

The TINKER SYSTEM announces

the opening of the SECOND SECTION
of
LONGWOOD

"The Old Town With a Young Spirit"

THURSDAY, JAN. 7, at 9:00 A. M.

First Section Sold Out!

The First Section of LONGWOOD was put on the market Monday, December 7, 1925. During the first three hours, \$77,400 in sales were recorded. The entire section was sold out in three weeks. This unprecedented demand for this property, established definitely the fact that LONGWOOD was recognized by the public as an investment of safety and future profit.

Progress at Longwood

Since the First Section was announced, wonderful strides have been made in the progress and "rejuvenation" of the town of LONGWOOD. Thousands of dollars are now being spent in building stores, apartments, and homes. The organization and chartering of the Longwood Bank and Trust Company has been effected and the contract for the construction of a modern bank building has already been let.

Buy Early!

We advise our clientele, visitors, and friends to buy early in the Second Section of LONGWOOD. Lots in this section are subject to a 50% advance any day. This is something over which our company has no control, Mr. E. W. Henck, Esq., known as one of Florida's pioneers, reserved the right in our selling contract to advance prices on 24 hours' notice. Take advantage of this information and make your purchases early.

Sanford Agents: **SMITH & RAWLINS, CHAS. B. COCHRAN, Valdez Hotel**

Opportunities!

WHY INVEST IN LONGWOOD?

That is what you ask? We recommend LONGWOOD as a place that is certain of a great future expansion. LONGWOOD is an old town but it has young ideas and those ideas are pushing it forward so rapidly, that within a year a wonderful change will have come over that community.

LONGWOOD has the substantial foundation of honest and hardworking, pioneering people.

It has wonderful LOCATION, on the Dixie Highway and the Atlantic Coast Line Railroad.

It has a rich back country that is just now being developed. The largest poultry raising project in the world is being developed with unqualified success just without the limits of LONGWOOD.

Several industries have already signified intentions of locating factories at LONGWOOD. Industries bring workers and workers are the backbone of a community.

LONGWOOD has everything—and it has just begun to wake up. Follow the lead of those who know and buy today.

Opportunities Presented by Our LONGWOOD Brokerage Dept.

YOU will like LONGWOOD as a place to live. There is an undefinable something that makes one feel at home. Let Mr. Crocker or Mr. Turnbow show you what we have.

ORANGE GROVE, 5 1/4 acres on West Lake, Longwood. Has 200 ft. on this beautiful lake. Small cottages on property. This is a real buy at \$15,000. One-third cash.

The prettiest piece of acreage between Longwood and Lake Jessup. 10 3/4 acres just 3/4 mile from the city limits of Longwood on Molnar Ave. Has 1,000 feet frontage on highway. Three acres in old grove and rest adapted to citrus. This can be had for \$6,000 cash or \$7,000 terms. See this property today.

75 acres in the city limits of Longwood, just 1,500 feet north of the Hotel. Fronts 2,640 feet on Dixie Highway and 1,000 feet on East Lake. Good Pine timber. This is a wonderful subdivision proposition for someone. Let us show you how to realize \$100,000 profit by subdividing this piece. Price of tract \$50,000. One third cash.

Six acres in city limits of Longwood, 600 feet east of Dixie Highway on Molnar Ave. Three hundred feet frontage on avenue. Five acres in grove. Will subdivide into 30 lots. Price for tract \$15,000. One fourth cash.

20 acres, 1-4 mile from Longwood. Three acres in oranges. This is a good buy at the price, \$16,500. Only \$7,500 cash and balance in 1, 2 and 3 years.

ACREAGE, groves, houses, and lots of every description and at reasonable prices are listed in our brokerage department at LONGWOOD. We recommend the following:

OLD BEARING GROVE. Trees 50 to 60 years old in perfect condition. Income from grove in 1924 was \$10,000 net. This 22 acre grove is a wonderful proposition to insure a future income. Buy the 22 acres now for \$50,000; one-third cash, balance 1, 2 and 3 years.

40 Acres in grove. Seven acres in young grove and balance in full bearing trees. Has road frontage of 660 feet on clay road, three miles west of Longwood. Good five room house. Gas and running water; an ideal place to live. Price \$21,000; \$10,000 cash. This is a good buy.

GROVE AND HOME, 1,500 feet south of Hotel fronting 330 feet on Dixie Highway. Five acres, with good grove and a 6-room modern residence. This is a wonderful place combining a good home and sound investment that is sure to pay big future dividends. Price \$16,500. Terms.

MODERN SEVEN ROOM house in Longwood, half block off Dixie Highway. Faces north on lot 50x160. This house is in first class condition and is a good investment. Price \$7,000; terms.

FIVE ACRES fronting on Molnar and West Lake Avenues. A very valuable corner, level, high and dry. Now in old grove. Price \$5,000. Terms.

WARREN STREET. Lot 50x100 on this street that is to be paved at once. Three modern residences are now under construction in the same block. This is worthy of your consideration. Price \$1,500; terms.

Democrats To Fight Approval Of Italian Funding Plans

Mussolini Reason That Leaders Are Acceptance

See Okey Wednesday

Over Debt With Removal of Romanian Envoy

Sanford, Jan. 7.—House will receive today and means recommendation of the war debt but will face a disapproval of with Italy. The largest of two democratic representing the settlement committee was reported Wednesday in Romania, announced that the minister to be relieved of assumed that the reported debt question be and Nicholas to London, who man debt commission. Prince Bilen another post, settlement as well with Italy, Slovakia, Latvia, approved by the and a resolution acceptance will in the House next week.

Honored

This is Gilmour Doble, famous for his work as president of the American Football Coaches Association. For years Doble has been in charge of successful eleven and has tutored teams in various parts of the country. They call him "Gloomy G" because he's anything but optimistic before a big battle.

MRS. BERLIN SAYS SHE'S VERY HAPPY BUT HEART SICK

NEW YORK, Jan. 7.—(AP)—Mrs. Irving Berlin is supremely happy in her recent marriage with the noted jazz composer, she says, but is heart sick because her father, Clarence H. Mackay, president of the Postal Telegraph Co., has not given them his blessing.

Restore an Crown and Spread

Sanford, Jan. 7.—(AP)—A plot to restore a crown is in the one side it is the Fascist project to give the crown to the supporting Prince Charles, who is the son of the late King George V. Serialists charge are at the bottom of the plot and that the crown should be used in the restoration of the British Empire.

CECEN DIES

Sanford, Jan. 7.—(AP)—Cecen, who was assigned here for the construction of the air field, died today. He had been ill for some time.

House Budgets \$100,000,000

Sanford, Jan. 7.—(AP)—The House today passed a bill for a \$100,000,000 board of housing. The bill is for a \$100,000,000 board of housing. The bill is for a \$100,000,000 board of housing.

Canada-Mexico Road Proposed

CHICAGO, Jan. 7.—(AP)—A highway extending from North-west Canada to Mexico City is being considered as an international project. The project is being considered as an international project.

REALTY SALES ARE \$17,409,770, SURVEY SHOWS

Number Of Transfers Given As 3,670 For Year. While November With 416 Deeds Is Largest Monthly Total

November 2 Broke Single Day Record

Optimism Prevails In Local Circles Over Outlook For Realty Business In 1926

Real estate transfers for the year 1925 involved the huge sum of \$17,409,770 and the deeds recorded numbered 3,670, according to figures made public Wednesday through the records of the Sanford Credit Association.

This is believed to be higher by far than any previous year.

The highest amount in one month was reached in November when the number of transactions reached 416 for a total of \$3,065,000. The poorest month recorded was January when only 164 deals were consummated and \$474,000 was involved.

The largest single day's business was on Nov. 2, when \$67,000 changed hands in 24 separate deals. This record was made possible by the sale of 6,000 acres of land by G. B. Read to J. C. Billie, Jr.

Much optimism was expressed in local real estate circles this morning over the outlook for the year 1926. The year 1925 was an even greater year in 1926. Many of them pointed out that Sanford was just beginning to show a great amount of activity and they predict that the coming few months will bear witness to their statements.

Several of the leading subdivision dealers of the city are preparing to market their various properties and many places of business are expected to change hands soon, which will tend to make the coming months very busy ones.

One operator cited the fact that one year ago the business properties along the lake front and in the vicinity of Commercial Street was worth \$500 to \$600 per front foot. He stated that today the same property is worth \$1,000 to \$1,500 per foot. This is believed to be the highest price ever asked here for vacant property.

