

ACL President Gratified Over Report Of ICC

NEW YORK, June 2. (AP)—Directors of Atlantic Coast Line Railroad Co. today authorized acceptance of a reorganization plan for the Florida East Coast Railway Co. under which that road would be merged with the Atlantic Coast Line.

WILMINGTON, N. C., June 2. (Special)—C. McD. Davis, president, Atlantic Coast Line Railroad, told representatives of the press Saturday that he has had opportunity to review the Third Supplemental Report and Order of the Interstate Commerce Commission in Florida East Coast Railway Company reorganization, which report and order was released on May 20.

Mr. Davis said that a special meeting of the Coast Line's Board of Directors has been called for Monday, June 2nd, to take the necessary formal action to recommend acceptance of the terms of the plan approved by the Commission.

Mr. Davis reminded that the previous report of the Commission were published before hearings upon the Atlantic Coast Line's merger plan were held, and therefore before the important question of the public interest was injected. The record upon which those earlier reports were based contained principally discussion of financial details, etc., no representations having then been before the Commission with respect to requirements of the public interest as to control and future operation of the Florida East Coast Railway property.

"My first reaction upon reading the report," Mr. Davis said, "was a feeling of gratification that the Commission had found, on basis of the extensive record, that it will be in the public interest for Coast Line to control the Florida East Coast Railway property."

"And when and if the plan of reorganization now just approved by the Commission is confirmed by the Federal Court and when that plan is consummated, it is the earnest desire of Coast Line management to continue to render such transportation service to the east coast of Florida as to justify the Commission's expressed confidence in Coast Line control and operation of the FEC property, and to warrant approval of such control and operation by patrons of the railroad."

Graduation

(Continued from Page One) ard, Eugene Lominack Jackie MacDonald, Walter Routh and Ruby Stenstrom. Eight grade awards were given to Agnes Bennett, Bobbie Jean Galloway, Carleen Hollenbeck, Kay Holtzclaw, Richard Hoohehan, Margaret Hunt, Joynie Mae Jones, Cathryn Lee, Barbara Mc Nab, Martha Smith, Billy Tyson and Edwin Varn.

The seventh grade geography award went to Ellen Driggers; the science award went to Ann Whitaker and in the mathematics award Robert Beckwith, George Herndon and Walter Routh were tied for first place. Top spelling honors were won by Margaret Maloy, Ann Whitaker, Barbara Wathen and Betty Jean Brisson.

Principal R. E. True presented the following graduates with diplomas: Lloyd Reynolds, Charles Benton, Douglas Oglesby, Charles Willis, T. I. Harris, Ronnie Garner, Ramon Harper, Earl Ratliff, James Hanson, Morris Metts, Kenneth Robbins, Curtis Johnson, Stanley Oglesby, Joel Fontaine, David Hester, Forrest McTeer, Lewis Hughes, Clark Messer, Austin Downs, Robert Axi, Marion Butler, Johnny Walker, Alan Rozon, Richard Hoohehan, Rudolph Smith, Martin Taylor, James Benton, Cecil Landress, Jackie Swain and Denny Stafford.

Joe Joyce, Leland Beckstrom, Alan Hotzel, William Tison, Vernon Stacy, Edwin Varn, Garret White, Clarence Clause, James Kendall, Leonard Taylor, Leroy Rosier, Walter Graham, Charles Lee, Robert Cawley, Eugene Bennett, Robert Franklin, John Tyner, Bernard Wilke, Jack Jones, William Dorton, Guy Stevens, Henry Hardy, John Michels, Edson Myers, John File and John Stevenson.

Juanita Bridges, JoAnn Strawder, Jacqueline Rowland, Jeanette Wolfer, Jean Marcell, Patsy Bronson, Edith Dougherty, Kay Holtzclaw, Kathryn, Cullum, Margaret Hardy, Katrina Oglesby, Jean Frier, Shirley Middleton, Sue Collom, Marjorie Sheppard, Penny Wallace, Lois Westfall, Margaret Hunt, Lucille Landress, Ethel Williams, Edna Michels, Mildred Ervin, Arlene Jacobson, Carleen Hollenbeck, Dorothy Wickiser, Nellie Bowen, Barbara Ann Pearce and Mary Lee Boyd.

Agnes Bennett, Joynie Mae Jones, Lourena Cassidy, Carolyn Patrick, Dial Boyle, Donna Lou Parler, Betty Lou Partin, Barbara McNab, Patsy Stokes, Patricia Casube, Camilla Whitten, Joyce Anderson, Evelyn Watkins, Mary Ann Krienbring, Bobbie Jean Galloway, Cathryn Yaten, Barbara Petras, Frances Moore, Ailene Greene, Mable Cherry, Martha Smith, Joan

State Finance Needs

(Continued from Page One) the final week of the biennial session opened with no definite program for raising new revenues in sight.

The Governor sent word to the House and Senate that he would like to address them during the day. He did not say, in his formal message, what he would like to discuss but there was only one main subject before the Legislature and he told reporters he would talk about "finances."

