GERMANY ADMITS FIGHT LOST IN RUHR

RED CROSS RUSHING AID TO QUAKE VICTIMS

THE U. S. FUND FOR STRICKEN JAPAN HAS ALREADY REACHED \$5,663,100 — MORE IS COMING

ALL AMERICANS FROM YOKOHAMA NOW REPORTED TO BE SAFE

JAPAN THANKFUL

For the Instant and Generous Response of America

WASHINGTON, Sept. 13.—Japan's dire need of clothing and building material to protect the multitude of earthquake sufferers was recognized today by the American Red Cross which authorized the quick shipment of hundreds of thousands of pieces of underwear and outer clothing, as well as large quantities of corrugated iron sheltering. Urgent request came from the stricken area that the advent of cold weather made immediate action imperative.

An indication that the Japanese government is fearful that freezing weather will take a heavy toll from the half nourished population was found in a message received at the Japanese embassy here. It said that in addition to shelter and clothing, heating apparatus of all types was needed and gasoline was asked for. The relief fund being collected in the United States for the sufferers grew steadily yesterday with \$5,663,100 entered on the books at midnight. This sum is exclusive of the \$132,500 cash gift made early last week by the American Red Cross.

Ambassador Hamihara advised the state department today in delivering a message from the Tokio foreign office that while Japan was deeply grateful for foreign aid, the government preferred that the contributions be confined to money and supplies rather than relief personnel, who, unfamiliar with language and customs, in coming to Japan at this time might add to the existing confusion.

In addition to generous gift of money and various supplies that are coming from America for the relief, the message said, "Japan is receiving many kind offers of sending men and women to assist in the relief work. While these kind offers of helping hands are most deeply appreciated, the Japanese government desires to make it known that so far as the manpower is concerned, Japan finds little difficulty in getting sufficient force to meet the present exigencies in taking care of both the native and foreign sufferers.

The first refugees from Japan are due to arrive at Victoria Saturday, the Red Cross was advised. There are 160 in the party, some of them injured, while others are suffering from shock. They will be met by Red Cross nurses who will accompany them to Seattle. All of the Japanese steamship lines plying from Pacific coast ports are co-operating with the relief agencies in the expenditure of relief materials, each having notified the Red Cross officials that they had placed cargo space at their disposal. A message to the Japanese embassy advising that all relief supplies be forwarded via Yokohama was taken by the Red Cross officials as indicating that the Yokohama harbor was not so badly disturbed as at first believed.

MUSTER SHOWS 23 MEN DEAD

In Wreck of Seven Destroyers at Point Honda Last Saturday

SAN DIEGO, Cal., Sept. 13.—Muster of the survivors of the destroyers involved in the wreck at Point Honda last Saturday night in which seven United States destroyers crashed on the rocks was completed at the destroyer repair base here yesterday, after which the official list of dead and missing was placed at 23 sailors. Although all officers are believed to have been saved, it was stated this fact would not be definitely known until a muster of the officers is held.

Muster of the enlisted men showed 547 men of the wrecked destroyers accounted for. The official list gives 19 men dead or missing from the Young and four from the Delphy, which led the vessels to destruction. No change from the list already printed was made at the destroyer base.

Sessions of the official board of inquiry are scheduled to open at the North Island navy air station today. Officers of the Delphy are expected to be the principal witnesses although officers and listed men from the other wrecked ships also are to be called.

SECURING JURY IN THE WARD TRIAL

Jury Box Half Filled on the First Day

WHITE PLAINS, N. Y., Sept. 13.—The jury box was half filled on the first day of the trial of Walter S. Ward, wealthy baker's son, charged with having murdered Clarence E. Peters, of Haverhill, Mass., a former marine, who was found shot to death near the Kensico reservoir, sixteen months ago.

Several talesmen were challenged. Others were excused because they already had formed opinions concerning the case and were prejudiced against capital punishment, were ill, or had other satisfactory excuses. Ward, with his brother Ralph, was in court. At first the defendant gazed steadily at the floor, but later he looked up and smiled. Sitting at the table with his counsel he whispered to the lawyers frequently as jurors were being picked.

A stir was caused when Allan R. Campbell, of defense counsel, attempted to introduce a copy of a New York newspaper showing a picture of the electric chair in connection with the Ward case. The state objected and Supreme Court Justice Wagner sustained the objection.

REBELLION RAMPANT IN SPAIN AND MARTIAL LAW HAS BEEN DECLARED THROUGHOUT LAND

Rank and File of Army Has Joined in the Revolution, Navy Remains Faithful

MADRID, Sept. 13.—(By The Associated Press) All army officers at Barcelona have revolted and martial law has been declared. The rank and file of the army has joined the revolt but the navy personnel remained quiet. The council of ministers held a special meeting this morning to consider the situation. King Alfonso will return to Madrid today. The official statement said that the captain general of Barcelona had proclaimed on his own responsibility a state of siege and had invited other districts to support his action. In certain districts, the statement said, it appears the military forces are disposed to concur in this attitude of rebellion.

