

INJUNCTIONS FOLLOWING ON DRY SHIP ORDER AMERICAN LINES PROTEST

BRITISH AND FRENCH GOVERNMENTS WILL FILE PROTESTS

GRANT INJUNCTION

In American Courts Say Officials Who Are in Position to Know

(By The Associated Press) LONDON, Oct. 13.—Unless an injunction is granted to the Cunard Line the British government probably will protest formally through its foreign office against the ruling prohibiting liquor on foreign ships in American waters, it was stated officially today. Officials here, however, express opinion that an injunction will be granted in the American courts.

NEW YORK, Oct. 13.—On the eve of the late set for enforcement of the federal prohibition ruling prohibiting liquor on vessels, both American and foreign, from bringing liquor under seal to American ports, enforcement agents yesterday were faced with two important test cases.

One was a temporary restraining injunction granted yesterday by Federal Judge Edward Hand, enjoining local government authorities from molesting the American board the American ship, the *England*, and the *St. Paul*. The other was an order directing the enforcement agents to show cause why an injunction should not be issued to prevent them from interfering with the British owned *Cunard* and *White Star* lines. This was issued by Judge Hand yesterday night.

The injunction issued was hailed as a victory for the American prohibitionists, who claimed they would receive millions by the confiscation of the Daugherty prohibition. It was issued upon application of the International Mercantile Marine Corporation, which controls the American Line operating the *England* and *St. Paul*.

WOMEN NOT TO RUN FOR SECOND TERM IN LEGION

(By The Associated Press) OREGON, Oct. 13.—The American National commander of the American Legion, tonight declared that under no circumstances would he be a candidate to succeed himself as national commander, and would "bitterly oppose" any attempt to change the national constitution of the Legion, which would enable a second term for a national commander.

Mr. [Name] declared in a statement to the press that he would not be a candidate for a second term for a national commander, and would "bitterly oppose" any attempt to change the national constitution of the Legion, which would enable a second term for a national commander.

Delegates from Missouri today conferred with William J. Doyle, state commander from Massachusetts, and members of the Massachusetts delegation. It is understood that delegates from both states favor the candidacy of William Deegan, state commander from New York, for national leader of the Legion.

Outstanding among other Legionnaires whose names are being discussed for the national command are Col. A. A. Sprague of Chicago, Alvin M. Ousley of Texas, chairman of the Legion's commission on Americanization; Joseph Thompson of Pennsylvania and T. Semmes Wainsley, of New Orleans.

FRANCE OBJECTS TO MORATORIUM FOR GERMANY

WOULD NOT STAND FOR GERMAN HAVING FIVE YEARS

(By The Associated Press) PARIS, Oct. 13.—The French government instructed Louis Barthou, its representative on Allied reparations commission to oppose the latest proposition made by Sir John Bradbury England, that immediate moratorium for a period of five years be granted Germany on all cash payments, semi-officially announced.

ORANGE COUNTY LACKS FUNDS FOR BRICK ROADS

FROM ORLANDO TO THE EAST COAST AS VOTED UPON

The county and eight six thousand dollars between the people of Orange county and a 16 foot brick road from Orlando to the East Coast. It is the amount the county commissioners are short of the price of a brick road. After completion the grade would be the creation of bridges and the paving the county will have \$1,000,000 for the highway, enough to pay the construction of a brick road from Orlando to the East Coast.

MIDLAND MEDICAL SOCIETY WILL MEET IN SANFORD APRIL OF NEXT YEAR

Dr. J. T. Denton attended the meetings of the Midland Medical Society at Lakeland yesterday and enjoyed a fine program. Dr. Denton was especially interested in the paper of Miss Reba Harris of the state board on the subject, "What the State Board of Health is Doing To Prevent Tuberculosis in School Children." Miss Harris will meet with the Seminole County Health Board at the Montezuma tonight formulating plans for the campaign in this county. Dr. Denton invited the association to meet in Sanford next year and they accepted his invitation and will meet here some time in April.

