

## ROOSEVELT TO BEGIN DRIVE IN NEW ENGLAND

### Places Final Campaign Effort With Assurance Of Smith That Everything's Okey

ALBANY, Oct. 29.—Governor Roosevelt faced into the New England States today with the assurance of Alfred E. Smith with whom he spent a friendly hour last night that "everything's all right over there". Leaving Albany about noon the governor was on the last long swing of his tour which will have carried him from Maine to California.

Roosevelt was preparing to follow the trail that Smith had blazed for him, and with his advisors was working on the speech he will deliver Monday night in Boston—the same city in which Smith had told shouting thousands that they should give their "unqualified, full and complete support" to the ticket headed by his old political ally.

Smith had found the trail one of cheering crowds, and he spent much of the afternoon on an observation platform receiving his appeal for a "full" Democratic victory Nov. 8.

At Springfield, Mass., in a one-minute talk he said the crowds that had been greeting him realized he and Governor Ely, who rode across the state on the train, were doing "all we can" for the Roosevelt-Garner ticket.

At Worcester he left the car to sell a crowd.

"All who are in sympathy with the Democratic cause should work for the reelection of Roosevelt, Garner and your beloved Governor Ely."

While Smith was talking from the train, his advisors were busy in the city, planning the campaign.

Some of them also included New York, Rhode Island, New Hampshire and Connecticut in a list of states they said they believed would go for the Roosevelt-Garner ticket as a result of the Boston speech.

City Commissioners Have Brief Meeting

Sanford City Commissioners met in a brief adjourned session at the City Hall last night to discuss the matter of business when they were advised against passing their budget for the third time.

The Commissioners, all of whom were present except Commissioner W. A. Laffler, decided to delay any further action on the recommitment of the P. D. B. boat dock until it could be ascertained whether or not large boats will be able to tug under present plans.

They also voted to allow W. E. Churchill, prominent bulb-grower on the West Side for a period of one year, the payment of \$200 worth of City of Sanford bonds.

Five Are Wounded In Kentucky Feud Menacing Others

YNEVILLE, Kentucky, Oct. 29.—Five persons were wounded and several hundred arrested today as two mountain families tried to shoot out their differences with rifles and pistols in front of the county seat.

## Amos Brands Howey Statement As False

TALLAHASSEE, Oct. 29.—(A.P.)—Comptroller Ernest Amos, whose office issues all pay checks to state employees, said today W. J. Howey's statement that \$2.65 was being deducted from the October paycheck of state employees was not a plain falsehood.

## PARTY LEADERS LAUD SPEECH OF ALFRED E. SMITH

### Address Called Clear Demonstration of His Loyal Support.

The Democratic campaign leaders poured out their praise yesterday for Alfred E. Smith's Boston address.

"It demonstrates clearly Smith's unqualified support for Governor Franklin Roosevelt," said one official, high in national committee authority.

## Salvation Army Is Being Called Upon To Aid Transients

That winter tourists are still in Florida and that of earlier than usual, and some in re-destination there, is revealed in a report and appeal issued today by the Salvation Army of Florida.

## RITCHIE SAYS PARTY WIN WILL SAVE U. S.

### Maryland Governor In Speech In Indianapolis In Behalf Of Roosevelt Election

Indianapolis, Oct. 29.—(A.P.)—Gov. Albert C. Ritchie, of Maryland, told an audience here last night that "Democratic success will save the country."

The Republican administration has had its opportunity," he asserted. "Its policies are in great measure to blame for the unhappy conditions which exist in this land of plenty. Now its spokesmen profess to fear that Democratic success would imperil the country. I say this is brazen nonsense."

The Maryland chief executive, who last summer was a candidate for the Democratic party nomination for president, spoke last night in a downtown hall only a short way from the Butler University auditorium in which President Hoover was speaking.

## State Convention Of WCTU To Open Here Next Monday

The 10th annual state convention of the Woman's Christian Temperance Union of Florida gets under way here next Monday at the Hotel Hamilton.

The opening membership meeting is in the form of a banquet at the Hotel Club at 6:30 o'clock. At that place fully 100 persons will be expected to gather to hear welcoming talks and responses, and to listen to addresses relating to the Tuesday and Wednesday sessions.

Principal speakers during the convention will be Mrs. Mary Barrie, national lecturer for the W. C. T. U.; S. O. McPherson, deputy prohibition administrator of this district; and Sidney C. Brown, of Tampa, collector of customs, Miss Minnie E. Neal, of Jacksonville, president of the state W. C. T. U. since 1924 will preside over the general session.

Dr. Elizabeth Tracy, of Sanford, is president of the Sanford chapter of the W. C. T. U., and as such presides over meetings attended by some 80 local members. Mrs. E. R. Mitchell, president elect, will deliver a short welcome address on behalf of the local Union.

