Appraisers Work On Tax Petition

They Want Return To 65% Assessments

TERRY GOEMMEL ... predicts increase

Property appraisers from Florida's 67 counties worked feverishly at a meeting in Orlando today to get enough signatures by midnight on a petition to place a constitutional amendment on the November ballot to return property assessments to 65 percent.

Gov. Bob Graham ordered assessment levels to be increased to 100 percent of market value as required by the state Constitution.

Property appraiser Goemmel explained why the tax rate increase would be necessary should the new homestead exemptions be approved.

JEFF ETCHBERGER ... seeks signatures

Journal Reveals New Guidelines

IRS Taking It Easy On Small-Time Cheaters

NEW YORK (UPI) — The Internal Revenue Service has decided not to bother sending tax cheaters to jail unless they cheat in a big way, the National Law Journal says.

The new guidelines, the Journal claims in its Aug. 11 issue, mean a couple with two children making \$30,000 a year could understate their income by \$9,217 and not risk going to jail.

For instance, the memo tells agents to concentrate on prosecuting taxpayers who evade more than \$2,500 worth of taxes a year, and to go after lesser evaders only in exceptional circumstances, the paper said.

proof unless the total amount of unpaid taxes is at least \$10,000.

Prime Rate Rises

NEW YORK (UPI) — Chemical Bank of New York Monday raised the prime lending rate it charges its most creditworthy corporate customers to 11 percent from 10 3/4 percent, breaking a three-month trend of declines.

Bill Dalley (left), chairman of the Seminole Education Association Political Action Committee, presents a letter of endorsement of school superintendent candidate Bob Hughes.

Doctors Again Back HCA Hospital Plan

By DIANE PETRYK Herald Staff Writer

Doctors at Seminole Memorial Hospital have called a special meeting for Tuesday evening to re-affirm their support for the plans of Hospital Corporation of America (HCA) to build a 226-bed regional hospital in Sanford, according to Dr. Charles L. Park.

But Park said the purpose of the special meeting is not to discuss Largent but "to tell HCA they can count on our backing."

The meeting was called following a petition of 25 percent of the staff doctors, Park said.

The days of small hospitals are over. The best equipped hospitals are the large regional hospitals. We oppose a small hospital in Deltona, he said.

The meeting follows "some pretty vocal noises" about the activities of Dr. Thomas L. Largent in support of a hospital in Deltona, according to Dr. M. Vann Parker.

"I'm certain he's (Largent) doing it with the idea of hurting this hospital. He may not be aware it's detrimental at all," Vann Parker said. Dr. Largent is out of town.

To build the replacement hospital for Seminole Memorial, HCA must first obtain the recommendation of the Health Services Agency of East Central Florida (HSA-ECF) and state approval which usually follows HSA recommendations.

"But the meeting is to let the administration and HCA know that one member of the staff is not speaking for the entire staff."

Teachers' Union Endorses Hughes

The Seminole Education Association, a teachers' organization, has endorsed Bob Hughes for Seminole County Superintendent of Schools.

Bill Dalley, chairperson of the Seminole Education Association Political Action Committee (SEA-PAC), said Hughes was endorsed "because of his open-minded approach, his strong commitment to quality education for the students of Seminole County, his experience as a teacher and administrator at all levels of K-12 education, and his desire to open and maintain channels of communication between the superintendent and the employees of the system, the parents, the students and the taxpayers of Seminole County."

system and strongly supports his desire to raise employee morale from its present low level."

raising the basic skills test scores of our students among other things."

Each candidate for superintendent was interviewed by the SEA-PAC.

Hughes said this morning he is "amazed and thrilled" with the SEA endorsement and feels it will be a positive factor in his campaign.

SEA-PAC has endorsed Democrat John Morris in the District 5 race. Morris has served for eight years on the Sanford City Commission and has built his own title insurance business in Seminole County.

In addition, SEA-PAC has endorsed Tom Kanella in the District 3 Republican primary and Gerald Korman in the District 3 Democratic primary.

Carter May Go On TV Tonight

WASHINGTON (UPI) — President Carter will probably hold a nationally televised news conference tonight after sending a detailed report on his brother Billy's Libyan connection to a special Senate committee, the White House indicated today.

There are meetings all over the place," said one presidential aide as the finishing touches were made on the long report of Billy Carter's \$220,000 connection with Libya and allegations that Billy tried to influence U.S. policy.

WORLD IN BRIEF

Soviet Forces Step Up Attacks Around Kabul

ISLAMABAD, Pakistan (UPI) — Moslem rebels today said Soviet occupation forces have stepped up their attacks around the Afghan capital of Kabul, but it is unclear whether the drive is the beginning of an expected post-Olympics offensive.

The insurgents have been concerned that the Soviets would step up their war in Afghanistan once the Summer Olympics in Moscow had ended. The Games, which were hit by an American-led boycott to protest the Soviet invasion of Afghanistan, ended Sunday.

Western analysts, who do not believe the 50,000 Soviet troops already in Afghanistan are enough to crush the Moslem fighters, also have expressed fears that the Soviets will enlarge their occupation force after the end of the Games.

A spokesman for the Islamic Alliance for the Liberation of Afghanistan in Peshawar, Pakistan, said Soviet MIG fighter-bombers flattened several villages in the Aitaj Valley, about 65 miles northeast of Kabul, in raids that began Thursday.

Although the bombings left the villages in smoldering ruins and made it difficult to distinguish between men and women victims, it was believed 30 women and children were killed in the attack, he said. Many of the men escaped into the surrounding mountains.

Chinese Justice Lambasted

PEKING (UPI) — A young woman attacked by four thugs screaming for help into a county courtroom in Guangxi province, but the presiding judge only helped the attackers undress her in public. She was stripped naked in broad daylight, kicked, beaten and insulted in front of a crowd of 1,000.

The judge never was prosecuted, although he was expelled from the Communist party.

The newspaper Guangming Ribao newspaper today used the incident in Guangxi Lingnan county as an example to illustrate that people in high places in China often are above the law and that officials often also are the ones who decide what is the law.

In an article outlining the shortcomings of China's legal system and its application, the newspaper reflected that Chinese laws "govern only those in straw sandals and dare not touch those in leather shoes."

