

# BIG HEARTED PEOPLE GIVE MORE AND MORE TO RED CROSS FUND

## RALLY LAST NIGHT SHOWED SEMINOLE NEAR THE THREE THOUSAND MARK

Never have the big hearted people of Seminole county responded so liberally to a good cause as they have in the past two weeks in the campaign for funds for the Red Cross. The real work of the campaign was completed Saturday night but many donations filtered in yesterday and it was announced that the campaign would really close with the big rally at the band stand in the Central Park last night and a big crowd was out to hear the results.

Dr. T. A. Neal, chairman of Seminole branch of the Red Cross presided and after some stirring airs from the Sanford band started the meeting by calling upon R. J. Holly for the topic, "Our Boys," Geo. G. Herring on "The Duty We Owe Our Allies" and Dr. Geo. Hyman on "The Activities of the Red Cross at the Front." The speakers were well received and their remarks were confined to about fifteen minutes each interspersed with selections from the band.

The roll call of the heads of the committees brought out much merit from the various captains and from the audience, as the good natured rivalry between those engaged in collecting the money was exhibited in their remarks about how they obtained the money and put one over on the rival teams at the same time.

Captain Schelle Maines reported for No. 1 the sum of \$361.35.

Capt. A. D. Parrish reported \$148.58

Father O'Riordan reported \$98.22

Capt. E. E. Brady reported \$102.00

L. P. Hagan's squad reported \$86.21

The children reported \$85.60

Georgetown reported from the colored people \$15

First National Bank, \$115

Celery Avenue reported \$114

Dr. Neal reported \$442.00

Monroe reported \$33.50

Mrs. Endor Curlett reported Georgia \$38.88

Oxholm was reported as having \$500

Chuluota as \$26

One or more precincts have not been heard from as yet but the actual figures available bring the grand total up to about \$2,900 and it is reported that the campaign has ended officially but before Dr. Neal sends in his official report that Seminole county will report \$3000.00 and while this falls short of the original assessment is considered far above the average when the population and the property values are taken into consideration as Seminole is one of the smaller counties of the state.

The members of the Red Cross are well satisfied with the result of their labors and feel that they have accomplished great things for the good work that can now go on without interruption at the battle front in Europe and at home and the boys will be protected by the Red Cross, no matter where they may be sent.

The campaign for the Red Cross has brought the entire county together as a whole hearted campaign and all differences have been buried in the great fight for humanity. The ladies and the men and the children have worked unceasingly for the past week and now that the actual results in dollars and cents have been given all of them feel that their work has not been in vain, and all of them deserve the praise and blessings of those whose loved ones will soon be needing aid and succor in the trenches of the old world.

**Children's Great Work**  
With Mrs. R. A. Terheun-captain and Mrs. W. P. Carter, lieutenant, the children and young people accomplished a good work in pennies and nickels principally, for the Red Cross war fund last week. Divided into squads of ten with a young captain to lead them, they scoured the town for pennies, including in their activities the Jacksonville steamers and the passenger trains. The

children began their work at eleven-thirty on Wednesday and had practically finished at twelve-thirty on Thursday.

The team under Miss Vera Terheun, captain, and Miss Marian Dietrich, lieutenant, led the teams in collections with a total of \$38.54. Ethel Henry's team made the next highest collection with a grand total of \$9.28. Far beyond the financial gain to the general fund was the development and enthusiasm and patriotism and the self sacrifices made by the children in their zeal and earnestness. Sixty-three volunteered their services on Wednesday morning at the Woman's Club and probably twenty or thirty more were added to this number in the course of the day. Truly it was a loving, willing service rendered by the children of Sanford and the Children's Committee earnestly thank the young people for their hearty cooperation.

### NEW AUTO SERVICE

#### Orange Belt Auto Line Starts in Business

A fleet of White Auto busses has been ordered, and is now in transit. Capacity from twelve to twenty-two passengers. White busses are generally conceded to be the best on the market, therefore, patrons of this line will be assured of as good service as it is possible to render.

Schedules have not yet been arranged, but this feature will be attended to immediately, and the public advised.

Auto busses will be operated between Orlando and Daytona Beach which will pass through Winter Park, Sanford, Orange City, DeLand and Daytona. Another division will be operated between Ocala and Orlando via Leesburg, Tavares, Eustis, Mt. Dora and Apopka. Service will likewise be inaugurated as soon as Polk county roads are complete, between Lakeland and Orlando, and the principal points that will be served on this division south of Orlando will be: Kissimmee, Loughman, Davenport, Daines City, Florence Villa, Winter Haven, Eagle Lake and Bartow.

The title of the company is considered very appropriate by its management in view of the fact that the territory it will traverse is the greatest orange producing belt in the state of Florida.

Mr. A. C. Marshall of Orlando is one of the prime promoters of this proposition and will be in charge of their offices there, which will be permanent headquarters. The authorized capital stock is \$25,000.00.

**Army Will Soon Be Enrolled**  
Washington, June 23.—Machinery for enrolling an army of 625,000 men by selective draft will be complete in every detail by July 1, two months before the tentative date considered for calling the first of the troops to the colors. Regulations for the exemption process will be made public shortly.

Brigadier General Crowder, the provost marshal general, who worked out the plans for both registration and selection, foresees no more complications with the selection and exemption machinery than was experienced with registration Secretary of War Bakers and his advisers repeatedly have given assurance that the selection system will be so fair that there will be no ground for fears that any man will be favored by reason of political or other relations. In order that neighborhood knowledge of a man's work and his dependents might aid in the task of sending to the front men who can be spared at home, the country undoubtedly will be highly subdivided and the exemption districts will be small.

Two days last week the Dupont Livestock Co., at the Interstate Stockyards at Jacksonville, sold to Armour & Co. eleven carloads of Florida grass steers, which brought on the hoof \$18,500.10. Five of the carloads came in Friday and six Saturday. The steers were fine specimens and were in splendid condition.

# RAILROADS WILL CUT OFF MANY TRAINS

## MANY TRAINS TO BE TAKEN OFF BY THE A. C. L.

Tallahassee, June 24.—W. J. Harahan, president of the Seaboard Air Line, representing all the railroad lines in the state, came to Tallahassee a few days ago to talk with the railroad commissioners about discontinuing all the passenger trains in the state that could be spared and leave the public a reasonable service. This was a necessary measure, he claimed, to meet the war conditions, and make available all the equipment possible for the government in the movement of men and supplies. Mr. Harahan made a statement explaining the situation and their wishes in a general way.

Now the Atlantic Coast Line Railroad has made its individual application to discontinue certain trains. Almost all of the central part of the state, from Perry to St. Petersburg is interested in the application of the Coast Line, since it reaches nearly every town, more or less. The railroad commissioners state that several hearings would be held by them at central points, so that everybody may have an opportunity to be heard on the railroad's application before it is granted.

The proposed changes are mentioned in the application and letter from General Supt. Murchison of the Coast Line:

"After outlining the need for curtailment in order to give most aid to the government, Mr. Murchison's letter names the following trains, as the ones to be taken off:

Discontinue trains 27 and 28, between Sanford and Lakeland.

Discontinue present train service on the Narcoossee Branch and substitute in lieu thereof the following schedule: Leave Kissimmee 9:15 a. m. connecting with 84; arrive Narcoossee 10 a. m.; Returning, leave Narcoossee 10:05 a. m.; arrive Kissimmee 11:00 a. m.

Discontinue Nos. 127 and 128 between Winston and Mulberry.

Discontinue mixed trains 137 and 138 between Sanford and Leesburg, change schedules of Nos. 21 and 22 to run as follows: No. 21, Leave Leesburg 7 a. m.; arrive Sanford 10:45 a. m.; connect with No. 81. No. 22, Leave Sanford 2:35 p. m.; connect with No. 89; arrive Leesburg, 6:00 p. m.

These trains to be made mixed trains instead of passenger trains. All the other trains on the Sanford and Leesburg branch to remain the same as at present, except to discontinue trains 121 from Altoona to Fort Mason, and discontinue train 22 from Fort Mason to Altoona, as train 22 will connect at Eustis with train 154, and it will not, therefore be necessary for No. 22 to make the trip to Altoona.

Discontinue trains Nos. 37 and 38 between Jacksonville and Trilby; and in lieu thereof operate Nos. 37 and 38 between Sanford and St. Petersburg, by the Trilby branch, connecting at Sanford with trains Nos. 82 and 83, handling sleeper from Jacksonville to St. Petersburg, practically on same schedule as at present between Jacksonville and St. Petersburg, except the travel will be diverted by the above route instead of by the old route.

Other changes are also noted but do not affect Sanford.

**Cheap Rates to Jacksonville**  
On account of the Florida State Press Association meeting at Jacksonville the A. C. L. Railway will sell excursion tickets from any point on their line to Jacksonville and return at one fare for the round trip plus 25 cents. Tickets will be sold on June 27 and 28, 1917, and are good until July 1st only. Tickets may be purchased of the local agent.

The tomato season along the east coast has practically come to a close for the season. Three thousand carloads have gone to the northern markets this year. On account of the February freeze this is three thousand car loads less than last year.

# FOOD CONTROL BIG SUBJECT SENATE TODAY

## IMPORTANT BILL PASSES HOUSE GOES TO SENATE TODAY

The eyes of the nation are upon congress this week as they take action upon the food control bills and there will be several vacant seats in congress next year unless the members vote for the rights of the people against the food sharks who are trying to corner the foods of the country and boost the prices beyond all reason.

President Wilson's request upon congress for food control legislation in time to deal with the year's crops promises to be realized.

With the battleground turning to the senate, following the overwhelming passing of the food control bill by the House, senate leaders tonight predicted action there late this week or early next week.

Attention by the senate of the drastic prohibition amendments added by the house or at least of provisions prohibiting use of foodstuffs in manufacturing distilled spirits, generally is deemed probable. The principal fight on the prohibition question is expected to come over permits for manufacture of malt liquors and wine. Senate sentiment against the manufacturing of whiskey, brandy and other distilled spirits is widespread but many "dry" senators oppose extending the prohibition to beer and wines.

Today the bill as it passed the house will be substituted for the Chamberlain draft, which the senate has been debating perfunctorily during the past week.

House changes, senators agree have removed many features upon which attack in the upper branch has been centered.

Senator Gore, chairman of the agricultural committee, who has been prominent in opposing the original bill, said tonight that all but a very few objectionable features were eliminated by the house.

The house bill will be kept continually before the senate until disposal of it. General debate is a scheduled to continue for a few days. Aside from the prohibition features the feature the principal disputes expected in the senate are the licensing, minimum price fixing and guarantee sections and the provision authorizing the President to fix import tariff rates maintaining price guarantees. The section giving the President and food administrator broad "blanket" powers also is opposed.

Some senators will endeavor to extend government control to coal, oil, iron and steel, copper, lead and various other basic materials. The Interstate Commerce Committee will begin investigations on Tuesday with such extensions in view.

While the senate is occupied with the control bill, the house will proceed with the rivers and harbors bill, to be followed by the Administration measure authorizing the President to direct priority in railroad shipments, which has passed the senate. The war tax bill probably will be completed this week by the senate finance committee. Income excess profits and publishers' taxes are the important questions pending after four weeks of redrafting.

**Sanford Steam Laundry**  
Having equipped the Sanford Hand Laundry with a lot of new machinery especially in the way of steam fixtures and new machines for the better work and quick service Mr. Marshall believes that the new name of the laundry should be what the equipment calls for and has changed the Hand Laundry to the Sanford Steam Laundry. In a series of advertising the Sanford Steam Laundry calls attention to the fact that it is a home institution, is well equipped to handle any and all kinds of laundry work with satisfaction guaranteed and they are here on the ground to look after your wants. There is no need to send your laundry out of town with a first class steam laundry in your own city and a telephone call will bring the wagon to your door at all times. Remember this when you want laundry work done and specify the Sanford Steam Laundry.

**City Council**  
City council of the city of Sanford, Florida, met on Monday, June 18, 1917, at 7:30 p. m. in regular session. Present, W. W. Abernathy, F. L. Miller, John Adams, R. A. Newman, Absent, B. W. Herndon, C. H. Dinger and Roy Symes. In the absence of the president and president pro tem, F. L. Miller was elected president pro tem.

Minutes of last regular meeting was read and adopted.

