

No Heavy Celery Shipments For Next Few Weeks

(Continued From Page One) recently advanced to \$1.75 per bag, FOB, and may go higher. Oranges and grapefruit marketing has been hurt by the steel strike, but the market did not

fall much, due largely to fine quality. Valencia will be well under way by March 1. With the settlement of the steel strike, considerable demand has developed from canners and growers feel that prices will remain high throughout the deal. Reverting to celery, a check yesterday revealed that Sanford sandlot celery was past the half-way mark. Approximately 1,400 acres remain on the sand, it was reported, of which about 40 per-

cent is Pascal and the balance, goldenheart variety. Oviedo muck celery is estimated to be about 1,400 acres as usual, with possible 500 acres of Pascal. This muck celery usually matures during latter March or early April. To date Sanford has shipped 914 cars and Oviedo 372 cars of celery according to Charles Sherman of the Federal State Market News Service. Florida shipped 63 cars Tuesday as compared

Running Fire, Dame Plan To Combat Housing Shortage Put Into Effect

CLEWISTON, Feb. 20, (FNS)—A unique plan to help combat the national housing shortage by encouraging employe home building as rapidly as materials allow has just been put into effect by the United States Sugar Corp., which has arranged to guarantee resale of employe homes within the next five years without danger of loss to the owner. The company has arranged with its subsidiary, the Clewiston Realty Corp., to purchase the homes at actual cost less four-tenths of one percent per month during the next five years, if the employe for any reason should sever his connection with the United States Sugar Corp. in that period and desires to sell. Purpose of the plan, Clarence R. Blitting, president of the sugar company, explained, is to provide employes with the financial assurance that their investment will be safeguarded, and thus assist them to combat the housing shortage by building their own homes. The plan is available to those employes who have a base salary of \$250 or more per month and are recommended for the plan by their supervisor. Valuation of the property should not exceed 25 times the individual's monthly salary. The Clewiston Realty Corp. will take no part in arranging for construction or financing, merely guaranteeing the owner against financial loss. To secure the agreement, the owner will submit his plans and cost esti-

ENROUTE TO U. S. Pvt. Henry Williams, son of Mrs. Nora Williams, of 1123 Orange Avenue is among many Army veterans returning to the United States aboard the U.S.S. Drew from the Pacific area, according to information received today from the Service Force Commander of the Pacific Fleet.

mates to the Realty Corp. The owner need not sell his home to the Clewiston Realty Corp., but if he desires to do so, it should make his request to that company within 30 days after severing his connection with the United States Sugar Corp., and the Realty Corp. will then have 60 days in which to complete the purchase of the home. It is hoped that the plan will be instrumental in removing any doubts in employe minds about the future and thereby encourage them to build their own homes now, Blitting said. The easy way to separate egg yolk from white is to use a small funnel. The white should slip through the funnel and the yolk will stay on top.

BURGLAR SETTLES WORCESTER. (AP)—A piano was stolen on Main Street, Mrs. Timothy Miskell confidently left it in the front hall while she carried some household effects to her new Lincoln Square home. When she returned the piano was gone.

The juice of fruit pies and the into the crust, if they are placed in a tin of boiling water when from boiling over, and soaking put in the oven to cook.

Husband Of Sanford Girl Awaits Ship

Word has been received from Army headquarters at Manila, that T-5 Roger H. Ingram, whose wife lives at 1003 1/2 Elm Avenue, Sanford, is awaiting transportation to the United States, and subsequent discharge from the Army. He has been attached to the 29th Replacement Depot near Manila, and is the son of Mrs. Laura Ingram of Marienburg, W. Va.

He entered the Army in November, 1942, trained with the 1637th Engineers and was sent to the European theater in March, 1945. He participated in fighting in Germany and later in Luzon in the Philippines. His decorations include the ETO and Asiatic Pacific ribbons with one battle star.

Noted Negro Tenor To Be At Crooms

Emanuel Mansfield, "noted negro tenor," and Robert Evans, who is known as the "little giant of the piano" will appear Thursday evening at 8:00 o'clock at Crooms Academy on the West Side, it was announced by J. N. Crooms, principal.

Mansfield, who was raised on a Virginia farm, is a product of Prince Ann College, Maryland; Claflin College, S. C.; Moorhouse College, Atlanta University system, and did post graduate work in voice at Voss Hubbard Studios of Boston, Mass. The music public of Sanford is invited by J. N. Crooms to hear these "artists."

