

Put Yourself In The Home Buying Picture

HOW TO BUY A HOME:

The purchase of a home is the most important investment the average family will ever make. It represents a large sum of money, and it means a great deal to the happiness and well-being of the family.

Therefore, it is important that you select the right home. Among the factors which should be considered are the following:

LOCATION. Is it convenient to stores, schools, churches, transportation and other facilities?

PLAN. Is the home well-planned to meet your requirements? Does it have enough room, and large enough rooms?

VALUE. Do you know how much the home you are considering is really worth? Is the home well-built with latest modern features?

YOU'LL FIND A HOME WITH ALL THESE REQUIREMENTS
AND MANY MORE, AT

QUEEN ELIZABETH II and her husband, the Duke of Edinburgh, chat between matches at Windsor Great Park, where he played in the Household Brigade polo club match. He was a member of the Welsh Guards' team in a game with the Royal Horse Guards. Nearby are Prince Charles and Princess Anne. Later, riding through Torquay, the royal couple missed injury by 10 feet when a heavy flagpole toppled over and struck the car just behind them. (International)

Volcanologist Says Set Up Instruments

HONOLULU (AP) Dr. Gordon A. MacDonald, noted Hawaiian volcanologist, urged that instruments capable of picking up imminent volcanic outbreaks be set up immediately on Oahu and Kauai Islands. He said there are no instruments in the area capable of picking up tremors that precede an eruption. Dr. MacDonald said the belching of smoke and ash from an apparent undersea volcano eruption 40 miles from Honolulu in the Kaula Channel is evidence that the volcanoes of the north Hawaii chain still are potentially active. However, he doesn't think the undersea eruptions noted by planes the past two days necessarily mean a shift to either of the heavily populated islands.

The Split T formation was introduced by Coach Johnny Vaughn in the south in 1948.

Try and Stop Me

AT INTERVALS, some scholar comes along with "definite proof" that Shakespeare's plays were written by somebody else. To this, the late James M. Barrie had about the best rejoinder. "I know not," he admitted, "whether Bacon actually wrote the words of Shakespeare or not, but if he didn't, he missed the opportunity of his life."

Dr. Frank Baxter, eminent California professor and TV personality, recalls ruefully that in World War I he was a private—and not a very good one at that. General Pershing was inspecting Baxter's regiment, stopped short in front of him, and said sharply to the captain, "See that this soldier is issued a uniform that fits him—also a pair of shoes that are polished."

The Junior High School Department of Croatts Academy is presenting a comedy in two acts, "Never A Dull Moment", Monday, May 28, at 8 p. m.

The swimming pool in the Brooksville School has been in disuse for three years and the P.T.A. is raising a fund for repairs.

Junior, the thirteen-year old son, comes in from school with his friend, Bobbie, and the boys inform Ruby of a fire in her neighborhood.

When Ruby leaves the room to proceed to make the room a shambles.

Miss Pringle arrive, and followed in a few minutes by Mrs. Bobbie almost come to blows over a game I checkers.

Both women are disgusted; Jack breaks the date, and Junior is in disgrace. Remembering that his Uncle Archie had shown Miss Pringle some attention in '15 youth, Junior calls on him for help, and complication follows.

There is never a dull moment in this play; children pop in and out selling popcorn; Junior and Bobbie almost come to blows over a game I checkers; Marion quarrels with Jack; Ruby does her reducing exercises in her party dress, and Miss Pringle walks right into the trap set for her by Uncle Archie.

Characters: Cora James, Henry Scurry, Joseph Kendrick, Marian Cooks, Nellie Jean Kelly, Motrell

Debose, Isaac Worthen, Joan Buckner, Eugene Garvin, Phyllis Durham, Lawrence Jenkins, Clontha Dupree, Mary King, and Israel Black.

2 DAY Firestone PRE-Inventory SALE

NOW ON

WE WILL BE CLOSED ALL DAY WEDNESDAY - MEMORIAL DAY

Think of this next time you're in heavy traffic -

No other transmission is so smooth as Dynaflo

You know how it is.

Anyone who drives a car these days must sometimes drive in crawling, slow-moving traffic where it's stop-and-go or sputt-and-slow.

And if you're used to a car that handles such traffic with a continuous series of upshifts and downshifts - even automatically - then maybe you think that's the best you can have.

But it isn't. You can have Dynaflo smoothness in a new Buick - and you won't believe the difference until you try stop-and-go traffic.