Monday's banquet program is as follows:

Invocation, Rev. H. I. Lottitt; hymn, "America" presented from the City Mayor T. I. Dunbar, from the Chamber of Commerce, Karl Lehmann, from the schools, Sup't. W. W. Lawton; special music; welcome, from the Ministerial Association, Rev. F. M. Marshall; prayer, from the First Methodist Church, where the Tuesday and Wednesday sessions will be held, Rev. Carol Varner, from the Sanford W. C. T. U., Mrs. P. R. Mitchell; quartet, Mrs. J. M. Lamson, H. W. Ryker, J. M. Blinninger, H. C. Moore, Mrs. E. C. Moore, accompanist; response to welcome, Mrs. Anna M. Carr, of Mt. Dora; announcements, benediction, Rev. H. I. Lottitt; social hour.

## Public Becoming Better Informed On Science By Improved Writing Plan

INDIANAPOLIS, Ind., Oct. 29.—(A.P.)—Day by day the "newspaper reading" of the American people is becoming better informed as to the research work and discoveries of scientists, the international association of the interstate post-graduate medical association was told last night by Frank H. Noye, publisher of the Washington Post and president of the Associated Press.

After telling the medical men of the establishment by the Associated Press of a special science department, Noye said: "And, in my opinion, I believe that we have found a way to make today's news not only the most timely, but also the most useful to your noble profession. In telling of the past difficulties in reporting scientific news, I say this is brazen nonsense."

The Washington chief executive, who last summer was a candidate for the Democratic party nomination for president, spoke last night in a downtown hall only a short way from the Butler University auditorium in which President Hoover was speaking.

## ROOSEVELT STILL HAS 3 TO 2 LEAD IN DIGEST'S POLL

NEW YORK, Oct. 29.—Roosevelt is shown leading his lead of 3 to 2 over Hoover in the semi-final returns of The Literary Digest's national-wide presidential poll, according to today's issue of the magazine, which gave a tabulation of nearly 3,000,000 votes.

This is a larger return, it is announced, than the total returns of the 1928 Literary Digest poll of a total of 2,938,000 votes to Roosevelt's 1,648,237 votes, while Hoover has 27,887 per cent of 1,096,724 ballots, and Thomas has 141,992 ballots, or 4.84 per cent of the total number counted.

Hoover shows a slight gain from 31.99 per cent of the total vote which he had last week.

Hoover continues to carry the seven states of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut and New Jersey, with only eight changes shown in the week's balloting in any of them.

Roosevelt continues to carry all of the other 41 states.

With over 100,000 additional votes received and counted during the past week or so, from every section of the country, neither candidate has a margin of 100,000 in any state of more than 100,000.

In a division of the vote by department in the Electoral College the semi-final returns would give Roosevelt 474 electoral votes to Hoover's 214.

The vote in New York continues to be held in any other state, although still carried by Roosevelt, making the outcome here still doubtful.

## LONDON'S RIOT CAME NEARLY BEING WORSE

### Interception By Cops Of Truck Carrying Clubs Prevented More Serious Fray

LONDON, Oct. 29.—(A.P.)—Riotous as was Thursday's riot of thousands of unemployed in Hyde Park, the authorities disclosed yesterday it might have been worse.

John Gilmore, home secretary, told the House of Commons that when the police stopped a motor truck accompanying the advancing columns of rioters last night they discovered inside, besides a general supply of 154 nail-studded clubs, and handbags filled with heavy bolts of iron and iron bolts.

"I saw those clubs myself," he said, "and I am sure that they were there by deliberate intent. In a other truck police found more clubs of various kinds."

A newspaper said it had learned the rioters discovered a supply of devices fitted with compressed gas cylinders for use in gas-filled riot fighting. These in quantities of steel wire cutters and other tools to uproot standards, an instrument available in trapping up electric wires.

Several men arrested in Hyde Park yesterday were charged yesterday with riotous behavior. The men were charged with riotous behavior.

## Whitefield Laite Concert Attracts Crowd To City Hall

Nearly 200 persons gathered at the City Hall last night to attend the first concert of the winter season, a concert by Whitefield Laite, baritone soloist of DeLand.

Members of the Women's Civic Committee of the Seminole County Chamber of Commerce had given the winter concert a most successful reception.

The artist, who is a dramatic baritone, not only rendered a program of great variety, ranging from selections in Italian, French, German, Spanish, and English, but also pleased his audience by his rendition of "The Song of the Lark" and "The Song of the Lark."

His rendition of "The Song of the Lark" was particularly noteworthy, and his rendition of "The Song of the Lark" was particularly noteworthy.

