

CONSTRUCTION IN FLORIDA SHOWS REMARKABLE GAINS ALL OVER THE GREAT STATE

Jacksonville Leads the State With Miami Close Second

SANFORD'S RECORD

WAS SEVEN TIMES AS GREAT AS SAME MONTH LAST YEAR

(By The Associated Press) JACKSONVILLE, Oct. 13.—New construction authorized in 12 of the principal cities and towns of Florida during the month of September totaled \$2,137,200, while the aggregate for the same cities during the first nine months of the current year was in excess of \$19,971,700, according to building statistics compiled by The Associated Press from official records of municipal buildings inspectors and commissioners. Real estate, building material and financial interests here declare that an estimate of approximately \$40,000,000 worth of new construction in Florida for the 12 months of 1921, would not be far from the mark, as the 12 cities reporting in September almost touched the \$20,000,000 figure the first nine months of the year alone. Throughout the state new construction on a large scale has been in progress since January 1 and it is regarded as certain that the 12 places with almost \$20,000,000 worth of new building thus far do not account for half of the state's total. Jacksonville again led the state during September with permits aggregating \$465,851 while Miami was second with \$407,500, St. Petersburg third with \$385,535 and Tampa fourth with \$366,531. For the first nine months of the year, Miami held first place with a total of \$3,943,900. Jacksonville was second with \$3,595,200 and St. Petersburg third, less than \$100,000 behind the runner-up, with a total of \$3,497,695. Tampa's total for the same period was \$3,173,716 with the triple cities of Daytona, Daytona Beach and Seabreeze and Orlando following with \$1,430,000 and \$1,387,000 respectively. Jacksonville's total for the first nine months of 1920 was only \$2,712,500, approximately \$800,000 less than for the same period this year. Miami's September record was almost \$100,000 more than for the same month last year while the total for the first nine months was more than \$800,000 in excess of the figure for the same period in 1920. The total for the 12 months of 1920 was \$4,556,365. The largest single permit last month was for an apartment house to cost \$30,000. St. Petersburg, which with Jacksonville, Miami and Tampa, is one of the four cities leading the state in building, showed a gain of approximately \$120,000 last month over the same month last year, permits in September, 1920, totalling \$265,850. Building for the first nine months of the year showed a remarkable increase over the same period last year, the 1921 figure being \$3,472,695 as against \$1,922,720 for 1920. During the 12 months of 1920 permits aggregated only \$2,801,000, or more than \$600,000 less than for the first nine months of the current year. The largest single permit last month was for construction of a store building at a cost of \$20,000. Several large building projects are contemplated before the end of the year. Tampa's September permits were more than double those for the same month last year, when the total was only \$150,785. The September figure was \$366,531. The total for the

Philander Knox, Prominent Republican Senator Died Yesterday

SUFFERED STROKE

OF APOPLEXY AND DIED VERY SUDDENLY AT WASHINGTON

(By The Associated Press) WASHINGTON, Oct. 13.—Arrangements for the funeral of Senator Knox, of Pennsylvania, who died suddenly last night at his home here after a stroke of apoplexy are expected to be made today upon the arrival of out-of-town members of the family.

WASHINGTON, Oct. 13.—Philander Chase Knox, senator from Pennsylvania and secretary of state under President Taft, died suddenly at 6:30 o'clock last evening at his home here. He was stricken with paralysis after descending the stairway on his way to the dining room for dinner and passed away fifteen minutes later without regaining consciousness.

Mrs. Knox and the senator's secretary, W. F. Martin, were near the senator and hurried to his aid. Dr. Samuel Adams was summoned immediately, but he found Mr. Knox beyond medical aid.

Senator Knox returned to Washington only last Monday night, from a trip to Europe with Mrs. Knox and he attended the sessions of the senate Tuesday and Wednesday. Leaving the chamber about 5 o'clock yesterday afternoon, the senator took an automobile ride through Potomac Park and stopped on his way home to purchase tickets for a theatre performance last night.