10 Bombs Go Off In Corsica

AIACCIO, Corsica (UPI) — Ten bombs exploded last Sunday night on the southwest coast of Corsica, damaging electrical transformers and other installations but causing no casualties, police said today.

When the explosions were timed at electricity company EDF and caused power cuts in the southwestern area of the French Mediterranean island.

The 10th blast set fire to and destroyed a marine navigation installation in Castagnu, police said.

No one has claimed responsibility for the blasts. Corsica has been the scene of frequent bomb attacks in the past five years, by the Corsican National Liberation Front which is seeking independence for the island, which has been under French rule for more than 200 years.

WEATHER

NATIONAL REPORT: Thunderstorms packing tornados stretched across the Great Plains. A tornado peeled the roof of a shed near Blumark, N.D., Sunday afternoon. Later another twister was sighted at Shallow Water, Kan. Large hail and high winds also accompanied the storms. Winds gusting to more than 60 mph were reported at Sioux Falls, S.D., where a trailer was blown over and places were damaged on Sunday.

AREA READINGS (5 a.m.): temperature: 85; overcast; low: 75; yesterday's high: 85; barometric pressure: 29.96; relative humidity: 77 percent; winds: west southwest at 6 m.p.h.

TUESDAY TIDES: DAYTONA BEACH, Fla., 3:46 a.m. 4:29 p.m.; low, 9:16 a.m., 10:48 p.m.; PORT CANAVERAL, Fla., 3:40 a.m., 4:21 p.m.; low, 9:47 a.m., 10:39 p.m.; BAYPORT, Fla., 9:01 a.m., 11:26 p.m.; low, 3:34 a.m., 4:44 a.m.

BOATING FORECAST: St. Augustine to Jupiter Inlet, out 30 Miles: Winds variable around 10 knots through Tuesday. Seas 3 feet or less. Winds and seas locally higher near widely scattered showers and a few thunderstorms during afternoon and evenings.

AREA FORECAST: Partly cloudy through Tuesday with a chance of afternoon or evening thunderstorms. Highs in the low to mid 80s. Lows tonight in the 70s. Winds variable mostly 10 miles an hour or less. Rain probability 30 percent during the afternoon and evening hours.

Man Charged With Attempted Burglary

By DAVID M. RAZLER
Herald Staff Writer

A Sanford man was arrested early this morning by police, who say he attempted to break into a grocery.

Richard Frederick, 19, of 45 Lake Monroe Terrace, was arrested on attempted burglary charges at 7:21 a.m.

Police say Frederick was seen using bottles to break the front window of Snorky's Market, 1821 W. 13th St., Sanford. He was chased by a patrolman and arrested a short time later behind 1000 W. 13th St., police say.

Millions Decry Bloody Attack That Killed 76

BOLOGNA, Italy (UPI) — Millions of Italians staged a general strike today to protest Europe's bloodiest terrorist attack ever, a bombing that killed at least 76 people and injured nearly 200 at Bologna's main railroad station.

Communist and other leftwing unions, charging that Saturday's bombing was the work of neo-fascists, declared a two-hour strike accompanied by massive protest marches in Rome, Milan, Bologna and other cities.

Bologna police put the official death toll at 76, but a national police spokesman said rescuers recovered 84 bodies. At least 188 people were injured, 17 of them still in a "very serious" condition.

The strike affected every sector of Italian business and industry, from the local shoe factories in rural Sicily to huge, highly specialized factories in northern Milan and Turin.

Activity in all of the nation's air, bus and train terminals came to a halt for one hour at 10 a.m. (4 a.m. EDT).

In Bologna, nearly 100,000 people, many of whom volunteered for the rescue effort at the station Saturday, filled the communist-run city's largest square in a rally protesting the suspected right-wing bombing.

Protest rallies and marches drew hundreds of thousands to the squares and streets of most cities and towns throughout Italy but no violent incidents were immediately reported.

Large funeral wreaths and bouquets of flowers from every region of Italy continued to arrive on the scene of the tragedy, which shattered the relative calm in Italian terrorist activity this summer.

It was the worst terrorist bombing in European history since the King David Hotel in Jerusalem in which more than 80 were killed. That bomb was set by Jewish Irgun guerrillas, under the leadership of now-Israeli Prime Minister Menachem Begin, who were fighting against the British.

Anti-terrorist police said they were searching for the suspected bombers among the ranks of neo-fascist groups, partly because of strong circumstantial evidence and their record of bomb attacks against civilian targets and especially against the state railroads.

The six-foot crater in a corner of the second-class waiting room was made by a charge of about 25 pounds of dynamite and plastic explosives, probably planted in a suitcase shortly before the explosion, police said.

Small metal fragments recovered from the scene almost certainly came from a timing device, they said.

Station clocks stopped at the disaster hour of 10:25 a.m. — a peak traveling time when families with young children were sure to be crowding the station.

The bombing came only two days short of the sixth anniversary of the last terrorist bomb attack that claimed victims in Italy.

In 1974 a bomb placed aboard the Rome-to-Munich express train exploded a few miles outside Bologna, killing 13 passengers and injuring 48. That attack was traced down to a neo-fascist group and on Saturday the magistrate in charge of the investigation announced he was sending nine right-wing extremists to trial for the bombing.

"...unions said the purpose of their strikes and demonstrations was to demand stronger action by the Christian Democratic-led coalition government of Prime Minister Francesco Cossiga to stamp out terrorism.

But there were clear signs the communists had moved to capitulation on the wave of outrage surging through the nation to cripple the government and possibly force Cossiga to resign.

But during Cossiga's four months in office, hundreds of thousands of terrorists have been arrested, and the worst of the 11-year onslaught by anarchist groups of both right and left had appeared to be over.

Bologna is the largest city in Italy's "Red Belt," the area dominated by the Communist Party. Bologna's City Council has been in Communist hands for 30 years.

MAN INJURED IN EXPLOSION
A Longwood man trying to clean his Forest City son's home with gasoline suffered burns Sunday when a heater pilot light touched off an explosion, deputies say.

Grier Penland, 117 Gum St., Longwood, turned off the electrical power at the home of Michael Penland, 2641 Azalea Drive, Forest City before he began pouring gasoline on the floor to clean them, deputies say. But Penland forgot to blow out the pilot light on a gas-fired water heater, they say.