His message followed an appeal by Speaker Thomas D. Beasley for the House to raise "seven to eight million dollars" in new taxes to keep the Legislature from leaving Florida's school teachers "holding the bag" by virtue of a fund shortage.

A move to bring a 3-percent gross receipts tax out of the Senate Finance and Taxation Committee was delayed pending a joint meeting of the House and Senate to hear the Governor.

The Legislature passed and sent to the Governor a bill extending Florida's bribery laws to cover attempts to influence legislative attaches and candidates as well as members. The measure, was passed by both branches without a dissenting vote.

The bill was recommended by the special Leon county grand jury which last week indicted Rep. Bernie C. Papy on two charges of attempting to bribe members of the Legislature but said it found no law to cover two other alleged offenses.

The grand jury reported Speaker Beasley had testified that before he was re-elected to the Legislature but after he had been unofficially designated as speaker for 1947 he was offered \$5,000 to name Papy chairman of the 1947 committee on public amusements, which customarily considers bills pertaining to racing and gambling.

The grand jury also said Dewey Hooten, House engraving clerk, had testified he was offered \$100 to help defeat the bill designed to curb race bookmaking at this session.

Neither of those alleged bribe attempts was a violation of Florida law, the grand jury found. It indicted Papy for attempting to bribe Rep. Odham of Seminole and Camp of Marion to vote against the bill. With a motion to expel him pending before the House, Papy resigned from the Legislature last Friday.

The House today passed, and sent to the Senate a bill authorizing free Florida auto license tags for totally and permanently disabled war veterans. Rep. Wilson of Columbia, steering the bill to passage, said only about 1,000 bona fide residents of Florida with service-connected total and permanent disability could comply with the law and it would cost the state about \$15,000 a year in tax revenues.

A bill to establish a five-day, 40-hour week for employees of seven state departments was defeated 43-26, by the House. Supporters said all departments whose heads had objected had been eliminated from the bill and that the 40-hour week actually would add an hour to the present schedule while giving employees all day Saturday off. They now work Saturday morning.

A proposed constitutional amendment authorizing appointment of the director of the State Highway Patrol by the cabinet was introduced by Senators Sturgis of Ocala. Under the proposal, the director and members of the patrol would have full power of arrest.

Grammar School

(Continued from Page One) kinson, Bob Welton, Eloise Benton, Rosa Coke Boyle, Beatrice Brown, Evelyn Dorton, Beverly Gray, Sylvia Hayes, Earlist Saucier, Phyllis Shany, June Vance, Betty Gatlin, Sammy Jacobson, Nettie Bowen, Cecil Shippard, Linda Leonard, Mary Lou Copeland, Warren McCall, Melyn Fleischer, Chester Harper, Shariene Corn, Tommy Spear, Sydney Chase, Wesley Hamill, Joe Hutchison, Henry Womack, Edwin Lockett, Mary Lou Bowen, Ethel Geisler and Janice Reel.

Thursday morning a group of Grammar School students gave a good will chapel program at Leon, Monroe and Wilson schools. The following students participated: Banks Register who demonstrated an experiment in science, Richard Hall, piano solo; John Amann, piano solo; Patricia Platt, group of songs; Peggy Wright, piano solo; Nancy Roundtree and Esther Lou Morrison, piano duet. The pupils were accompanied on the trip by Principal B. C. Steele.

Hicks, Mary Jane Dobson, Irene Greene, Joyce Weber, Penrose Hutchison and Rosemary Salisbury.

Belgium has a population of 8,250,000 and is divided into nine provinces. It is the most crowded country in Europe, with 710 inhabitants per square mile.

SHIPMENTS OF SPRING PRODUCE IS DIMINISHING

JACKSONVILLE, June 2. (Special)—Diminishing offerings of spring produce, the opening of the watermelon movement, current conditions affecting other crops and the outlook for summer and fall featured the Florida agricultural scene this week-end. While heavy shipments of various spring crops are still going forward, the peak of the movement has passed, and reports received in Jacksonville offices of William L. Wilson, Director of State Markets indicated that the center of interest will shift rapidly in the next few weeks, to other crops, and to the normal summer-season activities which form an all-important part in the year-round Florida program of production of fruits, vegetables and other products.

"Right now," said the Markets Director, "I'd like to call the attention of Florida housewives to the importance of canning and preserving foodstuffs, for family use later in the year. Normally at this season, as tomato shipments slow down, there are available in producing areas large quantities of this important food product which are too ripe for handling in a commercial way. These red-ripe, vine-ripened tomatoes are at the finest possible stage for food purposes, and large quantities are normally canned by thrifty Florida women. In the producing areas prices for these tomatoes are usually reasonable, I understand, and in some instances growers give them away to people who come to the farm and pick the fruit from the vines. Of course there are other products suitable for canning, which are available at various points throughout the State. The fortunate ones who are able to take advantage of the present available opportunities will benefit in health and pocketbook, through the months ahead, when fresh products are not so readily available."

"Some weeks ago I mentioned the poultry products outlook. It was not bright from the consumer's standpoint. I haven't noticed any material improvement in the intervening period. In view of the apparent certainty of light supplies for next fall and winter, I feel it is unusually important for Florida farmers, and others who are in position to handle poultry to maintain their flocks at as near normal levels as possible. Families able to keep enough hens to supply their own tables with eggs, and poultry will benefit decidedly, and it looks to me as though those who have such products to sell can be pretty sure of good prices for some months to come."

