Error Acknowledged, Affidavit Dismissed

Council Hears Testimony On Building Department

By JANE CASSELBERRY Herald Staff Writer

WINTER SPRINGS — The city council heard witnesses under oath Tuesday night for the first time in the investigation of alleged improprieties in the conduct of the city building department by Building Official Ray Bradshaw.

Testimony on information contained in an affidavit submitted by Gary D. Hunt, 304 N. Hawthorn Circle, were Hunt, Bradshaw and members of the Planning and Zoning Board during May and June, Dave Moreland, John Newsome and Mrs. Marlene Roester.

The witnesses were questioned by the council and cross-examined by Bradshaw's attorney, Terrence W. Ackert of Altamonte Springs.

After four hours of inquiry and deliberation, the council dismissed the affidavit after voting 4-1 to acknowledge an administrative error had been made by the building department in issuing a permit for the Seminole Baptist Temple when plans did not meet setback requirements.

Councilman Donald Browning insisted on amending the motion to include "recognizing the administrative error was the result of a lack of procedures and policies in the department."

The council also agreed that in the future, building, subdivision and zoning sections of the code be given priority for concern by the council, zoning board and building department.

It was Hunt's contention that the lots in the Ranchlands section, on which the church had requested a conditional use permit, are part of a subdivision and under subdivision

regulations. He said in his affidavit that the code calls for all setbacks to be located 35 feet from both front and side lot lines, but the approved plans, on file in the Building Inspector's office, show a setback from the side lot line of only 12 feet and the drainfield is five feet from the side lot line and 22 feet from the front lot line.

Hunt said the front setback requirement of 35 feet specifies the parking area may not occupy any of the front yard setback. However, the church front building set back less than the overall length of the proposed parking lot does not allow enough remaining room to provide setback requirements to be met. A grass parking lot was approved instead of "graveled or hard surfaced" as required.

Hunt differed with Bradshaw's statement in the press that "the church site was approved by council and I had no right to withhold a permit once it was approved by council."

Hunt quoted from the section dealing with buildings and building regulations that, "If after examination, the building inspector finds no objection to the application and it appears that proposed work will be in compliance with the laws and ordinances, and the proposed work will be safe, he shall approve such application and issue a permit. If his examination reveals otherwise, he will reject such application."

Hunt, a survey party chief of Orange County and assistant to the county surveyor, also pointed out that three sets of plans submitted by the church were not the same and that the clay pit on the property was not shown on the first.

Members of the Planning and Zoning Board, which had

recommended to the council the denial of the request for the conditional use permit testified they had not been given the plans, but only a rough sketch on a piece of paper when the request was made.

The council overrode the P&Z recommendation to grant the request on July 21, and on Aug. 4 reversed its opinion voting to rescind the approval, but is now under a temporary injunction

by the court not to revoke the permit or take further action to prevent construction pending final court action.

Although it was stated at Tuesday night's inquiry that the P&Z Board chairman at that time was no longer living in the city but had moved out of town, Mrs. Karen Raley, clerk in the building department office, said today she had spoken to Mrs. Patrick at her home in

reference to preliminary plans Rev. Robert Clark, pastor of Seminole Baptist Temple, say were submitted to the board.

Clark today accused members of the board and the council of "half-faced lies" in denying they had seen the preliminary plans and claiming Mrs. Patrick was not available.

As to the plans, Mrs. Patrick recalled being shown an architect's concept of what the church would look like but is not sure if there was a floor plan.

However, she affirmed she had never seen a total set of plans. Mrs. Patrick said she would have been glad to appear if she had not hurt her leg.

Bradshaw maintained Tuesday night that because the council had approved conditional use it was not necessary to meet ordinary code requirements for a building permit to be issued for construction of the church in the residential area.

The council voted to consider, next Tuesday at 7:30 p.m., affidavits submitted by Robert Andersohn, Irene Van Epopei, Janice Mullins and J. T. Justice, all of whom will be called as witnesses plus two "John Does" and Mrs. Raley. The council refused a request by Mrs. Van Epopei to call Mrs. Mary Daniels and Mrs. Raley.

Williams, making his first bid for public office, collected about \$300 to mount his effort in the low-key campaign. He attempted to out Ferre because "too many problems relating to the quality of life in this city have been ignored," notably crime, housing and unemployment.

Ferre gathered almost the \$20,000 maximum in contributions but ran a sedate campaign, conducted largely by mailing four-page letters stressing his record to most of the city's 113,000 voters.

Across Biscayne Bay, Miami Beach Mayor Harold Rosen swept to an easy victory over two challengers. Final vote totals showed 50 per cent of the city's registered voters went to the polls, with Rosen garnering 16,332 votes to 3,493 for lawyer Edith Broda and 1,489 for homemaker Nina Herbert.

The race in Miami Beach involved a proposed financial-dis-

Ferre Trounces Challenger Williams

Miami Mayor Wins Election, \$150 Pool

By THE ASSOCIATED PRESS

Miami Mayor Maurice Ferre, a millionaire industrialist, was about \$150 richer today after winning a vote-prediction pool among 30 campaign workers as well as a lopsided victory for a second two-year term.

"I didn't want to part with the money (\$5) at first because I thought somebody else would guess better than I did," Ferre, 40, said late Tuesday. "But it looks like I won the bet and the election."

Ferre, an active Democrat, trounced challenger Peter N. Williams, 39, who gave up his job in a government-financed youth-counseling program to run in the non-partisan election.

With all 87 precincts reporting, Ferre had 22,470 votes to Williams' 4,037. Less than 25 per cent of Miami's registered voters went to the polls.

closure regulation and charges that the city had spent too much money on convention and tourist facilities.

In suburban Hialeah, Mayor Dale Bennett won a decisive victory over four challengers with a little more than half the city's voters marking ballots. Bennett, owner of an optical company, became mayor in 1974 after the death of longtime mayor and political boss Henry Milander.

The complete but unofficial vote count showed Bennett with 12,389, insurance agent George J. (Guy) Brickman with 5,003 and minority business association administrator Antonio Machado with 1,772.

Scoring poorly were construction-company president George Sarol, 466, and restaurateur Dorsey Summerlin, 197. The election in Hialeah, which has a 55 per cent Hispanic majority, focused on ethnic divisions.

PEOPLE

First Lady Of Philippines Speaks Out On Abortion

MANILA (AP) — The first lady of the Philippines, a heavily Roman Catholic country, says she supports abortion and divorce, "depending on the circumstances, the situation and the need."

Imelda Marcos, wife of President Ferdinand E. Marcos, in an interview released today also made reference to U.S. First Lady Betty Ford's attitude toward premarital sex.

Mrs. Ford, in commenting about how open relations are among members of the first family, said in a television interview that she wouldn't be surprised if the Ford's 18-year-old daughter, Susan, came to her some day and told her she was having an affair.

The interview, conducted two weeks ago by the government news agency, was released in the midst of a controversy here about legalizing divorce, which is banned, and promoting abortion as a means of birth control.

