

# Adams Raps Those Who Soft Pedal Water Woes

MIAMI BEACH (UPI) — Secretary of State Tom Adams charged today that some Floridians are trying to soft pedal talk of a future water crisis by fear it will chase away new residents and new industries.

Adams called this attitude "fally."

He told the State Association of County Commissioners that "we need to talk, to get out to do it now," adding that apathy and neglect of water resources in other states has caused many industries to relocate in Florida.

"Unless we ourselves eliminate apathy and quickly develop a positive program, these industries may well leave Florida," Adams said for some time been warning that many areas of the state face a

water crisis in the near future, including South Florida, the Tampa-St. Petersburg area and Broward County, site of the missile test center at Cape Canaveral.

Utility and other officials in these areas have denied there is cause for alarm and maintain Florida has plenty of water and is no danger of ever running out.

In his talk to the county commissioners, Adams was not quite as strong in his talk of crisis and when it might come. In past speeches, he has pin-pointed the situation as catching up with us in a matter of a few years.

Today, he said "water is plentiful now. Most people do not worry about flood control when the land is dry, or about a drought when it is raining. But wise leadership prepares for flooding

even in the driest months." Urging the commissioners to get behind a campaign for stronger, more adequate water conservation measures, he called for a close working partnership at all levels of government.

"We have been dragging our heels," he said. "Appropriating meaningless state matching funds or no-o-er projects forward."

Intrusion of salt water into the fresh water is a big problem, he said, and measures must also be taken to conserve the wasteful discharge of billions of gallons of water a day into the sea.

## O. K. Tire Started By 'An Accident'

An accident landed Mr. and Mrs. Harry Boone in the O. K. Tire business 15 years ago.

Owner of the O. K. Tire store in Sanford, the Boone family business is a combination of a friend.

Boone had been using O.K. Tires and was so well satisfied with them that a friend of his in the business suggested that Boone get into the business.

For 15 years the Boone's operated an O.K. Tire store in Tusculum, Alabama. Two years ago they decided to come to Florida.

The Boone's throughout the state for a long time to find a place to locate. After examining several locations in Sanford, they decided that Sanford offered the right combination of site and location. The Boone's were also impressed with the people and the climate.

O. K. Tire stores are located throughout the United States. They specialize in high quality recapping and retreading. All of their work carries a one year written and bonded guarantee, similar to the one usually given with new tires.

Customers can have their own tires recapped or they can exchange them for recapped tires in stock.

Besides carrying a complete line of Mohawk new tires, O. K. Tire has a complete passenger service, including front and balancing, wheel alignment and brake service.

The Boone's have been extremely satisfied with their two years in Sanford. They have a daughter, Judy, who is in the fifth grade at Pinecrest School.

## Ability, Service Is Southern Air

A chemical engineer who has been in the heat transfer field for 37 years, is the owner of Southern Air, Sanford's exclusive air-conditioning, heating and refrigerating center, at 2502 South Oak Avenue.

Owner George Mills came to Sanford in 1958 as a partner in another local plumbing and heating firm, then opened his own business in April of 1961, as the franchised dealer-contractor for such well known names as Chrysler Airtemp, Mueller Climatrol and American Standard.

Mills' first experience in heating and air-conditioning was as a consulting engineer with a Chicago firm in 1936. From there he moved to Pittsburgh, Pa., and subsequently to Sanford. His wife, Shirley is secretary and bookkeeper of the firm. Active in civic and church affairs, the Mills family with their four children live at 2404 Oak Avenue.

"In this age of specialization, Southern Air is a specialist in air-conditioning (hot or cold)," says owner George Mills. "Whether it is a job of air-conditioning a department store or servicing a home refrigerator unit, Southern Air can do it quickly and thoroughly."

Signs With Phils PHILADELPHIA (UPI) — John Briggs, an 18-year-old American Legion star from Paterson, N. J., has been signed by the Philadelphia Phillies. He will report to the Twin Falls team of the Pioneer League next season.

# 4<sup>th</sup> ANNUAL FOOTBALL CONTEST

## Nothing To Buy! \$\$\$ WIN CASH PRIZES WEEKLY \$\$\$

FREE CASH PRIZES will be awarded each week (in accordance with Contest Rules below) as follows: 1st. PRIZE: \$10, 2nd. PRIZE: \$6, 3rd. PRIZE: \$4. Nothing to Buy, Nothing to Pay, No Obligation.

THIS PAGE WILL APPEAR EACH WEEK DURING FOOTBALL SEASON

CONTEST RULES: • 12 football games this weekend are placed, one in each ad on this page. Indicate winner scores. Just pick winners.

• Pick a number which you think will be the highest number of points scored by any one team on this page and place this number in the space provided in Entry Blank. This will be used to break ties.

One entry only to each contestant. Entries must be brought to the office of this paper or postmarked no later than Friday Noon, Sept. 21.

# Sportsmen Protest Dove Sanctuary

## Soviet Berlin Protest Defied

BERLIN (UPI) — The United States defied a Russian protest and sent an Army helicopter over East Berlin today.

Earlier the American Army again asserted Western access rights to the city by sending a troop convoy across East Germany. The Berlin-bound convoy was held up by the Russians for more than three hours, but arrived here without further incident.

Tuesday night a mysterious explosion had rocked the area around the Brandenburg Gate on the East Berlin side of the Berlin wall. There was no indication of what caused the blast, but West Berlin police said five Russian soldiers searched the area afterwards.

The Americans sent the helicopter flying over the wall into the Soviet sector of the city, although the Russian representative at Berlin's four-power air safety center denounced the flight as illegal.

It was the first announced American flight over East Berlin since Aug. 1 when a flight was made despite a Russian threat to shoot such helicopters down.

A convoy of 1993 soldiers in 26 trucks and jeeps was refused immediate passage at Russia's Marienborn checkpoint at the western end of the 110-mile highway to Berlin.

The convoy arrived at the checkpoint at 8:23 a. m. and did not clear until 11:42 a. m., the Army announced.

The spokesman said only there had been "a misunderstanding of matters of procedure on both sides."

The convoy was the second in a week-long movement of 3,000 soldiers in 500 vehicles along the highway through East Germany which began today.

The spokesman said only there had been "a misunderstanding of matters of procedure on both sides."

### BRIEFS

#### Drab Affair

NEW YORK (UPI) — The stock market was a drab affair early today with the popular averages down just a shade on light turnover.

#### Vote Slated

ALGIERS (UPI) — An estimated 6.5 million Algerians will vote Thursday for a constituent assembly to write Algeria's first Constitution and rule the country for a year.

#### Blast At Gate

BERLIN (UPI) — An explosion of unknown origin rocked the vicinity of the Brandenburg Gate on the East Berlin side of the Berlin wall Tuesday night.

#### Control Funds

JACKSONVILLE (UPI) — Florida's top expert on mosquito control said Tuesday the current outbreak of encephalitis in Pinellas County might arouse legislators to boost state mosquito control funds by \$1.2 million.

#### 'Impossible'

NEW YORK (UPI) — Federal mediators trying to head off a threatened Oct. 1 longshoremen's strike which would affect shipping from Maine to Texas said Tuesday night bargaining had "become impossible" and withdrew from the negotiations.

#### Firmer Action

MIAMI BEACH (UPI) — Sen. Spessard Holland, D-Fla., favors firmer U. S. action in the Cuban situation—but not an armed invasion. An invasion, Holland said at the State Association of County Commissioners meeting Tuesday, "would mean military action with all of its serious international implications."

#### Battle Stepped Up

CHICAGO (UPI) — The National Farmers Organization, fresh from apparent victories in the marketplace and political arena, today stepped up its battle for higher livestock prices. NFO President Oren Lee Staley called on members of the 16-state, militant farm group to "work harder, our goal is in sight."

## To Protect Against Attack

# Air Defense Buildup Urged

WASHINGTON (UPI) — An immediate buildup of air defenses in the southeastern United States was strongly recommended today by a congressional group as protection against an attack from Cuba or by long-range Soviet bombers.

WASHINGTON (UPI) — The Senate Foreign Relations and Armed Services committees gave unanimous approval today to a Cuban resolution declaring this country's determination to use all means, including troops, to resist the spread of communism in the Western Hemisphere.

A two-member House Armed Services subcommittee said the Defense Department should quickly place improved fighter interceptor and ground-to-air missile protection in strategic areas in the Southeast.