BARCELONIA, Sept. 13.—A manifesto issued by Captain General Riveria, who led the revolt, criticized the present government and stigmatized professional politicians for seizing and annihilating the power of the king. He said the military would therefore take charge. Leaders of the movement will seek to maintain the normal life of the country but will take charge of all utilities and occupy headquarters of the communist revolutionary associations and prisons. It is stated here that several garrisons, notably those of Madrid, Saragosa and Seville, have adhered to the military movement which now must be recognized as a regular coup d'etat.

MADRID, Sept. 13.—It is declared the movement is not aimed against the king but against the present government. King Alfonso returned to Madrid this morning. Conditions here present a normal aspect, no special agitation on the part of the people being noticeable. The army, as a whole, remains loyal to the government it is declared and the cabinet hopes to stamp out the revolt.

RESIGNATION TULSA COUNTY OFFICIALS IS DEMANDED BY GOV. WALTON OF OKLAHOMA

Also Threatens to Invoke Martial Law in Muskogee

TULSA, Okla., Sept. 13.—Charging that Tulsa county's three jury commissioners, sheriff and the police commissioner of Tulsa are dominated by the Ku-Klux Klan, Governor J. C. Walton yesterday demanded the resignation of the jury commissioners and asked a committee of citizens to call upon the sheriff and police commissioner to retire in presenting the terms upon which he will revoke his declaration of martial law here.

The governor came here yesterday to make a personal survey of military rule and presented his terms at a conference with a delegation of representative business men. After the meeting, a committee was formed to negotiate further with the governor. Declaring that Tulsa's courts, jury commission and other officials are "in the hands of a secret organization," Governor Walton stated at the conference:

"We have reached a point where the issue is the survival of invisible government or the permanency of our own visible government. I am going to clean the situation up if I have to stand out alone and let them shoot at me."

Proof of the governor's charges was asked by Judge L. M. Poe in behalf of the courts, who declared he was reluctant to believe they were true, with his knowledge of the integrity of the bench. When conclusive evidence is presented, he said, he felt the people would agree to the changes asked by the governor.

SANFORD AND ORLANDO GOOD ROADS BOOSTERS LEFT LAST NIGHT FOR GREEN COVE MEET

And They Expect to Bring Home the Bacon Tomorrow Morning

Forty Sanfordites and eighteen Orlandos left Sanford yesterday at 5 p. m. for the big state road No. 3 rally, to be held at Green Cove Springs today. The accommodations on the boat were taxed to capacity. The party arrived early this morning and will leave this afternoon, returning to Sanford early tomorrow morning.

The delegation comprised the most prominent business men of Sanford and Orlando, who will represent these communities in an effort to secure the (Continued on Page 22)

SHIPPERS GRANTED HEARING

On Proposal of Railroads to Increase Refrigeration Rates

TAMPA, Sept. 13.—Notice that the Interstate Commerce Commission will grant Florida shippers a hearing at Orlando, Oct. 3, on the proposal of the railroads to increase refrigeration rates on perishable commodities to from 10 to 20 per cent, was received here Wednesday by E. D. Dow, traffic manager of the Florida Citrus Exchange.

This case developed several months ago, when Florida fruit and vegetable growers and shippers, after their large convention at Orlando, were instrumental in having the commission suspend the schedule of the carriers to increase refrigeration charges on this state's food products. According to some shippers, the railroads' proposed rate would assess an additional burden of nearly a half million dollars on the agricultural and horticultural industries of Florida.

The first notice of the Interstate Commerce Commission hearing, received by Mr. Dow Monday, called the meeting for Sept. 17, at Washington, D. C. This date and place of meeting was immediately protested by the Florida Citrus Exchange, due to the absence of necessary witnesses and the difficulty in getting a fair representation of shippers to Washington on such short notice. Enlisting the co-operation of R. Hudson Burr, chairman of the Florida Railroad Commission, Senators Park Trammel and Duncan U. Fletcher, and other Florida shippers, the Exchange was finally successful in having the meeting place changed to Orlando and the date postponed until Oct. 3.

Traffic Manager Dow and a number of Exchange officials connected with the Tampa office, together with other parts of the state, will attend the Orlando meeting, it was announced here. The presentation of the shippers' case before the Interstate Commerce Commission will be in charge of Chairman Burr and Attorney Calkins of the Florida Railroad Commission. Mr. Dow is chairman of the committee named at the recent Orlando convention to gather statistics and other evidence to be used in the case for the shippers.

WILL ATTEMPT SHATTER NON-STOP RECORD

HOUSTON, Tex., Sept. 13.—Parker D. Cramer hopped off this morning from Ellington Field in an attempt to shatter the Gulf to Canada non-stop flight made recently by Lieutenant Scotty Croker. His destination is about 1225 miles from Houston on an air line. He planned to fly over trackless swamps, where a stalled engine meant almost certain disaster, and will sail above forests stretching 50 miles in length and brave treacherous air currents which are known to exist part of the route. He will ignore landing fields and trust to luck.

GERMANY NOW READY TO TAKE FIRST STEP TOWARD PEACE WITH FRANCE AND BELGIUM

SQUABBLING OVER FINAL SETTLEMENT

No Agreement Reached in Italo-Greek Scrap

PARIS, Sept. 13.—Arrangement of details for the settlement of the Italo-Greek conflict is proving laborious. The council of ambassadors, with Sheldon Whitehouse, counselor of the American embassy, representing the United States as observed, held two sittings Wednesday, but without arriving at a final agreement.