Following is a list of the deeds recorded and the amount involved for each month of 1925:

January	164	\$ 474,000
February	309	543,500
March	316	1,238,500
April	309	781,000
May	209	723,250
June	269	1,262,750
July	340	1,038,920
August	376	1,514,100
September	346	2,312,250
October	298	2,300,000
November	416	3,065,000
December	425	2,229,500
Totals	3,670	\$17,409,770

STATE CONDUCTS EXPERIMENTS ON FEEDING OF QUAIL

Game And Fish Department To Trap Species Of Feathered Tribe In Various Counties For Diet Observation

TALLAHASSEE, Fla., Jan. 7.—(AP)—The Game and Fish Department plans to take up the work of "quail trappings" during the coming spring. It was announced by Commissioner J. B. Royall.

By "trapping" the quail, workers of the department hope to greatly improve the breed in the state, and create "new blood" where it is needed the most, Mr. Royall explained.

Quail in Leon county, for instance, which may be much larger than those available in the southern section of the state, or just the other way, will be "trapped" by means of wire traps, and will then be transferred to where the birds are found to be smaller.

The traps are to be taken to those sections which abound mostly in quail. Feed which appeals to the birds will be placed in them. A hole just large enough for the quail will be dug beneath the trap.

A quail, Commissioner Royall explained, seeks its food with its head to the ground. After eating, however, the bird, he said, "are heads up." In that way they pointed out the birds find their way into the traps, but, after eating, overlook the place of entry.

In a bulletin just sent out by the Committee on Co-Operative Quail Investigations by the United States Department of Agriculture, it was stated that the quail is one of the most valuable game birds in the South.

New Ice Plant Owner Is Impressed With Sanford's Latest Tourist Hostelry

The construction of the Hotel Forrest Lake coupled with the rapid improvement of river transportation facilities has removed the last obstacles in Sanford's development into a great city according to J. D. Ball, St. Louis financier who arrived in Sanford several days ago to inspect the new plant erected by him in the western section of the city.

"I dined at the Hotel Forrest Lake Monday evening," Mr. Ball said this morning, "and I can say without fear of contradiction that you have here in Sanford one of the best designed and most elaborately appointed tourist hostelrys in the country, a hostelry that must certainly attract visitors to your community."

Mr. Ball expressed himself as being agreeably surprised with the development of Sanford accomplished since his last visit here some months ago, and praised the administration of the city and the men whose concerted action made possible the continuance and increase in building operations despite existing rail embargoes.

"In the development of the St. Johns river lies Sanford's assurance of independence from future rail limitations of shipments," Mr. Ball said, "and I am pleased to see that the citizens of Sanford are rapidly beginning to appreciate this fact and are enlarging and adding new facilities for the handling of freight consigned here by river boats."

In commenting on the progress of his new ice plant, which is said to be one of the largest in the South, Mr. Ball stated that the railroad embargoes had retarded operations considerably, and that the opening date would probably be around Feb. 1, instead of Jan. 15 as was originally announced.

MINOR CASES ARE ALL DISPOSED OF IN COUNTY COURT

Many Prohibition Charges On Docket Are Expected To Be Completed Before Coming Saturday Night

Practically all minor cases were disposed of in County Court Tuesday afternoon and Wednesday morning before Judge Shannon and only approximately 15 cases involving the possession and manufacture of whiskey remain to occupy the attention of a recorder by disposing of 62 cases in one week's session.

Among those who were found guilty and who will be duly sentenced by Judge Shannon are: Marie Grant, assault and battery; Dan Hill, carrying concealed weapon; Elbert Rockmore, aggravated assault; O. C. Bryant, aggravated assault; James Harris, reckless driving; Julia Jurek, assault and battery.

William Austin, accused of reckless driving, was found not guilty and Pasco Duncan, charged with drunkenness, failed to appear. R. E. Hilliard, accused of possessing a still and a quantity of whiskey forfeited bond on each alleged offense.

Several cases were continued or postponed, and others are to come up for trial tomorrow.

John Robinson, charged with possessing and selling intoxicating liquors, was placed on trial late this afternoon, and a decision in his case is expected to be given in the morning session.

Pope Thinks St. Paul Would Be Journalist If He Were Still Alive

ROME, Jan. 7.—(AP)—If Saint Paul lived today he would be a newspaper man in spirit at least, Pope Pius asserted Wednesday in the hall of the consistory, when a decree was read on the eminent virtues of the venerable Antonio Maria Clareti, once archbishop of Cuba and founder of the congregation of Missionaries of The Immaculate Heart of Mary.

The ceremony was preliminary to the canonization of the prelate. Eulogizing Bishop Clareti's use of books and the press as powerful means to spread the faith, the pontiff said:

"It has been remarked that if Saint Paul lived in our day he would become a journalist. I doubt, but I believe that it certainly would have occurred in spirit, because without question he would have utilized with eagerness such an instrument for the dissemination of ideas as the press."

GUILTY OF MURDER

GRAY, Ga., Jan. 7.—(AP)—Grover Cleveland Etheridge, early to day was found guilty of the murder of Frank Tucker and Floyd Malone, Jones, county policeman. The jury recommended and automatically imposed a sentence of life imprisonment.

Young Explorer Loses Bearings And Is Returned Home By Chief Police

Little Wanda Fallon, evidently likes to wander, at least she did yesterday, and the fact that she was lost occurred for her only when she reached the corner of Palmbeek Avenue and Sixth Street. No one had the realization that she was really totally and absolutely lost until she was found by Chief Police.

Bradenton Lumber Man Dies Suddenly

BRADENTON, Fla., Jan. 6.—(AP)—A. D. Woodruff, whose name is prominent in lumber circles throughout the state, died suddenly from heart trouble at his home in Bradenton today.

Y. M. C. A. MEN SPEAK BEFORE KIWANIS CLUB

Merle Brown And W. H. Cox Tell Of Benefits That Local Branch Of Organization Will Bring To This City

Musical Comedy Singers Entertain

Rev. Brownlee Is Praised For Progress Of The Club Under His Management

Speeches by Merle Brown, field secretary of the Y. M. C. A., with state headquarters in Jacksonville and W. H. Cox, general secretary of the Tampa Y. M. C. A., were made at noon before the Kiwanis Club at its first meeting under the direction of the 1926 officers, in the Seminoles Grill.

Entertainment was furnished by the Kiwanians by the "Honey-bunch" Musical Comedy Company playing at the present time in Orlando. The balance of the evening was spent in the most interesting and profitable of the year's work.

Mr. Brown, accompanied by Mr. Cox, came to Sanford Tuesday to confer with the Kiwanis relative to the establishment here of a Y. M. C. A. organization. They visited DeLand and Daytona Tuesday afternoon and will be in this morning before the Kiwanis. A meeting was called immediately at the close of the Kiwanis program today in the hope that directors of the local Y. M. C. A. could be elected for the Sanford "Y."

During the course of his talk before the members of the club, Mr. Brown cited many statistics of the cost of operating the government the year's cost of crime and the investment in the automobile.

He stated the purpose of the Y. M. C. A. was to build the character of boys and young men throughout the world and urged the Kiwanians to get behind the movement for a local branch of this organization.

Mr. Brown said, "We believe in the prevention of wrong-doing and not the expenditure of vast sums in the prosecution of crime."

He stated that figures have been published showing that the organization by represents now has establishments in 56 countries and that the "gun never sets on the Y. M. C. A. flag" in any country.

Several figures were given to show the great contrast in expenditures toward the punishing of criminals, the pursuit of pleasure, the cost of government operation and the amount spent in safeguarding the welfare and up-building the characters of the nation's young.

T. L. Dumas, second past president of the club, presented the third past president, Dr. E. D. Brownlee, with the insignia of the past president's office. Mr. Dumas spoke of the wonderful work accomplished at the club under the leadership of Rev. Brownlee and stated that the club had enjoyed the greatest year in its history during the 1925 president's tenure of office.

Missing Carolina Man Believed In Florida; Wife Collapses, Dies

SPINDALE, N. C., Jan. 7.—(AP)—Officers in four states today were tracing the movements of Grady L. Gilbert, paymaster of the Spinners' Processing Company, who has been missing from his home here since Saturday morning.

Funeral services were held yesterday in Asheville for his wife, who died following a nervous collapse, said to have been caused by his disappearance. She was taken to the home of her sister in Asheville, after her collapse.

Officials of the company for which Gilbert was paymaster declare they cannot account for his disappearance. They assert his financial relations with them were in proper shape, and they have had no knowledge of any other possible irregularity.