A son was born to Mr. and Mrs. A. K. Rossiter, Oct. 6, the young man weighed 6 pounds and has been named Appleton Kent Jr.

A son was born to Mr. and Mrs. Perry Anthony, Oct. 4 and has been given the name of Edward Charles, he weighed 10 pounds on arrival.

A Company and Carl Chorpene were in Ocala on a business trip last Saturday.

Mr. and Mrs. Clark Leonardi have moved out from town to the John Leonardi house on Cameron road, this is the second year Mr. Leonardi has farmed out here.

C. E. Chorpene has accepted the care of the East Side children again transferring them to the schools in town, this being the third year. Mr. Chorpene has his cars fitted up in fine shape for the comfort and protection of the children in bad weather, his new Dodge is a fine car.

Mr. and Mrs. Wiley Wilson and children came back from the East Coast last week after several months absence. Mr. Wilson is said to be very well. They are staying with friends at Cameron city.

Miss Maud Cameron was here from Tampa last week arriving before her mother passed away.

There is said to be the largest number of voters set for so early in the season than ever before. That is, it is set on well leveled land looks like but on in you land badly. The night but they were but for newly set houses, we are glad it is. And 4000.

There was an enthusiastic meeting of a company and on Friday afternoon last at the Moore's Station church for the purpose of forming what will be known as the East Side Community Club. Mrs. E. M. Gallo was our neighbor and the Woman's Club organizer for the state gave an interesting sketch of the aims and accomplishments of club workers. The club is open to all with members and dues will be undertaken to carry on. In the coming year Mr. Mrs. A. Company, president, Mrs. Galloway treasurer, Mrs. J. E. Ellsworth secretary. The next meeting will be Oct. 20 at the church. Come.

The death of Mrs. A. B. Cameron occurred at the family home last Saturday p. m. Mrs. Cameron had been an invalid for about 10 years. Mr. Cameron had a motor truck constructed in such a manner that a wheeled chair could be placed in it for Mrs. Cameron to drive with the family which they had done for several years on Sunday previous to her death they were all at Coronado Beach and starting the car to return her home was delicate and the poor lady this was not which resulted in internal injuries. She was hurried to a doctor and then brought home and other doctors called one from Orlando and it was thought that could possibly be done. The funeral took place Sunday at 4 o'clock at Holy Cross Church, and conducted by Father Peck. The young daughter, Mrs. Clara Cameron Hanson sang the hymn "I shall know him by the prints of the nails in his hands" as a solo, accompanied by Mrs. Hanson. There were many beautiful floral pieces given as a last tribute to the quiet, home loving lady, wife and mother who has passed her word. The whole neighborhood attended the funeral in a body. The family has the sympathy of all neighbors and friends.

Every boat to Sanford brings us fresh supplies of stock of paints, varnishes and stains of which we carry the largest stock in South Florida. HAYES NOT GUILTY OF DUAL KILLING

(By The Associated Press.) NEW BRUNSWICK, N. J., Oct. 12.—The case against Clifford Hayes, who was held four days as the slayer of Rev. Edward Wheeler Hall and Mrs. Eleanor Ryffhardt Mills, blew up with a boom today, and the authorities turned back in their investigation theories that provided a more logical motive for the double crime. The blow-up came when Raymond Schneider, Hayes' accuser, repudiated his entire story of the crime. The authorities immediately renewed their investigations of leads which had been relegated to the discard when Schneider's statement caused them to doubt they had solved the case.

The new turn took them back to the home of Mrs. Francis Stevens Hall, widow of the slain clergyman, and to that of James Mills, widower of the slain choir singer.

Detectives visited the Hall home and took away a fawn colored coat and scarf which she had dyed in Philadelphia since the murders. Then sent it to an analytical chemist for analysis of brown spots which the Philadelphia cleaners reported were beneath the black dye they had applied.