Mr. Bronson of the Southern Bell Telephone and Telegraph Co. came before the council and asked permission to place gasoline tank on Rand's avenue back of Yowell's store. Permission granted.

# BIG OFFENSIVE TO START ON THE WESTERN FRONT FROM ALL INDICATIONS

## Complaints having been made as to the condition of Pump Branch, same was referred to sanitary inspector.

Mr. Moughton came before the council and made complaint about vicious dogs running at large without muzzles, and asked that council take some action on same, his child having been bitten by one of them. On motion carried clerk was instructed to notify mayor of same for his attention.

On motion carried, sanitary department was authorized to place sewer connections on the property of one C. Royal (colored); city taking a lien on property for same.

Council adjourned.

### Back the Red Cross

General Leonard Wood in a recent address at Montgomery, Ala., said, "You ought to back up the Red Cross in every way possible. You can do no nobbler, finer work and you can give your money in no other way that will do as much good. The Red Cross is the big brother of the Army's Medical Department, the one official agency of the War Department in handling the sick and wounded. The work extends from the battle area back to the home and the relief of those caring for the men on the battlefields and in the hospitals, then to the trains or ships and on through their convalescence."

### TO SEEK THE GERMANS

Winston Churchill Wants to Go In And Get 'em

London, June 24.—Winston Spencer Churchill in an article in the Sunday Pictorial demands an aggressive policy for the vast surplus fleets under the Entente Allies, especially since America's entry into the war.

"The allied navies," he declared, "have today at least two dreadnoughts for every one at the disposal of Germany and Austria and in addition more than four old battleships to one of the enemy. But the superiority in weight of metal, modernity and tonnage is far greater even than these immense figures imply. Are we really to be content to see this vast mass of about 200 battleships wait idly on the off-chance of the German fleet emerging to fight until peace—perhaps an unsatisfactory peace—is declared?"

"When three old battleships were sunk in the Dardanelles it was represented as a great naval disaster, but what kind of a disaster would it be when, on the day peace is signed, hundreds of battleships are found to have been virtually unused and pass into obsolescence to be supplanted in future wars by airships and submarines?"

"It is only when we are able to devise and execute some method of aggressive naval warfare against the Germans that we shall find his weakness and our strength; that we shall liberate our splendid navy from the enchanted circle the submarine has drawn about it and compel our enemies to absorb themselves so much in the process of their own defense as to leave them no leisure to encompass our ruin."

### Sanford Steam Laundry

Having equipped the Sanford Hand Laundry with a lot of new machinery especially in the way of steam fixtures and new machines for the better work and quick service Mr. Marshall believes that the new name of the laundry should be what the equipment calls for and has changed the Hand Laundry to the Sanford Steam Laundry. In a series of advertising the Sanford Steam Laundry calls attention to the fact that it is a home institution, is well equipped to handle any and all kinds of laundry work with satisfaction guaranteed and they are here on the ground to look after your wants. There is no need to send your laundry out of town with a first class steam laundry in your own city and a telephone call will bring the wagon to your door at all times. Remember this when you want laundry work done and specify the Sanford Steam Laundry.

## FRENCH REGAIN POSITIONS AND BRITISH GETTING READY

Although the official statements report little activity the troops are keeping up their pressure day and night along the front they occupy. Last night a number of local enterprises were carried out successfully. One of these operations was rather important, increasing as it does the British grip about Lens. Under the line of the stars the British troops stormed and captured 100 yards of front line trenches east of Riamumont wood, in the western outskirts of Lens, thus drawing closer to the mining capital of France.

Troops of the French have been reserved to keep the Prussian nerves on edge by constant attack. This occurred west of Hulluch. Here fifteen prisoners were brought in while the French occupied the enemy trenches. Heavy casualties were inflicted upon the Germans and their dugouts were bombarded.

Two more raids were carried out east of Rouex and in the region of Vendhuile, while a local push north-west of Wagneton secured two additional posts. In this affair a number of Germans were killed.

London, England, June 25. Increasing activity on the western front is reported in today's statement of operations on the western front. Today's statement reads:

"Successful enterprises on our western front resulted in raids on the enemy's trenches in the region of Epech, Bullecourt, Rouex, Loos and Hooge, killing many Germans and taking prisoners."

"In another raid east of Vermelles we took fifteen prisoners and several French morars. Our party remained over two hours in the enemy trenches; blew up his dugouts and inflicted heavy casualties on his garrison."

In addition to these raids successful south of Lens and northeast of Warqueton added to the number of our prisoners and enabled us to gain further ground in both localities."

Paris, France, June 25.—Sharp artillery firing was in process during the night near Friedmont farm, says today's official war office statement.

The statement follows:  
"Unusually active artillery firing continued during the night between Royere and Froimont farm and almost near Hurtebise and east of Chaveux. Two surprise attacks against our trenches at Chaveux cost the enemy men without an gain."

"Near Woevre and in the region of St. Michele the enemy was repulsed. Everywhere else the night passed quietly."

Washington, D. C., June 25.—Contracts for ten complete steel merchant ships, four complete wooden merchant vessels and twenty wooden ship hulls were announced today by Major-General Goethals, manager of the shipping board's emergency fleet corporation. Deliveries will be made in 1918. Cal—the complete wooden ships by the Moore & Scott Iron Works at Oakland, Cal.; the complete wooden ships by the Newcomb Life Boat Co., Hampton, Va.; twelve wooden hulls by the Universal Shipbuilding Co., Harris county, Texas; four hulls by the Portland Ship Building Co., Portland, Maine, and four hulls by McBride & Law, of Beaumont, Texas.

In all the fleet corporation has let contracts so far for 104 complete ships, 38 of steel, 32 wood and steel, and 34 wood. Seventy-two wooden hulls have been ordered.

An Atlantic Port, June 25.—Officials of a British steamer arriving here today report the sinking of an attacking German submarine. The naval crew put a shot through the magazine which parted the undersea boat about amidships. Each end sank separately. The British ship was uninjured.

The submarine was five miles distant and running away after having attacked the British nearly 400 miles off the coast of Ireland.

**"The Captain of the Grey Horse Troop,"**  
A Blue Ribbon Feature in five parts, writtby Hamlin Garland directed by William Wolbert.

Cast:  
Capt. Geo. Curtis Antonio Moreno  
Elsie Brisbane Edith Storey  
Jennie Curtis Mrs. Bradbury  
Crawling Elk Otto Ledderer  
Cut-Finger Al Jennings  
His Wife Neola May  
Cal Streeter Robert Burns  
Lawson Edward Cecil  
Ex-Senator Brisbane H. A. Barrows

"The Captain of the Grey Horse Troop" gives Antonio Moreno and Edith Storey, as the stars in a dashing story of the west, with a convincing Indian and army atmosphere. Trying to prove that as Indian agent he can better the red

man's condition by kindness, Captain Curtis (played by Moreno) fights political greed and the cattleman's desire for the Indian lands by sheer bravery and dominant qualities of courage, and wins the respect of his opponents, the approval of his government and the love of a worthwhile girl (Edith Storey). The Indians begin to resent the imposition by settlers and government agents, who are unscrupulous agents. Curtis is made agent as a measure of reform. He disposes the plotting agent, Streeter, but his opinion is made difficult by Elsie Brisbane, the heroine, niece of Streeter and daughter of ex-Senator Brisbane. She hates Streeter, but her patrician breeding makes her hostile to the handsome young soldier. Going home to Washington she learns of Streeter's dishonesty and writes a noble letter of apology to Curtis, encouraging him gently. The stockmen open a campaign on Curtis before congress, and he goes there to defend himself with considerable success. This is offset by agitation fomented by the stockmen on the frontier, making the Indian dangerous. Elsie, although engaged to Lawson, a wealthy landowner not unfriendly to the Indians, follows Curtis back to the reservation to see how he comes out of his difficulties there. Learning of the engagement, Capt. Curtis is disheartened, for he has fallen in love with the girl.

The murder of a sheep herder brings a crisis. Elsie backs up Curtis and saves him from being mobbed. However, the situation flares up again the next day, and a triangular battle between white men, Indians and troops is only averted by the arrival of the latter in such force as to awe the crowd. Curtis, however, induces the Indians to reveal and give up the real murderer. This proves to be old Crawling Elk's son, who flees to the hills. Curtis, single handed, arrests him. Now he alone stands between the mob and the culprit. Through the efforts of Elsie he gets the prisoner safely to town. Brisbane, who has arrived from the east, complicates the situation by rousing the white men, and Curtis is burned in effigy. Curtis, without a friend in the territory still manages to declare his love for Elsie, having discovered that her engagement is not final. The mob gets the Indian prisoner, but under the stimulation of Elsie's love, which she has now declared to him, Curtis subdues the mob by his sheer force of character and brings the situation back to normal. Lyric Monday.

**Lyric Tonight**  
"Burn him in his church! All the time that he was preaching to you and tellin' you to be good, he was making love to me, to me, understand!"  
The crowd roared as Faro Kate talked to them. Faro Kate was notorious. And she hated Rev. Brand Cameron for the way in which he had turned her sweetheart, Jim Carewe over to the sheriff when Jim had killed another woman.  
So when Faro Kate made this charge against young Dr. Cameron the rough mountaineer's friendship

for the young clergyman turned to hate. They rushed to the church, barricaded the doors and windows and set fire to it. And Cameron was inside, with Faro Kate's baby in his arms.

This is but one of the exciting incidents in "The Crimson Dove," the thrilling new World Picture Brady Made in which Carlyle Blackwell and June Elvidge are the stars. See this production at the Lyric tonight.

All the hundreds of thousands of admirers of Carlyle Blackwell will be delighted by the role that he enacts in "The Crimson Dove," the startling new World Picture Brady Made which will be the big attraction at the Lyric Theatre tonight. Mr. Blackwell in this production plays the part of a young minister of the church who takes charge of a little church in a rough community in the mountains. He wins out in his fight to induce the rough necks to come to church, but he also loses their good will in a remarkable and wholly innocent manner. He also almost loses his life as the result of this loss of goodwill.

Playing opposite Mr. Blackwell in this brilliant attraction is beautiful and charming June Elvidge who takes the part of an actress who is the innocent cause of a young man's suicide and who later, under her real name, meets the minister. They learn to love each other and then when the woman's identity is revealed to the minister, things begin to happen at a lively rate.

You will enjoy the "Crimson Dove." See it.

In "The Crimson Dove," which will be the brilliant attraction at the Lyric Theatre tonight Carlyle Blackwell and June Elvidge will be seen in unusual and entertaining roles. These two popular stars, plus the punch and pep of this splendid story, assure a great evening's entertainment. Be sure to see this latest World Picture Brady Made. Tonight.

"You said that your wonderful death jealing inventions would make war impossible."

"Well," answered the great inventor ruefully, "if everybody on earth is eventually killed off there can't be any more war, can there?"—Washington Star.

## SETBACK LINES IN THE SUBURBS

### Investigator Explains Benefits of the Plan.

### ADOPTED BY MANY CITIES

Robert H. Whitten Advocates the Establishment of Setback Lines in Connection With the Laying Out of Street Systems in Undeveloped or Suburban Residence Sections.

A report has been presented to the committee on the city plan of the board of estimate of New York city by its secretary, Robert H. Whitten, for the establishment of setback lines in connection with the laying out of street systems in the undeveloped or suburban residence sections. The committee desires to secure criticism of the plan by land developers and property owners before taking any action. It is said that the use of the setback plan would, in certain cases, reduce street opening and paving costs to be borne by property owners, and also reduce future street widening expense both to the owners and to the city.

Mr. Whitten sums up the three primary advantages of the plan as follows:

"First.—Health, comfort and amenity. In a private residence section a uniform setback from the street line increases the attractiveness of the section and adds to the health and comfort of the inhabitants. It improves light and air conditions, makes possible the front-lawns with trees and shade, removes the dwelling further from the noise, fumes and dust of the street. Where residences are uniformly set back from the street without the establishment of a legally binding setback line each owner is at the mercy of his neighbors. A single owner by disregarding the setback line may ruin the entire block.

"Second.—Economy of initial development. Purely local residence streets having a setback line can be permitted a narrower width than could otherwise be allowed. This reduces development expenses, not only in its economy of land, but more markedly in the decreased outlay for paving. With a ten foot setback a standard sixty foot street might be reduced to forty feet. This might be adequate for streets under 800 feet in length if developed with single family houses. If later the single family houses were replaced by three or four story apartments the street could easily be widened to sixty feet to meet the increased traffic requirements incidental to the more intensive housing.

