sparked with a full peace-time program of parades, parades, parades, and the bestowing of honors.

Old Dahlgren was packed with dotting parents, seethearts, and the gold braid of high rank as 471 graduates rose in a body and took their oath of office from Vice Admiral W. H. P. Blandy, director of last summer's atomic bomb experiments at Bikini and now Atlantic Fleet Commander.

Among the middies was his son, William Purnell Blandy.

Secretary of the Navy Forrestal said today the United States, to avoid another war, must solve "political, economic and security problems such as the nation has never faced."

This country is the "principal core of stability in a world shaken by six years of bitter and destructive fighting," Forrestal said in an address prepared for the graduating class of the Naval Academy.

He predicted that the years ahead will be "more deeply vexed and troubled" than those which have confronted any generation since the start of the Civil War.

"Today the foundations of control and authority are shaken," Forrestal continued.

"Economic stagnation of Germany and Japan enforces a substantial drain upon our own economy. We cannot exterminate, nor permit to starve, these millions of human beings.

"But we shall have to watch most carefully against a rejuvenation of the conditions which were Hitler, conditions which were largely the result of divergent policies among the victors after World War I had been won.

"In all of the great continents there are vast areas of unrest and of hunger which can develop into political chaos.

"There is no formula, no magic blueprint which can provide the solution to problems that have been centuries in the making and come from bitterness, from friction between races, and hatreds that have existed over the centuries.

"But we have made a beginning in the Charter of the United Nations and the meetings of the council of foreign ministers. However, acrimonious these discussions may be or become, they are better than resort to arms.

"It took 150 years before the concept of our federal government became fixed. Should we despair because the ideals contained in the United Nations Charter and the sincere aspirations of the statesmen who participated in its framing are not realized by Monday morning?"

U. S. Note To Russia

Rovlet involvement in the ousting of Nagy become of great importance, since these might be made the basis for a broader charge of Russian political aggression against Hungary.

The second point is the belief

Indian Situation

(Continued from Page One)

concerned but, at the moment, inconclusive study in Washington. Nobody knows what may happen. Some people hope nothing sensational will. But there is apprehension behind the State Department's calm facade.

As the Americans see it, the potential trouble arises from the relationship of Russia to India, the fact that they are Asiatic neighbors. The questions being asked by authorities are these:

1. Months hence, when India's links with Britain are cut to a minimum and Britain's direct responsibility for India slacks off, will the Soviets try by political or other means to take over?

2. If they do try, can the United States afford to let them succeed?

3. Might India become on a huge scale another Greece or Turkey?

4. If so, under what circumstances might the Truman Doctrine apply?

Most responsible officials here believe that at a strategic time the Soviets may enter the Indian situation just as they are already politically active in all their neighboring countries.

In general the American government is reported quite pleased with Britain's moves for India's freedom. There is some disappointment at what appears to be the need for dividing India. But authorities here say if that's the way the Indians want it, that's the way it has to be.

Nonetheless it is a reverse for American policy insofar as America had any Indian policy other than encouraging the freedom idea.

The American government has always talked in terms of a strong India and a strong China stabilizing peace in Asia. China at the moment is anything but strong, India divided will be far weaker than India united would have been.

The most authoritative American estimate is that the period of local and not snowball into anything like civil war.

Communists, of course, can aggravate natural conditions of unrest at such a time. American Party numbers about 50,000 members, not large among India's millions, but energetic and resourceful.

In the American view, what India needs is an uninterrupted opportunity to work out her own destiny. This means the outset rapidly decreasing interference in Indian affairs by Britain; no interference by America and none by Russia.

Nationalists Start Counterdrive In China

PEIPING, June 6 (AP)—The government poured new reinforcements into Manchuria by rail and sea today, and one Chinese press report said nationalist troops had launched a counterdrive in a strategic sector of the battle with Chinese Communists.

Red troops continued to menace Mukden, but Chinese dispatches reported a noticeable slackening of pressure on Kaiyuan and Changtu, 50 and 70 miles northeast.