For here you have absolute smoothness when you accelerate.

Here you have absolute smoothness when you decelerate.

Here you have absolute smoothness under every road condition and traffic pace - with no lags or bumps to mark upshifts and downshifts - because no gears ever shift in Dynaflo.

It's the only transmission on the American scene today where flowing oil does the work of gears every step of

the way - and where smoothness is constant, absolute and infinite.

So maybe you ought to sample a new Buick with Variable Pitch Dynaflo - and try the new thrills that go with this smoothness -

The flash-fast new getaway response - and new stepped-up gas mileage - when you barely press the pedal.

The instant new full-power acceleration when you floor the pedal and switch the pitch for a needed safety-surge -

The walloping new might of the big new 323-cubic-inch V8 engine that puts the ginger to it all -

And the new ride, the new handling ease, the new interiors, the new bold look of racy sweep-ahead styling.

Drop in on us this week - today if you can - and see for yourself what straightforward truth we tell you here - and what great-buy prices are keeping Buick more firmly than ever in the top 3 of America's best sellers.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century - optional at modest extra cost on the Special.

(Pd. Pol. Adv. paid by R. L. Sloan)

Tomorrow's Election Important; Everyone Should Cast Ballot

The importance of tomorrow's election cannot be emphasized too much.

The very foundation of America's heritage rests in the right of citizens to choose their own leaders through the means of a secret ballot, unhampered by the glaring eyes of those who would condemn or condemn.

Yet, we must come to realize that America's heritage in the selection of leaders through the secret ballot must be maintained and safeguarded by the presence of those who are qualified to vote at the polls each and every time they open.

We have often said that the right to gripe about your government is the very fact that you have taken part in an election and cast your ballot for one of the candidates seeking public office.

Corrections that must be made in the operation of our government, to the satisfaction of the people, will not be accomplished by the absence from the voting booths of those who should have a part in naming the persons to hold high office.

Indications are now that there will be a large turnout of voters for the May 29 Presidential Preference primary.

When the polls open at 7 o'clock tomorrow morning, and throughout the day until the polls close at 7 p. m., there should be a continuous line of voters waiting to cast their ballot and name the candidates of their choice.

Employers should give their employees every opportunity to take advantage of their right to vote, and even urge them to take part in the election tomorrow.

Civic leaders should make known to their community the fact that voting is a right that cannot be enjoyed in many countries of the world where people are struggling for freedom.

TODAY'S BIBLE VERSE

God... hath made of one blood all nations of men. Acts 17:26—They used to tell us that we were descended from apes. No biologist believes that now. Great biologists and psychologists like Dr. Hudson now write books about the Divine Pedigree of man. We like that better. A few great saints have justified that pedigree. To dwell on our animal natures may justify our lapses, but what we need is inspiration and we should strive to live up to our divine pedigree.

Time Is Winning Slow Victory

By HAL BOYLE
PINEY GROVE, N. C. —Time is winning a slow victory over Mrs. Aggie Lossilah, custodian of a dying race. Aggie, who is going on 76, is one of the few remaining Cherokee Indian women with a first-hand knowledge of old tribal ways and customs. As a young girl, Mrs. Lossilah, now a widow, walked 170 miles across the mountains to set up housekeeping on a small hill-side farm where she has lived more than half a century. Sitting on the cabin porch, her stretched out feet comfortably tucked out to feel a cooling breeze, Aggie said gravely: "It's all gone to the modern times. Things are changing just as fast as they can change." The honk of a motor car echoed up from a modern highway where a stumbling oxen once plodded. A sound stirred Aggie to revert to a central heating. She still prefers to cook her meals in an iron pot over her fireplace. "I don't like a stove," Aggie and her husband raised said, "I wouldn't live in a house her I came from New York City, eight children and five of their without a fireplace. "Food tastes better cooked in an iron pot in a fireplace than in an aluminum pot on a stove. "Women today seem to think they have a better life because they don't have anything to do. But I think folks were happier in Indian delicacies as bean bread, possum grape drink and meat skin soup. She knows how to brew the native herb remedies—ginseng for colic, honeysuckle for pneumonia, wild cherry for measles, Christ-man fern for fever. "But when people get sick now they run to the doctor to get a pill," she remarked. "I never had a doctor until this spring, when I spent a spell in the hospital." Aggie didn't want to go to a hospital. She had to be talked into it. She has no desire to adjust to modern times, has a deep contempt for new kitchen gadgets believe I'll die poor. But I got a home with little pieces to call my own... a central heating. She still prefers shelter. and that's all I care about. As I got up to leave, Aggie asked where I lived. When I told her I came from New York City, she nodded and said politely: "Is it a big city? I've heard of it, yes, I've heard of it. I heard it's a terribly muddy place."

