Boyle Urges Revamping Of State Taxes

No Need For Special Session Foreseen; French Avenue Pro- ject Starts Soon

Senator Lloyd F. Boyle said today that the failure of the Legislature to enact a tax bill at its recent session only serves to indicate the need for a complete revamping of Florida's tax structure although he added that he did not consider a sales tax advisable at this time and expressed the opinion that the Governor would not find it necessary to call a special session.

"There will be sufficient revenues to operate the state and provide for increased appropriations throughout the coming year," Senator Boyle stated, "and if any deficit occurs it will be some time in 1949 and by that time another Legislature will have been elected and another regular session will have the responsibility of providing funds."

Immediate revamping of French Avenue is in prospect, Senator Boyle stated, as he pointed out that a bill designating that thoroughfare as a State Road was successfully maneuvered through the Legislature. He quoted Chairman Elgin Bayless of the State Road Department to the effect that contracts for the improvement of this road at a cost of approximately \$50,000 will be let in July.

Although Senator Boyle opposed the bill to open the St. Johns River and Lake Okechobee to commercial fishing, he assented to a provision that the bill be finally enacted in unconstitutional and will be decided by the Supreme Court. The State Game and Fish Commission is studying a constitutional body, he pointed out, and is vested with complete authority to control fishing in Florida's inland lakes and streams.

Among the most important laws enacted by the recent session, Senator Boyle said, was the Citizens' Committee's Educational Bill designed to increase teachers' salaries and improve the standards of Florida's public schools.

Rep. Smith Sees No Need In State For More Taxes

Representative M. B. (Tom) Smith, who left some getting a good rest after his term in the Legislature at Tallahassee, today said that he was satisfied with the action of the Legislature in avoiding levy of new taxes.

"We didn't see fit to levy any new taxes as we knew we had enough to operate on without them," he declared. He pointed out that his opinion was based on a report of the House Finance and Tax Committee of which Percy Murray of Frostproof is chairman, and of which Representative J. Bentley Odham is a member.

Representative Smith trained the work of Mr. Odham in his first session at Tallahassee; also he pointed out favorable legislation obtained for Seminole County, including the designation of French Avenue as a state road; the appropriation for the Central Florida Employment Station, and extension of the City limits at the Municipal Airport.

He declared that he had voted for House Bill 318, which Governor Caldwell is reported intending to veto and which relates to reducing county shares in maintaining state tuberculosis sanatoria.

After the Legislature adjourned Rep. Odham motored to Pineville, La. for a visit with his wife and his father and mother-in-law, Mr. and Mrs. S. W. Tudor. He expects to return this week to Sanford, according to Mrs. H. B. Odham, his mother.

Public Officials Talk To "Boys State"

TALLAHASSEE, June 10, (AP)—Members of Florida "Boys State" heard talks by city and county officials here today as they began their annual five-day conference.

Brief talks on city and county governmental functions were made by City Commissioner Fred Lowe, City Attorney James Moore, Jr., Police Chief Lamar Prater and J. Lewis Hall, attorney for the Leon county commission.

Japanese Surgeon Brought To Trial In Atrocity Court

U. S. Prisoners Were
Injected With Bacteria
At Truk Base

GUAMI, June 10, (AP)—A new trial of a Japanese surgeon charged with using American prisoners for inhuman medical experiments was set for trial before a military commission today with 18 subordinates accused of spearing, strangling and beheading ten of their captives.

Frail, middle-aged Capt. Hiroshi Iwanami, who allegedly ordered prisoners injected with virulent bacteria on the sea bays of Truk, squirmed and licked his lips as the charges were read.

After this preliminary was completed, the commission recessed until June 24 to give Japanese defense counsel from Tokyo time to prepare their case.

The U. S. Army, which is conducting the trial, charges that bacterial injections killed four American prisoners. Experiments with tourniquets, took the lives of two men, the charges state, and two who survived were injected with moshine. When that did not kill them, they were strangled, the prosecution asserts.

Two other Americans allegedly were strung up like football dummies on Iwanami's orders. One of them was strangled with bamboo spears to test the value of spears as weapons while the other was bayoneted.

The Navy contends bodies were discarded over the hands of Iwanami and then sent to Japan for study. A persistent search in Japan has failed to locate the hands. The corpses buried on Truk, reportedly were dug up at the end of the war and hurried into the sea.

Three charges of murder and six of violation of the laws and customs of war describe the ten American victims as unidentified. All efforts to learn their names have been frustrated because the Japanese destroyed all records.

Lieut. Comdr. Joseph A. Regan of Brooklyn, prosecutor, told the tribunal that other Japanese were involved but that Navy investigators had been unable to learn their identity.

Group Approves Bill Ending Sugar Ration

WASHINGTON, June 10, (AP)—The House Banking Committee approved today a measure to end sugar rationing for home consumption. Chairman Wolcott (R-Mich) said that the decision was by an "overwhelming" vote although not unanimous.