Reaching home the senator went to his library where he remained until summoned to dinner.

President Harding, Chief Justice Taft, Senator Lodge of Massachusetts, the Republican leaders, Senator Penrose, of Pennsylvania, and other friends and close associates of Mr. Knox were soon notified of the senator's death.

The news came as a shock to all official Washington, for the senator, thru his services first as attorney-general under Presidents McKinley and Roosevelt and later as secretary of state under President Taft, had a wide circle of friends in all walks of public life, congressional, diplomatic and legal.

The senate met today and adjourned out of respect to the late senator and with the house will name a committee to attend the funeral. Senator Knox's home is in Pittsburgh and he also had a summer home at Valley Forge. The place of interment has not yet been decided upon.

Senator Knox was sixty-eight years old and was serving in the senate for a second time, having first been appointed in 1904 to succeed the late Senator Matthew Stanley Quay. He was elected to succeed himself in 1905, but resigned four years later to become secretary of state.

Water Traffic League Met at Tavares With All of Lake County

The Water Traffic League held one of the best and most enthusiastic meetings of the year at Tavares last night when over 200 Lake county growers and shippers met to discuss the water traffic problem and hear the questions of freight rates discussed. Vice-President G. W. Knight, J. G. Ball and A. P. Connelly, of the Water Traffic committee of the Sanford Chamber of Commerce represented this city at the meeting and gave a talk to those assembled and the address of A. P. Connelly made such a hit that they have invited the Sanford delegation and all the others assembled to meet at Leesburg next Monday night when an even larger delegation will be present to hear the freight rates and water transportation discussed. The people of Lake county are aroused and they will meet the members of the Water Traffic League more than half way in this idea of using the St. Johns river instead of the railroads in shipping fruits this winter.

FOOTBALL GAME HERE SATURDAY WITH GAINESVILLE

PROMISES TO BE ONE THE BEST OF THE SEASON.

Sanford people will have an opportunity of witnessing a good game of football next Saturday afternoon, when the strong Gainesville high school team comes up against the swift flying boys of Sanford high school. It is said that Gainesville has a heavy team and they have been coached by the University football stars, but Sanford has a bunch of gritty players who make up the lack of weight in their speed and real ability to play the game and under that veteran, Edward Melsch, who knows the game, and has been giving all his evenings to coaching the Sanford high after he gets through with his work on the farm. Ed says he has a good team and that he will win on Saturday afternoon if the people will just come out and help to root the home team to victory. It takes lots of pep and ginger from the side lines to win a football game, for the boys get so many hard knocks that they must be stimulated by the home rosters.

And then, the big school boys need new sweaters and many other things for the team and they have no other means of raising the money. And the visiting team must be paid for their expenses of coming down here and their hotel bill while here. Let everybody turn out and show the home boys that you believe in the high school and the high school team. The game will probably be played at Rose Court as this is the best place and the nearest to the city that can

be obtained. Fred Williams has offered to lay out the grounds for the boys as Fred is an old football star and takes a great interest in the game and the owners of lots and the owners of the land at Rose Court are also interested in this great sport and they are willing to allow the boys to play there providing none of the shrubbery is touched.

Saturday night the Gainesville high school boys will be entertained by Sanford and they will have a dance at the Holly home on Park avenue. Buy a ticket to the game and help the Sanford boys to win.

INVESTIGATE KU KLUX KLAN IN CONGRESS

NEW YORK WORLD STARTS SOMETHING AGAINST THE KLAN

WASHINGTON, Oct. 12.—Demand for an investigation of the activities of the Ku Klux Klan was made before the house rules committee yesterday by Rep. Tague, Democrat, Massachusetts. Rep. Tague was the first witness at the hearings on a number of resolutions providing for an inquiry by congress.

Wm. J. Simmons, of Atlanta, imperial wizard and organizer of the Klan, was one of the first witnesses to arrive. Roland Thomas, of New York, told the committee in detail of an investigation by a newspaper of the Klan activities which resulted in the publication of a series of charges against the order. The outstanding feature, he said, was the "great number of acts of violence by the Ku Klux Klan."

