

SEMINOLE COUNTY FAIR IS COMING

COMMITTEE IS GETTING READY FOR BABY COUNTY EXHIBITION

The Seminole County Fair bids fair to be the greatest fair in this part of the country if the present plans can be fully carried out. The executive committee met yesterday with President Walker, Secretary Connolly, Treasurer Abernathy and Messrs. S. O. Chase, S. Ruge, R. C. Maxwell, F. P. Rines and U. P. Swope present.

The greatest work of the meeting was in the committee that will have to be appointed at once and this is a very important question, for upon the good work of the committees over the county depends largely the work of the fair.

The plans were carefully gone over and President Walker will make public the names of the members of all the committees in Tuesday's Herald if possible.

Henry Marks and his corps of assistants will arrive in the city about the fifteenth of this month and have headquarters where they will be busy for the next few months advertising and arranging for the big fair. The aeroplanes and other attractions will be shipped here and made ready and Sanford will present a very busy appearance from the first of January until the fair starts.

Reports from all parts of Seminole county indicate a great interest in the fair and many and varied will be the exhibits of all kinds of local products of the fields and pastures and farms and households and the ladies of the county especially are working hard to get up creditable exhibits for the fair.

The committees will endeavor to simplify matters to the very last degree and a program list will be published as a part of the needed information regarding the exhibits and the fair in general and everything that pertains to the events and exhibits.

HEALTH EXHIBITS AT THE BIG FAIR

SEMINOLE COUNTY WILL HAVE A FINE EXHIBITION

The Seminole County Fair will be famous for its many and varied exhibits and chief among them will be the health exhibits that will be brought here from many other states.

Dr. Oliver J. Miller has just returned from Jacksonville where he attended the National Health and Hygiene Convention and invited many of the states to participate in the Seminole County Fair and has the assurance that the North Carolina state exhibit will be here for one and it is said to be the finest state exhibit at Jacksonville. The State Board of Health will also have their entire exhibit here and Dr. Miller says it will fill several rooms. The Jacksonville Board of Trade will have their exhibit here as will the Metropolitan Life Insurance Co., also a fine exhibit.

The value of such a line exhibit at the Seminole County Fair cannot be estimated, not only from a medical point and as one of the attractions of the fair, but also from a

hygienic and health and civic standpoint these exhibits will be great advertisements for the scope of this, the first fair in the new county of Seminole.

Dr. Miller is to be congratulated upon his good work in getting these exhibits here and the executive committee will guarantee the exhibits a good place in the fair and the safe return of the same.

Shooting on Highway

The residents of Celery avenue and other public highways are anxious to have the public understand that the state law prohibits any hunting or shooting on the highways within 500 yards of a man's residence. This law will be enforced to the letter in this county by the new game warden as many of the farmers have made complaint that the hunters have no regard for this law but shoot blackbirds and robins and other small birds in the door yards.

PRESS ASSOCIATION COMMITTEE NAMED

EXECUTIVE COMMITTEE TO MEET IN SANFORD IN JANUARY

The Florida Press Association at Miami promises to be one of the most interesting in the history of the organization. The date has not been decided upon yet. The Executive Committee meeting at the city of Sanford, Fla., to discuss the program and the date of the Association meeting in the city of Sanford, Fla., will probably be made to the first week in March. The date will be in the first week of the month and the date of the meeting at Miami will probably be made to the first week in March.

Needs Good Dog

Atlanta, Ga., Dec. 4. A well trained setter dog who will "set" quail even after they are dressed and tied is County Game Warden's plan to detect violations of the law in Fulton county. He proposes to take his prize dog into the express offices and go on a hunt for game shipped in violation of the law. Then he will lead the dog to the hotel store rooms and hunt for birds on ice. Atlanta hotels have made a practice of serving quail on toast despite the law which prevents the sale of game. The head waiter, properly tipped, can always remember that some prominent man has left a couple of birds on ice for his own use and will be willing to divide them with any friend. But the warden says this excuse will no longer go. The man who provides the game will be called upon before the grand jury to prove he actually

COAST LINE IMPROVEMENTS

HAVE PUT IN MANY NEW TRACKS AND BUILDINGS LATELY

The Atlantic Coast Line railroad during the fiscal year ending June 30 last, report for which has just been made, put into service in Florida much new tracking and double tracked its lines for many miles. The report covers the activity of the road for the year and is a comprehensive digest of the work of improvement of the system. During the period under construction the new line, between Dunellon and Wilcox, Fla., 60 miles, was completed and put in service. Another new line in the same state and between Archer and Morrilton, 20 1/2 miles was also finished and put in use. From Milledge to Eastport, Fla., about 4 1/3 miles, a line was completed in October of this year, this being a branch to the lumber plant of the Carpenter-Obrien Company. There was also built a line of about 2 1/2 miles from Composite, Fla., to Eighth street at Jacksonville, Fla., to make a continuous track for the company from Monierief to the Jacksonville export terminus.

