

AAA Auto Races To Be Held At Tampa Saturday

TAMPA, Feb. 8.—By popular demand another day of Triple-A auto racing has been added to the sports program of the De Soto Exposition and Saturday, Feb. 11 will again see some of America's greatest speedway and dirt track drivers competing on the Florida State Fair's half-mile course, where Tony Whillman, Buddy Busch, Leo Duncan, Chief Chikwood and others of a score of pilots competed in the earlier racing events.

The fair management has asked the AAA officials to continue the sprint, dash and handicap type of program that has proved popular at the exposition. Time trials will start at 1:30 Saturday and six other events will follow with circus, hipodrome and vaudeville acts interpolated into the program.

June's Image Wins Feature Event Before Large Crowd

June's Image, a rank outsider in the betting but a greyhound that has finished in the money 10 times in 14 starts this season, turned in her most notable victory last night at the Sanford-Orlando Kennel Club before a big crowd when she won the feature event in 32 5/8 seconds over the 5-16ths of a mile course, beating Valentine's Boy comfortably.

The daughter of Student Prince and June Mack paid \$44.20 for a \$2 win ticket.

New Spanish Peace Terms Are Studied

Negrin Seeks Clemency For His Followers And Franco Promises No Reprisals

Central Spain To Continue Fighting

Russia Protests Japanese Provocations On Russian Border

Great Britain was reported today to have taken new peace terms from the Spanish government to the insurgents after the latter had landed forces on the Balearic Island of Minorca and had reached the French border in Catalonia.

The Insurgents landing at Minorca occurred after the departure of the British cruiser Devonshire, which had been sent to the island to negotiate a surrender.

The new peace terms reported to have been offered by Dr. Juan Negrin, Spanish government premier now in France, centered mainly about clemency for his followers.

Insurgent quarters said Generalissimo Franco, while still demanding unconditional surrender, promised there would be no reprisals and that only those accused of crimes would be tried.

Demolitions reports, supporters of Negrin and Generalissimo Franco, government commander in Central Spain, said they were determined to continue fighting.

Italy announced an intensification of war preparations as her answer to the British-French solidarity.

City's 102nd Anniversary Is Observed With Dinner

Hanna Speaks At Unveiling Of Memorial

Mrs. Ballard Presides At Program For Founders' Day

Commemorating the 102nd anniversary of the founding of Fort Mellon, which later became Sanford, over one hundred prominent civic leaders gathered at the Mayfair Hotel last night where they celebrated Founders' Day under the auspices of the Sallie Harrison Chapter of the Daughters of the American Revolution and heard Mrs. E. M. Brevard, state regent of the D. A. R., deliver the principal address of the occasion.

"One of the great purposes of the D. A. R.," said Mrs. Brevard, "is to perpetuate the noble qualities of those who have gone before, as well as their memories."

Prof. A. J. Hanna, president of the Florida Historical Society, delivered a message of greeting in connection with the unveiling of a memorial in Fort Mellon Park yesterday afternoon commemorating the 100th anniversary of the founding of a town which was later to become Sanford.

Mrs. J. N. Whitner, member of the local D.A.R. chapter, unveiled the bronze tablet before a patrol of local Boy Scouts who acted as guard of honor. Mrs. W. B. Ballard, mistress of ceremony, on behalf of the Sallie Harrison Chapter, presented the marker to Mayor Edward Higgins.

Extending greetings from the Florida Historical Society, Dr. Hanna, professor of history at Rollins College in Winter Park and author of "Flight into Oblivion", read some interesting excerpts from the diary of Dr. H. D. Kitchel, New England minister who arrived in Sanford in January of 1884 and spent several days at the old "Sanford House" of which he wrote with no little irony.

The visiting minister spoke of the establishment of Fort Mellon and the Rev. M. Presby who was pastor of the Methodist Church here at that time.

Prof. Hanna also read a telegram from Mrs. Sanford Dow, daughter of General Sanford for whom Sanford was named, expressing regrets that she was unable to attend the anniversary of the city which "her father called the gate city of Florida."

Midwest States Swept By New Wave Of Cold

Much Of Nation Is In Grip Of Storm Moving Eastward To Atlantic Seaboard

CHICAGO, Feb. 9.—(AP)—A cold wave, brewed in the icy Mackenzie River basin of Canada, spread over the midwestern plains enroute from the Pacific northwest to the Atlantic seaboard.

Snow swept some of the mountain states and reached into the southwest. Highways were difficult closed in Arizona and some sections of the state reported the heaviest snow in 40 years.

Strong winds whipped up the snowdrifts which clogged Utah highways and marooned passengers of the derailed Denver and Rio Grande western train 80 miles south of Salt Lake City.

A snowslide down a canyon wall buried two houses at Bingham, Utah, and three bodies were believed buried where the slide killed a woman.

Continued cold prevailed in northern California, and even the southern part of the state where citrus is grown was shivering.

Williston, N. D., reported a 36 below zero temperature.

Engineer C. B. Guber pulled himself to safety through his cab window as the engine settled on its side.

Many Witnesses Testify Before Grand Jurors

City, County Commissioners, Cuba Sellers Are Summoned

Members of the City and County Commissions, those known to be connected with "Cuba" sales, and witnesses in the auto mishap just west of here which claimed the lives of two Deland girls, have all been called before the Seminole County Grand Jury since the group began investigations last Tuesday, investigating a case.

With only the case of Hubert Green, negro, charged with murder, on docket for investigation at the opening of the session, the jurors have broadened the scope of their investigations to an extent which will only be known when they make their presentment to Circuit Judge Millard H. Smith.

The jurors continued their investigations this afternoon and it was not known definitely whether the body would touch its work tonight.

A veritable parade of witnesses have appeared before the jurors including 10 yesterday who gave testimony in connection with the fatal plunge through an open drawbridge across the St. Johns River west of here, resulting in the drowning of Mildred Mercer and Myra Maehen A report on the findings of the jurors in the presentment of the jurors to Circuit Judge Smith tomorrow morning.

Senate Agrees To New Studies On Cross State Canal

WASHINGTON, Feb. 9.—(AP)—The Senate agreed today to ask for new studies of the Florida ship canal by the two agencies which previously held the waters unjustified.

Senators Vandenberg (R-Mich.) and Pepper (D-Fla.) led and joined, respectively, of the undertaking, joined in asking passage of the resolution. Senate vote promptly passed.

