the 19-year-old "sleeping beauty" of Oak Park is rising from the coma that has baffled medical science.

Patricia, still unhooded the spoken command, now is able to recognize and follow instructions written on a slate and held before her.

"Pat raise your hand," Mrs. Hanrahan wrote on a slate. For a minute Patricia stared at the slate. Then, slowly she raised her hand.

Patricia's apparent ability to co-ordinate her eyes and mind was first discovered by her mother a few days ago.

Sitting beside her pretty daughter, Mrs. Hanrahan watched Patricia move her eyes as if she were looking around the room. Mrs. Hanrahan spoke to her.

But just as it had been since Feb. 15, 1932, Patricia did not reply. Still trying desperately to reach into her daughter's mind and awaken her, Mrs. Hanrahan picked up a pad of paper and a pencil.

"Raise your index finger," she wrote and placed the paper before her daughter's eyes. Slowly Patricia obeyed.

Mrs. Hanrahan hurriedly wrote another message. "Raise two fingers."

Again Patricia's optical nerves slowly carried the message to her brain and after a moment she lifted two fingers.

"Why hadn't I tried the experiment before?" she said today. "Call it a mother's instinct or perhaps it was something else, but until that day I seemed to sense that she wouldn't respond."

Miss Maguire's case has been watched closely by the medical profession throughout the world and diagnosed as a germ attack on the centers of consciousness in her brain.

WAR VETERANS DYING AT RATE OF 80 EACH DAY

Estimates Submitted For Use In Next Up Budget For '35

WASHINGTON, Dec. 5.—(AP)—World War veterans are dying at the rate of more than 80 every day or about \$9,000 a year.

These figures, with many others, have been furnished the budget bureau by the Veterans' Administration in connection with appropriation estimates for the next fiscal year.

Estimates will not be made public until submitted to Congress in January, but officials expect the appropriation to be much higher than for the current year—\$44,748,000. The figure does not include the \$100,000,000 estimated as necessary to pay for benefits voted by the last Congress over President Roosevelt's objections.

This \$100,000,000, which will be submitted in a deficiency estimate for this year's expense, also will be carried in next year's appropriation.

If deaths and disabilities continue at the present rate, the increases probably will shoot the 1935-36 cost of Veterans' Administration to around \$700,000,000 unless administration expenses are curtailed further.

Officials expect pension cost of grow for perhaps another decade, despite the drop in number to know for perhaps another decade, despite the drop in number based on the fact that the average age of World War veterans now is around 40. Experience has shown the heaviest mortality and sickness between 40 and 50.

A mortality expectancy table furnished the budget bureau shows the Veterans' Administration anticipates cases, covering all wars, by the end of the next fiscal year. This would boost the total number from 885,000 to 910,000.

There are now 366,895 World War veterans on the pension rolls including 336,786 service-connected cases. These are expected to increase to 367,000 by June, 1935, while the non-service are rising from 30,109 to 35,000.

Dependents of World War veterans on the rolls now total 115,852; these are expected to increase to 123,735.

Huey Allegedly Cursed Editor Of Campus Weekly

BATON ROUGE, Dec. 5.—(AP)—The assertion that he had heard Senator Huey P. Long viciously curse James H. Catron, resigned editor of "Reveille" the Louisiana State University campus paper, and threaten to "fire" any university student who "dared to say a word against Huey Long" was worn to yesterday by David R. McQuire, one of four students dismissed in the dispute over "Reveille" censorship.

The statement by McQuire, a New Orleans student, was issued about the time Dr. Guy E. Snavely of Birmingham, secretary of the Southern Association of Colleges and Secondary schools meeting in Atlanta announced that the executive committee of the association would investigate charges filed by Baton Rouge citizens that Long, a politician, "is running Louisiana State University."

REMINGTONS BEAT EMBARGO BOARD LEARNS

Senate Probers Given Data Showing How Big Arms Company Dealt With China

WASHINGTON, Dec. 6.—(AP)—Evidence that officials of the Remington Arms Company attempted to kill arms embargo legislation in 1933 and "got busy" at Washington when rumors were received that the embargo was to be proclaimed was presented today to the Senate Committee on Foreign Relations.