ANOTHER CHECK ON GREEN FRUIT

GOVERNMENT DEFINES AN ACID TEST THAT WILL STICK

Citrus growers who have been in the habit of depressing the orange market in the opening of the season by clipping unripe fruit in the excessive hope of realizing profits from the high prices for the first good crop are to find the government has passed from the grower's pocket with another check. This time it is a check from the federal government in the form of a chemical test which, for the present, considered by the bureau of chemistry to be a standard of maturity, is to be applied to the fruit in the future. While the standard is not uniform, the bureau says it is a definite standard of maturity in all cases. The bureau says it is a definite standard of maturity in all cases.

ST. JOHNS RIVER INLAND WATERWAY

BIG MEETING WILL BE HELD IN PALATKA THIS MONTH

A large majority of the people of South Florida have come to the conclusion that the Inland Waterways through this state should use the St. Johns river instead of the East Coast Canal and so thoroughly have they become imbued with this idea that they will meet in Palatka Board of Trade room at 2 P. M. on Monday, December 21st in the to discuss ways and means for furthering the St. Johns river route. The meeting will be well attended by the members of the commercial bodies from Jacksonville south and especially by the cities along the St. Johns river and territory contiguous.

The St. Johns, Gulf and Atlantic Waterways will be the banner under which these good people expect to make their fight and the meeting at Palatka will bring out some strong points that will be laid before Congress—points that cannot be denied and proofs incontrovertible for the St. Johns river is recognized as the great artery of trade and travel and the channel is opened the year round.

While the people of this section would like to see the East Coast Canal used south of Titusville they do not think the upper end of the canal practicable and will petition the government to use the St. Johns river on account of the economy, practicability and entire feasibility, the channel already being made ten feet deep, the bends cut off and otherwise made navigable for the river steamers and pleasure crafts.

Sanford Commercial Club should send a dozen men to accompany that veteran C. R. Walker who has already attended the convention at Stuart and knows whereof he speaks.

Sanford and every other city in this part of south Florida should attend the meeting and help along the good work of recognition of the great St. Johns river, the highway of trade and travel among the streams of Florida and one that with some aid would soon become the greatest artery of trade in the south.

SUMMARY OF THE WAR

The German reichstag was voted a new war credit of \$1,250,000,000, and the Imperial Chancellor Dr. Von Bethmann-Hollweg, before the German house of representatives has declared the future can be regarded with every confidence.

"We must and will fight to a successful end," said the chancellor, "our defensive war for right and freedom."

At the same time the chancellor asserted that the "apparent responsibility for this, the greatest of all wars, lies with Russia, while the real responsibility falls on the British government."

Germany's action as mediator between St. Petersburg and Vienna would have been successful, the imperial chancellor declared, that England warned the Russian government that she would not allow a continental war to develop from the Austro-Serbian conflict and thus oblige France to restrain Russia from undertaking warlike measures.

Regarding the progress of the war the French official statement reports a violent bombardment of Lamberousse to the west of Dixmude, an action northwest of the forest of La Grurie and in Alsace, the capture of the towns of Aspach-le-Haut and Aspach-le-Bas by the French troops.

In the east, according to the Russian headquarters announcement relative calm prevailed on December 1 on all fronts, but about midnight the Germans made a determined but

unsuccessful attack on the Russian positions north of Lodz.

Belgrade has been occupied by the Austrians after its evacuation by the Serbian troops and indications are that the Serbian army is being hard pressed.

Italy awaits with some anxiety the reopening of the Italian parliament, at which Premier Schandara will outline the government's attitude in the war and its reasons have evacuated the policy of maintaining "armed and watchful neutrality."

King George and President Poincare have visited the British lines where they received an ovation from the troops.

Gen. Christian de Wet, the famous Boer leader in the South African war, who turned rebel recently has been captured by the Union of South Africa forces, according to an official dispatch from Pretoria.

The possibility of a German invasion of England has been revived by a warning issued by the Earl of Warwick, Lord Lieutenant of Essex, who admonishes the people in such event not to take part in the fighting as civilians as such action would only result in reprisals and possibly in a repetition of the horrors that have taken place in Belgium.

Emperor Francis Joseph, of Austria again is reported by London newspapers to be in feeble health.

COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS COVER TERRITORY FOR HERALD

WEST SIDE ITEMS

The convict camp has been moved over to Fort Reed. While they were on this side of town they made quite a little improvement on the road from the bridge below the Rabun place out to the Wilson place.

Mr. and Mrs. Alfred King and little George Edward spent the day with Mr. and Mrs. James Smith Sunday.

Mr. and Mrs. Rabun drove into town Sunday afternoon to the Eastern Star memorial service and report a grand good time.

Harry and Charley Rabun went with Mr. Bell to drive a team up there over to Fort Reed.

Mrs. King spent Wednesday in town, the guest of Mrs. Evy Woodcock.

Mr. C. M. McBride has charge of the school bus for his uncle to have a rest, as Mr. McBride has not been feeling well for some time.

Misses Ada and Avis Stenstrom returned home Monday night from a visit to their aunt and uncle at Wauchula, Fla.

Mr. and Mrs. Camp left Monday for Tampa, for Mr. Camp's health.