"Third.—Economy of ultimate development. The extension of the setback line will permit the economical widening of traffic arteries whenever traffic needs require. It introduces a measure of adaptation and elasticity in street design that is of immense importance in view of the almost prohibitive expense of widening a street once laid out and improved.

"The fixing of the setback line now is the only practical method by which the widening of many traffic arteries can be secured in the future, when greater width will assuredly be required," explains Mr. Whitten. "These arteries are now residence streets, and the houses have been set back in order to provide lawn and shade and to remove them from the dust, fumes and noise of the street. They cannot be widened at present, as the cutting off

of the front lawns would in large measure destroy the value of the dwellings.

"When, however, traffic has so increased that the street must be widened it is more than likely that the street will be no longer desirable for private residence purposes and private dwellings will be replaced either by apartments or by business buildings. The setback line can, therefore, be established while the future traffic thoroughfare is still a residence street, with advantage to all owners, and when the time comes to widen the street to meet traffic needs the setback can be taken for street purposes and this, too, will be to the advantage of the owners.

"A street once established is one of the most permanent and unchangeable features of the city structure. Buildings have come and gone, but the street lines of lower Manhattan have retained most of their original idiosyncracies. This, too, in spite of the fact that the burden imposed differs greatly in character and magnitude from any that could have been contemplated, at the time these streets were opened. This points to the desirability of introducing adaptability and elasticity in street design. The setback line is a means of securing it.

"In Washington and in a number of the cities and towns of Connecticut and Massachusetts setback lines are established under procedure similar to that used in the laying out, opening and acceptance of streets. Boston has made considerable use of the setback line, but the greatest progress has probably been made in Brookline. That town has adopted a policy of making the establishment of a setback line a condition precedent to the acceptance of the street by the town."

**Civic Mediators.**  
The arbitration committee of the Louisville (Ky.) board of trade played a lively part in the settlement of recent difficulties between milk producers and distributors in the city.

**Might Get Another One.**  
Abuse of the pension system is illustrated by the Bostonian who discovered in a New England town a former townsman and policeman in a new uniform walking a beat. "How is this?" asked the visitor. "I thought you were on the Boston force." "Oh," exclaimed the transplanted policeman, "you see I'm pensioned by Boston, so I moved. Now I'm working here."—Argonaut.

**Undoubtedly.**  
Miss Wilcox had been giving the class an elementary talk upon architecture. "Now," said she, "can any one in the class tell me what a buttress is?" Little Walter arose, his face beaming with a quick flash of intelligence. "I know," he shouted—"a buttress is a nannygoat!"—New York Times.

**His Arguments Are Unanswerable.**  
"We put it to him this way: "Why don't you get married?" "And he answered us honestly: "I'm not earning enough to support a wife, and I'm not lazy enough to let a wife support me."  
And that's the best reason we ever heard.—Cleveland Plain Dealer.

**Lava Is Slow to Cool.**  
Peasants on the slopes of Mount Aetna can still boil water over the lava that flowed from the volcano during the eruption of 1910. Lava, according to Walter Woodburn Hyde of the University of Pennsylvania, writtfig in the Geographical Review, often reaches a temperature of 2,000 degrees F.

Even the ancient poets recorded the tenacity with which lava retains its heat, and Borelli, describing the great eruption of 1663, says the lava took eight years to cool. It is related that steam was still rising in 1820 from lava ejected in 1787. And this is not astonishing when we remember that

the stream of molten lava which reached the sea at Catania on that occasion was at least 200 yards in breadth, forty feet deep and contained 3,532,000,000 cubic feet. It banked up against the walls of Catania, which were sixty feet high, until it flowed over the top and destroyed a large part of the city. The huge promontory that acts like a breakwater to the harbor is the remains of that stream of lava that flowed into the sea.

### A Sincere Compliment.

I remember as a boy hearing the late Rev. Sam P. Jones tell my father of what he considered to be the most sincere compliment he ever received, says a writer in the Dallas Pitchfork. "I was holding a meeting in the city of Louisville," Rev. Sam Jones related, "and spending the nights with an old Methodist colonel who owned a fine country home. During my first evening at the colonel's home the old colored yard man was instructed to bring out one of the colonel's finest saddle horses for my review. The aged negro did as he was instructed and led before me a magnificent animal. The horse was a deep bay stallion, and he walked with high, swaggering steps. I said to the old negro, 'What makes him step so proudly?' And he answered without hesitation: 'Dat boss has got sense. Brudder Jones. He knows who's lookin' at 'im.'"

### Monster Haystacks.

On the first approach to a Roumanian village one is startled by the largest haystack that the American will probably ever have seen. Rod upon rod this monster stretches upon the horizon. The explanation is a simple one. Hay is one of the largest articles of production in Roumania. Landed proprietors and peasants, one and all, raise it and depend upon it for their support. When, however, a peasant feels grievances intolerable, it is a matter of no great difficulty to set the proprietor's hay afire—and no peasant in the district would think of assisting in the detection of the incendiary. So the law permits the proprietor to force all the peasants in the district to place their hay with his, a record of the weight of each man's contribution being kept by both sides. In the event of fire—and it now behoves both sides to guard against all this—all contributors suffer in proportion.—Exchange.

### Much Food in Small Bulk.

The British soldier when fresh bread is not available is supplied with what he calls "dog biscuit." It looks like just that, being a thick cracker four inches square and weighing three ounces. Of whole wheat flour pressed solid, it might be described as a condensed loaf of bread.  
The French have a "war bread" somewhat similar, which when put into hot water or soup swells up like a sponge.  
The famous German "pea sausage" is composed of pea meal, bacon and fat. It was the invention of a Berlin cook, who discovered a process whereby pea meal could be made proof against deterioration. One sausage eight inches long yields twelve plates of nutritious soup.

### Praise Him.

Only praise is due the young man who ostentatiously displays his shanks in a street car. He wants you to know how carefully his mother launders his silk socks.

### Grass Seeds for Food.

Among grass seeds those used for food are barley, corn, millet, oats, rice, rye, wheat and a few less important; roots of many are used for medicine; stems, as of sugar cane for sugar, molasses, etc.; bamboos for timber and other uses.

**BERRY'S GREAT REPORT**

Our County Agent is Commended for the Good Work of Preparedness

The following report of C. M. Berry, county agent of Seminole was sent to the headquarters at Gainesville, showing the good work done in this county:

Sanford, Fla., June 12, 1917. Prof. P. R. Rolfs, Pres. Food Preparedness Commission, Gainesville, Florida.

My Dear Prof. Rolfs: The following has been accomplished by the Seminole County Commission.

Every town and settlement in the county has been visited and addresses made regarding food production and conservation. In the neighborhood of thirty canning outfits have been placed, together with about 14,000 cans and large quantities of glass jars. Nine silos have been constructed for six of which are under construction, thus preparing for the feeding of from 700 to 1,000 beef animals. Many people have planted a pig in the pen and a number are putting down eggs in water-glass.

I have distributed in the neighborhood of two thousand bulletins regarding matters of special interest applicable to the growth of food and forage plants that are now seasonable for our soil and climate.

I have secured the use of the Southern Utilities Company's large storage plant for the purpose of storing family supplies of potatoes, cabbage, beets, etc., for the summer season.

I have distributed about two hundred pounds of seed aside from the heavier grains, and have secured the cooperation of all the banks of Sanford.

There having been no specified program to follow by the County Food Preparedness Commission, I have thought it best to report what we have done, to you, and await your further instruction.

Yours very truly,  
C. M. Berry,  
County Agent

And this letter of commendation from A. & Spencer shows what they think of Mr. Berry and Seminole county:

Gainesville, Fla., June 14, 1917.

Mr. C. M. Berry, Sanford, Fla.:

Dear Mr. Berry:—

Prof. Rolfs has just shown me your letter of the 12th. This is the best report we have had from any

county on things accomplished. We are having this copied to stimulate others, and I am sending a copy to Mr. Bradford Knapp, Washington, with a letter I am writing him today.

Yours very truly,  
A. P. SPENCER,  
Assistant Director.

**Use of Sweet Peppers**

Recipes for canning peppers and putting in brine were given in the Sanford Herald of June 5th. The commercial canned peppers, or pimientos, are a thick meaty type somewhat different from the bell peppers grown here but the recipes here given are for use with any type of sweet pepper. These are from a circular issued by the Bureau of Plant Industry.

C. M. Berry,  
County Agent.

**Recipes**

Note.—All measurements are level. The special abbreviations used are tbsp. for tablespoon, tsp. for teaspoon and c. for cup.

**Stuffed Pepper Mango**

Soak sweet peppers in brine (1 c. salt to 1 gal. water) for 24 hours. When ready to stuff, take from brine, rinse in fresh water, carefully cut a circle off the top of each pepper, and save same, to be replaced on peppers after stuffing. Remove the seeds and white sections. Soak in clear water for one or two hours. Drain carefully. Stuff with Dixie relish, being careful not to press it in too tightly. Place top on the pepper and make secure by one or two stitches or by tying it on. Pack as many stuffed peppers as can be placed in the jar without crushing. Then fill the jar to overflowing with a spiced vinegar. Process for 15 minutes in quart jars.

**Spiced Vinegar**

1/2 gal. vinegar  
1/2 c. grated horse radish  
1 1/2 tbsp. celery seed (crushed)  
1 c. sugar  
1 1/2 tbsp. mustard seed  
1 tbsp. salt  
1 tbsp. cinnamon  
Cloves, nutmeg, and grated onion may be added, if desired.

**Dixie Relish**

1 qt. chopped cabbage  
1 pt. chopped white onion  
1 pt. chopped sweet red pepper  
1 pt. chopped sweet green pepper  
5 tbsp. salt  
4 tbsp. mustard seed  
2 tbsp. celery seed (crushed)  
1 c. sugar  
1 qt. vinegar

Soak the pepper in brine (1 c. salt to 1 gal. water) for 24 hours. Freshen in clear cold water for one or two hours. Drain well. Remove seeds and coarse white sections. Chop separately and measure the chopped cabbage, peppers and onions before mixing. Add spices, sugar and vinegar. Let stand over night covered in a crock or enameled vessel. Pack in small sterilized jars.

The standard pack will be in a vase shaped 10 ounce hermetic jars. When ready to pack drain the vinegar off the relish in order that the jar may be well packed. Pack the relish in the jars, pressing it carefully; then pour over it the vinegar which has drained off. Paddle the jar thoroughly, to get every bubble out and allow the vinegar to displace all air spaces. Garnish each jar with two quarter inch pointed strips of red pepper 3 inches long. Place these strips vertically on opposite sides of the seams of the jar. Cap, clamp and process for 10 minutes at boiling temperature.

**B. S. Chutney**

(A hot sweet to serve with curries, cold meats, sausage and stews.)

Red part:  
2 lbs. sweet Spanish pepper,  
1 lb. sugar  
1 pt. lemon juice  
Yellow part:  
2 lbs. small yellow fig tomatoes  
1 lb. sugar  
4 oz. pounded ginger root.

Preparation of the red part.—Peel the peppers according to the instructions given for canning. Chop sweet and hot peppers together, add sugar and lemon juice, and let stand in an enameled vessel or crock for 12 hours; then drain off the liquor and allow it to simmer for ten minutes. Pour it over the peppers again and let stand for 24 hours. Simmer the liquor again on the second day. On the third day repeat, allowing the peppers to remain in the liquor simmering.

Preparation of the yellow part.—Peel the tomatoes by dropping them for a minute into boiling water and then into cold water, being careful not to cook or break them. Place in a bowl, add sugar and pounded ginger, cloves and let stand for 12 hours. Drain and simmer the liquor for 10 minutes. Pour it over the tomatoes while hot and allow it to stand again over night. Repeat this on the second day, and on the third day when the syrup is simmering add the tomatoes carefully and continue the cooking for 10 minutes. The tomatoes should remain whole.

For a standard pack use a 10-ounce vase shaped hermetic jar. In packing, place the heavier color, red, at the bottom in a 1 inch layer; then place a 1 inch layer of yellow. Continue in this manner until the jar is neatly filled. Strain the liquor and pour it over the contents. Paddle to remove air bubbles. Cap, clamp and process for 10 minutes. This may be packed for home use in pint jars and processed for 15 minutes.

