

STORM SWEEPS OVER LONG ISLAND---EXCURSIONISTS ARE VICTIMS OF WAVES

New York Has Another Big Catastrophe in Sunday's Storm HUNDREDS WAIT

AT CITY ISLAND AS POLICE PATROL BOATS SEARCH FOR VICTIMS NUMBERING OVER 50

(By The Associated Press) NEW YORK, June 12.—The death toll of the hurricane which swept down on the metropolitan area late yesterday passed the 60 mark today with indications the total number of dead might go much higher.

The death list leaped ahead when the incoming tide returned eighteen bodies swept to sea last night. Four more bodies were recovered from Hunter's Island, and two were picked up at Traver's Island.

NEW YORK, June 12.—Day-break found hundreds of parents, children and relatives still standing vigil at the docks of the City Island awaiting the arrival of police boats which during the night had searched the waters of Long Island sound for additional victims of yesterday's storm. Police reported the list of known dead had not increased, as the tide apparently had borne away the bodies not recovered last night.

More than fifty persons are thought to have lost their lives and upwards of one hundred injured. Thousands of raw boats and launches dotted the sound off City Island just before the breaking of the storm and when it had passed the water was strewn with overturned crafts.

NEW YORK, June 12.—A violent storm accompanied by shifting winds reached a velocity of 88 miles an hour, took the lives of more than fifty persons, injured more than a hundred and caused enormous property loss in the metropolitan section late yesterday.

Forty persons were reported to have lost their lives while boating in Long Island Sound, and many others were killed by falling trees, lightning and accidents caused by the wind. Ten bodies of the drowned have been recovered and the waters about New York are being searched for thirty missing.

The storm came at the close of one of the most torrid days of the season. The wind coming gently from the south and southwest, shifted suddenly into the northwest and increased in velocity to eighty-eight miles and swung through New Jersey and Westchester county, across City Island, the Bronx and Manhattan, left death and destruction in its wake.

Five persons were killed and more than fifty injured when the wind caught a bus which was at a Clason Point amusement park and crashed it to the ground.

A woman and her seven-year-old daughter were crushed to death and several other persons injured when an oak tree blown by the wind crashed through the roof of the crowded dining room of the Red Lion Inn, on Boston Post road, carrying with it an old-fashioned stone chimney.

The bodies of seven canoeists caught in Long Island Sound off City Island at the height of the storm were washed ashore after nightfall.

Miss Edna Smith, 17-years-old, walking with a companion along the reservoir road at Ossining was blown into the water and drowned.

Charles Emerson, New Rochelle clothing manufacturer, was rowing in Echo Bay with his wife and three children when the storm broke. He managed to row to shore, then died from a heart attack.

A tree fell across a party of motorists seeking shelter on the Brooksville road, near Locust Valley, Long Island, killing Harry Halleran, of Oyster Bay, and seriously injuring his three male companions.

The reason it is a bad form to talk about the weather is because in good society you can't employ the words properly to describe it.

GIRL KILLED NEWPORT NEWS, NO EVIDENCE

AS TO MURDERER BUT LOOKS LIKE ASSAULT CASE

(By The Associated Press) NEWPORT NEWS, June 12.—Miss Rose Brady, was found dead early yesterday in some bushes within Camp Eustis, her skull crushed with a piece of gas pipe abandoned by the murderer. She had no money or valuables and the investigation is based on the theory of attempted criminal assault, being evidence that the girl fought desperately and was killed by her assailant.

BIG TORNADO STRUCK OHIO YESTERDAY

MANY PEOPLE IN AMUSEMENT PARKS WERE KILLED AND INJURED

NEWARK, Ohio, June 12.—Search of storm swept portion of Buckeye Lake Park here for bodies of persons believed to have been buried in debris when a tornado struck an amusement park late yesterday resulting in the death of three Columbus, Ohio, people, resumed this morning. 17-year-old boy known to be missing and nine persons injured.

Getting Dope in The Federal Pen Starts Investigation

ATLANTA, Ga., June 12.—Fifty-six warrants charging violation of the Harrison narcotic law have been issued in connection with investigation of an alleged "dope ring" at the Atlanta Federal penitentiary. Federal District Attorney Hager stated today.

Dr. H. C. Carrick, the physician at the prison, and three guards are in jail in default of bond and Mr. Hager said they were "only the beginning of the clean-up". A number of arrests may be expected before the end of next week, he said.

The investigation began a week ago. All of those arrested deny any connection with the sale or distribution of narcotics at the prison.

"We never dreamed that such conditions existed at the prison until we started the investigation at the instance of Warden Joe Dyer," the district attorney said. "Evidence is now in our hands which will show that more than 150 prisoners, who were not addicted to the narcotics before being sent to the prison, acquired the habit after their imprisonment from drugs furnished by the dope ring."

Approximately 750 of the 2,300 prisoners are drug addicts, many of them having been sent up for violation of the federal narcotic laws and others for other violations. The guards at the prison, who are paid between \$120 and \$125 per month are owners of high powered automobiles and are living in a state of luxury which never could have been attained from their salaries alone.

Evidence has been obtained which will show that a number of prisoners implicated in the dope ring disposed of their surplus stock, "assets and good will" in the business to the other prisoners before completing their terms.

COL. ROBERT E. LEE WORSE

(By The Associated Press) HOT SPRINGS, W. Va., June 12.—The condition of Col. Robert E. Lee grandson of the Confederate chieftain suddenly became worse, Saturday, his physician announced.

And a lot of timid-folk go through life pure and disappointed just because they don't know how to go about being wicked.

ADDITIONAL WAGE CUTS THREATEN RAILROAD EMPLOYEES ---RAIL STRIKE IMMINENT

Could Be Directed and Financed From Canada to Avoid Court Decision

(By The Associated Press) CHICAGO, June 12.—With additional wage cuts threatened more railroad employees rumored today any rail strike growing out of pay decrease decisions by United States Railroad Labor Board might be directed and financed from Canada to evade the recent decision of the United States Supreme Court holding unions liable for damages caused by their members. Rail union leaders said to be contemplating move view to establishment of Canadian headquarters as legitimate because unions are international organizations.

