SPRAY 'EM and SLAY 'EM!

Soldiers are getting a real taste of "nature in the raw" on the insect-ridden battlefronts. But thanks to FLIT and our other insecticides, the pests are getting their cool R.I.B.I. in the neck!

FLIT
KILLS
The army has found that these famous insect killers blast many "death" pests just as they knock off many of the insects at home. FLIT is the highest rating established for household insecticides by the National Bureau of Standards... the AA Rating. Why don't you fight your pests with FLIT—buy a bottle—today!

Giraud Getting Stream Of Arms From America

Lend-Lease Goods Valued At 75 Millions Are Sent To French

WASHINGTON, May 31.—American tanks, guns and other fighting equipment are being supplied to General Henry Honore Giraud's French Armies in Africa in enormous and increasing quantities, to equip them for their share in coming United Nations offensive, the Lend Lease Administration revealed last week.

Edward R. Stettinius Jr., Lend Lease administrator, disclosed that \$75,000,000 worth of military supplies were transferred to General Giraud up to April 30, of which amount four-fifths, or \$60,000,000 were delivered during April.

The timing of these deliveries, coming as the North African campaign neared the home stretch, was viewed as an indication that the French forces will make their major contribution not in Africa but in future Allied ventures, presumably on French soil.

The importance with which the French armies are regarded in Allied strategy was indicated by the fact that these military supplies amount to more than twice the value of the food, clothing, fuel and medical, agricultural and industrial supplies sent to the civilians of French North Africa under the relief and rehabilitation program.

The average of lend-lease shipments to all countries, according to President Roosevelt's report to Congress yesterday, is 46 percent munitions, and 84 percent agricultural and industrial supplies.

British Labor Urges Post-War Political Body

Party Group Calls For Body To Decide On International Issues

LONDON, May 31.—The national executive committee of the Labor party Britain's second largest advocates the post-war "establishment of a world political authority which should not only be the armed guardian of international peace but also the agency of consultation and decision upon all great political issues arising among nations."

The proposal was one of a series drafted by the committee for presentation to the party's annual conference to be held June 11-14. The report is expected to be adopted on the whole as the party's program for 1943-44.

In its domestic program the committee urged preparation "with all speed" for Britain's transition after the war to a "socialist commonwealth."

The committee's specific domestic proposals followed the lines of the four-year post-war plan presented by Prime Minister Churchill, leader of the rival Conservative party, in his radio address on March 21, but in most instances went beyond Churchill's program in the method and degree of reform.

On other questions the labor program recommended:

- (1) A series of international economic agencies closely associated with the proposed world political authority to "expand the wealth of the world and to raise the standard of living of its people."
- (2) "Extension to limits of the status of a self-governing dominion" and a period of unprecedented development and progress "for the rest of the colonial empire," with "political self-government as a goal for all colonies."
- (3) Rejection of the Communist party's application for affiliation with the labor party.

of Complaint filed by William R. Winkler against you for a divorce in the Circuit Court of the 11th Judicial Circuit in and for Seminole County, Florida, on or before the 7th day of June, A. D. 1942; in default thereof said cause will proceed Ex Parte.

LET this order be published for the statutory time required by law in the Sanford Herald, a newspaper of general circulation in said county and state, at the office of said court, Sanford, Florida, this 10th day of May, A. D. 1942.

Pantelleria Attacked By Allied Navy Craft

Assault Is Taken As Possible Prelude To Actual Invasion Of Island Fortress

LONDON, June 2 (AP)—The increasing deadly convoys escort sank more enemy submarines in May than any other month and in the past two months the number operating in the Atlantic appears to have decreased. First Lord of the Admiralty A. V. Alexander declared today.

WASHINGTON, June 2—(AP)—The Navy reported more than 1,500 Japanese killed and four captured during the first 20 days of the Attu fighting.

LONDON, June 2 (AP) A spokesman for the British Overseas Airways said today a British passenger liner had "disappeared" en route to Lisbon. Reports from the Portuguese capital said after Leslie Howard was among the 13 passengers, and the last word from the plane was an "enemy plane is attacking us."

Allied warships have swelled the assault on the Mediterranean island of Pantelleria, it was announced today, bombarding the so-called "Italian Gibraltar" twice within 48 hours in what may be the prelude to a landing attack.

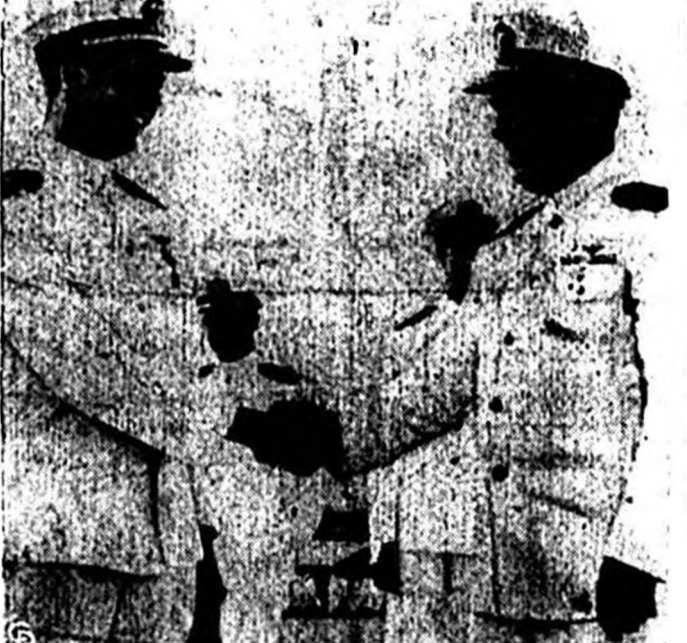

Allied headquarters said island, which would serve as a stepping-stone for either an invasion of Sicily or Italy, was shelled yesterday and Sunday night, the naval vessels falling on tanks and artillery batteries. There was some retaliatory shelling but no interference from the island.

American warplanes continued a virtual non-stop battering of Italian outposts and returned to the assault on Sicily and Sardinia. Berlin and Moscow both reported heavy fighting in the Caucasus. The Germans reported Russian attacks with tank forces and the Russians said the Germans were counter-attacking.

Nazi planes reported attacking sharp Russian troops attempting to breach the lines at Velikaya North of Smolensk but claimed they were repulsed. Tokyo today admitted a setback in fierce battles west of Tungkang Lake where the Chinese have been fighting to defend the "hot" and "boiling" at Chungking, but contended the operations were "successfully completed" with 35,000 Chinese killed or wounded against a loss of 475 men.