Mrs. R. F. Washburn spent Saturday night with Mrs. McBride.

Mr. Schmeltz says there will be a dance at Woodland Park in about two weeks in the dancing pavilion. Tickets will be out for sale and date will be announced later. That will be the first dance in the new hall.

PAOLA POINTS

Mr. and Mrs. Buchanan took their Thanksgiving dinner to Twin Lakes Plantation and shared it with Miss Taber and Mr. Kearns. After dinner Dr. and Mrs. C. E. Walker and Miss Flora Walker, Mrs. J. C. Essminger, Miss Carrie Essminger, Mr. and Mrs. Harry Kent and Mr. Nichols joined the party and all spent a pleasant afternoon together.

Jack and Lillian Booth dined with the Pearson family on Thanksgiving Day.

Mr. and Mrs. Bridge delightfully entertained a congenial party of friends Thanksgiving Day evening. Their house was tastefully decorated with autumn leaves, making a beautiful and appropriate effect. A delicious lunch was served at 6 p. m. and until 9 o'clock progressive five hundred was indulged in.

Francis Pearson winning the highest number of points. After 9 dancing was enjoyed for an hour or two. Those enjoying this happy evening were Mr. and Mrs. Bridge, Mr. and Mrs. Cleveland, Mr. Brown, Jack and Lillian Booth, Clark, Oscar, Francis and Flora Pearson and Ross Kroger.

Miss Lee-hour has been confined to her home with a cold ever since her arrival.

Jack Thompson is again working for Mr. McGulnn and has moved his family into the Smith cottage.

The largest congregation of the season so far assembled at the church on Sunday, but the domini disappointed them again. The threatening weather probably kept him from filling his engagement.

Mr. and Mrs. Zachary motored to Orlando on Monday, taking the girls back to school after their Thanksgiving vacation. Mrs. Bridge accompanied them.

Mrs. Bona is spending a few days with her sister-in-law, Mrs. Herrod at Apopka this week.

We are having a season of regular summer weather since the freeze. Warm sunny days, warm moonlight nights, with now and then a shower, temperature ranging from 65 degrees in the morning to 80 degrees at noon, very different from the cold and windy days two weeks ago.

MOORE'S STATION

It is expected that Mr. Mickey of Mellowville avenue will preach Sunday p. m.

Everybody come to the pie social at the Moore's station church Friday evening, Dec. 11th, proceeds will be used to make up money enough to finish the interior of the church in time for the Christmas entertainment. There will be coffee served. All the girls, married and single come and bring a pie, and all the boys, married and single come and eat the pies.

A daughter was born Thanksgiving to Mr. and Mrs. L. M. Lucan and has been given the name of Mary.

T. J. Hill went to Palm Beach on a business trip last Saturday. Joe Cameron was a delightful host to a party of ladies Tuesday on an auto trip to Oviedo. On the return journey they went to White's

Landing, now called Clifton Springs, on Lake Jessup and Mr. Cameron cooked delicious beef steak and coffee over a camp fire and served it with other good things on a palm leaf table cloth picnic fashion and how good it tasted. Those in the party were Mrs. Cameron, Miss Elenor, Mrs. W. P. Field and daughter Louise of Sanford Heights and Mrs. J. C. Ellsworth Jr. of Cameron avenue.

Mr. and Mrs. J. W. McBride were guests at the Joe Cameron home Sunday.

Eddie Morris visited his brother, C. C., recently. Mr. Morris is foreman of a paint gang for the East Coast Railway.

Terry Malone arrived here last week from Paducah, Ky., and will farm Capt. Joe Randall's place near Cameron City again this winter.

Mr. Chorpington has added a cow to his possessions, having purchased one of Mrs. Margaret Barnes' fine Jerseys.

Mr. and Mrs. A. Donner of Celery avenue have the sympathy of the community in the death of their infant daughter from travel trouble.

LAKE MARY

Miss Jennie Morey and Melvin Martin made a business trip to Sanford Tuesday.

Miss Alice Felleit has returned to her home in New Smyrna after visiting relatives here for several months.

Melvin Morrison has gone on an extended visit to Tampa.

Miss McLain spent Thanksgiving at her home in Geneva, accompanied by Rema Boston, one of her small pupils.

Rev. H. M. Morey, D. D., and his daughter, Miss Jennie L. Morey, have arrived here for the winter coming from Ypsilanti, Mich., to assume the duties of pastor of the Presbyterian church here. He is a very interesting preacher, his sermons are good and his talks on Sunday nights are fine. Beginning December he will give some very interesting talks on the Bible and will illustrate same on blackboard. There will be preaching services every Sunday here at 11:00 o'clock, and on Sunday school in connection and everybody is invited to come.

Tax on Insurance

The Federal Tax of one per cent on stock life insurance premiums, enacted by the Federal Government to take effect December 1, 1914, requires these tax stamps to be affixed to all life insurance policies to make such policies or contracts of insurance a valid instrument. The ruling of the Board of Insurance Commissioners of the state of Florida is that the companies issuing these policies should pay this tax.