Every citizen who is registered and qualified to vote is urged to visit the poll in the precinct in which they live and cast their ballot for their choice of the candidates appearing before them.

Keep America Free through the privilege of voting.

Support Girl Scouts

The fund appeal of the Girl Scouts of Sanford and Seminole County is one to which we can all respond with full confidence that our contributions will be used in one of the most worthwhile and valuable programs available to girls.

The good will and public confidence which the Girl Scout organization enjoys both here in Sanford and Seminole County and in communities across the nation is not just a happy accident. It results from a well-developed and creatively presented program which fills the basic needs of our young people—the need to express growing personalities through working and playing together; the need to make decisions that involve them and to abide by the consequences; the need to broaden their outlook through learning more about their own community and the world they live in.

The Girl Scouts have become so integral a part of our American way of life that it is difficult to imagine Sanford and Seminole County without them, and yet it is a truism that the things we value most we are most likely to take for granted. We too easily assume that the training our youngsters get through Girl Scouting will continue to be provided for them—whether or not we give the program our active support.

In Sanford alone, there are more than 165 Girl Scouts, ages seven through sixteen. Together with their one and a half million sister Scouts throughout the United States, they are preparing for the larger responsibilities of adult leadership through this program of fun, service and training in democracy. To finance this program through the coming year, the Girl Scouts must raise a total of \$2,896 in their annual fund drive. This will be done through direct mail and personal solicitation.

In addition to contributing to the regular program, funds will go toward camping and the expansion of troops in Sanford and Seminole County.

Your contribution to the Girl Scouts will help to maintain its present services and to develop and expand its program so that even more girls can participate.

Give and give generously with the knowledge that you are helping where it counts most—the young people on whom the future depends.

If you haven't taken part in the planning of the ceremony and program to honor Herman Morris for his 80 years of interest and part in developing the youth of our community, then be sure to get in touch with John Kader and find out where you can do your part.

Red Campaign Having Effects

By JAMES MARLOW
WASHINGTON, (AP) — The Russians' campaign to look peaceful is having an effect in Congress—although Secretary of State Dulles seems to dread the thought anyone will believe them.

No matter how sincere the Russians are, their efforts are aimed at getting results either directly or indirectly. In the case of Congress the result was indirect. On Tuesday — nine days after Moscow said it would reduce its armed forces by 1,200,000 men — the House Foreign Affairs Committee voted to cut 1,109,000,000 from President Eisenhower's requested \$4,900,000,000 foreign aid program. That isn't final — both the House and Senate will act later.

One billion dollars of the chopped money would have been for military help to American allies and friends, the rest for economic aid. One of the reasons for the committee vote was given by the chairman, Rep. Richard D. ...

dueing the size of their armed forces. Eisenhower said yesterday the Russians seem to be doing the same thing now: "streamlining" their force.

In January 1953 this country had 3 1/2 million men under arms; today it has 2,800,000. In 1953 Britain's armed forces numbered 870,000; Britain plans to have 700,000 in 1958.

France apparently takes more seriously its troubles in Algeria than its fears about Russian attack. It has withdrawn three of its five divisions in the North Atlantic Treaty Organization in Europe for service in North Africa.

In the British Parliament more than 50 Laborites praised the Russian move, said the Russians wanted peace and declared the Soviet competition was now political and economic but no longer military.

It's hardly likely members of Congress would take a chance on the military aid Eisenhower requested for the Allies if they feared war was imminent. The British have been doing what the United States itself has done as technological progress with new planes and weapons put more emphasis on air power: re-

Boxing managers Mary Jensen, Hymie Wollman and Alex Koskowitz are in the fur business.

Another Big Week For Stockholders

By SAM DAWSON
NEW YORK (AP) — It's another big week for the stockholders. Some of the biggest companies are holding their annual meetings.

While some of the shareholders may be disturbed over what has been happening to the market value of their holdings, for the most part the meetings are bringing soothing predictions of expansion and good earnings. But there is also a full mixture of the things that can come up at such get-togethers.

