

Truman Says

(Continued From Page One)
ganic materials, especially por-
tions of agricultural crops con-
sidered waste. This new science is
called chemistry. One goal is to
expand farm markets and income.

Edward W. Russell, former man-
aging editor of the London Morn-
ing Post, said in a paper prepared
for the meeting that chemistry
creates new wealth for the world.
This has tremendous possibili-
ties in world trade for the Democ-
racy as a weapon against Com-
munism.

He pointed to gasoline as his
prime example and said a new
method of injecting alcohol and
water into gasoline engines could
save Great Britain substantial
numbers of dollars by cutting gaso-
line imports. In addition he said
it could build a new industry,
creating many new jobs, in the
British Empire.

Russell said the new alcohol-
water injection was developed by
U. S. Department of Agriculture
scientists. They were seeking new
markets for alcohol made from
agricultural crops and waste, such
as corn cobs.

Russell said the injection meth-
od which allows cars and trucks
to operate satisfactorily on low-
grade gasoline, plus alcohol and
water, would cut motor fuel costs
by about 10 per cent.

"Ten per cent of an importing
nation's gasoline bill is not chik-
en feed," Russell said. "But there
is the further advantage that it
is possible to get between 10 to 15
per cent more low-grade gasoline
than regular gasoline out of a bar-
rel of crude oil."

He said this means gasoline-im-
porting nations, like the British,
could save dollars, and, at the
same time, world supplies of crude
oil would be conserved.

Russell said it frequently may be
possible to take surplus farm prod-
ucts and convert them to less
perishable products, so they could
be stored. Or they might be con-
verted from one article, for which
there is no use, to other types of
materials for which there is a de-

Commerce Dept.

(Continued From Page One)
68,194 to 414,135,000.
Motor vehicle registration, from
11,000 to 693,000.

Life insurance in force, \$66,900,000 to \$2,424,438,000.
Electric power generated for indus-
trial and other purposes, 8,066,078 kilowatt hours to 4,784,101,000 hours.

Number of business and residen-
tial telephones in operation from
1,900 to 316,371.

Other divisions of the economy
which reflected somewhat lesser
increase, but which contributed to
a great acceleration of the whole
of the industry included the follow-
ing:

Retail sales, which went from
\$504,523,000 to \$2,191,922,000.

Wholesale sales, which advanced
from \$444,078,000 to \$1,794,924,000.

Income to individuals, from
\$235,000,000 to \$2,762,000,000.

Per capita income, from \$484 to
\$1,137.

Value of minerals produced,
from \$10,300,000 to \$45,000,000.

Income from farm marketings,
from \$94,200,000 to \$398,553,000.

Value of farm lands and build-
ings, \$40,393,838 to \$408,399,612.

Value of manufacturing estab-
lishments in operation from
1,276 to 2,807.

Value of livestock on farms,
from \$25,300,510 to \$67,956,078.

The State's population, the Com-
merce Department said, went from
2,294,000 in 1900 to 2,494,000 in
1949.

Kiwanis

(Continued From Page One)
"Rocky Old Man" sung by the
double quartet, with solo effect
by Bob Cavley and with Shirley
Middleton accompanying. The en-
cores by the group was "Eveline"
and "Invictus" was sung by Clarence
Mand.

He said that as an example
American cattle feeders need a lot
more protein in livestock feed to
give cattle a well rounded diet.

COLORED NEWS

By LOUISE FOSTER

ADDRESS AS DELIVERED BY
LOUISE H. FOSTER IN INTER-
EST OF SCOUTS IN THE
GRANT'S CHAPEL, RANFORD,
CHURCH, SUNDAY, MARCH 26,
1950

THE BOY IN A CHANGING WORLD

Apparently we are approach-
ing the end of our civilization
and are not really ready yet.
Usually for the next. The world
has always been hard on the boy. The
rise of the cities has been his
enemy, for his natural habitats
were destroyed. Then, the world
is increasingly a world for adults.
This present era is particularly
hard on youth. And the diffi-
culties are running on into longer
periods of his life. In the later
"teens" and into the twenties.