## President Charges Roosevelt Changed Stand Upon Tariff

### TARIFF BENEFIT TO FLORIDA IS EXPLAINED HERE

G. O. P. Speaker Tells Small Local Crowd Not to Change Men.

Creating Florida Republican leaders and President Hoover as being responsible for the several million dollar benefits that have come to Florida and its growers since 1928, S. S. McCall, one of three Miami men who spoke to a small crowd here yesterday in the name of the Republican ticket and platform, declared that "It would be fully understood for Florida growers and shippers to stand in the way of the collection of Herbert Hoover."

McCall, who was the attorney appearing before the Ways and Means committee armed with facts and figures, declared that the need for a higher tariff on farm products grown in competition to those given in Florida, delivered an address that explained the tariff which he said "Florida now enjoys" and pointed out how this tariff protection is to prove more valuable as the years go by.

## Also Chides Ex-Governor With Having Cast Reflection Upon Supreme Court

INDIANAPOLIS, Oct. 29.—Declaring that Franklin D. Roosevelt had reversed his position upon the agricultural tariff issue, while under fire President Hoover tonight asserted that given time from every solitary position he had taken in this campaign.

While a throng that overhauled this 22,000 capacity auditorium cheered him repeatedly with a rousing nine-minute ovation as he entered—the Chief executive characterized the campaign positions taken by the Democratic nominee as "all equal."

"Perhaps I could get him to declare himself upon other aviation and generalities," Mr. Hoover said. "But even on the tariff, he perforce remembers the dreadful position of the chameleon on the stretch line."

As he arose to speak, interposed by Governor Leake, of Indiana and Senator Watson, of Indiana, the President's voice was given another prolonged round of cheer.

"I am glad to show the Roosevelt had attacked the whole Hoover ticket as 'worthless'!" Mr. Hoover asserted that on Oct. 23, his opponent had announced "another new deal" which he does not propose to make. "I am glad to show the Roosevelt had attacked the whole Hoover ticket as 'worthless'!" ### OGLETHORPE AND STEINSON TO PLAY GAME SATURDAY

#### Freshmen Teams Will Compete At Hulley Field At 3 O'Clock

DELAND, Oct. 23.—No less than 17 of the 23 griders who will start the home-coming day football game on Hulley Field in Deland Saturday between the Oglethorpe and Steinson freshmen, hail from Florida. When the whistle blows at 3 o'clock the Baby Hatters will not trot out an entire team of Florida high school boys while Coach Overton, of the Petrels, has six youngsters from the Sunshine state in his starting lineup.

The record of the Baby Hatters has not been impressive to date, and would not lead one to believe that they have much of a chance to win from a powerful Oglethorpe machine. In the opening game of the season the Steinson frosh battled desperately through four quarters to gain a scoreless tie with Middle Georgia College and the following week they were badly beaten by Tifton A. & M.

Since the defeat at Tifton two weeks ago Coach McQuillan has devised a shift which is original with him, and he is confident that it will enable his team to show a much more sustained offensive drive than they displayed in the first two games.

Following his usual custom the Baby Hatter mentor has refused to divulge his starting lineup but Schamer, Jones, Lockitt, and Hansford seem to be the likely starters in the backfield. Three of the boys, Hansford, Lockitt, and Schamer, hail from Jacksonville. Jones is from Mulberry and with Boggs Owens, great first year kicker, out because of injuries, the booting duties will fall to his toe.

Spot Weaver, another Jacksonville boy, will act as captain in the game Saturday. Another almost certain starter in the line is a husky chap by the name of Diamond who hails from Palatka.

A speedy but light end by the name of Paul will draw one and assignment with the other remaining doubtful until the start-whistle. Developments in the last two practice sessions of the week will determine the status at the other positions.

The final scrimmage session of the week was held Wednesday afternoon with the frosh working against what would have been the varsity team this season had McQuillan elected to have out. The frosh continued to show improvement over their play of the past few weeks, and the blocking which was immeasurably better, the early part of the work was still more potent.

With a light team under his charge McQuillan is expected to rely upon an open game in an effort to extend the Petrel eleven boys Saturday. Much of the offensive work in the past two weeks has been devoted to an aerial game while some time has also been spent in perfecting a defense against the opponents thrusts through the air.

According to weights released by the Oglethorpe athletic authorities the Petrel frosh will outweigh the Baby Hatters approximately 15 pounds to the man when they clash here Saturday. The veterans line will average in the neighborhood of 185 pounds while the backs tip the beams at 175. The Baby Hatters line will average about 165 and the backs around 160.

The Petrels have players in their lineup from as far south as Palm Beach and as far north as New York City. Only one of the Baby Hatters hail from outside Florida.