No Ill Will Among Arabs

JACKSONVILLE (AP) — The 150 million people of the Arab world never harbored ill feelings toward Americans, even during periods of misunderstanding, says Mrs. Anwar Sadat.

The wife of Egypt's president, who was in Florida the past four days, told a crowd of 300 at Jacksonville University Tuesday night that "our people stand ready and hopeful, as they have always been, extending the hand of friendship, looking forward to the best of relations with the people and government of the United States of America."

Mrs. Sadat expressed hope that the visit by her husband, herself and their four children will help establish peace and stability through the world.

Titled Briton Loses Funds

LONDON (AP) — A titled Briton now living in Jamaica lost most of his income from a family trust fund here because his second wife, a former showgirl and beauty queen, is not Jewish.

By marrying his second wife, Pamela, 35, in 1968, Sir Bruce Adolph Reginald Tuck, 49, who lives at Montego Bay, lost his entitlement to most of the income from the fund, High Court Judge John Whitford ruled Tuesday.

The judge said Sir Bruce's grandfather, Sir Adolph Tuck, had tried in the trust settlements to ensure that the dignity and honor of his baronetcy, which he considered was conferred not merely on himself but for the Jewish race, should go to successors of Jewish faith and blood.

The amount Sir Bruce had received from the trust was not disclosed in court, but the British Press Association reported his annuity had been some \$6,300 annually and now would be no more than \$50.

The bulk of Sir Bruce's lost income will go to the fund's trustees to apply under various terms of the settlement.

GOP Challenger In Near-Tie In Mississippi

By THE ASSOCIATED PRESS The strongest Republican challenge for the governorship of Mississippi in this century ended in a photo finish today and Kentucky Gov. Julian Carr rolled away an antiblackbacklash threat in off-year elections. Women were elected lieutenant governors in the two states.

With nearly 80 per cent of the Mississippi vote counted, Democrat Cliff Finch had 50.5 per cent of the total, polling 283,200 to 242,400 for Republican Gil Carmichael.

Black independent Henry Jay Kirksey held the balance with 14,392 votes and threatened to throw the race into the state House of Representatives if Finch's lead slipped below an absolute majority in the final returns.

The voters in both Kentucky and Mississippi picked women as lieutenant governors Tuesday. But the women's rights cause suffered a stunning setback when voters in New Jersey and New York rejected state versions of the federal Equal Rights Amendment.

With New York's fiscal problems on the minds of voters, a number of large bond issues lost, including a record \$4.5 billion package in Ohio, \$922 million in New Jersey and \$250 million in New York.

The Democrats kept legislative control in four states: Kentucky, Mississippi, New Jersey and Virginia.

roll easily won a full four-year term in the post he inherited when his predecessor, Wendell Ford, went to the U.S. Senate.

The 44-year-old Carroll, a Paducah attorney and racial moderate, piled up big margins in predominantly Democratic rural areas and held down Republican Robert Gable's expected big margins in the suburbs surrounding Louisville.

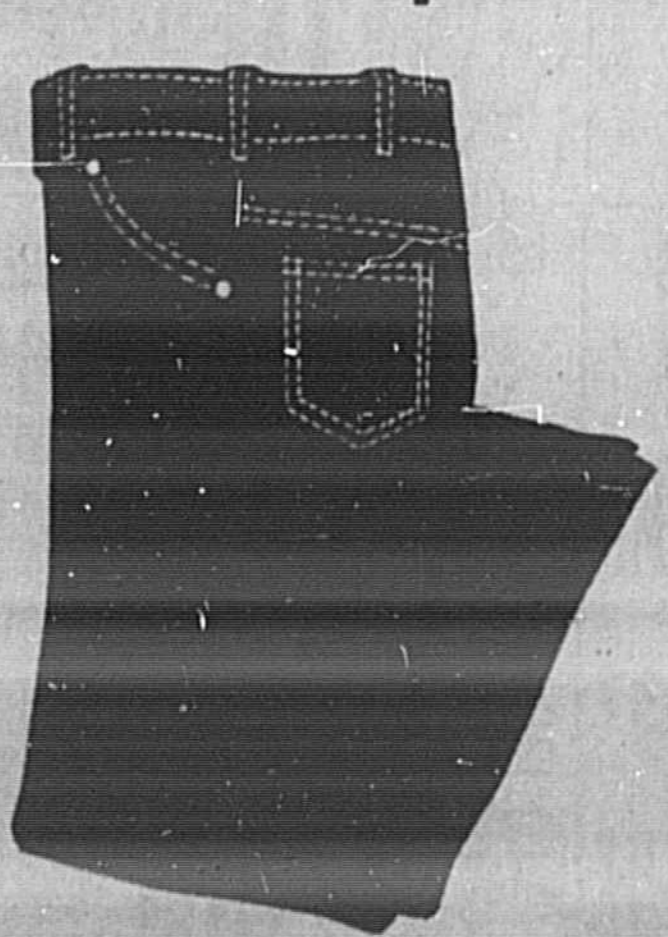

Both candidates had deplored the court-ordered busing that rocked that city this fall. But the anti-incumbent feeling feared by Carroll supporters never materialized.

In the lieutenant governor's race, Thelma Stovall, 56, now secretary of state, defeated her male Republican opponent, businessman Shirley Palmer-Ball.

In the day's major municipal contests, winners included Mayors Kevin H. White of Boston, Ralph Perk of Cleveland, Frank Rizzo of Philadelphia, William Donald Schaefer of Baltimore and Maurice Ferre of Miami.

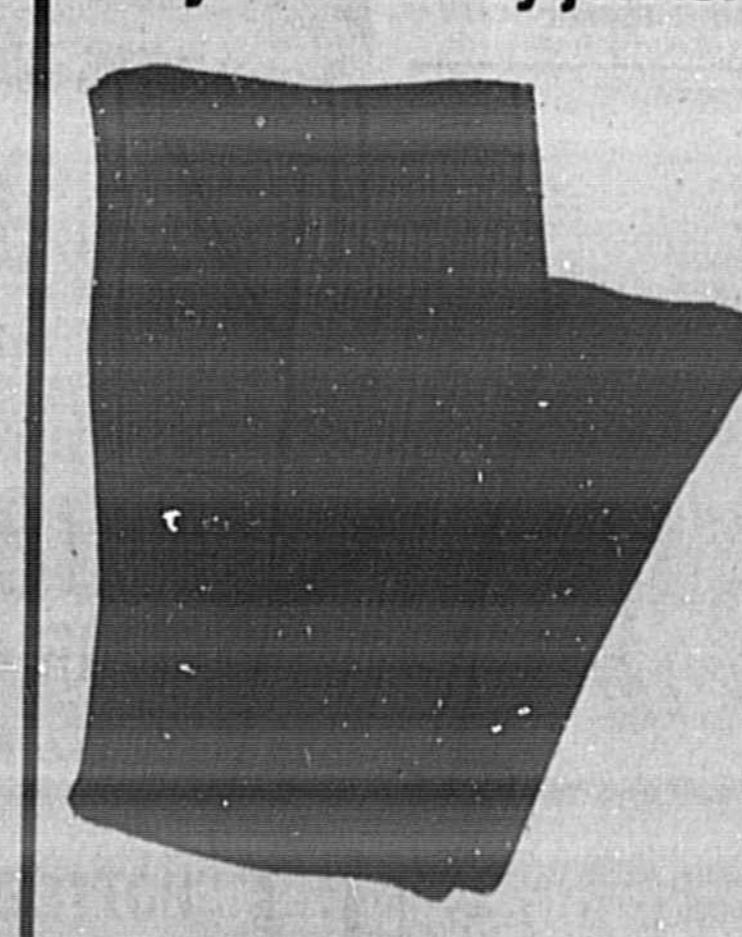

In the only major surprise, Democratic Mayor Albert Hofstadter of Minneapolis was unseated by the man he had beaten two years earlier, policeman and former Mayor Charles Stenwig.