Boys are having to wait long-
er; to wait for jobs, for marriage,
wait for a place in life, and it
is hard for them to wait. The
pioneering phase of American
culture is over. The rough lower
split is gone. The open door of
opportunity seems less widely
ajar. Our adolescence as a nation
has ended and our maturity
has begun.

The problem of civilization has
changed in our lifetime. In Scout-
ing's lifetime. "We are no longer
dealing so fully with things neces-
sary for healthy living. Our great
growth period is ended. Something
else has begun. The boom psy-
chology is gone. Some youth sadly
are caught between the two
periods. There are fundamental
and primary needs. Human needs
in constant competition with
mechanical devices. There are
fundamental human needs that
machine products cannot serve.

The need to talk, to loaf, to sleep,
to lie on the grass, to enjoy the
out-of-doors, to get away from it
all.

There are happily ceilings over
the mechanical civilization being
defended by our Scouts, by our
hiking clubs, by camps, by our
youngsters generally, who in that
one respect are wiser than we
are with our grave figures on
American's capacity to consume.

With a quarter ball, and a milt
and a fifty cent but a small boy
will get more fun and enduring
pleasure than he will from the
elaborate mechanical devices con-
tributed by the human mind.

In 1929 we were consuming
700 pounds of steel for every
man, woman and child in our
country. This adds little to the
primary split. How much more
pig iron does it take to make a
pig iron? How much chilled steel
to make a woman? How many rad-
ios to make one life? That's the
split of our present existence.

We have places in our communi-
ties in commodities. There are,
as you well know, Friends, two
serious problems among youth
that youth must meet today.

The youth always been taught that
money is important. American
children have had relatively more
money than any other people in
the world. Money is a common
method of measurement. A chief
cause of delinquency today is due
to this desire for money and the
lack of it. Most of your young peo-
ple come from poor families.

THE SEVENTH-DAY ADVENT-
IST CHURCH

Members of the Sanford Seventh
Day Adventist Church participated
in the denomination's one day
drive, Saturday Mar. 25, and raised
\$100.15 in Sabbath School.

Some of the money will be used
to help complete a \$400,000 alter-
ated hospital in Pakistan. Mr. Bur-
rows Sabbath School superintendent
announced.

The hospital, located in Kar-
achi, the capital city, is nearly
completed and doctors and nurses
trained in American Adventist
medical schools are now making
preparations to go to the hospital
as medical missionaries the super-
intendent said.

Missionaries reports read to the
Sabbath school each Saturday
since the first of the year indi-
cate a "new interest" in Christi-
anity in Pakistan. Since its political
independence in August, 1947, a
spirit of freedom has been felt,
rapid social and religious changes
have taken place and hundreds of
thousands have shown a definite
interest in the story of Jesus
Christ, Leaders of the Country

"Welcome the cooperation and
help of Christians," he said.

Every three months, Adventist
Sabbath Schools raised over \$1,000,000
to carry on their established
mission program in 22 of the
countries of the world, the super-
intendent reports. One such mis-
sion is offering to build a hospital
in Pakistan.

John Payne, Gail Russell and Jeffrey Lynn peer over ship's rail in this scene from Paramount's "Captain China," Showing Thursday and Friday on the Ritz screen.

Manhunters

(Continued From Page One)

Turner insisted to officers, how-
ever, that he was in Opelika when
the women were attacked.

"I know I ain't been in a white
lady's house," he said "I'd like
to meet up with who did it and
give my name."

ARRON, O., Mar. 28—(AP) An
attractive, 19-year-old woman was
held under guard in city hospital
today, charged with drowning her
baby.

Police Captain John F. Struz-
ski said the woman, Mrs. Angelo
Rose Du Fala, had admitted hold-
ing the 11-day old infant, Thomas,
face downward in his bath water
yesterday.

The police captain said he had
not been able to determine a mo-
tive for the act. A psychiatrist was
called in to examine the woman
last night, but he reported she was
too agitated for immediate ques-
tioning.