A short time later, at 10:30 a.m., the pilot light touched off an explosion, burning Penland and causing as yet undetermined damage to his home.

RIBBON WINNERS Children enrolled in the Sanford Headstart Center receive awards for their 'Anthology Fair' projects. The project was the creation of Natherine Bentley (left), director of the program, as a project for a Seminole Community College course. Kathleen Willmott (center), director of the college's Child Development Programs, awarded a ribbon to each of the participants.

Iran Parliament Speaker Talks Tough Of Hostages

By United Press International

The speaker of the Iranian Parliament accused the United States today of "telling lies" and said the Islamic government may prepare for trial of the American hostages in order to show America that "we are not scared."

Ayatollah Hashem Rafsanjani said Parliament is inclined to postpone any discussion of a letter from 181 American Congressmen asking release of the captives.

Rafsanjani, in a speech broadcast by Tehran Radio and monitored by the BBC in London, said, "The U.S.A. has tried to present an unfavorable picture of our revolution as inhumane while presenting the issue of the hostages as a humanitarian issue."

"The Americans are telling lies. They conduct propaganda in order to succeed in their inhuman actions..."

"Our reaction is to postpone the discussion of the letter of the American congressmen," the speaker added. "In this respect the Majlis (Parliament) has suggested a plan that the Supreme Judicial Council should be asked to prepare the grounds for the trial of the hostages. This should be sufficient to show the Americans that under no circumstances are we going to be intimidated by their last ditch efforts."

"We are not scared."

"At the same time, the United States and Iran have started talks on 182 pro-Iranian Iranians jailed in New York, and Ayatollah Ruhollah Khomeini charged that "four youngsters are being kept unconscious under lock and key with broken ribs."

Officials in New York denied the charge as "categorically untrue."

Tehran Radio reported thousands of people demonstrated at a mosque in Gernul, which borders on Russia, protesting "America's fascist action" against the jailed Iranians and calling for parliament to start the trial of "the American spies (hostages)" as soon as possible. The hostages have been held for 270 days.

In Tehran, militants called for a rally today at the occupied U.S. Embassy "in sympathy with the sisters and brothers imprisoned in the U.S.A.," said radio reports from the Iranian capital.

The 29 Iranian women and 172 men — all on a hunger strike and transferred to New York prisons during the weekend — after guards in Washington refused to deal with them. The women were being held at the Metropolitan Correctional Center and the men at the Otisville federal prison in upstate New York.

Investigation officials said orders would be issued today to deport the Iranian captives to their homes. The women are being deported for their part in a violent clash between pro and anti-Khomeini demonstrators in Washington last week.

The talks between the United States and Iran were being held through the Algerian Embassy in Washington.

Former Leader In TVA Dead
KNOXVILLE, Tenn. (UPI) — Louis J. Van Mol, a native of Belgium who rose through the ranks to become general manager of TVA, died Sunday of cancer at a Knoxville hospital. He was 70.

Van Mol served as general manager from March 1961 to March 1970 when he retired.

'Freeway Killer' Suspect Booked On Murder Charge

LOS ANGELES (UPI) — A teen-age former roommate of Prime "Freeway Killer" suspect William Bonin has been booked in one of the killings.

Five detectives accompanied the slim 19-year-old driver, James Michael Munro, on a commercial jetliner from Detroit to Los Angeles Sunday. He was taken by car to police headquarters where he was booked for murder.

The deeply tanned yellow-haired teen-ager, wearing an olive drab Army jacket, blue jeans and motorcycle boots, stared boldly at reporters of court charges today after disrupting the opening of a trial for six Ku Klux Klan members and Nazi charged in the deaths.

One of the two, Marty Nathan, was gagged and led from the courtroom after he called the trial "a sham." Mrs. Nathan and Florence Caucis, were each sentenced to 30 days in jail.

The disruptions occurred as opening arguments began in the trial, nine months and one day after five CWP members were slain at a "Death to the Klan" rally in a Greensboro housing project.

The Guilford County Courthouse was ringed by uniformed police while sheriff's deputies put on a show of force outside the courtroom. Police marksmen were stationed on the roofs of nearby buildings.

Communists Jailed At Trial

GREENSBORO, N.C. (UPI) — Two Communist Workers Party members whose husbands were slain last fall were jailed on contempt of court charges today after disrupting the opening of a trial for six Ku Klux Klan members and Nazis charged in the deaths.

One of the two, Marty Nathan, was gagged and led from the courtroom after he called the trial "a sham." Mrs. Nathan and Florence Caucis, were each sentenced to 30 days in jail.

The disruptions occurred as opening arguments began in the trial, nine months and one day after five CWP members were slain at a "Death to the Klan" rally in a Greensboro housing project.

The Guilford County Courthouse was ringed by uniformed police while sheriff's deputies put on a show of force outside the courtroom. Police marksmen were stationed on the roofs of nearby buildings.

Clean Up Spreads Waste

SHELL BEACH, La. (UPI) — Efforts to clean up more than 12 tons of wood preservative have spread the contamination and fishermen today were barred from about 400 square miles of the sea-food-rich marshlands and lakes east of New Orleans.

Coast Guard officials said the work was nearing completion to recover about 20,000 pounds of pentachlorophenol, a PCB, that spilled July 22 into the Mississippi River Gulf Outlet.

Pryor Retains His Humor

HOLLYWOOD (UPI) — Comedian Richard Pryor hasn't lost his sense of humor.

The 36-year-old comedian, looking thin, showed up last week at a listening party for the new album by LaToya Jackson, Michael Jackson's 6th sister.

His outfit? A Cheech and Chong "Up in Smoke" T-shirt.

Pryor, who was severely burned from his waist to his face at his home June 9, was released from Sherman Oaks Community Hospital 13 days ago. He has promised to discuss the cause of the accident in an interview with Barbara Walters to be telecast Tuesday.

FLORIDA IN BRIEF

122 Cuban Refugees Arrive As Total Passes 118,500

KEY WEST, Fla. (UPI) — Two more Cuban sailboat boats arrived in Key West Sunday on a weekend that saw the largest number of arrivals in several weeks.