Arrested Students In China To Be Freed

SHANGHAI, June 6 (AP)—Hsiao Tieh-Wu, commander of the Woon-sung garrison, promised today to release shortly Shanghai students and newspaper reporters arrested in a recent roundup if there was no substantial evidence they were Communist agents.

Several colleges and universities already had resumed classes following a four-week strike for more food, curriculum changes and an end to the civil war, which led to the arrests. Other schools were expected to reopen within a few days.

IN WITNESS WHEREOF,

WHY CARRY INSURANCE?

If you drive an automobile and carry insurance you should remember that the company taking your risk makes a profit on the premium you pay, or at least expects to make a profit, so why not carry your own insurance and save the premium? Suppose you do meet with an accident (hundreds do every day) involving liability and property damage, possibly serious injury or death to one or more persons; all that is necessary for you to do is to employ a good lawyer, take the case to court and enjoy a good verbal fight, and if you lose pay your lawyer, court costs and the judgment (seldom over \$25,000). In that way you will save the profit the insurance company expected to make on your policy. B. U. T. If you do not like this idea of saving money and the right to operate your car, phone 104, and find out about our profit-sharing policies for careful drivers.

BIBLE VERBS FOR TODAY
 MANY HAVE FOUND THE YOKE OF SIN UNBELIEVABLY CALLING AND HEAVY. CHOOSE A LITTLE RESTRAINT RATHER THAN THE CHAINS OF SLAVERY TO HABIT. My yoke is easy and my burden is light.—Matt. 11:30.
 Eustis is planning to develop Lake Johanna as a public bathing beach.
 Sanford's new baseball manager got off to a good start Thursday night.
 The Communists seem bent upon proving that American charges of a Russian "Iron Curtain" in Europe are not without foundation.
 The Legislature has adjourned "sine die," which we take to mean, until the Governor calls it back to finish the business of raising enough revenue to finance all the expenditures it approved.
 Japan wants Okinawa returned by the United States "for sentimental reasons." It would make such a good aircraft carrier from which to launch another "sneak attack" that they just can't bear to think of giving it up.
 We don't know whether the people of Florida are having a temperance revival, or are becoming more conscious of their pocketbooks, but in any event news from the State Beverage Commission is all to the good. May cigarette tax collections dropped \$25,000 under last May. And liquor tax collections dropped \$517,000.
 Automobile drivers who think it is smart to speed should consider the fact of Life . . . and Death. During 1946 automobile accidents increased by more than 2,582 in the State of Florida alone. And there were 95 more people killed on Florida highways. Almost half of these accidents were the direct result of speeding. Nearly half of them were caused by being on the wrong side of the road, not "aving the right of way, or just plain recklessness. In driving an automobile it is better to be safe than sorry.
 A Senate House investigating committee has made a study of the nation's economic condition and has found that fears of an impending depression are unfounded. Politicians being what they are, we wonder if the investigating committee had discovered from its study that a depression is "just around the corner," their report would have been any different from what it is. And if they had warned that a depression is in the offing, wouldn't they and their pessimistic attitude be blamed for it when the breadlines finally developed?
 Henry Wallace calls upon Southern Democrats to purge their ranks of Republicans, Republicans, no doubt, like Harry Truman of Missouri whom Wallace says he will not support for re-election. And we presume he also wants us Southern Democrats to fill our ranks with political charlatans like himself, who started out as a Republican, when it was popular to be a Republican, became a Democrat when Roosevelt was into power, and now that Democratic influence appears to be on the wane, becomes a . . . well, you name it, but anyway he is neither a Democrat nor a Republican.

Getting The Evidence.