Today is a first for stockholders and management of Ford Motor Co. In tents near the River Rouge plant the public owners are meeting the family and other management officials for the first time. A generally contented group—shareholders of Jersey Standard,

Oil heard its officials yesterday raise their estimates on the demand for oil this year. President M. J. Rathbone told the meeting in Linden, N. J., that domestic demand should go up 1 per cent this year and demand abroad rise 10 per cent. The shareholders, having got since their last annual meeting the stock split they had long clamored for, also enjoyed a report that earnings were at a record high.

The often boisterous stockholders of the New York Central, meeting today in Albany, to hear Robert R. Young's account of his stewardship, were able to call on Thomas E. Dewey, former New York governor, for legal advice on a r i l a m e n t a r y procedures. Management was trying to forestall some of the high jinks of recent years.

Commonwealth Edison's stockholders in Chicago increased the total of common stock and heard a prediction that sales would be a little better this year than last with the outlook even brighter for the next 10 years.

Pan American World Airways stockholders were assured that more Americans than ever will travel abroad this year.

Stock splitting—popular share owner pastime—occupied the owners of Proctor & Gamble at a meeting in Cincinnati. The shareholders approved a two for one split of common stock. In turn management told them it planned to raise the dividend rate.

LETTERS TO THE EDITOR

Public Forum

This column is for Sanford Herald readers to use in expressing their opinions upon any matters of interest to the general public. We solicit your ideas and fair criticisms of any existing conditions, city-wide, state and national; comments or criticisms of individuals, public officials, groups or organizations, but be temperate, fair and truthful. No personalities. The length of your letter depends upon the importance of what you have to say. All letters will be signed by writer with address, though names will be withheld from publication upon request. Wherever possible letters should be limited to 300 or 500 words. The Herald reserves the right to edit or cut letters to fit the space available.

Sanford, Florida
Dear Sirs:

The 1956 Oviedian has been delivered, and the 180 copies were sold by the second day. Everyone is saying that it is by far the best yearbook we have ever published. This year we added some features which make our annual stand out. The most notable addition is a full page color photograph of our entire student body and school building. We were able to make this addition at no extra cost through a special agreement with the publisher.

We thank you most sincerely for your generous assistance in helping our annual. You who are friends of our school certainly make lasting impressions on the students when you show interest in their annual.

Thank you again for your interest in our school and community.

Yours Truly,
Myron Willis

Can Democracy Stop Short Of Socialism Man Questions

SAN FRANCISCO (AP)—Bergen Evans, the man who thinks up 864,000 questions, is "aghast at the burden parents bear to send their children through college."

At \$2,000 a year, it now costs \$16,000 to send two through college, Evans said last night. "That, I am sure, sets up more than the lifetime savings of the average parents."

Evans, Northwestern University professor of English, spoke at a banquet of English, spoke at a National Congress of Parents and Teachers. The Congress ends today.

Evans told a news conference before the banquet: "The prices for higher education have soared. . . . Society has been caught off base."

In particular, he said, medical education costs have gone up, and "it takes seven years and more to turn out a doctor."

"Only doctors now can afford to send their sons to medical school," he said. "There isn't a chance for a laboring man's son to get to be a doctor."

Evans, son of a doctor and father of two boys, suggests his faculty salary by drafting all but the baseball questions for The \$64,000 Question television program. He said he doesn't produce the baseball questions because "I don't like intellectuals preterring an enthusiasm for baseball."

Society soon will be deciding whether it wants its doctors to come from the talented and the skilled, or those who can afford it, Evans continued.

"The question we are shirking is: Can democracy stop short of socialism?" he said. "I assume that it can't. There will be more state financing for education."

"Through area is one way our democracy is approaching closer to socialism."

"How many are there in our country now who earn—I mean earn—\$100,000 a year? I'd say there can't be many more than a hundred. After taxes they keep \$3,000."

"The ordinary working man gets \$5,000 a year; and there isn't much

80,000 Persons Get TB Germs In One Year

NEW YORK (AP)—People sick with TB, but not in hospitals pass TB to at least 80,000 other persons a year, a health official said Thursday.

These patients are the most important problems now in tuberculosis control, said Dr. Edward X. Mikol, general director of tuberculosis hospitals. New York State Department of Health, Albany.

Mikol, in an address prepared for the National Tuberculosis Assn., discussed a U.S. Public Health Service report showing that 45 per cent of TB patients are not hospitalized.