The Chinese reported the presence of a "super-bomb" (Continued on Page Two)

Miller Reports Celery Farmers Have Good Year

Yield Is Good And Prices Hang Above Former Averages

The celery season in Florida now drawing to a close, has proved to be the most successful year in financial way ever recorded by shippers in the State, according to a summary recently compiled by C. B. Miller, U.S.D.A., reporter of the Food Distribution Administration, working in cooperation with the Florida State Marketing Bureau at the Sanford State Farmers Market.

City Briefs

Pfc. Thomas A. Cobb Assigned To Air Corps

Pfc. Thomas A. Cobb, son of Mr. and Mrs. Robert Cobb of 215 West Fifteenth Street, has been assigned to the Army Air Corps Technical School at Sioux Falls, South Dakota. It has been announced by the Army command. After graduating from Seminole High School in 1941 Thomas Cobb attended Gordon Military Academy in Barnesville, Ga., in 1942, and enlisted in the Army at Orlando in August of that year. From there, he was sent to the Nashville, Tenn., classification center and then to Keesler Field, Miss.

Allan Dafoe, Quins Doctor, Dies Suddenly

Physician Who Took Care Of Dionne Babies Gained Fame Throughout World

NORTH BAY, Ontario, June 2 (AP) Dr. Allan Roy Dafoe, former physician to the Dionne quadruplets, died today.

Dr. Allan Dafoe was an obscure country doctor in sparsely settled northern Ontario, Canada, until the fame of the Dionne quadruplets sprang into fame over night by bringing the Dionne quadruplets into the world.

Two years before he had worked along the frontier, unburied and using hanging urinary bottles to life, mending the torn bodies of mangled lambs, and fighting north country blizzards to minister the ailing ill of men, women and children.

At 11 o'clock in the morning of the day he died, Dr. Dafoe was awakened at his home in Colleger by a vigorous pounding on his front door. It was Olive Dafoe, the mother of the babies, who had been informed that the doctor had attended Mrs. Dionne at the birth of three of her five precious children, and knew that the father was expected, but not so soon.

So he hurried to the humble Dionne home, where he found everything in confusion when the three babies already had been born prematurely and no arrangements for their advent had been made. The father, disappointed that his audience were making up, hurriedly made arrangements for the new arrivals and building a fire.

He called up his sleeves and soon three other babies, crying freely, were born. The mother's anxiety was so great that each of them was wrapped in a blanket and he was weighted down by the tremendous responsibility of saving her life and keeping the spark of life alive in the five newly born.

"I didn't see how all of the babies could possibly live," he recalled. "I wrapped each of them separately." Young, Emilie, Annette, Gerle and Marie A. Protestant, he frequently did the for Roman Catholic babies, who lives were in danger, using of Latin form of life.

Constantly, it seemed as if the tiny infants were about to be strangled, but in the end, covering available remnants, old cotton sheeting and napkins, he laid them in a corner of the bed and covered them with a blanket.

Meanwhile, the mother appeared to be dying. After some prayers, the priest, no one else available, made the trip to Corbell, nearly three miles away, in record time in his automobile. When he returned with the priest, Mrs. Dionne had called.

In 1936 King George V of Great Britain appointed him member of the Order of the British Empire. He was made a life member of the Academy of Medicine, Toronto, the Ontario Medical Association and the Canadian Medical Association.

He spoke frequently on the radio during the early childhood of "my babies" but declined offers to enter the movies.

Two beautiful macaws were presented to the Sanford Municipal Zoo Friday by Mrs. M. J. Yount of the Yount Estate, De Land. Goldie, a handsome stream-lined blue and gold female macaw, according to Mrs. Yount, came from Cuba where it is esteemed a sacred bird and considered a token of good luck. Goldie will match up with Harold's Bill, blue and gold, already at the zoo. Bill came from Paraguay.

Miller Reports Celery Have Good Year

(Continued From Page One)

back holding in the 16 important markets. Prices started from \$3.25-\$3.00 P.O.B. for all sizes, and increased to as high as \$7.50. These prices continued throughout the remainder of the season with the highest prices being realized on the smaller sizes. Last year at this time, the average, 3-4 doz. were selling at \$2.00-\$1.00 and other sizes, \$2.00-\$3.48.

Competition with California celery this year was reported as being very tight, especially during the end of the season. This year harvesting began very early. It was reported, and during December 576 cars were shipped from Florida, as compared with 38 cars last year when harvesting began late.

Advance of celery was reported to have decreased, plantings this season being 8,700 acres as compared with 9,700 acres planted in the 1941-42 season. Slight increases were noted in the Palm Beach, Manatee, Alachua, and Orange county plantings, while in Seminole, the oldest and largest celery producing section of the state, showed a decrease of 870 acres the total being 4,020 acres. Sarasota county had a 60 acre decrease and Marion county a drop in acreage of 78 acres of celery.

This drop in acreage was reported to have been offset by very good yields. Golden Heart variety ranged from 400 to 700 crates per acre for the early or winter crop and Pascal yielded as high as 800 crates an acre. Quality was reported as generally good, with the exception of the last two weeks of harvesting, when considerable blackheart and pith affected the remainder of this crop and some fields were abandoned due to poor quality.

Yields for the Spring crop were exceptionally good, according to Mr. Miller, especially during the first month of harvesting, due to large sizes with most fields running heavy 3-4 dozens and Golden Heart variety yielding from 600 to 800 crates per acre. Pascal celery yield as high as 1,000 crates per acre. During the latter part of May, prolonged rains sustained satisfactory quality, but decreased considerably due to ripeness and other defects, causing a great decline in yield.

On May 27 when the market news office closed, it was reported that 8,351 cars had been shipped by rail from the state, as compared with 5,794 cars at the same time last year. Seminole county shipments at that date totalled 4,300 cars. Minimum load this year was, however, 157 crates a car, due to war conditions which this year the usual number of crates per car was 328. Cars were billed to 247 cities in 40 states and District of Columbia, as compared to 1942 billings to 177 cities in 37 states. Many cars were sent to army camps.

Due to closing of the road guard stations in the State of Florida, no truck shipments were reported.