CHINAMEN WERE SMUGGLED INTO COUNTRY THRU FLORIDA ---OFFICERS HELPED GAME

Immigration Inspector at Tampa Says He Will Prove It

(By The Associated Press) TAMPA, June 12.—Immigration Inspector Whalen said today that Constable McFal and DeWitt Adams led the way Thursday night when two chauffeurs drove with thirteen Chinese smuggled into this country here into swamp and woods of Devil's Island section of Polk county. Whalen said this evidence will be brought out at preliminary hearing Wednesday.

CHEAPER MONEY AHEAD SAYS BABSON

WELLESLEY HILLS, Mass., June 10.—Roger W. Babson issued the following statement today regarding the money situation:

"For the past few years banks, mortgage companies, and others engaged in the loaning of money have been educating people to pay high rates of interest. Manufacturers, business men, home builders and others are today paying high rates of interest which a few years ago they believed never would be paid. Naturally this has handicapped employment, especially building operations. These people now wonder whether this is to be a permanent condition or whether these high rates are only temporary. Statistics lead me to believe that the high money rate period of the past few years has passed for many years to come. Already money rates have declined greatly in the wholesale market. Where—a year ago—the banks were loaning money on call to the brokerage houses at from six to eight per cent they are now loaning at about four per cent. Even three to six months paper can be sold at from 4 1/2% to 4 3/4% discount. These are tremendous changes within a short period of time. In fact the change is so great in decline of about 50% that it would not be surprising if money rates now strengthened for a short while preparatory to another downward movement.

"Money is a commodity the same as cotton, wool, lumber, or copper. It has a WHOLESALE market and a RETAIL market. A WHOLESALE price and a RETAIL price. Moreover, as with commodities, the retail price in the money market lags about six months to a year, behind the wholesale price of the money market. This means that the rates in the wholesale money market go up and down from six months to a year before the average business man and home builder is affected. It takes nearly a year for cotton to get from the plantation to the shelves of the department store. Hence, it may be several months before the retail cotton goods trade gets the advantage of a decline in the price of raw cotton. It is the same with money as with cotton. It is some months after the decline in the wholesale price of money before the business man and the home builder get the advantage in the decline of rates. The bankers are not to blame for this. It is economic law. As it takes some time for the bankers to raise the retail interest rate for money after the wholesale rate advances, so it takes a considerable time for the retail rate to decline after the wholesale rate declines."

Being asked how this is to affect the average man during the next year Mr. Babson replied as follows:

"This means that the average man will be able to borrow money much cheaper during the next few years than he has been able to borrow dur-

ing the past five years. It means that borrowers should now avoid borrowing for long terms at high rates. It means that there will be a decline in the retail price of money the same as there has been a decline in the wholesale price of money.

"It means that money will be more available for the building of homes, school-houses, roads and construction work of every form. Most of all it means: As the banks during the past few years have educated the public to high rates, the public must during the next few years educate themselves back again to the lower rates of some few years ago."

General Business as reflected in the Babsonchart is running 15% below normal—an increase of 1% over last week. It is holding well in face of the bullish factors resulting from the railroad ruling.

LOOKING FOR BOND OF MEN WHO FLOGGED TWO GEORGIA FARMERS

(By The Associated Press) DOUGLAS, Ga., June 12.—The county authorities are continuing an attempt to round up members of a mob of masked men, that C. D. Bogan and Dewey Grantham, young farmers here, claim called them from their homes Saturday night and flogged. Officers said Bogan previously had trouble with a neighbor over his mother-in-law.

BURTON F. HALES WILLING TO SPEND MILLIONS PROMOTING SALES DEPARTMENT

(By The Associated Press) CHICAGO, June 12.—The Chicago capitalist said by James K. Mison in testimony before the special senate committee investigating the United States Grain Growers, Incorporated, to be willing to spend a million dollars in promoting sales department for grain growers is Burton F. Hales, millionaire member of the board of trade. Hales admitted to a representative of the Associated Press today he was the man referred to, Mason's testimony that the Board of Trade man was willing to help finance the cooperative organization which looked upon by big traders as inimical to their interests, created a sensation in financial circles here but the identification of Hales caused even greater surprise.

"UNDESERVING FACTOR"

(By The Associated Press) ST. LOUIS, June 12.—President Harding has written Nat Goldstein that the criticism produced by the nomination of Goldstein for internal revenue collector here, caused by Goldstein's acceptance of \$2,500 of the Lowden campaign funds, was of an "undeserving factor."

OPEN SHOP, UNEMPLOYMENT WAGE REDUCTIONS, RUSSIA'S ONE BIG UNION AND COURT'S CONSTITUTION FOR THE IRISH IS REVISED

SO SATISFACTORILY THAT EVEN ARTHUR GRIFFITH IS SATISFIED

(By The Associated Press) LONDON, June 12.—Articles of the new Irish constitution revised so satisfactorily, the Evening Star asserts that Arthur Griffith will return to Dublin with them tonight. It adds Colonial Secretary Churchill may postpone his statement in the house of commons until tomorrow as the announcement of an agreement may be made simultaneously in London and Dublin.

RADIO HELPS U. S. OFFICIALS IN BOOZE CASES

BOOTLEGGERS TIPPED OFF BY WIRELESS IS A NEW WRINKLE

(By The Associated Press) WASHINGTON, June 12.—Activities of bootleggers now being tipped off by radio according to a statement by Commissioner Haynes. The radio service, he said, enlisted to assist prohibition enforcement and being used successfully in Florida, Michigan and Colorado.

Farm Bureau Plans Concerned Drive for Ford's Shoals Offer

Federation Favors Action on Bid Immediately

WASHINGTON, June 12.—A campaign for acceptance of Henry Ford's Muscle Shoals offer at this session of congress was begun last night by the American Farm Bureau Federation, whose Washington representative, Gray Silver, forwarded to state secretaries of the organization a circular suggesting that members of congress be informed "in unmistakable terms" of the sentiment of the farmers toward the Ford plan.

"There is no assurance," said the letter, "that the proposal will be still proffered if it is not accepted before adjournment. The offer was made one year ago and the time has come to say 'yes' or 'no'. This cause is worthy of your most active support. Members of congress cannot reflect your desires unless you tell them in unmistakable terms that you want a vote on the Ford proposal and that you want it accepted at this session."

