

County Board

(Continued from Page One)
younger man such as Mr. Parrish could ably handle the position.
J. A. Neal of Bear Lake pointed out to the Commission the need of road signs on each of the Bear Lake Road near Forest City to warn motorists of danger when the road is wet and slippery.

A request by B. B. Crumley for a new road from South Melville Avenue to Silver Lake near the boy scout camp in order to serve residents in the area was taken under advisement.
Frank Meriwether, who has purchased the former City Airport at Timberville, and who wishes to use the area for cattle grazing, said he would fence it temporarily but in such a way that Mr. Crumley and other residents will not be blocked out. The Commission took Mr. Crumley's request under advisement.

Rail Unions

(Continued from Page One)
various phases of railroad operations, including length of train, size and number of crews, work assignments and appointment of supervisory personnel.
The five unions, in a separate action last week, formally demanded a 30 per cent wage increase, with a minimum hike of 33 a day. D. P. Loomis, Chicago executive director of the Association of Western Railways, estimated the wage boost, if granted, would add \$400,000,000 to rail transportation costs a year. The changes have been the subject of discussion with the carriers for several years and disagreement with the unions last year led to a nationwide rail strike in May. The walkout, however, ended in intervention by President Truman.

Union spokesmen said when the wage demand was made that it would be "dealt with aggressively" when negotiations on the rule changes open. It followed the recent award of a 16 1/2 per cent hourly pay raise granted a million non-operating workers by an arbitration board named under the National Railway Labor Act.
The unions involved are the Brotherhood of Locomotive Engineers; the Brotherhood of Locomotive Firemen and Engineers; the Order of Railway Conductors; the Brotherhood of Railroad Trainmen; and the Switchmen's Union of North America.
Some of the 44 rule changes have been sought previously in at least a few state legislatures as safety measures.
Many of the requested provisions are modifications of existing rules but a few would bring about entirely new conditions of railroad operations.

Meatless Tuesday

(Continued from Page One)
Traders said the new margin requirements, now placed at 33 1/8 per cent of the price of the grain and substantially above the rates which have been in effect, apparently had no effect on early trading. The increased margins were requested by the Department of Agriculture recently and by President Truman in his radio speech Sunday night. In Detroit, bread prices were raised a cent a loaf today, and their were indications other cities also would get a bread price boost.

However, mills serving the New York metropolitan area announced reductions of 10 to 40 hundred pounds in wheat flour prices and 40 to 55 cents in rye flour following sharply lower cash wheat and rye markets Saturday and again yesterday.
Live hog prices varied today at different markets. At Chicago, hog trades were slow and prices were about 30 cents lower in early trade, with the top price at 19 1/2 a hundred pounds.
A Chicago price advance yesterday which boosted the average price of hogs to a new peak of 24.01.

In the east St. Louis market, however, hogs were active and prices to 25 cents higher.
Dairy prices continued to drop. In the New York wholesale market, Grade AA fell 4 cents to 17 1/2 cents a dozen of 7 1/2 lbs. a dozen of 7 1/2 lbs. from a week ago yesterday.

Partition Opposed

(Continued from Page One)
which split all British India into two dominions, one with a Moslem majority, and the other with a great preponderance of Hindus.
Sir Zafullah spoke for one hour and 53 minutes.

Without mentioning communal strife between populations of the country and the Dominion of India, the Pakistan delegate declared that Palestine "partition will serve to increase the strife rather than to allay the conflict."
His delegation already had charged twice in the Assembly's legal committee that "thousands and hundreds of thousands" of persons were being "butchered" along the Indian partition lines for no other reason than that "they belong to a different faith."

He deputed a major part of his speech—the only one on Palestine today—to a detailed review of Palestine history under the League of Nations mandate which Britain held for the past 22 years. He sharply criticized Britain on almost every major Palestine move.

LAKE SUCCOTHEE, Oct. 7, 1947—The British government has accepted consultations to fix a date for withdrawal from Palestine, informed British quarters said today.

These quarters said this question was now being considered urgently by British officials in London and British administrative and military leaders in Palestine. The actual date of withdrawal may be announced before the end of the present session of the United Nations Assembly, it was said.

The same sources, explaining that complete British withdrawal would be contingent on failure of the Assembly to find a solution acceptable to both Arabs and Jews, said Britain had not completely abandoned hope that agreement could be reached.
The British informant said Britain planned no further statement of policy on the Palestine problem beyond the announcement of the withdrawal date. He said Britain would not take an official stand on the plan to partition the Holy Land.

The main interest still centered on the expected declaration by the United States and Russia later in the week, probably Thursday. The delegates were generally agreed that the success of any plan would depend largely on whether the big powers, particularly the United States, were prepared to provide force to implement it.

Meanwhile, the Assembly's fight over the Greek-Balkan question broadened into what some delegates saw as the beginning of wide open ideological struggle in the United Nations between Russia and the western powers.

Russia's Deputy Foreign Minister Andrei Y. Vishinsky brought the fight into the open late yesterday with a bitter attack on the capitalist system. His attack was linked immediately with the new Communist manifesto issued Sunday night in Poland following a secret conference of leading Communists from nine nations.

Vishinsky made no direct reference to the new world Communist campaign against "dollar imperialism," the general theme of his attack was similar to that in the manifesto.
Vishinsky said capitalism now was entering its highest stage of decay, "involves tendencies aiming at domination, annexation and hegemony" and "results in the growth of resistance among the peoples."

Vishinsky, turning to the Balkan question, charged the United States already had destroyed the independence of Greece and was transforming that country into "a military base of the U. S. A."
He called on the Assembly to demand immediate withdrawal not only of all foreign troops in Greece, but of all instructors, advisors and "so-called experts" as well. This would affect all U. S. personnel in Greece in connection with the American aid program.

State Department

(Continued from Page One)
those "fired" now stands at ten employees.
In addition, it is understood that an undisclosed number of others have been allowed to resign during the last year.
Those allowed to resign are out of the State Department, but the technicality of not having been "fired" leaves them eligible, so far as the records go, for employment in other government jobs.
Those "fired" are ineligible for any other government job.
The department security rules as published today provide that where a "reasonable doubt" exists as to whether a suspected employee is associated with a group or organization advocating "treason, subversion, or sedition," the department will be given the benefit of the doubt and the person will be deemed a security risk.
Violations of the department's security regulations may also be considered along with "habitual drunkenness, sexual perversion, moral turpitude, financial irresponsibility or criminal record."

IN THIS EXCELLENT action picture, Al Giofriddo, Brooklyn outfielder, is shown making the most spectacular catch of the World Series—a catch that probably kept the Yankees from winning the sixth game. Joe DiMaggio had slammed out a 416 foot drive, almost to the exit gate of the Yankee Stadium. Two men were on base. Ordinarily, this would have meant a homer and a score of three runs. But Giofriddo, as the picture shows, chased the ball to within a foot of the grandstand and nabbed it with a fine hand catch. (International Soundphoto)

Judge Ware

(Continued from Page One)
matter of salary and docket fees as Judge of the County Court is now the only matter under consideration.

In 1917 the legislature enacted a statute setting the salary of the Judge of a County Court at \$1200 a year when the population of that County reached 22,000. In 1923 the County Court of Seminole County was created by a General Act with a local application applying only to Seminole County—and set the salary at \$500 a year plus a docket fee of \$3 for each case docketed.

"At the end of each month this office, as the other county offices, present a written bill stating the work and the charge made to the County as County Judge, which is only for instantly hearings and warrants or commitment hearings, and as Judge of the County Court he makes a list of each defendant against whom an information has been filed and presents that bill to the Board of County Commissioners with a charge of \$3 which has been or will be paid, usually by the defendant.

"At the end of each year he summarizes all of these reports for the 12 months past and in addition thereto shows the fee for every service he has rendered as County Judge and further shows what he has paid out during the year and for what some of the bills one copy with the Board of County Commissioners and one copy is sent to the Comptroller General. These reports are recorded in the minutes of the County Commissioners and after being recorded they are public records for inspection by any one at any time, with or without a reason.

"All County Officers' books are audited by the State Auditor and Seminole County offices were audited in Jan. 1, 1947.

Price Debate

(Continued from Page One)
in buying for export has bought at the most inopportune times with most blatant publicity."

Taft, giving high income as another reason for high prices, said "the Administration insisted on a general wage increase pattern, adopting the extraordinary theory proclaimed by Henry Wallace, Department of Commerce expert and CIO that you could have universal wage increase of 20 percent without increasing prices."

"I have this 'simple provision' before me," O'Mahoney said. "It is the 'simplest rest-plus-profit' list amendment. It would take five minutes to read it and five hours to explain it but it would set price control because it was an attempt to make the government guarantee a profit to manufacturers and processors. The manufacturer and processor, in whose interests Senator Taft drew this price fixing formula, are now reaping the profits he was so anxious they receive. The New York Stock Exchange tells us that the food processors whose stock is there the first six months of 1947 more than 21 percent greater than their net income in the first six months of 1946. Quoting the Ohio Republican again as having said at Tallahassee, 'perhaps we have more monopoly than we should have,' the Wyoming Democrat concluded: 'That, Senator Taft, is the real source of our difficulties. We do have monopoly and it is the monopolists who fix the prices the people must pay.'

Attlee Shake-up

(Continued from Page One)
brought public objections from the leftwing.

The "strong men" of the cabinet—Foreign Secretary Ernest Bevin, Minister of Economic Affairs Sir Stafford Cripps, Deputy Premier Herbert Morrison, and Chancellor of the Exchequer Hugh Cator—were not expected to be affected.

Meanwhile the British Foreign Office announced that Russia had agreed to a Big Four foreign ministers council Nov. 25 for a second attempt to write a German peace treaty, which may provide a crucial test of world cooperation.
A spokesman for the Foreign Office at the same time declared the manifesto issued by Communists of nine European nations, calling on their supporters to resist "United States and British imperialism," represented "a clear deterioration of the international situation."

The spokesman said the creation of what the Communists called an information bureau in the Yugoslav capital of Belgrade was "the official recognition of the Comintern," the Communist agency devoted in the past to world revolution.

The manifesto was sharply critical of Prime Minister Attlee and Foreign Secretary Ernest Bevin. The Foreign Office comment came only after 24 hours of study.
The Italian Communist Leader Luigi Longo denied in Rome that the information bureau constituted

a Comintern—an abbreviation for communist international which the Russians asserted was disbanded in May of 1943, when German armies were deep in Russia and the Russians had let supplies flow freely into the Soviet Union.

Longo said the bureau stemmed from a growing danger of war. Two agreements and two agreements were signed yesterday in London as Big Four deputies deliberated disposition of Italy's pre-war African colonies.

They agreed to:
1. Hear claims of Italy, Ethiopia and Egypt before making any final decisions.
2. Send investigators to each of the colonies—Eritrea, Italian Somaliland, Tripolitania and Cyrenaica—before making disposition.

They disagreed over:
1. What other nations should be consulted, beside those with territorial claims, before making final decisions. Britain favored hearing any nation which wanted to be heard. The United States thought only those who fought with the Allies in the African campaigns should be heard. Russia proposed that any nation which signed the Italian peace treaty should be heard. France sided with Russia.
2. How many commissions of investigators to send to the colonies. Russia proposed sending two, one to Eritrea and Somaliland and one to Cyrenaica and Tripolitania. The other three

powers thought one commission was enough for all.
The big four powers have until Sept. 15, 1948, to decide upon disposition of the colonies. After that it becomes a United Nations problem.

LIFE ON THE FARM
FARMERS—planning and otherwise—are making a lot of news these days. Maybe this is intended to take our minds off soaring prices of foodstuffs.

For instance, one dairy farmer advocates playground in the barn for cows. This brings up the question—what games does a cow play?

Poor old Santa Claus—he may now have to make a side trip to the barn on Christmas Eve to drop a bag of toys for Bossy.

Broadcast October 4, 1947.
1 cup sifted all-purpose flour 1/2 teaspoon salt
1/2 cup sugar 1/2 cup butter
2 teaspoons baking powder 1/2 cup milk
1/2 teaspoon cinnamon 1/2 cup sugar
Grease a heavy 9-inch skillet. Cover bottom with 4 layers of heavy brown paper cut to fit. Grease top layer of paper. Sift together flour, 1/2 cup sugar, baking powder, 1/2 teaspoon cinnamon and salt. Mix together egg, milk, water and shortening. Add, all at once, to flour mixture; mix quickly but thoroughly. Pour into prepared skillet. Sprinkle with mixture of remaining 1/2 cup sugar and 1/2 teaspoon cinnamon. Cover; place over very low heat 30 min., or until firm to the touch. Lift out carefully; remove paper at once. Decorate, if desired, with shelled walnut halves. Serve warm or cold. Makes a 9-inch cake.

## Truman Asks Women To Aid Food Program

### President Declares Success Or Failure Depends Upon Support Of Women

WASHINGTON, Oct. 8 (AP)—President Truman said today that American women can make "an invaluable contribution" to the welfare of the nation and the world by "wholehearted support to our food saving program."

In a nationwide radio address in connection with Democratic Women's Day, the President said also that women have a "great opportunity" to make their "wholehearted influence increasingly effective" in building a better world "by the full use of your power at the ballot box."

Mr. Truman said the responsibility for the success of the food saving program "rests very largely with the American housewife."

"She is an indispensable fighter in our war against hunger," he went on. "The American housewife has never failed her country when she has been called upon to sacrifice in its interest. I know that she will not fail in the great task now before us."

If the women of America, he went on, "exert the tremendous moral force for good which they possess we shall make greater and more lasting progress in overcoming other difficulties that concern us and the world."

Another major step in the campaign to save food for Europe and lower prices at home was on today's program in Washington as the Citizens Food Committee formally asked the country's distillers to close down for 60 days to save 10,000,000 bushels of grain. Industry members indicated somewhat reluctantly "yes" would be given the committee at a conference later today.

In an earlier move designed to support the program, the nation's grain exchanges increased their margin, or down payment, requirements on new speculative transactions in grain futures to 88 1/3 per cent of the market.