Georgia Man Victim Of Peculiar Mishap

DELAND, Fla., Jan. 7.—(AP)—John S. Brown of Dublin, Ga., is dead here as the result of a peculiar automobile accident late Wednesday. Returning to the central part of the city, after inspecting some real estate, the car in which he was riding skidded on the wet pavement.

The car ran into a telephone pole and a 90 pound transformer on the pole became dislodged, falling upon Brown, who died upon reaching the hospital. Officer Robert Smith of the car was John S. Brown, driver of the car, his father, John S. Brown, was also present.

Rev. O. H. Greenwell Cleared At Atlanta Of Larceny Charges

Sanford Pastor Acted In Good Faith In Transactions, Police Of Atlanta Declare

Statement Is Made By Church Board

Preacher Was Victim Of Circumstances, Members Reiterate

ATLANTA, Ga., Jan. 6.—(AP)—Complete exoneration on a charge of larceny after trust, has been made in the case of Rev. O. H. Greenwell, former pastor of an Atlanta church and at present living in Sanford, Fla., who was brought to Atlanta in custody of an officer from the solicitor general's office to answer municipal court warrants sworn out against him here.

The specific charge was the alleged failure of Rev. Greenwell to properly apply money entrusted to him on loans, which money he was said to have received from four friends.

Officers and those in charge of the investigation were of the opinion that the minister had acted in good faith and had no intention whatever of breaking the law. Complete exoneration was made immediately following the return to Atlanta, which resulted in a prompt dismissal of all charges.

DIRECTORS FOR SANFORD "Y" ARE SELECTED TODAY

Representative Citizens Are Chosen To Assist In The Organization Of Local Branch Of Association

At a meeting held Wednesday afternoon in Seminoles Grill Directors were elected for the Sanford Young Men's Christian Association and announcement was made that a meeting for the purpose of selecting the officers of the new organization for the year 1926 would be held early in the evening.

W. R. Smith was chairman of the meeting which elected the directors, who were announced as follows: For one year, L. C. Bebout, G. F. Smith, S. O. Chase, H. C. DuBois, Harry Kent and T. L. Dumas; for two years, Harry Stearns, W. Lawton, S. E. Dight, W. M. Scott, R. T. Fox and W. R. Smith; for three years, Forrest Lake, J. G. Sharon, B. F. Whittier, Sr., E. J. Holly, S. Puleston and D. T. Tharpe.

From the list of directors the officers will be chosen. It is said that, pending the election of a suitable building for use as headquarters, the old City Hall will be used.

Merle Brown, field secretary for the Y. M. C. A., was in the city for the meeting and was accompanied by W. H. Cox, general secretary of the Tampa Y. M. C. A. They both assisted in the forming of the local organization and in short talks stated their satisfaction in seeing the city of Sanford join the list of Florida municipalities which have jumped in behind the "Y" movement.

Several Mad Dogs Killed On Streets By City Policemen

NAPLES, Italy, Jan. 7.—(AP)—Vesuvius is rumbling and emitting smoke and lava, but in small quantities. The phenomenon last night delighted large crowds of foreigners, who watched the glow from the crater as it enveloped the snow-capped mountain. The present eruption is only one of the many outbreaks of the volcano.

"It is one of the ordinary phenomena which occur about Vesuvius," said Professor Malacra, director of the Vesuvius observatory. "Last year was an exceptional one as there was only one flow of incandescent lava from the crater last April. The present eruption, rather than being dangerous is a safety valve for the village around Vesuvius, since the volcano, through the opening in the dome, finds outlet for its incandescent matter, which otherwise might cover the entire cone."

"There is no fear of eruption at present. In 1906, Vesuvius' activity came suddenly with a violent explosion, which was followed by a flow of lava, which was 200 feet high and 100 feet wide. The eruption was so violent that it was necessary to evacuate the entire city of Naples."

The first mad dog reported to the police came into the city from the direction of Goldsborough and Chief Williams immediately dispatched several squads in flivvers to search for the dog. The copper were successful in finding and putting an end to the animal only after it had bitten several others and from that time until dark a search for dogs with signs of disease was kept up.

It was reported this morning that several animals who were bitten by the mad one had been taken up and were being kept under close observation for signs of disease. The brain from the dog which started the commotion was sent to the state laboratories for examination.

Fixed For \$2,000,000

CHICAGO, Jan. 7.—(AP)—The value of nearly 25,000,000 shares of stock owned by J. P. Morgan & Co. is fixed for \$2,000,000.

GIBELIC LANGUAGE DYING

BELMONT, Jan. 7.—(AP)—Ramon de Valera in a speech at Belmont, N. Y., said that the Gaelic language was rapidly dying, notwithstanding the fact that it was being taught in the schools.

WICHITA GIRL IS PROMISING OPERA SINGER

Kathleen Kersting Is Called True Artist By Famous French Singer And Tutor

Rotarians Supply Educational Funds

All Wichita Assists In Defraying Expenses Of Poor Man's Girl

WICHITA, Kan., Jan. 7. (AP)—Three years ago a fourteen-year-old girl singing in the choir of a Wichita church, Kathleen Kersting today is hailed one of the "discoveries" of modern opera. She is completing her musical education in Europe, with Mme. Emma Calve, under the guardianship of the Wichita Rotary Club.

Calve heard Kathleen sing while the French opera star was on concert tour of North and South America in 1922. She consented to a newspaperman's request to introduce the girl and was so charmed by the impromptu recital that she insisted Kathleen should accompany her on her return to France.

Kathleen's father is a farmer, but the family invested all their humble holdings in the training which Calve said the girl should have abroad. Two years of study in France and Italy, where a new world opened out before the little Kansas girl under the motherly care of Madame, and the little fortune was gone. The Kerstings had opened a rooming house to help obtain funds. Kathleen came home last winter to sing in concert but only a few hundred dollars were gotten together.

Then the Wichita Rotary Club learned of the situation and came to Kathleen's aid. In a twinkling, \$6,000 was raised, and Kathleen went back to France and to the jealous care of her internationally known tutor. With the other of Calve's youthful proteges, the girl has studied the music and art of the continent.

Recently she appeared in informal recitals where her voice was acclaimed by several of the great French critics as that of Calve, at the height of her career. The critical audience, said one of those present, little anticipated what was in store for them. But as Kathleen sang, the attitude changed from one of eager interest to one of frank and charmed amazement. Calve stood below her watching every movement. Kathleen responded to encores until Calve refused to let her sing more.

Calve, herself, says that within five years, Kathleen will be known as one of "the great voices."

Propagandists Are Still Fighting This State, Reports Say

JACKSONVILLE, Jan. 7. (AP)—Propagandists in the North still are hammering Florida, the hundreds of clippings received by the Florida State Chamber of Commerce reveal. The campaign has been through three stages. It was an out and out snivel campaign until a few weeks ago, tapering off with predictions that the so-called "bubble" would burst, is bursting or has burst. Then, when it didn't "burst" the newspaper editors who had been hammering the heaviest cast about for something in the way of alibis and attempted to explain why the blow-up had not occurred, predicting all the while that it was due soon.

With failure of the "bubble" to explode, as, hopefully, predicted, they have graduated from the alibi stage and have gotten out the hammer again.

On thing which recently has supplied the text for numerous editorial sermons was a story published by the New York Times to the effect that 900,000 persons in Florida were living in tents because of crowded conditions. Then the Times, or someone in a communication published by the newspaper, hit upon the idea that with so many hundreds of thousands residing in tents a serious menace to the health of the state had arisen. This gave the propagandists another text and now many of the newspaper critics are worrying about the introduction of disease in Northern states by persons who will return home when the "bubble" bursts and bring the Florida germs with them.

Constantinople telephone girls have gone on a telephone strike higher wages. It must be hard work to be a telephone Turkey, where they prohibit two harems on a party island Plain Dealer.

DEPT. OF THE COUNTY SEMINOLE COUNTY, FLORIDA
 In re: PETER NOLAN, Probate.
 Notice is hereby given that the will of the late PETER NOLAN, deceased, was admitted to probate in this county on the 15th day of December, 1924, and that the same is on file in the office of the clerk of said county, at said time, and that the same is open to the inspection of all persons who may be interested in the same, and that a final settlement of said estate will be made at a public sale of the assets of said estate, to be held at the office of the clerk of said county, on the 15th day of January, 1925, at 10 o'clock in the forenoon of said day.

Iowa Doughboy Visits Monte Carlo And Returns To Start Turtle Farm

FERTILE, Iowa, Jan. 7. (AP)—Some 20,000 snapping turtles now lie buried beneath the boggy acreage of the hill country of north Iowa, enjoying their long winter sleep, because the world war broke out in Europe in 1914.