Police said the woman's husband,
Thomas R. Du Fala, a rubber com-
pany worker, reported he found
her crying hysterically when he
came home. He rushed the child to
a hospital, but efforts to revive it
failed.

The baby was the couple's only
child. A first degree murder
charge was placed against the wo-
man after coroner C. I. Martin re-
ported the death a homicide.

By screening out sunlight, the
water chestnut can kill the micro-
organisms on which many fish
feed.

Chiang's Troops

(Continued From Page One)
fought inland from the Hainan
Island beaches. The planes at-
tacked. A third and smaller group
fought back with anti-aircraft fire.

Remnants of the Red Invading
force could be seeking to join Com-
munist guerrillas.

The Nationalists said their
landing one week ago at Chientiao,
150 miles south of Shanghai in
Chekiang province, was made to
deliver ammunition, medical equip-
ment and communications equip-
ment to guerrillas.

The landing force of 400 regu-
lars was met by a force of 3,000
guerrillas, the Nationalists said.

The report said the mission was
accomplished, indicating the regu-
lars had withdrawn.

Chiang, in a speech commem-
orating the death of 72 young men
slain in Canton 40 years ago dur-
ing an uprising against the Man-
chu dynasty, said international
Communism was trying to destroy
5,000 years of Chinese culture.

Mainland Chinese, he said, suf-
fer from famine, hunger and
"Ruthless Russian oppression
worse than that of the Manchu
autocracy."

He accused Red leaders Mao
Tse-Tung and Chu Teh of betray-
ing the China republic and "sub-
jecting the Chinese people to a
grave crisis and national humili-
ation unprecedented in our history."

"Four hundred million of our
compatriots have been subjected
to untold suffering and slavery,"
Chiang said. He called upon
China youth to "wipe out the traitors"
and "drive out the Russian
imperialists."

The Chinese press here reported
that Chinese Reds in one year had
shipped more than 1,000,000 tons
of rice to Russia from areas south
of the Yangtze River. Critics
blame this for the famine which
reports say has struck 50,000,000

Louis Johnson

(Continued From Page One)
chairman of the Senate Armed
Services Committee.

On the Schiphol airfield near
Amsterdam, the American defense
secretary met Queen Juliana and
Prince Bernhard who were wait-
ing to leave for Val D'Isere in
the French Alps to spend a two
week Easter holiday.

Johnson gave the Queen the
personal greetings of President
Truman and a basket of fruit that
on order of the President had
been picked in Key West.

Foreign Secretary Ernest Be-
vin, in announcing the date of the
meeting, said he foresaw a long
peace if the Atlantic alliance
grew firmer and the eastern world
could be held as its ally.

"I think the day is not far dis-
tant," said Bevin, "when the
growth of this power will create
a situation where there will be
no alternative but to negotiate, to
settle once and for all this pro-
blem that has cursed the world for
so long."

His words were taken to mean
he thought the Soviet Union, fac-
ing the combined Western
strength, would have no alterna-
tive but to negotiate with the
West on problems dividing the
world.

The meeting of the 12 foreign
ministers who make up the council
of the year old Atlantic Pact, was
called by U. S. Secretary of State
Dean Acheson, chairman of the
council, at Britain's suggestion.

Along with this meeting Bevin
announced that he, Acheson and
France's foreign minister Robert
Schuman would hold a separate
conference.

Thus, the Atlantic Pact machine
begins to roll into high gear. Be-
vin told Communism there was a
growing desire among the Allied
nations to deal with economic and
political problems as well as with
mutual defense.

In line with this the finance
ministers of the 12 nations met
here today to discuss arrange-
ments for financing the defense of
the allied Western world.

Military chiefs of staff of the
12 nations yesterday in the Hague,
Holland, adopted unanimously an
integrated plan assigning respon-
sibilities to each nation for the
defense of the whole alliance.

In Vienna, two armed secret
police now side in all Czech air-
liners to prevent further escape
flights to the West, it was re-
liably reported here today.

The new order was put into ef-
fect immediately. Three Czech
planes left their regular courses
and landed near Munich last week.
It applies to local as well as in-
ternational flights.

