Sanford Is The Only Central Florida City Affording Rail, Highway And Water Transportation

AN INDEPENDENT DAILY NEWSPAPER

VOLUME XXV Member Associated Press SANFORD, FLORIDA, FRIDAY, MARCH 13, 1936 Established in 1908 NUMBER 129

## Shinholser Is Elected Mayor By City Board

### Unanimous Choice Of Other Members Of Commission To Succeed Mr. Dumas

### Election Called For April 14th

### Registration Books Will Be Opened In City Clerk's Office

S. O. Shinholser is the new mayor of the City of Sanford, elected by unanimous vote of the City Commission last night to fill the unexpired term of Mayor T. L. Dumas who died last Monday morning. He was nominated for the office by Commissioner W. J. Lettler, a former mayor of the city, and the nomination was seconded by Commissioner J. N. Whitehurst. Mr. Shinholser served as acting mayor during the illness of Mayor Dumas at the request of the late mayor. Mayor Shinholser is serving his second term as a member of the City Commission. He was first elected on Dec. 30, 1932, to fill out the unexpired term of Commissioner C. A. Byrd, resigned, and was re-elected in December, 1933, to a three-year term. He is also a past president of the Sanford Rotary Club.

## Elected Mayor

S. O. Shinholser who was last night elected mayor of the City of Sanford by the unanimous vote of the City Commission, to succeed the late Mayor T. L. Dumas.

## Fire Hydrants At Reserve Wells To Be Put In Shape

## Fire Chief Reports One Inaccessible, One Valve Stuck

Following the reading of a report by Fire Chief M. N. Cleveland that one fire hydrant at an auxiliary well is so located as to be useless and that the valve on another hydrant is stuck and will not open, the City Commission moved last night to put fire hydrants at all the reserve wells in proper condition.

The inaccessible fire hydrant is that at Commercial Street and Holly Avenue, made so by reason of its location back from the street which cannot be reached by a fire truck because of a depression between it and the street. James Moughton, street superintendent, was instructed to fill in the depression and make the hydrant accessible.

Mr. Moughton advised the Commission he would have his men open the valve at the well at Third Street and Sanford Avenue which the fire chief reported was stuck and could not be opened.

Valves of the wells at First Street and Elm Avenue and at Fourth Street and Magnolia Avenue are hard to open, the chief reported. The flow of water from Elm Avenue well is good, but pumps would have to be used at the Magnolia Avenue well. The chief also reported good flow from wells at First Street and Belmont Avenue and at Second and Park Avenue. No test was made of the well at Commercial Street and Park Avenue because the Avenue is torn up at that point.

## Sanford Boy Makes L. S. U. Honor Roll

The name of George Anderson, son of Mr. and Mrs. O. H. Anderson of Sanford, has been added to the honor roll of students at Louisiana State University, with the rank of "cum laude," and as a result of his "two point five plus" rating becomes eligible for membership in Phi Eta Sigma, national honorary fraternity. In a letter to the student, Ophelia Stone, academic dean chairman of the faculty committee on honors at L. S. U., writes: "I salute you, whole heartedly, and honor you."

"I wish to express our pride and satisfaction in your accomplishment," the dean wrote George Anderson. "It is truly an indication of future success in what you undertake—success that will enrich and enlarge your own life and reflect on your Alma Mater."

Two other students at L. S. U. made the scholastic average of 2.5 or higher for the first year, bringing the freshman honor roll at the institution to 50. It is reported in a *Seminole* paper.

### TRAINMEN KILLED

BOSTON, Mar. 12.—Two men were killed and a woman injured when a passenger train derailed at North Attleboro, Mass., last night.

## Chapter Added By Valdez To Baseball Story

## Hotel Answers Papworth By Placing Griffith's Letter On Public Display

Declaring that it "has been common knowledge for several years that the grounds and leased like a slave," and that in their opinion, H. M. Papworth, president of the Seminole County Chamber of Commerce, "knows he is wrong or he would not be trying to use such means as he has employed to shift the blame to the baseball club itself," R. J. Wagener and Guy McMullin, managers of the Valdez Hotel, add Chapter V to the Chatterbox baseball story in a letter under today's date addressed to the editor of *The Sanford Herald*.

The letter is in reply to one from Mr. Papworth published in *The Herald* last evening. It is signed by Wagener & McMullin as managers of the Valdez Hotel. Last evening's letter was signed by H. M. Papworth as president of the Seminole County Chamber of Commerce. Both refer to a letter published in *The Herald* last Tuesday evening and which was signed by Calvin Griffith, vice-president and treasurer of the Chattanooga Baseball Club. The actual signatories, however, were omitted, according to custom, in the newspaper publication.

Since Mr. Papworth in his letter to the first of the series of letters as "an unsigned letter presumably written by a Chattanooga baseball man," the managers of the Valdez Hotel, to whom the letter was addressed, have pointed it in a window of the Rounhill & Anderson drug store window so that any person interested may witness the pen and ink signature of Calvin Griffith. The baseball club was to have made the Valdez its headquarters during its stay in Sanford.

The Valdez Hotel letter to *The Herald* is also accompanied by a photograph which shows many holes in the roof of the grandstand at the Municipal field, but this could not be reproduced for publication in this issue.

The letter from the Valdez, omitting the superscription and the signature, is as follows: "We know that by now the people of Sanford are growing weary of the discussion of why

(Continued On Page Eight)

## Uncle Sam Asked To Place Sanford On Airmail Maps

With the lighting of the Municipal Airport this City has a good chance to get airmail service, City Clerk F. S. Lamson advised the City Commission last night, and the Commission thereon authorized him to take the matter up with the proper authorities. The WPA appropriated funds with which to illuminate the Sanford Airport as an emergency landing field, and as Sanford is on the regular airmail route between the East and East coast cities officials are hopeful that the postoffice department will include it on the new airmail maps.

## State Oratorical Contest Will Be Held In Sanford

## Winners In District Contests To Speak Saturday Morning

Winners in declamation contests held in the 10 districts of Florida will engage in a state contest in the First Baptist Church tomorrow morning, beginning at 10 o'clock. The public is invited to hear the youthful orators, members of the Missionary Union of the denomination.

The contest is held each year under the auspices of the young people's division of the Baptist Missionary Union. The subject chosen this year is "Stewardship," and it was first declaimed in city, then county and then in district meetings. The winners in each of the 10 districts compete here tomorrow for state honors and a prize.

## Fire Will Delay Issue Of Paper At Winter Park

Fire of unknown origin damaged the plant of the Winter Park Herald this morning and will delay publication of the weekly newspaper until tomorrow evening, Publisher Tracer reported. The fire was discovered at 7:15 o'clock, by the fire department, was quickly on the scene and the blaze was confined to the printing shop in the rear. The building and paper stock were damaged but Mr. Tracer said he had not been unable to make any estimate of the loss, though he believed it was all covered by insurance. Machinery was not damaged.

## Free Electric Cooking School Brought To A Successful Close This Afternoon

Bringing to a close one of the most successful electric cooking schools put on by The Sanford Herald and the Florida Power & Light Company, Miss Eleanor Rahn this afternoon prepared many tempting dishes before a large gathering of enthusiastic women at the Sanford Woman's Club.

Miss Rahn, who is connected with the L. & H. Stone Company, did her cooking in an electric kitchen arranged on the stage of the clubhouse. She was assisted by Miss Margaret Bradley, home economist of the Florida Power & Light Company, who is well known to local women.

Among the foods prepared by Miss Rahn before the large group were: a dinner for six prepared in one hour which included veal birds, rice and lettuce greens, and golden glow pudding; Swedish tea ring, a soup for Sunday breakfast; a braised dinner with lamb chops; and the main dish, and several other dishes.

## Cold Weather Halts Floods In The North

## Mad Push Of Ice In Rampaging Rivers Takes Toll Of 10 And Imperils Many

By The Associated Press  
Dropping temperatures in several flood stricken sections of the Northeastern states and Canada helped stave off rampaging rivers today, while officials counted at least 10 deaths and millions of dollars damage as the toll of the floods.

The swollen Hudson River, however, held five men prisoners on a newly formed island at Rensselaer, N. Y., where they barricaded themselves in a small building, the office of the American Oil Company plant. They nailed boards against the doors, caulked cracks, and awaited the next move by the river which they sent them scurrying to the top of the oil tanks to await rescue. The five men were left in the middle of the ice-choked river yesterday to keep the fires going in the boiler room. They had not eaten since yesterday. They told of their fight over a telephone line which still stood.

At Upton, Mass., John Prentiss, 50, was found drowned in his automobile 100 feet from a bridge which was swept away last night.

At Toronto, Ontario, lowered temperatures stopped the mad push of ice and permitted the water to recede from the dwellings. Trucks were able to make food deliveries, forestalling, for the present at least, a threatened food shortage.

Three hundred persons, rescued from their flooded homes yesterday, returned to them today.

Worried officials in Massachusetts were heartened by a forecast of colder weather while they watched the Merrimack River rise steadily. Ice in the river started breaking today while government planes were held in readiness at Salem. Unless the temperature drops soon officials fear the river may reach the level of the disastrous 1927 flood. Hundreds of families were driven from homes along the Merrimack from Portsmouth, New Hampshire, to Lawrence, Mass. Many schools and factories were closed in New England.

## Libby Holman Wins Share Of Estate

BALTIMORE, Md., Mar. 12.—A settlement of the late Smith Reynolds' \$28,000,000 estate giving Libby Holman Reynolds \$750,000 and her infant son nearly \$7,000,000, was approved by Circuit Court Judge Eli Frank yesterday.