The Coast Guard said the boats carried approximately 122 Cubans, bringing the number of arrivals since the sailboat began April 21 to more than 118,500.

Three boats, including one owned by a Havana man, arrived in Key West Saturday loaded with 266 refugees — the largest daily number of arrivals in several weeks.

Couple Missing In Ocean

NASSAU, Bahamas (UPI) — The derelict sloop Kalla II with blood stains on its deck may provide the only hopes of determining the fate of William Kammerer, Sr., 66, and his wife, Paity.

The boat was being towed today by Nassau from Pipe Creek Cay, north of George Town and some 200 miles southwest of the capital.

It was found adrift Thursday by a sports fishing vessel, the Shark III. The crew of that boat saw a man's body hanging from the side of the Kalla II's lowest deck, to which the body had been tied.

The Kalla II's deck was splattered with blood and its cabin and hull were pitted by buckshot. Empty flare gun cartridges lay on the deck. There was neither a flare gun nor a shotgun on board.

Manatee Born In Captivity

MIAMI (UPI) — The obstetric secrets of the manatee remain a mystery to man today despite the birth of the world's third "sea cow" calf to be conceived and born in captivity.

No human had ever witnessed the birth of a manatee and when Juliet, a manatee at the Miami Seaquarium, gave birth Sunday to a daughter — her second — and only the third "sea cow" conceived and born in captivity, photographers, cameramen and scientists arranged to be present at the time and watch the event.

But after waiting and watching most of the day and evening Saturday for the expected event, everyone, including Seaquarium veterinarian Jesse White, went home.

About 2:30 a.m. with only a minute or two of the other manatee on hand, Juliet gave birth.

The scientists were both sorry and relieved.

Hurricane Batters Island

Allen Comes On Strong

CASTRIES, St. Lucia (UPI) — Hurricane Allen, already packing 125 miles per hour winds, burst across the Lesser Antilles today and headed into the warm waters of the Caribbean Sea, gathering new strength but posing no immediate threat to land.

Forecasters at the National Hurricane Center in Miami warned, though, that Allen was a "very dangerous storm" and could be a "grave threat" to any land mass. A radio report from St. Lucia said at least two persons had been killed and six ships had run aground in Castries harbor.

The storm, the first of the Atlantic-Caribbean season that began June 1, destroyed banana crops, wrecked homes and knocked out electric and telephone service on the island. It earlier battered the resort island of Barbados in its slash through the Lesser Antilles.

The storm, the first of the Atlantic-Caribbean season that began June 1, destroyed banana crops, wrecked homes and knocked out electric and telephone service on the island. It earlier battered the resort island of Barbados in its slash through the Lesser Antilles.

Radio Antilles said a freighter captain reported today seeing two bodies and six grounded ships, including a Venezuelan warship, in Castries, capital of the island.

The Monserrat-based radio station, which covers the Venezuelan warship whose name he did not know.

Allen was the first hurricane to hit Barbados, an island of 250,000 people, since Jeanette killed 18 people in 1955. The streets of Bridgetown, the capital, were deserted as winds howled under darkened skies Sunday evening. Utility poles toppled and tops were wrenched from palm trees.

More than eight hours before the hurricane's sustained wind of 125 mph reached St. Lucia.

Allen grew from a tropical disturbance last week off the coast of Africa and became a tropical storm on Friday, then was upgraded to hurricane status on Sunday.

This storm has as much velocity as it needs to pose a grave threat to any land mass. We will not even speculate if it will hit the southeastern United States.

At 9 a.m. EDT, the hurricane center said the eye of the storm was located near latitude 14.5 north, longitude 63.5 west, or about 170 miles west of St. Lucia and 260 miles southeast of San Juan, Puerto Rico.

It was moving slightly north of the west about 20 mph. The hurricane center said a slight turn toward a west-northwestward direction would decrease in forward speed was anticipated in the next 24 hours, and conditions favored strengthening.

Winds were 125 mph near the six-mile wide eye of Allen and extended 25 miles in all directions. Gale force winds extended 125 miles to the north of the center and 75 miles to the south.

Hurricane warnings remained in effect for Barbados, St. Vincent and the Grenadines, and St. Kitts and Nevis. Gale warnings were posted for Guadeloupe and Antigua.

Last year, two major hurricanes came up the string of islands in the Caribbean and slammed into the U.S. coast. David, which hit Dominica and Martinique before slamming into the Dominican Republic, Florida, and the U.S. coast, left over 3,000 dead and caused \$2 billion in damage.

David was followed by Frederic which came ashore near Mobile, Ala., leaving 16 dead and \$750 million in damage along a 110-mile stretch of the Gulf Coast from Pensacola, Fla. and Pascagoula, Miss.

Hurricane forecaster Miles Lawrence said Allen posed no immediate threat to land.

"Right now it is in open waters and is not heading towards land," Lawrence said, but he warned:

"This storm has as much velocity as it needs to pose a grave threat to any land mass. It is a very dangerous storm. The eastern Caribbean is our primary concern at this time. However, we will not even speculate on when or even if it will hit the southeastern United States."

"There was a great deal of damage done to St. Lucia, extensive damage I am sure. But we don't have any conclusive reports yet."

"We're just watching the storm now and we still have the Virgin Islands and Puerto Rico to worry about. When it passes those land masses we will turn our attention to the direction it is headed."

The eye of Allen passed just north of Barbados Sunday evening, sparing it the worst of its devastating power, but snapping power lines and palm trees.

More than eight hours before the hurricane's sustained wind of 125 mph reached St. Lucia.

Allen grew from a tropical disturbance last week off the coast of Africa and became a tropical storm on Friday, then was upgraded to hurricane status on Sunday.

Demos Prepare For Rule Fight

By ELIZABETH WHARTON
United Press International

The impending Democratic convention fight over a rule-busting delegate to the candidate whom they were chosen to either a reform or a demand that delegates "vote themselves into slavery."

It is all in the party of view.

Washington attorney Edward Bennett Williams was a leader of the liberal move to reform party rules in the wake of the deeply divided 1968 convention in Chicago. Now, he heads an organization dedicated to defeating the final rules change of that reform.

And it is the party's conservative "establishment" that wants the rule not only enacted but enforced next week in New York.