## Caldwell To Keep Hands Off In Next Spring's Election

TALLAHASSEE, Oct. 8 (AP)—Governor Caldwell said today he will not try to influence selection of his successor and will content himself with being "an interested observer of and a conscientious voter" in next spring's primary elections.

The State Constitution prohibits him from succeeding himself and holding office already being drawn for the campaign to elect a new governor.

Caldwell was asked by the Associated Press whether he would take sides in the campaign. He prepared this statement:

"One of the fine things about Florida is its entire independence of its voters."

"They are quick to resent interference or any attempt to influence them in their choice of public officials. They rightly feel that no Administration should endeavor to influence the selection of its successor."

"In keeping with that concept, to which I subscribe wholeheartedly, I shall content myself by being an interested observer of and a conscientious voter in the coming primary."

"I am, of course, greatly concerned with the results of that election. No citizen worthy of the name could be indifferent. Florida's future depends upon the character of its government."

"The current programs touching public education, public health, institutional care and business-like administrative procedure are but steps in the right direction. They should be improved upon and made of greater usefulness to the citizens of Florida."

### TAX CUT

WASHINGTON, Oct. 8 (AP)—Federal taxes may take as much as \$450,000,000 of the \$9,000,000,000 which Larry McPhail sold his one-third share of the New York Yankees baseball club.

### COTTON CROP

WASHINGTON, Oct. 8 (AP)—The Agriculture Department today estimated this year's cotton crop at 11,500,000 bales of 500 pounds gross weight. This estimate is a decrease of \$41,000,000 from the 11,640,000 bales forecast a month ago. Production was 8,840,000 bales last year and 12,390,000 bales for the ten-year (1935-45) average.

## Truman Asks Meatless Tuesdays

PRESIDENT TRUMAN IS TELEVIEWED for the first time at the White House as he broadcasts a plea to the nation to support the new voluntary food conservation drive. The Chief Executive asked the American people to use no meat on Tuesdays, use no poultry or eggs on Thursdays and to save a slice of bread every day.

## Governor Dewey Urges Increased Help For Italy

### U. S. Aid Needed To Prevent Establishment Of Red State

ALBANY, N. Y., Oct. 8 (AP)—Governor Thomas E. Dewey called today for increased American aid to Italy to prevent establishment of what he termed a "Red police state" in the former Fascist land.

Dewey, potential 1948 Republican candidate, said a triumph for "Communist totalitarianism" in the heart of the Mediterranean area would be "a worldwide catastrophe."

Dewey's third round slap at Communism in recent weeks came in a proclamation designating Oct. 12 Columbus Day. He said it was an occasion on which "we reaffirm our old and inalienable friendship for the people of the land" that gave birth to the 15th century mariner who discovered the Western Hemisphere.

"Unhappily," the Governor said, "the people of Italy today face a new threat to their newly won freedom. Having shaken off the sanguinary yoke of totalitarianism of the extreme right, they are now menaced by the forces of totalitarianism of the left."

"The United States has already done much to bring aid to the Italian government in its struggle for existence, but there is still much more to be done. If the Italian nation is to escape the imminent threat of Communist infiltration, it must have help promptly and that help must come from us."

## Communists Assert Victory In Greece

ATHENS, Oct. 8 (AP)—The Communist organ Ritsopatis published today a signed article by the party's secretary—general, Nicholas Zachariades, predicting a Communist victory in Greece.

"We will force a democratic compromise, or crush the opposition," said the article—the first published statement in several weeks by the Communist leader, who is now in hiding.

Premier Themistocles Sophoulis told a news conference the statement was designed to bolster wavering morale in the Communist party, which he said was showing signs of disintegration.

Sophoulis announced at the conference he had signed an order providing for the discharge by Oct. 15 of 5,000 "superfluous" civil employes.

### TAFT ON AFFIDAVITS

DES MOINES, Oct. 8 (AP)—Senator Robert O. Taft (R-Ohio) said today "the AFL and CIO boards are just loose affiliations with no control" over individual unions and that "it was not logical to require" the boards' members to sign non-Communist affidavits.

### FACT WITH AUSTRIA

WASHINGTON, Oct. 8 (AP)—The State Department announced today the United States has signed an "interim" air transport agreement with Austria.

The agreement, initiated by Foreign Minister Karl Gruber and U. S. Ambassador John G. Harbo, was the first concluded by Austria since the war ended, the department said.

## Strachey Wants Trade Agreement With Russians

### Britain Says Two Nations Not Competitive In Economics

LIVERPOOL, England, Oct. 8 (AP)—Food Minister John Strachey proposed today that Britain and Russia "agree to differ" temporarily in the political field, but get on with work of drafting a trade agreement.

Watching the arrival of the first consignment of Russian food for Britain since before the war, Strachey told reporters one of the basic economic realities is that Britain and Russia are mutually complementary, rather than competitive, in the economic field.

"Russia has food and timber to sell," he said. "We have manufactured goods of all kinds to sell. Surely it is not beyond the wit of man to devise an interchange to the immense good of both countries."

Prolonged Anglo-Soviet trade negotiations broke down several weeks ago because Britain declined to guarantee deliveries and refused to ease Russia's payments.

## Reaction Is Mixed To Attlee Shake-up

LONDON, Oct. 8 (AP)—A drastic overhauling of the labor government, in which five cabinet ministers were ousted and left-wing Fuel Minister Emanuel Shinwell was "demoted," drew some British cheers and some jeers today.

British press comment on yesterday's sweeping changes generally followed party lines and ranged from the full endorsement of the Labour Daily Herald to the outright protest of the Conservative Daily Graphic, which declared that anything less than a coalition regime could stifle successfully the nation's crucial battle against economic disaster.

## 43 Students Enrolled At School Of Aviation

ROY BROWNING is optimistic about his Sanford School of Aviation at the Municipal Airport and has 43 students enrolled from many states. On the blackboard are listed 16 students who have letters of enrollment and who will be here between now and December.

"Mr. Browning predicted that at the present rate of enrollment he will soon have the largest school of its type in the state."

C. C. A. Investigators W. McLean and J. Roan were at the school yesterday to give commercial aviation examinations to Victor Blackwell, Gene Byrly, Carl Yost, William Arnsbort and Howard Shryock, Jack Pearson, and Olen Greer took flight tests for instructor rating.

### COWBOY STABBED

CHICAGO, Oct. 8 (AP)—A. J. Greening, 23, a cowboy performer of a rodeo troupe headed by film star Roy Rogers, was stabbed to death and two other cowboys were wounded in a fight during a card game in a west side hotel early today.

There were nine members of the show, all cowboys, in the room when the fight started, Police Detective Tom McQuire and James Handy said. The man who wielded the knife escaped.

## Kilpatrick Is Elected Head Of Trade Body

### John Ivey Selected For Vice President; Report Is Made On Projects Of Year

E. G. Kilpatrick, Jr., president of the Florida State Bank, was elected president of the Seminole County Chamber of Commerce at a meeting of the board of directors at the Tourist Center last night. Mr. Kilpatrick will take office at once and serve for the coming year.

Other officers elected were John Ivey, vice president; Edward Higgins, manager; J. L. Ingley, treasurer; Frank Shames, first district vice president; J. F. McCall, second district; J. S. Bistline, third district; Andrew Duda, fourth district; and W. G. Kilbee, fifth district.

Senator L. F. Boyle was appointed temporary chairman of the meeting by Mr. Shames, who presided in the absence of President W. V. Biting. Senator Boyle appointed a nominating committee composed of Lea Leshar, chairman, H. H. Coleman, Mr. Dilline, R. L. Doan, H. B. Pope, Walter Haynes, and J. Tilden Jacobs.

The nominations of the committee were unanimously approved by the board. Mr. Ivey presided throughout the remainder of the meeting and commended the group upon the selection of Mr. Kilpatrick as president. Jack Rattigan proposed the formation of a non-profit organization by the Chamber of Commerce for its promotion of fairs, regattas, glider

clubs, and other projects. The limited funds allotted to the Jacksonville district are in addition to the \$50,000 recently authorized for dredging in the West

## Chinese Communists Report New Gains

NANKING, Oct. 8 (AP)—Chinese Communists, on the offensive throughout Manchuria, were reported today to have virtually wiped out a 140-mile section of the vital railroad linking Mukden with Changchung, Manchuria's capital.

Mukden reports said Communist raiders swept along the line from Tieling, 40 miles northeast of Mukden, to within a few miles of Changchung, firing railroad ties and blasting bridges—undoing in hours what government maintenance crews had worked five months to repair.

## Temperatures Drop To Nearly Normal

By ASSOCIATED PRESS  
Temperatures dropped to near normal, breaking a spell of unseasonably warm weather, over the north central region and much of the Great Lakes area today as midsummer temperatures prevailed in some parts of the east and the New England states.

Cool air from central Canada extended from the Pacific Northwest across the northern tier of states today and moved slowly southward to the Ohio Valley Coast port in the area was in northern Minnesota, with below freezing reported at Bemidji. A sharp drop was reported in Chicago, from yesterday's high of 85 to 54 early today, and with a predicted high of 62 today.

The mercury climbed to a warm 87 in Portland, Me., yesterday; was 83 in Boston; 81 in Philadelphia and 78 in New York. General rains have occurred in the southeastern states, principally in Virginia, the Carolinas, Georgia and Mississippi. Showers also were reported over the western states.

### ROBOT OFF AGAIN

STOCKHOLM, Sweden, Oct. 8 (AP)—The mechanically-guided U. S. Army Skyraider Robert E. Lee took off at 7:32 A. M. EST today for Wilmington, Ohio, after a successful robot flight yesterday across the Atlantic.

### BANK CALL

WASHINGTON, Oct. 8 (AP)—The Comptroller of the Currency today issued a call for a statement of the condition of all national banks at the close of business Oct. 6, 1947.

### FLORIDA FASHIONS MOVE

Florida Fashions, Inc. has started operations at its new location at the Municipal Airport, to which it started moving Saturday. The customer service, accounting and order processing departments are separately located in the large building and there seems to be plenty of room for expansion. There are 60 employes.

## Federal Funds Allocated To Flooded Area

### Okeechobee District Will Be Given Assistance Repairing Damage From Lake

JACKSONVILLE, Oct. 8 (AP)—Federal funds, in a limited amount, have been made available for alleviating flooded conditions in the Lake Okeechobee region. Col. Will E. Teale of the Army Engineers announced today.

Representatives of the Corps of Engineers are now in conference with local authorities around the Lake to determine where the emergency fund can be spent to the best advantage and the effect the greatest immediate relief within the flooded areas.

Col. Teale said that he has instructed his engineers to give this emergency fund priority.

The district engineer emphasized the need for speedy action and cooperation with local governments and other agencies in helping residents who have suffered damages caused by high water.

Funds made available today are from the emergency flood control authorization made by Congress, and can be used only for the repair, restoration, and strengthening of levees and other flood control works threatened or destroyed by recent floods, or which may be threatened or destroyed by later floods.

Col. Teale said these funds will be used in the rehabilitation of flood control works outside the big government levees which encircle the Lake.

The limited funds allotted to the Jacksonville district are in addition to the \$50,000 recently authorized for dredging in the West

## Havana Dancer Says She Shot Boy Friend In Defense

HAVANA, Oct. 8 (AP)—Patricia Schmidt told the audience court today for the murder of John Lester. She said she "shot" the Chicago lawyer aboard the yacht Satira after he said "I am going to kill you" and ordered her to take her clothes and go ashore.

With rising voice, gestures, and a face so pale she appeared about to faint, the Toledo dancer testified she tried to get away. He hit her over the head, knocked her to the deck and kicked me. He hurt me.

"He ran up the ladder—almost flew up—and then came right back down again. He told me to take my clothes and get off the boat. I began opening closets and throwing clothes together to take with me. Jack was furious."

"He said I could not take my

## Eisenhower - Stassen Ticket Is Suggested By Henry Wallace

NEW HAVEN, Conn., Oct. 8 (AP)—Henry A. Wallace expressed the belief today that a Republican ticket with General Eisenhower as the presidential nominee and Harold Stassen as his running mate would win the 1948 election overwhelmingly.

"The former Vice President, in the midst of a New England tour, told a news conference that an Eisenhower-Stassen ticket would carry all but nine states against any opposition."

Wallace expressed the belief that General Eisenhower would likewise "win overwhelmingly" if he ran as the Democratic nominee.

But he quickly added that he expected President Truman to get the nomination.

## Soviet Writer Attacks Pope As War-monger

MOSCOW, Oct. 8 (AP)—Soviet author Boris Kandlerov, writing in the Literary Gazette, accused Pope Pius XII today of "entirely and openly calling for war against the Soviet Union."

The writer said the Pope once had helped the Germans to "prepare an invasion of foggy Albion (England) and claim for the Empire the road to Pearl Harbor." Now, he said, the Pontiff is preparing "sound and lightning effects" for an Ecumenical Council at which Communism is to be declared "the heresy of current times."

## U. S. Said Favoring Palestine Partition

### County Commission Rescinds Its Action Regulating Liquor Sales

Following a discussion concerning the regulation of the sale of alcoholic beverages on Sunday, the County Commission yesterday rescinded its former action of Sept. 4 regulating such sale outside of incorporated municipalities in the county.

The earlier had provided that no alcoholic beverages be served in licensed places outside of incorporated towns between the hours of 2:00 A. M. and 7:00 A. M. on week days and between the hours of 3:00 A. M. Sundays and 7:00 A. M. Monday mornings.

It was brought out by the Commissioners during the discussion that the State Law already provides for the opening and closing time of places selling alcoholic beverages, and that the Commission did not desire in any way to change this law until the opinion of the people of the county had been ascertained.

This puts the matter of opening and closing hours of such places back under State Law. Section 662.14 as amended, paragraph (1) states: "No intoxicating beverages may be sold, consumed, served or permitted to be served or consumed in any place holding

## 10% Freight Rate Increase Granted U. S. Railroads

### ICC Authorizes Hike To Go Into Effect Next Monday A. M.

WASHINGTON, Oct. 8 (AP)—A 10 percent emergency freight rate increase amounting to \$700,000,000 annually has been granted to the nation's railroads, which hoped today to put the best into effect next Monday.

