PERSONALS

Did you see the advertisement of S. Robbins in this issue calling your attention to the many special bargains in summer clothes all marked down?

Read the half page advertisement in today's issue of Kanner's Department Store? There is a feast of bargains at this big Sanford avenue store that should claim the attention of the public.

J. D. Hood in back for a few days after being in several of the central Florida counties looking after the tomato crop. Mr. Hood will leave in a few days for North Georgia where he has a fine apple orchard and will spend several months in Georgia and Virginia.

R. C. Bower recently had a new fountain installed in the place of the old one with all new white enamel fixtures and the most up-to-date appliances that are manufactured. Roy says he will keep the place up to the standard in every particular and he thinks the most popular part of the store is the soda fountain and he will make many changes in the details of this part of the business.

W. E. Watson and S. L. Lloyd have returned from a trip to Jacksonville where they attended the Retail Shoe Dealers Convention and had a fine time being entertained royally by the people of Jacksonville. "Our Tommy" had his picture in the Times-Union among the directors of the association and he showed up well and both of the Sanford representatives let the folks know something about the "City Substantial."

Woodruff and Watson have been making many changes in their store during the past two weeks that will give them one of the finest and most up-to-date stores in the city. Several new double cases have been installed for the shoe department and new cases will be put in at once for the clothing, the floor has been dressed down and will be waxed and much new furniture will be installed to make the shoe and clothing department right up to the minute. The changes make a new store out of the former one and have made a big difference in the appearance of the entire establishment.

LENINE'S CONDITION REGARDED HOPELESS NO WORD OF CHANGES

(By The Associated Press) LONDON, June 9.—From sources which cannot be doubted, it is learned that Premier Lenine's condition up to a few days ago is regarded as hopeless. No word has been received as to what changes the intervening days have brought.

EDITOR LOS ANGELES HERALD DIED IN LONDON TODAY—AFTER OPERATION THROAT

(By The Associated Press) NEW YORK, June 9.—The Dow Jones Ticker Service circulated a cable dispatch from London announcing the death this morning of Guy Barham, publisher of the Los Angeles Herald. Barham died after an operation on the throat several days ago.

LOSS OF LIFE ON PARANA STEAMER WAS ABOUT SEVENTY

(By The Associated Press) BUENOS AIRES, June 9.—Estimates of the life loss of the recent sinking of the steamship Villa Franca on the Parana river now vary from forty to seventy.

HOUSE LEADERS CANNOT GIVE IDEA OF REPORTS ON SHOALS

(By The Associated Press) WASHINGTON, June 9.—House leaders declined today to give the membership any idea as to how soon the reports dealing with Ford's offer for Muscle Shoals might be taken up for consideration.

It is well to remember, however, that the past occasionally produced a great man who hadn't a single million to his name.

About the only way a girl can get her shape in the papers now is to invent a way to attach a radio outfit to her bathing suit.

Rolling stones may gather no moss but some gentlemen seem to thrive exceedingly by rolling bones.

About the only nation that appears to be making progress in the direction of peace is imagination.

Herald want ads get results.

SANFORD'S TEMPERATURE

What can we say about the weather today except that it is perfect. It is cool and comfortable, breezes are blowing, rains have stopped for a few days and everybody is happy and prosperous. Nothing else to be desired.

HON. FORREST LAKE WILL BE CANDIDATE SPEAKER OF THE HOUSE

(By The Associated Press) JACKSONVILLE, June 9.—Forrest Lake of Sanford, who was nominated Tuesday for the fourth term in State House Representatives, announced here today that at the next session of the Legislature, he would be candidate for speaker of house.

EATON WINS RACE FOR RAILROAD COMMISSIONER—ALL RETURNS ARE IN

Robert L. Eaton, of Monticello, was nominated in Tuesday's primary for membership on the Florida Railroad Commission, according to the statewide vote tabulated by The Tampa Tribune. With nearly sixty thousand votes tabulated the Monticello man has 24,610 to 18,281 for A. D. Campbell of Tallahassee and 15,304 for H. S. Bowden of Key West.