The federation, which under Mr. Ford's offer would be one of three farm organizations having membership on an administrative board organized to regulate fertilizer sales and audit the transaction of the plant, calls attention to the differences that have arisen in the house military committee over the question and suggests that the "Gorgas plant controversy" "is not the true issue before congress."

"It has been raised by the Alabama Power Company," the circular continues, "which is acting as the mouth piece of all the special interest groups that are opposed to the Muscle Shoals development. The real issue is between the consuming public and these special interest groups. These great interests are the fertilizer manufacturers and allied interests, the by-product coke ovens with their related steel interests, the water power group, the aluminum monopoly, the chemical combine and the financial interests."

It is declared further in the circular that the Ford proposal "inaugurates a new method of developing our great natural resources with low interest rates and amortization of the cost," in addition to giving to a board of farmers the regulation of distributing methods.

When Mr. Ford's money becomes too burdensome, he might try backing grand opera.

Injunctions and Other Subjects Will Face the Convention Today

RECOGNIZE SOVIET

WILL PROBABLY BE ASKED BY RADICAL WING OF AMERICAN FEDERATION OF LABOR

(By The Associated Press) CINCINNATI, June 12.—Open shop, unemployment, wage reductions, recognition of Soviet Russia, one big union, court decisions and injunctions affecting labor and other subjects formed the major issues confronting the American Federation of Labor convention which convened here today.

CINCINNATI, June 12.—By rejecting a recommendation submitted by Samuel Gompers, president of the American Federation of Labor, the building trades department of the federation here Saturday refused to call on the national board of jurisdictional award to reopen a decision, made against the carpenters' union, which was proposed as the means of winning the carpenters back to the membership in the department.

Conceded with the decision which was taken by the executive officers of the sixteen unions composing the department at its annual meeting, was the unanimous adoption of a motion affirming the support of the jurisdictional board.

This board is composed of representatives of the building industry and charged with the settlement of disputes between various union crafts.

In offering the recommendation, Mr. Gompers said in substance provided that when a rehearing in a dispute between the carpenters and metal trades union had been ordered that the carpenters would automatically become part of the department. President John Donlin, of the department, in presenting the motion which was adopted, said the question was that "we non-concur in the recommendation of Mr. Gompers to invite the carpenters back, reopen the case and suspend the decision."

The action of the convention came as a climax of a session that began with consideration of proposals, which were adopted, for bringing peace to the building industry. With the view of ending the turmoil in Chicago, which has prevailed since the Landis wage award, the convention directed an early meeting of all union presidents in the building trades be held in session "until the situation is cleaned up."

July 20 was set by the union presidents for opening their Chicago meeting.

Two other steps toward promoting harmony were the adoption of President Donlin's recommendations that the union chiefs hold quarterly meetings to settle all disputes arising between crafts, and also his recommendation favoring the department joining the national building council, composed of representatives of all branches of the industry. Mr. Donlin's proposal for a national board of union chiefs, vested with the responsibility of calling strikes, was not considered at the meeting.

While the carpenters, who form one of the largest labor unions of the country, belong to the federation they have not been affiliated with the building department for the past year on account of the jurisdictional board deciding that the installation of metal doors and room trimming was to be done by the metal trades unions.

BOUND FOR DENVER

(By The Associated Press) DEXTER, Ia., June 12.—After a delay here of more than 12 hours flying time, Capt. Eddie Rickenbacker hopped off here at 1:10 o'clock Saturday afternoon en route to Denver, the next stop over in his 15,000 mile flight across the country and back. Due to the stop caused by damage to his airplane in a Detroit lightning storm, he has given up hope of reaching San Francisco before Monday.

The shorter and uglier word for wounded vanity is "grouch."

Tutoring in all High School subjects at Grammar School beginning Monday, June 12th, at 9 a. m. MRS. JOHN LEONARDI. 65-2tp.

RE-ORGANIZATION OF PEOPLES BANK OF SANFORD

Effective this week, a complete change in the management of the Peoples Bank of Sanford takes place. Sanford has just had a magnificent season in the celery and trucking business. Old interests which have been connected with the bank during the trying period of depression through which the country has passed have decided to give up their banking interests. A strong new group of people have taken charge, new capital put in, and a new set of officers having the strongest of financial backing will take charge.

The Peoples Bank will continue to operate as a home institution taking care of its depositors and doing its share to build up Sanford and the surrounding section.

Taking active charge of the bank from this date on will be the following officers and directors: J. R. Anthony, president. Dr. S. Puleston, Vice-President. H. P. Smith, vice-president and cashier. C. E. Williams, Doctor. W. E. Scoggins, Director.

Below is published a statement of the condition of the bank at this time. With the completion of this re-organization and the putting in of new capital and strong new organization, this bank will continue to do its share in taking care of the financial needs of Sanford.

Statement of condition of the Peoples Bank at close of business June 8th, 1922:

Table with columns: Liabilities, Assets. Capital Stock \$30,000.00, Surplus and Undivided Profits 1,527.66, Deposits 610,191.85, Bills Payable None, etc.

WALLACE REID FIGHTS KID MCCOY—SEE IT

Kid McCoy, the ex-middleweight champion of the world, and famous a few years ago as one of the most aggressive fighters of his time, is seen in action in "The World's Champion" a Paramount picture starring Wallace Reid which will be shown at the Princess theatre for the last time tonight. In the picture there is a fight sequence, wherein Mr. Reid, as "Gunboat Williams" is seen to defeat his opponent, and win the middleweight championship of the world. McCoy

was the man chosen to oppose Mr. Reid with the gloves and a most realistic battle is the result as the athletic star had to fight like fury to ward off the well-aimed punches of the ex-champ and drive home his own blows.

The city food and dairy inspector of Orlando is Jesse Hamilton and he is a good one. He not only demands milk inspection but he demands inspection of every kind of piece that is for the public.

We opened up a letter from Drawer Z this morning thinking it would be something different but it was the same old story. Man wanted his speech published free and it would take up a page of the Herald.

THE MYSTERIES OF ROAD BUILDING

Chas. A. Browne, engineer in charge of building the Orlando-Titusville ocean highway in Orange county in an address before the Tampa Civitan Club said counties could save \$7,000 a mile on every mile of road building by using home material.