The bill was introduced by Rep. Gossett (R-N.Y.). It would have no effect upon price control of sugar, nor would it directly affect rationing of sugar for industrial use.

Under the present law, rationing of sugar would expire October 31. However, the existing statute authorizes the Secretary of Agriculture to continue inventory control of sugar until March 31 if he deems it necessary.

Wolcott said that he has assurance of House action on the bill within the next two or three days.

Budget Group Aims To Block State Deficit

Commission Imposes Four-Way Check On Funds Of Federal Re- venue Departments

TALLAHASSEE, June 10, (AP)—Florida State Departments were instructed today to hold their budgets for the new fiscal year at recommendations of the Budget Commission, rather than the high appropriations granted by the Legislature.

Asking to forestall the general fund deficit, Governor Caldwell said the Legislature left in prospect by failure to levy new taxes, the Budget Commission imposed a four-way check on funds of agencies which are supported by general revenue.

Preparatory to reviewing the first of the budgets for the 1947-48 fiscal year which begins July 1, the cabinet board set out instructions to all agencies that:

1. All budgets shall be based on the Budget Commission's recommendations to the Legislature. This would mean the total 1947-48 year-outlay of \$52,122,800, instead of the \$53,391,000 authorized by the Legislature.
2. Each budget shall not exceed 10 percent of the total available funds for that agency.
3. Each budget year will be divided into four quarters, and no more than one-fourth of the amount released by the Budget Commission for the year may be spent or obligated within each quarter.
4. Contingent funds will not be included or considered until the Budget Commission finds the funds are unavailable. That strikes out, temporarily at least, about \$5,500,000 in contingent funds the Legislature included in the general appropriations, and Governor Caldwell already has said he will refuse to sign his own checks on any of those funds.

Attorney General Tom Watson, who arrived at the meeting just in time to see the meeting adjourn, said:

"The Budget Commission is already undertaken by the interim government at New Orleans."

Ramadier To Call State Of Siege If Strike Continues

PARIS, June 10, (AP)—French leaders today urged workers to order the 700,000 striking workers of the socialized French railroads back to work, the deadlock remained complete.

PARIS, June 10, (AP)—Well-informed sources said today that Premier Ramadier is ready to ask the National Assembly to vote a state of siege in France if parleys with railroad union officials fail to halt by this afternoon a five-day-old French rail strike.

Red Hats Deny Steincke Resignation

The Deland baseball fans were slated to hold a meeting at 3:00 o'clock to determine Bill Steincke's position, with the Deland Red Hats, it was announced in the University City this afternoon. Steincke, it is reported, has the complete support of the Deland fans and has been requested to remain with the team.

DELAND, June 10, (AP)—Management of the Deland Red Hats of the Florida State League said today it had received no official notice of Manager Bill Steincke's resignation.

Bill Pace, business manager, said he knew nothing of any such action by Steincke but added he would appoint an acting skipper if he did not hear from Steincke later today.

Asked if the club was looking for a new manager Pace replied, "Not yet. We do not even know if Bill has quit yet, but if he does not get in touch with us soon, a manager will be appointed for the game tonight."

The business manager denied any friction between Steincke and club officials that would cause the manager to resign.

Mississippi River Flood Waters Recede

HANNIBAL, Mo., June 10, (AP)—The swirling Mississippi River began receding slightly today along a flood-ravaged, 80-mile stretch in eastern Missouri and north central Illinois where the evacuation of an estimated 3,500 persons ran the number of homeless from high water in a four-state Midwest area to more than 22,000.

"The rather long crest" of the Mississippi rose slightly overnight but with a slight fall noted today rivermen and U. S. Army Engineers expressed belief that only further rains would aggravate the situation.

Fed Skipper Signs Contract

Don Murray, seated right, is shown signing a Sanford Herald contract to manage the local radio in the Florida State League. Murray, a second baseman came to Sanford from Parkersburg, Va., in the Piedmont League where he is holding down the key home sack and hitting at a .310 clip. The former Red manager, Budie Lake, is standing behind Murray. Seated at the left is George "Time" Davidson of the Sanford Baseball Association. Behind Stone is Business Manager George Imby.

Portion Of Albania Banned To Planes

BELGRADE, June 10, (AP)—The Albanian telegraph agency said today the Albanian Ministry of National Defense had issued a communique to the effect that "fire will be opened on all military planes, regardless of their nationality, flying over a portion of southern Albania close to Greece."

The agency said the step was taken in reply to "constant provocation" by Greek military aircraft flying over Albanian territory, of which there were 18 in May alone.

High Meat Prices Blamed On Exports

NEW YORK, June 10, (AP)—Foreign bidding for meat for export by agents willing to buy up to four cents a pound above American wholesalers was blamed today for spiraling prices in the domestic retail market.

Industry spokesmen in New York and Philadelphia were agreed that meat exports to Europe had driven prices up here from 3-1/2 to 4-1/2 cents a pound.