The subcommittee said "a marked improvement in radar intercept and communications capability" was essential.

Reps. L. Mendel Rivers, (D-S.C.), and F. Edward Hebert, (D-La.), wrote the report Aug. 23. They said the entire nation was equally vulnerable to intercontinental ballistic missiles.

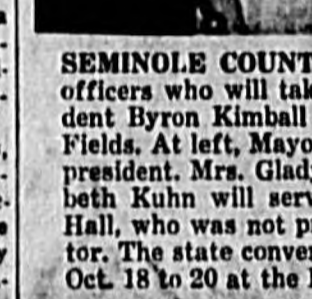

But they said that the threat from enemy planes or from airbreathing missiles launched from ships, subs or hostile territory "remains a continuing concern to the Southeastern United States."

"While the vastly increased importance of this area to the overall national effort is clear," the congressman said, "it is equally clear

that no significant effort has been made to provide a degree of protection which is comparable in any degree to that previously provided for similar areas in the northern half of the nation."

Hebert and Rivers said the situation was accentuated by the establishment of a Communist government in Cuba—80 miles from Florida—and the political ferment in parts of Central and South America and Africa.

They said the Soviet buildup in Cuba was continuing and added, "there can be no assurance that this buildup does not forecast the establishment of a missile capacity in Cuba as a hostile threat to the continental United States."

SEMINOLE COUNTY BOARD OF REALTORS have elected these new officers who will take charge in January. At far right, incumbent president Byron Kimball turns the mike over to incoming president C. F. Fields. At left, Mayor Al Lormann of Longwood accepts the office of vice president. Mrs. Gladys Brown will be a two year director and Mrs. Elizabeth Kuhn will serve as secretary-treasurer of the organization. J. W. Hall, who was not present for the picture will be the new one year director. The state convention of the Florida Realtors Association is slated for Oct. 18 to 20 at the Robert Meyer Hotel in Jacksonville. (Herald Photo)

## Argentina Army Tanks Move On La Plata; Revolt Brewing

BUENOS AIRES (UPI) — Argentine army dissidents seeking a purge of the high

command sent a column of tanks advancing on La Plata today. The war secretariat called it an "unauthorized" military movement.

Other rebellious officers who seized command of the big Campo de Mayo garrison outside Buenos Aires called for public support of their campaign "to avoid bloodshed."

The call for public support was broadcast over Radio Belgrano in what was styled "Communique No. 1. It was assumed the army dissidents had seized the Belgrano plant on Buenos Aires' outskirts. The government summoned frontier troops to occupy the long distance and international telephone exchange in

the capital. A war secretariat order forbade radio stations to broadcast news from the rebel-held Campo de Mayo "or any other rebel unit."

County Forest Ranger Albert Harris reported today that latest statistics compiled in state headquarters show Seminole County as ranking fourth in the state in the number of wild fires per hundred thousand acres of forest land in 1961 when 128 such fires occurred here.

According to the ranger this is somewhat better than in the past but still is nothing to be proud of since as of July 1, this year, there already had been 148 fires burning some 4,909 acres.

Harris said that his report shows that in 1961 pulp wood production in Seminole County was 6,509 cords bringing an economic return of approximately \$97,635.

Counties leading the state in fires, percentage wise, in 1961 were Duval with 528, Pinellas with 190 and Bradford with 138.

## Mize Orders Lee Probe

A pre-sentence investigation was ordered Tuesday afternoon by Judge Vernon Mize Jr., after the hearing in his office on the case of Charles F. Lee, 24, accused hit and run driver who struck four bicycle riding boys late Friday night on South Sanford Ave.

At the hearing FHP Trooper Bill Stringfield was present to detail the basis for the charges against Lee. Stringfield said he arrived at the scene at 12:10 a. m., six minutes after receiving the call, and found three bicycles lying off the road and one on, over a distance of about 125 feet.

He said three of the bicycles did not have back fenders or reflectors on them, but one was equipped with two very small reflectors. He said it was the bicycle ridden by Ronnie Howard, the most seriously injured of the boys involved.

His estimate of Lee's speed at the moment of the accident was between 45 and 50 miles per hour, but Lee admitted to doing between 40 and 45 miles per hour.

## Race Mix Showdown Nears At 'Ole Miss'

OXFORD, Miss. (UPI) — More than 5,000 students report today for registration at the University of Mississippi, quietly girding itself for a possible showdown on racial integration.

An atmosphere of outward calm prevailed on the tree-shaded campus and in downtown Oxford despite the possibility the 100-year-old institution might be closed to prevent the federal court-ordered admission of James H. Meredith, a 29-year-old Negro.

Meredith, who attended Jackson State College for Negroes last year, would register as a transfer student. Registration for transfer students is Thursday, the day the state College Board is scheduled to meet again in Jackson to act on Meredith's application.

The 13-man board, which has final jurisdiction over university admission, has been debating since Monday whether to comply with Gov. Ross Barnett's directive for state officials to go to jail rather than obey federal desegregation orders. Two previous meetings of the board have produced no decision, despite a personal plea by Barnett on Tuesday.

Dr. Vernon Holmes, a board member, said he would be willing to be jailed "if something could be accomplished by doing so."

## State To Air Request

The newly reorganized Seminole County Sportsmen's Association is going to officially protest closing of the area bounded by South Sanford Ave., and Cameron Road, Cornwall Road and SR 46 to dove hunting, to the State Fresh Water Fish and Game Commission at their meeting at Cedar Key, according to W. A. Adams, a director of the organization.

The County Commission at the instigation of a number of property owners in the area, sent a resolution asking for the establishment of a bird sanctuary in the designated area last May 29.

It was charged at that time, by the property owners, that bird hunters had discharged their firearms too close to the houses and had violated the laws covering hunting in other ways.

According to Adams, the law requires that hunters refrain from shooting within 300 yards of an occupied residence, from hunting on posted property without permission, and also that they not shoot from a public way or in the direction of a public road.

It is Adams' contention, and that of the club members, that outsiders came in from other parts of the state and disregarded the regulations covering the sport, and that none of the local hunters were responsible for the commission ruling.

Adams said the local group was deeply concerned with game conservation, and had no intention of decimating the bird population of the area, but there is excellent hunting in the section around Cameron City and Moore's Crossing, and he was sure that opening the section to regulated hunting would be the best course for state agency to follow.

Local association members are in accord with the aims of the commission in setting up a bird sanctuary, but they said they would cooperate by voluntarily patrolling the area to see to it that none of the commissions regulations were violated.

The general feeling of the group, said Adams, is that "local hunters shouldn't be penalized because outsiders come in and damage premises and violate the hunting laws."

## Sanfordite In Mishap

A Sanford resident was charged with driving while intoxicated and failure to yield the right of way after a two car collision Tuesday night, police said.

James Parsons, 111 Sunset Dr., faces the two charges after his car collided with a vehicle operated by Plumlee Lee Thomas of Orlando. Damage to both cars was estimated at \$273.

## Track Out

WASHINGTON (UPI) — The Interstate Commerce Commission (ICC) today authorized Atlantic Coast Line Railroad to abandon a 20-mile branch line between Ocala and Rainbow Falls, Fla., effective Oct. 24.

## Any Opinions?

If any Seminole County customers of the downtown Sanford shopping area have opinions they would like to express on what should be done to make the area more convenient and attractive for the public, The Herald invites them to fill out the coupon below and send it in as part of a public poll.

## Remodeling Program Set At Raceway

A remodeling and rebuilding program calling for the expenditure of over a quarter of a million dollars has been started at Seminole Park Raceway, Casselberry according to track president Clyde Hart in a statement today.

Included in the project is the construction of a new grandstand, designed by Stewart and Skinner, Miami architects specializing in such construction, who have designed similar structures for a number of race tracks around the nation.

Eight more barns will be built this fall which will increase the total capacity of the track to 1,034 horses, making the local installation the largest harness horse track in the South.

A new paved parking area is now under construction and a specially designed lighting system will be installed for the 1/4 mile harness track and also for the 630 yard straightaway of the mile oval to be used by the quarter horses, which will share the season with the harness horses.

## State To Turn In Insurance Probe Report

Deputy State Insurance Commissioner Richard F. Strickland told the Herald today, from Tallahassee, that a report on the investigation carried on by his office of the county insurance policies will be completed Tuesday and a report will be brought to the County Commission.

The commission was asked to investigate the insurance situation of the County by County Commissioner James P. Avery Jr., over a month ago.