Earlier, the committee had received information that Du Pont Company sent a shipment of powder to Holland in 1929 for re-shipment to China while the embargo was in effect on a direct shipment to China.

20 Percent Of 1934 State, County Taxes Already Collected

Twenty percent of the 1934 tax roll was collected during November, it was announced at the Court House this morning by Tax Collector Jno. D. Jenkins.

He and his assistants issued 1207 receipts for state and county 1934 taxes on real and personal property, collecting a total of \$1,011,877.65, or an average of \$80.50 per receipt. The total assessment for 1934 is \$5,014,461.10.

The figures also in 20 percent better than the amount collected during November of 1933 for in that month, 1101 receipts were issued, bringing in \$842,854.68.

Mr. Jenkins considers last month's collections as surprising in view of the fact that the millage is lower than it was last year. In the Sanford district the 1934 millage is 65 1/2 compared with 67 7/8 of 1933.

He also revealed that the total amount of state and county revenues collected in November reached \$1,071,098.25, including poll taxes, occupational license fees, back taxes, and similar collections.

Taxpayers who paid during November took advantage of a four percent discount which totaled \$42,432. Mr. Jenkins reminds remaining taxpayers that there is a three percent discount allowed during December.

Tax collections have mounted in the past three months to \$3,776,111 collected during November, 1933, to the \$1,071,098.25 collected last month, he said.

HOOVER BLAMES U.S. SENATE FOR PARLEY FAILURE

Former President Explains His Part In Arms Control Meet

PALO ALTO, Calif., Dec. 6.—(AP)—Responsibility for the failure of the 1925 Geneva convention for the control of international arms shipments yesterday was placed on the United States Senate by Former President Herbert Hoover.

A conference of sporting arms manufacturers was called by Hoover in 1925, when he was Secretary of Commerce, preliminary to an international convention on arms in general in Europe. The result of the latter convention was an international treaty to control arms traffic. It was signed by the United States, but not ratified by the Senate.

"During eight years, from 1925 to 1933, its ratification was held up by the Senate and probably is yet," Mr. Hoover said.

Commenting further on the report to the Senate Minutes Investigating Committee Tuesday of a successful concerted effort by gun makers throughout the world to modify the Geneva convention, Mr. Hoover said:

"The full report and details of the conference of sporting arms manufacturers which was called by myself as Secretary of Commerce in 1925, are on file in the State Department.

"The conference was called at the request of the Secretary of State and for the purpose of giving a hearing to the manufacturers' views as to the methods of discriminating between sporting arms on one hand and war arms on the other."

Ratification of the international arms treaty was "incomparably advocated" by President Coolidge and Mr. Hoover and by Secretaries of State Kellogg and Stimson, the former President said in his statement.

"As late as Jan. 10, 1933, I again urged its ratification and called the attention of the Senate to the fact that it had now been ratified by a large number of other nations, and that its failure of adoption in the world was largely because of the failure of the United States," Mr. Hoover said.

"I further recommended that pending the ratification of the (Continued on Page Two)

Palatka Gardens Open To Public Free

PALATKA, Dec. 6.—(AP)—Numerous admissions to be charged those visiting the Ravine Gardens here was rescinded as false yesterday by City Commissioner E. W. Elliott, chairman of the Municipal Ravine Gardens committee.

"Everyone is welcome to visit the gardens as often as they wish, without a penny cost," declared Commissioner Elliott, refuting the report that a fee was charged those inspecting the local beautification project. Employees and gatekeepers at the ravine are not allowed to accept tips or gratuities of any kind, Mr. Elliott also stressed.

BRITAIN TO LEND HAND IN SAAR BASIN

England Offers Its Troops To Patrol Valley During Plebiscite Of Jan. 13

GENEVA, Dec. 6.—(AP)—France yesterday said flatly she will send no troops into the Saar basin—and Great Britain promised to help police the territory during the forthcoming plebiscite if Adolf Hitler is willing.

Thus, with spectacular suddenness, the League of Nations council found apparent solution of the problem that brought it into extraordinary session, the matter of keeping the peace in the little European " tinder-box " that votes Jan. 13 to rejoin Germany, join France or remain under the League.