POPE PIUS XII MAKES PLEA TO PEACE-MAKERS

VATICAN CITY, June 2. (AP)—Pope Pius XII today portrayed "fruitless conferences succeeding one another" and appealed to the world's peace-makers to grasp the remaining opportunities to restore normal relations among nations. "The peoples, bitterly deluded in their desire for order, peace and reconstruction, are coming to lose patience and hope," the Pontiff said; but he admonished them: "Fear not."

"There is always room for a necessary element," he added. "May the rulers of the world let slip this opportunity; it may be, God forbid, the last opportunity."

The Pope spoke after receiving the cardinals' greeting on his name day. The address was broadcast in several languages by the Vatican radio.

Pope Pius said stalemated commerce and unemployment in some nations might spread to others in the near future. "The prosperity of nations cannot be safe and secure if all do not share in it."

A NEW GUINEA GIRL IS DECORATED WITH THE TEETH OF HER ANCESTORS AND VARIOUS ANIMALS FOR HER MARRIAGE

Hungarian Aid

(Continued from Page One) agreement not to talk with western diplomats about weekend shifts in the Hungarian government.

Pro-western Hungarians have seen a Communist coup, aimed at a police state, in these shifts in which Hungary got a new premier and a new foreign minister, both reputed to be pro-Communist members of Nagy's majority small landholders party.

Nagy, who meanwhile is on a Swiss vacation and has not returned to Hungary, was replaced Saturday by Lajos Dinnyes.

The ex-premier was accused of taking part in a revolutionary conspiracy in purported depositions from Hungarian politicians quoted in all Budapest newspapers yesterday. These supposed depositions were taken by Russian military authorities in Hungary.

A man in high position who was close to Nagy and his family said that interior minister Laszlo Rajk, a Communist, objected to permitting the former premier's four-year-old son, Laci Nagy, to leave the country. This man said that the Hungarian Communists wished to hold the child as a political hostage to prevent his father from doing anything "rash."

The informant said, however, that despite this the Russians had already granted clearance for Laci and a nurse and chauffeur to take him out of the country along with the former prime minister's "newly high black peasant's boots, which Nagy asked for apparently in a moment of nostalgia."

A reliable informant said today that Bela Varga, speaker of the house and No. 2 man in the government of former premier Ferenc Nagy, had fled Hungary to avoid Communist arrest and was presumed to be in the American zone of Austria.

Armed Forces

(Continued from Page One) proceed actively with its further development and production."

The training plan: It would be under a special government commission with one military and two civilian members. A "selective training system" would be set up, with local boards similar to the Wartime Selective Service; all youths would register when they reach the age of 17, and would be called up for training when they become 18 or finish their secondary schooling, whichever is later.

They would get six months of basic training in camps or on ship-

board. They would be required either to take six months more of training or its equivalent in service in the R. O. T. C., National Guard or other forms. Special programs would be provided for those unfit for regular training and for conscientious objectors.

Trainees would get \$25 a month plus allowances for any dependents. They would get no benefits under the GI Bill of Rights or other veterans legislation.

It would be a federal offense to sell liquor to a trainee.

Racial or other segregation would be banned. The program would start one year after Congress passes the necessary legislation. Training would be given in two periods a year, one starting May 1 and the other Nov. 1.

Up to 950,000 would be trained each year. About 230,000 persons would be needed to furnish the training.

Comparison with other countries: Among the "Big Five" powers, the United States stands alone in providing no compulsory military training.

Russia, Britain and France require service in their armies, and China enforces conscription partially.

Only six foreign countries, out of 54 which maintain armies, rely wholly on volunteers to man peacetime armies and navies as does the United States. They are Australia, Canada, Eire, India, New Zealand and the Dominican Republic.

## Bookie Bill Comes To Life Again But 'Is Knocked In Head'

### Legislature Dilly-dallies On Taxes But Hears Plea For 3% Gross Sales Tax

TALLAHASSEE, June 3, (AP)—The rebounding "bookie bill" which has provided the greatest sensation of the 1947 Florida Legislature was revived and knocked in the head again today.

Finances remained the No. 1 question in the closing days of the biennial session, with the focus on differences of millions in the estimates of needs supported by Governor Caldwell and legislative taxation leaders. Nearly all finance activity still was in committees, however.

Despite Governor Caldwell's estimate that \$34,800,000 must be raised, there was a strong tendency in the Legislature not to attempt to produce any appreciable part of that sum.

Sales tax foes received public assurance from Rep. Murray, of Polk, chairman of the House Finance Committee, that there would be no need for passage of such a bill at this session.

A fourth, new version of the bill denying telegraph and telephone services to race bookmakers, which brought on bribery charges that led to indictment and resignation of Rep. Bernie Papp of Monroe, was brought in by the rules committee at the top of the calendar today.

It immediately was ruled out of order and sent to the railroads, telegraph and telephone committee which has defeated or withheld approval of three predecessors.

