Very little is known of the raider or raiding plane, which at times carries a two-man crew. aldied product industries which Some have reported the plane to have plants in Texas with annual be litelan; others, German. It it believed the intrepid fliere change their equipment frequently, but never their methods.

Because of censorship the world has heard of this marsuder only in recent weeks when the plane began to attack and sink British shipping, Prior to that, henever, the attacher had a long and speciacular string of successes during which it is reckanad he destroyed around a half hillion liters of gasoline and oil along the Republican seaboard.

His most spectacular coup was in Valencia harbor in mid-January. Plummeting down from a great height with silent motor just at dawn one morning the plane barely skimmed many fiveto eight-million liter gasoline and oil tanks while the pilots ieisurely machine-gunned the ianks with armor-piercing bullets.

Then the plane wheeled sharply and flew back to drop incendiaty and explosive bombs. There was a sheet of flame as the oil took fire. Three weeks later the fire had not yet fully died out. Well over 100 million liters of oil and gasoline were lost.

This spisode was repeated at Harcelons, Tarragons, Alicante and Cartagens, leaving the government to rue the day when pre ceding regimes rejected the American-drawn plan to put storage tanks underground in the hilfs behind the coast.

The mystery plane's most bru tal attack came on April 14 north down on the international brigade's Red Cross hospital train carrying foreign casualties from Valencia to Barcelona. After trailing the train at a 50-foo circled about and machine-gunner the wreckage for 15 minutes Sixty patients were re-wounded and a dozen died; some lost their mings under the ferocity of the

The raiders in June went after all shipping, frequently disabiling or sinking two ships in a single night. The same methods of dilowed by machine-guns were used, always with success. The plane also experimented successfully with an aerial torpedo egainst the British freighter Thorpness outside the Valencia preskwater, then flew off to CLYDE-MALLORY LINES bomb and sink a nearby ship.