The controversy dominated all three network interview shows Sunday and also the National Governor's Association meeting in Denver.

Washington attorney Robert Byrd endorsed the open convention idea Saturday, but while — on NBC's "Face the Press" — warned: "I don't believe the senator really understood the implications of the suggestion he made."

Williams said he would support the candidates they were pledged to in the state primaries or caucus procedures.

And Brown said he is going to be a peacekeeper. "I do not think I can influence the convention," he said, "but I may be able to influence the outcome in November (by making) a constructive effort to elect the nominee."

Williams said the rule has been approved by the national committee but is not in effect until it is voted by the full convention.

"President Carter wants to put it into effect at this Democratic National Convention," Williams said. "I think that's wrong. I think what he's doing is asking the delegates to vote themselves into slavery."

Kennedy, at a Medford, Mass., fundraiser Sunday, said a staff poll shows the delegating rule will lose and the convention will be open.

Lamm, Florida Gov. Robert Graham and California Gov. Edmund Brown Jr., had differing views on the rules fight — while GOP Gov. Richard Thornburgh of Pennsylvania watched with apparent gloom.

Lamm said the Democrats "need a unity candidate" — neither Carter nor Kennedy. Graham said the words "open convention" are fraudulent and it is only fair to reap delegates to support the candidates they were pledged to in the state primaries or caucus procedures.

Storms Force Balloonist Maxie Anderson To Land

INDIANOLA, Iowa (UPI) — Thunderstorms forced a continental and trans-Atlantic balloonist Maxie Anderson to land early today in a lake near La Crosse, Wis., officials at the National Hot Air Balloon Festival said.

Anderson, of Albuquerque, N.M., took off from Indianola Sunday evening as part of a race involving eight to 10 hot air balloons and was forced to land about 3 a.m. near La Crosse, which is just beyond the northeast corner of Iowa.

"(Anderson) is OK," officials said.

Only two of the balloons have taken off, officials say, and there is no word on the location of the second.

Due to the possibility of high winds and thunderstorms,

Mohammed Reza Pahlavi

When Mohammed Reza Pahlavi reigned as shah of Iran, the last of his title was 'shah.' He was also addressed officially as 'His Imperial Majesty,' 'King of Kings' and 'Light of the Aryans.'

His death in Egypt of this king who became a homeless outcast, hounded from country to country, is indeed a sad story. There are few to say so now, but the bell in Cairo tolls for us. During the better part of four decades, the shah and Iran were friends of the West and particularly the United States.

While nationally there may be a surplus of teachers, the University of Central Florida reports they aren't coming from this area.

BERRY'S WORLD

A few congressmen with lively palates were caught on the videotapes being written from microwave ovens who were held fast by an Arab shield. My associate Gary Galt has now reviewed hours of the incriminating tapes.

By DIANE PETRYK

Auto Biz Going Global

DETROIT (NEA) - Obscured by the current short-term slump in passenger cars is a long-term transformation of what is projected to be an increasingly important auto industry not only in this country but all around the globe.

The "world car" holds the promise of rescuing this country's auto makers from a decade of misadventure that produced the industry's current depression.

While cars rolling off Ford assembly lines in Michigan and New Jersey, virtually identical autos will be produced in Great Britain and West Germany.

BUSINESS WORLD

Hydrogen Fuel For Autos

NEW YORK (UPI) - The world is moving steadily toward an economy ultimately based on hydrogen as a fuel, says Roger Billings, president of Hydrogen Energy Corp.

Hydrogen can be extracted from water by any form of heat. The United States has high-level technology to produce hydrogen in large scale as a safe means of storing hydrogen could be extracted to equal 20 times the oil reserves of all the OPEC countries, Billings said.

Billings said the German Mercedes-Benz Co. is in the vanguard of equipping a fleet of 500 cars with the experimental methanol-hydrogen engine.

National League

Montreal Extends Eastern Lead...

By United Press International
There is one certain way to remain in first place — keep winning.
The Montreal Expos extended their winning streak to six games and secured themselves of another night of peaceful, first-place sleep Sunday by defeating the Atlanta Braves 5-0.

The Expos, who held a half-game lead over the Pittsburgh in the National League East Sunday night, extended their lead to two games when the red-hot San Diego Padres swept the Pirates in Pittsburgh.

"Over the past week you've seen an awesome performance by our team," said Ellis Valentine, whose first homer in the third brought the Expos within one and his run-scoring double in the fifth gave Montreal a 4-3 lead.

Patrice 5-4, Pirates 5-1
Bob Shirley and Rollie Fingers combined on a four-hit and Bill Fabely's RBI single ignited a three-run sixth inning to lead the Padres to their eighth straight victory and a sweep of the Pirates. John Curtis, 6-7, scattered five hits and Dave Winfield drove in one run and scored before the Padres in the eighth. In the nightcap, the Padres scored three runs off loser Don Richardson, 3-4, in a sixth on RBI singles by Fabely and Gene Robinson and a base loaded walk to Shirley.

Cardinals 4, Dodgers 3
Keith Hernandez smashed a two-run homer in the third inning and Silvio Martinez pitched a seven-hitter as the Cardinals dropped the Dodgers into second place in the NL West. Martinez, 6-4, registered his second straight win over the Dodgers and snapped a seven-game winning streak by Bert Hoover, 10-4.

Cubs 3, Giants 2
Jerry Martin's two-run single in the seventh and Bruce Sutter's league-leading third save lifted the Cubs to their sweep. The Cubs scored all their runs off Allen Ripley, 5-7. Ripley pitched a six-hitter and Sutter pitched a perfect ninth. Starter Bob Knapp, 8-14, had given up a single to Cliff Johnson and a double to Bill Buckner.

Padres 5, Pirates 5
Bob Shirley and Rollie Fingers combined on a four-hit and Bill Fabely's RBI single ignited a three-run sixth inning to lead the Padres to their eighth straight victory and a sweep of the Pirates. John Curtis, 6-7, scattered five hits and Dave Winfield drove in one run and scored before the Padres in the eighth. In the nightcap, the Padres scored three runs off loser Don Richardson, 3-4, in a sixth on RBI singles by Fabely and Gene Robinson and a base loaded walk to Shirley.

