee.

Once named and acceptable received, then this nine-member group would meet and appoint three other citizens who would not be office-holders to round out the body of 12 who could then get down to specifics.

We make this suggestion as a means to speed a solution to this problem which has existed entirely too long, has cost the city of Sanford entirely too many dollars and must be handled with the highest sense of public responsibility and honesty by all concerned.

Time is not on the side of delay. Prearrangement is a sneak-peek of accomplishment. The first step and an important one has been taken — now for the stride ahead!

Editorial Comment

Code Of Conduct

A seven-point "Code of Conduct" for lawyers was proposed Dec. 15 by John McMillan, executive editor of the Miami Herald, in response to suggested codes for newspapermen.

He told the Dade County Bar Association that as an editor, he has no right to sit down with lawyers or anybody else and "barge in" on the constitutional rights that might abridge the freedom of speech and press. He said, "Under the guise of concern for a fair trial, lawyers have been attempting to tamper with a free press. In some states you have beguiled my colleagues into sitting down with you and drawing up a press code that fits an American Bar Association specification." Mr. McMillan's code for lawyers would include:

- Remembering that as an officer of the justice court, "I am... interested in truth and justice and the best interest of the public."
- When holding public office, "I will not use this office for private gain."
- Using talents in public causes that promote the general welfare.
- Making legal services available to the poor as well as those who can afford the high cost of justice.
- In interests of justice, not rejecting an unpopular client merely because he is unpopular.
- Avoid a "double standard" in the release of information about a client by hiding behind the lawyer's code of ethics to withhold pertinent information while making sure the news media know everything favorable about the client.
- Strongly supporting a vigilant grievance committee to rid the legal profession of undesirables and "not wink at... chicanery, ineptness or dereliction on the part of my fellow bar members."

Mr. McMillan reminded the assembled that U.S. Supreme Court Justice Potter Stewart has warned that neither the bar nor editors nor judges can yield the public's right to know.

"Get Thee Behind Me, Satan!"

Crane's Worry Clinic:

Divorce And Sexual Crisis

By GEORGE W. CRANE

Ph. D., M. D.
CASE: Mrs. Lottie D. aged 38, faces a sexual crisis.

"Dr. Crane," she began, "my problem is my husband!"

"For he is 42 and has recently started chasing around with a secretary only half his age," she continued, "and our teenage children, for he faults his paramour."

"Since we live in a small city of 18,000 population, all our friends are aware of his philandering."

"So don't you think I should get a divorce?"

Please notice Lottie's final question.

This is typical of women for they try to solve their own conscience by wanting their clergyman or doctor to make this vital decision for them.

Then they can feel free of any blame in the future, for they can thus say:

"My doctor (or pastor) advised me to get the divorce!"

But all smart Marriage Commissioners avoid this trap.

We don't make the moral decisions for our patients but merely help them analyze all the pros and cons.

Then we leave the actual decision up to the patient.

At first glance, many of you readers would regard Lottie's husband as a "heel" and even a social sadist for thus exposing his wife, as well as his children to such humiliation in their small city.

And I'll freely admit that he has gone emotionally berserk to the point that many might regard him as losing his mind.

But on our psychiatric test, he would still be oriented to time, place and person.

And he is still a shrewd business executive, operating his own plant quite efficiently.

Only in this sexual realm has he become emotionally intoxicated.

And people can become emotionally intoxicated to the point where they will act as stupidly as when intoxicated via whiskey!

So I pointed out to Lottie that her mate was simply psychologically "drunk."

He was much like a feverish

Political Notebook:

Hanoi Saving Sunday Punch?

By BRUCE BROSSAT

NEA

Washington Correspondent

WASHINGTON (NEA) — Some knowledge specialists on foreign affairs are privately expressing very marked caution with regard to improvements on both the military and civilian fronts in South Vietnam.

The widely reported improvements, including the opening up of the Vietnamese countryside and the evident decline of Viet Cong influence in many villages, are not doubted. What is in question is the long-range significance of these changes.

One prestigious source, necessarily anonymous, says that Hanoi may simply be trying to lure the pull-out of U.S. ground combat troops so far advanced that Red attacks can be mounted with greater hope of success and much less cost in manpower than heretofore.

This man, like virtually all realistic appraisers of the war, is convinced that both the Viet Cong guerrillas and the North Vietnamese regulars have suffered unacceptable battle losses in the many months since the first Tet offensive in early 1968. A rather general judgment is that Hanoi will not run almost any time it wishes—will be reluctant that 1970 will be an increasing number of these limited but still potentially damaging assaults.

The objective? To maintain Hanoi's credibility as an effective fighting force, to keep US aid on balance, to let US

infiltration, and await a perhaps more promising day.

In the view of this same anonymous source, Hanoi's pull-back accounts in substantial part for the sharp slippage in VC influence in the South Vietnamese villages. The VC's losses either against still fact, or against U.S. forces or a South Vietnamese army, are not ready to yield the field to the President's home-front backup in at least a "short term" policy. Plainly, he doubts Saigon's ability to defend itself fully on U.S. ground troops are out — and believes therefore that this policy must be superseded by other approaches which will draw Hanoi into serious peace negotiations.

This second source suggests that, while Vietnamization is still in progress, while Saigon looks strong, while the President's home-front backup is still in place, Hanoi is still relatively weaker than earlier, some reasonably attractive and fresh-looking settlement packages should be offered to the enemy.

Both sources seem convinced that the good news from South Vietnam, real enough now, cannot last if hopes are pinned long on Vietnamization.

59 Students Arrested

By RICH OPEL

Associated Press Writer

TALLAHASSEE, Fla. (AP) — A sheriff in cowboy hat and boots and other officials caused disruption at a radical students' meeting which ended in 59 arrests, a student leader testified Wednesday night.

Richard Johnson, Student Senate president pro tem at Florida State University, said all 1969 meetings of Students for a Democratic Society (SDS) in Tallahassee were disrupted.

Some 200 persons at the meeting were listening to a speaker when Leon County Sheriff Ray Hamlin, a dean, campus security chief and others marched in to announce a court injunction forbade the meeting.

"There was a good deal of in-dignant shouting. They were asked to have a seat. But they kept disrupting the meeting," testified Johnson, an SDS member.

Circuit Judge Ben Willis was hearing witnesses in FSU President Stanley Marshall's petition for an injunction barring SDS from meeting or holding rallies on campus. Willis did not say when he would rule.

"Sheriff Hamlin took a turn at the mike and announced what he was. He was wearing cowboy boots and a cowboy hat. Some people expressed disbelief."

"He pushed his cowboy hat back on his head, took out his cigar and said, 'I'm the sheriff. Shut up!'"

A deputy sheriff serving as court bailiff burst a laugh in his hands as Johnson testified.

Johnson and Professor Roy Ingham, then chairman of the American Association of University Professors, testified that a strange scene which took place when three students rose to shout down panel members during an April 22, 1969 AAUP meeting.

Sec. Tom Adams Turns 'To A Boyhood Friend'

TALLAHASSEE, Fla. (AP) — Adams, who has piled up \$100,000 in campaign debts from 1960, said that he kept this \$12,500 debt and others current and renewed them periodically, but eventually had to default.

"I understand that the Commercial Bank subsequently called on Lou Wolfson to make good on his endorsement. He had no recourse but to do so," Adams said.

The state official added, "as far as I'm concerned, the full amount is still owed. It is part of the \$100,000 total of old campaign debts. And I am determined that it, along with others, will be repaid somehow."

Wolfson's payment of the \$12,500 note was reported originally by Tampa-St. Petersburg television station WTVT and Cowles Newspapers in Florida.

State News

ORLANDO, Fla. (AP) — Orange County Sheriff Dave Starr and an Orlando television station have named defendants in a suit in which a Code man charges them with false imprisonment and negligence.

Perry Penland, who filed the suit in Orange County Circuit Court on behalf of Robert Knight, said his client was arrested in an emergency, "an open and unfiled charge" by the sheriff's deputies on April 11, 1969 in connection with a child's murder.

Penland said the murder case — that of eight-year-old Camilla Jo Hand — received wide publicity and, by a state agency.

An example of how popular the term consumer protection has become was seen Tuesday night, Karl said, when Ralph Nader—known nationally for a protest-the consumer crusade that he (Starr) led in 1970 in connection with a child's murder.

Penland said the murder case — that of eight-year-old Camilla Jo Hand — received wide publicity and, by a state agency.

Sheriff And TV Charged

ORLANDO, Fla. (AP) — Orange County Sheriff Dave Starr and an Orlando television station have named defendants in a suit in which a Code man charges them with false imprisonment and negligence.

Perry Penland, who filed the suit in Orange County Circuit Court on behalf of Robert Knight, said his client was arrested in an emergency, "an open and unfiled charge" by the sheriff's deputies on April 11, 1969 in connection with a child's murder.

Penland said the murder case — that of eight-year-old Camilla Jo Hand — received wide publicity and, by a state agency.

Consumer's Protection A Lucrative Racket

TALLAHASSEE, Fla. (AP) — Consumer protection has become such a popular term now that it could become a lucrative racket for some organizations.

FSU's Westcott Auditorium was packed for Nader's speech.

"If Nader had announced last night he needed money to carry out his fight, he would have had a lot of money," Karl said.

Skates are neither wet nor slimy. Actually, they are dry and warm.

Women In Grim Race Against Birth Pill

By H. SCHWARTZ III

Associated Press Writer

WASHINGTON (AP) — A noted birth control specialist said today women are in a grim race against the growing number of suspected hazards in taking oral contraceptives.

Testifying on the second day of hearings into the safety of oral contraceptives, Hertz said he believed it might take years to confirm suspected links between the pill and cancer of the breast and uterus.

But he said it would be a "rare circumstance indeed" that would cause him to prescribe most current pills.

Hertz said much early testing of the pill had been misinterpreted. He blamed fear of the population explosion and drug industry pressure for creating the worldwide enthusiasm that hampered "truly comprehensive and objective evaluation of its safety and effectiveness."

Although Hertz made only passing reference to the drug industry, attorneys for the pharmaceutical industry, who are suing to keep the pill on the market, said they were "truthful and dangerous and advised."

Dr. Edmund Kassouf, identified by subcommittee spokesmen as one of the first American practitioners to suspect serious side effects from the pill, said pamphlets given consumers failed to take note of studies definitely linking oral contraceptives to fatal blood clotting and other disorders.

Kassouf also accused the American Medical Association of having a "puzzling" record on birth control pills, refusing to publish or take note of some critical reports.

In testifying on the risk of cancer, Hertz singled out the widely used synthetic female hormone estrogen and said the overwhelming mass of studies had shown it caused cancer in mice, rats, rabbits, hamsters and dogs.

"It is also to be noted that all chemicals known to produce tumors in man such as aniline dyes, arsenic, coal tar and thorium also produce tumors in experimental animals and frequently in the same site," Hertz said.

Estrogen, virtually abandoned in Britain after a recent report linked it directly to fatal blood clotting, is used in about half the birth control pills prescribed for the estimated 8.5 million American users.

Global Comment:

Nasser Fears Sinai Battle

By LEON DENNEN

NEA Foreign News Analyst

UNITED NATIONS, N.Y. — (NEA) — Certain East European diplomats felt that Egypt's Premier Nasser has a "careful calculation of how many men he would have to sacrifice in a war to regain the Sinai peninsula, and decided the cost is prohibitive."

If this information is correct, one can probably look for a continuing escalation of a war of attrition between Egypt and Israel but without the expectation of pre-emptive large-scale conflict.