Dr. Belaunde Is Main Speaker At Kiwanis Luncheon

(Continued From Page One)

Dr. Belaunde, Pan-American Highway, Inc. speaker at luncheon, he stated that it would be possible to motor south through Mexico to Panama by the middle of next year. At present the major capitals of South America are linked by highways, he stated, and when a road can be put through the jungles of Colombia to Panama, it will be possible to motor to South America.

He pointed out that it was a relatively short distance from Key West to the Yucatan peninsula, where a road to Panama could be easily built because of the flat land, and by ferrying over the water for short distances, motor cars could go from New York to Panama.

Visitors at the Kiwanis luncheon were J. C. Chase, who visited Peru 18 years ago, A. L. Wilson, John Evans and Hugh Whitehead, president-elect of the Key Club.

House Approves Compromise Bill On Pay-As-You-Go

(Continued From Page One)

House approved and Democrats opposed various versions of the Rural plan to ship an entire income tax year. The bill received the votes of 89 Democrats and 167 Republicans, while 99 Democrats, 15 Republicans and three minor party members opposed it.

The action was on a compromise, governing after legislative machinery had into a four-month statement on the Rural plan. Representative Kuntz (R., Minn.) described the compromise as "75 percent of the Rural plan."

What Bill Provides

The bill provides:

1. 100 percent abatement for each taxpayer owing up to \$50 in taxes for the one year, 1942 or 1943, in which he had the smaller taxable income.
2. A flat \$40 abatement for each person whose abatement year (1942 or 1943) tax bill is between \$50 and \$66.67.
3. An abatement of 71 percent for all persons with an abatement year bill over \$66.67 with the remaining 29 percent to be paid half on March 11, 1944 and half on March 11, 1945, in addition to current taxes. Persons in the \$50 to \$66.67 classification also would pay off their small remaining debt in two such installments.

A segment of Democrats waged a bitter battle against the bill, but Representative Forand (D., N. C.) said this compromise is nothing but the Rural plan in new dress, and Representative Disney (D., Okla.) saying "this is sorry business."

In the one-hour debate, Chairman Doughton (D., N.C.) of the tax framing ways and means committee was one of the few Democrats to support the compromise, while Republican after Republic-

Uncle Sam Invests New Numbers Game Which Is Sweeping Country

AP Features

NEW YORK—Uncle Sam has invested a new numbers game, and it's sweeping the country. If you ever wonder how postal clerks can memorize all the streets of a large city, so you received even that post card from Aunt Minnie addressed to "Montrose Street" when you really live on "Mongoose Avenue," Well, post office clerks in all large American cities will soon find their jobs immeasurably simplified under the "key" system of addressing that is being introduced by the post office department.

Senders of letters to those cities will be expected to include the correct postal district number along with the regular street address.

New York Plays It

Long used in Europe and Canada, the system has recently been started in New York City with successful results. Correctly addressed letters to this metropolitan area now include the name of the borough and the district number, as "Bronx, 63."

Previously, says Postmaster Albert Goldman, New York City mail sorters had to memorize an

approximately 3,700 place names—streets, alleys and public buildings. Two years was the usual time required to achieve the feat. Under the new system, even a beginner can quickly route mail to its destination.

Major Cities

"The response to the announcement of the unit numbering system has been most gratifying," Goldman reports.

The post office has issued instructions to start the plan in 178 major cities in 42 states, including Chicago, San Francisco, Washington, D.C., and Cincinnati. First step for the city dweller is to learn his postal division number and notify his correspondents.

War Angle

Uncle Sam's numbers game meets a wartime need.

In the New York City postal district 2,800 employees have entered the armed forces, while an additional 1,800 have resigned to do war plant work. Hiring in more than 1,400 new men has shown the necessity for a more exact system of addressing.

Twenty-five years ago the European plan was tried in Boston but failed. This time the innovation is nationwide and the experience of the largest American city indicates to postal authorities that it will not only succeed but become a permanent, and unopposed, part of letter-writing.

Your post office will tell you your numbers in Uncle Sam's new game.

an spoke for it.

Immediate Effect

The most immediate effect of the measure will be the withholding levy, under which, one month from today, the government will begin deducting 20 percent (after family status exemptions) from pay envelopes and salary checks. This legislation does not excuse tax payers from payment of the second installment of their tax obligation as shown in returns filed last March. This installment falls due just two weeks hence, on June 15.

For most taxpayers the measure will mean that they remit more in income taxes during war years than they would have under the present law. The abatement will not show in the taxpaying history of the average person until his income falls off, he loses his job, or at death. His paymaster transfers the millions of taxpayers to a system of remitting in one year on the basis of income of the previous year's income as at present.

Installments paid before July on the basis of 1942 income will be transferred as a credit to 1943 obligations. Wages and salary earners will begin paying July 1 the remainder of their 1943 bill through the withholding levy. Persons with income other than wages and salaries must estimate their income for the current year, and continue to pay by quarterly with wages or salaries above the 20 percent withholding level will estimate their upper bracket income and pay quarterly in part of their obligation above the withholding level.

When Outfielder Sam Rice played for Washington he always signed a blank contract and let Owner Clark Griffith write in the size of his salary.

IN THE COUNTY OF THE CORRUPT STATE OF FLORIDA, IN THE DISTRICT COURT OF SANFORD, FLORIDA, PROBATE

TO ALL CREDITORS AND PERSONS HAVING CLAIMS OR DEMANDS AGAINST THE ESTATE OF EMMA FEAR HOWARD, DECEASED:

Notice is hereby given that the undersigned, Judge of said County at Sanford, Florida, at all times in the court house of said County at Sanford, Florida, within eight calendar months from the date of the first publication of this notice, each claim or demand shall be in writing, and shall state the amount of the claim, and shall be sworn to by the claimant, agent or attorney, and any such claim of demand not filed shall be barred.

A. E. CARPENTIER, Administrator of the Estate of Emma Fear Howard, deceased.

Legislature Puts Thumbs Down On More New Taxes

(Continued From Page One)

accepted the other's bill.

The cigarette tax, now awaiting Holland's signature to make it effective July 1, will replace pensions and county aid revenues lost in the appropriation of horse racing last winter. Companion measures appropriate \$2,000,000 of the money for pensions and \$1,500,000 for distribution among the counties—the same amounts each function received from horse racing taxes.

Pension Fund Increases

Carried in appropriation bill passed by both the House and the Senate, but conference committee, seeking adjustment of disagreement over the bills eliminated them.