Vandenberg Accused Of Trying To Blow Up United Nations

WASHINGTON, June 10, (AP)—Efforts in Congress to promote the idea of a "United States of Europe" won conditional approval of Secretary of State Marshall today, along with an endorsement by Winston Churchill.

Marshall is "deeply sympathetic towards the general objective," he wrote, "but we should make it clear that it is not our purpose to impose upon the peoples of Europe any particular form of political or economic association."

Churchill, wartime Prime Minister of Great Britain, radioed "I have been encouraged by the evidence of support for United Europe in America."

Both leaders addressed their comments to a resolution pending in the Senate and House Foreign Committee which would put Congress on record as favoring "the creation of a United States of Europe within the framework of the United Nations."

WASHINGTON, June 10, (AP)—Secretary of State Marshall has expressed general approval of a resolution to put Congress on record as favoring creation of a United States of Europe within the framework of the United Nations.

"Of course the United States wants a Europe which is not divided against itself, a Europe which is better than a reality," Marshall said. "Only as we can insure that what we expect to be a united Europe will be a united Europe, and that the great efforts which have been made it will be in the United States, and that it will be a Europe which is better than a reality."

The entire world knows the Hungarian crisis has been solved on the basis of presenting a political coalition of parties of the Smallholders, Social Democrats and Communists.

The Communist Communists actually seized power in Hungary, ousted Premier Ferenc Nagy, whose Smallholders Party polled 57 percent of the votes in the last election. Deputy Premier Matyas Rakosi, a Russian citizen and brigadier general in the Russian Army, actually became the dictator in Hungary. The Communist coup was made possible by the large number of Russian occupation troops in Hungary.

BIBLE VERSE FOR TODAY

AMOS USED A FIGURE OF SPEECH TO FORETELL THE RUIN OF ISRAEL. BECAUSE OF SOCIAL CORRUPTION, EVERY LIVING THING IS ON TRIAL. THEY THAT VIOLATE MORAL LAW PERISH: I will cause the sun to go down at noon.—Amos 8:9.

The Mississippi River and the Russian Communists seem to be on a rampage.

Buddy Lake seems to be doing all right since he got loose from his managerial duties.

We don't know what happens when an irresistible force meets an immovable object, but we may soon find out when the Truman Doctrine clashes with the "Iron Wall."

Some of the new lawn-mowers seem to be good-looking it is a shame to stain them with grass.—Titusville Star Advocate. Some of them look as neat as vacuum cleaners.

A Tallahassee correspondent says the Legislature is gambling on there being sufficient tax revenues to meet the school appropriations, but he didn't say whether it was using the bookkeepers, or the punchboards.

We had a nice letter the other day from E. M. Armitage who is spending the summer at his old home at Sherbrooke, Canada. He has recently bought a new boat and is spending a lot of his time fishing.

If the people of Florida will just drink enough liquor, smoke enough cigarettes, and do enough gambling at the racetracks, the state of Florida may have sufficient funds during the next two years to meet all expenses.

What can happen to a city with two generations is indicated in an article by Col. D. B. McKay in the Tampa Tribune who recalls that Jacksonville in 1890 had a population of 7,650 and that only about 1,000 people lived in Tampa. Miami when it was incorporated in 1896 had fewer than 500 inhabitants. Sanford at that time was the largest city in South Florida, except Key West.

Tom Winton has tossed his bomb into the gubernatorial ring, the first to announce his candidacy for governor in 1948. Watson's entry in the race will add fire and luster to the campaign, and will give the other candidates something to talk about as well as scate the daylight out of them. He will say a lot of things that need to be said and he will make a lot of people mad, as well as glad. But he will not get elected. The public admires a man who says exactly what he thinks but they do not always vote for him.

A Senate Public Lands subcommittee finds that the miners themselves were at least partly responsible for the explosion which killed 111 of them. They persisted in "using coal dust for stemming their shots" even though they knew this practice was against the law and dangerous to their own well being. Why do people persist in smoking around open gasoline tanks? Why do they insist on drinking when they are drunk, and the drunker they are the more they drink? We don't know, but they do. And when they get killed, their friends and relatives blame it upon someone else, save the one except the poor devils who didn't have any brains save them to make 'em feel of despair.

Income Tax Arithmetic

In 1930, according to government statistics, the national debt was a bit more than \$16,185,000,000. The war time debt of 1945 was \$259,115,000,000 and a little more. And the peace time debt of 1946 had risen to \$267,895,000,000. Forty-seven per cent of this appalling figure, or just under half, was "carried" or paid for by the taxes of the approximately 35 million people with incomes of \$5,000 or less. On an average, in this group, one day's wages out of every five went to the government. Those with incomes above \$5,000 paid the other 53 per cent. Of the largest income holders, some paid as much as 97 per cent of their total income in taxes.

It's wholesome, now and then, for people to sit down and review the tax figures. Winning a war is expensive in more than life. So is a peace program. Battle victory, peace victory, both come high.