No more serious charges of war guilt have been aired anywhere than those in a recent startling report by the Labor Committee of the House of Representatives which states that the 70-day Allis-Chalmers strike early in 1941 in Milwaukee was called by Communists to sabotage the plant's 45 million dollar machinery order for the Navy. The committee claims the strike instigator was Harold Christoffel, president of a CIO local of the United Automobile Workers, who manipulated workers' votes by use of 2,000 fraudulent ballots.
 The report further asserts that Christoffel gave false testimony under oath, as did his successor, the then local union head, Robert Buse, viewed by the House committee also as a Communist and as responsible for the 329-day strike that ended last March. Both men denied they were Communists.
 If these grave charges stand, they clear up certain mysteries as to strikes which seem to have been made without sufficient grounds and to have been prolonged without reason. It is certain that if the committee can get actual evidence in these matters, it will render the nation a service. There is too much witch-hunt stuff in the air, too many accusations going around without foundation. Straight and incontrovertible evidence in these cases is needed.
 Anyone in America has a right to approve the theory of Communism and to express such views in any public or private place. No one has any right to plot against the United States government. The distinction must always be kept clearly in mind. Men against whom there is definite evidence of crime must be treated accordingly.

Homeless Millions

In Europe and the Far East there are almost a million and a half people living in camps and barracks. These are the DPs, the Displaced Persons of the world, who either will not or cannot return to their former homes. Among them are Poles, Balts, Ukrainians, Yugoslavs, Germans and Lithuanians, all without countries.
 The UNRRA, which has cared for them for two years, ends the last day of this month. The International Refugee Organization was set up by the United Nations to take over under a charter now signed by 16 nations and with a budget of \$161,000,000. The U. S. Senate already has approved America's contribution of \$73,500,000, and the House is expected to pass it, too. Indeed it may have done so before this is in print.
 This action by Congress will not smooth the way for those of the refugees seeking residence in this country, since riders have been attached restricting immigration to quotas based on proportionate nationalities here in 1890.
 Many arguments are presented for the lowering of immigration quotas by the United States, a step, it is thought, that would be followed by other countries. In the meantime, the homeless ones remain homeless, some of them so crowded in their makeshift quarters that 20 live in a single room. They indeed are among the most cruelly suffering victims of the war.

Abd-el-Krim

Abd-el-Krim has been released. Though many may have forgotten him, 21 years ago he was on the front page of almost every newspaper. That was the culmination of his eight years and more as a leader of the mountaineers of the Rif, Northern Morocco.
 He had driven the Spanish almost out of Morocco, and forced them to appeal to the French for help. At first he beat even the French, but finally their superior resources were too much for him. In May, 1926, he surrendered, and till the other day was an exile on the French island of Reunion, in the Indian Ocean. It is to be hoped that its volcanic crags consoled him for the loss of his native mountains.
 The French thought it safe to free him. They had treated his Rifians with justice, and believed, that nothing was to be feared from him. So they provided him with a villa in the lovely Rivieras.
 Abd-el Krim seems to have scorned the villa. He escaped from the boat bringing him back, and took refuge in Egypt. Now France, which has enough other troubles, is wondering whether he plans to stir up unrest in French North Africa.

Celery Report

(Continued from page one)
 At times the market was sensitive and quickly responsive to developments. Trade was sometimes jittery. The strain on those handling sales was trying.
 Conditions were so out of the ordinary that previous experience could not help much, he commented. For the spring crop, light shipments were expected in April, heavy shipments in May. However, the crop was moved so rapidly that April shipments were heavier than expected.
 Even after this occurred, the remaining crop was so well salvaged that May shipments were frequently heavier than anticipated. "It was surprising how much punishment the crop could take and yet with smaller average planted more within 2,000 to 3,000 cars of the previous season," he pointed out.
 The punishment referred to was caused by exceptional weather. Abnormally high weather of November through January resulted in subnormal yields, quality and sizes, some plantings were abandoned and sandlot crops looked very unpromising, low in vitality and unresistant to further damage.
 In February and early March celery crops generally survived cold spells as low as 20 degrees or less, while many fields of tender vegetables were destroyed or seriously injured. Much blight developed in celery due to the cold which in some fields caused enough dormancy to produce dead stalks, commonly accompanied by black heart. Premature cutting of affected crops made small sizes and short growth. The effect of the frozes was spotty, according to Blesser. With a high market following, special efforts were made to salvage the crops. Many fields produced very light yields due to the heavy stripping made necessary.
 Although some of the weather following the freeze was favorable to crop recovery, there was also some unseasonable weather during the spring, he pointed out. There were heavy rains with some