Plan One More Effort

Senate Sturgis of Ocala planned a final effort to raise more pension money with an attempt to have the Senate override its finance committee and place the insurance premium tax increase on the calendar. Chairman Collins of the committee will oppose it.

The legislature has passed and sent to Holland an increase of \$2,400,000 a year in teacher's salary funds from the state, but it didn't provide any specific revenue to meet it. It can be paid however, from existing school revenue sources if collections are sufficient.

School payment for the fiscal year now ending were \$31,500,000 coming chiefly from the automobile licenses, gasoline taxes, and liquor and beer taxes, which turn-

Pantelleria Attacked By Allies

BIBLE VERSE FOR TODAY

IF YOU LIVE HARMONIOUSLY LIFE BE A SONG (PHILEM 13)

COYS LET OUT IN EARLY SPRING (From The Washington Post)

YOU never know where you will go! They seem to feel that freedom's won All in a single dash.

They rock and reel, And center and run Over the hummocks and down the hill.

Talk out stiff and legs thump far In blithe, bewildered sort of war To get away at any cost, Even if they're forever lost!

They charge at the fence, They crash Into the bushes, they rub and scrape.

They ally horns along the shingles Of a shed; the belted cow jingles And clanks and tinkles In wild disorder, captivity can kles.

They will escape! And then the absurd, immense Disorders fade; They grow afraid Of freedom, and come back Their brown eyes mild, their stiff tails slack.

MARTHA BANNING THOMAS

What is rarer than a rare steak, asks the Milton Gazette. We don't know but it might be the ration points.

People who would like to see a bigger and better paper in Sanford (and many other places) remember that advertising is the life blood of any newspaper.

The Republicans are said to be planning a post-war program based on an economy of abundance. We suppose they have something in mind like two chickens in every garage.

Secretary Ickes says the gasoline situation is becoming even more acute and it may become necessary to treat his state of Illinois like the eastern seaboard states.

One of our commanding officers in England has written back to this country to find out what was the "Four Freedoms" whether it had just occurred to him he didn't know what he was fighting for.

One American officer likes to accommodate, even the enemy. Writing about the Japs, he says, "We all have the feeling at Pearl Harbor that if the Jap is happy to die for his emperor we want to do all we can to make him happy."

The War Production Board gives farmers priority on 178 hard-to-get supplies for the purpose of increasing farm production. Local farmers should take advantage of this opportunity to replenish their equipment and get ready for a big season next year.

Up at Palatka they advertised free ball on opening day of the five stock market. They didn't say whether it was in the form of a sandwich or a flat-top. Admirable. Not being 'til election time, it's probably the former.

Now that the warm weather is settling down in earnest, wouldn't it be nice if that swimming pool we were talking about last summer, but promptly forgot as soon as cooler weather arrived had been built down here in the Fort Mellon Park where the local business man (and others) could take a dip during the lunch hour?

The Tampa Tribune points out there are more ways than one of showing a cat and one way to vote for OPA. The Tribune says a 1941 Pack truck is to be put on the market for \$1,000. In other words, the other day a man who had a 1941 Pack truck was asked to sell it for \$1,000.

Prepare For The Future

While reports of unprecedented profits among Seminole County farmers are undoubtedly exaggerated and much of their increased production is due to higher costs of production, greatly increased taxes and to make up for previously incurred losses, it certainly is true that our farmers are just now completing the most successful season in many years.

To say this is to admit that ever since the Wall Street crash, celery has been a drug on the market and that even with the advent of the New Deal and the industrial recovery which it brought our farmers learned that men on relief or working for the WPA do not buy celery and that plowing under every third row is not a profitable way of conducting agricultural operations.

Consequently until last year it was the custom for the average Seminole County farmer to lose money. Farms ran down through the financial inability to purchase adequate fertilizer, to make repairs both on farm buildings and machinery, debts were incurred and mortgages foreclosed, until practically every farmer in the county was heavily involved and many of the at one-time most successful and most substantial saw their farms foreclosed and their life's savings destroyed.

Those who are left to enjoy the better days we are having now and to anticipate those which should be ahead have staggering debts accumulated from ten years' losses, a pay back out of this year's profits. War taxes and income taxes have also been increased until they take up here from six percent to 90 percent of all income not including city, county and state taxes.

But most farmers will still have something left from this year's crops and if they are wise they will get ready or next year and the years to come by improving the soil on their farms, by purchasing new farm equipment where priorities will allow them to do it, and repairing old equipment, and by improving the tenant houses for their farm labor so that when next year's crop is ready for planting they will have help to plant it.

Many of these tenant houses are in a deplorable condition. The farmers have not had the money to take care of them for many years. They are unpainted, without glass or screen windows, their roofs leak, and in some cases they have no floors. Farm labor is becoming increasingly difficult to obtain on account of the high wages paid in factory and shipbuilding areas. Such labor can be encouraged to remain on the farm by providing decent places in which to live.

Take some of the profits from this year's crops and plow it back into the farm. Repair your tenant houses, put screens in the windows, fix the roof, build new houses, paint them. Also improve your barns. Such improvements will help you on your income taxes. And your reward will be greater when next year's crops are ready.

Food Importance

Opinions vary as to the importance of that international food conference in Virginia. Obviously it has been badly handled, and even yet hardly anybody seems to know just what it is about and what it will accomplish. But such a gathering could be very useful.

There are few things today so important as food, and ways and means for providing it. The main question in most of the world is, "When do we eat?" The American people, who have solved this problem for themselves, are now engaged in trying to solve it for other nations and continents. And it isn't merely a matter of filling people's stomachs.

Tommy Atkins and his international brethren may think what they want is merely "bulk in their indies," when the problem of health and strength is largely one of vitamins and mineral salts. Food conferences accordingly take note of the most modern requirements for scientific nutrition, and the practical means of providing it.

Hereafter, if the war is won on all its fronts, international statesmanship may be as much concerned with this food question as it is with racial, geographical and military problems. With modern facilities the whole world could be decently fed, and must be, if civilization is to survive.

How's That Again?

While considering renewal applications for supplemental gasoline, the ration board at Westerville, Ohio, found the following reason affixed to one application for additional gas: "Spring brings more hustling around for various things which is impossible to say just what."—Your Life magazine.

TOO LATE TO CLASSIFY

By RUSSELL KAY

Unless an upset occurs in the final days of the 1943 legislative session we can chalk it up as one of the most successful tax-spenders' assemblies ever held. Legislators, with few exceptions, have found the lawmakers in a kind and generous mood.