Mrs. Hall is known to have worn a light colored coat in the early morning of September 15—the morning after the murders—when, according to her story, she went to the Church of St. John the Evangelist, looking for her missing husband, looking for her missing husband. She has told the authorities her eccentric brother, Willie Stevens, accompanied her to the church and back. Witnesses who saw her return home declare she returned alone at about 1:30 a. m.

WHOLESALE OIL FIELDS. SELL FOR \$2,500.00 CASH.

(By The Associated Press.) WICHITA, Kas., Oct. 12.—Oil field holdings of R. R. Hayes and L. H. Cullum of this city have been sold to the Magnolia Petroleum Company for \$2,500,000 each, it was announced today. The deal included 160 acres in the South Electric field and some small tracts in the Park Burnett and DeGonia fields. About 100 barrels daily production is involved. 170-6tc

TURK DESTROYED CHRISTIANS

(By The Associated Press.) NEW YORK, Oct. 12.—Bishop James Cannon, Jr., of Birmingham, Ala., who is the secretary of the Federal Council of Churches and of the Near East Relief, at the Yacht Club here today, charged that the United States "as a Christian nation had failed to meet its responsibilities" in the Near East situation, and urged that the Government take immediate action to attempt to stop Turkish massacres.

Henry W. Morgan, chairman of the ambassador to Turkey, and Dr. Henry A. Atkinson, general secretary of the Church Peace Union, joined Bishop Cannon in urging that the United States Government should throw its moral support into the balance against the Turks.

The meeting today was called with the purpose of "arriving at the truth of the Near East situation." It was attended by representatives of the American relief organization, mission workers, heads of American schools in the Near East, and prominent churchmen and editors.

Bishop Cannon, who returned today from a trip through Europe and the Near East, declared the object of the Kemal advance into Europe was the methodical extermination of Christians.

"I think," said Mr. Morgan, "that the United States should get its second breath and should come back as a moral nation by taking a stand against the Turks. A short time ago we were on the verge of a conflagration. Let us not wait until this conflagration is upon us again. Let us do our share now to put it out. And he can do this by showing that we can help by furnishing the means to carry on relief work."

NEW U. S. BOND ISSUE OVER-SUBSCRIBED

(By The Associated Press.) WASHINGTON, Oct. 12.—The government's new bond issue—the first since the war—has been over-subscribed, Secretary Mellon, announced last night. The total subscriptions, it is understood, aggregated something near one billion dollars on an offering limited to about five hundred millions.

Palatka Landmark Changes New Name to Kupperbusch

Well Known Hotel and Cafe Takes Old Name

PALATKA, Oct. 12.—One of Palatka's landmarks has come back into its own. Instead of "Deering Hotel," the old Kupperbusch hotel on Lemon street now has displayed before it the old sign which did yeoman service for more than a generation. It is the "Kupperbusch Hotel" once more.

Charles Kupperbusch, according to old residents, came here as a young man with no other resources than a lone twenty-five cent piece. The story is that he purchased a box of small calibre rifle cartridges, with the quarter, borrowed a rifle, and opened a shooting gallery. At that time Palatka was the "jumping off" place along the East Coast of Florida the most popular winter resort in the state and the shooting gallery prospered. The railroad ended here and travelers were forced to board steamboats if they desired to journey further southward.

Mr. Kupperbusch later established a restaurant and then took over the upper floors of the building and converted it into a hotel naming it "Kupperbusch Hotel." For years it was one of the best known hostleries in Florida and the food served in the hotel fare and dine at Kupperbusch's. In addition to serving a large number of patrons the restaurant furnished a Palatka home with one of its principal parts of the mid-day meal. The roast beef was known from West to Pensacola, and every noon found Palatka there with utterance in which to take home portions of the beef for their table.

There were no electric fans in those days, but the restaurant was equipped with huge ceiling fans, each belted to place, and operated by a negro post boy who worked in the rear of the building.

For the sake of Mr. Kupperbusch during the years he operated the restaurant, he saved up \$100,000 and in 1910 he sold the property to Dr. Deering. Mr. Deering took down the old sign, and replaced it with one bearing "Deering Hotel."