During the first year of World War II, the U.S.S.R. established five new union republics: the Karelo-Finnish, the Estonian, the Latvian, the Lithuanian and the Moldavian Soviet Socialist Republics.

with California's 16. Of the Florida total, Sanford shipped 21, Oviedo, 3; Sarasota, 7; Belle Glade, 30 and other sections 2. Most markets were reported steady and getting stronger.

Belle Glade is reported to have also passed the half way mark and has an estimated 3,100 acres yet to harvest, much of which is just being set. Shipments from this section are expected to be no heavier than at present for at least two weeks, and will probably not pick up much before March 10. About 600 acres of Pascal remain. Quality is reported to have been affected by adverse weather, yields are poor, with sizes rather small.

BIBLE VERSE FOR TODAY

THE DIGNITY AND SACREDNESS OF THE FAMILY MUST BE PRESERVED IF HUMANITY IS TO MAKE STRIDES TOWARD PERFECTION. CIVILIZATION IS MEASURED BY THE RESPECT IN WHICH THE FAMILY IS HELD. Neither shall thou commit adultery.—Deut. 5:18.

Senator Pepper says Ed Pauley would do himself as well as the country a favor by voluntarily refusing his nomination as under-secretary of the Navy. And we suspect he would be doing President Truman a favor too.

The State of Florida paid out unemployment compensation last week for \$137,000 to 8,124 persons who presumably were unable to find work. And by the way, did you know that the law permits a man to take a four-month vacation every year at government expense? We should say, taxpayers' expense every year!

Secretary Wallace announces that President Truman will be a candidate to succeed himself as President in 1948. Wallace will not be a candidate for the vice presidency, he says, because it will be necessary to have someone from some other part of the country. Both Truman and Wallace hail from neighboring states in the middle west. It might be a courteous gesture toward the South to select one, say, from Florida.

We would not go so far as to say that Ed Pauley, President Truman's nominee for under-secretary of the Navy, is a crook, as former Secretary of the Interior Ickes intimated, but we believe it is the duty of public officials, however high or low, to avoid the appearance of evil, and in this respect Mr. Pauley is sorely lacking in qualifications for the job. If the Senate confirms him, it will be inviting corruption in high places.

Tom Meany, who writes an interesting column for PM, Marshall Field's New York publication, speaks of "a local custom of having transient drunks in the cooler for 60 days and then having them serve out their sentences by working for the county at 60 cents per day and adding that as a result of this "there is no shortage of help at the ball park." We were not aware of any such quaint custom. Some of our City officials might investigate the charge.

Busiest man in Sanford these days is Ed Levy-Whitner, manager of the Seminole Country Club where an \$8,000 building project has just been started. He has also just signed a contract to take over the management of Sanford's baseball team in the Florida State League. (What, he manages to find time to take part in Fred Stone's production of "You Can't Take It With You" at the Annie Russell Theater in Winter Park. No 30-hour week for that boy!)

State Comptroller Lee warns Floridians against a repetition of the 1935 boom. The fictions and follies of that fancy era are too remote to be remembered these days by everyone—especially those younger veterans just returning from the battlefield; but older men will tell you that, though it was a pleasant sensation while it lasted, it left an awful headache. What can you do to help prevent such a boom? Well, just don't buy anything you don't have to have, especially if you're not in a hurry.

Let the heat of the things that need to be done in Sanford keep this city more popular in recent years in the furtherance of the Mayor's plan to build a new city hall here.

Czardom's Destroyer

Unless people see with their own eyes a famous man lying in his coffin, many will refuse to believe that he is dead. That is one reason for the doubts about Hitler. The latest example is a report from the Aleutian Islands that Gregory Rasputin supposedly murdered in 1916, is since alive on an Alaskan island, watching the grave of a Russian priest.

If the fall of the czardom could be attributed to any one man, that man is Rasputin. An ignorant peasant, he became court favorite and dictator of Russia. Anyone wanting a favor from the government saw Rasputin and paid him. Although loathed by all except the czar and his hysterical wife, they both believed that he helped their son, who suffered from an intermittent and incurable disease. Against this belief Rasputin's coarseness and vicious habits counted as nothing.