True, one or two feeble attempts to economize have been made, but advocates have received little encouragement in their efforts. Appropriation committees worked diligently and recommended modest cuts, only to be crushed under an avalanche of bureaucratic and official pressure that not only restored such trimmings but added sums above and beyond original budget figures.

While tax-payers are too burdened and too busy to leave their homes and their work and attend committee hearings, office holders were on the job every minute from early 'til late. Fee officers, including tax assessors, tax collectors, clerks of circuit court, county commissioners, judges and numerous municipal office holders, have been as busy as bees in the hotel lobbies, at the Capital, in committee rooms and everywhere else in an effort to put over pay bills at the taxpayer's expense.

They had little to worry about or a large majority in both houses had been built down here in the Fort Mellon Park where the local business man (and others) could take a dip during the lunch hour?

Up at Palatka they advertised free ball on opening day of the five stock market. They didn't say whether it was in the form of a sandwich or a flat-top. Admirable. Not being 'til election time, it's probably the former.

Now that the warm weather is settling down in earnest, wouldn't it be nice if that swimming pool we were talking about last summer, but promptly forgot as soon as cooler weather arrived had been built down here in the Fort Mellon Park where the local business man (and others) could take a dip during the lunch hour?

The Tampa Tribune points out there are more ways than one of showing a cat and one way to vote for OPA. The Tribune says a 1941 Pack truck is to be put on the market for \$1,000. In other words, the other day a man who had a 1941 Pack truck was asked to sell it for \$1,000.

INSIDE HITLER'S 'FORTRESS EUROPE'

Twenty Years Ago Today

Mrs. Gladys Morris of Leesburg is spending the week-end here as the guest of Mrs. E.L. Brown before going to Tallahassee to teach history this summer.

Mrs. Maude Lake will arrive here Friday from Staunton, Va. where she has been attending Stuart Hall.

Saturday Mrs. Hal Wight will entertain at a bridge luncheon at her home for members of the board of the Women's Club.

Headline Florida Legislature, Off for Another Two Years, closed up last night.

The Court House was filled with growers last night to take up the matter of discharge, ratification or further instruction of the organization committee. F. F. Dutton presided as chairman.

TEN YEARS AGO TODAY

Berlin Government aid for young folks who want to get married is part of Chancellor Hitler's plan of attack on the unemployment problem, details of which were disclosed yesterday.

The national public debt increased during May to \$21,835,385,000 compared with \$21,441,209,000 at the end of April and \$19,036,010,000 on May 31 one year ago.

Members of the Seminole Chapter, Future Farmers of America, sponsored an entertainment at chapel services in Seminole High School yesterday morning.

They never see or hear from him; and until they do they are not apt to be any different than they have been.

On the other hand, they owe plenty to the tax-spenders and office holders. They know that commissioners, sheriffs, constables, clerks and all the other we generally term "the Court House or City Hall crowd" are the boys to tie to if you want to be re-elected or hope to advance in the politician arena. They are the boys that really get out and work for a fellow, they work like beavers.

Lawmakers, after all, are not much different from you or me. Most of them fit naturally in the category of "Regular Fellows". They are simply "John" or "Bill" or "Henry", sent to Tallahassee to play around for 90 days with a governmental backlash that has been created, aided and abetted by other Johns, Bills and Henrys, and under the circumstances it is really remarkable that they do as well as they do.

When the timid tax-payers arise to ask "Why?"—lawmakers and politicians start howling about the old folks, the crippled children, the under-privileged, the school teachers, the widows and orphans. But the record shows the money doesn't go for such noble purposes, or at least not until just about everybody and everything else has been "taken care of". As the Miami Herald puts it, "We gotta take care of us before we take care of you."

Don't get the silly idea that I am viewing the situation with any special degree of concern. I'm not. Nor am I attempting to criticize or find fault with this particular legislature. Again, I'm not.

To tell the truth, as legislators are, this is a very good one. If they have failed, so what? The same went down in 1937. It is not their fault. And a few of the men are capable of doing a lot of good.

Prime Beef Brings \$18 At Kissimmee

KISSIMMEE, June 2. (FNS)—Prime beef raised by the United States Slaughter Corporation at Clewiston brought near record prices at the livestock auction here last week when buyers sent prices skyrocketing with bids from \$16.50 to \$18 per hundred weight. All grade AA, the truck load of steers weighed between 850 and 1100 pounds each and were crosses of the white face and Angus stock.

Buyers estimated the fattened cattle would dress out at least 60 percent. Swift and Co., Turner & Gee of Orlando, and the Live! Meat Market paid top prices.

Other beef sales were fairly good, following a slump earlier in the week, while pork held its own. More than 600 head of livestock was put on the market, bringing in excess of \$30,000 the growers.

Flight manager Al Weill now owns the contract of young Lou Hanbury, Washington battler who outpointed NBA featherweight champion Jackie Callura in a non-title fight.

George Stinnes, Yankee rookie will make a great shortstop when he gets over his nervousness at playing in the major league.

Members of the band, also known as Harry Gustafson's Airport Sincopators, are Mr. Gustafson, Walter Trapp, Talmadge Melts, Paul Bridgers, Willard Connelly, Jerry Senkovic and Harry West.

Mrs. H.B. Pope and son, John, left the first part of the week for Houston, Tex. where they will visit several weeks with relatives.

Quality liquor that even the Navy can serve grandly.

Red-Cross Has Many Problems On Army Duty

Over 1,400 Cases Are Handled in Month With Second Army

SECOND ARMY MANEUVER HEADQUARTERS, SOMEWHERE IN TENNESSEE, June 2. (Special) He deals in tragedy more than in humor, so it was a welcome break in the day of George C. Williams, field director of the American Red Cross in the maneuver area, when he picked up a telegram which read: "Stepfather is gone and well. Looking for him. He found the wire was in reply to his attempt to discover whether a soldier's stepfather was acting in place of his parents." Mr. Williams' telegram had read: "Stepfather is gone parents."

This was only one of the 1157 cases which the maneuver staff

of the Red Cross handled in April. Working on a 24-hour basis, it dealt with innumerable emergencies which may occur in the field taking care of a soldier's dependents back home, financing emergency furloughs, finding doctors for soldiers' wives or mothers, and acting as a strong link between the soldier and home.