The second choice votes seem to have been distributed at about the same ratio as the first choice, and unless there is an unlooked for upset in the few counties from which final returns are yet to come, Mr. Eaton is nominated.

Late returns on the senatorial race merely add to the overwhelming majority secured by Senator Park Trammell over ex-Gov. A. W. Gilchrist. It now appears that Senator Trammell will have a majority of 30,000 or more over the Punta Gorda man. The latest tabulation gives Trammell 51,338, and Gilchrist 24,745.

Likewise later tabulations on the congressional races in the Second, Third and Fourth districts merely accentuate the majorities given Congressmen Frank Clark, J. H. Smithwick and W. J. Sears, respectively.

BEN LEIGH HAS HAD A VARIED CAREER

Ben R. Leigh, an old-time Southern druggist, with a varied record which covers a period spent in conducting a drug store in one of O. Henry's "banana republics," an experience in Europe during the World War, various engagements clerking in pharmacies, selling drugs from a wagon, and managing wholesale drug stores, is now at Sanford, Fla., as manager of a branch of the Southern Drug Manufacturing Company, whose headquarters are at Jacksonville.—Druggists Circular.

C. W. SMITH SKILLED WATCH REPAIRING All Work Guaranteed 18 Years Experience

Lum at Tom Moore's Optical Parlors 221 First Street

Lang Electric Co.

Wiring, Repairs, Supplies Mazda Lamps Electric Fans Electric Ranges, Fixtures and Appliances.

Estimates cheerfully furnished No job too small or large

All wiring done in accordance with Fire Underwriters' Rules. Best of references furnished. Give us a trial and be convinced. P. O. Box 815, DeLand, Florida

All of which reminds us that when Ben was trooping through the wilds of Florida he wanted to cross the river at Osteen ferry many years ago and had to write the ferryman a letter two days in advance to get him down to the water's edge with his boat to transport Ben and his horses and wagon over the river. The work consisted of unhitching the horses, taking one at a time on the boat and then taking the wagon over. When the wagon was in mid-stream, the boat sank and had to be salvaged from the river's depths. The crossing took Ben just twelve

hours to make and as he said in gazing at the ferry boat at the Osteen ferry the other day, "times have certainly changed."

against the farm bloc. Without presenting any brief for the farm bloc, it will be strictly within the confines of truth to say that the Post's reasoning as to the swollen values of farm land rests on a broken crutch. During the past twenty years farm values have risen by natural causes. Farmers have added the values by, in some localities an extensive drainage, in others by extensive irrigation. Farm values for publication are made from general statistics in our agricultural reports. During the past twenty years vast areas heretofore considered valueless have been redeemed by drainage and irrigation and made very productive so that their actual value has been increased several hundred fold. All over the country farmers have added to the natural value of their farms by better buildings, better fences, modern improvements such as electric lights, water and sanitary equipment. Thus they have increased the value of their properties in the natural and normal way by adding actual value. It will not do for the Post or any other propagandist to stand these increased farm values off against the watered-down stocks of corporations and say, "look at them boys."

Another thing we must bear in mind, is that under our very, very modern system of taxation, real estate is assessed much higher proportionately than stocks and bonds. Industrial and utility bonds under our commission method of appraisal have two values. One value very high when it comes to figure service rates that will guarantee fair returns on the investment, and another value, very low, when it comes to figuring a basis on which to fix the tax assessment. Statutes given out at Washington are based very largely on the tax returns. The result is clear. Farm appraisements have shot up like the traditional bean stalk that made Jack famous. Many farms were appraised for taxation above their market value. This mode of assessment and the horizontal increases made by tax commissions are largely responsible for this apparent great increase in values of farm lands that the Saturday Evening Post is writing about, and others who are spreading propaganda to discourage legislation favoring the farmer.