If the German reichsfuehrer assents—and Geneva last night waited anxiously to hear from Berlin—an international army will march into the Saar before the plebiscite to assure "fair and free" balloting.

But French troops, long held ready to move into the Saar should Nazis attempt to seize it by force, will stay at home.

Through Foreign Minister Laval, France yesterday made her astounding renunciation of the right to send troops into the Saar.

"We can not participate in an international force," Laval said, "because Germany can not participate."

Capt. Anthony Eden, British representative, in an address that set the League abuzz with comment, proposed that an international army be dispatched to the basin before the plebiscite.

"His majesty's government," Eden explained, "gives the greatest importance to the view that prevention is better than cure."

An agreement the French and German representatives reached at Rome recently, under which Germany in case she won the Saar promised to pay for French interests and guarantee Saarlanders should not be discriminated against by reason of race, religion or political affiliation, smoothed the way for yesterday's sensational developments.

TO DEMONSTRATE FIRING SQUAD MOWS DOWN 66 SOVIET FOES

NEW YORK, Dec. 6.—(AP)—The failure of NRA so far to fulfill the hopes of its founders were reported last night by Donald Richberg, executive director of the national emergency council.

The President's recovery coordinator, in an address made more significant by the pending reshaping of NRA, nevertheless told the national association of manufacturers here that "we see the foundations of a better economic system outlined in the principles which we have been seeking to make effective in the last 17 months."

To business' lack of organizations to take over the job of self-government, and to opportunities missed by both business

and federal officials, Richberg attributed the failure to attain all NRA's ends.

"It is much more important on this occasion," he said, "for us to admit candidly to each other that our experiment with industrial self-government demonstrated all too clearly that private business is not adequately organized for collective action and self-discipline; and that political controls are a poor substitute for voluntary co-operation."

Richberg in strong words left no doubt, however, that the NRA would go on. He declared, in effect, also, that the government was not going to withdraw its hand in business until private capital is more active. He said: (Continued on Page Two)

NELSON'S WIDOW READY TO SERVE TERM IN PRISON

CHICAGO, Dec. 6.—(AP)—Helen Gillis was ready last night to serve a year and a day in a federal penitentiary for the part she played in the Dillinger melodrama.

Department of Justice officials here announced the widow of George "Baby Face" Nelson would be taken to Madison, Wis., for the formality of imposing the penalty she incurred by violating a probation.

At the same time government operatives renewed efforts to complete the roundup of the remnants of John Dillinger's men at arms. John Hamilton and Alvin Karpis—and the vivid details of Nelson's death from multiple bullet wounds inflicted by Federal Agents Cowley and Hollis before they were killed in the Battle of Barrington here disclosed.

Mrs. Juliette Fitzsimmons, sister of Nelson, was quoted by the Daily Times in a copyrighted article as relating the facts she had learned from Mrs. Gillis.

"Baby Face" died in the arms of his tiny wife, the story set forth, at 7:35 P. M. on Nov. 17 in a lonely hideout, about four hours after the furious fight.

Two federal officers had closed in on the cottage in the Lake Geneva, Wis., area earlier in the day, the Times said, and the Nelsons and the unnamed male accomplice fled in a car. On the road they encountered Cowley and Hollis. The end (Continued on Page Two)

Hays, Va. Wiped Out By Diastrous Fire

HAYS, Va., Dec. 6.—(AP)—Fire yesterday practically wiped out his town of several hundred inhabitants, burning all buildings in the town proper except two garages and a small shop. The fire was believed to have originated in a department store about 6 o'clock yesterday morning.

For miles along the highway between the hill to the Southwest Virginia town the roadside was strewn with merchandise and household goods removed in a frantic effort to effect some salvage. Most buildings were frame and it was estimated that about half of those destroyed were business structures and the remainder dwellings.

Young Slayer Termed Rich Gang Leader

TULSA, Okla., Dec. 6.—(AP)—Phil Kennamer, 19-year-old son of a federal judge, was pictured yesterday by Holly Anderson, county attorney, as the young overlord of a mob of pampered youths whose activities included extortion, robbery, whisky smuggling and finally murder.