Mr. Deering, recently disposed of the place to Jordan Harwick, who's first act was to rename the Deering place after the name he got from the old Kupperbusch. Harwick says he will go off, and hang it up.

The Prohibition Law will hold the Barren 245, Dec. 13 and 2nd. 170-6tc

The Banker and the Farmer

By cooperating with a bank the farmer places himself in position to receive the financial support that is so necessary at certain seasons or in special agricultural pursuits. And it is the farmer's cooperation that places the bank in position to render such support. In a word the banker and the farmer need each other.

We particularly solicit the accounts of farmers, and the facilities of this bank are always at their disposal.

Friday, the Thirteenth.

Look out, some one will steal your umbrella.

The Shoals lease is renewed by the United States. We wonder.

Nearly seven inches of rain fell in Palm Beach yesterday. This will probably be enough for that section of the country.

Dengue fever is moving north and is now reported in Alabama. Hope it moves somewhere and stays there for the rest of our natural lives.

The traffic problem is getting to be a big problem in most of the Florida cities. Luckily, Sanford has wide streets and will have but little trouble if the drivers of cars and the pedestrians will use sense.

Mrs. Ruff of Jacksonville, charged with attempting to bribe Mrs. Tuff of Sanford, is now in the hands of the law. Mrs. Tuff is now in the hands of the law. Mrs. Ruff is now in the hands of the law. Mrs. Tuff is now in the hands of the law.

Mrs. Ruff and Mrs. Tuff. Enough is enough and nuff said about Ruff being hard on Tuff—ruff stuff, r-r-ruff, wuff.

Weather report says more rain but it really looks like a storm today or an equinoctial change of some sort. Being Farmer's Day it would naturally rain in order that the farmers and the bankers can play golf.

ROAD MISTAKES

The Herald has from time to time called attention to the fact that all countries and all cities make mistakes in road building. In this age of good roads and roads that must stand maximum of wear and tear of thousands of cars and heavy trucks it takes a real road to stand the strain. The nine foot grouted roads that were thought to be the last word in road building and were at the time built, have now gone into the discard and it is found that sixteen or twenty-four foot roads must now be built where the traffic is heaviest. We point to our wide city streets with pride and ask the county commissioners why they cannot build brick roads such as these. We forget that our city streets were built with the best of brick, with the finest of granite curbing and the proper drainage and gutters and last but not least the wide city streets divide the traffic and that is the answer. Our county roads never had a fair shake when the people went wild over motor cars and without a minute's warning swarmed over our nine foot roads with cars and trucks and with a traffic that ten years ago we would not have believed possible.

Thus our road problems in the county and our street problems in the city have changed and the Herald would caution the city commissioners and the county commissioners against taking any substitutes for good streets and roads until they know positively that either the brick or the asphalt or what not in road building will not only solve the question today but for at least ten years to come. We are not building for today any more than the pioneer road builders of Orange county twenty years ago built for that day. This part of the state was the first to recognize the value of good roads and this part of the state spent more money and built more roads than any other section at that time and for a long time after. But what if there is an accident here and there? We should

learn from experience what is good and what is poor. There is no need of our throwing any more money away on nondescript roads especially since we have had the experience. A few years ago this county wanted better roads in certain sections and voted bonds without first taking into consideration the rising prices and the fluctuations in all lines of road building business, the freight rates and other items entering into road construction. They eventually took up oil penetration roads because they did not have money enough to build better roads. The oil penetration was not the thing. More money was voted to resurface the roads. This is now being done. It may solve the problem but the chances are it is only more of the taxpayer's money wasted. One instance only.