A motion to withdraw it from (Continued on Page Two)

## New Government Of Hungary Will Recall Envoys

BUDAPEST, June 3, (AP)—Hungarian political informants said today Hungarian representatives abroad, including Aladar Stegedy, Maszax, minister at Washington, would be recalled in a few days by the new Communist-dominated Hungarian government. The diplomats are to "report to the government," the informants said.

Prominent among those said to be scheduled for recall were Paul Auer at Paris, who was pro-West, and a view, he left Hungary, and Ferenc Gordon, minister at Bern, a friend of former Premier Ferenc Nagy, who resigned as head of the government last week while on vacation in Switzerland.

Developments in the Hungarian political situation moved swiftly. It was announced that the new premier, Lajos Dinnyes, the left-wing small holder, had chosen two Communists to head his official press department.

Rumors circulated without confirmation, that minister of the interior Laslo Rak, a Communist who several times has threatened to expel the foreign press, planned finally to do so when the Hungarian peace treaty was ratified.

An allied diplomatic source said today that Bela Varga, speaker of the house who fled Hungary yesterday in Paris, is a Communist who has crossed the Russian zone of Austria without incident and is now "in a safe place."

## Ringling Re-instated As Head Of Circus

DOVER, Del., June 3, (AP)—The Supreme Court of Delaware today reinstated Robert E. Ringling, 69 of New York, as president of the Ringling Bros.—Barnum and Bailey Combined Shows Inc.

The court's decree, also removed James A. Halsey, John Ringling North and James E. Griffin, who claim the offices of president, first vice president and secretary-treasurer, respectively, by enjoining them from "in any manner interfering with the conduct of the business and affairs" of the circus.

**REAL ESTATE SALE**  
One of the largest tract estates made this year was the purchase by E. W. East of five different tracts of vegetable producing land located in Black Hammock and the Orvidio and Chuluita sections from E. F. Long and wife.

The land, developed and unimproved, totals more than 150 acres. Previous status on the deed indicates that the purchase price was \$80,000.

## U. S. - Argentina Take Steps To End Differences

### Diplomat Views For Truman Anti-Nazi Steps Taken

WASHINGTON, June 3, (AP)—President Truman received Argentine Ambassador Oscar Ivanovitch today and the White House said the Chief Executive indicated willingness to consult anew with other American governments on United States - Argentine differences.

Secretary of State Marshall and Undersecretary Acheson attended the meeting after which the White House issued this statement:

"The Argentine ambassador, who has just returned from Argentina, reviewed with the President and the Secretary of State the steps which his government has taken and is continuing to take in fulfillment of its commitments undertaken in the final act of the Inter-American Conference on Problems of War and Peace."

"He expressed the view of his government that no obstacle remained to discussions looking toward the treaty of mutual assistance contemplated by the Act of Chapultepec."

"The President indicated his willingness to renew the consultations with the governments of the other American republics initiated by the United States memorandum of April 1, 1945 on this subject."

"The Act of Chapultepec called for elimination of Nazi influences in this hemisphere. The United States has demanded that Argentina fulfill these commitments before this country will negotiate a proposed Inter-American mutual defense pact."

The White House statement gave no clear indication whether the United States considers satisfactory the most recent steps which the Argentine government has undertaken to clean house of Nazi influences.

Ten days ago the Argentines aimed a new series of actions at alleged Nazis in their country. Foreign Minister Bramuglia said at the time that this cleaned the slate of commitments under the Chapultepec pact.

## Additional Students Arrested In China

SHANGHAI, June 3, (AP)—The arrest of 140 students and a professor at Tientsin was reported today as students in Shanghai and Peking boycotted classes, expressing resentment against crackdowns yesterday by police and soldiers to forestall anti-Communist demonstrations.

Chinese press dispatches said at least 60 students and several professors of Shantung University at Tientsin were beaten in a clash with soldiers Monday night. Earlier, the newspaper "King Tao" reported three students were killed at Hankow and two others killed and two seriously wounded at Chungking in fights with police.

## Curley To Ask Court To Reconsider Case

BOSTON, June 3, (AP)—Mayor James M. Curley will appeal to the U. S. Supreme Court to reconsider its refusal to reverse his conviction on mail fraud charges. The 73-year-old former governor and congressman said last night his counsel would file the petition within 25 days and indicated he had no intention of resigning even he had to keep the city of 600,000 from jail.

Curley faces a 6 to 18 months jail term and \$1,000 fine. He was convicted as one of a group who allegedly falsely represented they could obtain government contracts for clients.

**CORRECTION**  
The Herald regrets the omission of the presentation of an award to John Fife in mathematics and to Clarence Clause, who tied with Dial Boyle, in science, in the story Monday night of the Junior High School graduation exercises.

**DE HOLT HOLDING OWN**  
ORLANDO, June 3, (AP)—Dr. Meredith Mallery physician to Dr. Hamilton Holt of Rollins College, reported last night that his patient "is slightly better and holding his own" in recovering from an appendectomy last week.