### FLORIDA RATS WILL MAKE GRID DEBUT SATURDAY

#### Baby Gators Will Oppose Powerful Norman Park Outfit

By FRANK B. WRIGHT  
GAINESVILLE, Oct. 23.—Freshman football makes its debut at the University of Florida Saturday afternoon when Brady Cowell's "Baby Gators" tangle with the powerful Norman Park College team from Norman Park, Ga. It will be the first engagement of the season for the Florida yearlings.

Prospects for an outstanding freshman team here this year have never materialized. Not in several years, perhaps at no time since Freshman athletics were inaugurated in 1922, has there been such a scarcity of material. For more than two weeks Coach Cowell has had a dozen backfield men with which to work. Assistant Coach "Tiny" Higgins, in charge of the line, has not been oversupplied in any sense of the word.

Three of the "Baby Gators" are injured and will be unable to play Saturday. These are Harry Vetter, center; Don Bridges and Gordon Blalock, right tackles. Half a dozen others are ailing in one degree or another, but probably will be called upon to bear a portion of Saturday's assignment. Those not in tip-top condition are George Simathers and Bill Fuller, left ends; Bill Baker, center; Harry Wismer, quarterback; Duke Warren and Bill Brown, fullbacks.

With probably two exceptions, Coach Cowell was agreed this morning as to his probable starting lineup. He will use Robert Rickett, president of the freshman class, and a very promising all-around athlete from Robert Lee, Jacksonville, at left end. Al Hickland, 220 pounder from Miami Beach, will start at left tackle. "Foots" Turner, Mulberry, is slated for left guard, and Charlie Fleming, from Plant High, one of the leading high school athletes of recent years, will open at center. At right guard will be either Sam Hale, from Madison, Ga., or Fred Riffin, who prepared at Port Haron, Michigan. Melton Ware, Sanford, is billed for the right tackle job, and "Babe" Scarborough, who won honors at Ocala, will start at right end.

Carlos Ballock, also from Ocala, has the call at quarterback, with Bill Chase, from Lakeland, slated for the left halfback position. At right half it will be either "Plug" Elbert, Daytona Beach, the boy with the midget feet, or K. M. Hinge, who used to do big things for Plant High in Tampa. Duke Warren, former Robert E. Lee, and F. M. A. athlete, will start at fullback.

Erasmus Hartman, the Gainesville thunder-burst, has become the versatile man of the backfield, being the first substitute at both left halfback and at fullback. "Carn" Schacht, Sarasota, right half; Bill Brown, Madison, full back; Bryan M. Carthy, Ft. Pierce, and "Gay" Cooper, Orlando, right half, and Harry Wismer, Port Haron, Mich., and Jimmy Blake, Jacksonville, quarterback, are the other backfield reserves.

At left end, behind Rickett, Coach Cowell has Smathers, from Miami; Bill Fuller from Winter Haven; Phil Patterson and Shields Day, from Tampa; Bob Gilliam, Tampa, follows in at left tackle behind Hickland, and pushing closely behind Turner at left guard is Bill Zawaski, Tampa, and Emerson Tully, Tallahassee. Alton Brown, Palatka; Bill Baker from nearby Hawthorne, and John Sawaya, from Ocala, are giving Fleming a hard run at a star.

Charles Matheny, Sarasota, is running second to Ware at right tackle, with Bill Venning, Jacksonville, next in line. Charlie Cammader, Jacksonville, and Cliff Howell, Sanford, are pressing Scarborough for the right end position.

Saturday's game will be called normally at 3 P. M. Registered Southern Conference officials will have charge. John Marshall for the Georgia Tech All-Southern will referee; Bob Marshall (Maine), will umpire; Waibe Lynch, (Texas), will act as head linesman, and Joe Jenkins, not the varsity football player, but a former Georgetown athlete, will serve as field judge.

### STILL MASH KILLS COW

BLOOMINGTON, Ind., Oct. 23.—The loss of a cow that developed a taste for whisky and drank herself to death on mash is being investigated by William Bartlett, former Menno county sheriff, at his home near here.

Oglethorpe lineup Saturday are: Robert of West Palm Beach; Stobart of Sanford; Trappan of Ft. Pierce; Hurston of Ocala; Hie, Mansell of Sanford, and Hickman of Ft. Pierce.

### HE LOOKS GOOD

**BOBBY TREADGOLD**  
Playing his second season with the University of Florida, Treadgold has shown unusual development this fall. He probably will see a great deal of action at the right halfback position.