Drainage Action Slated Tonight At Altamonte

ALTAMONTE SPRINGS — City commissioners will meet at 10 a.m. Friday to award a contract to correct drainage problems from an office building parking lot on SR 436. Also on the agenda is a report from consulting engineer, Bill Palm of Glace and Radcliffe, on the feasibility of fluoridating the city water supply. Differences in what Palm says the city owes northwestern sewer district contractors, Associated Building and Contractors, and what the firm contends is due them will be discussed. At the city commission meeting Tuesday night, Palm reiterated that Associated is due from its contract including \$14,345.35 in change orders, a total of \$59,588.35. Associated, meanwhile, contends it is due \$108,000 on the contract and \$40,000 in change orders for a total of \$148,000. The city has notified the contractors it intends to assess the \$100 damages for each day past the scheduled completion of the job until the work is done. Representatives of the contracting firm are being invited to Friday's meeting. Bids received Tuesday on the drainage work ranged from a low of \$5,500 to \$9,020. Palm asked for a delay in recommendation until he can look into the background of low bidder, D and R Tractor Service. The city some weeks ago notified owners of the office building in San Sebastian Ballard Street where the city to Square, where a parking lot is

Record Turnout Also Sweeps Buschman Into Office Altamonte Re-Elects Floyd In Landslide

By DONNA ESTES
Herald Staff Writer

ALTAMONTE SPRINGS — City voters Tuesday gave a landslide re-election victory to Mayor Norman Floyd, turning out in record numbers at the city's three polling places. Garnering 61.4 per cent of the 1,228 votes cast, Floyd swept into office with him political neophyte, Glen Buschman for a first term on the city commission. Buschman defeated three-term city commissioner Helen Keyser, in her first contested election. A 48.3 per cent turnout of the eligible voters surprised city political prognosticators including City Clerk Phyllis Jordahl who earlier had "optimistically" predicted no more than 1,600 would cast ballots. The totals certified by a canvassing board shortly after the polls closed showed Floyd with 1,186 votes to Lawrence Swofford's 730, 17 votes less than he received in 1973 when Floyd defeated him the first time. Buschman received 1,126 to

supposedly flooding adjacent properties, that if the drainage problem was not corrected the city would take action and assess the property the costs. Mayor Norman Floyd insisted on the special meeting Friday, noting the commission authorized action by adopting an emergency ordinance and "I would hate to see another rain flood the people out." Next week's commission meeting was cancelled because of Veterans Day. In other business, the commission continued until Nov. 18 action on an appeal from O.T. Sims on his occupational license renewal for a lumber sales on SR 436 near Spring Oaks Boulevard. Floyd has said the business at the lumber sales has been expanded to include items forbidden by the zoning ordinance including used machinery. Payment of \$374,194.20 was approved to Tuttle White and Lee Construction on a joint venture of building the regional sewer plant on Keller Road. Also approved was payment of \$5,812.91 to Glace and Radcliffe for engineering services on the project. A resolution was adopted requesting installation of a railroad crossing device on Ballard Street where the city to Square, where a parking lot is

School Bus Pot Smoking To Be Aired At Meet

(Continued From Page 1-A)

The State House Education Committee this week promised to launch an investigation into possible changes in the 1930 law which set the two-mile limit when traffic hazards were far less. Rep. Steve Pajcic (D-Jacksonville) said that since most hazards were caused by autos, the cost of busing more children should perhaps be borne by adding one cent to the gasoline tax. Mrs. Telson said her ad hoc

committee will meet again at 9:30 a.m. Nov. 20 in the board's conference room on Commercial Street. "We're trying to define 'hazardous,'" said Dick Barnett, committee chairman and principal of Lake Brantley High School. The third issue to come up at tonight's meeting is a report from Jerry Derrington, of the Sterling Park Homeowners Association, requesting

WORLD IN BRIEF

Four Killed in Massacre As Struggle Continues
NEW DELHI, India (AP) — Four close associates of Bangladesh's murdered President Mujibur Rahman today were reported killed in a jail massacre in Dacca that apparently touched off the power struggle this week in the young nation's army. Radio Bangladesh announced the deaths of former Vice President Nazrul Islam, former Prime Ministers Masud Ali and Tajuddin Ahmed and former Home Minister A.H.M. Kananurazam. Once among the most powerful men in Bangladesh, they were jailed on corruption charges after Sheikh Mujib was overthrown and killed in a coup last Aug. 15.

Spanish Army Increases Patrol
EL AAIUN, Spanish Sahara (AP) — The Spanish army increased border patrols today as Moroccan officials vowed to go ahead with the march of 350,000 unarmed civilians into the Spanish Sahara following the failure of negotiations in Madrid. Most of the troops stationed in the territorial capital have been sent north toward the Moroccan border to repel the Moroccan marchers gathered in Tarfaya, 18 miles north of the border.

Lebanese Emerge From Homes
BEIRUT, Lebanon (AP) — War-weary Lebanese emerged from their homes despite some curfew today to take advantage of a "paycheck trace" in Beirut's Moslem-Christian street war. Traffic snail up downtown. Security forces joined gunmen of both sides in tearing down roadblocks and supervising the withdrawal of mortars and rocket launchers. But few expected the cease-fire — now in its third day — to last.

Next time you do a load of wash, think about how much oil you're using.

We admit, it's not something one often thinks about. But we do.

Because most of the electricity we generate depends on oil. An enormous amount of oil. And we have to buy that oil at market prices that have tripled since 1972.

Fact is, our fuel oil costs have soared to over a million dollars a day. Fuel comprises 59% of our total operating costs. Or to put it another way, our '74 fuel bill was more than three times our entire net income.

That's why there's a fuel adjustment charge on your electric bill. Your fuel adjustment charge goes to help pay that million dollar a day fuel bill. We don't keep one cent of that money. And frankly, we don't like paying that kind of money for oil any more than you do.

What are we doing about it? For one thing, we're building more nuclear power plants. Nuclear power is the least expensive source of energy available to us today. A dollar's worth of nuclear fuel, for example, produces the same amount of electricity as \$12 worth of oil.

Through the use of nuclear generated power, we saved nearly 14 million barrels of oil during the past 12 months (ending in September) representing a fuel cost savings of more than \$161 million.