## 124 Receive Diplomas At SHS Exercises

### Graduation Program Planned By Students, Announced By S. Dingfelder

Actual demonstrations of how modern, audio-visual methods of education have supplanted those of the "horse and buggy" days in preparing modern youth for world citizenship provided the theme last evening of the highly impressive graduation exercises at Seminole High School in a program planned by the senior students in which the usual outside speaker was dispensed with.

Principal Herman E. Morris presented diplomas to the 62 boys and 62 girls of the graduation class following the regular program which was announced by Simon Dingfelder, president of the Senior Class.

Pointing out that it is now a "must" for a youth with a high school diploma to become a "world citizen" in view of rapid progress in transportation and communication, he declared that education and its methods of instruction must correspondingly raise its tempo.

Judging student intelligence by which page he was on in a certain speller or reader went out with the horse and buggy, said Dingfelder, who added that as spheres of influence widen, so education must expand its scope.

Seminole High School is fortunate, he continued, "in having as its principal, Herman E. Morris and a faculty that keeps abreast of the newest methods in audio-visual, manual, laboratory and the learning-doing system of education. We proudly acknowledge that we have earned a high rank among high schools of similar enrollment in the Southern Association of Secondary Schools and Colleges."

Almost the entire platform was taken up for the program with a large globe spotlighting the world citizenship theme, and against the back drop in large (Continued on Page Two)

## Vote Not Taken On Red Proposal On Atomic Issue

LAKE SUCCESS, June 3, (AP)—Despite a Russian warning that a decision must be made sooner or later, the working committee of the United Nations Atomic Energy Commission passed over today without a vote a Russian proposal for a convention prohibiting atomic weapons immediately.

Andrei A. Gromyko, Soviet representative, told the delegates that they must take a vote at some stage on the question of an international convention outlawing the use of atomic weapons, which is wrapped up in an amendment now before the working committee.

Gromyko agreed to deferring the decision when he pointed out that most of the delegates had not expressed themselves on the idea. The working committee will meet again Thursday morning to take up another Soviet amendment.

Gen. A. G. L. McNaughton, of Canada, pressed Gromyko for just what kind of inspection Russia wanted in an international atomic control setup, but Gromyko said he would discuss that later.

## Letterheads Of Steel Firm Reported Stolen

WASHINGTON, June 3, (AP)—A Senate committee said today it has found "evidence of forgery of steel orders" on "stolen letterheads" of the Bethlehem Steel Company.

A small business subcommittee investigating a "gray market" in steel said in a statement that Bethlehem has given an "amazing story" involving theft of company letterheads from its Philadelphia district sales office.

**MAY REFUSED PAY**  
WASHINGTON, June 3, (AP)—Munitions maker Henry Garson said today that he tried to give Andrew J. May "compensation" for business help when May was wartime chairman of the House Military Committee but May refused it. The witness added that May refused to take any money, understanding he felt "a moral obligation" to manage the concern profitably because he had recommended that the Garsons buy the Cumberland Lumber tract as a means of getting lumber for gun shell crates.

## Sanford Boy Lands Snapper

Steve Hudgkin, 11 year old Future Lancer of Sanford, is shown holding his 30 1/2 pound catch that put him in second place in the Daytona Beach Fishing Tournament. Mac Eckerson, captain of the Udo team which the prize catch was made during the outing of the Seminole Chapter of FFA, is shown at left weighing his 28 pound snapper. The prize contest ends June 30, and Daytona Beach will award a grand prize of \$500 for the outstanding catch of each section of the contest, out of a total of \$12,000 fishing prize money.

## House Committee Decides To Study Military Training

### Hearings Slated Following Warning By Compton Of Delay

WASHINGTON, June 3, (AP)—A congressional examination of universal military training was ordered today after Karl Compton, chairman of a special presidential commission, warned that proposed safeguards against international " intrigue backed by force" are not enough.

The House Armed Services Committee will begin public hearings on the proposal in a week or ten days. Its decision came little more than an hour after Compton's telegram to Chairman Andrew (R-NY), termed the international situation "too serious to permit delay or to gamble on other avoiding the issue."

"There is no certainty that an intrigue backed with force has been abandoned as an instrument of national aggrandizement, and unhappily, the present actual evidence in some quarters points otherwise."

Andrews declined to guess whether Congress will pass universal training legislation during this session, but indications elsewhere pointed to no final action at least until the next session, beginning in January.

Andrews said Compton and his associates on the president's commission will be the first witnesses. They will testify on their recommendations for the compulsory training of up to 650,000 American youths a year at a cost of between \$1,750,000,000 to \$2,000,000,000.

They will be followed by testimony from national representatives of civilian groups, among them the veterans groups and their auxiliaries, and then by chiefs of the War, Navy and State Departments.

## Navy Unit Establishes Record In Safe Flying

JACKSONVILLE, June 3, (AP)—No fatal accidents occurred during more than 18,000 hours flown in the Naval Air Advanced Training Command in May, the first calendar month in the Command's history during which there were no fatal crashes.

The planes were service-type aircraft flown from the Naval Air Stations at Banana River, Jacksonville, Cecil Field and Whiting Field.

