### MASTS LEADING IN A BAD WAY! EVEN FACING STIFF OPPOSITION

#### Unbeaten And Untied Teams Will Tackle Their Keen Rivals

NEW YORK, Nov. 8.—(INS)—Army, Carnegie Tech., Georgetown and Boston College the four leading unbeaten and untied teams face opposition of the highest sort next Saturday.

Army tackles its old rival, Penn State, in a game at Yankee Stadium here which is expected to be witnessed by 80,000 persons. Georgetown, which last Saturday defeated the previously undefeated New York University outfit, clashes with the Carnegie school and Boston College opposes the strong Fordham team.

Interest in the Navy-Michigan game at Baltimore is quickening because of its inter-sectional character and the improvement shown by both teams after a poor start.

The Penn-Harvard contest at Cambridge also is sure to be a thriller despite the fact that the outcome of each team has been marked by defeat. Penn pulled a last victory out of the fire against Chicago and Harvard has been going like a house afire since its defeat by Army.

Dermouth will endeavor to start a comeback at the expense of Princeton, an ancient rival.

The Pittsburgh-Washington and Clemson game at Pittsburgh rounds out the list of feature games. Both have been defeated, as have Kansas State rivals already, but in a spirited battle in the annual clash.

Other leading Eastern teams should have an easy time of it next Saturday, with minor opposition scheduled. Yale entertains Harvard, Princeton, is host to Washington and Lehigh, New York University plays Alfred, Columbia plays Johns Hopkins, Syracuse meets Ohio Wesleyan, Colgate opposes Hobart, Penn State clashes with George Washington, Holy Cross plays Boston University, Lehigh takes on Bucknell and Lafayette opposes Rutgers.

### HORNBY TRADED TO CHICAGO CUBS FOR FIVE OTHERS

#### Price Is Said To Surpass All-Time Mark Given For Babe Ruth

CHICAGO, Nov. 8.—(INS)—The dream of half a million Chicago baseball fans—Hogers Hornby as a "one-club man" today was an attainable reality. This news, which is more important to hundreds of the city's sports fans, was confirmed by William W. Wacker, president of the local National Baseball club.

Hornby, the greatest right hand pitcher in the game and last season's MVP, is to be traded to the Cubs, according to reports, in exchange for five other players and enough cash to "cover your head swim." The exact price is said to set an all-time record for a single player.

### Seminole High Prepares For Toughest Game Upon Schedule With Orlando

#### Local Boys Are Pointing For Contest With View Of Avenging Long String Of Defeats At Hands Of Tigers

By Peter Scheel  
Two short days away will find Coach Hugh Whitehall's Seminole High combats in the hardest of all the games of this season as they tackle their ancient enemy, the Orlando Tigers, who come to Sanford, boasting a record of five straight wins over the local leaders.

With the possibility that the local squad this year has on its men who are well qualified for one of the All State team arrangements are being made to have some of the members of the selecting committee on hand for the coming game, with the possibility that John J. Davis, chairman of the All State as well as All Southern selection committee will be on hand. Sanford has never been represented in any manner, though the past years have given men who should have at least received honorable mention.

This year with a line averaging 180 pounds that is really working, one or two of the men on that line are likely candidates. The loss of Sykes, the finest line back ever to represent Sanford High, saw Sanford High lose one good sure All State man, for his work stood out far and above any other man on the squad, and there is no doubt but that his work in the Orlando, Palatka and Leesburg games would have been noticed by several of the men who are responsible for the selections.

However, ever with Sykes gone, there is still hope that we can catch at least one man on the cut and some very early in the season and since every game from now on will be watched by scouts representing the selections committee, the squad should show some real action.

A correction has been made in the starting time of the game Saturday, the contest will begin at 3 o'clock instead of 2:30 as advertised. It is necessary to begin at the earlier hour in order that the game be finished in day light.

Tickets are reported as being very good with every pupil expected to sell ten tickets, particularly to their parents. This is Father's Day and a great number of the Dad's are expected to come out and lend their support. Tickets are on sale at the school here, taken a firm grip of a ball player of the local business men, and every game has been a success since the start of the season.

With a record crowd in sight, accumulations to handle everyone are being made with the City Father's furnishing a large number of the park benches, thus insuring everyone comfortable seats. Remember the date Saturday, Nov. 10, Municipal Field. Be there at 1 P. M.

### LOCUSTS WERE BEANS

That the locusts eaten by John the Baptist were probably not insects, but the fruit of the cashew tree, the dried fruit of which are the locust beans now sold as food for cattle, is the declaration of a European scientist. The locust tree is sometimes called the honey tree because of the sweet pulp in its fresh pods.

### Ceremony Scenes In 'Wedding March' Are Seen in Colors

What is believed by Paramount studio executives and hundreds of reviewers to be one of the most pretentious screen productions of the season offered to Miami theater patrons in Erich von Stroheim's production "The Wedding March," which will show again today.

The filming of the picture consumed more than six months of concentrated effort and the result has been a picture of Vienna life in story, color and sound.

The sequences laid in and before the Great St. Stephen's cathedral in Vienna, during the celebration of Corpus Christi required the assistance of more than 2,100 persons and resulted in scenes of the utmost magnificence. These sequences are reproduced on the screen in colors of rare beauty and with the new Paramount sound effects, the whole combines to produce an unusually interesting and inspiring picture.

The hundreds of uniforms worn by the mounted soldiers were actually secured in Vienna and are the original costumes worn by members of the Austro-Hungarian Guards regiment.