We're also exploring exotic energy alternatives for the future. Such as solar energy. Tidal energy. And synthetic fuels.

In short, we're doing all we can to keep the costs of your electric bill down. For now. And for the years ahead.

May Be 8-10 Years Before Metro Is Completed Washington's Subway System Faces Many Problems

EDITOR'S NOTE — When the new subway in the nation's capital finally opens, the fare might be one of the highest in the nation for public transit. But still, Metro might lose money.

By JAY PERKINS
Associated Press Writer
WASHINGTON (AP) — The nation's capital. The subway of the future. The right place. The wrong time.

This town, strangled by vehicular traffic and growing car by car, set about to build itself a subway — the most advanced subway ever — a way to untie the streets.

But today, with soaring costs, labor disputes and minority hiring practices, design and environmental problems, some officials are suggesting that the already delayed opening of the first line be delayed again.

They call the subway the Metro in Paris, and they call it the same thing in this city, originally designed by a Frenchman. It is to be an ultramodern 88-mile network that someday will connect the hub of this city with the suburban and urban people who make the city work.

The troubles of Metro not only spell problems for residents of the already congested Washington metropolitan area, but also for the visitors expected to tour the nation's capital next summer to celebrate the country's Bicentennial. The subway was to have hauled a lot of tourists.

The problems of Metro also point out possible pitfalls for other cities currently building or considering subways of their own. Atlanta and Baltimore recently broke ground, Buffalo and Miami both have requested federal funds. Los Angeles, St. Louis and Houston all have considered subway systems as part of their transportation plans. Once estimated to cost about \$2.5 billion, Metro's price tag now is estimated at nearly \$4.5 billion and even more cost overruns could occur before the system is finished in the mid-1980s.

When construction began in 1968, the goal was to complete the subway by 1980. For the Bicentennial, 22.6 miles were to have opened next year, but because of the delays only a 4.6 mile segment in downtown Washington is completed. It's now being tested and will open in February. The remaining 18 miles are to be ready early in 1977.

Officials of the Metropolitan Area Transit Authority predict the authority will lose \$100 million a year during the first five years of subway operation. Much of the loss, however, will be from the authority's bus operation, which has a \$22 million deficit this fiscal year and is expected to lose \$64 million next year.

Metro is the second high speed subway system built since World War II. Its designers claim it is superior in engineering and design to the first post-war system, the Bay Area Rapid Transit system, or BART, linking San Francisco and Oakland.

Resembling a giant eight-legged spider, with its body straddling the District of Columbia, Metro's routes stretch 12 miles into Virginia and nine miles into Maryland, a series of loops in and out of town.

The trains will be fully automatic, with computers regulating speed, spacing of trains, starts and stops. An engineer will be on board each train to answer questions and to take over operation in case of emergency.

The fare system will use special magnetic fare cards purchased from vending machines in denominations ranging from 20 cents to \$20. The fare will be paid by inserting the card into a turnstile computer at the start and stop of each trip. The computer will figure the fare between the two stations, deduct that amount from the card's value, and print the remaining value on the card's face.

Nevertheless, Metro has been beset by problems since its inception.

A public education campaign failed to prevent opposition from environmentalists and

several segments of the line have been tied up by lawsuits. Lawsuits also forced Metro to add elevators for handicapped riders who cannot ride escalators.

Minority owned firms couldn't meet the financial bonding requirements for large projects and demanded that Metro further subdivide the contracts to give them a piece of the pie. In addition, labor disputes slowed work.

But the biggest problems have been inflation and its impact on financing.

Congress voted the funds on a two-thirds federal, one-third local arrangement. The usual Department of Transportation funding provides four-to-one federal aid. Metro went to revenue bonds for the rest.

But inflationary costs left Metro about \$1 billion short, and it has maneuvered with the District of Columbia and the Department of Transportation to raise needed cash. Even with government help, Metro still looks to come up about \$600 million short of the estimated \$4.6 billion price tag.

Metro also has not decided how much to charge for rides. It used a rush hour formula of 30 cents for the first mile and 10 cents for each additional mile in its figuring, but that fare has not been adopted. In New York City, a passenger can ride all day, if he's inclined, for 50 cents.

The money problems have put additional strain on the fragile relationships between the District and the communities in Maryland and Virginia that are sharing the subway.

Golden Games Nearing

The countdown for the Golden Age Olympics reached five days and counting today as plans were finalized in a morning meeting at the Sanford Chamber of Commerce.

The first public show of strength for supporting the week-long varied competition for senior citizens 55 and over will come Friday at 9 a.m. in the marina parking lot when a special wheelchair race will be staged.

Contestants in the Olympic preview will include Seminole County personalities and county commissioners and city officials.

"It is only a dry run," said Chamber of Commerce Director Jack Horner. "The real wheelchair race won't come until the following Friday."

The 18-event series stretches from Monday through Saturday of next week.

Kicking off the slate Monday will be billiards (9-1), checkers (1), dominoes (1) and pingpong (9-1).

Tuesday's schedule includes bowling (1 and 3), golf (10) and tennis (9). On Wednesday,

Golden Age Olympics medals are displayed by, from left, Dick Oswald of McDonalds, sponsoring Chamber of Commerce, Director Jack Horner, Sanford Mayor Lee Moore and Golden Age Committee chairman Vic Arnett. (Herald Photo by Bill Vincent Jr.)

Herschel Nissenson's Picks

Big Eight Eyes Glued To Nov. 22

NEW YORK (AP)—All eyes in the Big Eight are beginning to look ahead to Nov. 22 when Nebraska invades Norman, Okla., for its annual showdown with Oklahoma. This one likely will determine the conference champion and contender for the national championship.

Florida faces another hurdle Saturday at Jacksonville as the Southeastern Conference hungry Gators meet arch-rival Georgia in what is usually billed as the world's greatest outdoor cocktail party. And it's usually a barn-burner on a field.

The only folks not looking ahead to Nov. 22 are Coaches Barry Switzer of Oklahoma and Tom Osborne of Nebraska. They're more concerned with Nov. 8 when Oklahoma enters into the A&M fire for the Mustangs. And it will be hot because of last year's upset ... Texas A&M 28-10.

Alabama at Louisiana State: Bear Bryant hardly ever loses to ex-pulls and Cholly Mac has had trouble beating anyone this year ... Alabama 31-7.

Purdue at Michigan: Bollinger is looking over last year's 51-0 rout. Wolverines are boiling over last week's officiating in the Minnesota game.

Illini do what Indiana almost did? Uh-Uh ... Ohio State 34-14. Southern Methodist at Texas A&M: Out of the Texas frying pan into the A&M fire for the Mustangs. And it will be hot because of last year's upset ... Texas A&M 28-10.

Alabama at Louisiana State: Bear Bryant hardly ever loses to ex-pulls and Cholly Mac has had trouble beating anyone this year ... Alabama 31-7.

Purdue at Michigan: Bollinger is looking over last year's 51-0 rout. Wolverines are boiling over last week's officiating in the Minnesota game.