Seminole county is not alone in this experimenting business. It seems that it takes a long time to learn Orange county, the pioneer in road building voted to build a brick road to the ocean. The county commissioners made the campaign on this question. Now that the bonds have been voted they find out they have insufficient funds to build brick roads and they want to build some sort of compromise asphalt or oil roads. There is a big howl going up from the people all over the part of Orange county effected. It is the same old story. The commissioners were perfectly honest in their endeavor to build a brick road to the ocean. They did not look ahead, take everything into consideration and vote sufficient bonds to cover all costs at the time voted and afterward. Times change, prices change, usually going higher instead of lower, sights must be set high enough and then vote the kind of road you are to build and build it, if it only goes a mile. Seminole county would have saved money many a time if the commissioners had gone ahead and voted to build only so many miles of road a year and let it go at that instead of trying to please every voter in the county by twisting the roads past his house. Capt. B. M. Robinson, clerk of the circuit court of Orange county says politics has something to do with some of the mistakes and that trying to stretch the roads to please all the taxpayers is also responsible for insufficient funds that confronts the county commissioners of this county.

The Herald has faith in the public officials and believes they are doing what can be depended upon to do their duty at all times. We have faith in

the city commissioners and the county commissioners and we have stood behind them at all times because we know that they are honest and conscientious and hardworking men, holding these positions of trust and responsibility with no salaries attached and giving freely of their time and money to assist the city and county. We believe that they will continue to give the taxpayers the best there is in them and that being taxpayers themselves they are looking to the best interests of the people and will get them the best results in road building that is possible.

The only thing to remember is that being penny wise and pound foolish is bad policy in business and in municipal affairs. The very best that money can buy is none too good for the city and county and now that Sanford is on the eve of building many more streets we want the city commissioners to be careful about drainage, about the materials, about the curbing and about each and every item that enters into road building. Don't take any substitutes for materials that you know will not stand the strain of heavy traffic. Don't be stingy with your streets and make them too narrow. See that the right man is watching over this road building and that he is on the job every minute and that no one puts anything over him. We want the best streets for our money that have ever been built.

We should profit by our mistakes in road building as in other things.

WEALTH IN WATER HYACINTHS

Fellows who have been much concerned and have contributed liberally to help stamp out the water hyacinths may have been killing a second pulp mill proposition.

In Louisiana, according to an article published in the Louisiana Planter, something promises to be brought out of the proper handling of this water weed and if the experiments prove what is promised the water of Florida may be cleared of the pest at a profit. The Planter says:

The invention of Davis, Ardenaux and Lewis for the destruction of hyacinths appears to be the ideal thing. It is described, it consists of a float or barge, equipped on the fore end with knives which cut the hyacinths ahead of an arrangement of rollers which draw them to an end, drag or carry them into a series of corrugated rollers, which crush

and grind them, destroying their further possibility of growth.

Their second invention covers the process of curing the crushed hyacinths and converting them into a product which may be used for feeding stock.

A number of analyses made recently of the cured hyacinths show them to be superior to alfalfa in feeding quality. Just how important this last discovery may be has not dawned upon the people. The fact that such a menace may be turned into product more valuable than alfalfa opens up an avenue of unlimited revenue. There is no such thing as crop failure with the hyacinths and the cost of production is nothing.

The proposition looks so good from every angle that a number of Calveseiu business men and capitalist heading the Lake Charles Chamber of Commerce have become interested in the devices and processes to such an extent that they have volunteered to put them through the preliminary tests at an expense of approximately \$40,000.

Second sheets, 8 1/2 x 11, only 50c per 1,000, while they last, at Herald office.

STROUT FARM AGENCY,
118 Magnolia Avenue

SANFORD READY FOR DELAND

Although the day dawned dark and cloudy with rain every fifteen minutes all through the forenoon, the hopes of the Sanford High were not dimmed in the least, and Coach Wilkins says that the Sanford outfit can win in the mud, water or sand, the promoter can register 90, 60., 30 or zero. And that means he has planned to win the game this afternoon. The local outfit goes to DeLand tomorrow afternoon, the game starting promptly at four o'clock. Many of the local fans will motor over to see the fray. A jam up game of football is expected, as this is the opening game for DeLand and their outfit in fine shape, while Sanford is even better shape, having played one and one game already, got themselves taken in and in good shape now.