The measure calls upon the commerce department and geological survey to review their previous canal reports and bring their studies to date.

President Roosevelt proposed for reciprocal taxation of the states of Federal, state and municipal corporate tax on the commerce department and geological survey to review their previous canal reports and bring their studies to date.

Republicans, who said they favored the principles of the proposal, contended it should be accomplished by a constitutional amendment.

Cone Orders Execution Of Cash Kidnap

TALLAHASSEE, Feb. 9.—(AP)—Gov. Fred P. Cone today ordered the execution of Franklin Pierce McGuff, the confessed ransom kidnap, in Florida electric chair at the Raftord State Penitentiary during the week of Feb. 20.

He signed the warrants for his death during the same week of two convicted murderers, Clyde Byers of Jacksonville and Paul Friedl of Tampa. It was the second death warrant for McGuff, who was sentenced to the gallows for the kidnaping of little James Bailey Cash, Jr., at Princeton, Fla., last May 28, in a successful \$10,000 extortion attempt. The child was killed.

The first warrant was cancelled on July 20 when McGuff's counsel started a vain appeal to the State Supreme Court.

C. A. Avicelli of Jasper, his attorney, has announced plans to carry the case to the United States Supreme Court. If an appeal is filed, it will stay plans for his execution.

Court Denies Jarrell's Plea For Rehearing

Florida High Court Mandate Rules Alleged Cuba Baron Must Serve Term

Hand Doesn't Act On Commitment

Capital Call Received By Sheriff Asking Delay In Case

TALLAHASSEE, Feb. 9.—(AP)—Governor Cone granted a sixty day reprieve to Joseph W. Jarrell sentenced in Seminole County to one year for violating the statute forbidding lotteries. The reprieve is effective immediately. No reason was announced.

The Florida Supreme Court yesterday handed down a mandate denying a rehearing of its unanimous decision on Jan. 3 affirming the lower court's conviction and one year sentence of Joseph W. Jarrell for conducting a lottery in Seminole County.

Shortly after receiving the Supreme Court's mandate, Sheriff C. M. Hand was served a commitment directing him to arrest Jarrell and deliver him to the State prison at Raftord but the Sheriff said he had delayed action because of the telephone call he had received from the Governor's office in Tallahassee late yesterday instructing him to delay action until he has received further instructions from the Governor's office.

Jarrell is said to be the cousin of the former Governor John Martin, and it was reported from reliable sources that political pressure is being brought to bear to secure a reprieve and ultimate pardon for Jarrell who was convicted and sentenced before Circuit Judge Millard H. Smith in December of 1937.

Jarrell was one of three indicted by the Seminole County Grand Jury at the Fall Term of the Circuit Court in 1937 for conducting a lottery. The other two, Stinson Kinlaw and Lewis Mitchell, will go on trial during this court session, according to Assistant State Attorney Lloyd F. Boyle who prosecuted the case, as well as presenting arguments before the Supreme Court after the conviction and sentence of the lower court was appealed.

Jarrell's indictment followed an intensive investigation by the 1937 grand jury during which hundreds of witnesses were called upon to testify. During the trial it was brought out that Jarrell had a large crop of sellers and had received several thousand dollars weekly from the sale of lottery tickets known as "Cuba".

Hotel Permits Total \$29,000,000 For 4 Years, Taylor Says

TALLAHASSEE, Feb. 9.—(AP)—A four year building total for Florida hotels and apartments aggregating nearly \$29,000,000 was cited by Hotel Commissioner W. M. Taylor today as conclusive evidence of tourist industry growth in the state.

Commissioner Taylor said that 3,461 construction permits issued, as required by state law, from the office of the hotel commission for the years 1935-38 inclusive, had shown a grand construction cost of \$28,815,015.33.

Of this total, 1935 was represented by 778 permits and \$5,834,824 worth of construction; 1936 by 938 permits and \$9,253,728.33 as a construction total; 1937, by 502 permits and \$7,619,664 total; and 1938 by 811 permits and \$8,006,859 total.

Irish Oppose Drastic British Legislation

DUBLIN, Feb. 9.—(AP)—The terroristic Irish Republican army, which the Ireland government is seeking to curb by drastic legislation, sent a crudely printed warning to a London-derry newspaper yesterday threatening further violence in its campaign to rid Northern and Southern Ireland of British ties.

The warning, expressing jubilation because authorities of Northern Ireland had cancelled a scheduled visit of the Duke and Duchess of Kent, brother and sister-in-law of King George VI, said: "On behalf of the Derry battalion of the I. R. A. we have now prevented royalty from our soil. The next will be English troops, and we will see Craigavon's men (special constabulary of the Ulster government headed by Lord Craigavon) kept alert at gas, electric and petrol buildings."

While the dail (parliament) considered the new legislation that may provide the death penalty and military tribunals for I. R. A. members, active terrorism in London seemed to have ceased.

Georgians To Get Sale Tax Proposal

ATLANTA, Feb. 9.—(AP)—The House Ways and Means Committee disclosed yesterday that the first of the administration's high yield revenue bills—a gross income tax measure—would be introduced today, followed by a sales tax proposal the next day.

Announcement of the plan to get the measures before the legislature quickly followed a speech by Governor Rivers yesterday proposing that either a one percent gross income tax or a 3 to 4 percent sales tax law be enacted to solve Georgia's financial problems and enable the fulfillment of his little new deal program.

Melbourne Rejects Proposal For City Electric Plant

MELBOURNE, Feb. 9.—(AP)—The people of Melbourne rejected a proposal for a municipal electric light plant in an election Tuesday when freeholders of the city voted 36 to 241 against a issuance of \$250,000 in revenue certificates for the purchase of the distribution system and for construction of a generating plant. The election climaxed a bitter campaign extending over a period of several weeks.

Melbourne's franchise held by the Florida Power and Light Co., provides that the city has the right at the end of each five year period to acquire the system. Notice of the city's intention to do so by March 9 was served on the company last September. A subsequent survey and report by Burns and McDonnell, Kansas City engineering firm, indicated a municipal plant here would be highly profitable.

Pontiff Suffers New Attack Of Cardiac Asthma

VATICAN CITY, Feb. 9.—(AP)—The Vatican News Service announced this evening that Pope Pius XI had suffered an attack of cardiac asthma and was unconscious for a half hour. The service gave no details but other sources familiar with the Pontiff's condition said an attack of influenza had developed into bronchial pneumonia.