Gators Set SEC Rushing Pace

BIRMINGHAM, Ala. (AP)—Florida sets a consistent pace for Southeastern Conference football teams in rushing while Alabama dominates the rushing defense.

The Gators gained 341 yards on Auburn last week for an eight-game average of 335.4 yards.

Alabama held Mississippi State to 106 ground yards for a defensive season-average of 81.1 yards yielded.

Bama is second in rushing yardage with 388.5 per game. Kentucky is a distant second in defense by allowing 158.6 yards. Alabama has made 30 touchdowns by rushing and has held opponents to three.

In passing statistics, Tennessee holds the top spot with an average of 155.4 yards per game. Ole Miss earned 149 air yards against Louisiana State to gain on the Vols with a net average of 108.2 yards.

Georgia took over the lead in pass defense with an average yield of 90.5 yards per game when previous leader Kentucky was tagged for 265 yards by Tulane. That dropped the Wildcats to seventh.

Vanderbilt is the pass defense runner-up with 92.9 yards. In percentages, Ole Miss connects on 54.5 per cent of its passes, while Mississippi State allows only 42 per cent completions. Georgia has intercepted 11 passes and lost only three.

Tennessee and Florida have 10 touchdowns passes. Alabama and Kentucky have each allowed only two.

Florida is the SEC leader in total offense with 433.5 yards per game. Alabama is the total defense leader, allowing only 173.5 yards.

Goff To Start For Georgia

ATHENS, Ga. (AP)—Ray Goff, who missed last week's game because of an arm injury, has been named to start at quarterback Saturday in Georgia's Southeastern Conference football battle with Florida.

Goff started the Bulldogs' first seven games but was sidelined last Saturday with a swollen left elbow. He was replaced by 1974 starter Matt Robinson, who guided Georgia to a 28-24 triumph over Richmond.

Goff worked out in a lengthy scrimmage Tuesday, Coach Vince Dooley said.

He also said offensive guard Joel Parrish, sidelined three weeks with a leg injury, in a probable starter against the 11th-ranked Gators in the regionally televised game of the Gator Bowl in Jacksonville.

Dooley said placekicker Allan Leavitt, hobbled with a leg injury, worked out for the first time in three weeks but remained questionable for Florida, 7-1 and tied for the SEC lead with Alabama at 4-0.

Running back Glynn Harrison and defensive back David Schwab were named co-captains for the contest.

Georgia is 6-2, 3-1 in the SEC.

Cuban Baseball Game In Works

GARDEN CITY, N.Y. (AP)—Plans are nearing completion for a major league all-star baseball team to travel to Havana next spring to play a Cuban team, the Long Island newspaper Newsday reported today.

Newsday said in today's editions that negotiations for the game began last year and apparently have continued with the knowledge of both Cuban Prime Minister Fidel Castro and Secretary of State Henry Kissinger.

"It's no secret in baseball circles that since Sen. (George) McGovern's trip to Cuba, baseball people have been interested in Cuba," a State Department official said. "The baseball commissioner has been talking to (Assistant Secretary of State for Inter-American Affairs) William D. Rogers about it for a long time."

The game is seen both as a diplomatic tool and a television spectacular that will bring dentists between the two nations into the living rooms of America, Newsday said, adding that ABC is negotiating for the rights to broadcast the game live from Havana.

"It's no secret in baseball circles that since Sen. (George) McGovern's trip to Cuba, baseball people have been interested in Cuba," a State Department official said. "The baseball commissioner has been talking to (Assistant Secretary of State for Inter-American Affairs) William D. Rogers about it for a long time."

'Big Game For Us' Tribe's Posey Wary Of Lyman

By JIM HAYNES Herald Sports Editor

Seminole High football fans get back in the swing of waiting for Tim Raines to break for the long TD or for the Seminoles' sparkling defense to jolt the opposing quarterback Friday night at the Seminole High Stadium.

Lyman is the opponent, perhaps no easy victim. "But Seminoles fans are in a world of their own. That special bedlam of expecting victory has been rewarded in five of seven games this season.

Last week, that special breed of sports fan was at a loss, because the team was idle. Friday night, the Seminoles aren't expected to be idle. Not against Lyman.

Coach Jerry Posey has the Lyman game figured as a toughie. "Lyman has a strong quarterback, a good fullback and another back who can burn you once he gets past the line of scrimmage," he says. "It's a

Pate, Galbraith Tied For PGA Qualifying

ORLANDO (AP)—Jerry Pate, 1974 U.S. Amateur champion from Pensacola, Fla., and the University of Alabama, is tied with unattached pro Sandy Galbraith for the lead today going into the third round of the PGA Fall Qualifying School.

Pate, 27, fired a three-under-par 69 in Tuesday's second round to tie Galbraith, 30, of Huntington Beach, Calif.

Galbraith, attending the school for the fourth time, shot the fourth round, a 71 for a two-round total of 139, five-under-par. He was tied for

third place at 68 with three other players after Monday's opener. The two leaders are competing with 173 other golfers for tournament-playing privileges for next year.

Jim Palmer Stays Home; Learns Of Top Award

BALTIMORE (AP)—A warm, sunny day in the off season usually finds Jim Palmer on the golf course.

But while the skies were bright and temperatures reached the mid 70s Tuesday, the Baltimore Orioles' right-hander stayed in his backyard garden, waiting for the telephone to ring.

The choice paid off. Late in the day, Palmer received a call telling him he had been named winner of the Cy Young Award as the American League's top pitcher.

"I was out in the garden spreading mulch when I found out," said Palmer, a Cy Young winner for the second time in three years. "Normally on a day like this I would have been playing golf, but I knew the award was supposed to be announced so I decided to stick close to home."

Cook Of The Week Party Fare Brightens Holidays

With the holiday season rapidly approaching, Flo Pemberton is preparing to don her apron and not take it off until the festive weeks are over. Cooking for Flo is big business, especially around Christmas and New Year. Managing the Airport Inn Restaurant and her own catering business in Sanford, Flo looks forward to the hectic holiday season with pleasure. "The secret to successful cooking," she says, "is to cook with your heart. I put a lot of feeling into my cooking and that's why it tastes so good. When I needed a job, I took the thing I do best—cooking—and built it into a business." A successful business it is too, and Flo never tires of receiving compliments for her efforts. Prominent people have partaken of her fare, including Gov. Reubin Askew who is reported to have commented to Flo, "Your culinary art is outstanding!" It should be, considering Flo's background. Her mother was born in Sicily, and passed along to Flo a marvelous heritage of Mediterranean cooking. "Italian cooking is my specialty," she says without hesitation. "That's definitely what I love to do best, especially for my family at traditional holiday times." But Flo's culinary talents spread far beyond her own kitchen. Whether it's the delicious home-cooked meals she prepares daily for the public in the Airport Inn Restaurant, tasty snacks for a party or a full sit-down dinner for four or five hundred people, Flo's "cooked from the heart" flavor shines through.

