## Bolivia Appeals To League To End Its War With Paraguay

### Delegate Invokes Two Covenant Articles In Surprise Plea Before Council Meet

GENEVA, May 31.—(A.P.)—Bolivia appealed to the League of Nations under two articles of the covenant today to end its war with Paraguay in the Chaco Boreal of South America.

This sensational development came at the very end of a League Council meeting after representatives of both nations had spoken to assembled members.

First, Costa Duran, Bolivian delegate, invoked Article 13 whereby disputing nations may ask arbitration.

He was answered by Caballero Badoya, Paraguayan representative who said, "We cannot allow arbitration to be a mare for the nations' good faith."

Then Duran appealed for a settlement of the dispute under Article 15 which authorizes the Council to make recommendations for the settlement of disputes without the vote of the disputants.

The latter article in the step preceding the possible application of military measures against an aggressive nation.

French Foreign Minister Barthou lambasted Germany and made sarcastic remarks about British proposals yesterday in a disarmament conference speech which Sir John Simon later tried to smooth over by reminding the press that Barthou is in the habit of addressing the French parliament.

Sir John, British foreign secretary, earlier had stressed the German position in past conferences and also would have stressed the same position today.

He also would have stressed the same position today.

He also would have stressed the same position today.

He also would have stressed the same position today.

## NEW IDEALISM IN U. S. HAILED BY ROOSEVELT

### President Delivers Memorial Day Talk Before Vast Multitude At Gettysburg

GETTYSBURG, Pa., May 31.—(A.P.)—"In the bright sunshine of this battle field of the 'brotherhood' war," President Roosevelt yesterday hailed a "new understanding" in the United States.

"We know that we all have a stake—a partnership in the government of our country," he told the vast throng covering the decorated fields. "All of us share in whatever good comes to the average man. We are all brothers now in a new understanding."

Reaching this historic town late in the afternoon, Roosevelt halted in the national cemetery opposite the grave-circled monument where Abraham Lincoln consecrated the ground to government by the people, to watch children drop flowers on the graves of graves of men who fought here.

Speaking from a platform near by a few minutes later, he asserted it is "in our power to attain the great ideal of a consolidated nation."

"Here, in the presence of the spirits of those who fell on the ground," he said, "we give renewed assurance that the passion of war are subsiding in the tomb of time and the purposes of peace are flowering in the hearts of a United people."

Three elements are listed by the President as hindering progress. "These groups are those who seek to stir up political animosity to build political advantage by the distortion of facts; those who, by declining to follow the rules of the game, seek to gain an unfair advantage; and those who, by their own narrow selfishness and still represent the selfishness of sectionalism which has no place in our national life."

Governor Pinchot of Pennsylvania was cheered as he introduced President Roosevelt as "the leader" who has taken the helm of a "newly united nation." He presented the President as "a maker of decisions."

The President returned after the brief and simple exercise to his special train to hasten on to New York where today he will review the United States fleet.

From an open car as he rode through Gettysburg, crowds pointed out for the President the half-dozen places where after three days of furious fighting, the Indians turned for the arms of the union.

As he ascended the rostrum, as he greeted by a smiling, white-haired little woman of 85, Mrs. M. O. Smith, of Hanover, Pa., who sang on the platform the day Lincoln stood in a November wind amid a dedicated sea cemetery of the battlefield.

The Presidential party arrived late in the afternoon and was greeted by Governor and Mrs. Pinchot and an official party.

## SUNSHINE CITY SEEKS TO SETTLE ITS BONDED DEBT

### Officials Meet With Bondholders' Group To Discuss New Bill

ST. PETERSBURG, May 31.—(A.P.)—Co-operation of the bondholders' committee with the city administration in allowing St. Petersburg to take advantage of the Municipal Bankruptcy Act so that all creditors—public improvement certificate holders as well as general bondholders—would be included likely would meet with the unanimous approval of the city council, it was indicated at their caucus yesterday afternoon.

But it was admitted that several obstacles in the form of a few "ifs" and some "and-ors" first will have to be ironed out during the forthcoming conference tomorrow at Jacksonville between the municipal committee and the bondholders' attorneys.

Before any policy finally can be determined, members of the majority group on the council insisted that the bondholders' committee must be made to understand "just what the condition is" in considering the whole situation.

City Attorney W. F. Way, in outlining to council the general provisions of the Wilson Municipal Bankruptcy Act, expressed the view that "a full and frank" (Continued On Page Four)

## Papworth, Foster Thank Father Fox For His Telegram

An expression of appreciation for the goodwill contained in a telegram sent them on last Thursday by Father Michael Fox, former pastor of All Souls Catholic Church here, was mailed to him today by Harry M. Papworth and Frank P. Foster.