Israel is seen as having too much trouble policing the Arab territory it seized in the Six Days War to initiate another all-out war.

There is, of course, always the chance that guerrilla raids and punitive expeditions will trigger a full-scale war.

Furthermore, the present condition of "controlled chaos" as former Assistant Secretary of State Cyrus Vance called it, seems to suit Russian desires for an excuse to keep an armed presence in the Middle East.

Sixty-two months ago there was hope that some peaceful solution was on the horizon. American negotiators believed they were close to that agreement with Russia on the principles for an Arab-Israeli settlement.

Secretary of State William Rogers—to convince the Arabs of American friendship and encourage Moscow—even proposed a new plan that called for Israel's immediate withdrawal from all occupied territory, in return for an Arab peace pledge.

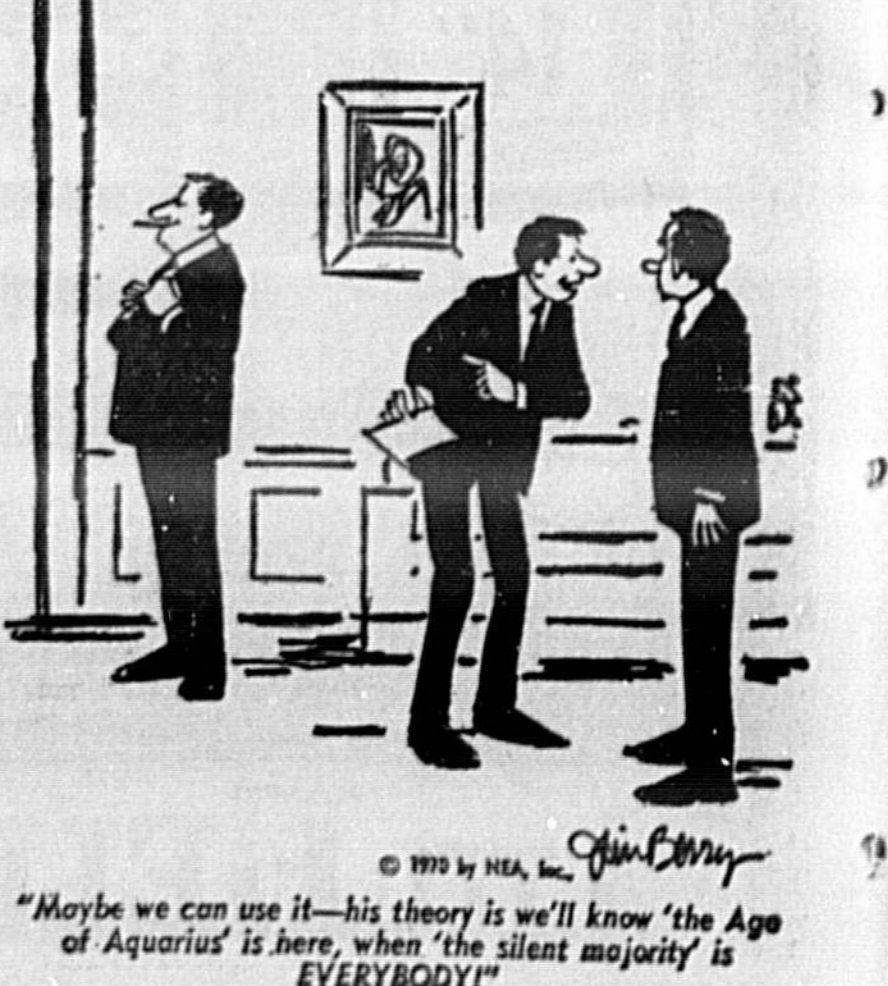

This went along way toward meeting Russian and Arab con-

Safety

ST. LOUIS (AP) — The Army's Aviation Systems Command in St. Louis says more than 11,000 military helicopters will be equipped with a new crash-resistant fuel system.

The new system is designed to prevent fires which often follow a crash. It includes self-sealing fuel tanks and breakaway fuel lines.

LET'S TALK "TAX EXEMPT MUNICIPAL BONDS"

BY J. MILTON NEWTON, PRESIDENT OF MILTON NEWTON, INCORPORATED BANKERS

With President Nixon's signing of the new tax bill, it appears that many individuals will enjoy some degree of tax savings during the coming year. If you would like to be among those who will enjoy even greater savings, then consider now the very best of all investments. Tax-exempt bonds are now at their highest yields in history, and we at J. MILTON NEWTON, INCORPORATED, wish you a safe, profitable and secure investment in tax-exempt municipal bonds. Now for some of this week's questions:

Q. I have several certificates of deposit maturing this month. May I convert these funds into tax-free bonds without loss of interest? Mrs. G. L. Belleair.

A. Now is the time, Mrs. G. L., and there is absolutely no problem in switching from taxable savings to tax-exempt bonds. It is a simple matter to do so, and you will lose not one day of interest.

Q. Suppose the prime interest rate drops during the '70's, what happens to the interest rate I receive on municipal bonds? J. W. F. Gulfport.

A. The interest rate on municipal bonds remains constant, regardless of any reduction in the prime interest rate.

Q. My wife and I file a joint return, and use the 34% tax bracket. If we invested in municipal bonds currently paying 4 1/2%, what would we have to earn from a taxable investment just to equal this amount? E. L. St. Petersburg.

A. You would have to earn 9.5% from a taxable investment in order to equal your 4 1/2% tax-free income, in your tax bracket.

Our Muni Award this week goes to all of the municipal officials in Florida, who enter the new decade faced with the many problems posed by the tremendous growth and development of cities in one of the fastest growing states in the nation. Fortunately, hundreds of these cities will be able to meet these growth needs through municipal bonds financing, and the average individual investor will continue to be able to purchase safe and secure tax-free bonds to make these plans come true. A Happy New Year to all of you!

Funeral Notices

CHULUOTA, CAPT. CHARLES E. HOLTSCLAW, Capt. Charles E. Holtsclaw, 66, of Tavares, who died Wednesday at the Veterans Administration Hospital in Gainesville, will be held at 10 a.m. Saturday, at Brown Funeral Home with Rev. Fred H. Chance of the First Baptist Church officiating. Burial will be in Lakewood Cemetery. Brown Funeral Home in charge.

Undeclared Indian River JC Here Monday . . . Duel Of Titans; SJC Baffles 'Wolves

As I See It! by Gary Taylor

Well, well, well. Look who pulled an upset and won the Super Bowl. They were my choice to pull the upset as they said. If you don't think I really picked them to win, ask The Herald Sports Editor, Tom Alexander. Don't be surprised if he turns red when you ask him.

The AFL is no longer "the other league." They have entered the Super Bowl series and now the new setup will take place. Minnesota was never really in the ball game as they fell just as the NFL's representative last year. The Colts will anyway that's another year of professional football. Of course, everyone knows that baseball is the American Sport and it will be getting underway real soon.

Give Darl Harrison a choice between driving a school bus or a sprint car and he'll take the least dangerous of the two. The racer, Harrison does both. He's the defending champ of the International Motor Coach Association's sprint car division and school bus superintendent for the Lakota School System in Fremont, Ohio.

He'll be in Tampa, Feb. 4-7-8-11 to defend his title at the Florida State Fair race and secure on the half-mile, clay oval.

Driving a school bus is tough. You have to have nerves of steel and be able to shoulder a lot of responsibility. I'll take a race car any day," says the 32-year-old IMCA champ.

Harrison didn't win his title in any spectacular manner. Out of 26 features races last year, he collected the checkered flag only twice, one of those being last February. In 22 of those features he finished fourth or better and that's what put up the points that won him the championship.

In 1967 Harrison won the "Little 500" and became one of the fast rising stars on the IMCA sprint circuit. In 1968 the "Tiffin, Ohio open cockpit" jockey finished among the top ten drivers and then went on to break Jerry Richard's four-year stranglehold on the championship last year.

This year Harrison plans on living up to his reputation as IMCA's top sprint driver. He knows he won't be easy especially with Richard well after an operation that sidelined most of last year. And he knows the first race of the season will be just as important as the last. Much depends on good equipment and a good mechanic. It's fortunate to have both. Time trials begin at 10 a.m. Wednesday, Feb. 4 with the first of six races beginning at 2 p.m.

Drag racing's Super Season '79 will be launched officially January 26-February 1, when the 10th Annual NHRA Winter Nationals unfold at the Los Angeles County Fairgrounds in Pomona, Calif.

Sanctioned and produced by the National Hot Rod Association, the \$100,000 classic has drawn more than 750 entries, representing nearly every state and Canada, and including virtually all of the sport's top names.

Heading the list of early entrants is Speed King Mickey Thompson who will field a five-car team for the rich classic which will decide championships in eight major Eliminator categories. Thompson, who owns more land speed records than any other man will not do the driving but will oversee the operation of his five machines.

Four of the Thompson cars are Mach I Mustangs entered in the popular Funny Car category. These are plastic-bodied replicas of stock production models, modified to run 300 mph and cover the quarter mile from a standing start in seven seconds. They are equipped with special racing chassis and are powered by supercharged, fuel-burning engines.

Thompson has named veteran driver Danny Ongais of Carlsbad, Calif., to pilot one of the entries. The others were entered in the new Pro Stock category for production cars with a virtual clean sweep in major drag racing activity with victories in the NHRA Spring Nationals and Nationals.

The fifth Thompson entry also is a Ford which has been entered in the new Pro Stock category for production cars with a wide range of modifications permitted.

Restricted to 1968 and later models, the Pro Stock category is expected to provide one of the major highlights to the 1979 WINTER NATIONALS event. More than 40 are entered but the final field will be limited to the 16 lowest elapsed time qualifiers. Liberal modification rules for the class, which include use of lightweight replacement components for fenders, hood and cover the quarter mile from a standing start in seven seconds. They are equipped with special racing chassis and are powered by supercharged, fuel-burning engines.

The fifth Thompson entry also is a Ford which has been entered in the new Pro Stock category for production cars with a wide range of modifications permitted.

It was just announced this week that the Chicago White Sox of the National League will battle the Montreal Expos in the annual Hall of Fame game at Cooperstown, N. Y. This is the first time in 22 years that the Cubs have been in this game that has been scheduled for July 27.

Speaking of expansion teams, which the Expos are, the San Diego Padres have signed three members of their team to 1979 contracts. It was announced yesterday that veterans Al Ferrara, Nate Colman and Chris Casizzaro have all inked their contracts.

It won't be long before the teams will be coming south for Spring training and for the Grapefruit Season. Local baseball fans will have a good opportunity to see their favorite teams at Tinker Field, the spring home of the Minnesota Twins.

Shown fighting for ball control are three Lake City careers and two Seminole standouts Harry Lee and Greg Robinson. Robinson was a key last night in the Raiders outlet shooting efforts. Simon Harper led SJC with 23 points.

Grudge Meet Featured At Gainesville Drags

Special To Herald Sports GAINESVILLE — Three-time National Champion Don Garlits of Seffner, Fla., will meet Preston Davis of Memphis, Tenn. in a special match race Sunday at Gainesville Dragway in a grudge affair that grew out of a November race that didn't come off.

Last November, during the Turkey Trot Drags at the dragway, Garlits, in his "Wynona" beating one of the biggest names in drag racing.

That blow-up, and the fact that Davis' crew worked for over an hour in an attempt to get the car back in racing condition, will be an incentive for Davis Sunday.