Under the provisions of Section 29, Acts of 1913, Laws of Florida, agents of insurance companies in this state are forbidden paying this tax. The payment of this tax by insurance agents would constitute a rebate, forbidden by this section of law above referred to and would subject them to the penalties provided by said law.

J. C. CLUNING, State Treasurer, Tallahassee, Fla., Nov. 25, 1914.

CASH DEPARTMENT STORE—SANFORD, FLORIDA—MONDAY, DECEMBER 7th

CO-OPERATION OF GROWERS

SHOULD FOLLOW THE TACTICS OF CALIFORNIA IN DIVERTING STUFF TO MANY MARKETS

FROM GAINESVILLE, FLA.

Recently there was a statement in these columns to the effect that what was needed in this section was intelligent farmers. This is the prime necessity in any community, but there is a correlative need which is equally as great, and that is adequate outlets for the produce which these intelligent farmers grow. Today this is the crying need of Florida. There is no trouble to grow things in this state and produce them in abundance, but to be able to successfully market the stuff after it is grown is quite another thing. All over the state there are deserted farms which stand as sad monuments to that fact.

There is no doubt but that if it were properly handled and distributed many times as much produce as is grown in Florida each year could be absorbed by the Northern markets and at paying prices. This to be accomplished the producers must do two things.

First, they must band themselves together and stay by each other through thick and thin. They must devise some method of marketing their stuff and follow that line of operation until it becomes a habit.

A second thing to be learned from California. Some twenty years ago matters stood there as they do here now. Freight rates were exorbitant. It cost \$100.00 for freight to lay a car load of fruit down in Chicago, and then the fruit and other expenses were correspondingly high. Then every man was a law unto himself and supported what he wanted to grow. The result was that all the producers were going broke.

After a few years of this sort of thing the people of the section began to look upon it with a different eye. They saw that their resources were being exhausted and that their only chance of survival was in co-operation. The result was the Florida Fruit Growers Association and the other was the Fruit Growers Exchange. It is of the latter that mention will be made here.

Inside of a few months instead of a desultory car going over the mountains row and then the fruit was moving to their head. The result was the cutting of freight by two of the freight rate, and each grower was earning \$100.00. Then they established their own teaming plant and the line and that part of the business opens.

That same day the growers are written for such reports and side of four more days. The available in the market.

Another element in this business is the fact that the market is open to all. A glutted market must be avoided, and this can readily be accomplished by having an agent at some distant point. This is the plan already in operation at the point in the north. The price of the fruit is high and the growers are getting rich. This is the result of the co-operation of the growers.

HULL HOUSE

The following interesting letter received from Miss Margaret Wight, who is training for a kindergarten teacher at the Pestlozi Froebel Training School at Chicago will be read with pleasure by her many Sanford friends. Miss Wight considers herself fortunate in having been assigned to work at Hull House.

Hull House, one of the first American settlements was established in 1889. The primal idea of the settlement is that a group of college men and women should live in the poorer quarters for the sake of inducing the people there toward better local government, and a wider social and intellectual life. Although no university qualifications have ever been made in regard to the graduates of Hull House, the majority have always been college people. The applicants for residence who promise to be of value to the settlement are given there at least two years before they are allowed to leave. They are received for six weeks at first, and at the end of that time are voted upon in residents' meeting. There are now fifty men and women who are engaged in self-sustaining work, and who give all their leisure time to the settlement, and their energies are given more to actual helpfulness than to social research. Nine thousand people come to Hull House each week during the winter months. This attendance varies from year to year only about 10 percent. It is available to all who are willing to be admitted. Therefore it is necessary for other buildings to be continually added. The last one, the "Boys' Club Building" was formally opened in January, 1907, but this leaves all the other buildings open.

The building which had been organized and located in small quarters for the purpose of serving the needs of the community, is now a large and commodious building. The settlement is a place where the people of the north and south meet. The settlement is a place where the people of the north and south meet. The settlement is a place where the people of the north and south meet.

The settlement is a place where the people of the north and south meet. The settlement is a place where the people of the north and south meet. The settlement is a place where the people of the north and south meet. The settlement is a place where the people of the north and south meet.

Diversified Plantings Are Safe Plantings

Need to diversify the planting in each bearing year, and fruit growing in general. The effect of the new crop policy is to give the grower a permanent income, and to give the general public the benefit of the crop. The effect of the new crop policy is to give the grower a permanent income, and to give the general public the benefit of the crop.

Figs and Assorted Fruits Incur Permanent Profitable Investments

Roses, Shade Trees and Shrubs Make the Home More Attractive

Griffing's Macclenny Trees are Tested, Tried and True

Large Soft Shell Pecans, Still as Bacon or Beef

Griffing's 1915 Tree Book with Griffing's Service Bulletins

Oranges and Grapefruit Trees Grown in Northern Florida.

The trees are selected from the best orchards in the world, and are guaranteed to give you a permanent income. The trees are tested, tried and true, and are guaranteed to give you a permanent income. The trees are tested, tried and true, and are guaranteed to give you a permanent income.