The Interstate Commerce Commission authorized the temporary increase yesterday, pending a decision on the railroad's plea for a permanent 27 percent increase over present rates. The ICC also authorized coastwise water carriers and freight forwarders (who collect small lots of freight for railroad shipments) to make the same 10 percent increase.

In a separate action, gave 37 railroads in the South permission to advance passenger rates for sleeping and parlor cars from 33 to 35 cents a mile and authorized 26 southern roads to raise basic coach fares from 22 to 25 cents a mile.

## Power Output Is Up 10% Over Last Year

NEW YORK, Oct. 8 (AP)—Electric power output in the week ended Oct. 4 totaled 4,934,851,000 kilowatt hours, compared with 4,564,415,000 in the previous week and with 4,478,092,000 in the like period a year ago, the Edison Electric Institute reported today.

For the country as a whole the gain over last year was 10.2 percent and for the various regions it was as follows:

New England, 7.7 per cent, mid-Atlantic, 6.0, Central industrial, 16.2, West Central, 9.7, Southern states, 7.8, Rocky Mountain, 16.7 and Pacific Coast, 8.6.

## Growers Plan Own Inquiry On Prices

BELLE GLADES, Oct. 8 (AP)—The Florida Vegetable-Gommittee directors, representing the majority of farmers in the state, today started their own campaign against high prices.

The group at a meeting yesterday voted an investigation of prices to find out "why the housewife pays three times more than the growers receive for their product."

If they fail to find a satisfactory answer, they plan a publicity campaign advertising prices paid farmers, and leaving it to the housewife to figure out what happens to the price. The growers said some of the spread might be laid to mismanagement of shipments which at times reaches 25 per cent loss in transit.

### NEIMOELLER ELECTED

FRANKFORD, Oct. 8 (AP)—Dr. Martin Neimoller, noted critic of Hitlerism, has been elected bishop of a new state-wide Union of Evangelical Churches in the American occupied state of Hesse, church officials announced today.

## Official Statement Expected Thursday; Soviet Stand Waits On U. S. Position

LAKE SUCCESS, Oct. 8 (AP)—A leading delegate to the United Nations Assembly reported today he had been told by a high State Department official that the United States would support the proposal for partition of Palestine "with perhaps a few modifications."

His delegate, who had talked with Washington officials, said he did not learn what modifications the United States would seek.

A spokesman for the United States delegation said a rough draft of the American policy declaration on Palestine had been completed, but he declined to discuss its contents. The U. S. statement will be made here probably tomorrow or Friday.

A source close to the Soviet delegation said the Russians were waiting to hear the U. S. declaration before making their own policy statement. This source said the Soviet policy was not definitely determined, although Russia was inclined to support creation of a binational federalized state.

The proposal for a federalized state was recommended by the minority report of the special UN Committee on Palestine (UNSCOPE) but has been opposed by both the Arabs and the Jewish Agency for Palestine.

Poland, meanwhile, delivered her policy statement, urging the UN to do all other proposed solutions and concentrate on plans to partition the Holy Land.

Czechoslovakia declared partition of Palestine "comes near to giving at least partial satisfaction to the natural claims of both parties" and said this should be the basis for a solution to the problem.

## Speaker Explains Palestine Problem To Kiwanis Club

Development of Palestine under the Zionist Jewish movement and the great challenge that the Jewish question presents to Christianity, was today outlined to Kiwanians by Sam Siegel of Haines City, a past lieutenant governor of Kiwanis. He was introduced by Frank Shames.

Another speaker was Claude Kettle of Orlando, of the Vocational Rehabilitation unit of the State Department of Education who told of the progress made during the past three years in obtaining positions for the physically handicapped among civilians both in Seminole County and elsewhere.

Mr. Siegel in his talk about Palestine, pointed out that his father and mother had lived there for seven years. He declared that the American public had not obtained true picture of the situation in Palestine due to the fact that the one source of news was through Reuters, a British news agency, and that correspondents from this country could not tell their story until they returned home.

He described Palestine as about the size of Vermont 140 miles long and 40 miles wide at a maximum. He said that in 1940 it had 650,000 in cities and 900,000 in rural population. It has \$30,000,000 in bank deposits and 10,000 manufacturing plants. He traced the Zionist movement back to 1875 when Jews began to flee persecution by the Russian Czar, told of the Balfour declaration by the British for a Jewish homeland and settled by the United States and 27 other nations.

Under Lawrence of Arabia, the

## Methodists Urge Saving Grain By Eliminating Whisky

WASHINGTON, Oct. 8 (AP)—The Board of Temperance of the Methodist Church suggested today that "there would be no great outcry if distilling were stopped entirely for the duration of the emergency" grain shortage.

The Clippelshet, board publication, made that comment after commending President Truman's request for a 60-day suspension of distilling, expected to save 10,000,000 bushels of grain.

It said 145,300,000 bushels of grain were used in making intoxicants during the 12 months ending last July 31 and added: "Stopping the use of foodstuffs in the making of whisky and beer would reduce the crushing pressure of prices upon the American family, a pressure which is depriving millions of American children of proper food."

### JOHN MEYER HELD

NEW YORK, Oct. 8 (AP)—John Meyer, press agent for Howard Hughes, was arrested early today and lodged in jail. Police said, on a warrant issued in a paternity action brought against him by Patricia Miles, blonde night club cigarette girl.

## Pilotless Rocket Plane Has Speed Of 900 MPH

PADSTOW, Eng., Oct. 8 (AP)—A small, pilotless rocket plane, designed by a British bomber high above the Atlantic, attained a speed estimated at 900 miles an hour today in an experiment to determine the effects of flight faster than sound.

The plane was the first of a group to be used by the supply ministry in experiments with supersonic speed. The experiments were expected to produce valuable data about performance of ultra high speed aircraft as they approached and surpassed the speed of sound, which varies from about 660 miles an hour at sea level to 760 miles an hour at 60,000 feet.

The robot today was cut loose nearly seven miles above earth, at 37,000 feet, at a point 14 miles west of the Scilly Islands. It was adjusted to dive into the sea after about 20 miles.

One phase of the experiment was to test air resistances at extreme speeds, which causes lack of stability and leads to slowness in efficient control in conventional planes.

The experimental plane was made of polished mahogany. It had a wing span of eight feet and a length of about 12 feet.

The robot was equipped with transmitting apparatus to report technical details of its behavior. Its alcohol burning motor was an adaptation and improvement of those used in German rocket-propelled fighters during the war.

Scientists conducting the experiment will require about a week's study of the records before precise details can be announced.

"Until there has been a thorough study, we shall have no definite information as to whether the robot has actually broken through the sonic barrier," said a scientist working on the project.

"If the tests yield the information it is hoped they will, we shall have made one of the biggest advances yet in the field of supersonic research."

## JAX TORNADO

JACKSONVILLE, Oct. 8 (AP)—A freak windstorm which struck the suburban north shore section last night sent eight persons to hospitals for treatment and did unestimated damage to homes and business structures.

The tiny twister, which came out of the southeast, "whipped down power lines and threw the section into darkness. The storm lasted only about two minutes.

# Social And Personal Activities

## Social Calendar

**THURSDAY**  
The Azalea Circle of the Sanford Garden Club will meet at 8:00 P. M. at the home of Mrs. C. L. Redding, 546 Valencia Drive.  
The Sanford Home Demonstration Club will meet at 3:00 P. M. at the home of Mrs. J. P. Thurmond, 612 E. 1st Avenue.  
Seminoles Rebekah Lodge No. 43 will hold their regular meeting in the I. O. O. F. Hall at 8:00 o'clock.

**FRIDAY**  
The Grammar School Parent Teachers Association will meet at the school at 3:15 P. M. Refreshments will be served following the meeting. All members are urged to attend. The board will meet at 2:30 P. M.

Circles of the Sanford Garden Club will meet as follows: Camelot Circle, 8:00 P. M. with Mrs. Milton Gore; Central Circle, 10:00 A. M. with Mrs. F. E. Bolz; Dirt Gardener Circle, 10:00 A. M. with Mrs. H. N. Sayer; Hibiscus Circle, 11:00 A. M. Covered dish luncheon with Mrs. Fred Zerrenner; 1:30 P. M. with Mrs. E. B. Palmer; Charles Yodopich; Jacaranda, 12:00 luncheon with Mrs. W. B. Brinson, 1422 Park Avenue; Plant Sale, Magnolia Circle, 11:30 A. M. covered dish luncheon with Mrs. R. T. Warren; Mimosa, 10:30 A. M. with Mrs. F. J. Palmer; members will bring rooted plants to exchange; Palm Circle, 11:30 A. M. covered dish luncheon with Mrs. S. C. Dickerson; Rose Circle, 10:00 A. M. with Mrs. O. L. Harks; Sallie Harrison Chapter, Daughters of the American Revolution, will meet at the home of Mrs. W. M. Thippen, 808 Magnolia Avenue with Mrs. J. B. Ray as co-hostess. All visiting Daughters are invited to attend.

**TUESDAY**  
The Parent Teachers Association of the Junior High School will meet at 3:30 P. M. Officers will be hostesses. The board will meet at 8:00 P. M.

**MONDAY**  
Circle of the Woman's Missionary Society will meet at 3:30 P. M. as follows: Circle 1, Mrs. R. F. Cooper, chairman, at the church annex; Circle 2, Mrs. H. E. Cordell, chairman, with Mrs. Cordell, 615 East Third Street; Circle 3, Mrs. W. P. Brody, Jr., 1106 Park Avenue; Circle 4, Mrs. R. E. Peurifoy, chairman, with Miss Martha Fox, 1306 Park Avenue; Circle 5, Mrs. J. M. Stinecifer, chairman, with Mrs. Stinecifer, 2404 Park Avenue; Circle 6, Mrs. A. L. Strange, chairman, with Mrs. H. E. Kent, 1412 Park Avenue.

Circles of the Presbyterian Women's Auxiliary will meet as follows at 3:30 P. M.: Circle 1, Mrs. W. E. Dodson, chairman, with Mrs. G. H. Brown, 1114 Park Avenue, with Mrs. Clarence Henderson as hostess; Circle 2, Mrs. Charles E. Ginn, chairman, with Mrs. George Touhy, 2204 Magnolia Avenue; Circle 3, Mrs. W. D. Hofmann, chairman, with Mrs. J. S. Krider, 1322 Summerlin Avenue; Circle 4, Mrs. J. C. Holloman, chairman, with Mrs. Mary Bolly, 1103 Myrtle Avenue; Circle 5, Mrs. D. B. Middleton, chairman, with Mrs. D. B. Middleton, 423 West Eighteenth Street; Circle 6, Mrs. H. H. McGehee, chairman, with Mrs. J. C. Holloman, 2433 Washington Court; Circle 7, Mrs. W. L. Rocha, chairman, with Mrs. L. I. Frazier, Celery Avenue.  
Business Women's Circles of the Presbyterian Women's Auxiliary will meet at 8:00 P. M. as follows: Circle 1, Miss Sara Warren, chairman, with Mrs. J. L. Corley, Cameron Avenue; Circle 2, Miss Mary Earle, chairman, with Miss Ruth Davidson, 100 Elliott Avenue.

## Bazaar Plans Made At Circle 4 Meet

Plans for a bazaar were discussed at the regular meeting of Circle 4 of the Woman's Society of Christian Services of the First Methodist Church held on Monday at 3:00 o'clock at the home of Mrs. O. H. Anderson on Washington Avenue. Mrs. A. D. Johnson presided over the business meeting.

Mrs. C. H. Winn led the devotional and it was decided to hold the bazaar on Nov. 14 and 15. Mrs. J. C. Davis talked on Stewardship after which a salad course was served by the hostess.

## Circle 10 Meets With Mrs. Herndon

Mrs. H. R. Herndon was hostess to Circle No. 10 of the Women's Society of Christian Services of the First Methodist Church on Monday evening. Mrs. J. R. Hoolehan presided over the meeting. A lesson from the study book was given by Mrs. James E. Pearson, study chairman.  
Announcement was made that the November meeting will be held at the home of Mrs. Pearson, 614 Magnolia Avenue. Following the business session the hostess served refreshments to Mrs. Hoolehan, Mrs. L. M. Swain, Mrs. Pearson, Mrs. Carrie Draper, Mrs. Olive Wells and Mrs. Clyde Brockman.

## Daughters Of Wesley Hear Rev. McKinley

Rev. J. E. McKinley was, the guest speaker at a banquet held Oct. 7 prior to the final business and social meeting of the church year of the Daughters of Wesley Church of the First Methodist Church. The banquet was held in the church annex and in his talk to the group Rev. McKinley called attention to the low attendance children in the Sunday schools and pointed out ways in which the Sunday Schools help the growing child.

Mrs. C. H. Winn, president, presided over the meeting and read a report of her year's work after which refreshments were served to her officers with gifts.  
The nominating committee announced the following new officers: Mrs. Brodie Williams, president; Mrs. W. E. Raines, vice president; Mrs. P. A. Rowland, secretary; Mrs. J. A. Rowland, treasurer and Mrs. Winn as teacher. After the new officers were elected and installed by Mrs. E. C. Williams the new officers presided during the meeting.

Mrs. Williams announced that a rummage sale will be held on Oct. 11 in the building at Sanford Avenue and First Street and urged all members to turn in articles for the sale before that date. All proceeds from the sale will go to the church's building fund. The church hopes to raise \$1,000 to turn over to the church for this purpose during the ensuing year.

Mrs. Charles Polley, Mrs. Caroline Hancock, Mrs. S. G. Harriman and Mrs. W. D. Forbes were introduced as visitors. Members present were Mrs. M. B. Smith, Mrs. Williams, Mrs. L. Wright, Mrs. J. P. Thurmond, Mrs. O. E. White, Mrs. C. E. McKee, Mrs. W. Hunter, Mrs. Winn, Mrs. W. C. Williams, Mrs. Rowland, Mrs. J. C. Davis, Mrs. Donald Dunn, Mrs. M. R. Strickland, Mrs. E. J. Laney, Mrs. G. W. Bailey, Mrs. J. E. Courrier, Mrs. L. M. Tyre, Mrs. Raines, Mrs. R. B. Monroe, Mrs. S. M. Blowers, Mrs. E. F. Lundquist, Mrs. L. L. Sill, Mrs. Roy Tillis, Mrs. Claude Herndon, Mrs. J. E. McKinley, Mrs. George Futwin, Mrs. C. W. Hinton, Mrs. Smith and Miss Versa Woodcock.

