

## Hearing Slated In Florida On Citrus Situation

Brannan Is Asked To Allow Shipment Of Unwashed, Unzined

WASHINGTON (AP)—A group of independent Florida citrus growers agreed today to petition Secretary of Agriculture Brannan to call a public hearing in Florida immediately to consider the raising of grades and sizes on citrus for the rest of this season.

WASHINGTON (AP)—A full hearing on the Florida citrus situation may be held in that state soon, it was indicated today.

Harney J. Cohen of Orlando, head of the Florida Independent Citrus Growers Association, and a group of growers were to meet with Secretary of Agriculture Brannan to discuss what Cohen said is a "state of emergency" for the small growers.

Cohen told a luncheon meeting today.

### Legal Notice

IN THE CIRCUIT COURT FOR THE NINTH JUDICIAL CIRCUIT IN AND FOR SEMINOLE COUNTY, FLORIDA, IN CHANCERY

vs. SALVADOR RAMOS, Plaintiff.

vs. SALVADOR RAMOS, Defendant.

NOTICE TO APPEAR

IN THE MATTER OF THE ESTATE OF THE STATE OF FLORIDA.

To: SALVADOR RAMOS, whose residence and address is 1319-A, 14th Avenue, Bronx, New York.

You are hereby ordered to appear and answer in person (or by attorney) to a bill of Complaint filed for sale against you in the Circuit Court of Seminole County, Florida, on or before the 14th day of February, A. D. 1932, same being and file your answer or other defense to the Complaint, will be entered against you for failure to appear and file your answer or other defense as required by law.

WITNESS my hand and official seal this 14th day of January, A. D. 1932.

C. F. HERNDON, Clerk Circuit Court (SEAL).

Dorothy Watson, Attorney for Plaintiff, 210 N. Main St., Orlando, Florida.

of Florida Congress members Monday that "the concentrators and the canners" are attempting to squeeze out the small growers and said immediate relief is needed. Cohen and his group wants Brannan to allow the shipment by truck of mature but unwashed, ungraded and unzined fruit to areas south of the Mason-Dixon line and west of the Mississippi River.

However, Sen. Holland (D.-Fla.) said he did not believe Brannan would or could act without hearing the views of all Florida growers, and suggested that Cohen and his delegation ask Brannan to call for a full hearing in Florida as soon as possible.

The Marketing Agreement was adopted by more than two-thirds of the state's 18,000 growers and it was agreed that unless Brannan arranged the entire Marketing Agreement, it could only be changed by the growers themselves.

Cohen cited low prices now being received by growers who had had letters from truckers willing to pay \$1.50 a box for fruit on the trees.

LAKELAND OR—Florida's Citrus Mutual, after weeks of struggling to keep a price floor under canner oranges, has tossed the thorny problem at the canners themselves.

Whether the canners will hold onto it is the big question in the Florida citrus industry today.

Specifically Mutual asked canners who grow their own fruit, or who get it through co-operatives, to promise to raise their selling price for juice high enough so they can afford to pay the Mutual floor price of \$1 a box.

At the same time Mutual asked canners who buy for cash to promise to pay the floor price, and also to submit daily records of sales "for the purpose of dispelling rumors of cutting prices."

Mutual previously embarked on a campaign to wipe out floor price violations by its own members who must be growers.

Only Mutual members can be held strictly to account for violating the floor price, but the super-co-operative told the canners "it will take your positive action to restore stability. Failure to reply will be an indication that you will not support our program."

The elements of vacuum tubes used in the latest models of hearing aids are of nickel filament wire, only one-tenth as thick as human hair.

## Cotton Growing

(Continued On Page Six)  
growing the cotton is that for every bale produced, 1,000 pounds of seed is derived, and this is valuable not only for replanting more cotton, but fertilizer and cattle feed as well.

Local growers have been taking their cotton to the new gin in Leesburg. If, however, there was sufficient acreage of cotton here, it would pay to erect a local gin, as the expense for this would not be heavy, said Mr. Schmah.

Mr. Breckenridge this morning stated that firms interested in growing the Sealand cotton may obtain further information from Mr. Dawson or from the Chamber of Commerce. The Committee can furnish speakers to outline the cotton growing program and point out its advantages, he added.

Sealand cotton planted in the Sanford area has had the best yield of any planted in the state, according to local growers.

## Florida Crops

(Continued From Page One)  
good in South Florida sections but rainfall lack in dryer localities has affected yield prospects.

Cabbage — Crops generally in good to excellent condition but cooler weather would be beneficial.

Cauliflower — Condition generally good but cool weather would help. Harvesting active in Manatee, Brevard and Sanford-Winter garden sections.

Celery — Maturity in all sections hastened by warm weather. Cooler weather would benefit quality and improve sizes. Harvest rate increased and volume should continue to grow.

Corn — Good rain would greatly improve yield prospects.

Cucumbers — Winter crop ranges from poor to good with prospects for a fair yield. Volume down but should increase as winter acreage comes in.

Explant — Fair to good progress in important Pompano and Ft. Myers sections. Warm weather has caused heavier production during early winter than has occurred for several years.

Endive — Escarole and chery crops have made rapid growth due to warm weather but quality and yields not up to expectations.

Letuce — Weather too warm for best development. Harvesting active in all producing areas but yields below normal. Everglades, Manatee, Brevard, Zalwood, Sanford-Winter garden and Webster sections sources of supply.

Pepper — Weather favorable but rain would be of material benefit. Fort Myers winter crop making fair to good progress. Digging active in Ft. Myers area.

Squash — Fair to good progress. Strawberries — Plant City, Wauchois, Webster and Starke-Lawley section crops in air to good condition. Harvesting active in Central Florida sections with light supplies from North Florida areas.

Tomatoes — Weather favorable but rain lack causing some reduction in yield prospects. Fall harvesting completed in Immokalee section but now active in Dade County fields. Spring plantings in Fort Pierce, Immokalee and Manatee trucking areas generally making favorable progress.

Watermelons — South Florida plantings up and some beginning to run. In Central Florida some planting still being done, no ma-

## Schwa (Correct) Knows No Barriers In Sex Or Politics

By SAUL PETT  
(For Hal Boyle)  
NEW YORK (AP)—How's your schwa?

Oh, come on now. You've got a schwa. Truman has a schwa. So has Eisenhower. Likewise Churchill, Yogi Berra, Sen. Taft, Shirley Temple, Frank Costello. Everybody has a schwa because a schwa knows no barriers of sex, politics, class or geography.

Before you retire in confusion to the sports pages, let it be explained quickly what a schwa is. In a discussion of pronunciation, the Technology Review of the

Henry Witte, Jr., chairman of the party committee, announced that the Melvin Jones birthday party will be held Thursday night Jan. 31 at the Seminole Country Club. President Cecil Carlton stated there will be no meeting of the Lions Club next Tuesday because of the party.

Mr. Carlton urged as many members as possible to attend the joint civic meeting luncheon next Thursday at the First Baptist Church.

Bob McCall was in charge of the afternoon's program.

terial damage reported from Jan 8 and 11 could

## Massachusetts Institute of Technology says:

"Much of the variability in pronunciation of a given word arises from a strong tendency of some English vowel sounds to lose their individuality, and to be replaced by a neutral sound which phoneticians call the 'schwa.'"

You must understand, though, that the schwa is not the phonetic spelling of the sound made. It simply is a name given by the experts to the sound. It could just as easily have been called schmo or schmoo.

So what is a schwa?  
A schwa, says the Technology Review, is the sound "produced by expulsion of breath with the vocal organs in a generally relaxed position" and "decidedly resembles a grunt or groan."

The Technology Review adds: "The schwa occurs frequently in even the most precisely spoken English. For example, the vowels of 'above' can be pronounced in no other way if the reader will say this word aloud, he can satisfy himself that both the A and the O are pronounced with the equivalent of a grunt."

Readers who try this simple test and do not come up with a grunt are earnestly advised to contact M. I. T., not me. I tried it aloud, 16 times without a single grunt or groan. It was the guy next to me who grunted.

Anyway, the Review says, the schwa is replacing more and more vowels in both good and bad English. As a "randon" example, the phrase, "Massachusetts Institute of Technology," was cited.

"When these words are pronounced with utmost formality," the review says, "the schwa oc-

## STOCK MARKET

NEW YORK (AP) The forward drive of the stock market into new high ground continued today, although there was a noticeable slowing down in several major areas.

The stock market Monday hit a new high for more than 21 years with the Associated Press average of 80 stocks at 101.80. That was extended from the start of trading today with the oils and rails in the forefront. Gains ran from fractions to between one

## and two points with a few hours going past that mark.

Standard Oil (N. J.) was heavily traded and up more than a point. Ashland Oil gained around two points on the company's action in declaring a 100 per cent stock dividend. Cities Service added more than two points at times, and high-priced Superior Oil of California was up four at 529 during one period of trading.

The sting of a jellyfish is seldom serious.

Announcing the Golden Anniversary  
Cadillac

...WITH THE FINEST PERFORMANCE OF ALL TIME!

Featuring 3 of Cadillac's Greatest Engineering Achievements!

**THE NEW 190 H. P. CADILLAC ENGINE**  
Now is the most powerful, the most durable, and the most efficient automotive engine ever offered in a Cadillac car. Its power increases alone is about 20%—and its new four-valve carburetor, larger exhaust valves, wider exhaust ports and new dual exhaust system make this engine one of the most dynamic performers of all time.

