NEW FORD CAR exceeds all expectations

Official announcement of new model last week created unusual interest throughout entire country

FEATURES OF THE NEW FORD CAR

Beautiful new low body lines

Choice of four colors

55 to 65 miles an bour

Remarkable acceleration

40 horse-power

Four-wheel brakes

Standard, selective gear shift

Hydraulic shock absorbers

-20 to 30 miles per gallon of gasoline

Theft-proof coincidental lock

Typical Ford economy and reliability

STANDARD EQUIPMENT ON ALL NEW FORD CARS

Starter Dashlight
Five steel-spoke Mirror
wheels Rear and stop
Windshield wiper light
Speedometer Oil gauge

Gasoline gauge Tools

THE NEW FORD PHAETON

Another long, low, roomy car. All four doors open forward. Curtains open and close with doors. Side curtains have unusually large windows. Your choice of four artistic colors.

Pressure grease gun lubrication

THE new Ford car has been on the market only a few days, but it has already created unusual interest throughout the country. Millions of people got the full details of it last week for the first time and were delighted with the story of its beauty, speed, comfort, safety and low price.

All day long and far into the night, great crowds gathered in hundreds of Ford salesrooms from Maine to Florida and from New York to San Francisco. Never has such interest been shown in a new car. Never has any new car so far exceeded expectations.

People knew that Ford was making a new car. They knew it was a good car. They had read announcements about it. But they had no idea it would

be a car like this. Their quick appreciation of it is shown by the record-breaking sales.

Greatest day in the history of the automobile industry

Thousands upon thousands of orders for the new Ford car have been received since last Friday. These, and the advance orders placed with us by motorists even before the car was officially announced, will keep the entire Ford plant working day and night for weeks to come.

Such figures are a clear and unmistakable reflection of the value that has been built into the new Ford car. It is, without question, the outstanding purchase of all time in the light-car field.

NEW FORD TUDOR SEDAN

An example of the fine coachwork of the new Ford cars. New military-type sun visor and with crown roof. Narrow pillars and new door construction give unusual vision. Both front seats fold forward, giving easy access to rear seat. Ample space between seats. Your choice of four colors—an unusual feature in a low-price car.

\$ 495 (F.O.B.

car—ride in it—know the thrill of driving it easily and safely through thickest traffic or step it up to sixty and sixty-five on the open road, you cannot begin to appreciate the extent of the many mechanical improvements embodied in its construction.

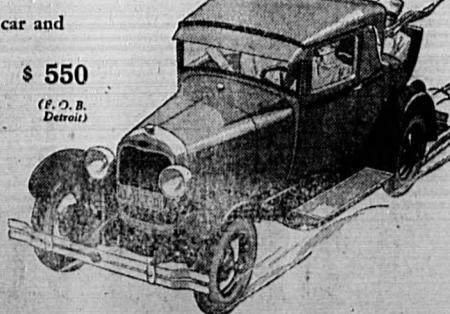

It is difficult to believe that so much speed, power, beauty, quiet, comfort and safety can be had at such a low price. It would be impossible if this new car were made by anyone but Ford.

Only Ford could sell such a fine car at such a low price

The low price of the new Ford car and its exceptional performance are the result of manufacturing practices and economies as unusual as the car itself. The new Ford is more than a new automobile. It is a new idea in modern, economical transportation.

By all means, take a little while today to learn about this new automobile. You will know that there is nothing quite like it anywhere in quality and price.

Six beautiful new Ford cars at surprisingly low prices
New Phaeton \$395
New Roadster \$385
New Sport Coupe \$ 550
New Tudor Sedan \$495
New Coupe \$495
New Fordor Sedan \$570 (All prices F. O. B. Detroit)

NEW FORD SPORT COUPE

Combines the alert smartness of the roadster and the advantages of a closed car. Rumble seat standard. Landau irons on rear quarters.

Finished in four artistic color harmonies.

War Is Started In England InMovieIndustryBetween Independents, Combines

By International News Service LONDON, Dec. 6. -A state of war now exists in the British film industry.

The two "armies" now facing each other are the independent exhibitors, representing probably 3,-000 cinema theatres, and a group made up of companies, controlling cirucits of theatres, along with companies which combine film exhibition with film production.