## Mrs. Warren Has Circle 7 Meeting

The home of Mrs. R. T. Warren, 1012 Magnolia Avenue, was the scene on Monday at 3:00 o'clock of the monthly meeting of Circle No. 7, W. S. C. S. of the First Methodist Church. Mrs. Warren presided over the meeting. Refreshments were served following adjournment of the meeting to Mrs. Wilson, Mrs. Strickland, Mrs. W. A. Tillis, Mrs. J. E. Courrier, Sr., Miss Ella Bolton, Mrs. Edwin Shiholser and Mrs. Warren.

**GRAMMAR SCHOOL**  
All members are urged to attend the Grammar School Parent Teachers meeting which will be held on Friday at 3:15 P. M. The group will meet at the school auditorium and following the meeting refreshments will be served. The board will meet preceding the meeting at 2:30 P. M.

## Personals

Mrs. Henry Wight has returned from Boston, Mass. where she visited for several months.  
Mr. and Mrs. J. J. Dilly have returned to Sanford after spending some time in Griffin, Ga.

Mr. and Mrs. Elmer P. Lundquist are spending some time visiting in Tennessee, Georgia and South Carolina.

Mrs. Edna Norman left on Saturday for Jacksonville where she entered Riverside Hospital to undergo an operation.

B. E. Aiken has returned to his home in Sanford from Asheville, N. C. where he has been ill for the past several weeks.

Mr. and Mrs. Lester Tharp returned Monday from a two weeks vacation at Mt. Sterling, Ky.

## 4-H Girls Enter Poultry Contest

A number of 4-H Club girls from Geneva, Sanford, Lake Monroe and Longwood have entered the Sears annual poultry contest. The poultry will be exhibited at the Sears store on First Street tomorrow. A banquet will be held in the evening at 6:30 o'clock at the Tourist Center and awards will be made by K. C. Gramling, company representative from Orlando.

First prize for raising the best poultry will be \$20, said Mrs. Duide Wilson, county home demonstration agent. Three \$10 prizes will be given, and every girl entered will get a \$7 prize.  
As usual, Geneva has the largest number of entries including Isabel LeFils, Jane McGill, Betty Phillips, Addie Procutt, Helen Bennett and Ann Driggers, Sanford. They will be represented by Joyce Mae Jones and by Agnes Bennett. From Lake Monroe are Lois Muse and Minnie Melts, Longwood is represented by Shirley Grant.

## West Side P.T.A. Meets At School

The West Side Parent Teachers Association met last Thursday at the school with Mrs. John Ludwig presiding. Mrs. Donald Dunn, in charge of the program, introduced all the teachers and mothers.  
Plans were made for the Halloween carnival the date of which will be announced later. Following the business session members enjoyed a tea given by the faculty and officers of the P. T. A. Mrs. Harry A. Watt presided over the punch bowl.

## Gift To Princess

PARIS, Oct. 8.—(AP)—The city of Paris will give Britain's Princess Elizabeth a tortoise shell dressing case as a wedding present, it was announced today.  
The case is described as "a work of art of the Parisian luxury industry." Each of its objects will contain the city's coat of arms in gold.  
The population of Paris averages 12.65 people per square mile.

## Committees Named For Music Campaign

The Seminole County Civic Music Association will begin its annual drive for new members on Oct. 27. Under the direction of Mrs. E. E. Roumillat, it was decided at a meeting of the association at the Tourist Center yesterday. Mrs. Roumillat named the following division chairmen:  
Mrs. Ruth Scott, Mrs. R. F. Cooper, Mrs. O. P. Herndon, Mrs. Mary Rawlins, Herman Morris and T. E. Tucker.  
Also Hibbard Casselberry, Jr. for Casselberry, Mrs. George Bridge for Longwood, Mrs. C. R. Cloutis for Oviedo, Mrs. W. Gove for DeLand, Mrs. Ossie Flynt for Geneva, Mrs. Ralph Goodspeed for Lake Monroe and Mrs. R. L. Cox for Enterprise.

## Oviedo Special to the Sanford Herald

By MARIAN R. JONES

Mr. and Mrs. J. P. Cox have completed the painting of their home. It has been changed from red and white to grey trimmed in white.  
Mr. and Mrs. George Morgan have recently had a furnace installed in their home.

Mrs. Ruby Jones has also had a furnace installed in her home. Mr. and Mrs. Ben Jones are making rapid progress on their new home.  
Leon Ragsdale has completed work on his new warehouse that he has near Doc Malcolm's.

Mrs. Libbie Wainwright, who has been visiting her son, Ben Wainwright and Mrs. Wainwright and children, expects to leave in the next few days for her home in Miami.  
Mrs. R. F. King has just had the inside of her home painted.

Mr. and Mrs. George C. Means have moved into their new home on the Sanford Highway.  
Mr. and Mrs. Don Carraway have recently had the outside of their home steamwashed, and it looks freshly painted.

Mr. and Mrs. J. B. Jones, Jr. and son, Jimmie, left Friday morning to take Mrs. Jones' mother, Mrs. H. V. Reeves, who been their guest for the past month, back to her home in Macon, Ga. They will remain for a few days to visit with Mr. and Mrs. Reeves before returning home.

Johnnie Jones, son of Mr. and Mrs. J. B. Jones, is visiting his grandmother, Mrs. Ruby Jones and uncle, Ben Jones and Mrs. Ben Jones, while his parents are in Macon, Ga.  
Mrs. A. M. Jones is substituting on the school bus for J. B. Jones while he is away.

Mrs. Billy West is working in the Post Office's assisting Mrs. Atall, while Mr. and Mrs. Jones are away on their vacation.

## ACME COWBOY BOOTS

## Hollywood

By BOB THOMAS

HOLLYWOOD, Oct. 7 (AP)—Life is not all roses, but Great Gatsby, like Mrs. Miniver, is catching on.

In the past year or so, life has had its ups and downs. In two years, she made only one film, the ill-fated "Adventure," her current movie, "Desire Me," was drawn out over a year by lengthy retakes.  
But now the best tradition of the heroine she portrays, Greer's air is strictly "chins up." Right now she wants to work.  
"I start a picture in six weeks," she told me. "I'm eager to be busy."

"This idea of doing one picture every two years is not so good. You put all your fate in one picture and if it's not successful, that is dangerous. When you make several, you have a better chance of hitting a good one."  
"Personally, I would like to make three pictures a year. But that seems impossible, the way they make pictures today."

Still, it could be done, she declared, and a way of accomplishing it would be by the use of rehearsals. You see—except in rare instances such as Bette Davis' current "Winter Meeting," which had a seven-day rehearsal period—films are rehearsed only before the shooting of each scene.

"The trouble is," said Greer, "that you come onto a stage set which is supposed to be your home, but you don't know where anything is. An actor should be able to reach into his desk without looking and pull out his pipe, another thing—you walk on and are introduced to your leading man, and the next moment you may be in a passionate embrace. That doesn't make for realism."

She illustrated with a story attributed to Maria Montez—Montez was supposed to have come upon a set on the first day of a picture, pointed at the two leading men and said:  
"Now tell me—do I love them—or not?"

Wandering around the radio studios, Ralph Edwards is going to have a "Miss Hush" contest this month, with proceeds to the polio fund. Last year's "Mrs. Hush" (Clara Bow) stung raised \$54,000.  
The new Al Johnson show shapes up as one of the hottest additions. Alan Jones and Ilona Massey are preparing a program which will feature drama with music.

Jack Carson's air sponsors may be surprised to learn that he'll take a two-week vacation in Hawaii in December. He says that's the only time he can get away from radio and films.  
His co-star in "April Showers," Ann Sothern, says she doesn't want to resume her "Maiseie" airer. She would like to forget Maiseie.

A group of free-lance stars, including Fred MacMurray, Dana Andrews, Joan Fontaine, Myrna Loy and John Garfield, have formed Radio Repertory Theater, Inc., which will make transcribed air shows, a lucrative field these days. And when and if television comes, they'll be ready for it.

NBC, incidentally, is going ahead with its television studio construction plans here soon. The network's new attitude, says a spokesman, "is not 'we might do television' but 'we will do it.'"

The Bonin Islands were not inhabited until 1830 when a party of European and American established a settlement.

## Mrs. Odham Presides Over Circle 9 Meet

Mrs. Alvin Odham, chairman, presided over the monthly meeting of Circle No. 9, Woman's Society of Christian Services of the First Methodist Church, held at the home of Mrs. Broughton Watkins on Palmto Avenue.  
Mrs. Earnest Southward was in charge of the mission study and Mrs. Roy Wall led the devotional. Plans were made to continue sewing for the church bazaar which will be held in November.

At the conclusion of the meeting Mrs. Watkins served refreshments to the following circle members: Mrs. Wall; Mrs. E. H. MeAlexander; Mrs. G. H. Hinton; Mrs. James Terwilliger; Mr. Harold Keeling; Mrs. Odham; Mrs. Southward; Mrs. John S. White; Mrs. Ralph Thompson; Mrs. Park Tyre; Mrs. George Williams, Jr.; Mrs. E. L. Ley, Jr. and the hostess.

## Princess' Wedding Gown To Cost \$800

LONDON, Oct. 8.—Princess Elizabeth's wedding gown, now being stitched from secret designs sketched by the Queen's dressmaker, will cost something under \$200 (\$800), it was disclosed today by one of the few persons associated with the court who really knows.  
The informant begged to remain anonymous. But a palace spokesman declared a press item asserting the gown would cost \$5,000 and be the equivalent of six years of 50 clothes ration coupons, "bears no resemblance to the truth."

The Board of Trade has allotted the future Queen a special group of coupons for wedding clothes, but has not disclosed how many. She will be married Nov. 20 to Lieut. Philip Mountbatten, who renounced his titles of prince of Greece and Denmark.

All preparations for the wedding have proceeded in secret.  
The palace spokesman said thousands of Britons had tried to contribute some of their meager clothing coupons to help the Princess obtain a more extensive trousseau, saying:  
"Every single-day more coupons come in, from the poor as well as the rich, in letters asking that the Princess have a really gala wedding. All have been returned, of course, but they certainly show the people's affection for the Princess."

The Daily Express said attempts had been made to bribe employees of Norman Hartnell, maker of the Princess' wedding clothes, to obtain the designs. Scotland Yard had no such attempts but had reported to police. Hartnell's has a private police agency guard.

# BULLDOGS TO BE PREMIED FOR HARD TILT WITH CELERY FEDS FRIDAY

By ARTHUR BECKWITH, JR.  
Special Sports Editor

The DeLand High School Bulldog gridgers are going to be fighting a revengeful battle with the Sanford Celery Feds in the DeLand Municipal Stadium Friday night when the two teams meet in a grid contest at 8:00 o'clock.

The Dogs have been crying all week that they were robbed in the contest with the Palatka Maroons in the Azalea Bowl Friday night when the officials failed to give the DeLand High aggregation a touchdown that appeared to have been made.

As the result of the official's decision the Bulldogs were held to a 7 to 7 tie by the underdog Maroons.

Lowell Hillman, DeLand backfield star plunged into the forward wall at the one yard stripe and the headlinesman said that the ball failed to go over the twin marker into pay dirt.

The Bulldogs possess one of the mightiest offensive attacks in the conference this year. Friday night they racked up 240 yards against the Maroons and chalked up 13 first downs against the Palatka eleven.

In Charles Beatty and Hillman the Bulldogs have two of the finest high school backfield artists in central Florida.

The Seminole High aggregation will have to watch the Beatty to Marty McLaughlin pass combination. David Gunby, quarterback, is a likely recipient of laterals and passes from the strong arm of Beatty.

The weights of the Bulldogs and the Celery Feds compare favorably, with the University City nine having a slight edge in the small averages. Marshall Harris, 190 pound senior tackle, is the heaviest man on the DeLand forward wall, with the others weighing in around the 150 to 160 pound class.

The DeLand aggregation opened the season on Sept. 20 in DeLand with St. Leo and emerged victorious in a 13 to 6 affair. On

Sept. 28 the Dogs played their second contest with Eustis and nipped the Panthers in a 19 to 0 contest.

Last week the Sanford Feds met the Eustis eleven in Eustis and outplayed them in all departments but were held to a 6 to 6 contest, therefore the DeLand eleven will probably be favored in Friday night's contest.

## Doctors Advocate More Protection For Grid Greats

CHICAGO, Oct. 8, (AP)—Three Chicago doctors, reporting that almost 50 percent of football fatalities are caused by brain injuries, today recommended that physicians be present at every practice and game "to do something about the football injuries."

The three physicians, Drs. Harry E. Mock, Sr., Harry E. Mock, Jr., and Charles E. Mock, made their recommendations in a paper prepared for the 35th Annual Congress of the National Safety Council.

They said that on the basis of "incomplete" statistics furnished by the press and by the American Football Coaches Association, 430 players died of injuries resulting from football games between 1931 and 1946.

Of these, 283 died as the direct result of injuries, 147 as the indirect result of injuries suffered in play, the paper said. Of the total, 45.7 percent were skull fractures and attendant brain injuries. There was no break down in the death toll as to college high school and sand lot football.

The doctors made these recommendations:

1. The base of the skull is "inadequately protected by modern equipment, which is offensive rather than defensive in design and should be redesigned."
2. A player who is injured sufficiently to require splinting

# COMMENTS FROM THE SIDELINES

By ARTHUR BECKWITH, JR.

**GATORS.** Needless to say, this doesn't look like the year for the Florida Gators to come out of the doldrums of the football deep.

Saturday night in Gainesville the North Texas State Eagles took advantage of every break to rack up a 20 to 12 victory over the hapless Gators who have not won a game since they whipped Presbyterian College in a 44 to 0 rout in Gainesville back in 1944.

The Texas Eagles handed the Gators their 12th successive defeat and unless something goes topsy turvy the Auburn Plainsmen are going to rack up another victory to extend the length of drubbings to 12 this coming Saturday in Auburn, Ala.