Europe is a long way from Fertile but it is where Hans Johnson, youthful soldier, got his idea for the establishment of a turtle farm that supplies a large percent of the turtle flesh that eventually finds its way to the dining rooms of America's foremost hotels.

Johnson was a doughboy in the 88th division of the A. E. F. In September of 1917 he obtained a leave of absence and wandered down to Monte Carlo, of gambling fame. One night a wealthy American, a steel manufacturer, invited Johnson and a number of companions to dine with him at the Grand Cafe near the Casino. Chelonia mydas broth, a soup made from the flesh of a species of West Indian turtle, was served. The check for it was large.

Johnson reasoned that if wealthy men paid without protest such high prices for mydas broth, it would pay to go in the business of supplying the market. Thus was born the idea of Fertile's turtle farm, the plans for which Johnson put into effect after he came home. Five years ago Johnson began his work by leasing 10 acres of river bottom land, making success of the venture from the start.

Mr. Johnson derives his chief revenue from the sale of eggs and chosen breeding stock. He also has a good income from the sale of turtle oil, supplying many large hospitals. During the winter months he supplies a great many eastern hotels with choice table stock, fed and fattened throughout August and September on sweet potatoes and buttermilk.

The first 500 turtles were placed on the farm in 1920. They were a species known as the "snapping turtle," a reptile despised by fishermen. They were taken from the streams and lakes of north Iowa. Placed on the farm, they have been greatly improved by crossing with a species of chicken tortoise somewhat resembling the leatherback. The resulting strain is a grotesque creature resembling, in some respects, the chelydes and matanata reptiles of South America. However, their flavor is appetizing. Of the 20,000 turtles now on the farm, possibly 1,000 are of the new hybrid species.

On the farm itself there are ten lowlying acres of hummocks and bog, and nothing more. There are no buildings of any kind, except three dams of stone and waste-wood thrown across a fill of mound-spring water that trickles toward a larger stream skirting the south border of the farm. Wavering rows of post tops mark the underground fences formed by the stones and wood obstructions in the little stream.

Gives Up Throne For Her

Crown Prince Carol of Rumania, who resigned his rights to his country's throne, is believed to have done so to return to Zizi Lambruni, former wife (above). Zizi, a commoner, married Carol during the war, but in 1920 King Ferdinand induced Carol to annul the marriage and wed Princess Helena of Greece. Now Carol and Helena will be divorced, dispatches say, and he will remarry Zizi.

National Gridiron League Likely To Be Organized Soon

NEW YORK, Jan. 7. (AP)—Entrance of the Boston Braves into the professional football field, as announced Wednesday, may forestall a gridiron circuit on the very lines of the National Baseball League.

Several cities in the National League have professional football clubs although not under baseball management. Among them are New York, Pittsburgh, St. Louis and Philadelphia. Four of these are American League cities as well.

The New York Giants, operating at the Polo Grounds, but owned outside the baseball organization, had a successful year in their first appearance. All things considered the team paid for itself. Every seat in the stands was filled and many persons stood throughout the game in which "Red" Grange performed with the Chicago Bears.

Brooklyn has sought a franchise for next season. Two are held by the New York football promoters, one of which is not in use and the 1925 situation is somewhat vague. The Braves announce that they are

Salm Says Wife Is Very Extravagant In Guarding Home

NEW YORK, Jan. 7. (AP)—Count Ludwig Salm Hoogsteden regards as a useless display of extravagance on the part of his wife, the former Millicent Rogers, the placing of a cordon of detectives around her home in Palm Beach to guard their young son against kidnaping. He also says he is prompted by "diplomatic tact" of the countess and her advisers to apply to the courts for the custody of his year-old child, whom he has never seen.

The count, who is suing for separation, let it be known Wednesday making the move as an economic venture designed to fill the great stadium after baseball games. And baseball promoters in other cities soon may become imbued with the same desire for economy.

There were 18 teams in the National Football League the past season and there are rumors that another year will see 10 eleven in the east and 10 in the west, the developing winners playing a world's series.

MR. AND MRS. BENDER ENTERTAIN AT DINNER HONORING JERSEY VISITORS

Mr. and Mrs. John Bender entertained most pleasantly at dinner on Wednesday evening at their home on West First Street, honoring Mr. and Mrs. George Herbat and their house guests, Mr. and Mrs. John Wurth of Plainfield, N. J., Mrs. Louise Englebrecht of Secaucus, N. J., Miss Minnie Nist of Farmingdale, N. Y., and Fred Herbat, Plainfield, N. J. The hostess was adorned with quantities of narcissus and ferns. Centering the long dining table was a low mound of these fragrant blossoms, and sprays of feathery asparagus ferns. At 8 o'clock a delicious seven-course dinner was served. Following dinner friends joined the guests and a number of interesting games were played and enjoyed until a late hour.

Mrs. Geo. W. Knight Is Hostess To Tuesday Duplicate Bridge Club

Mrs. Geo. W. Knight was the gracious hostess on Tuesday when she entertained the members of the Tuesday Duplicate Bridge Club most delightfully at her attractive new home in San Lanta. The color motif of gold, green and white was emphasized with quantities of callulandias and yellow asparagus ferns. After a most interesting game of duplicate bridge, scores were counted and it was found that Mrs. LeRoy Chittenden, Mrs. Frank Gonzalez, Mrs. Harry B. Lewis and Mrs. J. C. Benson were holders of high score. At the conclusion of the game, the hostess served a delicious salad course with coffee. Those enjoying the cordial hospitality of Mrs. Knight were Mrs. Frank F. Gonzalez, Mrs. F. E. Roumillat, Mrs. J. P. Walms, Mrs. Fred Walms, Mrs. LeRoy Chittenden, Mrs. J. C. Benson, Mrs. Harry Lewis and Mrs. Charles E. Henry.

Woman's Club Column

One of the most pleasing announcements made at the business meeting of the Woman's Club Wednesday was the beginning of the second class in parliamentary law under the direction of Mrs. J. C. Gibbs, club parliamentarian. Mrs. Gibbs taught a class in 1925 which was a pronounced success, and for the class which will be formed Monday morning at 9:30 o'clock, the same policy of offering its advantages to any resident or visitor in Sanford will be observed. Mrs. Gibbs is an unusual parliamentarian in that she combines perfect tact with splendid grasp of her subject. The parliamentary classes of the Woman's Club are free.

HOME ECONOMICS FOR BOYS

TULSA, Okla., Jan. 7.—(AP)—Boys must learn to carve duck and make salad before getting high school diplomas. A year's study of home economics is compulsory.

BAD ELEPHANT TO DIE

LITTLE ROCK, Ark., Jan. 7.—(AP)—Tex, a bad elephant, a century old, who has killed nine men, is to be electrocuted. He is staked out near Hot Springs, just now after a rampage through crops.

RADIO SERVICE IN EFFECT

PARIS, Jan. 7.—(AP)—Direct radio telegraph service between Argentina and France was established today.

Mrs. Leonard To Be Hostess To D. A. R.

The monthly meeting of Sallie Harrison Chapter, D. A. R., will be held at Hotel Forrest Lake on Friday afternoon, Jan. 8 at 3 o'clock with Mrs. John Leonard as hostess. As it was decided to discontinue mailing notices to members, it is hoped that they will keep this date in mind and everyone will attend this first meeting of the new year. Many matters of interest and importance will be discussed.

Personals

Mrs. Geel Butt of Orlando is the guest of her mother, Mrs. L. G. Stringfellow, at her home on Ninth Street.

Mrs. W. C. Hill and mother Mrs. Lola Le Gette motored to Orlando on Monday where they spent the day shopping.

Miss Alberta Aycock has returned home from St. Augustine where she spent several days as the guest of relatives.

A. J. Stein of New York spent Wednesday here attending to business. Mr. and Mrs. Leo O. Conley returned home on Tuesday evening from Pineview, and Valdosta, Ga., where they spent the holidays with relatives.

Mr. and Mrs. Eugene Tittle had as their dinner guests last evening Mr. and Mrs. S. O. Trumbo of Orlando.

Arthur Yowell, F. E. Roumillat, Dr. S. Paleston, C. E. Henry, and Leon LeRoy motored to St. Augustine on Wednesday where they went on business.

Mr. and Mrs. George Chamberlain and Mrs. Walter Twitchell of Daytona Beach motored to Sanford on Wednesday and were the guests of Mrs. Raymond Key.