Fifty years ago, the first Cadillac car made its bow to the public. Today, as a fitting climax to those fifty years of progress, we are presenting in our showrooms the Golden Anniversary Cadillac—by far the finest car ever to bear this distinguished name. . . . It is easily the most beautiful of all Cadillacs. Numerous changes have sharpened and smartened the exterior design—while the wholly-new interiors are a revelation in comfort and luxury. . . . Performance is the finest of all time. The great Cadillac engine has a power increase of almost twenty per cent—and is even smoother and quieter in its operation. . . . There's a new Hydra-Matic Drive that gives the proper power application for every need. As a flick of the finger, you can have extra power and acceleration for city traffic and mountain driving—or wonderfully smooth, quiet, gas-saving performance for the open road. . . . And there's a new "power steering" mechanism, optional at extra cost, which reduces normal steering effort by as much as seventy-five per cent! . . . If ever it could be said of a car's performance that it is "out of this world," it can be said of the performance of the new Cadillac. The Golden Anniversary Cadillac is available in three series—the "Sixty-Two," the "Sixty Special" and the "Seventy-Five." . . . These new creations are now on display in our showrooms—and we invite you to see and inspect them at your earliest convenience.

**THE NEW HYDRA-MATIC DRIVE**  
By introducing an entirely new performance range, Cadillac's Hydra-Matic provides the proper power for every need . . . extra acceleration and responsiveness for city and mountain driving; smooth, quiet, gas-saving performance for the open road. Optional at extra cost on Series 72. Standard equipment on all other models.

**THE NEW CADILLAC POWER STEERING**  
This "power steering" mechanism eliminates as much as seventy-five per cent of all normal steering effort. It provides increased handling ease, and yet does not interfere in any way with the driver's "road feel" or directional control. Available as an option at extra cost.

## DiSalle Quits As OPA Chief To Run in Ohio

### Price Boss To Seek Democratic Nomination For U.S. Senate Against Bricker

WASHINGTON (AP)—Michael V. DiSalle announced today he will quit as price boss to run for the United States Senate in Ohio. DiSalle would seek the Democratic nomination. Sen. Bricker, Republican, comes up for re-election this year.

DiSalle told a news conference today he leaves the office of Price Stabilization will be determined later. He said he might remain for some time, probably until President Truman names a successor.

At the Capitol, Sen. Bricker said he welcomed DiSalle as a prospective opponent. He issued a statement saying:

"I have opposed the consistently excessive spending, the inflation, Communistic and left-wing entanglements of the New Deal, and the program which has brought confusion and war."

"I hope a Truman supporter will be nominated by the Democrats so that the issue will be clear-cut and the result decisive."

"Mr. DiSalle meets these requirements."

There are now two other announced candidates for the Democratic senatorial nomination—Henry Miller Busch, a professor at Western Reserve University, and George L. Mark of Cleveland, national commander of the Polish Legion of American Veterans.

The primary is May 6. The filing deadline for entrants is Feb. 8. DiSalle made the announcement after he had talked with President Truman at the White House for some 20 minutes in an early forenoon conference.

DiSalle had been reported that DiSalle might be offered another high post in the Truman administration. DiSalle himself had insisted it might be at the Cabinet level.

DiSalle also visited the White House. DiSalle was seen with a group of officials in the White House who also serve on the investigating subcommittee, testified before the House Expenditures Committee, which is considering the reorganization plan.

King and Rep. Curtis (R., Neb.), who also serves on the investigating subcommittee, testified before the House Expenditures Committee, which is considering the reorganization plan.

King, in his all-out endorsement of Mr. Truman's plan, called it a "major part of a program to get the government's tax collecting division on a 'blue ribbon' career basis."

DiSalle's resignation was reported to Congress. DiSalle's resignation was reported to Congress. DiSalle's resignation was reported to Congress.

Founders Day Is Harold Hippler Observed Here By Four Pilot Clubs

### Founders Day Is Harold Hippler Observed Here By Four Pilot Clubs

### O. P. Herndon Sneaks Aims And Ideals Of Kiwanians Are Given At Inter-City Meet

A joint meeting of the Sanford, Orlando, Winter Park and DeLand clubs was held in the Yacht Club building at 8:30 p. m. Tuesday night for the purpose of observing Founders Day of the Kiwanis International and past district governor of Florida Kiwanis.

The pilot clubs were introduced by Douglas Stenstrom and by Fred H. Wilson, who pointed out that Mr. Hippler had a perfect 34 year Kiwanis attendance record. Mr. Wilson commended Mr. Hippler for his accomplishments as former president of the Florida League of Kiwanis, and for his leadership in the passage of the tax legislation for the benefit of cities of the state.

Mr. Hippler told of the work of Kiwanis since it was founded 37 years ago in promoting clubwork and business men in having more pleasure and understanding in their work.

"Cut throat competition does not bring happiness," he stated. "You cannot hate men when you are working with them."

One half of the earth is dominated by a vicious oligarchy which seeks to bring to the souls of mankind fear, said Mr. Hippler. He contrasted this state of affairs with the Declaration of Independence, which, he added, brought a new era for mankind.

In addition to the spirit of patriotism, we need a reliance upon a greater power. Without the help of almighty God we as a nation cannot survive," he asserted.

W. W. Day announced that the Kiwanis Club has cancelled its regular meeting at the Yacht Club next Wednesday and will meet Thursday instead with other clubs at 11:15 o'clock at McKinley Hall in order to hear a talk by the Rev. John White, pastor of the Baptist Church, on "The Moral Crisis."

Edward E. Lane introduced the new chaplain from the Naval Air Station, Lt. John M. Danielson, who in turn revealed that he will serve the Station for the next two years.

Guest speakers were E. E. Miller, Milton, Ohio; David Dancy, Orlando; George Kauer, Bristol, Conn.; H. Stuckland, Daytona Beach; Fred Beard, Raleigh, N. C.; and Edward McKinley, II, of the key club.

Debate on the small attendance of members at the meeting of the club, with some selections and played for the visiting pilots to sing "Happy Birthdays" to the Sanford club.

All charter members and past members of the club.

### Blood Clinic For Armed Forces Is Set Tomorrow

Volunteers who will assist in the Armed Forces blood clinic at the Episcopal Parish House were briefed on details of blood donations by Red Cross Field Representative Division E. Perrean at a meeting at the Garden Center at which Mrs. Clara Glenn, service group chairman, presided.

Attending the meeting were Mrs. W. A. Hunter, Mrs. J. P. Thurmond, Mrs. Frank Dutton, Mrs. Lucille Hefka, Mrs. Joe Axzarello, Mrs. Edward F. Lane, Mrs. Volie Williams, Mrs. Mrs. J. C. Hutchison, Mrs. C. L. Willis, Mrs. L. F. Boyle, Mrs. William Bush, Jr., Mrs. Sam Levy, Mrs. O. L. Barkis, Mrs. Herman Jacobson, Mrs. Ralph Wright, Mrs. Roy Hottler, Mrs. Charles Lawson, Mrs. Clifford Boyce, Mrs. Earl Wilkinson, Mrs. Robert Brown, Miss Irene Hinton and Mrs. Velma Gunnard and Cross Chapter executive secretary.

This afternoon a group of nurses and nurses aides were scheduled to receive further instruction in the program at a meeting at the Central Florida Blood Bank, Orlando.

Gordon Frederick, chapter fund campaign chairman for 1952, and Mrs. G. G. Gables, attended a regional meeting of the Red Cross Monday at Ocala.

### ROTCURS COURSE

The ROTCurs Training Course on organization and leadership will be held at McKinley Hall, Thursday night, at 7:30 o'clock. All students and interested persons urged to attend.

## Russia Quoted As 1st Cavalry Is Pledging Mid-East Withdrawn From Aid Against West Korea To Japan

### 3 Policemen Killed In Fresh Outbreak Of Riots In Tunis

### 3 Policemen Killed In Fresh Outbreak Of Riots In Tunis

CAIRO, Egypt (AP)—An Egyptian newspaper correspondent reported today that Soviet Foreign Minister Andrei Vishinsky told his Russian ally that all Middle Eastern people "to free themselves of Western economic domination."

The statement was published by Al Mizar, a pro-government paper believed to have the largest circulation in the Arab world. It said Vishinsky gave his views in his correspondent in a Paris interview.

"The unity of Middle Eastern peoples and their combined efforts are the obstacles halting Western military preparations to turn these countries into bases of aggression," he said.

"These people must say 'no' to all those who wish to make cannon fodder of them and try to make of them 'military equipment' by means of which they can reach their aim of dominating the world."

"The struggle of the peoples of North Africa and the Middle East, whether in Egypt or Iran or elsewhere, to win their freedom has begun to shake the foundations of Western domination," he said.

Vishinsky's statement followed a luncheon given in Paris last Saturday by Abdul Rahman Azam Paasha, secretary general of the Arab League, for Vishinsky and Jacob Malik, Soviet U. N. delegate.

The independent newspaper Akher Lahnah held the British Foreign Office was feeling "anxiety" over these Russian-Arab contacts.

Al Mizar said Paris political circles believe Assam Paasha's luncheon, which also was attended by Egyptian Foreign Minister Mohamed Salah el Din Faris, was "a new step to draw Moscow and Cairo closer together in a semi-official way."

Assam and Salah el Din, the paper said, "do not hide their desires to improve political relations" (Continued on Page 2)

## Demands Growing For Removal Of Newark Air Base

### Loss Of 84 Lives In One Month Adds Weight To Appeal

ELIZABETH, N. J., Jan. 26.—Rapid-fire investigators, sparked by civic activists, were in Newark today, from a national level to determine the cause of the second major airplane crash here in 36 days.