Mr. Browne further stated that the labor costs of road building had dropped about 33 per cent in the last 18 months.

Road contractors will tell you that when concrete or asphalt is used for hardsurfacing, coquina rock or any home rock is as good as imported rock, with no outlay for railroad freight.

Engineers in St. Lucie county say that for every \$100,000 spent on roads in that county \$50,000 was paid to railroads for hauling the rock.

BUSINESS MEN GET A POINTER

Nearly every city where there is a large wholesale competition there is an organization which pools its issues, subscribes for all the country weeklies within its territory and engages a "clip-girl" to study every issue of each paper.

BELIEVES HE CAN AID LONGEVITY

Appears now another reason why Henry Ford should be given the Muscle Shoals project—together with all that pertains to it—although the contemplated plan may awaken still more political animosity toward him from sources that have heretofore been silent.

He claims now that he can make an unbolts flour which will have all the soft whiteness of the flour now in common use which has had its strongest health-giving qualities taken away from it.

But now comes Henry Ford with the announcement that he will, if allowed to take over the junk pile at Muscle Shoals, place on the market a flour retaining all the good qualities of the whole wheat, yet possessing all the attractiveness of the finest and whitest patent flour.

MICKIE SAYS THE EDITOR OF A COUNTRY NEWSPAPER HAS GOTTA BE A LITERARY GUY, A PRACTICAL PRINTER, A REPORTER, A PRESSMAN, A BUSINESS MAN, A DIPLOMAT AND A HUSTLER.

ing—and the producer of the Economical Elizabeth is providing his belief in the efficacy of his new flour by being a consumer of the product in order to show the people what can be done by a bettered food.—Kissimmee Gazette.

EAST COAST CANAL COMPANY NOT "BUSTED"

Don't worry about the East Coast Canal Co. being "busted." When it dug that streak of mud from Jacksonville to Miami and called it a canal it was granted by the State a subsidy of 1,200,000 acres of land for its enterprise.

FOR THE EAST COAST CANAL

The East Coast people from New Smyrna north are busy on the canal question and they are working day and night to attempt to get up statistics that will prove there are people living along the canal that will ship something on this route.

JUNE, THE BRIDE MONTH

There is probably some deep mystery about June; why it should be chosen so persistently by brides for so many years and how it came to be called the bride month.

WOMAN SWINDLER ARRESTED

VIENNA, June 12.—Genevieve Padelford, who claims to be the wife of a wealthy California oil trader, is under arrest here in connection with a number of fraudulent operations in which business men of Lucerne, Paris and Vienna were the victims.

REPORT FARMER BEATEN

(By The Associated Press) ANDERSON, S. C., June 12.—Verification of reports that a band of masked and white robed men, about thirty in number, seized Ollie Crumpton, an Anderson county farmer residing near Williamston, some 1-6 miles from this city, Thursday night taking him to a point near the boundary line between Anderson and Greenville counties, where it is alleged he was severely beaten and cautioned by members of the party to cease dealing in whisky, was made Saturday by Chief of Police, E. M. Patterson, of Williamston.

PRIZE ESSAY THAT WON HONOR IN SANFORD HIGH

Florida offers twelve bride months in a year, and provides blooms fresh from the near-by gardens and groves to deck the church hall. This does not take away from June its charm, however, and just now is mating time with many here as elsewhere.

OPPORTUNITIES FOR YOUNG FLORIDIANS IN AGRICULTURE

Senator Arthur Capper, Kansas, commends agriculture to the high school and college graduates throughout the country about to choose life professions for themselves.

she smiles from the society page with all the wistfulness of a child in a new adventure.

Thousands of June brides have brought their mates back, after a short time away, perhaps, to make the home nest in the Sunny South where the welcome is sure and the people are friendly and sincere.

Within the last few years there have been published thousands upon thousands of pages dealing with the forest situation in America.

The following Tuesday the Eustis Noon-day club met and endorsed the Boy Scout movement and voted to assist the new Central Florida Council. The boys set them a good example.

LONGWOOD

Mrs. Frank Griggs and daughter, Mary, were calling on friends last Wednesday.

Miss Ellen Fuller returned Thursday from Tallahassee where she has been attending the Florida State College.

Mr. and Mrs. E. L. Dinkel and Miss Olive Dinkel were shopping in Sanford Friday.

Mr. and Mrs. C. W. Entzinger were visitors in Sanford Saturday.

Mr. and Mrs. J. S. Dinkel were visitors in Orlando Monday.

Mr. and Mrs. George LeVigne and daughter and Mrs. Partin were visitors in Orlando Wednesday.

Mrs. A. Y. Fuller and Miss Ellen Fuller were shopping in Sanford on Monday.

Mrs. L. R. Payne and Mrs. B. J. Overstreet were visitors in Sanford Thursday.

Miss Olive Dinkel entertained with a 500 party at her home in West Longwood. At a late hour refreshments were served. Those invited were Mr. and Mrs. Long, Miss Mildred Long, Mrs. Sour, Messrs. E. S. Miller and Laurie Ford.

E. S. Miller and Harry Kelly, of Orlando, motored to Tampa for the week end.

UPSALA AND GRAPEVILLE

Rev. C. F. Wahlberg of Groveland, Fla., will preach in Swedish at the Lutheran church next Sunday at 11 o'clock and 8 o'clock in the evening in English.

Fred Krell came home Sunday from DeLand where he has been packing tomatoes.

C. M. Williams has been very much under the weather this last two weeks from his old trouble, the asthma.

Alfred Ericson was on jury duty last week; his daughter, Miss Margaret, who has just graduated has accepted a good position in Sanford.

Ben Swan who has a nice little grove near Twin Lakes is expecting to leave on the 14th of June for New York City, where he will meet his daughter, Dr. Swan of Chicago and will visit his sister and other relatives before returning. He was a dinner guest Sunday at Mr. Hirachi's, calling later to see G. Lind.

Mr. Fisher's family of Ocooca came up Tuesday, being treated to some of Mr. West's fine melons.

Two more of our Upsala boys have joined the new military band.

Charles Beck is able to get around now on crutches. Mrs. Beck, herself, got a bad hurt last week, tearing off the nail of one of her fingers. We were treated to some of their new honey which is delicious, being made from orange bloom.