It is a matter of common knowledge that the farmer was the first and the hardest hit by the recession of prices after the war. He took his loss more gracefully than any other class. Instead of shutting down shop and saying "we will starve them to it," he went to work along logical lines and is gradually coming back, though many have suffered heavy and irreparable loss. There was no strike, and no lockouts among the farmers. They stuck to the job the every crop and every pound of pork and beef they produced for a year or two was at a loss. It comes with ill grace now, after two years of struggle, to say to these fellows, you have no right to ask for legislation that will safeguard your interests. Had they followed the example of some other interests when prices slumped they would have brought the world to starvation's door by refusing to produce more than was needed for home consumption. But they sowed and they reaped and did it all at a loss. Shall we be forgetful of their good sense and fairness now?—Reporter-Star.

UNNECESSARY NOISES.

We have often wondered just why people with noisy cars persisted in running to and fro on the street where public speaking was going on and just why they wanted to run by a church on Sunday morning or Sunday evening with the cut-out open and the car making more noise than usual. Is this done to disturb the worship at the churches or to disturb the public speakers or just to show off? There should be some sort of city ordinance that would abate this nuisance and other people feel the same way about it as the following from the Bartow Record would indicate:

"During the course of an impressive prayer at the services Sunday night when the class sermon was preached to the high school graduates, an automobile passing the White Temple honked long and loud. At another time during the evening when the choir was singing a beautiful anthem, another automobile rattled and banged about, evidently getting underway from its parking location near the church. "Is there no interest on the part of the city police department toward the maintenance of quiet near the churches? Wouldn't it be possible to declare the neighborhood of each church a quiet zone during the hours for church services? "It would work no hardship to route all traffic away from the church neighborhoods during the morning and evening service hours on Sunday. And a few stiff fines for unnecessary noise

MICKIE SAYS

CHARLES SCHUBERT

near a church would also assist in correcting the nuisance.

"This matter has been spoken of very often. Every Sunday the services in some church are marred by the outside noise. Street cars sound their gongs, automobiles honk and shift gears, all in utter unconcern of the annoyance they cause.

"But it could be stopped, if the police were instructed to stop it."

TEN COMMANDMENTS OF HEALTH

- 1. Walk in the open air. 2. Keep a contented mind. 3. Breathe deeply of pure air. 4. Enjoy innocent amusements. 5. Get plenty of sleep each night. 6. Give your body and soul plenty of sunlight. 7. Eat healthful, plain food—and just enough of it. 8. Associate with companions who will benefit you. 9. Give your body plenty of pure water, inside and outside. 10. Do unto others as you wish them to do unto you.

RESOLUTIONS FROM CHAMBER OF COMMERCE TO COL. G. W. KNIGHT

Sanford, Fla., June 9th, 1922. Mr. A. P. Connelly, President, Sanford Chamber of Commerce.

Dear Sir: Committee appointed by acting President Forest Lake to draft suitable resolutions in connection with the retirement from the presidency of the Chamber of Commerce of Col. Geo. W. Knight, herewith submit their report and ask that they be discharged.

Whereas, Col. Geo. W. Knight has just completed a term as president of the Sanford Chamber of Commerce with signal credit to himself and honor and profit to this organization, the City of Sanford and Seminole County; Now, therefore, We the Board of Governors of the Sanford Chamber of Commerce desire to place on record an expression of our hearty appreciation of the loyal, efficient and untiring services of Col. Knight during his incumbency of this office. He has set a high mark for his successors to emulate, and we pledge him as a token of our appreciation that which we feel will bring him the greatest measure of satisfaction; our continued interest and zealous co-operation in accomplishing the greatest good possible for our people, our town, county and state.

Resolved further that a copy of these resolutions be spread upon the minutes of the organization and a copy be published in the Daily Herald.

R. F. WHITNER, H. J. HOLLY, A. E. YOWELL.

PURCHASES BELL CAFE

The Bell Cafe was sold yesterday to W. N. Carnation who will conduct this place in the future. The former proprietor, Dandelake will quit the restaurant business to engage in farming. The new owner is an experienced restaurant man having a restaurant at the present time in Gainesville and he will operate both places giving Sanford much of his personal time and experience. See the advertisement in this issue.