The instructions of Premier Mussolini received in reply to the report of yesterday's proceedings of the council sent to him by Baron Avezzano, the Italian ambassador apparently were unsatisfactory to all the ambassadors. It is understood, on the best authority, that the British member of council is insisting on the evacuation of Corfu as soon as the mode of settlement of the dispute is agreed upon by the council in all its details and accepted by the directly interested parties, while Signor Mussolini wants to hold the islands until the investigation into the killing of the Italian members of the Greco-Albanian boundary commission is completed and all acts of reparation fully carried out.

CHARACTER OF MILLS IS ATTACKED

Defense Introduces Testimony in Flogging Case at Macon

MACON, Ga., Sept. 13.—The defense introduced several witnesses who attacked the character of Dr. R. F. Mills, for whose alleged flogging Dr. C. A. Yarbrough is on trial in the city court. All said Mills character was bad. Walter Revert, chief of police of Barnesville testified that Mills came to him the day after the whipping and charged two Barnesville men with being the perpetrators. The chief said he investigated and found the two men were in Barnesville at the time of the whipping. When he told Mills this and that only two men had come from Macon to Barnesville the previous night, Mills said "maybe they are responsible." The chief said then he concluded Mills did not know who it was. The witness also testified to the good character of Dr. Yarbrough. One witness admitted he had heard reports that the dentist was the whipping boss of Macon.

CHANCELLOR STRESEMANN TELLS GATHERING OF EDITORS OF SITUATION

FRANCE WAILING

For Germany to Cease Her Obstructionist Tactics

BERLIN, Sept. 13.—Tactically admitting that the Ruhr fight had been lost and there could be no prospect of Germany until the foreign conflict had been adjusted, Chancellor Stresemann last night remarked to a gathering of editors:

"Candor is preferable to illusion, and Germany desires to speak out plainly." Informal contact with the occupying powers had revealed the gravity of the existing differences, which, he said, primarily involved the question of German sovereignty and the restoration to Germany of complete administrative freedom in the Ruhr. The chancellor's speech did not contain a direct reference to readiness on the part of Germany to abandon passive resistance unconditionally, but presented a more precise formulation of the nature of the productive guarantees which Germany was prepared to pledge for the security of the reparation creditors. These would comprise the hypothecation of private holdings in industry, commerce, finance and agriculture in such a manner as to insure their immediate fluidity as active loan collateral.

Such security, said the chancellor, would in every way be superior to the pledges prescribed in the Versailles treaty, which only innumerate governmental properties, none of which possess productiveness equaling that of private holdings which Germany proposes to hypothecate for the benefit of reparation.

Unless France is bent on annexation, Germany's pledges, he contended, were of such a nature as to meet the conditions under which France once prepared to evacuate the disrupted areas. He believed that the positive guarantee offered by Germany would impress Great Britain and Italy with her desire to achieve a solution of the problem and would suggest to Belgium the usability as a means of overcoming the deadlock and opening the way to European reconstruction.

A solution of the Ruhr dispute could not be achieved solely by continuance of passive resistance; nor could the question be settled by a policy of force, the chancellor said.

"Even Chancellor Cuno," stated Herr Stresemann "had never contended that negotiations could only be undertaken after the evacuation of the Ruhr."

The object of passive resistance was only to free the Ruhr territory. "For us," continued the chancellor, "the question of the sovereignty of the Rhineland and regaining the freedom of the Ruhr territory is decisive. For it, we are ready to give real guarantees." The Yowell Company, always advertising reasonable merchandise, calls attention today to the needs of the children who are getting ready for the opening of school. "Jack 'O' Leather" suits for boys are especially recommended, while all kinds of materials for dresses for the girls are featured. There is one thing certain—you can find just what you want at this big store, and a call there will solve your shopping problem.

RIGHTING A WRONG.

There is a cedar cottage next door, quaint and lovely and old, and the logs still carry the bark they were

When they were young and bold, and the children who dwell there know that they

Must never tear bits of that bark away.

Last night the father and mother stood

By the side of the porch and frowned—

One of the logs was bare to the wood,

There were thread-like wisps on the ground,

"We didn't do it!" the children said, and for that "untruth" they were sent to bed.

I can see that porch through my window pane

As I sit at my desk to write, and this morning I saw, and I can explain

Those two little tots were right, "We didn't do it"—I'll pledge those words;

That havoc was wrought by two busy birds.

I watched them carry that bark away,

Strip by strip to their tree, doing their work at the break of day,

Thinking that none would see, and I thought of the children wronged last night,

And that is the reason these lines I write.

I shall show them the nest in the maple tree,

I shall tell them the things I've seen,

I shall set those punished children free

And wash their records clean.

And I'll shy: "It's true as your children said: You should have sent two little birds to bed."