In their letter to Father Fox, now chaplain in St. Vincent's Hospital at Jacksonville, the two pioneer citizens stated:

"Please pardon the delay in acknowledging your telegram of congratulation to Frank P. Foster and the writer (H. M. Papworth), a delay caused by the wire having been held in the Value Hotel.

"The fact that the people of Seminole County appreciate an citizen is very pleasing, but that you should remember our old friendship which extends back about 45 years, will always be a loving memory.

"Dear Father, if all men were like you, we would all be Catholics and members of your church. We extend to you our sincere thanks, and hope that at the end of the next 50 years, we will all be together thanking each other."

## Primary Election Ballot To Be Used On Tuesday One Of Shortest Ever Printed

The official primary election ballot of the Democratic party, to be handed to voters in this county next Tuesday, is one of the shortest "off-year" ballots printed in many years.

In 19 of the county's 15 precincts will be about an inch longer for the reason that voters in those districts will be called upon to select a county commissioner for their district.

## DITTMARS 1, LEHMANN 0

Dr. Raymond L. Dittmars, curator of the Bronx Zoo in New York City, scored first blood in the Komodo dragon tilt which was instituted by Karl Lehmann of the Seminole County Chamber of Commerce who challenged the Bronx Zoo's claim that it contained the only genuine Komodo dragon in the United States.

"The trouble with the press agent of the Chamber of Commerce of Sanford," Dr. Dittmars is quoted in a press dispatch this morning, "is that he doesn't know the difference between an 'Australian varanus varius' and a 'varius komodoensis'." The New York press recently contained Associated Press stories emanating from Sanford and telling the world that the Sanford Zoo had had a Komodo dragon in captivity for the past two years, and that the three large dragons recently placed in the Bronx Zoo could not be claimed as the only Komodo dragons in captivity in the U. S.

## FILER APPROVES NRA HEAD TRIES SHOLTZ' PLANS TO HALT STRIKES TO AID SCHOOLS IN 2 INDUSTRIES

### Year-Old Rift Between Governor, Head Of League Seen Ended

MIAMI, May 31.—(A.P.)—The year-old rift between Governor Sholtz and the school forces led by H. H. Filer, president of the Florida Education Association, was believed closed here yesterday.

Filer, who also heads the League for Better Schools, gave his hearty approval to the Governor's suggestion to divert one cent of the seven-cent gasoline tax from operating expenses to the schools.

The Miami school board would endeavor to secure state-wide legislation to divert one cent of the seven-cent gasoline tax from operating expenses to the schools.

"The Miami school board would endeavor to secure state-wide legislation to divert one cent of the seven-cent gasoline tax from operating expenses to the schools."

## ATTEMPTS TO COLLECT DEBT HELD FUTILE

### Of 13 Debtors Who Were Asked To Pay None Has Answered; Others To Default

WASHINGTON, May 31.—(A.P.)—The United States was faced yesterday with a slender chance of collecting millions of dollars owed by government of American citizens in various parts of the world.

When President Roosevelt put the finishing touches to his war debt message to Congress, diplomatic efforts to collect approximately a half billion dollars were apparently fruitless.

Summarized the American debt situation:

1. None of the 13 debtor nations with war debt installments falling due June 15 has made any reply to "please remit" notes dispatched to them through their envoys here.

Only Great Britain aside from prompt Poland held out any promise of partial payment. Other debtor nations, however, financial miracles were expected to default.

2. Negotiations with Soviet Russia for a debt funding agreement, covering loans made to the provisional Kerensky government, imperial Russian bonds floated here before the World War, and private claims, were momentarily stalemated.

3. Germany, despite vigorous protests by the United States, announced a further reduction in its interest payments to approximately \$250,000 holders of \$100,000,000 in German bonds.

4. Official information concerning action by the United States or any of the European creditor nations in the debt question was lacking.

The President told newspapermen he expected to send the war debt message to Congress on Friday. He gave no hint of its nature, except that it contained nothing which would require legislative action by Congress.

From one well-informed source it was learned, Great Britain had made cautious overtures for a partial payment of its installment due June 15 on the understanding or in the hope that the United States would agree to enter into discussions for a readjustment of the entire debt question.

President Roosevelt has made it clear, repeatedly the United States would not participate in any general debt conference. He has offered several times, however, to discuss possible readjustments with any one creditor nation.

Despite press reports from Moscow, state department officials insisted yesterday Soviet American negotiations for a debt funding agreement had not broken down. It was learned, however, the United States has submitted terms for a settlement which have not yet been accepted by the Soviets.

EDITOR'S WIFE DIES  
BRADENTON, May 31.—(A.P.)—Mrs. Geraldine Outlaw Cates, 40, wife of I. F. Cates, editor of the Bradenton Herald, died here last night in a hospital from acute pneumonia. She had been ill only four days.

