

# THE TOY WIFE

**BERTRUDE GELBIN**  
**RESUME**  
 Gilbert and Louise Briggs, who have grown up in France, come home to live at their father's plantation in pre-Civil War Louisiana. Gilbert is called Froufrou by everyone; she is known, delightfully, childlike, as the little girl who will dance and sing her songs. And Louise, young and lovely, is called Madame de Cambri. Louise has loved since childhood, and she falls in love with Georges, a young lawyer whose name she has loved since childhood. Louise is not Louise's feeling for him, begs her to help him in his courtship of her sister. Louise urges Froufrou to marry Georges, and Froufrou, who has been in love with Georges since she was a girl, accepts Mrs. Andre upon learning the news, goes away.

## Chapter Five

### MADAME SARTORIS

The toy shop proprietor beamed at Froufrou's delight in the miniature merry-go-round. What a charming customer she was! Froufrou tilted to her elderly companion, "Madame de Cambri," she cried— "Just see how it works!" "Madame, it is lovely," Froufrou clapped her hands in childish excitement as the toy whirled round to the tinkles of a music box.

### MADAME SARTORIS

"What name, spoken with glad surprise, made Froufrou turn swiftly toward the United States?" she exclaimed. "When did you get back from France?" "This morning," she smiled. He looked at her with indignantly. "You heard you had decided to live in Paris?" Froufrou said: "I did. Then, one day I decided

which-way in his house, Mahabala. "Misya's too nice. Dat's all dat's wrong here. Georges nodding thoughtfully, then waved her away. He mounted the stairs toward his wife's room. A burst of laughter and shouts of joy greeted him as he entered. His son ran up to him with a happy smile.

"He picked up the child and held him close. This child's feet are like ice, Gilbert, he said gravely. "But him in bed with me," she laughed. "They'll get warm." "He should have been dressed and had his breakfast an hour ago!" Froufrou clapped her hands as she saw. "Don't scold." She covered her face with a pillow and peeked out at him from underneath it. "I won't listen," she warned. "I'm sitting beside her. "Oh, yes you will," he smiled. "There are a lot of things I'm going to say to you." He rang for Dick to take him, the child clung to his neck, ruffling her hair and kissing her face. Eventually Froufrou persuaded little Georges to leave.

"Then sell them and buy good ones," she answered sardoniously. "They're spoiled just as quickly. Then—about Georges—" She looked up at him indignantly. "You're going to accuse me of neglecting Georges?" "No," he smiled. "His nose was

## 2000 Cattle Are Sold At Opening Auction

KISSIMMEE, June 11—Upward of 2000 head of livestock were auctioned at the initial sale of the Kissimmee livestock market opening here yesterday afternoon. P. E. Williams of Davenport drew top prices for veal calves with a price of \$7.25 per 100 pounds.

A car of feeder steers entered by Williams brought \$6.35 per 100 pounds. The first sale was a carload of mixed breed calves entered by young Pat Johnson of Kissimmee which brought \$6.25. Two carloads of hogs averaged \$7.50.

## Condition Of Orange Crop Below Last Year

WASHINGTON, June 11—(AP)—The crop reporting board said today the June 1 condition of oranges from the 1933 bloom in California and Florida was below a year ago and also below the 10-year (1927-36) average. The condition of grapefruit in those states was reported to be well above that of a year ago, while California lemons were above and Florida limes below their respective condition marks of June 1, 1932.

**GRIEF-STRICKEN FAMILY AT 'SKEEGIE'S' FUNERAL**—Weeping, and with heads bowed with grief, some of the 40 members of the "Skeegie" family are shown as they attended the little kidnap victim's funeral in Homestead, Fla. The first man at left seated before the casket is the grief-stricken father, James Bailey Cash, Sr. Next to him, from left to right, are Mrs. Cash; her sister, Wilcox P. Cash, uncle of the dead boy, and his wife. Delivering the funeral service at the head of the casket is Rev. Everett S. Smith of the First Christian Church. It was during this funeral service that FBI Chief J. Edgar Hoover announced he had received a complete confession to the crime from Franklin Pierce McCall, 21-year-old truck driver.

**SKEEGIE'S PARENTS ATTEND FUNERAL**—With a nurse attending his mother, the parents of James Bailey (Skeegie) Cash, Jr., victim of kidnaping, here attend funeral rites at Homestead, Fla. The 5-year-old boy, snatched from his home at Princeton, Fla., later was found dead; Franklin Pierce McCall, 21-year-old truck driver, confessed to planning and carrying out the kidnaping, FBI Chief J. Edgar Hoover announced. McCall is held at Miami.

## Congress To Close Shop By Next Week

### Will Adjourn Wednesday Without Enacting Legislation To Benefit Railroads

### Wage-Hour Bill Only Thing Left

### Compromise On Measure Is Victory For Southern Segment

WASHINGTON, June 12 (AP)—Senate Leader Barkley (D-Ky.) told reporters after a conference with President Roosevelt today that Congress would adjourn Wednesday without enacting "any new" railroad legislation.

The Democratic leader specifically that a bill to stabilize reconstruction loans to railroads was not on the program to be completed before Congress adjourns.