## J. Brailey Odham Elected President Of Jaycee Body

### Ernest Campbell And Charles Luke Named Vice Presidents

J. Brailey Odham was elected president of the Junior Chamber of Commerce at a special meeting held for the annual election of officers at the Board Center last night, and will take office on July 1. Mr. Odham, who is also vice president of the 30th district, is at present attending the legislative session in Tallahassee as a representative from this county and was not present at the meeting.

Other officers elected were Ernest Campbell, second vice president, Charles Luke, secretary, Gordon Bradley, treasurer, George Williams, the director for the new year are H. G. McIntosh, Robert Dennis, Ray Staton, Cliff Alden and William Lanster. The past president, who for the coming year will be Jack Rutigan, is automatically a member of the board.

Serving as chairman of the nominating committee was E. L. Lucker. Other members were George Austin, Elton Moughton, Jr., Dan Wright, Sam Martina and Gordon Bradley.

## Landis Says Russian Airlines Are Inferior

WASHINGTON, June 3, (AP)—James M. Landis, chairman of the Civil Aeronautics Board, said today that Russian airline services "are infinitely inferior" to American and that neither the Soviets nor the British threaten this country's supremacy in commercial flying.

Landis testified before the Senate Commerce Committee which is studying a bill to force merger of United States international airlines into a single company. Opposing it, Landis stated a policy is "the path to socialism."

**TAX BILL PASSED**  
WASHINGTON, June 3, (AP)—The \$4,000,000,000-a-year income tax cut cleared the Senate today and headed for the White House, where its fate is uncertain.

The compromise bill, worked out by a House-Senate committee, passed the Senate by a 48 to 25 vote, short of the two-thirds majority which would be required to override a veto.

## Britain Gives India Choice Of Own Rule

### County Board Rescinds Action On School Funds

The County Commission today rescinded its former action in giving to the schools half of the money allotted to the County from State race track taxes according to H. B. Pope, chairman.

In the discussion that preceded this action it was brought out that two years ago the School Board appeared before the County Commission and requested assistance in raising the salaries of teachers.

The County Board agreed to give them some \$33,000 during the year 1945-46 in order to raise each teacher \$200 per year.

The County Board further agreed to give half of the race track money during the year 1946-47 to the School Board for teachers' salaries. This has amounted to date to approximately \$42,500.

At the present session of the State Legislature, the County Commissioners pointed out, the schools were granted all that they requested in additional financial aid from the State, and this is reflected in the increase in State and Federal Aid from some \$204,000 to the Seminole County Schools in 1946-47 to some \$334,000 to be received by Seminole County in 1947-48.

This and added to the current tax receipts for school purposes, the local School Board must give \$400,000 for operation during the coming year.

The Commissioners further pointed out that since the County has been badly handicapped by the construction of new roads by shortcuts and by the fact that the County Board needed more money than the School Board, and that for the year, 1947-48, no race track money would be diverted to the schools but would be used to a large extent in new road construction.

The Commissioners stressed the fact that County Commissioners' tax receipts are only about \$280,000 a year, also that no other counties in Central Florida are at present diverting any of the race track money to schools.

Assistant State Attorney George A. DeCottee appeared before the Board and requested that money be allotted toward purchase of photoduplicating equipment for use by Sheriff McLean. The sum of \$200 was granted for this purpose.

Mrs. Ouida Wilson, county home demonstration agent, was allowed \$50 to take 10 girls to Tallahassee for the short course in Civil club work.

Health Unit Director Frank Quinlan and Charles Whitton outlined a program of venereal and eye eradication as recommended by the State Board of Health. This would include spraying of approximately 3,666 homes outside of Sanford in the county. This will take about 64 days, and cost the County about \$3,000 or the total \$11,000 expenditure, it was stated. The Board took the matter under advisement.

## Harvard Students From Ocala Killed

OCALA, June 3, (AP)—Two young Harvard University students, both members of prominent Ocala families, were fatally injured shortly after midnight this morning in an automobile accident three miles north of Bellevue on State Road 800.

They were J. J. Taylor, Jr., 20, son of the head of the Ocala Manufacturing Company, one of the county's largest landowners, and J. J. Russ, Jr., 21 son of the superintendent of Swift and Company's packing plant here.

Taylor and Russ in a car driven by the former were traveling north when the car swerved slightly on to the shoulder of the highway and went out of control, turning over several times. Taylor was killed instantly. Russ died in the local hospital shortly afterwards.

**GAME TOMORROW**  
The Robson Sporting Goods team and the Holler Motor Sales aggregation will meet in a practice softball tilt on the Lake Front Park tomorrow evening at 8:00 o'clock, it was announced today by Harry Robson. All members of both teams are urged to be present.

### Senator States Coup In Hungary Calls For Trial

WASHINGTON, June 3, (AP)—In a Senate speech, Senator Vandenberg (R-Mich.) today called the Communist group in Hungary "a treacherous conquest" which may call for United Nations action.

He said the replacement of Ferenc Nagy as premier by left-winger Lajos Dinnyes was an overthrow of an "elected government" and "may become a clear call to trial in the forum of the United Nations." If investigation discloses that the facts are as suspected, he said, it "may become America's duty to sound that call."