BANK ROBBER KILLS SELF IN TEXAS TOWN

Secured \$5,000 From Mooringsport, La., Bank Yesterday

(By The Associated Press)

MARSHALL, Texas, Sept. 12.—Cornered by Sheriff Sanders in the rear of a lunch room here this morning a young man about 25 years old, believed by local officers to have been the bandit who robbed a bank at Mooringsport, La., yesterday of \$5,000 and killed himself. The young desperado yesterday overpowered a man and took his automobile and drove into Mooringsport and raided the bank. Today a truck driver reported to the sheriff that he had been forced to pick up a man on the highway and bring him to Marshall. The sheriff went into the restaurant and found the youngster eating. Sheriff Sanders searched him but decided to let him conclude his meal. The suspect suddenly jumped up, dashed to the rear of the restaurant, pulled out a pistol and killed himself.

SHREVEPORT, La., Sept. 12.—The Bank of Mooringsport at Mooringsport, La., seventeen miles north of here, was robbed of between \$3,000 and \$4,000 at noon yesterday by a lone white youth, apparently about 20 years of age, who, after locking the cashier, Charles E. Moorfield, and his assistant, Minter Barbus, in the bank vault, escaped in an automobile.

PARTY IN HONOR OF MISS MURIEL.

Miss Eleanor Lytle entertained at a bridge luncheon yesterday at 12:30 p. m., in her home on Gilmore street, Riverdale, honoring Miss Beatrice Muriel, whose marriage to Mr. Edmund Snyder Wood will take place Saturday.

A gold and white color motif was carried out in decorating, quantities of goldenrod and other blossoms being used in decorating. A delicious several course luncheon was served and was followed by auction.

Marking the places were tallies done in bridge design, and at the conclusion of several rubbers of bridge, the players holding top scores were presented with prizes. The honoree won the first prize, a couple of perfume bottles, the second, a novelty pencil, falling to the lot of Miss Geraldine Muriel. The honoree received a hand embroidered towel as a memento of the occasion.

Following the awarding of prizes an ice course, in yellow and white, was served, candies in the same colors being served during the game.

The hostess was assisted in looking after the pleasure of her guests by her mother, Mrs. James Lytle.

Among the guests were Miss Beatrice Muriel, Miss Hildegrade Slaughter, Mrs. A. R. Cogwell, Miss Sadie Pellerin, Miss Louise Capen, Mrs. Barker, Miss Rebecca Somers, Mrs. Dorothy Chamberlain, Mrs. Klingham, Miss Anna Wood, Mrs. F. E. Muriel, Miss Geraldine Muriel and others.—*Jacksonville Times-Union.*

A FAIR-SIZED BROWD GREETS EX-GOV. CATTS

(Continued from page 1) especially with the same old stuff.

His speech was a long winded one and was tiresome—something that was noticed by many of his old time supporters. He lacks the fire of his former campaigns and confines the major part of his speech with references to the Bible and with quotations. He might have made the speech to order for his Sanford audience and he may have another one that he springs on the folks in the "sticks" but his speech here had but little pep and nothing that could especially commend him for governor. In fact his former fame as governor of Florida was about all he had and he made the most of it taking up live topics like the convict lease system and telling the people what he would have done had he been governor at the time of the Tabert case. That he "was governor" when he was the governor as Mayor Lake put it last night when he introduced the speaker is absolutely correct. When he was governor Sidney Catts never hesitated to do things whether they were right or wrong and he did some of both but his present campaign arguments lack the weight and they lack the punch and they lack the force that they had in former years. He was given a most respectful hearing here and he will have a following just as he did in the years gone by. Many people like him for his forceful character but his best friends will have to admit that his present campaign is not lunched under the auspicious circumstances that it was in the past since at least two of the other candidates for governor have his same stuff and will use it when the time comes and his big drawing card will be divided up into three pieces. His platform last night embraced the following items:

Law enforcement for state and county officials and citizens for all state and federal laws.

Economy and efficiency in all departments of state and county government and all federal branches correlated thereto.

The Oregon state school law for the state of Florida, thus forcing all the children of the state to receive a public school training.

Compulsory reading of the Bible in all public schools at any time the teachers or trustees shall state, especially at opening of school each morning.

Fair, just and equitable treatment of capital and labor alike before the law; and blending their interests to work for the good of Florida is possible.

Encouragement of Florida's development and growth in every way possible, especially by inducing capital to come here to invest from all sections of the world.

Tax lowering, reform and regulation.

Restoring the auditor's office to its rightful place in state government so that the governor can check up on shortages and so that some authority can check up on the state comptroller's office and not have this done by the employees of the state comptroller's office.

Further development of the honor system for control of prisoners, and the enactment of further humane and merciful laws for their government.

Further enactment of laws for woman's development as voters and the full attainment of their rights as citizens of the commonwealth and nation.

America for America—and therefore Ku Klux in preference to Knight's of Columbus in civic, religion and office.

Two men, ages 603 and 66, fell out of a Brooklyn tree, so perhaps an old maid was after them.

Louisiana Lady Says She Has "Never Found Anything Better Than Cardui for a Run-Down Condition."

Morgan City, La.—"It would be hard for me to tell how much benefit I have derived from the use of Cardui," said Mrs. I. C. Bowman, of 1319 Front Street, this city.