Cardinals 4, Dodgers 3
Keith Hernandez smashed a two-run homer in the third inning and Silvio Martinez pitched a seven-hitter as the Cardinals dropped the Dodgers into second place in the NL West. Martinez, 6-4, registered his second straight win over the Dodgers and snapped a seven-game winning streak by Bert Hoover, 10-4.

HOROSCOPE

By BERNICE BEDE OSOL

For Tuesday, August 5, 1980

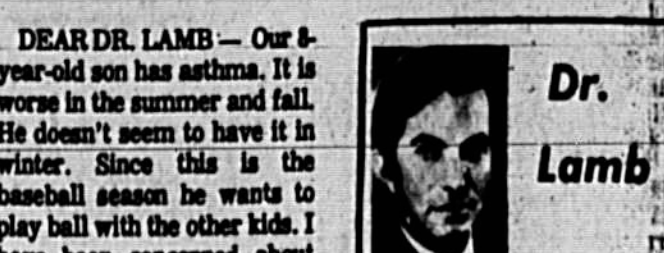

YOUR BIRTHDAY
August 5, 1980

TAURUS (April 20-May 20)
— You should be assertive and cooperative at the same time. If one way doesn't appeal to those with whom you have involvements, suggest another.

SCORPIO (Oct. 24-Nov. 22)
— Instinctive guidance is a valuable asset that should not be ignored today. Chances are you'll get the opportunity to find out just how effective it really is.

SAGITTARIUS (Nov. 23-Dec. 21)
— Much can be gained today through contacts with friends and associates. Discussions with them could be very helpful and beneficial.

Asthmatic Children Enjoy Many Sports

Dr. Lamb

DEAR DR. LAMB— Our 8-year-old son has asthma. It is worse in the summer and fall. He doesn't seem to have it in winter. Since this is the baseball season he wants to play ball with the other kids. I have been concerned about this because I know he has had asthma attacks caused by exercising or playing too hard. Is it dangerous for him to play ball?

Will he have asthma all his life? I've heard that many children outgrow their asthma but I know some adult asthmatics who have had asthma all their lives.

It's hard to keep kids from playing and doing too much. Is there anything he can take that would help him lead a normal life without having these attacks?

DEAR READER— It's hard for parents of children with medical problems to avoid being overprotective. The child with asthma is a good example. No one wants the child to have attacks but it still isn't good for the child to grow up thinking he can't do this or he can't do that because of a medical problem. At school this often becomes a problem for the child, the parent and the teacher. Many asthmatics have severe asthma as adults.

Not all asthma is on an allergic basis. Some people have intrinsic asthma. They have negative allergic skin tests and have negative blood tests that are usually positive for allergic asthma. The intrinsic form usually starts in adult life.

In the last few years Cromolyn, inhaled in powder form, has been used to prevent asthma attacks. It will not abort an attack that has already started but if used regularly it can help prevent attacks, including those induced by exercise.

Parents of children with asthma who are worried about how much the child can do will have a mutual understanding with the teacher, the doctor and the child. It's a team effort.

Property Tax Change Likely To Make Ballot

By DONNA ESTES
Herald Staff Writer

The constitutional amendment, sponsored by the county property appraisers of Florida, to return property assessments to 68 percent of market value appears likely to be on the Nov. 4 general election ballot.

Seminole Property Appraiser Terry Goebel said today petitions carrying more than the 250,000 signatures necessary to have the amendment placed on the ballot were turned over to the various supervisors of election for certification in the 87 counties.

He said state law requires that petitions carrying the signatures of five percent of the state's registered voters be submitted to place an item on the ballot. The signatures must be collected from at least eight of the state's 15 congressional districts.

The petitions turned in to Seminole Supervisor of Elections Camilla Bruce, which totaled 2,718 signatures, have been certified with 2,513 valid signatures, said Sandy Good, Mrs. Bruce's office manager today. The certified petition has been forwarded to the state's election office.

State Elections Officer Dorothy Glison is expected to make an announcement by the end of the week whether the petitions carried the required number of certified signatures statewide.

Goebel said today the most important part of the proposed amendment is the portion which forbids local government to raise property taxes in any year more than five percent, exclusive of new construction, above the amount levied the previous year. If any local government wishes to levy a higher tax, it must ask the permission of its voters in a special referendum.