Any patriotic American willingly pays his just share. But every American has the right to insist that his money is not wasted by his government. That is the essence of much of the present attitude toward tax schedules, both current and planned for the future.

Boston's Plight

Boston's city government may soon be run from a federal penitentiary. The United States Supreme Court has declined to review Mayor James M. Curley's conviction for using the mails to defraud. There seems to be no legal provision disqualifying a Boston mayor for crime, and Curley is not the man to give up a paying job just because he is in prison.

Whether Boston cares remains to be seen. "Our Fair City," a recent collection of accounts of city government today, thinks very little of Boston's public spirit. The most civic-minded people are said to have moved to the suburbs. Those who are left elect mayors such as Curley. He won four times, and at the last election had no rivals who could be called much better.

But what a come-down for one of the oldest and proudest of American cities!

Don't Worry—It May Not Happen!

When the great preacher, Dr. Lyman Beecher, then an old man, came to visit Professor Park at Andover, the afternoon talk turned to theology. Soon the two men were engaged in a violent dispute upon a series of subtle theological points. Park was a skillful master of the art of debate and Beecher simply a thoughtful and eloquent preacher. The argument did not end until well after midnight.

After they had parted, Professor Park's conscience began to trouble him. It said, "Here is your guest, an old man and an honored friend whom you should have treated with affectionate reverence. Instead you have beaten him by your logic into insensibility, and sent him to bed in utter humiliation. Your conduct is unworthy of a gentleman."

The Professor worried all night about it. He could not sleep and in the morning he crept downstairs in miserably low spirits. He took his place at the breakfast table to await in silence and shame the appearance of his guest.

Then the old preacher appeared and greeted his host: "Well, Park, how do you feel after the tremendous mauling I gave you last night?"

Professor Park had not made due allowance for the courage and character of his guest, and so he spent a sleepless night indulging in worthless anxiety. Imaginary worry is like that. It prejudices the case.

If you are one who worries over things that never happen, why not wait next time for the outcome?—Delos O'Brien in Your Life.

Explanation Given On Greek Guerrillas Papers Lottery Ban

CHATTANOOGA, Tenn., June 10 (Special)—Newspapers are often taken to task because they do not publish stories about local drawings or the fact that John Jones won an automobile in a lottery, the Southern Newspaper Publishers Association declares. Organizations with commendable local projects often ask for publicity on some prize-winning event and are upset to learn that it is against postal rules and regulations to publish such facts.

Recently, E. C. Gorrell, publisher of the Palaski (Ind.) County Democrat, explained in his column "The Old Man At The Desk" the law and how it works. Excerpts from the column printed in the Indiana Publisher, follow: "The answer to the question about publishing prize-winning lottery in a newspaper is provided by a single sentence in the postal regulations which says: 'No matter concerning a lottery or gift enterprise shall be deposited in or carried by the mails of the United States.' 'You could hardly write a sentence that would cover the whole subject in fewer words. It comes as near being bullet-proof as any regulation I know of, anywhere.' 'The rules go on to set out what constitutes lotteries or gift enterprises. They embrace any plan or scheme in which the element of chance is a part, it makes no difference how little the right to participate may cost. Tickets or numbers may even be given away. The beneficiary of the scheme may be a church or a club or charitable institution. If the winning depends upon what is often called luck, it's 'out' as far as the post office is concerned. 'Several persons are kept busy in Washington, I imagine, answering inquiries on the subject. For the regulations provide further that postmasters should not attempt to rule whether a proposed scheme is a lottery, but should refer the matter to one of the department heads. 'I know of several cases in which such letters have written to Washington. The reply is always the same, in effect: 'Your attention is called to section number so-and-so of the postal regulations, marked copy of which is enclosed.' The marked paragraphs are there, already mentioned. 'Strictly speaking, therefore, it is against the rules for a person to send a letter in which anything is said about a lottery or gift enterprise. Technically, it would be a violation for a Wisconsin woman to mail a letter to a friend in another town stating that a former schoolmate of theirs, Dorothy Ditts, is the wife of Dan Symol of Nashville who

Greek Guerrillas Loot Ancient Oracle

ATHENS, June 10 (AP)—A band of 200 guerrillas raided a classic Delphi over the weekend and looted the site of the ancient Greek oracle on fabled Mount Parnassus, the ministry of the public order announced today. The announcement said the guerrillas, under a Capt. Diamandis, had killed some of the villagers and set fire to a score of houses. Delphi is 80 miles northwest of Athens.

SANFORD FORUM

Editor Sanford Herald June 7, 1947 Dear Sir:

I John 4:8 says, "He that loveth not, knoweth not God: for God is love." People of most nations lay claim to a knowledge of God to some degree. But the friction, as an explosive, awaiting a spark to touch it off, ceases that if serving God at all, it would be as written on Matt. 18: "That people honoreth me with their lips, but their heart is far from me."