The hold up on the report has been due to the inability of the commission to determine the retaking process used by one company quoting a premium on the policies covering the valuable papers and records of the county.

Strickland said the only one that could fill the commission in on the problem was the chief underwriter of the company in question and he has not been available until this week.

The hold up on the report has been due to the inability of the commission to determine the retaking process used by one company quoting a premium on the policies covering the valuable papers and records of the county.

### Overwhelms McCormack

# Ted Predicts Victory Over Lodge

BOSTON (UPI)—Ted Kennedy predicted confidently today he would move into the Senate seat his brother vacated to become president of the United States. His Republican opponent in November will be George Cabot Lodge.

The election battle will be a reversal of a feud between two political dynasties that has stretched over almost five decades.

The youngest member of

the Kennedy clan, taking his first plunge into national politics at the age of 30, set in motion a tidal wave of votes that swamped Edward J. McCormack, his opponent for the Democratic senatorial nomination. The tide was running so strongly against McCormack that he conceded defeat Tuesday night when returns were in from only one-fifth of the state's 1,000 precincts. The crusher came when Teddy carried Eddie's

own home ward in Boston. A few moments later Kennedy, in a voice that sounds remarkably like that of the President of the United States, paid a neat tribute to McCormack and then predicted: "We will carry the battle forward to victory in November."

Lodge, son of Henry Cabot Lodge, defeated Congressman Laurence Curdie for the Republican senatorial nomination.

The dynasty issue is a dead duck in Massachusetts. The Lodge dynasty is even older than the Kennedy one.

The Kennedys and the Lodges have been tangling at the polls since 1916. Lodge's great-grandfather defeated Ted's grandfather, John F. Fitzgerald, for the Senate. President Kennedy defeated Lodge's father, Henry Cabot Lodge, for the U.S. Senate in 1962. The President won another victory over

the same Lodge, who ran for vice president on the Republican ticket in 1960.

The issue of youth and inexperience also is dead. Lodge is 35 years old and his experience consists of being an assistant secretary of labor in the Eisenhower administration. Kennedy's experience consists of being an assistant district attorney of Suffolk County, Mass. Both of them are over six feet tall with movie star profiles, and many women in Massachu-

setts are going to have cardiac flutter when faced with the crucial decision between them in November.

Lodge had an uphill road to victory. He fell behind Curtis early in the evening, then went 100 votes ahead and around midnight began to pull steadily in front.

McCormack, nephew of House Speaker John McCormack, lost with grace and urged his followers to get behind the Kennedy ticket in the fall.

## 5-H Winds Up First Year; Elects Officers

The Seminole County 5-H Club, which installed new officers Monday, is now one-year-old.

The club is a part of the county 4-H program, organized for boys and girls who own and love horses, with their primary project the care and training of horses.

Organized with the assistance and under the supervision of the Seminole County Equestrians, the 5-H took form in August of 1961. Later Miss Becky Giles was elected its first president.

New president is Miss Linda Ball, with Rosemary Walton serving as vice president; Sharon Giles as secretary-treasurer; Kay White as chaplain; Pat Bethea as program chairman, Becky Giles and Maureen Scott as recreation leaders and Lynn McRoberts as reporter.

The new officers were installed by County Agent Cecil Tucker, at ceremonies at the First Baptist Church fellowship hall.

In celebration of the close of their first year, the club chose an overnight camp-out at the Marwood Ranch in Ocoee, recently.

Horses were hauled by trailer out to the Marwood Ranch on a Thursday afternoon, when the club members enjoyed a conducted ride over some of the 3,000 acres of the ranch.

## Dusty Boots Sots Riders Fun Day Sunday

The September Fun Day slated by the Dusty Boots Riding Assn. at the arena back of the Farmers Auction Mart on Hwy. 17-92 is set to begin at 1:30 p. m. Sunday.

Central Florida riders, both juniors (under 14) and seniors (over 15) will compete for four place ribbons in the Cloverleaf, Flag Race, and Iole Bending and for cash awards in the junior or senior Horse Races.

In addition, Dusty Boots Fun Day officials have slated a Junior Bat Race, a Junior Hollow Log Race and a Junior Greased Pig Chase.

Much excitement centers around the horse race with several contestants who came in close in the August show now grooming for a return match.

## Steel Demands

MIAMI BEACH (UPI)—T. C. Douglas, leader of the new Democratic Party of Canada, called on the steelworkers today to press for full employment, a higher standard of living and social security for all citizens.

Those attending were Linda Mohn, Sandi Beckman, Sonja Wester, Penny Grinnell, Pat Rice, Sondra Humphrey, Marcia Coleman, Joy Wester, Diane Hickson, Sherry Spin-

NEW 5-H PRESIDENT, Miss Linda Ball, (fifth from left) is surrounded by her fellow-officers in the club as they were installed Monday by County Agent Cecil Tucker. From left are Tucker; Rosemary Walton, vice president; Sharon Giles, secretary-treasurer; Maureen

## Race Problems Not On Agenda

TALLAHASSEE (UPI)—The race issue will be missing from the official agenda at least of the annual Southern Governors Conference convening Sept. 30 at Hollywood, Fla.

A preliminary conference program released Tuesday by the office of Gov. Farris Bryant of Florida, host governor, gives priority at the five-day meeting to transportation problems and space-age development in the South.

Race problems were not on the agenda, but any governor will be able to bring up the subject during a broad discussion on "problems of a governor" at the final day of the conference.

Sixteen governors are on the conference program. Gov. Buford Ellington of Tennessee is chairman and will preside.

The executive board of the National Governors Conference will attend to go over plans for its own meeting, scheduled in Florida next spring.

## Lake Mary WYF Elections Followed By Social Hour

By Frances Webster

The first meeting of the Westminster Youth Fellowship Group of Lake Mary, since the group disbanded for the summer was held Sunday night at the Community Presbyterian Church.

Terry Bucklew gave an inspiring and meaningful talk on the topic "What Lies In Store For Our Future Generation As Far As The Atomic Radiation Is Concerned And The Great Power Above," and an impressive movie on "Hunger" was shown.

At the conclusion of the program an important business session was held in the church office to elect candidates to office for the coming year.

The following were nominated as representatives: Joy Wester, Penny Grinnell, Diane Hickson, Larry Chester, Harold Unger and Terry Bucklew. This group will meet during the week.

The meeting was closed with a friendship circle after which the group went to Rev. John Pilley's home for a social and recreational hour so all could become better acquainted. Mrs. Pilley served refreshments of punch, windmill cookies, and cupcakes.

## 20 Sentenced In 'Coup'

BEIRUT, Lebanon (UPI)—A military court Tuesday sentenced to death 20 army officers and civilians who took part in the abortive New Year's weekend coup in Lebanon.

Eleven of the 20 still have not been arrested, while the death sentences on two others were immediately commuted to life imprisonment.

First U.S. president to make a tour of the states by rail was Andrew Johnson, who made the original "Swing around the Circle" in 1866.

## Hunter Plane To Check 'Gulf Area'

MIAMI (UPI)—The Weather Bureau ordered a hurricane hunter plane to check today a big area of rainy weather drifting near the Yucatan Peninsula in the Gulf of Mexico.

A forecast said the area did not appear alarming, "but it's worth taking a look at."

The rainy weather and clouds covered a large section of the Northwestern Caribbean and Southern Gulf of Mexico, the Weather Bureau said, and was responsible

NEW MINISTER of the Congregational Christian Church, and his wife, The Rev. and Mrs. Walter A. R. McPherson are shown here at the reception in their honor Sunday. (Herald Photo)

## Church Honors New Pastor McPherson

The Reverend Walter A. R. McPherson, new minister of the Congregational Christian Church and Mrs. McPherson were honored with a reception at the Fellowship Hall Sunday afternoon.

Hostesses for the occasion were the Ethel Root Circle and the Friendship League who had decorated the hall with a profusion of summer flowers, ferns, vines and potted plants.

An orchid corsage was presented to Mrs. McPherson and Rev. McPherson was given a red rose bud for his coat lapel to begin the festivities.

In the receiving line which greeted those who came to meet the new minister and his wife were Miss Fran Pyle, president of the Pilgrim Fellowship Mrs. Helen Remusat, president of the Ethel Root Circle and Mrs. Merrill Robinson, president of the Friendship League. Mrs. Bea Alford was chairman of refreshments, assisted by Mrs. Gus Schmah and members of both circles and the Pilgrim Fellowship. Refreshments were served from a table decorated with pink roses and candles, and included sandwiches, cheeses, petit fours and punch.