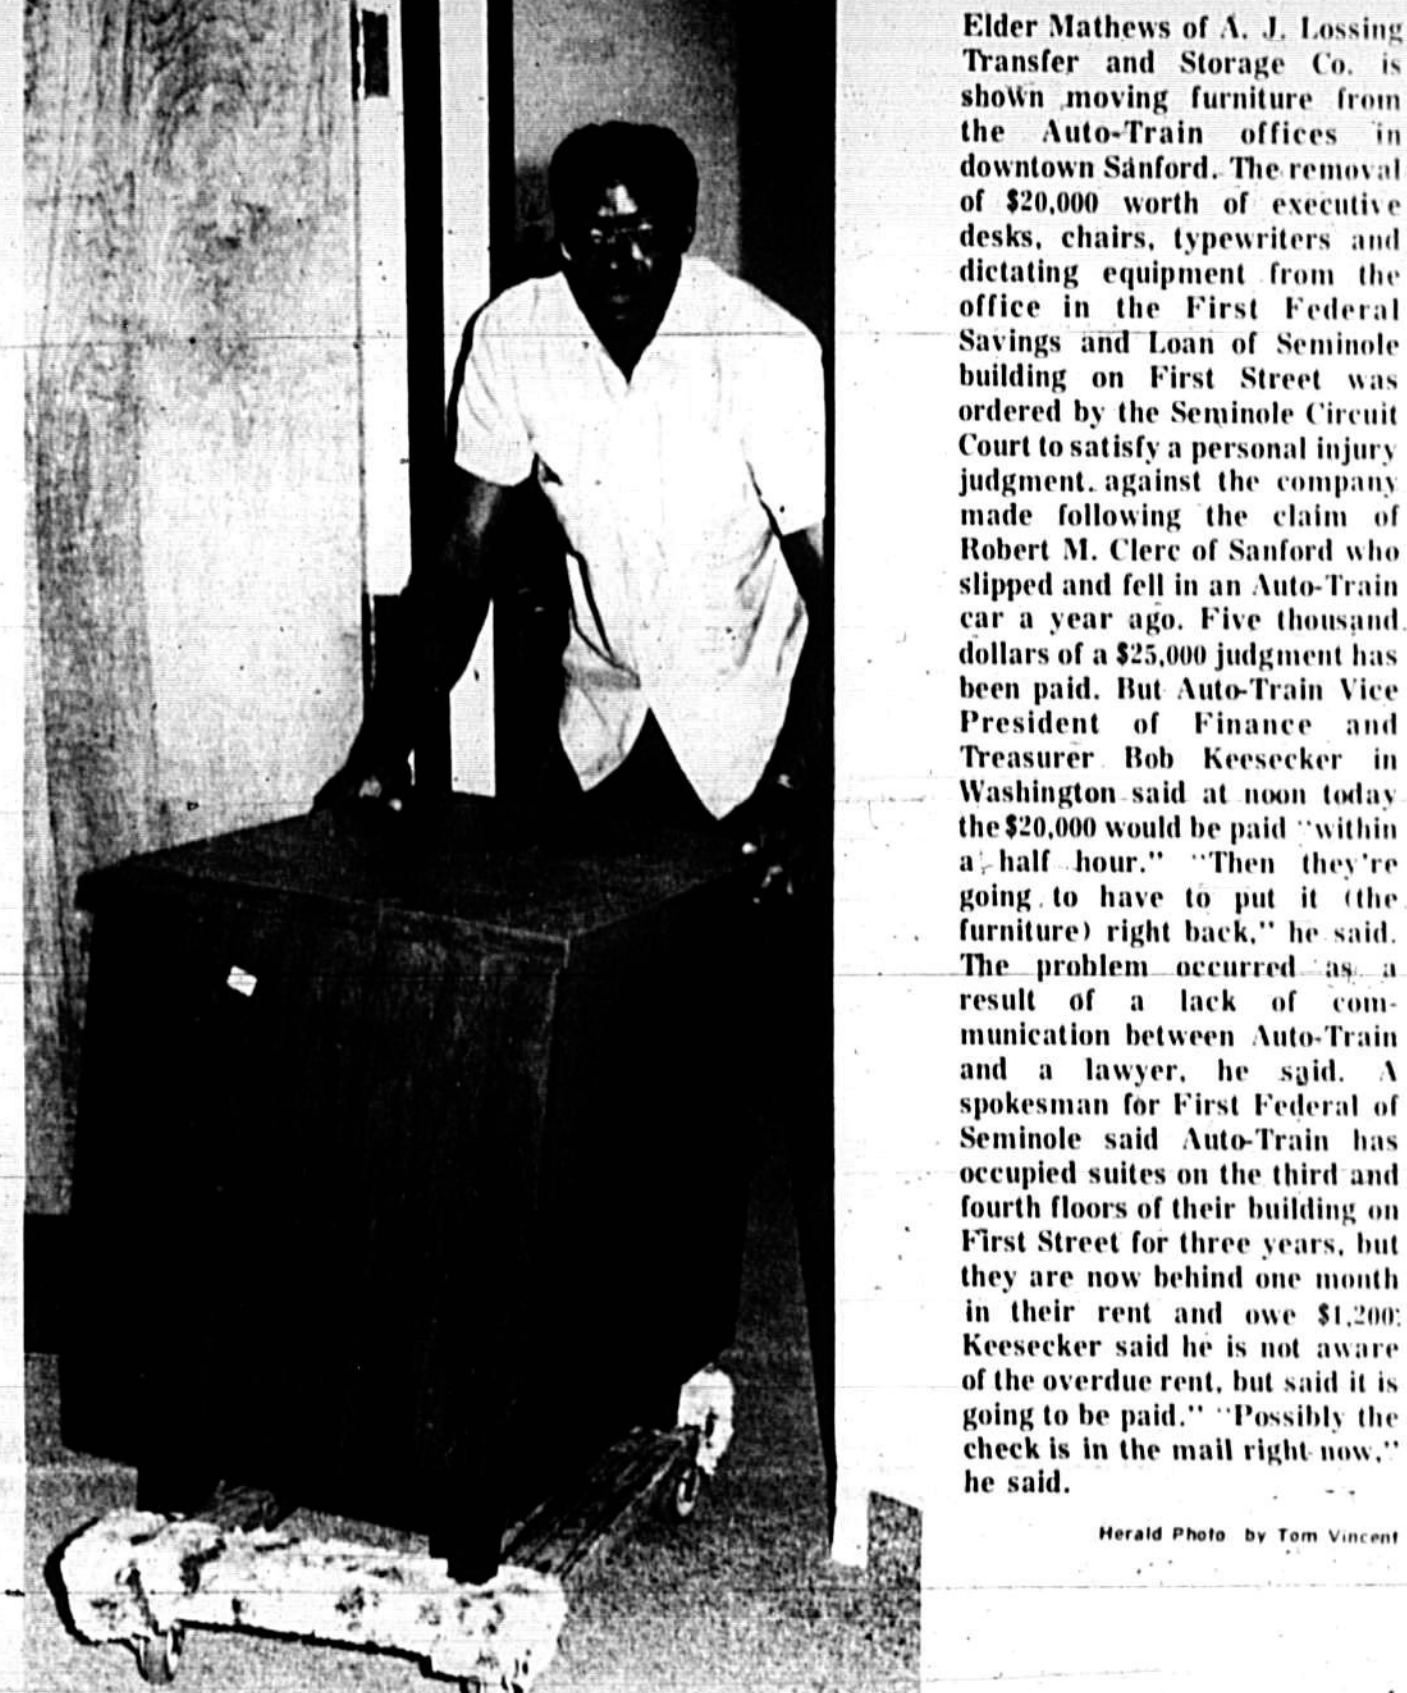

"With the increased assessments and the requirement expired this year, the people give local government permission to raise the tax rate more than five percent, it cannot be raised," Goebel said.

The amendment would return homestead exemption to \$5,000 for all but \$10,000 for senior citizens, Goebel said. The appraisers' amendment, if passed, would have no impact on this year's taxes.