The small yellow fig tomato used in the chutney recipe is the variety which may be used for green tomato pickle and whole ripe tomato preserves.

**Some Ways of Using Fresh and Canned Peppers**

Salads to be most delicately served should be made of crisp, fresh fruit or vegetables, well chilled, and arranged attractively in a bowl or individual plate.

**Green Pepper and Cheese Salad**

Select and wash three medium sized green peppers. Cut around the stem of each with a slender paring knife to remove the seed and white sections. Stuff the inside of the peppers with cottage cheese, pressing it in firmly. Chill, and when ready for use cut the pepper into quarter-inch slices and place two or three of these slices in a nest of tender lettuce. Serve with a salad dressing.

**Red Pepper and Cabbage Salad**

3 c. chopped cabbage  
3 sweet peppers (red or green)  
1/2 c. sugar  
1/2 c. vinegar  
Salt and pepper  
1/2 c. gelatin softened in 1/2 c. cold water

Mix all and set to mold in dishes which have been wet with cold water. Chill and allow to stand until firm. Serve on lettuce leaves with a salad dressing.

**Combination Salad**

1/2 c. chopped green pepper  
1/2 c. chopped red pepper  
1/2 c. chopped onion.  
1 c. tomato, cut into pieces.  
1/4 c. sliced cucumbers.

Chop separately, measure, mix and serve in a bed of shredded tender lettuce. Serve with a French salad dressing.

**Sweet Red Pepper and Lettuce Salad**

A very good salad can be made by using the small leaves of head lettuce with strips of bright red sweet pepper. This salad is especially attractive when served with a small cheese ball on each plate. Roll the cheese into balls about the size of a

walnut. These cheese balls may be made of cottage cheese or pimiento cheese.

Cottage cheese.—Take fresh clabber before it loses its best flavor by becoming too sour. Heat slowly until barely hot enough to separate the curd from the whey. This takes place much below the boiling point. Pour it into a thin cloth bag and allow it to drip for one or two hours. Turn the curd into a bowl and season with salt and pepper. Add 1/2 cup of cream to about 1 pint of dry curd and mix thoroughly.

Pimiento cheese.—Chop finely two or three medium sized ripe pimientos which have been baked until tender and peeled. Canned pimientos should be soft enough to make a smooth mixture. Cream the pimientos and curd together until a smooth mixture is obtained. This cheese may be used for a sandwich filling for cheese balls, and also for the stuffing in the green pepper and cheese salad.

Problem of the Desert. Here comes a cable note that motors are displacing camels in Egypt. It remains to be seen whether the motorist can go eight days without a drink.—Minneapolis Tribune.

**HORNER MILITARY SCHOOL**

Has a record of 65 years of thorough work in preparing young men for College, University, Government, and Technical Schools, and for Business life. A Non-sectarian Christian school. Strong faculty. **KEEP YOUR EYE ON THE HERALD WANT COLUMN**

It would open your eyes to go around with me for a day and see how people are subscribing for  
**The COUNTRY GENTLEMAN**  
I don't have to sell The Country Gentleman. It sells itself. When farmers open a copy and see the wealth of practical farm talk between its covers, they want it right off. So will you.  
Poultry, livestock, field methods, market gardening, farm machinery—they're all talked over by successful farmers from far and near in regular departments of The Country Gentleman. Besides, there are always six to ten special agricultural articles by special writers.  
And the stories and hints and advice for the farmer's wife and kiddies, the suggestions for community get-togethers—I tell you, there's nothing like it. I believe in The Country Gentleman, in the good it is doing and the help it is giving. That's the reason I'm getting so many subscribers. To me and the folks who have subscribed a dollar looks pretty small by comparison.  
If you want a sample copy, don't be bashful, ask for it. And if you'd like to invest a dollar where it will bring you ten, or more, I'll put your subscription through in record time and you'll receive the first of the 52 big issues in a jiffy. How about it?

Our prediction about the dogs running loose on the streets and biting children has come true already and there will be more cases of this during the summer of these dogs are not muzzled or kept at home. There is an ordinance of this kind on the books. Why is it not enforced?

The question of glaring headlights will be brought to the attention of the city council again in a few days and they will have to turn it down in the fact of the protests of many citizens of the city and the county. If other cities can bar the glaring headlights there is no valid reason why Sanford cannot do it.

The people of Sanford are responding nobly to the appeal for Red Cross funds and Sanford and Seminole county will raise their share of the allotment. The first sum of \$10,000 was out of all reason for a county the size of Seminole and one tenth of this sum was more in proportion to the number of people. Sanford and Seminole county can always be depended upon to bear their part of any expense but the demand should not be beyond our reach for there are other demands being made upon us and will be made upon us before the war is over.

From this time forward The Herald will give more space for the preparedness of our county in this great war and much of the society and social matter will be curtailed. The time has come for action and The Herald will do its bit by assisting these great movements for the country. Society has given way to real work and the newspaper will follow suit in every part of America, giving the readers helpful hints and more real assistance in this great crisis. Realizing this the reading public will follow by demanding instruction instead of social items.

THE "SAUNTERERS" IDEA
Sanford "saunterer" opines that "It is my honest opinion that the war was brought on and has been allowed to flourish because the world was becoming so wicked that

YOU ARE INTERESTED IN RING BOOKS!

Sheets can be obtained anytime; mated in eight styles. Bound in best quality Flexible Black Levant Grain Cowhide, with Black Linings.
HERALD PRINTING CO. Phone 148 Sanford, Florida

It needed cleaning up, and after this war the world will be a better habitation for Christian men and women. Maybe so; surely, if the world was good there would be no war; that there is war is prima facie evidence the world is bad. Still, it must not be overlooked that if the world needed cleaning up in many instances it is the bad cleaning up the good. And, of course, if in the cleaning up process, all the bad is cleaned out and only the good remains, it will probably be a better place for Christian men and women to live in; only it will be Utopia or the Millennium or Heaven, for if it is good there would be nothing for Christian men and women to do, except to sit under a palm tree and play the Jew's harp.—Orlando Citizen.

MUST MARK READING ADS: The attention of the Commercial has been directed to the act of congress, passed in August, 1912, providing a penalty of \$50 to \$500 for publishing a reading notice advertisement without plainly marking it as an ad. It seems we have been in danger of this fine. Here is the law:

All editorial or other reading matter published in any such newspaper, magazine or periodical, for the publication of which money or other valuable consideration is paid, accepted or promised shall be plainly marked "advertisement." Any editor or publisher printing editorial or other reading matter for which compensation is paid, accepted or promised, without marking the same shall upon conviction in any court having jurisdiction be fined not less than \$50 nor more than \$500.

An interpretation of the law by an official of the Post Office Department reads:

The obvious purpose of this part of the act was to require publishers of newspapers and periodicals to identify as advertisements such editorials or other reading matter, for the printing of which they receive money or other valuable consideration, as are sometimes concealed under the guise of genuine editorials or general news matter, such as textual business write ups, descriptive news stories, etc., which have for their purpose the calling of attention to the merits of something in which all the undisclosed advertiser is interested, and all such editorials or other matter should be marked "advertisement."

Herbert C. Hoover says the war may last five years, and others in intimate contact with the situation endorse his opinion. Facts support it. Our selective armies will not be called until September, not trained until next summer. They cannot be sent over until adequate transports are provided, and General Goethals figures that it will take eighteen months to build 3,500,000 tons of ships. Our full force cannot be exerted in Europe before 1919.

Courtesy is the Trojan Horse, inside which the enemies of independent journalism are conveyed to its citadel. A great actor has friends who would like the courtesy of a "pleasant notice" for him. A great musician is surrounded by fashionable admirers, who ask the courtesy of "something kind for the next concert." A great lecturer would like the courtesy of an "editorial paragraph calling attention to the lecture, lest the advertisement be overlooked." Each of these seems in itself a perfectly legitimate thing to do yet when the fortifications are once carried there is no stopping the rabble of camp followers and scum that drift on behind.

Why should not this matter of notices be reduced to a business basis, conducted rigidly on business principles? If the editor thinks the thing of public interest on its news merits, let him say so; but let the person interested have the decency not to go to him to suggest it. If he does not think this, let the editorial copy contain no reference to it.—Eschburg Commercial.

FIGHT OR BE LICKED
If the war is won, we have got to win it.

If the Allies are saved from defeat, we have got to do it. We are going to escape being licked, we have got to lick Germany ourselves. It is our war. It is going to take every ounce of our economic and military power; and there is no time to be wasted.

These are the facts that stare us in the face. Who says so. War Secretary Baker, Ambassador Gerard, Herbert C. Hoover, Premier Borden of Canada, General Petain of France, the military expert of the London Times, the editor of the London Daily Mail, General Pershing, commander of the first American contingent to go to France, the common sense of every one who faces the facts and reads the figures and follows the military campaigns.

If the Liberty bonds are to be sold, the food bills put through, Goethals given the money, he needs for empty the Red Cross, the army whipped into shape and the quickening of the navy unobstructed by labor troubles and builders' kicks, the people must know the truth. The truth is:

Germany will win unless the United States, by arms, men, money, ships and food, defeats her. The "brunt of the terrible burdens to come" will fall upon us, has fallen upon us, must be borne by us. We are in the war and must decide it. We are fighting for ourselves as well as for our allies. Germany brought the war to us. We must fight in self defense and win for democracy in the world or pay the Kaiser's price.

We must not let ourselves be deceived by reports of disintegration in Turkey, Bulgaria and Austria-Hungary. A rickety door hangs a long time on the hinges. It is unsafe to count upon a collapse in that direction. Ambassador Penfield brings from Vienna no hope of a denouement among Germany's partners. Lloyd George may be right in asserting that Germany cannot win the war with her U-boats, but we cannot win it simply by overcoming this peril. The submarine is only an incident, though a terrible one, of the war. Defeat it and Germany would still be full of fight.

France has passed the peak of her man power. Her roads and railways are worn out and must be rebuilt. She lacks the necessary staples for carrying on the war. We have got to furnish the reserves of human and material strength. We have got to rebuild and re-equip her roads for her own use and for ours when we send our millions to the fighting line. We have got to fit her to support our armies on her soil.

It will be a miracle if Russia pulls herself together and becomes a formidable military factor inside of three years. Not only has she her internal problems to adjust, but her resources were exhausted before the revolution came. Her railroads have to be rebuilt, restocked and double-tracked for thousands of miles. In his great Galician drive, General Brusiloff found it impossible to maintain a great offensive over a single track road. He could not unload his cars and send the empties back, but had to topple them over in the ditch and burn them. Roadbeds and rolling stock are worn out.

Herbert C. Hoover says the war may last five years, and others in intimate contact with the situation endorse his opinion. Facts support it. Our selective armies will not be called until September, not trained until next summer. They cannot be sent over until adequate transports are provided, and General Goethals figures that it will take eighteen months to build 3,500,000 tons of ships. Our full force cannot be exerted in Europe before 1919.

The outlook then is that Britain will have to bear the brunt of the fighting in 1918. In 1919 we will begin to assume it. In 1920 we should be reaching the height of our power, with Russia coming back, if all goes well with the new regime at Petrograd. Not until then can we foresee the end, and before then there may be collapses that will put the whole burden on us and leave us fighting Germany's might alone.

It is going to cost us billions of dollars and, perhaps, millions of men. We may suffer losses that will make us stagger. The prospect would be unendurable were we not fighting for the thing that is most precious in life, the right of a people to be masters of their own destinies and not the slaves of a despot who will stop at nothing to enforce his will. Our liberties and the liberties of all free peoples are in our hands. We must save them or they will be lost. The peril is on our doorstep, with no one to ward it off but ourselves.—Newark News.

RED CROSS CAMPAIGN SHOWS GREAT RESULTS BIG RALLY LAST NIGHT (Continued From Page 1)

week for the Red Cross and one of the most appealing windows was that of the Hill Hardware Co. where the sweet Red Cross nurses demonstrated how the first aid to the wounded was given by practicing on the Boy Scouts and this drew forth many praises. We opine that the Boy Scouts rather enjoyed this part of the program and they were patched up in great style and their imaginary wounds while looking dangerous were really made up to look the part.