Mr. Thomas testified that Imperial Wizard "had boasted that members of the senate and house were members of the Klan."

The imperial wizard, who sat with his attorney, smoked cigarettes incessantly and smiled often during the extended statement of Mr. Thomas.

Asked by Rep. Garrett if his investigation convinced him that the Klan had 700,000 members, Mr. Thomas said it did not. The total membership, he said, was in the South, adding that newspaper publicity had largely retarded organization plans. Rep. Johnson wanted to know from the witness if the Non-Partisan league in the northwest got its organization ideas from the Klan or the Klan from the league.

"It would take a congressional inquiry to find out," Mr. Thomas replied.

C. Anderson Wright, formerly a king klegale of the Klan, and who subsequently published a series of articles attacking the Klan in the Hearst newspapers, told the committee that Mrs. Elizabeth Tyler, of Georgia, was the "true power" of the organization. He charged that officers of the Klan had evaded income taxes and had improperly used the mails in disseminating propaganda.

Wright said he quit the order in Atlanta when he found that Imperial Wizard Simmons had no power over its affairs.

"Give us some idea of the imperial palace in Atlanta," said Chairman Campbell. The witness replied it was on the third floor of an office building.

Explaining the duties of the Klan officers, Wright said a grand goblin was a district sales manager, and a klegale the fellow who went out to dig up members.

"If the Ku Klux has 700,000 members as claimed," the witness said, "then there has been no proper accounting of the funds collected."

Only Protestants, Gentiles and native born Americans, Wright said, were admitted at \$10 a year. This sum was paid for the first degree. The idea being, it was said, to confer the other degrees at so much extra. Nobody eligible under the three general headings, was denied admittance.

(By The Associated Press)

WASHINGTON, Oct. 12.—Colonel Simmons, Imperial Wizard of the Ku Klux Klan, said here today he had received no advices from Atlanta concerning the reported attempt last night to shoot Mrs. Elizabeth Tyler, business agent of the organization. Asked about the reported threat to get Simmons too, Simmons said "that does not disturb me in the least."

WASHINGTON, Oct. 12.—Digging into the activities of the Ku Klux Klan, the house rules committee developed by testimony yesterday that the organization had taken in 1,488,710 members since its foundation, that the department of justice was still conducting an investigation of its own and that according to the Klan's confidential information to field agents, the chief of police of Norfolk, Va., was a member.

Through news letters said to have been sent from Klan headquarters and not intended for general publication, the statement also was made that the Norfolk chief had promised 260 rifles to the local order "in time of trouble," and that Representative Upshaw, Democrat, Georgia, in whose home district the Klan was born, had been "put to it donny membership in the Klan and at the same time square his conscience as a preacher and church member."

ANSWER THIS PUZZLE WIN \$1000 OR OAKLAND

The operator of the movie machine in this theater decided to play a joke on his audience, so he threw these re-arranged "Movie" players names on the screen. To solve the Movie Puzzle, all you are required to do is to re-arrange the letters, so that they will spell the correct actor's or actress' name. No. 19 is Charlie Chaplin. If you can guess all ten you can win OAKLAND Automobile or \$1,000.

Can You Answer This Puzzle? 25 Prizes Given

Probably you know the names of most of the famous "stars," but just to refresh your memory, we mention below the names of a few of the most popular "movie" players.

Charlie Chaplin, Charles Ray, Mary Pickford, Thomas Meighan, Dustin Farnum, Theda Bara, Douglas Fairbanks, Blanche Sweet, Mabel Normand, Mary Pickford, Clark Gable, Gloria Swanson, Anita Stewart, Pauline Frederick, Dorothy Gish.