During the first World War the Russian nobles decided that Rasputin was in German pay, and in December, 1916 they murdered him. This seemed almost impossible to accomplish. He was poisoned, shot, beaten on the head with a poker, and still lived. Finally he was bound and thrown into the river through a hole in the ice. This enduring physique of Rasputin's may partly account for the belief that he is still alive.

Rasputin thoroughly discredited the empire. Without him, it is possible that it might have weathered even the defeat of the first World War.

Saving The World

It is significant that the first constructive act of the first assembly of the United Nations was a demand for quick action to prevent global famine. Here was a gesture made at a time when all could grasp its meaning. Mankind was to be saved, and thereafter the intelligence and resources of the whole world were to be called on for the safety and preservation of the human race.

This is a good beginning. If the leaders of this present world can work together for such purposes, an immense forward step has been taken for the salvation of mankind. It remains to be seen whether the inveterate tendency of men to fight and destroy each other is really giving way to cooperation and unity, or whether this shall prove to be a grand gesture only a little better than previous undertakings. But if the leaders of the movement do their duty, and others rally as they should, this battered old earth may be saved on the brink of destruction.

In spite of recent dangers turned loose in the world, most Americans, feeling secure in their great, rich, strong country, have not yet realized how near that brink might be, if international cooperation were to fail.

Making Geysers Work

"Yes, sir, this is a warm apartment with geyser heat." Such talk will be heard from New Zealand landlords and custodians if an ambitious government program goes through. The plan is to utilize the geysers, boiling mud pools and hot springs of Rotorua, their 660-square-mile Yellowstone. As a preliminary a "volcano observatory" has been created to collect all possible facts.

This idea is not so far-fetched. The Italians have been doing something like it for years. Steam vents in Tuscany are the source of borax, ammonia and other useful products. Railroads, light and power on the west coast have been operated by natural steam from such vents, and on the island of Ischia, near Naples, the steam serves to ripen tomatoes.

Enthusiasm to develop this new source of power should not, however, be allowed to diminish Rotorua's scenic wonders. New Zealanders should observe how power developments have impaired the beauty of Niagara.

Men's Clothes

Now it is men who are in distress about war shortages. And it is only fair that they should get a break as regards publicity, at least. Inquiries at stores in various cities indicate that there is a distressing dearth of shirts. Many department stores and men's furnishings shops say the situation is the worst it has ever been. Only a few come in at a time, and there are long intervals between.

The men are beginning to get a break, however, in one reported. Tails are coming back to "pre-war cut" and are now reported as 33 inches long instead of 30, when you can get them." As a fellow might say, it's a long tail that has no returning.

SEEDS OF HATE

SANFORD TWENTY YEARS AGO

The first copy of the big special advertising campaign which is to stress the soundness of Sanford values and business and the great agricultural production in the Sanford area, appeared in newspapers throughout Florida yesterday and will continue for several days until 10 newspapers in the leading centers of Florida have published a total of six advertisements. D. H. McFarland, campaign manager, announced today.

Vance Douglas, president of the Florida Baseball Club of the Florida State League, has received an invitation from Mike Sexton, president of the National Association of Minor League Baseball Clubs, to attend a meeting next Wednesday in Tampa for the purpose of assisting in the reorganization of the league and in perfecting plans for the coming season. Representatives of 11 cities have been invited to the meeting. They are Sanford, Sarasota, Lakeland, Bradenton, Orlando, Fort Myers, St. Petersburg, Lake Wales, Winter Haven, Aventura Park and Haines City.

Mrs. James Frederick Hawkins entertained on Saturday evening at a dinner party at her home on Park Avenue honoring her husband's birthday anniversary. Covers were laid for Mr. and Mrs. J. F. Hawkins, Mrs. Ivis Horne, Dr. and Mrs. W. D. Gardner, Mr. and Mrs. Clyde Derby, Mr. and Mrs. A. C. Fort and Mr. and Mrs. John V. Gass.

Mrs. John Seeland of Way-

Modern Saint Pat Chases Out Autos

ISLAND OF SARK (AP)—The tranquility of Sark, one of the smaller English channel islands, which was rudely upset by motor vehicles during the war, will be restored by an act of Sark's parliament.

The island's pre-war law forbidding the importation of automobiles and trucks will be renewed when British troops have departed, and motor cars will be banished forever, in the words of the Dame of Sark, Mrs. Sybil Hathaway.