It was also reported that all
passengers are closely searched
for arms before being allowed to
enter the planes.

Beverages Chiefs

(Continued From Page One)
tributors and agents to prevent his
brands from entering illegal chan-
nels. If the distillers didn't stop
the flow, the states then could
prohibit legal sale of the brands
in question.

Winston and Redwine were
working for a South-west com-
pact fashioned around such a
procedure.

Winston said as much liquor
sold illegally in North Carolina as
is sold in the state-operated store,
with a loss of \$10,000,000 a year
in taxes.

Winston, Redwine and Chalmer
C. Taylor, director of the R. I.
liquor control commission, led the
move for today's joint meeting,
being held behind closed doors.

Other liquor enforcement chiefs
who accepted the invitation in-
cluded: Louisiana — Stephen B. Rodi,
chief counsel of the revenue de-
partment, and L. D. Meredith, as-
sistant to the collector of the be-
verage division.

Tennessee — James Clarence
Evans, commissioner of finance
and taxation.

Florida — Lewis M. Schatt,
director of the beverage depart-
ment.

Kentucky — Guy C. Shearer, di-
rector of alcoholic beverage con-
trol.

Virginia — J. M. B. Smith, di-
rector of the state liquor control
division.

Alabama — J. M. B. Smith, di-
rector of the state liquor control
division.

Georgia — J. M. B. Smith, di-
rector of the state liquor control
division.

South Carolina — J. M. B. Smith,
director of the state liquor control
division.

West Virginia — J. M. B. Smith,
director of the state liquor control
division.

Mississippi — J. M. B. Smith,
director of the state liquor control
division.

Louisiana — J. M. B. Smith,
director of the state liquor control
division.

Arkansas — J. M. B. Smith,
director of the state liquor control
division.

Oklahoma — J. M. B. Smith,
director of the state liquor control
division.

Idaho — J. M. B. Smith,
director of the state liquor control
division.

Montana — J. M. B. Smith,
director of the state liquor control
division.

Wyoming — J. M. B. Smith,
director of the state liquor control
division.

Utah — J. M. B. Smith,
director of the state liquor control
division.

Arizona — J. M. B. Smith,
director of the state liquor control
division.

California — J. M. B. Smith,
director of the state liquor control
division.

Washington — J. M. B. Smith,
director of the state liquor control
division.

Oregon — J. M. B. Smith,
director of the state liquor control
division.

Alaska — J. M. B. Smith,
director of the state liquor control
division.

Hawaii — J. M. B. Smith,
director of the state liquor control
division.

Lattimore Returns

(Continued From Page One)
technical assistance can help that
country. He was accompanied by
the other three members of the
U.N. commission.

As a preparatory mission, Lattimore
said, the group had met with
success. He added full agreement
had been arrived at with the Af-
ghan government and a working
committee would reach Kabul this
summer to continue the U.N. sur-
vey for three months.

Lattimore said he planned to re-
turn to Kabul before the new U.N.
mission.

The author who has been de-
scribed as an expert on Far East-
ern affairs said he resented the
description.

"I am an expert more on Cen-

tral Asia than on any other
sphere," he declared.

**Census Questions**  
The bit of rumour or inclusion of some personal questions in the census plans, such as the one about income for every fifth person, seems to have died down. It has seemed to some critics that the questions planned for this nose-counting were unnecessarily probing, but probably no more of such questions have been added to this census than were added to previous ones, by comparison with preceding sets of questions. Each time the census becomes more comprehensive, the resulting statistics more bulky and exhaustive. And each time the census becomes more useful.

**Secretary Johnson** insists the American defense budget is adequate to the needs of the moment. He said the Communists in Russia are worried about it; the Communists here at home, and we don't need a very large standing army to take care of them. The FBI with the help of the veterans back home, can do that.