The measure was once reported to the Senate by the banking committee but was sent back to the committee when the railroad proposed a 15 percent wage cut.

Abandonment of the railroad legislation left only the wage-hour bill as the key to adjournment.

Senate and House conferees yesterday ended a long deadlock over the controversial wage-hour bill by agreeing to a flexible measure designed to establish a 40-hour maximum work week and a 40-cent-a-hour minimum wage in industry within seven years.

The compromise, which will be reported in both houses Tuesday for final enactment, was a significant victory for rebellious Southern Democrats who had threatened to filibuster if their industries did not receive preferential treatment.

It also was a triumph for President Roosevelt and John L. Lewis of the CIO. Mr. Roosevelt made the bill the keystone of his social reform program. He has been demanding passage for two years.

Lewis wanted it as an opening wedge in future anti-labor labor legislation. President Hoover of the AFL opposes most of the provisions.

The new measure specifically exempts executives, professional men, local retail establishments, salesmen, servicing trades in industry.

## Future Farmers To Leave Tuesday For State Convention

Members of the Seminole Chapter of Future Farmers of America leave early tomorrow for the annual two-day state convention at Gainesville. Adviser Alex R. Johnson stated today.

The local chapter will enter a parliamentary procedure team in the state competition representing this district and Mr. Johnson declared that a livestock judging team will also be entered in the state-wide contest.

During the convention the Sanford Chapter will be awarded the sterling trophy won in the contest last year as the best Future Farmer Chapter in the state. Kenneth Gustafson will also be presented \$10 as the first place winner in the state essay contest.

While attending the convention, the local chapter members will be quartered at the State Forestry Camp near High Springs.

Mr. Johnson requested that all the boys, who plan to attend the convention, meet in the Chapter room at the high school tonight at 8:00 o'clock for a short meeting. Until this meeting it will not be definitely known who will attend the convention.

## Joe Hendricks To Attend St. Johns Association Meet

Congressman Joe Hendricks has accepted an invitation to attend the annual meeting of the St. Johns River Improvement Association to be held in the Seminole County Chamber of Commerce building tomorrow afternoon at 2:00 o'clock and although pressing engagements at the Capital may make it necessary for him to fly to Washington before the proposed adjournment Wednesday, local Chamber of Commerce officials expect his attendance at the meeting.

The primary purpose of the meeting will be to consider important developments in the proposed St. Johns Indian River canal, according to a statement secretary of the association, Ralph Bagwell.

George W. Gibbs of Jacksonville, president, will preside over the meeting during which officers will be elected for the coming year.

Officials of chambers of commerce, association members and others from leading citrus and counties in the St. Johns River Valley are expected to gather for the meeting tomorrow afternoon.

Registering the proposed canal, Mr. Bagwell asserted that there is no objection in the St. Johns River Valley which should be more interested in securing this project than Seminole County.

He urged all local members of the association to attend the meeting.

## Film To Be Shown At C Of C Board Meet

Karl Lehmann, secretary of the Lake County Chamber of Commerce, will give an advance showing of colored motion pictures tomorrow night at the Seminole County Chamber of Commerce Board of Directors' monthly meeting, Secretary Ralph Bagwell announced today.

Included in the film are shots taken in Seminole County as well as other Central Florida scenes. Mr. Lehmann recently took over 100 feet in colored film of animals at the Municipal Zoo.

Mr. Bagwell said the public is cordially invited to attend all meetings of the Board of Directors, declaring that they are not for Board members only.

## Grand Jury Is Empaneled To Hear Evidence

### Witnesses In Kidnap Case Will Testify Against McCall In Afternoon Session

MIAMI, June 12 (AP)—A special grand jury was empaneled today to hear federal agents and other witnesses present evidence against Franklin Pierce McCall in connection with the kidnaping of James Bailey Cash Jr.

After viewing an automobile dealer, Arthur J. Lingard, furnished the jury received until 2:00 P. M. to give the state attorney an opportunity to marshal witnesses.

Circuit Judge H. F. Atkinson, in his charge, made no specific reference to the kidnaping, telling the jurors they were to consider such minor felonies as have been committed, and "which may be brought to your attention by the State Attorney."

An uncle of McCall, whose name was not learned, arrived from Jasper, Fla., to visit him. He was the first visitor the 21-year-old truck driver has had since he was jailed last week after allegedly confessing the single-handed abduction of "Skeg" Cash whose body was found early Thursday.

Meanwhile the sandy-haired, husky youth maintained a sullen silence in his bare cell high in Dade county's 39th floor jail.

He refused to speak to news personnel or pose for photographs, saying "There has been enough publicity the sooner this is forgotten, the better."

McCall, son of a Nashvilles minister, has spent most of the time since Friday, when he was transferred to the county jail from headquarters of the Federal Bureau of Investigation, reading a Bible and magazine which were supplied to him by Sheriff D. C. Coleman.

The first legal step in the plan to send McCall to the electric chair for the seventh major child abduction since 1932 was made yesterday at Homestead, 15 miles south of Princeton, where the 10-year-old Cash boy was stolen from his crib the night of May 28.

A six-man coroner's jury decided after a brief hearing at which James H. Cash Sr., the victim's father, testified, that "James Bailey Cash Jr. came to his death at the hands of Franklin Pierce McCall."