The victory hungry Gator actually fumbled away the contest to the Texas invaders as the fast charging Eagles came roaring through to grab at every break in the game that was watched by over 10,000 eager Florida fans.

It seems that Coach Bear Wolf needs to have several long sessions with his wingmen before any formidable aggregation is going to result.

In the contest with the Eagles the ends were actually terrible. Time and time again the Texas backs would draw them in and send men scamping outside of them, and then when the ends were not paying much attention Texas would cut plays smack

## Weiss Assumes Leadership of Yank Ball Team

By JACK HAND

NEW YORK, Oct. 8, (AP)—So Larry MacPhail picks up the \$2,000,000 and goes back to his Maryland farm and the world champion New York Yankees start down a new road under the direction of General Manager George Weiss.

The era of showboat promotion that resulted in new all-time records for baseball attendance at the Yankee Stadium in 1946 and 1947 and a new World Series high, probably will be forgotten. The turnstiles still will whir under the impetus of a hustling ball club and night ball, but no more pre-game archery tests.

"You can only promote so far," Dan Topping, the new Yankee president, said last night after announcing that he and Del Webb, MacPhail's former partners, had bought up Larry's one-third share for \$2,000,000. The official word from Topping followed by several minutes a telephone call to the Associated Press by MacPhail who gave out the same information.

So to the very end, MacPhail remained in character, topping his dramatic farewell announcement after the last out of Monday's World Series final by heating his partners to the punch with the story that he had sold out. He did not divulge future plans.

During the hectic 27-hour period since the final out of the Series, MacPhail blacked the eye of a former associate, John McDonald, who was road secretary under him at Brooklyn. That happened in a "victory" celebration at a midtown hotel, climaxed by a number of arguments that Topping said were "better left unsaid."

Topping admitted one of MacPhail's acts during the victory celebration was to "fire" Weiss, who came with the organization in 1932 after operating minor league clubs at New Haven, Conn., and Baltimore, Md. He operated the extensive Yankee farm empire that now includes 52 ball clubs, seven under direct ownership.

Bucky Harris remains as Yankee manager. He has a two-year contract running through 1948.

An interesting sidelight was offered by an authoritative source, who cannot be identified. He disclosed that MacPhail's original financial share of the \$2,000,000 Jan. 25, 1945 deal by which the partners acquired the Yanks was only "about \$200,000."

Through Topping and Webb it was made possible for MacPhail eventually to attain the status of a one-third stockholder. His salary as president, running through 1950 until ended by yesterday's deal, called for \$50,000 per year.

should not be permitted to play.

3. A player who has received any sort of head injury should not be sent back into the game.
4. A physician should be present at every practice and game.
5. Trained stretch-bearers should be provided at each practice and game "since movement of an injured person, particularly with a head injury, frequently aggravates the injury."
6. Coaches, players, parents, and athletic departments should be educated to the necessity of all these steps.
7. Equipment, particularly headgear, should be adjustable to the wearer, and should have at least a one inch band of sponge rubber to prevent the hard surfaces of the equipment from coming into contact with the wearer.
8. Head-on tackles should be eliminated from the game "since this type of tackling seems to be responsible for a large share of the injuries."
9. Defensive players are injured more than offensive players, and should be "properly protected."

dab over them for long gains. Dewell Rushing, Gator tackle, touched a rolling back kick, and then turned it loose, only to have an Eagle recover the ball and give the Texans a first down on the Florida 35 yard line. They

Two of the Texas markers came as the direct result of poor defense play by the ends. The first touchdown was scored after Cromer picked up ten yards around left end and then Nutt added 22 yards around the opposite flank. On the next play the Texans stored.

The final touchdown came on a lateral from McCain to Cromer who scampered around the Gator end for ten yards and the score.

# MOBLEY SHOULD BE FINED, LEAGUE OFFICIALS SCOLDED, SAYS HOVATER

By JACK HAND

DOTHAN, Ala., Oct. 8, (AP)—An investigation of the postponement of two games in the Florida State League playoffs brought recommendations that umpire-in-chief Allan Mobley be fined and League officials involved be reprimanded, it was reported.

The investigation was made by Alabama State League President Jack Hovater of Dothan at the request of Minor League Commissioner George M. Trautman. Hovater said his recommendations had been sent to the commissioner.

"I don't think there was anything crooked or that gambling was involved," Hovater said. "It was merely a matter of the players putting the desire to win ahead of good sportsmanship and a bad situation in the League office."

Hovater was asked to check the matter after Trautman's office received complaints of postponement of a game between Gainesville and DeLand and another between Gainesville and St. Augustine in the Shaughnessy playoffs.

Gainesville won the playoff and later lost to Moultrie of the Georgia-Florida League in a post-season series.

"The first postponed game resulted from failure of the umpire in chief to check with League President A. S. Herlong on the site of the game which was scheduled in Gainesville," Hovater reported.

"All eight of the League umpires turned up in St. Augustine where that club was playing Orlando.

"There had been lack of liaison between the umpires and former League President Al Combs of Gainesville," he continued. "The umpires frequently disregarded the league office and arranged their schedules among themselves on some occasions."

The second game was postponed, Hovater said, during the recent tropical storm which swept across Florida. He said he found

no one at fault for the second delay.

The Alabama State League president said he found the league office was disorganized and did not exercise complete authority over the circuit, and club officials did not show it proper respect and cooperation.

President Herlong, Hovater said, had taken office only recently and was not familiar with the duties, and added he did not intend for his report to blame Herlong for the situation which existed prior to the finals.

W. Homer Smith, president of the DeLand club, and Herlong filed complaints which started the investigation, he said.

Mobley could not be reached immediately for comment.

## A PURCHASE That Should Be Made BEFORE The Need Arises

The wisdom of arranging for a family memorial before the need occurs is realized by thoughtful men and women. Planning in advance offers many advantages. The wishes of each member of the family can be considered, intelligent counsel sought, and final decisions may be made unhurriedly.

Through life's declining years it is comforting to know that a responsibility of such importance has been taken care of, rather than left to those remaining.

We invite you to see our displays, across from Evergreen cemetery, that is maintained for your convenience in making a selection. Our service is equaled by few and surpassed by none.

### Washington Daily Demands Look At CSC "Smear File"

#### Says If Any Congressmen Are Disloyal People Should Know

WASHINGTON, Oct. 8 (AP)—The Washington Evening Star, coming out for round two of a skirmish with Rep. Hoffman (R-Mich.), declared today that "if there are any disloyal members of Congress the people have a right to know it."

The newspaper said, however, that there is "no basis" for Hoffman to interpret one of its editorials as "charging that some members of Congress are disloyal."

The controversy began yesterday when Hoffman called two members of the Star editorial staff before the House Expenditures Committee, which he heads, and objected to an editorial which ran Monday.

The editorial commented on the committee's investigation of what Hoffman calls a "smear file" kept by the Civil Service Commission. The Commission set up the file in connection with an investigation of the loyalty of federal employees.

Hoffman says some Congressmen's names are on the list and he has demanded that the committee be given a look at it. The Commission has turned him down.

At the committee hearing yesterday Hoffman suggested to H. M. McKelway, editor of the Star, and John M. Cline, chief editorial writer, that a caption over Monday's editorial—intitling it "Disloyal Congressmen"—might lead readers to believe that some Congressmen are not loyal to their country.

Cline, who wrote the copy and the caption, said he did not think so.

He then read a letter sent to McKelway by Rep. McDowell (R-Pa.), praising the editorial as "very good and very logical" and saying it "states the case exactly."

Cline told Hoffman, "I offer that as the reaction of a reader." "Well, he's just one," Hoffman replied.

The Monday editorial expressed belief that a few people would "share the reported indignation of certain members of the House at the discovery that the names of disloyal congressmen may have been filed away by the Civil Service Commission."

"It said that if any such names are in the file 'they get there in the course of investigation which the commission has been directed to make.'"

He closed the investigation with the statement to reporters that he may ask the President to rule whether the committee can see the files.

### Food Program

(Continued from Page One) price, about double the old rate. The new requirements apparently had little effect on market prices yesterday, when they became effective. Wheat and corn futures prices were higher on the spot market, and at 1:30 p.m. December closed at \$2.65 1/2, up 1/2 to 3/4 cent higher. Corn was up 1/2 to 3/4 cent, December finishing at \$2.24 1/2.

### Havana Dancer

(Continued from Page One) dancing costume. I told him I had no money, must work and must have costume. Jack said he was going to sell my clothes. "He said inside, 'I have changed my mind, I am going to kill you. You know too much about me.'"

"I started toward me. He reached for something, repeating the same going to kill me. I looked around and asked the maid in the room. I picked up the gun. He started to get up from the bunk. I said, 'Jack, let me out of this room.'"

### Nation's Food Saving Program Is Raising Quite A Few Eyebrows

By JAMES MARLOW

WASHINGTON, Oct. 8 (AP)—If you're a little puzzled at this point by some of the government's food-saving program, this article is for you. Several weeks ago Senator Taft, Republican, suggested we could save food for Europe if we'd "eat less."

About a week ago President Truman suggested we could save food if we'd "waste less." He called for a voluntary food-saving program.

At the same time he created a citizens committee to work out a food-saving program with Charles Luckman, Boston businessman, as chairman.

Sunday night, in a radio address, Luckman asked us to "eat less" to save food for Europe.

He asked us to "eat less meat"—none on Tuesdays—"eat less poultry and eggs"—none on Thursdays—and daily to save a slice of bread.

Does "waste less" mean the same as "eat less"? Charles Ross, Mr. Truman's secretary, seems unwilling to agree to that.

Asked about it, he said Mr. Truman originally emphasized that his voluntary food saving program is a "waste less" program rather than one of voluntary rationing and of eating less.

But if voluntarily doing without meat on Tuesdays and poultry and eggs on Thursdays isn't voluntary rationing, what is it?

And now Senator Taft's fellow Republican, Senator Wherry of Nebraska, says:

Mr. Truman's food-saving program is a "100 percent" endorsement of Senator Taft's "eat less" proposal.

So at this point the food-saving program seems to be involved a bit in semantics—the meaning of words—and in politics, too.

Does Luckman want us to go without meat on Tuesdays and poultry and eggs on Thursdays or more of all of them can be shipped to Europe?

No. The idea is to save grain. Grain is fed cattle and poultry. The less meat and poultry we eat, the less grain is needed to feed them.

And the grain so saved can be shipped to Europe which needs it. But how much grain will be saved by the meatless Tuesdays and chicken-less Thursdays?

This writer called Luckman's office. Luckman was out. The writer spoke to his assistant, David Noyes, and asked: How much grain will be saved by Luckman's proposal?

Noyes said he doesn't know, that figures are being prepared, that everyone connected with Luckman is working furiously, that the main idea is to get the people started saving food.

Noyes was asked: "If Luckman doesn't have figures on how much food can be saved by his proposal, how does he know it won't be too much?"

Noyes said he thought it would be enough, that after all this food-saving at the table is only part of the grain-saving program which is going to get grain saving by farmers and industries which use grain.

Noyes was asked one other question: If American are not to eat meat on Tuesdays or poultry or eggs on Thursdays, what should they eat on those days to help save on grain?

Noyes said there was no answer to that yet. He said the main point now, since food is needed in Europe, is to get a food-saving program started.

### Chinese Official Sees Comintern As Move Toward War

NANKING, Oct. 8 (AP)—Chen Li-Fu, China's influential minister of organization, today declared Russia reestablished the Comintern as "A Soviet effort to create her own 'United Nations' organization because she is unable to impose her will on a majority of the UN."

Chen, sometimes described as a wilding power almost equal to Chiang Kai-Shek's in the Kungming government party, told the Associated Press:

"War is certain to be the final result unless the world's strong nations and their bloc-building. There has been a wrong idea in the minds of victor nations in World War Two that war has achieved freedom of equality for which we fought."

The present situation is not more than an intermission in fighting. Unless the strong nations abandon their efforts to gather satellites around them, we are certain to find ourselves in World War Three whether we want it or not."

Chen said reestablishment of the Comintern would have little effect on China's own Communist problem. "Their never has been a halt in activities of international Communism, which simply went underground when Moscow announced dissolution of the Second International," he said.

The veteran party leader urged international acceptance of definitions of what is right and what is wrong as the first step toward general agreement, adding:

"There is little use in attempting to settle disputed when one nation calls its actions morally right while another describes these actions as wrong."

Chen criticized the United States for failing to have some pronounced opposition to Chinese Communists, as it has against Communists in America.

"You have declared the Communists are dangerous to your government but there are many Americans who refuse to put the Chinese Communists in the same category," he asserted.

Commenting on published declarations attributed to Vice President Sun Fo that lack of a stable U. S. policy promising assistance to China might force this nation to seek a closer relationship with Russia, Chen said:

"There is a certain group of Chinese people with this belief, but it is not the belief of the national government."

Coincidentally, he said he would be a candidate for the legislative Yuan (council) from his native Wuhsin, Chekiang province, in December, giving up his party post "to rest and write some books."

### Vaccination Stopped Epidemic Of Rabies, Doctors Are Told

ATLANTIC CITY, Oct. 8 (AP)—Vaccination clinics for dogs that stopped a wildfire spread of rabies were described to the American Public Health Association today by Dr. Robert F. Kohn and Dr. Albert Zeigler of the New York State Health Department, Albany.

An epidemic of rabies broke out in animals in upstate New York in 1944-47, with nearly a ten-fold increase over the normal numbers in infected each year, Dr. Kohn said. The epidemic was unusual because the rabies spread to foxes and cattle.

In a two-year program, anti-rabies vaccine was given to dogs in 24 counties, and in 12 counties the dogs were revaccinated. In ten central counties particularly, he said, dog rabies has essentially disappeared while fox and cattle rabies continued to occur. These ten counties vaccinated more than 70 percent of their dogs. The attack rate in vaccinated dogs has been only one-eighth of that in non-vaccinated dogs, Dr. Kohn said.

Foxes are being trapped with apparent success to combat rabies in those animals, he added. Except for one human case in 1945 and another in 1944, there has been no human rabies in upstate New York since 1930, he said.