The dragway, to be the site of the National Hot Rod Association "Gatornationals" Feb. 12-14-15, arranged the race with an eye toward giving Godman and Davis another chance, and getting Garlits back on what he called "one of the three best strips in the country."

More than 100 cars are expected to turn out Sunday for the regular weekend program, the first in two weeks after a mishap caused problems on the strip last week.

New electrical cables were being laid at the dragway in preparation for the Gatornationals and the work crew inadvertently cut through the timing equipment and loud speaker wires, making it impossible to run the regular program last Sunday.

The cables have since been repaired and the dragway is ready to go again.

Gainesville Dragway is located three miles north of the Gainesville Municipal Airport on state road 825.

Gates open at 11 p.m., with time trials slated for noon. Elimination races begin at 2:30 p.m. with the thundering first dragsters.

Gale Sayers of the Chicago Bears capped a fine comeback from knee surgery in 1968 by taking his second NFL rushing title. He gained 1,022 yards in 1969.

Nations Scoring Leaders

By JIM CLARK Ft. Pierce News-Tribune Sports Editor

FORT PIERCE — When the best scoring team in the nation meets one of the best defensive teams in the country, something's got to give. That "something" will take place Monday night in Sanford.

Indian River Junior College, rolling along with a 115-point-per-game average, meets Seminole Junior College, rated as the second-best defensive team in the nation in the latest NJCAA ratings available.

In Coach Art Tolls' run, press and shoot offense, though, both Brown and Tatum see about equal action regardless of who starts.

Pat DeRardinis, a 6-foot-1 sophomore, will play any position, or else he will come in to take on the team they had hoped to play last season.

A newcomer starting to make some shots through the net is Earl Quash, a 6-foot-3 freshman. Quash also turns in some good rebounding work for the Pioneers.

Another man who can provide rebounding strength is George Green, a 6-foot-7 freshman.

Ruben Vance, one of the top scorers in the country, leads Indian River with a 33.3 scoring average. Vance is a 6-foot-8 sophomore guard with a dead-eye outside shot.

Most of the IJCC rebounding is handled by either 6-foot-5 Larry Thorpe or 6-foot-6 Doug Campbell. Thorpe is a freshman while Campbell is a veteran of last year's 23-2 club.

A pair of welcome additions to the roster break have bolstered the Pioneers on the boards. Tommy Thompson, a 6-foot-7 freshman, has entered the lineup and promptly started scoring in double figures. Page Wilkerson, an all-around player at Vero Beach a couple of years ago, also provides scoring help.

Glenn Winkler, a transfer from Auburn who is from West Palm Beach, is the batter on the team. Standing 6-foot-3, Kinkles gets underneath and battles with the big boys for the rebounds.

Kevin Tatum is the smallest player on the squad, standing at 5-foot-8, but is the spark-plug of the team. Tatum, a freshman guard, runs the team during the game.

Harry Lee and Harper, all scoring four points, Harper scored 18 of his 29 points in the first half, giving the Raiders the slim lead at the half.

It was the third time this season that the Timberwolves had trailed at the half. Earlier they had trailed by two points to Edison and Central Florida but came back to defeat Edison 94-85, and the Central Florida, 85-73.

During the final ten minutes of the game the Timberwolves played come-from-behind, and they almost came-from-behind. They outscored the Raiders 20-24 and set the stage for the dramatic finish and the Raider win, 80-79.

The first ten minutes of the game was the only segment of the game that was close as the Raiders outscored the Timberwolves 18-17. This may have been the only close segment of the game in time scoring, but it set the stage for the closest game of the year for the Raiders and for the Timberwolves, whose closest winning margin coming into the game had been three, with that being an 85-82 win over the University of Florida freshman team.

WOW! WOW! WOW!! Harper Sets Pace

By GARY TAYLOR Herald Sports Writer

"Wow!" That's the only word to describe the action and the crowd at the SJC game last night at the Seminole Hills gym.

As early as 7 p.m., there was a line outside the gym with anxious fans waiting to get in. After the fans came in the place was wild with cheers.

At 7:30 p.m., there were chants and cheers, led by someone drumming on the bleachers, and the team wasn't even in sight. With 15 minutes left before the game, there were hardly any seats available, and before the action got underway there were none.

The Raiders, on the way to the 80-79 win, carried a six point lead into the dressing room, 38-32. But the Raiders opened up the score in the first 10 minutes of the game. Simon Harper who led the Raiders with 29 points, scored 14 of them in the initial 10 minutes, while the Raiders doubled the Timberwolves 22-11 in the first minutes.

The Timberwolves outscored the Raiders 21-16 in the remaining 10 minutes of the first half. The scoring for the Raiders was divided evenly between Greg Robinson, Jim Gilchrist,

and the game had been three, with that being an 85-82 win over the University of Florida freshman team.

During the final ten minutes of the game the Timberwolves played come-from-behind, and they almost came-from-behind. They outscored the Raiders 20-24 and set the stage for the dramatic finish and the Raider win, 80-79.

Like We Said In 1969... SJC For State Champs

By TOM ALEXANDER Herald Sports Editor

Some 1,700 avid basketball fans are breathing easier today following Seminole Junior College's thrilling and breathtaking victory over previously undefeated Lake City Junior College last night, 80-79.

From the opening minutes, to the final seconds of the crucial Division II match, the game took on the predicted classical touch of all previous Lake City-Seminole matchups. CLOSING!

During the final two minutes of the game the crowd stood as Lake City came closer and closer to cutting Seminole's lead and going in front. But the Timberwolves desperate effort failed and left the Raiders hanging by a heart throbbing one point margin.

The visiting Timberwolves led only once in the game, that being in the opening seconds of the pulsating contest. Seminole took the lead for good with only two minutes expired during the initial half on a line drive jump shot by leading James Gilchrist.

Seminole opened an 11 point margin just before the half-time break only to see the visiting Timberwolves close that lead to six points 38-32.

Simon Harper, Seminole's only returning letterman from last year's state champion played a key role in SJC's brilliant victory. Harper was everywhere, and at one point near the final the super 6'4" forward moved into a guard's spot.

Harper's all around play coupled with the key rebounding of Gilchrist and Harry Lee was all that Coach Joe Sterling's kids needed to keep their sizzling scoring pace. Harper led all scoring with 29.

Every Seminole player deserved credit for the prestige marked win. Guard Jim Below did an excellent job for Seminole on handling the quarterback chores, while former Crooms ace Greg Robinson sealed the Timberwolves from the outside with his radar jump shot.

Larry Ward, who explained Lee in the waning moments of the contest along with Mike Wakefield who took over Robinson's chores due to injury, sank key free shots in the final moments of the classic thriller to give Seminole their much needed margin and their 13th win of the season.

It was a thriller, there was no other way to term it. But Seminole is already looking ahead to undefeated second ranked Indian River, the nation's top scoring junior college team. Seminole will play host to the Ft. Pierce team Monday night in the SIS gym. Another turn away crowd is expected to be on hand.

Braves Trek To Meet Hurricanes

By ARTHUR MASTRONICOLA Herald Sports Staff

R. T. Milwee has a busy weekend ahead for both JV and varsity.

Friday night the Spartan JV's play host to Slavia whom the Spartans won over before Christmas. The Varsity will play host to the same team on Saturday night at 7:30.

On Saturday the R. T. Milwee varsity travels to Tampa to vary help and the JV's play host to their arch rivals South Seminole.

Milwee's record hasn't been just that good lately. For the varsity which hasn't won a single game their record stands 0-4 with the JV has a record of two wins and five losses.

Meanwhile the Sanford Junior High Braves will be on the road as they travel to Milwee tonight to battle the South Seminole Hurricanes. The completion of the series of tests.

PASADENA Calif. (UPI)—Michigan football Coach Bo Schembechler was taken to St. Luke's Hospital with a "gastric disorder" Thursday and missed his team's Rose Bowl Game with USC.

"We have no definite diagnosis," Dr. Gerald O'Conner, the Michigan team physician, said at 6:45 p.m. "We'll wait for the results of the tests."

O'Conner said Schembechler, 47, would remain here for "three or four days" for the completion of the series of tests.

On Saturday the R. T. Milwee varsity travels to Tampa to vary help and the JV's play host to their arch rivals South Seminole.

Milwee's record hasn't been just that good lately. For the varsity which hasn't won a single game their record stands 0-4 with the JV has a record of two wins and five losses.

Meanwhile the Sanford Junior High Braves will be on the road as they travel to Milwee tonight to battle the South Seminole Hurricanes. The completion of the series of tests.

PASADENA Calif. (UPI)—Michigan football Coach Bo Schembechler was taken to St. Luke's Hospital with a "gastric disorder" Thursday and missed his team's Rose Bowl Game with USC.

Set To Handle Yale

NCAA Enlarges Collegiate Schedule . . .

By HERSHEL SENSISON Associated Press Sports Writer WASHINGTON (AP) - The National Collegiate Athletic Association, having sent the nation's college football coaches into a whirlwind of activity by permitting them to schedule an additional game next fall, today faced the controversial case of Yale's ineligible basketball player.

NCAA Council, policy making body of the national organization, was expected to punish Yale for Wednesday's action, but the NCAA delegates approved a proposal that would have specifically identified the Macabean (Games as one of the intercollegiate competitors to be considered for approval.

A Texas-Penn State football game would be one of the high light of the 1970 season after the storm that arose this past season when both teams posted 11-0 records. However, both sides insisted early today that such a meeting was not settled. The Texas administration, in fact, voted against the proposal to allow an increase in the regular season from 10 games to 11.

WANTS NO. 1 RATING - By Alan Mevler

"THE HEAVYWEIGHT CHAMPIONSHIP USED TO BE THE NO. 1 TITLE IN SPORTS BUT UNDER THE FRACTIONAL DIVISION OF THE CROWN, PRESENTLY, THERE IS NO SUCH THING AS A LOST MUCH OF ITS GLORY."

Seaver, the New York Mets' All-American boy who led the team to the National League pennant and the World Series victory last year, is enjoying his latest accolade now.

"It's quite an honor," he said of the Associated Press award. "I'm very flattered."

At 25 years of age, Seaver, who won 25 regular season games, one playoff game and one World Series game last season, appears to have a number of seasons ahead of him.

By winning the honor, Seaver continued baseball's domination of the award. He is the fifth straight baseball player to win the honor, following on the heels of Detroit's Denny McLain, and he is the eighth in the last nine years.

To win it, Seaver had to beat out Joe Namath, his football rival in Shea Stadium. Namath, of course, led the New York Jets to another possible goal, the American Football League's first Super Bowl triumph.

Seaver received 96 votes in the balloting of sports writers and sportscasters throughout the country. Namath got 25, Steve Owens, the Helmsman Trophy winner from Oklahoma, was third with 41 and Australian tennis pro Rod Laver fourth with 40.

Seaver, who campaigned strongly for an additional game as "a matter of economic necessity," has started negotiations with southern big names such as Georgia Tech, Mississippi and Louisiana State, "plus two nationally known independents."

The Miami Herald reported. Florida would be willing to play the extra contest before it's scheduled open with Mississippi State Sept. 25, on the open date-Nov. 21-before the annual Miami game or after the finale with Miami on Nov. 28, Graves said.

Murphy had been hospitalized since last Dec. 30 after suffering a heart attack at his suburban home.

Murphy pitched or the Yankees from 1924 to 1947, helping them win seven American League pennants and six World Series titles. He was one of the game's first standard relief specialists and compiled a career win-loss record of 123-103.