McCall, in a nine-page confession to head G. Man J. Edgar Hoover, admitted that he was solely responsible for the crime. He admitted kidnaping the boy, but he had not intended killing him.

A 24-hour duty outside McCall's cell to prevent any attempt at suicide. The prisoner's shoelaces, belt and tie have been taken away.

## Post Officials Urge All Foreign War Vets To Attend Free Supper Tonight

Officials of the recently organized local post of Veterans of Foreign Wars today extended an invitation to all eligible veterans to attend the free supper and business meeting, the first since the post was organized, which will be held in the American Legion Hut tonight. Officials of out-of-town veterans have been invited as guests.

The veterans of Foreign Wars was founded Sept. 23, 1899, at Columbus, Ohio by a group of 13 Spanish-American War veterans whose desire was to perpetuate the comradeship and patriotic ideals of their overseas service. This was the nucleus from which has sprung the organization of today which ranks high among the five major organizations of veterans which are chartered by the Congress of the United States.

The organization at present is comprised of more than 3700 units in cities and towns in every state as well as the Philippines, Alaska, Cuba, France, the Canal Zone and elsewhere. Membership in this organization is not confined to veterans of any one war but includes veterans of any combat fought on other than United States soil.

The organization is continually fighting for the benefit of its members and their families, officials stated, and every worthy while cause receives its fullest support. Among major legislative goals of the parents of overseas veterans, "jobs or pensions" for all veterans, promotion and protection of Americanism and "Keeping America out of war" by means of strict neutrality policies, government control of munitions, an adequate national defense and the "de-profiting of war through graduated tax schedules."

**OLD TEACHER**

She has been teaching now for  
thirty years—  
Has watched each passing genera-  
tion grow  
And leave her and go on to high  
careers  
That she will never know.

When they come back she sees  
them children yet,  
And smiles to think that others  
call them men.

Who once were bothered by the  
alphabet;  
She smiles at them again,  
And never wonders that the  
world is strange.

And silly now and then, and full  
of noise;  
She understands how anything will  
change  
When run by little boys.

Many parts of Europe have been  
rocked by earthquakes during the  
last few days. But we wonder if  
Hitler's a relief from the crum-  
plings of Mussolini and Hitler.

Bible says the Musendim Pen-  
insula at the entrance to the  
Persian Gulf is the hottest place  
on earth. We'll take that bet,  
for, after a day at the beach yes-  
terday, we know the hottest  
place is just above our shoulder  
blades.

If a bill collector calls on you,  
don't greet him with a smile,  
look gloomy and offended and  
then abuse him and his boss. If  
you treat him courteously and  
explain that you will pay just as  
soon as you possibly can, he  
might fall over dead from the  
shock.

Americans believe the English-  
man doesn't have a sense of hu-  
mor, yet we all die laughing at  
the comedy of Charlie Chaplin,  
Edward Everett Horton, Eric  
Blone, and Beatrice Lillie, to men-  
tion a few of the mirth provokers  
who come from the other side of  
the Atlantic.

Some idea of the difficult en-  
gineering problems which have to  
be solved by the designers of guns  
for the army may be gained by the  
statement that "to stop the three-  
shotter in recoil is the same as  
stopping a heavy passenger auto-  
mobile going 240 miles an hour in  
25 inches.

Rudolf Hess, Adolf Hitler's gen-  
eral representative, says Der  
Fuehrer alone is responsible for  
keeping the peace of Europe. But  
we have a suspicion that the 300-  
000 highly trained Czech troops  
along the border have played some  
part in making the Nazi  
chieflain so peace conscious.

The forces of democracy have  
won another victory in Russia.  
The Soviets have just held an  
election and the people were giv-  
ing a chance to vote. Of course,  
the candidates were all chosen by  
Stalin and there was no other  
choice, but after all, an election  
in Russia, even though it is a  
phony, is a step in one direction  
or another, if you get what we  
mean.

The Japanese Navy isn't so  
high and mighty yet that it can  
dictate the color of American nav-  
al vessels sailing on international  
waterways. Admiral Yamamoto has  
said the Nipponese that he will  
not paint his ships red, that  
"United States naval vessels  
throughout the Yangtze area are  
painted white with large Ameri-  
can flags upon their funnels, and  
for this reason the nationality of  
the vessels should be apparent to  
any visitor at several thousand  
yards.

**Make It Safe**

Although the Fourth of July is little less  
than a month away, it is not too early to point out some  
of the dangers always lurking among celebrators of this  
great occasion and to offer some suggestions looking  
toward a diminution of accidents.

Of course, we know of no commodity which has such  
a poor market as advice given to persons on how to protect  
themselves, especially children, and we feel that most peo-  
ple who read this will dismiss the whole thing with a  
shrug of a shoulder and the exclamation: "oh, well, they  
are just making a mountain out of mole hill."

But to those who will listen and who are interested in  
the facts we will point out that there were at least 20  
deaths and more than 7,000 reportable injuries resulting  
from accidents during the observance of the Fourth of  
July last year. This is a record which can't be laughed off  
and every serious minded person should realize that this  
record will probably be duplicated this year unless the  
public co-operates in combatting the menace.