## Gill Announces Cut In Light Rates In 149 Florida Cities

### Power Company Refuses To Name Places Benefitted By New Reductions

MIAMI, May 31.—(A.P.)—Electric rate reductions in 149 Florida cities effective next Monday are announced today by the Florida Power and Light Company.

In refusing to make public the list of cities benefitted President Joe Gill said that details of the rate reduction in all cases would be announced by local managers.

He said new schedules would be issued by local managers in various cities tomorrow or Saturday.

At least a day must pass before it will be possible to determine the seriousness of burns which cover the body of Margaret Stenstrom, seven-year-old daughter of Mr. and Mrs. N. J. Stenstrom, whose clothing caught fire while, it is believed, she was playing with matches shortly before noon today on a back porch of the Stenstrom home at Myrtle Avenue and Fifth Street.

Neighbors, who were startled by the piercing cries of a child in pain, reported that, when they broke through the lattice door of the back porch of the Stenstrom home, they found the child enveloped in flames from head to foot.

"Something like flames with blankets, the neighbors hurried the victim to the Fernald-Laughton Memorial Hospital on the east corner, and emergency treatment was applied before the child was returned to her home where she was sleeping early this afternoon.

She is now swathed in bandages, only her eyes, nose, and mouth uncovered. Physicians state that she suffered terrible burns, principally on the upper part of her body.

Details of the accident could not be secured because the little girl was unable to speak. She had been left to care for one of the newly born Stenstrom twins while Mrs. Stenstrom and the other twin went downtown. There was no fire burning in any part of the house when Mrs. Stenstrom left, it was stated, and the supposition is that the child was burned while playing with matches.

## More Than \$1 Bushel Paid For Wheat For 1st Time Since July

CHICAGO, May 31.—(A.P.)—More than a dollar a bushel was paid for wheat today, the first time this commodity has topped the century mark since late last summer.

July deliveries were quoted up to \$1.01 and September deliveries at \$1.02.

A wave of buying orders on the strength of continued drought and high temperatures in the wheat states flooded the pits.

PARALYSIS BREAKS OUT  
LOS ANGELES, May 31.—City and county health authorities united yesterday to check an outbreak of infantile paralysis in which 215 cases already have been reported. No deaths have been reported.

EDITOR'S WIFE DIES  
BRADENTON, May 31.—(A.P.)—Mrs. Geraldine Outlaw Cates, 40, wife of I. F. Cates, editor of the Bradenton Herald, died here last night in a hospital from acute pneumonia. She had been ill only four days.

## U. S. Deficit Loans Less Than Expected

WASHINGTON, May 31.—(A.P.)—A month from today the Treasury will announce a year of peace-time deficit, however, when the deficit of probably \$1,000,000,000 President Roosevelt estimated. The rate of June currency production, probably to be announced, will fall the final year of the fiscal full 12 month period of the Roosevelt Administration. From the previous production amounting last fiscal year to \$1,000,000,000, the year 1934-35 will show a deficit around the \$1,000,000,000 mark. The estimation of a deficit during the year 1934-35, however, being the President's estimate.

## Primary Election Ballot To Be Used On Tuesday One Of Shortest Ever Printed

The official primary election ballot of the Democratic party, to be handed to voters in this county next Tuesday, is one of the shortest "off-year" ballots printed in many years.

## Scout Honor Courts Postponed To Aug. 20

Because Central Florida Boy Scouts will be spending most of their time at Camp Wewa in Volusia county during the next few months, and because it is necessary, during the course of the Camp, announcement was made today that there will be no proceedings of the Court of Honor in Sanford until Monday, Aug. 20.

## Cotton Restriction Idea Found New

ATLANTA, May 31.—Despite the controversy aroused by the Sheppard bill to restrict cotton production the proposal is not new to Georgia Attorney General Yeoman has discovered a statute enacted in 1862 which is headed, "An act to prevent and punish the planting and cultivating in the State of Georgia over a certain quantity of land in cotton, during the war with the abolitionists."

## Local Candidates For State, County Jobs Will Appear At City Hall Friday Night

Having toured the county and stopped at all of its precincts in their effort to "sell" themselves to the voters outside Sanford, the small crop of local candidates for state and county political offices will make a final appearance under the auspices of the Seminole County Democratic Executive Committee when they appear in the City Hall tomorrow night, starting at 8:00 o'clock.

### Financial Nudism Faces U.S., Says Philadelphia Banker In Criticising 'New Deal'

ATLANTIC CITY, May 31.—(AP)—Joseph F. Hill, president of the Pennsylvania Bankers Association, recently declared the national budget should follow the axiom, "cut your coat according to the cloth."

"The budget coat appears to be entirely demolished," he said, "and they are now removing the pants. We soon may become a nation of financial nudists."

Describing himself as "an old-fashioned country banker," the speaker told the opening session of the association's fortieth annual convention that he has "deeply deplored and never been convinced of the necessity for the ruthless destruction of live stock, and the restriction of farm products when millions are unemployed and in dire need of food."