Investigators refused to speculate on what caused a Lockheed Constellation passenger plane with 23 aboard to plummet into a residential area Tuesday afternoon, just minutes from a landing at Newark Airport.

The crash of two big airliners in the middle of this industrial city in a little more than a month with a combined death toll of 84 brought demand today that Newark Airport be moved to some less populated area.

Events eight persons, including former Secretary of War Robert G. Patterson, died in the flaming wreckage of a Lockheed Constellation passenger plane that plunged into a residential area Tuesday.

The Constellation, a Lockheed Constellation passenger plane, was flying from Newark to Baltimore. It was carrying 23 passengers and 5 crew members.

The plane crashed into a residential area, killing 84 people.

The crash occurred on Dec. 16, 1951, at 10:10 a. m.

The plane was flying from Newark to Baltimore. It was carrying 23 passengers and 5 crew members.

## Armed Forces Blood Clinic Display

Display at a wounded soldier and attendant in the window of the R. L. Perkins and Son Men's Store was set up by Al Wallace and A. H. Peterson, Jr., of the Red Cross Chapter, in order to remind citizens of the need of volunteering for blood donations for the armed forces to be made at the clinic tomorrow.

## Missouri Democrat Says Truman Plans To Run For Re-Election

### Founders Day Is Harold Hippler Observed Here By Four Pilot Clubs

### Founders Day Is Harold Hippler Observed Here By Four Pilot Clubs

### O. P. Herndon Sneaks Aims And Ideals Of Kiwanians Are Given At Inter-City Meet

A joint meeting of the Sanford, Orlando, Winter Park and DeLand clubs was held in the Yacht Club building at 8:30 p. m. Tuesday night for the purpose of observing Founders Day of the Kiwanis International and past district governor of Florida Kiwanis.

The pilot clubs were introduced by Douglas Stenstrom and by Fred H. Wilson, who pointed out that Mr. Hippler had a perfect 34 year Kiwanis attendance record. Mr. Wilson commended Mr. Hippler for his accomplishments as former president of the Florida League of Kiwanis, and for his leadership in the passage of the tax legislation for the benefit of cities of the state.

Mr. Hippler told of the work of Kiwanis since it was founded 37 years ago in promoting clubwork and business men in having more pleasure and understanding in their work.

"Cut throat competition does not bring happiness," he stated. "You cannot hate men when you are working with them."

One half of the earth is dominated by a vicious oligarchy which seeks to bring to the souls of mankind fear, said Mr. Hippler. He contrasted this state of affairs with the Declaration of Independence, which, he added, brought a new era for mankind.

In addition to the spirit of patriotism, we need a reliance upon a greater power. Without the help of almighty God we as a nation cannot survive," he asserted.

W. W. Day announced that the Kiwanis Club has cancelled its regular meeting at the Yacht Club next Wednesday and will meet Thursday instead with other clubs at 11:15 o'clock at McKinley Hall in order to hear a talk by the Rev. John White, pastor of the Baptist Church, on "The Moral Crisis."

Edward E. Lane introduced the new chaplain from the Naval Air Station, Lt. John M. Danielson, who in turn revealed that he will serve the Station for the next two years.

Guest speakers were E. E. Miller, Milton, Ohio; David Dancy, Orlando; George Kauer, Bristol, Conn.; H. Stuckland, Daytona Beach; Fred Beard, Raleigh, N. C.; and Edward McKinley, II, of the key club.

Debate on the small attendance of members at the meeting of the club, with some selections and played for the visiting pilots to sing "Happy Birthdays" to the Sanford club.

All charter members and past members of the club.

### Blood Clinic For Armed Forces Is Set Tomorrow

Volunteers who will assist in the Armed Forces blood clinic at the Episcopal Parish House were briefed on details of blood donations by Red Cross Field Representative Division E. Perrean at a meeting at the Garden Center at which Mrs. Clara Glenn, service group chairman, presided.

### Bad Publicity For Florida Is Outset By Favorable News

TALLAHASSEE — The bad publicity Florida got in the North for its wave of bombings last month was more than offset by a big volume of favorable newspaper and radio comment on other matters, the head of the state advertising program said today.

Director Heverly Grizzard of the Advertising Commission said he had received many expressions of concern over the effect "that these deplorable acts may have upon Florida's good name," and whether they would wipe out the benefits gained from the advertising program.

"It has hurt," he declared, "but it hasn't hurt as much as it would have if there hadn't been a coincidental surge of Florida publicity pictures and stories in out-of-state newspapers and national radio programs.

The great majority of the nation's press gave only a factual report of these unfortunate happen-

ings, as they normally do about daily incidents all over the country," he said. "There were actually comparatively few instances of distortion and over-emphasis and these cases were confined largely to publications with limited influence."

He said during the same period that "this negative information was being carried by the nation's press, there was the greatest campaign of positive favorable information about Florida being given to the people of the nation that we have ever known."

Grizzard said the Advertising Commission during December and January "is carrying the favorable Florida story to over 65,882,000 people in 22 national magazines and 56 metropolitan newspapers."

He exhibited stacks of recent northern newspaper and magazine clippings on such varied subjects as Florida recreation attractions, art exhibits, beach erosion control efforts, the cattle industry, sponge fishing and oyster treasure hunting.

He said the effectiveness of the advertising and publicity program is demonstrated by the fact that the commission now is receiving the greatest volume of inquiries in its history and that transportation companies Tuesday reported the flow of passengers to Florida ranges from 8 to 30 per cent heavier than in the corresponding period a year ago.

### Race Track Beaten By Baptist Preacher

MEMPHIS, Tenn. — A Baptist preacher, who organized an all-night prayer meeting to plead for defeat of a proposal to build a race track near here, said victory was due to "a combination of many working against evil."

Dr. H. Paul Caudill, pastor of First Baptist Church, said the Anti-Race Track League's decision over Dixie Downs, Inc. in a special Crittenden County referendum Tuesday was a "moral and spiritual victory that will be talked of from coast to coast."

Other ministers voiced fervent amens when final results of the referendum were announced Tuesday night.

Dr. H. T. Wood, pastor of Linden Avenue Christian Church, said the race track's defeat was "one of the finest things that ever happened to this section of the country."

He said he was confident the fight led by ministers in West Memphis, Ark., would inspire similar moves in other parts of the nation and "might well be just what this country needs in its fight against corruption and evil."

The fight was "one of the finest things that ever happened to this section of the country."

# SCHOOL...and a HERALD ROUTE

Work Together  
TO FIT HIM FOR  
A  
SUCCESSFUL CAREER

The benefits of both formal schooling PLUS actual business experience acquired as a Herald Carrier-Salesman are excellent assurances that a successful career in the adult business world will follow.

Handling a Herald route is a contract between the boys and the Sanford Herald... he buys his newspapers just as every merchant buys the merchandise he sells (at wholesale rates)... he resells them to subscribers at retail rates... the difference is his profit as a young independent merchant.

Important, too, is the money he makes and saves from his Herald newspaper route efforts -- it comes in mighty handy for school books, sports, hobbies, and the good times every teenager craves! Often such savings enable an ambitious boy to complete high school... to go on to the college of his choice.

Ask the Sanford Herald Circulation Department to put your son's name on the route application list for the next carrier-salesman opening in your vicinity — phone 146.

### Battle Casualties Reported At 104,644

WASHINGTON (AP)—Announced U. S. battle casualties in Korea reached 104,644 today, an increase of 261 since last week. The Defense Department's weekly summary based on notifications to families through last Friday reported these new totals:

Killed in action	16,151
Wounded	75,819
Missing	12,674
Battle deaths (X)	18,049
Current missing (Y)	10,919

(X) Includes killed in action, 1,700 fatally wounded and 190 dead, originally reported missing.

(Y) After deducting from gross total 1,381 returned, 174 known captured and 100 known dead. Following is a breakdown of the casualties by service:

Army	83,835
Navy	1,203
Air Force	981
Marine Corps	15,622

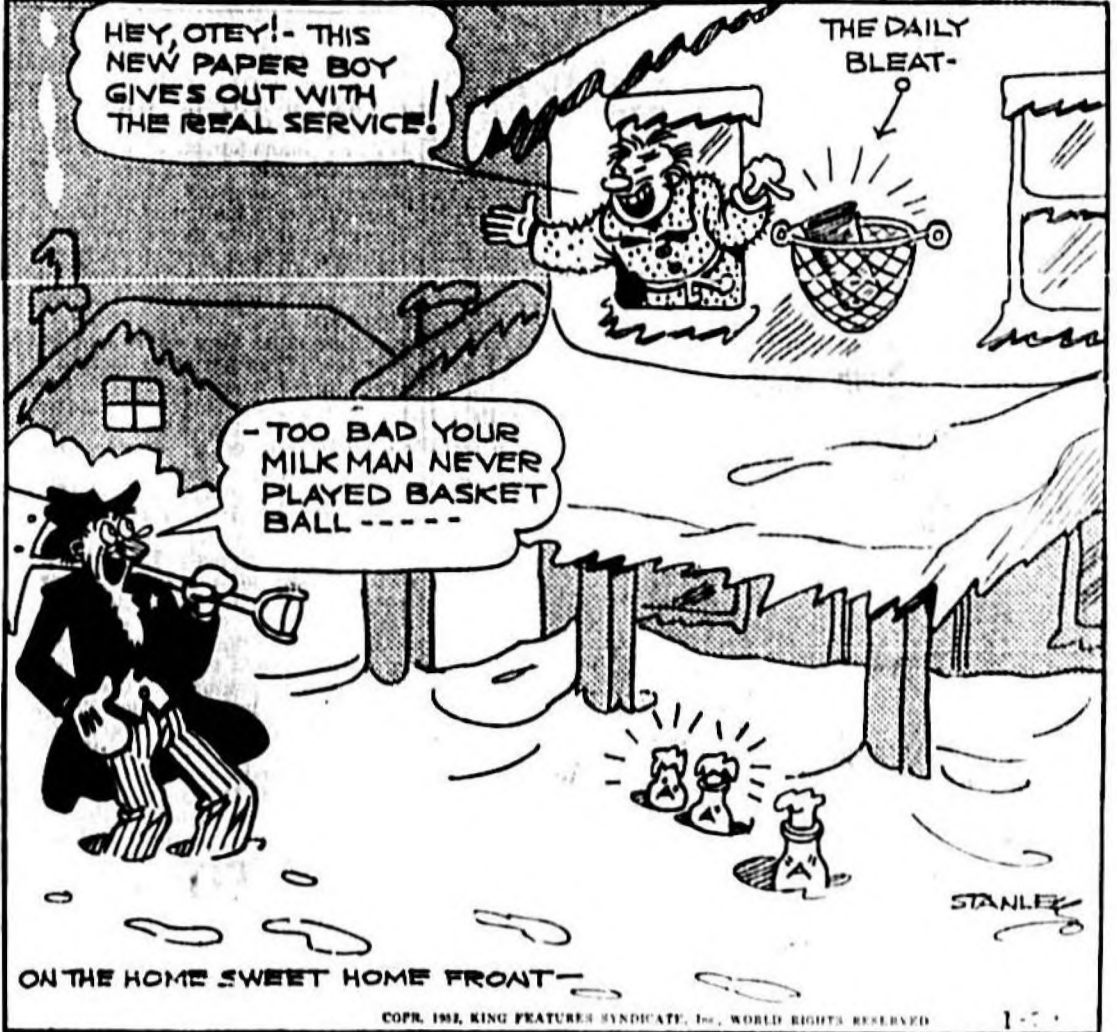

### Man Is Held On Suspicion Of Murder

BERNE, Switzerland (AP)—Swiss federal police said today they are holding a man, believed to be a Romanian, in connection with the mysterious death of Capt. Eugene Karpe, former U. S. Naval attaché in Bucharest. Karpe fell or was pushed from a train in Austria Feb. 24, 1950.

The death of the naval officer, a close friend of Robert Vogler, U. S. businessman imprisoned by Hungary and released after 17 months, has never been explained. He was on his way to the United States after serving three years in the Bucharest diplomatic post. Vogler believes Karpe's death was connected with his own case.

Karpe's mangled body was found by a track walker in a tunnel south of Salzburg in the American

### Korean War Saga Will Be Told To Chain Of Missions' Group

A woman, whose husband was in Kaesong when the North Koreans attacked and has not been heard from since, will report on the Korean War on the Chain of Missions platform next week from an intimate knowledge of it, both when it started and since its devastation.

Mrs. "Kris" Jensen, herself, fled from Seoul before the invaders, carrying what she could pack in forty minutes in two small bags for herself and her sick friend. She says: "I picked two books from the top of Kris' desk, just to have something of his with me."

She tells of riding in a Jeep along darkened roadways, and being passed from one spot to another, changing conveyances each time, going without food until they reached Inchon and got aboard a Norwegian vessel which had just been cleared of its fertilizer cargo to take them aboard. And during the trip hard rains forced them all to go below.

She eventually reached Japan and was cared for first by the army and then the church.

When Mrs. Jensen comes to Sanford on the Chain of Missions Assembly which will be held in the First Presbyterian Church, from Tuesday night, Jan. 29, through Wednesday night, Jan. 30 she will also report on her extended trip back to Korea last summer.

She spent the month of June there with special permission from the military to observe the work of the Christian churches, the condition of the refugees, and the care of prisoners-of-war. On her military permit, Mrs. Jensen traveled from Pusan in the south end almost to the 38th parallel, talking with chaplains, United Nations officials, military personnel, and Korean refugees.

She visited a prisoner-of-war camp and hospital and observed that soldiers from the north were suffering from malnutrition when captured, adding that they are getting good treatment in hospitals and POW camps.

"South Koreans are not complaining about the destruction of their country," Mrs. Jensen says, "because they are willing to make any sacrifice for freedom."

"The Christian church, she continues, "is flourishing beyond anything I have seen in my 25 years in Korea. Korean Christians do not wander around and wonder what to do. They organize into community groups wherever possible, holding some prayer services daily, and organize schools with clothing but pupils . . . They meet on a hillside if it isn't raining."

Best food and clothing have saved the lives of many Koreans, Mrs. Jensen says, but she warns against sending goods to missionaries with APO addresses as it is against military regulations. She urges participation in relief programs of Church World Service, the Methodist Committee for Overseas Relief, ARK (American Relief for Korea) and the United Nations.

Mrs. Jensen found her Seoul residence still standing and only slightly damaged in comparison with other buildings in the area. Everything in the house had been looted, however, including the doors which were used to carry off the spoils. She picked a bullet out of the living room wall. Lites and bleeding hearts were blooming in the yard.

Mrs. Jensen will speak at 11:15 Wednesday morning at the First Presbyterian Church and at a noon luncheon in the Educational Building of the First Baptist Church.

Temperatures in Madrid, Spain, sometimes shift 50 degrees in a single day.

Mrs. Jensen will speak at 11:15 Wednesday morning at the First Presbyterian Church and at a noon luncheon in the Educational Building of the First Baptist Church.

### Colder Weather Is Expected In Florida

LAKELAND (AP)—Temperatures around the freezing point Thursday morning in the upper part of the Gainesville District were forecast today by the Federal - State Frost Warning Service.

The weather will be slightly colder Thursday night in Peninsular Florida, the morning bulletin said.

The forecast:

Tonight and Thursday morning Clearing and much colder Northern Districts with lowest temperatures occurring about 7:30 a. m.

Gainesville District, 31 to 35 degrees north portion, 33 to 37 south portion with scattered frost.

Upper East Coast District, 34 to 38 degrees with patches of light frost in north portion. Cloudy and turning colder Southern Districts.

Forecast for Thursday - Fair and rather cold North and Central Districts. Mostly cloudy and cooler Southern Districts.

Future temperature outlook: Slightly colder Thursday night, indications of frost in Northern and possibly Central Districts Friday morning.

# For Outperforming all other American Cars...

In the Grinding Tests that Won it the Motor Trend Magazine Award, Chrysler proved itself the Best Engineered Car in America

**CHRYSLER SURPASSED ALL OTHERS WHEN MOTOR TREND TESTED FOR:**

- Average Braking Distance in Feet
- Ten Miles per Gallon
- Average Acceleration in Seconds
- Acceleration Over Standing 1/4 Mile in Seconds
- Average Top Speed in M.P.H.
- Minimum Road Noise Power
- Pounds per Road Horsepower
- Maximum Torque in Lbs.-ft.
- Maximum Brake Mean Effective Pressure
- Best in Total Points

15 different American stock automobiles—equipped as you buy them—were driven by Motor Trend Magazine as hard as steel and rubber can be driven. In these actual road tests of efficiency and performance, measured by the most accurate instruments obtainable, Chrysler proved itself superior to all others. In 13 tests Chrysler was first in 7—tied in 2, making a total of 9 out of 13 . . . and first in total points!

Only by taking an engine to the limit of its potential, only by turning the corners at high speeds, applying brakes for emergency stops, torturing body, springs and shock absorbers, can you learn just what performance you can expect from the make of car you drive. Results of the Motor Trend tests were conclusive . . . as Chrysler, again, proved itself the one best car in America.

The Motor Trend Award, like the numerous other honors today's Chrysler has won, is both a proof of and a tribute to Chrysler's magnificent FirePower engine and master engineering. Each demonstrates why, among men and women who know automobiles . . . Chrysler is always the first choice.

WEDNESDAY, JAN. 23, 1952  
TODAY'S BIRTH VERSE

Religion is for the strong as  
well as the weak. It is an courage  
to the weak and makes the strong.  
Only be thou strong and very  
courageous.—Jas. 1:7.

Not many local candidates have  
announced for public office yet,  
but underneath the political pot  
is boiling.

If you have not already been  
contacted for your Chamber of  
Commerce dues, why not mail  
your check at once? Why make  
it necessary for someone to call  
on you?

The American people set a  
new record in savings during the  
third quarter of last year, ac-  
cording to the Secretary of the  
Treasury who reveals that nearly  
15 billion dollars went into  
savings bonds, bank deposits, in-  
surance policies, payments on  
mortgages and other debts and  
similar investments. It may be  
that the American people are  
recovering some of their time-  
honored virtue of thriftiness.

Roger Babson, who is some-  
what of an authority on pre-  
dictions, believes there will be peace  
for a long time to come, if war  
doesn't break out in 1952. That  
is a pretty big if, but we hope not  
too big to be upset. However,  
there is certainly no assurance  
that no war in 1952 means no  
war in '53, '54, or '55. We are  
rather inclined to the view that  
we are in for a period of un-  
certainty, international tension  
and rumors of war, even if no  
war, for a long time to come.

President Truman is making  
signs that he may run for re-  
election. "I never quit under fire  
or run away from anything," he  
is quoted as saying. A most com-  
mendable observation. Those who  
remember the 1948 campaign know  
that he is a fighter. Unfortu-  
nately, it takes something more  
than that to make a good Presi-  
dent. He probably means that he  
will run again if Taft is the  
Republican nominee, will  
withdraw in favor of Vinson or  
someone if General Eisenhower  
is named by the G.O.P.