Poinsettia Butter-Split and O. K. Butter-Crust bread for those who appreciate a good loaf. 61-1wc

As the early morning fly becomes active, uneasy lies the head bereft of its natural foliage.

Our idea of justice is for a man to go bankrupt and invest the proceeds in oil stock.

SOME CIVIC COMMANDMENTS

A short time ago, in a southern city, a civic booster wrote out a set of ten commandments that he considered essential for the guidance of his people in the upbuilding of their home town.

Although designed especially to meet what he deemed to be the peculiar needs of a particular city, the commandments were so well chosen that they will apply very aptly, right here in Sanford. Here they are:

- I.—Thou shalt love thy home town above all other towns. Thou shalt be loyal to her people and to her institutions. II.—Thou shalt guard thy home town from the hosts of evil that would invade and destroy her soul. Thou shalt keep the good name of thy home town clean and without stain or blemish. III.—Thou shalt elect as thy public servants in political office men of strong character, eager to conserve the best interests of thy people. And when thou hast elected such men thou shalt stand by, support, and encourage them, for their temptations are many and their burdens are not light. IV.—Thou shalt exalt thy public school and honor it all the days of thy life with the best of teachers, building, and equipment, for the school is the cradle of the future. Thy children are here and they shall be the citizens of tomorrow. No training is too good for them and no preparation superfluous. V.—Thou shalt defend the health of thy home town from the death that lurks in marshes, swamps, and heaps of filth. Thou shalt exterminate the fly and the mosquito for they carry typhoid and malaria. The tubercle bacillus shalt thou drive before thee with the sun and fresh air as thy allies. VI.—Thou shalt build good roads, and keep them good. For by her good roads is a town known for good or ill. Eternal watchfulness shall be thy motto, that thy roads may not ravel nor thy supervisor forget thee. VII.—Thou shalt keep thy home town beautiful. The hills, the trees, the waters that nature has given her thou shalt preserve in sacred trust. No hotel shalt thou permit to disfigure them. Thou shalt keep thy homes and the door yards clean and cheerful. Thy waters shalt thou purify that they may bring thee life and strength. The future of thy town shalt thou plan with care and diligence, that thy growth be not haphazard, but full of thought and loving care as the plans of a mother for the growth of her child. VIII.—Thou shalt honor thy community institutions. Thou shalt work together with thy neighbors with all thy heart and strength and mind. Thou shalt work together in thy organizations and clubs for the common welfare. Thy leaders shalt thou learn to obey. Thou shalt serve on committees where thou art put and not intrude on committees where thou art not put. Thus shalt thou know each other better, thy work shall prosper, and thy friendship shall multiply. IX.—Thou shalt be a good neighbor to all who live in thy home town whether they be rich or poor. Thou shalt speak ill of none and good of many. Thou shalt be a friend to strangers and visit the sick in their affliction. X.—Thou shalt go to church for the honor of thy home town and for thine own good. Thou shalt not consider thyself too wise, too busy, too bad nor too good, to spend an hour or two on Sunday with thy neighbors in the worship of God. Thou shalt not send thy children to church. Thou shalt bring them there. Thou shalt offer thyself to thy spiritual leader for the service of God and thy community. So shall we win many battles together.

ROTARY CONFERS NEW HONORS ON JOHN TURNER

LOS ANGELES, Calif., June 10.—John A. Turner, of Tampa, Fla., was yesterday elected a director of International Rotary on the first ballot, in the International Rotary convention now in session here.

John A. Turner is a past president of the Tampa Rotary Club and is at present governor of the Eighth district of Rotary, which comprises Florida, Cuba, Georgia and Alabama. He has been chairman of the international Rotary extension committee, in which capacity he was active in forming new Rotary clubs in Spain and other foreign countries. He is head of the Turner Music Company of Tampa.