"You have no idea what our roads look like," she observes. "The surfaces are torn to bits." Until the Nazis landed in 1940 with heavy armored vehicles, many Sarkese had never seen an automobile.

AIRPLANE FOX HUNTER ANDERSON, Inc. (AP)—Arthur Darlington, airport owner, hunts Texas with an airplane and 15 gauge shotgun. He has killed 34 since Christmas, collecting a \$5 bounty on each animal and \$2.50 for each pair. It isn't a sure-fire method, Darlington admits. He fired 25 shots on one flight without hitting a fox.

BANANA SPLIT? (AP)—A girl laid a banana on the table yesterday at a dinner party at her home on Park Avenue honoring her husband's birthday anniversary. Covers were laid for Mr. and Mrs. J. F. Hawkins, Mrs. Ivis Horne, Dr. and Mrs. W. D. Gardner, Mr. and Mrs. Clyde Derby, Mr. and Mrs. A. C. Fort and Mr. and Mrs. John V. Gass.

SEEING THROUGH HAGERSTOWN (AP)—Georgia Norford, news stand attendant at the local court house, described a recent motion picture as the "best I have seen in years."

But Georgia Norford is blind. She explains that she visualizes the story from the dialogue, driving, she believes, as much pleasure from films in this way as persons who can see.

Social Security Board Offers Full Cooperation To Persons Over 65

The Social Security Board have reached the age of 65 in an offering its full cooperation to help them avoid any loss of workers and former workers whose benefits through delay in filing claims, it was announced today by Paul Weaver, Manager of the Board's office at Orlando.

"Any person who has worked enough in private industry and commerce to be insured under the old-age and survivors insurance program can file a claim at age 65 to peg his benefits at a point below which they cannot fall," Weaver said. "Then, if he keeps on working, or if he gets a new job, and his wage record would produce higher benefits at a later date, he may file a request to have his benefit recalculated to give him the higher rate."

The Orlando field office has been urging workers for some time to confer with the Social Security Board officials upon reaching age 65, in order to protect full benefit rights.

"A great many workers have done just that," Weaver said, "but many have not. They have been under the impression that once a claim was filed, the benefit could not be changed even though subsequent work might produce a higher potential benefit figure."

"That was true for a time, but last year the Board inaugurated a method of recalculation which will keep benefits from going down, once a claim is filed, but not keep them from going up. If workers and former workers in private industry and commerce, who have passed the age of 65, will just come in to see us, we will give them the information and help necessary to protect their full benefit rights."

"This statement does not mean that a person can draw benefits while working in jobs covered by the Social Security Act. The law provides that benefits must be given up for any month in which the worker earns more than \$14.99 in covered employment, but benefits can be stopped and resumed as often as the worker moves in and out of covered jobs."

To prevent confusion and misunderstanding, the Orlando Field Office has issued the following cautions:

1. Increased benefits, once a claim is filed, can be resumed from additional work in covered employment. Generally this additional employment must be at pay equal to or above the past average monthly wage.
2. Benefits will be recalculated only upon request. It is important, therefore, that the beneficiary get in touch with the local Social Security Board field office whenever he quits working in covered employment; or, even though he is still working, whenever his total pay begins to go down as a result of reduced working hours, lower pay rate, lost time, or for any other reason.

The Orlando office of the Social Security Board serving the counties of Orange, Osceola, Lake, Brevard, Polk, Seminole and Sumter is located in the New Post Office Building, Orlando and is open from 8:30 A.M. to 5:00 P.M. Mondays through Fridays.

AFTER SEVERAL THOUSAND MILES of voyaging to this Los Angeles dock, the last fifteen feet seemed a mere trifle to William Aquino, 23, when he saw his sister Maria, 30, waiting there to greet him. So, while his buddies cheered, he just jumped the rest of the way. (International)

White Shirts Guilty Of Inciting Crowd

NEW YORK (AP)—New Yorkers have formed lines that extended around a city block for movies, liquor, cigars, meat, nylons, butter, or what have you. But it required the cops to handle a mob that gathered in the Times Square section when a haberdasher advertised white shirts.

The crowd, not only hampered automobile traffic but interfered with such serious business as the attendance of bobby-soxers at an early movie show.

One of the last of 3,000 white shirts went to a man who declared: "Without this I don't know how I could get married tomorrow night!"