This study finds 87 per cent of the nonhospitalized patients are in advanced stages of TB. Half are 45 or older. Above age 55, there are twice as many men as women with TB but not hospital-

ized. A main implication is that it is "certainly the unhospitalized tuberculosis cases, both the known and unknown, that produce the 80,000 new cases reported each year in this community."

Mikol said the problem calls for more efforts to find and treat persons with TB, particularly in areas, such as poorer economic sections of cities, where they are more prevalent.

Drangon trees in the Canary Islands may be 50 feet in circumference and 8,000 years old.

Less than half the antarctic continent has been explored.

Delray Beach Commission Bans Negroes From Public Bathing Beach

DELRAY BEACH (AP)—The city commission Wednesday barred Negroes from Delray Beach public bathing facilities in an emergency ordinance it said was passed to prevent interracial riots.

The action was taken eight days after dismissal of a Federal Court suit by nine Negroes asking access to the beach and municipal pool. Absence of a city ordinance barring the Negroes was the basis of the dismissal.

The commission said Delray Beach received much adverse publicity because it had no law that prohibited mingling of races.

"The result of the adverse publicity has been that large numbers of Negroes from other communities have come upon the municipal beach. The result of this invasion has been that near riots have occurred between

Wearing Of Green Poses To Be Worry

ST. LOUIS (AP)—The city and its park keepers are in a court dispute over the wearing of the green.

City officials some time ago decided the park keeper should be outfitted with green uniforms.

"It will make them identifiable to our citizens and lend dignity to their positions," said Mrs. Edward G. Brungard, city welfare director.

The city bought \$4,402 worth of the uniforms to be sold to the keepers at cost, about \$15, on a pay-withholding basis.

But a union official yesterday filed suit in Circuit Court in behalf of three of the park keepers asking a declaratory judgment on whether the keeper can be coerced to buy the uniforms as a condition of employment.

Alaska has a population of about 200,000.

Florida family minus electricity

What would you do without electricity in your home? Well — you could use candles. And build fires. And substitute elbow-grease for all the jobs electricity does for you automatically. If you did, you would be reminded quickly — and forcefully — how much electricity does for so little cost.

Electricity is the biggest bargain in your family budget. What else gives you such value in comfort and health . . . saves so much work . . . gives you so much extra leisure for Happier Florida Living?

REPRESENTATIVES from eight charitable organizations received checks from Captain R. W. Jackson, USN, Commanding Officer of Sanford Naval Air Station during ceremonies held aboard the station Monday. The checks received from the 1955 Naval Air Station's Combined Charities Drive. Present at the ceremonies were: (left to right) Commander J. E. Wilson, USN, Operations Officer of NAS; and Chairman of the Combined Charities Drive, Chaplain C. L. Arnold, R. G. Williams, Ben Butler, Mrs. E. C. Kuhn, the Rev. Milton Wyatt, Lt. Virginia Kellner, Lt. Marcella Reynolds, Captain R. W. Jackson, Mrs. Harold Appleby, Willis Peacock, R. E. Karns, R. L. Bauman, J. F. Sauls, and Don Bales. (Official Photo, U. S. Navy)

New York Giants Accept New Area For Dormitory

The Board of Sanford City Commissioners was advised last night that the New York Giants have accepted the new area located at the corner of Mellonville and Cedar Aves. for the new dormitory building to be constructed for the dormitory and administrative offices of the New York Giants Farm System.

Commissioner John Krider told the commissioners that the Giants had accepted the new site earlier in the day.

It is expected that plans and specifications for the new building will be completed at an early date so that bids can be received for its construction.

The proposed building makes available dormitory rooms for nearly 400 ball players brought to Sanford for Spring Training.

Original plans have been changed so as to enlarge the facilities and costs of construction are now estimated at more than \$100,000.

The former plans called for the location of the building at the corner of Eighth St. and Mellonville Ave. in the athletic area just north of the present Memorial Baseball Stadium.

The new site is located where the old baseball stadium was originally situated.

Board Urged To Push Natural Gas Idea

"We, as a gas company, look forward to serving natural gas through our system when it becomes available," A. H. Gaede, president of the Sanford Gas Company, told the Board of Sanford City Commissioners last night.