**MILLER, QUARTERBACK**

WINTER PARK, Fla., Oct. 23.—One of the outstanding players on the Rollins College varsity squad this year is Ray "Heinie" Miller, quarterback, who will be seen in action tomorrow night, Oct. 29, at Tinker Field, Orlando, when the Tars oppose the University of Florida "B" team. Miller, who hails from Asheville, N. C., was the first-string quarterback last year, and has developed fast under the tutelage of Coach Jack McDowall. Miller does the punting, excels at passing, and is a strong runner.

### 3 STAR GATORS LEFT BEHIND AS TEAM DEPARTS

#### Squad Entrains For Athens To Oppose Georgian Bulldogs

UNIVERSITY OF FLORIDA, GAINESVILLE, Oct. 23.—Coach Charlie Bachman, of the University of Florida, Wednesday named 29 Gator football players to make the trip to Athens for Saturday's important game with the University of Georgia Bulldogs.

And companions by their absence were the names of Tommy Lane, Monk Darnett, Pat Bryan, and Sam Doolittle, the four players deemed to be "B" squad because of their failure to return to Gainesville with the team Saturday night after the 17-0 defeat by North Carolina State at Plant Field.

The loss of Lane, brilliant sophomore guard from Tampa, and Doolittle, senior quarterback, will be felt by the Gators in their normal battle with the Bulldogs. Bryan is a tackle and Doolittle, an end from Tampa, is a guard.

It was announced that all four players will accompany the "B" team to Winter Park Saturday to observe the Rollins College game.

The players scheduled to leave here today for Athens, are: Sherman, Doolittle, Butler, Rogers, Williams and M. Lee, ends; Sherman, Jenkins, Dayson, Stark and Shearer, tackles; McCampbell, B. Roland, Doolittle and Shouse, guards; Frazier and Spover, centers; Davis and Callier, quarterbacks; Moss, Brown, Treadgold, Rogers, Bennett, Henderson, M. Andy, halfbacks, and H. G. Wood, Tom Woods, fullbacks.

Sixteen of the 29 players are sophomores, making that the Gator hopes, for the most part, will rest with inexperienced non-Saturday. The guard situation, in particular, seems weak. Doolittle, the only veteran guard making the trip, has just recovered from injuries sustained against the Weepick at Tampa. McCampbell, Shouse and Han Gek are all newcomers to Gator football.

Seven of the footballers, who have suffered losses in injuries and in personnel through injury and suspension, the Gators showed fine spirit in their practice here yesterday. Coach Bachman drove his regulars against the "B" squad on offense in a dummy scrimmage that wound up the day with a signal drill.

### TREATMENT OF RESTRICTED AREA

A well treated daybed suggested for a small apartment where the dressing table and desk play a dual role. The standing lamp is a space saver and is arranged in close proximity to both daybed and armchair.

### Flying Top

Popular Mechanics Magazine

By a simple assembly of two spoons, a length of heavy wire and a tin propeller, you can make a novel flying top, as shown. The driven spool is provided with two projecting brads which grip the propeller and cause it to ascend the wire when sufficient speed is attained. An eye bent at the top of the wire keeps the propeller from flying off. As speed decreases, the propeller slips down.

### Georgian Farmers Sign Petition To Withhold Produce

ATLANTA, Oct. 23.—Eighty-three farmers yesterday made public a petition signed by approximately 100 Mitchell county farmers in which they expressed a willingness to sign an agreement not to sell their products below cost of production.

Talmadge is state commissioner of agriculture and Democratic nominee for governor. The farmers petitioned Talmadge "to put this matter before the governors of other states, and we also respectfully request that the matter be placed before farmers in all the other counties of Georgia."

The petition says the farmers feel the position "that if the farmers were paid a fair price for their products we would neither need nor ask for farm relief. We also believe that if property be restored to the farmers, the ill and troubles of the business world, the professional world and the laboring class would be cured overnight."

"We hereby express our willingness to sign an agreement to the effect that we will not sell any of our farm products below cost of production."

### Passport Will Be Given Mrs. Mooney, Says Labor Group

NEW YORK, Oct. 23.—(AP)—The International Labor Defense said it had been informed last night that the State Department "changed its mind" and would issue a passport to Mrs. Mary Mooney, mother of Tom Mooney. The organization issued a statement yesterday saying Mrs. Mooney, mother of the prisoner serving a life term in California in connection with the Preparedness day bombing of 1918, had been denied a passport "in an effort to prevent her from carrying the message of the American working class to the workers of Europe."

State Department officials at Washington denied that Mrs. Mooney had been refused a passport and said they knew of no reason why she could not obtain one upon supplying proof of her citizenship.

Carl Hacker, organizational secretary of the International Labor Defense, in his second announcement, said that about two hours after his previous statement had been based to the press he received word from the State Department.