Murphy had served as a reliever and as a manager since their inception in 1961. Commenting on Murphy's death from Cleveland's former Mets manager, said: "It was wonderful how the club progressed all year because of the way he brought him along as a chief scout. Murphy was named a vice president of the club in 1964."

And In Florida

By THE ASSOCIATED PRESS Although FSU Athletic Director Vaughn Manca could not be reached in Washington, Peterson said, "I personally would be in favor of playing Florida A&M. But we have no open dates on the 1970 season because, so the extra game or after our 10-game schedule."

"I would like to play either the University of Tampa or Florida A&M in the Orange Bowl next season," said Charley Tate, the University of Miami athletic director and head coach.

"Florida A&M would be a good opponent for us," said Florida State Coach Bill Peterson.

"I think we could fill the Orange Bowl Stadium by playing either Miami or Florida State in our annual Orange Blossom Classic in December," said Jake Gatherer, Florida A&M athletic director and coach.

"If we can find a top-flight opponent, we definitely will play an 11th game this fall," Florida Athletic Director Ray Graves said.

Tampa Coach Frank Curcio and Athletic Director Sam Bailey, in Washington for meetings of the National Collegiate Athletic Association, were unavailable for comment.

Graves, who campaigned strongly for an additional game as "a matter of economic necessity," has started negotiations with southern big names such as Georgia Tech, Mississippi and Louisiana State, "plus two nationally known independents."

Mays Not Looking For Ruth's Record

NEW YORK (AP) - Willie Mays, 36 years young and no less exuberant than when he broke into baseball 19 years ago with the New York Giants, intends to play the game "as long as the Commissioner can keep me around."

But the grown-up Say Hey Kid, given a red-carpet welcome as a New York Wednesday in commemoration of his slugging feats, doesn't expect to rewrite Babe Ruth's home run record in the twilight years of his illustrious career.

"I can't cut that one," Mays said of Ruth's record of 714 home runs, which to date has withstood assaults from all the modern day long-batter hitters, including Willie, whose 606 home runs rank No. 2 on the all-time list. "I don't have a chance," Mays said.

Mays said he hopes to play a minimum of 125 games for the Giants next season, barring injury. He got into 119 last year, batting .283 and setting 13 homers to hit the magic 600 mark on the nose.

"I don't mind myself," he said. "Iron fists, I'm not as young as I was. I see that ball as well as I ever did, but I don't respond the way I should."

That's age, I can't do anything about age. Some day a young ball will come up and beat me out of my job, but I don't think the time is now."

Welfare Program 'Invisible'

By G. C. THELEN, Jr.
Associated Press Writer

WASHINGTON (AP) — The Nixon administration is complaining that powerful groups which should be lobbying for welfare reform have abandoned the President's sweeping family assistance plan to "death by invisibility" in Congress.

Robert H. Finch, secretary of health, education and welfare, singled out organizing labor in particular, saying its "neutral, negative and cautious" stance on the President's welfare reform program has precluded chances for congressional passage.

Finch directed lesser criticism at such organizations as the National Conference of Mayors, the Urban League, the NAACP, the American Jewish Committee and the National Council of Catholic Charities. He said their support has been "anything but loud and clear."

"The secretary's bare-knuckled criticism of labor organizations and the urban-interest lobbies in a speech Tuesday before the National Press Club gave voice to a deep anger among liberal Republicans in the administration. Their complaint: The urban and welfare lobbies that should be supporting a revolutionary plan that amounts to a guaranteed income are not, so they believe, causing a Republican and supposedly conservative president to waver."

"There we fought like crazy for something the liberal community has been advocating for years and we get nothing, but no support," said one HEW legislative strategist. "You can bet they'd be pressuring Congress like crazy for this if a Democrat had come up with it."

Finch contended a virtual conspiracy of silence has developed in the welfare reform despite the administration's elaborate public relations efforts aimed at governors, mayors, newspaper editors and public opinion leaders.

Finch added, less pessimistically, "I would estimate the odds in Congress for any type of welfare reform are very, very low today."

Presidential prestige is a further reason Finch decided to take off the gloves against Congress.

It Takes 2 Nations To Talk

By GEORGE GEDDA
Associated Press Writer

WASHINGTON (AP) — A top Nixon administration official says one reason Cuba remains isolated from the rest of the hemisphere is the island nation "has shown no desire to return to the inter-American family."

"It takes two nations to talk," said Charles A. Meyer, assistant secretary for inter-American affairs. "And there has been no overture from Cuba."

Meyer said in an interview the United States has no plans to attempt a reconciliation with the Castro government.

"Even if the United States wanted to make such an attempt, he noted, it could not do so unilaterally. Action under which Cuba was excluded from the alliance was taken in concert with other nations of the Organization of American States. Any move to reverse that decision would have to be reached with the consent of other alliance nations, he said."

On another subject, Meyer displayed little enthusiasm for the proposals on hemispheric security made in the report for President Nixon by New York Gov. Nelson A. Rockefeller.

"Rockefeller expressed a keen interest in a hemispheric security Council and stepped up bilateral military aid to Latin nations."

"There were Latin American fears that because of U.S. military strength, a Western Hemisphere Security Council would be excessively influenced by the United States," Meyer said.

He said the level of bilateral military assistance recommended for fiscal 1970—\$21.4 million—reflects the normal service of supply for existing requirements.

GET A WHOPPING \$30 to \$167 ON YOUR OLD OFFICE MACHINE TOWARD THE PURCHASE OF A BRAND NEW SCM.

SCM 415 DELUXE OFFICE ELECTRIC
Automatic push-button. Smooth, effortless operation. Changeable Type. Big 12" carriage. 88-character keyboard. Page-Guide for even end-of-page margins. Quiet carriage return and tab stops. Every feature modern technology can devise. Contemporary styling.

Nationally Advertised at \$495.00

Area Hobby Enthusiasts Invited To Participate In Show

Members of the DeBary Garden Club were welcomed to the first meeting of the new year by Mrs. Frank Hill and Mrs. Wendell Fairbanks, which was led by the president, Mrs. Donald H. Middleton.

Membership chairman, Mrs. C. I. MacNeil, presented three new members, Mr. and Mrs. Alex Giddens, and Mrs. Charles Stephens.

World Gardening chairman, Mrs. H. V. Shook, reported having received several more hand knit handkerchiefs from garden club members and friends to send to the Loper Colony at Taiwan. This is one of the Garden Club projects that members are proud to support.

Recreation chairman, Mrs. C. E. Overholt, and her committee reported the Christmas sale a success with everything sold including ten cases or 240 lbs. of shelled pecans.

Mrs. J. L. Wallis, Horticulture chairman, reported the success of the Christmas sale a success with everything sold including ten cases or 240 lbs. of shelled pecans.

Mrs. Miller also gave a report on the Anti-Pollution campaign entitled "Save our Florida Lakes, They Belong to You."

Mr. Randall Knight of Sanford conducted a question and answer period after his interesting talk about "Florida Soils and Fertilizer Needs."

Several members are planning to attend the "Flower Show School" at Orlando, Jan. 14, 15, and 16. This school will give a general amount of money contributed for gifts were presented to the DeBary Manor in the middle of December by Mrs. D. H. Middleton and her committee. This sharing is an annual project of the DeBary Garden Club.

Program chairman, Mrs. H. M. Githy, promises a very interesting meeting for Feb. 6.

Society Coverage

For photo coverage of Sanford social events, the society editor should be notified at least a week in advance. Housewives are asked to have a name list compiled, clearly printed or typewritten, at guests and assistants available for the photographer.

Engagement and wedding forms are available at The Sanford Herald, to be accompanied by a black and white photo, if desired. Deadlines for engagements, three days in advance of publication date, weddings, six days.

For county social news coverage, call your area correspondent whose name appears daily in The Sanford Herald masthead.

ALWAYS FIRST QUALITY

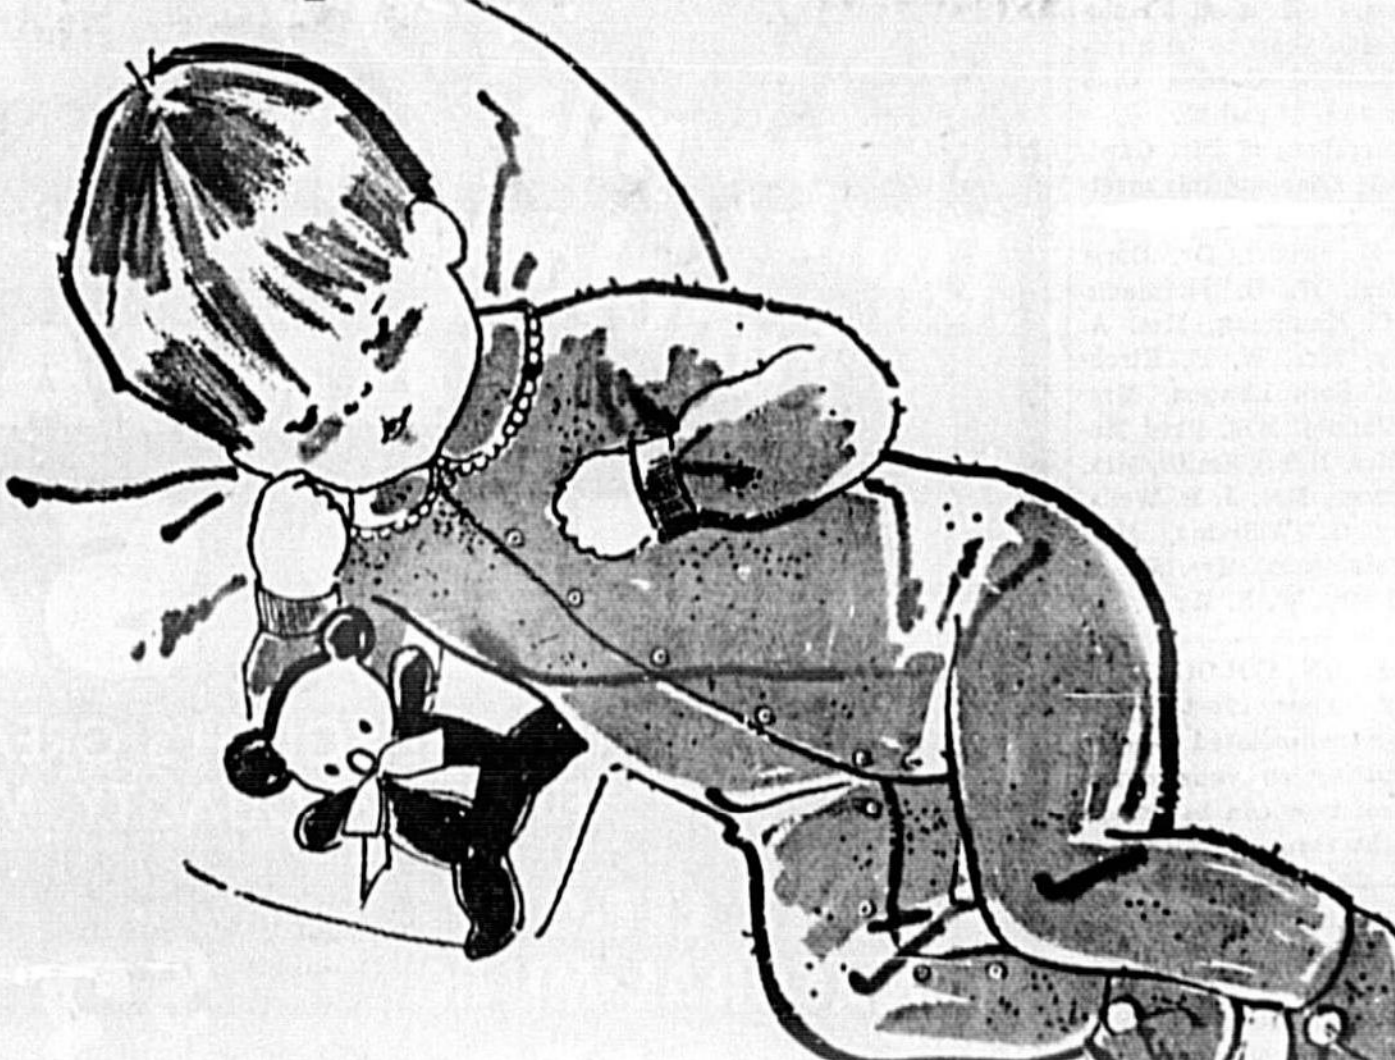

"Price Break!"
What it means at Penney's

By ROBERTA NASH

Of course a price break means just what you'd expect—a price that's lower today than yesterday. But at Penney's, there's a different philosophy behind the meaning.