FOR A FAVORITE POET

(From Voices)
You must have met within some
wood
A form of cream that stood,
With one small pearly hoof uplift-
ing
In ferns where moonlight
shined.

You must have paused, both, for
a breath
That held the hush of sleep or
death,
To loveliness fringed together
In a tenuous white weather,
While the boat fled through some
portal
Of the air shut to the mortal,
And you bewitched to find your
soul
Faded snow roof and steep,
You must have stayed to mix
with light
Whispering folk and through the
night
Have learned from their sheer
converse each
Delicate word of their charmed
speech.

Mexican Settlement Grows More Urgent

With every passing week and month it becomes more desirable to settle the controversy with Mexico over the expropriated oil fields taken from American control, writes Willis Thornton for the Newspaper Enterprise Association.

Both countries would profit from settlement; neither profits from the present chaotic situation. But beyond that, there are definite reasons why both countries are losing out by the delay.

Here are some simple and powerful reasons given by Mr. Thornton why each country is losing out by inability to adjust this matter:

UNITED STATES: Export trade to Mexico has taken a terrific dive. Exchange by Mexico of oil for German machinery and manufactured goods is eliminating a natural and valuable market and turning it over to foreign countries which are certain to use it as an entering wedge for their political philosophies.

Further, the unsettled condition of relations with the nearest of all the Good Neighbors is a bad example. The whole of natural and cordial relations with across-the-river neighbors is being upset.

MEXICO: The trade into which Mexico is being pitched is an unnatural and unsatisfactory one, providing no needed foreign exchange. Evidence of the political penetration which accompanies it is already seen in anti-Jewish riots, Fascist-type expulsion of newspaper correspondents.

Political opposition is beginning to arise as business grows slack.

The U. S. silver-buying policy, on whose tax proceeds the whole Mexican budget is based, is in danger. If it is under attack as a general policy, quite aside from its Mexican implications, it might be abandoned when the present law expires in June.

While even friendly Americans are unable to defend Fascist-like expulsions like that of the New York Times correspondent, unfriendly ones are already demanding "strong measures", and delay feeds their fires. One New York paper insists that "A lot of Americans are saying: 'Why not just go down there and take over Mexico?'" A Wall Street lawyer is organizing a petition to "use our whole armed might" to get back the seized oil wells. A congressional investigation of American-Mexican relations is being demanded.

Those in both countries who want decent, normal, friendly relations are handicapped by delay, which helps extremists in both countries.

Anything can be settled, given the mutual will to settle it. It is time that responsible officials on both sides of the border recognize that delay is doing infinite harm to both countries. No effort should be spared to settle not only this controversy, but set a precedent that will open the road for progressive development on solid ground for the future.

Carelessness

I AM MORE powerful than the combined armies of the world. I have destroyed more men than all the wars of the world. I am more deadly than bullets. I steal in the United States alone more than \$300,000,000 a year. I spare no one and find my victims among the rich and poor alike; the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I cast my shadow over every field of labor from the turning of the grindstone to the moving of every train. I massacre thousands of wage earners in a year. I lurk in unseen places and do most of my work silently. You are warned against me, but ye heed not. I am relentless. I am everywhere, in the house, on the street, in the factory, at railroad crossings, and on the sea. I bring sickness, degradation and death, and yet few seek to avoid me. I destroy, crush, or maim. I give nothing, but take all. I am your worst enemy—my name is CARELESSNESS!—By J. H. Pratt.

Horse Show To Be Staged In Jax Feb. 24-26

JACKSONVILLE, Feb. 9.—More than 250 of the country's finest show horses will be exhibited in Jacksonville Feb. 24-26 during the staging of the Jacksonville Spring Horse Show, first of Florida's famed "Sunshine Circuit."

Preparations are now under way to make this the most elaborate horse show ever staged in Florida. Prizes of \$500 each, largest in the history of Florida horse shows, will be awarded to winners of the five-gaited and three-gaited classes. Total prize money is expected to run more than \$1300.

Indications are that sports-minded visitors will flock to Jacksonville from all parts of the country for the show and arrangements are being made to handle crowds of approximately 5,000 spectators at each of the five performances. Ringside boxes, raffles and spaces and grandstand seats are now under construction on the spacious grounds of the Shamrock Stables in Jacksonville.

Two hundred box stalls are being built for horses entered from other states. Inquiries and tentative entries have already been received from leading stables in 16 states—Michigan, Wisconsin, Louisiana, Texas, Indiana, Georgia, Illinois, North and South Carolina, Tennessee, Kentucky, Pennsylvania, Virginia, Maryland, Missouri and Oklahoma.

Too Late To Classify

By RUSSELL KAY

Well, it won't be long now before the old folks who placed their trust and faith in a flock of political promises find out just where they stand for this week the congressional "Ways and Means" committee will give consideration to the Townsend Plan.

Most of the politicians who galloped around during the last election all broke out with "Townsend" buttons and sweatin' allegiance in all the languages including the Scandinavian, are now more or less "cooled off" and my personal guess is that the trustin' voters will awake to find that all is not gold that glitters.

Florida, however, is destined to lay an important part in the coming hearing as "Little Joe" Kendrick, true to his pledge, is doing everything in his power to push the Townsend program through the house and is scheduled to appear before the committee to plead its cause.

During his recent campaign, laude Pepper climbed out on the Townsend limb so far that he can't any more chance than a rabbit of crawling back without a broken leg, to say othin' of his promise—if he fails to appear before the committee he will have the Townsend banner and dogtags like a circuit rider preacher.

Pat Cannon, Townsend-ed into the House, can be depended upon to stand hitched and Senator Andrews with the matter of re-election stalin' him in the face will probably concur that adequate provision for the "old folks" is in order.

"Old Age Security" under the present set-up is far from pleasing to anyone and my guess is that something more sane and intelligent will replace it. Neither employer nor employee feels the least bit secure under the present arrangement and while neither the politician nor the public have any intelligent conception of just what the Townsend proposal really is, the chances are that out of it will come an entirely new set-up to provide for the nation's aged.