Many other stores of the city were decorated in Red Cross emblems and with appeals to the public for help in this great crusade. Uncle Sam and Columbia In the Red Cross window display campaign the window of the Dickens Shoe Store attracted much atten-

Habit is Stronger than Will
Did you ever stop to think how many little things you do each day from habit—how unconsciously your daily work is done? How much comfort you could have if you formed the habit of saving each week instead of SPENDING THAT DOLLAR. GET THE HABIT. SAVE!
PEOPLES BANK OF SANFORD
WE WANT YOUR BUSINESS
H. R. STEVENS President, C. M. HAND Vice-President, SANFORD, FLORIDA, O. L. TAYLOR Cashier, R. R. DEAS Asst. Cashier, F. L. WOODRUFF Vice-President
THE BANK THAT INSURES YOUR DEPOSITS

In it were the two beautiful children of Mr. and Mrs. Henry Peabody, little Lawrence being dressed as Uncle Sam and his sister, Evelyn, as Miss Columbia and these tiny tots were the center of attraction for the two days' campaign. Their make up was excellent and they brought many a nickel to the Red Cross pot in the doorway of the store.

Red Cross Window
Among the beautiful Red Cross windows decorated for the benefit of Red Cross week was that of the French Millinery Shop. Figures that were very life like were made up to represent a Red Cross nurse stooping over the patient in bed and the entire window was made up to resemble the tent of the Red Cross units in the field. It was well arranged and complete in detail and attracted much attention from the public. It also demonstrated that the French Shop not only keeps abreast of the times and is patriotic but that they have a first class window dresser in charge of the window decorating.

Baptist Church Sunday
Hear George Hyman speak at the Baptist church on Sunday. Morning, 11 o'clock, subject, "From Accursed to Acquainted." Evening, 7:45 o'clock, subject, "The Most Dreadful Threatening in the Bible." You will be welcomed to these and all other services at the Baptist Temple.

Board of Trade
Mr. G. C. Chamberlain is the right sort of member. He came around today, said he was leaving shortly for a tour of New York state and wanted two hundred Seminole county booklets, to distribute. Mr. Chamberlain will spend a month or more on his vacation and here's hoping that he persuades many more like himself to come to Seminole.

Two very important Board of Trade committees were appointed Monday evening at the meeting of the board of governors and both have work to do that with the assistance of the city council will prove valuable indeed to Sanford.

Mrs. A. P. Connelly, Mrs. Henry Wight and Mrs. J. W. Dickins are the first ladies to form a committee representing the Sanford Board of Trade. The Board of Trade, how-looks only for the best and most progressive and that's the reason why these ladies have been selected for progressive work. On the same committee are three gentlemen, Messrs. Hyman, Dutton and Henry—we've got a guess coming as to who rules the decision.

When men like L. A. Sheldon of Geneva and H. I. Lyman of Altamonte Springs drive from their homes to Sanford to attend a board of governors meeting you may be assured of their progressiveness and pray for an increase of their type.

Next Friday is the Board of Trade issue of the Sanford Herald. If you know anything that will boost Seminole county mail it to the secretary, Sanford Board of Trade, sign your name and we'll use it with pleasure.

When you've done something to boost your town or county, you sleep a lot better at night and you get an appetite to do something more. If you are a lukewarm, you form the habit of being a grouch and nobody likes you. If you are a knocker, you can expect nothing more than old satan himself got—he was kicked out of heaven for knocking his home town (thanks to the Lakeland Telegram for the last expression).

Helping the Red Cross boosts your town. Advertising your home town brings more people in to help you boost bigger the next time.

The Sanford Board of Trade has 385 members. These men represent the progressive citizens of Sanford and Seminole county. They belong to the Board of Trade but it is a progressive organization whose sole

duty is to boost and to build and in spending their money in this way, they unselfishly help you and yours as well as themselves and theirs. Are you one of the number—one of that 385.

The Board of Trade directory to be issued in August will be complete in every detail. It is being issued at the request of many members who want a list of other members. The book will show your name, your phone and the business, profession or trade you are in and will be distributed all over Seminole county and in many other sections. It costs the members nothing. It is simply advertising those who are helping to advertise their city and county.

Negroes Not Exempt
Washington, June 14.—Following correspondence has passed between Senator Trammell and Secretary of War Newton D. Baker:

"Dear Mr. Secretary: I am handing you herewith a communication received by me from Mr. William J. Lee, of the firm of Chase & Co., Jacksonville, Fla., in which he invites my attention to a certain newspaper article in which it was intimated that the negroes of the south would not be conscripted, but, if drawn for army service would be substituted by the whites. I do not know that this newspaper is at all reliable. I trust that it is not.

"While it is my opinion that the negro soldiers should be segregated from the whites and in no wise be intermingled in the same company or regiment, I am firmly convinced that a proportionate number of them should be conscripted the same as the whites.

"I would very much appreciate your giving this subject your careful

consideration if the press intimation is at all based upon the truth. Most respectfully, Park Trammell."

The Reply
"My Dear Senator Trammell: I have received your letter of June 14, with regard to the supposed intention of the War Department to exempt the colored men of the south from military service, and substitute them with white men. No such policy has been considered by this department.

"Very truly yours, Newton D. Baker, Secretary of War"

Don't Like the Negro
Schenectady, N. Y., June 18.—Two thousand machinists, employed by the General Electric Company, struck today in a protest against the employment of a negro. Two weeks ago the company gave a negro student vacation work in the shops. This was characterized by the men as an effort to place negro labor in the shops. This was denied by the officials. Two days ago the machinists notified the management that unless the negro was discharged the men would strike today. The company refused and the men left the benches this forenoon.

Lover's Quarrel.
"Hallo, Flitz! where did you get get that black eye?" "Oh, it was only a lover's quarrel!" "Lover's quarrel! Why, your girl didn't give you that, did she?" "No, it was her other lover.

That's the Idea.
The man who wants to marry happily should pick out a good mother and marry one of her daughters; any one will do.

### IN AND ABOUT THE CITY

**Little Happenings—Mention of Matters in Brief—Personal Items of Interest**

**Summary of the Floating Small Talks Succinctly Arranged for Hurried Herald Readers**

Theo. Godrington of DeLand was in the city today with Volusia's big truck that is used on the road work of that county.

Until further notice, Musson's pool will be open every afternoon at 2 o'clock except Tuesdays and Fridays.

Mrs. J. W. Dickins has returned from a delightful trip to Jacksonville and Lawley and other points where she was engaged in work pertaining to the Federation of Women's Clubs of which organization Mrs. Dickins is the recording secretary.

Woodland Park is the only place with amusements and taken proper care of. Open Sundays only. Leased privately on week days. Large clean pool, hot water jets, shower, toboggans. Picnic conveniences.

Fred Dorner has gone to New York to join his wife and child, who have been spending several weeks with relatives.

No. 666 will cure Chills and Fever. It is the most speedy remedy we know.

Mr. and Mrs. C. Boyce Bell and son and Mr. and Mrs. Brumley and children are visiting home folks in North Carolina.

Ayers' New Daytona Beach Hotel, Daytona Beach, Fla.—Special summer rates now in effect. Week end parties solicited. Dance every Saturday night. W. F. & E. R. Ayres, managers and owners.

The many friends of Irving Estridge are glad to see him back in Sanford after several years absence in the Carolinas where he was engaged in raising vegetables. Irving says there is no place like Sanford and he has rented a farm near Cameron City for the season.

Roy Mason has returned from a trip to points in Georgia and will be with the Sanford Steam Laundry, where the many patrons are glad to see him again.

Rub-My-Tism—Antiseptic. Anodyne—Kills pain, stops putrefaction.

Jack Harvey, the genial representative of the Southern Clay Co., is in the city looking after the interests of his firm.

E. B. Curry, state agent for the Reliance Insurance Co. is in the city for a few days visiting his many friends and making a few rounds with Geo. D. Hart, the local agent of the company. Mr. Curry is the popular president of the C. E. Society of Florida and has a host of friends here who are always glad to see him.

No. 666 will cure Malaria or Bilious Fever. It kills the germs.

Office stationery and office supplies of all kinds at The Herald office. A full line of loose leaf and all kinds of ledgers.

Harry P. Driver has resigned as assistant manager of the Hillsboro Hotel at Tampa and accepted the

This is one of the insects that made the use of Window and Door screens popular. Fortunately for the mosquito and unfortunately for the owner of the house—screens do not prevent or destroy insects. Screens hinder but mosquitoes will manage to get in and once in your home they try to feast on every piece of human flesh in sight. The trouble does not end with their boring holes in your skin and flesh, raising welts on your face and hands; they are well known carriers of disease germs and should be destroyed. Use FENOLE.

Fenole is Sold in Your Town by Geo. H. Fernald Hardware Co. Hill Hardware Co.

Fenole Chemical Co. Tampa, Florida

position of manager of the DeSoto Hotel in that city.

Having installed a first class vulcanizing plant at Geneva can take orders for all repair work. Tires left with Geneva buss will be returned promptly. Satisfaction guaranteed. L. M. Rheinder, Geneva.

To The Public Notice is hereby given that I am in charge of the property interests of Mrs. H. L. DeForest. H. C. DuBose, Agent. 86-5tp

Stop, Look and Listen! Did you know that you can get a china cabinet, bookcase, rattan lounge and other furniture for half price at 906 Myrtle avenue? Must be sold in ten days. 86-1f

### PEOPLE AND EVENTS

(Continued from Page 3)

**Red Cross Play** Among the delightful entertainments of last week the three one act plays given under the auspices of the Red Cross Association on Friday evening, directed by Mr. Edouard D'Oize and Mrs. Gretchen Schultz, householders were particularly fine and merited a crowded house. The audience showed its appreciation by frequent applause.

The first play entitled "Literature" was featured by Mrs. Housholder, Mr. D'Oize and Mr. S. N. Lloyd. The work of Mr. D'Oize, who is a popular favorite in Sanford needs no comment other than to say he was excellent as in each of the other plays. Mrs. Housholder, who promises wonderfully fine dramatic instinct was at her best and has never been seen to better advantage. The part of Margaret was difficult but she handled it with ease and sympathetic understanding. Mrs. Housholder is conceded to be one of the most talented of our local stars and on Friday night added new laurels to her fame as Mrs. Somers in the Mouse Trap, the comedy play on the program she fulfilled her reputation for excellence in comedy roles. Mr. Lloyd as Clement in "Literature" was especially good. He too, in fact each member of the three casts of characters, represent some of the best dramatic talent we have in Sanford, who never disappoint and always fulfill and often excel what is expected of them.

In the little role of the "Old Guard" Edouard D'Oize was at his best, playing the part with splendid dramatic force that held the audience breathless and keenly alert, as the tense situations developed. His support was clever and played up well to Mr. D'Oize's initiative.

Melaine, impersonated by Mrs. Billie Hill was adorable, and a lovely character in her devotion to the Old Guard. The other characters represented by Roby Lajng, George McLaughlin and Clarence Mahoney were all good. In the "Mouse Trap" was featured the fun of the evening, that excited appreciative laughter and applause. The situations were remarkably funny and the wide scope of a feminine scream in staccato and crescendo notes gave every opportunity for a frightened little mouse to make his getaway. The girls were charming and lovely in their pretty costumes and the acting was wonderfully clever. As Willis Campbell, Edouard D'Oize had his troubles all mapped out, with his incorrigible but lovely fiancee, Mrs. Somers. Miss Muriel Harold as Jane the maid, Miss Clarissa Starling as Mrs. Bemis, Mrs. Billie Hill as Mrs. Curwen, Miss Charlotte Hand as Mrs. Miller and Miss Ruth Kanner as Mrs. Roberts were parts well placed that gave excellent opportunity for the development of screams, frights and horrors and the ensemble delighted the audience.

The costumes were attractive and the stage setting good in all three plays. Sanford's young people have covered themselves with glory once more and Mr. D'Oize has added another success to his already long list of former successes.

**Death of J. W. Kersey** J. W. Kersey died at his home in Bostwick, June 17th. Funeral services were held at that place and interment in private cemetery at Twin Lakes Monday, June 18th, 1917.

The following in the T.-U. explains the sad accident which caused his death: Bostwick, June 29.—Jesse W. Kersey died here Sunday from burns caused by a gasoline explosion at the home of E. R. Conway on Saturday night. Mr. Kersey was filling his car with gasoline at the time, the explosion being started by a lantern, which had been placed on the front seat.