LOS ANGELES, Calif., June 10.—Raymond Havens of Kansas City, Mo., was chosen president of the International Association of Rotary Clubs at the final business session of the thirtieth annual convention of the organization yesterday afternoon. Directors elected to the international Rotarian board yesterday were: Harry Bert Craddock, of Minneapolis, Minn.; Ralph Bristol, of Ogden, Utah; Herbert C. Wilson, of Worcester, Mass.; John Turner, of Tampa, Fla.; Robert Patterson, of Dayton, Ohio; Alexander Wilkie, of Edinburg and R. Jeffrey Lydratt of Calgary, Alberta.

The principal address of the day was delivered by James Layton Ralston, barrister, of Halifax, N. S.

Mr. Ralston declared that the world war crisis "found the people of the nations wholly ignorant of the means at hand for adjustment and consequently thinking and preparing for war."

"It is our duty, as plain, ordinary citizens, to know what machinery is available should a crisis come, further it is our duty to see that our neighbor has this information."

He said he did not admit that the United States is not a member of the League of Nations, but said this nation was a party to the Hague conference, and that, taken in itself, is security from war if the people know of its existence and understand its purpose.

The board of directors will name vice-presidents and the secretary-general of the association and also select the place for the next convention.

Closing session was marked by two enthusiastic ovations given to retiring President Crawford C. McCullough. The resolutions committee presented him with a check for \$2,500 brought in on a silver platter, designed as a symbol of affection and appreciation of rotarians.

Internationalism as the keynote of Rotarians' activities for the coming year was emphasized by the new president, Raymond M. Havens. Parting addresses by delegates from France, Canada, the British

Iles, Hawaii, South America, and Australia accentuated the world-wide significance of Rotary.

It must be a cause of great annoyance to a Chinese army when the other side beats it to the surrender.

Let us do your Job Printing.

HIS FRIEND RECOMMENDED THEM

"Six years ago," writes W. H. Shadwell, Stanley, Va., I had kidney trouble, and at times was unable to raise myself in bed. Foley Kidney Pills were recommended to me by the Chief of the Fire Department. After using 3 bottles I was completely relieved and have never had a return of the symptoms. Why suffer when you can get relief from rheumatic pains, backache, swollen, sore and stiff joints, sleep disturbing bladder weakness and other symptoms of disordered kidneys? Sold everywhere.—Adv.

and Filled Brick Roads More Efficient Than they Look

Because of the rough condition of the old sand filled brick roads which have been in use nearly years, many unfavourable comments are heard on brick as a road building material. All these come from someone intentionally misled or from one who has not looked into the bottom of the matter. A recent analysis reveals that in every lot of ninety-five to ninety-eight per cent of the bricks are yet good. They can be built into a new road. It is a fact that from some of these roads which were built about ten years ago the bricks could now be re-used and sold for more than the cost of the road in the beginning. A good investment, when after years wear in the road the material itself possesses value more than the whole road had years ago. A recent talk of section of road which illustrates this is the brick road from Jacksonville through St. Augustine and toward Daytona, a distance of seventy miles in length. This road was built nearly ten years ago, at a cost of some ten thousand dollars a mile. The bricks were simply laid on a natural sand and the cracks between them were filled with sand from the side. The road was paved only four feet wide and no shoulders or curbs of rock or other hard material were provided for cars to meet on; a result the enormously heavy traffic which this road carried has destroyed the berm outside of the road most of the way allowing the sand which supported the brick to slide out of shape. The water passing between the bricks softening the grade, the berm giving away and allowing it to settle and the wind blowing rapidly moving cars blowing sand away has caused the sub-grade to get in a very bad shape. As to the brick of which the pavement was made nearly ten years ago, they are on the road and fully nine-tenths per cent of them are worn little as to be perfectly satisfactory for laying a new road surface at

any time. These brick can be taken up, the grade brought up to a true surface, well roiled and the brick then laid back, and filled either with asphalt or cement grout, for about \$3,000 or \$3,500 a mile, and practically a new road will result from using the same material which was used in the beginning. After this is done the road will hold its shape for many years longer, provided the berms are kept up and taken care of. Most unfortunately many of the counties of Florida do not keep the berms repaired so that their roads are ruined through no fault of the paving material, but because the foundation underneath goes to pieces because the wheels of meeting cars have often cut down more than a foot below the surface of the road of the curbing.