The christening services of the young son of Mr. and Mrs. Samuel Sanford Saumel were held on Sunday at the Fernald-Laughton Hospital by Rev. B. Safer of Jacksonville. The baby has been given the name of Raymond Philip. Quite a number of out-of-town friends as well as members of the family were in attendance.

Mr. and Mrs. W. J. Steed and children of Kissimmee were the guests of Mrs. Steed's parents on Tuesday evening, coming up to attend the Ball family reunion.

Mr. and Mrs. R. T. Thrasher motored to Tampa on Thursday where they will be the guests of the former's sister Mrs. F. S. Daiger for the week end.

Mr. and Mrs. J. G. Ball had as their dinner guests on Tuesday evening at their home on Central Avenue, Mr. and Mrs. Henry Ball and small daughter of Miami; Mr. and Mrs. J. Steed and children of Kissimmee; Mr. and Mrs. Brown and Dick Jr., Hodgson Ball and Billie Ball.

Mr. and Mrs. C. B. Knapp announced the arrival of an eight-pound son on Jan. 6.

Mrs. George Herbat and guests, Mrs. John Wurth, Mrs. Louise Englebrecht, Miss Minnie Nist and Mrs. John Herbat, formed a congenial party motoring to Orlando on Thursday where they spent the day.

Mr. and Mrs. Martin McDaniel and son, who have been spending the holidays here, left Wednesday morning for their home at Bunell.

Mr. and Mrs. E. L. Burgen, Virginia and Ralph Burgen, who have been touring the state, and have been spending the past few days in Sanford as the guests of Mrs. Burgen's sister, Mrs. A. P. Connelly, left Tuesday for their home at Winston-Salem, N. C.

Mr. and Mrs. B. G. Slaughter and daughter, Miss Margaret Slaughter, who have been the guests of Mrs. Slaughter's sister, Mrs. John W. Sneed, for the holidays left Tuesday for their home at Hopewell, Va.

Mr. and Mrs. John Wurth of Farmingdale, N. J., and Fred Herbat of Plainfield, N. J., who have been the guests of Mr. and Mrs. George Herbat for the past two weeks during which time they have been most enjoyably entertained, leave Friday on the boat for Jacksonville, where they will spend a short time en route to their homes in New Jersey.

Local Organization Plans To Entertain Epworth League Body

The Sanford Epworth League will entertain the Central Florida League Union at the Sanford High School on Friday evening at 8 o'clock. The Central Florida Union is a group of 14 league chapters and about 250 young people are expected here on Friday night. As this is planned as one of the largest events in the league's history, every member is expected to attend.

Princeton scientists' vote in favor of evolution. Wonder if it was after looking at a few students.

LATEST FASHION HINTS FOR MILADY

BY MARY MARSHALL

Copyright McClure Syndicate

A favorite still with well-dressed women is the jumper frock of wool jersey.

From over popularity, clothes of jersey and other knitted materials have just to an enviable position. Now they constitute an important factor in the specialized wardrobes of women who have adapted to too constant everyday occasions, rather than for the woman who expects one frock to do eight hours' service a day for five or six days a week until the frock is worn out or otherwise ready for the discard. The fact is that the knitted frock or knitted shirt or knitted jacket is not well adapted to too constant everyday use. Excellently suited for hours at golf or country walking, or for more intensive wear for motoring or other travel if properly hung or pressed afterwards—the knitted frock soon takes on dowdy lines if worn in and day out by the business woman at her desk.

The sketch shows one of the new knitted jumpers, built on quite mannish lines, with long sleeves and buttons straight down the front. The only feminine touch to the coat is the bands of crepe de chine at cuff, collar and around the front and lower part of the jacket.

The American man no doubt has had as much as anyone else to do with the popularization of the knitted jacket or sweater. Golfers in England and on the continent set the fashion for wearing a pull-on on the links—though they of course did not consider it a "fashion," but merely a convenience. Your Englishman seized upon the idea. Here was a way that he could with perfect propriety play golf with his coat off. He called the garment a pull-on-over-the-head jersey and liked it especially because the Prince of Wales wore it frequently.

There was an interesting rebound here. The American man, who still takes the lead more or less directly from England, so far as clothes are concerned, gained new interest in the sweater or knitted jersey because it was so well regarded by the fashionable Englishman. It was his own idea, but he liked it better after the English had adopted it.

stick pins or paste stans on every country from whence he had received stamps. Very interesting collections can be made by means of pictures and scrapbooks now-a-days. Magazines and pictorial supplements of the papers offer such a variety of good reproductions that such a hobby can be carried on at small cost. I know one small boy who is collecting dogs—he gets pictures of every dog imaginable and pastes

Any book on child psychology will tell you just when to look for this desire to collect. It comes sooner with some children and later with others—and is I believe stronger in boys than in girls, though goodness knows some little girls I know are inveterate collectors. Some children never get over their fondness for it, and it is a shame that every adult hasn't carried over from childhood days some sort of collection hobby, if only to pass on to his own or someone else's children.

Needless to say the woman who has retained a strong penchant for this sort of thing understands the collecting fads of her children, better, and in understanding them and realizing that they are quite normal and even necessary is usually able to establish fairly useful and educational hobbies instead of collections that are utterly useless. Stamp collecting is an amazingly instructive hobby. It helps you to understand the world, to have a globe in your house and help your young stamp collector locate the position of every stamp that he adds to the collection. You might even have a large map of the world on one wall of the stamp collector's room and permit him to

Delightful Courtesy Given For Carolina Visitors Wednesday

The lovely home of Mrs. F. E. Roumillat was the scene of a most delightful party on Wednesday afternoon when she entertained at bridge honoring Miss Mary Powell of Raleigh, N. C., and Mrs. Frank Powell, who is spending the winter at Longwood. The guests included the members of the Wednesday Bridge club.

Baskets of exquisite pink Radiance roses and narcissus were effectively arranged forming a pretty setting for this enjoyable affair. Quaint floral tallies were used in keeping scores and the prizes were won by Mrs. E. F. Housholder and Mrs. J. C. Benson, both of whom were given framed mottos. Miss Mary Powell was presented a dainty vanity, while Mrs. Powell's prize was a hand-made vanity dresser set.

Following the awarding of the prizes, the hostess assisted by Mrs. Allen Jones, served a salad and ice course. The cordial hospitality of this talented hostess was reflected in every detail of this charming social courtesy.

Refreshments consisting of creamed chicken in timbals, grapefruit salad, cucumber rings, hot rolls, and coffee were served at the conclusion of the game by the hostess, assisted by Mrs. Hawkins Connelly and Mrs. Joe Chittenden.

Mrs. Ridge's guests were: Mrs. J. D. Woodruff, Mrs. Joe Chittenden, Mrs. W. W. Potter, Mrs. Edward Betts, Mrs. Densil Stafford, Mrs. Hawkins Connelly, Mrs. Grant Wilson and Mrs. Monroe Hutton.

D. A. R. BOARD TO MEET

A meeting of the executive board of the Sallie Harrison Chapter, D. A. R., will be held at the residence of Mrs. F. E. Toler Thursday evening at 8 o'clock. A full attendance is expected.

Bon Ton Bridge Club Members Entertained By Mrs. James Ridge

One of the most enjoyable of the many bridge parties given this week, was that of Wednesday afternoon when Mrs. James Ridge entertained the members of the Bon Ton Bridge Club at her home on Central Avenue.

Quantities of yellow chrysanthemums together with ferns, were used in profusion in the large living room where the card tables were arranged. Scores were kept on tallies done in Chinese designs and the other details were also suggestive of the Orient. After an absorbing game of bridge, scores were counted and the prize for top score, a yellow Chinese urn, was awarded Mrs. Densil Stafford. In cutting for the consolation prize, which was a pair of miniature Chinese urns, Mrs. Edward Betts was the fortunate one.

Refreshments consisting of creamed chicken in timbals, grapefruit salad, cucumber rings, hot rolls, and coffee were served at the conclusion of the game by the hostess, assisted by Mrs. Hawkins Connelly and Mrs. Joe Chittenden.

Mrs. Ridge's guests were: Mrs. J. D. Woodruff, Mrs. Joe Chittenden, Mrs. W. W. Potter, Mrs. Edward Betts, Mrs. Densil Stafford, Mrs. Hawkins Connelly, Mrs. Grant Wilson and Mrs. Monroe Hutton.