New Deal efforts to solve the problem have not endeared the party in the hearts of their countrymen and while the matter may not be settled in the present congress, it will certainly prove to be an annoying "middle wrench" that will probably stay in the hall of politics throughout the entire session.

Last week Dr. Francis E. Townsend appealed to Burton H. Schoepf of Tampa for help and invited him to Washington to sit in on conferences prior to the congressional hearing which starts this week.

For two years Schoepf has been studying the Townsend Plan and is probably better posted on its provisions than any other Floridian. At the request of Dr. Townsend, Schoepf has consented to appear before the Congressional committee, as a business man favoring the plan, and will plead its cause on that basis.

All indications are there'll be plenty of fun and excitement in Washington during the next few weeks as the hearing progresses, and while I don't seriously believe anything will come of it or that the matter will be settled in the present session, it is evident that plenty of honest (or maybe I should say dis-honest) sweat will be shed before the conference is over.

Personally, I have never discounted Doctor Townsend nor his following and from close contact with political activities throughout the state I know that the Townsend advocates are sincere and mean business. They have placed their faith and confidence in the promises of men who have been elected to office and they are going to hold those men to strict account.

Oldsters have been kidded and pushed around by politicians to the point where they are just about fed up, and for my part I am confident that I have asked them for no favors, solicited no office.

Four years ago I wrote the first press release favorable to Dr. Townsend and the Townsend Plan, after having the Doctor speak at Casswater. At that time I had met the Doctor and his following were sincere and without any idea they had a bit more to come.

They were then and are on Washington on the present hearing program. For a lot of things, and the Townsend folks will get the old "IT AINT YOURS" again.

Ted Shawn To Present Program Of Dances

DELAND, Feb. 9.—Ted Shawn, one of America's foremost interpreters and teachers of the dance, and his eight men dancers will give a program of modern dance interpretations tonight at 8:15 in Holly gymnasium on the Stetson University campus.

The famous dancer and his troupe will appear at Stetson under the sponsorship of the athletic departments of the University. Miss Nelle Campbell, head of the women's physical education department, being directly in charge.

Shawn, whose contributions to the field of the dance as a creative art have brought his worldwide recognition, will inject an informative element in the program by a talk on the value of the dance in education as a bridge between bodily activities and mental learning.

The eight young men who make up Shawn's troupe were all athletes in school or colleges representing practically every section of the United States.

The others are Frank McLean, Oklahoma; Widor McCormack, New York; Frank and John Deland, Chicago; Harry Cole and Fred Hearn, North Carolina; and John Schubert, Montana.

Jess Meeker, Shawn's accompanist, has composed most of the music to which the group dances. A distinguished pianist, he is aware of the musical needs of the dancers and further illustrates the creative element which characterizes Shawn's performances.

Psychiatrist Admonishes Youths To Face Facts Before Entering Marriage

By LYDIA GRAY, SHAW
A strong, silent man and a strong, silent woman make a pretty bad team, says Dr. Hinkle. Neither can get enthusiasm and excitement from the other.

Young people don't worry so much about dissecting their prospective partner's nature down to the last nerve impulse. If opposites attract, they don't worry about it. And they get along much better.

How about marrying your first love? Dr. Hinkle wouldn't generalize, but she thinks it often is the best thing. There certainly should be no rule discouraging such a marriage.

Asked if men who married in their early 20's were not likely to outgrow their wives, Dr. Hinkle replied: "They are just as likely to outgrow them if they marry later on. Perhaps the man who marries young will be struck by passing fancies at a younger age than the man who marries after 30. But no man is going through life without a few looks away from his home. He's bound to find his wife boring some time or other. Marrying age doesn't make any difference."

"And here," she added, "is where more-wisdom thinking comes in. The temporary attraction of the married man imagines she's in love with him, and thinks 'Ah, this is a great love.' She must save him from mental unhappiness. Why can't she pick on all the single men around? But no, she must try to match a husband from his wife."

In comfort to the wife in the case, Dr. Hinkle asked, "But marriage by nature a bonding creature. He's pretty likely to come back."

The person who aggravates Dr. Hinkle more than any other is the individual who believes he should marry a person of identical personality, thinking he has a better basis for understanding.

On the contrary, the natural attraction of opposites" works out far better, for each person is able to draw from the other qualities he does not himself possess.

STRANGLED TO DEATH

Rebel Leader Has Had Outstanding Military Career

Franco Was Decorated By Alfonso For Success Riff Campaign

By Associated Press The scene is Las Palmas, capital of the Canary Islands. A short man with black hair, black eyes, dressed in the uniform of a Spanish army officer, climbs into a waiting plane. A moment later a British commercial pilot swings into his seat, turns on the ignition. A whirl of the propeller—and the plane catapults into the air, headed for Morocco.

cisco Franco y Bahamonde, military commander of the Canary Islands, a mean, remote post for one who once commanded Spain's foreign legion, who headed the nation's war college. One of his most prized decorations came from Alfonso, the last king of Spain. "Serve me at war," said Alfonso on that occasion to Franco, suppressor of the Riffs in Morocco. But Alfonso was no longer king, and the Spanish throne was non-existent when Franco started an armed insurrection against the Republican government he hated and which distrusted him. Now, two and a half years after the Spanish civil war began, the world is still asking: "What is this rebel leader really like?"

cadet in the Alcazar, Toledo, Spain's West Point. He is short, stocky, like Mussolini; at times he wears a little mustache like Hitler. Unlike the two Middle European dictators, he is not a speechmaker and he has been a soldier all his life. At 23 he was in Morocco, fighting the Riffs. His courage and coolness won admiration from friends and foes—and so he was able to rally the Riffs under the Insurgent flag, to they could respect a man who had fought them so bravely. At 31 he was the youngest brigadier general in the army, already known in Europe as a military expert as an able strategist. At 32 he won two battalions, "the man of the hour" and "the butcher." It came about this way. In 1934, four years after the abolition of Alfonso's reign, elements in Spain won control of

Thrifty Town, Money In Bank, Has No Debts

\$46 Cash Dividend Could Be Paid To Redding Citizens

REDDING, Conn. Feb. 9. — This rural Connecticut town of 1,700 persons, spread over 20,507 rolling acres in Fairfield County sixty miles northeast of New York City, may properly claim the title of "thriftest community in the United States." Redding has money in the bank. Its cash balance of \$79,286.64 on Jan. 15 would run the town for a year without levying one dollar of taxes or borrowing a dollar on a bond issue. If divided up it would give every man, woman and child in the community a cash dividend of \$16.64.