Mr. Kersey was the son of Mr. and Mrs. William J. Kersey of Walter, Clay county. He was born October 21, 1889, and graduated from Draughon's Business College in Jack-

sonville. Two years ago he was married to Miss Flora Pearson of Paola and came to Bostwick three weeks ago and bought land and intended building a home here.

The funeral services were held at Palatka Heights on Monday morning and the body was shipped to Twin Lakes near Sanford for interment. The deceased is survived by his wife and baby, father, mother, brother and sisters.

#### More Sanford Boys Enlist

The following letter from W. B. Schlereth, recruiting officer at Ocala will be interesting:

James F. Purvis and Wallace B. Lipford of your city were sent to Atlanta, Ga., June 20, 1917 for the U. S. Navy. Ocala Navy Recruiting Office is your nearest recruiting office, so please give all publicity you can. If impossible for men to call at this office they can see their postmaster or they can call on postmaster W. C. McLean at Orlando and I will come down and get them at Orlando, Fla.

Postmasters are allowed a bonus of \$5.00 for every applicant sent in by them. We take men who have registered. Other ages for enlistment are from 17 to 35. Navy pay has been increased.

#### NEW ROAD TO BEACH

**Highway Direct to Beach at Coronado Is Now Completed**

The new hard surfaced road from this city to the St. Johns river, giving a direct connection from the Atlantic Beach to the interior of the state is now practically completed and the people of the interior, who have long wished for a good road to the beach are now furnished with a splendid highway, leading straight from the end of the brick road in Seminole county to New Smyrna and the Atlantic Ocean at Coronado.

The final stretches of this highway form a part of the contract which was recently thrown up by Hamilton and the Atlantic Ocean at Coronado.

The final stretches of this highway form a part of the contract which was recently thrown up by Hamilton Johnson, but the county commissioners at their recent meeting made a new contract for the completion of the road with Akerman & Ellis and the finishing touches are being put on the road this week.

The last part of the road to be hard surfaced is a stretch just west of the city near the junction with the road to Glenoe. The shell surfacing is being placed there this week and the entire road to the St. Johns river will be in excellent condition by the 4th of July, when many people from Seminole, Orange and other counties will come to New Smyrna to help us celebrate the national holiday.

The new route gives the most direct route from Sanford to the Atlantic beach and the people of that city, Orlando and other interior cities and towns will greatly appreciate this avenue for a quick and easy trip to and from the beach during the summer months.

#### Rockingchair Window

One of the best window displays in Sanford is that of The B. L. Perkins haberdashery in the Imperial Theater building. The highly advertised line of Rockingchair underwear is displayed in this window with telling effect.

Miniature rocking chairs, flags and an intermittent electric light at night are used in the display in connection with the garments, making a very pleasing effect and attracting much attention.

#### Orlando Wants Marlowe

The Orlando Board of Trade today took action to file its protest with the railroad commission against the proposed increase of fifteen per cent in rates.

Action was taken to join the Sanford Board of Trade in sending its secretary, D. C. Marlowe to Tallahassee, to appear before the commission in person in protest against the proposed increase. Mr. Marlowe recently represented the commercial bodies of this section, and of the state of Florida, before the Interstate Commerce Commission in the hearing favoring the rate advance. Reporter-Star.

#### Methodist Church

Sunday school session, 9:30. Morning sermon, 11:00. A ten minutes meeting of the church at the conclusion of the worship. Intermediate League, 6:15. Senior League, 7:00. Evening worship and sermon, 7:45. Special program for the midweek service Wednesday evening, 7:45. next week.

It is earnestly desired that every member will be specially active during the summer season.

Every one not identified with a church in our city is cordially invited to any and all services of this church.

Plans are in formation to give the Wesley Bible Class Federation of the state a great time while in session in our city in the fall. Col. L. W. Duval, the president was in Sanford one day this week consulting with the pastor.

#### RED CROSS ANNOUNCEMENT

**Rummage Sale** A rummage sale for the benefit of the Seminole branch A. R. C., will be held tomorrow (Saturday) night.

All are invited to contribute articles for sale and everyone is invited to attend. Contributions may be sent to Mrs. A. D. Key for the sale or she will collect if notified by telephone.

The Seminole Red Cross branch wishes to thank the merchants who so generously contributed to the success of the fish fry at Woodland Park Thursday last, and also the committees who so earnestly worked for and upon this occasion.

Riley M. Fletcher Berry, Press Reporter Seminole Branch, No. Fla. Chap. A. R. C. 88-1tc

#### 'Scrawny Calves'

What makes a calf scrawny—off its feed? Germs—parasites—in the intestines. Why not free them of this trouble? If you will give the call some B. A. Thomas Stock Remedy in its feed, within a week you will see it brighten up and in four or five weeks you won't know the calf. Costs you but a few cents and we will refund that if it doesn't do as we say.

L. ALLEN SEED CO.

#### Presbyterian Sunday School

Next Sunday will be Memory Day on John in the Sunday School. This being the last day we spend studying the Gospel of John we will have a contest in memory on the Gospel. One or two interesting facts as the most widely known sections ought to be revealed at this meeting. A new feature occupies the closing exercises of this school every Sunday.

#### Presbyterian Church

A congregational meeting of the Presbyterian church is called for next Sunday immediately after the morning preaching service, for the purpose of electing an additional elder. Every member of the church is requested to be present at this meeting.

The psalter will preach at 11 a. m. and 7:30 p. m.

#### 240-Pound Pigs

With corn above 50 cts. hogs eat their heads off very quickly. The hog that takes two or three months to get on full feed never brings you a profit.

When you are ready to put your shoats on feed, begin with the B. A. Thomas Hog Medicine. Use regularly and watch your shoats round out into fat hogs in nine months—hogs going well over 200 pounds and as high as 240 pounds. Figure the average feeding and you will see why the B. A. Thomas medicine is a good investment. Try feeding out your hogs on this plan and if you are not more than pleased, we will refund the cost of the medicine. L. Allen Seed Co.

#### Unbelievable America.

In the chapter of Hugo Munsterberg's finished autobiography, published in the Century under the title, "Twenty-five Years in America," the Harvard professor tells some of the amusing misconceptions of America current in Germany a quarter of a century ago.

"The one, however, who brought me nearest to America was the historian Holst," wrote Professor Munsterberg. "In the lecture room his real life work was silenced. Who would care to study American history? But in the drawing room he did not talk of anything else; America and America again. Sometimes we had to listen to American stories through whole dinner parties. I do remember that at my first Freiburg party he reached his climax when he told the fascinated company that he had been in a hotel in New York where his room had a private bathroom in which he could have a hot bath at any hour of the night. The lady next to me relieved the dramatic tension by whispering, 'I do not believe it.' Well, no one believed much of what he heard concerning America."

#### Length of Wireless Waves.

In articles on wireless telegraphy such expressions as 200 meter wave lengths, 600 meter wave lengths, 15,000 meter wave lengths are constantly used. In reply to a correspondent who asks how the length of the waves is measured the Scientific American gives the following simple explanation: "The length of an electric wave is determined by a wave meter. The natural wave length of an aerial is four times its linear length, just as the wave length of a note of a closed organ pipe is four times the length of the pipe, and the wave length of the note

of a tuning fork is four times the length of the box which is resonant and the note. However, other considerations make it difficult to measure the wave length by a rule, and the wave meter gives a more correct result than can be found by measuring the length of the wire."

**Through Customer's Glasses.** "How much experience have you had behind the counter?" asked an electric shop manager of a young man who had just applied for a job as a retail clerk. "None," admitted the applicant, "but I've had a heap of experience as a customer."

The ability to put on the customer's glasses and see windows, cases and prices from the buying side of the counter is an asset that cannot be too highly valued. Every electric store salesman is also a buyer. He must purchase clothing, neckties and shoes. The electric man who can remember how other salesmen and clerks showed him their merchandise in a way that invited his interest and encouraged him to buy and who can apply these methods in his own everyday selling is the man who will contribute to the building of a clientele of satisfied patrons for his store.—Electrical Merchandising.

**Fragrant Wild Flowers.** Readers of the American Botanist have been trying to decide which is the most fragrant American wild flower, and their opinions on the subject exhibit remarkable diversity. In New England the majority give first choice to the pink azalea, with the white water lily second. There are many votes for the trailing arbutus; but, as the editor suggests, its fragrance is doubtless overestimated owing to the fact that it is the earliest fragrant wild flower of spring. Other candidates for the first place are the partridge berry, the common sweet-scented bladderwort, the yellow bell flower, and the

white bluebell. John Burroughs says, "In a warm moist atmosphere the odor is almost too strong," yellow jessamine, spotted wintergreen and some of the mimosas.

**Found in All Parts.** The nightshade family, Solanaceae, is a species, distributed over all parts of the earth and of first rank among plants in its value to man. The panic grasses, or genus Panicum, are by far the most numerous, having 300 to 400 species.

**Too Much.** "I thought you were going to sell that man an encyclopedia. He seemed interested." "He was too much interested. I couldn't spare the time to complete the sale." "How's that?" "He wanted me to tell him what was in it."

#### CLASSIFIED ADVERTISEMENTS

(Too Late to Classify)

For Sale—A Pitt generator in perfect condition, for Acetylene gas, several gas chandeliers, porch light and several bracket lamps, a gas plate, f stand lamp. All will be sold for \$60.00. S. M. Morse, Orange City, Fla. Box 165. 88-2tc

Wanted—A good trucker for 5 acres of high cultivated muck land in Orlando, conveniently located, within 15 minutes walking distance from center of city. New 5 room

house and bath, etc., city water over the place, also easy to lake water. Can be rented or bought. A rare chance for the right man. Write or see O. V. Zangen, 106 Court St., Orlando, Fla. 88-3tc

Mrs. Geo. Dickenson will dispose of all household furniture at half price for one week, including feather pillows and White Leghorn hens, 906 Myrtle avenue. 88-2tc

## Do Not Be A Slacker

Every one who has any sort of a yard can raise enough vegetables for his own table. A vegetable garden does not have to be a "Truck Farm".

Take part of your yard and lay off a garden of radishes, lettuce, carrots, peas and beans in straight rows. It takes less room and looks better.

It will pay you in the end to get the best seed. Also include a few tomato plants and a few cabbage plants.

Work in your vegetable garden as you use to work in the rose garden. The profits will more than pay you for the labor.

We Pay 4 per cent Interest on Savings Deposits

## COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS FOR THE HERALD

### WEKIWA ITEMS

Rev. W. J. Bartlett filled his usual appointment here Sunday, 10th. We were sorry to learn he is in poor health.

Monday night after a great deal of rustling about some of Wekiwa's boys turned up at the Holiday homestead with two nice-fat hens for a chicken pileau and although it was too late to cook the chickens the crowd enjoyed games and sandwiches and something out of the water bucket that would have been lemonade if it had had lemons, sugar and ice in it. Before the guests departed it was decided that at the next pileau the chickens would not be left under a tub.

Mr. and Mrs. W. D. Fillman are rejoicing over the birth of a baby boy on June 9th. The new soldier was given the worthy name of Robert E. Lee.

E. A. and A. M. Rush were agreeably surprised Friday evening, when their mother, Mrs. H. A. Rush of Lakeland stepped off the train for an extended visit.

Tuesday afternoon Miss Frances Holiday shot a large rattlesnake near the drain canal, half a mile south of the Wekiwa Post Office. It measured 6 feet 9 inches in length and 13 inches in circumference.

Saturday evening the young people decided it was time to cook the chickens which had been so carefully saved from Monday's pileau so getting a big wagon and team they all climbed aboard and went off through the woods to Mrs. Griffin's. On their arrival two of the boys made short work of the chickens and Mrs. Griffin soon had them cooking. She took charge of the cooking and every one did ample justice to her delicious supper. Feed lemonade was served throughout the evening and was quite refreshing in such warm weather.

### EAST SANFORD

H. G. Dietrich is in Richmond, Va., this week and was in Miami last week on business for the Virginia Carolina Co.

F. F. Dornier has gone to New York city to join his wife and little son.

Mrs. Paramore of Valdosta, Ga., is the guest of her parents, Mr. and Mrs. F. N. Estridge. Mrs. Paramore will be remembered as Miss Ola Estridge.