Mr. Hill continued his criticism of "New Deal" banking developments with an attack on the postal savings system, saying he could see "neither justice nor equity" in its continuance under current conditions.

"The banks of the larger cities, because of small returns on first class investments and little demands for funds from business generally," he declared, "are cutting their interest, many of them to 2 percent and even less on time deposits."

"Now that the government, in its opinion, has established the confidence of the public by the insurance of deposits, it is certainly not fair not just that it should enter into competition by offering a higher rate than most banks can afford to pay."

The speaker declared, however, that banking conditions have improved.

"The banking situation of today is in better condition than for a long period," he said. "Never in my opinion have the banks shown such a liquid condition as today. They have stood rigidly against the efforts of some government departments and public criticism to stampede them into an unwise extension of loans where such loans were not warranted."

"The banks of today have complied in detail to all requirements of laws and regulations, no matter what their opin-

ions of such measures.

"The result has been that of late months there has been a far better feeling between the supervisory departments and the public press on one hand and the poor, despised banker on the other."

Saying that "courage is the greatest need of the United States today," Mr. Hill praised President Roosevelt.

"Whether we believe him right or wrong, no other executive has had the courage to put into effect such ideals of government," he said.

### Louisiana Woman Says Long Has People Cowed

WASHINGTON, May 31.—(AP)—Mrs. Ruffin G. Pleasant, wife of a former Louisiana governor, told the Senate elections committee yesterday that people in Louisiana "are not cowards but they have been cowed by the dictatorship" of Senator Huey P. Long.

One of several petitioners seeking ouster from the Senate of Long and Senator Overton of Louisiana, Mrs. Pleasant told the committee she did not fear Long and described how she once had poked her finger "under his big red nose six times."

Long was unruffled by the testimony, smiling most of the time and placing his hand in front of his face when Mrs. Pleasant referred to the occasion when she said he had dared her to point her finger in his face.

She became furious when Long asked her whether she had ever been treated for a "mental disease."

"You know that is not true and you will have another suit on your hands for that," she cried.

"There is nothing wrong with me but we know that you are a money-and-power-mad paranoiac and may go out any minute," she concluded.

Although Florida sold 76,498 more auto license plates up to Mar. 1 this year than were sold to the same time last year, the collections were \$300,000 less, because of a reduction in price of tags.

### 'PUT' THIS ONE DOWN FOR JUNE 20-23

For these are the dates of the National Junior Chamber of Commerce convention at the Miami Biltmore at Coral Gables, Florida. In the background is the Miami Biltmore hotel convention headquarters. The artistic gulf is Miss Margie Carrell, of Miami, one of the Jaycees convention hostesses.

### 4th Division Men Eligible For Award Of Foreign Medals

Men who served in the Fourth Division in France during the World War are entitled to receive the Verdun Medal, awarded by the Municipality of Verdun, and to have their names inscribed in the Book of Gold in the City of Verdun, France, it was learned here today.

Units of the Fourth Division participating in the fighting in the vicinity of Verdun were the 39th, 47th, 58th, and 59th Infantry, 11th and 12th Machine Gun Battalions, 13th, 16th and 77th Field Artillery, 1st Trench Mortar Battery, 8th Field Signal Battalion, 4th Train Headquarters, 4th Military Police, 4th Sanitary Train, 4th Ammunition Train, 4th Supply Train, 4th Engineer Train, and the various organization Headquarters of the

Fourth Division.

Another matter of interest to Fourth Division men in Florida is the national reunion of the men of the Fourth Division in Miami, Florida, on the 22nd and 23rd of October, 1934, at the time of the American Legion Convention.

Fourth Division men in Florida are invited to write to William C. Brooker, P. O. Box 2506, Tampa, Florida, President of the Florida Chapter of the Fourth Division Association, advising the organization of the Fourth Division which they served, giving full name and address, enclosing a stamped, self-addressed envelope for reply, from whom they will receive information concerning the Fourth Division reunion and an application blank for the Verdun Medal.

Sunflowers were cultivated by the Indians long before white men came to America.

### Parnassus Club To Have Exhibit At Chicago World Fair

NEW YORK, May 31.—Parnassus Club, large residence club for young women, located at 612 West 115th Street in New York City, was one of the new exhibitors in the Hall of Social Science at the opening of A Century of Progress in Chicago on May 28th. This celebrated the Fifteenth Anniversary of the Club by affording a meeting place for any and all of its members who may visit Chicago this summer.

Parnassus was founded in 1919 by Florence L. McMillan, for many years companion to Mme. Louise Homer and other famous artists. The Club provides inexpensive living quarters for students of the arts and for young business women starting their careers in New York City, and since its opening fifteen years ago, approximately 5,000 members have lived within

its walls, coming from every state in the Union and from 14 foreign countries.