The Dorcas Sunday School Class of the Central Baptist Church recently held a Family Night Supper in the recreation room of the church.

The suppers are held regularly by the class on the first Monday of the month beginning a new quarter. Attending the last one were Mr. and Mrs. G. H. High, Mr. and Mrs. N. S. Barger, Mr. and Mrs. W. L. Harmon, Mrs. R. D. Bass, Mrs. Harriet Wilcox, Mrs. T. A. Rivers, Mrs. C. J. Wilkinson, Mrs. L. S. Appleby, Mr. and Mrs. B. H. Wiggins, Mr. and Mrs. Jack Benton, Mrs. Iris Messer, Mrs. Georgia Colvin, Miss Clara Swaggerty, Mrs. L. N. Holloway, Mr. and Mrs. E. J. Cameron Jr., Mr. and Mrs. John Weaver, Rev. and Mrs. Gail Smith, Mr. and Mrs. D. A. Dunn and Mr. and Mrs. J. Q. Galloway.

## OJC Inaugurates Fall Series Of Special Events

Orlando Junior College this week inaugurates its fall series of campus special events which are open to students and general public alike, Ralph F. Coburn, dean of students, announced yesterday.

Appointment of C. Jedy LeVar as instructor in government and journalism was announced by Dr. A. N. Horton, dean of the college.

A native of Tavares, Florida, LeVar comes to OJC from the news bureau of Brigham Young University where he was a writer in the division of university relations.

The new instructor holds a Master's degree in Political Science and Journalism from Brigham Young where he previously earned the B. S. degree with a major in editorial journalism and a minor in political science.

Full semester hours for the rapidly expanding college library were announced yesterday by Mrs. Helen Webb, head librarian at OJC.

With the start of the new college year the junior college library will be open six days a week, Monday through Saturday, with a trained librarian on duty at all times.

## Central Baptist Dorcas Class Has Supper

Cameron Jr., Mr. and Mrs. John Weaver, Rev. and Mrs. Gail Smith, Mr. and Mrs. D. A. Dunn and Mr. and Mrs. J. Q. Galloway.

## Kennedy Inks Works Bill

WASHINGTON (UPI) — President Kennedy today signed a \$900 million pump priming public works bill to accelerate the economy and provide work for the unemployed.

At a ceremony in his office, attended by numerous senators and congressmen who had worked on the bill, Kennedy said he soon would transmit to Congress a request for appropriations to finance projects authorized in the bill.

# Megalopolis

There has always been a big gap between these city planners who devote themselves to immediate, practical projects and those who like to take the long view.

Robert Moses, famed planner of parks, roads and other developments, used to warn of the far-seeing planners, asserting harshly: "New York is too tough for 'em."

Of course the long-range fellows have always had a comeback. They argue that the "practical boys" are just shipping away at chaos, and actually making things worse in the long run.

Maybe the long-range men are about to have their innings. A new study looking ahead to New York City 25 years hence suggests that by then it may be too tough for anybody. And a big planning session in Paris was just told that even a population of 700,000 may be too big for a city to be physically manageable.

The gloomy report on New York came from the city's own Regional Plan Association, which hints that by 1965 the community may offer most of its citizens "neither the benefits of the city nor the pleasures of the countryside."

The complaint at heart is simple: The region will by then have another six million people and they will be spread far from the center. Millions will be too far from jobs. To close the gap, there will be a 78 per cent increase in automobiles, against a 38 per cent rise in population.

The cost of transportation,

water, other public facilities, schools and the like will be astronomical. Local government outlays are expected to more than double. It is estimated the public—not private—investment in an individual new home will range around \$30,000. This is the per home cost of all the public services required. The tax burden can be imagined.

What could be true for New York in 1965 could also be true, in lesser degree, for all of this country's massive cities. Many planners believe they have reached the point where the "remedies" for their physical ailments only promote new and larger ailments.

In Paris, it was a West German, Dr. Wolfgang Triebel, who suggested that even 700,000 may be too high a top limit on city size. In his view, automobile traffic volume provides a stiff test. Larger cities generate so much traffic they tend to choke themselves.

In this country, North Carolina has achieved some note as a state successful in luring new industries—and often their top executives. One evident appeal is the "livability" of a region with a good sprinkling of urban centers, all under 250,000 in size.

In the next two decades or more we are going to add some 90 million people to the U.S. population, virtually all in urban areas. The planners who want to start from scratch and build a lot of new cities of moderate size to accommodate this growth may be the most practical chaps in the United States today.

## ROCK-A-BYE MY BABIES

Dr. Crane's

## Worry Clinic

CASE N-433; Donald K. aged 30, is a college senior. "Dr. Crane," he asked during a forum discussion. "Is there any chance for a young fellow nowadays who has no money and doesn't plan to marry the boss's daughter? Aren't the billion dollar firms making it more impossible for the 'little fellow' to get ahead?"

Despite the seeming industrial plants of America, their products still must be sold. And that's where the salesman comes in.

He is still the key man in American commerce and industry, for without go-getter salesmen, business stagnates. Indeed, salesmen are the badge and barometer of our "free enterprise" system. Where you find salesmen, you find a nation that is characterized by the creation of new products and a higher living standard.

In Socialism and Communism, there is stagnation. For those countries don't want salesmen.

So be more appreciative of salesmen. Millions of your widows, who are receiving

monthly insurance checks, should really write a "Thank you" letter to the salesman who prodded your husband into being so thoughtful of your future financial care.

And our salesmen have forced the tremendous industrialization of America by figuratively if not literally punching doorbells in the peace time years prior to the outbreak of war until General Motors, U. S. Steel, DuPont's and thousands of other great firms have had to mushroom to gigantic size.

Then, in time of war, these factories were readily available for the production of war ordnance, namely, guns, tanks, trucks, planes, etc.

So salesmen have tipped the scales for our victories in both World Wars, instead of our generals and admirals!

For German generals and Japanese admirals were just as brilliant tacticians as ours. And the enemy's manpower equalled our own in numbers.

Moreover, when an enemy would fly a plane against the side of our battleships, that was heavy in any man's language.

So it wasn't superior generals and admirals, or preponderance of man power or greater courage, that won our wars.

No, indeed! It was our greater factory output! We equipped our men, plus much of England's and part of Russia's.

Remember, the Russians rode triumphantly in the Balkans (and Berlin) on American made tanks and trucks!

Never let Communism forget that glaring fact!

American capitalism was what finally saved Russian Communism in its battle with Hitler!

But our salesmen were the basic reason we had those thousands of gigantic factories, so all future historians should laud our salesmen more than our generals and admirals.

And there is still ceiling unlimited in America for star salesmen.

They have greater job security and a quicker chance for big incomes than any other type of worker, as I'll explain more fully tomorrow.

## Phil Newsom Says . . .

### 'Alliance For Progress'

UPI Foreign News Analyst When, in March 1961, President Kennedy announced his \$30 billion Alliance for Progress program, it was acknowledged that much, if not all of its chance for success would depend upon Brazil.

Recent events have shown how long are the odds. Size alone would make Brazil important. She is the largest country in South America and is the fourth largest in the world, with the United States ranking fifth. As a key test of U.S. efforts to head off communism in Latin America, it also is worth noting that she borders on every South American country except Chile and Ecuador.

As a grand plan, the Alliance for Progress looked toward a total of about \$10 billion in U.S. aid to Latin America over a 10-year

period, with an equal amount to come from the better-off countries of Europe and from private investment.

Of this, Brazil would receive about \$700 million per year.

In Brazil there is a saying that "God must have been a Brazilian, because he loves them so."

This was the light-hearted approach that permitted Brazil in succeeding years to build up a debt of around \$3 billion in a headlong rush toward industrialization and construction of a new capital in the hinterland without regard for cost or how to pay for it.

In 1960, the cost of living due to inflation jumped 35 per cent.

Into this financial mess on Jan. 1, 1961, stepped a new president, Janio Quadros, with a record of financial

stability behind him, first as mayor of the industrial city of Sao Paulo and then as governor.

Quadros lasted not much longer than it took the United States and the International Monetary Fund to refinance him. He resigned in August 1961.

Then came Joao Goulart, the present office-holder.

A ticker tape parade in New York and a cordial reception at the White House signaled Goulart's acceptance into the club of hemisphere chief executives eligible to ask and receive continued U. S. aid.