Mr. and Mrs. C. Boyce Bell and son, Wallace, and Mr. and Mrs. L. A. Brumley and sons, Willie and John left in their cars Tuesday morning for Charlotte, N. C., for a visit with home folks.

Irving Estridge has returned here after an absence of 5 years and will become a resident again, having rented the T. H. Johnson farm at Moore's Station. Mrs. Estridge is in Oxford on a visit to her home folks and will arrive here soon.

Mr. and Mrs. Harry Roberts and daughter, Bessie of Lake Helen were Sunday guests at the Ellsworth home, Wildwood Nook.

Mr. and Mrs. J. F. McClelland, Miss Edith and the three little people left in their Ford Thursday morning for a month's visit and trip to Okeechobee City and other points.

Mr. and Mrs. W. O. Duke, their young people and sister, Miss Duke are leaving in their car Saturday or their old home in Georgia and forty neighbors gave them a farewell party Wednesday evening, bringing refreshments to serve. A delightful evening was spent in visiting. The Dukes have made many friends here during their year of residence and all wish them success and happiness.

The celery delta is one vast corn field and well named the corn belt of Florida. The corn belt people of the north would be green with envy if they saw our corn fields standing on an average of fourteen feet tall and each stalk bearing its load of ears, with its beautiful green leaves.

### Entertaining the Carpenter.

Elsa felt it her duty to entertain a man who had been called in to do some carpenter work, and began by asking if he had a papa and a mamma. He answered by yes. Then she asked if he had any brothers or any sisters. He replied by saying he had three half-brothers and three half-sisters. After looking at him for a moment intently she said: "Be you the only whole one there was?"

## HOME GUARDS OF TAMPA

(By Con. O. Lee, in Tampa Times)

Some one has asked us in the course of talking Home Guard shop, "How can So and So stand with his heels together in the position of the soldier or attention?"

We don't know how such a thing would be possible. The gentleman in question is a booster from his tribbles to his onion—except his knees, which insist on knocking. But yesterday we bought a copy of the Home Guard Manual which says on page 17:

"Heels on the same line and as near each other as the conformation of the man permits" so anyone whose legs look like Madam X or a pair of ice tongs should worry! We are not going to play short stop if called on to fight, and it is headwork and heartwork that will count more than limb symmetry. Ruth St. Denis might not pick out some of us for first row choristers in her interpretation of Rameses, the cigarette fiend of Egypt but she might be glad enough to have us escort her to and from the Coliseum or the Tampa Academy of Music if the Fritzes were on the warpath in Florida! Old Lincoln when asked how high a soldier should be replied: "Just so tall that when he stands up both feet touch the solid earth!"

Particularly would we call attention to the ladies of Tampa and vicinity to the good work we are doing and ask them to encourage us. To the credit of some few wives, sweethearts and daughters (maybe they were grandchildren for that matter) he it said that they have come out to look at us on previous drill nights and we think that they weren't sorry for what they learned.

If we shall ever be called on to do anything in the line of defensive work we want to know how to do it. It isn't a thing we can cram in short order and there may at that be some recruited from our ranks for duty in the officers' reserve corps. Some of us could qualify on age anyhow and perhaps on tactics also before much longer.

This business of "Letting George Do It" may be all right if there are enough Georges to go around, but if he should be drafted it is pretty good dope to learn his lines so as to act as his understudy if the opportunity arises.

You can see the difference in some of us already. We have to take our

belts in two inches more and the buttons of coat and shirt will have to be removed to make more room or else we will have to buy another coat and shirt. We are thankful to say that our hat still fits and our feet still touch the ground.

Wonder how this Home Guard movement hits the hyphenates?

Public opinion is a wonderful thing in this country. About a year ago in Old Chi there were parades for Teddy and parades for Hughes and some for Wilson in St. Louis and then we locked horns in what some people thought meant the Civil War come to life again and multiplied by ten. But our battle in November was "one of ballots, not of bullets" and we have saved the latter to back up the man whom the majority chose as their president.

Reminds us for all the world of the college football games.

Eleven huskies, the pick of one college battle for two hours or thereabouts with eleven Sandows, cream of a rival institution of learning, using brain, brawn, strategy, and when necessary even profanity and abuse of the officials, but when the game is over, before the referee's final whistle is silent, the defeated team gathers in a circle and gives three cheers for their successful opponents and the latter return the compliment for their defeated antagonists. We simply choose up sides every four years for President and the man elected is boss and the ends—it.

One brave youth who didn't have to register asked us why we went into the Home Guard remarking that we might be called on to bear arms yet. We told him we could think of many worse things happening to us, and when he asked for an illustration our reply was that if anyone could truthfully say we were a coward it would be the worst thing we could imagine at the moment.

Not only the Home Guard enthusiasm, but the sale of Liberty bonds will prove that there are quite a few real Americans yet. An over subscription of about 50 per cent demonstrates the confidence the American people have in their country and its resources.

Personally this should make us feel glad.

It should show that there is still enough money in the country to get us our uniforms.

ted, knit to the last three stitches, knit 2 together, knit 1 on the third needle, knit 1, slip 1, knit 1, pass the slipped stitch over the knitted one, knit to the end of the needle.

Knit one round plain.

Repeat from \* until the toe is reduced to 24 stitches.

Divide the instep and foot stitches equally on to 2 needles.

Turn the sock inside out and cast off the two needles together.

Ruth Rich,

Director Branches and Aux.,

Jacksonville, Fla.

### Ocala Votes Bonds

Kissimmee, June 18.—The county commissioners met in special session Monday to canvass the returns of the \$100,000 bond election held Saturday, which was being voted to provide the "missing link" in the Central Florida highway through the state, a twelve mile stretch from Kissimmee to the Polk county line.

The bonds were found to have been carried by a vote of 188 to 23. A number of prominent citizens, among whom were H. C. Stanford, J. M. Lee, C. W. Ward, Z. Bass, H. E. Swabey, Milton Pledger and J. E. Luper, appeared before the board, asking that work be commenced on this much needed improvement at the earliest possible date, as December 15 is the limit for the completion of the road in order to keep the pledge with the highway association.

C. W. Ward cited the fact that building good roads means much to state development, but in these times it has assumed a national importance.

Messrs. Stanford and Lee strongly urged all possible haste in this matter, as other cities were eager to grasp Kissimmee's opportunity. Commissioner E. D. L. Overstreet represented the board when he assured the citizens that no time would be lost in fulfilling the pledges to the people in regard to this road.

### Variable Tides.

On the West Australian coast the tides are so variable that it is not an uncommon sight to see vessels high and dry at their piers. In the Bay of Fundy the spring tides reach a height of 00 or 70 feet.

### Jural Result.

"So they are going to probe the situation. What will happen then?" "Then you'll know for certain there is nothing to be done about it."

### No Doubt of It.

When a bachelor declares that he is wedded to his profession it's doubtful to judge the right woman can make him commit matrimony.

### Beating Nature.

Nature requires about six weeks to make a loaf; but a good imitation can be made in a few seconds. By using a clamp of ingenious construction, with bronze and plaster molds, a turturist can make artificial foliage of any description.

## DIRECTIONS FOR KNITTING

Rules For Red Cross Workers in Making Necessary Articles

### To All Branches and Auxiliaries:

In response to frequent requests for information regarding articles which may be knitted for the American Red Cross, below is given a list with directions, and it is suggested that you request newspapers in your community to publish this bulletin that all knitters may supply themselves with directions.

**Knitted Wipes or Sponges** (Substitutes for gauze sponges). (30 dozen or less.)  
Directions for knitting, etc.:

Dexter knitting cotton, No. 8, three ply.

U & K knitting cotton No. 10, three ply or equivalent.

Knitting needles No. 5, Ambet or equivalent.

Cast on 35 stitches. Knit two ribs on one side and one rib on other cover and back is one rib).

Knit one stitch, put the thread around the needle, knit next stitch and repeat to end of row.

Knit the knitted stitch, drop the thread around the needle and repeat to end of row and repeat instructions until you have ten of the double rows and nine of the single larger mesh rows and finish. (One dozen each package.)

**Wash Cloths** (60 dozen)  
Size—10 inches square.

Material—Knit or crocheted from cotton yarn, or made from old Turkish toweling, heavy towels or counterpanes. Directions for knitting, 8 or 10 three ply knitting cotton may be used; 61 stitches, No. 4 needles, knit about 10 inches square.

**Knitted Bed Socks**  
Materials required: Worstet knitting yarn, I-hank.

1 pair bone knitting needles No. 4. Cast on 60 stitches. Knit 2 stitches, purl 2 stitches all across row. Repeat for 17 inches long. Then knit 1 row, purl 1 row, knit 1 row, purl 1 row. Knit 1 row narrow (by knitting 2 stitches together) every 5th stitch. Purl 1 row, knit 1 row. Purl 1 row. Knit 1 row, narrow every 4th stitch. Purl 1 row, knit 1 row, narrow every 3rd stitch. Purl 1 row. Knit 1 row, narrow every

2nd stitch. Purl 1 row. Knit 1 row. Narrow every second stitch. Then bind off and sew up with worstet.

### Socks

Materials required: Six oz. 4 ply yarn. Four No. 11 knitting needles. Cast on 60 stitches, 20 stitches on each of three needles.

Work in rib of knit 2 and purl 2, for 32 rounds.

Work 11 inches in plain knitting with no shaping.

For heel put 30 stitches on the first needle, then equally divide the remaining stitches (required for the instep) on the second and third needles—both of which should be left until the heel is finished.

On the 30 stitches knit, alternately plain and purl, 30 rows, always slipping the first stitch. To turn the heel, knit 18, slip 1, knit 1, pass the slipped stitch over the knitted, turn, purl 8, slip 1, knit 1, pass the slipped stitch over the knitted, turn, purl 8, purl 2 together, turn, knit 8, slip 1, knit 1, pass the slipped stitch over. Continue working in this manner until all the stitches are worked in, leaving the 9 stitches on the needle under the heel, knit the 2 center stitches together.

For the instep, follow on with first needle, and knit up 13 stitches on the side of the heel; knit on to the second needle the 30 stitches which are left for the instep when commencing the heel; then, with third needle, knit up 15 stitches on the other side of the heel while adding 4 from the first needle.

Knit 2 rounds plain, then begin the decreases, knit the 3rd and 4th stitches together from the end of the 1st needle, and, on the third needle, knit 2, slip 1, knit 1, pass the slipped stitch over the knitted. Do this in every third round until there are 15 stitches on each of the first and third needles. Knit without shaping until the work measures 7 inches from the heel.

For the toe, knit to the last three stitches on the first needle, knit 2 together, knit 1; on the instep needle, knit 1, slip 1, knit 1, pass the slipped stitch over the knit-

## ROCKINCHAIR UNDERWEAR

### Why is it Called RockinChair?

### ABOUT PEOPLE AND EVENTS...

#### A RESUME OF SANFORD HAPPENINGS UP TO DATE

Address all Communications for this Column to "Society Editor," or Phone Mrs. E. A. Terhoun, Phone No. 291

##### Wright-Johns Nuptials

A wedding of great beauty and social interest was solemnized on Wednesday evening at 8 o'clock at the home of the bride's uncle and aunt, Dr. and Mrs. R. E. Ware, when Miss Blanche Johns and Mr. Mahlon Wright of Sanford, Fla., were covenanted in marriage in the presence of a large concourse of friends and relatives. In the spacious Ware home on this happy occasion, the effect was one of perfection of arrangement and elegance. The bridal colors were pink and green as emphasized in the gowning of the maids and in the lovely floral decorations. White and green, however, formed the color note for the bridal room. Before an altar of handsome ferns, arranged in pyramid form, showing the work of a skilled artist, and white pedestals twined with ivy, upon which rested silver cathedral candelabras with lighted tapers, the whole outlining the half circle for the bridal party, the vows were spoken. Rev. Dr. W. R. Ware of Statesville, a brother of Dr. R. E. Ware's performed the ceremony. The gift room in which many handsome presents were on display was also in white, while in the dining room pink was beautifully in evidence.

Just before the ceremony a delightful musical program was rendered. Miss May Kendall presiding at the piano. Miss Mabel Quinn in her rich voice sang "Schubert's Serenade," while Mrs. J. B. Rendleman of Salisbury sang with beautiful effect, "At Dawning."