THOUGHTS-WISE AND OTHERWISE

It is as natural and normal for children of a certain age to want to make collection as it is for them to lose their baby teeth and get larger teeth instead. And it is just as foolish to balk this collection fad as it would be to try to keep back the big teeth because you think that the first teeth are so much prettier.

Any book on child psychology will tell you just when to look for this desire to collect. It comes sooner with some children and later with others—and is I believe stronger in boys than in girls, though goodness knows some little girls I know are inveterate collectors. Some children never get over their fondness for it, and it is a shame that every adult hasn't carried over from childhood days some sort of collection hobby, if only to pass on to his own or someone else's children.

Needless to say the woman who has retained a strong penchant for this sort of thing understands the collecting fads of her children, better, and in understanding them and realizing that they are quite normal and even necessary is usually able to establish fairly useful and educational hobbies instead of collections that are utterly useless. Stamp collecting is an amazingly instructive hobby. It helps you to understand the world, to have a globe in your house and help your young stamp collector locate the position of every stamp that he adds to the collection. You might even have a large map of the world on one wall of the stamp collector's room and permit him to

Tourists At DeLand Suggest Concrete Ways Of Fighting Anti-Florida Propaganda

DELAND, Jan. 7.—(A)—From a dollar lost to the nation, just ask the tourists themselves how come they have come here to see the concrete ways of fighting the propaganda directed against Florida in some of the newspapers of a number of northern states.

At an informal meeting, a group of DeLand visitors agreed to write letters to their home papers telling the truth of conditions as they found them in Florida. Many of them have submitted names to the local chamber of commerce, officials say, of persons who would be interested in coming to Florida if the real estate facts were given to them by civic bodies. These persons giving the names are: J. B. that they will back the literature sent to their friends with letters of a personal endorsement.

According to the committee formed to combat anti-Florida propaganda, Mercer P. Moseley, vice-president of the American Exchange-Pacific National Bank of New York, has written a pamphlet on the "advice" given about Florida that would be well to broadcast.

"When your banker, or your wise friend, advises you that Florida is a place to shun and tells you that a dollar invested in Florida is

ROBINSON AGAIN NAMED MANAGER OF SHIPPING BODY

First Term Has Been One Of Achievement, Declares Officials In Announcing Reappointment In Orlando

ORLANDO, Fla., Jan. 7.—(A)—J. Curtis Robinson, secretary-manager of the Growers and Shippers League of Florida since Jan. 1, 1924, has been reappointed to that position for the year 1925. It was announced here following a meeting of the executive committee.

Secretary Robinson, who for 12 years before coming to Florida to

head the league, was traffic manager for the Northwestern Fruit Exchange in Seattle, has taken an active part in rate cases in all parts of the country and Canada and has appeared several times before the interstate commerce commission.

According to the members of the executive committee, Mr. Robinson was selected to manage the affairs of the league because of his experience in assembling statistics and making rate comparisons, and the reappointment of him is a recognition of his services for the league during the past two years.

During the past two years, growers and shippers of the state have been saved thousands of dollars through the activities of the league under the leadership of Mr. Robinson. It has successfully carried proposals of the carriers to create the refrigeration rates; a \$5 increase in rentals on refriger-

ator cars; requirements of three straps on citrus boxes; a charge of \$5 to \$15.53 per car on precooled vegetables shipped in refrigerator cars; attempts to change published rates to western points by changing basis of rates to Jacksonville; and a change in the so-called short refrigerator car condition.

The line haul rate case on which Mr. Robinson has been working since coming here was heard here in part in November and about 22 witnesses appeared and 300 pages of exhibits were presented.

The case was adjourned to meet in Washington on January 20, but has again been postponed until March when the carriers will present their evidence to the interstate commerce commission examiner.

On Jan. 11 next, the league will participate in a hearing before the state railroad commission in Jacksonville on the question of a

charge for use of refrigerator cars for less than carload shipments of fruits and vegetables.

When told of his appointment, Mr. Robinson expressed his appreciation of the action of the committee and the opportunity of serving the Growers and Shippers League of Florida and said that his work had been most pleasant.

"The League," he said, "has been able to make large savings for the industry and I trust we will be able to obtain a readjustment of our freight rates which substantially aid the growers and shippers so that they will consider it an honor to be members of the league. There are still improvements in service that can be made and I hope to have the same loyal assistance which I have had since coming here in making these forward steps."

World Leadership Justifies Still Lower Prices

Graham Brothers announce a substantial reduction in the prices of their complete line of trucks and motor coaches, effective January 7th.

This is their third reduction in eight months. It brings the price of their product far below any truck of comparable merit.

Large production justifies low prices. Graham Brothers are the largest exclusive truck manufacturers in the world.

New Experiment May Enable Scientist To Send Movies Over Wire

NEW YORK, Jan. 7 (AP)—The chief difficulty in the transmission of motion pictures by wire, says V. K. Zworykin of the Westinghouse Research Laboratories, is that of subdividing the field into small enough units for transmission, so that when they are enlarged upon a screen they present a definite image of the object.

Zworykin is the inventor of the light cell by which light impulses are translated into mechanical operations. He finds the problem of motion picture transmission theoretically possible, but the mechanical difficulties are by no means overcome. Another year may result in a solution.

The light cell, which is a combination of the principle in the radio tube and a photo-electric phenomena discovered years ago by Hertz, is now used successfully by the All-America Cables for printing cable dispatches sent across the Atlantic. The electric impulse coming across the cable is so slight that hitherto it has been impossible to use mechanical printers to record the dispatches. The light cell catching the ray of light reflected from a mirror galvanometer, sensitive to the smallest electrical impulses strong enough to operate printing devices, which record the dots and dashes. Halbach discovered that the impact of light upon certain alkali metals produced an electrical ef-

fect. Later experimenters showed that the light rays caused electrons to be discharged from the metal.

In the Zworykin light cell a thin coating of the metal upon which the light acts is placed in a position such that the discharged electrons will add their impulses to the circuit in the radio bulb and permit current to flow. The process of amplification intensifies the current to a point capable of operating mechanical devices.

The light cell also is used now in sub-station transformers on lines upon which heavy electrical currents are carried to detect smoke in case of fire, mechanically set off fire extinguishing devices and notify the nearest station from which employees can be sent to remedy the trouble.

Mr. Zworykin said that the light cell was beginning to find wide application in industry. Among other things it is used mechanically to test the filaments of radio tubes. It enables them to be manufactured with a uniformity which no other method of testing makes possible.

The inventor has an apparatus in his home by which the electric lights are automatically turned on at dusk by employing the light cell. He said that the draughts in the furnace might be automatically opened as easily with the rising sun.

This etching is from photographic reproductions showing development work along the three and two-tenths miles of Dixie Highway in Daytona Shores.

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, Jan. 7.—(AP)—Most towns have two "sides," a side where all the town people hang out and a side where nobody can live and amount to much socially.

Washington is emphatically this way.

Your address must read "Washington Northwest," or you don't "belong." A trip to Washington Northeast or Southeast is like journeying to an entirely different city.

Why Washington Southwest doesn't class with the northwestern district is easy to understand. It's the industrial section so far as the capital has one and naturally isn't so pleasant to live in.

But accounting for the eastern half of townships is the eastern half of townships is the eastern half of townships, except for a little stretch along the railroad yards, isn't so easy.

It's true that the houses there obviously and practically without exception are those of people in very modest circumstances, but why? Washington's crowded part of room. Why hasn't the classy part of it spread over into this perfectly available area?

Another thing, the capitol building marks the boundary between the two "sides."

It would seem as if swell people would be attracted to put up fine homes in the vicinity of the historic edifice, with its fine grounds and pleasing outlook.

On the contrary, however, nobody Washington only goes as far east as the group of buildings including the capitol, the senate and house office buildings and the congressional library and stops there. It's as if the capitol stopped it.

Horemans Beaten By Young Schaefer Who Regains Title

CHICAGO, Jan. 7.—(AP)—Young Jake Schaefer, from whose brow the world's 18.2 balling billiard crown has twice been snatched, again bears the diadem. He took it by a 1,500 to 800 victory over Edward Horemans, the Belgian, whose manager five nights' win extended the title from the U. S. for a brief 30 days.

Consistent and firmly determined, Schaefer clinched his right to the championship by taking 5-1 to 3-15 the final 500-point block of the 1,500 point, three-day match. He made the phenomenal average of 33.12-18 in his 10 innings of play, and although the Belgian's run of 243 was 23 better than Schaefer's. The latter averaged only 55.10-16.

Schaefer never halted in his drive to regain the title after he took the opening block, Monday night, 500 to 375.