ONLY 185 "POINTS" WINS AUTO

For each name that you arrange correctly, you will receive 10 "Points" toward the OAKLAND Automobile or \$1,000. "Points" in all, if you arrange all names correctly, you can win a "Point" by "Qualifying" your answer. That is, by proving to the Editor and Advertising Campaign, by "Qualifying" your answer. The 185 dependent judges on the beatings, give, handwriting, and spelling of your answer. The answer gaining 185 "Points" (which is the maximum) will win the OAKLAND Automobile or \$1,000 in cash. Second highest will win \$150 (three prizes, \$50 each) and so on down the list of 185 prizes. In case of a tie, both winners will receive same prize. Send in your answer TODAY. As soon as your name is received, a card will be sent FREE, to assist you in qualifying. Contest closes Oct. 21st, 1921.

COSTS NOTHING TO TRY—YOU CAN WIN

You will not be asked to subscribe to Mother's Magazine, nor send one penny to enter to win. We have given away THOUSANDS OF DOLLARS in Prizes. You must be the best, lucky winner. Write your answer to the Puzzle on one side of the Puzzle NOW and send your solution to W. C. WILSON, MOTHER'S MAGAZINE, 1234...

MEN'S CLUB HELD MEETING LAST NIGHT

DECIDED TO BUILD ADDITION TO PARISH HOUSE AND START BIG SEASON

The Men's Club of the Parish House met last night at the Parish House, this being the first meeting of the fall and a large attendance greeted President Whitner when he called the men to order and explained the nature of the club and the work that they intended to do this year. He explained that the work of starting a white way around three sides of the church property was one of the objects of the club last year along with many other big things and that their work had been successful in every way. Committees were appointed looking toward entertainment, moving pictures and the Father and Son banquet and it was decided to hold the Father and Son banquet Thursday night, October 27th at which time a large attendance is expected, the fathers bringing their sons and in some instances the sons bringing their fathers in a general get together meeting.

Songs were sung and a good time had by everybody until the wrestling match was announced and Collie Biggers and Victor McLaulin gave the audience a good idea of how the wrestling game is played and for fifteen minutes wrestled all over the mat the bout finally going to Collie on points.

Refreshments, consisting of choice cheese sandwiches, pickles, bottled Heh and hot coffee were served and while filling up on the viands the question of enlarging the Parish House was discussed and committees were appointed to finance the project and start the new work at once. This will give a stage for plays, a good seating capacity and a place where entertainments of all kinds can be given with the view of paying for the new building. This will be a step in the right direction as the Parish House is one of the most popular places in the city now and with the addition will be much better prepared to take care of the crowds that witness basket ball games, etc.

The Men's Club is one of the real live organizations of Sanford and they are doing a great work here looking after the welfare of the young men and giving them the right sort of amusements. Edward Ward has been retained for physical instructor for the new year and will give the business men and the young men and the boys the proper kind of exercise and treatment to bring out the best there is in them.

The membership in the Men's Club is based upon the willingness of the candidate to do something big for Sanford and anyone is eligible for membership. If you are not a member give your name to the secretary, S. M. Lloyd at Lloyd's Shoe Store and get in the game.

FIRST CAR ORANGES SHIPPED FROM PLANT CITY.

The first car of oranges for the season was shipped Friday. The fruit movement for the last four days was five cars, of which four were grapefruit. The total movement for the season is now sixteen cars. One grapefruit was shipped Friday, one Saturday, and two last night. Today's shipment is not included in this report.

Vegetable shipments have been larger for the last three shipping days. A total of 445 packages have been shipped during that time. Friday's vegetable movement was 184 packages, Saturday's 142, and yesterday's 119 packages. Egg plants predominate, there having been 294 packages of them and 123 crates of squash. Pepper is showing larger receipts, 57 crates having been shipped since Thursday.

Express shipments of oranges and grapefruit total 76 boxes for the period beginning Friday and ending last night. There were 26 boxes of grapefruit and 50 boxes of oranges.

Prices, on an average, are about the same as they were last week. Cucumbers, with only small receipts, brought from \$3.75 to \$4. Okra is quoted at \$1.25. Pepper is bringing \$2.50 and squash are worth from \$1.75 to \$2.10.—Plant City Courier.