Gasoline Truck Crash Starts 6 Home Fires

PHILADELPHIA, June 9 (AP)—A truck hauling more than 7,000 gallons of gas crashed into a power line pole today and sparked ignited the gasoline, injuring five persons and setting fire to six houses.
 A huge ball of fire rose approximately 100 feet in the air after the accident after sparks ignited the gas leaking from the truck and trailer tanks behind the truck. Flaming gasoline set fire to six houses, forcing 22 persons to flee.
 Firemen battled the blaze for nearly three hours before it was brought under control. Burning with a series of blasts, the gas-

WASHINGTON, June 9 (AP)—The Agriculture Department proposed today that an additional 15 pounds of sugar per person be allocated this year exclusively for home canning instead of lifting household rationing, immediately.

Last Graduation Of All-Women Class Is Held At Tallahassee

TALLAHASSEE, June 9 (AP)—Florida State University graduated probably its last all-women class today when it awarded diplomas to 291 candidates.
 The diplomas, which bore both the name Florida State College for Women and Florida State University, were presented by President Doak S. Campbell.
 The Legislature recently made the institution co-educational and changed its name from Florida State College for Women to Florida State University.
 Dr. Charles E. McAllister, dean of the Cathedral of St. John the Evangelist in Spokane, Wash., and a member of the Board of Regents of the State College of Washington, made the graduation address.
 Dr. Millard J. Berquist, pastor of the First Baptist Church of Tampa, delivered the baccalaureate sermon Sunday.
 Among the graduates was Mary Groover Holland, daughter of U. S. Senator and Mrs. Spessard L. Holland of Bartow.

UAW Call Strike At Packard Body Plant

DETROIT, June 9 (AP)—The Briggs manufacturing Company today reported that members of the CIO, United Steel Workers walked out of the Connor plant which produces bodies for Packard motor cars.
 The action, affecting more than 2,000 workers, was confined to the plant which said pickets already were patrolling the plant entrances while a meeting of union officials was under way. There was no explanation from the union.

DIZZINESS
 By W. V. BITTING
 Touchton Drug Co.
 Dizziness is a symptom of various ailments, but most of them can be traced to a tiny bodily mechanism—the labyrinth of the inner ear.
 It is no larger than our smallest fingernail, yet it controls our entire sense of body balance. Any disturbance of the organ results in dizziness. Perhaps almost everyone has experienced a sense of dizziness at one time or another. It is an indication that something is wrong and repeated attacks should be diagnosed by your doctor.
 He may prescribe medication, if so you will want fresh patent drugs. Let your doctor recommend the pharmacist who can supply them.

Buddy Lake Turns In 4 To 1 Victory Over Senators

Locals Win Two Tilts And Drop One Over Weekend; Tomat To Hurl This Evening

By ARTHUR BECKWITH, JR.
Herald Sports Editor

The Sanford Celery Feds resumed their winning ways over the past weekend as they tripped the St. Augustine Saints and the Orlando Senators while dropping a tilt to the Saints in the Ancient City.

Friday night the locals tangled with the St. Augustine aggregation and played superb ball as the Feds nipped the visitors by a 1 to 0 margin behind the four hit outburst of Charlie Bissen. The Sanford nine dropped the return engagement to the Saints at Francis Field by a 10 to 5 score.

Yesterday Buddy Lake went the entire route and allowed the Orlando Senators but six singles as Sanford unleashed an eighth hit attack on Gene Major to record a 4 to 1 victory over the Orange County rivals.

Sanford placed yesterday's contest on ice in the initial frame when they scored a pair of markers.