A survey indicating that dogs may be the source of some salmonella infections in humans was reported by Arthur H. Wolff, Norman D. Henderson, and Grace L. McCallum of the Michigan State Health Department, Lansing.

The salmonella infections are caused by germs closely related to typhoid bacilli. In man they cause acute intestinal ailments, sometimes severe blood infections, and may be fatal to children. Dogs frequently may be carriers of the germs, they said.

The first case of anthrax, and a fatal one, traced to elephant tusks was reported by Drs. Roy M. Seideman and Kenneth M. Wheeler of the Connecticut State Health Department, Hartford. The victim was a worker in a piano-key industry and had been saving elephant tusks imported from Africa.

### Freight Rates

(Continued from Page One) may be put into effect on five days notice but the roads gave no indication when they might act. Not all of the railroads had asked permission to boost the fares.

In sanctioning the general freight rate increase, the ICC made exemptions in the movement of coal, coke and iron ore at the request of the railroads. In those categories, the ICC permitted a specific increase of 10 to 15 cents a ton, slightly under the rate applied to other freight.

The railroads, which got a 17 percent increase last Jan. 1, sought the emergency 10 percent hike to offset mounting costs which they claimed resulted from a 15-cent hourly wage boost awarded non-operating employees in September.

Shippers and other interests protested the petition for higher rates. The ICC took note of this opposition by commenting in its unanimous opinion that an increase in necessary to keep the carriers "in reasonably healthy condition."

Before the freight hike can be put into effect, the railroads will have to overhaul complicated rate schedules. This big job is under way now and the carriers are hoping the new schedules can be posted and filed with ICC in time for the higher rates to go into effect Monday.

### Kiwanis Meeting

(Continued from Page One) British made a then unknown deal with the Arabs not to allow a Jewish homeland, he declared. He told of how for 1,500 years the land had been arid and disease infested; of how it had been reclaimed by the Zionists until today, its mortality rate was less than here in this country.

He pointed out that Jews, freed from ghettos of Europe, had developed a new physiognomy with much stronger youths averaging five feet 10 inches in height. Not a single inch of land is owned by Jews that was not paid for to Arabs, he pointed out.

Mr. Kettle told of the movement that gave jobs to one million handicapped people. He said there were now 40 such cases in Seminole County receiving service and 30 others who are having their cases determined. He told of six persons here who last year were given jobs with total wages of \$9,360 a year, and declared that statistics show that the rehabilitation service is profitable.

In recognition of National Newspaper Week, Frank Shames thanked R. L. Dean and W. R. Connolly of The Herald, and Mrs. Mayma Hodgkin of the Orlando Sentinel for "fine co-operation" in recording Kiwanis happenings and events.

### Palestine Partition

(Continued from Page One) Arab states against both the partition plan and the proposal for a federalized state. Like all the Arab countries, Egypt urged creation of an independent Arab nation covering all Palestine.

The declarations were made before the 57-nation political committee of the General Assembly, which already had heard Uruguay and Panama support the partition plan and the Moslem Dominion of Pakistan back the Arab states in opposing it.

Poland's statement was made by Josef Winiewicz. He also demanded action to permit immediate immigration into Palestine despite vigorous Arab protests against further Jewish immigration. Czechoslovakia's position was stated by Foreign Minister Jan Masaryk and Egypt's declaration was made by Mahmoud Fawal Bey.

Columbian delegate Alberto Gonzalez Fernandez declared his country fully supported the partition plan. He urged an immediate U.N. appeal for a cessation of violence in Palestine.

LAKE SUCCESS, Oct. 8 (AP)—Poland today urged the United Nations to drop all other proposed solutions to the Palestine problem and concentrate on plans to partition the Holy Land into separate Jewish and Arab countries.

At the same time, Poland demanded action to permit immediate immigration of 250,000 European Jewish refugees into Palestine, despite vigorous protests against further Jewish immigration.

Poland's position was outlined by Josef Winiewicz before the General Assembly's 57-nation Palestine committee, which already had heard Uruguay and Panama support the partition plan and the Moslem Dominion of Pakistan line up with the Arabs opposing it.

Winiewicz did not specifically accept the partition plan, but he expressed opposition to both the Arab plan for an independent Arab state and the minority recommendations of the UN Special Committee on Palestine (UNSCOP) for a federalized state.

Poland's declaration made it clear that the eastern European countries were not following a unified Soviet bloc policy in Palestine. Yugoslavia and Czechoslovakia already had taken different positions as members of (UNSCOP); Czechoslovakia supported the partition plan and Yugoslavia advocated a federalized state.

There still was no definite indication as to the stand either Russia or the United States would take. Both were expected to make their main policy statements later this week, possibly Thursday or Friday.

Poland's list of speakers included Poland and Czechoslovakia. Winiewicz said Poland hoped that at some future time Jewish and Arab relations could be established on such a basis that a national federalized state would be possible but said the solution of a federalized state could not be the only one at this point.

The announcement emphasized that the partition plan which would be the only one at this point, he said.

Russia took the position at last year's special Palestine session of the Assembly that if cooperation between the Jews and Arabs was found possible, the next best solution would be partition. It was not known, however, whether Russia agreed with Poland that such cooperation could not be obtained.

### C Of C Election

(Continued from Page One) meets, and similar public attractions. A committee was named to consider the matter.

Earlier in the meeting, Mr. Shames read a report by President Bitting on the activities of the Chamber of Commerce during the past year. Among the projects promoted during the year were the deepening of the St. Johns River, the bus station, station, sign-seeing boats on the river, a tourist program, glider club, Labor Day celebration, acquisition of the Naval Air Station by the City and many smaller activities.

"One of the outstanding favorable indications I have noted," Mr. Bitting wrote, "is the spirit of cooperation of all organizations and citizens for the continued betterment of their city; this kind of cooperation is necessary for continued growth. Our own organization has increased its membership to over 100 new members and its subscriptions over 12 percent."

The above accomplishments are impressive and have added to the very material growth and prosperity that the City has enjoyed. I consider it a privilege to have served this year as President and I pledge my continued cooperation to my successor and the organization."

Mr. Shames commended the President for his report and also expressed his appreciation of the work of Mr. Higgins during the past year. J. L. Ingley presented the treasurer's report, and Mr. Leaser reported on the success of the recent trip he and Mr. Higgins made to Washington where CAA officials assured them of early transfer of the navy property to the City.

### Federal Funds Trade Agreement

(Continued from Page One) on 1941 credits from Britain. The small food consignment which arrived today was outside the scope of a full-scale trade pact. In London a government source said today Britain had told Russia she was "in a better position to guarantee deliveries now" in view of new plans for increasing industrial production.

Each government has expressed a "desire" to resume the talks, but Britain wants Russia first to pay up the unpaid balance of a debt installment due last Aug. 1 only half was paid.

The Board took no action, said Mr. Herridon, on County Judge R. W. Ware's refusal to pay back fees claimed by the County. The reason for taking no action, Mr. Herridon declared, was because the Board was working under the direction of the State Attorney General and the Bill had been rendered to Judge Ware in compliance with Attorney General Tom Watson's ruling.

A child usually is able to draw a circle before he can draw a square.

### County Board

(Continued from Page One) of a number of roads was awarded to the Dickinson Construction Co. of Lakeland which was authorized to resurface the following roads, according to County Clerk O. P. Herridon:

Beardall Avenue from Celery Avenue to Cameron City, a distance of three miles.

Cameron Avenue from Celery Avenue to Geneva Avenue, a distance of one mile.

Spies Avenue from Celery Avenue to the railroad crossing, a distance of one quarter mile. Previous to resurfacing, it will be widened to 18 feet.

The road from the Oviedo-Geneva highway toward Florida Avenue as determined by Commissioner B. C. Dood for approximately one and a half miles.

The Lake Mary road from the Seminole Country Club toward Lake Mary for approximately one and a half miles.

The Old Orlando road from Longwood south to the race track road, or about three quarters of a mile.

The Cemetery road in Geneva as designated by Commissioner W. G. Kilbee for one half mile.

Work is expected to start on these roads within the next 30 days under the supervision of M. C. Hagan, county surveyor. The

**Twin-Pack's just right for us**

"There are just the two of us and the baby and Southern Twin-Pack Bread is just right for our needs. When we open a loaf of Twin-Pack we use only a small amount and the rest of the loaf is always fresh for the next meal."

\*Mrs. M. J. Morrison, Daytona Beach, Fla.

In thousands of homes throughout the South, smart shoppers like attractive Mrs. Morrison are finding Southern Twin-Pack Bread "just right" for their needs. They know from meal-planning experience that Twin-Pack's double wrapping keeps Southern Bread fresh and flavorful longer. Once you try Southern Bread with the handy zipper opener, you too will find it "just right" for your needs. Enjoy the thrift and convenience of the double-wrapped half loaves—put Southern Twin-Pack Bread on your shopping list every time you need bread.

The image shows a woman and a baby. The woman is smiling and holding a large loaf of Southern Twin-Pack Bread. The baby is also smiling and holding a smaller loaf. The background is dark, making the bread and the people stand out. The text 'Southern Bread' is prominently displayed in the center.

THE TWIN-PACK REPORTER

\*Mrs. M. J. Morrison, shown above with 8-month old Michelle, was recently interviewed by Gabriel Benzur, Southern Twin-Pack Bread's traveling reporter. Her husband and his father manufacture waffles. Mrs. Morrison made the statement quoted above without pay because she is genuinely fond of Southern Twin-Pack Bread.

The image shows two boxes of Southern Twin-Pack Bread. One is a 'Sliced Bread' box and the other is a 'Whole Loaf' box. Both boxes feature the 'Twin-Pack' logo and the Southern brand name.

## Millions Of Americans Aid Food Program

### Few Restaurants Reported Protesting Not Serving Eggs; Distilleries Kick

By ASSOCIATED PRESS  
Egg prices climbed today in the big wholesale markets as the nation's consumers observed the first eggless and poultryless Thursday requested by President Truman in the campaign to save food for Europe. Egg prices advanced fully a cent a dozen in the New York and Chicago wholesale markets. Extra fancy heavy-weight whites brought \$8 to \$7 cents a dozen in New York and U. S. Extra No. 2 sold at 58 to 60 cents in Chicago.

By ASSOCIATED PRESS  
Millions of Americans who are joining in support of President Truman's food conservation program scratched poultry and eggs off their menus today.

Today was the first eggless and poultryless Thursday since Truman's request for full support of all citizens in the campaign to save food and although surveys indicated that the nation's first Meatless Tuesday received only token observance, more widespread cooperation was predicted today. Most restaurants as well as many housewives said the notice for a Meatless Tuesday was too short and their menus had been planned. Leaders in three major farm organizations—the American Farm

## AFL Counsel Has Stroke Blasting Taft-Hartley Act

SAN FRANCISCO, Oct. 9 (AP)—Death of 56-year-old Joseph A. Padway, general counsel of the American Federation of Labor, threw the AFL convention into a prospective showdown over John L. Lewis' refusal to sign an anti-Communist oath.

## Freight Rate Hike Costs Florida \$900,000

ORLANDO, Oct. 9 (AP)—Fruit and vegetable freight rate boosts, which will add approximately \$900,000 to Florida shipper-grower or bills during the first four months of the current season, have been authorized, Secretary of Agriculture John A. O'Rourke of the Overseas and Shippers League of Florida said.

## BANK HOLDUP

WEST GROVE, Pa., Oct. 9 (AP)—Two men with sawed-off shotguns today held up the National Bank and Trust Company of West Grove and made off with about \$9,000.

## GUNMAN WOUNDED

FINDLAY, O., Oct. 9 (AP)—An unidentified gunman was wounded today by police after he escaped from the police station and held them off for more than an hour by threatening to kill Pastor John Evans Knox of Trinity Episcopal Church.

## IWO JIMA HIT

GUAM, Oct. 9 (AP)—A typhoon accompanied by destructive 150-mile-an-hour winds whirled over Iwo Jima today, blotting out communications with the small army garrison on that tiny island battleground of World War II.

## U. S. Rocket Planes Reported Flying At 1,700 Miles Per Hour

By ROBERT S. BALL  
(Staff Correspondent Of The Detroit News)  
(Copyright, 1947, by the Detroit News)

CLEVELAND, Oct. 9 (AP)—American rocket planes have crashed the sonic barrier at blistering speeds in the neighborhood of 1,700 miles an hour, a high government official revealed today.

The flights have been carried on from a lonely island off the Virginia Coast, where the National Advisory Committee for Aeronautics (NACA) has a small experimental station. This disclosure of American progress in the field of supersonic flight—which is flight faster than the speed of sound—was prompted by publication Wednesday of accounts from England of the 900-mile-an-hour flight of pilotless rocket craft.

## France Defends, Russia Hits U. S. Foreign Policy

Bidault Says Formation Of Comintern Communist Blunder

NEW YORK, Oct. 9 (AP)—French Foreign Minister Georges Bidault wound up his three weeks visit in the United States today after blasting the new Communist International organization in Europe as a "blunder" and an "obstacle" to peace.

Bidault expressed belief that, although French Communists had joined the nine-nation Communist "Information Bureau," the organization would not dictate the affairs of France.

## Red Journalists Are Stoned By D.P.s

DUESSELDORF, Germany, Oct. 9 (AP)—Seven Soviet journalists touring the British zone were pelted with stones by a group of British soldiers, British zone commander, that they were stoned during a visit to a Displaced Persons camp yesterday near Hannover.

## Mercury Drops To 25 In Cadillac, Mich.

By ASSOCIATED PRESS  
The weather across the country was near normal today, with below freezing temperatures reported in only one section—lower Michigan.

## ARMED RESISTANCE

BEIRUT, Lebanon, Oct. 9 (AP)—The exiled Mufti of Jerusalem, Haj Amin El Husseini, arrived here yesterday for sessions of the Arab League Council called to discuss Arab armed resistance to any Jewish national state in Palestine.

## HAIL DAMAGES CROPS

LEWELLAND, Tex., Oct. 9 (AP)—Hail caused in less than an hour an estimated \$2,000,000 damage to crops, buildings and residences in the Lewelland area yesterday.