The agreement quieting a dispute between the Broadway tobacconist and the second wife of the tobacco millionaire and other heirs was reached in North Carolina several weeks ago but required court ratification in Maryland because a Baltimore trust company is trustee of the estate.

# Italy Flatly Refuses To Impose Sanctions Against Nazi Germany

## European Maps Remade By Bloody Wars In Rhineland Since Days Of The Caesars

Song and legend celebrate the Rhineland's picturesque castles and pretty fairy tales, but history also knows its wine flowing valleys as the centuries-old battleground where armies re-make the map of Europe.

Today the marching feet of Hitler's warriors echo against the Rhineland hills a sound familiar since the punitive expeditions of Julius Caesar. While Europe faces perhaps its gravest crisis since the war, Germans once more sing, "Steadfast and true each son, each son of thine, stands sentry over the Rhine, our noble Rhine."

Roman legions kept the first watch on the Rhine.

For nearly 1,000 years the

river, as the boundary of the Roman empire, protected the civilized world from Germanic savages. But even before that fighting over the Rhineland was an old pastime with Europe's wandering hordes.

Teutons from the north were battling the resident Celtic tribes for possession of the district when history began. The blonde invaders won, and only a few tombs and place names were left to mark the Celtic occupation. That was about 800 B. C.

Coblenz, 1,800 year old capital of Rhineland Prussia, was one of the first river forts garrisoned by the Romans. It was there

(Continued On Page Six)

## Rome Advises Powers That Settlement Of Ethiopian Dispute Must First Be Made

## Italian Action Interrupts Plan

## Russia Joins Little Entente In Support Of French Demands

LONDON, Mar. 12.—(AP)—A high authority stated today that Italy had flatly refused to impose sanctions against Germany shortly after the British foreign office announced: "The door is still open for Germany to make any kind of an offer it wishes."

The Italian action was regarded as a stumbling block in the way of the French demand that military and economic sanctions be applied against Germany by sending troops into the Rhineland. Russia had been supporting France in demanding these sanctions, so had Yugoslavia, Czechoslovakia and Denmark. This sudden interrupting in progress toward the punishment of Reichsfuhrer Hitler became known after Ambassador Von Hoersch of Germany went into the foreign office for a conference.

It was stated that Italy told her other powers her dispute with Ethiopia must be settled before she could participate actively in something out of the Rhineland double.

The diplomats after a day-long meeting issued a communique yesterday saying they found Germany guilty of breaching the Locarno pact.

"It will be for the benefit of the League of Nations, to which France and Belgium have conferred the honor, to pronounce on that point."

In a day of tense and bitter moving developments, France's government, for many months, kept the British in the dark.

Although Hitler responded to Great Britain's demands against him for a "suspension, conditional guarantee," his commitments fell far short of the British goal and left the British position extremely difficult.

The British were obviously bitterly disappointed in Hitler's response to their plan, which they had hoped could be used to impress France and Belgium.

Defensive Post Position  
PARIS, Mar. 12.—(AP)—France struck at German militarization of the Rhineland last night with overwhelming major satisfaction of the mutual defense treaty with Soviet Russia.

## Commissioners Told To Favor Continued Equal Distribution

FORT WORTH, Mar. 12.—(AP)—The Florida Association of County Commissioners was urged today by its president, Carl J. Jackson of Apopka, to take a determined stand for continuation of the present equal distribution among the state's 67 counties of gasoline tax and new bond revenues. Jackson also urged adoption of some "normal, non-subjective and practical plan" for the propagation of road and product citizens.

## Comment On WPA War Could Affect Criticism Comes Politics In U.S., From President Says Byron Price

## Accusations Seen By Mr. Roosevelt As Matter Of Politics

WASHINGTON, Mar. 12.—(AP)—Capital affairs revolved closely around the White House today with President Roosevelt commenting on charges of "politics" against the WPA and calling for a new program. The President told reporters that accusations against the Works Progress Administration were themselves a matter of politics.

He summoned Harry L. Hopkins and other aides to help him shape his recommendation to Congress on the amount to be spent for relief, during the year beginning July 1. It will be delivered, he said, before he departs next Thursday for a fishing trip off Florida.

There was no announcement of similar fast action on the new housing plans, although the President went over conflicting proposals again with representatives of the Treasury, Federal Reserve Board, Reconstruction Finance Corporation and housing agencies.

Speaker Byrnes took word to the White House that Congress can complete its work and go home by May 1. Byrnes said that precedents will be given the new tax bill. Byrnes said that only the impeachment trial of Federal Judge Haskel L. Eiler of Florida might delay adjournment.

## Play Being Given By Troop 5, Boy Scouts

"Time Will Tell," a play presented by Boy Scouts of Troop 5 in several local churches, was given in the Lyman school in Langwood last night and will be presented in Chuluota this evening.

Boys taking part in the play are Leroy Cooper, Willam Gotsch, William Courney, Arthur Branan, Jr., John Morris, Raymond Monahan, Jack Bolt, Frank Woodruff III, Byrd Higer, Danny Altman, Henry Tame, Ernest Southward, Kent Rosetter, Jr., Dick Mason, Gene Harrison, Sidney Nix, Jr., Chas Stanley, Steven Moore and Buck Ferguson.

## Byrd Is Recovering From Attack Of Flu

ST. PETERSBURG, Mar. 12.—(AP)—Admiral Richard E. Byrd, noted Antarctic explorer, was reportedly recovering yesterday from a mild attack of the influenza.

"Admiral Byrd is convalescing from a recent attack of flu and expects to resume his lecture tour in a day or two," his physician said.

## Up To President To Devise Means Of Keeping Out Of It

By BYRON PRICE  
However remote may seem the tramp of Hitler's marchers on the Rhine, this latest critical turn of affairs abroad is by no means without interest to political circles in the United States.

At this stage, it is true, it would be difficult to get up an argument, or present an issue having more than one side. Every responsible leader of every political party in this country is for peace, and against American intervention in the quarrels of Europe.

If a European war does ensue, (Continued On Page Six)

## Surplus Citrus May Be Sought By Government

WASHINGTON, Mar. 12.—(AP) Government purchase of surplus Florida oranges and grapefruit, as soon as the new citrus marketing agreement is promulgated, is foreseen by J. W. Tapp, head of the AAA division of marketing agencies.

In a letter to F. E. Brigham, secretary of the Florida Citrus Commission, Tapp said the Federal Surplus Commodity Corporation reported it could dispose of a "substantial quantity" of Florida oranges and grapefruit through relief agencies.

## G. O. P. War Chest Of \$261,000 Reported

WASHINGTON, Mar. 12.—(AP)—Reports on campaign funds submitted to the House disclosed today that the Republican National Committee already has collected \$261,000 including a score of gifts of \$5,000 or higher.

The Democrats have collected only \$45,000. The Liberty League which got \$483,000 last year has received \$64,000 thus far this year.

## Florida Youth Shot, Killed In Alabama

OSARK, Ala., Mar. 12.—(AP)—A man who authorities said had cards on his body giving the name of Jack Hunter, St. Petersburg, Fla., was found dead beside his automobile 10 miles from Osark yesterday, a bullet wound through his heart.

Coroner Kenneth Robinson of Dale county said the man's wallet and watch were missing, and that he apparently was shot while sitting at the wheel of his

BIBLE VERSE FOR TODAY

COME ALL THE WORLD:— Come, and hear, all ye that fear God. And I will declare what he hath done for my soul.—Psalm 66: 16.

HERETICS

Wayfarers they, who, stumbling, yet must roam between the hedges of this world, who go from bolted door to bolted door, and know the bitterness of them who have no house.

Don't forget to register... if you want to vote.

After all, the Republicans can't criticize the New Deal, alphabet too seriously. Didn't they start the GOP?

They say the French are fixing up that little island of St. Helena since Hitler begin thinking he is a little Napoleon.

First thing you know Senator Fletcher is going to have to pay for that canal out of his own pocket.

B. F. Paty, candidate for governor, is explaining that his name is pronounced pay-ton the "pay" as in "pay-off" and the "ton" as in "guff-ton" or "paty" in time with "catty".

As Walter Lippmann explains it, the new tax program is designed to prevent business men from saying up for a rainy day. The idea seems to be that in the next depression we should all be in the same boat.

Sanford is having more water trouble. The Lookouts walked out because the roof leaked. The Seminole metropolis should page Frank K. Anderson and his Water Conservation commission.

Congress insists that the way to prevent wars is to take the profit away from the munition business. However desirable that might be, it could hardly prevent Mussolini from attacking Ethiopia, or a Hitler from trying to take some additional territory. The munition makers are strong enough, but they are not half as strong as some of our so-called politicians.

The City Commissioners have approved an ordinance to fill the shoes of Mayor... Let us hope that an equal-minded man can be found to fill the shoes of the City Commission.

Our own part we know in the City who is looking on local affairs in particular. City finances in particular are of our concern.

There has been considerable attention paid the new arrival of the R. A. O. Motor Co. which promises to open up greater possibilities and all entries are glad for the service. Funds which were previously considered scarce and unobtainable are now available.

There has been considerable attention paid the new arrival of the R. A. O. Motor Co. which promises to open up greater possibilities and all entries are glad for the service. Funds which were previously considered scarce and unobtainable are now available.

Checks On Crime

If we are to achieve progress in the national movement against crime, says Homer S. Cummings, attorney general of the United States, in the Rotarian Magazine, the co-operation of the community is essential. Its role is quite as important, and its responsibility as great, as that of the federal, state, or local governments in coping with the seriousness of this menace to society.