A typical Parnassian will be chosen to act as hostess at the booth and furnish information concerning the Club to any prospective members or to anyone interested in its activities.

The booth, which is attractively fitted with hand-made, wrought iron furniture, will be used by members during their visit to A Century of Progress, as headquarters for meeting other Parnassians and renewing old friendships formed during their student days in New York.

A 30-passenger bus that runs on either its own or trolley-wire power has been placed in service in Weehawken, N. J. The bus takes its power from overhead wires when going up the long grades encountered over a large part of its route.

Man averages 2 3/4 inches shorter at 80 than at 20.

# CHOOSE THE TIRE CHAMPIONS BUY

## Firestone Tires have been on the winning cars in the gruelling Indianapolis 500-Mile Race FOR 15 CONSECUTIVE YEARS

EVERY winner in the 500-Mile Indianapolis Race—the most gruelling tire test in the world—drove to victory on Firestone High Speed Tires. What a tribute to the Extra Strength, Extra Safety, and Blowout Protection of Firestone Tires!

Race drivers know tire construction. They know that heat generated by friction inside the cotton cords that make up the body of the tire, is the greatest enemy of tire life. These men will not risk their lives and chance of victory on any but Firestone Tires, because they know the high stretch cords in every Firestone Tire are protected from friction and heat by the Firestone patented process of Gum-Dipping.

Gum-Dipping is the exclusive Firestone Process which soaks the high stretch cords in liquid rubber and saturates and coats the millions of fibers inside the cords, counteracting destructive friction and heat. Gum-Dipping provides greater adhesion not only between the plies that compose the body of the tire, but between the Gum-Dipped cord body and the tread.

Just as automobile manufacturers have used the Indianapolis Speedway—the greatest testing laboratory in the world—for the development of greater power and speed in automobiles, so have Firestone chemists and engineers kept pace with these improvements by building stronger, safer tires to meet these exacting demands. If your tires are thin and smooth—drive in today and equip your car with new Firestone High Speed Tires for 1934, with deeper, thicker, flatter, and wider non-skid tread, more and tougher rubber, more traction, giving you more than 50% longer non-skid mileage.

Remember, the racing speeds of yesterday are becoming the road speeds of today, and in Firestone High Speed Tires there is Greater Strength—Greater Safety—and Greater Blowout Protection than in any tire made.

THE NEW Firestone HIGH SPEED TIRE FOR 1934

SIZE	PRICE
4.50-20 ...	\$7.85
4.75-19 ...	8.65
5.50-17 ...	11.30
6.00-17 H.D.	15.10
6.00-20 H.D.	16.40
6.50-17 H.D.	17.50

Other Sizes Proportionately Low

### THE ADHESION TEST

Note how the rubber in a Firestone Tire clings to the high stretch Gum-Dipped cords. This greater adhesion and strength is made possible by the Firestone patented process of Gum-Dipping.

Note how the rubber in an ordinary tire pulls away from the cords that have not been soaked and insulated with rubber. This causes friction and heat within the cords, resulting in separation.

### COME IN AND MAKE THIS TEST FOR YOURSELF

THE NEW Firestone AIR BALLOON FOR 1934

The new Firestone Air Balloon for 1934 embodies all the improvements in the new Firestone High Speed Tire. The lower air pressure provides maximum traction and riding comfort. Gum-Dipping safety-locks the cords, providing 30 to 40% greater deflection and blowout protection.

Get 1934 low-riding style by equipping your car today with these new tires and wheels in colors to match your car.

# Florida's HIGHWAYS are Roads to PROSPERITY

FLORIDA's ten thousand miles of highways provide the network of transportation and communication which should enable this State to triple its population before 1950. Just as the railroads helped develop the West, the highways of Florida will feed a stream of population to every one of Florida's 58,666 square miles—if the proper impetus to this movement is given by her own citizens.

Paved highways—6,350 miles of them—connect Florida's 67 county seats and every important city in the state . . . supplemented by secondary roads extending to farming, grove and livestock sections . . . providing market outlets for Florida's 35,000,000 acres of area.

Thirty years ago, a motor tour of this peninsula was almost impossible . . . in 1917 there were about a thousand miles of improved roads . . . ten years ago construction of Florida's splendid state highway system was well under way. Today, nine main highways connect with the interstate network to the North . . . such great projects as the Tamiami Trail, Gandy Bridge, Old Spanish Trail across North Florida, highway along the north shore of Lake Okechobee and various cross-state routes are completed.

Highways will serve such proved industries as the sugar, lumber, tung oil, phosphate, paper, naval stores, furniture and canning industries . . . and the million employes their development will demand. But we must start this development ourselves, bring visitors in increasing numbers . . . expand our markets, increase our population. This can be done with a unified state advertising program . . . telling the world what Florida has to offer . . . presenting the facts . . . publicizing our attractions.