**College Allowances**  
A writer on family budgeting reminds parents of the advisability of giving a college student an allowance to cover needs outside of tuition, room, board, laboratory fees and such out and direct expenses. Though many students earn part of their college expenses, in most cases a large margin is carried by parents. Young people who are even partially self-supporting are usually aware of the value of money and can appreciate it correctly. Those who have grown up under a system of allowances increasing with their age are likely to manage responsibly. There are a lot of college students who begin to handle funds that allot them properly, and much confusion of (even) parents. An allowance should be large enough to cover all needs. If it falls short and is supplemented by other funds from home, its purpose is defeated. Much unhappiness in later life may be avoided by the knowledge of primary economics. Marriages between young people, who have spent their careers on a well-thought-out financial basis have a great deal in favor of their success. This responsibility rests with the parents.

**Sanford Forum**  
Dear Mr. Editor: In the article from *Truckers' Journal* March 27th you quote Mr. Swain: "When the Farmers' Market was started in 1935... less than two per cent of the produce from this section was shipped by truck... today the situation is exactly reversed, and 50 per cent is shipped by truck." A lot of people will question this statement as true or even an approximation of the truth. The truckers do move a prodigious volume of perishable commodities including the USDA market people—knows approximately how much. It is known definitely, however that up to now they have not attained the volume of their competitors, the railroads. This is easily provable; all that need do is check the rail movement from Sanford last week, extend the figures on the forum, and talk done in the *Truckers' article*.

**MUSIC QUIZ**  
Charles Morrison, with Harry Weston accompanying on the piano, conducted another of his two per cent of the produce from this section was shipped by truck... today the situation is exactly reversed, and 50 per cent is shipped by truck. The program was given at a Kiwanis Ladies Night entertainment, and more than 200 Kiwanians and their wives were present.

**Sanford Forum**  
Dear Mr. Editor: In the article from *Truckers' Journal* March 27th you quote Mr. Swain: "When the Farmers' Market was started in 1935... less than two per cent of the produce from this section was shipped by truck... today the situation is exactly reversed, and 50 per cent is shipped by truck." A lot of people will question this statement as true or even an approximation of the truth. The truckers do move a prodigious volume of perishable commodities including the USDA market people—knows approximately how much. It is known definitely, however that up to now they have not attained the volume of their competitors, the railroads. This is easily provable; all that need do is check the rail movement from Sanford last week, extend the figures on the forum, and talk done in the *Truckers' article*.

Continued rather cold through tonight with scattered light frost interior of north portion but with slightly higher temperatures in most areas. Warmer Saturday, continued fair weather. Saturday north to northeast winds.

## Ambassador Grady Warns Greece That U.S. Aid Might Stop

**Marshall Plan Chief Lays Down Bundle Of Complaints Aimed At Government**

ATHENS, Mar. 31.—(AP)—U.S. Ambassador Henry F. Grady, in a tough-talking letter to the premier, warned Greece today that "only a government which can secure public confidence" can expect continued American aid.

It was the strongest language yet used by an official U.S. representative in a Marshall Plan country, and it raised immediate speculation that the United States has, in effect, invited Premier Sophocles Venizelos either to resign or to broaden the base of his government.

The letter, unprecedented in Greek-American relations since Marshall Aid began here, laid down a bundle of complaints against the Greek government: complaints of special privilege, inefficiency, subsidies, over-centralized power, high interest rates, superabundance of ministries, excessive spending, absence of an adequate social program and a number of others.

Venizelos, who has just formed a Liberal National union cabinet, was not available for comment immediately. His Liberal Party holds only 46 seats in the 250-member parliament, but elected but it has the backing of rightist groups. The only National Unionist in the cabinet is former Premier Pannoyotis Kanellopoulos, now vice premier and defense minister.

Rightists swing support to the government to block formation of a moderate centrist coalition under Gen. Nikolaos Plastiras, chief of the National Progressive Front party, which has been behind the leading Populists (Royalists) in election. The cabinet excluded Leftists. The center parties were given by charges from the progressives and Social Democrats that Venizelos double-crossed them by rejecting a coalition with them. The National Unionist of board.

## Bids For Seminole Athletic Building Are All Rejected

Bids on equipment intended for the new Seminole High School Athletic Building were yesterday rejected as too high by the County School Board, Supt. T. W. Lawton announced this morning.