"Without the intelligent co-operation of all citizens, without community support and interest," he urges, "no people can achieve a control over crime. In the United States, crime control must necessarily depend as much on the county sheriff and the local law enforcement officers, as upon the federal agents and the police forces of the cities. More vitally, it is to an enlightened public opinion to which we must look for the cure of the causes of crime as well as the apprehension of the criminal."

"The roots of crime reach out into the community," Mr. Cummings continues, "whether it be city or hamlet in which the criminal first embarks on his career. It is here, therefore, that the initial opportunity lies for prevention. The betterment of schools, the elimination of slums, the improvement of working conditions and of homes—these and other social advances all help to remove crime-breeding environments, and thus the number of recruits for the crime army of tomorrow."

"Important, too, is a better co-ordination between local police authorities and citizens. Public support in full measure is needed, if the work of law enforcement officers is to be effective. The citizens in each community must understand the work and problems of the law enforcement officers, and they need to be kept informed of what these officers are doing."

"It is essential also that the public insist that the law enforcement agencies be staffed with the best possible personnel. Security of jobs is desirable, in order to maintain a maximum efficiency. Other factors making for more efficient personnel are adequate salaries, freedom from political interference, and high professional standards of training for all."

How Bowling Started

With 8,000,000 bowling addicts throughout the country, this game has become winter's biggest sport, according to a nation-wide survey made for Collier's by Robert Harron. The popularity of the sport is traced back to 1880 to a little German restaurant at 401 Greenwich Street, New York, and to "Uncle Joe Thum," who is also by acclamation the "Father of American Bowling."

"It's funny the way things happen sometimes. For instance, if business had been good back in 1880 at the little German restaurant on Greenwich Street, New York, then some eight to ten million right arms, discounting the occasional south-paw, might not have been hurling sixteen-pound bowling balls down a sixty-foot stretch of pine and maple fairway in ten thousand cities and town and hamlets these winter evenings."

"Business, however, was not good down at 401 Greenwich Street, during that cold winter of 1880. On the contrary, business was distinctly bad. So the old gentleman who had come from Munich three long years before decided he had had enough of America and called in the German lad who recently had come to work for him, now known as 'Uncle Joe.'"

"It is enough," he said. "I am returning to Munich, where people are satisfied with good beer and pretty music. The business is yours if you want it. Some day you may pay me if you wish. I do not care." Within two months, the little place at 401 Greenwich Street was paying dividends.

"Soon business became so good that young Thum was a little put out about it. He liked a bit of recreation. But people were coming in so much now that he didn't have a chance to get out for two or three hours a day among his friends. So Thum and his wife decided on a daring innovation. Together, with their own hands, they built two bowler alleys in the basement of the little restaurant. They lighted it as brightly as possible with kerosene lamps and invited their friends downstairs on a gala evening to join the sport."

"And that's how bowling at Jennings, as we know it in this country today, passed its first important milestone. From that evening can be dated the modern growth of the sport."

SANFORD TWENTY YEARS AGO

The thriving little city of Chuluota in the Eastern part of Seminole County is now boasting of a new mercantile establishment in the shape of a new general merchandise store recently opened by J. E. Snyder, Mr. Snyder hails from St. Augustine and seeing the great possibilities for the future of Chuluota he at once moved there and opened with a nice stock of general merchandise. Miss Sarah Hendry of Wallace, N. C. spent two days here this week with Mrs. A. E. Powers while returning from Tampa to North Carolina.

distance to the nearest loading station are now a thing of the past as the motor truck which is on display at the B. & O. Motor Co. handled by them exclusively makes it only a few minutes to the loading station. Mr. and Mrs. Charles Erling of Long Island were the week-end guests of Mr. and Mrs. Henry Nickel. Mr. and Mrs. Erling are touring the state on their honeymoon but recently married.

Solid Trainload Of Florida Strawberries On Way To West

WAYCROSS, Ga., Mar. 13.—The strawberry shipment from Florida to Eastern and Midwestern markets is today heavy at present and carload shipments have increased to a load volume.

Wednesday a solid train of berries from the Plant City section passed through Waycross on the Atlantic Coast Line Railroad, en route to the West. The train was a double-header, carrying 24 train cars, some with berries.

COLLEGE CELEBRATES

University Boys Debate National Question

MELTON WARE

JOHN LLOYD

PHILIP SELBER

BRADSHAW WOOD

Above: Melton Ware of Sanford and John Lloyd, affirmative. Below: Philip Selber and Bradshaw Wood, negative.

Ware Tells Why Congress Ought To Have Power

"Resolved, that Congress shall have the power by a two-thirds majority vote to override a decision by the Supreme Court declaring acts of Congress unconstitutional."

That was the question debated at Seminole High School yesterday by four young men from the University of Florida, with Melton Ware, son of Judge and Mrs. R. W. Ware of Sanford, one of the debaters on the affirmative side. He was supported by John Lloyd of Fort Lauderdale. Those taking the negative side were Philip Selber and Bradshaw Wood, both of Jacksonville.

As it was an exhibition debate judges did not render a decision as to which side put up the best arguments, though those who heard the "frenetic battle" stated that Mr. Ware gave excellent reasons in support of the contention that nine men on the Supreme Court should not have the unassailable power to kill laws passed by nearly 100 United States senators and several hundred members of the House of Representatives elected by the people to pass laws supposed to be wanted by the constituents. Excellent arguments were also presented by the debaters on the other side who claimed that members of the Court are law years of known standing and are on the bench to safeguard the Constitution.

The State University debaters were to debate the question with Stetson University in Deland today and tomorrow will meet the University of South Caro-

lina in St. Augustine and debate the same question.

Medical and dental reserve officers of the army, navy and national guard will be offered their fourth annual "refresher" course from Apr. 12 to 25 at the University of Michigan.

MORGENTHAU IMPROVES

WASHINGTON, Mar. 12.—Secretary of the Treasury Henry Morgenthau, Jr., who has been ill for the past few days was reported improved yesterday.

What do the figures mean?

Read the Annual Report to the Policyholders of the

METROPOLITAN LIFE INSURANCE COMPANY

on page No. 5 of this report. It spells a great human story of thoughtfulness and responsibility. The figures reflect the hopes and ambitions of millions of people. A study of the figures arouses a new interest in one's Life Insurance problems.

Have you a responsibility which we can help you to meet?

## Social Calendar

**SATURDAY**  
The Cecilia Music Club will meet at 3:15 P. M. at the studio of Mrs. Fannie S. Munson, Myrtle Avenue.

The State Stewardship Declaration Elimination Contest will take place at 10:00 A. M. at the First Baptist Church. The public is invited.

**MONDAY**  
Regular program meeting of the Woman's Missionary Society of the First Methodist Church will take place at 3:00 P. M. at the church with Circle Number Three, Mrs. J. B. Crawford, chairman, in charge.

The Dependable Class of the First Methodist Church will meet at 8:00 P. M. at the home of Mrs. J. M. Morris, West Twenty-Second Street, with Mrs. Morris and Mrs. N. M. Mason, Jr., as hostesses.

The Co-ed Class of the First Methodist Church will meet at 8:00 P. M. at the home of Mr. and Mrs. C. E. McElrath, 111 West Eleventh Street.

Dr. Newman of the Psychologic Science Church will lecture at 8:00 P. M. at the Woman's Club building on Oak Avenue. The public is invited.

**TUESDAY**  
The prayer band of the Presbyterian Auxiliary will meet at 7:40 P. M. and the inspirational meeting and annual reports will take place at 7:30 P. M.

**WEDNESDAY**  
Sixth Annual Flower Show of the Garden Club of Sanford will take place from 2:00 P. M. at the Mayfair Hotel.

Annual Senior Class play, "The Kink Rides By," will be given at 8:15 P. M. at the Seminole High School auditorium.

**THURSDAY**  
Sixth Annual Flower Show of the Garden Club will take place from 10:00 A. M. to 9:00 P. M. at the Mayfair Hotel.

## Helen Gertrude Lynch Weds Jack Stemper

Of interest to many friends both here and in DeLand is the announcement of the marriage of Miss Helen Gertrude Lynch, daughter of Mr. and Mrs. C. O. Lynch of DeLand, to Jack E. Stemper, son of Mrs. Clara Stemper of this city. The ceremony took place Wednesday, Mar. 11, in DeLand. Mrs. Stemper has lived in DeLand for a number of years and is a graduate of the DeLand High School. At the time of her marriage she was a student at Stetson University.

Mr. Stemper is the elder son of Mrs. Clara Stemper and has lived in Sanford the greater part of his life. He attended Seminole High School and is now engaged in business at the Farmers' Wholesale Market.

The couple are making their home on the Country Club Road in DeLand.

## Grammar School Has Regular P-T. A. Meet

Mrs. Volle Williams, Mrs. Morris Spencer, and Mrs. John Sparkman were appointed to serve on the nominating committee at the regular meeting of the Grammar School P-T. A. held Thursday afternoon at the school auditorium. A study course was conducted immediately before the regular meeting.

The welfare chairman reported that 46 needy children are being cared for in the school lunchroom. Mrs. R. E. Herndon, Mrs. Quarterman, Mrs. Henry Thurston, and Mrs. Earl Jeter were appointed as delegates to the County Council meeting to be held Mar. 31 in Geneva.

Main feature of the program was an address, "Character Education," by the Rev. A. H. Cole, pastor of the First Methodist Church. Attendance prize for the day was awarded to Mrs. E. J. Reuth's class.

## At The Mayfair

Mr. and Mrs. H. G. Wallen of Gainesville, Ga. are guests for a few days at the Mayfair Hotel.

Forming a party spending a few days at the hotel are: Mr. and Mrs. H. Alberico, H. L. Young, and Fritz Kubler of White-stone, N. Y.