Cheers for Governor Hugh  
White of Mississippi, who says his  
state will not be tied to the tail  
which tries to wag the Democratic  
Party. If the Democratic Party,  
always the bulwark of states  
rights, cannot stick to states  
rights, then Mississippi will bolt  
the party. Thus the banner carried  
so valiantly by Governor Fielding  
Wright four years ago is now  
being carried by the new Govern-  
or or Hugh White and let no one  
think for a moment that any  
other action on the part of any  
other political leader in Missis-  
sippi would be possible.

It comes as no great sur-  
prise to learn that Senator Holland  
will seek re-election to the United  
States Senate. So far he has no  
opposition, though rumors persist  
that old perennial campaigner  
Claude Pepper is about to toss  
him into the ring. But Holland  
will be hard to beat by Pepper  
or anyone else. He has an un-  
blemished record in Florida poli-  
tics from the time he ran for  
prosecuting attorney in his home  
county of Polk, through the  
office of state senator, war time  
governor of Florida, and six years  
in the Senate. May he have many  
more years of public service.

One Schmah, west side farmer,  
comes up with an idea which may  
solve the solution for one of  
Sanford's most vexatious economic  
problems. He suggests cotton  
growing — long staple Sea-  
land type of cotton growing — during  
the summer months, as a cure for  
Sanford's summer unemployment  
problem, as a panacea for the  
cotton which habitually plagues  
the city during those hot days.

Sanford has a large scale  
cotton plantation, and it is  
possible that the cotton which  
habitually plagues the city  
during those hot days is the  
cotton which is raised on the  
plantation.

### Bigger Carriers

The idea of a new aircraft carrier of greatly increased size is still being developed by the Navy, it is announced by Secretary Dan Kimball. One carrier of sixty thousand tons, a third larger than the biggest present one, is under contract and the Navy has in mind ordering one such each year for ten years. Details are sparse, but apparently the new ship will be capable of providing take-off and landing space for bombers of considerable size.

The operation of small planes from floating bases became commonplace in World War II, in which carriers played a very significant part. But it is still only a decade since a little group of fliers under Lt. Gen. James H. Doolittle made startling military history by taking loaded medium bombers, light planes by today's standards, into the air from carriers to bomb Tokyo. In the next great war, if there is one, sorties by heavy bombers launched from carriers might be as common as fighter and reconnaissance flights were in the last war.

The big new supercarrier is an effective reminder of the fact that war continuously becomes more highly developed and more all-embracing. There will not be any bit of land or water anywhere which will be dependably safe from attack if the third world war should occur.

### Visions Of The Future

Movie makers have recognized the potential appeal of Jules Verne's "20,000 Leagues Under the Sea," which is to be filmed in color. This story of a large submarine which ranged the world's oceans at will must have seemed a fantastic work of imagination in 1870, when it was first published. Now it surprises no one.

So too the Frenchman's "Around the World in 80 Days," utterly improbable when it was written, has long been surpassed by the progress of invention. Willey Post circled the globe in eight days, and now it could be done even faster. There remains his "Journey to the Moon." No one has made such a trip yet, but the development of the rocket indicates that the time may not be as distant as it seemed a few years ago.

Jules Verne's success as a prophet will probably be cited to prove the likelihood of some of the fantastic developments depicted by the modern writers of so-called science fiction. Perhaps their realization is fated for some other generation, as was the fulfillment of Verne's prophecies.

### Indian Defense Workers

The government has set up a program to train Indians of the Navajo and Hopi tribes of Arizona and New Mexico in trades essential to the defense effort. The Indians will be trained on their own reservations through the collaboration of the Bureau of Indian Affairs, the New Mexico and Arizona State Federations of Labor, and councils of the two tribes. When training is completed they will take their places beside other skilled workers off the reservations.

There has been a great deal of talk of programs designed to assist those American Indians who have grown impoverished on the reservations. The idea of training these Indians for work in defense industries may serve two purposes. Skilled men may be provided to fill vital jobs, and the money they earn may help them to return to the independence which is such a strong part of their tradition.

The courage and stamina of the Indians who fought in the armed forces during World War II is something of which all Americans can be proud. Perhaps they can now make an equally vital contribution as craftsmen building our defenses.

### U. S. Is Determined To Exhaust All Means Of Agreement In Korea

WASHINGTON (AP) — Officials said today that the United States and its allies are determined to exhaust every reasonable means of obtaining an agreement on an armistice in the Korean truce negotiations.

They expressed hope that the present prolonged deadlocks over the airfield and prisoner of war issues eventually will be resolved. They said they definitely would be if the Reds sincerely want to end the Korean fighting.

These authorities conceded that the negotiations which began more than six months ago may drag on for many more weeks.

Secretary of State Acheson is understood to have told the Senate Foreign Relations Committee recently that the number of concessions made by the Communists to date gives some basis for hope they will be reasonable on pending issues.

Concessions of importance which the Reds so far have made are these:  
1. They yielded on their original demand for withdrawal of all foreign troops; should be the basic condition of an armistice.  
2. They gave up their insistence that the armistice line should be centered exactly on the 38th Parallel. (The United Nations position is that the armistice line should follow the battle line at the time the armistice is made.)  
3. They dropped their insistence on the right to bring up reinforcements during an armistice.  
4. They opposed rotation of forces, finally accepted it.  
5. They objected to the principle of inspection of forces on both sides to guard against a truce violation or buildup, but finally accepted a U. N. proposal for non-combatant truce teams.  
Informants said the United Nations has nothing to lose and may have a great deal to gain by a truce team which would be able to see and hear a defense line suitable for keeping them out.

A second reason is that the present winter weather in Korea makes an offensive by either side almost impossible for many weeks.  
A third reason is that, for the

time being at least, the United Nations countries actually involved in the fight, including the United States, have committed all the forces which under present policy they are willing to send to the battle.

**CARLEEN TO SEA**  
NEW YORK (AP) — Capt. Kurt Carleen may return to the sea with the best wishes of the head of a Coast Guard board of inquiry which investigated the sinking of the freighter Flying Enterprise.  
Capt. Lewis Shackelford, presiding officer at the inquiry, told Carleen Tuesday he realized what he had been through and hoped his ordeal will not be repeated.  
Shackelford added:  
"Go back to the sea with my best wishes."

**DELANEY CONVICTED**  
BOSTON (AP) — A federal jury Tuesday night convicted Denis W. Delaney, ousted Massachusetts collector of internal revenue, on charges of fraud and conspiracy. He was fined \$100,000 in tax liens.  
The jury of 11 men and one woman deliberated nine hours and 15 minutes before finding Delaney guilty of all six counts of two indictments.  
Judge Charles E. Wyasaki Jr., showed Delaney to remain free on \$2,500 bail pending his sentencing some time next week.  
The 55-year-old Delaney faces maximum penalties of 15 years imprisonment and fines of \$7,500, and minimum penalties of six months imprisonment.

**ELABORATE EXPANSION**  
TAMPA (AP) — The Tampa Electric Co. will spend \$100,000,000 to expand its power plant, President Frank J. Gosson announced today.

### CAMPBELL'S CABINETS

W. H. CAMPBELL, INC., 1111 S. W. 8th St., Miami, Fla.

### Signs Pointing To Conflict At Meet Of Citrus Mutual

LAKELAND (AP) — Florida Citrus Mutual may have to make some guarantees of its own to get from canners the requested commitments to support Mutual's endangered floor price.

There are signs that Mutual directors may have a rough time at their open session this afternoon. The executive and advisory committees met this morning to consider the request for support from canners, but results are not expected to be disclosed until the afternoon meeting.  
J. Adams Bruce, Tampa canner, said he wouldn't answer Mutual until the super-operative answered 170 searching questions about its operations and plans—including what guarantee against losses Mutual would give if Bruce raised his prices to support the floor.

Charles Mann of Lakeland said his firm would be glad to support Mutual if all canners did likewise, but he warned that Northern buyers are predicting even lower prices.

Last fall Mutual, whose principal aim is to stabilize prices at a level giving a fair profit to all segments of the industry, set a minimum of \$1 a crate for oranges and \$1.25 a dozen 46-ounce cans.  
Despite slow sales that price or higher held out about two weeks ago when resistance by Northern buyers caused Florida canners to cut the price to \$1.75.

Although only growers can be Mutual members and directly responsible for upholding the floor price, Mutual on Monday sent telegrams to all Florida canners saying the program could not be maintained without their support.

Mutual asked the canners for commitments to raise their selling price to \$2.10 or higher.