PUBLIC HEALTH TODAY'S PROBLEM

PROMINENT WORKERS DISCUSS QUESTIONS AT JACKSONVILLE

Jacksonville, Fla., Dec. 3. The public health association held a session at the National Hotel today. The session was presided over by Dr. Harvey W. Wiley, president of the former association, supported by facts and figures, that today's public health problem is the most serious public health problem of today.

Dr. Wiley cited figures from an investigation made in Washington, D. C., that in 1912, which was the year of the influenza epidemic, 100,000 deaths were reported in the United States. This is the result of improved methods of medical diagnosis and death certification.

The burden of proof that cancer is not on the increase rests with those who make the assertion that the incidence of the disease is decreasing. The death rate is exclusively the result of improved methods of diagnosis and death certification. The reduction in the number of deaths is the result of improved methods of diagnosis and death certification.

Frederick L. Hoffman, statistician of an insurance company, in an address before the American Public Health Association here today. The subject of his address was "The Accuracy of American Cancer Mortality Statistics." Mr. Hoffman said that the truly enormous recorded increase in the cancer death rate during the last twenty-five years, compared with the previous quarter-century, absolutely preclude the possibility of the cancer death rate decreasing.

The result of improved methods of medical diagnosis and death certification.

The burden of proof that cancer is not on the increase rests with those who make the assertion that the incidence of the disease is decreasing. The death rate is exclusively the result of improved methods of diagnosis and death certification. The reduction in the number of deaths is the result of improved methods of diagnosis and death certification.

Thou Shalt Not Kick

Selected Fla. Dec. 4, 1914

The time has come when it is kick or die, as a county and city from a disease called High Taxes. We have one of the most prominent towns in the United States, and have tried hard to get it out of the path, but by the actions of our late assessor and if sanctioned by the people, by committing to such a unfair assessment. The man who has been kicking for will pass on to the county and make his investment where there is some room for profit.

We are already being spoken of as "The Kick of Florida." It is a shame to have a town in the United States which is a laughing stock to the rest of the world. We are already being spoken of as "The Kick of Florida." It is a shame to have a town in the United States which is a laughing stock to the rest of the world.

LEADING business man of New York, to whom a friend of mine sent a copy of the Buckeye Nurseries catalog, referred to it in his letter of acknowledgment as "The citrus fruit test-book." This is exactly what we sought to make the catalog and we are glad to have it so regarded by its readers.

None of the citrus industry has been neglected in the Buckeye Nurseries catalog. From the selection of location for a grove to the marketing of the crop, everything is fully treated. There are no theories set forth—all the advice the book gives is based on experience in fruit growing.

A Guide to Citrus Fruit Culture

The Buckeye Nurseries Catalog

Buckeye Nurseries grow superior trees—this has been their successful accomplishment for more thirty years. Our interest in the trees does not end with the sale to the grove owner, however. We want them to thrive and bear profitable crops—and purchasers of Buckeye trees are given every possible assistance to this end.

The Book Typifies Buckeye Service

Buckeye Service to planters of Buckeye trees has become almost as well known as the quality of the trees themselves. Our complete and helpful catalog has been for years a most important factor of this service. The new edition is by far the most attractive and comprehensive catalog we have published. Send today for free copy if you grow citrus fruits.

ELKS MEMORIAL MOST IMPRESSIVE

LODGE OF SORROW WAS A BEAUTIFUL CEREMONY ON SUNDAY

The Lodge of Sorrow held by Sanford Lodge No. 1241 B. P. O. E. last Sunday afternoon in the Imperial Theatre was one of the most beautiful and impressive ceremonies that has ever been granted to a Sanford audience to witness.

The stage was tastefully decorated in the purple and white of the Elks, the entire top of the stage being enclosed by alternate stripes of the purple and white being brought in a rosette. The effect made the stage seem like a room made especially for the services and the front of the stage was a bower of ferns, palms and potted plants. In the very center of the front stage the large natural elk head of the order rested. The electrical effects were very fine, the one especially impressive being the names of the absent brothers in letters on separate glass boxes and as the secretary called the names they were flashed upon the glass and remained lighted during the ceremonies.

Promptly at 3:30 the lodge with about one hundred members present filed into the church, followed by the officers and took their seats. Upon the stage were Exalted Ruler R. L. Peck, Chaplain Rev. A. S. Peck, Hon. Forrest Lake, Hon. Geo. DeCottes and Hon. R. M. Wallace.

After the sign of sorrow had been given by the lodge and all had been seated the Rollins College rendered "Still, Still with Thee," which with their other selections and the solo by Prof. H. T. Pope demonstrated that music is not neglected at Rollins College and the quartette showed the careful training of Prof. Pope. This music was one of the features of the exercises and was greatly enjoyed.

The ritualistic work participated in by the officers as they were called up by Exalted Ruler R. L. Peck and the roll call of the absent brothers by Secretary W. D. Taylor were most impressive and aided by the electrical effects assisted in this beautiful custom of the Elks lodge. The absent brothers are W. D. Holden, B. F. Higgins, W. M. Wadley, R. H. Mars, J. C. Higgins, W. H. Underwood and George H. Fernald.