Among the overnight guests Thursday at the hotel were: J. Grant of Waycross, Ga.; H. C. Jarner of Columbia, S. C., vice-president of the Federal Land Bank; and Mr. and Mrs. Alvin G. Sherman of Detroit, Mich. and W. C. Anderson of Fairfield, Conn. are among those spending several days at the Mayfair.

## COMMANDANT MARK NEWMAN

advised to take a good medicine and Vita-Mil was recommended to me.

"This fine remedy has relieved the constipation to a great extent, as well as flushed my kidneys. The night relief isn't a necessity now and I am feeling much better. I am sure that a continuance of the Vita-Mil treatment will give even greater results and I am happy to recommend Vita-Mil to all who are suffering from these ailments."

Vita-Mil can be obtained from the LANEY DRUG STORE here in Sanford, and from your neighborhood drug store. Remember there is only one VITA-MIL in all America.

## SONG HITS STUD CROSBY PICTURE

Sprightly song hits bestar the mirthful action of "Anything Goes," Paramount's new contribution to the gaiety of the screen which will start its engagement next Sunday at the Ritz Theater.

This screen version of the original Broadway hit boasts the popular songs by Cole Porter that made this play the most sought after musical of the year. Ethel Merman sings "Anything Goes" and "I Get A Kick Out of You." With Bing Crosby she sings "You're the Top," with parodies on hit song furore of all time that made America top-conscious.

A. Meisch arrived last night from Secaucus, N. J. to spend a short time here with Mr. and Mrs. John Ludwig, Narcissus Avenue.

Mrs. Rolland L. Dean, who has been spending the past month in New York City, has returned to her home in Indian Mound VII here.

Mrs. Martha Robeson of Asheville, N. C., Mrs. Hugh Taylor of Quincy, and Mrs. Anderson Pettovich of Jacksonville were the dinner and overnight guests Thursday of Mr. and Mrs. W. C.

## Rev. Victor Chicoine Addresses P.T. A.

The Rev. Victor B. Chicoine of Winter Park gave an address, "Failure in School is Too Costly to the Child," at the regular meeting of the Junior High School P. T. A. held Tuesday at 8:00 in the school auditorium. Persons in the audience stated they were delighted with the new way in which Mr. Chicoine handled his subject.

R. A. Calks presided over the business session when the attendance award was given to Mrs.

**FLORIDA PEOPLE ARE ACCLAIMING and ENDORSING NEW VITA-MIL MEDICINE.**

**Salvation Army Leader Finds Way To Combat Common Enemy, CONSTIPATION**

Many well known people are praising and endorsing this scientifically blended formula of medicinal herbs, known as Vita-Mil, which is now being introduced here in Sanford by the LANEY DRUG STORE. Among the great number of the well known and beloved Commandant Mark Newman, of 222 22nd St., Sanford, Fla. who is a leader in the work of charity of that city and is known throughout that section as a man of good judgment, who is always ready to help his fellow-men in every possible way. Commandant Newman was afflicted with constipation and in Vita-Mil medicine he has found the relief which he had been seeking a long time. Following is his statement:

"The quite some time I have been troubled with extreme constipation and as nothing I took seemed more than temporary relief, I was obliged to use laxatives. All the time as to be sure I was in the best of health, but the constipation was such that I was unable to sleep, and I was unable to do my work. I was advised to take a good medicine and Vita-Mil was recommended to me.

"This fine remedy has relieved the constipation to a great extent, as well as flushed my kidneys. The night relief isn't a necessity now and I am feeling much better. I am sure that a continuance of the Vita-Mil treatment will give even greater results and I am happy to recommend Vita-Mil to all who are suffering from these ailments."

Vita-Mil can be obtained from the LANEY DRUG STORE here in Sanford, and from your neighborhood drug store. Remember there is only one VITA-MIL in all America.

### Radio Audience Told About Sanford Celery And How It Produced And Marketed

Listeners who tuned in on the radio last evening, an interesting address by Mr. Lane of Sanford on production and marketing of the celery city of the world. His address was as follows:

The celery grown in the United States is grown around Sanford. Celery was first planted in Sanford by I. H. Lane in 1896 and the first celery ever made in Sanford was shipped to New York in 1897. It was shipped in 1897 by Mr. Lane and B. F. Lane, who were among the first to plant celery in Sanford near Lake Jessup. This celery was shipped by Mr. Lane and B. F. Lane to Savannah, Georgia, and was sold for \$1,300. In 1899, a record of 400 cars of celery was shipped from Sanford. The first man to plant celery in Sanford was my uncle, Mr. Lane, and for many years was known as the "Celery King." He shipped celery to every large city in every part of the United States. The celery land here in Sanford is all tiled and by that I mean that there is a three-inch tile laid from 16 to 24 inches beneath the surface of the land. This tile is laid in rows from 18 to 24 feet apart and generally laid the short way of the field. The joints of this tile are not cemented together as you may think, but are just placed close together and sawdust or cinders are packed over the joints so that sand will not fill up the tile but at the same time will allow water to seep in and out of these joints. This row of tile is supplied with water from a larger row of tiling which is called the main. On the other end of this row of tile is still another line of tile, or it may be an open ditch to allow the water to run off. Each row of tile has control boxes and by going to any one of the control boxes and plugging up the tile at that box you force the water back in the tile and it will seep out of the joints and water any portion of the land that you wish.

The water all comes from flowing wells and these wells are from 125 to 150 feet deep and flow thousands of gallons of water per day unless shut off by a valve. In case of heavy rains you can shut off your wells and pull out all the plugs along the row of tile and you will have the finest drainage system in the world, so you see we use this tile for both to water the land and to drain the

land in case of heavy rains. The celery seed used here in Sanford now is not the imported French grown seed from France that we used to use, but is all American grown seed and comes from the states of New York, New Jersey or Pennsylvania. This seed costs from \$15 to \$16 per pound and you use about one-half of a pound of seed per acre. The seed is first planted in seed beds and covered with sacks, but as soon as the seed begins to sprout, these sacks are removed and the seed beds are covered with a fine cheese cloth placed over each bed on brackets so that this cloth can be raised or lowered to protect the young tender plants from the hot sun or heavy rains. The seed is planted during the months of July, August and September, and the plants are transplanted in the field in October, November, December and January. The celery is planted in long rows across the field, each row being thirty inches apart and each plant set three and one-half inches apart. It takes 52,000 plants to plant one acre of celery.

This celery is then fertilized and cultivated and it takes from three to four months before it is large enough to bleach. It takes from three to four tons of fertilizer per acre. This celery is also sprayed with a lime and blue stone solution to keep off the blight and insects. When this celery becomes large enough to bleach, you take a heavy paper and place on each side of the row of celery and it is held tight against the celery by wire brackets and within ten or fifteen days you will find the celery has become a beautiful light golden color.

This celery is now ready to cut and is done so by a man pulling an instrument that looks something like a hand plow with a large sharp blade on the bottom. He can cut a row of celery almost as fast as if you were walking slowly. The celery is then loaded into large field boxes and taken to the wash houses where it is washed, sorted and packed. "It is sorted out as to the size and packed in crates that are 19 inches wide, 22 inches long and 20 inches high. Each crate is marked showing the exact number of stalks it contains, which are 4, 6, 8 and 10 dozen stalks. After the celery is packed it is run through a pre-cooler of ice water and allowed to stay about thirty minutes and then loaded into refrigerator cars. Each car contains from 352 to 384 crates of celery. These refrigerator cars have bunkers in each end of the car and these bunkers are filled with ice taking 9600 pounds of ice per car. They also do what they call top icing and that is done by breaking the ice into small pieces and putting over the crates of celery in the car.

"The cost of cutting, washing, packing and pre-cooling is 48 cents per crate. The freight to New York City is 77 cents, refrigeration 10 cents, making a total cost per crate of \$1.35, which does not include the expense of grow-

ing celery, as this is added on upon after the celery is grown. "The average yield per acre for celery is from 500 to 700 crates. The number of cars of celery shipped from Seminole County last year was 6,191 and from the State of Florida 7,281 cars. The gross income for the State of Florida for celery for the 1934-1935 season was \$481,514. The shipping season is from Jan. 1 to June 1. The largest shippers here in Sanford are American Fresh Growers, Chase & Co., Sanford-Owens, Truck Growers, Standard Growers, M. E. Wiggin, J. G. Hutchison, C. I. & M. Dieffler, Lee M. Ransbottom, F. F. Dutton, Geo. Fish, Inc., and H. R. Deak.

Now ladies and gentlemen, Mr. Lane said in conclusion, "when you buy celery I know that you want to buy the best, so ask for Sanford celery and you know you are getting the best."

### Chain Store Tax Law Goes Back To The Court Again

#### Reconsideration Of Decision Is Asked By Four Concerns

TALLAHASSEE, Mar. 13.—(AP)—The Supreme Court was asked this week to reconsider its decision upholding major portions of Florida's chain store tax law. Four of those who attacked the law complained that the court was in error in ruling against them.

The motions threw the entire litigation back into the court, delaying the expected mandate to make the decisions final. The final order was due today.

The four whose petitions for rehearing were taken under consideration by the court were Lane Drug Stores of Jacksonville, Thomas B. Adams of Jacksonville, X-C Stores, Inc., of Jacksonville, and G. Chavers of Chipley, Fla., who lost a suit

attacking the manner in which the law was passed by the 1935 Legislature, contended again that the two houses adopted different bills and never agreed by voice vote on either of them. The petition added:

"No prior decision of this court and no decision of the Supreme Court of the United States has ever been rendered upon any act so drastic and arbitrary as this, one and this fact renders decisions in other cases inapplicable to the fact in the instant suit."