"We have not signed a contract with any of the four companies in the field," Gaede said as he told the commissioners of his company's plans to furnish the natural gas when it comes to Florida. However, Gaede explained to the commissioners, "We have requested an allotment and filed a petition to intervene with the Federal Power Commission."

"There is nothing for this Board of Commissioners to do but promote the idea of bringing natural gas to Florida," Gaede said. Commissioner Earl Higginbotham explained to Gaede "I stated at the last meeting that I would prefer private enterprise to handle the natural gas distribution here."

Mayor F. D. Scott, explaining to Gaede the city's position, said "We don't know if there was anything we should do as a first step toward getting natural gas for Sanford and we are happy that you have explained your position to us."

Gaede, concluding his discussion with the Board of City Commissioners, commented, "I would like to say that the signing of the contract with Florida Power and Light Company is very fine and represents progress in the City of Sanford."

Later in the meeting, former city commissioner John Kater, in appearing before the Board of Commissioners to request the use of the Sanford Memorial Stadium for the Herman Morris Appreciation Night, said, "I would like to commend the commissioners for doing such a good job. From what I can see, this Board of Commissioners is doing an excellent job."

Sunday Designated As Children's Day At Local Church

Children's Day will be observed Sunday, 9:45 a.m. at the First Christian Church with a mission program which will be presented by boys and girls of the Sunday school.

Diane Baly will give the call to worship. The school will sing "We're a Story to Tell to the Nations." The children's department, directed by Mrs. W. H. Young, will quote the Great Commission and sing a group of songs. Kenneth Johnson, Tommy Hinson and Linda Kris will put on a skit. Brenda Elliott will make a talk. Because of the program the regular class period will be shortened. An offering for missionary work in 12 foreign fields will be taken. The adopted goal is \$60.00. The attendance goal has been set at 100.

No evening worship is slated for Sunday due to the baccalaureate service at Seminole High school because of high school graduation exercises at 8 p.m. Monday. June 4, the Friendship Class will meet at 6 p.m. for a business session.

A district Christian Women's Fellowship Workshop will be held at the Central Christian Church, Orlando, Tuesday, June 5, at 10 a.m. Delegates from Sanford will include: Mrs. Harry Falk; Mrs. Chandler Vail, Mrs. W. H. Young, Mrs. O. D. Landreas and Mrs. Parry L. Stone.

The first issue of a monthly newsletter will be mailed to the church constituents this week. Mrs. John Bair is the editor, Miss Flo Bishop received a token price Sunday for suggesting the name "The Christian Messenger" which has been adopted for the paper.

Time Changed

The Herman Morris Appreciation Night has been changed, according to John Kater, who is heading the program for the event, from 7:30 p. m. to 8 p. m. Tuesday June 5, so as not to conflict with the Seminole County Education Association Barbecue which has changed its hour to 6 p. m. instead of 6:30 p. m. so that teachers may attend both affairs.

Weather

Clear to partly cloudy and warm today and Wednesday; low 67-76.

Florida Center To Open

Washington has been selected for the first of the northern cities to have a permanent exposition of the amazing developments which have taken place in the Sunshine State. The project will be a cooperative one of progressive Chambers of Commerce of Florida, leading manufacturers and industrialists, the entire vacation and resort industry, and of the building and development enterprises which have mushroomed because of the astounding influx of retired people.

The project has been designated as the "Florida Information, Travel and Reservation Center." The initial survey and preparatory work for the Center has been under the direction of Nell R. Zaneli, who is associated with Plantation Estates, Inc. of DeBary, Fla., members of the State, County, and Sanford Chambers of Commerce, Plantation Estates is one of the largest developers and builders of Florida retirement communities. Their mammoth development at DeBary has transformed innumerable acres of a famous antebellum plantation land near Sanford into a thriving and pleasant estate community where over 700 families are now enjoying beautiful tropical homes. A large number of retired people.

Cub Scout Pack 34 Has Day At Camp

Cub Scout Pack 34 of Sanford enjoyed a day at Camp La Noche, the Boy Scout Camp of Central Florida, in Lake County, Saturday.

The Cubs, with Scouters Bill Tidney Vihlen, Kenneth Dixon, John Mann, Clifford McKibbin and Dan Dad II. P. Goodspeed, left the First Methodist Church at 8:45 a. m. in a school bus secured for the day by Randall Chase. The families of many of the boys followed in cars to the camp. The group enjoyed swimming in Lake Noche and lunch which was prepared by the den mothers and their assistants. The food was prepared and furnished by each boy's parents and soft drinks, fruit and ice cream were donated by Mr. and Mrs. Randall Chase.