of 1.25; whereas the United States Treasury, marketing its obligations at the lowest rates in many years, would have to pay 1.50. Redding has achieved this enviable financial position without curtailing any essential services to the community, and without the aid of a single dollar of Federal funds. Somehow, the town has managed to keep busy and happy and solvent without benefit of PWA, WPA, or any of the other alphabetical blessings of the New Deal. Within recent months Redding's finances received a substantial

boost through the settlement of a claim against the Bridgeport Hydraulic company for highways and town property acquired in the development of a water project. After deducting \$5,000 for attorneys' fees, the settlement added \$35,000 to Redding's cash resources. Perhaps the knowledge of this impending windfall had something to do with the purchase of a \$2,367 truck for the highway department, the expenditure of \$7,000 for a new school site, and the decision to put the First Selectman, Harold Samuelson, at work on a full-time basis at \$2,500 a year. Aside from

these unusual expenditures, however, Redding shows no signs of departing from its frugal policies of the past. Nominally Redding's affairs are administered by its three Selectmen. Mr. Samuelson, who was a "handyman" in the community until his status was raised to a full-time job; Frank Stolle, a carpenter, and Joseph Huyler, operator of a gas and repair station. Financial matters, however, are in the hands of a finance board of six residents, who serve without pay and actually work at the job. Keeping a watchful eye both on

the three Selectmen and six finance board members is the "Town Meeting," that traditional institution of Connecticut local government which must be summoned to pass upon any interim expenditure exceeding \$500 and which maintains a vigilant, continuing interest in the town's affairs. Redding citizens have been discussing local problems in "Town Meetings" pretty regularly ever since 1767, when the town was incorporated, but the surprising upturn in its financial affairs began only about eight years ago.

The town has no bonded indebtedness, except \$18,000 of highway bonds which represent a charge against state road funds rather than a local obligation. Its financial position is such that if it wanted to sell a bond issue, it could get any reasonable amount in Wall Street at an interest rate

the government from the left. Immediately strikes and riot-tempt the country. In Asturias and Catalonia it was open rebellion and the left Republican party's executive committee announced: "The handing over of the republic to its enemies is a monstrous deed." Then Franco entered the scene from the Balearic Islands, which of he had been sent as military governor in a move by the Republic to get him out of Spain. The rightist regime headed by Alejandro Lerroux recalled him to suppress the workers' revolt and he did it with a mailed fist, bringing in his foreign legionnaires to mop up.

When Franco got through in Asturias and Catalonia he was the man of the hour, to right it Spain; but to the workers he had crushed he was "El Carnicero," the butcher. The name explains the stubborn resistance of these two provinces to his recent invasion during the present campaign. He has a reputation as a cruel, unrelenting man, with a reputation for a "cruel" personality. He is said to have been an officer in the army after issuing a decree creating his insurgent party, he went into the mountains of his headquarters to Europe a rubber ball with his initials. His administrative abilities may be judged by the fact that he has founded among his followers a divergent political group, which could be in Spain. There were the Carlists, followers of the late Don Carlos, Bourbon pretender to the Spanish and French thrones; the followers of King Alfonso, phalanxists, fascists, Catholics, and professional army men who could like to rule Spain under a military dictatorship.

State's Products To Be Displayed At World's Fair

DELAND, Feb. 9.—Florida's commercial products will occupy an important place in the Florida exhibit at the New York World's Fair. According to Earl W. Brown, manager of Florida National Exhibits, one of the primary purposes of the exhibit is to provide a northern market for

Florida goods and to acquaint the public with many of Florida's little known products. "An exhibit of the state's foremost products will include pine oil, turpentine, rosin and Kraft paper," said Brown. "Fish products include such novelties as shark oil for medicine and jewelry made of sharks' eyes." "We will show such citrus by-products as canned citrus and citrus juices, candied citrus, citrus wine and citrus meal. Sea island cotton, cigars, tobacco,

palm fibre products, alligator products, crystallized fruit, preserves and papaya products will be exhibited. "Many people do not know, for example that Key West has the largest pineapple canning plant in the world. We shall show canned pineapple products, canned Florida vegetables and fruits, cane sugar products, sea shell novelties, polished cypress knees, coconut shell novelties, pecan and peanut products and orange blossom perfume. "Sea food and sea food products include canned oysters, shrimp, turtle soup, coquina broth and similar delicacies little known in the North. "Phosphate rock and other minerals such as kaolin, one of the finest china clays known, will be exhibited."

Celery Feds Meet Daytona Team In Loop Tilt Tonight

Hard Fought Battle Between Leading Teams Is Expected

By GLENN GOVOCEK
The Seminole High School Celery Feds, defending Northeast Conference championship five, will continue their efforts in quest of the loop crown for the second consecutive season against the second-place Daytona Beach Buccaneers in a game which promises to be one of the hardest fought conference tilts of the season in the coastal city tonight.

The "Bucs" suffered their only conference loss at the hands of the strong Celery Fed quintet which put them in second place with seven victories and a single defeat in eight conference starts.

The Feds claimed their last encounter with the Bucs by a 24 to 19 figure. Playing a game like veterans of the court, the local dribblers smothered some defense withstood the thrusts of the attacking Bucs while on the offensive the local quintet turned in a performance which was equalled only by their display of teamwork against the Orlando Tigers.

Fresh from a thorough trouncing by the Miami Beach High School quintet, and needing the game to stay in the running for the loop title, the Feds have every incentive for winning tomorrow night's contest.

In view of the local lack of teamwork and poor performance during the past few games, the Bucs will go into the contest slight favorites over the locals. However, if the Seminoles return to form, they should be able to again take the eagles of the coastal city, even on their own court, in view of the dual triumphs over the Bucs by the Orlando Tigers whom the Feds licked by a score of 41 to 27.

The local eagles have plenty of cheering by Coach Leonard McClucas on the necessity of teamwork in this game of basketball since their performance Monday night in which they suffered their third defeat. They have also been criticized by the local mentor against the wild shooting at the net which has highlighted their last few games and with these in mind the Feds should be able to hand the Bucs their number two licking and bear the colors of the local high school through the remainder of the season to the second consecutive conference championship.