Fine weather now for groves, corn and sweet potatoes; all the farmers on the uplands are now busy as bees.

Sorry the rain of last Sunday kept most of us away, but Rev. Clark and wife, though wet, were present and preached to the few present. He expects to be able to give us another service now as he will not preach at Sorrento in the evening.

The piano fund is coming along finely.

Bernard Hirschi spent a few days last week in Orlando and is going again this week to see a chum graduate and will then camp out for a time with him at a boys camp.

Mr. and Mrs. Seymour Pritchard left on the early morning train Thursday for Ogdensburg, New York on receiving a telegram stating Mrs. Pritchard's aunt was very ill with pneumonia. They had expected to leave three weeks later.

Mr. and Mrs. Charles Cramer and children and brother, Vernon, Mrs. Ballinger and a Mr. Thompson took dinner Saturday with Mr. and Mrs. Collier in Sanford.

Mr. and Mrs. Forrest West and daughters, Myrtle and Lila and two sons, Mr. and Mrs. Charles Cramer and little Glen and Curtis and Vernon Cramer enjoyed a fine time Sunday at Coronado Beach; the former family took dinner with Mr. and Mrs. Hubble at Hawks Park and the latter picnicked with Mr. and Mrs. D. Douglass at the Beach, all enjoying some fine melons together.

ANNOUNCEMENT OF BUSINESS CHANGE

An announcement in this issue states that Henry B. Lewis and Joe D. Chittendon have formed a co-partnership under the name of Lewis and Chittendon and will do a real estate, fire insurance and rent and lease business in the old stand on Park avenue recently occupied by Mr. Lewis. Neither of these gentlemen need any introduction to the Sanford public as Mr. Lewis has been a resident of this city for the past six years or more being engaged in the real estate business and farming and Joe Chittendon has lived here for many years and was among the first of the Sanford boys going to war, was wounded in the battle of Chateau-Thierry, permanently disabled and sent home after the war where he has been engaged in the fire insurance business and in real estate. This combination of Harry and Joe will prove to be a winner as they will handle fire insurance, buy and sell property and especially farming lands, rent and lease houses and farms and do a general real estate business. They are both live wires and both are well known and have a large circle of friends who will be glad to hear of the new company. They will use The Daily Herald to set forth the many bargains in real estate and expect to help Sanford grow in many ways.

CAUGHT TARPON

Charlie Merriwether, Ben Monroe, Walter Hand and Ralph Wight have returned from Boca Grande where they were successful in landing ten nice tarpon. The boys say Charlie Merriwether was the most successful fisherman in the bunch.

EARTHQUAKE SHOCK RECORDED AT GEORGETOWN - NOT FELT AT SANFORD

(By The Associated Press) WASHINGTON, June 12.—Heavy earthquake shock was recorded at the Georgetown University Seismographical observatory at midnight and a severe tremor, probably more distant, was recorded about six o'clock this morning.

Let Billy Hoffman tell you about Radio; it don't cost anything. 66-6tc

LENINE IMPROVES INSTEAD OF DYING AS HE SHOULD HAVE

MOSCOW, June 12.—Lenine's condition continues to improve and he is now able to walk in gardens and dictate letters.

BUY B. & L. STOCK, BUILD YOUR CITY.

You will find Billy Hoffman at the Hof-Mac Battery Co. as usual. 66-6tc

NEW BUILDING STARTS.

S. O. Shinhober has the contract for the new Meriwether block to be erected on the old Magnolia House site opposite the Miller Bakery on Magnolia avenue. There will be three store rooms erected to be one story but with foundations sufficient to stand several more stories as the city grows. The building will be of brick and modern in every respect. One store room will be twenty-five feet wide and two of them will be twenty-two feet each. All of them will be fifty feet long. Ground is being broken today for this new building that will add much to the business life of "Wall Street," or "Herald Square."

IF KIDNEYS AND BLADDER BOTHER

TAKE SALTS TO FLUSH KIDNEYS AND NEUTRALIZE IRRITATING ACIDS

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice combined with lithin, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

You might get as good but you won't find any better loaf than O. K. Butter-Crust and Poinsettie Butter-Split Bread. If you haven't tried it, a treat has been missed. Try others, then eat O. K. BREAD made with milk and pure shortening. 6-6tc

FOR THE EAST COAST CANAL

The East Coast people from New Smyrna north are busy on the canal question and they are working day and night to attempt to get up statistics that will prove there are people living along the canal that will ship something on this route.

The hearing by U. S. Army engineers on June 26th will determine if the government is to take over the East Coast Canal and deepen and improve it. The probable amount of freight shipped and received along the canal route will largely influence the government in its decision as to the value of the proposed improvements, and every ton of freight should be counted, but cannot be counted unless the questionnaires are returned properly filled out.

BELIEVES HE CAN AID LONGEVITY

Appears now another reason why Henry Ford should be given the Muscle Shoals project—together with all that pertains to it—although the contemplated plan may awaken still more political animosity toward him from sources that have heretofore been silent.

He claims now that he can make an unbolted flour which will have all the soft whiteness of the flour now in common use which has had its strongest health-giving qualities taken away from it. The flour we eat daily—or that the most of us eat—is admittedly robbed of a great percentage of its sustaining factors by the wild desire to "have the whitest of white flour" go into the bread we eat; we have sacrificed quality for the sake of appearance.

But now comes Henry Ford with the announcement that he will, if allowed to take over the junk pile at Muscle Shoals, place on the market a flour retaining all the good qualities of the whole wheat, yet possessing all the attractiveness of the finest and whitest patent flour—and he declares that with such a food life will be retained many years longer. No longer will the good be obliged to "die young" if fed on the "Ford Finished Flour," and it shall become the finished food of the multitude. Longevity for all classes means longevity for Henry Ford—and that means still greater things to be accomplished through his inventive genius. Health is a wonderful blessing.

BOY SCOUT ACTIVITIES

Arthur Cundy, Scout Executive of the Central Florida Council, in Sanford on Sunday, June 11, arrangements will be made to make short talks on Scout activities at various churches.

On Sunday, the 26th, Capt. Cundy will review the Boy Scout activities in Sanford.

Sanford is becoming very popular to Boy Scout troops.