Johnny McManus opened the inning by working Major for a free ticket. Manager Don Murray singled to right field and McManus pulled up at third. Dave Bride slashed a single into left field. On the play Garrison allowed the ball to slip through and roll to the left field wall. McManus and Murray scored.

The Senators bunched two hits, coupled with a Fed miscue, in the sixth frame to score a single marker.

The locals chalked up two more tallies in the bottom of the sixth on an error—a two-base throw by Tim Tyler and a pair of infield outs.

The local aggregation invades Tinker field for a single contest tonight. It is likely that Manager Murray will name Johnny Tomat to handle the mound assignment.

Trippi To Pinchhit As Shoulder Better

ATLANTA, June 9 (AP)—Charlie Trippi, hard-hitting Atlanta centerfielder, is a doubtful starter in tonight's game with Nashville here, but is sufficiently recovered from a shoulder injury to appear in a pinchhitting role.

Trippi, third among Southern Association batting leaders with a .336 average in 40 games, was hurt eight days ago when attempting to make a diving catch of a line drive.

He appeared in the lineup yesterday as a pinchhitter for the first time since the accident, and lashed a triple against the force to drive in a run, but the effort went for naught as the Crackers beat, 6 to 12, in Nashville, after winning the first game.

Trippi is to leave the club in mid-August to begin football workouts with the Chicago Cardinals.

Babe Didrikson Wins 1st Round In British Game

GULLANE, Scotland, June 9 (AP)—Babe Didrikson Zaharias breezed through the first round of the British Women's Amateur Golf Championship today, whipping a tall local lass, Miss Helen Nimmo, six and five.

Fighting a cold, inner-stiffening west wind, Babe had difficulty on the first two holes and confessed later, "I was trying to punch them too hard." She began to relax on the third hole and to swing more deliberately.

The calmer approach paid dividends for the American champion, winner of 15 successive tournaments before she came to Scotland in quest of the big British prize. She reached the turn three and closed the match in the next four holes.

Her slick four-on-the-tee with the kind of golf that any male champion would have been proud of. Although her second wood was in the rough, she succeeded in chipping to within ten feet of the cup, then dropped the putt.

"I'm glad the first round's over with," she commented as she hiked more than a mile from the thirteenth green. "That's always the tough one. From then on it's easy."

The Babe started out after the championship well-wrapped up against the piercing wind from the Firth of Forth. Over a cotton blouse she wore a wool shirt and chokered sweater. Faded, corduroy blue slacks covered her legs, and for a while she had the bottoms tied with string to keep them from whipping in the breeze.

Final Tennis Clinic Held At Mayfair Inn

The final session of the tennis clinic sponsored by the Sanford Bath and Tennis Club at the Mayfair Inn courts was held Saturday morning under the direction of Charles Morrison, the club's tennis advisor, assisted by Miss Barbara Damphier who will have charge of tennis activities during the summer as one of the three local recreation directors.

Twelve teen-agers were on hand for beginners and review instruction. Newcomers, out for the first time, were: Sidney Chase III, Jack Shirard, Patty Ratigan, Patty Shroner, Yvonne Fraser and Jack Thomas, the last named from Pahokee, visiting relatives, the E. G. Kilpatrick's for a few days.

Among the youngsters who had attended former sessions of the clinic were: Frances Cobb, Frances Moore, David Hester, Edwin Varner and Bill and Bob Kilpatrick.

Mr. Morrison expressed himself as being pleased with the progress the group had made during the past three weeks and offered his continued cooperation to the City Recreation Department in helping to stage a tennis tournament later in the year.

Parker And Mulloy Cop Tennis Doubles

KANSAS CITY, June 9 (AP)—Frank Parker of Los Angeles and Gardner Mulloy of Coral Gables, Fla., third and fifth ranking U. S. amateurs, respectively, monopolized the titles in the Heart of America tennis tournament.