Without doubt, highway accidents contributed a large  
share of the deaths and injuries and there isn't much we  
can say about this except to suggest the exercise of ex-  
traordinary vigilance when going abroad in the family car  
over the Fourth of July week-end, and remember that a  
portion of the drivers on the road will be celebrating Inde-  
pendence Day with a bottle of whiskey in one hand and a  
steering wheel in the other. Don't leave it up to the other  
fellow to protect you—he may be up in the clouds with  
John Barleycorn.

Fireworks, the proverbial accoutrement of the Fourth  
of July, will again claim its toll of blindness, mangled  
fingers, and death, unless the grown people see to it that  
pyrotechnic displays are well supervised and that children  
are not allowed to play with firecrackers indiscriminately.  
Don't always trust a cannon cracker to go off after you  
release it. It may have one of those fast-working fuses  
that will make the thing explode in your hand, taking  
away the best part of it.

Drownings always feature prominently in the casualty  
reports of holidays, and it might be advisable for the pub-  
lic to memorize some of the cardinal principles regarding  
swimming and boating activities. It isn't smart to go in  
the water just after eating a big dinner; it is wise to do  
your swimming where other people are close by; don't try  
to bow off by over-taxing your ability, disas-er always  
birds in the path of the smart-ale. When boating, keep  
an eye on the sky and don't let a sudden squall catch you  
in the middle of a lake with nothing more than a pair of  
oars to bring you home.

The Fourth of July is a great and joyous day and its  
observance can always be a happy one if the public will  
give a little thought to certain safeguards.

**Jolly Business!**

For as little as \$60 one may have his room in London  
"gas-proofed" against the greatly feared bombs which may  
fall from the sky in the next war. Word from Britain's  
capital tells of such protective efforts as gas masks, bomb  
proof shelters, and general exodus plans in a matter-of-  
fact manner emphasizing the calm with which the people  
have accepted the inevitable.

An article to American newspapers says: "Buying anti-  
gas equipment is now as easy as ordering an ice-cream  
freezer or telephoning for the interior decorators to paint  
and paper the living room."

"At least one large shop offers to gas-proof a room in  
a day, with less inconvenience to occupants than having  
the painters in for a Spring season.

"The shop has circularized its regular customers, of-  
fering the anti-gas system which has been adopted for  
Broadcasting House, headquarters of the British Broad-  
casting Corp. in London; Australia House offices of the  
Australasian government representatives here; Red Cross  
headquarters and many other public buildings.

"The equipment recommended for private dwellings  
includes:  
"A blanket shield reinforced with wire netting cover-  
ing the windows on the outside.  
"Hermetically-fitting detachable panels inside the  
windows.  
"Panels to cover the fireplace and any ventilators.  
"An air-lock outside the door.  
"Thorough caulking of all floorboards, radiator pipe  
holes, cracks in ceilings and walls.  
"Removable door fittings.  
"This equipment meets the requirements of the home  
office air raids precautions department. Not only will it  
make a room gas-proof, according to the sales letter, but  
it will protect the room from the effect of concussion or  
flying debris—if a bomb explodes in the immediate  
neighborhood."

Such details make us feel a little ashamed of ourselves  
for worrying about the difficulties confronting our own  
country, and they make us stop to consider how unpleasant  
things would be here if we had to plaster our homes with  
gas-proofing material besides mortgages.

**STRANGE AS IT SEEMS—By JOHN HIX**

For further proof address the author, enclosing a stamped envelope for reply. Reg. U. S. Pat. Off.

Made under the most trying circumstances, the run of the Far West, Missouri River steamboat, for 62 years has stood as a record along the Mississippi's greatest tributary.

The Far West in 1876 had been chartered by the government to carry supplies to a military expedition at the head of naviga- tion in the region of the Little Big Horn. The steamboat was in command of Captain Grant Marsh.

Unknown to the ship's officers, the terrible massacre of the Little Big Horn had just taken place; the immortal "last stand" of General Custer had ended in disaster.

Up the Missouri to the Yellow- stone, up the Yellowstone into the Big Horn and from there into the Little Big Horn returned the Far West. Never before had so far into the region his ship was moved after. No steamboat before has had any such so far.

Finally, shortly before arriv- ing, word of the tragedy reached Captain Marsh. Haring against great difficulties—treacherous snailshells, unnumbered snags and tortuous river bends—he plunged on through the wilderness.

His men cut grass along the river banks and improvised mat- tresses on the decks for the wounded men he would have to take back 1,000 miles to Bis- marck. Reaching the headwater, Marsh took on wood and his cargo of 52 wounded and dying men.

At daylight on June 30, 1876, he lifted anchor and began a race against death. The first 53 miles to the mouth of the Big Horn were covered without accident, sailing under full steam. There he was forced to lay over until July 3 to ferry General Gib- bon's wagon train over the river.

From there it was better than 900 miles to Bismarck. At 5:00 P. M. of the 3rd Captain Marsh again headed down stream. All night long the steamboat plunged through the darkness under full steam, an unheard of practice on so dangerous a route.

After two more stops, the Far West safely reached Bismarck at 11:00 P. M. of July 5, ending a 1,000-mile trip in 52 hours, a record that stands today.