One of the older boys receiving set powerful receive the news and conduct by the Pittsburgh, Pa.

Scout troops are constructing a village of Port Orange, near several friends of the Boy Scout have donated \$50.00 to-day when the troop has its full quota of 32 boys, \$50.00 being promised them to help their number have a second class Scouts and when four pass to first class.

Sanford is very active in Cocoa boys are under the leadership of E. S. Howard, pastor of the church.

Sanford have a full troop of 32 boys.

Meeting of the troop committee, at which a few leading members were present, \$600.00 was awarded the expense of the Central Florida Council of which Sanford is a part. Our treasurer, Deane Turner, is treasurer contributions should be remitted.

Scouts are taught to be thrifty, a few days ago the Eustis troop that they were living up to standards.

Scoutmaster, Rev. Kent Pennington on a hike with them and became ill as a result of

exposure and went to the hospital for examination and treatment. Last Friday on his departure the boys drew on their savings and presented him with a purse of \$151.50 to help defray his expenses. The following Tuesday the Eustis Noon-day club met and endorsed the Boy Scout movement and voted to assist the new Central Florida Council. The boys set them a good example.

LONGWOOD

Mrs. Frank Griggs and daughter, Mary, were calling on friends last Wednesday.

Miss Ellen Fuller returned Thursday from Tallahassee where she has been attending the Florida State College.

Mr. and Mrs. E. L. Dinkel and Miss Olive Dinkel were shopping in Sanford Friday.

Mr. and Mrs. C. W. Entzinger were visitors in Sanford Saturday.

Mr. and Mrs. J. S. Dinkel were visitors in Orlando Monday.

Mr. and Mrs. George LeVigne and daughter and Mrs. Partin were visitors in Orlando Wednesday.

Mrs. A. Y. Fuller and Miss Ellen Fuller were shopping in Sanford on Monday.

Mrs. L. R. Payne and Mrs. B. J. Overstreet were visitors in Sanford Thursday.

Miss Olive Dinkel entertained with a 500 party at her home in West Longwood. At a late hour refreshments were served. Those invited were Mr. and Mrs. Long, Miss Mildred Long, Mrs. Sour, Messrs. E. S. Miller and Laurie Ford.

E. S. Miller and Harry Kelly, of Orlando, motored to Tampa for the week end.

UPSALA AND GRAPEVILLE

Rev. C. F. Wahlberg of Groveland, Fla., will preach in Swedish at the Lutheran church next Sunday at 11 o'clock and 8 o'clock in the evening in English.

Fred Krell came home Sunday from DeLand where he has been packing tomatoes.

C. M. Williams has been very much under the weather this last two weeks from his old trouble, the asthma.

Alfred Ericson was on jury duty last week; his daughter, Miss Margaret, who has just graduated has accepted a good position in Sanford.

Ben Swan who has a nice little grove near Twin Lakes is expecting to leave on the 14th of June for New York City, where he will meet his daughter, Dr. Swan of Chicago and will visit his sister and other relatives before returning. He was a dinner guest Sunday at Mr. Hirschi's, calling later to see G. Lind.

Mr. Fisher's family of Osceola came up Tuesday, being treated to some of Mr. West's fine melons.

Two more of our Upsala boys have joined the new military band.

Charles Beck is able to get around now on crutches. Mrs. Beck, herself, got a bad hurt last week, tearing off the nail of one of her fingers. We were treated to some of their new honey which is delicious, being made from orange bloom.

Fine weather now for groves, corn and sweet potatoes; all the farmers on the uplands are now busy as bees.

Sorry the rain of last Sunday kept most of us away, but Rev. Clark and wife, though wet, were present and preached to the few present. He expects to be able to give us another service now as he will not preach at Sorrento in the evening.

The piano fund is coming along finely.

Bernard Hirschi spent a few days last week in Orlando and is going again this week to see a chum graduate and will then camp out for a time with him at a boys camp.

Mr. and Mrs. Seymour Pritchard left on the early morning train Thursday for Ogdensburg, New York on receiving a telegram stating Mrs. Pritchard's aunt was very ill with pneumonia. They had expected to leave three weeks later.

Mr. and Mrs. Charles Cramer and children and brother, Vernon, Mrs. Ballinger and a Mr. Thompson took dinner Saturday with Mr. and Mrs. Collier in Sanford.

Mr. and Mrs. Forst West and daughters, Myrtle and Lila and two sons, Mr. and Mrs. Charles Cramer and little Glen and Curtis and Vernon Cramer enjoyed a fine time Sunday at Coronado Beach; the former family took dinner with Mr. and Mrs. Hubble at Hawks Park and the latter picnicked with Mr. and Mrs. D. Douglass at the Beach, all enjoying some fine melons together.

ANNOUNCEMENT OF BUSINESS CHANGE

An announcement in this issue states that Henry B. Lewis and Joe D. Chittendon have formed a co-partnership under the name of Lewis and Chittendon and will do a real estate, fire insurance and rent and lease business in the old stand on Park avenue recently occupied by Mr. Lewis. Neither of these gentlemen need any introduction to the Sanford public as Mr. Lewis has been a resident of this city for the past six years or more being engaged in the real estate business and farming and Joe Chittendon has lived here for many years and was among the first of the Sanford boys going to war, was wounded in the battle of Chateau-Thierry, permanently disabled and sent home after the war where he has been engaged in the fire insurance business and in real estate. This combination of Harry and Joe will prove to be a winner as they will handle fire insurance, buy and sell property and especially farming lands, rent and lease houses and farms and do a general real estate business. They are both live wires and both are well known and have a large circle of friends who will be glad to hear of the new company. They will use The Daily Herald to set forth the many bargains in real estate and expect to help Sanford grow in many ways.

CAUGHT TARPON

Charlie Merriwether, Ben Monroe, Walter Hand and Ralph Wight have returned from Boca Grande where they were successful in landing ten nice tarpon. The boys say Charlie Merriwether was the most successful fisherman in the bunch.

Advice Wasted.

EARTHQUAKE SHOCK RECORDED AT GEORGETOWN -NOT FELT AT SANFORD

(By The Associated Press)
WASHINGTON, June 12.—Heavy earthquake shock was recorded at the Georgetown University Seismographical observatory at midnight and a severe tremor, probably more distant, was recorded about six o'clock this morning.