The court cited various authorities, including opinions of the United States Supreme Court in its decision that the Constitution was not violated by the graduated occupational license scale and the one-half of 1 percent gross receipts levy on all stores.

The company declared the classifications adopted by the Legislature in fixing the tax according to the number of stores in each chain was "unreasonable, whimsical and arbitrary."

The other three pointed out that a majority of the court did not agree on the validity of the bill.

They said Justice Whitfield, Terrill and Davis were the only ones who were in record, while the other three justices were in disagreement. Justice Ellis and

### Canal Money Bill Killed By G.O.P., Fletcher Asserts

#### Senator Will Continue Efforts To Get His Appropriation

WASHINGTON, Mar. 13.—(AP)—Senator Fletcher blamed Republican efforts to discredit the Administration for the failure yesterday of his efforts to win Senate appropriations committee approval for more Florida ship canal funds.

After the appropriations committee rejected 12 to 11 his amendment to add \$29,000,000 to the War Department appropriation bill for the Florida Canal and four other projects, Fletcher said he would seek the funds on the floor.

Fletcher told newsmen that all those opposed Fletcher listed as Senators Copeland, Tydings, Coolidge, and Adams, Democrats; Hale, Keyes, Steiwer, Norbeck, Dickinson, Townsend, Carey and McNary, Republicans; Absentees he listed as Senators Russell, McCarran, Truman Democrats; and Nye, Republican.

Some of the members, he explained, voted by proxy.

The five construction projects previously were rejected by the House on the ground Congress

never authorized construction. Besides the Florida Canal and Quoddy, the projects included Conchas Dam in New Mexico, Sardis Dam in Mississippi and Bluestone Reservoir, West Virginia.

They are trying to discredit the Administration," he said. He said he would press an amendment on the floor to attach \$29,000,000 to the bill to continue all projects but the Passamaquoddy Power project in Maine.

That project, he said, had no support from the Maine delegation and for that reason he was not going to press for the \$9,000,000 requested by the Administration.

He said those voting against the appropriation were: Senator Glass, McKellar, Hayden, Thomas of Oklahoma, Byrnes, Overton, Bankhead, O'Mahoney, McAdoo, Sheppard and Fletcher, all Democrats.

Those opposed Fletcher listed as Senators Copeland, Tydings, Coolidge, and Adams, Democrats; Hale, Keyes, Steiwer, Norbeck, Dickinson, Townsend, Carey and McNary, Republicans; Absentees he listed as Senators Russell, McCarran, Truman Democrats; and Nye, Republican.

Some of the members, he explained, voted by proxy.

### Bok Tower Bells To Ring Saturday Noon

LAKE WALES, Mar. 13.—(AP)—The program given below will be presented by Anton Brees, conductor, at the Singing Tower tomorrow noon:

1. America.
2. (a) Sweet Genevieve—H. Tucker; (b) Hearts of Oak—Dr. Boyce; (c) The End of a Perfect Day—Carrie Jacobs-Bond.
3. Theme with Variations—Gust Nees.
4. (a) He Leadeth Me, O Blessed Thought—W. B. Bradbury; (b) The God of Abraham Praise—Jewish Melody.
5. The Hope—National Hebrew Hymn.
6. Request Number.
7. Printemps qui commence from "Samson and Delilah"—Saint-Saens.

The Star Spangled Banner.

### Iowa's Appetite For Beer Is On Increase

DES MOINES, Mar. 13.—(AP)—Iowa has a growing beer appetite, says the state treasurer's office. Some 59,000,000 more glasses were consumed in 1935 than in 1934.

The figures are those of E. F. Rahm, deputy state treasurer, and he arrives at them from the fact that the 4-cent-a-gal on state beer tax produced \$147,624 above the 1934 figure last year.

Translating money into beer, Rahm says it is the equivalent of 3,690,613 gallons which, divided into 8-ounce glasses, gives a total in excess of 59,000,000.

More than three-fourths of the available floor space and building sites for the Texas Centennial exposition were contracted for by Mar. 1.

Brail's federal council for foreign commerce is studying creation of an officially directed monopoly to plant and export tobacco.

Musicians and those who take up flying as a business, when they are between 18 and 20 make the best pilots, says Harold Wilson, a Vancouver, B. C., aviation instructor.

The enforced silencing of automobile horns except in cases of extreme emergency is credited with reducing traffic accidents in Sweden.

# Metropolitan Life Insurance Company

## Policyholders

have an interest in this Annual Report

It may be assumed that these policyholders took their insurance through a sense of responsibility for those in whose protection they are interested.

When they pay their premiums, there falls upon the Insurance Company a responsibility to pay current claims and to provide adequate funds for the payment of all future obligations.

The figures below show the amount of the claims paid by this Company last year. They also show how well prepared the Company is to meet its responsibilities in the future.

The number of policies and the amount of insurance in force reflect the confidence reposed in the Company by the people of the United States and Canada.

### Report for the Year Ending December 31, 1935

### Radio Audience Told About Sanford Celery And How It Produced And Marketed

Sanford, Fla. (Herald Staff) — The interesting address of the Sanford Celery Co. is 2484 Sanford Ave., Sanford, Fla. His address was as follows: —

The fifth of the celery grown in the United States is grown in Sanford, Fla. It was first planted in 1896 and the first crop of celery ever made in Sanford was shipped to New York in 1897. It was shipped to New York in 1897 and in 1897 they planted one-fourth of an acre south of Sanford near Lake Jessup. This celery was shipped by Mr. J. N. Whitner and B. F. Whitner to New York City. It was shipped by express to Savannah, Georgia, and then by rail to New York City. This three-fourths of an acre sold for \$1,200 in 1899 and a record of 100 cars of celery being shipped from Sanford.

The first man to plant celery in Sanford was my uncle, J. N. Whitner, and for many years he was known as the "Celery King." He shipped celery to all the large cities in every part of the United States. The celery land here in Sanford

is all tiled land and by that I mean that there is a three-inch tile laid from 16 to 24 inches beneath the surface of the land. This tile is laid in rows from 18 to 24 feet apart and generally laid the short way of the field. The joints of this tile are not cemented together as you may think, but are just placed close together and sawdust or cinders are packed over the joints so that sand will not fill up the tile. At the same time will allow water to seep in and out of these joints. This row of tile is supplied with water from a larger row of tile which is called the main. On the other end of this row of tile is still another line of tile, or it may be an open ditch to allow the water to run off. Each row of tile has control boxes and by going to any one of the control boxes and plugging up the tile at that box you force the water back in the tile and it will seep out of the joints and water any portion of the land that you wish.

"The water all comes from flowing wells and these wells are from 125 to 150 feet deep and flows thousands of gallons of water per day unless shut off by a valve. In case of heavy rains you can shut off your wells and pull out all the plugs along the row of tile and you will have the finest drainage system in the world, so you see we use this tile for both to water the land and to drain the

land in case of heavy rains. "The celery seed used here in Sanford now is not the imported French grown seed from France that we used to use, but is all American grown seed and comes from the states of New York, New Jersey or Pennsylvania. This seed costs from \$15 to \$16 per pound and you use about one-half of a pound of seed per acre. The seed is first planted in seed beds and covered with sacks, but as soon as the seed begins to sprout, these sacks are removed and the seed beds are covered with a fine cheese cloth placed over each bed on brackets so that this cloth can be raised or lowered to protect the young tender plants from the hot sun or heavy rains. The seed is planted during the months of July, August and September, and the plants are transplanted in the field in October, November, December and January. The celery is planted in long rows across the field, each row being thirty inches apart and each plant set three and one-half inches apart. It takes 52,000 plants to plant one acre of celery.

"This celery is then fertilized and cultivated and it takes from three to four months before it is large enough to bleach. It takes from three to four tons of fertilizer per acre. This celery is also sprayed with a lime and blue stone solution to keep off the blight and insects. When this celery becomes large enough to bleach, you take a heavy paper and place on each side of the row of celery and it is held tight against the celery by wire brackets and within ten or fifteen days you will find the celery has become a beautiful light golden color.

This celery is now ready to cut and is done so by a man pulling an instrument that looks something like a hand plow with a large sharp blade on the bottom. He can cut a row of celery almost as fast as if you were walking slowly. The celery is then loaded into large field boxes and taken to the wash houses where it is washed, sorted and packed. "It is sorted out as to the size and packed in crates that are 10 inches wide, 22 inches long and 20 inches high. Each crate is marked showing the exact number of stalks it contains, which are 4, 6, 8 and 10 dozen stalks. After the celery is packed it is run through a pre-cooler of ice water and allowed to stay about thirty minutes and then loaded into refrigerator cars. Each car contains from 382 to 384 crates of celery. These refrigerator cars have bunkers in each end of the car and these bunkers are filled with ice taking 9500 pounds of ice per car. They also do what they call top icing and that is done by breaking the ice into small pieces and putting over the crates of celery in the car. "The cost of cutting, washing, packing and pre-cooling is 48 cents per crate. The freight to New York City is 77 cents, refrigeration 10 cents, making a total cost per crate of \$1.35, which does not include the expense of grow-

ing celery, as this is added on some after the celery is grown. "The average yield per acre for celery is from 500 to 700 crates. The number of cars of celery shipped from Seminole County last year was 5,191 and from the State of Florida 7,281 cars. The gross income for the State of Florida for celery for the 1934-1935 season was \$4,821,875. The shipping season is from Jan. 1 to June 1. The largest shippers here in Sanford are American Fruit Growers, Chase & Co., Sanford-Oviedo Truck Growers, Standard Growers, M. S. Wiggins, J. G. Hutchison, C. I. & M. Dingfelder, Lee M. Ransbottom, F. P. Dutton, Geo. Fish, Inc. and S. R. Dean, Inc.