In Volusia, Seminole, Orange, Osceola, St. John, Putnam, and in other counties of the state, excellent roads can be seen where the berm on the outside of the curb has worn down until it is a foot or more below the surface of the pavement.

Where the traffic reaches the enormous proportions to which it has advanced between Jacksonville and Daytona and Orlando, the roads should be paved as double track highways, or at least fifteen feet in width so that in meeting the cars do not have to get off the pavement as they are compelled to where the pavement is only nine feet in width. While these old sand filled brick roads are unsightly and are very rough to ride over in their present condition, the money which was put into them years ago is there yet. For a comparatively small cost these roads can be relaid with the same brick into an excellent asphalt filled brick pavement of which the brick portion of Atlantic Boulevard, between Jacksonville and Pablo Beach is a perfect example.—Southern Lumber Journal.

Good breeding becomes more and more general as parents study and profit by the example of their children.

AUTO AND TRAIN COLLIDE—LATTER LEAVES THE RAILS

TALLAHASSEE, June 9.—(Special.)—J. S. Myrick of the Myrick Lumber Company of Thomasville, Ga., and an operator at Woodville in this county barely escaped death yesterday afternoon when the automobile in which he was riding and a south-bound train on the Thomas line collided at Bellaire crossing two miles south of this city. The automobile was completely wrecked, parts of it being strung along the track for fifty yards and the train being derailed by the impact an dragging over the crossing for about the same distance. Myrick and a negro were in the car and both escaped death, Myrick suffered a broken nose and being badly bruised. The train wheel cut a shoe entirely from the foot of the negro just scratching his foot, however, Myrick was taken to a local hospital where it is said that his injuries are not serious.

GOLD TARPON, THE "FIRST EVER" IS SEEN OFF EGMENT

(By The Associated Press) ST. PETERSBURG, June 9.—A gold tarpon, the first ever reported in local waters, according to veteran guides, was seen Thursday off of Egmont pass, near Pass-a-Grille, according to George Roberts, guide, and a party of three anglers. The news of the fish caused excitement in the resort town that rivaled that of the Klondike days. The huge gold fish Roberts said, was more than six feet long, and was in a school of other Tarpon. In place of the usual silver scales, its sides showed burnished gold as it leaped out of the water. Roberts pulled every trick in his category to hook the fish, but failed.

Ku Kluxers Kidnap Prominent Couple At Anderson, S. C.

ANDERSON, S. C., June 9.—Robert W. Sullivan, young businessman of Anderson, and Miss Ruby Floyd, were kidnaped last night by a band of masked men who took them from an automobile in front of the young woman's home, according to statements made to the police by Mrs. Ada Floyd, mother of the girl. She declared the kidnapers wore the regalia of the Ku Klux Klan.

Sullivan is secretary and treasurer of the Orr, Cotton Mills and holds the same position in the South Carolina Cotton Manufacturers' Association. Later the couple returned to town. They said they had been taken some three miles from town, given a "lecture" and dropped in the woods.

The man was warned not to be seen in Miss Floyd's company again, he told the police, but he denied reports that had reached the mthat he had been beaten. He and Miss Floyd and the latter's mother's, Mrs. Ada Floyd informed the police that the men were dressed in regalia resembling that of the Ku Klux Klan and Miss Floyd asserted that she was positive one of the men was a negro. The couple said they would be unable to identify any of their abductors.

Sullivan, who is about thirty-one years of age, was recently taken in custody at Miss Floyd's home, but no charges were made against him. A charge of "disorderly conduct" was made against her, however, as a result of remarks attributed to her in a conversation with a neighbor who had complained to the police. She is about eighteen years old.