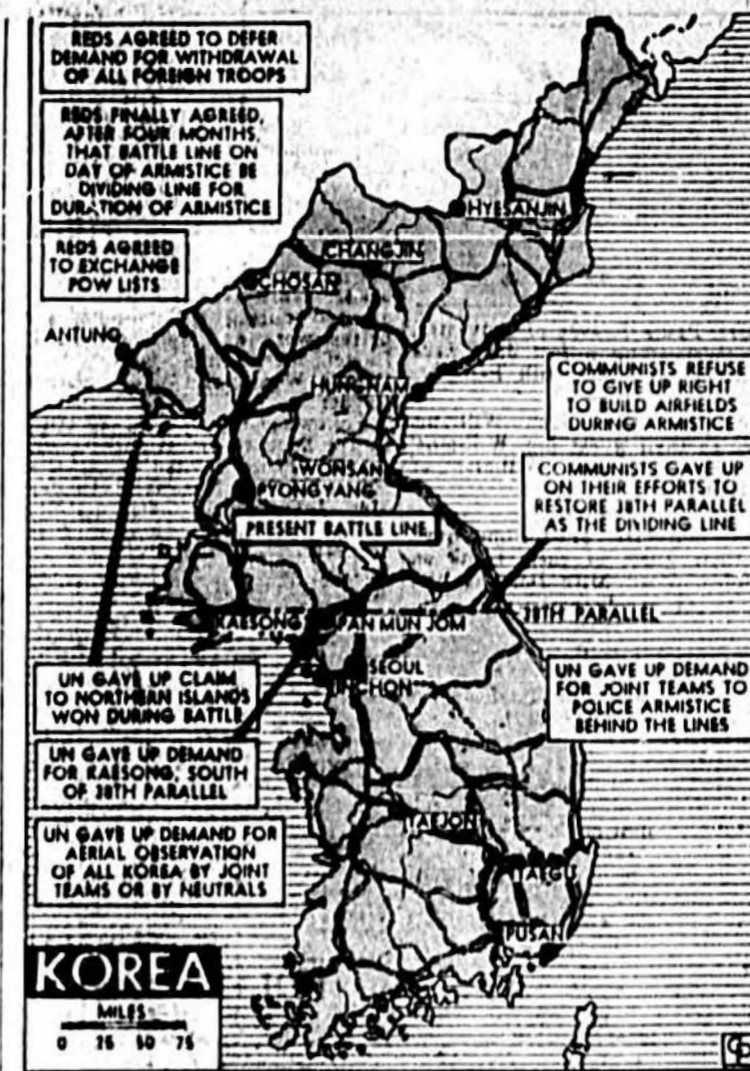

It also asked canners to buy for cash or to promise to pay the floor price and to submit daily records to show they were doing so.  
This brought from Bruce a demand that Mutual show the price received by growers who sell through cooperatives. He also asked Mutual to prove the economic need for a \$1 floor price, what Mutual had done to punish floor price violators and why it proposed to do about future violations.

Bruce said he and others had warned Mutual early in the season that the \$1 floor could not be justified by growers who sell price last season was \$1.75 and it was not businesslike to expect to move large quantities of juice this season by starting off at a price higher than last season's.  
Mann said his Northern sales representative suggested buyers, far from being willing to pay \$2.10, are waiting for a dip to \$1.65.

**SHIP CAPTIVEZ**  
NAPLES, Italy (AP) — A 400-ton motorship captived during a launching ceremony today, forcing 90 persons to jump overboard into the Bay of Naples.  
The 90 were rescued by small boats. A few workmen were injured but none seriously. The ship had just been christened Pio Oriano Cammillo.

**CAR HIT BY TRAIN**  
MIAMI (AP) — Martin Vergaria, 55, of North Miami, mistook railroad tracks for a roadway early today, North Miami police said.  
He drove down the "street" until his car got stuck between the railroad ties and ran just about that time, southbound freight train loomed in the distance.  
Vergaria jumped out and watched the freight train grind his car to bits. Police said he was lucky to be alive and did not plan to file any charges.

Capital invested per employee in petroleum is nearly 10 times the average for all manufacturing.

MAP CHARTS the principal points of agreement and disagreement in the wrangling at Kaesong and Panmunjom since last July. Now, after half a year, U.N.-Communist negotiators are still deadlocked on many issues although compromise on numerous points has brought the armistice talks a long way forward on the road to peace. (Central Press)

### Senator Taft To Speak In Orlando

ORLANDO (Special) — This city is preparing for the largest Republican Rally in its history when Senator Robert A. Taft speaks on Monday, Jan. 28, at the City Auditorium. The Senator will appear as part of the Republican National Committee's efforts to break the solid South this fall and in the interest of his campaign for the Republican Presidential nomination.  
The appearance of "Mr. Republican" will be the occasion for a gathering of Republicans from all over the State for this, his

formal appearance of his tour. Mr. Taft will arrive with his party from a brief pair of appearances at Tampa and St. Petersburg.

Plans for the evening include an old-fashioned political fund concert by the local V.F.W. band before the talk of Senator Taft, and many people of both parties are expected to gather and pay tribute to this great Republican leader.

His appearance is under the sponsorship of the Republican State and Orange County Executive Committees with W. C. Brinkman and Chas. Hatcher acting directors of the rally. Seven Orange County Republican Clubs are cooperating with these groups.

**"Out of thin air" comes the HIGHEST HORSEPOWER in Buick history**

**NOTE FROM YOUR BUICK DEALER:**  
Presented here is the story of a great new engine development, as told by the man who did the job. We repeat the story here in its entirety — as we couldn't bear it if we tried.

No, we didn't have to build a new engine. We took Buick's valve-in-head Fireball Engine—which makes the most of high compression. We drew on 12 patient years of Buick carburetion research. And we came up with more light, more power, more gas—right out of thin air, in more ways than one.

When you talk about "miles per gallon" you think of fuel, because that's what you buy. But air's free—and for every gallon of gasoline a busy engine can burn more than 2,000 gallons of air.

The problem is to deliver air in the right proportions, throughout the full range of speeds at which you drive.

A carburetor—big enough to supply the air needed at full throttle—can be wasteful in stop-and-go driving. A carburetor used for thrift in city traffic literally smothers your engine when you really give it the gun.

So Buick engineers developed the Airpower carburetor—a four-barrel automatic—and here's how it works.

Looking along, two barrels are working, the way they should. And you get a low-speed

thrill and smoothness that's out of this world. As you pick up speed, the "stand-bys" come into play—feeding not just more gas, but more air too—so you keep getting maximum power from each drop of fuel.

You have 170 effortless horsepower when you need it—a tremendous reserve ready to go into instant action at the nudge of your toe.

You have the satisfaction of knowing that you get this power with a frugal use of gas. At 40 you use less gas than you formerly used at 30.

That's the story of Airpower carburetion in facts and figures straight from the factory. But statistics can't tell you the breath-taking joy of heading for new horizons in a great-powered new ROADMASTER.

When can you do that? Better come in soon. Lots of other folks are flocking into our showroom these days to see the greatest array of new Buicks we've had in years.

BUICK  
WILCOX

### Too Late To Classify

Cities all over the country are making a strong pitch these days to take management of the public transportation companies away from the company officials and place them in the hands of the taxpayers and their elected representatives. It is a sort of "dummy" plan to make bus systems tax free, with the argument going something like this:  
Cities must have competent bus service. Transportation companies can't make money as long as they have to pay the current high taxes. Public ownership would free the companies of taxes. So why don't the cities take title to the bus companies, leaving private management in charge, with no taxes to pay?  
Isn't this a perfect illustration of the way high taxes are being used as stepping stones to socialism?  
Miami is in the midst of just such a problem right now. And the city fathers are actually considering just such a move to alleviate the tax problems of the Miami Transit Company. Will the Florida Power & Light Company or the Southern Bell Telephone Company, the other large public utilities in the Miami area, be next in line?  
Let's see how the dummy-public-ownership plan would apply to the City of Miami.  
The three major public utilities are, of course, the Florida Power & Light, Southern Bell Telephone and Miami Transit. Dade County and the City of Miami receive a total of \$3,373,000 a year in taxes paid or collected by these three utilities.  
Dade County gets over a million dollars a year from the three companies in property taxes alone. Almost enough to run the whole county park system, which includes seven public parks, the county auditorium, four boat harbors, a camp site and the county nursery, for a year.  
The same three utilities pay the City of Miami \$745,000 in direct taxes. In addition, the power company collects a million dollars a year and the phone company \$500,000 for the City in taxes levied on the users of electricity and telephones.  
This adds up to \$2,345,000 a year in the City's coffers—more than enough to pay the cost of all waste disposal... which includes the removal of garbage and rubbish from homes and business places, street cleaning and running the city incinerator.  
The City of Miami must need this \$2,345,000 a year and Dade County

## Times Says Stevenson To Seek Election

### Scott Lucas Insists Kefauver Doesn't Have The Slightest Chance To Win Race

NEW YORK (AP) — The New York Times said today Gov. Adlai E. Stevenson of Illinois is being mentioned prominently among influential Democrats in Washington as a leading candidate for the Democratic presidential nomination.

A Washington dispatch by James Reston, the lead story in the Times, said this speculation followed a visit Stevenson had with President Truman at Blair House Tuesday night.

Among the reasons for the speculation were these, Reston wrote:

President Truman has indicated to personal friends that his preference and that of his family is that he should not run again.

"With this in mind, the President has emphasized within the last few days that his principal concern is that the Democratic Party should nominate a man whose convictions and abilities indicate that he would and could carry on the present foreign policy of the United States.

It is understood Stevenson is a top choice of the party's leadership, chief justice of the United States, previously mentioned as Mr. Truman's first choice, has indicated to the President that he prefers not to be a candidate.

"Before deciding to withdraw from the race, however, the President now is seriously surveying the field of possible Democratic candidates and asked Gov. Stevenson to call upon him... with this in mind."

The Times is supporting Gen. Dwight D. Eisenhower, a Republican, for President.

Listing several possible Democratic presidential candidates, the Times story said: "Of these, Gov. Stevenson is generally felt to have the most experience in the field of foreign affairs."

Wednesday in Washington, however, Stevenson told reporters he is a candidate for re-election as governor — "and nothing else."

Mr. Stevenson declined to say whether or not he would accept nomination for re-election if one were tendered him.

Meanwhile Scott W. Lucas, former Senate majority leader, said today "I don't think Gov. Kefauver has the slightest chance of being the Democratic nominee for President."

Lucas, who was defeated in 1950 by Sen. Everett Ruess (R-Ill.) had been President Truman's administration chief in the Senate.