It all began with Mr. Penney's great belief in value. Not occasional value. Day-in-day-out value. Our regular customers know this but what about new ones?

Now and then, to get folks to sample Penney's quality, we make a price so low it's irresistible. That's how we get more and more new people into our stores, and that's how we build the business.

MISS YVONNE MARIE CINTRON
Cintron-Owen

Engagement Told

Mr. and Mrs. George Cintron, 107 N. Melbourne Ave., Sanford, are announcing the engagement and upcoming marriage of their daughter, Miss Yvonne Marie Cintron, to Owen Eugene Ferguson, son of Mr. and Mrs. Owen Ferguson, 2700 Mohawk Dr., also of this city.

Born in Puerto Rico, the bride-elect attended schools in Dover, N.J., and also attended Jacksonville University. She is presently a student at College House Institute.

Mr. Ferguson, born in Sanford, attended schools here and is presently a senior at Florida State University where he is majoring in Social Welfare.

A July wedding is planned.

Card Fanciers Invited To Join Duplicate Club

By MELBREN HANNEY

The Duplicate Bridge winners for the club sponsored by the Ladies Women's Club were as follows: North-South: Mary Mary Jones and The Vortices; East-West: Sarah Young and Roy Jones; first, and Laetitia Thomson and Fred O'Hanlon, second.

Anyone who has never played duplicate bridge and is interested in learning, is invited to be a guest at the next meeting on Jan. 21 at 1:00 at the Community Center. The games, directed by Molly Bennett, are played on the first and third Wednesdays of each month.

Linda Marie Shaw H. C. Harris Jr. Married In Double Ring Ceremony

Miss Linda Marie Shaw and Harvey Carlton Harris Jr., were united in Holy Matrimony Dec. 30, 1969, at College Park Baptist Church, Palatka, Rev. W. M. Carmichael officiated at the double ring ceremony.

MRS. HARVEY CARLTON HARRIS JR.

For her daughter's wedding, Mrs. Shaw chose a pink crepe dress and lace coat ensemble complemented with matching accessories and a corsage of white carnations.

The bridegroom's mother, Mrs. Harris, was attired in an ice green A-line lace dress enhanced with matching accessories and a corsage of pink carnations.

Church Fellowship Hall was the venue for the wedding ceremony. Mrs. Tim Pressley introduced the guests to the receiving line and others assisting were Mrs. Richard Vincent, Miss Barbara Corneille, Mrs. Jerry Dean and Mrs. Lillian Barnes.

The bride's table, overlaid in lace was beautifully appointed with crystals and silver. A bridal couple decorated with daisies and a three-tiered wedding cake.

Following a wedding trip to Tampa, the newlyweds are making their home in Sanford where the bridegroom is transferring to Ford Fair.

Among the out-of-town wedding guests were Mr. and Mrs. Fred Pressley, grandparents of the bride, Canton, N.C.; Mrs. Luther Moring, grandmother of the bridegroom; Becky Brum, Farmville, N.C.; Maria Lee and Dennis Holloway, Sanford; Mrs. Wheeler Walters, Sylvestra, Ga.; Mr. and Mrs. Ronald Lee, Sanford; Mrs. and Mrs. Gainesville; and Miss Scottie Sayer and Miss Barbara Jean Moring, Fort Worth, Texas.

JACARANDA CIRCLE
By GLADYS FLOWERS

Jacaranda Circle of the Garden Center on Friday evening with Mrs. Laveta Truett and Mrs. Claude Tyne as hostesses.

Mrs. James Johnson, circle president, presided over the business session, during which chairman gave their reports.

Mrs. Johnson told step by step how orchids should be repotted, also what fertilizers and spray to use.

On Arbor Day afternoon the Garden Club will plant a Dogwood Tree in the park located on Park Avenue between 4th and 5th Streets. Mrs. Gordon Irwin, club president, Mrs. Carl Miller, vice president, Mrs. H. E. Pearline and others will be present.

It was announced that club members decided to have a party phone installed in the Garden Center.

Refreshments of cake, cookies, mints and coffee were served during the social session.

DIET GARDENERS CIRCLE
By LOBBRAINE MILLER

The Gardeners Circle of the Sanford Garden Club met on Friday, Jan. 10, at the home of Mrs. William H. Miller in Lakeland. Mrs. R. F. Tomison

and Mrs. H. E. Long were co-hostesses.

Mrs. G. Andrew Sober, president of Camellia Circle, was the guest speaker. She gave a most interesting talk on "Flower Show Practices."

Plans were discussed for the Festive Table Show to be given at the Sanford Garden Club Center on Jan. 20 and 21.

Other members of Diet Gardeners Circle attending this meeting were Mrs. J. E. Batten, Mrs. W. E. Bristol, Dr. Doris Cline, Mrs. W. J. Hofmann, Mrs. C. C. Kaufman, Mrs. A. G. Kinney, Mrs. W. E. Kirchoff, Mrs. Sam Lawson, Mrs. A. S. McCallum, Mrs. Fred McCallum, Mrs. Henry Smith, Mrs. J. C. Spencer, Mrs. J. B. Wells, Mrs. Roy G. Williams, Mrs. Nelson Yelvington, Mrs. W. A. Yarb and Mrs. V. E. Vray.

WALK ON COLONNE
Burn your feet with cologne or mentholated powder before putting on your shoes. The aerosol type can be applied on your feet through stockings.

When hanging nylon or leotards outdoors in dry air, slip a tea bag in each shoe. This prevents the hose from wrapping around the shoelace and getting snagged.

"Candid Chatter"

printing schedule and program; RUTH SIMPSON, hospitalities; and GLADYS FLOWERS, public relations.

The sweetest music this side of heaven is on the agenda for patrons of Seminole Mutual Concert Association.

Appearing here at the Civic Center on Jan. 26 will be one of America's favorites for many years, GUY LOMBARDI, and his team of talented musicians.

This performance is on Monday night and the curtain will rise at 8:30 p.m., in opposed to the usual 8 p.m. concert.

"Order of the Rose" Ritual

With a flair for high-fashion while in school, the high-flying starlet, designed and made many of her clothes and also attended Seminole Junior College and Post Pinner's Modeling and Charm School.

So keep 'em flying, Joan Ward!

It isn't every day that a gal gets a call from the Governor's office. The announcement of a festive Table Show at the Spol斯基, for a few minutes before an advertisement in the wonderful world of women. The gentleman's announcement is forthcoming.

For the first time in this area, Sanford Garden Club is staging a festive Table Show at the Garden Center, Saturday, Jan. 24, from 10 a.m. to 6 p.m., and Sunday, Jan. 25, from 10 a.m. to 6 p.m.

Under the general chairmanship of MARY TILLIS, the spectacular show is designed for the entire area. A "hostess with the mostess" will surely want to attend the show to catch up on table-setting techniques. A wealth of original ideas will be encompassed in the beautifully appointed table display.

To give you a clue as to the outstanding features of the show, each circle is sponsoring a table. Individuals "doing their own thing" are ARBIE GREEN, who will present a backhitcher's table, "There Goes the Groom", with MRS. CHARLES COLE and MRS. CHARLES BERTMLEY arranging a bride's table, "Hearts and Flowers".

Other tables include "On the Eve of Midnight", Magnolia Circle; "Christmas Aglow", Mimosa Circle; "The March Here Has a Party", Central Circle; "Welcome Happy Moments", Diet Gardeners Circle; "Put Them All Together, They Spell Mother", Camellia Circle; "Thanksgiving Bounty", Elm Circle; "Old Glory", Palm Circle; "By the Pool", Jacaranda Circle; "After the Game", Mimosa Circle; and "Trick or Treat", Woodrose Circle.

A very minimal fee is being charged and refreshments will be served during the show.

Assisting Mrs. Tillis are ARBIE GREEN, schedule and consultant; ARBIE OWEN, styling; MARIE FAHEY,

are reminded of the third annual Show sponsored by Florida State Park.

Clear gals who have a knack at stitching their own glad rags will welcome the opportunity to increase their allowances with one of the six cash prizes awarded by the bank, as well as modeling their creation in a gala Fashion Show.

Coordinator of the event is the bank's IRENE BROWN, and his team of talented models.

Last Spring, Sanford Women Club, headed by ANN RIEZKOWSKI, staged simultaneous "hostess with the mostess" dinner parties throughout all Seminole to benefit a mental health facility.

The fund raising project boosted the building fund with a considerable amount of "green" and the facility located in a rented building in Longwood and still in the infancy stages, has made tremendous progress with the aid of lots of above grass supplied by volunteer workers.

Once again Sanford Women's Club is planning a countryside

will be conducted by the five local Beta Sigma Phi Chapters and City Council at an all-Spol斯基, for a few minutes before an advertisement in the wonderful world of women. The gentleman's announcement is forthcoming.

Prior to the well-JAN JOYCE and City Council candidate for international competition.

CHARLES SAMMET will entertain at a cocktail party at their Lake Mary home for contestants, judges and their spouses.

I feel very flattered in that I was asked to judge the beauties along with MAYOR LEE MOORE, CHARLES SAMPLE, Seminole College Dean; BILL CHAFFELL, U.S. Congressman; and P.A.T. FLEISHER, modeling and charm instructor.

Reservations and tickets are limited so get on the list today by phoning JAN MYERS, 222-9075 or JACKIE MARKOS, 222-2800.

Proceeds go to mental health.

"Candid Chatter"

South Seminole Women's Club.

Speaking of benefits, several surrounding counties are expected to come to the aid of Sanford's Good Samaritan Home.

The kick-off to the fund-raising event will be the appearance of M.L.T. BARD at the Civic Center, Feb. 2.

In order to erect a new facility for the aged, general JACK HONNER, Mr. J.P. himself, who is public relations chairman for the project feels that the combined efforts of organizations, business firms, churches, schools and individual philanthropists could result in a literal flood of "pennies from heaven."

Chairman of the elegant fund-raising benefit is HARRIET DEAN and the "men in her life" a spokesman "in the know" called to comment that Sanford Naval Academy is just

as pleased with the only school man on the staff as she is a royal battle within the bonds of his lungs, commonly called Pneumonia.

We miss you, Fred!