"New ladies and gentlemen, Mr. Lane said in conclusion, "when you buy celery I know that you want to buy the best, so ask for Sanford celery and you know you are getting the best."

### Chain Store Tax Law Goes Back To The Court Again

#### Reconsideration Of Decision Is Asked By Four Concerns

TALLAHASSEE, Mar. 12.—(AP)—The Supreme Court was asked this week to reconsider its decision upholding major portions of Florida's chain store tax law. Four of those who attacked the law complained that the court was in error in ruling against them.

The motions threw the entire litigation back into the court, delaying the expected mandate to make the decisions final. The final order was due today.

The four whose petitions for rehearing were taken under consideration by the court were James D. Storey, of Jacksonville, Thomas H. Adams of Jacksonville, X.C. Stores, Inc., of Jacksonville, and C. Chavers of Chipley.

The Storeys, which lost a suit

### Canal Money Bill Killed By G.O.P., Fletcher Asserts

#### Senator Will Continue Efforts To Get His Appropriation

WASHINGTON, Mar. 12.—(AP)—Senator Fletcher blamed Republican efforts to discredit the Administration for the failure yesterday of his efforts to win Senate appropriations committee approval for more Florida ship canal funds.

After the appropriations committee rejected 18 to 11 his amendment to add \$29,000,000 to the War Department appropriation bill for the Florida Canal and four other projects, Fletcher said he would seek the funds on the floor.

Fletcher told newsmen that all

### Republicans Present at the Committee Meeting Voted Against His Amendment

#### They Are Trying to Discredit the Administration, He Said

Republicans present at the committee meeting voted against his amendment.

They are trying to discredit the Administration," he said. He said he would press an amendment on the floor to attach \$29,000,000 to the bill to continue all projects but the Passamaquoddy Power project in Maine.

That project, he said, had no support from the Maine delegation and for that reason he was not going to press for the \$9,000,000 requested by the Administration for it.

He said those voting for the appropriations were: Charles McNair, Glass, McKellar, Hayden, Thomas of Oklahoma, Byrnes, Overton, Bankhead, O'Mahoney, McAdoo, Sheppard and Fletcher, all Democrats.

Those opposed Fletcher listed as Senators: Copeland, Tydings, Coolidge, and Adams, Democrats; Hale, Keyes, Steiwer, Norbeck, Dickinson, Townsend, Carey and McNary, Republicans. Absentees he listed as Senators Russell, McCarran, Truman, Democrats; and Nye, Republican.

Some of the members, he explained, voted by proxy.

The five construction projects previously was rejected by the House on the ground Congress

### never authorized construction. Besides the Florida Canal and Quoddy, the projects included Conchas Dam in New Mexico, Sardis Dam in Mississippi and Bluestone Reservoir, West Virginia.

#### Bok Tower Bells To Ring Saturday Noon

LAKE WALES, Mar. 12.—(AP)—The program given below will be presented by Anton Brees, carillonist, at the Singing Tower, tomorrow noon:

1. America.
2. (a) Sweet Genevieve—H. Tucker; (b) Hearts of Oak—Dr. Boyce; (c) The End of a Perfect Day—Carrie Jacobs-Bond.
3. Theme with Variations—Gust News.
4. (a) He Leadeth Me, O Blessed Thought—W. B. Bradbury; (b) The God of Abraham Praise—Jewish Melody.
5. The Hope—National Hebrew Hymn.
6. Request Number.
7. Printemps qui commence from "Samson and Delilah"—Saint-Saens.

The Star Spangled Banner.

### Iowa's Appetite For Beer Is On Increase

#### DES MOINES, Mar. 12.—(AP)—Iowa has a growing beer appetite, says the state treasurer's office.

Some 59,000,000 more glasses were consumed in 1935 than in 1934.

The figures are those of E. F. Rahm, deputy state treasurer, and he arrives at them from the fact that the 4-cent-a-gal on state beer tax produced \$147,624 above the 1934 figure last year.

Translating money into beer, Rahm says it is the equivalent of 3,690,613 gallons which, divided into 8-ounce glasses, gives a total in excess of 59,000,000.

More than three-fourths of the available floor space and build-up areas for the Texas centennial exposition were contracted for by Mar. 1.

Brazil's federal council for foreign commerce is studying creation of an officially directed monopoly to plant and export tobacco.

### Musicians and those who take up flying as a business when they are between 18 and 20 make the best pilots, says Harold Wilson, a Vancouver, B. C., aviation instructor.

#### The enforced silencing of automobile horns except in cases of extreme emergency is credited with reducing traffic accidents in Sweden.

# Metropolitan Life Insurance Company Policyholders

have an interest in this Annual Report

It may be assumed that these policyholders look upon their insurance through a sense of responsibility for those in whose protection they are interested.

When they pay their premiums, there falls upon the Insurance Company a responsibility to pay current claims and to provide adequate funds for the payment of all future obligations.

The figures below show the amount of the claims paid by this Company last year. They also show how well prepared the Company is to meet its responsibilities in the future.

The number of policies and the amount of insurance in force reflect the confidence reposed in the Company by the people of the United States and Canada.

### Report for the Year Ending December 31, 1935

### Children Urged By Wilkinson To Help Hospital

Attendance at the special matinee for children in the Rialto Theater tomorrow morning at 10 o'clock means helping to care for crippled children, Judge S. A. B. Wilkinson, member of the local post of the Legion, stated in brief talks in the Primary, Grammar and Junior High schools this morning.

He pointed out that the American Legion Department of Florida maintains and operates a crippled children's hospital at St. Petersburg, where it is possible for children to secure the very best treatment free when their parents are unable to pay for such services in other hospitals.

To support the hospital, 25 cents of the annual dues of each

### War Could Affect Politics in U. S., Says Byron Price

(Continued from Page One)

however, the case will be entirely different. It will be for Mr. Roosevelt, as the official constitutional responsibility for the conduct of foreign relations, to devise a practical way of avoiding involvement, and to put it into practice in a campaign year. That may be far easier said than done.

Those who can remember as far back as 1914 will recall how unanimously the American nation rejected, at first, all thought of participation in the great war. Yet in 1916 that war dominated the national political campaign, and in 1920 its consequences continued to furnish both political parties with outstanding issues.

To suppose that the recently enacted neutrality legislation has greatly changed the situation, or has relieved the president appreciably of responsibility, would be contrary to the opinion of the great majority of officials at Washington.

About all Congress has done is to prohibit arms shipments and war loans to belligerents, leaving the vast and difficult field of other relationships to the discretion of the Chief Executive.

Mr. Wilson's war policies were made a paramount issue by his party in 1918, and the slogan "he kept us out of war" has been credited widely with having sealed his re-election. And it was against those war policies that Mr. Wilson's Republican opponent, Mr. Hughes, directed his principal attack.

Not only in 1918, but again in 1920, it was the great war which overshadowed all else. Mr. Harding, as the Republican nominee, frankly refrained from presenting any striking new issues. He simply waited for the country to vote its disapproval of what Mr. Wilson had proposed at the peace conference.

Of course, in these times of economic upset it is no to be expected that domestic issues can be brushed aside entirely. Yet it is easy to conceive how the importance of these issues might pale in the public view, if the country again seemed drawn toward the vortex of a world war.

Today that is a possibility only. The studied opinion of most public men is that war will not come in 1936, and that Mr. Roosevelt and his Republican opponent can go through the campaign in complete agreement as

### European Maps Remade By Bloody Rhineland Wars

(Continued from Page One)

in the first century B. C. that Caesar himself made two thrusts across the river to punish the Teutons for border raids into Roman territory.

At Cologne, largest city in the formerly demilitarized zone, a similar sally was made by Agrippa in 38 B. C., on a timber bridge replaced with a stone structure by Constantine in 308 A. D. Caesar destroyed both wooden bridges on which he crossed into Germany.

The Roman "watch on the Rhine," though frequently violated, broke down about 800 A. D. when Charlemagne, king of the Franks, became Emperor and sought to graft Roman culture to that of the Teutons. Upon his death in 811, his domain was divided and the Rhine became the boundary between Germany and the Middle Kingdom.

Throughout the middle ages the Rhineland remained a German state. Robber barons, who lived by levying a toll on travelers as they crossed the river, built the castles whose ruins today are populated by legendary knights and maidens fair.

About 1800 Napoleon added his name to the list of warriors who have battled for possession of the Rhineland. Germany regained the territory in the Franco-Prussian war of 1870.

Following the World War, Germany retained possession of the Rhineland subject to military occupancy by the allies, which ended June 30, 1930, when France withdrew her last soldier. But as punishment for her "war guilt"—and as a protection to France—Germany was forbidden by the Treaty of Versailles to fortify or garrison the region.

Now Germany, after accepting these restrictions by ratifying the Locarno pact of 1925, has moved in troops and renewed her arméd "watch on the Rhine." Europe frantically fears a renewal of the 2,000 year struggle for the Rhenish fairyland.

(Continued from Page One)

to the desirability of American aloofness from Europe, without either being put to the necessity of discussing details.

Even so, just the possibility of an upset in this prospect, and a consequent revision of all campaign plans and predictions, is enough to intrigue the political-minded and keep them alert to the distant thunder.

### CITY NEWS BRIEFS

(Continued from Page 1)

shown at 1 o'clock Wednesday afternoon at the Kutz theater through the courtesy of Manager J. L. Marentette of the theater. Mr. Marentette is also a member of the Kiwanis Club and the picture will be shown under the sponsorship of that Club. There will be no charge for admission.