The Feds play their last game here Friday when the strong Miami Edison outfit invades the local gym in an effort to duplicate the easy victory of their rival from the Magic City.

Gator Gridmen Satisfied With Regime Of Cody

Players Pledge Support To Florida U Mentor Next Fall

GAINESVILLE, Feb. 9.—(AP)—Coach Josh Cody's football squad at the University of Florida here issued a statement yesterday saying players were satisfied with athletic conditions at the State school and would do their "best" to produce a winning team next fall.

The statement, signed by 53 players now out for Spring training, declared "If Josh Cody is let alone, to do his job as he sees fit we, the players, shall do our best."

It said "We like to play football. . . . We like to play under Coach Cody. . . . Several of us could have gone to schools with more lucrative offers but chose to come to Florida because of Josh Cody. . . . If we played only for room and board what purpose could we have in mind? We do not consider the getting or failure to get a letter as a test of our ability. . . . There is no friction between Northern and Southern boys."

A controversy over the university's football squad broke out last week when Jim Mulcahy said in a signed story published in an Orlando newspaper that he and several other players had been notified they would not be given financial assistance during the second semester.

Mulcahy also asserted some players had been questioned by the Federal Bureau of Investigation about jobs they held with the Works Progress Administration last summer.

Announcing he had ordered an investigation, State WPA Administrator R. J. Dill said reports that football players' names remained on the WPA payroll after they returned to school seemed "absurd."

Cody reported 17 players had been given work by the WPA. Mulcahy, the Orlando reporter, said the Orlando Herald-Sun said the university has studies at the university with assistance from a person whose identity was not revealed. University officials said four other players had left school.

WHISKY BREAKFAST
NEW YORK.—(AP)—Lillian de Noia, 8 years old, collapsed on her way to school yesterday and it turned out that she had drunk her father's breakfast whisky. Her mother said the child must have added coffee to some straight whisky she had left in a cup on the breakfast table for her husband.

Oyster shell from Louisiana shellfish areas has been shipped as far as Glasgow, Scotland, for a trial of livestock feed.

Pleasant Sam Wins First Run Over Futurity Course

Pleasant Sam, son of the great Ben Andrews, won his first start at the Sanford-Orlando Kennel Club last night and best the feature course in 29 1-5 seconds.

My Valentine Jr., who equalled track record of 29 flat in his effort last week, bowed before the speed of the newcomer and also trailed Big I.K. in a finish so close they needed a camera to decide which of the three greyhounds had won.

Pleasant Sam had comfortable going all the way out of the two fox while Big I.K. out of the eight hole, and the heavily favored even money shot My Valentine Jr. both mounted considerable trouble.

My Valentine Jr. broke out of the pack on the far side of the first turn but by that time he had right lengths to make up and he wasn't equal to the effort last night.

The four-two combination—Ben Rock and Barco Slim took the daily double and paid \$35.60 on the money ticket fiddlers.

The quinella pool went to holders of the 4-7 combination—Miss Fortune and Joe's E. It paid \$54 and it was the second night in succession that this combination had taken the quinella pool.

Little Sham, who scored frequently during the early days of the meeting but who has been in poor health until recently, came back last night with a nice win in the 2-16ths of a mile sprint.

One of the upset winners of the night was Lightning, who in the first race.

DeLand Reds Will Remain In League

DELAND Feb. 9 — The DeLand Reds definitely will retain their franchise in the Florida State League this year, President W. W. Wolff announced yesterday. Assuring reporters that the club has overcome most of its financial difficulties, he indicated that a manager will be named for the local class C baseball unit in a few days.

Likely manager prospects are Jiggs Donahue, manager of the Greenville club of the Sally League last year, Earl Porter, Reds star

of last season, or Lee Meadows, a former Gondolier pilot in the State League. Whoever is chosen will succeed Harry Rice who resigned to take a manager's job at Durham, N. C.

France Has Triple Lines Of Defense In African Colony

Franco Was Decorated For Success In Riff Campaign

TUNIS, Feb. 8.—(AP)—Three hundred miles of tortuous mountains and shifting sandunes conceal France's "African Maginot Line" along the frontiers of Italian Libya.

Many military experts believe it is along those frontiers that decisive battles of the next world war may be fought.

These experts point out that Germany and France virtually are stalemated by their lines of fortifications: from Switzerland to the North Sea and that the Alps form a formidable barrier between France and Italy.

So with the quarrel between the democracies and the dictatorships now turning on colonies, the experts believe any eventual armed conflict may be settled in the colonies themselves.

The Tunisia fortifications built in the past two years are more recent than those of the great line along the German frontier. Some reports have placed the number of troops in the line at 100,000, but the French command acknowledges only some 35,000 in all Tunisia, with about 25,000 manning the forts.

The scant information brought out of the area is of pyramidal-like forts that seem to melt into the parched countryside.

This line is but one of France's triple Tunisian defenses. Behind the forts—known officially as the Marech line from the name of a city—range the hardy cavalrymen of the famed French Foreign Legion, and the possibly even more doubly native North African cavalry recruited from desert tribesmen.

Behind these two is a still more secret area—and foreign observers can only "guess" that extensive fortifications are being built there, 25 miles in the interior to guard the narrow corridor between northern and southern Tunisia.

The protectorate is cut almost in half by three great lakes—Chott El Rharsa, Chott Djerid and Chott El Fedjadj—which run from to within 20 miles of the Mediterranean on the east. Miles of marshland hinder an approach from the south to the first two and a chain of mountain curves protectively in front of Chott El Fedjadj.

So the French would need only to close a 20-mile bottleneck to check invasion from the deserts of the south to the more fertile north—the agricultural, industrial and administrative heart of the protectorate.

Most of the French manpower in Tunisia is made up of colonial troops thoroughly trained in the strike and fan desert warfare which defies even modern equipment.

Every few months the South Tunisian headquarters at Medenine orders new regiments into the "African Maginot Line" to become familiarized with the fortifications which form the fixed base for their operations.

Nathan Mayo, Commissioner of Agriculture for Florida, officiated on Future Farmers Day held last week at the Florida Fair and Hermandad De Soto Exposition, now being held in Tampa. The Fair will continue until Feb. 18.

Miami, Fla., reported business around December 1, 1938, showed a 103 percent gain over the same period of 1937.