LAKE MONROE

Under the direction of the two trustees, J. W. Bell and Charles Bales, workmen are busy laying a concrete walk and building a fence at the graded school at Monroe. The fence which will be a substantial one, made for durability as well as beauty, has a foundation of concrete. Heavy steel posts support a strong wire of good quality about thirty-six inches high. Two iron gates, a small front gate, and a larger side one, will be used. A concrete sidewalk leads to the yard and a front pavement, about four feet wide, on to the front steps. About an acre is to be fenced in, the remaining four acres will be a tennis court, a basket ball ground and a baseball diamond. A woodland upon the right of the school will be made into a park with swings, merry-go-rounds and other children's amusements. Benches and other seats will also be constructed for the grown folks where they may come and enjoy a picnic. As soon as the yard fence is completed, trees will be set and flowers planted. Only the native plants will be used, and each will be placed with the view of obtaining the best effect. Magnolias, oaks, and other Florida trees will be planted a good distance from the building, and shrubbery and vines close about the house and near the fence. Unsightly objects, if there are any, will be hidden away by beautiful vines, but in planting, we shall try to follow Nature's laws as closely as possible. Every child is expected to furnish at least one plant, and Mr. Jacobs, the principal, has generously promised to contribute some fine fruit trees. The other teachers will, in like manner, give fruit trees and many plants of different kinds. We feel confident that we are going to have one of the most beautiful school grounds in the country, and believe that it will not be surpassed by any other rural school in the State.

A tract of forty acres of land known as the Post farm, but owned by the heirs of Miller and Schadeyne, of Sanford, Conn., has been purchased by J. B. Lawson and William Roe, of Sanford. This tract adjoins the C. E. Henry place on the south and extends to the Monroe road on the west. The first tract of land from this division was bought by S. T. Buchanan, of St. Louis, four years ago. The deal went through the J. E. Conley real estate office. Messrs. Lawson and Roe are busy already cleaning up and getting ten acres in readiness for farming this fall.

The following young ladies and gentlemen are attending high school at Sanford from this place: Misses Thelma Lake, Violet and Winnie Swaggerty, Arie Mann, Roberta Wynne, Sarah Hutchens, Myrtle Price, Laura Shelby, John Hutchens, Brown Stafford, Walter Price, Roscoe Robinson and Philip Miles.

Mrs. J. W. Shelby and two daughters, Misses Mable and Laura Shelby, have arrived from Knoxville, Tenn., and with Mrs. Shelby's son, Clinton, have gone to housekeeping in the J. E. Conley house. Mrs. Shelby has purchased a farm adjoining Marion Shelby's farm, the oldest son, on the east, and S. H. Buchanan's place on the north. A residence and other improvements are expected to be completed in the spring.

Miss Bertha Clark has returned to her home in Georgia after visiting Mr. and Mrs. E. Stafford and family.

Mrs. Charles Henderson and son, Frederick, have returned to Tampa after visiting Mrs. Charlie Bell.

William Hawkins has returned from a two week's visit to Daytona Beach.

Miss Antonette Tarbell spent several days with Mrs. L. B. Mann this week Mrs. Mann has been slightly ill but is now improving much to the pleasure of her many friends.

Mrs. Daniel Talbott, of the east side, spent the week-end with Mrs. Ben Lake.

Mr. and Mrs. Guy Stafford, of Tennessee, are expected here to visit friends soon.

Mr. George Cain has been confined to his home by illness, but is now improving.

A party of young people gave a surprise party to Mr. and Mrs. Chas. Bell, Monday evening. A very enjoyable evening was spent.

Messrs. Dan Talbott, Ben Lake and Henry Miles spent a few days at the beach fishing.

The stork visited the home of Mr. and Mrs. Lonnie Oglesby Saturday and left a nice little girl.