The property appraisers of the state decided to go the petition route for a constitutional amendment after Gov. Bob Graham announced his office would enforce the constitutional provision requiring property assessments at 100 percent market value.

Goebel has estimated the reappraisal of real properties in the county,

AUTO-TRAIN FURNITURE IS SEIZED

Elder Mathews of A. J. Lossing Transfer and Storage Co. is shown moving furniture from the Auto-Train offices in downtown Sanford. The removal of \$20,000 worth of executive desks, chairs, typewriters and dictating equipment from the office in the First Federal Savings and Loan of Seminole building on First Street was ordered by the Seminole Circuit Court to satisfy a personal injury judgment against the company made following the claim of Robert M. Clerc of Sanford who slipped and fell in an Auto-Train car a year ago. Five thousand dollars of a \$25,000 judgment has been paid. But Auto-Train Vice President of Finance and Treasurer Bob Keeseker in Washington said at noon today the \$20,000 would be paid "within a half hour." "Then it's going to have to put it (the furniture) right back," he said. The problem occurred as a result of a lack of communication between Auto-Train and a lawyer, he said. A spokesman for First Federal of Seminole said Auto-Train has occupied suites on the third and fourth floors of their building on First Street for three years, but they are now behind one month in their rent and owe \$120,000. Keeseker said he is not aware of the overdue rent, but said it is going to be paid. "Possibly the check is in the mail right now," he said.

Carter Denies Wrongdoing In Billy-Libya Controversy

WASHINGTON (UPI) — Declaring his administration innocent of wrongdoing in the Billy Carter affair, President Carter says he will order new rules to prevent any future appearances of impropriety with his relatives.

In a nationally broadcast news conference from the White House Monday night, Carter stressed his brother Billy's connections with Libya "had no influence or effect on my actions or U.S. government policy toward Libya."

The facts will show "neither I nor any member of my administration violated any law or committed any impropriety," Carter said.

Carter, Kennedy Seek Compromise

NEW YORK (UPI) — Political strategists for President Carter and Edward Kennedy are nearing an agreement on staging the Democratic National Convention that could avert a dawn-to-dusk brawl, a top Kennedy aide said today.

"They're coming to an agreement," spokesman Dick Drayne said in Washington. "I'm optimistic."

But a key White House source, while confirming negotiations over protocol at the convention, added: "Our folks are much less sure now" that an agreement can be reached before the four-day convention opens in New York Monday.

Carter-Mondale officials said today that the president will not free his delegates, and Kennedy supporters made it clear they are still seeking an open convention.

But the top political aides for the two candidates — Kennedy's Paul Kirk and Carter's Hamilton Jordan — have been meeting periodically, seeking some form of accommodation that could avert a lengthy, public bloodletting in the fight over delegates.

Carter's forces have the muscle to control the convention but face fights over rules and the platform by Kennedy and all-night sessions that would ring the lingering chances of party harmony.

In a nationally televised appearance Monday night, Carter again refused to release his delegates and accused Kennedy and those seeking an "open" convention of wanting a bracketed convention that would set back party reforms.

Drayne made it clear that the key issue for the Kennedy forces is the timing of the showdown vote on the proposed "loyalty" rule that would bind delegates to the candidates for one ballot.

Kennedy's only hope of denying Carter renomination rests on defeating the

Seminole Officers Gain Pay Raises

Seminole County's 18 constitutional officers will be receiving substantial pay raises beginning Oct. 1, in accordance with legislation passed during the 1980 session of the Florida Legislature. The bill, raising the salaries of constitutional officers statewide, became law without the governor's signature.

Constitutional officers include: clerk of the circuit court, sheriff, property appraiser, tax collector, supervisor of elections, county commissioners, school board members and school superintendent.

Highest percentage pay raises will go to school board members, who are being paid \$8.18 annually, and the superintendent of schools' office, which is receiving a salary of \$33,853. On Oct. 1 those salaries will go to \$11,863 for school board members and \$58,486 for the school superintendent.

William P. Leyer is currently Seminole County school superintendent. County school board members are William Kirk, Pat Tolson, Robert G. Feather, Roland Williams and Allan Keith.

The annual salaries of Sheriff John Polk will go from \$31,273 to \$35,447; Clerk of the Circuit Court Arthur H. Beckwith Jr. from \$31,273 to \$35,447; Property Appraiser Terry Goebel, from \$31,273 to \$35,447; Tax Collector Troy Ray, from \$27,397 to \$31,092; Supervisor of Elections Camilla Bruce, from \$27,174 to \$29,274; and the county commissioners from \$18,302 to \$20,122. The county commissioners are Bill Kirchhoff (chairman), Sandra Giesem, Robert Sturm, Dick Williams and Bob French.

Constitutional officers are paid according to the county's population in which they serve. Population figures, used by the state for the census in 1970, are used by the University of Florida population center.

Board Increases Price Of School Lunches By 10 Cents

By DIANE PETRYK
Herald Staff Writer

School lunches will cost 10 cents more when school opens, Seminole County School Board members ruled Monday in giving tentative approval to their \$81.1 million budget for 1980-81.

The budget is based on a tentative property tax levy totaling \$8.10 per \$1,000 of assessed valuation, which will generate \$13,050,704. Remaining funds needed will be provided by state and federal sources.

The budget will not finally be approved until after an Aug. 13 public hearing. The hearing will be held at 7:30 p.m. in the board room at the school board office, 1211 Melville Ave., Sanford.

The school board approved the 10-cent increase on all lunches, despite not knowing if federal funds for lunches will be cut.

Of the 10 cents, an extra 5 cents is needed to fund an increase in the cost of food and labor. Darrell Hines, assistant director of food services, told the board.

The other 5 cents is needed to cover an expected loss of federal reimbursement for each lunch purchased by a student. Superintendent of Schools William P. Leyer said the federal funds may not be cut, but advised that the increase be set so the board will be prepared.

The cut hinges on approval of President Carter's budget, which will not be factored until after the Democratic National Convention, Leyer predicted.

Under the new price policy, lunches for people in kindergarten through fifth grade will increase from 65 to 75 cents; lunches for students in sixth through twelfth grade will increase from 75 to 85 cents and prices for adults will increase from \$1.50 to \$1.50.

All carte prices will increase an