Horemans' nervousness, appar-

ent the first night, continued Tuesday and he went into the final block with a deficit of 428 points to overcome. In his dying effort he ran 231, which with his best of 243, was the only triple figure he made. In half of Schaefer's 16 tries, he topped the century.

KEEP YOUR NERVES STEADY!

Owing to neglect, many women become nervous wrecks. This is especially so with the woman who has unusually sensitive nerves or the athletic woman who injures herself by too strenuous exercise. There is danger of a breakdown. Are you nervous? Do you have backache, headache? If so, Dr. Pierce's Favorite Prescription is what you need. Don't fail to try it for it will drive away the blues and tone up the system.

Send 10c for trial pkg. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Blazing the Way for a Notable City--and Ground Floor Profits

WIDENED to eighty feet throughout, flanked by broad concrete sidewalks, lined with the exclusive shops and luxurious apartment hotels that will rise here in Florida's smartest city, the Dixie Highway through Daytona Shores will be truly a royal street. Two short blocks to the east rolls the majestic Halifax River, which we intend to bridge with a concrete Ocean Causeway. Through the trees of the beautiful park between highway and river workmen already have cleared the path for the Causeway Boulevard and for other streets.

Everywhere throughout the Daytona Beach-Halifax River country the work of development and improvement goes on apace, but it is in the premier development of this wonderful region--Daytona Shores--that this investment-enhancing labor is greatest. Here batteries of modern machinery and great crews of men are engaged in building the finest place in the world for homes and happiness and in the further task of adding new values every day to ground floor investments.

Resales in the Causeway Section of Daytona Shores started promptly with profits to investors ranging from 100 to 220 percent. Daytona Shores operates its own Resales Department. Farsighted investors who realize how values grow with the construction of an Ocean Causeway are invited to communicate with the Resales Department, Daytona Shores, Daytona Beach, Florida.

Be our guest on our palatial pullman bus making regular trips from this city to Daytona Shores over a scenic route, with a luncheon at Daytona Shores Lodge on the beautiful Tomoka River. Make arrangements --- without obligation --- through our representative named below.

Gemen Are Notre Dame Coach For Initial Becomes Member Saturday Of Catholic Church

NEW YORK, Jan. 7.—(AP)—Knute Rockne, coach of Notre Dame football team, has become a Roman Catholic. Friends had known for some time that he contemplated the step. A priest of the Sacred Heart Church in South Bend, confirmed the report Wednesday and it reached the East after Rockne had sailed on the De Grasse for a tour of France, Germany and Italy.
The coach was baptised Nov. 18 and was confirmed by Bishop Knoll two days later, and took first communion with the Notre Dame football team Nov. 22. Rockne's football players first learned of his intentions in the game against Northwestern, when they were 10 points behind, at the end of the first half.
Some of them feared the storm that would come from the coach between halves. But "Rock" as they knew him, was a changed man, and his instructions were mild. He told them that he would go into the grandstand and watch the remainder of the battle from there.
"Sounds like a church man," remarked one of the players.
"He's going to join the church tomorrow," another informed them.
Notre Dame drove across touchdowns enough to win in the last half and the next Sunday Rockne was received into the church. Mrs. Rockne is a Catholic and their two sons are students at Notre Dame.

Leading three-year-old—American Year.

The Opening of the

SECOND SECTION

of

LONGWOOD

"The Old Town With the Young Spirit"

THE First Section of LONGWOOD was put on the market Monday, December 7, 1925. During the first three hours, \$77,400 in sales were recorded. The entire section was sold out in three weeks. This unprecedented demand for this property, established definitely the fact that LONGWOOD was recognized by the public as an investment of safety and future profit.

SINCE the First Section was announced, wonderful strides have been made in the progress and "rejuvenation" of the town of LONGWOOD. Thousands of dollars are now being spent in building stores, apartments, and homes. The organization and chartering of the Longwood Bank and Trust Company has been effected and the contract for the construction of a modern bank building has already been let.

WE advise our clientele, visitors, and friends to buy early in the Second Section of LONGWOOD. Lots in this section are subject to a 50 percent advance any day. This is something over which our company has no control. MR. E. W. Henck, Esq., known as one of Florida's pioneers, reserved the right in our selling contract to advance prices on 24 hours notice. Take advantage of this information and make your purchases early.

Real Estate Values Are Increasing

One hundred years ago, Fifth Avenue New York City was a cow path, today it is the greatest and most valuable street in the world. There is no one telling the average American how real estate values grow. Mothers bringing children into the world, give real estate its value.

Some property in Denver, Col., which is now worth many millions of dollars, was traded with \$25.00 in return for a horse, saddle and bridle.

The territory which comprises the State of Pennsylvania was granted to Wm. Penn in payment of a personal debt of \$16,000.

Real Estate values are increasing and will always increase. Buy real estate now from one of the Realtors listed on this page.

Florida Realtors Will Be Represented At The Annual Meeting Of National Body

ORLANDO, Fla., Jan. 7.—Florida Realtors will have a leading part in the annual business meeting of the National Association of Real Estate Boards to be held in New Orleans, Jan. 19 to 22 inclusive. Carl C. McClure, of Fort Myers, President of the Florida Association of Real Estate Boards, will discuss the subject of "State Association Attendance Trophy for National Convention." Walter W. Rose, past-president of the state association of Real Estate Boards, will talk on "Should a State Association Have Individual Members, or Should it Consist Only of Boards?" Paul O. Meredith, executive secretary of the Florida Association, will take as his subject "What Should be the Character of a State Association Organ?"

H. H. Richardson, of Jacksonville, and W. L. Green of Miami, chairmen respectively of the Farm Land Division and the Realtors' Secretaries' division will give a part in the New Orleans sessions.

From a national standpoint and particularly Florida's peculiarly fine position the officers of the state association look to this mid-winter meeting of the National Association to be the most important in the history of the national body. Florida communities from Pensacola to Key West will be represented. The interest

DATES SET FOR CONFERENCE IN TRUTH CAMPAIGN

Half Dozen Cities To Have Meets For Purpose Of Combating Propaganda Published In Other States

JACKSONVILLE, Jan. 6.—(AP)—The Finance and Extension Department of the Florida State Chamber of Commerce today announced tentative dates for a half dozen more of the series of statewide Truth About Florida Conferences which were resumed in Jacksonville Tuesday after cessation over the holidays. Dr. Harry R. McKeen, director of the Department, left Jacksonville for Bradenton and Palmetto immediately after the Jacksonville meeting and will be in those two cities until January 12 directing financial campaigns for the two Chambers of Commerce and assisting them in raising their contributions pledged to the Truth About Florida Campaign fund. Dr. McKeen will interrupt his work in Manatee

throughout Florida among realtors looking toward the raising of the standards of the profession is great. Because of the fixing of the national policies and the preparation of a year's program of expansion and development this meeting holds forth to Florida an opportunity to further strengthen her already leading place.

From a place somewhere near the cellar a few years ago, the Florida Association of Real Estate Boards now occupies a second place among state associations in America in point of number of board members.

Legislation, enforcement of the Code of Ethics, further development of the technical and professional knowledge of real estate, compilation of information on license law operation and enforcement, city planning and many other valuable discussions will feature this convention. The round table discussions are particularly important at this meeting.

Information regarding reservations and schedules may be had by getting in touch with the state headquarters at Orlando. Those boards reporting delegations: Fort Myers, Bradenton, Orlando, Palmetto, West Palm Beach, Winter Haven, Tampa, Tallahassee, Jacksonville.

county one day, going to Largo to speak Friday night at a meeting called for reorganization of the Largo Chamber of Commerce.

The first of the Truth About Florida Conference after the work at Bradenton and Palmetto is completed will be held in Winter Haven January 13 with Judge Allen E. Walker presiding.

Other conferences will be held in Palatka January 18, Cocoa January 19, Fort Pierce January 20, West Palm Beach January 21, and St. Augustine January 25. From January 25 to 30 Dr. McKeen and his assistants will be at Ocala to assist the Ocala Chamber of Commerce in raising funds for its work during 1926 and during the week also will organize and conduct one of the series of Truth About Florida conferences in that city. The conference to be held in DeLand will be scheduled during the first week in February.

Alfred Wagg will be chairman of the conference in West Palm Beach and the committee of sponsors, in addition to Mr. Wagg, includes Jules Burguières, T. T. Reese, H. L. Donald, A. L. Matthews and D. H. Conkling.