Ranging from \$12,225 to \$18,000, the bids were for supplies including 100 wire baskets and racks for clothes, Mr. Lawton and Principal Herman E. Morris were instructed to secure further information from suppliers, and set samples of the products.

The Board, accompanied by Elton J. Moughtin, architect, visited and carefully inspected the new room, concrete block addition to the Midway School for Negroes. The addition included in it facilities a central heating system, fluorescent lights, sanitary facilities and drinking fountains.

Well pleased with the building, the board members thanked Mr. Moughtin for his careful supervision of the work and Paul Campbell, contractor, was complimented, said Mr. Lawton, for the manner in which he constructed the building.

The resignation of Otis Munnery, instructor of civics and assistant coach at the High School, was accepted with regret. Mr. Munnery, who also directed athletics at the Jr. High School, has accepted the position of the coach at Miami High School at a considerably higher salary. He will leave for Miami soon.

Provision was made by the Board for granting sick leave absence at full pay up to six days a year to school janitors, bus drivers and clerks. With the exception of the total accumulation of days, the ruling is similar to that given teachers.

The accumulative feature is that if a person is not sick the first year, he will be allowed 19 days absence for sickness the next year. The accumulation is limited to two years.

**POINT POOR BILL**  
WASHINGTON, Mar. 31.—(AP)—House Republicans today attacked President Truman's congressional Point Four program as Communist-inspired and a charade for a world wide WPA.

Democrats countered that it is vital to this nation's foreign policy. As the invasions approached the end of five years of bitter debate, point four remained the administration's three billion dollar program.

## 12 Nations To Okay Spanish Defense Entry

**Military Leaders Are Reported To Favor Leasing Of Airfields From Spain**

NEW YORK, Mar. 31.—(AP)—The flow of Army ground equipment for Western Europe starts today under the mutual defense assistance program. A line of heavy mountain guns for Italy was ready at the Army base in Brooklyn for loading (11 A.M. EST) on the freighter Edilona. The shipment is part of a billion dollar worth of military gear headed for Europe under the program of the North Atlantic Pact.

THE HAGUE, The Netherlands, Mar. 31.—(AP)—Atlantic Pact military leaders were reported today preparing to recommend letting Spain into the western defense system through the back door.

The military leaders, here for a meeting with the defense ministers of the 12 Atlantic Pact nations, were said to be favoring the leasing of air bases from the Franco government, rather than Spain's direct membership in the Western Defense Alliance.

Reliable sources said the recommendation would be put before the meetings of the pact nations' foreign ministers beginning in London May 8.

The majority of the 12 nations were reported as favoring Spanish participation in the pact program, with chief opposition presently coming from Great Britain. The French were said to be backing the British to some extent.

Uniform consent of the 12 nations is needed before use of the Spanish bases can be sought. Some officials of the U. S. State Department also have opposed bringing Spain into the Atlantic treaty group, but they were reported to have modified their views recently.

Informed sources here believe France will eventually withdraw her opposition to Spain if the British Labor Government is persuaded to abandon its ideological objections to the Franco regime.

Backers of the plan to utilize Spanish air bases contend these fields would permit U. S. strategists to fly shorter distances with consequent heavier loads to blast Russian transport and production centers in the event of war with the Soviets.

In addition, the mountain pass connecting Spain with the rest of Europe could be easily blocked off in the event the Russians should overrun the rest of the Continent, the military experts say.

Sources close to the conference here and the leasing of Spanish bases would be a purely military arrangement. It would not imply approval of the Spanish government, they asserted, any more than economic aid to Yugoslavia implies approval of the Tito regime.

Nor would the leasing imply, they contended, that the Western forces envisioned a withdrawal from the main continental area in the event of a Russian attack. Sources here emphasized Atlantic.

**John Sauls Is Chosen Company Club Head**  
John Sauls, local agent of the Peninsular Life Insurance Co. of Jacksonville, was recently honored by being chosen a member of the company's Presidents Club.