Of 1,000 telegrams Mr. Williams office received in April, 657 dealt with emergency furloughs. For before an emergency furlough is approved, the Red Cross chapter in the soldier's home town must certify that it is needed. A constant effort is made to impress upon soldiers that many hours, perhaps even a couple of days, will be saved if the local chapter is notified at the same time that Johnny Doughboy is wired "Math."

A few lighter touches brighten the general story of misery and illness. One Negro soldier was granted a furlough to go home for the birth of a child. A day or so later the Red Cross received a telegram from him: "Wife has twins. Extension needed."

Another soldier telegraphed, "Wife and mother enjoying my company very much. Would like extension of furlough." He didn't get it.

Another soldier got a swift extension after the Red Cross had tracked him down in the field and then lent him \$60 to reach his motherless baby when his wife died in childbirth. Two days later he asked an extension to obtain time to find a home for the child.

The Red Cross chapter in New York verified the need, his company very much. Would like extension of leave, and he was given ten additional days.

A typical problem involved the expectant wife of a soldier, who told him that she was going to have a baby and she didn't have that much. The husband sought the aid of the Red Cross. The local chapter was "on the spot" and the wife had the required medical aid at a saving of \$100.

One difficulty which headquarters faces almost daily is finding out the real status of a soldier. For instance, one recent telegram read: "Check wire Sgt. Jones quickly is on his way. Many thousands of soldiers and many Sgt. Jones participating in the maneuvers, finding the right one is a larger order. But the wire is from Four Corners, Mont., a phone call to the Army's training system at Nashville determines that there is only one Sgt. Jones there. Meantime the Red Cross in the soldier's home has verified the need and Sgt. Jones quickly is on his way home.

Some thirty soldiers a week come to the maneuvers office seeking help. Perhaps a wife has received her allotment, but no money for rent or food. The Red Cross takes her over the temporary emergency and also tries to get the man back to effect a permanent cure.

In addition to the maneuver headquarters, each division has four Red Cross men attached. Unlike the soldiers, their work doesn't end with the conclusion of a tactical problem. Those who get back to maneuver headquarters are a muddy, tired but uncomplaining lot of men.

Camp Wewa Will Open For Scouts Sunday, June 27th

Illustrated bulletins announcing the 1943 summer program at Camp Wewa are being mailed this week to 1,500 Scouts and leaders of the Central Florida Council. The camp opens Sunday, June 27, and will include four one-week periods ending on July 25. All Scouts of the Central Florida Council are eligible to attend, and special invitation is extended to all troops to enroll as troop units with their Scoutmaster or other adult leader in charge of troop while it is in camp.

Timely emphasis is being made on physical fitness by the installation of an obstacle training course and the resumption of the usual swimming program to include competitive or silent type swimming. In addition, all of the usual Scoutmaster activities will prevail which will include expert instruction in nature, handicraft, athletics, first aid, punning, camping, and other outdoor work under the National Rifle Association Scoutmaster Program.

The camp will be directed by Paul E. Heelan, asst. executive, who will leave this weekend to take a special training school in camping offered by the Boy Scouts of America at Augusta, Ga. Harold V. Pace, Scout Executive, will handle matters of administration and camp staff. A competent staff, including troop leaders in carrying out their programs.

"Today, our division is heading for the front. We've worked for this a long time, while day and night our slicers have been keeping the long distance lines busy—making plans and arrangements.

"As a result, we're moving forward, according to plan" thanks to your help in keeping long distance telephone lines clear of unimportant calls.

"More and more urgent military messages are traveling over long distance lines, as men and supplies are ordered overseas. Home front planning and production also depend on the same telephone lines, which cannot be expanded due to material shortage. So you are definitely helping when you avoid making unnecessary long distance calls—especially to war centers."

PLEASE BE BRIEF: Materials needed to build new telephone lines are now going to war. So to serve the greatest number of people with the equipment we have, we need to make fewer calls and be brief on all calls.

Baseball Feeling Much Better; Manpower Shortage Not Likely

By DILLON GRAHAM
 AP Features Sports Editor
 NEW YORK, June 2.—With the major league pennant races almost one-fourth run, baseball observers aren't as apprehensive over this season's prospects as they were a few months ago. Then some were doubtful about attendance, transportation and manpower. After a shaky start, attributed to bad weather, the crowds generally have been satisfactory. Where a few thought the season might be shortened, fans now believe the full schedule possibly ending by July 4, most will be played.

Transportation problems have been of a minor nature. Perhaps there was trouble now and then getting busses around on time, the usual Pullman accommodations were not always available and players had to carry their own suitcases. Transportation troubles probably will increase. So far there has been no play-off shortage. Many players, including some of the standouts,

joined the military services during the off-season. But only a couple of dozen players counted on around March 1 are now out of the lineup. These are:

1. Now in military service—Infielder Tom Carey, Red Sox; First Baseman Johnny Mize, Catcher Hank Danning and Outfielder Ken Heintzelman, Infielder Jim Cullinane and Outfielder Cully Richard, Pirates; Outfielder Bob Patrick, Tigers; First Baseman Ed Levy, Yankees; Outfielder Mike McCormick, Reds; Outfielder Glenn McQuillen, Browns and Outfielder Frank Kell, White Sox.

2. In Farming or Defense Work—Outfielders Lou Finney, Red Sox; Pitcher Allen Gettel, Yankees; Outfielder Nanny Fernandez, Braves; Pitcher Aldon Wilkie, Pirates; Infielder Les Fleming, Indians; Pitcher Ross Bauser and Outfielder Eddie Stewart, Pirates; Pitcher Hal Manders, Tigers; Pitcher Fiddler McGee and Outfielder Ed Leiber, Glants; Outfielder Fabian Gaffke, Indians and

Outfielder Lloyd Waner, Doherty Pitcher Johnny Vander Meer of the Reds and Pitcher Lou Tost of the Braves expect to be inducted shortly. Pitcher Fritz Ostermuller of the Browns, Infielder Babe Dahlgren of the Phillies, Pitcher Orval Grove of the White Sox and Outfielder Pete Fox of the Red Sox have already had their preliminary physicals.

Others classified at last reports in IA include Pitchers Max Butcher, John Lanning, Jack Hallett and Harry Shuman and Outfielder Jim Russell, Pirates; Infielders Jim Waddell and Denny Murtaugh, Phillies; Infielder Vernon Stephens, Browns and Pitchers of the Cards. Some listed now as IA are single or married without children and expect to be reclassified IA shortly.