PIGGY BANK THRIFT
CUSHING, Okla. (AP)—Papa needed new shoes so baby bought them. C. A. Flacus, just released from the Navy, needed a new pair of shoes. His daughter, Charlene, 8, insisted on buying them with 900 pennies she had saved.

Feather Bed Makers: Here Is Your Man

FORT ATKINSON, Wis. (AP)—Ernie Hausen isn't even mildly concerned over the news that a wonderful new machine has been built to remove feathers from chickens five times faster than by hand.

Ernie is the world's champion chicken-picker. He can do the job with his hands in three and one-half seconds. He's 60 years old now and has been meeting all challengers for 20 years. He picks chickens by the hundreds just to keep in practice. He'll do it blindfolded or wearing handcuffs.

Hausen dips the chickens in 164-degree water, quickly runs his large, powerful fingers across the wings, from the tips in and does the same with the legs. Finally he peels the feathers from the back and breast. Suddenly the bird is as bare as a billiard ball. It doesn't have to be singed.

He tells of picking 1,472 birds in seven hours and 45 minutes in a centes.

FARMING ON THE FLY
LAFAYETTE, Ind. (AP)—Five Indiana farmers and two farm women, attending a three-day agricultural conference at Purdue University, hurried to the Purdue airport each evening and flew their own planes home in time to do the chores.

OH, RHEUMATISM!
ELBERTON, Ga. (AP)—Whenever Patrolman Ben Brown of the local police force has recurring rheumatism he makes a bee line for the nearest bee hive. He lets us to 17 bees sting him in the afflicted areas. And he says he never fails to get relief from the rheumatism. He claims, too, the remedy isn't worse than the disease.

Manchurian City In Midst Of Inflation

Report Is First Received From U. S. Reporters Who Were Held By Reds

MUKDEN, Manchuria, Feb. 22, (AP)—A city of 2,000,000 in the midst of inflation food prices four times as high as they were only six weeks ago was found by nine allied correspondents, according to a report today by Associated Press correspondent Spencer Davis. Russian sources told the newsmen that 85 percent of the factories are idle—factories developed by the Japanese for their war effort. The correspondents also were told that more than 3,000 cases of typhus developed in Mukden during December and January, but Russian army doctors stopped in and checked the epidemic.

The AP correspondent said that between 10,000 and 20,000 Chinese government troops are in the western section of Mukden—the industrial district. The Chinese troops are not permitted freedom of the city and must stay in their own area unless given special permission from advanced headquarters of the Northeast China Command.

Correspondent Davis says that in contrast to many parts of north China, no Japanese troops are to be found in Mukden. There were about 60,000 in the city when the Russians entered the city last Aug. 19. The Japs are now all gone, and the Russian commander has no troops where they have gone. Rumors are current in Mukden to the effect that the Russians are preparing to work in mines or on railroads.

The Associated Press report received its first dispatch from Mukden, Davis says, and eight other correspondents were permitted to enter Manchuria nearly a week ago. The correspondents were held incommunicado for 24 hours by Russian authorities. Davis' story was delayed for two days after it was filed, presumably for lack of fast communications.

The AP correspondent relates that for the past six months there have been reports from the arsenal city of Mukden intimating that it was the scene of banditry, kidnaping, arson, murder and violence in all forms. Correspondents have been prevented from visiting the area by both Chinese and Russian authorities—that is, up until two days ago when the correspondents were permitted to investigate for themselves.

Dr. Edwin Grover Reveals Animated Magazine Contents

Dr. Edwin Osgood Grover, publisher of Rollins College's annual "Animated Magazine" which "goes to press" Sunday at 2:30 P. M., has just announced the complete "table of contents" of the magazine. The magazine is headed by the list of contributors and the magazine is published by Dr. Hamilton Holt, president of Rollins College, who originated the idea of a magazine that has only the front and back pages printed, while the contents remain blank. This year the magazine appears in person and read their manuscripts, while more than 6,000 "subscribers" sit out of doors on campus and listen.

The event is a highlight of the first Founders' Week, celebration of Rollins college which began Tuesday afternoon and will include the annual annual day Saturday and the mid-winter convocation and awarding of honorary degrees Monday.