Let Billy Hoffman tell you about Radio; it don't cost anything. 66-6tc

LENINE IMPROVES INSTEAD OF DYING AS HE SHOULD HAVE

MOSCOW, June 12.—Lenine's condition continues to improve and he is now able to walk in gardens and dictate letters.

BUY B. & L. STOCK, BUILD YOUR CITY.

You will find Billy Hoffman at the Hof-Mac Battery Co. as usual. 66-6tc

NEW BUILDING STARTS.

S. O. Shinholser has the contract for the new Merriwether block to be erected on the old Magnolia House site opposite the Miller Bakery on Magnolia avenue. There will be three store rooms erected to be one story but with foundations sufficient to stand several more stories as the city grows. The building will be of brick and modern in every respect. One store room will be twenty-five feet wide and two of them will be twenty-two feet each. All of them will be fifty feet long. Ground is being broken today for this new building that will add much to the business life of "Wall Street," or "Herald Square."

IF KIDNEYS AND BLADDER BOTHER

TAKE SALTS TO FLUSH KIDNEYS AND NEUTRALIZE IRRITATING ACIDS

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

You might get as good but you won't find any better loaf than O. K. Butter-Crust and Poinsettie Butter-Split Bread. If you haven't tried it, a treat has been missed. Try others, then eat O. K. BREAD made with milk and pure shortening. 6-6tc

MOST IMPORTANT ROAD IN FLORIDA IS NEGLECTED BY STATE ROAD DEPARTMENT

By F. M. BURT

The question of at least ONE serviceable highway leading from the Northern states down through Georgia into Florida and thence to Central and South Florida where passable roads are encountered, is a matter that should be taken up immediately and vigorously by the State Road Department.

The present Road Department have the acts and omissions of their predecessors to contend with; they have various influences brought to bear on them that tend to scatter energies and funds; and criticism that is just and unjust. However, we all have our troubles and, at this stage of the game they know or ought to know that with the funds now available or that will probably be available for a long time to come that ALL State and State Aid Roads will not be standardized their entire length for many years, and, that the logical and practical plan is to concentrate work upon the Main State Roads known as Roads 1, 2, 3, 4, 5, 6, 7 and 8, and refuse to consider any new project until those roads are finished.

It is also known that the State Roads, Nos. 2, 3, and 4 are the ones which accommodate the most travel and will for years to come. It is also well known that these three roads are in bad condition. That is, Road No. 2 is in poor condition between Ocala and Lake City, a large extensive stretch; Road No. 3 from De Leon Springs to Jacksonville is in bad shape in some links, but for a comparatively short distance; and, Road No. 4 from Ormond to Jacksonville, a long expensive stretch is in poor condition.

Thus it will be seen that these three important State Highways are choked at their throat.

Judge H. B. Phillips, Chairman of the State Road Department, in an address to the American Automobile Association Delegates, in January said in part that there could be built in one year a system of roads that would enable the people of Florida to travel in comfort to South Florida—not hard surface them—but get them in condition for travel. He mentioned Roads 2 and 4, but said nothing about Road No. 3. By looking at the State Road Map it will be seen that Road No. 3 is the shortest route; goes through the most populated and productive land, and, can be made safe and comfortable to travel from Jacksonville to DeLand with less expenditure of time and money than any other route. South of DeLand the roads are in serviceable shape for travel over to Orlando and from which point the traveler may proceed over good roads to either the west or East coasts or Central Florida. Road No. 3 is not only a State Road but is an Intra-state road as it connects with Road No. 4 running from Jacksonville to the Waycross road at the Georgia line and with Road No. 1 running from Jacksonville to Lake City and thence over Road No. 2 from Lake City to the Georgia line connecting with the Valdosta road. The bulk of the travel to and from Florida is over the Valdosta and Waycross roads which connect with Road No. 3, the shortest route south, to relieve all of Central and South Florida.

Why Judge Phillips ignored Road No. 3 in his address is not known. Roads 1, 2 and 4 are very important; but, Road No. 3 is more important due to the fact that it can be placed in serviceable condition, is not first-class standard shape, quickly; and, which would be in the way of an emergency measure and relieve all of Central and South Florida through the Gateway City of Jacksonville, and thereafter build those long expensive Roads Nos. 2 and 4 as funds are available in a Standard manner. Just why Judge Phillips ignored Road No. 3 many people would like to know.

During January contracts were awarded for road construction work amounting to two million dollars or more by the Road Department; but bids for the Volusia County stretch of Road No. 3 were neglected, and so far as published reports are concerned it was the only project turned down. Since Judge Phillips stated that bids were rejected because all bids were too high. People would like to know whether they were too high because the District money available would not cover the expense, without the State contributing, or whether they were too high based on the work compared with like work on similar projects?

It is understood that the Volusia County link of Road No. 3 was made a Federal Aid Project; that a Fed-

eral inspector was on the work for six months or more and then discharged or allowed to go and then automatically cancelled Federal Aid. The District contributed \$8,333.98 per mile to this road; the State Road Department contracted to do the work on this road according to specifications of the Bureau of Roads at Washington. It is understood they asked for bids and let contracts for the bridges and culverts without having them constructed according to specifications and under the inspection of the Bureau of Roads at Washington as per their contract with the County Commissioners of Volusia county. The people would like to have an explanation of this seeming act.

The Road Department in asking for bids on this road, ask for bids on shell and crushed rock base. A special Act of the Legislature and the Contract between the State Road Department specifically states that a Macadam Road 16 feet wide shall be built the base of which shall be of coquina rock or Ocala lime rock or their equal.

A Macadam Road means something. John McAdam (a Scotch engineer, invented this road, and the specification are "That the top soil of a roadway be removed to a depth of 14 inches. Coarse cracked stone is then laid to a depth of 7 inches and the interstices and surface depressions are filled with fine cracked stone. Over these, as a bed, is placed a layer 7 inches of road metal or broken stone of which no piece is larger than 2 1/2 inches in diameter. This is rolled down with heavy rollers and the top is finished with stone crushed to a dust or fine gravel, and rolled smooth."