Flo Pemberton wins compliments galore with her holiday hors d'oeuvres

She also does heavy industrial catering and can feed as many as one thousand persons three times a day, and is the only FDA approved flight caterer in the Sanford area. "I'll come into your home and serve hot hors d'oeuvres, venison with champagne, stuffed eggs with wild rice, barbecue, or flaming dessert," she says with characteristic enthusiasm. No cooking project seems to ambitious — or too simple — to ignore. With the festive season and its accompanying parties approaching fast, our Cook of the Week has decided to share some of her most compliment-gathering hors d'oeuvres recipes with The Herald readers.

While catering is Flo's trade at present, her ambition is to become a consultant in this field. For the time being, she says she'll happily advise, free of charge, on any holiday or wedding parties being planned for the festive season. Contact Flo at the Airport Inn Restaurant. "I'm not a chef out of any school," smiles Flo. "I guess I just have natural talent and work hard to develop it." Four years of living in Europe have added an interesting foreign flair to her dishes. Flo is the mother of three daughters, Karen, 20, is a criminal justice planner and reserve police officer in St. Petersburg; Debra, 20, is a Winter Park Telephone operator and Lynn, 19, who lives in Sanford, works at Mid-Florida Savings and Loan in Deltona and also does television commercials and modeling.

CHICKEN DRUMETTE CIACCATORE
5 lbs. chicken drumettes salt and pepper
2 no. 3 cans plum tomatoes
4 large bell peppers
1/2 cup dry white wine
1/2 to 3/4 cup oil
garlic powder
flour
Wash chicken and roll lightly in flour that has been seasoned with salt, pepper and garlic powder. Heat oil in skillet and fry chicken over low heat until golden brown.
Set chicken aside and drain off most of the oil. Cut peppers in strips lengthwise and saute in remaining oil. Return chicken to skillet with peppers. Add tomatoes and more salt, pepper and garlic powder to taste. Simmer ten minutes.
Add white wine and bring to a boil. Remove from fire, transfer to chafing dish, and guests will enjoy a treat they'll never forget.

BARBEQUE MEATBALLS
2 lbs. ground chuck
pinch salt
pinch pepper
3 eggs
ketchup, 48 oz. size.
1 can beer.
In bowl, mix ground chuck, salt, pepper and eggs. Roll into tiny meatballs. Place on sheet pan and cool in refrigerator.
In saucepan, combine ketchup and beer. Heat slowly. Add chilled meatballs and simmer about ten minutes. Transfer to chafing dish. Serves 20 to 30.

PEMBERTON 'PIZZA'
3/4 cup mayonnaise
1 large onion, chopped very fine
1 cup grated parmesan cheese
1 loaf brown bread
Slice bread, cut slices in quarters. In bowl, mix mayonnaise and onion, add cheese and stir. Mixture should be a thick batter — if not, add more cheese.
Preheat oven to 375 degrees. Spread batter on bread and sprinkle a little extra cheese on top. Place on cookie sheet and bake until golden brown.
Serve hot and watch your guests go wild! Serves 20 to 25.

MARINATED ARTICHOKE HEARTS
2 doz. small artichoke hearts, canned
1 lemon
Wash mushrooms, drain and dry lightly with paper towels. Let stand on towels.
For stuffing, carefully remove stems and chop fine. In bowl, mix chopped stems, salt, pepper, garlic, parsley and tomatoes and oil.
Spray cookie sheet to prevent sticking. Place mushrooms in rows on sheet. Add one teaspoon tomato mixture to each mushroom. Sprinkle mushrooms with stuffing mixture and breadcrumbs. Bake at 350 degrees until breadcrumbs are golden brown. Serve hot and wait for the compliments to fly! Serves 25.

No Surprises For Shoppers

Market Basket Prices Are Steady

By LOUISE COOK
Associated Press Writer
Supermarket shoppers found over-all grocery bills stayed fairly steady during October, an Associated Press market basket survey shows. Increases in the price of chopped chuck, frozen orange juice and butter were balanced by declines in the cost of eggs, hot dogs and sugar.
The AP drew up a random list of 15 commonly purchased food and nonfood items, checked the price at one supermarket in each of 13 cities on March 1, 1973 and has rechecked on or about the start of each succeeding month.
During October, the market-basket total at the checklist store increased in six cities, up an average 3 per cent, and decreased in seven cities, down an average 2 per cent. Over-all, the bill at the start of November was about a third of a per cent higher than it was a month earlier.
The situation was similar to that in September when the bill also increased at the checklist store in six cities and declined in seven.
The U.S. Department of Agriculture has predicted that food prices will increase about 9 per cent during 1975, compared to a 14-per-cent-boost last year.
The biggest price fluctuation so far this year has been in sugar. At the start of 1973, a five-pound sack cost about \$3. Prices have declined steadily since then and now average about \$1.40 for a five-pound sack.
If sugar is included in the total, the AP survey shows the market-basket bill has declined since the start of the year at the checklist store in 11 cities. If sugar is not included, however, the survey shows the market-basket bill has increased at the checklist store in every city, up an average of 8.9 per cent.
Among other findings in the latest survey:
—The price of chopped chuck increased at the checklist store in nine of the 13 cities surveyed.
The biggest boost was in Salt Lake City where the price of a pound of chopped chuck went from 73 cents to 85 cents, an increase of 16 per cent.
The higher prices reflect the grain-fed beef that is coming to market. Earlier this year,

much of the meat in the supermarkets — particularly for hamburger — was less expensive grass-fed beef which generally is leaner and, some people believe, less tender than the grain-fed variety.
—Egg prices, which had been rising in recent months, dropped again. The price of a dozen eggs declined at the checklist store in nine of the cities surveyed and increased in the other three cities.
—The price of a pound of butter increased at the checklist store in eight of the cities surveyed, reflecting higher milk prices.
—Frozen orange juice prices, which have stayed steady for more than two years, increased last month. The price of a six-ounce can of frozen orange juice concentrate went up at the

Theta Epsilon Girls 'Discover America'

'Discover America via Beta Sigma Phi' was the theme of Theta Epsilon's girls' rush social held at the home of Yvonne Ferguson. Rusheses attending were Judi Kramer, Diane Crump, Patsy Mossman, Bobby Hood, Brenda Nelms, Betty Davis, Babs Pedder, Pat Kennedy and Cindy Szabo.
A progressive dinner was held Saturday night with cocktails and hors d'oeuvres at the home of Al and Karen Wallace. The group then proceeded to the home of Marlies McGibbon for salads and then to the home of Ken and Jan Kroog for an Italian dinner. They then moved the evening at the home of Danny and Marti Smith for dessert and games. Members and guests attending were Bob and Bobby Hood, Tommy and Cindy Szabo, Henry and Debbie Bowen, Ken and Arlene Dudley, Gene and Yvonne Ferguson, Danny and Darlene Horn, Ken and Jan Kroog, Bobby and Pat Moye, Danny and Linda Skop, Doug and Casey Sharrow, Danny and Marti Smith, Al and Karen Wallace, David and Linda White and Marlies McGibbon.