At this point, if you're tired of flying-high, table-hopping, listening to good music, bored stiff with benefits and have concluded that you are for I am a long file candidate for mental health services, now Fred's illness is the result of being allergic to throngs of

LILY CHEN and her charming daughter are pictured above as they were caught during a free moment. Mrs. Chen was the guest artist invited by the Sanford Seminoole Art Association to give a water color demonstration to a Sunday afternoon audience at the Civic Center. (Liz Mathieux Photo)

Water Coloring Artist Gives Demonstration

Mrs. Lily Chen, formerly of Hawaii and now of Florida, demonstrated her artistic abilities in water colors most beautifully Sunday afternoon at the Sanford Civic Center.

During her demonstration she explained to her most attentive audience that painting in water color or any other medium, to attain the effect that you desire, must never be a chore, but it must be something that you enjoy doing.

She explained that working in water color had to be fast work and therefore you would make many mistakes trying to get the effect that you wanted, but to make your mistakes work for you and that most of the time you would be surprised at your results.

She stressed the need for knowing the need for knowing your subject well; to use simplicity as the Chinese do in their lovely water colors; and to always leave something to the viewer's imagination. Water color in its own simplicity is very effective.

This demonstration by Mrs. Lily Chen, sponsored by the Sanford Seminoole Art Association, was an effort to help our community to appreciate, enjoy, and to become aware of the most tedious work of a water color artist.

Books Shipped

EDMONTON, Ont. (AP) — Textbooks no longer of use to school boards across Canada are being shipped to underdeveloped countries. A distribution center here has 30,000 books being prepared for a shipment to Kenya and Uganda.

Smoking, Heart Disease Linked

By BRIAN SULLIVAN
 AP Science Writer

NEW YORK (AP) — Swedish scientists said today that carbon monoxide from cigarette smoke is "very likely" part of the reason smokers develop more coronary heart disease.

If this is so, they said, it means that scientists concerned about preventive medicine will have to take a look at all forms of exposure of people to carbon monoxide, such as automobile exhaust.

The carbon monoxide from cigarette smoke gets into the bloodstream, the scientists said, where it appears to pave the way for the accumulation of cholesterol in the arteries.

An excess of cholesterol is one factor that has been implicated in the incidence of heart disease. Deposits of the fatty substance clog the arteries, preventing normal flow of blood and oxygen.

The new report came from Dr. Paul Astrup, Knud Kjaersgaard and John Wanstrup of the department of clinical chemistry at the Royal Hospital in Copenhagen. Dr. Astrup described work on rabbits and studies of humans at a conference on biological effects of carbon monoxide sponsored by the New York Academy of Sciences.

Dr. Astrup said his department noticed high concentrations of carbon monoxide in the blood of young men with coronary artery diseases. Carbon monoxide is a poisonous gas released by combustion, combines with hemoglobin in the blood, displacing vital oxygen.

About 10 per cent of the smokers they studied, Dr. Astrup said, had unusually high levels of compound formed by the carbon monoxide and hemoglobin, a compound called carboxyhemoglobin. The levels reached 10 to 20 per cent.

The high levels were linked to individual smoking habits, such as depth and duration of inhalation. To check their observations, Dr. Astrup said that in one series of experiments, two groups of rabbits were fed cholesterol, but only one group was also ex-

posed to carbon monoxide. The accumulation of cholesterol in the arterial walls of rabbits exposed to carbon monoxide was three to five times as much as in those given only cholesterol. Dr. Astrup said. In tests on rabbits who were not given any cholesterol, the carbon monoxide produced damage in the walls of the arteries.

Dr. Astrup said the evidence indicates that the carbon monoxide makes the walls of the blood vessels more permeable, thus allowing an increased flow of fats through the walls. He said he is working with drugs that might counter this effect.

At large molecules of these fats pass through the walls to the lymph system, and back to the blood, some end up deposited in the blood vessels. If the walls are more permeable because of the carbon monoxide, the greater flow means a greater chance of fats depositing in the blood vessels.

Dr. Astrup also said that if it is correct that only 10 per cent of smokers have high carbon monoxide levels in their blood, "smokers having low carboxyhemoglobin levels could be perfectly safe in terms of atherosclerosis." But not in terms of other diseases, such as cancer, he said.

Nicotine the focus of much attention for its effects on the cardiovascular system, does not enhance the accumulation of deposits in the arteries, according to Dr. Astrup's experiments.

Complete Changes Highlight '70

DETROIT — The Monte Carlo — a totally new personal luxury car — headlines Chevrolet's new models for 1970. John Z. DeLorean, General Motors vice president and Chevrolet general manager, said, "The 1970's are an unparalleled decade of individual customer choice." DeLorean said Chevrolet will continue to set the industry pace with a variety of cars and options which allow each buyer to custom tailor his or her personal transportation.

"Monte Carlo adds a new market dimension by offering to the youthful, sophisticated buyer a superb blend of individual, high fashion styling and performance."

"The big Chevrolet has new styling and added power for 1970 and Chevrolet has an all-new appearance," DeLorean said. "Improvements in these lines are incorporated in both sizes of Chevrolet station wagons. The fast-selling Nova has fresh appeal in its new models."

Current models of the popular Chevrolet Corvette and Camaro will be continued to the end of this year with new

models in each line scheduled for introduction later in the model year.

DeLorean said that among important 1970 engine changes, the base V-8 of the big Chevrolet is increased to 350 cubic inches from 327 cubic inches in 1969 to give added power for options such as air conditioning, power windows, power locks, and power door locks.

The base six-cylinder engine of Chevrolet is also increased — 250 cubic inches in 1970 compared with 230 cubic inches in 1969.

"A smooth running new 400 cubic inch V-8 that burns regular fuel is introduced as an option on the big Chevrolet and also is available on Monte Carlo," DeLorean said.

"Two new high torque 454 cubic inch V-8's replace 427 cubic inch engines offered on the big Chevrolet in 1969."

He said mechanical improvements include smoother engine acceleration through the use of a transmission controlled vacuum spark advance.

There is extended use of variable power steering which gives more responsive maneuverability in turns and parking. It is

new available on all 1970 models except station wagons and Nova models with four-cylinder engines.

Longer life, fiberglass-belted tires are standard on all 1970 Chevrolet models.

Every 1970 model has extensive safety features for occupant protection, accident prevention and anti-theft (see full list).

New for 1970 among Chevrolet's more than 400 options and accessories are improved electric door locks, replacing vacuum locks.

With the electric door locks is a new automatic front seat back release for couples which unlatches when either front door is opened, for easier access to the rear seat. The latch releases securely when the door is closed.

Also new is an electric rear deck lid release operated from inside the glove box.

Regular Chevy Looks Richer, Much Fuller

The industry's top selling regular Chevy has a new front end appearance in 1970 with a richer looking fine mesh grille and more prominent headlights.

The exclusive Caprice and Impala Custom Coupe profiles with full-width rear window continue in 1970. This is the largest selling single body style among regular-sized cars in the industry.

Vertical-line vertical taillights located in the new rear bumper are a clear change identity from the horizontal lights of 1969.

Caprice models have color-matched side moldings and for the first time have wheel covers which are accented with body color. The popular raised vinyl protective side molding is continued on Impala in five harmonizing colors.

Fifteen inch wheels are now standard on all big Chevrolets.

There are a total of six engines with a horsepower range from 135 to 300. The base six-cylinder engine is 250 cubic inches. Five V-8's range from the new base 350 cubic inch engine to the new 454 cubic inch engine.

A total of 9 big Chevrolet models are available on a 116-inch wheelbase.

Chevrolet — The industry's top-selling intermediate, whose sport coupe is the largest selling single body style on the market, has a completely new look for 1970.

The bold front end design emphasizes the engine in the projecting, split grille. Dual headlights blend back into the fenders.

Sculptured sides have a strong family resemblance to the big Chevrolet, as does the new shape of rear quarter windows on the coupe which are enlarged for greater visibility than in 1969. The coupe and convertible have full door-glass styling.

Simplicity keynotes the rear with rectangular taillights recessed in a larger bumper. On the SS Chevelles, a special dent-resistant resilient black insert is part of the rear bumper.

Detroit skyline is backdrop for Chevrolet's Newest Caprice Coupe

Chevrolet's top-of-the-line, the Caprice Coupe for 1970, is dressed up with a new front styling of grille, hood and fenders. Recessed vertical taillights and color-accented wheel covers are only two of the many refinements found in the Caprice this year. The new Chevrolet line of passenger cars will be in the dealers' showrooms.

Salesmen With A 'Personal Touch'

As sales experience, skill and personality to sell a car," said New Car Manager, Bob Young. And his team of seven salesmen has proven his thesis true.

All of the Joe Creamons salesmen have been "in the business" for at least three or four years. Some of them have up to 30 years of selling experience.

What does it take to keep a man in the same business for so many years? One answer, at least, must be faith in the product he is selling.

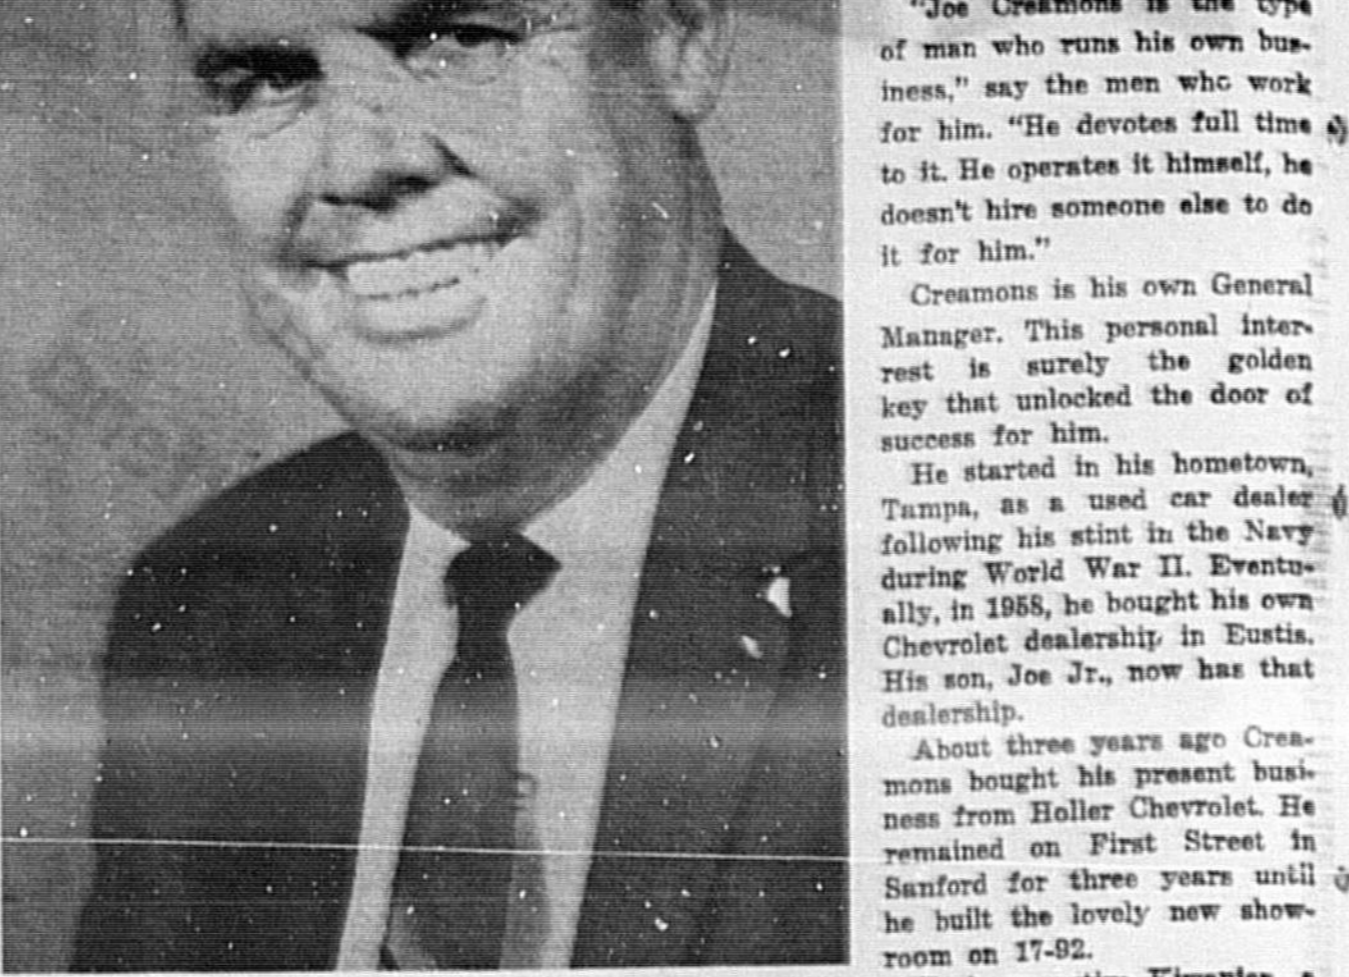

"I favor the Impala and Caprice Chevrolet," says Pete Webb. "You get more for your money and the car holds its value." Webb and his wife, Lynn, and their three children live in Altamonte Springs.