Knowing a true description of Macadam Road as engineers know it, be acceptable in Florida; but, shell or crushed rock for a base would be so far from the specifications and so impractical that they should not be considered for a moment.

When new highways are built they should be built with the idea of permanency as the chief factor.

We do not know whether or not, in asking for bids on Macadam road construction the Road Department have asked for bids for shell or crushed rock bids on roads other than this particular stretch. "Shell" covers a wide field in Florida.

Snail shell, oyster shell, conglomerate shell, etc., are used with varying degrees of failure in road building. In fact, shell roads are probably the most expensive roads known on account of their maintenance cost. Possibly some kind of shell may have passed through a laboratory test as a base for a Macadam road, and a good illustration of this is on the DeLand-Daytona road. Rock was used for the base of the East end of this Macadam road and shell for the West end and although the West end was laid more than a year after the East end it is breaking up while the East end is practically intact.

To make Road No. 3 safe and comfortable and take the cork out of the end of the neck of the bottle to relieve Central Florida and all of the East Coast to Miami and the West Coast to Tampa only requires:

DUVAL COUNTY to repair her brick road to the Clay county line.

CLAY COUNTY to repair her asphalt road from the Duval county line to Green Cove Springs and build a new road a comparatively short distance from Green Cove Springs to the Putnam County line.

PUTNAM COUNTY to repair and build a road from the Clay county line to Sisco, a relatively short distance. From Sisco to the Volusia county a Standard road is now being built.

VOLUSIA COUNTY to complete the road which is now graded from the Putnam county line to DeLeon Springs. This stretch of 19 miles has been graded and bridges and culverts built (but not in accordance to contract) and the State Road Department have contracted to put in the base but are extremely slow in executing it. In fact have not started. They also agreed to put on the finishing coats and complete the road when "Funds may be available" which may mean little or much.

When the State Road Department is approached they seem to be adverse to talking about Road No. 3. When written they do not answer pertinent questions but say, "yes, we realize the importance of Road No. 3. It is having our consideration, etc., etc."

The Volusia county Grand Jury have petitioned the Governor to get action on this road. The Volusia county Board of Education have petitioned to put this road into condition in order that children may reach schools. Individuals have petitioned, without results. But nothing happens while work on other scattered projects seems to progress.

The question arises, what are the people of Duval, Clay, Putnam, Volusia and Seminole counties, and in fact all of Central and South Florida, going to do about the matter. It would seem that patience has ceased to be a virtue.

It would seem that the Road Department should strain a point and place Road No. 3 in passable condition between Jacksonville and DeLeon Springs, even though funds are diverted from other and less important projects.

If the State Road Department desire the support of the public when appropriations are asked for they will undoubtedly secure it if they practice strict economy and rigid honesty; and, efficiency in showing something done in main Highways. The public generally speaking do not hesitate about being taxed if they receive value or feel that they are going to get their money's worth, but they do protest against large appropriations when they have little or no confidence as to whether or not their money will be spent judiciously and not scattered so thin that results cannot be seen.

MAN LOSES OWN LIFE TRYING TO PREVENT GIRLS FROM DROWNING

(By The Associated Press)

WAMSAU, Wis., June 10.—Bodies of three girl students of Marathon County Normal school, and a man who attempted to rescue them were recovered yesterday from the Wisconsin river where the four drowned Thursday in the presence of scores of classmates of the girls.

The dead are: Ethel Genrich, Margaret Bradley, Dorothy Hawks and Martin Hanneman.

The three girls in company with Edna Hammond, went in swimming during a graduating picnic. Venturing out, hand in hand, they stepped into a hole. Miss Hammond, the only one who could swim, reached shore. As the others went under, Hanneman who could not swim, started for the spot where the girls were last seen, and he too, disappeared.

PLAIN OLD "BUCK" PRIVATES BECOME SCARE IN ARMY

WASHINGTON, June 10.—Examination of war department statistics obtained today disclosed that "dough-boys"—just plain "buck privates of the infantry"—are becoming almost as scarce in the army as second lieutenants were a while back.

The "buddy with the bayonet" is the man relied upon to win the victories. Every other element in the army exists merely to help him on the job. Yet it is of necessity the buck private in foot regiments that bears the brunt of ever successive reduction in army strength. Congress has ordained slashes in the number of buck privates until the enlistment has dwindled to the disappearing point. The impending additional reduction in the size of the army will cause further drop, officials say, and have the military machine just a highly specialized skeleton the bones of which are officers, non-commissioned officers, specialized services like artillery, air service, motor transport and bombers, automatic riflemen, machine gunners, signalers and other key men in the infantry units with just a few humble bayonet wielding "bucks" here and there to give a sketchy suggestion of a real wartime force.

There seems to be no way to avoid the scarcity of privates, it was said today by department officials. Unless a framework of trained specialists is maintained the army, it was added, would be utterly incapable of quick expansion in war.

Get your Radio parts from Billy Hoffman, he's got 'em. 66-61c

AN OLD RECIPE TO DARKEN HAIR

SAGE TEA AND SULPHUR TURNS GRAY, FADED HAIR DARK AND GLOSSY

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large

FADS

Fads are all right for the rich man, but the farmer that is first of all interested in paying his bills and having some money left, wants tried and true methods of getting the money for his crop.

bottle of this old-time recipe improved by the addition of other ingredients at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw thru your hair, taking one small stroke at a time; by morning the gray has appeared, and after another application or two, your hair becomes beautifully dark, thick and glossy and years younger.—Adv.

The World is Working for You

The manufacturer who makes your shoes is working for you. So is the store that sells you shoes, your grocer, your clothier and every concern or person who makes or sells anything you buy.

Often these people have messages for you. They want to tell you about new goods, new styles, new prices or other new things they think you should know about. They can't speak to you personally because they have so many customers to serve. So they put their messages in the newspaper in the form of advertisements. It is to your interest to read the advertisements. They are published for your benefit. They keep you informed as to what these folks are doing for you. They help you buy the right goods at the right time and to make the most of your money.

Moreover, you'll find that business concerns that tell you frankly what they are doing are the most dependable. Stores that advertise are progressive stores that have something real to say to you. Manufacturers who advertise their products have confidence in them, because it does not pay to advertise anything that is not good.

Reading the Advertisements is both Interesting and Profitable