After the picnic lunch, the Cubs received their awards at the camp's outdoor council site. Those presented awards by Committee Chairman W. F. Doolen were: Den One—one year Service Stars, Donald Lamb and Randall Rogers; Den Three—A Silver Arrow to Barry Barks; Den Five—Wolf Badges to Bob Henderson and Wayne Kelly; Gold and Silver Arrows to Larry D'Amico and David Lanier; Gold Arrow and Assistant Denner Stripe to Glen Chorpensing, Den Seven—Silver Arrows to Vincent Atkinson, Gary Breckenridge and Glen Gray; Gold Arrow to Larry Singletary; and a Gold and Silver Arrow to Phillip Goodspeed; Den Nine—Wolf Badge to Thomas McClain and a Gold Arrow to Pepper Smith; and Den 11—Gold and Silver Arrows to Gerald Meyers; Denner Stripe to Stephen Davis; and Denner and Assistant Denner Stripes to William Thomas.

Den Mothers' pins were then awarded to Mrs. R. P. Goodspeed of Den Seven and to Mrs. William Thomas of Den 11.

Scouter John Mann was inducted as Den Chief of Den Nine by Cubmaster Jim Grant. Pack 34 was then presented with its Charter and the Scout membership cards for 1956, by Central Florida Scout Field Executive, Howard T. Smith, of Leesburg.

The boys were then dismissed for a last swim before boarding the bus for the return to Sanford.

Court House, Banks To Close Tomorrow

The Seminole County Court House will be closed all day tomorrow in observance of Memorial Day.

The banks of Sanford will also be closed for the holiday.

City Takes First Step In Granting Franchise

OFFICIALS OF THE FLORIDA POWER AND LIGHT COMPANY talking over with City officials some points of the ordinance granting a 30-year franchise. Robert F. Fils, president of FP&L with back to camera, H. H. Coleman, Division manager and A. B. Wright, vice-president, talking with Commissioner David Gatchel and City Manager Warren Knowles. (Staff Photo)

Officials Hear Ordinance

The City of Sanford, last night, took the first step in granting the Florida Power and Light Company a 30-year franchise.

The first reading of an ordinance granting the franchise was read following a preliminary discussion with Robert F. Fils, president of the widespread power organization, A. B. Wright, vice-president of the company, and H. H. Coleman, Division Manager.

Second reading of the ordinance will take place at the first meeting of the Board of Sanford City Commissioners in June.

The ordinance stipulated that the City will receive six per cent of the gross receipts from power sold to residents and commercial users within the limits of the City of Sanford. Estimate of the first year's revenue has been set at approximately \$23,000.

However, other factors enter into the agreement reached last night between the Board of City Commissioners and officials of the Florida Power and Light Company.

Fils, president of the company stated "Due to the fact that the people of Sanford voted for a franchise in 1950, Florida Power and Light Company would pay \$75,000 over and above the amount of the first payment to the City." It was estimated last night that the first check received by the City of Sanford would come to \$107,000.

The motion to put the ordinance on first reading before the commissioners was made by Committee Chairman Earl Higginbotham and seconded by Commissioner A. E. Wilson. Vote on the motion was unanimous in favor of the first reading.

One of the stipulations of the contract with the City requires that the Florida Power and Light Company purchase the present electric motors at the Municipal Water plant for \$10,000 with which the City would purchase new equipment. Standby Diesel operated equipment would be leased by the power organization for emergency use only.

Final reading of the ordinance for passage will take place on June 11, at 8 p. m. at the next regular meeting of the Board of City Commissioners at which time the Florida Power and Light Company officials will be on hand when the franchise is granted.

The meeting will be an open one at which time citizens can voice their opinions of the impending franchise that will bring the City of Sanford an annual income from the agreement of upward of the \$32,000, which was estimated as the first year's revenue for the city.

The franchise would be accepted by the Florida Power and Light Company, said Fils, 30 days after the final reading of the ordinance next month.

Savings Bond Is One Of America's Success Stories

On May 1, 1941 the first Series E United States Savings Bond was issued. Since that date it has become one of the all-time great American success stories. This month the Treasury is celebrating the 15th Anniversary of that blessed event and has released some figures to point out just how successful the bond has been.