APPLE CRANBERRY CRISP
4 Large hot apples
1/2 cup whole cranberry sauce
1/4 cup light maple syrup
1/4 cup light brown sugar
6 tablespoons butter or margarine

Care and peel apples and cut in thin slices. Place in a shallow greased baking dish. Spread cranberry sauce on top. Mix flour, sugar and cinnamon. Cut in butter until mixture forms coarse crumbs. Sprinkle on apple slices and bake at 350° for 35 minutes or until apples are tender and crust is brown. Serves 4-6.

200 YEAR HERITAGE OF GREAT AMERICAN FOODS

When John Chapman traveled the Ohio wilderness planting seeds, he earned the affectionate nickname, Johnny Appleseed. Today, apples are America's favorite fruit. Try this combination with another great fruit in this tasty dessert.

HOROSCOPE

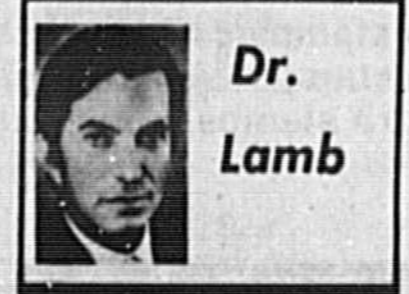

By BERNICE BEDE OSOL
For Thursday, November 6, 1975
Aries (March 21-April 19) Normally you are tactful. Today you'll have to be careful to avoid dissension through what you say, or how you act in a crowd.
Taurus (April 20-May 20) Usually you have your wits about you in the commercial arena. Today you could be hoodwinked because you seek something for nothing.
Gemini (May 21-June 20) It's not a good day to make important decisions on family or financial matters. Your judgment is too clouded by emotion.
Cancer (June 21-July 22) Frustrating opposition will cause you to look for a scapegoat today. It will be far better in the long run for you to take the lumps.
Leo (July 23-Aug. 22) You're all too willing to pay for something you want done today, rather than do it yourself. You'll regret this. You could have done it better—and cheaper.
Virgo (Aug. 23-Sept. 22) If you want to stay on good terms with your budget today, watch two items closely — what you spend for the home and for entertainment.
Libra (Sept. 23-Oct. 23) four spades. The shock will be only temporary. One look at dummy and East will smile happily and go about the business of making his game with ease.
Pisces (Feb. 20-March 20) Avoid large gatherings today. You're in a mood where you want attention and if you're relegated to a lesser role you may be considerably upset.

The answer to that one is that you don't get a hand of game or near game strength very often and therefore, it is a great waste to use four opening bids (five if you add three notrump) to cover such hands. Use two clubs as your only force and you can put the other two to work.
(Do you have a question for the experts? Write "Ask the Jacobys" care of this newspaper. The Jacobys will answer individual questions if stamped, self-addressed envelopes are enclosed. The most interesting questions will be used in this column and will receive copies of JACOBY MODERN.)

Coffee Could Irritate Colon

By Lawrence E. Lamb, M.D.
DEAR DR. LAMB — Would like more information on the foods containing caffeine. I have colitis and suffer so. I think my diet must be faulty.
DEAR READER — Coffee is irritating to some people's colon, and many readers have written me that their symptoms have disappeared after stopping it entirely. In most cases I think this is from the action of caffeine in the coffee, but it is true that some sensitive people don't tolerate the flavor oils in coffee, either.
To give you some information on how much caffeine you might find in beverages, send 50 cents for The Health Letter number 1, Coffee, Tea, Cola, Cocoa. You can send your request to me in care of this newspaper, Radio City Station, New York, NY 10019. Enclose a long, stamped self-addressed envelope for mailing.
You may be surprised to see cocoa on the list. Many a mother gives her child cocoa to relieve the caffeine in coffee not knowing that cocoa also contains caffeine, and enough to give a child a good dose. The same applies to all cocoa products or chocolate.
DEAR DR. LAMB — I would like to know if there are any side effects from taking Diuril for high blood pressure. I have been taking it for three years, 250 mg a day.
Where does magnesium come from in your diet? From many foods including beans, corn, whole wheat flour and oatmeal.
And, what should one do to be sure not to get into trouble with low mineral levels? Eat a proper diet in the first place. Physicians should check all the minerals (electrolytes) regularly in patients taking any of these medications. I am inclined to think that the problem of low magnesium may be ignored in too many instances, with all the attention being focused on potassium.

Mandell, Yamnitz, Radloff Appear Clay Pit Jury Calls Binford, Surprise Witness

Appearing earlier today were Lester Mandell, president of Greater Construction Corp. and owner of the 103-acre parcel of land and John Yamnitz, an employee of Laurel Realty.
Also appearing today was a surprise witness — former Altamonte Springs Councilman Tom Radloff.
State Attorney Investigator David Hall escorted Radloff to the Grand Jury witness room.
Radloff's most recent brush with the county commission occurred when he appeared recently to seek permission to operate a "Mini Grand Prix" raceway in South Seminole County.
Binford, the former Laurel Realty employee who lost \$12,500 fee when the county commission reversed its decision to purchase the clay pit site, was scheduled for a 1:30 p.m. appearance before jurors.
Radloff's request to have the property in question rezoned to allow the race track was denied by the commission.
After being turned down, Radloff vowed to buy property near the initial site. Property owners turned out en masse to protest Radloff's proposed race track.
Contacted at his home today, Binford confirmed his appearance. Asked if he was scheduled to testify before the jury — which was empaneled on Monday — Binford said "yes."
"I really don't know what questions are going to be asked," Binford added. He said an official from the state attorney's office on Wednesday asked him to appear.
It was reported that an investigation by State Attorney Abbott Herring centers on alleged violations of Florida's Sunshine Law and that Herring planned to take his case to the grand jury.
The Florida Sunshine Law states that all meetings attended by elected officials must be open to public — if decisions made at those meetings affect the general public.
But Herring has steadfastly refused to confirm or deny the intent of his probe or if he intended to present evidence before jurors. Herring did confirm Wednesday he will be out of town the remainder of this week. The state attorney said he is attending an "over 60" golf tournament in South Florida.
William Staley, Herring's assistant in Seminole County, is presiding over today's grand jury. Staley was also in charge of Wednesday's proceedings.
Asked today how long the jury will remain in session, Staley uttered a terse "no comment."
Last week the principals — Binford, Mandell and Yamnitz — were interviewed by Herring at his Seminole office. Herring did confirm he was conducting a probe into the controversial clay pit purchase.