He said he discussed Kefauver's possibilities with House and Senate leaders in Washington Wednesday and had talked about the Tennessee senator with Midwest party leaders earlier.

Lucas said he believes Kefauver's voting record on the administration's attempts to block filibuster by Southern senators on the administration's Fair Employment Practice Commission program will prove "a weak spot in his armor."

Sen. Kefauver's fight-high bid (Continued On Page Seven)

## Firemen Probe Wreckage After Airliner Crash

As rain and steel bolts down, firemen dig through the wreckage of a brick building in Elizabeth, N. J., which was struck by an American Airlines two-engine Convair that cracked up while attempting to land at Newark, N. J., airport. Thirty-seven persons were reported killed in the accident aboard the plane and 14 in houses set afire by the exploding craft. The scene of the crash was about half a mile from the spot in Elizabeth where another airliner crashed Dec. 16, killing 68 persons. (International)

## Brewster Tells Of Tax Dilemma For Businesses

### Volie Williams, Jr. And Rick Farrell Named Delegates

William Brewster, Jr., assistant professor of business administration at Stetson University, told the Junior Chamber of Commerce today that businessmen must try to keep going by economizing in the face of mounting taxation.

Mr. Brewster described the No. 1 need as "holding down of costs" in the running of individual businesses. He pointed out the need for some type of limitations upon the government for assessing taxes on businesses.

Business taxes have doubled since the outbreak of the Korean War," he stated. "Under present restrictions, which bar corporations from gaining a marginal profit on increasing sales, the government is taking taxes, whereas the government takes 70 percent of the marginal profit, it is increasingly difficult, if not impossible, for this group to cut costs," he continued.

"We must resist temptations to quit and continue in our traditional American way in face of all obstacles or we shall lose the basis of our competitive system," he concluded.

After Mr. Brewster's talk on "Taxes and How They Affect the Businessman," the J.C.C. appointed Rick Farrell and Volie Williams, Jr. to attend the Stetson Chamber of Commerce convention in Lakeland on Jan. 26-27.

Mayor William Stemper stated the City and County representatives have reached a better understanding about the need for the widening of French Avenue, but added that procuring the right-of-way has been slow. He pointed out the importance of getting the project through for Sanford.

The Mayor suggested that the J.C.C. consider passing a resolution to ask the County Commission to take the French Avenue widening project into their jurisdiction, as at which time he hopes an 80 foot right-of-way will have been obtained.

## Among Victims

Here is one of the most recent portraits of Judge Robert L. Patton, former Secretary of War, who was reported among the dead in Elizabeth, N. J. plane crash. (International)

## Contract Is Let For Construction Of Tourist Center

### Dawson Gets Work Low Bid Of \$9,227; French Ave. Project

The contract for the construction of a Tourist Recreation Building in Fort Mellon Park adjoining the shuffleboard courts was awarded yesterday afternoon by the City Commission to the W. W. Dawson Construction Co., which offered a low bid of \$9,227.

Mr. Dawson's bid included the furnishing of fixtures such as a sink and for lighting. The building, of concrete block construction and stucco exterior finish will be built bordering on the north side of French Avenue.

Mayor Stemper announced that he had prepared a written report on the meeting of County and City officials with the State Road Department last week. The Commission that he would contact the owners of 67 parcels of French Avenue, land needed to complete the right-of-way, in an effort to ascertain what this would cost, and declared that he would do this work without any expense to the City.

The Mayor authorized Mr. Williams to make this survey without obligation on their part as a means of furthering the \$500,000 State and Federal road widening project.

The contract for wiring the Sanford Public Library was awarded to the highest bidder, the Sanford Electric Co., on the ground that Mr. Stafford had without charge, furnished information to Architect Moushnet on which to base specifications.

Mr. H. N. Snyder, city clerk, said the bid was \$700 and a contesting bid was \$395.

## Progress Reported On C. of C. Drive For New Members

Excellent progress in the Chamber of Commerce drive for more memberships was reported this morning by Managing Director Brockmeider, who stated that membership has reached the 314 mark.

This includes four new members today, and a total of 23 new members during the drive to date.

Pledges during the last two days have totalled approximately \$9,000 bringing the grand total up to \$4,331.

More progress is expected in the wind-up of the drive when members of teams report tomorrow afternoon to their team captains.

Mr. Brockmeider said that his plan is to start this morning the contract for the new Tourist Recreation Building has been let to W. W. Dawson Construction Co., and that the building is finally being started.

The project, he added, was inaugurated with action by a Chamber of Commerce Committee which opened before the City Commission to receive approval.

Mr. Brockmeider said that the plan is to start this morning the contract for the new Tourist Recreation Building has been let to W. W. Dawson Construction Co., and that the building is finally being started.

The project, he added, was inaugurated with action by a Chamber of Commerce Committee which opened before the City Commission to receive approval.

## Offices Are Set Up In Sanford To Stabilize Rents

J. M. Bryant, field representative of the Atlanta Office of Rent Stabilization, arrived here yesterday afternoon and immediately set up office headquarters at 222 the Melech Building to take care of the registration of all rental housing in Sanford and Seminole County.

He will remain here for two weeks, he said this morning, pending the selection of a local rent director. Assisting him in the office set up is Mrs. Julian M. Dosey of the New Orleans Rent Stabilization office. Telephone service will soon be obtained in the office. Registration forms are now available.

Rent stabilization returned to Sanford on Jan. 24, and with that announcement, virtually all rental property in Seminole County became subject to the provisions of the Federal Housing and Rent Act.

The law, said Mr. Bryant, requires that all rental housing in the Sanford and Seminole County area must be registered with the Office of Rent Stabilization within 45 days or by Mar. 5, which is the deadline.

Virtually every type of rental housing accommodation is subject to rent control, which includes hotels, rooming houses, tourist courts, trailers, trailer spaces and rooms in private houses.

Registration forms which were made out when rent control was in force here formerly are not valid, as all rental units will have to be registered again, said Mr. Bryant.

The law, he pointed out, assures effective stabilization of rents in areas of critical housing shortages, and guarantees specific rights and privileges to landlords.

Mr. Bryant declared that his office will co-operate closely with the Seminole County Rent Advisory Board of which W. R. Williams is chairman.

May 1, 1951 has been established as the base rental date for the Sanford area. In general, the maximum rent that a landlord will be permitted to charge for any housing accommodation will be the rental rate in effect May 1, 1951.

However, if a landlord increased his rental after that date because of major capital improvements or additional services, an adjustment upward from the base rental will be allowed.

## GRASS FIRE

A huge grass and woods fire in the City causing no damage was extinguished by firemen from two trucks after 4 hours and 40 minutes of work last night. Fire Chief M. N. Cleveland stated today.

The two alarm fire was first reported at 6:35 p.m. last night. The blaze raged in the French Avenue and Twenty-fifth Street area west of Twenty-fifth Street.

The flames were finally put out after 11:00 o'clock last night.

## RECOVER RANSOM

WASHINGTON (AP) — Sen. Lodge (R-Mass.) proposed today that the United States recover the \$20,000 it paid Hungary for release of four American fliers by taking some of Hungary's assets in this country.

The U. S. paid \$20,000 each in fines for the four men after they had been convicted of violating Hungary's border. They were then released.

## GEORGIA TURNPIKE

ATLANTA (AP) — A bill to build a turnpike between Cartersville, Ga., and Chattanooga, Tenn., passed the Georgia House Wednesday and now goes to the Senate, where quick approval is expected.

The proposed toll road would be 70 miles long. It would relieve congestion since one of the most heavily traveled sections of the present Atlanta to Chattanooga route.

## Truman Plan On IRB Wins Its First Test

### House Group Rejects Resolution Disap- proving Civil Ser- vice Collectors

WASHINGTON (AP) — President Truman's proposal to put tax collectors and civil service and to organize the Bureau of Internal Revenue won its first test in Congress today.

By a vote reported as unanimous, the House Expenditures Committee rejected a resolution that would have disapproved the reorganization plan. The action is subject to a vote of the full House membership next week.

The vote means the committee will recommend that the House allow the reorganization to go through.

The plan was submitted to Congress under a general government reorganization law which provides that such plans become effective 90 days after their submission unless the Senate or the House adopts, by a majority vote, a resolution of disapproval.

The deadline in this case is March 1.

Administration supporters in Congress have contended all along that the plan would improve government efficiency. They have said there is some doubt, however, as to what the Senate may do when the Senate may act is still indefinite.

Rep. McCormack (D-N.Y.) had a reporter the vote in the House committee was unanimous.

Rep. Hoffman (R-Mich.), who introduced the resolution of disapproval, is a member of this committee. However, Hoffman said when he sponsored the resolution that his purpose was to force a vote by the full House and that he was not committing himself to opposition to the reorganization plan.

Mr. Truman sent the plan to Congress after disclosure of wide spread scandals in the federal tax collecting service. Hoffman said he had one objection to the plan, in mind to weed any wrongdoers from this administration.

The plan would abolish the present 64 offices of internal revenue and create 25 district commissioner offices. The district commissioners and their staffs would be Civil Service employees.

# Draft Director Hits Competition In Armed Forces For Shortage

## M.L. Raborn, Sr. Is Elected Head Of Merchants' Group

### James B. Keith, Sr. Speaks On Selling In Retail Business

M. L. Raborn, Sr. owner of the Seminole County Laundry and the Downtown Cleaners, was elected president of the Sanford Merchants Association at the annual meeting held in the Episcopal Parish House last night.

Other officers elected were Earle Faust, vice president, and Miss Dorothy Powell, secretary.