Why does nation mistrust nation? Can Jesus' word be denied? He said Nation shall rise against nation. He never said nations shall love nation. If a community serves God as one person, no hatred can exist. No wonder with the little love that is demonstrated here in America that nation cannot trust nation, for even less love is in evidence in other lands. Readers, won't you please erect an altar in some corner and humbly plead for God's mercy that you might have love to make your community a better place to spend your time while going this short journey of life, if you have love you will pray for friends everywhere. May God bless and give you love, my prayer.

Respectfully, Rev. R. W. Miller Rt. 2, Sanford

What wait a minute. The penalty for such a violation is a fine in any sum up to a thousand dollars, to which may be added a year's imprisonment. I doubt if the penalty has ever been imposed upon the innocent writer of such a letter, but the same regulation has been used in the past to break up huge lottery schemes. If necessary serve me right, some persons gentlemen some time several years ago for using the mails to carry on their operations.

Voters To Decide On 12 Proposed Changes In State Constitution

TALLAHASSEE, Fla., June 10 (AP)—An even dozen proposed changes in the Florida Constitution were submitted by the legislature to the voters for ratification or rejection in the November, 1948, general election.

Resolutions calling for nearly 20 constitutional amendments were introduced in the legislature, but only 12 won the necessary two-fifths vote of each house to obtain a place on the general election ballot. If one of them is ratified, it would be possible for the next legislature to rewrite the entire Constitution by submission of only a few more amendments to statewide vote than now are proposed.

It would permit a constitutional amendment to revise entirely any one of the 20 articles of the Constitution and was designed to obtain a general revision of the 62-year-old basic law. At present an amendment can apply to only one of more than 200 sections and it would take that many separate ballot marks to bring about amendment.

The legislators also submitted to the voters a proposal to raise the pay of Senate and House members from \$6 a day to \$10 a day during the legislative session. It would permit counties to set up subsistence payments for their members and provide them four round trips between home and the capital during each session.

Another proposed amendment would allow retired circuit judges and supreme court justices to be called back to temporary active duty on the bench with their consent at an extra pay.

Only one of three amendments proposed by the Citizens Education Committee was legislative approval. It would permit counties to issue bonds for construction of schools and pledge for their payment of the money they will receive from the new state school fund.

The two rejected amendments which failed would have abolished county school districts and made it possible for the legislature, by statute, to provide for appointment, rather than election, of county school superintendents. The legislators also approved a plan to use gasoline tax receipts for any purpose other than road building or aviation. At present one-seventh of the State tax goes to the general fund and schools.

There will be two more state senators in the voters' special session amendment creating a new senatorial district in extreme South Florida and one to match it in Northwest Florida. Monroe county would be given a senator to replace itself and Bay and Gulf counties would be created from Washington and Calhoun.

The other six proposed amendments involve only local affairs.

The city of Miami and Dade county governments would be merged into the renamed county of Miami under one.

Judges of the Escambia county court of record, only one of its kind in the state, would be elected to six year terms, rather than appointed, under another.

Four similar amendments would provide for consolidation of city and county tax assessment and collection functions in Pinellas, Volusia, Broward and St. Lucie counties.

Similar amendments previously have been ratified by the voters of Orange, Dade, Bay and Hillsborough counties. The legislature at this session rejected a proposal which would have permitted any county to consolidate its tax functions by statute.

Among the proposed constitutional changes which were defeated in the legislature, before it adjourned, were ones which would have permitted the legislature to abolish all ad valorem taxes in favor of a system of transactions, sales and use taxes, and one to set up a tax commission for the state supervision of local assessments.

schools. He also supported the co-educational bill making both state institutions of higher learning co-educational and changing the name of the Florida State College for Women to the Florida State University.

He especially commended the action of the Legislature for its efforts to improve health conditions in Florida and called attention to the passage of a bill doubling the State Health Fund and providing increased appropriations for tuberculosis treatment and care and to the blind.

Senator Boyle, who handled veterans legislation in the Senate, said he was successful in securing passage of all four bills sponsored by the various veterans organizations in Florida. These were:

1. A \$500,000 appropriation for the expansion of the State Service Commission for a two-year period.

2. Exemption from payment of state taxes on cigarettes given or sold to veterans in U. S. veterans hospitals.

3. Special treatment for veterans in all state and county and municipal employment.

A bill sponsored by Senator Boyle and enacted into law and known as the "Public Bookkeepers' Bill" makes bookkeeping a distinct occupation and was widely supported by small businessmen, Senator Boyle stated.

Other bills supported by Senator Boyle which became law were broader arresting powers and police immunity for the State Highway Patrol and the creation of the Everglades National Park.

Senator Boyle was a member of the State Committee on Constitutional amendments which considered over 70 proposed amendments. Twelve of these amendments were approved and will be voted upon by the people in the 1948 general election. Only five of these amendments, he said, are of a general nature.