"I was so run-down in health I could hardly go. I was thin. I had no appetite. Could not rest or sleep well. I was so weak, and so very nervous, I was no pleasure to myself."

"I suffered some pain, but the worst of my trouble was from being so weak and easy to get tired and out of heart."

"This nervous condition was worse than pain."

"Some one told me of Cardui, and I decided to use it."

"After using a few bottles, I regained my strength. I wasn't so nervous, and began to eat and sleep, and grew stronger and was soon well."

"I have never found anything better for a run-down condition."

If you suffer on this Louisiana lady did, you too should find Cardui helpful for your troubles.

DESTROYERS ARE PILING UP OF DANGER

(Continued from page 2)

C. Van Shank, of White River, South Dakota a fireman on the Young. The other body recovered had not been identified. Both of these men apparently were drowned in their bunks and later washed into the sea. Another body recovered shortly after the wreck was that of J. W. Conway, of Omaha, Nebraska, a seaman on the Delphy.

The plan to cut through the hull of the Young which overturned to find the bodies of missing members of her crew, has been postponed and possibly will be abandoned. It now is believed that few if any bodies are in the vessel. Survivors from the Young declare that they believe all of the crew reached deck in time to jump overboard before she turned over.

The surf has been so heavy that it has been impossible to land equipment to cut through the hull. Further orders from Washington are being awaited in this connection.

If the bolshevik were behind the Herrin murders, as a writer for the United Mine Workers is saying, why in common sense did the mine workers endorse that horrible blot on our history?

Every indication points to an unusually large "crop" of tourists this winter. It is cheaper to come to Florida than any other place for a vacation.

The St. Petersburg Times covered itself with glory in its last Sunday's edition, embracing 70 pages. The interesting thing about it was the patronage of the business men.

Should Italy "cut to too many capers" she will find herself in serious trouble. Should she lose the sympathy of the leading powers of the world and then be attacked by some of her enemies, Mussolini would find it difficult to hold his grip.

It is true that hundreds and thousands of our best citizens have been born of foreign parentage or came to our country from foreign countries. But the foreigner in this case died, and an American was born.

MEN IN THE ROUGH

"Men in the rough—on the trails all new—broken— Those are the friends we remember with tears; Few are the words that such comrades have spoken— Deeds are their tributes that last through the years."

Louis, Baltimore, and many others are burdened by a foreign element which, politically, holds the balance of power. A large number of foreign born men are members of congress already and they, too, frequently advocate the ideas and notions under which they were born and reared.

Kane county, Illinois, has concluded to adopt the plan of the Golden Rule in enforcing the traffic laws in the county. The plan was initiated among the motorists themselves, and the official authorities fell in with it and evidenced its approval by appointing 500 automobile owners of the county on the traffic police department.

WILL HE COME BACK?

The news dispatches announced recently that Henry Ford was again negotiating with the government for Muscle Shoals. For some months the great manufacturer has been disposed to stray, according to the best judges of human nature, far from the field that has brought him great renown and a reasonable supply of this world's goods, and undoubtedly some happiness.

THE KIND OF MAN HE IS.

Coming suddenly into the exalted position he occupies, and without having figured extensively in the affairs of the country every reliable bit of information about the new President is interesting. Presidents, while serving in that capacity belong, according to the atmosphere in which we live, to one political party, but by and by when their successes or failures are written into the history of the country and they are no longer active in the things that separate us into two or more schools, they become a part of the whole, and in the whole we all have a national pride.

Human Hair Made Into Cloth

Tons of human hair are being turned into cloth by a southern factory to supply the demand of cotton-seed oil mills of that section for a fabric that will withstand, for a time at least, a pressure of 4,000 to 4,500 pounds a square inch.

A practical and comprehensive plan has been suggested by the Bureau of Fisheries, to help in studying the habits of various fish such as salmon, codfish, pollock and haddock.

WICKERSHAM UPON THE LEAGUE.

G. W. Wickersham, attorney general of the United States under the Roosevelt administration, and president of the American Law Institute, was in Denver this week, and as an ardent advocate of the entry of this country into the League of Nations he never fails to express himself on this subject. So much has been said on this matter, there seems nothing new to advance, except when the shifting scenes of Europe provide the occasion.

all this need becomes a conviction and the conviction transmuted to a reality. Speaking of the present crisis, Mr. Wickersham says, "This is no time to talk, but a time to wait the action of the League and await development in Greece and Italy."

JAILED ON CHARGE OF KILLING SON-IN-LAW

DECATUR, Ga., Sept. 12.—J. Monroe Gresham, aged 68, is held in the DeKalb county jail here on a charge of murder in connection with the killing last night at Stone Mountain of his son-in-law, W. C. Campbell, 58, said to be a former chief of police of Phoenix City, Ala.

Mr. and Mrs. J. R. Norman spent a few days this week at Daytona Beach.

The Epworth League meeting Sunday evening was led by Mildred Snow and was well attended.