The Cocoa conference will be under the leadership of A. L. Fields, who is being assisted in the organization work by a sponsoring

Georgia's Wealth Enhanced By Many Crops, Says Banker

ATLANTA, Ga., Jan. 7.—One of the most promising signs for Georgia and other Southern states is the continued interest in diversified farming, according to agri-

committee composed of Charles G. Smith and L. S. Andrews, of Cocoa and J. E. Noble and N. T. Froeschner, of Titusville.

Dr. Lincoln Hulley, President of Stetson University, will preside at the conference in DeLand. The DeLand sponsoring committee is composed of Clayton C. Coddington, S. D. Jordan, D. E. Tuten, R. S. Boyd, Theodore Brooks and Harry C. Lonsford.

ultural experts of the Atlantic Trust company following a survey of general farm conditions.

Ernest H. Black, president of the trust company, said today that reports received by his bank show that growers are succeeding in cultivating more and more cash crops—tobacco, tomatoes, vegetables, syrup, sweet potatoes, corn peanuts. To these, he said, should be added chickens, eggs, butter, cream, hogs and cattle.

There is no doubt about the value of farm lands returning before another year, in Mr. Black's opinion. He shows that the farmers are getting away from the one crop system and are preparing for alternating crops which are bound to yield profitable returns.

Mr. Black does not hesitate to say that farm lands will always be safe investments regardless of droughts and the price of cotton.

The Better BUICK

Starts easily
Buick motor cars are designed to run efficiently in every temperature, and under every climatic condition. Buicks start quickly, even at zero. The new, high-speed starting motor accomplishes this most desirable result.

Runs smoothly
Buick Automatic Heat Control reduces another cold-weather starting annoyance—that of bucking, spitting, misfiring engines. The exclusive Buick feature heats the fuel supply, and saves gasoline, automatically and immediately.

Stops safely
In rain, snow or sleet Buick mechanical 4-wheel brakes stop the car firmly, in a straight line. Neither heat nor cold affects the direct mechanical action of these brakes. There is no liquid in them to expand, contract or leak away.

and the Buick engine is full-pressure lubricated
The Buick engine is full-pressure lubricated. Every part gets a flood of oil as soon as the engine starts, every day in the year. An emergency feed tube siphons oil to the pump, even though the cold has congealed the oil around the pump screen.

Buick is a better Motor Car in Every Kind of Weather

SANFORD BUICK CO.
Magnolia Avenue

When Sanford Grove, a naturally beautiful, wooded highland, was created, Nature must have been in smiling mood to lavish her gifts so bountifully. Beauty abounds on every side to delight the eyes of those whose quest for a delightful home site takes them to Sanford Grove.

Overlooking the entire surrounding community, because of its splendid elevation, Sanford Grove has a desirability that is being enhanced through the installation of improvements that are necessary in an ideal home community.

To buy before improvements are completed shows the wisdom of the shrewd investors. It is no secret that the value of Sanford Grove is ever upwards—with the greatest profits for those who buy now.

**Passenger Service To Florida Will
Is Not To Be Curtailed For Freight**

JACKSONVILLE, Jan. 2.—Curtailed passenger service by the railroads operating to and within Florida as a means toward solving the freight congestion will not be done unless the railroads themselves decide to adopt such a method. For several weeks suggestions have come from various quarters that the railroads might haul more freight if they would reduce the number of passenger trains. Numerous suggestions to this effect were sent to Senator Duncan Fletcher, in Washington, and it seems that they were in such numbers the Senator passed them on to the Interstate Commerce Commission. The Commission has informed the Senator, according to the Washington correspondent of the Florida Times-Union, that it has no power to order a reduction in passenger service.

The freight situation has been growing better gradually with each day witnessing the movement of a greater tonnage to various centers reflecting the more rapid unloading of cars at destination. According to railroad operating officials the volume of freight received at a destination depends solely upon the rapidity with which shipments are unloaded after they are received. There is a limit to the capacity of every railroad yard in Florida and such yards nearly always receive the limit in the number of cars they can accommodate. Cars are being moved out as rapidly as they are unloaded and replaced with other cars bearing freight.

Insofar as the movement of freight into South Florida is concerned the railroads now are in position to handle virtually all that can be offered. It is said, but the movement naturally hinges upon the capacity of yards at terminals and the speed with which the freight is unloaded. The Florida East Coast Railway now is operating over nearly all of its double track between Jacksonville and Miami and its capacity for moving freight has almost doubled as a result of use of the second line.

The Seaboard Air Line virtually doubled its capacity for the movement of freight into South Florida when it began operating recently over its new line between Inverness and Brooksville, which, connecting the Waldo-Archer and the Tampa-Bronkville branches, gives it a second through line from Waldo to Tampa. All freight for the Florida peninsula is being moved over this route and its delivery is several hours faster because it is unnecessary to handle it through the yards in Tampa, the cars being diverted to the Tampa & Gulf Coast division near Sulphur Springs, on the outskirts of Tampa.

The Atlantic Coast Line, with three lines into South Florida, has never found it impossible to find room for trains enroute, its trouble, as with the other roads, being confined to unloading at terminals. The Coast Line has a main line from Jacksonville to Tampa via Palatka, Sanford and Lakeland, another from Jacksonville to Tampa and St. Petersburg via Gainesville, Ocala, Leesburg, Trilby and Lakeland and a third from Waycross to Tampa via High Springs, Dunellon, Trilby and Lakeland. Numerous short lines through the peninsula connect the three through routes and by diverting traffic from one to the other at strategic points it is possible to handle an enormous tonnage.

Contractors already have gone to work upon construction of the Coast Line's Perry-Monticello line, which will give it a new western route into South Florida from Thomasville via Monticello, Perry, Oldtown and Dunellon, and it is being freely predicted that it will be completed by the last of June. Only forty miles of line is to be constructed but the work is difficult in the vicinity of Monticello because of the hilly country and the necessity of obtaining a proper grade. Completion of this line will further increase the Coast Line's capacity for movement of freight and will make it possible to handle it more rapidly to and from

**Ouch! My Back! Rub
Lumbago Pain Away**

Rub Backache away with small trial bottle of old "St. Jacobs Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints.

PACIFIC COAST COACH VICTIM OF PNEUMONIA

Andy Smith, Coach Of Golden
Bears Of California, Suc-
cumbs At Early Hour Today
After Few Weeks' Illness

PHILADELPHIA, Jan. 8.—(AP)—
Andy Smith, coach of the Uni-
versity of California football team,
died at 6 o'clock this morning at
the University of Pennsylvania of
pneumonia which followed bron-
chial pneumonia.

He was appointed freshman
coach in the fall of 1905, and
the following season was assistant
coach. In 1909 he succeeded S. S.
Metzger, the former Red and Blue
captain, who had charge of the
university team for several sea-
sons. Smith also coached the 1909,
1911 and 1912 Red and Blue vari-
ety teams.

After the close of the 1912 sea-
son, Andy took up the coaching
duties at Purdue University in 1913
and remained until the close of
the 1915 season. Smith raised
the standard of Purdue's football
and the team won six lost four
and had three egg races games.

Smith came east from California
to attend the Pennsylvania-Gornell
football game on Thanksgiving
Day, and was stricken while at the
Bellevue Stratford. He was re-
moved to the university hospital
Dec. 20, and was attended by Dr.
Robert G. Torrey, another former
Pennsylvania football star. Dr.
Torrey and Bill Hollenbeck, the
latter also a class friend of Andy's,
were with him when he died.

WASHINGTON, Jan. 8.—(AP)—
With Attorney General Sargent as
the first witness, the Senate Ju-
diciary Committee began today in-
quiry into the failure of the De-
partment of Justice to bring com-
petent evidence against the Alu-
minium Company of America in
which Secretary Mellon is a large
stockholder.

Now Mr. and Mrs. Berlin

The barriers of religion, parental objections and possible social ostracism were all cast aside by Elin Mackay, daughter of Clarence H. Mackay, multi-millionaire Irving Berlin famous writer of jazz music. Mr. and Mrs. Berlin are shown in the office of city clerk of New York, where the ceremony was performed by Deputy City Clerk J. J. McCormick.

Intended Victim Of Real Estate Operators Saved By Local Deputy Sheriff

A tale of attempted graft, a run-
away, and a nation wide search
was unfolded here yesterday when
Deputy Sheriff G. W. Williamson,
working with members of the
sheriff's office of Howard county
located N. E. Sanders, 80 year old
runaway in Chulotus, forced his
company to return \$2,500 which
the old man had given them to
invest for him, and returned him to
Fort Myers where his son, Dr.
Sanders, was waiting to take him
back to his home in New York.