Hungarian Cabinet Gathers As Situation In Balkans Intensifies

Yugoslavian Troops Cross Border Into Hungary Nearly To Precipitate Fight

BUDAPEST, Dec. 7.—(A.P.)—The Hungarian cabinet met in special extraordinary session to adopt an immediate course of action in a tense situation in the Balkans. Its protest against the expulsion of 27,000 Hungarians from Yugoslavia as a result of King Alexander's assassination already had been sent to Geneva.

At Reged, Hungary, city officials said they did not think Saeged would be attacked by Yugoslavians but if so they were prepared to defend it.

Regular Yugoslav troops crossed the Hungarian border near here early today and nearly precipitated a battle with Hungarian forces.

Only with the greatest difficulty were Hungarian officers able to restrain their men from accepting a Yugoslav challenge. The situation was most tense and serious trouble was feared.

At Geneva, Czechoslovakia's foreign minister alleged that conspirators were working against post-war states, asserting that "attempts similar to the Marseille crime (the murder of King Alexander of Yugoslavia on Oct. 9) were organized against Slovakia in the northern Hungarian frontier."

Hungary, answering Yugoslavia's charges of her "complicity" in Alexander's death said that Croatia (Continued On Page Six)

Jaycees Move To Organize Tourist Club Immediately

Formation of a Tourist Club among Sanford's winter visitors was projected last night at the regular meeting of Sanford Jaycees at the Valdez Hotel.

"There are already enough winter visitors in the city," said Dwight Smith, "to form the nucleus of such a club. They will work out their own plans for recreation and entertainment."

All visitors and others interested are to be invited to meet with the club at its next regular meeting at the Valdez Thursday night, Dec. 13.

Thanks were voted to the City Commissioners for their decision to enforce the one hour parking law in the business section.

Approval was also noted for the action of the city fathers with respect to the installation of a generator to provide more street lights.

President Barnett brought a proposition before the club for cooperating with the Seminole County Chamber of Commerce for a series of broadcasts from the stage of the Milane Theatre advertising Sanford and Seminole County. Authority was voted him to further investigate the program and if satisfactory to join in its financial support.

Fletcher Finds That Most Bankers Are Against Any New Changes In Bank Laws

WASHINGTON, Dec. 7.—(A.P.)—A cross-section of banking opinion was revealed yesterday to show a definite opposition to any further radical changes in the federal banking laws.

Chairman Fletcher of the Senate Banking Committee reported this as "the drift of opinion" of half of the 49 bankers, economists and students of finance who have thus far replied to his questionnaire on the need of new fiscal legislation.

Fletcher subscribed to this feeling by his correspondents, but added that his committee would grant hearings on all new banking and monetary proposals, including those for a central bank and unified banking system.

"I am inclined to think that this is a sound position; that we should not disturb business and undertake to upset the whole banking system by some drastic legislation at this time, but should give an opportunity for recently enacted measures to show their worth of weaknesses."

While Fletcher was analyzing the replies to his questionnaire, Senator Thomas (Democrat-Oklahoma) started another on the way to senators, representatives, governors, bankers, economists, editors, educators, ministers and others seeking opinions on his proposal (Continued On Page Four)

YOWELL HEARING GRAND JURY IN HOLDS INTEREST APPEAL AGAINST AT COURT HOUSE PARDON SYSTEM

Rival Attorneys Have Hard Time Selecting Jury For Case

Difficulty was experienced at the Court House this morning in the selection of a jury which would hear the claims and counter-claims of Seminole County and Arthur Yowell in connection with condemnation proceedings brought against the latter.

Selection of a jury began shortly after Circuit Court Judge Millard B. Smith had opened the fall term of court after a recess from sound the criminal docket of yesterday afternoon when he four charges after having assigned and sentenced several negroes.

At noon, it had been found necessary to draw a special venire, and early this afternoon, opposing counsel still were in disagreement as to the personnel of the jury.

The hearing attracted many spectators. It concerns an approximate 1000 foot right-of-way of lakefront land owned by Mr. Yowell and needed for the completion of State Road No. 3.

The criminal docket for the fall term contains only four cases which will go to trial all scheduled for hearing next week. A majority of the prisoners named in the 14 indictments tendered to Judge Smith by the grand jury yesterday pleaded guilty.