## Peter Edson Political Notebook

WASHINGTON—(NEA)—Disarmament, the nuclear test ban, peaceful use of outer space colonialism and United Nations financing are considered the five most important issues before the General Assembly opening in New York Sept. 18.

The Cuban situation, the Congo, admission of Red China and possibly the Berlin and the U-S flights may be major issues during general debate. But only the Congo issue in this second five is on the agenda this year and the UN will do little or nothing about others.

Admission of Red China is again expected to be defeated.

The issues with top priority are probably the nuclear test ban and disarmament. There isn't anything the UN can do about disarmament except recommend that the major powers keep on negotiating and come up with an agreement. But another resolution of this kind is needed by U. S. chief negotiator Arthur Dean before the recessed Geneva Disarmament Conference reconvenes Nov. 8.

The test ban is a more immediate question. Only four of the UN members have nuclear weapons. Theoretically, India should have no difficulty getting nearly 100 votes for its resolution for an unratified test ban. UN Secretary General U. Thant reports the members about evenly divided on this issue, however.

The United States must oppose this resolution or stop testing to support it. Russia may support the resolution but go right on testing whenever it pleases. The U.S. must therefore work for another resolution calling for an inspected test ban.

Since Americans, British and Russians will be continuing test ban talks at Geneva while the General Assembly is in session, an inspected test ban resolution will strengthen the West's hand.

The 28-nation UN Committee on Successful Uses of Outer Space began its deliberations a week before the General Assembly opening with

the Russians orbiting procedural matters wretched. Last year the General Assembly approved extension of international law and the United Nations charter to outer space. This invalidated Russia's flag of conquest on the moon.

The American position now is to try to get agreement on establishment of worldwide weather observation and communications satellites as soon as possible. The Russians oppose this as an attempt to begin military reconnaissance in space for aggressive purposes.

The American reply to this that military reconnaissance is a necessary peaceful use of outer space until there is a signed agreement on disarmament. And in the American disarmament plan there is a ban on military use of outer space.

The colonial issue is due for heated debate again. Russian membership on the Committee of 17 considering this question has converted its deliberations into a rabble rousing, cold war harassment to free all colonies at once.

There are still seven African territories under British colonial status—Northern and Southern Rhodesia, Nyasaland, Basutoland, Bechuanaland, Swaziland and Zanzibar—as well as British Guiana. Portugal still has two colonies of much interest to the UN—Angola and Mozambique.

One move under consideration is to get Russia off the Committee of 17 so that its African, Asian and Latin-American majority may adopt a more sober policy on colonialism.

United Nations financial affairs will be extensively debated this year in getting the General Assembly to implement the World Court's recent opinion that UN special assessments must be paid, the same as regular contributions, by all members. The General Assembly must approve this by a two-third majority.

There are still half-a-dozen big-country members including Soviet Russia, the Ukrainians, Yugoslavia, Nationalist China, France and Italy who are more than a year behind in their special assessments. But countries must be two years in arrears on regular assessments to be subject to loss of membership privilege.

Hungary and Cuba recently paid up to less than two years deficiency—probably at Soviet insistence in anticipation of the World Court opinion. Guatemala and Yemen also paid up—the latter a secret Maria Theresa gold sovereigns. Only Paraguay and Bolivia are now more than two years in debt.

There will be no attempt to deny membership privileges to countries in arrears this year. But if the World Court opinion is upheld by the General Assembly, enforcement action could be initiated next year.

## Job Problem A 'Bust'

By Lois C. Wilson WASHINGTON (UPI)—If history repeats itself, as advertised, President Kennedy's effort to deal with unemployment by spending a lot of government money is likely to be an expensive bust.

Franklin D. Roosevelt found out about that a great deal to the U.S. treasury. The record also suggests that when large sums are appropriated for such make-work and pump-priming purposes, some of the money is likely to go for politicking.

The late Thomas L. Stokes pointed out that politicking with make-work money in Kentucky worked Harry L. Hopkins had sent some treasury funds in his effort to improve the lot of the common man. Publication of Stokes' findings brought angry New Deal denials. But the facts nailed Hopkins and Stokes got a Pulitzer Prize for a good and honest job of reporting. The record of New Deal

politicking with make-work money may or may not be complete with the Kentucky incident. There is dispute about that. The record of the New Deal effort to spend unemployment, away with treasury funds is complete in the tabulations of the sums advanced and the results achieved.

Congress has authorized an appropriation of \$900 million to President Kennedy for make-work or pump-priming projects. He signed the authorization last week. Congress still must appropriate before Kennedy can spend the money. FDR's first draft on the U. S. treasury to get the country moving again and to lick unemployment was for about \$3 billion. That was in the spring of 1933.

That was the high year of depression unemployment in the United States. Nearly 13 million persons were listed as unemployed; 24.9 per cent of the labor force. More appropriations were to come and alphabetical agencies

were established to disburse the funds—Federal Emergency Relief Administration with Hopkins in charge; Works Progress Administration with Harold L. Ickes, the old curmudgeon, on top.

The Encyclopedia of American History relates that FERA and WPA were attacked on grounds of inefficiency, extravagance, waste and political corruption. They were defended on grounds of constructive achievements and a rise in the national purchasing power.

The charge of corruption against WPA was laid after Hopkins had taken over from Ickes. Ickes in some ways was a close man with the taxpayers' dollars. Hopkins, a social worker by profession, was a fast man with a buck.

By 1934, unemployment had been reduced to about 9 million. By 1935, unemployment was up to 10.3 million. It was down to 8.1 million in 1940, a year in which the United States was spending big arms for itself and the British, then engaged in war with Hitler.

Nearly 10 per cent of the U.S. labor force, 5.5 million, was unemployed in 1941, the last year of peace before World War II. The drop from 10.3 million in 1940 to half that in 1941 apparently must be attributed to spending for armaments, not to the preceding pump-priming which continued through those years.

The year of greatest war effort was 1944; unemployment was down to 470,000. It was over 1 million in 1945; up to 3.6 million in 1949. In March 1950 the unemployed numbered 4.2 million, down about 150,000 from March 1949. Unemployed today are 3.9 million; 5.3 per cent.

## Matter Of Fact

Total expenditures for roads in the United States in 1961 amounted to \$11.6 billion, an increase of more than 5 per cent over 1960. Construction and right of way amounted to nearly \$7 billion and maintenance and administration to \$4.6 billion. Local units contributed approximately \$2.5 billion, states about \$6 billion and the federal government \$5.3 billion.

## No U. S. Tobacco Seed For Cuba

NEW YORK (UPI)—The government won a victory today in its efforts to stop shipment of American tobacco seed to Cuba. The Communist island nation is suspected of planning to go into competition with U. S. cigaret manufacturers.

Attorneys for Cubana Airlines notified the U. S. attorney's office in Brooklyn today that it has decided to drop the legal battle to recover 270 pounds of tobacco seed seized by federal agents at New York International Airport Sept. 3, 1960.

The seed could have grown 80 million pounds of tobacco suitable for cigars.

TWO THIRDS More than two-thirds of the nation's total "free farm" acreage is located in 12 Southern Pine producing states.

## 7 Yanks Hurt In Copter Crash

SAIGON, Viet Nam (UPI)—Seven U. S. military men were injured Tuesday, four seriously, when a U. S. Army helicopter in which they were riding crashed about 200 miles north of Saigon.

Four other U. S. Air Force officers escaped injury earlier when a youth tossed a grenade into their car in Saigon.

A spokesman said the crash of the jet turbine helicopter occurred about 8 p. m. in the mountains of South Viet Nam's central highlands near the outpost of Dakha, about 27 miles from the Laotian border.

Another U. S. military spokesman reported that South

**APPOINTED** — Career diplomat W. Walton Butterworth, 59, has been appointed by President Kennedy as ambassador to Canada. He will succeed Livingston Merchant, who has retired from the post.

**Miss Wilson To Meet With Bear Lake Club**

By Shirley Wentworth  
Miss Myrtle Wilson, Seminole County home demonstration agent, will be guest speaker for this month's meeting of the Bear Lake Community Club.  
The meeting will be held at 8 p. m. Thursday at the Florida Power Club on Bear Lake. Miss Wilson will discuss with the group the possibility of immediately organizing home demonstration and 4-H clubs in the Bear Lake-Forest City areas.  
Invitation to attend the meeting is extended to all interested persons from both communities.  
Hostesses for the social hour will be Mrs. J. N. Anrum and Mrs. Richard Gibbons.