IF BACK HURTS BEGIN ON SALTS

FLUSH YOUR KIDNEYS OCCASIONALLY IF YOU EAT MEAT REGULARLY

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

HOUSES ARE NEEDED.

Every city in Florida is building and building more houses than have ever been listed in the history of the State, but many more are needed, and it would seem that the people with money to invest, would come to Florida early and invest their money in houses that would net them better returns than any other investment they could make. This also applies to the home people, although the local capitalists are building houses as fast as they can. The statement in today's paper of the building operations in the State should open the eyes of the people of other States, and despite the thousands of houses being built there is a dearth of homes in every Florida city. The Jacksonville Metropolis sums it up as follows:

E. F. Andrews, a citizen of Palmetto, in a letter to the editor of the Palmetto News states, "I will start building a five-room cottage on Willis street soon—in the next few weeks. It will be for sale as soon as it is ready for use, as Palmetto is so much in need of some small cottages for white people. I only wish I had the money to build a dozen. They could be sold almost at once, with a nice payment down and balance in monthly payments."

A letter of this kind is a bit unusual, for, taken in one light, it is a clever scheme to advertise the one house—but the statement of facts is correct, which is the important consideration. The shortage of houses to which Mr. Andrews refers is not local to Palmetto it is state-wide, and nation-wide.

The News' correspondent states a problem that extends beyond Palmetto:

"It is high time the good people were waking up from a long sleep and getting the wheels to turning. Palmetto is a beautiful place, with the best backing I ever saw, right here at our doors. If those who are able would only start their dollars to rolling in this way, they would soon roll back in the banks with thousands more with them. This would mean more people, more money and more business. It would not take much money to start this work that is so badly needed. Palmetto could be doubled in three years if the people would only get together and offer a few inducements to new-comers. Nearly every day I hear someone say, 'I wish you would build me a nice little cottage, and sell same to me on monthly terms. I want a place to live in, but I can't get it here.'"

When the war started building ceased, and has not been resumed on an extensive scale, although the population is steadily increasing. There is a shortage of houses—an astounding shortage. Remodeling houses already built to accommodate more persons is not the solution, neither is trading the remedy. The latter merely complicates the problem. Building is the answer. No other program will serve as well, and the sooner this is realized the sooner the whole nation is going to be better off. Few home-seekers are able to pay spot cash for homes, but this is no reason why they should not be built. The monthly payment system has been proved satisfactory.

The community that wakes up to this fact first is going to be the first to prosper and expand, for the world

beats a trail to that city where housing facilities are available, because the shortage of houses is general. Even if a building program is inaugurated throughout the nation, it will be several years before the supply is equal to the demand. The country needs more men who appreciate the possibilities in the idea advocated by the Palmetto builder.

WHAT IS A FAIR RENTAL?

For ages people have been trying to figure on rentals that would give the owners of a building a good investment on the money and also keep the tenants from going to the poor house trying to pay the rent. Before the war, and during the war, and just after the war, there were but few houses built, making those that were erected come in for an enormous increase in rent on account of the great demand for houses after the four million American soldiers were demobilized and looking for homes and shelter. Rentals are a subject for private individuals to settle in the main and yet rentals should also be a public matter and cities should tax rentable property on the revenue basis if a fair estimate of rentals is sought. For instance the Herald has always contended that in Sanford as an example a home owner that has enough pride in his city to build a fine residence for himself from which he gets nothing but pleasure should not be taxed to the limit and should not be taxed for what the property might have cost. He gets no revenue from his home while a man owning a house in the same block that was rentable and bringing in a nice revenue would be paying much less in taxes and enjoying a big income. In other words property should be taxed in proportion to the revenue derived and not altogether from the standpoint of what it cost.

New York city, thrown into confusion on "moving day" because of rent controversies, as the climax of a long series of landlord troubles, is trying in earnest to figure out what is a fair rental. That is the key to the solution.