CALNO Seeking Repeal Of Laws

By DONNA ESTES
Herald Staff Writer
WINTER SPRINGS — Sanford City Commissioner John Morris, chairman of the CALNO Council of Local Governments, was instructed by organization delegates Wednesday night to inform members of the Seminole Legislative Delegation the group wants the Seminole County Planning Act and the "Mooney" annexation law repealed.
Casselberry City Council Chairman Edith Duerr said repeal of the local planning act in favor of the statewide law with its later deadlines for comprehensive land plans and studies to be completed would be helpful to the member cities.
She also noted that the cities still "feel strongly" that the Mooney annexation law should be removed from the books.
City officials throughout Seminole County have opposed the "Mooney" annexation law, which applies only to Seminole County, since it went into effect in 1973.
The law, sponsored by then-State Rep. Eugene Mooney (R-Casselberry), requires the cities to advertise and personally notify property owners within 500 feet of proposed annexations and renounces whether the owners reside within or without the city limits.
The law also requires public hearings at which county and city interested citizens must be allowed to speak.
The law was passed when extensive annexations were taking place in many cities in the county and when county residents complained they were denied the right to speak in opposition at city council meetings.
Morris was instructed to write to all four legislators with copies of the letter to all CALNO members.
In other action, the group, over the strong objections of Altamonte Springs Mayor Norman Floyd, voted to expand its 24-member double taxation committee to 25 members to give the county an additional representative.
Dr. Duerr, chairman of the committee, said the committee voted to request the additional member.
She noted that although the CALNO group appointed Robert Ellis, county administrative assistant, and Ashby (Continued on Page 6A)

Judge Finds Appeal Filed, Sets Aside Eviction Tenants Mistakenly Put Out Of Home

By JOE AKREN
Herald Staff Writer
A dozen Sanford tenants, including the present landlord, were evicted, they said, without notice Wednesday morning from a two-story house at 1000 West 13th Street, but were allowed to return last night after a comical turn of events.
Seminole County Judge Wallace Hall late Wednesday said he set aside Tuesday's eviction order after he found out a \$2,500 appeal bond, staying the eviction, was filed last Thursday by Mrs. Matie Davis, 76, one of the two sisters-in-law claiming possession of the house.
Judge Hall said the tenants actually were not supposed to be involved in the eviction since they were "outside the scope" of litigation surrounding the contested ownership of the house which began last August.
Asked if he knew the appeal bond was filed last Thursday with Clerk of Courts Arthur Beckwith Jr., Judge Hall said, after a long pause, "Obviously not."
Judge Hall said since a cash bond has been posted, he set aside the eviction "pending the appeal hearing," which has not yet been held.
Asked who actually owns the house now, Judge Hall said the owner is Mrs. Laura Alexander, the other sister-in-law involved, who was successful in removing Mrs. Davis and her tenants for a day. Mrs. Davis is appealing the ownership through her Orlando attorney, James Collier.
Mrs. Sandra Gaines, an outreach worker with Seminole Community Action Inc., said Judge Hall sent the "paperwork" to the Sheriff's office late Wednesday so the evicted people could move back into the house.
The evicted tenants, including two families and one small child, said they didn't receive an eviction notice from Mrs. Davis nor from the Sheriff's office, before they were literally put out on the street with all their possessions.
Mrs. Davis said at the scene her attorney had presented an eviction attempt last month and she thought "everything was all right." That was the reason she was literally put out on the street.
Mrs. Gaines said it appears the posted appeal bond notice didn't reach the Sheriff's office in time to prevent the eviction.
Mrs. Davis said she and her husband have been living in the house for about a year. She said she asked Collier to get the deed for the house months ago, since no transfer of title was made from the time her deceased parents had owned the house 35 years ago.
Mrs. Davis said her brother, Cephus Alexander, and Laura had rented rooms in the house for \$300 a month between 1965 and 1974.
Mrs. Gaines said she moved into the house Tuesday night. Tenants pay \$10 to \$12 a week for rooms, said Mrs. Davis.
Perhaps plainclothes Deputy J. Kugler, who served the eviction notice, put it best when he said: "It looks like one of those family affairs!"

Executive Point Office Building Damaged In Early Morning Blaze

An early-morning fire struck the Executive Point office building at 14 and SR 406 today. Units from several fire departments responded to the alarm, which came shortly after 8 a.m.
According to Seminole County Fire Chief Gary Kaiser, there were no injuries, although the second and third floor of the building suffered substantial damage from smoke and water.
"The fire started in an electronic equipment switching room," Kaiser said. "From there it spread to the third floor through the ceiling."
He added that it might take several hours for the smoke to clear from the building.
"Care is a little light-headed," Kaiser said, referring to the sealed spaces of tinted glass on the building's exterior walls.
The Executive Point building is not equipped with fire extinguishing water sprinklers.
Although fire officials said there were no injuries at the fire, one man was accompanied by firemen from the building to the parking lot, where he leaped against a car.
"Feel a little light-headed," Kaiser said, "I'm an employee of the people who own the building — Award Management in Orlando. I was helping the firemen open doors inside the building when I began to feel dizzy."
Glassford said he would be fine after getting some fresh air.
The offices on the second and third floor suffered substantial damage from smoke and water, according to Glassford.
"There are all kinds of offices on that floor, plus Jones College," he said.
Chief Kaiser confirmed there was damage on the second floor and added "the equipment switching room is pretty torn up."
From time to time anxious tenants of the building approached fire officials to ask permission to enter the building to recover records or personal belongings. They were refused.
"The electricity is out and the building probably will be closed for the rest of the day," Kaiser said to one curious lady.

Seminole To Play In Bowl Customers Questioning FP&L's \$3 Rate Charge

By AUDIE MURPHY
Herald Staff Writer
Seminole High School will play in the Nov. 29 post-season Rotary Bowl football game at Lyman High School in Longwood.
No opponent for Seminole has been announced, although Lyman Principal Carlton Healey said today that Winter Park, Oak Ridge, Haines City, Lakeland, Kathleen, New Smyrna Beach and Astronaut are all under consideration.
"Our bowl committee decided to move forward because we feel it is an exciting team," Healey said.
"We are committed, but we haven't signed," Seminole High Principal Don Reynolds said today.
Formal signing of bowl game agreements is expected as early as Saturday or Monday, Reynolds said.
Edgewater defeated Lake Brantley 46-26 in the first Rotary Bowl game, Dec. 6, 1974.
Rotary Bowl proceeds go to the Seminole Youth Ranch, a Rotary-sponsored school in the jungles of Haiti and for college scholarships.
High School Interact Clubs and Boy and Girl Scouts also benefit from the bowl game, which is the South Seminole club's largest yearly project.
Some customers of Florida Power & Light Company (FP&L) have discovered that their electric bills have been \$3 higher in recent months and have begun to question the charge that has been referred to as a "minimum" rate by some FP&L personnel.
However, the word "minimum" appears to be a misnomer in view of the fact that customers are charged for every kilowatt hour used in addition to the \$3 charge.
The charge is hidden on the bill under "amount," referring to the price paid for the total of kilowatt hours used.
The Florida Public Service Commission (PSC) has ruled that such "customer charges" as the PSC refers to it, be included in the rate structures of all power companies, according to Chairman Bill Mayo.
Reasons given for levying the charge, however, are contradictory.
Scott Burns, manager of the Sanford office of FP&L, said the basic charge was necessary because of rising costs of doing business. The actual cost to the power company of maintaining an individual's account is approximately \$5, he said.
"A lot of people go north in the summer and leave their power on to provide electricity for water pumps, or for their neighbors to be able to check the house for them," Burns said.
Burns also said there were "quite a few" minimum bills in the company's service area.