**DeBary WSCS Has Luncheon**

By Mrs. Adam Muller  
WSCS members of the DeBary Community Methodist Church held a luncheon in the social hall of the church last Tuesday with Mrs. Ruth Cressney and her committee in charge of serving.  
Following the luncheon Mrs. A. Wagner presided at the business session with Mrs. Elmo Moore giving the devotionals and program on the theme, "Go ye Out Into All the World and Preach the Gospel."  
Rev. Damon Scott, pastor of the church, spoke to the group on "A House Divided Against Itself Cannot Stand" and Mrs. Ed McCarthy, spiritual life chairman, spoke on prayer circles.  
The book, "Making Prayer Real," by Dr. L. Radcliff, was introduced by Mrs. Harry Bell.

**SS Junior High Mothers Meet Set Thursday**

Mrs. Grace Fisher, county health nurse, met Tuesday morning with a group of mothers at the South Seminole Junior High School at Casselberry to form an organization of Clinic Mothers for the new school.  
Mrs. William Eckard, named chairman of the group, has called another meeting for 9 a. m. on Thursday in Room 16 and asks that all interested mothers who can assist with the program plan to attend.

**New Boy Scout Troop To Meet In Bear Lake**

By Shirley Wentworth  
The first meeting of Bear Lake's new Boy Scout Troop 230 will be held at 7:30 p. m. today at the Bear Lake Elementary School, sponsor of the troop.  
Bud Wooster is scoutmaster and assistants are Robert Bunnell and Bruce Nelson.  
Boys interested in joining the troop should contact any one of the leaders or inquire at the school.

About 200,000 Americans undergo surgery for eye cataract removal annually.

"SERVING ALTAMONTE SPRINGS, CASSELBERRY, FERN PARK, LONGWOOD, MAITLAND, NORTH ORLANDO AND SANFORD" from HIGHWAY 17-92 and STATE ROAD 436

# Army, LSU Rated 'Heavy Favorites'

NEW YORK (UPI)—Army and Louisiana State are heavily favored to present their new football coaches with vic-

By JACK TRIM  
Already in stock in Sanford are the 1963 Johnson outboard motors and Howard Smith of Seminole Sporting Goods said, "I guess the big news about them is that prices have been reduced on three models."  
Smith said Johnson is sticking with its V-75, 40 and 28 h.p. classes at the top of its line and the 18, 10, 5 1/2 and 3 h.p. "compacts."  
The big V-75 Super Sea Horse Electramatic has the four cylinder V-engine, with Electramatic clutch controlled by Johnson's exclusive Electramatic single lever remote control. It also features a built-in alternator generator with instant key turn starting. The price includes the new remote control and the V-75 is offered in a lower cost model without the Electramatic drive system or built in alternator generator.

The Super Sea Horse 40 also features the Electramatic drive and a high output DC generator is standard equipment. The 40 Convertible is the bargain model in the 40 h.p. class—an electric starting kit can be added later after the motor is in use.  
The Super Sea Horse 28 is a versatile power unit, good for water skiing or deep sea cruising, with big power at the lowest possible cost. It also may be fitted with the electric starting kit. It is one of the models with reduced prices.  
"Portable and powerful" is the description of the Sea Horse "compacts" headed by the 18 h.p. version. The 18 is designed for high speed performance for fishing skiffs or workhorse duty on house-

boats. The company says you will get over three hours cruising on one six gallon tank of gas.  
Johnson has found popularity for its 10 h.p. Sea Horse among almost all sized fresh water fishing boats and skin divers. Light in weight and easy to stow, the 10s offer over five hours of cruising on one gas tank.  
Another fisherman's choice is the Sea Horse 8 1/2—lightweight and quiet operating. Six hours at full throttle or 11 hours at cruising speed on one tank of gas is the claim for this one!  
The 18, 10 and 5 1/2 all feature full gear shift, complete silencing system, maximum corrosion protection, thermostat controlled cooling, fuel pump, recessed control panel, cushion-hub prop protection, large piston displacement, OBC certified horsepower rating, adaptable for remote control and complete six gallon non-pressurized fuel system.

The smallest Sea Horse is the 3, which weighs only 34 pounds, although still a twin cylinder. It has a fixed high speed carburetor jet and has an accessory the Long Range Cruising Kit, which makes possible the use of the six gallon fuel system to give 12 hours cruising time.  
The sturdy 3 has 360-degree full pivot reverse and Angle Matic Drive which lets you drive right through stumpy, weedy or shallow waters.  
Next time, there'll be a preview of the 1963 Evinrude outboard line and that will complete the looks at those handled locally.

ories in their opening games Saturday.

The Cadets, with former LSU head coach Paul Dietzel at the helm, are picked to defeat visiting Wake Forest by at least 15 points.

LSU is a 12-point choice over Texas A & M in another intersectional clash at Baton Rouge, La. The Tigers' new head coach is Charles McClendon, who served as an assistant at LSU for the last nine years.

Alabama, last year's No. 1 team also faces an easy task in its opener, according to the oddsmakers. The Crimson Tide is a 14 1/2-point favorite over visiting Georgia.

Duke, though, is only a 2 1/2-point choice over Southern California in their nationally televised "game of the week" at Los Angeles.

Oklahoma is a mere half-point pick over Syracuse, Stanford is only a one-point favorite over Tulane, Purdue is 2 over Washington, and Kansas is 3 over Texas Christian in other major intersectionals.

The odds on other games: Penn State 6 1/2 over Navy, West Virginia 6 over Vanderbilt, Northwestern 12 over South Carolina, Maryland 13 1/2 over Southern Methodist, North Carolina 7 over North Carolina State, Georgia Tech 11 over Clemson, Missouri 10 over California, Texas 16 over Oregon, Baylor 4 over Houston, Oregon State 6 over Iowa State, Arkansas 11 over Oklahoma State, and Kentucky 9 over Florida State.

## Women Softball In Full Swing

By Ronnie Broadway  
Herald Sports Editor  
Women's softball got into full swing Monday night with a double header being played at Ft. Mellon Park.

The first night of action for the newly formed league saw action all the way as the Try Me Construction team downed Florida State Bank 12-11 and Christian Missionary Alliance Church edged out Williams Restaurant 8-7.

In the first game, a last inning rally saved the victory for Try Me Construction team. Florida State Bank was off and running with a 5-0 first inning lead. Hard hitting and sharp fielding were the orders of the day, but despite the "fine defensive efforts, when the dust had cleared, Florida State led 5-0.

In the second game, Christian Missionary Alliance Church took an early lead and held it all the way to down Williams' Restaurant 8-7.

The churchmen, or should we say churchwomen, started off big with four runs in the top of the first. After holding Williams' Restaurant scoreless in the bottom half of the inning, they scored one more in the top of the second and took the lead 5-0.

## Jayees Set To Open Season Here Thursday

The Seminole Junior Varsity has a change in their opening season schedule.

The first game of the season, to be played Thursday will be played in Memorial Stadium at 7:30 instead of Daytona Beach as previously scheduled.

## Rides 3

NEW YORK (UPI)—Braulio Baeza rode three winners at Aqueduct Monday, including favored Black Beard in the \$10,000 Easy Mon Handicap.

# Yanks Sew Up Flag; Mantle Sights MVP

By United Press International  
Now that they've got the pennant all but locked up, the Yankees are embarking on another campaign to see to it that Mickey Mantle wins the American League's most valuable player award.  
If he does, it will be the

third time he has done so in his career; and if he doesn't, his teammates feel it'll be a miscarriage of justice.

They said as much Tuesday night after Mantle teed off for two tremendous homers and drove in five runs in a 7-1 victory over the Washington Senators that padded the Yankees' lead to four games.

Mantle, who won his last MVP award in 1957, thinks this year's trophy should go to little Bobby Richardson.

But Richardson only laughs when he hears that.

"I think Mickey's performance tonight sums up everybody's feeling on this club," said the Yankee second baseman following Mantle's showing Tuesday night.

Mickey, who is hitting at a .478 clip in the last 15 games, has boosted his average from .390 to .318 during that span.

Both of his homers Tuesday night, his 28th and 29th of the season, came off Senator starter Tom Cheney, who was making his first appearance since striking out 21 Baltimore batters in a 16-inning game last week.