James B. Keith, Sr., president of the election committee, W. A. Morrison, were John Pope, James Sankayk, Jack Hall, Mr. Faust, M. Raborn, E. C. Harper, Henry Russell, E. C. Smith, Buddy Lake, David Gatchell, Andrew Stine, B. L. Perkins, J. M. Powell, John Kader, Warren Boncoski, Clarence Redding and W. A. Morrison.

The meeting was presided over by President Andrew Stine, who welcomed the merchants and their guests to the meeting, thanked them for their help and cooperation at all times and reviewed the accomplishments of the organization during the past year.

Outstanding among the activities of the organization, Mr. Stine pointed out, was the passage of legislation creating a small claims court and the appointment of D. K. McNab as presiding judge. In this connection Mr. Stine expressed the appreciation of the Merchants Association for the help of Senator L. F. Boyle and Rep. Volie Williams, Jr.

Among projects undertaken but not yet finished and recommended to the next board of directors was the construction of a parking garage on French Avenue, and the construction of a new city hall.

Mr. Stine also mentioned the local merchants and the fact that the city had received a grant from the Federal Government for the construction of a new city hall.

James B. Keith, Sr. of Orlando was introduced by W. A. Morrison as a man who had come from a small town and made good in a big way by practicing high ideals in all his business relationships.

Mr. Keith explained that he had known Mr. Morrison at Clemson College and had studied under his father, then who had taught him to be a good South Carolinian.

Speaking on the subject of "Buyer and Seller Relationships," Mr. Keith said that he is convinced that the American people want to continue the system of free enterprise which made this country great, but he warned that any business to be a success must be a success.

## Merchants Study Plan To Widen French Avenue

### Directors To Meet To- morrow For Final Decision On Matter

The chances of the abandonment of the project for the widening of French Avenue was brought to the attention of the Sanford Merchants Association meeting last night at the Episcopal Parish House by Manager Earl Faust, vice president of the Seminole County Chamber of Commerce who said that one week of the 30 day grace period for securing the right-of-way has already passed with little accomplished.

"If these eight days are not secured within the remainder of the 30 day period," he said, "we will lose this highway project, the money will be spent elsewhere and in all probability a new link in Highway 17 will be built to the west of Sanford, diverting all through traffic from the Sanford area."

Mr. Brockmeider pointed out that in a recent 24 hour check, a total of 700 vehicles passed over French Avenue and 7,200 over Park Avenue, making a total of 14,200 cars and trucks using these highways which might go around Sanford if French Avenue is not widened and rebuilt.

Jack Hall, president of the Chamber of Commerce, emphasized the importance of the situation and asked the merchants to approve a resolution requesting the County Commission to act within the 30 day period in securing the necessary right-of-way.

Declaring that we must get that French Avenue project now or we won't get it at all, Mr. Hall said that the matter is given more study and be acted upon by the directors at a later date.

Mr. Keith expressed his confidence that the board of directors will vote on the matter and he would like to know how much the right-of-way will cost, and asked that the board should consider something about which we know so little.

John Kader, in motion for a resolution requesting the County Commission to act within the 30 day period in securing the necessary right-of-way, with state and federal aid for assessing amounting to \$1,000,000.

Mr. Kader introduced a resolution requesting the County Commission to request immediate action by the County Commission.

This resolution was approved.

At a meeting of the new board of directors after the meeting, it was decided after some discussion to defer action by the directors until Friday at 2:00 p.m.

## Marines, Air Force And Navy Blamed For Taking Cream Of Manpower Crop

### WASHINGTON (AP) — Draft Director Lewis P. Hershey today blamed competition for recruits among the branches of the armed forces for an "unreal shortage" of military manpower.

Hershey, a major general, testified before the Senate Armed Services Preparedness Committee, which is looking into what is being done about using men with low physical and mental ratings.

The shortage of manpower comes about this way, Hershey said.

The great majority of enlistments are in the Navy, Marine Corps and Air Force so that the Army "is being forced to accept more than its share of the less desirable type of man."

And the Army then tries "to protect itself" by rejecting large numbers of less fit men for physical and mental reasons.

Hershey described the current rejection rate as "appalling."

In the five months ended last Nov. 30 he said, the number of classified registrants under Selective Service increased 6.2 per cent while those rejected and classified "E" increased 9.1 per cent.

And, he said, this "substantial increase" in "E's" occurred "at a time when a decrease could have been expected."

Of a total of about 80 million registrants between the ages of 18 and 24, who are liable for military service, Hershey said, approximately 14 million have been rejected as physically or mentally unfit.

He said that until the competitive situation "is corrected by some method of centralized orderly procurement equally applicable to all the services, we have no reason to expect an equitable distribution of manpower and we shall continue to create an unreal shortage which ultimately may drive us to the use of the least optimum type of man, the one with the lowest ratings of less fit men."

Sen. Hunt (D-Wyo.) said the suit's author understood the point of 4's had increased in the last year from about 300,000 to over a million.

At the same time, Hunt said, "We read of professional athletes being deferred." He said he also had read recently of three college basketball players being rejected because of their height.

Hershey testified that changes in the various classifications under Selective Service have been generally consistent with expectations since last June except for growth.

## Work Of Elks For Children Is Told By John Williams

Representing the Sanford Elks, John Williams told the Seminole County Children's Committee Monday afternoon that the organization's accomplishments in service to children and youth during the past year.

The amount expended, he said, for the summer camp for the Home for Crippled Children in Dunellula and for the Children's Playground which they equipped and turned over to the City of Sanford was over a thousand dollars.

He also announced a recent contribution to the local Elks Building Fund and the organization of a building program this year for the benefit of Sanford's young people.

Twelve other official members and organization representatives from the county attended the first 1952 meeting at the Court House Monday afternoon.

Mrs. A. J. Peterson, chairman, appointed two new subcommittees and outlined their duties.

To head the new information and publicity subcommittee, Mrs. Roy Holler was appointed; and to head the new subcommittee on children's health, Mrs. J. E. True, Mrs. M. B. Jackson, Mrs. F. E. Grider, Mrs. H. O. Hutchison and Mrs. C. M. Flowers.

Mrs. Hilda Kibbe's program for the Feb. 18 meeting of the children's committee was announced, and an informative presentation of her subject, "Mental Health," was promised.

## Services Sunday For Cpl. Charlie R. King

Funeral services for Cpl. Charles R. King, 19, who was killed in Korea Oct. 11, 1951, will be conducted at 1:30 p.m. Sunday at the home of his parents, Mrs. W. S. I. Whitley officiating.

Full military honors will be given for Cpl. King at the graveside in Evergreen Cemetery.

Members of the American Legion will serve as pallbearers.

Cpl. King died Oct. 20, 1951. Born in Sanford Oct. 20, 1931. He served in the U. S. Army at Fort Jackson, S. C. He later trained at Fort San Houston, Tex. and consequently was sent to Germany upon his return from Germany.

He received his discharge at Camp Stewart, Ga. Later he re-enlisted in the service for overseas duty and was sent to Korea.

He is survived by his parents, Mr. and Mrs. Foster King; four sisters, the Misses Minnie Mae Tucker and Mrs. Frank Gatlin all of Sanford; two brothers, Raymond King, Sanford; Sgt. first class Albert B. Tucker, U. S. Army; his grandmother, Mrs. Mary A. Sulvey of Sanford; several aunts and uncles.

## Rep. A. S. Herlong Announces He Will Seek Re-Election

WASHINGTON (Special) — Syd Herlong, Jr., member of Congress from the Fifth Congressional District announced today that he will be a candidate for re-election in the November 1952 election.

In a statement to the people of the Fifth District he said, "I am grateful for the opportunity and privilege of serving as your congressman during the past three years. I sincerely hope that my conduct and record have been such that you will see fit to reelect me."

"I have at all times worked diligently for what I believed to be the best interests of our District, State, and nation. We are almost always faced with complex and controversial issues in the Congress. It is therefore not possible to please everyone all the time. I do believe, however, that my voting record represents the thinking of the majority of the people of our District."

Herlong added in his statement, "I believe that my constituents and voting record are expressed time and again to you people back home have been consistent. In spite of attacks and criticisms from Fair Deal leaders throughout the nation, I am proud of the work of our Southern 'wrecking crew' whose efforts have been primarily responsible for saving the taxpayers over billions of dollars. I will continue to work with those economy-minded Members of Congress who are determined that the taxpayer will not be forgotten."

## ATTACK ON NEW YORK HOME OF A wartime Italian naval commander says Italy planned a harbor for December 1943, but the Italian armistice came along before the scheme could be carried out.

The commander, J. Valerio Borghese, said in a letter to the editor published in the newspaper Roma that a long-range submarine was to carry a smaller one within close range of New York. The little one was to slip up the Hudson River to the heart of the city to make the attack.

## SPORTSMEN'S MEETING

The regular meeting of the Seminole County Sportsmen's Association will be held tonight in the Commissioners room at the City Hall at 8:00 p. m. Forrest Gatchell, secretary, announced today.

David E. Swindell, director of the Central Florida division of Fish and Game department, will speak.

## REVOLT PUT DOWN

NEW DELHI, India (AP) — Nepal's ambassador in India announced today that government forces had crushed the second revolt in 14 months in the strategic mountain kingdom.

Gen. Brijaya Shumshere reported the capture of 1,800 rebels, but said their leader, K. I. Singh, was still at liberty. He put the death toll in the revolt at 800. Tuesday night one rebel killed and two wounded.

Shumshere said normal radio communication had been established with Khatmandu, capital of the remote Himalayan state that is a buffer between Communist-held Tibet and India.