M. R. McClelland reports that the live stock show held in Jacksonville this week was one of the best he ever attended. The champion bull was sold for \$1 cents a pound.

E. F. Housholder, exalted ruler of the Sanford Lodge of Elks, requests a large attendance of the membership at tonight's session as officers for the ensuing year are to be nominated.

A check made by Chief of Police Williams revealed that 36 stores in Sanford have been keeping open on Sunday. He reported his findings to the City Commission last night and was instructed to ask the merchants to close Sunday mornings before the hour for Church service. Commissioners expressed their reluctance to put the "blue laws" still on the statute books, in force.

### SENTENCED TO HANG

MANCHESTER, England, Mar. 11.—(AP)—Dr. Buck Ruxton was convicted today by a jury of the "devil's beef" murder of his wife, and was immediately sentenced to death by hanging.

### WPA LAYS OFF MEN

JACKSONVILLE, Mar. 13.—(AP)—Two hundred WPA workers in the Jacksonville district were released yesterday as several projects were completed.

### "COME UP AND SKI ME SOMETIME"

"Lucky Teter", world champion daredevil, shown jumping a two ton truck that will be parked 18 feet from his take-off. "Teter" is the only living daredevil to attempt such a feat.

### Dare Devil Driver To Give Free Exhibition Saturday

The thrill lovers of Sanford will have an opportunity to see "Lucky" Teter, the world's champion daredevil, do his stuff tomorrow afternoon at 2:30 on the Lake Shore Boulevard between the Clyd-drek and the Mayfair Hotel. "Lucky" Teter and his "Hell Drivers", who are presenting a two hour performance of death defying stunts Sunday afternoon at the Seminole horse racing track located on Route 17, the Sanford-Orlando Highway, is going to take his Orange Caravan on a parade through the streets of Sanford and promptly at 2:30 he is going to give what he calls a "free sample" of some "hell driving".

Lloyd Boyle, commander of the American Legion post, invites all thrill lovers down to the lake front to see this daredevil in action. He said that many members of the Post have witnessed the full performance of these prior-mad maniacs and they declare that Teter's maneuvers with an automobile, are unequalled. These death defying demons are

54 inch ski, deliberately crashing it over and over and attempting to remain at the wheel. He guarantees to crash this car from wheel to wheel at least one time, his average roll being from two to three and a half times.

Brazil's manganese exports were 2,300 tons in 1934, but in 1935 rose to \$1,112.

## U. S. Attests High Value Of Seminole Land

Census Figures Show It Is Worth \$141 Per Acre, Average In State Only \$53

## 46 Pct. Increase In Acreage Noted

Number Of Cattle In County Increases 79 Pct. In 5 Years

Seminole County farm land is about as valuable as any, according to the United States government.

Federal farm census figures released this week by William L. Austin of the Bureau of Census, Department of Commerce, show that farm land in Seminole County is valued at \$141.76 per acre, against a value of \$53.06 per acre placed against farm lands throughout the state as a whole.

The census figures show that there are 860 farms in Seminole County. These comprise 12,653 acres, or an average of 14.71 acres per farm. The average value per farm is given as \$10,476.

This compares with a state average for size of farm of 83 acres and an average value per farm of \$4,476.

Land from which crops were harvested in Seminole County totaled 14,301 acres in 1934, an increase of 46 percent over the average in 1929. The percentage of land in this County in farms is given as 82, with 18 percent of the farms on hard wood land.

According to the census report, in 1935 nine percent of the crop land harvested was in citrus and nine percent was in tobacco, but 10 years later the figures had been changed to 38 percent in citrus and two percent in tobacco.

Over for all purposes totaled 2,848 acres in 1934, but was cut to 1,193 acres, and 134 acres were planted in Irish potatoes with a yield of 17,912 bushels.

The number of cattle on farms in Seminole County on Jan. 1, 1936, was 19 percent greater than on Apr. 1, 1930, increasing from 2,170 head to 4,072. Cows and heifers two years old and over increased from 1,389 to 2,017, or 45 percent.

There was little change in the number of work animals on farms, but a decrease of 18 percent in the number of hogs was obtained by the census report.

## 15 Youthful Orators Discuss Stewardship

Fourteen young people from 12 different cities discussed "Stewardship" in a state-wide discussion held in the First Baptist Church this morning, the members the various of districts attending.

## Probation Office Is Up To Legislature

TALLAHASSEE, Mar. 14.—(AP)—Algebra General Cary D. Landis said that the Legislature is the one authority for creating or abolishing the office of county probation officer, in an opinion requested by Governor Sholtz, but the office of the office will be with county commissioners.

## Reported That Dark Horse May Appear At Pow-Wow In Lake Mary Monday

## FOR SHERIFF

Ed Meisch, member of a pioneer family, who has announced as a candidate for Sheriff of Seminole County.

## French Avenue At Boulevard To Be Raised And Paved

Brick Is To Be Salvaged From Paving On W. First Street

The French Avenue intersection with Lake Shore Boulevard is to be made less dangerous by raising the elevation of the Avenue immediately south of the Boulevard and paving the intersection with brick. The intersection is to be provided with a 50-foot radius.

Street Superintendent James Moughtin stated.

WPA workers, it was reported, would just as soon build a sidewalk of concrete as of brick, and the City will therefore buy a carload of cement and the WPA will construct concrete gutters on both sides of West First Street between Myrtle and French Avenue, thus releasing nearly enough brick to pave the French-Boulevard intersection. Vitrified paving bricks, now used in the gutters etc., a great deal more than cement. City Commissioner V. N. Whitehurst stated, and the City will therefore accomplish quite a saving by buying the car of cement and thereby releasing paving brick for the improvement at the French Avenue entrance into the City.

Lake Shore Boulevard is considerably higher than French Avenue and traffic on the Boulevard can not be seen by the driver of a truck on the Avenue. Because of the sharp grade, it was reported that some drivers of trucks heavily loaded from the State Market put on extra power to make the grade and "charge" into the Boulevard on the chance that it will be free of traffic.

Raising the elevation of French Avenue will, it is believed, make the intersection less dangerous and, too, will provide a more attractive entrance into Sanford by that route.

## Rollins Named District Head Of Coast Line

Trainmaster In Sanford Appointed To Succeed T.L. Dumas As Superintendent

George Elwell Rollins was notified yesterday of his appointment as superintendent of the Jacksonville-Sanford district of the Atlantic Coast Line railroad, succeeding the late T. L. Dumas. Death of Mr. Dumas last Monday caused the vacancy and Mr. Rollins' appointment was dated as of Mar. 12.

Mr. Rollins will be succeeded as trainmaster for this district by John Gordon Patterson, who has been chief dispatcher at Waycross.

The new superintendent of the A. C. L. has been a resident of Sanford for a number of years, ever since he was named trainmaster of this district on Sept. 1, 1924. The family home is at 2400 Park Avenue, and the family consists of Mr. and Mrs. Rollins, a son and a daughter.

A native of Sumter, S. C., Superintendent Rollins entered the railroad service in his home state on Sept. 23, 1908. He filled various positions in the transportation department until June 1, 1912, when he was appointed night yardmaster at Rocky Mount, N. C. He became general yardmaster at Sumter, S. C., on Feb. 1, 1914, holding that position until Jan. 1, 1918, when he was named general yardmaster in Columbia, S. C. On June 1 of that year he was appointed terminal trainmaster in Florence, S. C., and on Mar. 1, 1924, was selected as trainmaster for the Norfolk district, the position he held until Oct. 1, 1925, as assistant superintendent in Tampa.

Mr. Rollins was named superintendent of the Lakeland district on Nov. 1, 1927, and he remained there until there was a consolidation of several districts on June 1, 1933, when he became trainmaster of the Tampa district.

Mr. Patterson, who succeeds Superintendent Rollins as trainmaster, entered the service of the railroad on Apr. 6, 1906, as (Continued on Page Four)

## Million Dollars Inheritance Tax Paid By DuPonts

JACKSONVILLE, Mar. 14.—(AP)—Executors of the estate of the late Alfred I. DuPont today paid State Comptroller J. M. Lee \$1,000,000 "to be applied upon the estate tax which may finally be determined to be due and payable under Florida law."

Lee and the executors announced the tax payment was made at this time to aid the Florida public schools which need funds to pay teachers and provide transportation for rural pupils, and in anticipation of final determination of the amount of the tax owed by the DuPont estate.

DuPont died last Apr. 29, and the estate is now in process of settlement.

Lee and the executors agreed that final payment or refund will be made later. Informed persons believe the tax will run into several million dollars.

## Meteor Shoots Across Jersey At Early Hour

Vivid Blue And White Flash Was Visible 225 Miles Away In Nation's Capital

NEWARK, N. J., Mar. 14.—(AP)—A flaming meteor so near the earth that it rattled windows and awoke many persons from slumber shot across the sky over central New Jersey early today and then vanished into the Atlantic Ocean. The speeding object lighted the countryside for many miles and was visible in buildings as far as Washington, D. C., approximately 225 miles away.

Air tremors from the fiery body were reported felt many miles north and south of Newark. Policemen on their rounds told of seeing a vivid blue and white flash in the sky, followed some minutes later by a deep rumbling, as of a cannon on a distant battlefield. J. Templeton, United Air Lines pilot, flying to Newark from Cleveland, said he saw a brilliant light overhead that blotted out light of the moon about 2:30 A. M. Don Johnson, Eastern Air Lines pilot, said he saw a great ball of light to the north as he was flying over Virginia. He described the meteor as having a red core and a blue flame.