Thematopsis recited by Miss Gladys Morris was a rare treat and with perfect composure this young lady gave this beautiful poem that never grows old among the Elks and gave it exceedingly well.

Mrs. George Hoy, a favorite among Sanford soloists rendered two soprano solos, "The Singing in God's Acre" and "Resignation" with her usual excellent voice and delighted her many admirers and the audience in general.

The oration of Hon. R. M. Wallace was a masterpiece in phraseology and for thirty minutes he gave the history of the country and compared past and future generations in their relations to fraternal brotherhood, paying high tribute to the great men of this country.

Sandwiched between two orations came a beautiful tenor solo by Prof. Pope, the meat that gave a better appetite to the bread of thought, the eulogies of the absent brothers by Hon. Geo. DeCottes following. Sanford always expects something good from her young orator and his

audience is never disappointed for his beautiful tributes last Sunday, to the absent brothers have never been equalled at home or abroad. Mr. DeCottes won new laurels while placing the wreaths upon the headstones of memories of the departed and his eulogistic oration was a gem of a master mind. With the entire assemblage singing "Blest be the Tie that Binds" followed by the benediction the Elks filed out, followed by the audience, all of them with the feeling that they had a deeper insight into the sacred benevolence of the Elks, the lodge that never forgives a brother, living or dead and another memorial day of the B. P. O. E. passed into history.

EAST COAST CANAL CAUSING COMMENT

SEVERAL MEETINGS WILL BE HELD BY VARIOUS PARTISANS

Sanford and Palatka and other cities along the St. Johns river, as well as the inland cities in this section must be up and doing in the matter of having the government adopt the St. Johns river as the upper end of the interoceanic canal. The cities of the East Coast are bending all their efforts to have the government take over the East Coast canal because they have discovered that individual ownership is unable to pay the enormous expense attached to keeping the upper end of the East Coast canal open to navigation. The St. Johns river is the legitimate upper end of the canal and has been decided upon by the engineers and will undoubtedly be chosen by the government for a number of good and sufficient reasons, chief among them being the great saving in dollars. The following from the New Orleans News shows that the folks over there favor the East Coast proposition because they think it will benefit their cities and are not looking at the proposition from an economic standpoint.

At the Stuart convention of the East Coast Canal Association there were numerous heated arguments over whether the East Coast canal, if taken over by the government, shall follow the same course as the present canal, straight along the coast, or that it follow the St. Johns river and come to the Gulf of Mexico at Palatka. Representatives from Sanford and other towns along the St. Johns river insisted that this route be adopted. Delegates from Daytona, New Smyrna and St. Augustine were emphatic in their advocacy of the present route.

The government's engineers it is understood, favor the St. Johns route because it would take about two million dollars less money to deepen it to ten or twelve feet. It has been suggested that if the several counties through which the present route runs would put up half the money for the extra cost, the government would yield to the wishes of the people and give the other million. Should an agreement of this nature be reached the eight counties affected would have to raise \$125,000 each; but it is stated that the saving in freight rates would more than reimburse them.

The St. Johns route is about 75 miles longer than the other, and it is estimated that twenty-five per cent more time would be required for boats to make the trip this way from Miami to Jacksonville.

Christmas Bazaar

The Junior League of the Methodist church will hold a Christmas bazaar at the home of their superintendent, Mrs. L. R. Phillips, 717 Park avenue on Friday afternoon, December 11th, beginning at three o'clock. Fancy articles, candy, cakes, etc., for sale. Everybody invited to come and help the children in their good work.

SEMINOLE FAIR MAKES PROGRESS

COMMITTEES ARE HARD AT WORK ON ARRANGEMENTS

Seminole County Fair will be the next great attraction for the people of this part of Florida and promises to eclipse everything ever before attempted here. The first fair in the baby county will start as a street fair, the booths being on the street and the agricultural and industrial displays being in vacant buildings near the center of the city if possible or temporary buildings or tents. The executive committee met last Friday and outlined the campaign of interesting every man, woman and child in the county in the fair. Henry Marks, the veteran in the attraction line will be here in a few days to take charge of this part of the fair and as a nucleus will bring two aeroplanes. His factories are at work on the special fireworks and the feature part of the fair will be a big drawing card. The Seminole County Fair will be held on Feb. 3, 4, 5, 6, and the displays of fruits and vegetables, fancy work, school exhibits, etc., will then be taken to the Sub-Tropical Fair at Orlando, where Seminole expects to carry off the prize.

Arrival of the Stork

Mr. and Mrs. Douglass Ellerbe are rejoicing in the arrival of a fine boy at their home on French avenue. The Orlando Sentinel has the following regarding the momentous occasion: The Stork Special visited Sanford yesterday afternoon and left a bright baby boy at the home of Mr. and Mrs. Douglass R. Ellerbe. Mrs. Ellerbe was formerly Miss Glenn Cheney, daughter of Judge and Mrs. J. M. Cheney of Orlando. She was born and raised in this city and has a host of friends who will extend happiest congratulations. The infant son has happy grandparents and two happy uncles. The little boy was properly named John Cheney Ellerbe, in honor of his grandfather.