Porter Hurts Reds To 11-3 Victory Over Lookouts

Veteran Allows Locals But Four Scattered Hits

Win Brown Gets Two Of Lookouts' Bingles; Reds Collect 11 Hits Off Pelham And Lovell During Contest

By JULIAN STENSTROM
CONRAD PARK, Deland, June 14—The Lookouts dropped another notch into the Florida State League cellar yesterday as they allowed the Deland Reds a 11 to 3 victory in a regular league battle.

Reds, Lookouts Tangle Tonight In Loop Battle

Either Eddie Harper Or Dick Morrison To Hurl For Reds

Manager Bill Rodgers started Pudge Pelham on the mound but he was knocked out in the second round when the Reds collected five hits for six runs. Rodgers replaced Pelham on the mound with Jack Lovell who finished the tilt. Pelham allowed two walks and failed to register a strikeout. Lovell allowed seven hits during the six and two third innings he hurled and gave up five runs.

The Lookouts started the scoring in the second frame but the Reds came back and collected six runs to put the tilt on ice. They collected another pair in the third and one in the sixth. The Lookouts gathered one in the seventh while the Reds were getting two. The Rodgers' outfit finished by securing a lone tally in the ninth.

Statistical table showing team performance for Sanford, Lookouts, and Deland.

Manager Harry Rice will bring his Deland Reds here tonight for a regular Florida State League battle with the Lookouts. Manager Rice has not announced his starting hurler but it will be either Eddie Harper or Dick Morrison. If Harper begins, it will be his initial starting assignment for the Reds since his return. If Morrison starts it will be his first attempt to set back his former mates. Morrison was with the Lookouts last season but due to an ailing right wing he was forced to retire.

The line-up for the Reds will include Newell in leftfield, Fu banks on second base, Shiner on shortstop, Rice in rightfield, Jackson behind the plate, James on first base, Bill Schmidt in centerfield, Rutledge on third base and Harper or Morrison on the mound. The line-up for the Lookouts will include Joe Ruggiero on third base, Eddie Davis on first base, Pete Mihalic in leftfield, Win Brown in centerfield, Don Contreras or Fred Holland behind the plate, Sid Hudson on Mayo Langston in rightfield, Cruthers or Louis Muson on second or shortstop and the starting hurler has not been named.

Buscher To Pilot Panama City Club

ORLANDO, June 14 Buscher, former manager of the Orlando Senators who in 1934 was a member of the Chattanooga Lookouts' training roster, today announced that he had been offered a job as manager of the Alabama-Florida League outfit. Buscher managed Orlando during the initial portion of the season but suffered difficulties in dealing with the front office. He was fired by P. M. Coffy, owner of the club, following Orlando's double victory over the Lookouts on June 4. Buscher stated that he was planning to take the case before Judge W. G. Bradham, czar of minor league baseball, where he will attempt to secure a full year's salary as provided in the contract.

Pete Mihalic And Eddy Gentry Lead Lookout Hitters

Cook With Six Wins And One Defeat Is Local Mound Star

Eddie Gentry and Pete Mihalic, second baseman and fielder for the Lookouts, continued to bat at a fast rate and set the pace for the Sanford aggregation during the past week. They were the only two men on the team to hit over .300 mark. Gentry is leading with an average of .367 for 11 games played while Mihalic has a .341 mark after taking part in 17 games.

By Chief Cook continued to lead the Lookout hurling corps in his own right which gives him an average of .527. Mihalic is running a close race with Jack D'Amico for the most doubles. Mihalic has piled up 12 on the far this season while D'Amico of the G-Men has 18. The bats of Deland are following the trend with a total of 19. During the week the Lookouts were batting average at the .29 mark, leading the tri-state. Statists by a scant three points margin. They are testing a eighth place in their hitting activities with an average of .321. With one third of the season over, Art Hardee of the Leesburg Goldfishes leads as this season's ace hurler. Hardee has chalked up 12 wins against three defeats to date.

Eddie Davis Signs Contract To Play For Sanford Nine

Official of the Seminole County Baseball Association yesterday announced the signing of Eddie Davis, giant first baseman who was with the Lookouts in 1935. It could not be learned today where Davis played last season but during the 1936 season, he was in the New York Penn League. He joined the Lookouts, then during the mid-season and hit .308. Davis played his first game with the Lookouts yesterday in Deland. He went to bat four times and secured one hit. He is left-handed and also bats left-handed. He stands six feet two and one half inches tall and weighs 190 pounds.

## Franklin McCall Pleads Guilty To Kidnaping Charge

### Youth Maintains Innocence Of Killing The Five-Year Old Lad He Seized

Jury Returns True Bill In Two Hours

Trial Will Probably Start Tomorrow Before Judge Atkinson

MIAMI, June 14.—(AP)—Franklin Pierce McCall pleaded guilty today to a charge of kidnaping James Huxley Cash, Jr., for ransom, a capital offense, and innocent to the charge of killing the five-year-old lad.

A special grand jury returned a true bill against the 21-year-old truck driver charging him with the kidnaping and slaying in less than two hours after State Attorney George A. Worley started presentation of evidence.

The witnesses included Cash, Sr., the victim's father, and federal agents who said McCall had signed a confession admitting he abducted the boy from his Princeton home May 28 for \$10,000 ransom.