NEW AUDITORIUM AT UNIVERSITY OF FLORIDA

TALLAHASSEE, Fla., Sept. 10.—Bids for the completion of the auditorium at the University of Florida will be opened by the State Board of Control at its regular monthly meeting scheduled for today at Jacksonville. The legislature appropriated \$100,000 for the building of the auditorium, installation of the heating equipment and furnishings. This is in addition to \$100,000 already spent on the structure, which is a unit of the University administration building.

The auditorium, when completed, will seat approximately 2,000 persons. It is said, in addition to room for several hundred on the rostrum.

The administration building, which is being constructed in units, will cost an aggregate of approximately \$750,000, and according to architects,

GOVERNMENT OF BERMUDA CLEANING UP

Export on Whiskey Shipped to United States

(By The Associated Press) Hamilton, Bermuda, Sept. 12.—Americans who patronize bootleggers contributed indirectly \$157,204, to the government of Bermuda in the form of export tax on whiskey shipped from the island between April, 1922, and Sept. 1, 1923. During this period rum runners have taken out of Bermuda more than sixty thousand cases as well as 41 barrels of whiskey all of which found a market in New York and vicinity. This total is more than 750,000 bottles which at an average retail price of \$8 a bottle mean a return of \$6,000,000 on cargoes that were bought here for about \$1,000,000.

drawings will be one of the finest structures of its kind in the Southern States.

Plans for the various units already have been adopted. They call for sections that will provide space for the library, the state museum, administrative offices, and some class rooms. The main section of the structure will be four stories high, with an imposing tower in the mid-section.

Quarters for the military supplies and armory will be in the basement, according to the plans.

Eugenie's Effects Sold For \$10,000 Under Hammer

Once Priceless Articles Bring Ridiculously Small Prices.

LONDON, Sept. 12.—Members of England's oldest and highest families stood with almost tearful eyes, when the once priceless effects of the late Empress Eugenie of France were sold under the hammer at ridiculously small prices, but still beyond their impoverished purses. The goods sold were principally her late Majesty's dresses, slippers, gowns, laces and furs.

Most of the stuff was bought by dealer, although some of the former empress' servants and followers were able to buy small articles.

The hundred and sixty lots brought about \$10,000, which would hardly have paid for one of the court gowns worn at the royal festivities in the days of splendor.

A lot of rare Alencon lace bought \$1,115 and a fur stole \$525. A beautiful rug into which was woven the royal cipher with the arms of Spain and France, given to the empress on her wedding day by the carpet makers of Seville, was bought by a Frenchman and will be presented to a French museum. It is supposed to have been on this rug that the Emperor Napoleon III and empress knelt when they received the blessing after their marriage.

"HONOR FIRST" IS NEW JOHN GILBERT FILM

With John Gilbert in the star role, "Honor First," his latest William Fox feature, will open at the Milano theater today. Press reports from other cities where this picture has been shown accord it high praise. Many who have reviewed the feature assert that Gilbert is at his best.

The story deals with the difference in character and temperament between twin brothers, both of whom served in the French army during the war. Gilbert portrays both brothers. His work as the cowardly brother is said to be especially worth while. This characterization calls for extraordinary force in acting.

Not only is the story of the picture intensely gripping and worth while, but the photography and direction are as good as any of the best. Jerome Storm, who is fast becoming one of the foremost directors in the film world, staged the picture.

SOUTH FLORIDA ASKING MORE ROAD MONEY

Will Tackle Next Meeting of Road Department.

(By The Associated Press)

N. C. STATE FACES LARGE TASK THIS YEAR

RALEIGH, N. C., Sept. 13.—Uncertainty over the return of several players, members of both the varsity squad and the 1923 freshman team, is causing athletic authorities of

North Carolina State no little concern.

The 1922 "Wolfpack" was a green aggregation, a team which showed flashes of real promise, although never fully measuring up to the Tech standard of the past, football fans say. A year's experience, plus new blood from the yearling squad, was expected to furnish the margin of strength necessary to make a strong contender out of the team which trained last year in every Southern Conference game.

It has been thought that N. C. State would lose only three letter men—Captain Floyd, tackle; Tommy Park, fullback, and Pascour, guard, but it is now rumored Andy Randolph, Bobby Long, John Jenette, backs, "Red" Baker, tackle, all letter men, and Bill Morris, promising second string back, will not return, and it is reported the Shuford brothers, star backfielders on the yearling team last year, will cast their lot with another college this year.

The team faces a hard schedule and if Coach Hartsell finds it necessary to build practically a new machine,

**"FORGOTTEN LAW"
COMING SOON**

A powerful dramatic photoplay based on a novel of widespread appeal is "The Forgotten Law," the Metro photoplay which is scheduled for presentation tonight at the Princess theater. In its narrative form it aroused heated discussion, lending finally to the repeal of a law which worked terrible hardships on woman-kind. As a photoplay the dramatic emphasis is even more pronounced, and the motion picture is one of the strongest attractions of its kind in several seasons.

Another wet field yesterday—but football practice was held right on. Two full teams out to practice, too.

The Seminole Athletic Club continues to go thru a stiff work out every afternoon. These gents are getting up a lively schedule.

Which goes to prove that S. H. S. will have a real football team.

With the first class material out for the S. A. C. squad we expect to see a great game on Thursday, September 27th.