Mantle hit his first homer with two on in the first inning. The ball traveling about 460 feet from home plate, Mick made it 3-0 in the third inning when he belted one 300 feet with one on.

Richardson wasn't idle, either. He collected three singles to raise his hit total to 197, tops in the American League. Between them, Mantle and Richardson helped Ralph Terry register his 22nd triumph of the year. Terry allowed seven hits and had a shutout until the eighth.

Detroit downed Minnesota, 2-1, the Baltimore Orioles handed the Los Angeles Angels their sixth straight defeat, 5-2, the Boston Red Sox outscored the Chicago White Sox, 10-5, and the Kansas City A's won their sixth straight by beating the Cleveland Indians, 6-1.

In the National League, the Milwaukee Braves dealt the Los Angeles Dodgers their third straight loss, 10-3, thereby cutting the Dodgers' margin to 3½ games over the

idle second place Giants. The Cincinnati Reds moved within 4½ games of the top with a 7-4 win over the Pittsburgh Pirates in 10 innings, the Houston Colts took a pair from the New York Mets, 6-2 and 8-4, and the Chicago Cubs edged the St. Louis Cardinals, 4-2.

The Aaron boys, Hank and Tommie, proved too much for the slumping Dodgers. Hank hit his 49th homer plus a double while Tommie drove in three runs with a double and two singles. Carl Willey was the winner and Johnny Podres the loser. Maury Wills stole his 83rd base and now is only three shy of Ty Cobb's modern mark.

### UPW Circle One Has Meeting In Lake Mary

By Frances Westor  
Mrs. James M. Thompson was hostess to Circle One of the U.P.W. of the Community Presbyterian Church of Lake Mary for their September meeting held at her home on Lake Mary.  
Mrs. W. C. Hopkins, leader of the circle, opened the program by remembering those missions and their leaders to be remembered and receive prayer on that particular day by the U.P.W. all over the world.  
The devotional, given by the hostess, led to the presentation by Mrs. Kay Sassman of lesson seven and eight from Study Guide on Romans.  
An important business session followed and a reminder by Mrs. Hopkins that the Least Coin cards will be due at the next meeting in October. Minutes of the last meeting were given by Mrs. Arilyn True, circle secretary.  
A social hour followed when refreshments of ice cream, angel food cake and coffee were served by the hostess.  
Other members present were Mrs. Horace Cochran, Mrs. John Piller, Mrs. H. M. Rice, Mrs. R. J. Howell, Mrs. Robert Rugenstein and Mrs. A. E. Freese.

### Legion Auxiliary To Induct New Members Here

An initiation and reception for 29 new members of the to Campbell Loring Post 53 will be held Saturday at 8 p. m. at the Legion Home on Hwy 17-92.  
Mrs. Roy Tillis is chairman of the event with the following members assisting: Mrs. Paul Perold, Mrs. Carl Culber, Mrs. Emmet Baxter and Mrs. W. B. Brinson.

The Virgin of Guadalupe is the patron saint of all Mexico.

'Take Risks'

'Affirmative' Action On Cuba -- Bryant

TALLAHASSEE (UPI) — Gov. Farris Bryant called today for "affirmative action" by the United States to free the Cuban people and eliminate Communism from this hemisphere.

Heavy Rains Hit Area; No Road Damage

Sanford weathermen said close to two inches of rain has fallen in the Seminole County area in the last 20 hour period.

At the same time, the weather bureau ordered small craft warnings hoisted today from Apalachicola south to Key West and eastward through the keys to Tavernier.

Sanford and county officials reported no rain damage to roads but County Engineer Bill Bush reported he is still watching W. First St. in case of any farmland flooding.

Forecasters said southerly winds from 15 to 25 knots becoming higher in local squalls were expected, except north of Cedar Key, where northeasterly winds from 15 to 25 knots were expected.

Winds south of Cedar Key were expected to veer toward the southwest, the Weather Bureau said. A weak low in the Eastern Gulf of Mexico about 250 miles west of Fort Myers was expected to move slowly northeast across the northern peninsula, bringing heavy rains.

Most of the state had rainy weather Wednesday and today, with Orlando reporting more than five inches in a 24-hour period. Daytona Beach had 3.06 inches in a 24-hour period, and Sarasota reported 2.16 inches for the same period.

40 Captured In Argentine Revolt

BUENOS AIRES (UPI) — Government forces went into action today against a rebel armored column moving on Buenos Aires and captured 40 prisoners.

The first terse government announcement did not say whether any actual fighting took place or if there were any casualties. A communique said the prisoners were taken south of the large industrial city of Lanus, only six miles south of Buenos Aires.

The dispute which threatens economically-troubled Argentina with civil war is between two rival army factions over the appointment of Gen. Jose Octavio Cornejo Saravia as secretary of war and Gen. Juan C. Lorio as army commander in chief.

The 12,000-man garrison at Camp de Mayo, 20 miles south of Buenos Aires, has backed Gen. Carlos Juan Onganía in a demand to oust the secretary of state and the army chief.

Damage Heavy Two Hurt In 4 Mishaps

Four accidents Wednesday resulted in two people being hospitalized and damages totaling \$1,043 to four automobiles, two trucks and a motorcycle.

At 8:45 p. m. Wednesday night, during the heavy rain a compact car driven by Mrs. Lois Smith, 41, 1567 Oak Lane, Casselberry, proceeded south on Hwy 17-92, was struck in the left rear quarter when Mrs. Smith swerved from the outside lane across the passing lane in front of a semi-trailer truck driven by Albert Bevis, 23, of Brandon, Fla. As yet no charges have been placed against Mrs. Smith.

U. S. Challenges Reds To Halt Nuclear Tests

UNITED NATIONS, N. Y. (UPI) — The United States renewed its challenge to Russia today to stop nuclear tests and agree to disarmament under United Nations inspection.

Ambassador Adlai E. Stevenson, delivering the major U. S. policy speech to the young General Assembly session, appealed for "not just a strong, but a stronger United Nations."

Stevenson argued for election of a strong secretary general with "full freedom and authority." The United States already has endorsed Acting Secretary General Thant for the post.

Stevenson urged the assembly to put the United Nations on a sound financial basis. He asked for approval of an International Court opinion that the organization's peace-keeping costs, such as in the Congo, are subject to assessment on all members.

Bryant reiterated his earlier recommendation that Floridians should listen to former Communist Dr. Bella Dodd. "She ought to be on the intellectual must list of every Floridian," Bryant said.

Bryant said his press aide, John Evans, was in Chicago to push the programs discussed last July at the governor's cold war conference on education. He indicated Evans would be looking for money and support for expanding the program, which Bryant said will enable citizens "to arrive at a balanced personal perspective of the existing threat to our way of life."

On another subject, Bryant threw cold water on reports he was related by birth or marriage to Ralph Clark, who he appointed to the post of Brevard County sheriff. "I've never heard of a Clark in the family," he said.

Bryant Defends \$100,000 Study

TALLAHASSEE (UPI) — Use of private funds to finance a \$100,000 study of needs of higher education in Florida was strongly defended today by Gov. Farris Bryant.

A Tampa delegation headed by State Sen. Sam Gibbons criticized this approach to expanding the university system and said it might "taint" the study.

"It taint going to taint it," Bryant told his news conference. He said the educators who make the study will not know the source of the money.

The compact was estimated at \$500 and to the truck, at \$100, by Trooper J. L. Bikes. Gerald Claus, 31, Rte. 2, Maitland, suffered severe facial injuries when he lost control of his motorcycle on West Lake Brantley Road, Forest City. The accident was not reported to the Florida Highway Patrol until late afternoon. Claus was taken to the Florida Sanitarium and Hospital by a resident living near by. The accident occurred at 8:45 a. m.

Another Forest City accident resulted in minor damage to the car of Andrew E. Schuster, 73, Rte. 2, Maitland, when he attempted to make a sudden turn off SR 436 into a shopping center parking lot and was struck by a pick-up truck driven by

ADLAI STEVENSON U. S. Challenges Reds To Halt Nuclear Tests

Million Dollar Suit Filed Against North Orlando Co.

A million dollar suit for breach of contract has been filed in the County Clerk's office by Landmark, Inc., a Florida corporation, against the North Orlando Co., the North Orlando Utilities Co., and the Silver Creek Precision Engineering Corp., of Silver Creek, Md., it was learned today.