Judge H. F. Atkinson who received the indictment and ordered McCall's immediate arraignment said he would appoint counsel to defend the prisoner and a date would be set for the trial.

Plans were made to start the trial tomorrow if a defense attorney can be assigned.

The first designated by Judge Atkinson declined to defend McCall and the second named was out of town.

The indictment contained one count of kidnaping for ransom and two counts of murder. One charged McCall killed the boy by "strangling, smothering and choking" him and the second that he caused the child's death "by means unknown."

Under the guard of 18 deputy sheriffs, McCall was brought from his cell to the courtroom to plead.

His face impassive, he mumbled his pleas in a whisper and replied listlessly, "I guess so" when Judge Atkinson asked him if he wanted an attorney to be assigned.

Worley left a sickbed to present the Cash kidnaping case to the grand jury. He is suffering from boils and was accompanied to the jury room by a nurse.

McCall, who allegedly confessed to the \$10,000 ransom abduction of James Bailey Cash, Jr., was said by a guard to have expressed a preference for the electric chair to life imprisonment.

McCall's hard jauntiness deserted him yesterday and he displayed signs of worry over the kidnaping and killing of Jimmy Cash.

## Liberalized Loans To Rails Okeyed By Senate Group

### Measure Expected To Be Passed In Higher Chamber Today

WASHINGTON, June 14.—(AP)—The Senate Banking Committee agreed today to report favorably on legislation liberalizing government loans to railroads. Leaders announced the measure probably would be passed in the Senate today.

Majority Leader Barkley of Kentucky announced President Roosevelt had "no objection" to the legislation.

The House Rules Committee pigeonholed the labor-sponsored bill to penalize government contractors who fail to observe decisions of the National Labor Relations Board or disregard stipulated wage-hour standards.

John L. Lewis, CIO chairman, yesterday appeared personally at the Capitol to lead the fight for the measure.

The seventy-fifth Congress today was almost ready to pass into history. Leaders yesterday struck a compromise on the \$3,755,000,000 spending-lending bill, designed to stimulate the nation's economic system.

The compromise on wage-hour standards reached by a Senate-House committee over the weekend, virtually disposed of the major jobs on the program for the last days of the session.

Several formalities, and odds and ends, remained to be cleaned up, but the administration leadership announced that the final bill would fall Wednesday night, barring unforeseen developments.

It had been previously decided at a White House conference that the problem of the railroads, many of which face financial difficulties in this time of depression, would be postponed until next session.

A few weeks ago, legislation to loosen up RFC loans to carriers was making good headway, but railroad labor unions, aroused by the carriers' proposal to cut wages 15 percent, registered strong opposition to the legislation, and it was sidetracked for a time.

Another proposal talked up during the session would facilitate the reorganization of roads in difficulties, but Senator Wheeler, Democrat, Montana, chairman of the Senate Interstate Commerce Commission, expressed a belief that insufficient time remained to put through such a major bill.

## Exams To Be Held For Civil Service Posts

The United States Civil Service Commission has announced open competitive examinations for the positions of public health nurse, graduate nurse, nurse technician and assistant gardener.

The public health nurse receives a salary of \$2,500 a year; graduate nurse for general staff duty, \$1,800 a year; nurse technician, \$1,300 a year. These salaries are subject to a 1.5 percent deduction for retirement and further deductions will be made for quarters, fuel, light and other services when furnished by the government. Certain education and experience are required, varying with each position, and applicants must not have reached their fortieth birthday.

The assistant gardener will receive a salary of \$1,500 a year from the Bureau of Plant Industry, Department of Agriculture. Competitions will be held on the subject of practical questions pertinent to the duties of the position. Two years full-time paid experience in the care of trees, shrubbery, lawns, flower-beds, and greenhouse plants, including at least six months greenhouse experience, are required. Applicants must not have passed their fiftieth birthday.

For further information, see M. L. Wright at the local Post Office.

## Dope Ring 'King Pin'

Federal agents in Chicago seized the prisoner, identified as George O. Roberts, whom the officers described as the "king pin" of a narcotics ring. Drugs and equipment estimated to be worth \$150,000 were seized.

## Highlyman Gives Steps In Securing Loans For Homes

Chief speaker at the Jaycee weekly luncheon at the Valdez Hotel was S. D. Highlyman who outlined the steps necessary to secure loans from the government housing authority.

Mr. Highlyman said that with the building boom which has swept the country since the government made available the building industry is hard put to keep in step with the demand for building materials.

J. E. Rowland, Jr., president of the club said that due to insufficient data the fishing trip the club had planned would have to be put off another week. It was planned to charter a boat at Daytona Beach and go out for a day's fishing Sunday.

Mr. Rowland appointed a committee to make all arrangements for the fishing trip and asked for a report at the next meeting. Those appointed were: E. E. Laney, Eddie Kirchhoff and M. I. Raborn.

Statewide committees were appointed at this session. Appointed as state directors were J. E. Rowland and E. E. Laney.

As a standing committee on Indian affairs Roy Williamson was appointed. Andrew Carraway was appointed on the public safety and welfare committee, while Joe Davis was appointed to the advertising committee.