### Tunney Makes Move For Right To Vote

BRIDGEPORT, Conn., Oct. 23.—Gene Tunney, former world's heavyweight boxer, made the first move in his legal fight for the right to vote in Stamford yesterday when a mandamus was issued by Judge Frank P. McEvoy of Superior Court.

The writ, returnable next Wednesday, orders the board of registration of Stamford to show cause why the Democratic campaigner should not be qualified Nov. 7 as an elector.

Tunney, who underwent treatment for a throat infection, failed to register before the time limit set by the board. He was discharged from the hospital Monday.

Of production, this price to be determined by a committee of local citizens and as a suggestion we would suggest it be a fair price for cotton under the existing circumstances and other farm products in proportion.

Refrigerator, Range, Water Heater, Percolator, Toaster, Electric Iron, Vacuum Cleaner, Sewing Machine, Lights.

**MRS. HARLOW is the wife of a dentist. She says, "Since installing complete electric service in my home... I have been able to make a saving on food, with both the stove and refrigerator."**

**Mrs. Harlow also says a neighbor "has cooked several meals on my stove. Their expenses are terrifically high---I suggest that you explain the Thrifty Three rate to them."**

Let us go over your household expenses with you. It will cost you nothing and you, too, Mrs. Harlow, may be able to effect a saving with the Thrifty Three.

**ELECTRICITY IS YOUR CHEAPEST SERVANT. USE IT!**

**PICK THE WINNER**

The Herald again invites readers to become a weekly contestant in the Pick the Winner contest. Two prizes are offered weekly: one is a variety box of delicacies by Mitchell's Shoppe. The other is the choice of any \$100.00 in the stock of the Man Jack Sporting Goods Store. Simply draw a line through the name of the region listed below that you think will win or tie in their game next Saturday. Clip the coupon and bring or mail it in. The Herald before 5:00 P.M. will select the contest. Prizes are numbered as they come in and the first two persons who guess the correct number will win the prizes.

#### BIBLE VERSE FOR TODAY

**RETURN TO THE LORD:**  
Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon.—Isaiah 55:7.

#### LILACS FOR REMEMBRANCE

Endure  
The farm? Oh, no.  
No, no, and now he hears  
All-day the deafening grind of mill  
Machines  
His wife  
Can take her ease  
In those few rooms... the boys  
Don't have so far to go to school.  
No, no.  
And yet  
On Sunday drives  
His plump lilac clumps—  
No backward looks, lest they  
Recall  
Too much.  
By Irene Shirley Moran.

Professor Carleton gives a splendid definition of a good citizen, but under his definition, do we have any?

If the vigor of this campaign continues it may yet be necessary to settle the presidential election in the "squared ring."

It is not news, either, when a man bites a hot dog.—Miami Herald. No, but if a hot dog bit a man, that would be news.

Gov. Sholtz says that the greatest need in Florida today is big and better advertising. We could have told 'em that!

The Tampa Tribune argues against the proposed amendment increasing the Supreme Court justices in Florida to seven.

There's such a thing as being too enthusiastic; for instance, that fellow who drowned his dog in crescents trying to kill the flea.

Will Rogers has arrived back in this country just in time for the wind up of the political campaign, but as a humorist he is a dud these days. Just listen in on the politicians any night if you want to hear some real jokes.

Britain discovers that there is danger in allowing the pound sterling to go where it will. It fell off four and a half cents, dropping to 85. The British stand it well. Can you imagine how we should feel, if our dollars were worth only 70 cents?—Arthur Brisbane. We wouldn't mind having a seventy-cent dollar if we had enough of them.

The latest report on the Hearst poll gives Hoover a little better break than the Literary Digest, though not as many ballots have been counted. Out of a total of 227,191 in the Hearst poll, Roosevelt has 56 percent of the total, Hoover 44 percent. This represents a one percent gain for Hoover, and a one percent loss for Roosevelt since last week's report. Hoover carries Colorado, Connecticut, Kansas, Maine, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, while Roosevelt has all the rest.

The battling of London unemployers with police continues almost unbroken with perhaps even greater hostility within the next few days. The life of a policeman is all too pleasant these days. They are called upon to maintain order in a city where there are constant demonstrations and where the greatest sympathy is shown for the unemployed. It is said that a cotton mill will be established at Alachua. The promoters of the enterprise, who, it is said, were attracted to Alachua by Capt. J. D. Keady, assistant industrial agent of the Southeast Air Line Railway, require

### The Costs of War

What are the costs of war? Most of us know that they are tremendous, particularly if we happened to have a son, a father, or other near relation who was killed in the war. But few of us know what these terrible costs amount to in the aggregate. Recently the Tampa Times quoted figures from a new book, "The Economic Dilemma of Politics" by Paul Douglas, which reveal to what staggering heights these costs have risen as a result of the World War.