Distraught World Pauses To Mourn Pope Pius' Death

First Of Nine Services For Pontiff Will Be Held In Cathedral Sunday

Cardinals To Name New Pope Feb. 25

General Franco's Forces Score New Victories In Civil War

A world distraught with strife paused today to mourn the death of Pope Pius XI, its champion of peace. Pope Pius was "the pope of peace." He had filled his declining years with labor to instill peace and religion in men's hearts. Aged and ailing, His Holiness had sacrificed himself for the cause for which he often said he would gladly give his life.

Tomorrow the body of the Pope will be taken to St. Peter's Cathedral where the first of nine funeral services will be held Sunday. Burial will be Feb. 15 in St. Peter's.

Eugenio Cardinal Pacelli will fill as "Chamberlain of the Holy Roman Church" until a new pope is elected. A conclave of cardinals may convene Feb. 25, although it may be called as late as Feb. 29, to choose a successor to Pope Pius XI.

Three United States Cardinals were expected to leave New York tomorrow to attend the assembly, which will be held at the Vatican city. His death ended his 17-year reign as the 261st Pope of the Roman Catholic Church. He would have been 82 years old next May 31.

Pope Pius had grieved over war-torn Spain. An cardiac ailment, which had afflicted him for two years, finally took his life. Spain appeared to be on the eve of peace after two and one-half years of civil war.

After a double victory of Generalissimo Francisco Franco's insurgents in reaching the French frontier of Catalonia and taking the island of Minorca, surrender of the Government's last territory was confidently predicted.

In London, Great Britain was disclosed to have sent peace proposals to insurgent Spain and was reported ready to lend money for rehabilitation in return for assurances of the removal of Italian and German troops from Spain.

Landing of Japanese troops on China's Hainan Island caused new tension in the Far East, with French being particularly concerned because of the island's proximity to French Indo-China.

The Holy Father's last words, according to an unimpeachable source, were:

"We still have so many things to do."

The Pope's condition grew worse just before 8 A. M. after earlier reports that he was resting under medical supervision. High church officials barely had time to reach the pontiff's bedside before the end came.

The Pope was 81 when he died. He was only his remarkable physique and indomitable will which carried him through the stormy final years of his life.

The Pope's death was particularly noteworthy because he had been pontiff for 25 years, his longest reign since Pope Pius IX, who reigned for 31 years.

At the regular meeting of the Board of County Commissioners this week the Sanford Herald was awarded the Delinquent Tax List for this year.

Spencer Heads Jackson Day For Seminole Demos

Local Attorney Named Head Of Drive For Party Funds

Appointment of Garland W. Spencer as the chairman for Seminole County for the Jackson Day celebration to be staged in Florida, on Feb. 18 has been announced by Herbert E. Wolfe of St. Augustine, State chairman of the committee appointed by Gov. Fred P. Cone, Senator Charles O. Andrews and Senator Claude Pepper to handle the plans.

The observance of the day was postponed until Feb. 18 in order that there might be no conflict with other events in Florida. It was explained by Chairman Spencer.

Through the funds raised the Democratic Party's efforts will be financed, 25 per cent of the amount being allocated for the exclusive use of the State Democratic Executive Committee to be expended for the benefit of the Florida party leaders, it was explained. Florida's goal in the National drive was set at \$30,000.

Contributors will be privileged to attend any of the 12 celebrations to be staged. The sites of the parties will be: Tampa, St. Petersburg, and Lakeland in the First Congressional District; Jacksonville and Lake City in the Second District; Tallahassee, Pensacola and Panama City in the Third District; Miami and West Palm Beach in the Fourth District; and Orlando and Daytona Beach in the Fifth Congressional District.

The state committee plans to present honor plaques, which are to be awarded on the following basis: one to the county sending in the largest net return; one to the county having the largest increase this year; and one to the individual turning in the greatest amount of contributions. The plaques will bear the engraved signatures of Governor Cone, James A. Farley, chairman of the National Democratic Executive Committee and T. T. Turnbull, chairman of the Florida State Democratic Executive Committee.

Howard Faville Is Made President Of Loan Association

Shareholders Hold Organization Has \$77,019.04 Assets

Howard Faville, local contractor, was named president of the First Savings and Loan Association of Seminole County at an annual meeting of share holders Wednesday afternoon, it was announced today by Secretary Walter L. Cooper.

In a report of progress made by the association during the past year, it was pointed out, that \$4,637.29 was collected in interest fees and that a 4 1/2 percent yield was declared, amounting to \$2,100.20. The report listed the assets of the association at \$77,019.01 and that 11 new mortgages totaling \$13,400 were approved during the last financial year. A total of 102 new savings accounts were opened with new deposits during the year amounting to \$9,648.84. At present the association is reported to have 78 mortgages on homes and other property.

Other officers elected for the coming year were Frank Evans, first vice president; Len R. Lecher, second vice president; Walter L. Cooper, secretary and treasurer; R. M. Hall, assistant secretary and George A. DeCotter, attorney.

Mr. Faville and Mr. Lecher were chosen as new members of the Board of Directors.

Plans for operation of the association during the coming year were made as shareholders expressed optimism over the outlook in view of the 45 new savings accounts opened during the month of January. The new accounts were opened with deposits amounting to \$3,215.00.

Freight Equality Advocate Gets Post

WASHINGTON, Feb. 10. (AP)—J. Haden Alldredge of Alabama, outspoken advocate of national freight rate equality, won nomination yesterday for membership on the interstate commerce commission.

The President's choice drew hearty applause from southern congressmen, who are making a drive for adjustment of rate differentials between the nation's railroad freight territories. Some southerners declared the nomination bore testimony of white house friendliness to the south's rate plea.

The name of Alldredge, principal transportation economist for the Tennessee Valley authority, has become well known to the Senate and House since June, 1937, when the Alabamian published a strongly worded "denunciation" of the existing rate structure.

TALLAHASSEE, Feb. 10. (AP)—The canner's plan to pay 20 cents per box cash and put 12 cents in reserve for Florida grapefruit purchases under the 32-cent minimum price law will be discussed at a public hearing in Winter Haven Monday at 10 A. M. Nathan Mayo, State Commissioner of Agriculture, announced the hearing today.

He described the purchase plan formulated by Fred G. Elder of Bradenton as a "violation of the growers' most cherished law."