At the appointed hour, sounded the notes of Lohengrin's wedding march, the bridal party entered. Miss Mary McGuire, of Nashville, Tenn., led the procession, making a pretty picture as she descended the vine clad stairway, being met at the lower step by Mr. Jack Dover of this place. Miss McGuire was beautifully gowned in pink satin with tulle and iridescent trimmings, and carried sweet peas tied with pink tulle. Following came Miss Ruth

Mundy of this city, with Mr. J. R. Wildman of Chase City, Va. Miss Mundy wore a handsome creation of pink satin with silver lace trimmings, carrying sweet peas.

Master Baxter Childs, the son of Mr. and Mrs. E. T. Childs of Wadesboro as ring bearer, handsome in a white suit, preceded the bride, carrying the ring hidden in a pure white lily.

The groom with his best man and brother, Mr. J. C. Wright of Hartwell, Ga., entered from the dining room and awaited his bride at the altar.

The bride descended the stairs on the arm of her maid of honor, Miss Lois McGuire of Nashville. The latter, a pretty brunette was a charming picture in the dress of Nile green meteor, with tulle and iridescent trimming. She carried a shower bouquet of roses.

During the ceremony Miss Kendall rendered softly, with lovely effect, "To a Wild Rose." The bride wore an elegant gown of soft white satin, with overdress of georgette and trimmings of real lace and pearls. She carried a shower bouquet of bride's roses and valley lilies, and encircling her head was a wreath of exquisite orange blossoms to which the veil of tulle was fastened.

Immediately following the ceremony an elaborate reception was held, and during the reception hours hundreds of callers paid their respects to the bride and groom. A delicious ice course was served in the dining room while refreshing punch was dispensed in the rear hall.

Assisting Dr. and Mrs. Ware and the bridal party in receiving were Mrs. C. R. Hoey, Mrs. P. L. Hennesa, Mr. and Mrs. Chas. Washburn, Mrs. J. H. Quinn, Misses Mabel McBrayer, Della Stamey and Elaine Hamrick and the members of the Ishpeming club, of which the bride is a valued member.

Mr. and Mrs. Wright left immediately after the ceremony for Washington, D. C.—Cleveland Star.

The young bride and groom are well known in Sanford, where Mr. Wright is an efficient employee of the postoffice. Mrs. Wright spent her childhood in Sanford and is the step-daughter of Mrs. J. E. Pace.

Mrs. Pace will entertain at the Woman's Club on Tuesday afternoon in honor of Mrs. Wright.

##### Society Editor Welts

Because of the pernicious influence and activity of a certain very vagabond, known to fame as King Cupid, the Times this week loses the most valued member of its staff, Miss Cornelia Frances Magruder, society editor, retiring to wed a very estimable young business man, Mr. William C. Sessions.

Miss Magruder has occupied the important position for more than eight years, during which time, it is needless to state she became one of the paper's most valued assets, while at the same time endearing herself to all members of the staff and the people with whom she came in contact.

The position of a society editor is a difficult one, requiring an unusual degree of tact as well as literary ability, and in her work Miss Magruder has not only proven her ability as a newspaper worker, but has at the same time reflected with honor upon the term "gentlewoman."

Members of the staff, from the editor to the "devil," wish her much happiness, although they are "kinder het up" because she has deserted them. And it is but right to state that they have vowed vengeance upon that despicable wretch, Cupid, and "Billy" Sessions.

Miss Magruder is succeeded by Miss Rebah Roberts, a Tampa girl, whose talent is evident, and well, the Times feels safe in predicting that she will prove another "Connie Magruder."

What more could any newspaper or the society public ask? And if Cupid should attempt another sortie against our society department, we feel sure that "finis" will be attached to his record.

The traitorous slacker!—Tampa Times.

##### Girls Are to Wear Overalls

The fashion editor of the Woman's Home Companion says in the July issue:

"Something is going into the summer girl's trunk this year that has never gone into it before! Have you guessed already that it is 'overalls,' and that she has taken the hint from the busy, capable women in Europe who have been doing men's work since the war started?"

"The American girl is a level-headed young person, and when she is planning her clothes she considers carefully their appropriateness.

That's why she is looking with favor this summer on the new overalls for women that have just been put upon the market.

"The shops are displaying them in cool, durable materials selected purposely for summer wear. They come in percale and denim in solid colors, and in most attractive stripes, and also in the very durable khaki shade. The consist of an easy to get into coat, and overalls which are full enough to suggest in themselves that they will be donned not by mere man, but a very feminine young person."

This sensible style for working clothes is already being adopted in Ocala by some who have their own gardens and do their own canning.

##### Off On Their Vacation

A congenial party leaving Sanford on Tuesday morning in their motor cars for various points in Georgia and North Carolina were Mr. and Mrs. L. A. Brumley and sons, Mr. and Mrs. C. Boyce Bell and son for Charlotte, N. C., Mr. T. I. Hawkins, Miss Annie Hawkins and Mr. and Mrs. T. J. Siphon for Commerce, Ga.; Col. and Mrs. A. K. Powers and childrean and Miss Bessie Zachary for Wallace, N. C.

##### The C. O. O. Club

At the home of Miss Lucille Rines last Friday afternoon the latest addition to Sanford clubdom was organized by seven fair graduates and the name of the new club is C. O. O. Now that name is a secret, so the girls say, but it really does mean something very, very nice. Among the things planned that the club will do this summer is an obligation to read first class literature, the best books, new and old and to keep abreast of the times by discussing the topics of the day. No, not gossip, but the real live issues of these turbulent times. The club will meet regularly once a week at the home of the members and the membership will be limited to seven. Light refreshments were served and a very delightful afternoon was enjoyed.

Comprising the personnel of the club are Misses Lucille Rines, Marion Gove, Ruth Kanner, Annie Anderson, Katherine Aycocke, Ruth Steinmeyer and Ruth Hand.

##### Every Week Bridge

Mrs. S. E. Barrett delightfully entertained the Every Week Bridge Club on Wednesday afternoon with Mrs. R. R. Deas, Mrs. A. P. Connelly and Mrs. Geo. D. Bishop substituting for absent members. The prize was won by Mrs. Norma King McLaughlin. Next week's game will be played at the home of Mrs. W. J. Thigpen.

##### Personal Mention

Mr. and Mrs. W. J. Thigpen have returned from Baltimore and Washington.

Raymond Philips is spending several weeks at the Y. M. C. A. Conference at Blue Ridge, N. C.

Mr. and Mrs. J. S. Wilson left on Wednesday in their new Oldsmobile for Jacksonville from which point they will sail on the Somerset for Baltimore. From there they will motor over the mountains to Pittsburgh, later going to Michigan for the apple season. Mr. Roy Chittenden accompanied them. Mr. W. P. Stone motored with them to Jacksonville.

Mayor J. D. Davison is spending some time at the Breakers at Daytona Beach, enjoying the ocean breezes and the deep sea fishing.

Miss Zita Davison is spending the month of June with Mrs. J. B. Little at Daytona Beach.

Mr. and Mrs. Sheridan Jewett are among Sanford folks enjoying ease and comfort at the Breakers. They will spend several weeks at the Beach.

Mrs. Zeb Ratliff and Mrs. D. G. Monroe left yesterday for Daytona Beach. They will enjoy life at the Beach.

Mrs. J. W. Dickins, who went to Lawtey last Sunday for a meeting of the Florida Federation Board of Managers, Mrs. Dickins being recording secretary, returned yesterday after a short visit with friends in Jacksonville.

Mrs. E. E. Cox is spending a few weeks pleasantly with friends in Lakeland and Tampa.

Mrs. M. C. Savage left on Thursday for Jacksonville en route to Baltimore where she will spend the balance of the summer.

Mr. and Mrs. James English and daughter of Clearwater are the guests of Mrs. Geo. C. McDougal.

Miss Mary Barlow and brother, Ralph have returned from a two weeks visit with friends and relatives in Jacksonville and Baldwin.

Mayor and Mrs. Scott Beaton and daughters and Mr. Carleton Timmer left Tuesday for Waycross after a pleasant visit to Mrs. G. C. McDougal and family.

Mr. and Mrs. Henry Wight and family have come over from Daytona Beach for several days at home.

##### BAR OUT PROFESSIONALS.

Will Prohibit Football Coaches From Acting as Officials.

James A. Babbitt of Haverford college, chairman of the central football board, to which is designated each year the task of appointing and assigning officials for the intercollegiate games, has written a letter to David C. Morrow, the Washington and Jefferson assistant coach for next year, that the board will not hereafter appoint as officials football men who are engaged in coaching.

Morrow, as well as a number of the old stars who have been officiating in recent years, is requested, in view of the fact that he is to engage in coaching next year, to withdraw his name for the present from the official list unless he expects to officiate regularly.

The central board, Dr. Babbitt says, is revising, correcting and bringing up to date its list of officials, which it hopes to make the best the coming season it has ever presented. It is pointed out that approximately but 1,000 appointments are to be made during the coming season throughout the country, and for this reason it is hoped to have only men of known ability and those who can be counted upon to fill any appointment at any time.

Men engaged in coaching, it is shown, would be unable at times to fulfill engagements to which they might be assigned. Last year, Dr. Babbitt says, numerous changes in the original assignment list were made necessary through appointees canceling engagements shortly before important contests because they were tied up by the duties in connection with coaching positions they had assumed. The committee desires to avoid any such complications the next season.

##### PENN TO CONTINUE SPORTS.

An Army Officer Will Be In Charge of All Athletics.

Athletics at the University of Pennsylvania are not to be abandoned because of the war. Instead the board of directors of the athletic association has decided that every form of athletics will be continued, but with every athlete under the military supervision of Major William Kelley, U. S. A. This course seems to be the most sensible yet adopted by a college in reference to sports and the international situation.

All the athletic teams are to be kept intact, it was announced, and the schedules for all will be played out as far as is possible. A number of cancellations are looked for, but the authorities do not expect that they will be sufficient to seriously affect athletics at Pennsylvania.

##### CUBS RELEASE YERKES.

Second Baseman Has Been Sent to Indianapolis Club.

Steve Yerkes, second baseman of the Chicago Cubs until Larry Doyle was obtained in the trade with the Giants, was released to the Indianapolis club of the American association.

Yerkes was with the Boston Red Sox and the Pittsburgh Federals before going to the Cubs. Last season he was in Atlanta for a time before joining the Cubs.

Their Class.

"The submarines can't run a vessel, can they?" "Of course, they can't be run while they're afloat, can they?"

Correct.

Teacher—"What is an unknown quantity?" Bright Boy—"What you get when you buy a ton of coal."

**Invented Hansom Cab.**

The inventor of the "hansom cab" was Joseph Aloysius Hansom, who was born in New York in 1803 and died in London in 1882. He registered his "patent safety cab" in 1824, and it is said, received only \$1,500 for his invention.

**Ought to Be Enough.**

According to a lately issued edition of a dictionary there are now 450,000 words in the English language.

**Yes, Indeed.**

A friend in need is the one we're pretty apt to take the other side of the street in passing.

##### Kerosine & Crude Oil Engines

Lyon Mfg. Co., 40 South Fifth St., Brooklyn, N. Y.

### Perils of Constipation

Constipation is the great menace to good health. It comes from a sluggish liver. If neglected, it leads to a train of physical suffering. When you get up with a bad taste in your mouth or a coated tongue, or if you have sick headache, indigestion, or a tired feeling that indicates biliousness, you should take a dose of so of Martin's Liver Medicine. It is much better than calomel and just as effective. This Medicine acts gently on the liver and bowels and produces no disagreeable after-effects. It is thoroughly guaranteed and highly recommended for children and babies as well as adults. Keep a bottle of it ready in the house as a safeguard against stomach and bowel disorders. It will keep your liver in good active condition and if your liver acts properly, you will not be afflicted with constipation. Large bottle 50c. For sale by R. C. Bower, Sanford, Fla.

# WE SPECIALIZE

"If a man write a better book, preach a better sermon or build a better mouse trap; no matter if he builds his house in the wilderness, the world will make a beaten path to his door."

—Emerson.

Things have grown larger but have not changed from yesterday. Today, people listen for the best. They are a reading people and are constantly looking for the best.

You invite them to your door through advertising. You must hold them with your product.