## MARY TO CLOSE

NEW YORK, Oct. 9 (AP)—Financial and commodity exchanges throughout the United States will be closed Monday, Oct. 13, in observance of Columbus Day.

## CIO Boycott Of NLRB Said To Be Crumbling

### Convention To Limit Action To Blast; Pickets Are Arrested At Struck Plant

WASHINGTON, Oct. 9 (AP)—A blanket 5 percent increase in rents in the Louisville, Ky., area and removal of ceiling in part of one South Dakota area were approved today by Housing Expediter Frank R. Creedon. It was the first action under a section of the new rent control law allowing blanket increases.

Creedon acted upon recommendation of local rent advisory boards created under the Rent Control Extension Act of last Congress. Simultaneously, he approved continued controls on Charleston, W. Va., Duluth, Minn., Superior, Wis., St. Petersburg, Fla., and New Castle, Ind., as recommended by boards there.

Complete decontrol was approved for Lawrence County, S. D., with the exception of the city of Spearfish. This, and the 5 percent increase in Jefferson County, Ky., which includes Louisville, became effective today.

The rent control law provided for creation of local advisory boards in some 400 rent control areas. These boards were empowered to recommend (1) increases in rents, (2) discontinuance of controls, or (3) continued controls without increases.

Creedon is required by the law to act within 30 days on any recommendation made to him. He is largely in the hands of local boards, the speed of any future actions under this section of the law will depend on them.

The housing expediter's announcement emphasized that approved rent increases may be applied only "at the time and in the manner provided by local provisions of local and state laws."

"Landlords and tenants have entered into a voluntary agreement in accordance with the provisions of the housing and rent act of 1947 are not subject to any subsequent actions which provide for blanket increases or for decontrol of the rent," Creedon said.

WASHINGTON, Oct. 9 (AP)—The State Department admitted today that so far it is stumped for means to prevent a threatened collapse of France's dollar purchasing power within the next week.

## City Registration Books Open To 10/25

Only one week remains until Oct. 16 for candidates to qualify to announce for the office of city commissioner in the Nov. 4 primary election, it was announced this morning by City Manager H. N. Sawyer.

## Location Of Children's Homes Will Be Shown On New School Spot Maps

The making of spot maps to indicate the home of every child enrolled in each school unit was discussed by Supt. T. W. Lawton with principals and supervisors at a meeting held yesterday at the office of Miss Ruth Hand, county school supervisor, at the Junior High School, Miss Hand president.

WASHINGTON, Oct. 9 (AP)—Joe Kubel, who used to be a fancy fielding first baseman for the Washington Senators, was named manager of the club today. Kubel, 41, succeeds Orlan Binger, who was made head of the Senators' farm system.

## Rent Increase Granted Under Control Law

### Request Is Okeyed By Housing Expediter; Lumber Prices Hit By Senate Group

BOSTON, Oct. 9 (AP)—The CIO boycott of the National Labor Relations Board was crumbling fast today. The CIO convention here next week is almost certain to avoid any policy that would encourage a continuation of that boycott.

Instead, the convention will make a strenuous attack on the Taft-Hartley Labor Law, but will state that each of the 41 CIO unions must decide for itself whether to file complaints and petitions before the reorganized NLRB under the new law.

These facts became clear at leaders of the CIO held committee meetings to prepare for the convention.

Reporters learned that the top officers of the CIO, president, secretary, treasurer, and vice-presidents, came to an agreement last night on the general substance of a policy statement on CIO use of the NLRB.

Meanwhile in New York, one of the firms that consolidate merchandise shipments here for movement to stores throughout the country complained to the National Labor Relations Board about the strike of more than 4,000 truck drivers employed by the Railway Express Company.

Samuel S. Stern, counsel for East River Terminals, Inc., announced last night that it had filed charges of illegal secondary boycott and an appeal for an injunction.

The striking union, Local 408 of the International Brotherhood of Teamsters, promptly announced it had sent telegrams to Charles T. Houds, regional NLRB director, and Robert N. Denham, NLRB general counsel, asking that the charges be dismissed on grounds the union is subject to the Railway Labor Act and outside NLRB jurisdiction.

And in Louisville, Ky., Jefferson county police arrested several picketers, an International Union Representative and ordered the removal of automobile road blocks at the strike-bound International Harvester Company plant here today.

## 53 Persons Narrowly Miss Death In Plane

EL PASO, Tex., Oct. 9 (AP)—Capt. Charles Sisto of Los Angeles today said 53 persons in a looping airliner missed death by only 500 feet yesterday and that "miracle" was because his head bumped a button and shut off three engines.

The 36-year-old pilot told reporters in a hotel room interview that a terrific dive into which the craft plunged yesterday afternoon would have been speeded up so that the biplane would have hit the ground instead of looping.

## 10 CENT FAGS

RICHMOND, Va., Oct. 9 (AP)—Cigarettes to sell for 10 cents a package were envisioned today in the testimony of T. F. Flanagan, chairman, Associated Tobacco Manufacturers, prepared for presentation before a congressional sub-committee on the economic report as it brought its three-day hearings here to a close.

## DRIVERS LICENSES

Judge R. W. Ware today reported that 56 late applications for drivers licenses had been made after Oct. 1. Total applications are 800 more than last year, he said.

## Resentment Grows To U. S.-Russian Secrecy

### Stenstrom Reveals Plans Of Giants Club At Jaycee Meet

"The Giants are taking over lock stock and barrel with no strings attached," Julian Stenstrom told the Seminole County Jaycee Chamber of Commerce at its noon luncheon meeting at the Mayfair Inn today.

"The Giants are going to own and operate the Sanford City Field entry in the Florida State League for the next five years in connection with their school and training camp in Sanford. They are going to get all the equipment of the Sanford club, and they will also be presented with the contracts of some 15 ball players in addition to the uniforms, bats and balls," Stenstrom stated.

## Jail Sentences Are Urged For Law Violators

LEON COUNTY GRAND JURY ATTACKS JOOKS NEAR TALLAHASSEE

TALLAHASSEE, Oct. 9 (AP)—A Leon county grand jury today recommended a policy of tough treatment for Tallahassee jooks which it said were hazardous to lawless elements and had influence on minor and Florida State University students.

The grand jury, in its presentment, recommended that judges in legally div Leon county "consider the advisability of imposing jail sentences rather than fines on persons convicted of violations of the liquor laws."

In the past, jail sentences have only rarely been given even when the defendant has been convicted repeatedly.

The grand jury also recommended picketing of two roadside restaurants south of Tallahassee at which men were killed in the 1930s.

At least one case of attempted rape in addition to the two killings has been reported recently at such establishments, the jury said.

## Pope Approves Force To Uphold The Law

VATICAN CITY, Oct. 9 (AP)—Pope Pius the 12th today approved the force of the U. S. House of Representatives yesterday that "law and order may at times have need of the strong arm of force."

At least one case of attempted rape in addition to the two killings has been reported recently at such establishments, the jury said.

## Lauderdale Urges Removal Of Dam

FORT LAUDERDALE, Oct. 9 (AP)—Residents of the west Fort Lauderdale section threatened "drastic action" unless a new dam in the south fork of the north New River canal, which they assert is causing a widespread flood, is removed immediately.

The Broward county drainage district board called a meeting at the dam early this afternoon including nearly 300 families whose homes were reported under water in a 15-mile area of Fort Lauderdale.

ARMY ENGINEERS AT JACKSONVILLE SAID they had no objection to the dam removal if a request was made by the Broward Drainage District.

## ROAD BIDS

TALLAHASSEE, Oct. 9 (AP)—James H. Craggs Construction Company of Ocala today submitted an apparent low bid of \$465,116 for construction of 2,225 miles of a 64-foot super highway through the city of Daytona Beach. The State Road Department also received bids for about 50 miles of road and bridge improvements in 12 other counties.

## JOE TRACY OUT

TALLAHASSEE, Oct. 9 (AP)—Joe Tracy, 52, last known surviving member of the Ashley Gang which terrorized Florida in the early days of the boom, was released from prison on parole yesterday.

## MRS. DUTRA DIES

WASHINGTON, Oct. 9 (AP)—President and Mrs. Truman, the White House said today, are joining in expressions of sympathy to President Dutra of Brazil on the death of Mrs. Dutra.

## Both Nations Reported Hesitating Over Speaking Out On Palestine Situation

LAKE SUCCESS, Oct. 9 (AP)—Mounting small power resentment against a policy maintained by the United States and Russia on their respective Palestine policies flared into the open today but failed to speed up declarations from these two major powers.

Sir Mohammed Zafrullah Khan, delegate from Pakistan, argued over the delay in his power policy statements, proposed that the 57-nation Palestine committee of the United Nations Assembly close its debate immediately without hearing the great nations.

Dr. Herbert V. Evans of Australia, committee chairman, said he had sympathy with Khan's suggestion but that he had to follow the established rules of procedure. He said there was a "reasonable" chance that the Palestine debate might be closed Sunday.

"Hector" David Casner of El Salvador then suggested that a deadline be fixed for delegations to get on their speakers' list.

Secretary of State Marshall did not attend today's Palestine session but was said to be keeping close touch with the Palestine problem. Marshall had an appointment in New York this afternoon with Prince Faisal Al Saud, former Saudi Arabian king.

## Lake Monroe Level Approaches Top Of Bulkhead

Lake Monroe continues to rise, although reports of a rise in closing up somewhat were reported. A rise in the night, this was reported on a measuring stick near the office of Jamail Trails at the St. Johns River Line building.

The water still in the sea wall near the Municipal Pier, built by the St. Johns River Line, is several inches over the bulkhead onto the grass, which is covered with water hyacinths. Only the fact that the water is still rising is reported.

Grand juries are "used to hanging" lawless elements, they also are frequently by students from Florida State University, that there were "spontaneous" fights and "gambling" at nightclubs.

"At least one case of attempted rape" in addition to the two killings has been reported recently at such establishments, the jury said.

## Negro Tries Stick-up, Injures Policeman

POPULAR BLUFF, Mo., Oct. 9 (AP)—A negro man armed with a sawed-off shotgun, entered police headquarters here today and after announcing "this is a stickup" shot and critically wounded Police Officer B. J. Bragg and fired another shot which hit the ceiling. A third charge jammed in the gun.

The negro then fled and dropped his shotgun as special Officer James Dunn fired a volley at him. Bragg was taken to hospital where doctors said the charge struck the right side of his face.

L. W. Schroeder of St. Louis, who was in the police chief's office at the time of the shooting, said the negro carried the gun under his coat, thrown over his right arm. He dropped his coat and hat as he turned to flee.

## MRS. DUTRA DIES

WASHINGTON, Oct. 9 (AP)—President and Mrs. Truman, the White House said today, are joining in expressions of sympathy to President Dutra of Brazil on the death of Mrs. Dutra.

### Washington Daily Demands Look At CSC "Smear File"

#### Says If Any Congressmen Are Disloyal, People Should Know

WASHINGTON, Oct. 8 (AP)—The Washington Evening Star, coming out for round two of a skirmish with Rep. Hoffman (R-Mich.), declared today that "if there are any disloyal members of Congress the people have a right to know it."

The newspaper said, however, that there is "no basis" for Hoffman to interpret one of its editorials as "charging that some members of Congress are disloyal."

The controversy began yesterday when Hoffman called two members of the Star editorial staff before the House Expenditures Committee, which he heads, and objected to an editorial which ran Monday.

The editorial commented on the committee's investigation of what Hoffman calls a "smear file" kept by the Civil Service Commission. The Commission set up the file in connection with an investigation of the loyalty of federal employees.

Hoffman says some Congressmen's names are on the list and he has demanded that the committee be given a look at it. The Commission has turned him down.

At the committee hearing yesterday Hoffman suggested to H. M. McKelway, editor of the Star, and John M. Cline, chief editorial writer, that a caption over Monday's editorial—intitling it "Disloyal Congressmen"—might lead readers to believe that some Congressmen are not loyal to their country.

Cline, who wrote the copy and the caption, said he did not think so.

He then read a letter sent to McKelway by Rep. McDowell (R-Pa.), praising the editorial as "very good and very logical" and saying it "states the case exactly."

Cline told Hoffman, "I offer that as the reaction of a reader." "Well, he's just one," Hoffman replied.

The Monday editorial expressed belief that a few people would "share the reported indignation of certain members of the House at the discovery that the names of disloyal congressmen may have been filed away by the Civil Service Commission."

"It said that if any such names are in the file 'they get there in the course of investigation which the commission has been directed to make.'"

He closed the investigation with the statement to reporters that he may ask the President to rule whether the committee can see the files.

### Food Program

(Continued from Page One) price, about double the old rate.

The new requirements apparently had little effect on market prices yesterday, when they became effective. Wheat and corn futures prices were higher on the Chicago exchange, and at 1:30 p.m. December closed at \$2.65 1/2, up 1/2 to 3/4 cent higher. Corn was up 1/2 to 3/4 cent, December finishing at \$2.24 1/2.

In the first volunteer Meatless Tuesday, live meat prices declined in some of the leading markets. There also was a drop in prices of wholesale butter, flour in the New York area and Chicago butter and egg futures. Bread prices in Detroit advanced 1/2 cent a loaf, following the general trend across the country.

Twelve thousand veterans in Wisconsin's hospitals in Illinois, Wisconsin and Indiana observed their first meatless days yesterday. An official said there would be strict compliance with the program except where special diets are needed.

Meanwhile, in another aspect of the food-price situation, the cost of shipping food and all freight increased 10 per cent and passenger fares on many railroads operating in the South were boosted. The country's railroad freight rates, which have a direct effect on the cost of living, were increased 10 per cent by the Interstate Commerce Commission.

### Havana Dancer

(Continued from Page One) dancing costume. I told him I had no money, must work and must have costumes. Jack said he was going to sell my clothes.

"He said inside, 'I have changed my mind, I am going to kill you. You know too much about me.'"

"I started toward me. He reached for something, repeating the same going to kill me. I looked around and asked the club in the driver. I picked up the gun. He started to get up from the bunk. I said, 'Jack, let me out of this room.'"