### FLORIDA-GEORGIA GAME TO BE SEEN BY LARGE THROG

Many Special Trains Chartered To Carry Fans To Georgia City

UNIVERSITY OF FLORIDA, GAINESVILLE, Nov. 9.—(Athletic News Bureau)—The greatest crowd of football fans from the state of Florida since the days of the Florida-Georgia Tech games in Atlanta, is scheduled for this week-end when the "Fighting Gators" tangle with the Georgia Bulldogs in one of the outstanding football battles of the South this year.

The Seaboard and A. C. L. Railways are operating special trains from Jacksonville, while special cars are being arranged in a number of other cities. Throughout the state automobile parties are being assembled ready to take advantage of the excellent hard surfaced highway from Jacksonville north. An exceptionally low rate for the round trip is being offered by both railways.

Florida's 75-piece Gator band, one of the snazziest college organizations in the country, will be accompanied by approximately 500 students. The campus here has been placarded with pep signs, and an enthusiasm and spirit in the student body is prevalent second to none ever seen here before.

Ticket sales have been heavy, and only a few pasteboards remain on sale at Nunnally's, 32 West Forsyth street, in Jacksonville. A complete sell-out for the game is predicted.

Florida, anxious to achieve its first victory over a Georgia football team, has prepped extensively this week for the all-important conflict. Joe Bryan, veteran tackle, and Ben Clemons, star sophomore center, spent the early part of the week in the hospital classified as "influenza patients". The remainder of the Gator party however is in fine trim for the fling with the Bulldogs.

A baby girl was born to the union, and the infant kept the two together for a year and a half, but now they have declared their venture into matrimony a failure.

"I'll never repeat the terrible mistake I've made," Mrs. King told her father, "East is East and West is West. I've learned to my sorrow. I'm going to leave the baby with her father because if I brought her up as a white girl she could never have any social standing. As a Chinese girl with white blood she will be considered a very desirable person by her Chinese companions. It will be better for the child if I never see her again."

### Wisconsin Has 750 On Teacher's Pensions

MADISON, Wis., Nov. 8 (INS)—Wisconsin has 750 teachers retired on pensions under the state teachers retirement system with 550 of those receiving benefits under the old law enacted in 1911 and 200 under the law of 1921. At present there are 10,000 teachers contributing to the retirement system.

The teachers who retired under the old law have their choice of taking their payment under the provisions of either fund.

Under the present retirement system every teacher 20 years old or over, must submit to a five per cent deduction from the salary on every pay day. The money collected is placed in the state treasury in a special fund to the credit of the individual teacher and begins at once to earn interest, for the teacher at the rate that is being earned by the fund as a whole. Besides this the state makes a deposit on June 30 of each year to the credit of every retiring teacher. This deposit is based on the salary a teacher receives and also on the number of years he has been teaching.

### Re-Forestation

Frequently we have written in these columns of the tremendous annual losses due to forest fires...

During recent years, however, the work done by the Forestry schools in some of our universities...

The removal of forest growth, the Cincinnati Enquirer recently declared, has a far-reaching effect...

In addition to recommending the purchase of several million acres of protective forest lands...

What is true of the Mississippi River basin is equally true of other parts of the country...

Particularly in Florida, says the Times-Union, attention is needed to the necessity for forest conservation...

Time was when only big men with plenty of brawn and bulging biceps had any place in the field of athletics...

The same system is being carried out in the other sports: Where one crew of nine men formerly took to the water early in March...

Brief days ago we lived, for dawn and sunset glow, Loved and we loved.

All his life long that knightly touch attended him—a glow from his page, a flame in his oration, his inner and lovable light...

He saw life in terms of chivalry and he so reflected it, kindling the imagination of his readers...

Especially will he be remembered in this state, to whose building was given his heroic golden pine and in whose hall will rest the dust that bore his gallant spirit's image...

The annual week of prayer services of the Women's Missionary Society of the Methodist Church, under the leadership of Mrs. Kyle Shoemaker, superintendent, of young people and her assistant, Miss Mattie Chapman, closed Wednesday evening in what is said to have been one of the most beautiful and impressive services of the jubilee year.

The church was decorated in the jubilee colors, white, gold and green. White star banners and golden candles were used as a background for the seven members of the department who were dressed in Grecian robes with white bands placed diagonally from their shoulders, which golden figures, used to represent dates, were worn on their gowns.

At the conclusion of the services, the members were entertained with a social hour.

**SUCH MUFFINS ARE TOO GOOD TO LAST**

So rich and good and yet so light—they almost seem to flutter to the plate. And next time you glance that way there isn't even one left for politeness' sake.

They're delicious—and just as easy to make as to eat!

For Snowdrift is so creamy it takes almost no time at all to spoon out of the can and measure. It saves your time when you're making cake or pie or biscuit too. Snowdrift is so fluffy you can almost fold it into the other ingredients just like beaten whites of eggs.

Try it in all the things you bake. Just see how snow-white and beautifully fresh it is in the air-tight can. You know to look at it that it must make food taste good.

**PLAIN MUFFINS**

1/2 Cupful Snowdrift 1/2 Teaspoonful Salt  
3 Teaspoonful Baking Powder 1/2 Cupful Sugar  
2 Cupful Flour 1/2 Cupful Milk 1 Egg

Put the Snowdrift gradually adding the sugar and the egg, well beaten, mix together the dry ingredients and add them alternately with the milk to the flour mixture. Drop into muffin pans well oiled with Snowdrift and bake from 15 to 20 minutes in a hot oven (375 degrees F.).
