Grange Official Asks Congress To Curb Grain Deals

Plea Is Made To Endorse Bill To Fix Commodity Margins

WASHINGTON, Feb. 17 (P)-A spokesman for the National Grange urged Congress today to curb "excessive sambling in grainand other food commodities."

The plea was made by J. T. Sanders, legislative counsel of the farm organization. He appeared before the Senate Agriculture Committee to endorse a bill giving the government the power to fix margins, or down payments, on commodity market dealings. Curly, Who Wrote Castle Tunes, Is Still Beating 88

NEW YORK, Feb. 16 (49)-A hald-headed man called "Curly," who thirty years ago wrote hit dance tunes for Vernon and Irene Castle, is still tinkling a tuneful

past for people who are home-sick for yesterday.

He is Arthur N. Green, now billed as "The Man of a Million Melodies" but once known as

America's dance king.
In his sixtieth year Curly pulses a battered piano in the Knicker-bocker Music Hall, a Manhattan theater cafe. It features old-time songs, variety acts and "The Ways ward Maiden," a satire on the oldfashioned melodramas.

Green has found pleasant an-

Fellowship Front Invites All Sanford

Mammeth Celebration Day by day the winter visitors, who are housed at the Sanford Air Base under the auspices of the Fellowship Front, are becoming acquainted with the people of Sanford as they ment them in the churches, stores, on the sidewalk, at the parks, and the tourist club. These representatives of more than twenty-five states will soon be going their ways to tell of the warm sunshine, the friendly hospitality, and the general good will fellowship they have experienced here at Sanford.

In order to acquaint the residents of Sanford and Seminole County with the program of the proposed Biblical College and Christian Colony, the directors of Fellowship Front are cordially laviting the general public to an all-day patriotic and religious celebration of Washington's birthday. During the day you will hear the speeches of Rev. Pat B. Withrow, nationally known mission evangellat, former Congressman Upshaw of Georgia, and former Senator Lee of Kentucky, both deep-water Baptists which come out on the dry side.

You will see and hear Chief Pamp of the Potowatama Indians who will appear in full in-tian garb, including a Shawnee War Bonnet similar to those worn by his Pagan uncestors when they fought against Washinkton in the French and Indian War, also a trio of Mohawk Indiana who buried the hatchet almost as long ago as Washington did his after thoughtlessly misusing it on his father's cherry tree. Hundreds of rewards will be given such as a picture of former General Washington which will be redeemable in cash by either of the two pan'es of Sanford. If you are a student, a min-

later, teacher, layman; or any other person who has time to enter some questions before Saturday, you are sure to be rewarded. Questions like the following will be used; and for everyone that you send in that is used in the program on Washington's birthday here at the ship's service auditorium on the base at Sanford, you will be given a beautiful picture of Washington, if you are here to receive it: No. 1 Is Mt. Vernon on the banks of the Potomac, the James, or the Susquehanna River?

No. 2. What commander-in-chief was once found kneeling in the snow during one of the dark periods of the American Revolution? No. 3. What other man during a darker period in world history was left to pray alone while others that should have prayed with him slept while on duty?

Bestember that the exercises open at 9:00 A. M. and close at 9:00 P. M. All are invited and there is no admission charge. The noon and evening meal will be served free of charge to all on the ground providing you notify us by Saturday evening of your coming. Address:

Another factor contributing to the 1929 crash was the satisfying of domestic demand for capital as well as consumer goods. Throughout the twenties there had been a tremendous building boom, sparked not only by individuals wanting homes, but also by cities and towns floating bond issues and erecting court houses, city halls, school buildings, and paving streets, sidewalks, and building highways. By 1929 this work had largely come to an end. the azaleas are around the Post 1944, has announced he will run By 1929 this work had largely come to an end,

The commodity market slump of 1948 occurs in an entirely different picture. The loans to Europe, in the sense of post-war reconstruction, are just beginning. The Marshall Plan calls for an expenditure of about five billion dollars within the next year, and about 22 billion dollars within four years. And no one pretends to know how many billions beyond that figure it may ultimately go, Most of that money will be spent in the United States on the products of our farms and factories.

Instead of houses being a drug on the market as they were in 1929, there is a shortage which the construction industry cannot hope to satisfy within ten years. It will also take ten years to catch up with the demand for new highways, street improvements, new school buildings, hospitals, and all kinds of municipal improvements. Factories and railroads are trying desperately to replace worn out equipment. And the need of individual citizens for consumer

Grains Lead Price Slide Becoming General In Mart

NEW YORK Feb. 18 (P) — Grains led a price slide that be-came general in today's commo-

dity markets.

Brokers reported very limited demand in the Chicago pits. Wheat fell as much as 5% cents a bushel. Oats were % to 2% cents lower. Corn was % to 1% cents below yesterday's close.

A burst of selling broke out midway through the trading ses-

could not hold its gains.

The break came on the heels of an Agriculture Department statement that the number of livestock on farms Jan. 1 was lowest since 1939. Some grain analysts believed there naturally would be less demand for feed grains.

Stocks bumped along an un evenly lower trail in today's market. Narrowefluctuations in com-modities did little to shake security traders from their indecisive attitude. Some of the oils and railroads were easier at times but there was no urgency in either bids or offerings. The ticker tape idled for long intervals. Near the fourth hour fractional plus and minus signs were widely senttered.

News developments to sustain a movement in either direction were lacking. Brokers said customers remained cautious pending clearer views of the effects from hopes for a resumption of Beyond is shown the maternity ward. the technical comeback.

House Un-American Group Is Checking | 2,000,00 month. OnAnti-Communist Oaths Of Unionists

WASHINGTON Feb. 19 exited Bulgarian political leader, said today "American traitors" are being trained right now in Russia for eventual duty in this country.

WASHINGTON, Feb. 19 (AP)-George M. Dimitrov, an anni-Communist refugee from Bulgaria, told Congress today that "America is Communist target No. 1."

Dimitrov testified to a House Un-American Activities Subcommittee. The committee is gathering information to use in drafting legislation to curb Communists in this country.

Members said one of the things the group wants to find out before it completes its investigation is whether any American labor leaders have hed when swearing they are not Communists. Any leaders who did could be prosecuted and jailed.

Dimitrov said that as soon as against Germany, Communists be-(Continued on Page fight)