One big, unified effort will do the work of a hundred scattered, ineffective advertising campaigns. Let's do it NOW, for ALL FLORIDA.

The All Florida Committee—whose present membership includes all newspapers, radio stations and outdoor advertising plants in the state—is a non-partisan, non-political, non-profit organization formed to promote the industrial, agricultural and tourist potentialities of the State. During the summer a drive will be made to solicit the support of every citizen, business house and political subdivision. Read the announcements carefully as they appear weekly in this publication.

## DEBT MESSAGE SENT CONGRESS BY ROOSEVELT

### President Holds New Legislation On Old Subject Not Needed; Holds To U. S. Stand

WASHINGTON, June 1.—(A.P.)—President Roosevelt's awaited war debts message sent today to Congress said "No legislation at this session of Congress is either necessary or advisable."

He wrote, "We are using every means to persuade each debtor nation as to the sacredness of the obligation and to assure them of a willingness, if they should so request to discuss frankly and fully any special circumstances relating to the means and method of payment."

The message went to the Capitol in the usual manner despite the President being in Massachusetts at the graduation of his son, John.

The American people, said the message, are not disposed to place an impossible burden upon their debtors but are nevertheless in a just position to ask that substantial sacrifices be made to meet these debts.

Repayment of debts, the President reminded, "has gravely complicated our trade and financial relationships with borrowing nations for many years. We shall continue to expect debtors on their part to show full understanding of the American attitude on this debt question."

## Candidates To Air Views At City Hall In Meeting Tonight

Final public, political meeting of the 1934 first primary campaign is scheduled to be held at the City Hall tonight at 8:00 o'clock.

The speakers will be those candidates for state and county offices who are eligible for election by the voters of this city.

Acting Postmaster R. J. Holly, Sr., is scheduled to preside over the meeting as chairman of the Seminole County Democratic Executive Committee which sponsored the series of meetings that will be concluded tonight.

Speakers will include Gordon Barnett of Fern Park, E. E. Brady, J. E. Jackson, L. P. Hagan, O. P. Herndon, and G. W. Spencer, legislative candidates; County Commissioner Boston Steele and his opponent, Charles Dunn, candidates for the County Commission in District Three, and A. O. Jarrell, W. E. Mallem, J. E. Preston, and S. A. H. Wilkinson, candidates for the State Democratic Committee.

## McLucas Accepts Post As Camp Councilor

Leonard McLucas, athletic director at Seminole High School, has accepted an assignment as "Camp Councilor at Camp Cloudmont near Monticello, Ala., for the summer.

He expects to leave for the camp, which caters to boys between the ages of six and 16, inclusive, about June 8. The camp session continues from June 20 through Sept. 20, and boys may stay for either two or three month terms.

## Mrs. Hart Buried At Geneva This Morning

Funeral services for Mrs. Beulah Hart, 81, resident of Geneva for the past 18 years, were held at the graveside in Geneva cemetery this morning at 10:30 o'clock.

## Madman Gives Up Threat To Blow Himself To Pieces In Auto Filled With Dynamite

ALAMEDA, Calif., June 1.—(A.P.)—After waiting 21 hours for sleep to cease his fingers to slip from a switch and cause an explosion that would blow him to bits, Frank Bennett, unemployed mechanic, suddenly abandoned his suicide scheme yesterday afternoon.

Apparently highly nervous after a day and night in his dynamite-laden automobile, he unexpectedly signaled a helper he was preparing to surrender. Then he laid aside the detonator switch with which he had constantly threatened to set off the blast, and stepped wearily from his car.

Police, approaching cautiously, asked him whether he had abandoned his plot. He nodded. The officers immediately seized him and rushed him to jail.

Other policemen were ordered to prevent a surging mob from approaching Bennett's automobile.

## DRIVE RENEWED EVERY EFFORT FOR PASSAGE OF WAGNER'S BILL

Increasing Menace Of Strike Threats Has Stirred Proponents

WASHINGTON, June 1.—(A.P.)—The increasing seriousness of the labor situation brought renewed pressure yesterday for immediate passage of the Wagner act by the House and Senate.

At the heart of the steel industry's dispute lay this measure, which in labor circles is known as the Wagner bill.

Proponents of the Wagner bill said it would offer strong support for the President in his appeal to employers to accept the Wagner bill in his approval of the steel code.

Some Wagner bill proponents suggested the measure might be the only legal channel to which the President could turn in demanding that the steel industry permit workers to select their own representatives for wage and hour bargaining.

Senator Wagner, Democrat, New York, who offered the measure early in the session, yesterday moved to restore it to the calendar provisions which the Senate committee slipped from the bill.

Wagner said the purpose of his amendments was to make the bill independent of any existing agency. In the first instance, he dealt with the workers' organization.