May 1st this year, there were \$17,815,223,212.72 (present value) of them outstanding in the ownership of some forty million separate individuals.

The white heat of World War II and the defense preparation which preceded it stimulated the purchase of more than \$17 billion worth of them and despite the fact that every one of those has passed its original maturity date which would have been December 31, 1955, there are still outstanding \$17,815,223,212.72 (present value) of them earning over more interest under the 10 year extension privilege which Congress granted in 1951.

The widely predicted stamped to cash War Bonds at the close of hostilities never occurred and in the years since 1945, the American people have bought an added \$43 billion worth, and since the first one issued have cashed and spent for all sorts of long sought benefits, — some \$2.8 billion of new cars, college educations, homes, farms, business ventures, vacations, retirement comforts and still own \$37.8 billion more of the bonds.

In 1952 the Treasury introduced a new series of Savings Bonds for the older investor who wants to collect his interest income currently. Closely resembling the E Bond in other respects, people have bought more than \$3 billion of them and on May 1st held \$2,913,263,000 of those as well, to make a total of nearly \$40 1/2 billions of these two bonds which the public holds.

8 Charities Receive Checks From NAS Drive

Checks amounting to almost \$4,000 were presented to representatives of eight different charities in ceremonies held aboard Sanford Naval Air Station, Monday.

Representatives from the American Red Cross, March of Dimes, United Services Organization, American Cancer Society, Sanford Public Health Association, Sanford Children's Hospital, Sanford County Tuberculosis and Health Association, and the Salvation Army, each received checks from Captain Robert W. Jackson, USN, Commanding Officer of Sanford Naval Air Station.

The presentation of the checks to the different charities climaxed the 1956 Combined Charities Drive of Station, Military, Civilian, and Fleet personnel of Sanford Naval Air Station, in which each person participating donated a day's pay.

Thirteen other charities will receive checks as a result of the drive.

Miss Allyson Lee Entertains Rotary With Piano Recital

Members of the Sanford Rotary Club at its regular weekly meeting yesterday at the Yacht Club enjoyed to the utmost a piano recital by Little Miss Allyson Lee, 11-year-old daughter of Mr. and Mrs. John L. Lee of 1108 Park Ave.

The little pianist, playing with the concentration and technique worthy of one twice her years, offered a varied group of solos, all played from memory, as are all the numbers in her extensive repertoire. Her selections were—"La Pavillone" (The Butterfly) by Lavigne; Medley of Two Hymns, Sweet Hour of Prayer and The Lord's Prayer; Chopin's "Fantasia Impromptu" and "No. 1" by Zes Confrey. For an encore, Miss Lee played "Humble Boogie" by Jack Finn and was accorded an ovation by the large group of Rotarians, many of whom were very profuse in their praise for the artist and predictions for a bright musical future.

The program was in charge of Charlie Morrison who introduced the little performer and her father, well-known local railroad man. President William (Bill) Bush expressed the thanks of the club for the fine program Allyson presented and also thanked the Food Committee for the fine provisions on the boat-trip last week.

Three new members were presented to the club and will be inducted, formally, later. They were: Thomas S. McDonald, abstractor; John A. Burton, architect and W. V. Roberts, M. D., Cardiologist.

FRA To Sponsor Memorial Day Service Tomorrow

Memorial Day services will be held aboard the U.S. Naval Air Station at Lake Golden, Wednesday, May 30, at 11 a.m. sponsored by the Fleet Reserve Association, Branch 147.

The guest speakers will be Captain J. T. Blackburn, Captain Robert W. Jackson, Lieutenant General (retired) J. C. Hutchison, and Senator Douglas Stenstrom, Mayor F. D. Scott, J. Bralley Oldham, George Touhy, and Forrest Breckenridge.

The public is cordially invited to attend.

Refreshments will be served.

Election Party Starts At 7 p. m.

Election returns will be heard tonight at The Sanford Herald on West First St. beginning at approximately 7 p. m.

Early returns are expected from all of the precincts in Seminole County. Voting machines are being used throughout the county with the exception of the four smaller precincts.

Returns from the local elections will be heard over a public address system installed in the front of The Sanford Herald office.

Polls will remain open until 7 p. m. tonight and returns are expected to begin coming in immediately after.

—Voting in the Seminole County elections and runoff primary has been fairly light during the morning. However, there is expected a heavier voting in the afternoon and evening hours.

LITTLE MISS ALLYSON LEE