If it can be determined to the general satisfaction of the public what percentage of income a landlord may properly expect from his property, there will remain to be determined only one other factor—what the property is worth. A simple operation in arithmetic will then show how much rent the tenant should pay. Thus rents may be adjusted, more or less automatically, in accordance with public sentiment or written law, and there can be no more charges of extortionate landlords or cheating tenants.

A New York judge has already decided, in a typical case, that a landlord is entitled to 10 per cent gross return on the value of his property. That is simple. Just have the property appraised at its probable market value, by an impartial tribunal of some sort, public or private, and one-tenth of the sum fixed will be the yearly rent.

This is said to be about the average rent expectation of American landlords in normal times. Whether it should be, everywhere and always, is open to question. The main thing is to have some present standard fixed, without delay, for every section or every state. Then tenants will be satisfied, and owners will know "where they are at," and the financing of new homes will be simplified and building will proceed.

SOUNDS RATHER FISHY.

In a recent issue of the Tampa Tribune, a Mr. H. P. Walker, of Auburndale, Fla., has quite a lengthy letter in which he endeavors to explain the unjust action, as he sees it, which was imposed upon several hunters who were arrested and fined in Seminole county for hunting.

The writer of this article said the party was out on a bear-hunt. Perhaps this is true, but so many have used the "bear" as an excuse for hunting out of season, and in reality took anything which came their way, that the officials are taking no chances. There may be a sufficient number of bears in the Wekiwa swamps to attract a party of hunters from Winter Haven and Auburndale, but we doubt it. Mr. Walker says in his letter, the arrest and conviction of the hunters was based on a law which has become moldy from non-use, i. e., the carrying of repeating rifles. This might be the clause of the law under which they were arrested, but it was not the cause. The fact that they were on some of the best deer and wild turkey runs in the State during closed season, was the reason of their arrest.

In Orange county the law reads that anyone caught in the woods with a gun used for hunting purposes is liable to arrest. The Orange County Wild Life League was organized by some of our greatest and best hunters, but they are true sportsmen, and

believe in giving the game a chance. They are also determined that the game of this county will be preserved, and no hunting will be allowed during the closed season. The same spirit prompts the Seminole county league, and violators may as well be prepared to take their medicine if they are caught.

Mr. Walker, in his letter said, the judge of the Seminole county court was invited to Polk county to hunt and "promised * * * if he should carry a repeating rifle, they would guarantee him immunity from the enforcement, by the honorable officers of Polk county, of a law thirty years dead."

If the hunting is so good, and the laws are so lax in Polk county, it is a puzzle why the party of hunters came all the way to the Wekiwa section for their sport. We are glad to have the sportsmen of Polk county enjoy our ranges, but they must not take advantage of them during the closed periods, and would do well to get a copy of Orange and Seminole county's game laws, that they may also assist us in preserving our game. It's no use for those who have cleaned out their own game forests to come to this section and try to get away with the game ruthlessly.

The citizens of Orange county consider the game and fish as one of the state's greatest assets, and it would be well for other counties to look at the matter in the same light, and increase this asset as great an extent as possible.—Reporter-Star.

PUBLISHING A DAILY.

The Palatka Daily News is just two years old and Good Guerry, the editor, in an editorial calls attention to this fact and tells of the many good things the Daily News is doing for Palatka. The average citizen takes the daily newspaper as a matter of course and a few of them know of the many hard knocks the management of a daily paper get before it is placed upon a paying basis. A recognized authority on newspapers has said that it takes at least three years to put a daily paper on a paying basis and he is undoubtedly right. If the readers of the daily papers knew how much money and energy are expended upon the launching of a daily he would fall dead but the readers are not concerned in this business and he should not be. He wants service and it is up to the daily to give him service and every daily paper in the State of Florida is giving service. The small dailies of Florida are the wonder of the age to the visiting newspaper publishers of other states. They do not see how it is physically possible for the daily papers of Florida in cities the size of Sanford that have but a

SANFORD'S TEMPERATURE

Oh, Boy, that rain is here and regardless of the fact that it was 90 yesterday the rain is here today and is worth millions to the orange growers and all the other growers in the state. And then if it rains long enough it will bring that cool spell that we have been waiting for and then comes winter sure enough. The little stuffy office feels fine today and we can look out on the beautiful expanse of alley and see the rain coming down in a lovely drizzle that spells money, money, money, in every drop:

Mr. and Mrs. Earl Brown, and little daughter, of DeLand, were in the city today visiting friends. Mr. Brown is the efficient secretary of the DeLand Commercial Club and one of the live wires of that thriving city.