As a reward, Mr. Sauls and other members of the club will be treated to a five-day stay at the Hollywood Beach Hotel at Hollywood, Fla., starting April 6, and will be taken on sightseeing tours, and will attend banquets.

## Discussing Military Strategy

PRESIDENT TRUMAN and Secretary of Defense Louis Johnson confer on defense problems at home and abroad at the Little White House in Key West, Fla. They talked for two and a half hours, commencing at the conference of North Atlantic Treaty defense ministers beginning at The Hague on April 1. Johnson represents the U.S. (Continued on Page 2)

## Census Taking Starts Tomorrow In All US Villages And Cities

PHILADELPHIA, Mar. 31.—(AP)—Census takers tomorrow don't get the idea that Uncle Sam is pulling an April Fool joke. Don't slam the door in the census taker's face—you can be fined or jailed for that. Just answer his questions accurately. He is sworn by law to protect your secrets.

John J. Lennon, Philadelphia area supervisor and chief of the national census office, says that census takers will be courteous and helpful.

"I should take each person about 15 minutes to answer the questions," Lennon said. "I should take each person about 15 minutes to answer the questions." "I should take each person about 15 minutes to answer the questions."

From Maine to California, from Florida to Oregon, census takers will be on the road. The census takers will be on the road. The census takers will be on the road.

## Sanford Guard To Sponsor Showing Of World War Film

Company 1, 124th Infantry of the Florida National Guard will sponsor the showing of a war movie, "Battle of Britain," at the Mcintosh Hotel in Theater, Apr. 6 and 7. It was announced last night to the guardmen by Capt. David Galt.

The local Company will see a 100-cent out-of-pocket ticket to go into the organization for the film. The ticket will be parked at the Mcintosh Hotel during the showing of the movie.

Cleaning of weapons took place last night under the direction of Lieut. Ray Kader. The Company has openings for four more men. Drills take place on Thursday nights.

## Susie C. Blanford Dies At Age Of 67

Miss Susie C. Blanford, 67, died suddenly this morning at 9:30 A.M. She resided at 215 Maple Avenue. She was born Nov. 16, 1882 in St. Mary, Ky., and had lived in Sanford for the past ten years. She was a member of All Saints Catholic Church of this city.

She is survived by one sister, Mrs. J. R. Bullinger of Marietta, Tenn., two brothers, R. M. Blanford of Sanford and C. E. Blanford of Chattanooga, Tenn. Funeral arrangements will be announced later.

**CATHOLIC TRIAL**  
PRAQUE, Czechoslovakia, Mar. 31.—(AP)—The government-controlled radio announced today that "high-ranking Roman Catholic clergymen" went on trial at the Prague state court on charges of espionage and seditious activities.

The radio did not disclose the names of the clerics, nor did it give any other information beyond the bare announcement of the beginning of the trial.

## Lattimore Is Not U.S. Far East Architect, States Dean Acheson

**Lawmakers Say President Will Veto Farm Bill**

WASHINGTON, Mar. 31.—(AP)—Lawmakers today expected President Truman to veto a farm bill which would loosen controls over peanuts and cotton.

WASHINGTON, Mar. 31.—(AP)—The measure, passed by both the Senate and House, would loosen control over peanuts and cotton and reduce them on potatoes.

Several senators who asked that the bill be vetoed, said they had learned that Secretary of Agriculture Truman had recommended the bill to the President.

At Key West, a source close to the President said yesterday Mr. Truman had not yet decided whether to veto the bill.

Senator Acheson (D-Vt.) told a reporter Mr. Truman "would be exercising good political judgment if he vetoes this measure."

It is felt some trouble in the system if it will have a lot more later on in the year. Acheson, top ranking GOP member of the Senate Agriculture Committee, vigorously opposed the bill, though compromise was made.

**President Of Korea Postpones Election**  
SEOUL, Mar. 31.—(AP)—President Syngman Rhee today postponed Korea's national assembly elections from May to November.

Rhee said the delay was necessary to give the assembly time to adopt the 1950-51 budget, a requirement for continued U. S. aid. The current budget expires tonight. A new one must be voted quickly by the government.