Disposition of the indictments in the order in which they were prevented yesterday is as follows:

Lester Coleman alias Willie Green, indicted for breaking and entering, and indicted for burglary, is to be arraigned at a later date. He is now serving a term at Raiford. He is charged with having entered the R. B. Middleton and L. E. Kersey properties on June 17 and June 25, 1934.

Second Session Of Herald's Cooking School Attracts Over 250 "Students"

With an attendance of over 250 women, the second session of The Herald's Eighth Annual Cooking school took place this morning at the Woman's Club. Miss Jeanne M. Krouse, nationally known home economist, conducted the session with the assistance of economists of the Florida Power and Light Company.

Recipes of the food prepared on the stage by Miss Krouse were distributed to the women at the hour and recipes for yesterday's selections will appear in the grocery section of today's paper.

An additional treat at the occasion this morning were the hot biscuits prepared and served at the large luncheon at one end of the large auditorium. The biscuits were made with White Lily Flour

200 RUSSIANS EXECUTED AS GRIM WARNING

Soviet Reported As Rigidly Avenging Slain Comrade Who Gets Hero's Burial

LONDON, Dec. 7.—(A.P.)—A Warsaw dispatch to the London Daily Express said today that wholesale executions of suspected enemies of the Soviet government had taken place in Russia in the past 24 hours.

The lives of more than 200, including Leonid Nicolief, accused assassin of Sergei Kiroff, and many women and children were taken by firing squads, the dispatch said.

Nicolief's wife, sons, two daughters, and his 85-year-old mother are reported among the victims.

Fourteen officials of the Moscow O. G. P. U., the union state police administration, the story said, also were executed in a grim warning to all disloyal citizens.

Joseph Stalin called on the Red army for the protection of government officials after a clash between Moscow and Leningrad O. G. P. U. detachments.

A hero's funeral was given Sergei Kirov, assassinated communist leader, yesterday as soviet leaders renewed their vows to wreak vengeance on the "enemies of the revolution."

The bullet-riddled bodies of 66 convicted counter-revolutionaries, executed Wednesday, bore mute evidence to the ferocity of those vows.

"Indiscreets do not know how to weep," Dmitri Mandulky, secretary of the committee (the third international), declared, just before Kirov's ashes were deposited in the niche in the Kremlin wall, "but they know how to avenge."

As the rigid investigation that followed had on the heels of Kirov's murder in Leningrad Saturday reached out for new evidence of counter-revolutionary activity, Vyacheslav Molotov, president of the council of people's commissars, charged his murderer was sent by "class enemies."

They must be stamped out, he insisted, even though "they have been so weakened by the bolsheviks that they can only shoot men from behind."

6.2 Inches Of Snow Cover Chicago To Set A New Record

By The Associated Press Nature went still on a rampage over much of the nation from the Rocky Mountains to the prairie states today, but Florida remained a refuge against the rigors of winter.

The Central West was particularly hard hit. Much of the territory was covered by snow and more was promised for today for parts of Illinois, Indiana, Missouri, and Kansas.

Low temperatures were predicted for Chicago where 6.2 inches of snow fell yesterday, impeding motorists and grounding airplanes.

The services of 3000 workmen were required to clear away the snow the deepest ever recorded at Chicago on Dec. 6.

One death in Iowa was attributed to the weather when a two-year-old child was killed in an automobile accident caused by an icy pavement.

Temperatures ranged from 40 in Jacksonville to 60 at Miami.

LONG'S DEBT MORATORIUM IN EFFECT

2-Year Extension Of Private Accounts Based On Belief All Men Are Honest

NEW ORLEANS, Dec. 7.—Senator Long's debt moratorium law went into effect yesterday, based on the assumption that all debtors are honest.

State Senator Coleham Lindsey, cohort of Senator Long, is installed as moratorium commissioner. His powers are broad.

He may grant moratorium with or without regard for precedent. He may, and he said he would, keep the names of all applicants secret from all but the creditors involved. He may or may not examine the books of a debtor to see if he needs a moratorium. He may reopen any case on application of a party involved and he is not limited in the proof he needs.

The moratorium applies to all debts except those owed the state or a political subdivision. It does not apply to taxes. It will be in force for two years.