Since the large majority of the big leaguers are fathers they apparently will be available for some time yet. General Hershey has said that drafting of fathers probably will start in August. The season would have only six weeks to go then and some doubt that the calls will come so rapidly as to deplete the player ranks. Of course, there is the possibility that some contending team might be more heavily hit by calls than others and lose its pennant

OFF THE ELBOW WITH THE REPORTER

D. A. R. To Raise Blood Plasma Funds

LAKE WALES, June 2. (FNS)—The Florida Daughters of the American Revolution, in Board meeting here last Thursday, again adopted the project of the National Society for the coming year for an all-out war effort, and especially toward raising funds for the Mobile Blood Plasma Unit and additional medical equipment.

Mrs. J. Prinson, Tampa, newly elected Regent of the State, presided.

Bradenton's invitation for the 1944 meeting was accepted by the Board.

Booklet of 15 War-time Recipes

Prepared by Famous Cooking Experts

A Letter to the Ladies

Looking for a tip that will save precious ration points and pennies, avoid monotony in meal planning, make eating fun and still keep your family well fed? Look no longer—cause here are 15 of them—clever yet practical recipes for oh-so-good main dishes and desserts—published by the Bakers of Southern Enriched Bread as a contribution to our Government's Nutrition Program.

We call them BREADWINNERS—and they really are winners: 15 selected, tested recipes contributed by leading American food authorities. Best of all, they're absolutely FREE. Because they feature bread as a basic ingredient, these recipes are low in cost and good for your family too. Nutrition experts agree that a generous supply of Enriched Bread should be included in each day's diet. Say goodbye to ration point blues—get your FREE recipe booklet today.

The Bakers of Southern Enriched Bread

ONE OF THE RECIPES IN THIS BOOKLET

Do you want a good main dish without meat? Peanuts are recognized as a reliable meat alternate, and this combination with carrots and the tomato sauce makes a hearty dish the family will applaud. Try it!

PEANUT AND CARROT LOAF

2 tablespoons shortening
 3 tablespoons flour
 1 1/2 cups cooked tomato juice and pulp
 2 cups chopped carrots 1/2 cup finely chopped
 2 cups chopped roasted peanuts
 1 cup dry bread crumbs 1/4 teaspoon salt
 1 cup dry bread crumbs 1/4 teaspoon pepper

Melt shortening, add flour and blend until smooth. Add tomato juice and pulp and cook until thickened. Add other ingredients to this sauce and pack tightly into a well greased loaf pan. Bake at 375 degrees for 1 hour.

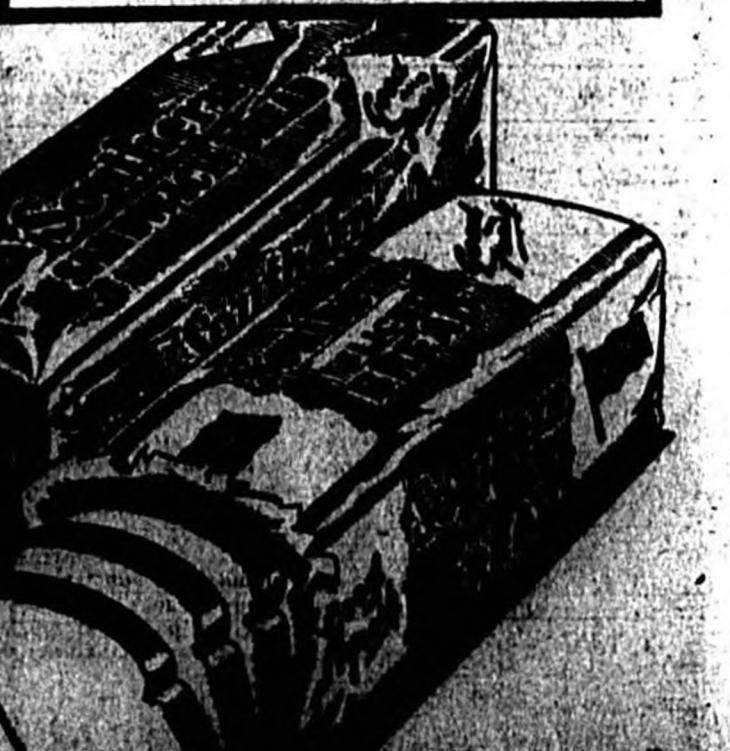

Contributed by EDWINA NOLAN
 Manager Home Economics Department
 GENERAL ELECTRIC COMPANY

P.S. Here are four reasons why Southern housewives always ask for SOUTHERN when they ask for bread:

- 1 It is Plentiful—Not Rationed
- 2 Low in Cost—Big in Value!
- 3 Helps S-T-R-E-T-C-H food dollars and Ration Points!
- 4 Enriched—gives you plenty of extra food Energy!

HOW TO GET YOUR FREE RECIPE BOOKLET

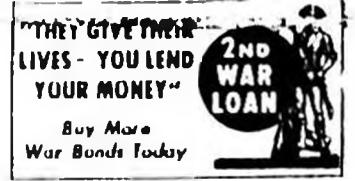

We want you to have a copy of these helpful recipes. To get yours, simply mail a postcard to SOUTHERN BREAD, care of this newspaper. Be sure to print your name and address clearly.

Troops In Argentina Battle Government

Pro Nazi President Castillo And Cabinet Are Reported Fleeing in Gunboat

BUENOS AIRES, June 4. (AP) Revolutionary troops entered Buenos Aires today and divided into columns about four miles from the government house of President Ramon Castillo, in a movement toward the heart of central Argentina accompanying reports of fighting on the outskirts of the city.

(Part authorities in Montevideo, Uruguay, were ordered on the lookout for an Argentine gunboat reported without confirmation, being used by President Castillo and his ministers to flee.)

Earlier Senator Alfredo Palacios said 2,000 men under Gen. Arturo Rawson advanced upon Buenos Aires from Camp Mayo, 18 miles away, in a movement headed by Gen. Pedro Ramirez, minister of war, and a clash with President Castillo's "forces of repression" with many shots exchanged was reported at a school for naval mechanics near the harbor of Buenos Aires province.

The revolting army units quickly seized control of strategic points about Buenos Aires, and one or two persons were reportedly killed and many injured.

The British legation in Montevideo said the impression is that the revolutionaries have been successful. Argentine in New York interpreted the revolt as a pro-democratic movement against the government's dictatorial methods and neutrality policy. Argentine is the only American nation maintaining relations with the Argentine government.