Flier Gets Lesson In Diapering

FLIGHT OFFICER Norman Eisner of the Bronx, N.Y., now on terminal leave from the Army Air Forces, tries his hand at diapering little Dawn Carey at a special class for GI dads held at a New York hotel. Nurse Vivian Percival, the instructor, looks on. Dawn's dad is William Carey (right), an ex-serviceman, and a member of the class. (International)

Five Day Cycle Of Unparalleled Pagentry Ended

37 Of New Cardinals Receive Last Symbol Of Rank Today

VALENTIN CITY, Feb. 22, (AP)—A five-day cycle of unparalleled religious pagentry has ended and 37 new cardinals of the Roman Catholic Church have been elevated to the Purple—the largest number in the history of the church.

Twenty-seven of the new cardinals received today the final symbol of their rank—their rings—at a secret consistory at which Pope Pius XII again officiated. Five of the new cardinals received their rings in absentia because of illness.

From now on, the new cardinals will be on an equal footing with the old cardinals in transacting all business of the sacred college.

Mrs. Brim Catches Bream With Oranges

Speaking of fish stories, the following true story was told yesterday by Raymond Ball, resident of Lake Mary, who was fishing for bream the other day in Crystal Lake. And Mrs. Brim caught plenty of bream, said Mr. Ball.

We thought he had made the point of his fish story, but he continued. "With her fishing was her 16 year old nephew, Jack Esteb, here from Montgomery, Ala. to regain his health. They were fishing from a dock and after catching a number of bream ran out of worms and shrimp which they had been using for bait.

Argentine Police Arrest Group In Terroristic Plot

Authorities Assert Arms, Ammunition Are Also Seized

BUENOS AIRES, Feb. 22, (AP)—Argentine police have announced the arrest of a number of men in what they describe as a terroristic plot. They charge that the plot was intended to cause trouble before Sunday's general election. The police said that they seized a large quantity of arms.

Police authorities assert that captured documents show that the group planned a series of uprisings in Buenos Aires. They say that among those arrested was a lawyer in whose home was found material for manufacturing bombs. At other places, police declares they found 151 pistols, 308 revolvers, 125 shotguns, 1 machinegun and quantities of bullets.

Ratigan Declares Jaycee Blood Bank Project Success

Declaring that the Seminole County Junior Chamber of Commerce blood bank program yesterday was a complete success, President Jack Ratigan of the Jaycees today expressed his appreciation to those who participated in the project and thanked The Sanford Herald and The Orlando Morning Sentinel for their support.

The Jaycees obtained the quota of donors who were as follows: Mrs. Byron Squires, Gene Tucker, Mrs. R. E. Jacobson, Mrs. W. D. Thornton, Mrs. George Ewan, Julian Stenstrom, James Colbert, Jack Ratigan, Miss Selma Levy, Miss Louise Levy, E. B. Carter, Joel S. Field, Frank L. Cochran, Miss Pauline Hasty, David B. Levy, Mrs. Dorothy Beer, Miss Gussie Gilston, Miss Margaret L. DeLois, L. J. Hazel, V. Parbec, Alvo Walker, B. Waymark, Mrs. Fred Larson, Miss Norma Yeager, Mrs. D. W. Deal, Mrs. Florence E. Russell, R. E. Deas, Evans McCoy, Carl Prescott, Miss Jane Fletcher, Roy R. Wright, Mrs. E. J. Cameron, Jr., Guy Wood, Jr., Mrs. A. J. Walker, C. A. Ingraham, Charles Morrison, Mrs. Florence Loring, Jerry White and Dick Ellsberry.

Attlee Says Ample Troops Are In Bombay

Ships Of Royal Navy Are Enroute Today To Scene Of Mutiny By Indian Seamen

LONDON, Feb. 22, (AP)—Prime Minister Attlee has told Commons that ample forces are available in Bombay and Karachi to quell the mutiny of Indian seamen at sea. Attlee has asserted that the ship of the Royal Navy, including a cruiser, are proceeding to trouble spots, and will arrive soon. There has been a flat demand by the Prime Minister for complete restoration of order.

Meanwhile, the commander of the southern army—Lieutenant General Lockhart—has been placed in charge of all forces in Bombay. The viceroy and his council are said to be in the closest touch with the General during the emergency. Civilian casualties up to last night now have been listed at 14 injured. The Congress Party has disclaimed participation, but Attlee has asserted that left wing elements and communists are trying to work up sympathy. This viceroy is said to be expecting some further disturbance before the situation is stabilized.