Elder had explained that if the law were held valid in the courts, the 12 cents a box held in reserve would be distributed to the grower. But if the law were held invalid it would be apportioned to the customers who bought on a basis of higher law material cost.

Employees of three grapefruit canning plants in the Winter Haven section, shut down for more than three weeks while their owners awaited developments in the citrus commission's price pegging order, last night began to organize to bring pressure to bear on their employers to reopen the plants.

The organization started with an impromptu mass meeting at the home of one of the employees yesterday afternoon with an estimated 250 men and women, most of them canner workers. However, the meeting was dispersed when a deputy sheriff suggested that there might be complaints of blocking traffic.

A spokesman on the workers said that petitions, addressed to Commissioner of Agriculture Nathan Mayo, asking for his intervention in an effort to urge reopening of the plants, would be circulated today among business and professional men, with another set to be signed by canner workers. The spokesman said that canneries were in danger of losing their trained employees, many of whom are migratory workers, unless they start immediately, he said, that a number of "key men" had already departed for other jobs.

Touchton, son of an Avon Park druggist, is said to have been driving the auto at the time of the accident. Weathered was the owner. Both boys were said to have been drinking and were returning the girls to their homes in Deland when the fatal mishap occurred shortly after 2:00 A. M.

Indictments against Bradham and Smith implemented the information against the two filed by Assistant State Attorney Lloyd F. Boyle and State Attorney Murray Overstreet a short time ago.

These two will also be arraigned before Judge Smith to enter pleadings next Friday. Bradham was not represented by an attorney at today's session. These two cases, along with the case for violation of the State's anti-lottery law against Stinson Kinlaw and Lewis Mitchell are expected to be set for trial on Monday, Feb. 20.

The grand jurors also returned an indictment against Hubert Green, charging first degree murder, and against George Morgan, charged with being an accessory after the fact. Green was not arraigned but Morgan entered a plea of not guilty.

Francis Mills, charged with breaking and entering, was passed temporarily and the case of Lillian Hatcher, indicted by the grand jury for first degree murder, was set for trial next Tuesday.

General Turner, charged with a heifer will be tried Friday morning second offense in larceny of a pig at 9:30 o'clock. A jury failed to reach a unanimous decision in this case during the last term of court.

The case against William Clark, Jr. was set for 10:00 A. M. Monday and the case of C. R. Barco, charged with a statutory offense, was passed until Feb. 20.

The jurors were expected to recess this afternoon.

Members of the Grand Jury are as follows: R. J. Overstreet, Sr. (Continued on Page Three)

Salvation Army Advisory Board Has Supper-Meet

Members of the Salvation Army Advisory Board complimented Capt. R. E. Rose highly on the report on the activities of the local post during the past year at a supper-meeting in the Valdez Hotel last night.

Capt. Rose also presented a report on the income and expenses of the post during the past year and submitted for approval a budget of anticipated revenues and expenditures for the coming year.

Mrs. J. Dingfelder was made chairman of a committee to make arrangements for a motorcade to the Salvation Army hospital in Tampa in the near future. Other members of the committee are Dr. Elizabeth Tracey and Fred R. Wilson.

Chairman H. J. Lehman presided over the meeting.

WPA Supervisors Are Called To Jax Meet

JACKSONVILLE, Feb. 10. (AP)—WPA area supervisors from every section of Florida were called today to hear Florida Administrator Robert J. Dill describe plans for operation of the unemployment relief program in this state under the recently enacted \$725,000,000 efficiency appropriation.

State Field Representatives of WPA's Division of Unemployment were also called into the conference at which changes to be put into effect in various sections of the state were to be discussed.

City News Briefs

All owners of boats, regardless of size, which ply the St. Johns River, were requested to be present for a meeting in the Seminole County Chamber of Commerce building tonight at 8:00 o'clock.

The Boy Scouts of the city have chosen the Methodist church as their place for wash, Sunday, Feb. 12 and will attend the 11:00 A. M. preaching service in a body.

C. E. DeWate of Lake Mary spoke on the "Poultry Farm Without Buildings" at the regular meeting of the Seminole County Poultry Producers Association held in the vocational agriculture building in the rear of the High School last night.

Louisiana Governor Stops Gambling Halls

NEW ORLEANS, Feb. 10. (AP)—Governor Leche yesterday said, upon his instructions, two gambling houses in Jefferson parish, just across the city line from New Orleans, had been closed.

The governor additionally said that the district superintendent, foreman and work crew of district No. 1 of the Louisiana highway commission, had been suspended pending investigation of the alleged graveling of a parking lot adjoining one of the gambling houses.

Governor Leche is a patient at the Baptist hospital here for removal of several teeth believed to have caused him a recent attack of arthritis.

The announcement by the governor followed publication in Wednesday's Times Picayune and New Orleans States of reports allegedly showing tracks of the Louisiana highway commissioner, worked on a lot across from the Old Southport Inn, a gambling garden gambling resort, charging gravel which was used by a work crew of the truck.

Gambling activities of the Old Southport Inn and the original Southport club were suspended suddenly last night about 11 o'clock without explanation by the governor.

AFOL Clears Way For Fight On Wagner Act

MIAMI, Feb. 10. (AP)—The American Federation of Labor executive council cleared the way yesterday for an aggressive campaign in congress to revise the Wagner act and head off any parallel action by organized business which might "weaken, modify or destroy the act."

After a session with the council, President William Green said the AFL program to change the law in respect of union dues has been unanimously approved. He offered an extraordinary combination of federation suggestions to give emergency support to the act and freer union action.

At the same time, he announced a series of new union dues books, to be published by the federation.

Commings Body Is Found By Sheriff

The body of Frank P. Commings, 67, was found lying on the floor of his small home, where he lived alone, on the Country Club Highway, about four miles from Sanford, late Wednesday evening, Sheriff C. M. Hamel reported yesterday.

Commings had been living here several years. He was ill and had been unable to work for some time. The body was removed to the Erickson Funeral Home and funeral arrangements will be made later, after an effort to locate relatives residing in Titusville or Waterline, N. Y.

Information Public

WASHINGTON, Feb. 10. (AP)—The Senate Military Committee agreed today to permit members to make public all information they obtain in future closed sessions, except military secrets.

It voted down, however, a motion to hold open hearings on the Administration's current defense program.

Both the House and Senate were in recess, but the committees were busy with hearings.