The procedure will be for a debtor to apply for a moratorium under Lindsey will order a hearing and notify the creditor. The debtor cannot be compelled to produce his books. The commissioner may demand to see the books, by refusing an order until they are produced as evidence, but the creditor may not see them. Nevertheless, the creditor must prove that the applicant is not entitled to relief. The commissioner will keep no records of his hearings and will make no explanations for his actions.

The moratorium law may hold up execution of a court judgment on a debt. All orders of the court (Continued On Page Five)

Re-Opening Planned For Mayfair Hotel On 15th Of January

Wallace Warns Of Probable Extinction Of Middle Class By "Economic Hierarchy"

NEW YORK, Dec. 7.—Secretary of Agriculture Wallace last night warned America's "economic hierarchy" they can make mistakes "more damaging to the order of civilization which they hold dear" than the French revolutionaries before the French revolution.

Speaking at a dinner given in his honor by the World Alliance for International Friendship Through the Churches, Wallace emphasized the need for a broader social outlook than existed in the past century. He quoted extensively from protestant, Catholic and Jewish pronouncements to show that the New Deal was

enjoying into action what the churches had advocated for years. He pointed out the 36,000 families who had \$25,000 average income as an "economic hierarchy" who held a tremendous power over the welfare of their fellow citizens through their money holding and their decisions regarding credit to nourish the economic plant of the nation.

"Today with the frontier gone and the United States a creditor nation, which insists on provoking the maximum of unnecessary misery by maintaining an excess of export over imports, an extraordinary responsibility has been (Continued On Page Four)

Manager Of Carling Hotel In Jacksonville To Be One Of Group Of Lessees

The municipally owned Mayfair Hotel will be reopened as a tourist-commercial establishment on or about Jan. 15. The Herald was reliably informed late this afternoon.

The announcement is based on a statement made over the telephone this afternoon by Jack J. Kerns, manager of the Carling Hotel in Jacksonville, that he and other associates will mail a signed lease-option contract on the property tonight.

Negotiations between Mr. Kerns and his party have been under way for some days, with Commissioner S. O. Shinhober representing the City under authority of Mayor W. A. Laffler.

Mr. Kerns, and James Page, recently resigned as manager of the Henry Grady Hotel in Atlanta, were in Sanford this week, conferring with the Commissioners, inspecting the property, and gathering data which indicated that they were preparing to go into every phase of the hotel and its possibilities.

While no official announcement was made by either Mayor Laffler or Commissioner Shinhober, both reportedly encouraged by the prospect of the early opening of the city's largest building.

Satisfied that the contract will be in the hands of the City Commissioners by tomorrow morning, Chamber of Commerce officials began laying plans for a trade body objective which they have been wanting to announce for many months. A convention for Sanford each week in the year.

This will be the Chamber of Commerce's prime objective for 1935, and there was data aplenty on file to indicate that the objective might be reached.

Trade body officials are authority for the statement that Mr. Kerns and Mr. Page are two of the best known hotel men in the South. Both come from plants which are widely patronized by both the tourist and commercial trade and both have been "in the business" for many years.

3 Carolinians Burned For Death Of Banker

RALEIGH, N. C., Dec. 7.—(A.P.)—Busson Given, his son, Lester, and his son-in-law Robert Black, all of High Point, were electrocuted at the North Carolina State prison today for their part in the killing of T. C. Barnes, cashier of the Taylorsville Bank in an attempted robbery.

The execution brought to four the number of lives the state has taken for the murder of Barnes. Mike Steffanoff, alleged to have been a member of the band of robbers convicted of murder was electrocuted last summer.

Numerous petitions and other pressure was brought to bear to save the Greens and Black, but Governor Ehringhaus refused to grant clemency. The elder Green, 44 and first, followed by the son, and then Black.

Seminole High Outplays Rollins Rats Three Quarters Of Way, Loses, 14-7

Forcing their heavier coats of the defensive when a well executed pass attack led to a touch down in the second quarter of play, a spirited Seminole High School football team outplayed the Rollins Rats for three quarters of the final grid game of the local season, only to lose 14 to 7.