The chairman of the foreign relations committee opened debate on the question of ratifying peace treaties with Italy and the Balkan satellites of Nazi Germany.

He told the Senate today that the United States "cannot wait in idleness to make peace with Germany and establish an 'integrated Europe'."

Urging speedy Senate ratification of peace treaties with Italy, Bulgaria, Hungary and Rumania, the chairman of the Senate Foreign Relations Committee asserted that any delay may lead to action on agreements with Germany and Austria.

Meanwhile, Secretary Marshall told Congress today that under the United States sends military training missions to foreign "some other country" will.

The Secretary of State testified before the House Armed Services Committee in support of legislation authorizing the President to send peacekeeping military missions to any foreign country requesting them. The President now has authority with respect to American republics, and, under wartime powers soon to expire, the President has sent missions to Iran and China.

Asked by Rep. Charles C. Brannan whether the legislation would create any adverse feeling on the part of Russia, Marshall replied: "No more than they have now, with respect to our mission in China."

He emphasized in response to another question by Brannan that it is not the intention of the legislation that the United States should assume the burden of policing the entire world.

## 5 Youths Chosen To Attend Boys State

Five boys have been selected by civic and fraternal organizations of Sanford to attend Boys State program in Tallahassee sponsored by the American Legion as an annual event to train promising young men in statesmanship. The program is from June 9 to 16.

Hobby Pullen has been selected by the Elks; Louis Reynolds by the Kiwanis; Bobby Park by Rotary; Porter Lanning by the Lions and Key Shoemaker by the Jaycees. Character and scholastic leadership were the basis of the selections.

Advisers to the five boys include Simon Dingfelder, who last year was Commissioner of Agriculture at Boy's State; Francis Wilson, who was Superintendent of Public Instruction, and Edward Marshall, Junior High School instructor.

**AUTO ACCIDENT**  
Bill Gray, a passenger in a 1940 Dodge which lost a rear wheel and overturned on Seminole Boulevard early this morning while being driven by James Rigney, was discharged from Fernald-Laughton Memorial Hospital following treatment for head and leg injuries. Rigney, concerning whom no injury was reported by police, is charged with reckless driving. The accident occurred just 100 yards within the City limits.

**KIWANIS MEET**  
Kiwanians are due to get some interesting information about snakes and alligators when they bear Ross Allen, gator and snake raising specialist, address them tomorrow at their luncheon at the Tourist Center, according to Lester Sharp, president.

### Transfer Of Power Will Take Place This Year On Dominion Status Basis

NEW DELHI, June 3, (AP)—Rival Indian leaders advised the Viceroy today they would divide the vast coup, between Muslims and non-Muslims and take over power from the British as peacefully as they knew how.

This would mean the creation of two nations, each among the largest in the world in population, but in resources, it meant the creation of one relatively powerful nation composed mostly of Hindus and one far less powerful nation containing the vast bulk of the Moslem population.

LONDON, June 3, (AP)—The British Government announced today that it will transfer power in India to the Indians almost immediately and leave it to the Indian people to decide whether these shall be one or two governments.

The announcement was made simultaneously by Prime Minister Attlee in the House of Commons, by the Viceroy Lord Mountbatten, in a broadcast to the Indian people, and by the British Government in a White Paper.

Legislation will be introduced during the present session of Parliament for the transfer of power this year on a dominion status basis to either two Indian governments, depending on which system the Indian people subscribe to.

Thus until the absolute withdrawal of the British, scheduled for July 1, 1948, India will be composed of one or two self-governing countries which will belong to the British Commonwealth of Nations.

At the time the new British plan with its offer of temporary dominion status, had been "favorably received" by the leaders (Continued on Page Six)

## Hearing Slated For Saturday On Negro Shooting

County Judge E. W. Ware was today set for the trial of a Negro Saturday morning for a preliminary hearing to determine if any charges are to be made against Ernest Smith, chief of police of Ocala, who last Saturday was arrested and placed in County Jail without bond by Sheriff Percy Meigs. (Continued on Page Six)

Yesterday the court room was crowded with anticipation of a hearing scheduled to be conducted in the case by Assistant State Attorney George A. DeCottee. Upon advice of State Attorney Murray Overstreet, who was present at the hearing, was confined to private questioning of witnesses.

In event the Saturday hearing results in charges of a criminal nature, the matter will be turned over to the Circuit Court for action, said Judge Ware. The hearing will also determine whether bond may be set for Chief Smith who must remain in jail during the time preceding the hearing.

## Streams Reach Flood Crests Near Dayton

COLUMBUS, Ohio, June 3, (AP)—Streams swollen by torrential spring rains rose to flood crests in Ohio today, forcing at least 90 families from their homes.

Firemen aided by volunteers rescued 30 families in boats north of Dayton in the Miami River valley. Two breaks in a levee stranded cottages in flood waters six to eight feet deep.

**PAINT JOB**  
The flagpole at the bandshell and the one in front of the Tourist Center are being repainted, as well as the radio antenna tower at the police station, it was announced today by City Manager H. N. Sawyer.