SPECIAL CHRISTMAS EDITION OF HERALD

Merchants and consumers for space in our special Christmas edition, for the merchants of Sanford recognize the value of these Christmas editions. This is not a fly by night outside soliciting affair but simply a Christmas edition of the Sanford Herald compiled especially for the merchants of Seminole county to enable them to demonstrate that they have the holiday stocks and are anxious to serve the public. Hon. Geo. DeCottes and Hon. R. M. Wallace are the only solicitors for the edition and not one cent of the money will go out of Sanford, as we do not stand for foreign advertisers taking money out of the city. The Herald has advocated trading at home and we stand by this axiom and our greatest asset in soliciting advertising is that we get results for the advertisers and the money spent at the Sanford Herald is money spent at home. The Christmas edition will be enclosed in a highly embellished cover and will be well printed and filled with good reading matter descriptive of the county and city and the holiday season. It will be issued on December 15th in ample time for the merchants to achieve results. Get your copy in early and take plenty of space. The prices are reasonable.

RED CROSS CHRISTMAS SEALS

Attention is called to the Red Cross Christmas seals that are now on sale at the drug store of R. C. Bowers, who has kindly offered the use of his store as headquarters for their sale and distribution. The seals are put on sale by the health committee of the Welfare Department, Woman's Club, in the interest of the tuberculosis campaign that is being waged throughout our broad land. As it is now the custom to stamp Christmas letters and packages with Christmas stamps and seals of all kinds, we urge upon the people of Sanford a general use of the Red Cross seals, for they represent the cause of humanity and each seal sold is a nail driven in behalf of

ANOTHER BRIDGE ON THE ST. JOHNS

GOVERNMENT OFFICIALS AND CITIZENS COUNTY MET YESTERDAY

The government boat, J. J. Meyler with Major Ladue and crew aboard was here yesterday on the way to Lake Harney, where they held a meeting with the people of the Geneva section, regarding the new bridge across the St. Johns river connecting the Orlando-Indian river route. A party of Sanford business men representing the Sanford Commercial Club were present at the meeting to confer with the government officials regarding the St. Johns river improvements and the possibilities of the St. Johns river as the upper end of the Inland Waterways through Florida. This great river, already opened to navigation as far as Lake Harney has already been greatly improved and is found to be recognized as the feasible route for the inland canal via Salt Creek at Titusville.

The party going over from Sanford were Mr. E. T. Woodruff and son, Charles, C. R. Walker, A. P. Connelly and W. M. Haynes, all representing the Sanford Commercial Club. The meeting was held in the parking house on the Lake Harney dock and was attended by representatives from Geneva, Orlando, Titusville and Titusville. Major Ladue presided at the meeting and little opposition was found to the project. It is thought that the bridge as proposed will meet with the requirements of the War Department although Major Ladue has not as yet made his report.

After the meeting the ladies invited the guests to partake of a dinner such as the Geneva people alone know how to prepare and serve and while many present declared that they had little or nothing to say at the meeting it was noted that every one did his part when seated at the table. The meeting as a whole was a grand success and the road from Titusville to Sanford will soon be under construction.

WORK ON BULKHEAD RAPIDLY PROGRESSING

The bulkhead of the lake front going forward in rapid progress and will soon be finished as far as the concrete bulkhead is to be made. The work of filling in will then commence and the contractors expect to finish this work in record time. All the latest improved machinery has been installed. On account of the nature of the sand at the lake front the work was retarded by assisting the manufacture of special cutterheads and other machines for digging up the hard pan, but the dredge is all ready for this work and about January 10th will begin operations. The Clyde Lane has signified their willingness to meet the great improvements halfway and will build new buildings and docks in keeping with the progressive city of Sanford and in the next twelve months the lake front at Sanford will present a most handsome appearance. The Elks have recently purchased two lots on the lake front and will erect a handsome home in the summer and several other parties have bought residence sites and express themselves as being anxious to reside on the improved lake front. This work of reclaiming the lake front will make a new Sanford.

Child Fatally Burned

While playing before an open fire that was burning the trash in the yard last Friday Leonora Weth, aged five years had her clothing catch fire and before the flames could be extinguished the child had suffered burns that proved fatal. The accident occurred at the home of her parents on Oak avenue. The funeral was held from the late residence of the child last Saturday, interment being made in the Catholic cemetery.

Commercial Club and smoker next Friday night at the City Hall. The only meeting in December and many matters of importance will come before the meeting.

SEPARATE HOMES FOR T.-B. PATIENTS

FLORIDA HOSPITAL FOR THE INSANE WILL BE DIVIDED

Tallahassee, Dec. 8.—The Board of Commissioners of State Institutions, which consists of Governor Park Trammell and the six Cabinet officers have this week made the arrangements for the erection of the Florida Hospital for the Insane of a building specially adapted for housing and treating patients of the Hospital who are afflicted with tuberculosis. The Board has ordered the erection of such building without delay and when completed it will be used exclusively for white tubercular patients of both sexes at the Hospital.