The mutinous seamen had been demanding speedy demobilization along with disciplinary action against the commanding officer of HMS Talwar for alleged improper treatment. They are asking the best class of Indian food.

Boy Scouts Map Campaign To Raise Funds For Activity

Children of Seminole county will give an opportunity next week to share in the support of the Boy Scout activity, for the annual Helping Hand solicitation will get into full swing then. Randall Chase, chairman of the Scout in 1945 and acting committee announced today.

Preliminary steps were taken yesterday when those who have manifested interest in the Boy Scout movement by giving it their financial aid were mailed a letter outlining what has been done in 1945 and setting forth the program for this year. Stanley Brunley, Oliver Ames, T. I. Harris, Robert Axt and Denny Stafford, representing the local troops, had charge of the distribution of letters to the parents, calling attention to the personal obligation next week.

Concrete Markers Being Constructed For City's Streets

Concrete markers for streets are being made in the city by the Peninsula Concrete Pipe Company to mark 500 street intersections in Sanford, H. N. Sayer, city manager announced today. Stencils for marking these have been completed in the Golden section south of Thirteenth Street, he said, and some streets have been graded and gutters dug on east side streets between First and Second Street.

"This work may take a long time before we get all the dirt streets in the city graded," he said, adding that it was the intention to complete the work by the end of the month.

Truman Asked To Intervene In Pittsburgh Power Strike

Andrews Pledges His Support In River Project

M. L. Cullum States 13 Counties Would Receive Benefits

Senator Charles O. Andrews in reply to a telegram from M. L. Cullum, president of the Seminole County Farm Bureau urging the support in securing a government appropriation for deepening of the St. Johns River to Sanford, today replied as follows:

"I will do all possible to secure appropriation. Favor project for improvement mentioned in your wires as I too understand its importance to our section."

Mr. Cullum revealed that he sent similar telegrams urging completion of the project to Senate Appropriations Chairman Elmer Thomas of Oklahoma, Senator Claude Pepper, Senator Arthur Vandenberg, (R) of Michigan and Representative Joe Hendricks.

The telegram to Sen. Andrews read as follows: "Farmers of Seminole County, farming annually over 7,000 acres of vegetables and producing one and one half million boxes of citrus, as well as, in our opinion, directly interested counties of Clay, St. John, Putnam, Flagler, Marion, Volusia, Lake, Orange, Polk, Ocala, Hardee, DeSoto and Hillsboro, having total vegetable acreage of over 60,000, and producing combined total over 28 million boxes of citrus annually, would greatly benefit by deepening and improvement of St. Johns River from Palatka to Lake Harney.

"Other producing counties would benefit to some extent, as not only would it open northbound waterways for goods, but would which farmers need, and must obtain cheaper to offset constantly rising costs, or obtain higher prices for products, raising nation's winter food costs.

"Chief of Engineers recommended work. Last occasion, December 11, 1943, page 2, house document 445, 78th Congress, 2nd session. Please lend your help get appropriation, \$325,000 included by amendment current Civil Functions Bill."

State Instruction Officer Addresses County Teachers

Dr. A. J. Vergason, state supervisor of instruction, declared yesterday afternoon in an address before the Seminole County Teachers club at the Grammar School that it was not the buildings or equipment that produced good schools but the superintendent and the teachers whose lives have been dedicated to the ideals of successful school programs.

Dr. Vergason, who was introduced by R. E. True, principal of the Junior High School, pointed out that current conditions warrant a change in technological instruction and added that he has passed from the woodwork to plastics. He asked what are teachers and other instructors willing to do in meeting this change.

He stressed the fact that one of the more important principals in education is to meet the problems of the students without delay as they arise. He said that any school program could be evaluated by whether the students are happy and well, by the atmosphere of the classrooms, by the attitude of the parents toward the school program and by the measured results of the program.

C. F. Proctor, Jr., Visits Parents Here

Clifford F. Proctor, Jr., Ph.D. USNR, was able to spend Tuesday at home with his parents on Escondido Avenue after an absence of two years. He was enroute from the Navy hospital at Jacksonville.

He wears one battle star and served for two years in the Atlantic area and Pacific theater including Okinawa, Japan, China and Korea. His brother Robert J. Proctor has been serving for six months in the Army Air Corps in Germany.