Trenton residents believed the meteor passed directly overhead. They said it was so brilliant that street lights were dim by comparison. Windows in the state hospital were rattled.

## Spain Arrests Leader And 200 Other Fascists

MADRID, Mar. 14.—(AP)—Spanish police arrested 200 Fascists today, including members of the Spanish executive committee of the Spanish Fascist organization. Heading the list of those taken into custody was Jose Antonio Primo de Rivera, son of the late dictator and leader of the Fascist party. De Rivera and committee members were charged with failure to furnish authorities with names and addresses of members of their party.

Two churches and the building of the monarchist newspaper La Nacion were burned in disturbances today.

## Farmers Shown That Limestone Cures Bronzing

Use of dolomite limestone in orange groves as a remedy for bronzing of leaves was demonstrated at a meeting of farmers in the Ender Currier grove at Geneva yesterday, and was explained by County Agent C. R. Dawson.

Mr. Dawson said that too little attention has been paid to bronzing, as many growers have considered it as a natural thing for leaves to change color. "As a matter of fact, however, bronzing is a serious fault in the grove because it does make the leaves fall, and in extreme cases amounts to defoliation," he said.

"The silver tree bears and mature fruit in direct proportion to the number and condition of leaves on the food factories. It is in the leaves that the fertilizer is rendered in available form. In short, without a generous supply of leaves that are in good working condition, the crop of fruit is not what it could be in quantity or quality. It follows then that any remedy which makes for better foliage should be corrected as soon as possible. It means dollars and cents to the grower."

Mr. Dawson told the growers that bronzing is easily and inexpensively remedied by the use of dolomite limestone at the rate of 500 pounds per acre, applied bi-annually. He recommended a substance, known as the "Little Gem" in regard to the limestone in order to protect even application.

## ITALIANS DRIVE

ABABA, Mar. 14.—(AP)—The Italian army today drove the Ethiopians from the city of Ababa, capital of Ethiopia.

## RITTER SUMMONED FOR TRIAL

Federal Judge Halstead Ritter (left) of the South Florida district is shown in Washington as Cheley Jurny, sergeant-at-arms in the Senate, read a summons for the jurist to appear before the Senate and face impeachment charges. Apr. 6 was set as the date for the trial. (Associated Press Photo)

## Papworth Regrets That Valdez Lost By Club Leaving

Says Planned Resignation Is Not Connected With Case

President H. M. Papworth of the Chamber of Commerce, in a letter to The Herald today, states that he wishes to express the "most profound regrets" of the trade body that the Valdez Hotel "suffered any embarrassment from financial loss" by the removal of the Chattanooga Baseball Club from Sanford to Daytona Beach. Baseball officials and players had engaged rooms at the Valdez during the training season.

Mr. Papworth also states that his intended resignation as president of the Chamber of Commerce "has no connection whatsoever with baseball matters."

His letter to The Herald, together with a transcript appended after his signature, reads as follows:

## Fred F. Dorner Nominated Head Of Elks Lodge

Fred F. Dorner was last night placed in nomination as exalted ruler of Sanford Lodge of Elks. The nomination was unanimous. Election of officers will be held at the next lodge session, two weeks hence. E. F. Housholder is the present exalted ruler of the local lodge. Mr. Dorner is leading knight.

Other officers nominated last night without opposition are George Thurston for leading knight, Clarence Adams for loyal knight, Herbert Messer for lecturing knight, E. B. Ricks for tiller and G. W. Spencer for trustee.

Three nominations for secretaries were made. They are Howard Overlin, incumbent; the Rev. J. J. Kellaghan and J. R. Stewart.

## 'Dirty Crack' About Sanford Resented By Celery Farmer

"About the smallest thing Dayton Beach ever did was to criticize Sanford after the Chattanooga Ball team left," declared John Rumbley, prominent Sanford celery grower, this morning in referring to an article published several days ago in a Dayton news paper when, according to Mr. Rumbley, a "very dirty crack" was made about Sanford.

"Why the people of Sanford spend more money in Dayton Beach every summer than they do in Sanford is a mystery to me," he said.

## Friendly Gesture Extended Germany By League Council

Hitler Is Asked To Discuss Rhineland Case With League On Amicable Basis

## France, Belgium Condemn Germany

Decisive Measures To Insure Safety Is French Threat

LONDON, Mar. 14.—(AP)—France announced tonight her willingness to consider an alternate plan whereby Germany might retain her troops in the Rhineland. A French spokesman said: "We do not want to stick blindly to our insistence on evacuation of our area if something better."

LONDON, Mar. 14.—(AP)—A gesture of friendliness was extended to militant re-armed Germany by the League of Nations Council today in an effort to avert trouble over re-occupation of the Rhineland. In the face of warning by France that "urgently brutal, decisive measures" might prove necessary to insure her own safety, the council decided to ask Chancellor Adolf Hitler to talk the matter over on an amicable basis.

Meeting in the scarlet and gold drawing room of historic St. James Palace here, delegates heard Foreign Secretary Anthony Eden assure Germany of fullest co-operation in building a new peace structure. France and Belgium joined in a demand that the League condemn Germany as a breaker of treaties. Eden agreed that an incontestable breach of treaties has been committed, but added that the peace of Europe depended on the Council's action.

The Council invitation to Germany was decided upon in a private session. The council expressed the hope a Hitler representative would arrive in London in time for the public session Monday.

U. S. Not Represented LONDON, Mar. 14.—United States absence from the League of Nations assembly worried French financial experts wrestling with the problem of applying proposed sanctions against Germany. Experts concluded that as with the case of sanctions against Italy, the United States holds the key to the locking up of the Reich with embargoes.

The U. S. ranks high as the source of raw materials for Germany, despite serious reductions in imports during the past two years. French experts found the U. S. is selling Germany approximately \$27,125,000 worth of American goods annually while buying \$28,700,000 worth of German goods. They believe that in event of sanctions Germany could buy in the United States practically everything she now is purchasing in Europe.

If air tight sanctions were applied, however, Germany would be critically hampered. Germany now enjoys a favorable trade balance with Great Britain of \$25,564,000, \$122,118,000 with Belgium, \$242,820,000 with France and \$218,438,000 with Italy.

Confusing Points In Slot Machine Case Not Decided Some Questions Are Yet Unsettled By A Court Decision

TALLAHASSEE, Mar. 14.—(AP)—Despite unanimous decision of the Supreme Court in upholding the "double fee" of \$120 annually for the operation of each slot machine in Florida, several confusing points remain to be settled. It is expected that further court proceedings will be taken to determine how much of the tax is to be paid by the owners of the machines and how much is to be paid by the operators.

Unanimously, the Supreme Court upheld the Orange county circuit court in dismissing an effort by Frank Sharp to get an injunction preventing the City of Orlando from requiring payment of the doubled license on each machine.

Also unanimously, the court denied a rehearing of the Cleve Baker case from Miami, in which Baker was denied release from a charge that he violated the Miami anti-gambling ordinance. The court said Baker had paid only \$60 for his machine, whereas the law required a payment of \$120.

The rulings mean that the operator who owns the slot machines must pay \$60 occupation licenses on each machine, in addition to his regular license fee of \$300 entitling him to engage in the business. Also, the "location operator" in whose place the machine is located must pay \$60, making the total of \$120 annually.

Counsel for slot machine operators here said they did not know whether further proceedings in the cases would be filed.

As these cases were decided, the Supreme Court also held constitutional a section of the law which prohibits slot machines within 300 feet of any church or public school, except in hotels.

Further, the court ruled the measurement should be from the point of the business establishment nearest to the church, and not from the spot where the slot machine actually is located.

Georgia Funds Can't Be Withdrawn From State Depositories

ATLANTA, Mar. 14.—(AP)—Three judges of the Superior Court today dealt a blow to Governor Eugene Talmadge's financial "dictatorship" by holding that state funds cannot be withdrawn from depositories without an appropriation bill. Talmadge has insisted that although the last legislature failed to pass an appropriation bill for 1935-37 he had the right to administer funds of the state.

Warranty deed filed for record today discloses the purchase by Sophie B. Crookston from E. L. Bailey of Yates, N. Y., of a property on Park Avenue between Twelfth and Thirteenth Streets. Revenue stamps revealed that the purchase price was \$500.

## United States Chamber of Commerce Is Watching Ship Canal Controversy

The Chamber of Commerce of the United States is "following rather closely" the Florida ship canal controversy, its secretary writes President H. M. Papworth of the Seminole County Chamber of Commerce, but it is barely possible the national organization may take no action as the question might be considered a state rather than a national matter.

Mr. Papworth wrote Howard Sibley, president of the Chamber of Commerce of the United States, on Mar. 7, setting in some detail the attitude of the local Chamber of Commerce in regard to the Florida cross-state canal, and giving his reasons for opposing its construction. The reply was written by Secretary D. A. Skinner, under direction of Mr. Sibley, under date of Mar. 11, and reads in part:

"This is an activity which the Chamber of Commerce of the United States is watching rather closely. It may cause some confusion as to the conditions which would not come under the provisions of the by-laws in respect to the adoption of a resolution at the annual meeting because of the fact it is very likely to be considered a state rather than a national matter."

"As you know, the National Chamber is very definitely committed to a procedure by the federal government which will result in the balancing of the federal budget at the earliest possible date. As the result of such a commitment we are urging, in every possible way, decrease in federal expenditures and especially for projects where there may be doubt as to their being economically sound."

"As you request, we shall be very glad, indeed, to follow the situation and get in touch with you promptly in case there is any way in which we can assist."

The Seminole County Chamber of Commerce is watching the United States Chamber of Commerce's attitude in regard to the Florida ship canal controversy.