This war involved 98 percent of the earth's population. The actual monetary costs due to the killing of no less than 22,000,000 persons and the wounding of about 20,000,000 more, reached the amazing sum of \$37,846,189,667. How large a sum this really is may be realized from the fact that it is more than sixteen times the entire national debt of the United States. It is enough to meet the entire annual federal expenditures for a period of 84 years. It represents more than 28 times as much wealth as all the gold in the world.

The actual casualties of eight leading countries involved in the war are listed as follows:

| Country           | Killed    | Seriously Wounded | Otherwise Wounded |
|-------------------|-----------|-------------------|-------------------|
| Russia            | 2,762,064 | 1,000,000         | 3,950,000         |
| Germany           | 1,611,104 | 1,600,000         | 2,189,148         |
| France            | 1,427,800 | 700,000           | 2,344,000         |
| Austria - Hungary | 911,000   | 850,000           | 2,150,000         |
| Great Britain     | 807,451   | 617,740           | 1,441,594         |
| Serbia            | 707,343   | 322,000           | 28,000            |
| Turkey            | 436,928   | 107,772           | 300,000           |
| United States     | 107,284   | 43,000            | 148,000           |

Through the four year period there was an average of 20,000,000 young men under arms, and when the Armistice was signed there were over 58,000,000 soldiers fighting in the various armies. During the first three years the average daily cost was \$123,000,000 but by the end of the war the daily expenses had risen to \$224,000,000. If the war had been conducted on a cash and carry basis, it could not have lasted more than two months as there was not enough ready cash in the world to keep it going longer than that. Conducted mostly on credit, the war increased the national indebtedness of the world from \$42,000,000,000 in 1912 to \$160,000,000,000 in 1918.

Attempting to make the immediate costs as light as possible one country after another resorted to depreciated currency. At the beginning of the war the paper money of the thirty principal countries was about \$7,000,000,000; in December of 1919 it was \$51,000,000,000. The ratio of gold reserves, of course, dropped proportionately. In 1914 this ratio was 70.8; in 1918 it was 18.4; and in 1919 it was 13.7.

The costs of the war, as everyone knows, did not end with the Armistice, but were, it has later proved, just beginning. What they will amount to by 1950, or how much our great grand children will still be paying on them by 1975, no one can say. They have already been enough, however, to encourage sensible nations not to become unnecessarily involved in such devastating conflicts in the future.

#### Will Rogers' Comparison

The cowboy humorist, Will Rogers, just completing a sightseeing trip over South America, has made some comparisons between California and Florida, the sum total of which are about of equal merit. However, the Tampa Tribune sees an injustice in some of his observations and in a spirit of perfect friendliness points them out.

"Distance from civilization even, he says. Depending on what Will considers 'civilization.' If he means centers of population, Florida has California beaten from two to four days, according to how you travel.

"Good roads—pardon me, Florida, I shouldn't have brought that up. On the other hand, Florida has nothing to be ashamed of in good roads. That's one of our prize boasts. So many of them that a great many of our people think we ought to stop building them for five years or more. But Will is excusable. We doubt if he has ever been on a Florida road. On his visits to Florida he has traveled either by train or air. So, he's not a competent witness on that score.

"Nevertheless, Will gives Florida the preference in lakes, bathing, fishing and Democrats, and an even break on humorist, people, millionaires; and claims first place for California only in deserts, mountains and movie actresses. So, we'll have to excuse his oversight on distances and roads—and say, 'Thank you, Will; drop in again!'"

#### SANFORD, TWENTY YEARS AGO

Mr. and Mrs. Hamil Tolar and little daughter arrived home last Saturday after a trip through the Carolinas.

A. H. Stead, of St. Augustine, was the guest for a short time of J. N. Whitner and family. Mr. Stead's parents were residents of Sanford when he was quite a child.

The many friends in this city of Carl Robinson will be interested to learn that he was united in matrimony last week, the bride being Miss Graham, of Lebanon, Tenn. Mr. Robinson is a member of the law firm of Palmer and Robinson, of Orlando.

The ladies of the Fancy Work Circle were charmingly entertained by Mrs. J. J. Paydon at her home Thursday afternoon. Pretty needle work and pleasant conversation filled up the afternoon at the close of which the hostess, assisted by Mrs. R. L. Peck and Mrs. Connelly, served a delectable salad course. The salad was dainty in little cups, made of apples, with saltines and coffee.

Those of the circle who enjoyed Mrs. Paydon's hospitality were: Mesdames Mitchee, H. H. Hill, Roberts, Barber, Tom Davis, and Tom Williams.