Hildegard Knief Is Lana Turner's Twin
By IRENE SIMON
AP Newfeatures
BERLIN—Lana Turner's German "voice" is a serious, green-eyed German blonde youngster...

of 21 who looks American, talks English with a slight accent, and thinks that Germany's salvation lies in a return religion. Her name is Hildegard Knief and she is considered by the theater-goers as one of the most promising of Germany's new crop of actresses. She's undoubtedly...

the "busiest." Realism in Berlin Just recently this tall actress finished "dubbing in" the Turner role in the synchronized German version of "Ziegfeld Girl." She is now getting set to play in the first German film produced under American control and in the Berlin production of Eugen O'Neill's "Ah Wilderness."

As the female lead in "Murderers Among Us," first new German postwar film produced under Russian auspices last year, Miss Knief portrayed a serious German girl of today. The film stresses realism.

Black Market and Eggs "It was almost too realistic for me," recalls Miss Knief. As the heroine Mabel of "Three Men on the Horse" the actress found herself in a hit. The theater was so cold the manager asked the audience to bring coal.

New School Program For State Praised By Superintendent

TALLAHASSEE, June 3, (Special) The new school program in law by Governor Caldwell May 20, will give the school children of Florida a "new deal" in education, according to Colin English, State Superintendent of Public Instruction.

The Florida school head, long an advocate of the provisions of the new bill, hailed the measure as one of the greatest, "if not the greatest" steps ever taken in the field of education in the history of the State.

English estimated that under the new program a total of 50 million dollars per year would be spent on the schools by the State and the counties.

The heart of the new program is the minimum foundation program which attempts to assure equality of opportunity for the Florida school-child regardless of the wealth of the county he lives in. English listed the highpoints of the program as:

- 1. The teacher salary increases which will be given on the basis of experience and training with particular emphasis on teachers in the schools.
2. The reorganization of county school boards calling for five-member boards elected by a county-wide vote, eliminating district favoritism by making members responsible to the entire county.
3. The consolidation of tax districts into one county-wide district in each county, effective in January.
4. Greater emphasis on better training for teachers. Teachers will be paid on a 12-month basis, be available for duty for 10 months. School principals will be on duty the entire year.

AMERICAN HOUSEWIVES ARE THRIFTY

The buying procedure of the American housewife could well be an example of intelligent purchasing the country over. They are out to get the most for their money and "shop around" until they find the best buy in quality and price. Does your family "shop around" when buying insurance? If you can buy the same article for less, wouldn't you consider, you had saved just that much money? That is exactly what we offer you fire, wind, storm, automobile and other kinds of property insurance equal in quality and dependability as you can buy anywhere—but at a saving in the price. Think of all the useful things you could buy if you got back 1/5 of all the money you pay for insurance. How do you do this? Send for booklet "How to save money on insurance" and learn how many American families have been saving on the cost of their insurance for the past 105 years.

Oil Men Seeking Pipeline Rights Of Way In Iraq Face Trouble

By JOSEPH C. GOODWIN
AP Newfeatures
BAGHDAD—American oil men, angling for pipeline rights-of-way in the Middle East—location of at least 40 percent of the world's known oil reserves—may find little Iraq a tricky pool to work.

In the first place the Iraqi Arab has a chip on his shoulder about Washington policy. Secondly, he's not too happy about the benefits being derived from the one big international oil company already here.

Also he has had long experience with foreign domination and, although he's admittedly eager for dollar credits, he is not looking for bowl-of-paradise propositions.

President Truman's statement on Jewish immigration to Palestine aroused the Arab's ire. Iraq is the most outspoken, if not the strongest champion of an independent Arab Palestine.

The projected loan to Turkey also stung. Many Iraqis have not forgotten their days in the Ottoman empire. Strong British elements constantly preach that aid to Turkey represents nothing but training for teachers. Teachers will be paid on a 12-month basis, be available for duty for 10 months. School principals will be on duty the entire year.

The provisions for kindergarten, junior colleges, and special courses for exceptional or handicapped children, vocational training and adult education.

The longer school term which provides for 108 days of school per year, nine full months.

The requirement that all county superintendents hold a certificate based on a four-year college degree, thus assuring the placing of superintendents with knowledge of school problems.

The school building fund which allows the State to all-ate funds for county school building construction. The State will allocate \$400 per school room to be matched with \$100 per school room from county funds.

The bill was officially passed into law at a ceremony on July 12, May 20. Present at the signing were Governor Caldwell, State Supt. Colin English, Dr. John M. Ophel, Rep. Ned M. Miller, Senator LeRoy Collins and the members of the Florida Education Committee on Education.

mark "the new swastika," political "Independents" and left wing journalists term the dollar bill wound left by Genghis Khan's Moghul experts in destruction some 600 years ago.

Suspicious of Exploitation Most of Iraq's oil is held under a 75-year concession by the English-Dutch-French owned Iraq Petroleum company. Iraq receives four gold shillings for every long ton delivered to the Mediterranean sea.

At present there are only two 12-inch lines moving four million tons annually. Two more 16-inch lines recently started should boost output to 12,000,000 tons.

Dollar Credits Eyed But the Iraq argues that increased production will strip the proved fields, and he suspects that his take is "peanuts" compared to