John H. Ivey was appointed to the aviation committee. H. L. Raborn was appointed to handle the Pan-American affairs, while on the "Get out the vote" committee, H. N. Nipper was appointed. A. L. Collins was appointed to the program and policy committee while Clyde Hughey was appointed to the Florida sugar committee. H. A. Haynes was appointed to the conservation committee. Gordon Barnett was appointed to the education committee.

## Junior Chamber Postpones Fishing Trip To Coast For Week

The matter of permitting rummage sales on Sanford Avenue again came before the Commissioners. At the last meeting a petition was presented asking the Commission to prohibit rummage sales in competition with regularly licensed merchants. The Commission instructed Mr. Lamson to handle the matter of rummage sales and to designate the days when certain organizations could hold such sales.

Upon the recommendation of Police Chief Roy G. Williams the Commission passed a motion to install a traffic light at the intersection of French Avenue and Seminole Boulevard with a neon light to direct trucks down (Continued on Page Three)

## Commissioners Okey Purchase Of Park Shell

The City Commissioners last night authorized Frank S. Lamson to make arrangements for buying the necessary quantity of DeLeon Springs shell to be used on 60,000 square feet of walkway on the new Fort Mellon Park.

At the regular semi-monthly meeting of the City Commissioners, City Engineer Fred T. Williams told commissioners that DeLeon Springs shell was much better for use in walks than small shells or any other kind. Commissioner Walter Colburn suggested that cement walks might be better than the shell material as they would be permanent and would not require any care after they were once laid down.

Mr. Williams pointed out the cement walk would cost a great deal more than the shell walk and, after due consideration, the Commission decided to authorize the purchase of the DeLeon shell.

A motion was passed to pay \$200 for a deal to four and one-half acres of muckland in Rose Court now owned by D. L. Thigpen.

## Interest On State Unemployed Fund Totals \$300 Daily

The State "jobless fund" is drawing interest at the rate of three hundred dollars a day, according to information released by Harold C. Wall, Director of the State Unemployment Compensation Division.

"In addition to the contributions from employers which is accumulating in the Treasury of the United States for the payment of benefits to involuntarily unemployed Florida workers starting in January of next year, the State "jobless fund" is increasing more than "three hundred dollars" a day through the interest the Federal Government is paying into the fund," Wall stated. "As soon as contributions to the fund are collected they are transferred to the Treasurer of the United States where they are invested in Government or State approved bonds and the interest derived from these governmental obligations is also credited to the State fund which can be used only for the payment of benefits to eligible unemployed Florida workers starting next January."

"We are expecting to receive notice any day that the million and a half dollars coming to the State from 1936 taxes collected by the Federal Government has been credited to the State. With this credit the State "jobless fund" will amount to over seven million dollars and will draw in interest more than four hundred dollars a day."

"This fund will protect an estimated 300,000 workers in various industries in the State from loss of the necessities of life when they become unemployed through no fault of their own," Wall explained. "Employers paying contributions to the State fund have already reported more than a quarter of a million workers on their pay rolls and before benefits are payable we confidently expect to have 300,000 Florida workers protected by the State Unemployment Compensation Law."

## Pay Prospects For Teachers Good In South

The weekly meeting of the Teachers of the World will be held in the American Legion Hotel tonight at 8:00 o'clock.

The National Foreign Workers Union of the American Legion Hotel last night for a supper and the first meeting since its reorganization.

The regular luncheon of the Kiwanis Club has been suspended with tomorrow because of the heat course down the St. Johns River Thursday evening.

Arthur Brannan, Boy Scout Commissioner for Seminole County, announced today that the special Honor Court will be held at the Junior High School next Monday night, June 20, at 8:00 o'clock.

The monthly meeting of the Board of Directors of the Seminole County Chamber of Commerce will be held in the Chamber building tonight. Secretary Ralph Haggwell remained today.

The St. Johns River Improvement Association met this afternoon at the Chamber of Commerce building to discuss important new developments that have arisen in connection with the proposed St. John Indian River canal.

State governments in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi and Tennessee poured about \$62,000,000 into approximately 110,000 teachers' purses for 1934-1935. This was in addition to undetermined expenditures by local governments.

Florida completes its state appropriation of \$14,298,981 by borrowing \$574,000 from other treasury funds, although some counties have not paid their teachers in full from local taxation. Florida's expenditure, more than twice its 1933 outlay, was slightly above last year.

Alabama, which led the six other states by distributing \$13,015,873, made a provision for an increase of about two percent in increased revenue. Its 1933-1934 instructors were paid in full for the first time since 1932.

Louisiana is paying parish school boards \$1,500,000 more this year than last and some boards are expected to use part of the money to increase teachers' salaries.

## New Campaign Begun For Marketing Pact

LAKE LAND, June 14.—The Florida Citrus Growers Committee of Eleven launched a new campaign here yesterday to obtain a Federal marketing agreement for the State's fruit industry.

A. F. Pickard of Lakeland said the committee decided not to start drafting a proposed pact until various county groups now being organized are ready to meet with the growers.

Pickard said county agents in citrus producing sections were forming organizations which will name representatives to meet with the committee.

The industry operated without Federal regulation last season. Several proposed pacts were drafted but various groups failed to agree on control methods.