It is said that a cotton mill will be established at Alachua. The promoters of the enterprise, who, it is said, were attracted to Alachua by Capt. J. D. Keady, assistant industrial agent of the Southeast Air Line Railway, require

the donation of a 100-acre tract of land and \$125,000 in cash, but since the factory will be of great benefit to this entire section, and will increase the population and commercial importance of Alachua and Alachua county to a large extent, it is assured that the site and bonus required will be forthcoming.

The social given by the Ladies' Union of the Congregational Church at Villa Shores, the lovely suburban home of Mr. and Mrs. C. R. Walker, Friday evening, was very largely attended by the members of the church and their friends.

Mr. Hoover believes jobs should be more widely distributed, except, of course, his.—Louisville Times.

Among other things that don't turn out quite as you expect are people who drive cars.—Cincinnati Times-Star.

Tourists see people who travel 200 miles to get today pictures of themselves standing by the car.—Canton Repository.

Some one has written the official song of the Roosevelt campaign, and it is entitled, "We Want Roosevelt." I had rather imagine I might turn out to be something original like that.—Detroit News.

### "CHALLENGER" HOWEY

We have had occasion before to compliment Mr. Howey upon his good services in having an excellent publicity department. He has been remarkably successful, for a candidate who could not win four years ago when riding the crest of the Hoover tide, in keeping his name before the public at a time when that tide has turned and is ebbing rapidly. In his latest bid for attention, however, he seems to overplay his hand.

Mr. Howey, for the second time "challenges" Gov. Doyle E. Carlton to debate.

Perhaps we first should remind the Republican suggestion for

### RAPID GROWTH OF AIR LINES TO TROPICS IS TOLD

#### Pan-American Flying Service Has Grown Into Huge System

MIAMI, Fla., Oct. 29.—Five years ago, a little air line began operations carrying mail and passengers the 90 miles between Key West, Fla., and Havana, Cuba. Today that line has grown into a great system which operates 22,000 miles of airway on regular schedules, serving 32 countries and colonies of Latin America with air mail, passenger and express service. This makes Pan-American Airways System the largest international air line in the world.

This system has made Florida the new boundary line between North and South America. Traffic has steadily increased until a total of more than 144,000 people and 8,000,000 pounds of mail have been carried between Latin American ports and the United States, where terminals are maintained at Miami, Fla., and Brownsville, Texas.

At a time when surface transportation has shown a decided falling off, it is interesting to note that air travel throughout the Western Hemisphere has shown a steady increase. Especially throughout South America, citizens of all countries show an appreciation of this means of travel.

A recently compiled report shows that passengers carried on these airways linking the countries of South and Central America with the North American continent increased by 6000 in the first half of this year over the number carried in the same period of 1931. At some airports the system demands for transportation were so great that there were constant waiting lists of as many as 100 passengers.

A good part of the increase of the Pan-American system is due to the more extensive travel of Latin American businessmen to North America and of North American business men to Latin American countries. A helpful sign for better understanding and more profitable commercial relations.

Revival of international trade throughout the western hemisphere has been in the announcement that air express traffic on Pan American lines over the Caribbean Sea has increased nearly 100 percent since July 1. Shipments were continued to no one limit of merchandise, but included various consignments. The increase is not due to a few unusually large shipments, but to a great increase in number of shipments, many from companies or individuals using air express for the first time.

In these five years, too, airports have grown to 127 active ones. A fleet of 104 airplanes has just been increased by the addition of a third 48-passenger flying boat, sister ship to the American and Caribbean Clippers, which is now undergoing test flights at the Coconut Grove base.

Employees in Miami have increased from 11 to 209. The entire system employs 2016 men and women. Miami has become the chief operating and overhaul base of the system and accommodates 29,000 passengers a year traveling by air to and from the West Indies, Central and South America, in addition to the large amounts of air mail and express. The total pay roll and expenditure for company supplies amounts to well over \$1,000,000 in Miami annually, making this one of the most important industries in the community.

LA PAZ, Bolivia, Oct. 28.—The Southern Cross, a trim-torpedoed airplane operating as a military exercise to the Chaco territory, disputed by Bolivia and Paraguay, crashed yesterday in landing at Yaguajay. The pilot was killed.

statement in open debate, where the governor has proved his prowess, we should credit the minority nominee with courage, if not good judgment.

That, obviously, is the last thing Mr. Howey desires. He has taken every possible precaution against a further answer. He names as the date for the proposed debate two days on which the governor already has promised to speak in Missouri. He also knows, of course, that Carlton having been summoned by the national Democratic committee to aid the presidential campaign in normally doubtful territory would be reluctant to abandon this duty merely to return to what is now a museum, from the publicity-seeking Democratic territory and dignify an attack that is not only futile but also foreign to the present gubernatorial selection.

We can expect a third challenge a fourth, and so, on ad