U.S. UNO Delegates Return Home

GUARDED AFTER ALIGHTING from their special plane at Laguardia Field in New York are three of the thirty members of the U.S. delegation to the United Nations Organization valley in London. They are (l. to r.): Senator Arthur H. Vandenberg; Mrs. Eleanor Roosevelt; and Edward R. Stettinius, Jr., chief of the American delegation. (International)

Williams Says Some Buildings Withstood Bombs

Capt. Volie A. Williams, Jr. of the Army Air Corps, who returned to Sanford early this week after serving with the occupational forces in Japan since the end of hostilities with the Japanese, declared today that he did not believe the atomic bomb to be as destructive as many people in America seem to think.

Capt. Williams said that when he visited Hiroshima he noted that a few buildings constructed of reinforced concrete, withstood the atomic bomb explosion fairly well. He also stated that buildings of steel and concrete in several sections of Tokyo withstood the heavy Allied bombing fairly well while other sections, composed primarily of bamboo and thatched grass roof structures, were completely obliterated.

Production Credit Group Reveals Its 12th Annual Report

The Central Florida Production Credit Association's 12th annual report released today revealed total earnings and member capital of the organization amounted to \$197,540. The report further shows the association's net worth is \$27,240 and that the organization, which has 237 members, has made loans totaling \$1,109,000 to farmers during the year 1945.

The association, which is a cooperative organization making short term agricultural loans on all types of farming, served Seminole, Lake, Bradford, Orange, Ocala, and Volusia counties during the past year. The organization's main office is here and field offices are located in Leesburg, Orlando, Cocoa, DeLand and Kissimmee.

Japanese Heads Asked To Resign

Move Apparently Is Jap Interpretation Of Purge Directive

TOKYO, Feb. 22, (AP)—The Japanese government has announced that all Japanese political party leaders falling under the Allied-directed purge of ultra-nationalists from public office have been asked to resign their party affiliations. In addition, the Japanese government has requested those leaders falling under the purge to withdraw for good from all active politics.

Mrs. C. Casper Well From Effects Of Stray Bullet

Mrs. Charles Casper, 314 Chapman Avenue, has recovered from the effects of a stray .22 caliber bullet which, fired by an unknown person, pierced the bedroom window of her home on Jan. 29, entered the forepart of her neck, just missing the larynx, and was deflected downward by the collarbone just short of the carotid artery near the heart according to Dr. C. L. Park, attending physician and surgeon.

Mrs. Casper today said that she wished to express thanks to aid given her by Mrs. Frances McDougall, county nurse, who gave her first aid to Dr. Park, and to friends who helped her in the emergency. At the time she was shot she was about to join a friend to do some missionary work for the Seventh Day Adventist Church, of which she is a member. She has recovered sufficiently to resume this work.

Union Head Says If Proposed Walkout Materializes Power Will Be Cut Off

DETROIT, Feb. 22, (AP)—Special mediator James Dewey says he expects an answer from both sides on all issues in the General Motors strike by midnight.

Voters Have One Week To Register In County Books

Seminole County voters who have not registered have until March 4 to place their names in books now located in the various county precincts, according to Mrs. Lourne A. Beal, supervisor of registration.

The books are placed in the county precincts for one month after which they are returned to the office located in the Seminole County Courthouse, according to Mrs. Beal.

The books for those living in Precincts 1 and 3 will be open and remain open through Saturday, Apr. 20. Mrs. Beal stressed the fact that this is not a re-registration. Only names of persons who have not previously registered since 1936 and those who have reached a legal voting age or attained a legal voting status are required to register.

The law requires that a person must have been a resident of the State of Florida for one year and the county six months to be qualified to register and vote. The first Democratic Primary is set for May 7 and the second May 28.

AUDITOR HERE

W. P. Heard, auditor for Strickland-Morrison Company of Cordele, Ga. and Sanford, has arrived in Sanford to audit the books of the local firm.

DEGREES

Initiatory degrees will be conferred Monday evening at the Old Fellows Hall and succeeding degrees on the following three Mondays. Fort Mellon Encampment, IOOF will meet in the hall Wednesday evening according to Frank Anderson, chief patriarch.

PICNIC ENJOYED

Public works employees of the Sanford Naval Air Station today enjoyed a picnic at Juniper Springs in the Ocala National Forest.