November would be the best time for elections, Rhee said, because farmers would have then crops in.

Moreover, he added, there would be no leaves on the trees to provide cover for Communist snipers at voters. There were some snipers in the 1948 elections.

The Democratic Nationalist Party, strongest and wealthiest, said in a statement the administration was using the budget as an excuse.

## Navy Will Train About 6,000 Men From Colleges Over The Nation

WASHINGTON, Mar. 31.—(AP)—The Navy will train about 6,000 reserve officer candidates from 52 colleges this summer aboard ships and at its Air Marine Corps bases.

Senior and sophomore students will go to sea with the Atlantic and Pacific fleets, and juniors will get four weeks of aviation indoctrination at Pensacola, Fla., and two weeks of amphibious training at Luce Creek, Va.

In addition to the regular Naval reserve students, about 280 "contract" student midshipmen will cruise the Atlantic this summer aboard the escort carrier Mindoro and five destroyers.

Aboard 520 senior classmen who have been designated for the Marine Corps will undergo an eight weeks' training program at the Marine Corps schools in Quantico, Va.

More than 1,800 students from 28 colleges will leave from Hampton Roads, Va., on June 4 and July 28 for cruises with the Atlantic Fleet. In the Pacific, 940 student re-

## Secretary Of State Says Lattimore Spent Little Time In His Department

WASHINGTON, Mar. 31.—(AP)—Senator McCarthy (R-Wis.) today told a hospital today for treatment of a sinus condition. Secretary Wherry (R-Mo.) announced that fact to the Senate and asked permission for McCarthy to be absent from the Senate's session. Senator Connally (D-Tex.) quipped up: "How long?" Wherry: "Just today." Connally: "Is that all?"

WASHINGTON, Mar. 31.—(AP)—Secretary of State Acheson decried today that Owen Lattimore is not the architect of U. S. Far Eastern policy. He said he did not think in fact that he had ever met Lattimore.

Acheson commented at a news conference on Senator McCarthy's fresh charge of "Soviet Agent" charges against Lattimore, a Johns Hopkins University professor.

McCarthy, Wisconsin Republican, blasted Lattimore in a Senate speech yesterday. He charged that Lattimore has been the chief director of American policy in the Far East.

Lattimore himself has called McCarthy's charges against him "pure moonshine" and an "unmitigated lie."

Acheson pictured Lattimore's contacts with the State Department as "sharply limited to a few occasions." He and Lattimore never had been employed by the State Department.

Among other things, McCarthy told the Senate that they can produce a list of names who will appear that Lattimore was a member of the Communist Party.

McCarthy's office said today it would back up his charges. (Continued on Page Eight)

## Science Magazine Burns Article At Request Of AEC

NEW YORK, Mar. 31.—(AP)—Scientific American said today it had pulled a magazine article on the hydrogen bomb—written by a physicist—because the Atomic Energy Commission requested its removal.

The magazine's editor said the article was the type of a new article on the hydrogen bomb—written by a physicist—because the Atomic Energy Commission requested its removal.

The article was written by Dr. Hans Bethe, Cornell physicist and former theoretical physics chief at Los Alamos.

A spokesman for the magazine said the nature of the material in the article was the reason for its removal. He said the article was necessary to submit to the review commission for review.

Bethe, however, followed his usual custom of submitting advance copies of the article to various colleagues, the spokesman said, and one of the colleagues, a physicist, had written a letter to the AEC.

**TAFI SPEAKS**  
PORTLAND, Me., Mar. 31.—(AP)—Senators Taft (R-Ohio) and McClellan (D-Vt.) today said the "only way to get rid of the Communist in the State Department is to change the head of the government."

It can't be done, he said, with men in control who think Communists are only "red herrings."

**NOT GUILTY PLEA**  
NORFOLK, Va., Mar. 31.—(AP)—Capt. John R. Millett pleaded innocent today to charges of neglect of duty in the grounding of the battleship Missouri.

Millett was operations officer on the Big Mo when she ran aground in Chesapeake Bay Jan. 17.