## Sammy Long Plays Host To Over 2000 Friends At Annual Picnic Near Chuluota

County Commissioner S. F. "Sammy" Long of Chuluota was the genial host to more than 2000 friends and neighbors who gathered at the Jacob Picnic Grounds east of Chuluota all day yesterday to enjoy his hospitality and to hear a series of political talks by local candidates for state and county offices.

So well did Commissioner Long play the host's role that he was deluged on all sides, upon his appearance in Sanford this morning, by friends who offered congratulations upon the success of his party, the 20th he has given since coming into this county to reside.

Commissioner Long had secured several hundred pounds of fish, several bushels of lemons, many barrels of pickles, and a large quantity of coffee, sugar and milk, which he distributed to his friends shortly after noon, and within 90 minutes more than 1500 persons had been served.

Many of the guests had gathered before the noon hour, to visit with one another, and to enjoy a square and round dancing in the pavilion on the picnic grounds. Central also were noted as among the early arrivals.

## JOHNSON AGAIN LASHES OUT AT NRA CRITICS

Ogden Mills Termed Mouthpiece Of Crew Of Nation Wreckers; Assails Politicians

WASHINGTON, June 1.—(A.P.)—Hugh S. Johnson, last night told the country "you couldn't take it out away from one of the coldest industries with a machine gun and a crow-bar."

He accompanied the assertion with a new attack on NRA's critics, notably Ogden Mills, whom he called "the mouthpiece of a crew of nation wreckers" and an up-and-down opposition senator "who really is a national disgrace as a congressman of all things."

The address, which was made at a meeting of the National Catholic Alumni Federation, but Johnson's words were carried all over the country by radio.

Not only would Johnson, said Johnson, but all labor would not support the NRA under the Roosevelt act.

Johnson said he would not support the NRA under the Roosevelt act.

## Disarmament Meet Adjourned 5 Days

GENEVA, June 1.—(A.P.)—A. D. Henderson, president of the Disarmament Conference, announced today that owing to the gravity of the situation, the conference would be adjourned for five days.

Shortly before Henderson's announcement, a British spokesman in private told St. John Simon, British foreign secretary, sees little prospect of achieving anything important at present at Geneva.

Simon said he would adjourn the conference to give delegates time for reflection, and the opportunity to find a road to a practical decision.

## CANDIDATES PAY DEARLY IN CASH FOR CAMPAIGNS

Pepper, Sikes Lead All In Expenditures As Reported To Gray

TALLAHASSEE, June 1.—(A.P.)—Candidates for the Florida State Senate paid \$1,112,000 for their campaigns, according to a report made today by the State Board of Elections.

The report shows that the candidates for the Senate paid \$1,112,000 for their campaigns, according to a report made today by the State Board of Elections.

## CAPITAL DAY ONE OF WIDE CONTRASTS

Senate Accepts Mart Regulation Bill As Approved By House; Silver Bill Okeyed

WASHINGTON, June 1.—(A.P.)—Senate acceptance of a comprehensive stock market regulation bill, President's plan to reduce debt, and a 70-cent gold and silver coinage bill, combined to make this a day of contrasts at the capital.

Only House agreement now is needed to send the exchange control bill with its securities act modifications to the President.

When that will come depends somewhat on what Representative Byrns, Democratic leader, termed Republican tactics designed to delay adjournment past June 15 when debts again fall due.

Attempts for a Senate vote on the gold bill before the week-end faced an uncertain future.

The House meanwhile sought to do one of legislation dealing with prison industries but it ran against more Republican maneuvers of opposition.

The Administration's silver purchase bill, the first such measure since 1893 which had White House approval, was passed yesterday by the House and sent to the Senate by the overwhelmingly favorable vote of 363 to 17.

Senate Democrats leaders plan to take it up immediately after disposal of the pending tariff bill. They anticipate no difficulty in passing the measure to the White House, President Roosevelt's signature.

The principal provision of the silver purchase bill is that the secretary of the treasury to buy the metal until it constitutes 25 percent of the metallic monetary stock.

Treasury experts have estimated that it will be necessary to buy about 1,000,000,000 ounces to attain the 25 percent ratio. The present silver reserve of 100,000,000 ounces comprises about 12 percent of the monetary stock.

Proponents of the bill believe the purchase will raise the price of silver and expand the currency, although the amount of this expansion would be limited probably to the money spent in acquiring the silver reserve.

Opponents of the bill yesterday was a foregone conclusion. The House not, although an unsuccessful Republican attempt to send the bill back to committee and the final roll call vote consumed about two hours.

The measure is a compromise worked out by President Roosevelt and Senate silverites from conflicting plans that embraced almost every proposal for silver rehabilitation that has been heard since William Jennings Bryan went down to defeat crying "16 to 1."

In his message to Congress announcing the silver bill, President Roosevelt made it plain that he hoped for immediate action.