NEW YORKERS TURN TO HOME BREW AND GRAPE WINE

(By The Associated Press)
NEW YORK, Oct. 13.—Omar Khayyam, the Persian poet, who disclaimed profundity by declaring that he was "deep in anything save wine," waded in shallow pools compared to pedestrians whose route of travel today lay along West street the broad, cluttered and smelly thoroughfare that bounds Manhattan's Hudson shore—the home of fruit and commission houses.
A trip through West street is a journey along a path that is a compromise between a vineyard and a battlefield. Mountains of crates and boxes, piled in an endless procession along the sidewalk, emit pungent odors that bewilder the pilgrim and cause him to tread unsteadily as he sashes about in gutters—cutters that are sparkling rivulets of grape juice in some places it's ankle deep and little arches are running about with empty pails.
For New York, at least, is making its own. Spent, physically and financially by patronizing the holder, methods of getting a draught of high price low quality stuff, the Manhattanite who imbibes is turning toward home and home-brew.
Estimates of commission men vary, but it seems that at least 20 car loads of wine grapes, mostly from California, are being unloaded here every day, and are finding ready customers in West street. The softer, riper and juicier they are, the quicker and larger the sale. Grape men say the turnover will be about \$500,000 the greatest in history.
Because the customer don't want the farm, but appearing fruit, the retailers keep the shipping, cooling, commission and other boxes piled along the sidewalk with the juice running down the gutter and forming puddles. The retailers like the business because their produce can't spoil, the grapes are not at all deteriorated, and come the better it is liked.

CELERY SEED

Looks like a mud battle at DeLand today.
And all those nice, new, Orange and Black uniforms will get muddied up.
But Sanford says that DeLand will "get muddied up worse."
The big game in Orlando tomorrow between the "Gators and Tars" starts at four o'clock.
The little world's series is still on. Baltimore needs just one more game to win. They defeated St. Paul at St. Paul yesterday, 5 to 1.
And the Chicago series stands at 3 to 1. The White Sox evened it up yesterday by taking the Cubs over, 13 to 1.
The French want Dempsey to fight in France. Better to have it that way, so they won't have to take Siki so far to bury him.
The Kiwanis Club of Orlando, defeated the Lions Club yesterday. Made something over three hundred dollars, which went to the day nursery of Orlando.

LANDIS ASKED FOR THE GAME RECEIPTS, \$120,000

CINCINNATI, Oct. 13.—All the owners of the baseball clubs in the National and American Leagues were asked by C. Hamilton Cook, National Commissioner of the Disabled Veterans, to turn over the receipts for the \$120,000 proceeds received in the recent tournament of the World's Series. A statement after the game, and that all the proceeds would go to charity.

NEW YORK, OCT. 13.—The disposition of the more than \$120,000 taken in at the second world series game, which ended in a tie between the New York Giants and Yankees will be discussed in New Orleans on Monday when I. L. Houston, one of the organizers of the American League tournament, will meet Commissioner Landis at the convention of the Federation of Inter Allied Veterans.

TOLBERT WILL BE HERE AT CHURCHWELL CO. STORES SATURDAY AND MONDAY

It will be good news to the satisfied customers and patrons of the Churchwell Stores to know that W. H. Tolbert will be here Saturday and Monday with a full line of samples of fall and winter goods. Mr. Tolbert needs no introduction to Sanford people for he has been coming here for many years, displaying samples and taking orders and he knows his trade as few know it and his motto is "service and satisfaction." On the other hand the public knows that Churchwells demand satisfaction and service in all the departments of the stores and those who are contemplating fall and winter suits and overcoats call Saturday and Monday at Churchwell where the smiling Forest and Bradford and Tolbert will meet you at the door. See their advertisement in this issue.