Sam Richardson joined Joe Creamons in 1969, after 14 years of experience in selling automobiles. "The greatest time has been selling General Motors' products." He mentioned the top notch service that is featured at Joe Creamons.

Earl Moore favors the Chevy line too, primarily because of its wide popularity and many special features. He and his wife, Jackie and their two children live on Lily Court in Sanford.

The fine body lines of a General Motors car are a special source of pride that make

Creamons 'Loves' The Business

JOE CREAMONS

"Joe Creamons is the type of man who runs his own business," says the men who work for him. "He devotes full time to it. He operates it himself, he doesn't hire someone else to do it for him."

Creamons is his own General Manager. This personal interest is surely the golden key that unlocked the door of success for him.

He started in his hometown, Tampa, as a used car dealer following his stint in the Navy during World War II. Eventually, in 1958, he bought his own Chevrolet dealership in Eastia. His son, Joe Jr., now has that dealership.

About three years ago Creamons bought his present business from Heller Chevrolet. He remained on First Street in Sanford for three years until he built the lovely new showroom on 17-92.

He is an active Kiwanis, a Mason, a Shriner and a member of the Methodist Church.

A new Oldsmobile exclusive in 1970 is the optional fingertip windshield wiper control, located in the shift lever handle. The feature offers two major benefits to the driver. It is more conveniently located and it provides additional safety since it permits the driver to operate the wiper system without taking his eyes from the road.

For the first time, Oldsmobile in 1970 is making a "W" option available on the 88's. The option consists of a 300-hp V-8 engine with dual exhaust. The package is designated as the W-43 option. A "W" package also is offered with the 1970 Toronado. Designated W-4, it consists of a 400-hp V-8 with dual exhausts.

Oldsmobile on all of its 1970 models has incorporated a new concept in connecting rod bearing design that greatly enhances engine durability. The new bearing is concentric with the journal except for a small segment at the split line where it is eccentric. Old system pressure is increased as a result, assuring better engine lubrication.

Our Congratulations

Top Notch Auto Service With Quality Is Stressed

Service, top notch service with quality stressed, is a primary selling point for Joe Creamons. Les Wheeler, the service manager has a big job.

"We cover every phase of the business," said Wheeler. "We have everything from our own wrecker service with 24 hour service, to a complete body shop."

The body shop, under the supervision of Al Godwin, who has 18 years experience as a body man, is undergoing a terrific expansion.

The shop is designed to accommodate the three phases of service in three separate buildings. They have a body shop, Building A for the line mechanics for regular customer service, and Building B for new and used car preparation and delivery.

Building A has 16 bays and eight lifts. Building B has 16 stalls. The Body Shop, while it now has only five bays, will have 15 in a month, said Godwin.

"We'll have a total of 31 bays when all the buildings are complete, and 38 employees," said Wheeler. "We could employ up to 60 within the next two or three years as the business expands."

The features in this complete service set up include a complete front end department for alignment and wheel balance and a small size machine shop.

"We don't take appointments, come in and try to speed their work up," said Wheeler sincerely, obviously proud of his

disposition of the part needed returned to Roberson, telling him where the part is in transit, when it will arrive, and other valuable information.

The computer puts the master warehouse in Atlanta within an easy communication range with Joe Creamons.

"This is unusual in this area now, but eventually everyone will have it," predicted Roberson. "The machine age has taken over, and I'm really enthused about it!"

The proper selection of a truck to do a particular job can save the owner a lot of money. And Harry Clark, manager of the truck division of Joe Creamons, has been in the business of selling trucks for over 20 years.

"If the trucks to the needs of the owner," said Clark. "We handle everything from light duty pickups to heavy duty diesels."

Clarking has arrived as a favorite pastime for Floridians. Clark has an Open Road camper to suit every taste. "The Open Road Camper line is the largest manufacturer of recreational vehicles in the U. S.," he said.

By combing a camper and a truck in a single purchase from Joe Creamons can save you money in cost and financing, claims Clark.

EXPERIENCE, SKILL AND PERSONALITY are valuable assets in car salesmanship, and these seven combine these traits admirably, claims their manager, Bob Young. Sam Richardson, Pete Webb, Don Reed, Carrol Carter, Chuck Hobbs, Earl Moore and Bob Smith do more than sell cars. They make Joe Creamons a Happy Place to do Business.

Toronado, Oldsmobile's Front Line

LANSING, Mich. — Oldsmobile's front drive Toronado marks its fourth birthday this fall and, like any 4-year-old, many changes are evident. In fact for 1970, the Toronado has undergone the most extensive change in appearance since its introduction in 1966.

"It's a sleeker looking automobile with a distinctive new shape to the wheel openings and all-new front end that includes a new grille and exposed headlamps," John E. Belts, Oldsmobile's general manager said.

"Having earned an exceptionally high degree of owner loyalty, the Toronado has been especially appealing to the car buyer who wants something different, something out of the ordinary," he added. "This styling individuality has been completely preserved in 1970."

"Another Toronado trademark — superb performance under all road conditions — is unchanged in 1970. The instrument panel has been restyled and the electric clock has been relocated on the passenger's side to make room for a fourth air conditioning outlet to the right of the instrument cluster.

For the first time, the Toronado is offered with a special performance option. It consists of a 400-hp, 455-cu-in. V-8 with dual exhausts and is designated as the W34 option.

Standard engine in the Toronado is a 375-hp, 455-cu-in. V-8 with a barrel carburetion.

Grand Opening, brand-new location for Oldsmobile Headquarters: JOE CREAMONS, Inc.

We invite you to escape from the ordinary!

Nothing's too good for you—or for Oldsmobile's exciting new 1970 Escape Machines! So we've put up a big new showroom, in a convenient new location. Built a big new service facility that's now tooled up and staffed up to provide expert work far beyond the ordinary. Now we're holding a Grand Opening Celebration with all the trimmings—including "specials" on Olds Escape Machines... Value-Rated used cars... and service work on all makes! Come on in, first chance you get this week—we're new in the neighborhood and eager to make more new friends.

JOE CREAMONS, Inc.

CAMPERS, TRUCKS, NEW AND USED cars, enough to cover 11 acres, are to be seen at Joe Creamons Chevrolet, Oldsmobile and Cadillac. He features a representative line to show the buyer

A WINDOWLESS SHOWROOM is just one of the unusual and outstanding features of Joe Creamons Chevy, Olds and Cadillac Dealership. The fine, gleaming lines of 1970 are on display without the

A Grand, Grand Opening For Joe

Bright red and blue flags flutter proudly with the announcement of the grand opening of Joe Creamons. The Seminole County dealer for Chevy, Olds and Cadillac has a unique new showroom on 17-32, just 10 minutes from any point in the county.

Cars, trucks and campers, Exclusive to Oldsmobile in 1970 is the incorporation of a new positive valve rotator system on all V-8 engines, which extends valve life beyond anything available on today's passenger car engines. The system assures 100 percent perfect seating of intake and exhaust valves, even at high mileage, by constantly polishing the valve seating surfaces to a clean mirror-like finish. As a result, combustion loss due to imperfect valve seating is prevented.

new and used, the largest selection in Seminole County, cover 11 acres. They stand in gleaming, even rows awaiting the nod of approval from the prospective buyer.

Joe Creamons covers the entire market with cars in all price ranges that include Chevrolets, Oldsmobiles and Cadillacs. They carry a complete range of trucks, from half tons to tractor trailers. And they can combine a truck and camper rig in a package deal to pamper the new all-

American fun pastime of camping. Joe Creamons has the largest stock of new and late model used cars in Seminole County, a fact they are very proud of. The local banks and the General Motors Acceptance Corporation (GMAC) will handle the business end of the dealing, leaving the pleasure of driving a new car to the owner without worry.

A windowless showroom is more than an eye-catcher. Not only does the passer-by have an opportunity to get a close glimpse of Creamons' featured automobiles without the reflection of glass to interfere, but he gets a peek into the heart of this business.

The feeling of openness and friendliness pervades the showroom and its facilities. "It's a personal feeling, where you know the men who will serve you really care about you," said Bob Young, the new car manager.

We Topped It Off!

WE ARE PROUD TO HAVE BEEN SELECTED TO PUT JOE CREAMONS' NEW SHOWROOMS UNDER ROOF. WE EXTEND OUR HEARTIEST CONGRATULATIONS AND GOOD WISHES TO HIM AND HIS STAFF.

Variety Is Chevy Station Wagons

To again give the station wagon buyer opportunity to select exactly the size and features he wants, Chevrolet's eight station wagon models are grouped in a single line with two sizes in 1970. All have dual action tailgates.

On a 118-inch wheelbase and incorporating the styling of the big Chevrolet are the Kingswood Estate, Kingswood, Townsman and Brookwood.

On a 116-inch wheelbase with Chevrolet styling are the Concours Estate, Concours, Greenbrier and Nomad.

The 118-inch wagons all have V-8 engines with a horsepower range from 256 to 306. Fifteen-inch wheels are standard on all 118-inch wheelbase models.

The 116-inch wagons have one six and four V-8 engines with a horsepower range from 185 to 306. Side-guard door beams are introduced in this size wagon and continued on bigger wagons.

All wagons have improved ride and handling. They include the engineering, styling and safety advances of Chevrolet cars of comparable wheelbases and offer a wide variety of options and accessories.

Concours Estate wagons have Brookwood and Nomad are sides and tailgate. All but the Brookwood and Nomad are available in 3-seat as well as 2-seat versions.

Chevrolet wagons again offer the comfortable "walking" rear design. Using the Chevrolet dustaction tailgate that includes a step built into the rear bumper, a passenger can step upright into the wagon and sit down easily in the rear-facing third seat.

The 118-inch wagons all have V-8 engines with a horsepower

Take A Ride With Me In My Merry Oldsmobile

DETROIT — A new and luxurious personalized car heads Oldsmobile's line of impressively-styled 1970 models, all of them featuring history-making engineering advancements aimed at added durability and further reduction in the need for service. It was announced by John B. Heltz, the division's general manager and a vice president of General Motors.