As a member of the Senate Finance and Taxation Committee, Senator Boyle wrote the minority report which opposed the legalization of slot machines. Although the slot machine bill was approved by the majority on the committee, it finally died on the Senate calendar.

Senator Boyle commended the work of the House members of the Seminole County delegation and said that he received silent support and cooperation from Reps. Smith and Odham throughout the entire session.

economic association. The future organization of Europe must be determined by the peoples of Europe.

Marshall wrote Chairman Vandenberg (R-Mich) of the Senate Foreign Relations Committee, in response to a request for his views on the resolution sponsored by Senators Fulbright (D-Ark) and Thomas (D-Ill.). A similar resolution has been introduced in the House by Rep. Keogh (D-La.).

The Fulbright-Thomas-Boggs proposal, if adopted by the Senate and House, would constitute simply an expression of congressional opinion. Such a resolution would not go to President Truman for his signature and, consequently, would not have the force of law. So far, neither the Senate Foreign Relations nor the House Foreign Affairs Committees have taken any action toward sending the resolution to the floor.

Secretary Marshall also told the Senators it is "essential to the conduct our foreign relations" that the State Department have funds and freedom to make foreign language broadcasts and conduct a world-wide information program.

"As I have said before, one effective way to promote peace is to dispel misunderstanding, fear and ignorance," the Secretary of State said to the Senate Appropriations Subcommittee.

Advertising bids for the resurfacing of French Avenue from Seminole Boulevard on the lake front to the junction with the Orlando Road will take place in July, City Commissioners were informed.

The information was in the form of letters and telegrams from State Road Supt. J. Elgin Bayless to State Senator L. F. Boyle and Representative J. Bralley Odham and M. B. Smith were instrumental in securing legislation designating French Avenue as a state road.

No widening of the road will be undertaken at present, according to City Manager H. N. before the motion to adopt the new budget rules was made after a long closed session, asked for delay—at least on the item withholding contingent funds.

He said he was speaking only for his own department and wanted a week to determine whether such a rule would hold up his \$6,000 contingent fund until after the cabinet has found funds to meet all the broad appropriations of the Legislature including the \$10,150,000 second priority building fund.

Comptroller C. M. Gay refused to accept Watson's amendment to delay action on the contingent fund rule. He commented that "We're all in the same boat and we've been here all morning sweating over this."

Governor Cahill told Watson some of the other Budget Commission members had "greater contingent funds that your \$6,000

At the last meeting the Commission condemned an unsafe warehouse belonging to the McCormick Lumber Company and located on West First Street. At the request of the Commission the Atlantic Coast Line Railroad upon whose property the building is located, an extension of time on the condemnation proceedings was granted.

Employment of Herman Brumley as city recreation director, and of his assistants, Mrs. Nancy Brock and Barbara Danziger was approved.

City Attorney Fred R. Wilson was directed to assist the attorney of Wade Raulerson in obtaining insurance settlement for the cost of injuries sustained from an accident during his time of duty as a policeman. To date the City has advanced \$3,106 to Mr. Raulerson to pay hospital and medical fees, said Sayer.

IVEY'S

Mrs. Ivey Honored

Mrs. John Ivey entertained recently with a Coca-Cola party honoring Mrs. Frank Woodruff, Jr., whose marriage was a recent event. The party took place at the home of Mrs. Ivey, 1015 S. E. 1st St., and was beautifully decorated with arrangements of yellow day lilies and white gladioluses.

At one end of the lace covered dining table was a large arrangement of the lilies and gladioluses in a silver bowl, flanked with three-lanched silver candelabra which held yellow tapers. The refreshing drink, dainty sandwiches, cakes, nuts and minis were served from the opposite end.

Mrs. Ivey presented Mrs. Woodruff with a crystal cream and sugar set as a memento of the occasion.

Enjoying the occasion with the honored guest, Mrs. Woodruff, were Mrs. Harry Woodruff, Mrs. F. L. Woodruff, Mrs. W. L. Stouderman, Mrs. John L. Miller, Mrs. Phillip Greenwood, Mrs. Walker, Mrs. Dietrich, Mrs. Charles, Mrs. Sharon, Mrs. Melton, Yvonne, Mrs. John Higgins, Mrs. Herbert Moore, Mrs. Malcolm Higgins, Mrs. Bill Williams, Mrs. Byron Fox, Mrs. W. E. Hollyhead, Mrs. Mary Elizabeth Nance, Mrs. R. R. Bruce, Mrs. Jack Hall, Mrs. James Robinson, Jr., Mrs. John Courser, Jr., Mrs. W. E. Dodson, Miss Lenabelle Hagan and Mrs. Ivey.

Hollywood

HOLLYWOOD, June 6 (AP)—Whether to kill off the Hardy family or let the film series continue seems to be the question of the day at MGM.

There has been much talk that Mickey Rooney is getting too mature for the juvenile Andy Hardy, an opinion in which most consider him wrong.