Pay Day On Guadalcanal

HURRY-NATIVE STEVEDORES line up at the outdoor cashier's table on Guadalcanal to receive their weekly salary from the U. S. payroll officer on the Pacific island. They are paid five shillings a week for unloading supplies. This is a U. S. Signal Corps photo.

British Urge Italian Fleet To Come Fight

Nazi Army Reported Preparing For Battles On The Largest Possible Scale

WASHINGTON, June 4. (AP) The conquest of Attu and the United States 1,335 Army casualties including 342 dead, 1,135 wounded and 58 missing up to midnight Tuesday, the Navy reported today.

When Italy's tenth aviation invasion today, a Berlin broadcast said the German army was "preparing for battles on the largest possible scale."

For the fifth time in five days, a British challenge to the Italian fleet to come out and fight was unheeded with a disclosure that Allied warships twice again had bombarded Pantelleria and Allied bombers also pounded the island and the RAF blasted Naples from the air.

The long Russian battle continued, strangely silent, marked only by sporadic thrusts as though each side was feeling out the other's strength.

In Algiers Gen. De Gaulle and Gen. Giraud were reported to have reached a new compromise under which Giraud will make concessions but remain as commander of the French Army.

In Chungking Chinese forces were reported to have smashed into the Yangtze port of Su after annihilating 2,000 Japanese and capturing Nanchang on the north bank of the Yangtze.

A Chinese communiqué announced today the report said the battle on the upper Yangtze had turned into a rout of enemy forces which were battered ceaselessly by American and Chinese planes.

Roosevelt Is Mum On Use Of Troops In Coal Mines

Last Shift Before Coal Strike

Looking for news of coal pact, legislators, miners and officials last shift at the East Loan Mine in Pittsburgh. The photo shows the late Senator William E. Miller and other officials. The mine closed without new contracts. (International Sun photo.)

Strikers Declared Subject To Induction Into Armed Services In Spite Of Previous Deferment

WASHINGTON, June 4. (AP) John F. Lewis today commended that the coal miners return to their jobs on Monday, the day set by President Roosevelt's order to end the strike, but the coal industry's demand that the miners be ordered to work and no one doubted that the industry would accept its economic modification and having any modification development the miners will be coming full blast Monday.

WASHINGTON, June 4. (AP) President Roosevelt today and that striking coal miners as well as any others who stop essential war work are subject to induction into the armed services where they have been given occupational deferments.

He declined to comment at press conferences today on whether a group of strikers would be inducted into the armed services, but he said he would order the induction of any group of strikers who stop essential war work if the question is not settled by the end of the week. He said that any strikers who would be inducted would be treated like everyone else.

As a war time commander-in-chief the President today ordered some 100,000 striking mine workers to return to work Monday and double incentives were reported in store in case they disobey.

Harking to the limit the War Labor Board which John F. Lewis has defied, Roosevelt's statement did not seem to recognize even a possibility that the order would be ignored.

It was stated on high authority that the government is considering seriously the question of whether men who have struck would be inducted in any retro.

Peru Described Manpower Slack To Woman's Club Expected To Last Long After War

Love Of Peace Given As A Characteristic Of Hispanic-America

Comparing customs, habits and climates of North America and Hispanic-America, Dr. Rafael Belaunde diplomat, drew a vivid picture of life in Peru, following the general subject, "Physiography," before members of the Sanford Woman's Club Wednesday afternoon.

Robert McCall, son of Mr. and Mrs. O.R. McCall, a student at Mercer University, played Massena's familiar "Meditation" just before Dr. Belaunde's address.

Miss Doris McCall, pianist, accompanied her brother, who has received recognition in Macon, Ga. as a violinist.

Of the much publicized boundary disputes, Dr. Belaunde stated the countries of the South are, fundamentally of a peaceful nature and their sentiments are with "human solidarity." With a chuckle, he said "We have few wars, but we do have our boundary disputes, which eight times out of ten are settled by civic means."

On the other hand, he pointed out, the normal state of Europe is war and hate, as history shows.

Invocation — Rev. George Ziemer.
Overture Christian Soldiers — Congregation.
Invocation — Rev. W. P. Brown.
Recessional — Aida March.

J.N. Robson Jr. Returns From Trip To North Markets

"Every manufacturer told me the shortage of clothing and other items is due to the labor shortage," said J.N. Robson, Jr., who has just returned from a buying trip to Baltimore, Md.

Mr. Robson stated he had very little trouble in train accommodations, but he spent much time in a telephone booth in a Baltimore station trying to get a reservation, unsuccessfully, at nine hotels. A manufacturer whom he interviewed finally found a desirable hotel for him.

Going north on the train, Mr. Robson said he met a defense worker from Winter Park, who was known by extremely crowded Baltimore hotels and boarding houses are, offered to share his room.

Turning back to the labor shortage, Mr. Robson disclosed that each company he visited had possibly one man employe and the rest were women or girls.

He stated that there were not enough clerks or salesmen to take orders, nor were there sufficient numbers of peckers and truck drivers to fill orders.

The climate was pleasant and the weather was good, Mr. Robson said, adding it was the first time he has been away in several years but the trip was necessary because few manufacturers have traveling salesmen now.

War Time Theme Is Emphasized In 1943 Salmagundi Just Off Press

The 1943 Salmagundi, student annual of Seminole High School, is the latest addition to the series. Edited by Walter Anderson, its blue cover presents a globe in relief showing portions of the Western Hemisphere, Europe and Africa, suggesting world events in war time.

This theme of war time is immediately evidenced by a double page photograph of the student body saluting the raising of the colors on the flagpole in front of the school. The next page shows a reproduction of the globe and flag of the United States.

The 84th Salmagundi published by senior classes of Seminole High School, is dedicated to the memory of the late Fred T. Williams as follows:

"The 1943 edition of Salmagundi is dedicated to the memory of the late Fred T. Williams, who during the past 22 years as member of the County Board of Public Education, has contributed much to the growth and development of the Seminole High School.

"Mr. Williams, a veteran of the Spanish-American War, county and city member, consistent worker in the Chamber of Commerce and other civic bodies for the promotion of every worthy cause, was born in Florida, particularly in the student body of the Seminole High School, and his friendly greetings and pleasant smile will be sadly missed.

May we strive to emulate the fine example of this true friend of Seminole and her schools."

The degree of 1943 Salmagundi Human Relations, was awarded to Mr. Harold Roberts of New York.