Balked at the line and through the air and until just two minutes before the third quarter ended, the heavy Rats, most of them prep and high school stars from Northern states, started ripping holes in the light but scrappy Seminole line to roll a touchdown in the third minute of the last quarter.

With the score tied and four minutes to play, the Rats uncorked a deceptive triple pass in

Bandits Rob Express Office At Gastonia

GASTONIA, N. C., Dec. 7.—(A.P.)—Two masked bandits armed with machine guns late yesterday held up and robbed the Gastonia office of the Railway Express Company of approximately \$2,800 and 25 travelers' checks.

Entering the office in the business section, the two masked men forced Manager Emmett T. Brown and his wife and Lloyd Warren, an employee, to lie on the floor in the rear of the establishment. They then bound and gagged the three and forced Brown to crawl to the safe and unlock it.

They took everything of value from the safe and cleaned out the money drawer.

Manager Of Carling Hotel In Jacksonville To Be One Of Group Of Lessees

The municipally owned Mayfair Hotel will be reopened as a tourist-commercial establishment on or about Jan. 15. The Herald was reliably informed late this afternoon.

The announcement is based on a statement made over the telephone this afternoon by Jack J. Kerns, manager of the Carling Hotel in Jacksonville, that he and other associates will mail a signed lease-option contract on the property tonight.

Negotiations between Mr. Kerns and his party have been under way for some days, with Commissioner S. O. Shinhober representing the City under authority of Mayor W. A. Laffler.

Mr. Kerns, and James Page, recently resigned as manager of the Henry Grady Hotel in Atlanta, were in Sanford this week, conferring with the Commissioners, inspecting the property, and gathering data which indicated that they were preparing to go into every phase of the hotel and its possibilities.

While no official announcement was made by either Mayor Laffler or Commissioner Shinhober, both reportedly encouraged by the prospect of the early opening of the city's largest building.

Satisfied that the contract will be in the hands of the City Commissioners by tomorrow morning, Chamber of Commerce officials began laying plans for a trade body objective which they have been wanting to announce for many months. A convention for Sanford each week in the year.

This will be the Chamber of Commerce's prime objective for 1935, and there was data aplenty on file to indicate that the objective might be reached.

Trade body officials are authority for the statement that Mr. Kerns and Mr. Page are two of the best known hotel men in the South. Both come from plants which are widely patronized by both the tourist and commercial trade and both have been "in the business" for many years.

3 Carolinians Burned For Death Of Banker

RALEIGH, N. C., Dec. 7.—(A.P.)—Busson Given, his son, Lester, and his son-in-law Robert Black, all of High Point, were electrocuted at the North Carolina State prison today for their part in the killing of T. C. Barnes, cashier of the Taylorsville Bank in an attempted robbery.

The execution brought to four the number of lives the state has taken for the murder of Barnes. Mike Steffanoff, alleged to have been a member of the band of robbers convicted of murder was electrocuted last summer.

Numerous petitions and other pressure was brought to bear to save the Greens and Black, but Governor Ehringhaus refused to grant clemency. The elder Green, 44 and first, followed by the son, and then Black.

Seminole High Outplays Rollins Rats Three Quarters Of Way, Loses, 14-7

Forcing their heavier coats of the defensive when a well executed pass attack led to a touch down in the second quarter of play, a spirited Seminole High School football team outplayed the Rollins Rats for three quarters of the final grid game of the local season, only to lose 14 to 7.

Balked at the line and through the air and until just two minutes before the third quarter ended, the heavy Rats, most of them prep and high school stars from Northern states, started ripping holes in the light but scrappy Seminole line to roll a touchdown in the third minute of the last quarter.

With the score tied and four minutes to play, the Rats uncorked a deceptive triple pass in

Bandits Rob Express Office At Gastonia

GASTONIA, N. C., Dec. 7.—(A.P.)—Two masked bandits armed with machine guns late yesterday held up and robbed the Gastonia office of the Railway Express Company of approximately \$2,800 and 25 travelers' checks.

Entering the office in the business section, the two masked men forced Manager Emmett T. Brown and his wife and Lloyd Warren, an employee, to lie on the floor in the rear of the establishment. They then bound and gagged the three and forced Brown to crawl to the safe and unlock it.

They took everything of value from the safe and cleaned out the money drawer.