## SPECIAL GRAND JURY TO HEAR KIDNAPING CASE

The special grand jury empaneled to consider evidence against Franklin Pierce McCall, accused of kidnaping little Jimmy Cash, is shown listening to the charge of Circuit Judge H. F. Atkinson in the court room at Miami. The man standing at the jury foreman Arthur A. Unger, an automobile dealer.

## Survey Reveals Educational Systems In Good Condition

By Associated Press

Public school teachers of the South have a right to enjoy their vacations because—

Substantial systems in most southern states are in better or proved positions to face improved prospects next year, an Associated Press survey showed today. All state school appropriations have been paid and only scattered local government laggard in payment of teachers' salaries.

The reports ranged from Mississippi's teachers' better off than in six years' to Alabama and Georgia's first full payment in several years for this early in the summer. Increased salaries were predicted in several states.

State governments in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi and Tennessee poured about \$62,000,000 into approximately 110,000 teachers' purses for 1934-1935. This was in addition to undetermined expenditures by local governments.

## Counterfeit Bills Passed At Palmetto

HAWKENTON, June 14.—(AP)—Sheriff P. J. Hutchins and officers were searching yesterday for two men reported to have passed several counterfeit five dollar bills at Palmetto yesterday.

One of the bills was passed at a bakery, two at a drug store and two at a restaurant, the sheriff said. The restaurant proprietor described one of the men as a tall blond with curly hair and the other as short with dark hair and weighing about 200 pounds.

## WPA Laborer Beating Probed By Officers

HAWKENTON, June 14.—(AP)—Officers investigated yesterday the severe beating of George Brannan, 19-year-old WPA worker, who reported his assailants threw him into a water-filled phosphate pit west of here Sunday and left him for dead.

Deputy Sheriff Morris Langford said Branch related the water revived him and he was able to make his way to a nearby residence. Branch's face was badly beaten and his throat gashed, the officers declared.

Langford said Branch charged he was doped and was unable to identify his assailants.

## Lions Request \$200 From City For Advertising

A delegation from the Lions Club appeared before the City Commission last night and requested \$200 to enable delegates of the local club to advertise Sanford and Seminole County on their trip to the annual convention of International Lions Clubs to be held in Oakland, California, the middle of next month.

President C. E. Adams of the Lions Club introduced Mildred Conklin, of Daytona Beach, district governor of Florida Lions, to members of the Commission and requested permission for 10 delegates in which to explain the Lions motive and to be charged next year and their plans for the trip to Oakland this year.

Mr. Conklin told the Commissioners that the motive was a great success in advertising the state as a whole and individual communities in particular. He explained that the Lions will have a special train to Oakland and that each delegation will take tokens and favors advertising their communities and they would give them away enroute and at the convention where 15,000 are expected to attend.

He also told of the colorful costumes the Florida delegation wore to Chicago last year, pointing out that the orange sun helmets attracted a great deal of attention. This year, he said, the official uniform of the Florida delegation in addition to the colorful sun helmets, will be the gaudy clown costumes. This in itself, he declared, should attract a great deal of interest to Florida.

Mr. Conklin stated that the Lions Club was not seeking funds merely to finance the delegates' trip but to advertise Sanford and Seminole County.

He said that Daytona would send 25,000 miniature bags of sand to be given away as souvenirs, that Tarpon Springs would give away 25,000 Tarpon scales with the name Florida on them, that Plant City would give away 25,000 artificial strawberries. Many other cities, he stated, are also planning to give away appropriate souvenirs.

Mr. Adams declared that if the Commission provided the necessary funds that a program had already been partly worked out with County Agent C. R. Dawson for distribution of celery recipe pamphlets which have been prepared under his direction.

Members of the Commission praised the Lions Club for their initiative in attempting to put through such a program but explained that the Commission had no money budgeted for an advertising program inasmuch as the Chamber of Commerce. The Commission suggested that the Lions request aid of the Chamber of Commerce.

## Flood Waters In China Halt Jap Advances

Catastrophe Is Feared In Inundated Areas; Insurgents Continue Drive Upon Valencia

French Decree Enlarges Army

Parliament Is Intent Upon Hearing Plans Of Prime Minister

The Spanish insurgents' drive on Valencia carried them five miles past the captured Castellon de la Plana today while in China Japanese advance along the Lung-chai railway was halted by the flood waters of the Yellow River.

Two hundred columns seized control in night. Other columns advanced north of Valencia and drove on down the coast to Sagunto.

The war in Italy at the Miraflores where a government troop holding on to hold the advance and cause difficulties could be completed soon.

The Japanese advance along the Lung-chai railway was halted by the flood waters of the Yellow River.

In China, Japanese families with the Yellow River crossed one of the greatest cities in the history would result from the flood which already has inundated numerous villages.

The Japanese advance on Chung-chow not only was halted, but Chinese said the invaders had been forced to withdraw as far as Kaching, 15 miles east of Chung-chow.

As a result of that setback Japanese were concentrating on a combined land and naval campaign on the Yangtze River toward Hankow.

The French government, pushing a defense program in the midst of the troubled European situation, announced it had adopted a decree increasing the number of officers and enlisted men.