Parker whipped Mulloy, 8-6, 6-2, 6-0, in the men's singles, then paired with his victim to beat the double team of Francisco, (Pablo)—Segura, Ecuador, and Boh Falkenberg—Los Angeles. The doubles, which provided the best tennis of the week-long tournament which ended yesterday, went 8-6, 4-6, 7-5, 0-6, 6-1.

Mrs. Morey (Baba) Lewis, Boston, provided the only upset of the finals in defeating Laura Lou Jahn, Ft. Lauderdale, Fla., 6-0, 6-1, in women's singles. Miss Jahn, a 14-year-old high school freshman—who holds the Florida women's singles crown—had earned the role of favorite by defeating top-seeded Doris Jensen, Des Moines, Ia., for the junior girls' title Friday.

Mrs. Lewis, Canadian women's champion, played a flustered game in turning back the Florida girl who was hitting poorly and was unable to stand the pressure turned on by the speedy Bostonian.

The Japanese oil yield in previous years amounted annually to less than the daily output in the United States.

Scramble Foreseen For Titles In Ranks Of Women's Tennis

NEW YORK, June 9 (AP)—With Pauline Betz out of the way, the battle among feminine tennis stars for the major titles of the world will be as wide open as a rummage sale, and Joyce as favored, in the opinion of Doris Hart, Florida's No. 1 candidate to become the new queen of the amateur.

"There'll be four American girls at Wimbledon and any of us could win the women's singles championship," said the 21-year-old University of Miami student who took over the No. 3 spot in the U. S. rankings when Miss Betz vacated the thrones on both sides of the Atlantic to turn pro.

"And it's likely to be that way all summer," she continued, "both at home and abroad. Pauline could beat any of us, but since she won't be around, every tournament is going to be a scramble."

Miss Hart, who arrived from Miami last week to get in some practice on grass before departing for England, looked dejected by out the window of her Forest Hills hotel room at the rap which kept her off the turf courts of the West Side Tennis Club for the second straight day.

"I've been playing a lot on our clay courts in Florida the past two months," she said, "but I had hoped to practice on the grass courts here and came up a week ahead of my departure for that purpose. This rain is terrible."

COMMENTS from the SIDELINES

By ARTHUR BECKWITH, JR.

FED SKIPPERS
"Buddy never should have taken the job from the very start," "Buddy had no business trying to manage his home town club." These are typical phrases that have been spoken from the lips of many Sanford Celery Feds. Prior to the naming of Don Murray as skipper of the local entry in the Florida State League.

Most people do not know the circumstances under which Buddy accepted the manager-ship of the Celery Feds. In fact most people just think that he was the man that the Sanford Baseball Association wanted for the job, but this is not true.

The Sanford Baseball Association as well as Lake realized that he was not the man to manage the Sanford team, not because he did not have the ability, but because he had no business bossing his home town team.

Let us turn back the pages of time and reiterate the actions of the Sanford Baseball Association.

Last fall the local Association heads were looking for an experienced catcher or infielder for a manager. Several men were contacted and the best prospect was Johnny Pare, a catcher.

Pare continued negotiations until the Feds could wait no longer.

Pare notified the locals that he was accepting a job in the Carolina League, therefore the Feds were caught short and the time for Spring training was upon them.

Buddy Lake was approached to take the aggregation into hand. Lake agreed that he would take the job temporarily and that he would step down in the event that a capable catcher or infielder could be found to manage the club. It is indeed unfortunate that the Feds were in a slump at the time that Don Murray was appointed. The miscues and the erratic play of the locals was no fault of Lake's.

Sanford was lacking the services of several players at the time Lake stepped down. Silverman was out with a severe leg ailment, Langston was suffering a pulled muscle, Edwards was laid up with a sore arm, and Martin Zuba was suffering a sprained ankle.

With the player situation as it was, and with the wolves howling at Lake, it was nothing short of miraculous that the jovial left fielder did not lay in the sponge and say "If the Beachmaster-miscue can do better, let them have the job."

We hail the fine sportsman like conduct of Buddy Lake and wish him continued success in his baseball career with the 1947 edition of the Sanford Celery Feds.