For a year or two past the members of the Board have been considering ways and means of having a separate building for the use of patients having tuberculosis, the building to be specially arranged for furnishing the most improved modern methods of treating this class of unfortunate. The Board was forced to proceed slowly because of the necessity of keeping within the appropriation made by the legislature for the maintenance of the Hospital. In the meantime, however, a great deal of information was secured as to the best type of building to be erected and as to the methods of construction and use of the buildings employed in other states where the treatment of tubercular patients is carried on along advanced scientific lines.

Much of the information secured has shown the Board it can have erected a thoroughly modern tubercular building with a very considerable saving in the cost and the Board has quite recently found that the management of the Hospital has been conducted with such prudence in expenditures that sufficient money will be available in the immediate future for the erection of this special building for consumptives. Having such a special building at the institution will not only prove a great blessing to those patients suffering from tuberculosis and add greatly to their comfort and chances of recovering but the more thorough segregation which it will make possible will also prove a very great protection to all the other patients at the Hospital as well as to the officers and attendants there employed.

Not A Fair Game

The manager of the Sanford High School's foot ball team arranged a game with the manager of the Orlando school team for Friday, Dec. 4th, the conditions being that only bona fide school boys were to be used, but when the Sanford boys arrived on the field it was found that outside men had been put in on the Orlando team. One man was the manager of a theatre in Orlando and another a Rollins College player.

The principal of the Sanford school asked the principal of the Orlando team to certify to the eligibility of his boys, but he did not know them all, as some were supposed to be in the Grammar School. After the game, however, the referee of the game informed the principal of the Sanford schools that there were two men on the Orlando team who did not go to the Orlando schools. For this reason the Sanford boys do not feel disposed to count this as a defeat. One touch down was made by a Rollins College boy before he was out of the game.

KITTY'S ARRIVAL PROVED SUCCESS

KAPPA FRAT, OF STETSON, ENTERTAINS LARGE AUDIENCE

The arrival of Kitty, awaited with some delay and much anticipation exceeded all expectations and proved to be a decided hit. Kitty upon arrival proved to be a most humorous farce abounding in funny complications. Sanford people are always willing to assist Stetson or DeLand in any enterprise and the large crowd present at the Imperial on Friday night attested to this friendly and successful performance.

There were no special stars in the play for each and every one played their part well.

Ike Tribble, as Sam the porter, furnished many a smile with his antics and speeches. Carl Farris, as Ting the bell boy and erstwhile landlord of the hotel, upheld his position with the dignity and bearing that it demanded. William Winkler, the hypocrite uncle, was ably portrayed by Stanley Wallbank, while her niece Jane, Miss Inez Barron, contributed her share of the many complexities that arose throughout the play. Gordon Haynes played a dual role, as the suitor, which he did to perfection, but shone as the false "Kitty" and the mash of Benjamin Moore, the rightful suitor to Jane's hand. Uncle Dan Blocker played the part of Benjamin Moore to the liking of every one except Uncle William and the correct Kitty, Miss Marie Russell Stephens. Of course everything smoothed itself out in the last act when all of the ladies in the cast were married off, Jane to Bobbie, Aunt Jane to Benjamin Moore and Kitty to Uncle William. Miss Helen Bates, who has the regular part of Aunt Jane was taken ill at the last moment and her part was taken by Mr. Skinner, who made an admirable old maid. The Sanford people were especially interested in D. J. Blocker, as he formerly resided here as pastor of the Baptist Church and came up to their expectations as Benjamin Moore.

The play is given under the auspices of the Phi Kappa Fraternity of Stetson University and will be presented at many points in Florida during the month. We bespeak for them a large audience and a satisfactory audience wherever they play, for Kitty is all to the good and well worth double the price of admission.

Funeral of M. C. Savage

The funeral of Mr. Martin C. Savage, whose death occurred in Jacksonville took place Friday afternoon from Miller's chapel at three o'clock, interment in Lakeview cemetery. Mr. Savage, who was a member of Solomon Lodge, F. A. M. at Jacksonville, one of the oldest in the state was laid to rest by Sanford Lodge 62 with all the honors and ceremonial rites of the order. A large number of the friends were present to assist in the beautiful and impressive ceremony which took place at the grave and to pay their last tribute of respect and love to their departed brother. An unusually large gathering of friends also attended the funeral. The grave was covered with the many floral tributes, testifying to the esteem and affection in which the deceased was held. A beautiful floral emblem, the square and compass was sent by Solomon Lodge. The Order of Railway Conductors, of which Mr. Savage was a charter member, only twenty of whom were living at the time of his death, sent a handsome floral pillow. An exquisite casket bouquet of American Beauty roses was the gift of his fellow co-workers in the S. A. L., where he was affiliated with the clerical force, and the Ladies' Auxiliary of the O. R. C.'s sent a lovely token of sympathy in pink carnations. There were many other floral offerings sent by personal friends and members of the family.

Mr. Savage will be greatly missed from the circle of friends where he was so well beloved for his sterling manly attributes and genial nature that made him always a popular favorite. A devoted husband, a faithful father and loyal friend, his death came as a great shock to his family, to whom the sympathy of the community is extended in this their hour of grief.