Prospective members of the first team were overjoyed several days ago when presented with an almost complete new uniform but were "little" downcast yesterday when they were informed that new stockings would not arrive for several days. Oh, you barelegged warriors.

They call holidays for Good Roads—roads are important, as we all know but the most important half-holiday around this village will be Thursday, September 27th. S. A. C. vs. S. H. S.

The Florida 'Gators call two hours a stiff practice. These birds would call it "board" practice if they had Coach Wilkinson behind 'em. He uses the paddle or speedboard and his practicing hours are from 4:30 until dark. Here's hoping for shorter days.

Where was Moses when the lights went out? Where was Ed Moye when a pass was made towards right end during scrimmage yesterday? Ed offers the excuse that he was spilled before he reached the destination of the pass!

According to critics, Jack Dempsey is out to present the "Angel" with a soft feather bed—because his sleep will be long—and Firpo should get used to American beds by that time—he usually sleeps on pampas).

The other side, Scrubs, spilled Ed! The mean things, why didn't they let Ed make a perfect catch!

But others have a different say from above!

During football practice Tuesday a certain youngster was asked suddenly by the Coach which side he was playing on. The youngster was really playing on the defensive side but being rattled showed his possible ignorance when he answered that he was on the offensive. Crack!

The Chicago Cubs have played thirty-five consecutive innings without scoring a run says the latest reports. What are the Baby Lions trying to do—establish a record?

We'd tell his name if we were not afraid of damage suit.

**FIGHT FANS SCENT THE
BATTLE OF HEAVYWEIGHTS**

(By The Associated Press)
NEW YORK, Sept. 13.—Fans last night began to scent the "smoke" of battle—that "atmosphere" peculiarly confined to heavyweight championship fights—with the title struggle between Jack Dempsey, champion, and Luis Angel Firpo, Argentine challenger, but two days off.

The first of the rival gladiators reached New York last night when Firpo arrived at 8 o'clock from his training camp in Atlantic City. The grim visaged South American gazed with accustomed taciturnity at a small sized crowd that greeted him, then was whisked away to an up-town apartment where he will remain in seclusion until the afternoon of the fight.

Dempsey is expected to break camp early tomorrow, arriving here in the afternoon. He will stay at the Hotel Belmont tonight. Friday afternoon he will meet his challenger for the first time when they appear before the state athletic commission to weigh in.

Followers of both fighters declared yesterday at the conclusion of their training camps that they were conditioned to perfection. They will enter the ring at the Polo Grounds fit for the greatest test of their careers.

Tex Rickard last night predicted a sell out of tickets. The promoter declared this would mean that close to 85,000 would pay approximately \$1,300,000 to see the fight. His figures yesterday were well past the \$1,000,000 mark.

"This fight would have broken the record gate of \$1,600,000 set by the Dempsey-Carpentier match," said Rickard, "if similar prices had been charged. The Dempsey-Firpo demand has been much greater than for the 'battle of the century,' but now the top price is \$27.50, whereas two years ago in Jersey City it was \$50."

Construction of the ringside, temporary bleacher sections and other additions to the Polo Grounds will be completed by noon today, Rickard said. He added that arrangements to handle the throng had been completed with the police and fire departments.

Little change was reported in betting odds. A notable gathering, including men prominent in society, the financial and theatrical worlds, will view the championship match. Diplomats also will be numbered in the throng, for many of the envoys of South American nations, all keenly interested in the career of Firpo, the first Latin to attain such pugilistic prominence have made reservations.

**RIXEY HURLS

CHICAGO, Sept. 13.—Epha Rixey outpitched Alexander in a pitching duel yesterday and Cincinnati shut out Chicago 4 to 0 in first game of the series.

**'Gator Squad Out For
Two Hour Grind**

GAINESVILLE, Sept. 13.—Varsity football men were a tired but enthusiastic crowd of gridders yesterday afternoon after their hard practice on the new 'Gator field. Coach Van Fleet put his men to work at 4 o'clock and it was after 6 o'clock before the candidates turned their steps gymward.

It was one of the stiffest sessions held in the vicinity of the Florida campus in many seasons but with the date of the stiff army game fast approaching it is the only way to proceed with the training grind and the new 'Gator' chieftain is certainly putting his charges through their various and sundry paces in a manner that is going to reap rewards if the opinions of the spectators who witnessed yesterday's workout can be taken to mean anything.

Sam Cornwall, freshman center last year and a player who proved a bulwark of strength on the line was in Gainesville several hours yesterday negotiating with officials of the university relative to scholastic work. That he will again return to the fair of the 'Gator and be soon at work with the varsity gridders is almost a certainty as the heavyweight pivot man signified his intention to that effect and seemed highly enthusiastic over being once more within the college environment.

Several new men donned tops yesterday and went out in the field for a good practice. Among the well known grid men in this layout were "Red" Mounts. End of recognized ability on both defense and offense. Donald Baird line aspirant of Duval High school fame, "Ozzie" Ble, varsity back field star of the first water who played a jam up game in the Harvard tussle last November. Joe Merrin exceptional backfield luminary, Neal Morris one of the coming Gator tackles who is believed of first class varsity material. Wilson, Plockeman, Wyatt and Flood.