The action by the Landmark Corp., demands judgment to the extent of \$1,200,000, the alleged damages suffered by the company for the failure of the local concern and the parent Maryland company to perform on the May, 1961 agreement.

news... BRIEFS

Winter Comes In By United Press International A breath of winter tumbled temperatures from the plains to the Atlantic Seaboard early today.

Gunbattle ALGIERS (UPI) — A gunbattle broke out between rival troops today during the first national election since Algeria became independent from France.

Nuclear Blast WASHINGTON (UPI) — The Soviet Union exploded the second largest nuclear device of its current test series Wednesday, the U. S. Atomic Energy Commission reported.

No Trouble WASHINGTON (UPI) — Congressional negotiators were expected to have little trouble resolving minor differences between Senate and House passed trade bills.

Campaign BUFFALO (UPI) — Gov. Nelson A. Rockefeller, nominated by acclamation for a second term by the Republican state convention, prepared today for a "fighting campaign" for re-election in November.

Doubling Rate WASHINGTON (UPI) — The secretary of health, education and welfare said Wednesday the rate of Cuban resettlement must be doubled to relieve Cuban congestion in Miami and to keep pace with refugee arrivals.

Soup Kills One TAMPA, Fla. (UPI) — William D. Seaman, 70, died and Edward Hanewald, 70, was hospitalized Wednesday after they ate soup containing foodstuffs. Police said the men picked the foodstuffs thinking they were mushrooms.

Law Upheld TALLAHASSEE, Fla. (UPI) — The Florida Supreme Court upheld a state law Wednesday under which members of a racial group were sentenced to one-year probation for refusing to leave a Miami restaurant. The high court ruled that "the statute is non-discriminatory and... reflects a valid exercise of the legislative power of the state of Florida."

Up Wage Floor Urges USW MIAMI BEACH (UPI) — Steelworkers Union convention delegates gave thunderous support today to a resolution calling on Congress to raise the minimum wage to \$1.50 an hour.

The resolution said the present minimum wage of \$1.25 an hour is not enough.

'Ole Miss Awaits Negro; Faces Possible 'Arrest'

OXFORD, Miss. (UPI) — Negro James Meredith was made subject today to possible arrest as he prepared to enroll at the all-white University of Mississippi here.

As he was preparing to leave Memphis, however, a Justice of the peace court in Jackson, Miss., held an early morning trial on a charge Meredith once listed the wrong county in applying to vote and thus falsified the registration. He was convicted and sentenced to the maximum penalty of one year in jail and a \$500 fine.

Neither Meredith nor his attorney was present although they had been notified the trial would take place. Justice of the Peace Homer Edgeworth said Meredith was subject to arrest on this side of the state line. Had he been at the trial, Meredith's attorney could have posted appeal bond.

The trial followed a barrage of last-ditch maneuvers by state officials to attempt to prevent integration of the school. There also were several incidents on the campus here.

Meredith does not have to register today although it was scheduled for Thursday students and he is a junior transfer from Jackson State College for Negroes. He could wait until Friday, the day for late registration, when classes would be underway and there would be less student activity on the campus.

In contrast to the orderly registration of most of the university's 8,500 students Wednesday, there was a flurry of activity at the state Capitol in Jackson.

The state College Board argued for five hours and then broke up at 2:30 a. m., today without reaching a decision on whether to bar Meredith from the university. Gov. Ross Barnett, who has directed state officials to go to jail rather than obey federal desegregation orders, said after the meetings, "We didn't reach a decision on anything."

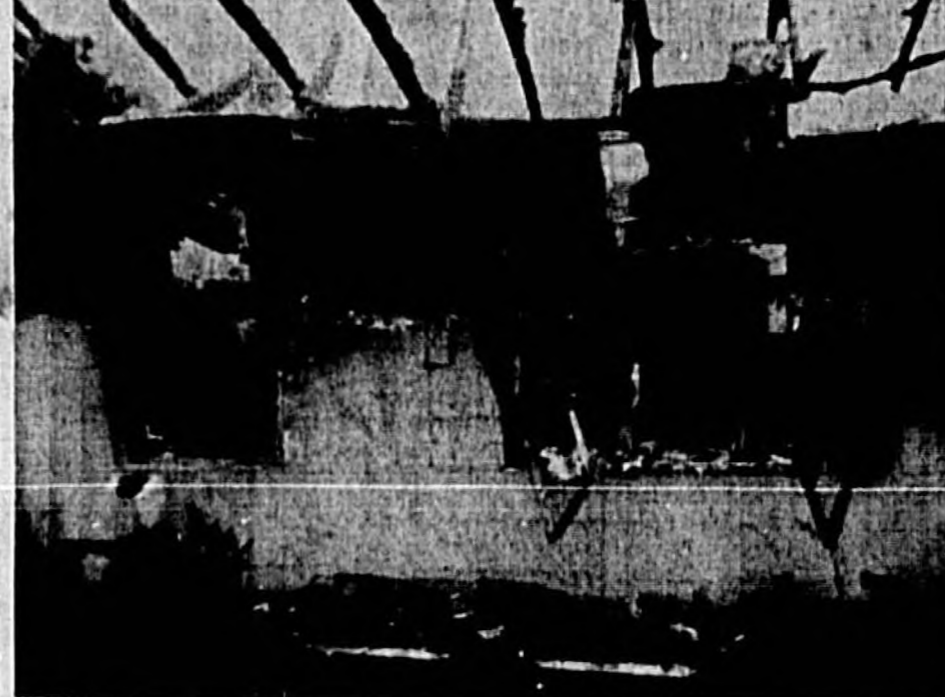

Barnett left for the Capitol after the meeting to sign into law a bill passed by the legislature Wednesday with the aim of keeping Meredith out of the university. It provides that a state college or university can bar any person who has a "criminal charge of moral turpitude pending against him."

Espallat, onetime secret police strongman in the Dominican Republic, charged Wednesday night the U.S. Central Intelligence Agency helped assassinate his former boss, dictator Rafael Trujillo.

Espallat, who has been ordered deported to his homeland within 30 days, said in an appeal to Immigration Commissioner Richard A. Bell his arrest here was an American plot.

The 40-year-old former head of Trujillo's security police claimed the United States would have him killed if he is sent back to the Dominican Republic.

No More Glass NEW YORK (UPI) — Playwright Tennessee Williams has withdrawn permission for future performances of his most popular play, "The Glass Menagerie." It was announced today.

FIRE COMPLETELY GUTTED a vacant house on Holiday Ave. in Bear Lake early Wednesday afternoon. The house, which up until two weeks ago was occupied by a family with five children, is owned by Mrs. Mary Cahoon of Winter Park. The fire of undetermined origin, spotted by Mrs. Elizabeth Woods who lives next door at about 1 p. m., was brought under control by the Lockhart Volunteer Fire Dept. (Herald Photo)

Altamonte Budget Soars

The Altamonte Springs and sanitation \$13,280, which includes the cost of a new garbage truck and a pick-up truck for the town.

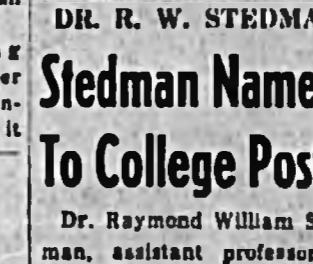

Another item is a \$1,200 increase in the Police Department and an \$1,100 increase in the Town Clerk's salary. The general fund has been upped \$13,499 to cover the rental on the fire hydrants for the new water system and other connected items.

In other business the council listened to a complete analysis of the insurance policies held by the town, and a suggested insurance program which would serve the needs of the municipality better than the present set-up.

The total budget for the year runs to \$48,373, with the millage on real estate remaining at seven mills.

Increased expenditures are shown in the new budget including upping the cost of streets

was pointed out that over \$100,000 is being spent by Cohn.

DR. R. W. STEDMAN Stedman Named To College Post

Dr. Raymond William Stedman, assistant professor of journalism and communication at the University of Florida, was announced Wednesday as dean of the new Seminole College which is slated to open in North Orlando in September, 1963.

Appointment of Dr. Stedman to the top administrative position of the projected four-year institution was announced by Morris S. Hale Jr., president of Orlando Junior College. Trustees of the college recently revealed their plan to expand on some 300 acres of land in North Orlando offered by the North Orlando Company.

Any Opinions?

If any Seminole County customers of the downtown Sanford shopping area have opinions they would like to express on what should be done to make the area more convenient and attractive for the public, The Herald invites them to fill out the coupon below and send it in as part of a public poll.