Steel Companies Anxious to Place Facts in Merger

(By The Associated Press) WASHINGTON, June 9.—Denying that the merger of the Bethlehem Steel Corporation and the Lackawanna Steel Company will operate to restrain trade, the two companies asked the federal trade commission yesterday to dismiss the complaint issued against the consolidation of the companies on June third.

Coincident with the filing of answers to the complaints by the two corporations, Carl DeGersdorff, their counsel, called at the department of Justice and assured Attorney General Daugherty the companies were anxious to place immediately at his disposal all facts regarding the proposed merger. Delay would seriously handicap the companies, he asserted, asking that the investigation be pushed forward as speedily as speedily as possible.

Mr. Daugherty was understood to have informed Mr. DeGersdorff that the department's investigation would be expedited. Each company filed separate answers to the commission's complaint, denying the authority or jurisdiction of the commission "over the transactions alleged in the complaint."

In the Bethlehem reply, signed by E. E. McMath, secretary of the corporation, it was asserted that neither the Lackawanna Steel Company nor any of its subsidiaries was now engaged in competition with the Bethlehem Company nor any of its subsidiaries. It was also asserted that the "carrying out of the agreement of May 16, 1922, and the operation by the respondent (Bethlehem), directly or through its subsidiaries, of the properties of the Lackawanna Steel Company will not violate the provisions of any law of the United States. The Bethlehem reply admitted some of the points set forth in the commission's complaint but took issue with the commission's figures concerning production of certain railroad accessories by the Lackawanna Company.

Both companies in their answers took up the commission's complaint in detail, and answered each allegation, admitting some charges and denying others, but reaching the conclusion that the merger would not in any manner run counter to existing statutes.

The department of justice made a statement with reference to yesterday's conference, which said, in part: "The investigation of the part of representatives of the department of justice in New York and Buffalo will continue and as soon as possible after the necessary additional information has been furnished a final hearing will be held if necessary and a report made to the Senate in response to the resolution."

\$500 Paid out for an Accident

You are driving along the road, another car on side road crashes into you, damage to your car \$500.00, the other fellow entirely to blame, owns nothing but his car, with a mortgage on that and no insurance. It's up to you to stand the entire loss. Unless you have a Belt Collision policy on your car. A collision policy will cost you from \$17.50 to \$40 a year for the \$25 deductible policy, according to the price of your car. In this case the Belt would pay you \$475 of your loss and you would be out just \$25 and still have your insurance in force for the future. It's all right to take a chance on small losses but there are few men rich enough to run the risk of a large one. Get a Belt policy now and be protected.

WOONSOCKETT, R. I., HAS A BIG FIRE TODAY

(By The Associated Press) WOONSOCKETT, R. I., June 10.—Crowell building occupied by offices and stores and the Buell building, the home of the Woonsocket Call, and the Cook building were virtually destroyed by fire today with a loss of \$200,000.

MUCH BUILDING GOING ON IN U. S. THIS YEAR

For one reason and another, there will be much building this year. It is true that business conditions are not yet normal again, but on the other hand there are peculiar—really extraordinary—reasons why the year 1922 should be marked by much construction work.

INDIAN ACE IN HARD LUCK, LOSES HIS WIFE

(By The Associated Press) OKMULGEE, Okla., June 9.—Broken in health, Capt. William Sunset, Cherokee Indian ace of the Lafayette Escadrille and globe trotting adven-

turer, started east yesterday on a quest for his wife and his two babies, wrestled from him by poverty. Captain Sunset came back to the land of his youth at the end of the word war showered with high military decorations attesting his valor as an allied flier. He lived here with his bride, an Alsatian, whose life he saved overseas. They came to know poverty—and then last Sunday after trudging 15 miles seeking a job, the war hero returned to his home to find his wife and babies gone.

Sunset learned from friends that his wife had purchased a ticket for Pittsburgh, Pa. So he sold his little store of goods and with a purse made by friends to aid him in his search, set out on his quest. Sunset declared he has 14 German planes credited to him officially while in the French service.