"In 27 now," he told "getting a little too old for that sort of thing. Let Ruth Jenkins do it." The actor would prefer to play roles such as his current "Killer McCoy."

On the other hand, producer Robert Sisk has a new script, "Andy Hardy Bachelor," ready to go if the studio decides to carry on the series. I would let on continuance, since the next picture Hardy's have always received healthy profits for Metro.

Michael Redgrave is going to visit Canada after he finishes "Morning Becomes Electric." J. Arthur Rank requested the trip because the British has requested by British stars visiting North America. Michael will return to England for "The Body Snatchers" and a musical he is directing up. He admits the British are woefully behind the U. S. in musicals and hopes to improve the situation.

The Glenn Davis-Dee Blaylock film looks set for this summer.

John Rogovin, son of producer Charles Rogovin, will produce. The Army athletes are expected here soon.

Ingrid Bergman may be seen two-year period. Her only film since "Notorious" is the unreleased "Arch of Triumph" and her "Joan" will occupy her until the end of the year. Meanwhile, Ingrid is hiding away until the picture's start next month.

Indian Outlook

(Continued from Page One)
Delli is a stern toward abolition of untouchability in the Hindu caste system.

Many Hindu leaders, including Jawaharlal Nehru, who stands on the very top rung of the caste system as a Kishoree Brahmin, refuse to recognize untouchability, and Mahatmas K. Gandhi lives among the untouchables. There is a practical political angle to this. The lot of the so-called scheduled castes, however, and the leaders are doubtless mindful of the many easy conversions to Christianity from the lowest rank who were outcast from the Hindu fold.

Such an anachronistic pattern would provide a ripe field for any intruding elements such as Communism with the promise of lifting the standard of living.

The caste system has been a target of Muslim extremists in their attacks on the Congress Party. But, although Islam preaches the brotherhood of man, many Muslims are members of the Congress Party and against the Muslim League.

The Russians, near neighbors of northern India in the Himalayas, thus far have been most circumspect in their dealings with Indians. They have teamed up with the United Nations in at least two major issues involving human rights and have met cordially in dealings concerned with Asiatic problems.

First Days Of Old Oklahoma Oil Boom Compared To Present

By HAL ROYLE: OKLAHOMA CITY, (AP)—Oklahomans love to recall the exploits of the oil-rich Indian. "He used to buy a bright yellow high-powered motor car," they say. "On Saturday nights he would get drunk and crash into a bridge abutment. Monday morning he would buy another brand new car, explaining to the salesman: 'Bridge no get out of my way.'"

from the east and antique dealers," said one old resident. Newly rich farmers hitherto insensible to the joys of indoor plumbing spent vast amounts on Persian rugs and foreign tapestries to decorate their lavish homes. The only trouble is that oil wells eventually have a habit of playing out. That shut-off the source of income. Many a splurge had to leave town "scratching a broke backside," as they say in forthright Oklahoma. Again big money is being spent fast and loose trying to locate new oil fields. But the farmers who own them are conservative and wiser. They aren't trying now to build stone castles on prospective paper profits. The drillers themselves are a different caliber too. In the old days they used to pour gasoline down the creek as a wasteful by-product of kerosene, the fuel used in lamps. Nobody wanted gasoline because it was too expensive for home illumination and the market of the motor car hadn't developed.

through slapdash methods of production. Thousands of cheap "stripper" wells are keeping communities alive by bringing only one to four barrels of oil each daily. "We've settled down to a sane business proposition," said Claude Barrow, veteran newspaper and editor. "It may take a producer now from 5 to 15 years to pay out his investment in drilling a well. He takes his profit over a longer period." This means also that the ownership of the land discovered under the usual lease terms with-out pay-in and drilling costs has his income spread over a longer period. "Oil has been both a curse and a blessing to the property owner," said Barrow. "First, he is learning how to take this gradual wealth without letting it ruin him and his family." Barrow himself has suggested to many wildcatting, good locations for drilling but made no money out of his knowledge. One wildcatting drilling on two acres he owned made him a substantial offer, and Barrow agreed to consider it overnight. "The next day," he said wryly, "the struck saltwater."

Joe Justice Raps Homer To Decide Fed-Senator Tilt

Zedalis Bests Kettles In Hurler's Duel To Cop 4 To 3 Game A's Here Tomorrow

ORLANDO, June 10. (Special) Joe Justice's hitting home runs in the seventh frame with Craig Lybrand resting on the levations bench proved to be the needed margin of victory for the Orlando Senators in a hard fought 4 to 3 contest with Stan Zedalis and Carl "Goose" Kettles tangled in a six and seven inning duel. Justice's four fly poke was the second game deciding blow of his kind as the former Hollins College star has unleashed this year against the Celery Feds.

The Orlando infield gave Big Zedalis nearly perfect support and turned in four sparkling double plays, one of which proved to be the clincher. In the ninth inning, the Fed's stellar mound ace, for more than one hit was Lybrand who blasted a brilliant double play which killed a would be Fed uprising.