At this point, venerable president Harry Cristobal Maza, ordered the club brought to the 22-year-old defendant who danced under the name Patricia and that she was intimate with Maza "after we met in Havana" and that they had their first quarrel here

### Nation's Food Saving Program Is Raising Quite A Few Eyebrows

By JAMES MARLOW

WASHINGTON, Oct. 8 (AP)—If you're a little puzzled at this point by some of the government's food-saving program, this article is for you. Several weeks ago Senator Taft, Republican, suggested we could save food for Europe if we'd "eat less."

About a week ago President Truman suggested we could save food if we'd "waste less." He called for a voluntary food-saving program.

At the same time he created a citizens committee to work out a food-saving program with Charles Luckman, Boston businessman, as chairman.

Sunday night, in a radio address, Luckman asked us to "eat less" to save food for Europe. "The main idea is to get the people started saving food."

He asked us to "eat less meat"—none on Tuesdays—"eat less poultry and eggs"—none on Thursdays—and daily to save a slice of bread.

Does "waste less" mean the same as "eat less"? Charles Ross, Mr. Truman's secretary, seems unwilling to agree to that.

Asked about it, he said Mr. Truman originally emphasized that his voluntary food saving program is a "waste less" program rather than one of voluntary rationing and of eating less.

But if voluntarily doing without meat on Tuesdays and poultry and eggs on Thursdays isn't voluntary rationing, what is it?

And now Senator Taft's fellow Republican, Senator Wherry of Nebraska, says:

Mr. Truman's food-saving program is a "100 percent" endorsement of Senator Taft's "eat less" proposal.

So at this point the food-saving program seems to be involved a bit in semantics—the meaning of words—and in politics, too.

Does Luckman want us to go without meat on Tuesdays and poultry and eggs on Thursdays or more of all of them can be shipped

### Palestine Partition

(Continued from Page One)

Arab states against both the partition plan and the proposal for a federalized state. Like all the Arab countries, Egypt urged creation of an independent Arab nation covering all Palestine.

The declarations were made before the 57-nation political committee of the General Assembly, which already had heard Uruguay and Panama support the partition plan and the Moslem Dominion of Pakistan back the Arab states in opposing it.

Poland's statement was made by Josef Winiewicz. He also demanded action to permit immediate immigration into Palestine despite vigorous Arab protests against further Jewish immigration. Czechoslovakia's position was stated by Foreign Minister Jan Masaryk and Egypt's declaration was made by Mahmoud Fawal Bey.

Columbian delegate Alberto Gonzalez Fernandez declared his country fully supported the partition plan. He urged an immediate U.N. appeal for a cessation of violence in Palestine.

LAKE SUCCESS, Oct. 8 (AP)—Poland today urged the United Nations to drop all other proposed solutions to the Palestine problem and concentrate on plans to partition the Holy Land into separate Jewish and Arab countries.

At the same time, Poland demanded action to permit immediate immigration of 250,000 European Jewish refugees into Palestine, despite vigorous protests against further Jewish immigration.

Poland's position was outlined by Josef Winiewicz before the General Assembly's 57-nation Palestine committee, which already had heard Uruguay and Panama support the partition plan and the Moslem Dominion of Pakistan line up with the Arabs opposing it.

Winiewicz did not specifically accept the partition plan, but he expressed opposition to both the Arab plan for an independent Arab state and the minority recommendations of the UN Special Committee on Palestine (UNSCOP) for a federalized state.

Poland's declaration made it clear that the eastern European countries were not following a unified Soviet bloc policy in Palestine. Yugoslavia and Czechoslovakia already had taken different positions as members of (UNSCOP); Czechoslovakia supported the partition plan and Yugoslavia advocated a federalized state.

### Chinese Official Sees Comintern As Move Toward War

NANKING, Oct. 8 (AP)—Chen Li-Fu, China's influential minister of organization, today declared Russia reestablished the Comintern as "A Soviet effort to create her own 'United Nations' organization because she is unable to impose her will on a majority of the UN."

Chen, sometimes described as a wilding power almost equal to Chiang Kai-Shek's in the Kumin-tang (government party), told the Associated Press:

"War is certain to be the final result unless the world's strong nations and their bloc-building. There has been a wrong idea in the minds of victor nations in World War Two that war has achieved freedom of equality for which we fought."

The present situation is not more than an intermission in fighting. Unless the strong nations abandon their efforts to gather satellites around them, we are certain to find ourselves in World War Three whether we want it or not."

Chen said reestablishment of the Comintern would have little effect on China's own Communist problem. "Their never has been a halt in activities of international Communism, which simply went underground when Moscow announced dissolution of the Second International," he said.

The veteran party leader urged international acceptance of definitions of what is right and what is wrong as the first step toward general agreement, adding:

"There is little use in attempting to settle disputed when one nation calls its actions morally right while another describes these actions as wrong."

Chen criticized the United States for failing to have some pronounced opposition to Chinese Communists, as it has against Communists in America.

"You have declared the Communists are dangerous to your government but there are many Americans who refuse to put the Chinese Communists in the same category," he asserted.

Commenting on published declarations attributed to Vice President Sun Fo that lack of a stable U. S. policy promising assistance to China might force this nation to seek a closer relationship with Russia, Chen said "There is a certain group of Chinese people with this belief, but it is not the belief of the national government."

Coincidentally, he said he would be a candidate for the legislative Yuan (council) from his native Wuhsin, Chekiang province, in December, giving up his party post "to rest and write some books."

### C Of C Election

(Continued from Page One) meets, and similar public attractions. A committee was named to consider the matter.

Earlier in the meeting, Mr. Shames read a report by President Bitting on the activities of the Chamber of Commerce during the past year. Among the projects promoted during the year were the deepening of the St. Johns River, the bus station, station, sign-seeing boats on the river, a youth program, glider club, Labor Day celebration, acquisition of the Naval Air Station by the City and many smaller activities.

"One of the outstanding favorable indications I have noted," Mr. Bitting wrote, "is the spirit of cooperation of all organizations and citizens for the continued betterment of their city; this kind of cooperation is necessary for continued growth. Our own organization has increased its membership to over 100 new members and its subscriptions over 12 percent."

The above accomplishments are impressive and have added to the very material growth and prosperity that the City has enjoyed. I consider it a privilege to have served this year as President and I pledge my continued cooperation to my successor and the organization."

Mr. Shames commended the President for his report and also expressed his appreciation of the work of Mr. Higgins during the past year. J. L. Ingley presented the treasurer's report, and Mr. Leaser reported on the success of the recent trip he and Mr. Higgins made to Washington where CAA officials assured them of early transfer of the navy property to the City.

There still was no definite indication as to the stand either Russia or the United States would take. Both were expected to make their main policy statements later this week, possibly Thursday or Friday.

Poland's list of speakers included Poland and Czechoslovakia. Winiewicz said Poland hoped that at some future time Jewish and Arab relations could be established on such a basis that a national federalized state would be established and that one of the national states could not be the club and just one of the present nations.

The international situation then was pointed out which involves and are too long," he said.

Russia took the position at last year's special Palestine session

### Vaccination Stopped Epidemic Of Rabies, Doctors Are Told

ATLANTIC CITY, Oct. 8 (AP)—Vaccination clinics for dogs that stopped a wildfire spread of rabies were described to the American Public Health Association today by Dr. Robert F. Kohn and Dr. Albert Zeigler of the New York State Health Department, Albany.

An epidemic of rabies broke out in animals in upstate New York in 1944-47, with nearly a ten-fold increase over the normal numbers in infected each year, Dr. Kohn said. The epidemic was unusual because the rabies spread to foxes and cattle.

In a two-year program, anti-rabies vaccine was given to dogs in 24 counties, and in 12 counties the dogs were revaccinated. In ten central counties particularly, he said, dog rabies has essentially disappeared while fox and cattle rabies continued to occur. These ten counties vaccinated more than 70 percent of their dogs. The attack rate in vaccinated dogs has been only one-eighth of that in non-vaccinated dogs, Dr. Kohn said.

Foxes are being trapped with apparent success to combat rabies in those animals, he added. Except for one human case in 1945 and another in 1944, there has been no human rabies in upstate New York since 1930, he said.

A survey indicating that dogs may be the source of some salmonella infections in humans was reported by Arthur H. Wolff, Norman D. Henderson, and Grace L. McCallum of the Michigan State Health Department, Lansing.

The salmonella infections are caused by germs closely related to typhoid bacilli. In man they cause acute intestinal ailments, sometimes severe blood infections, and may be fatal to children. Dogs frequently may be carriers of the germs, they said.

The first case of anthrax, and a fatal one, traced to elephant tusks was reported by Drs. Roy M. Seideman and Kenneth M. Wheeler of the Connecticut State Health Department, Hartford. The victims was a worker in a piano-key industry and had been sawing elephant tusks imported from Africa.

### Freight Rates

(Continued from Page One) may be put into effect on five days notice but the roads gave no indication when they might act. Not all of the railroads had asked permission to boost the fares.

In sanctioning the general freight rate increase, the ICC made exemptions in the movement of coal, coke and iron ore at the request of the railroads. In those categories, the ICC permitted a specific increase of 10 to 15 cents a ton, slightly under the rate applied to other freight.

The railroads, which got a 17 percent increase last Jan. 1, sought the emergency 10 percent hike to offset mounting costs which they claimed resulted from a 15-cent hourly wage boost awarded non-operating employees in September.

Shippers and other interests protested the petition for higher rates. The ICC took note of this opposition by commenting in its unanimous opinion that an increase in necessary to keep the carriers "in reasonably healthy condition."

Before the freight hike can be put into effect, the railroads will have to overhaul complicated rate schedules. This big job is under way now and the carriers are hoping the new schedules can be posted and filed with ICC in time for the higher rates to go into effect Monday.

### Trade Agreement

(Continued from Page One) on 1941 credits from Britain.

The small food consignment which arrived today was outside the scope of a full-scale trade pact. In London a government source said today Britain had told Russia she was "in a better position to guarantee deliveries now" in view of new plans for increasing industrial production.

Each government has expressed a "desire" to resume the talks, but Britain wants Russia first to pay up the unpaid balance of a debt installment due last Aug. 1 only half was paid.

The Board took no action, said Mr. Herridon, on County Judge R. W. Ware's refusal to pay back fees claimed by the County. The reason for taking no action, Mr. Herridon declared, was because the Board was working under the direction of the State Attorney General and the Bill had been rendered to Judge Ware in compliance with Attorney General Tom Watson's ruling.

A child usually is able to draw a circle before he can draw a square.

### County Board

(Continued from Page One) of a number of roads was awarded to the Dickinson Construction Co. of Lakeland which was authorized to resurface the following roads, according to County Clerk O. P. Herridon:

Beardall Avenue from Celery Avenue to Cameron City, a distance of three miles. Cameron Avenue from Celery Avenue to Geneva Avenue, a distance of one mile.

Spies Avenue from Celery Avenue to the railroad crossing, a distance of one quarter mile. Previous to resurfacing, it will be widened to 18 feet.

The road from the Oviedo-Geneva highway toward Florida Avenue as determined by Commissioner B. C. Bond for approximately one and a half miles. The Lake Mary road from the Seminole Country Club toward Lake Mary for approximately one and a half miles.

The Old Orlando road from Longwood south to the race track road, or about three quarters of a mile. The Cemetery road in Geneva as designated by Commissioner W. G. Kilbee for one half mile. Work is expected to start on these roads within the next 30 days under the supervision of M. C. Hagan, county surveyor. The

### Kiwanis Meeting

(Continued from Page One) British made a then unknown deal with the Arabs not to allow a Jewish homeland, he declared. He told of how for 1,500 years the land had been arid and disease infested; of how it had been reclaimed by the Zionists until today, its mortality rate was less than here in this country. He pointed out that Jews, freed from ghettos of Europe, had developed a new physiognomy with much stronger youths averaging five feet 10 inches in height. Not a single inch of land is owned by Jews that was not paid for to Arabs, he pointed out.

Mr. Kettle told of the movement that gave jobs to one million handicapped people. He said there were now 40 such cases in Seminole County receiving service and 30 others who are having their cases determined. He told of six persons here who last year were given jobs with total wages of \$9,360 a year, and declared that statistics show that the rehabilitation service is profitable.

In recognition of National Newspaper Week, Frank Shames thanked R. L. Dean and W. R. Connolly of The Herald, and Mrs. Mayma Hodgkin of the Orlando Sentinel for "fine co-operation" in recording Kiwanis happenings and events.

## Millions Of Americans Aid Food Program

### Few Restaurants Reported Not Serving Eggs; Distilleries Kick

By ASSOCIATED PRESS  
Egg prices climbed today in the big wholesale markets as the nation's consumers observed the first eggless and poultryless Thursday requested by President Truman in the campaign to save food for Europe. Egg prices advanced fully a cent a dozen in the New York and Chicago wholesale markets. Extra fancy heavy-weight whites brought \$8 to \$7 cents a dozen in New York and U. S. Extra No. 2 sold at 58 to 60 cents in Chicago.

By ASSOCIATED PRESS  
Millions of Americans who are joining in support of President Truman's food conservation program scratched poultry and eggs off their menus today.

Today was the first eggless and poultryless Thursday since Truman's request for full support of all citizens in the campaign to save food and although surveys indicated that the nation's first Meatless Tuesday received only token observance, more widespread cooperation was predicted today. Most restaurants as well as many housewives said the notice for Meatless Tuesday was too short and their menus had been planned. Leaders in three major farm organizations—the American Farm

## AFL Counsel Has Stroke Blasting Taft-Hartley Act

SAN FRANCISCO, Oct. 9 (AP)—Death of 56-year-old Joseph A. Padway, general counsel of the American Federation of Labor, threw the AFL convention into a prospective showdown over John L. Lewis' refusal to sign an anti-Communist oath.

## Freight Rate Hike Costs Florida \$900,000

ORLANDO, Oct. 9 (AP)—Fruit and vegetable freight rate boosts, which will add approximately \$900,000 to Florida shipper-grower bills during the first four months of the current season, have been authorized, Secretary of Agriculture John A. O'Rourke of the Overseas and Shippers League of Florida said.

## BANK HOLDUP

WEST GROVE, Pa., Oct. 9 (AP)—Two men with sawed-off shotguns today held up the National Bank and Trust Company of West Grove and made off with about \$9,000.