## FINAL CURTAIN

Law Cady

HOLLYWOOD, Calif., June 1.—(A.P.)—Law Cady, film actor, and husband of the late Mabel Norman, was found dead in his home yesterday. Death was apparently due to a heart attack.

## ANTI-AMERICAN OUTBURSTS IN CUBA CONTINUE

HAVANA, June 1.—(A.P.)—The Cuban government held its army in readiness today to combat further outbreaks as a series of anti-American outbreaks showed no signs of abatement.

Grave concern was felt by authorities as their responsibilities were increased when President Roosevelt signed a treaty dismissing the United States' 33-year-old privilege to intervene.

Col. Eugenio Batista, Commander in Chief of the army, ordered all soldiers at Matanzas, Gerona to be held in their barracks.

Similar instructions were given the Havana police force.

Attached to rocks, notes reading "Down with Jefferson Caffery, United States Ambassador" were thrown through the windows of the North German Lloyd and Hamburg American steamship lines last night. They were signed "Communist Party of Cuba."

## Forrest Lake Returns To Sanford To Remain

Forrest Lake, former Sanford banker, returned to Sanford yesterday morning to spend several weeks with family.

He stated yesterday that he had received a pardon and that he would not have to return to the state prison at Sanford where he was serving an unfinished term for having been found guilty of violating the state banking laws.

## SALES PICK UP

Sales of marriage licenses at the office of County Judge J. C. Shepley during the month of May 1934 to 15 sold in May, 1934, it was announced this morning. Nineteen licenses were purchased by white couples and 14 were purchased by colored couples. It was stated.

## BANK ROBBERY

KINGFISHER, Okla., June 1.—Two men robbed the Peoples National Bank of Kingfisher of \$1,000 yesterday, kidnaped four employees and sped west.

## LIGHT RATE REDUCTIONS ANNOUNCED

Small Customer Will Receive Nearly 10 Percent Cut In His Bill For Service

Mr. Small Customer in Sanford will benefit by an approximate 10 percent cut in his electric light bill, effective next Monday, because of state-wide reductions that were announced yesterday by officials of the Florida Power and Light Co.

It was said today by H. H. Coleman, local manager for the company.

Applied locally, the reductions will affect approximately 1650 consumers who purchase electricity under various general lighting schedules, he said. No change has been made in power rates or contract rates, he added.

Mr. Coleman also stated that the reductions proposed include a new low rate for municipal water pumping, and the right of the city to use 50 percent more street lighting service at no additional cost.

Under this feature of the reductions, Mr. Coleman stated that the City Commission can authorize the turning on of a large number of street lights, and the result will be that the City will appear as well lighted as it was in 1927 and 1928.

Mr. Coleman pointed out as an important feature, the fact that all rate reductions are effective on meter readings made on or after June 4, next Monday.

In other words, many customers will find that their statement for the past month will bear a stamp stating that they are receiving the benefits of the new rates.

"In line with the national trend toward the complete use of electricity in American homes," Mr. Coleman stated, "material reductions are being made in all residential rates, effective June 4. The greatest reduction is in the lighting rate, and it benefits the small customer."

"A new one meter rate to be known as 'Thrifty Junior' is also being made effective," he continued, "a rate that will be a benefit to many customers now using two meters. This rate makes it possible for small homes and apartments to use service for lights, cooking, refrigeration or any other purpose for as low as three cents per kilowatt hour."

"The original 'Thrifty 3' rate of one meter has also been reduced," he said, "and this reduction provides that 30 kilowatt (Continued On Page Six)

## Stenstrom Girl Dies Of Serious Burns

Burns which she received at her home yesterday morning while, it is believed, she was playing with matches, proved fatal for six-year-old Margaret Jane Stenstrom, daughter of Mr. and Mrs. N. J. Stenstrom of 219 W. 5th St. The child died late yesterday afternoon.

Funeral services are to be held from the Erickson Funeral Home at 3:00 o'clock tomorrow afternoon. Burial will be in Evergreen Cemetery, with Rev. Wm. P. Brooks, Jr., pastor of the First Baptist Church officiating.

The girl, who had finished her first year in school, was born in Sanford on June 28, 1927. She was left at home yesterday morning with one of the Stenstrom twins while Mrs. Stenstrom and another twin were away shopping. Neighbors attracted by screams broke into the home to find the girl enveloped in flames. Emergency treatment was administered at the Fernald-Laghton Memorial Hospital on the next corner, and the child was returned to her home.

Surviving her are her parents, and the twins, Ruby Pauline Stenstrom and Robert J. Stenstrom. Mr. Stenstrom is an employee of the Rocky Tire Shop.

## FORD CLAIMS LOSS

BOSTON, June 1.—The Ford Motor Co., lost \$1,921,554 during 1933, according to its annual report, filed with Henry F. Long, state commissioner of corporations and taxation.