"The newest Oldsmobile is the elegant Cutlass Supreme Hardtop Coupe," he reported. "It is a distinctive car designed to answer growing customer demand for sporty luxury in a personalized kind of automobile. It is identified by its own roof line, its own body shape, its own external ornamentation, and its own ultra-luxurious interior."

He said the new coupe and a companion convertible represent an important added element in Oldsmobile's 1970 intermediate model lineup, complementing the 4-4-2 and Cutlass '69' series whose fastback coupes have been Oldsmobile's most popular.

"These cars, too," Heltz said, "have been restyled to emphasize their youthful image to an even higher degree.

"Meanwhile," he continued, "the successful look of elegance in our 88's and 98's has been further enhanced in 1970 to make them even more appealing, and the Toronado has undergone the most extensive change in appearance since its introduction in 1955.

"It is a sleeker looking automobile, with a distinctive new shape to the wheel openings, a new front end, including a

It isn't Math, History or English. But it's just as basic.

To earn a living, he needs the old fundamentals. To keep on living, he must learn the right way to drive. Yet only one out of three high school students takes a driver education course. Too bad. Automobile accidents are the number one killer of American teenagers.

How important is driver education? Well, it's important enough that trained drivers have 50% fewer accidents and traffic violations. Important enough that many insurance companies offer lower rates for teenagers who have completed driver training.

And important enough that new car dealers across the nation loan 34,000 automobiles every year to our public schools for driver training.

It's your responsibility to help make sure your teenager takes the proper subjects in school. So make sure driver education is one of them. Where it's not available, we suggest that you consider a good private driving school.

When it comes to preparation for living, learning how to drive safely really is basic.

National Automobile Dealers Association

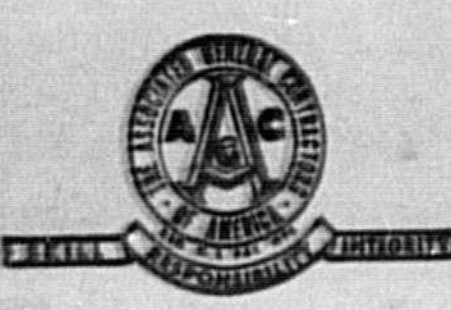

Congratulations Mr. Joe Creamons

And Best Wishes For Much Success!

It was a sincere pleasure to have been selected as the contractor for your new Chevrolet, Olds and Cadillac showrooms, offices and service department. We cordially invite everyone to visit Mr. Creamons in his new building and see Sanford's newest modern facility for sale and service of fine motor cars.

Hearing Set Today Of Noted Area Duo

Harlan Blackburn, reputed Central Florida bolita king, and Edward Kirkland, noted Orlando defense attorney, were scheduled to appear at 2 p.m. today for a preliminary hearing before Seminole County Judge Wallace Hall.

The pair are accused, on the basis of direct information capias supplied yesterday by State Attorney Abbott Herring, with "lewd and lascivious conduct in the presence of a female under the age of 14." Kirkland is also charged with crime against nature.

According to the charge, the incident is alleged to have occurred in the vicinity of the Regency Apartments, located just off SR 48 in Seminole County.

Both Blackburn and Kirkland were arrested early Thursday at their Orange County homes by Orange County sheriffs on warrants supplied by Seminole County Sheriff's office and signed by Judge Hall.

Kirkland's original \$50,000 bond on each charge was reduced by Orange Circuit Court Judge Bernard Muszynski to \$500 on each count after a habias corpus hearing at 4:30 a.m.

Kirkland has in the past defended Blackburn in charges connected with bolita operations in Orange and Seminole Counties.

Kirkland is the attorney for suspended Orange County Solicitor Collis White who is charged with soliciting a bribe from the head of a cosmetics firm. He was to have taken depositions in that case today.

Trial Will Start Monday

By BILL SCOTT
Beginning Monday at 9:30 a.m., the slow process of picking a trial jury to hear a murder charge against a 25-year-old Sanford mother of four accused of killing her fireman husband will get underway in the degrading Seminole County Court House.

Mack N. Cleveland Jr., attorney for Mable Frances Thompson, will face the legal labors of state's attorney office as prosecuted by Abbot Herring and Thomas Speer, his assistant.

The Thompson woman is alleged to have killed her husband and stuffed his body in a hall closet where it was discovered months later by two Sanford policemen.

The body of Bobby Thompson was found by Donald Brumley and Ralph Russell, city

detectives, after a search of the former Thompson home at 1008 W. Fourth Street.

The detectives testified before Judge E. Thom Rumberger, after Cleveland had filed motions to suppress the evidence found at the house, they were investigating the disappearance of Thompson, when the body was found under a covering of plastic and clothes.

Judge Rumberger ruled the rights of Mrs. Thompson were not violated by the police search and allowed the items taken by authorities as evidence to be used in the trial.

State maintained the house had been abandoned by Mrs. Thompson and police were not violating the woman's constitutional rights in making a search of the property without obtaining some form of warrant.

At least 227 prospective jurors and 59 witnesses have been summoned to the court house and several days, perhaps a week may be required before a jury acceptable to both Herring and Cleveland can be empaneled.

Because of the court room's structural condition, a limit of persons has been imposed and it is for this reason Sheriff John E. Folk reserved ten seats for news media.

Judge Rumberger has ruled that no photos may be taken of the principals in the case within the court house or adjacent grounds while the trial is in progress.

News reporters have been cautioned by Rumberger to publish only those statements given in evidence and he has ordered city and county authorities to withhold any comments from the press concerning the charges.

Observers expect the case to last two weeks or longer.

GOOD SAMARITAN KICKOFF

CHECKING A BANDAGED FINGER, Dr. G. H. Starke adds words of comfort and love to Mrs. Lila Martin, a patient in the Good Samaritan Home. Mother Ruby Wilson (left) founder of the home, is trying now to save the nursing home from extinction by rebuilding it to meet new state fire regulations. Dr. Starke is also on the Board of Directors for the home. (Don Vincent Photo)

Good Samaritan Fund Drive Set

By CHARNER LEONE
Over 500 people in its 25 years of existence. Currently the Good Samaritan Home houses 27 elderly patients, regardless of race, that would otherwise be without a home or care.

Herring said that he was currently awaiting a reply from television station regarding a request to hold a telethon to benefit the home. Also, he is exploring the possibility of benefit nights at the parimutuel attractions and entertainment centers throughout the Central Florida area.

The nursing facility, run by Mrs. Ruby Wilson, (Mother Wilson) has been ordered to close because it does not meet the state fire code specifications.

"I can see the work of God in the interest citizens have taken in the Good Samaritan Home," said Mother Wilson. Her faith in God is total. She feels that He will save her home through the inspiration of those who can raise the money to build a new home to house the patients she tends so lovingly.

Concluded Mother Wilson sincerely, "The Lord has been saving us. He knows we are here to help."

S. Seminole Zoning Protests

By MARION BETHA
The tremendous surge of building in the south Seminole area is causing some protests with continued requests for zoning changes. This was evident at a meeting of the Seminole County Planning and Zoning Board which was held at the Lyman School in Longwood.

A request was entered by Hi-Lo Corporation for a change in zoning from A-1 agricultural to R-3 multiple family, an property lying east of English Estates and west of Indian Hills.

Board member Andrew Starke objected to the change, stating that more roads were needed in the area, and that there was already too much traffic on Oxford Road.

Glenn McCall moved to table the request for 90 days to allow the road problems are resolved. The hearing was tabled until the Hi-Lo Corp. can come up with additional information and assure the board that they will put in the necessary roads. A request was also tabled from Hi-Lo for rezoning of property east of Oxford Road and north of English Estates from A-1 agriculture to R-1A residential.

Later in the meeting a representative of Clayton really presented on a map the established road from the east going into the playground area of English Estates school, and establishing

Activities Planned For Jaycee Week

By JANE CASSELLBERRY
Area Jaycees are planning many special activities to highlight Jaycee Week to be launched Saturday with a Distinguished Service Award Banquet held by the Sanford-Seminole Jaycees at the Holiday Inn preceded with a reception at 7 p.m.

Special guests for the event will be Lt. Gov. Ray C. Osborne and Attorney General Earl Falcich. The following awards will be presented to outstanding citizens of the community: Distinguished Service Award E. O. "Oz" Dorniney Memorial Faith in God Award, Outstanding Young Educator, Outstanding Young Law Enforcement Officer, and Good Government Award.

State Rep. Fred Schultz, speaker of the house, will be guest speaker at the South Seminole Jaycees' DSA Banquet and Dosses Night, Wednesday, Jan. 21, at 8 p.m. at Valley Forge Country Club, Altamonte Springs. Awards will be presented as follows: Distinguished Service Award, Outstanding Young Educator, Outstanding Young Law Enforcement Officer, Good Government Award, and Boss of the Year.

The Office Jaycees will observe Jaycee week, Jan. 19-23, with a proclamation by the mayor and have scheduled their annual DSA Banquet for Monday, Jan. 20, at 7:30 p.m. at the Townhouse Restaurant. To be presented are the Distinguished Service Award, Good Government Award, and Faith in God Award.

Other events slated by the Sanford-Seminole Jaycees during the coming week include: a training workshop services at the First Baptist Church, Sunday, at 11 a.m.; "An Evening with the Mayor" at 7 p.m., Monday, at Club Lili as the Jaycees host the city commission; and a prayer breakfast at 7 a.m., Tuesday at Pinecrest Baptist Church.

At 7:30 p.m., Tuesday, there will be a husband and wife orientation at Florida State Bank; Wednesday, there will be an open house all day at the Jaycee Building; starting at 10 a.m.

On Thursday a Past Presidents Luncheon will be held at 12 noon at Otto's Hofbrau Haus and at 7:30 p.m., there will be a meeting of the Board of Directors. On Friday, at 8:30 p.m. there will be a TGIF party at Club Lili and on Saturday at 7:30 p.m., a tasting dinner at the Police Benovolent Building.

Idyllwilde School OK'd For Vihlen Road Site

Seminole County District School Board at Thursday's special meeting approved the construction of Idyllwilde Elementary School on Vihlen Road near Sanford and approved the advertising of construction bids for Feb. 12 opening.

Eoghan Kelley, architect for the open-space type school, explained final plans to the board before submission to State Education Department for final approval.

Kelley said the facility could be ready in time for Sept. 1 classes and board moved to approve the sale of \$800,000 in bond anticipation notes to Bank of Oviedo for six per cent interest.

Walter Teague, school finance officer, explained that money could be used for building the permanent Idyllwilde structure and move the present portable buildings at the facility to another county site or start construction on the Seminole High School addition.

Teague stressed that the high school addition would not be ready for a year, according to information from John A. Burton IV, architect, but the elementary school could be opened by next term.

In another discussion, the school board was concerned over several school lunchrooms being late in paying bills for meats and products bought for the lunchroom program.

Ray Slaton, board member, complained that one school had not paid bill incurred last August.

Charlotte Whitmore, county school food service director, said part of the problem came from the laxness of the state to send money due the schools for the lunchroom program.

You get more for a car that doesn't look its age.

A Volkswagen for instance, costs about \$1921 new.* Yet after three years a '69 actually sells for more than some domestic cars that originally cost \$2300.

How's that for a return on your investment?

And you pretty well know that the longer you own it, the better that return gets.

The reason Volkswagens hold their resale value so well is that they don't change from year to year to year.

Since VW's don't go out of style so easily, it's hard to tell what your '69 you're looking at.

One problem you never run into with domestic cars.

* MSRP. Excludes tax and title.