The Sanford segregation office, the local A's and the new Fed skipper, staged the attack with Lybrand in five appearances at the plate.

The only Sanford batter able to reach the offering of Kettles, the Fed's stellar mound ace, for more than one hit was Lybrand who blasted a brilliant double play which killed a would be Fed uprising.

Sanford certainly will welcome the Jersey City team if they come here for their first season activity next year. We want the New Jersey city segregation office here for their Spring training, but we are not over the possibility until we are really sure that they have fully agreed to make this their headquarters.

The Boston Red Sox led the American League in fielding in 1946 with a 977 mark, the same percentage posted by the Cleveland Indians in 1945, leading leaders that year.

The modern public health movement started in 1848 in England with the sanitary movement and the sanitation of the laboring population.

Ted Williams Tops Tribune Star Team

CHICAGO, June 10. (Special) Ted Williams, Rocky Boston Red Sox batting star, still was the top performer as the second All-Star game in the all-star baseball poll was released today.

Williams polled 948 votes from the 2,565 early ballots forwarded by a few voters. The four vote poll was being sponsored by the Chicago Tribune and 192 newspapers, radio stations and magazines.

The fans' votes will determine the starting lineup, with the exception of the pitchers who will be selected by the rival managers for the National and American leagues in the 14th all-star encounter in Wrigley Field July 8.

Williams, who is a former member of the University of Florida, made the initial offer of the contract over a month ago.

Babe Didrikson Is In Fourth Round

QUILANE, Scotland, June 10. (Special) Mrs. Babe Didrikson Zahradec of Denver and Miss Ruth Woodward of Fall River, Mass., fought their way into the fourth round of the British Women's Amateur Golf Championship today as their fellow American, Miss Helen Stiel of Philadelphia, bowed out in a third round match.

Playing true to form, the highly favored Babe had little difficulty in polishing off Mrs. Val Reddan, former Irish champion by a score of six and four.

Need Cited For Universal Training; Truman Urged To Sign Tax Cut Bill

WASHINGTON, June 10. (Special) A new scheme for government planning to keep farm prices approximately steady today was proposed to Congress.

A government-backed "buying pool" has been set up to buy non-perishable farm products at "fair" prices. The idea is that in times of surplus, when prices tend to go down, the buying pool would buy them up, to "fair" level. When supplies were scarce, the pool would sell.

A special tax on the full rate of commodities coming under the plan. This would provide money to take care of losses on the pool operations.

John Blahnik, of Minneapolis, president of the National Cooperative Milk Producers Federation, presented the plan to the House Agriculture Committee which is studying the question of a new government-owned farm program.

The House itself set up a bill to appropriate \$38,826,257 for these government agencies which have run into unexpected expense and need the money to finish out this month. Last of the government's current fiscal year. A big part is for the Veterinary Administration which has found many veterinaries benefit from the program more than was anticipated.

The day's bag limit per person is indicated on the license as eight black bass not less than 12 inches long from nose to fork of tail; 20 speckled perch; 15 jack; 20 bluegill, brown, shell cracker, warmouth, other species of bass or 25 of a mixed string.

Sales or shipment of any fresh water fish except catfish, carp, mudfish or black fish is prohibited. March is the closed season on black bass for the Fifth District which includes Seminole and adjoining counties.

Mongolian Invasion Of China Extends Red Expansion Pattern

By GLENN BARR AP Foreign News Staffer
If the alarms being sounded in Nanking were true, the worldwide struggle against the spread of Communism has extended to the great interior plateau of Asia, the roof of the world. That is an area where nearly all factors are in favor of the Red Forces, there is little anti-Communist sentiment can do to oppose any advance.

The Chinese official news agency's version is that troops of the Mongolian People's Republic (Outer Mongolia), supported by four planes leaving Soviet territory, crossed the border into Sinkiang, or Chinese Turkestan, and marched some 200 miles before meeting opposition. That would be "shock troops" in those distant, desolate wastes.

The reason for the invasion, if such it is, remains obscure. Doubtless if there is military action in progress we shall have shortly some account from the other side, some familiar story of the "shock troops" and their justification for punitive action. It is doubtful that the "shock troops" will know much about what really is happening.

Caldwell Says No Money For TB Sanatoria

TALLAHASSEE, June 11. (Special) Governor Caldwell said today that the \$2,500,000 appropriated by the 1947 Legislature for construction of new tuberculosis sanatoria probably will not be available for expenditure.

In a letter to Chairman W. I. Leach of the Tuberculosis Board and to its members, Caldwell said in view of the fact that the Legislature failed by about \$2,500,000 to provide for the construction of the new tuberculosis sanatoria.

Addressing about 350 American Legion boys' club delegates to the 1947 National Convention in Tallahassee, Caldwell said that the Legislature failed to provide for the construction of the new tuberculosis sanatoria.