End candidates received special instructions from Coach Sebring while Coaches Van Fleet and Von took the line men and backfield aspirants in tow and sent them through virtually every phase of the conditioning grind known to followers of the noted college sport.

The chances for a wonderful eleven continue to look bright and dopsters are already sizing up the records the 'Gators are out to accomplish.

PRINCESS NEWS

Milton Sills in "The Forgotten Law" tonight at the Princess.

A dramatic and thrilling photodrama of mother love.

In which a cruel law sanctions the separation of mother and child.

A young rouse meets sudden death under mysterious circumstances.

How a man's affection for his brother blinds him to justice.

A powerful novel makes a gripping photoplay.

A dissipated young man thinks that marriage will make him more steady and responsible. It does, but only for a brief time. Then his old habits break out again, and he ruins the happiness of his wife and child. His sudden death leaves much unexplained, and directs suspicion against his innocent wife—in "The Forgotten Law," the Metro picture at the Princess Theatre tonight.

Tonight every one in Sanford with their last name beginning with "T" will be admitted free of charge to-night. Bring your name with you, tell it to the ticket seller and go on in. Easy thing to do.

Friday and Saturday—"Hollywood" including practically all of the nationally known stars. Don't miss it.

MILANE NEWS

Tonight "Honor First" starring John Gilbert.

Smashing, dashing, firm and true. He thought only of Honor First.

Tender with women—fearless with men.

Her eyes flashed a message that only lovers can understand.

He found true happiness—love—through the cleansing fires of the battlefield.

His courage was superb—her love unquestioned.

His heroism was measured by accomplishments. He accomplished miracles.

And tonight a Lupino Lane comedy—"The Pirate."

Remember tomorrow night is Country Store Night—come, lots of fun.

First show tonight at 7:30. Prices 10 and 20 cents.

Take advantage of the special summer rates now offered for the big Fall Term opening next week at the Tampa Business College. Liberal terms are made, and students may select any course. We meet the trains and take the students to good boarding places. 143-11c

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

FORD COUPE.

The Ford Coupe is an entirely new body design bringing a distinctive exterior appearance, more comfortable seating arrangement, increased luggage carrying capacity and a generally rugged construction. The doors are large and heavily framed. The windows afford the maximum vision and the rear vision is exceptionally large. The front of the car is most attractive, the cowl flowing in a graceful curve into the higher hood and radiator. A visor over the windshield and ventilator in the cowl give added touches of quality to the car. The carrying at the rear provides opportunity for storing considerable luggage. Rear fenders are improved and strongly secured. The interior is most inviting. The deeply cushioned seat is divided so as to make easy filling of the gasoline tank underneath it. At the rear of the seat is a small recess shelf for carrying parcels. Upholstery is in choice materials. Door windows are equipped with the revolving type window regulators and locks are provided on the doors.

SCENE FROM THE DRAMATIC SCREEN SENSATION "THE FORGOTTEN LAW" AT THE PRINCESS TONIGHT

(This Was Written by a Woman)

Why Are Some Storekeepers So Obstinate?

I am an old-fashioned buyer of the necessities for my household. I go to the store myself. To me this work is not irksome. In fact, I like it. I like to look at the shelves so full of cans and packages of so many colors. I like to do this for the same reason that I don't mind being in a crowd.

When in a crowd I look for familiar faces. When I see them I am delighted. When I am in a store I look for familiar goods and when I see them I buy. Those goods have become familiar to me through advertising and I have noticed that the grocery men who have the most of those familiar packages somehow or other seem to always go ahead.

I went into a store not of my own choosing but with a friend who, among other things, asked for a very well known article of food which is packed in a can, although she did not ask for any specific kind. I always buy — and instinctively I told her that was the kind she should ask for.

The dealer overheard me and said, "Madam, I never sell that article, I sell instead something very much better — my own brand."

Then he launched into a five-minute talk on why this article was better than the one I had named. But somehow my friend had been convinced by what I had suggested and she did not buy that can which the grocer offered.

And I thought as I walked out how stubborn and obstinate that man was. He had lost a sale, had probably taken his first step

toward losing a customer, and had certainly lost a good deal of time, especially since some other people were standing around waiting to be waited on.

If that grocer had sold advertised goods he would certainly have had the brand I suggested and he would have made a sale; incidentally, he would have bid us good day cheerily and we would have been satisfied.

Familiar faces are wonderful. To me, in my capacity as a buyer for a fairly large household, familiar things on the shelves of the stores I visit are only a little less wonderful, for those familiar things help me in doing better and more economically the job which I must work at every day.

Those advertised articles which I buy and which I always buy I know have been submitted to the criticism of both competitor and consumer. This subjection to almost world-wide critical examination demonstrates to me that the manufacturer has supreme confidence in his goods. He cannot tell a falsehood about the things he makes, because there are too many in the world to find him out.

Constant advertising of any product proves that product has stood the test of scrutiny. Is it any wonder then why I, as one of several million women in my same position, prefer articles with which I am acquainted to products about which I have no knowledge and about which the manufacturer does not seem to have the courage to enlighten me?