It is the independents who have ductors of their type. They have deafted a plan where-

by the independents, through a central organization, should hire as individuals. By this scheme they expect:

invested. Securing of films at economic

Is honor thus to be regarded, a mere shield behind which to hide? Is that then the honor system, an opportunity afforded young people of getting by with the least effort. If vancer so we had best have none of it. Better the old fashioned system of beating knowledge into young people with long 110

We wonder if it is not possible to teach a little different definition of honor. A good definition which Webster gives is, "A nice sense of what is right, just, and true, with strict conform by thereto". In other words, not only to know what is right, but also to do what is right. We find Javenal in his Satires saving, "Believe it to be the greatest of all infamiles, tween and decrease would be to prefer your existence to your honor, and for the sake of his to lose every inducement to live,"

Almost the same might be said for the cheater at school, PRAYER: Who is God, save the "Believe it to be the greatest of all infamies, to prefer pro-Lord, and as for Him, his way is motion to vour bonor, and for the sake of passing to lose exery inducement to pass."

The Uncertainty Of Football

Another king has been uncrowned. The University of Georgia football team with nine victories and no defeats to its credit and apparently certain of the southern champtonship and a good claim to the national title, went down into defeat before the strong Georgia Tech eleven on Saturday afternoon and with the loss went its hopes of enjoying the most successful season in its history,

Georgia had started out with a rush at the beginning of the season and did not let, up until Saturday. It ran roughshod over all of its southern opnonents and gained a well carned decision over the Yale Bulldogs. The team with a "thousand backs" amassed a high total of points and its effective scoring potentialities were expected to be spent with success against the Bulldogs' ancient rivals, the inckets.

But the University eleven did not reckon with the stubbornness of the Tech line which time after time withstood the thrusts of the opposing backs and on many occasions threw them for losses. In addition the Yellowjackets presented an alert offense which converted almost every play in to an advantage for themselves. The game was played in a sea of mud which had the effect of retarding the speed of both teams. Only Tech was able to overcome this handlear to push across two scores.

Georgia was a favor to to win but Tech emerged victor ious. There are those Georgia-supporters who will tell you that the Bulldogs would have won handily it the field had been in good condition and the weather fair. On the other hand there are Tech followers who will contend that their team had pointed for that game all season, had determined to win it despite the dope and would have been triumphant contribute generously; they need regardless of weather conditions.

We'll not argue about it. We'll say that Tech has ar exceptionally strong team and that in defeating Georgia is has achieved a notable triumph. The significant thing about still drilling for oil. They better go the game in our opinion is the uncertainty of football We've seen that demonstrated before but to the South this was the most glaring example of that fact that we have experienced in some time. Football is anybody's game and that's what makes its appeal so widespread.

EDUCATING AGAINST LIQUOR CHARLOTTE OBSERVER

people at large, together with org- before the meeting, reminded hi anization of public opinion, is the hope for the solution of the alcoholherrington, general secretary of saloons. he World League Against Alcoholant, in a recent address before the World Langue Congress at Winons exchibition in the United States Lake, Ind. A Gift From

YOWELL-DREW'S

Means More

When you seek a Christmas Gift for a close friend or a favored relative, the best is not too good.

We Have the Best

In gift merchandise, the Yowell-Drew Co. this year is presenting the largest and most complete assortments that can be found in Central Florida. Our buyers have brought to you the finest Christmas gift selections that could be found in the market places of the world.

From the far corners of the earth we have gathered the materials and the finished articles that you may have a wide range of gifts from which to: make your choice.

Compare Our Store

Where ever you go in Florida you will find the Yowell DDrew store excells in Christmas atmosphere, in Christmas attitude of every employe you meet.

We believe we have achieved the real spirit of Christmas in our store of ganization to a greater extent than ever before.

You will notice that every Yowell-Drew employe smiles when he or she greets you. There's a good reason.

This is the Smiling Christmas

At the YOWELL-DREW Store

All this year, the Yowell-Drew Co., in the face of generally quiet business conditions has kept intact its entire employe organization.

Even when the store suffered an actual money loss, officials of the Yowell-Drew Co., retained all their regular staff of employes.

Not An Employe Was Discharged Not A Salary Was Reduced

And no other curtailment was attempted as an economy measure. That's Why YOWELL-DREW Employes are Smiling

That's why it is more pleasant to buy that gift from Yowell-Drew's.

That's' why "A Gift from Yowell-Drew's Means More."

We Know There is a SANTA CLAUS

He's in our store every Saturday, and in a big department on our Fourth Floor, he is surrounded by the largest and finest collection of Christmas Toys in the state. Never before have we been able to offer such a variety of Toys and Christmas Gifts for Children.

We Have More Than Five Thousand Different Items Bring the Children in to See Them. Let the Little Folks Meet Santa Claus.
