bureau said in summarizing the national survey. "With an aver-

is reduced." Reviewing general marketing conditions during 1926, the report pointed out that the gross value of the principal crops, based on prices of Dec. 1, 1826, was \$7,802,000,000 compared with \$8,789,000,000 for

the farmers, continues, "conditions in certain important producing regions have shown no improvement within a mechanic for Wood, at the con- up and down the straightway." year. The disparity between prices of farm products and the cost of industrial goods and serrices is greater than a year ugo." The general level of farm prices declined 12 per cent during 1928.
Producers of livestock, wool, dairy products and augar will operate in generally fair markets, the bureau forecasts, but profitor loss-in other commidities will carry with the acerage, particular-ly in the case of cotton.

Wheat growers "can scarcely expeet to receive returns for 1927 crop similar to those which have prevailed for the 1926 crop, especially if production abould be materially increased,"

Corn farmers "are faced with the prospect of lower prices unless -(INS)-Touts, undesirable but accrage is substantially reduced."

A favorable year for livestock might do well by turning lobby's for a short time when the state legislature meets at Tallahassec in a few days.

Only by enactment of a new law governing race track operation can the thoroughheed areas a special to be firm with market appears to be firm with ket change in price in sight.

Potato gravers are admonished in guard against over-planting. "The dairy industry is on a stronger basis than a year ago. Dairymen are likely to have a moderately favorable spread hetween the price of feed and the wice of dairy products.

Renew Your Health By Purification

Any physician will tell you that Perfect Purification of the System is Nature's Foundation of Perfect Realth." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotaba, -once or twice a week for several weeks-and see how Nature re-wards you with health.

Calotaba are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstores. (Adv).

Colder Refrigeration

Users of Kelvinstor electric refrigeration never worry about whether or not foods will keep. The intense, dry cold not only "keeps" foods but actually improves them.

Installed in your own re-frigurator, Kelvinator will not only keep your foods perfectly but will relieve you of the anasyzace of reno attention. Phone or call and let us explain it.

Give To The Y. M. C. A.

The Y. M. C. A. of this city is to enter upon a campaign to raise fourteen thousand dollars to covey necessary expenditures during the next twelve months. Although contributions to such a fund will undoubtedly tax the resources of San-ford people, there is every good reason in the world why the campaign should come to a successful close.

The Y. M. C. A. does a work in this city and county not even approached by any other organization. Begun about a year ago, it has made rapid strides in strengthening its foothold here and giving young men what has been woefully needed for a good many years. Once so well started it would be inexcusable to allow it to die; yet it must, if it does not receive adequate support from the people.

British missionary are sulfand a British mis

"What does the modern woman do with her spare time?" We have put that question to several of them and the infor- to have caught the excitement of mation we have thus gathered is that they don't have any the flowery kingdom. spare time. The modern woman, it seems, is quite as busy as was her mother or grandmother in the days before vacuum in six cities, with six killed and cleaners, electric wash tubs, telephones, electric floor polishers two shot. In America, fortunateand the many other conveniences of the current era.

But a well known critic of the species female has advanced the theory that the reason the modern woman is as busy as her grandmother is not because the cooking, house keeping, or horde of rollicking offsprings require her attention, but because with the popularization of the automobile as a means of transportation, the woman has become engulfed in a riot distribution and the second car, the "Mystery S," of social teas, club luncheons, bridge parties and what might looking like a submarine on land, be conserved as "extra-curriculum activities." be generally classed as "extra-curriculum activities," But there are those who would call this form of "work" miles an hour. It's an achieve-

idleness. We have in mind the conductor of the famous No automobile can go USEFUL-"Tracy" column of the Scripts-Howard namers who writes like this: "One cause of social unrest, I believe, is the idle woman. Our women are surrounding themselves with vacuum cleaners and chocolate drops, and, instead of using their freedom to improve their minds, they are using it to improve their faces, or so they think, and to play bridge. Divorces

LY 166 miles an nour, or 100 miles an hour, full of timely teaching. Crowds are full of timely teaching. Crowds are moving out of the villages, the moving out of the villages, the cancelled engagements and turned towns, the cities, and they are miderines. A new appraisement is imperatively needed in many of our cities today. The UNITED STATES was the place for real speed.

THE UNITED STATES was the cities, and they are miderines into the wilderness. A new appraisement is imperatively needed in many of our cities today. The control of the villages, the cancelled engagements and turned towns. The cities, and they are marching towns. The cities an nour, or 100 miles an hour, or 100 miles an hour.

THE UNITED STATES was the cities, and they are marching towns. The cities, and turned towns. A new appraisement is imperatively needed in many of our cities today. The control of the villages, the conceiled engagements and turned towns. The cities, and they are moving out of the villages, the course moving out of the villages, the cities, and turned towns. The cities, and turned towns. A new appraisement is imperatively needed in many of our cities today. The course moving out of the villages, the cities, and turned towns. The cities an hour, or 100 miles an hour. Tracy" column of the Scripts-Howard narcrs who writes LY 166 miles an hour, or 100 miles

and work for the children's courts follow."

If this is a fact, it is most unfortunate. Bridge playing at best has little in its favor. It requires considerable time without affording any of the benefits of exercise or mental stimulation. A game of golf or a good book would be better.

But if it is in any degree the cause of divorce or the lack of annunition accidentally hill all the region round about the Jor

These rounds are not armed ment search in the lack of the marching of the marching of the marching of men and woman are willing to employ destructive from Jerusalem, and all Judea, and are not armed ment search in the lack of the marching of the marching of men and woman are willing to employ destructive from Jerusalem, and all Judea, and are not armed ment search in the lack of the marching of the march training among children, it is properly classed with modern evils which go with "jazzmania."

However, we do not believe that many women of this generation are sacrificing their homes, husbands or children for the means of the me idle pleasures. . We think it is the exception rather than the rule when a woman devotes so much of her time to "running" around" that things which should mean vastly more to her are ecuted in New York state. Rozalana allowed to suffer.

The Effect Of Success

What is the effect of success? We are inclined to think Farmer was electroruted. Govertoo often that success is apt to lead one to a smug self-satisfaction which overlooks the good qualities of others less fortunate and over-emphasizes one's own genius, that success hardens one and leaves him unappreciative of art, beauty and culture and things dissociated with dollars and cents. This is not always the case. Men high in finance often

leave business matters entirely behind them when they leave the office. It is said of J. Pierpont Morgan that out of his office he talks of very little else except paintings and sculpture.. He has made a hobby of these arts and finds considerable relaxation from the hard grind of monetary figures by Friends say he was hypnotized by thinking and talking of Itaphael, Turner, VanDyke and Sar- the woman whose husband he kill geant.

So it is with many others. A man is a fool who allows and the course of events work as himself to become so engulfed in his business that he forgets, usual, the man will be executed or has no interest in anything else. Speaking of success, and the woman sentenced to life OttoKahn, of Kuhn, Loeb & Co., said recently: "I have been imprisonment. There seems to be OttoKahn, of Kuhn, Loeb & Co., said recently: "I have been fortunate in having success come to me and still more fortunate in not having success chill or isolate me.' A kind fate has endowed me with the combined gifts

"A kind fate has endowed me with the combined gifts prince of Wales for a "tip" on the of practical qualities on the one hand, and appreciation of Grand National Steeplechase, to spiritual things, love of beauty and sympathy with my fellow be run today, was told to bet on a beings on the other. Life is as vivid to me, the great adventure of living as thrilling, as in my early youth."

A man who can take success in this manner cannot fail. the time you read this, that his It is he who attaches too much importance to success who is bet was a loss. most apt to lose it.

SANFORD FORUM

Editor, The Sanford Herald.

The Sunday pictures were in-troduced with their attendant evils. pansion of the city, a birthright of citizens was bartered. If the city belches forth the fumes of moral death, and the cause of the beiching cannot be corrected, then the citizens would do well to turn to the wilderness. We need to remind ourselves again and again that our first and preeminent task is to develop men and women according to

Citizens of one of our Florida

towns tell me that their chamber

God's own designing. From Him who knew the size and the kind of man needed in every community and city came this question: "What went ye out into the wilderness to behold?" Did you go out to see "a reed shaken by the wind!" If you went out to see "a reed shaken by the wind," there was quite a surprise for you.

The wilderness man possessed the strength of steel, and he refused to bend before every wind which blowed. I understand in part. though I am 1900 years removed from the time, why the roads were kept hot from Jerusalem and other Judean communities to the spot which this wilderness man occupied. Then and now the world b nors a real man and a real woman. The appeal of Warburton is the appeal of many earnest and honest parents at this hour.

Keep your inmost soul as pure As your mother's virtue, sure There's no power in all the hells Strong enough to drag you down, Ecb you of your manhood's CIVER

If John the Baptist lived today, If John the Baptiat lived today, if the wilderness man were an American, do you suppose that a movie contract would be offered him !Personally I think no man would dare approach him with such a stupefying offer. There might be prometer who would think such thoughts but, when they leaked into the face of that man of such wondrous strength, their puny thoughts would be from with feat. Every line of his face carried the state (Continued on Page Three)

The head of some of these ten-nis courts enthusiasts seem to be filled with concrete.

We wish some skillful engineer would invent a system for the bet-ter drainage of our fountain pen.

The shoe stores are going to do rushing business during the next two weeks. In April the legislature is to convene.

Concrete tennis courts are re-ommended by the ignorant as a measure of economy; yet the ini-

Daytona has always been a pretty fast town but it will lock mighty slow to that automobile driver if he succeeds in making two hundred miles an hour.

Two years ago the New York World said Benjamin Way was seventy-six years old and now it says he is eighty-six, which is growing some even for "Pie'," Way's old man,

The United States has fifteen pundred marines in Shanghai op-osed to something like four hun-red million Chinese. Pretty tough or the Chinamen if the Marines ild get sore.

The termination of the antimuggling treaty means something more serious than exportation of arms to Mexican revolutionalists it means that importation of more Chinamen to wreck our other collar.

Add to the long list of martyrs be Florida school teacher. Add to allen castles, the hopes and ambitions for improvement once held by school heads throughout the state. To tragedies, add the failure of an adequate state appropriation for furthering school work.

Benjamin Way says his idea of Heaven is standing on First Street with a popular in each hand and seeing his old time friends coming toward him. And some folk's idea of hell is Benjamin Way hanging around trying to sell them his patent medicine for celery bugs.

P. Morgan has given two tred thousand dellars to the relegical Institute for the y and treatment of encephali-

Give To The Y. M. C. A.

The Y. M. C. A. of this city is to enter upon a campaign to raise fourteen thousand dollars to cover necessary expendi-tures during the next twelve months. Although contribu-tions to such a fund will undoubtedly tax the resources of Sanford people, there is every good reason in the world why the campaign should come to a successful close.

The Y. M. C. A. does a work in this city and county not even approached by any other organization. Begun about a year ago, it has made rapid strides in strengthening its foothold here and giving young men what has been woefully needed for a good many years. Once so well started it would be inexcusable to allow it to die; yet it must, if it does not receive adequate support from the people.

In New York City a campaign will be waged from May 3 to may 13 to raise six and a half million dollars. An expan-sion program of nearly ten million is contemplated. New slon program of nearly ten million is contemplated. New York City realizes that there is no other organization which reaches out to young men of poor families with such an attractive appeal, offering athletic, intellectual and moral development, as the Y. M. C. A. New York people will contribute generously to the campaign fund.

In Sanford we cannot fail to do otherwise. The very fact that such contributions do entail sacrifices on the part of the donor is all the more reason for giving. Young men in San-

donor is all the more reason for giving. Young men in Sanford will have more need than ever for a Y. M. C. A. during the next few months. It must be sustained.

During the war, there was a slogan on the lips of every-one, "Give until it hurts." We all gave and we won the war. Sanford cannot afford in the present emergency not to give until it hurts to preserve the Y. M. C. A.

Are Women Busy?

"What does the modern woman do with her spare time?" We have put that question to several of them and the information we have thus gathered is that they don't have any spare time. The modern woman, it seems, is quite as busy as was her mother or grandmother in the days before vacuum cleaners, electric wash tubs, telephones, electric floor polishers and the many other conveniences of the current era.

But a well known critic of the species female has advantaged in the flowery kingdom. Wars between the Hip Sing and On Leong gentlemen broke loose yesterday in six citles, with six killed and two shot. In America, fortunately, the Chinese are considerate and usually shoot only Chinese.

But a well known critic of the species female has advanced the theory that the reason the modern woman is as busy as her grandmother is not because the cooking, house keeping, merica's automobile record yester-or horde of rollicking offsprings require her attention, but be- day, flying over the sands of Dayor horde of rollicking offsprings require her attention, but because with the popularization of the automobile as a means of transportation, the woman has become engulfed in a riot His racing car, the "Mystery S," of social teas, club luncheons, bridge parties and what might booking like a submarine on land, be generally classed as "extra-curriculum activities." be generally classed as "extra-curriculum activities."

But there are those who would call this form of "work" idleness. We have in mind the conductor of the famous "Tracy" column of the Scripts-Howard papers who writes like this: "One cause of social unrest, I believe, is the idle woman. Our women are surrounding themselves with vacuum cleaners and chocolate drops, and, instead of using their freedom to improve their minds, they are using it to improve and work for the children's courts follow."

If this is a fact, it is most unfortunate. Bridge playing at best has little in its favor. It requires considerable time without affording any of the benefits of exercise or mental stimulation. A game of golf or a good book would be better. But if it is in any degree the cause of divorce or the lack of ammunition accidentally kill training among children it is properly classed with modern.

If the unit of the famous No automobile can go USEFUL. LY 166 miles an hour, or 100 miles and hour.

The unit of timely teaching, crowds are not large and these crowds are not large and these crowds are not large and these crowds are not armed men searching for the game of the describing for a body of bandits. What is the meaning of the marching of the marching of the meaning of the marching into the wilderness. An ewappraisement is imperationable towns, the cities, and there crowds are not large and times crowds are not armed men searching into the cities, and there is the winderness. An ewappraisem But there are those who would call this form of "work"

But if it is in any degree the cause of divorce or the lack of training among children, it is properly classed with modern evils which go with "jazzmania."

However, we do not believe that many women of this generation are sacrificing their homes, husbands or children for idle pleasures. We think it is the exception rather than the rule when a woman devotes so much of her time to "running around" that things which should mean vastly more to her are ecuted in New York state. Roxalana allowed to suffer.

The Effect Of Success

What is the effect of success? We are inclined to think too often that success is apt to lead one to a smug self-satis-nor Hughes refused a commutafaction which overlooks the good qualities of others less fortunate and over-emphasizes one's own genius, that success hardens one and leaves him unappreciative of art, beauty and culture and things dissociated with dollars and cents.

This is not always the case. Men high in finance often confessed she helped an leave business matters entirely behind them when they leave to murder her husband. the office. It is said of J. Pierpont Morgan that out of his the office. It is said of J. Pierpont Morgan that out of his She says she now loathes the office he talks of very little else except paintings and sculpt- man that did the killing. He seems ure.. He has made a hobby of these arts and finds considerable relaxation from the hard grind of monetary figures by thinking and talking of Raphar! Turner, VanDyke and Sar-

So it is with many others. A man is a fool who allows and the course of events work as himself to become so engulfed in his business that he forgets, usual, the man will be executed or has no interest in anything else. Speaking of success, OttoKahn, of Kuhn, Loeb & Co., said recently: "I have been fortunate in having success come to me and still more fortunate in not having success chill or isolate me.'

"A kind fate has endowed me with the combined gifts of practical qualities on the one hand, and appreciation of spiritual things, love of beauty and sympathy with my fellow beings on the other. Life is as vivid to me, the great adventure of living as thrilling, as in my early youth."

Grand National Steeplechase, to be run today, was told to bet on a horse called "Thrown In," at odds of 100 to 1 against that horse. The blind soldier knows, perhaps, by

A man who can take success in this manner cannot fail. It is he who attaches too much importance to success who is bet was a loss. most apt to lose it.

SANFORD FORUM

Editor, The Sanford Herald. Dear Sir:

The estimated cost of a battery to assist that already attractive to assist that already attractive section of this city in becoming one of the best tourist centers in the state.

Yours very truly, S. R. Dighton.

It would require the services of one man for a period of about two hours dally to wet and roll a mari court. This man could, in my estimatoin, be one of the regular employees of the park or atreet departments. The difference saved in building clay, or mari, courts would supply this maintainance cost for several rears.

clay court in the estimation and tavor of the real tennis enthusi-

It has come to my attention that efforts are being made to have the City Commission authorize the construction of four concrete tennis courts, and that the argument advanced by proponents of such courts are that the maintenance costs would prohibit the use of municipal clay courts.

The estimated cost of a battery of four concrete tennis courts are that the maintenance costs would prohibit the use of municipal clay courts.

The estimated cost of a battery of four concrete tennis courts are to assist that already attractive section of this city in becoming one

SATURDAY EVENING SERMON Dr. F. D. King, First Baptist Church

No pleading placards lured the rowds from famous Jerusalem in- peal to us, and we crowd our papers stival had been widely advertised. There is nothing very inviting a-bout the wilderness, but there was in the wilderness an object which drew the crowds from villages, towns and from famous Jerusalem. The World's Estimate Of A Man

If this morning you and I could ound the hearts of some fathers in tion Mr. Guest our prolific poet, is as good example as we could reflecting this wilderness secret. Listen to our poet as his heart pleads for the noblest development

'Boy o' mine, boy o' mine, this is my prayer for you, This is my dream and my ught and my care for you: Strong be the spirit which dwells

in the breast of you, Never may folly or shame get the best of you. You shall be tempted in fancied security. But make no choice that is stained with impurity.

Boy o' mine, boy o' mine, this is my prayer for you: Never may shame pen one line of despair for you.

mean all to you. Cling to your honor whatever shall fall to you, Rather than victory, rather than

fame to you, Choose to be true and let nothing bring shame to you.

Our pjopular and prolific people's poet takes us into his confidence and tells us in this poem that one of the greatest passions of his life is for his boy to develop into a real man. The crowds pouring out of the towns and out of Jerusalem were towns and out of Jerusalem were striking and dramatic testimony of the estimate which the people pla-ced upon a real man. The wilder-ness had a man of unusual dimen-sions, and the multitudes poured themselves into the wilderness to for many suicides. Nearly 40 years ago, an evening newspaper discussed the question, "Is Suicide a Sin?" and while the discussion lasted, suicides were something worth thinking about. So they waited.

The pre-eminent Appraiser of personality gives His estimate of this wilderness man when He defended to the spot waited.

The pre-eminent Appraiser of personality gives His estimate of this wilderness man when He defended to the spot which this wilderness man occupied. Then and now the world home ago to the spot which this wilderness man occupied. Then and now the world home ago to the spot which this wilderness man occupied. Then and now the world home ago to the spot waited. AUTOMOBILE MAKERS ARE clares, "Among them that are born of women there hath not arisen a greater than John the Baptist."
A New Appraisement Imperative Dr. James I. Vance correctly characterizes the conditions when

"The people in Jerusalem had found that pomp and power and place and wealth, and all the things which go with them, were a failure

What have we gained in the growth of our city if that growth contains the certain elements of moral death? What have we gained when the bank shows rapidly increasing deposits if the money shows signs of the gamblers and grafters' touch- What has been this country, we would there find gained in rapidly increasing the the business buildings of our city if some of our parents are offering find in modern American public life their sons and daughters to the cesspool of the gambler? Unless our civilization is producing a finer and a stronger type of men and vomen, we are being deluded, and Death is upon our tracks. Imperative is the necesity for a new ap-praisement of values.

Citizens of one of our Florida towns tell me that their chamber of commerce selected and secured secretary who used his influence to introduce Sunday moving pic-tures. The Sunday pictures were intures. The Sunday pictures were in-troduced with their attendant evils. For the sake of some possible ex-pansion of the city, a birthright of the boys and the girls and the older citizens was bartered. If the city belches forth the fumes of moral death, and the cause of the belching cannot be corrected, then the citizens would do well to turn to the wilderness. We need to remind ourselves again and again that our first and preeminent task is to de-God's own designing.

From Him who knew the size and the kind of man needed in every community and city came this question: "What went ye out into the wilderness to behold?" Did you go out to see "a reed shaken by the wind?" If you went out to see "a reed shaken by the wind," there was quite a surprise for you.

The wilderness man possessed the strength of steel, and he refus-ed to bend before every wind which blowed. I understand in part, nors a real man and a real woman. The appeal of Warburton is the appeal of many earnest and honest parents at this hour.

PRANER --

ADVERTISEMENTS are more interesting today than at any time since the invention of movable type. Merchants

If you are not a regular reader of the advertisements in this paper, this is a good time to cultivate their acquaintance. You will find them interesting. You will find them friendly. They show you where to stop and take considerable strain off both shoe-leather and pocketbooks.

READ the advertisements because they are interesting. Believe them because they are true. Act upon their suggestions because it will pay you in many ways. Before you pick up the telephone, you usually consult the phone-book. Before you start out to shop, consult the advertising columns of this paper. They will give you a direct connection with the merchandise you want.

Don't stop with reading the news and editorials. The advertising columns are equally important.

The Sanford Herald