MISKE-GIBBONS FIGHT TONIGHT

(By The Associated Press)
NEW YORK, Oct. 13.—Billy Miske and Tom Gibbons, St. Paul pugilists, fought training yesterday for their round match tonight at Madison square garden. Should Miske win, he will be matched with Harry Wills, champion of the negro heavyweights, according to promoters of the Miske-Gibbons battle.

MORAN GETS HIS IN THE 7TH

LONDON, Oct. 13.—Joe Beckett, the Irish flyweight pugilist, scored a knockout over Frank Moran, American flyweight, when the referee stopped their bout in the seventh round. Moran had here last night, in a contest, Jack Bloomfield, the English flyweight champion, before promoter Wells, also of England, in the sixth round.

FRENCH PROMOTERS SEEK DEMPSEY AND SIKI FIGHT

PARIS, Oct. 13.—French boxing promoters are endeavoring to bring Dempsey and Siki, heavy weight champions, to a battle with Bat Siki, the English conqueror of Georges Carpentier, in December. In boxing circles it is reported that the fight of the New Buffalo States Carpentier's eclipse Siki, made overtures to Jack Dempsey, manager for such a fight between 1930 and 1931. Dempsey's end of the fight is reported to be near the end of the year. It is reported to be near the end of the year. It is reported to be near the end of the year. It is reported to be near the end of the year.

NEW YORK, Oct. 13.—Information from Paris that Battling Siki, who recently defeated Georges Carpentier and was the light heavyweight champion of the world, has decided not to come to the United States, caused a surprise in metropolitan sporting circles as the Senegalese was booked for a bout November 30 at Madison square garden with an unnamed opponent.

Tex Rickard, the Garden promoter, who announced that he had closed negotiations with M. Hillers, Siki's manager, for the bout, could not be reached, but his partner, Frank Flournoy, said it seemed improbable to him that Siki would attempt to break an agreement made by Hillers.

Whether his contract with his manager expires on November 30 as your cables state," Mr. Flournoy said to the Associated Press "is of no consequence, because Siki is bound by what arrangements M. Hillers makes while that contract is in effect. We shall expect Siki to come here."

It still would be possible for Siki to return to New York November 30 and then to Paris to meet Jack Dempsey in a heavyweight championship bout in December, Flournoy said.

YOUNG BRIDE IS KILLED BY GRIEF

Discovers Husband of Few Days Was Head of Band of Bank Robbers.

San Francisco Mrs. Gladys Antrim met Ray Miner, a cowboy employed by a Flanagan station company. The parents opposed the marriage.

White residents of that place (Gladys Antrim met Ray Miner, a cowboy employed by a Flanagan station company. The parents opposed the marriage.)

Found Her Daughter Dying. Place of her daughter in the range and moved North again, taking her with them.

Mrs. Miner went to San Francisco, then read his sweetheart money to pay her transportation to that city so they could be married. She started in the journey but was arrested by San Francisco men in the train of the Pacific coast.

She became hysterical. The police then took her to the hospital. Her father was notified and she was taken home.

Within a few days it was reported that her husband had been killed. Her father was notified and she was taken home.

She then was taken to the hospital. Her father was notified and she was taken home.

"ACCORDING TO THEIR MEANS"

Contributions of Church Members, Century Ago. Evidently Mean More Than They Do Now.

Fresh laid eggs are frequently deposited on the contribution plate in some of the South's Episcopal churches of the South.

This report, for instance, shows that in 1821 David Smith gave a basket of groceries for the support of the missionaries.

Stephen North contributed a medicine chest; William Reynolds, a croquet mallet; Joe and John Needles, two slaves; S. May, a coffee mill.

John and T. C. C. contributed, what a singularly empty gift—a note that the church was going with a tub, whether bath or wash tub, was not stated.

C. Buckley is credited on the books with "Deduction on salt." Health McAllister donated a thermometer.

Among the other miscellaneous are hymn books, staves, bridges, shoes, trousers, chains, spindles and locks.

Financially Necessary Really the Mother of Any Turkish Reform In That Direction.