GIBBS OFFERS TO MAIL POST CARDS FOR SANFORD

WILL MAIL ALL THE CARDS BROUGHT TO HIM ON POST CARD DAY.

L. H. Gibbs, of the Sanford Foundry and Machine Co., is a live wire, and being a live wire, he recognizes the fact that Post Card Day is a good thing for Florida. He phoned the Herald office the other day and said that if Sanford would set aside a special day in October for Post Card Day, and the people would bring their post cards to the Sanford Foundry and Machine Co., office, he would mail them free of charge. Mr. Gibbs shows that his heart and his pocket book are in the right place—for the city of Sanford unselfishly—and if more people would become interested in this post card day and would agree to send out at least ten cards apiece on that day, telling about Sanford, there would be much good publicity given this city for a nominal sum of money. Now let the Chamber of Commerce, the Rotary Club, the Kiwanis Club the Woman's Club and all the other clubs join in this movement that is causing so much comment in every city in Florida and has not yet caused a flutter in Sanford.

MOVING PICTURES OF HUNTING AND FISHING SCENE.

The Men's Club of the Congregational church have arranged with the publishers of the Field and Stream to exhibit their splendid hunting and fishing motion pictures on the night of October 27th, at the Princess theatre. Watch for the big ad. and program soon to be published. 17-1p

Work is to start at once on the building for the Growers' Commercial Bank at Haines City. W. C. Robertson will be in charge of the construction and the work will go forward very fast.

KU KLUX KLAN IS NOT LAWLESS SAYS SIMMONS

MEMBER MIGHT TAKE LAW INTO THEIR OWN HANDS.

WASHINGTON, Oct. 13.—Sweeping denial of charges that the Ku Klux Klan contained within its ranks a lawless band of hooded hoodlums was made before a house committee today by William J. Simmons, of Atlanta, its founder and its imperial wizard.

Turning squarely upon members who had listened intently for nearly two hours to a dramatic defense of the organization, Simmons declared that "standing here in the presence of God," he wanted the world to know that if one-thousandth part of the charges were true, he would forthwith call together the grand councilmen of the klan for the purpose of forever disbanding it in every section of the United States.

Called late in the day, after a number of negro witnesses from Boston and Chicago had urged a congressional inquiry of the klan, the imperial wizard first asking to be sworn, told the committee the klan welcomed the investigation, but protested against attacks in some of the pending house resolutions.

The wizard was permitted to read his statement without interruption, although at the session tomorrow he will be questioned by committee members, especially with reference to published reports to various acts of vandalism charged to the klan.

There is no room in our organization for those who take the law into their own hands," he declared banging the table. "We have been charged with everything from the way of high prices to the sweeping march of the boll weevil. It has been charged that our primary aim was intimidation of the negro in the south. But it might surprise this committee to know that the growth of the Ku Klux Klan has been greater in the north and the east than in the south."

BALANCES STILL UNEXPENDED IN FLORIDA.

Declaring that there is still remaining a balance of more than twelve million dollars in federal river and harbor projects along the Atlantic seaboard states, the Atlantic Deeper Waterways Association publishes a list of such sums under the date of the present month. References to sums originally appropriated for the various improvements in Florida are not at this moment at hand, but it would seem that the tabulation below comprises the original sums—and if this be the case it is but fair to presume that some portions have already been expended.

The authorities for the figures below are from the data gathered by the committees of the Atlantic Deeper Waterways Association, and are declared to be "the balances" that are available for the projects enumerated:
