Douglas Terms Johnson 'Unacceptable'

WASHINGTON (UPI) — Sen. H. Douglas (D-Ill.) has said Senate Democrats' leadership in the North is "unacceptable" to the party's presidential candidate.

Senators urged his colleagues to recognize "that the people in the North have problems that are entirely different from ours" and called on northerners to recognize that "we have problems entirely different from theirs."

He said Sen. John F. Kennedy (D-Mass.) is now the leading candidate for the Democratic nomination but that Johnson also must be considered.

Johnson got a hefty plug from Sen. Thomas J. Dodd (D-Conn.) who did everything but endorse the Texas outright for the presidency in a speech at Austin, Tex. Dodd said Johnson's past contributions had been great but that he would render even greater future services both to "our country and the entire free world."

America's Most Powerful Business Leaders Meet

PEBBLE BEACH, Calif. (UPI) — Would you like to wine and dine with 100 of the most powerful businessmen in America?

The women? Reporters agreed they were a plain lot. Their dresses appeared to have been worn many times before, and there were no striking creations from Paris.

They gathered, with their wives, here at the well-appointed Del Monte Lodge for a three-day, secluded party which broke up Sunday when most of them flew back to the East Coast by chartered jet.

How did they relax among themselves, out of sight of every ambitious subordinate and the public? There were no dancing girls, no waiters in livery, and no flashiness of any kind.

The magnates were members of what might be termed the most exclusive club in the country. It's called the Business Advisory Council of the U. S. Department of Commerce.

Most men played the rugged Pebble Beach golf links, and the rest played tennis. The women visited local gardens and took rides along the coast.

For practical purposes, to be a member, you must control around one billion dollars and be able to get along with others who do the same. A few men who deal merely in hundreds of millions were not invited.

These 100 men have been estimated to control, one way or another, as much as 50 per cent of the nation's production.

Gowdy Funeral To Be Wednesday

Funeral services for Karl James Gowdy, Lake City, who died Saturday after a lengthy illness, will be held Wednesday, at 4 p. m. at the Briston Funeral Home.

Mr. Gowdy, 48, was born in Sanford on February 12, 1911, and has been living in Daytona Beach. He was a veteran of World War II and the Korean War and served as a master sergeant in the Army.

Mrs. Tillis Dies At Fort Myers

Funeral services for Mrs. Donnie Tillis of Fort Myers and formerly of Sanford, were held Sunday at Gardner.

Mrs. Tillis, 86, died Saturday in Fort Myers. She is survived by a daughter, Mrs. J. M. Johnson of Fort Myers; four sons, J. S. Sanford, J. W. of Orlando; H. S. of Jacksonville and L. C. of Lake Mary. Also two nieces, Mrs. C. S. Donaldson of Lake Mary and Mrs. W. G. Brown of Sanford and grand and great-grand children.

Oviedo Church Holds Homecoming

The First Methodist Church of Oviedo Sunday, with a homecoming sermon by the pastor, the Rev. George H. Carlton, and a basket dinner on the lawn of the church.

Tip Pays Off

HALLANDALE, Fla. (UPI) — Last week Police Chief Bob Aiken called a meeting of his 13-man force and said the disgrace had to be ended.

Every Halloween since 1928 an outhouse had turned up in front of the post office here. Aiken mobilized the entire force and called up 17 trained reserves. They stayed on in shifts through most of the night, but Sunday morning's sun revealed Halloween pranksters had placed another privy in the same spot.

Services Today For J. W. Brooks

Funeral services for James William Brooks, 47, of Lake City, were held at 10:30 a. m. today at Briston Funeral Home, with the Rev. S. L. Brady and the Rev. Robert H. Spears Jr. in charge.

Mr. Brooks, a former resident of Sanford, died Friday at the Veterans Hospital in Lake City. He had been living in Chicago where he was a member of the Christian Church and the American Legion. He was a veteran of World War II.

Mrs. Cleo Howard Services Held

Funeral services for Mrs. Cleo P. Howard, 65, who died Friday at Seminole Memorial Hospital, were held Sunday at Grambow Funeral Home. The Rev. W. T. Parsons officiated and cremation followed.

Oviedo P-T-O Hears Talk On Schools

Senator Douglas Stenstrom spoke to the Oviedo P-T-O last week on legislation as it pertains to the schools and the children. He impressed the importance of the young people of the community and stated, "Don't ever give up your interest in the young folks."

STRYPEEZE Special PAINT REMOVER. Brush it on—wash paint off. Non-flammable. At paint and hardware stores.

Mr. B. J. Jammes Is Buried Here

Graveside services were held at 3 p. m. Sunday at the Bivlan Lake Cemetery for Benjamin Francis Jammes, 72, of Jacksonville, who died suddenly at his home last Thursday.

Born in Paola, he had spent the past 16 years in Jacksonville. He is survived by his wife, Mamie, of Jacksonville; two daughters, Mrs. Roger James of Sanford, and Mrs. Mae Smith of Jacksonville; four sons, Fred, of Lake Mary, Benjamin of Jacksonville, Richard of Paola and Frank of Gainesville, Ga. Also two sisters, Mrs. Rose Abraham of Sanford, Mrs. Mary Jammes of Jacksonville; two brothers, Joe of New Smyrna Beach and Elie, of Miami; 23 grandchildren and one great granddaughter.

Children Raise \$100 For UNICEF

Seminole County youngsters canvassing the area Friday night as a prelude to Halloween netted more than \$100 for UNICEF.

What Ruth Did Not Do

NEW YORK (UPI) — Despite his many great slugging feats, Babe Ruth never hit four homers in a single game. And he hit three homers in a single game just twice — which Johnny Mizel did no less than six times.

Happiness Through Health (By DR. F. LEO KERWIN) What Is Arthritis? Arthritis is essentially an inflammation of the surfaces of the joint. This inflammation involves not only the bony surfaces, but the muscular and the ligaments surrounding the joint. In many instances, this joint inflammation results from excessive stresses and strains arising from improper functioning. This is a matter of faulty body mechanism arising from bad posture, curvature of the spine, bones out of place, and other conditions which would induce body unbalance. Another factor that is often involved in arthritis is faulty calcium metabolism. This means the body's ability to utilize for its own purpose the natural calcium salts found in certain foods. Recent research has demonstrated that there is definite relationship between arthritis and an upset nervous system. Disturbances in the nervous system interfere with metabolism. The Chiropractor, in dealing with arthritis, seeks to restore normal body balance, and normal functioning of the nervous system. By removing the pressures which clog, he reestablishes the body's proper calcium metabolism as well as corrects mechanical functioning of its joints. When he does so symptoms of arthritis disappear. One of a series of articles published in the public interest to explain and illustrate the practice of scientific Chiropractic, written by Dr. F. Leo Kerwin whose office is located at 201 S. French Ave. and his telephone number is FA 4r4x 2-7442.

Hunt Still On For Missing Cuban Army Commander

HAVANA, Cuba (UPI)—The 100-plane search for Cuban army commander Maj. Camillo Cienfuegos continued today but speculation grew that he was involved in more than an ordinary plane crash.

Cienfuegos and two other men disappeared on a two-hour flight Wednesday night. There was no radio message after takeoff and no sign of wreckage has been found.

Premier Fidel Castro and members of his government are understood to be basing the search on the possibilities that Cienfuegos either crashed in a deserted area and was killed or that he and the other two men are so badly injured that they cannot signal for help.

It was on this basis that they ordered the mass air search and asked U. S. Navy authorities to help.

But two other possibilities are being talked about here: That Cienfuegos has been kidnaped by anti-Castro forces or that he has flown to another country to ask for political asylum.

This line of speculation points out that Castro delayed announcing that the plane was missing for 30 hours and that search announcements also appealed to the public to keep calm and ignore rumors.

Speculation that Cienfuegos, who fought next to Castro in the rebellion, might be seeking refuge in the United States was being brought forward only in the most guarded terms. Such an action would be a major blow to Castro, whose air force chief, Maj. Pedro Diaz Lanz, fled the country and now is heading the propaganda fight against him.

Spain Has Much Building, But No Rush

(Editor's Note: This is the fifth of a series of articles by A. M. and R. H. Haskell who are now in Europe.)

Burgos, Spain—San Sebastian is the summer capital of Spain and one of the smartest summer resorts in Europe. The season is now over, so the town is quiet.

Built on a big cove between two hills, it has a lovely sand beach, right downtown, bright gardens, and wide boulevards. This has been a rainy-summer for Spain. The coastal plains and the mountains that rise out of them are so green they glow in the sun. Passing over the mountains, we went up 1,700 feet in 40 miles, the country gets rugged and stark.

A great many factories and much housing are being built, all functional modern and quite ugly. But the new apartments are not so grim as the present housing. These old stone buildings are dark and grimy, many still showing evidence of the shelling during the Civil War.

The Spanish are small, lively, and noisy. We walked down the Esplanade of the old Spanish capital of Burgos and were almost deafened by the Saturday night crowd. The screams of children playing, people talking and laughing loudly, motor scooter horns, and shrill police whistles made a bedlam of the streets.

The workmen's bars, most of them nasty little holes, were frequented by men only. In the smarter places, women are tolerated, though the men predominate.

Last night, while we were sitting at a sidewalk cafe in San Sebastian, a torrential rain came up suddenly. Everyone retreated.

Mr. William L. Day

gaily into the bar and waited at least 45 minutes for the rain to stop. They were not quiet, but no one was concerned, impatient or angry. A similar group of Frenchmen would have been protesting violently at the wait and of each other in five minutes. It is true that time does not mean much here. We asked our hotel when checkout time was and got a disinterested shrug and a "leave when you wish—no hurry". This hotel is a big baroque pile with elegant public rooms. Our bedroom was enormous, with an alcove over a park, hung with red brocade, bedspreads to match, red plush armchairs, and a very elaborate floral rug. It is not cheap, for

Spain, but due to the favorable rate of exchange, dinner, room, and breakfast cost about half as in a comparable hotel in New York, but the accommodations would not have been as spacious. We saw a lot of road work being done with antiquated machinery and a great deal of manpower. Workmen were smoothing crushed stone on the roadway and breaking it up with hammers. It must take a long time to build a road this way, but so far the roads have been surprisingly good. We were, however, on the main highway between San Sebastian and Madrid, so we may be in for a rude shock later.

A New Twist

NOTTINGHAM, England (UPI)—The college boys are at it again. Once it was goldfish. Then there was telephone booth cramming. Later there was a craze for squeezing into tiny automobiles.

This time it is handshaking. Stephen Rowlinson, 19-year-old economics student at Nottingham University, claimed he set a world record Saturday by shaking hands with 9,001 persons. It took him 10 hours and 10 minutes to beat the 50-year-old mark of 8,530 set in 1907 by President Theodore Roosevelt. Two fellow students stood by counting off the handshakes on a blackboard.

"I'm in pretty good condition generally," Rowlinson said, "but I've got a stiff arm and tennis elbows."

Americans To Buy More Used Cars

NEW YORK (UPI)—Americans will buy more used cars than new cars in 1939 for the second straight year, according to a survey by Business Week Magazine. It was the other way around in the three years prior to 1938. The study reports 9.8 per cent of the population will be in the used car market this year while 7.6 per cent will be buying new cars. In the record auto sales year of 1935, 8.2 per cent bought new cars and 7.5 per cent used ones.

Reapportionment Act Good For County

Seminole County voters have a chance tomorrow to increase their representation in the legislature by approving the proposed reapportionment.

The constitutional amendment would give Seminole County a full Senate seat. We no longer would have to share the district Senate seat with Brevard, which would become a new district under the amendment. This will increase our county's representation in the upper chamber by about 60 per cent, since Brevard has roughly twice our population.

The county legislative delegation Friday urged a large turnout of voters and stressed that the passage of the amendment is important to the county, because this reapportionment appears to be about the best the state is going to get for a long time.

"The Seminole County delegation recognizes that the reapportionment is not perfect, but we feel that it is the best that can be had. There are no skeletons in the closet. Reapportionment represents an honorable compromise, one which the delegation backs 100 per cent," a joint statement by Sen. Doug Stenstrom and Reps. Gordon Frederick and Mack Cleveland Jr. said.

"Let your voice be heard. We urge you to vote in favor of the constitutional amendment," they said.

County voters also may vote on the proposed school millage and three school trustees. Sanford voters can make a choice on two city council seats.

VOTE!

No Money Needed In This Drive

There are many campaigns for the community good, but there is one coming up here which is unusual in that it does not seek to raise money.

This one just needs people.

The American Cancer Society is seeking the answer to the causes of cancer, which the experts say is more than a disease—it is many diseases. More than a million people are needed to volunteer to give information on confidential questionnaires which will be distributed by volunteer workers in 27 states.

From the answers of these people, the Cancer Society hopes to fill in some information researchers need in finding cancer cures.

The survey will seek out cancer causing factors in different environments, occupations, social groups, religious sects and from habits and diets of people.

The Woman's Club, undaunted by the formidable problems connected with such a survey, will conduct the campaign in Seminole County. Its members have volunteered to survey 300 families.

Now, how about 300 families volunteering to help these volunteers do a job that can help the whole world?

PRODUCTION KNOW HOW VS. PRODUCTION DONT KNOW HOW

Assignment Washington

By ED KOTERBA

WASHINGTON — Slowly, the fire truck crossed the Potomac from Virginia, traversed Washington and lumbered into the Maryland countryside. The truck was from Falls Church. Its fire bell tolled in solemn, slow rhythm.

The boys were bringing their mascot, a pet dog, to its final resting place in Aspin Hill Cemetery. This kind of consideration for an old friend is not unusual in these parts, for 27,000 pets — animals and birds — lie in private graves on the 10-acre hill in Aspin.

You can give your pet a funeral for \$20, or \$1,000. Mrs. George Young, wife of the caretaker, said monuments run to \$750.

The headstones are like what you find in other cemeteries, only these read: Rover . . . Boots . . . Scraps. On one of the fresh mounts you see no stone; but a memento — a worn rubber bone. Probably the dog's last toy.

Under a low cedar, a weathered headstone bears a framed picture of Jiggs, the original pet of RKO's "Our Gang Comedy." And, there, under a flagless flagpole is Rags, the hero of World War I. He was buried with full military honors. A few feet away rests Ricky, the South Pole husky of Admiral Richard E. Byrd.

Aspin is the largest pet cemetery in the United States. But recently there have been nearly as many birds laid to rest there as four-legged pets. In the past five years, 200 parakeets joined this

final kingdom on the hill overlooking the capital.

They even pay their last respects to starlings here. And black birds and goldfish.

Furry cats rest under one headstone. They were the pets of Blasco Timmons, the correspondent. Among them is Timmy, who gained fame as the one and only National Press Club mascot.

In another grave is buried Napoleon, the cat from Baltimore who made headlines around the world in the late 30s as an uncanny weather prophet.

J. Edgar Hoover, who buried five dogs at Aspin, looked thoughtfully upon the coffin of Spee Dee Hooz, an Alredale, a number of years ago as the pet was being lowered into the grave. And then the FBI chief's head lowered and he murmured: "This is one of the saddest days of my life."

A real heartbreaker involved a billy goat. For years, that goat was a fixture in a Georgetown tavern. He was the tavern owner's pet.

When the goat died, his master gave him a splendid funeral. But he was afraid that if anybody discovered his sentimental deed, he'd be the butt of a lot of ribald jokes.

So he asked the folks at the cemetery to keep the burial a secret, at least until he, too, passed on.

He died a few months ago.

People are sometimes unpredictable at the graveside services of their pets. Once a dowager fainted when her pooch was lowered into its three-foot grave.

Another time, a Washington man appeared at the bier of his French poodle with a brass band.

U. S. Construction Gain To Go Up

NEW YORK (UPI)—The construction industry will account for 15 per cent of total economic activity in 1959, or a whopping \$74 billion, chairman Adrian R. Fisher of Johns-Manville Corp. predicts.

Of the total, he added, \$52 billion will be spent for new construction and \$22 billion for maintaining, repairing and modernizing existing structures.

Washington Calling

By MARQUIS CHILDS

WASHINGTON — In a ceremony marking the laying of the cornerstone, with President Eisenhower as the principal speaker, the Central Intelligence Agency is stepping a little way out of the shadow of professional secrecy. When the building, nearly half the size of the Pentagon, is completed in August of 1961 it will be inadequate to house the staff of the agency.

This is a measure of the way in which the CIA has grown in the 12 years of its existence. Under the CIA act not only its operations but its budget, the size of the staff and all other details are secret.

Yet there are signs, and the public ceremony marking the laying of the cornerstone is one, that the far-flung intelligence agency would like to have the public know more about its overt functions. There can be no question, of course, about publicizing its covert activities, which include a wide range of work such as encouraging the defection of Communist agents who will reveal either in public or in private the working of the Communist espionage system.

In a free society in which there is an inherent distrust of secret government, the CIA has stirred surprisingly little suspicion despite its remarkable expansion. Yet, the dilemma does exist and it is likely to become acute if the outward and visible signs of the cold war diminish in an era of negotiation with the prospect of competitive coexistence.

In theory the CIA does not make policy. Under the law it is required to provide intelligence estimates — the raw material of policy — to the National Security Council and the President. Yet, with the great body of knowledge that it collects on Communist activities in every part of the world the temptation is inevitably strong to try to steer the nation on a course of strong resistance and counterattack.

Recently the deputy director, Air Force General C. P. Cabell, made two speeches that seemed to suspicious observers to skirt the policy line. Speaking to the National Security Commission of the American Legion three weeks after President Eisenhower had invited Premier Khrushchev to visit this country, Cabell warned against "smiling faces from the Kremlin." He said that a free ride on the Communist merry-go-round always "turns out to be costly."

In an address to the National Guard Association early in October, Cabell talked of the smolder-

ing "Communist fire" in Laos and said, "It must be met with strong determination." The loss of even five or six soldiers in northern Laos in what the Communists claim is a "civil war" is important, Cabell told the Legion Association, comparing the Legion's battles to the "shot heard round the world" at Lexington in the American Revolution.

"To the free people of the West the bold evidence of Communist aggression is not very palatable," Cabell said. "Calling this 'peaceful coexistence' does not make very much sense to me."

Director Allen W. Dulles is frank in saying that he would like to see some of the able economic and political analysts in CIA write and speak publicly on their specialties. His staff includes distinguished men in almost every field of intelligence analysis and research. Their work as analysts — refining down and interpreting the vast amount of material that comes into CIA — is open and above board.

One reason Dulles may be encouraging his associates to step out in public is because the burden on him is so great. He must invariably appear before Congressional committees, and always in secret, and the pressure on him to fill speaking engagements is unending. For the first time in the nearly seven years that he has been director Dulles on November 13 will appear publicly before a Congressional committee to present an analysis of the Soviet economy.

This is in itself a radical departure since his predecessors all declined to testify in public. Dulles is one of the most dedicated and hard-working public servants in Washington, resembling his brother, the late John Foster Dulles, in his tireless expenditure of energy.

He is undoubtedly one reason that Congress has been content to vote huge budgets — estimated at close to a billion dollars a year — without supervision. Senator Mike Mansfield proposed a

Texas Has Most Banks In U.S.

NEW YORK (UPI)—Although New York is the nation's money center, Texas had more banks than any other state during 1958, according to a survey by R. L. Polk & Co.

Texas was the home of 977 banks. Illinois was second with 844. But in the number of banking offices, New York led with 1,831, followed by California, Pennsylvania, Ohio and then Texas.

TO: THE PEOPLE OF SEMINOLE COUNTY FROM: YOUR LEGISLATIVE DELEGATION
 Senator Douglas Stenstrom, Rep. Mack N. Cleveland, Jr., and Rep. Gordon V. Frederick

RE-APPORTIONMENT IS IMPORTANT TO SEMINOLE COUNTY

On November 3rd you will have not only the privilege but the duty to go to the polls and vote on the Constitutional Amendment providing for Re-apportionment of the Florida Legislature.

Re-apportionment is the division of representation among the 67 counties of Florida. There are now 95 members of the House of Representatives. The November 3rd ballot allows this to be increased to 103 members with the additional members being given to the more populous counties. Seminole County's position as to representation in the House is not materially affected. We now have two members and, based upon our population growth, will continue to have two members for many years in the future.

Seminole County does gain a separate Senatorial District. The Senate is now composed of 38 Senatorial Districts. Ours, the 37th District, is composed of Brevard and Seminole County. The Nov. 3rd ballot increases the Senatorial Districts to 44, among these is a separate District for Seminole Co.

On November 3rd a vote for re-apportionment is a vote for a separate Senator for Seminole County.

The Seminole County Delegation recognizes that the Re-apportionment is not perfect but we feel that it is the best that can be had. There are no skeletons in the closet, in spite of the efforts by some to confuse this issue and the public for political purposes. Re-apportionment represents an honorable compromise, one which the Delegation backs 100%.

On November 3rd be sure you vote in this most important election. Let your voice be heard. We urge you to vote in favor of the Constitutional Amendment.

(The cost of this advertisement is paid by the Seminole Delegation as an expression of our obligation to properly inform our people)

Girl Scout Diary

Brownie Troop 106 invested 12 new members into the brown uniform last week. Each girl has attended four meetings and before she is "Pinned," must demonstrate that she knows her Brownie promise and salute and must show familiarity with the flag ceremony.

Initiates of a fraternity could not have received the cherished pin with more eagerness and pride than these little ones showed for their Brownie pins.

Mrs. Ruby Sjoblom was guest speaker for the program. She showed the girls how to make pretty clothes hangers by wrapping them in yarn. There is now no excuse for ugly wire hangers in the wardrobes of these eager young Brownies.

At the close of the meeting the girls gathered in the friendship circle to sing the "Smile" song to an audience of delighted mothers.

FOUR VOLUNTEERS who helped solicit for trick or treat for UNICEF, Friday night. Left to right, Courtney Hook, Marion Skelley, Mary Ann Fox and Philip Stith.

Sorority Sets Date For Ritual Of Jewels

The home of Mrs. Barbara Greene on Jewett Lane was the scene of the annual Model Meeting of the Gamma Lambda Chapter of Beta Sigma Phi. The president, Mrs. Reida McCall, presided at the meeting and introduced Mrs. Ann Cowan, immediate past president who spoke on the aims and purposes of Beta Sigma Phi and reviewed the history of the sorority.

Mrs. Greene and Mrs. Paulette White presented an interesting program on "Storytelling." Mrs. White stressed the point that an interesting storyteller must have a good voice and extensive vocabulary. Mrs. Greene demonstrated the humor point of storytelling by reading a short story.

Mrs. Sophia Shoemaker demonstrated the mouth to mouth resuscitation method which was recently presented by the American Red Cross and gave some interesting and beneficial rules to follow in case of suffocation or drowning.

Mrs. Pat Largent, Chairman of the Service Committee, reported on the Thanksgiving basket which will be donated and presented to the Salvation Army for distribution at Thanksgiving. She also asked for volunteers for the American Cancer Society poll which is being conducted throughout the United States.

Mrs. Coway, a member of the Service Committee, reported on the birthday party at the County Home, which was held last week. Candy and cakes were taken to the home by Mrs. Cowan and Mrs. Patricia Stenstrom and gifts for the gentleman celebrating his birthday.

Mrs. Carol Dennison reported that the Social Committee had made plans for the ritual of jewels and pledge ritual ceremonies to be conducted Saturday, November 11.

Personals

BY MARIAN R. JONES
Mrs. W. T. Chance has returned from Long Island, N. Y. where she visited her son-in-law and daughter, Mr. and Mrs. Al Thomas and her little grandson, William Chance Thomas.

Mrs. Charles T. Niblack, who has been sick for sometime, has been the guest of her son-in-law and daughter, Mr. and Mrs. David Jackson, Tampa, while recuperating from pneumonia. She returned with Mrs. Jackson and little granddaughter, Pam, who were with her during her illness.

Mrs. Jim French has returned to her home in Pensacola after a visit with her parents, Mr. and Mrs. W. R. Meek. The Jim Frenches recently moved from Gainesville to Pensacola.

Mrs. Theodore Aulin, Jr., returned home with her husband this past week after a stay of some time in Asheville, N. C.

Monroe P.T.O. Meets Tuesday

The Lake Monroe P. T. O. will meet Tuesday at 7:30 p. m. at the school. Each room will be visited by the parents where teachers will explain program aims and materials used for the year.

The business meeting will follow in the school auditorium and refreshments will be served in the school lunchroom by the first grade home room mothers. All parents are requested to attend.

Wash canvas chair seats and mattress covers used on outdoor furniture before putting them away for the winter. Put the covers in the washing machine with three to five tablespoons of sal soda concentrate, add a little detergent—less than you would use for a regular washing.

SOME OF THE GUESTS at the Halloween party given by Jeff and Susan Largent, Friday morning at their school. Jeff is the tiger (second from left, standing) and Susan is shown holding a pumpkin. Others are front row (seated) Vicki Accardi and Paul Hamilton. Back row (standing from left) Grady Johnson, Larry Flora, David Stutsman and Mrs. Michael Caolo (the leopard) one of the teachers.

Shower Honors Bride-Elect

Miss Pearl Bowen, bride elect of Wyong Moore, was honored with a shower, Wednesday evening at 7:30 p. m. at the home of Miss Ola B. Yates and Miss Annette Yates at their home on Rosalia Drive.

The bride's robe was overlaid with a lace cloth and centered with a white cake, topped with a miniature bride and groom. Completing table decorations were two silver candelabra with burning candles and refreshments of nuts, mints, and punch.

Games were played with prizes being awarded to Mrs. Bob Richardson and Miss Lois Mesner.

Other guests included, Mrs. Juanita Moore, Mrs. Alice Yates, Miss Ruth Ann Dunlap, Mrs. Thomas Parlike, Mrs. Natalie Cockman, Miss Carol Herman, Mrs. Paul Miller.

Mrs. May Bell Haynes, Mrs. Henry Hardy, Mrs. Nettie Owens, Mrs. Bob Owens, Mrs. Mary Owens, Mrs. Mary Lou Owens, Miss Evelyn Landress and Mrs. Roberta Keith.

Lake Mary

Personals

BY IDA MAY SJOBLUM
CWO Robert C. Martin has reported to NAS Cecil Field, near Jacksonville, for duty with FASRON-9. Mr. Martin has been an active member of the Lake Mary Chamber of Commerce and has devoted much time to the boy scouts.

He was an assistant scoutmaster and spent many hours working on the scout hut. Mrs. Martin and children, Bobby and Wendy, will continue to live in their home here with Mr. Martin coming home weekends when possible.

An election of officers was held with Pat Willis chosen as president, Sandra Humphrey, vice-president, Cathy McCarthy, secretary; Sharon Ansell, song leader, Ann Carlson, reporter and Wanda Nixon, council delegate. The next meeting is scheduled Nov. 9, at Mrs. Brooklyn's home.

BPW Meets Tomorrow

The Business and Professional Women's Club will meet Tuesday at 7:30 p. m. at the home of Mrs. Arlyn True, in Lake Mary. The regular monthly business will be conducted.

Amron Llen Feted At Birthday Party

Mr. and Mrs. Milton A. Ferrell, honored their daughter, Amron Llen, on her eighth birthday with a costume Halloween birthday party at their home on Cedar Ave.

The guests arrived in elaborate costumes at 6:30 p. m. and were entertained on the patio which was decorated with orange and black crepe paper streamers. Carrying out the Halloween motif, cats, witches, pumpkins and other "spooky" type decorations were scattered all about.

A period of games and playtime was enjoyed followed by refreshments of cake, candy, ice cream and cold drinks. Each guest also received a prize and favors.

Those attending were Cindy Kennedy, Billy Gilbert, Dale Davila, Ricky Carter, Alan and Gary Skipper, Marcia Curl, Candy Colman, Mary Pat Bergang, Brenda and Jean Carter, Linda Stubbs and the honoree's brothers and sister, Mike, Ricky, Steven and Candy Ferrell.

Assisting Mrs. Ferrell with the serving and entertaining were Mrs. Helen McCloskey, Mrs. Wilma Colbert and Mrs. Joyce Skipper.

Although Mr. Starr is confined to his home, due to illness, he is able to have visitors.

Enterprise Church Events Scheduled

The regular book review will be given at All Saints Episcopal Church in Enterprise, Wednesday at the parish hall at 10 a. m. The official board of Barnett Memorial Methodist Church of Enterprise will meet tonight at 7:30 p. m. at the Church office. Choir practice Wednesday at 7 p. m. at the Church and the regular meeting of the WSCS will be held tomorrow at 7:30 p. m. Mrs. Ida Padgett will serve as hostess and Mrs. Bill Swear will be program leader.

Church Calendar

MONDAY
First Baptist Church Deacons Meeting, 7 p. m.
First Presbyterian Church Boy Scouts, 7 p. m. Sunday School teachers and officers meeting, 7:30 p. m. Philathea class meeting, 7:45 p. m.

TUESDAY
First Baptist Church Bible survey class, one at 9:30 a. m. another at 7:30 p. m.
First Methodist Church WSCS board meeting 9 a. m. business and program meeting 9:45 a. m.
First Presbyterian Church, Junior choir rehearsal, 8:15 p. m. Intermediate girls, 5 p. m. Pioneer Fellowship, 8 p. m. Family night supper, 7 p. m.

Covington Covers Sports

By JERRY COVINGTON
When comparing the Seminole High School coaching staff with various schools in the state I feel that they are second to none.

With coaches Jim Pigott, Dave Laude, Bud Laver, and Dick Silvers as field coaches and Fred Ganas as athletic director, SHS has one of the finest combinations available in prep sports and this is evident by recent successes of different sports at the local school. Each has proven to be a master at his job.

Back in my days at Seminole, Ganas served as basketball coach and later became head football coach. Since then he has taken over the top job in the athletic department and has done a wonderful job of coordinating the various sports. He also serves as golf coach in the spring.

Several years ago Ganas was stricken with a usually fatal disease but, because of his love of life and his determination, he has overcome it and is again the picture of health. His mild and pleasant manner has made him a lifetime friend of mine and many of his former students.

Three years ago Coach Pigott came to Sanford and immediately brought the local school back into football prominence. It only took this wonderful guy a few days to completely win the confidence and admiration of his young football hopefuls and they have been showing him ever since by playing to their very greatest capacity. He is a born leader and is capable of reaching even the most difficult young men. He stresses religion and education first to his boys and then he feels the football will take care of itself if they grasp these. He certainly has found a home here and we are for him 100 per cent.

Dave Laude has been well established as one of the outstanding members of the coaching staff for sometime. I person-

ally feel that Dave is by far the most outstanding defensive football coach in the South and this has been very evident in recent years. Three years ago his big defense held the opponents to only five touchdowns all season which is a record of some sort I am sure. He also serves as head baseball coach and with only a minimum of squad talent on the diamond he has proven himself to be one of the best instructors in this field.

Coach Pigott is constantly after me to give more credit to Dave as he feels more than anybody else that Laude is one of the biggest factors in the successful Seminole teams.

While Bud Laver's mind sticks to basketball most of the time he is also a great asset to the football picture. He is a fine fundamentalist while teaching the junior varsity and his scouting has played a big part in the winning tradition of the varsity. He has pulled the basketball team at SHS out of the cellar in recent years and with one big man once in a while he will have them battling for the OHC crown. He has won more games in basketball than any other coach in history of SHS.

Dick Silvers is a happy-go-lucky guy off the field or court but when it comes to putting over a point to a young athlete he is a cold, hard, businessman. He serves as head JV football coach and works with Bud in the basketball program as JV coach. He is a student of the game and has proven himself capable of any job, which is indicated by his records. His football teams have won and won and keep on winning.

I feel that this is the finest staff in high school athletics. A combination of these outstanding men will give the proper guidance to any student and, with leaders like these in our schools, how could a youngster stray very far.

LSU Riding High Toward National Football Title

United Press International
Louisiana State was riding higher than ever in college football's upper stratosphere today while Northwestern, Texas, Syracuse and Kansas also were soaring toward possible bowl berths.

Top-ranked LSU skinned over its toughest hurdle on the way to its second straight national championship and a repeat appearance in the Sugar Bowl by turning back third-ranked Mississippi, 7-3, Saturday night on an 89-yard punt return by All-American Billy Cannon.

The Tigers face another toughie, Tennessee, next Saturday and then close out their regular season against Mississippi State and Tulane, who have lost eight games between them.

Here are the possible pairings for the major bowl games entering the final month of the season: **ROSB**—Northwestern (6-0) vs. Washington (6-1) or Oregon (6-1).

SUGAR—Louisiana State (7-0) vs. Clemson (5-1) or Arkansas (5-3).

ORANGE—Syracuse (6-0) vs. Kansas (4-3).

COTTON—Texas (7-0) vs. Air Force (6-1) or Mississippi (6-1).

GATOR—Georgia (6-1) or Ole Miss vs. Arkansas or TCU (5-2).

Northwestern and Kansas can clinch a tie for first place in their respective conferences next Saturday while Syracuse reportedly will be offered an Orange Bowl bid if it gets by Penn State in a showdown "meat" of the unbeaten.

Second-ranked Northwestern, leading the Big Ten with a 4-0 mark, has a weekend date with Wisconsin (3-1) in a game that may decide the conference representative in the Rose Bowl.

In the Big Eight Conference race, Kansas and Oklahoma are tied for the lead with 3-1 records. The Sooners are barred from a return trip to the Orange Bowl while Iowa State (2-2) has tough games remaining against Nebraska and Oklahoma. So Kansas will be in the driver's seat if it gets by Colorado this week.

Ron Burton and Mike Stock each scored two touchdowns in leading Northwestern to a 30-13 victory over Indiana last Saturday.

Fourth-ranked Texas continued its drive toward the Southwest Conference championship and the best berth in the Cotton Bowl by blanking Southern Methodist, 21-0.

Fifth-ranked Syracuse prepared for its meeting with Penn State by handing Pittsburgh one of its worst defeats in years, 35-0.

Brown Paces Cleveland To Big Win Over Colts

United Press International
Jim Brown, the National Football League's finest ball-carrier, made "believers" of the Baltimore Colts and changed the complexion of both division races in one golden afternoon.

Brown's five-touchdown spree against the Colts Sunday at Baltimore enabled the Cleveland Browns to upset the defending league champions 38-31. His touchdowns on runs of 70, 17 and three yards and a pair of one-yard plunges also:

—Enabled the San Francisco Forty-Niners to take undisputed leadership of the Western Division with a 31-7 triumph over the Detroit Lions.

—Forced Baltimore, which started the day tied with San Francisco for first, into an uphill fight to retain its Western Division crown.

—Kept the crushing Browns only a game behind the New York Giants, 20-3 victors over the Green Bay Packers, in the Eastern race.

The Philadelphia Eagles remained tied with Cleveland at the halfway mark in the campaign by staving off a Washington Redskins rally for a 30-23 triumph.

In Sunday's other games, the Chicago Cardinals upset the Pittsburgh Steelers, 45-24, and the Chicago Bears surprised the Los Angeles Rams, 26-21.

Brown, who set an all-time NFL rushing record of 1,327 yards last year, is in his third pro season but never before played against Baltimore. His ability was questioned before Sunday's game by several Colts. Gene (Big Daddy) Lipscomb, Baltimore's 285-pound

All-League defensive tackle, said "I've been itching to get my hands on that cat (Brown)."

But Big Daddy and his mates had trouble getting their hands on Brown from the line he rocketed over his right tackle and slipped 70 yards to score in the second period. The current Baltimore defensive unit, ranked with New York's as the league's best, never has been so humiliated.

The 200-pound Brown gained 178 yards of 32 rushes. Averaging 5.5 yards per carry behind the blocking of Mike McCormack and Cleveland's other offense linemen, he sparked the Browns to victory despite another brilliant passing show by John Unitas.

Unitas completed 21 of 41 passes for a personal single-game high of 397 yards and provided Baltimore four touchdowns on short losses to Lenny Moore, Jerry Richardson, Raymond Berry and Jim Mutscheller.

7 Major Grid Teams Unbeaten

NEW YORK (UPI)—Louisiana State topped a dwindling list of only seven major schools today among the nation's remaining 34 college football teams with perfect records.

Top-ranked LSU, Texas, Penn State and North Texas State are the major schools with seven victories, while Syracuse, Northwestern and Southern California have won all six of their 1959 starts.

Harry's Liquors Paces Kegler Loop

Harry's Liquors remained on the top of the Sanford City Kegler Loop after last Wednesday's action, as they took two games to remain one game in front of the Mather of Sanford team.

Harry's, following the lead of George Kessler 20-11, took two games from Gans' Seminoles Cleaners and Laundry. Gans' now tied for fourth place, took the last game of the evening, as Bill Kaseo led the team with his 5-0-10.

In other action, Mather of Sanford stayed close in the race as they drove Burnett Painters further into third place by taking two of the three games. In taking the two, they established a new league high three game team series with a big 2-15 total. Garry Fox led the team with a 5-0-10.

Celery City Printing Company took two games from the New York Life Insurance team, with Hal Gilstrap rolling 688 for the winners, while Doc Ring had 688 for the losers.

There were many "split-shrinkers" with Garry Fox leading the pack by picking both the 4-7-10 and the 5-8-10. Others were Ed Kirehboff with a 2-5-7, Harold Herbst a 3-1, E. C. Stappner got into 5-8-10, All DePalma found the range on the 3-7, Buddy Pector the 5-8-10, Hal Gilstrap the 4-7-10, Frank Huhn the 5-7-8, and Bill Kaseo the 5-10.

"Match-of-the-Week" will be on five and six this week, as Mather of Sanford will try to take first place from Harry's Liquors.

OOOOPH, MISSED HIM, says a Lyman tackler as Dannelon fullback Levant Brass skirts end for a long gain in the Friday contest between the two grid squads at the Lyman Homecoming. Lyman tackle Aulton Alford gives chase in the background. The Greyhounds won the contest easily by a 41-12 score. (Staff Photo)

Big Years
FOREST HILLS, N. Y. (UPI)—Bill Tilden won the U. S. national singles tennis championship six straight times, 1920 through 1925.

Won 15 Straight
NEW YORK (UPI)—A horse named Colin set the American record for races won without defeat during 1907-08 when he finished first 15 straight times.

Builders Gain in Loop Play

The lead in the Thursday night Mined League stayed the same again this week, as H. Edwards Builders' Supply took two games from Ed Kirehboff's to increase their total to 29-0-0. This dropped South Fincrest to third place with 16-14.

Fincrest spotted the supply team just one pin, but that pin was never the deciding factor in any game. Fincrest led the Builders' Supply team with a 5-0-10 scratch series, and Margie Woods rallied high for the builders supplies with a 5-0-10. Kimore topped the 5-0-10, and Tom Bolly picked off the 3-7 split.

Stammeyer Roofing lifted their team back into the second slot as they took two games from Florida State Bank, giving the roofers a 16-14-13 total. John Ogden, picking up the 3-10 split, as he brought in the 3-10 split and a nice series. For the furniture team, Howard Harrison topped the 3-10, Claude Denalet made the 3-10 and Jim Mackey turned in a 5-0-3 scratch series.

DO WE REALLY CARE ENOUGH

About Sanford . . . and our future ?

I believe that there is one thing on which we can all agree, and that is that business conditions, employment, and the development of Sanford is in the best shape now than it has ever been. Just a short while ago enough of our people began to care enough to want to see Sanford develop to its great potential. All of us suddenly believed and endeavored to do things. We built the beautiful Civic Center. We initiated an active city-wide recreation program. In building the Civic Center we did it with you and your children in mind, and you know how successful this program has been thus far. But, believe me, it can be only the beginning, and it could also be the beginning of the end. Because after all, you as a citizen determine your city's future by deciding who you elect as City Commissioners.

We the people of the City of Sanford, still face many problems, but your City Commission during the three years I have been privileged to serve as a City Commissioner and one of those years as your Mayor, has been active and progressively seeking to find ways we can do things and have things instead of reasons why we can't. From a few short years ago when some people wondered what was wrong with Sanford, today from all over the State other cities are coming to study and find out how Sanford is doing so much.

I think one fundamental reason for our being able to do so much is that all of our people presently have a voice in our City Government. There is presently no majority on the City Commission except the majority will of the individual Com-

missioners, and that's the way it should continue—each of us thinking for ourselves individually and representing your will — not a group opposed to everything but individuals interested in everything that will better your lives and better develop our City.

I sincerely believe that anyone who knows me knows that I have been conscientious in my efforts to serve you. I have been active in the civic affairs of this community for ten years, trying every day, in every way to help make Sanford a better place for all of us to live. Sanford has been good for me and my family. Serving as your City Commissioner I have had a part in helping Sanford's progress. I would love to see this progress continued and I believe that the experience I have gained will help me render you even better service if you choose to re-elect me.

If you believe I have been honest in my handling of your business and my business, fair with all of you, conscientious in my efforts, and dedicated to serving you, I shall appreciate your vote. Sanford's needs are great and its future is really where it should be — in your hands. You decide the future by the men you elect to serve you. If I warrant your vote and support, please don't be silent or inactive because, believe this, those who fought so long and so hard to hold Sanford back are trying to put the brakes on again. A VOTE FOR MERLE WARNER FOR CITY COMMISSIONER, GROUP 2, IS A VOTE FOR SANFORD AND YOUR CONTINUED PROGRESS, TUESDAY, NOVEMBER 3.

Kentucky, Jersey Viewed As Top Election Prizes

WASHINGTON (UPI)—The Kentucky governorship and control of the New Jersey Legislature were viewed by party spokesmen today as the major prizes to be won or lost in Tuesday's 1960 election contests.

Virginia, Mississippi and Kentucky also will elect members of Congress and hundreds of cities and counties will choose local officials in all-year voting which will be watched for clues to what may happen in the 1960 national election.

Among the big city elections is one in Philadelphia, where Democratic Mayor Richardson Dilworth is favored to win re-election in that former Republican stronghold.

In New Jersey, however, the Democrats are fighting to wrest control of the state Senate from the GOP.

New Jersey Democrats won control of the Assembly two years ago but Republicans held their majority in the state Senate, where they now have a 12 to 7 margin.

Kentucky has been engaged in an old-fashioned political brawl involving retiring Gov. A. B. (Happy) Chandler, a familiar figure in factional scraps in that normally Democratic state.

After his own choice for the governorship was beaten in the Democratic primary, Chandler showed no enthusiasm for Bert Coombe, who won the nomination with the backing of Chandler's rival, former Sen. Kerle C. Clements.

There is no Republican threat to Democratic control of the Virginia, Kentucky and Mississippi legislatures. In New Jersey, however, the Democrats are fighting to wrest control of the state Senate from the GOP.

Mississippi also elects a governor, but the Democratic nominee, Ross C. Barnett, is unopposed.

There is no Republican threat to Democratic control of the Virginia, Kentucky and Mississippi legislatures. In New Jersey, however, the Democrats are fighting to wrest control of the state Senate from the GOP.

Among the big city elections is one in Philadelphia, where Democratic Mayor Richardson Dilworth is favored to win re-election in that former Republican stronghold.

In New Jersey, however, the Democrats are fighting to wrest control of the state Senate from the GOP.

New Jersey Democrats won control of the Assembly two years ago but Republicans held their majority in the state Senate, where they now have a 12 to 7 margin.

LONGWOOD RESIDENT, Marine M/Sgt. Richard K. Schmidt, Corps recruiter for Central Florida, is congratulated by Capt. Herschel Johnson as Schmidt would up 20 years of service by immediately re-enlisting. The

sergeant's son, Pfc. Richard Schmidt, right, who just started his Marine career, looks on as his father begins his 21st year. The Schmidt family lives at 1082 East Lake Ave., Longwood.

Michigan Reaches New Peak Of Financial Peril

LANSING, Mich. (UPI)—Michigan has reached a new peak of financial peril. There is talk of closing universities, bringing state police in off the road, cutting welfare payments, laying off thousands of state employees and more 'pay-less paydays' for others.

The state has unpaid bills piled up to about 72 million dollars. It has just collected and spent 14 million dollars from its citizens from a tax now declared illegal and faces the near impossible task of trying to rebate all the pennies collected on purchases of clothing, groceries and other small items.

Its Legislature is going into the 11th straight month of wrangling while, as one newspaper said last week, proposals for new taxes wait around the chamber like exotic perfume. It seems—and it is—ridiculous that bankruptcy threatens Michigan.

Michigan is one of the wealthiest and fastest growing states in the nation. It has the huge automotive industry, magnificent forests and mineral deposits, a big agricultural industry.

Legal Notice

In the Court of the County Judge, Seminole County, Florida, in Probate Case No. 12197 of J. ST. CLAIR WHITE, Deceased. All Creditors and Persons Having Claims or Demands Against the Estate of the Within and Against the Estate of J. ST. CLAIR WHITE, Deceased. You and each of you are hereby notified and required to present to the Court of the County Judge of Seminole County, Florida, at his office in the court house of said County at Sanford, Florida, within eight calendar months from the time of the first publication of this notice, each claim or demand shall be in writing, and shall state the place of residence and post office address of the claimant and shall be sworn to by the claimant, his agent or attorney, and any such claim or demand not so filed shall be void.

Legal Notice

ADVERTISEMENT FOR BIDS The Board of Public Instruction for Seminole County, Florida, will receive bids for the furnishing of all labor, materials, equipment and services required for the construction of 1959 Additions to the County, Florida, and 1959 Additions to the Oviedo Negro Elementary School, Seminole County, Florida; consisting of two (2) cafeterias, two (2) administrative suites, ten (10) classrooms, one (1) library, toilet, storage, etc.; and some renovation work to existing buildings, until 1960, m. November 1959, at the School Administration Building, Commercial Avenue, Sanford, Florida, at which time and place the bids will be publicly opened and read aloud.

Quotable Quotes

United Press International WASHINGTON — Mrs. Mamie Eisenhower, commenting on a telegram from President Eisenhower extending birthday wishes to a "dear and lifelong friend of mine": "The rascal."

MEXICO CITY — Gen. Daniel Galvan, reporting after a flight over Mexico's storm-stricken region that a landslide had buried the mining town of Minatitlan: "Minatitlan has ceased to exist."

NEW YORK — Vice Adm. Hyman G. Rickover, blaming bureaucratic overadministration for the nation's technological lag in the race with Russia: "We bury the men who do the nation's creative work under layers of administrators and paper mountains of memoranda, records, publicity releases and the like... We shrivel their creativity by endless frustration."

MONTGOMERY, Ala. — Gov. John Patterson, urging Alabama officials not to cooperate with U. S. Civil Rights Commission agents who ask about Negro voter registration: "I resent this interference from Washington."

British Industry Is Expanding

NEW YORK (UPI) — John Bull's industrial muscles are a good bit smaller than Uncle Sam's these days, but they've been growing just as fast and more smoothly over the past decade.

Lead, Zinc Sales Up, Report Claims

NEW YORK (UPI) — With the slump in consuming industries ended, lead and zinc sales are in for a sizable comeback this year, according to Steel Magazine.

The publication estimated that consumption of slab zinc will rise 10 to 20 per cent above last year to hit the highest level since 1956. It said lead consumption is in for a 5 to 10 per cent gain but won't quite stack up to 1957 figures.

Railroads Start Move To End "Featherbedding"

CHICAGO (UPI)—The railroads today handed five big operating brotherhoods proposals for a full overhaul of work rules to wipe out "featherbedding" and strengthen the industry in its battle for economic survival.

Union leaders said counter-proposals would be formulated at meetings of individual brotherhood committees in Chicago starting Nov. 11.

The railroad move, coming close on expiration of a three-year moratorium against work rule changes, signaled the start of what is expected to be long and bitter bargaining.

The specific proposals for rewriting rules governing job assignments and pay methods for 210,000 operating employees — the men who run his trains — were being served today by 113 individual railroads upon local brotherhood officials throughout the nation.

The work rules changes proposed by the railroads would hit hardest at firemen. If eventually put into effect, they would eliminate up to 35,000 firemen's jobs on diesel and other non-steam locomotives in freight and yard service.

Wipe out its arbitrary lines now drawn between the work that may be performed by road crews and yard crews... Eliminate all provisions which stipulate the number of crew members required, and drop rules requiring idle standby operating workers when self-propelled equipment is used.

Brass-tacks at the national level were not expected to get under way here before late November or early December, and ahead stretched a long trek through the procedural forest provided by the Railway Labor Act.

Wage talks involving the railroads and three operating unions — the Brotherhood of Locomotive Engineers, Switchmen's Union of North America and Order of Railway Conductors and Brakemen — are going on in Chicago now under the guidance of the National Railway Mediation Board.

The railroads want to "establish the right... for management to determine when firemen should be used on diesel and other non-steam locomotives in freight and yard service." Fireman jobs on passenger trains would not be affected, the carriers' announcement said.

Other proposed rule changes would: —Revise pay standards so that engine and train crews, which now may receive a basic day's pay for covering 100 miles, could be required to make 160-mile runs. —Open the way for crews to operate through present crew-change points, "so as to end multiple changes on short train runs."

Worry Clinic

Use Dr. Buley as an admirable yardstick for rating good teachers. And don't make the mistake of thinking a Ph. D. automatically means a good teacher. A lot of Ph. D. professors put their students to sleep and create no more vital questions than a dead fish. Read the Rating Scale below.

DR. GEORGE W. CRANE
CASE C — 68: Dr. R. Carlyle Buley is professor of American History at Indiana University.

"And he is an excellent prof." one of his students informed me.

"In the first place, he doesn't use his lectures just to parrot points which is already in the textbooks.

"Instead, he amplifies and illustrates his history lectures with dramatic cases and 'human interest' examples NOT in the text. And he can reduce abstractions to simple terms. He uses clever analogies that clinch his points.

"For example, he recently gave us a very lucid case to illustrate the production, consumption and competition of goods or capital.

"He told the story of a primitive native who spent all day

trying to catch fish for his family. The native averaged one good fish per day.

"That was his usual production. But his family devoured that fish in one day, so their consumption equalled his total production.

"Then he worked overtime on a certain day and managed to catch TWO fish. That gave him an extra day's food supply.

"So he didn't have to go fishing the next day. Meanwhile, he sat around in his new leisure and began to THINK.

"As a result, he evolved the idea of a net. And by weaving bark or wild grape vines together, he fashioned a crude net.

"Next day, when his food supply had run out, he went fishing with his new equipment.

"And now he caught 3 fish, whereas he used to average only one. As a consequence, he had even more time to perfect his net. And soon he made a second net.

"Some of his neighbors now wanted to use the first net, so he rented it to them on the sly.

"They caught 3 fish and gave one of them to the owner of the net for rent.

"It wasn't long till he was in the net-making business. He was a manufacturer and a capitalist.

"Wasn't that a dandy analogy, Dr. Crane? And don't you agree that Dr. Buley typifies a top-notch teacher?"

BRAVO, DR. BULEY
 Yes, I salute Dr. Buley as an example of our finest type of teacher.

For good teachers have a fondness for students and an enthusiasm to convert them into teachers for the course, as they try to dramatize their lectures.

A good teacher is thus a "salesman" of ideas. He doesn't mechanically parrot what is already in the textbook.

Instead, he uses his lectures to emphasize the highlights. And he dramatizes the subject-matter with fascinating stories and new cases.

A good teacher is thus half actor and half artist. And he always exudes enough vital enthusiasm to keep his students awake.

It thus takes far more than a mere Ph. D., to produce a superlative teacher.

In fact, many men with only a B. S. or an A. M. degree are far better teachers than some of the older professors, for they understand the interest of the under-graduates in their classes and can slant the material better.

But a good teacher like Dr. Buley never loses his audience appeal for he follows the sure-fire public speaking formula outlined in tomorrow's case.

Meanwhile, send for the "Text for a Good Teacher," enclosing a stamped return envelope, plus 20c (non-profit). It helps all teachers improve.

Cold Air Hits Eastern U. S.

United Front International Cold air pushed into the United States from Canada today, dropping the mercury about 10 degrees in the eastern third of the country.

The cold front was expected to move far south as Missouri and be felt in Maine, Vermont and New Hampshire.

Rainfall was expected to be sparse and scattered today, with showers from Pennsylvania into northern Maine and snow flurries likely from northern Maine southward across the lower Great Lakes. Some scattered showers were expected in western Texas and the southern plains region.

Elsewhere skies ranged from fair to partly cloudy.

During the night, rain dampened the lower great lakes to the North Atlantic states. A light drizzle fell in western Texas and a few light showers were reported in southern California and southwest Arizona.

Monkeys Grabbing Spotlight On TV Shows

By FRED DANES

NEW YORK (UPI)—This month marks the 100th anniversary of Darwin's "origin of the species," which teased the monkey on mankind's best.

Maybe it is in honor of this occasion that TV is making more use of our primate friends. Or perhaps it's simply a touch of the late Lew Lober's show-business savvy. "Monkeys les de crazier people."

Anyhow, Conquest on CBS-TV came up with a fascinating film report Sunday night showing experiments with monkeys that seem to prove that soft "contact comfort" is the key to infantile mother love. Next, NBC-TV's Ribicoff had Vincent Price using a trained ape to do his pocket-picking. Dennis the Menace on CBS-TV dealt with a TV space show and "L. Pepp," a fully-outfitted space monkey.

Tuesday, Art Linkletter's special featured some monkey shins and next Saturday, Jack Benny's special again will feature the clever Marquis family of trained chimps. The Garry Moore show is using the chimps a little later in the month. Even J. Fred Muggs keeps busy on TV these days, as host of a kiddie show on a New York station.

I'm all for this trend. In fact, the thought occurs that if quiz show producers had used monkeys instead of people as contestants, there probably wouldn't have been so much monkey business in those dear dead days.

"The Milton Berle Show," NBC-TV's Sunday Showcase special, was a filmed situation comedy with an attempted jewel robbery in Las Vegas. The jewelry was

attached to guest star Lucille Ball, who unfortunately wasn't slapstick. Berle, relatively quiet, handled many of his lines in the George Burns manner this time out. But the final minutes of the show, involving a wild wedding scene, were good for real laughs. Except for this bit and Berle's scene with an old-maid at a wishing well, things were unusually quiet.

Dialing and Filing: Dinah Shore's NBC-TV hour, a homage to Paris, offered some superb scenes in color, especially the can-can number. Pantomimist Parcel Marceau, despite some insensitive camera work, performed magnificently. Eddio Constantino, an American performer who found success in France, made his TV debut here and displayed a pleasant voice along with an Erats Chevalier charm. Jack Benny's Charlie Chan-Chinese laundry-restaurant spoof with guest star Jack Webb was successful all the way. Skilled writing and acting, are this much-used premise new sparkle, many laughs.

The Channel Swim: Alan Neuman, whose TV credits include such shows as Wide, Wide World, the NBC-TV opera series, Wisdom and Producers' Showcase, succeeds John Aaron and Jesse

Zoumer as producer of CBS-TV's Friday night show, Person To Person. Neuman intends to tape shows in England and France before the year ends. Also on his agenda: Taped celebrity home visits to Italy and Spain.

Vivica Linders, who quit the cast of "I, Don Quixote," the DuPont Show of the Month on CBS-TV for Moody, Nov. 9, has been replaced by Calleen Dewhurst. Claude Rains, Charles Ruggles

and Kate Smith head the cast in NBC-TV's hour production of Paul Gallico's Christmas fable, "Once Upon A Christmas Time" originally called "The 13th Orphan" set for Wednesday, Dec. 9. The Bing Crosby golf tournament, Pebble Beach, Calif., goes to ABC-TV as a 90-minute show Sunday, Jan. 24. Soviet composer Dmitri Shostakovich will be interviewed on CBS-TV's Face the Nation next Sunday.

Hoffa Starts Fund To Beat Backers Of Labor Bill

DETROIT (UPI) — Teamsters Union Chief James R. Hoffa said today his union will form a political action group aimed at defeating all congressmen who voted for the Landrum-Griffin labor bill.

Hoffa, speaking at a news conference at the opening of the annual meeting of the Central Conference of Teamsters,

Students Demand U. S. Give Up Canal Zone To Panama

BALBOA, Canal Zone (UPI) — Panamanian students demanding the United States give up the Panama Canal Zone injured three U. S. policemen today in a wild, riotous battle.

The American police finally broke up the attack with tear gas and arrested two of the students. They stood by with fire hoses in expectation of a new and bigger onslaught.

The battle raged across a road marking the border between Panamanian and Canal Zone territory. It was near the Panama national assembly building but only one Panamanian patrol car showed up during the early violence.

The rock attack occurred when police refused to let the students carry their demonstration into the Canal Zone itself.

The demonstration was stirred up by former Panamanian Foreign Minister Aquilino Boyd who had called for a "peaceful invasion" of the canal on this Panamanian Independence Day.

Boyd, accompanied by his wife, four young children and a dozen followers, were permitted by American guards to go onto Canal Zone property after they warned him they would stop any trouble he tried to create.

He emphasized his campaign was a peaceful one. On the banks of the canal he made a short speech and said, "We sincerely believe that pretty soon we are going to have the Panamanian flag flying officially over this part of Panamanian territory."

Two Dismissed From FSU Squad

TALLAHASSEE (UPI) — Florida State University Football Coach Perry Moss confirmed today that two players were dismissed from the squad late Monday, a few hours before students hanged Moss in effigy.

However, sports officials said they did not believe the dismissals had any bearing on the student demonstration.

Moss, reached by telephone in Jacksonville, said senior end Jim Hooks of West Palm Beach and senior center Bill Brown of Orlando were knocked off the squad. Both were third-string players.

SOMEBODY'S WET all the time in the VAH-11 refresher course in survival which the unit conducts on a continuing basis. Crewmen get their daily dunking under the supervision of Don Wright, at right, who instructs in handling life rafts, Mae Wests and other survival equipment. They also must swim 440 yards wearing their flight gear. Shown here are, from left, M. K. Karney, J. D. Durbin, J. E. Holbrook, R. E. Jones, E. H. Wartenburg and Wright.

Firemen's Benefit Tomorrow Night

The Sanford Fire Department will hold its second annual benefit show tomorrow at 8 p. m. at the Civic Center. Proceeds from the show will go to the Firemen's Benefit Fund and tickets may be purchased in advance from any firemen or may be bought at the door.

C. P. Bennett is chairman for the event and W. C. Galley is in charge of ticket sales. They said today that the public and merchants are cooperating to make the show a success and urged everyone to attend.

Local talent taking part will include the Gospelairs, headed by Richard P. Robinsons with Leslie Holcomb, Albert Greene and Orin Osborne, Hayden Puprell and the Seminoles Boys also will be featured with Stanley and Clinch Mountain Boys and the Yarborough Quartet of Orlando.

Admission will be \$1.25 for adults and 50 cents for children.

Headon Collision Injures Drivers

A headon collision yesterday between 20th St. and Lake Mary Road injured a Lake Mary teenager, Robert Arthur Day, and Mrs. Muriel Ware Gardner, 711 Palmetto Ave.

Day, 18, in his 1954 vehicle, lost control while passing another car and swerved into the path of the car driven by Mrs. Gardner, smashing its hood and motor, officers said.

Day suffered a bruised and cut knee and Mrs. Gardner was taken to Seminole Memorial hospital for emergency treatment of face and leg cuts, Highway Patrolman J. L. Sikes, who investigated, said.

Readings in the 20s were reported over the lakes, with the 30s extending into Virginia and Kentucky.

A 10 to 15 degree rise in temperatures was recorded over the Midwest, but the weather bureau said another blast of frost would chill Minnesota and western Nebraska during the day.

Snow flurries danced around the northern Great Lakes and the North Atlantic Coast and light showers were reported in northern Washington state, northern Texas and the southern plateau.

Post Office Space Reported Leased

Lease of space as a temporary annex for the Sanford Post Office was reported today.

The office of G. Harold Alexander, state Republican Party chairman, said the real estate director of the Post Office had accepted a three-year lease dated yesterday for property at 118 W. Second St. The announcement said the property is owned by Mr. and Mrs. Orville L. Barks and Mr. and Mrs. Frederick H. Williams.

Postmaster Joel Fields said he had not been advised that the leasing of a site for a temporary postal annex was past the "indefinite stage," but Alexander's announcement said the 3,000-square foot location was accepted yesterday.

HOSPITAL EMPLOYEES have raised more than \$150 for the United Fund and Harry Weir, right, administrator at Seminole Memorial Hospital, handed over the initial check to William Bush Jr., left, chairman of the employe division of the drive and A. B. Peterson Jr., general chairman. The hospital employes have pledged 100 per cent participation in the campaign and the size of their contribution will be larger when the final total is in, Peterson said. (Staff Photo)

Hurry For Parade

All entries for this year's Jaycee sponsored Christmas Parade must be in by Saturday, Jack Wilber, Christmas Parade chairman pointed out today.

The theme of this year's parade will be "Christmas Dreams."

Wilber urged any company or club or other group interested in sponsoring a float to contact him or the Jaycees.

Changes In County's Insurance Suggested

The County Insurance Committee recommended a \$3,000 increase in insurance to the County Commissioners today.

The committee consisting of Clifford McKibbin, Bob Crumley and Robert Karns urged the increase on three major changes, including raising the county's valuation on buildings to \$100,000 and changing the aircraft insurance policy to extended coverage and addition of increased public liability.

The commission is expected to discuss the program more fully and come up with some recommendation.

Snow, Near Freeze Heralds Winter

United Press International — Near-freezing temperatures across the northern United States and snow flurries in New England provided a chilly harbinger of winter today.

Cool Canadian air swept through the lower Great Lakes and the lower Mississippi Valley and eastward to the Atlantic Seaboard Monday night, dropping the mercury 10 to 20 degrees.

Readings in the 20s were reported over the lakes, with the 30s extending into Virginia and Kentucky.

A 10 to 15 degree rise in temperatures was recorded over the Midwest, but the weather bureau said another blast of frost would chill Minnesota and western Nebraska during the day.

Snow flurries danced around the northern Great Lakes and the North Atlantic Coast and light showers were reported in northern Washington state, northern Texas and the southern plateau.

Post Office Space Reported Leased

Lease of space as a temporary annex for the Sanford Post Office was reported today.

The office of G. Harold Alexander, state Republican Party chairman, said the real estate director of the Post Office had accepted a three-year lease dated yesterday for property at 118 W. Second St. The announcement said the property is owned by Mr. and Mrs. Orville L. Barks and Mr. and Mrs. Frederick H. Williams.

Postmaster Joel Fields said he had not been advised that the leasing of a site for a temporary postal annex was past the "indefinite stage," but Alexander's announcement said the 3,000-square foot location was accepted yesterday.

HOSPITAL EMPLOYEES have raised more than \$150 for the United Fund and Harry Weir, right, administrator at Seminole Memorial Hospital, handed over the initial check to William Bush Jr., left, chairman of the employe division of the drive and A. B. Peterson Jr., general chairman. The hospital employes have pledged 100 per cent participation in the campaign and the size of their contribution will be larger when the final total is in, Peterson said. (Staff Photo)

Early County Vote Turnout Is Small

A spot check of County polling places this afternoon indicates light to moderate voting on the reapportionment issue, school millage and trustees.

The heaviest voting was reported at City Hall where some 412 persons have voted in the city commissioner race between Merle Warner and J. H. "Jimmy" Crapps.

Earl Higginbotham also is running for re-election, but he is unopposed.

Other voting places in Sanford, including the National Guard Armory and a polling booth on 28th St. and Sanford Ave., saw moderate to heavy voting.

Election officials estimated that of the county's 12,500 eligible voters, less than 20 per cent will cast ballots before the closing of the polls at 7 p. m.

Outlying areas in the county report voting "light" but expected increased traffic between the hours of 5 and 7 p. m.

All ballots will be canvassed at 10 a. m. tomorrow by Supervisor of Voting Registration Camilla Bruce.

Voting was very light this morning across Florida in the legislative reapportionment referendum. Only in Broward County was the balloting described as heavy and even there it was below expectations.

Voters were deciding whether to add 14 new members to the state Legislature.

Crisp, clear weather and last-minute speeches and debates by leading politicians failed to get citizens to the polls in large numbers. Secretary of State R. A. Gray predicted 800,000 of the state's 1,200,000 eligible voters would cast ballots. But the poor morning turnout indicated the total might be considerably less.

Dade County, which has about a fifth of the state's registered voters, reported "very light" voting with little or no waiting in the election booths.

Similar voter sparsity was reported from other population centers such as Duval, Escambia, Leon, Hillsborough and Pinellas counties.

But the voting was brisk in Broward County, where the anti-amendment foes were among the most outspoken in the state. An estimated 18,000 had voted in the Fort Lauderdale area by noon and voting officials predicted the total would run higher than 80,000 when the polls closed at 7 p. m.

Miami, with more than double the Broward population, had tabulated only about 25,000 votes at 11 a. m. And no more than 100,000 of Dade's 371,000 eligible voters were expected to pull the voting levers. All Dade precincts use voting machines.

A spot check of 30 of Duval County's 129 precincts at 11 a. m. showed that only 80,000 had been cast on the amendment out of 280,000 voters registered in those precincts.

MIAMI BEACH (UPI) — Civil defense leaders from all over the nation take a first-hand look today at the Cape Canaveral missile test center. The missile tour, which will occupy most of the day, was one of the main activities at a three-day fall conference of the civil defense officials.

TALLAHASSEE (UPI) — The Florida Industrial Commission is expected to appeal a court ruling that nullified its broad interpretation of unemployment compensation requirements. Leo Circuit Judge Hugh Taylor ruled Monday that the commission's broadened eligibility requirements were not proper.

JACKSONVILLE (UPI) — Tampa's notorious Trafficante brothers and two co-defendants go on trial here Nov. 16 on charges of conspiring to evade payment of federal wagering taxes. In a notice filed here Monday, U. S. Atty. James L. Guilmarin said he would take action against Henry Trafficante, Santo Trafficante Jr., Joe Perrone and Salvatore J. Lorenzo.

LONDON (UPI) — Princess Margaret is back in circulation and happily so. Monday night she went to see the review "Pieces of Eight" on the arm of one of her old beaux, American-born Billy Wallace, but her most talked-about escort of late has been bachelor farmer Alan Godsal. Margaret seemed to have gone back to a merry whirl of partying, only days after her former affair, Peter Townsend, confirmed his engagement to his Belgian secretary.

Union Calls T-H Injunction Order Unconstitutional

WASHINGTON (UPI) — The United Steelworkers Union urged the Supreme Court today to overturn the back-to-work order against its members on grounds that Taft-Hartley law provisions authorizing such injunctions are unconstitutional.

Union attorney Arthur J. Goldberg made this plea at the opening of oral arguments before the high court on the legality of a lower court order to end the 112-day-old steel walkout.

Goldberg also told the court there is enough steel in this country to insure the nation's health and safety even if the strike continues for the rest of the year.

In issuing the 90-day back-to-work order, Federal Judge Herbert P. Sorensen agreed with President Eisenhower that the walkout jeopardized the national health and safety—the criteria for seeking and issuing an injunction under the Taft-Hartley law's emergency provisions.

Goldberg argued the emergency provisions of the law are unconstitutional because they "confir-

Ringling Circus Quarters Are Sold

SARASOTA (UPI) — Arvida Corp. today announced purchase of the Ringling Bros. Barnum and Bailey Circus winter quarters and an adjacent tract of land for about \$1,600,000.

The circus has had its winter home in Sarasota since 1927 and a circus official said it hoped to keep its winter quarters here.

Milton Weir, president of Arvida, said the 160-acre circus property was purchased for about \$300,000. The adjacent Newburg Estate, a 1,242-acre tract, was bought for some \$1,242,000.

Weir said the land would be used for development of a "medium-priced residential community" of 2,000 homes.

Guest Night Slated

Guest Night will be featured at the meeting of the Seminole Toastmasters to be held tomorrow night at the Mar-Lou restaurant. Each member is asked to bring at least one guest. A special program of entertainment is planned.

Blast Rocks Plant

ORDILL, Ill. (UPI) — An explosion rocked the Olin Mathieson chemical plant here today. There was no immediate report of deaths or injuries, police said. The company has a commercial dynamite operation and does research on rocket propellants. A spokesman at the plant said only that an emergency existed. He refused to give further details.
